To

The Chief Secretary to Government

SIR,

Enclosure

2

I have the honor to forward a plan of the block of buildings known by the name of Cox Paracheri and situated in Chintadripet 7th Division, which, by reason of the manner in which such buildings are crowded together, and of the want of ventilation and drainage, and the ^{im}practicability of cleansing, I consider to be attended with the risk of disease to the occupiers thereof and to the inhabitants of the neighbourhood. Notices under Section 323 of Act I of 1884 in accordance with the form herein enclosed were served on the several owners and occupiers of the buildings and of the lands on which such buildings are erected, requiring them, by the 16th July 1895, to widen and metal or pave the existing streets and lanes, to open up and metal or pave new streets as shewn in the plan, to construct in the said streets drains of sufficient dimensions and suitable levels, to fill up all ditches and low grounds and to provide dust bins for each street. Such notices not having been complied with up to date, I have the honor to request that His Excellency the Governor in Council will be pleased to sanction, under the Section above quoted, the execution of the necessary works in accordance with the

above

above plan, or such action being taken in respect of such buildings, and the removal of such buildings as are necessary, at the expense of the parties concerned.

Note. This is one of the "plague spots"
of the City, & action is without doubt
necessary. Sec. 424 provides how
to make the owners & occupiers pay
for the improvements but most of the
occupiers here are probably poorish -
see fig & the number of mud-walled houses.
