Sanitary Board Office

Proceedings of the Sanitary Board No. 2352

Dated 20 August 1895

Present.

Surgeon-Lieut-Col. W. G. King, M.B., C.M., D.P.H.,

Sanitary Commissioner for Madras

J. A. Jones, Esq., Mew. Inst. C.E., F.R.S.E., Sanitary

Engineer to Government.

Read L.O., dated 20 March 1895 No. 502
M. Mis., Local and Municipal.

Read also Assistant Sanitary Engineer's
report forwarding plans and estimates in
accordance with the proposals of the Sanitary
Commissioner.

Resolved that these be forwarded
to Government for approval and that the
Council of Madras be desired to provide
funds for carrying them out.

2 The water from the drainage mullah
at which the proposed intercepting
channel

channel begins should be diverted into
the intercepting channel. The punjak land
between the intercepting drain and the
river should be acquired. It is about
3 acres in extent and its cost would not
be more than Rs 200. which amount is
included in the estimate.

H. A. Minchin Esq. B. Esq.

Asst. Sanitary Engineer,

Southern Circle

To

The Sanitary Engineer to Govt.

Madras

Sir,

"Madura Water Works"

In reference to your No. $\frac{781}{253-95}$, I have

the honor to submit an estimate amounting

to Rs 1510 for altering configuration of the

north bank of the river Vigai near the

Filter Bed by providing intercepting

drain to prevent surface drainage of

the village of Iatheneri from entering the Vigai

above the Filter Bed, for sanction.

The proposed work consists of:-

(1) Cutting an intercepting drain from a

nullah a little north of the village of

Iatheneri by the side of the fair weather

village

lage road to Kadura to a point well below the village. This drain empties itself into the Tellur channel, which eventually ends in a large tank.

(2) It is also proposed to remove 4 houses near the bank which would be a possible source of contamination.

(3) Clean & remove rubbish deposits and level off the ground by the head of the channel.

It will be necessary to keep a watch-man on this bank to prevent the villagers using the river bed as a latrine or for washing purposes above the Filter warning on this subject has been of no avail.

As the proposed drain passes the puttah land, compensation will have to be paid also for the destruction of the 4 huts above mentioned.

I have included the cost of two small culverts to take the Tamayanallur Kadura fair weather road across the

drain

drain and the Tellur channel.

Plans & sections accompany.

I have the honor to be,

Sir,

Yours most obt. servt.

W. A. Iniahiw C.E.
