Judicial Department

Fort Saint George, 17th November 1890

N. — Under the provisions of Section 1, Madras Act II of 1866. "An Act for the prevention of the spread of disease among cattle," the Right Honorable the Governor in Council directs that the aforesaid Act shall be in force in the hamlet of Kulgunda of Kukke Village, Subramania Magane in Uppinayadi Taluk of South Canara, from the 22nd November to 20th December 1890.

Gazette 18/11

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture).

Dated 6th November 1890.

No. 4493 Rio

Mr. Clouston.

READ the following letter from the Collector of South Canara, dated 28th October 1890 No. 4059:-

I have the honor to report, for the information of the Board of Revenue, that the annual cattle fair at Subramania is expected to begin this year about the 22nd of next month (November) and to last for about 25 days, or till the Shasti festival is over, and to enquire whether I may, as on former occasions, utilize the services of the Stock Inspector B. K. Santaga in connection with arrangements to be made for the introduction of the Cattle Disease Act at the place during the time of the Fair.

2. The Stock Inspector has received notice of the abolition of his post, but his services have not been actually released with a view to...

1/8013 of 190.

1/10792

3. Unless the services of an expert for the post of Hospital Pound-keeper to be appointed under the Act are available, it will be impossible to work the Act properly, and also very inadvisable to attempt it. As the stock Inspector, however, continues at his post for the present, and I presume it will not be done away with for some time, I submit herewith the usual draft notification and request that Government may be moved to enforce the Act, as therein proposed.

Resolution.

Submitted to Government with the Board's recommendation that the Cattle disease prevention Act be put in force during the Subramania fair to be held between the 22nd November and 20th December 1890.

2. Stock Inspector, Santaya, now working in the district, is one of the six men who have been selected for retention in connection with the working of the farm schools, which

in certain districts. His services will be placed at the disposal of the collector for working the Act.
