Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at *6* per cent. and tax on lands at *6* per cent. of rent value. / ~~annas~~ *Pies 2* for every 80 square yards.
3. Water-tax on buildings and lands is levied at per cent.
4. Tax on vehicles and animals is levied at *full* the maximum rates.
5. Tax on carts, &c., is levied at Rs. *2* per cart per annum.
6. Tolls are levied at *half* the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. *dated 19th October 1891, No. 1787 M. Mis and G.O. dated 5th November 1894 No. 1633 M.*
8. The house-tax registers were last revised in the official year *1890/91* and the land tax registers in the official year. *1891-92*
9. Total extent of land assessed is *1307* acres. *75 cents.*
10. The mode of estimating the annual rental of houses and lands is as follows:—

A house worth Rs 1000 is supposed to fetch an annual rental of Rs 100 and on the latter a tax at 6 percent is levied. Wet lands are assessed at the following rates. 1 acre of land is supposed to fetch an annual rental of Putties 10 of paddy or Rs 10 at the rate of Rs 30/ per garce (30 Putties). Dry lands are assessed on the income derived by the owners as exhibited in their Muchilikas. Building sites are invariably assessed at the rate of annas 10 per acre or 2 pies per 80 Square yards.

A. Wells
Chairman M.C.

Chicacole

Municipal Office,

CHICACOLE.

No. 449

Dated, 6th June 1895

LOCAL ... CURRENT No. [illegible]

FROM

[illegible] Esquire

CHAIRMAN,

MUNICIPAL COUNCIL, CHICACOLE.

TO

THE Chief Secretary

to the Government, Fort St. George,

Madras.

on. 27.5.95

Sir,

In continuation of this office letter No. 351 dated 4th May 1895, I have the honor to forward herewith the Educational Returns of the Chicacole Municipality for 1894-95 received from the Assistant Inspector of Schools 1st Division, with the explanation for the variations between the office figures.

2nd. In column 9 of statement IIA against Upper Secondary Schools the Assistant Inspector of Schools did not include the Provincial grants received on account of Library and Science Apparatus amounting to Rs 149-4-6.

(3) In column 11 of the same statement, the total amount of the Upper Secondary and Lower

lower Secondary Departments of the High School was shown together instead of Rs 2546-9-3 and Rs 793-15-9 respectively.

(c) In Column 13 of the same statement only the Schools Fees (Rs 3348-9-6) were shown as total by the Assistant Inspector of Schools, whereas the totals of Provincial Grants, school fees and other receipts was shown in this office statements.

(d) In Column 10 of the same statement the Assistant Inspector of Schools has shown the total amount of Expenditure of Salaries of the Masters of the High Schools, whereas the total Amount was distributed between the two departments in this office return.

(e) In Column 17 of Statement II of the Assistant Inspector, the distribution of the Amounts under Contingencies of the Secondary Schools, High, Lower Secondary Departments of High School and the Lower Secondary incorrectly. The figures given under this heads from this office are Correct.

(f) In Column 17 of the same statement only the Contingent Charges of the Town School were shown in this office statement, whereas the repairs of the building and the Cost of printing the fee receipts &c were included in the Assistant Inspector's statement.

(g) In Column 9 of the same statement against the Schools of the Salary Result Expenditure, the Provincial Grant drawn on account of furniture supplied to these in 1893-94 was distributed among the various Schools, in this office return, whereas the same was omitted from the statement of the Assistant Inspector of Schools.

(h). Column 13 also differs from this office statement for the same reason stated in Para (f) supra.

(i) The figures in the footnote to statement II A have been Corrected with reference to the Assistant Inspector's statement No II.

(j) This office figures in Columns 4, 9 & 10 of statement II B were Corrected with reference to the Assistant Inspector's figures.

I regret to say that owing to the non-receipt of the Educational statements at the time of the submission of the Annual Statement from this office, the above discrepancies occurred.

I have the honor to be,
Sir
Your most obedient Servant

Chairman.

An Extract from the Proceedings of the Meeting of the Municipal Council Chicacole held on the morning of Saturday the 1st June 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From A. WELLS, Esq., Chairman, Municipal Council, Chicacole, to the Chief Secretary to Government (through the Principal Assistant Collector, Ganjám), dated Chicacole, 4th May 1895, No. 351.

I have the honour to submit herewith the annual report on the administration of the Chicacole Municipality for 1894–95 together with the prescribed statements, also the report of the medical officer on the working of the local municipal hospital as well as on the sanitation of the town. These were passed by the council at its meeting held on the 4th May 1895.

2. The accounts of the year have not been audited. Those of 1893–94 were audited in the month of June 1894 and the several suggestions made by the auditor have been carried out as far as possible.

3. The year under report opened with a balance of Rs. 2,206–4–8 which was the closing balance of 1893–94 and which was verified by the auditor. The receipts of the year under report were Rs. 22,711–10–5 which amount together with the opening balance amounted to Rs. 24,917–15–1, which are the total receipts of the year. The total charges of the year amounted to Rs. 21,950–9–1, leaving a balance of Rupees 2,967–6–0 which forms the opening balance of the current year.

4. The following amounts have been expunged both from receipts and charges as they were both credited and debited during the year :—

	Rs.	A.	P.
(1) Tolls contribution	2,991	5	2
(2) Refunds of tax on arts	666	8	0
(3) Do. of school-fees	44	0	6
(4) Do. of tax on buildings	1	7	0
(5) Do. of license fees	2	0	0
(6) Do. of high school contingency	7	8	0
(7) Refund of fines	1	0	0
(8) Remission of house-tax on account of vacancy	13	13	0
(9) Advance recovered	1	1	0

Item (1) is the moiety of tolls paid to the district board as contribution.

Item (2) is the amount refunded to parties on appeal. The amount is very high and is principally due to a very large number of parties assessed for grain-dealing having had their taxes remitted.

Item (3) is the amount refunded to free scholars of the several salary-result system schools whose fees were paid prior to their having free-scholarships sanctioned and also the amount refunded for a pupil of the high school under article 7 of the Fee notification.

Item (4) is the amount refunded to a house-owner on appeal.

Item (5) is the amount refunded on appeal and which was paid as license-fee for a fire-wood depôt, which really did not exist.

Item (6) is the amount refunded as excess payment on chemicals and library books purchased for the high school on the value-payable system.

Item (7) is the amount refunded by a result-system schoolmaster from the grant earned as he was fined for keeping his registers in an irregular and suspicious manner.

Item (8) is the amount refunded to house-owners under section 72 of the Act out of the full amount previously paid as house-tax.

Item (9) is the amount refunded by the gymnast as excess over travelling expenses on the sum advanced to him when returning from the Training College, Saidapet.

	Rs.	A.	P.
Revised estimate	2,100	0	0
Actuals	2,121	8	0
Increase ..	21	8	0

5. *Tax on Arts and Professions.*—The increase is due to more careful revision of the list of tax-payers under this head.

	Rs.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,641	4	6
Increase ..	41	4	6

6. *Tax on Buildings.*—The increase is due to several new houses having been assessed during the latter half of the year.

	Rs.	A.	P.
Revised estimate	570	0	0
Actuals	586	14	4
Increase ..	16	14	4

7. *Tax on Lands.*—The increase is principally due to arrears collected during the year under report and which were not taken into account when the revised estimate was prepared.

	Rs.	A.	P.
Revised estimate	170	0	0
Actuals	181	8	0
Increase ..	11	8	0

8. *Tax on Vehicles with springs and Palanquins.*—The increase is due to more careful revision and to some vehicles having been taxed for the first time in the second half-year.

9. *Tax on Animals.*—Owing to the difficulty experienced in previous years in collecting taxes under this head, it was thought that not more than Rs. 1,000 would be collected under this head; but as careful revision and scrutiny were adopted, the expected amount was increased by Rs. 334–8–0. A large amount is outstanding under this head for the second half of the year under report, but on account of a very large amount outstanding in 1893–94 having to be collected this year, it was found difficult to collect the whole of the demand for 1894–95.

	Rs.	A.	P.
Revised estimate	1,000	0	0
Actuals	1,334	8	0
Increase ..	334	8	0

10. *Tax on Carts.*—The increase is chiefly due to a very large number of carts having been detected evading taxes for several years and licensed this year and also to some carts having been constructed for carrying passengers to the railway station.

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	485	0	0
Increase ..	85	0	0

11. *Tolls.*—The increase is due to interest recovered. A sum of Rs. 31–14–7, being the moiety of expenditure on repairs to toll-sheds, &c., in 1893–94 and in the year under report already paid from municipal funds, was recovered and credited to the municipal share from tolls. A sum of Rs. 36–7–8 was also collected as interest for instalments not paid within

	Rs.	A.	P.
Revised estimate	3,010	0	0
Actuals	3,055	2	6
Increase ..	45	2	6

proper dates. Half of this amount was credited to the municipal share and the other half to the local funds share. The above adjustments brought the municipal share to Rs. 3,055–2–6 and the local fund share to Rs. 2,991–5–2. The increase over the revised estimate figure is also accounted for as above.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	15	5	9
Increase ..	5	5	9

12. *Avenue Receipts.*—The council, at the time that the revised estimate was prepared, thought that not more than Rs. 10 would be realised; but as some trees that were interfering with the building of the new school building were cut down, a larger amount was realised.

	Rs.	A.	P.
Revised estimate	..		
Actuals	1	0	0
Increase ..	1	0	0

13. *Fees from Travellers' Bungalows.*—A sum of one rupee was realised as fee from the chuttram that was repaired and enclosed by a compound wall and used as a travellers' bungalow.

14. *Sale-proceeds of Lands and Buildings.*—This amount was realised for a small piece of ground encroached upon by the late M.R.Ry. Yammada Venkata Narasinga Ráo Pantulu in the construction of his house and which was subsequently sold to him on receipt of sanction from Government in its G.O., dated 16th October 1894, Mis. No. 1484 M.

	Rs.	A.	P.
Revised estimate	..		
Actuals	25	0	0
Increase ..	25	0	0

15. *Produce of Lands, Gardens, &c.*—At the time of preparation of the revised estimate it was thought that Rs. 10 would be realised under this head, but as the compound of the late municipal garden was not cultivated, there has been a decrease.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	4	10	1
Decrease ..	5	5	11

16. *Sale-proceeds of old Materials, &c.*—Owing to insufficient competition at the auctions for the sale of unserviceable articles, the amount budgeted was not realised.

	R.	A.	P.
Revised estimate	40	0	0
Actuals	25	5	0
Decrease ..	14	11	0

17. *Sale-proceeds of Night-soil, Street Refuse, &c.*—As the District Medical and Sanitary Officer has not visited this town since G.O., dated 1st November 1894, Mis. No. 1593 M., was received, the selection of sites for rubbish depôts outside of municipal limits has not been carried out, and hence the income under this head is again low for the reasons quoted in former reports.

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	22	11	0
Decrease ..	7	5	0

18. *Fees from educational institutions.*—The increase is due to the admission of a large number of boys in the several schools.

	Rs.	A.	P.
Revised estimate	5,800	0	0
Actuals	6,381	8	10
Increase ..	581	8	10

19. *Other revenue for educational institutions.*—The decrease is due to insufficient competition at the sales of the work turned out by the carpentry class,

	Rs.	A.	P.
Revised estimate	80	0	0
Actuals	73	12	3
Decrease ..	6	3	9

	Rs.	A.	P.
Revised estimate	100	0	0
Actuals	100	8	0
Increase ..	0	8	0

20. *Sale-proceeds and composition fees of Medicines.*—There is an improvement under this head compared with last year. The increase over the revised estimate is trifling and needs no explanation.

	Rs.	A.	P.
Revised estimate			
Actuals	3	0	0
Increase ..	3	0	0

21. *Other Hospital Receipts.*—One of the unused rooms in the hospital has been rented to the local fund board as a calf vaccine depôt at a monthly rental of Rs. 2; hence the income under this head.

	Rs.	A.	P.
Revised estimate	2,200	0	0
Actuals	2,128	12	6
Decrease ..	71	3	6

22. *Income from Markets.*—Owing to insufficient competition at the time of the sales, the right of collecting market fees was sold for Rs. 525 only against Rs. 645 in 1893–94. In addition, several godowns in the market were vacant for almost the whole year under report. Hence the decrease.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	167	8	3
Decrease ..	32	7	9

23. *Income from Slaughter-house.*—Owing to strict inspection of animals slaughtered, the number slaughtered each day fell considerably; hence the decrease.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	5	0	0
Decrease ..	5	0	0

24. *Distraint fees.*—It was found necessary to distrain property in only 12 cases, viz.: 3 for tax on arts, 7 for tax on animals, and 2 for tax on carts; hence the amount realised under this head.

	Rs.	A.	P.
Revised estimate	180	0	0
Actuals	181	6	6
Increase ..	1	6	6

25. *License fees.*—The increase is so slight as not to need any explanation.

	Rs.	A.	P.
Revised estimate	470	0	0
Actuals	471	4	8
Increase ..	1	4	8

26. *Cart-stand fees.*—The increase is due to interest recovered from the contractor for failing to pay the instalments within the proper dates.

	Rs.	A.	P.
Revised estimate	10	0	0
Actuals	8	4	0
Decrease ..	1	12	0

27. *Other fees.*—This amount comprises the following fees recovered: extracts from deaths register, Rs. 2-0-0; copy of a document, Rs. 0–4–0; extracts from house-tax registers, Rs. 2–8–0; and vaccination fees, Rs. 3–8–0 (recovered under G.O. No. 1502 M., Local and Municipal, dated 19th October 1894.)

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	249	13	0
Increase ..	49	13	0

28. *Fines under Municipal and other Acts.*—Owing to a large number of prosecutions under the sections of the Act for compulsory vaccination and also to a large number of prosecutions for committing of nuisances and for breach of other municipal laws, a large income has been realised under this head.

	Rs.	A.	P.
Revised estimate	80	0	0
Actuals	89	12	6
Increase ..	9	12	6

29. *Interest.*—Interest at 3½ per cent. only was paid on Rs. 2,000 invested in Government paper for the municipal hospital. A sum of Rs. 14–15–6 was paid in addition as difference in interest and brokerage when 4 per cent. paper was converted into 3½ per cent. paper.

	Rs.	A.	P.
Revised estimate	795	0	0
Actuals	794	4	11
Decrease ..	0	11	1

30. *Grants and Contributions from Government*—(1) *Education.*—The decrease is trifling and needs no explanation. A building grant of Rs. 71–10–8 was received for the Kanki street salary-result school. Rs. 523–11–5 was received as salary grants towards the salaries of the head-master, pandit and carpenter of the high school. Rs. 119–4–6 was received as grant towards the purchase of chemical apparatus and chemicals for the laboratory and for books purchased for the library attached to the high school, and Rs. 79–10–4 was received on account of furniture and maps purchased for salary-result schools.

	Rs.	A.	P.
Revised estimate	170	0	0
Actuals	187	6	9
Increase ..	17	6	9

31. *Refunds of Expenditure of previous years.*—The increase under this head was chiefly due to (1) refund by the Medical officer ordered in paragraph 4 (3) of G.O., dated 7th July 1894, No. 871 M., Local and Municipal, and to recovery from Provincial funds of the salary of the pensioned hospital assistant during the time 1st-class Hospital Assistant M. Muttuswámi Pillai was on leave. The amounts realised under the above were Rs. 90 and Rs. 81–1–4, respectively; a sum of Rs. 16–5–5 was also recovered from Government on account of land revenue on parade and encamping grounds as no income was derived therefrom in 1893–94.

32. The other items show little or no difference and are hardly worth explanation.

33. *Incidence of Taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 10–6.

34. *Expenditure.*—The actual expenditure during the year amounted to Rupees 21,950–9–1 against the revised estimate, viz., Rs. 22,280, leaving a closing balance of Rs. 2,967–6–0.

35. *Grant I.*—The total expenditure under this head is Rs. 3,183–2–4 against Rs. 3,400, which is the revised estimate figure.

	Rs.	A.	P.
Revised estimate	880	0	0
Actuals	729	1	0
Decrease ..	150	15	0

36. (1) (*b*) *New Buildings.*—A sum of Rs. 91–11–3 out of a provision of Rs. 100 was spent on the purchase of corrugated iron for dust-bins and on the subsequent cost of having the same prepared; Rupees 163–4–5 were paid as balance due for thorough repairs of the beef and mutton stalls in the market; Rs. 38–0–6 were spent in the construction of temporary latrines to meet the requirements of the public. The choultry near the Post office was enclosed by a wall and gate at a cost of Rs. 51–1–2; a sum of Rs. 35–10–4 was spent in improvements to the market latrines. The hospital assistants' quarters were improved by having a kitchen erected at a small cost of Rs. 10. A sum of Rs. 90 was sanctioned for enclosing the high school verandah and a sum of Rs. 394 for dismantling the town school and erection of a building near the high school for the town school classes. Out of these amounts Rs. 58–0–8 and Rs. 281–4–8 were expended up to the close of the year under report; hence the decrease in expenditure compared with the revised estimate.

37. *Repairs—Communications.*—The income from tolls after deducting the moiety of contribution to the district board was Rs. 3,055-2-6. More than half of this amount has been spent on the repairs of the several roads. The Palkonda road was thoroughly repaired for more than half its length at a cost of Rs. 531-13-5, but as this is the road over which there is the greatest traffic since it leads to the railway station, it has been considerably cut up. A sum of Rs. 424-15-5 was paid away during the current year for work done in 1893-94 as the contractor's bills were outstanding. The condition of the roads is on the whole fair, but many streets and lanes need to be improved with metalling and gravelling. From want of funds these have not been attended to. All the main roads need thorough repair during the current year.

	Rs.	A.	P.
Revised estimate	1,640	0	0
Actuals	1,647	3	1
Increase ..	7	3	1

38. *Repairs—Buildings.*—The market godowns were repaired at a cost of Rupees 110-6-5 and the high and middle schools at a cost of Rs. 37-6-6. A sum of Rs. 49-3-10 was spent on re-thatching the carpentry shed and tank watchers' sheds. The Kaki street school was re-thatched at a cost of Rs. 14-9-6. The toll-sheds were re-thatched at a cost of Rs. 9-6-4; Rs. 5-5-2 were spent on petty repairs to the hospital. A sum of Rs. 150 was allotted for repairs to the hospital, but as a great deal of repairs were needed costing about Rs. 700, the work was postponed to the current year, as no funds were available during the year under report.

	Rs.	A.	P.
Revised estimate	250	0	0
Actuals	226	5	9
Decrease ..	23	10	3

39. (2) (*c*) (*i*) *Drainage—Repairs to Works.*—Some of the drains had some cut stones removed and other repairs done to them costing in all Rs. 30-5-10.

	Rs.	A.	P.
Revised estimate	50	0	0
Actuals	30	5	10
Decrease ..	19	10	2

40. (2) (*d*) (*i*) *Water-supply—Repairs to Works.*—The three tanks conserved for drinking purposes were fed with water from the river when they were dry. They were also cleaned of weeds and other noxious vegetation. A sum of Rs. 42-7-6 was spent for these purposes. A platform was constructed to the well in Gazula street for Rs. 30-14-2. The well at Badullapeta was repaired and the well in the municipal garden raised at a cost of Rs. 15 and Rs. 21-12-6, respectively.

	Rs.	A.	P.
Revised estimate	120	0	0
Actuals	110	2	2
Decrease ..	9	13	10

41. (2) (*d*) (*ii*) *Tank Watcher's Establishment.*—The amount in the revised estimate was taken in round numbers. The actual expenditure was Rs. 108; hence the decrease.

	Rs.	A.	P.
Revised estimate	110	0	0
Actuals	108	0	0
Decrease ..	2	0	0

42. (3) *Public Works Establishment.*—The supervisor and lascar were granted an increase of Rs. 3 and 1, respectively, to their salaries since 1st April 1894. These were sanctioned by Government in its review of the budget of the Chicacole Municipality for the year under report.

	Rs.	A.	P.
Revised estimate	320	0	0
Actuals	320	0	0

43. (4) *Tools and Plant and other Stores.*—Several tools required for public works were purchased during the year. The allotment was found more than sufficient.

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	12	0	6
Decrease ..	17	15	6

44. *Grant II—(i) Training Schools—(b) Stipends to Normal Students.*—A larger amount than what was anticipated was spent as travelling allowance to the gymnast to and from Saidapet where he was sent for training, also as travelling allowance to certain schoolmasters who were sent to Vizagapatam and Rajahmundry for training.

	Rs	A.	P.
Revised estimate	15	0	0
Actuals	45	1	6
Increase ..	30	1	6

45. *Municipal Schools—(i) On Salary System—(a) Establishment.*—The salary of the 2nd assistant of the high school who resigned on the 14th December 1894 was not drawn from the 15th December 1894 till the opening of the school after the Christmas holidays as no one was appointed in his place. The acting headmaster of the town school was appointed on a salary of only Rs. 35 per mensem from 4th March 1895 instead of Rs. 40, the salary of the permanent incumbent. The above together with certain other minor items of deductions from the salaries of some of the establishment was the cause of the decrease.

	Rs.	A.	P.
Revised estimate	5,560	0	0
Actuals	5,514	4	2
Decrease ..	145	11	10

46. *High School.*—This school has been suffering from great disadvantages owing to the 1st and 2nd assistants not having been permanently appointed as they failed to obtain the L.T. Degree. The 2nd assistant returned from the Training college in February 1894 and in December 1894 resigned. No proper substitute was appointed till the 5th February 1895. The substitute appointed not being a L. T. was appointed only sub. *pro tem* and he also resigned in the current year. The 1st assistant having failed to obtain the L.T. Degree for the past two years was given notice that he will be replaced by a better qualified man. A trained L.T. who had taken physical science as his optional subject has been secured and he will join his appointment on the opening of the school after the summer vacation. The 1st assistant was sick for some time during January and February 1895 and then had to go to Madras to appear for the practical test of the L.T. Degree. The 2nd assistant's post is not sufficiently attractive for a L.T. at present and none has been secured for it, although one was advertised for. The results of the public examinations are on the whole very favourable notwithstanding the above disadvantages. Twenty-two boys appeared for the Matriculation and 6 passed, being about 27 per cent. This is favourable when compared with the average of the Presidency, namely, 22 per cent. The results of the Lower Secondary examination were very good. The number of boys who appeared for examination is 15 and 10 boys came out successful out of that number. Five were sent up for the compulsory portion and two passed. The average attendance of the school during the year under report was 64. The headmaster continues to discharge his duties very efficiently and satisfactorily. It is to be hoped that the results of the current year will be more favourable. The town school has been amalgamated with the high school since the beginning of the current year and the constant supervision by the Headmaster of the High school now will in a great measure tend to supply better material to the higher classes than previously. The carpentry class continued to work satisfactorily during the year. The net cost of this class to the municipality was Rs. 92-11-10. As the Inspector of Schools remarks this does not include the cost of other work performed for the municipality by the carpenter. If this is included, the net cost will be very trifling. The total receipts of the high school were Rs. 4,057-5-2 and the charges Rs. 4,606-8-6. The net cost to the municipality is Rs. 549-3-4. The school laboratory was provided with chemicals and chemical apparatus at a cost of Rs. 201-3-0.

47. *Middle School.*—The strength of this school continues to be very satisfactory. The highest number was 144 and average attendance 102. The additional master is still employed, but the one first appointed was removed to one of the primary schools as he was not successful in teaching this class. A better qualified teacher has been appointed in his place. The headmaster of this school was ill for four months and

the lower masters were promoted during his absence. The result was, I regret to say, very unsatisfactory as the results of the several classes at the examination for promotion were very poor. The acting incumbents were severely reprimanded and warned by me.

48. *Schools on Salary-Result System*—(*a*) *Fixed payments.*—The localities of the schools during the year under report were the same as last year. Three headmasters and one assistant master were sent for training and are expected to return shortly. The acting assistant master of the Muhammadan school and the headmaster of the Kanki street school died during the year and were replaced by others. The net cost of these schools was Rs. 992–0–1. The strength of the Arsavelli school is far from satisfactory and its continuance or not will be considered in the current year. There is a result system school in addition in this locality. The headmasters and their assistants have during the year worked satisfactorily.

	Rs.	A.	P.
Revised estimate	1,560	0	0
Actuals	1,546	3	4
Decrease ..	13	12	8

49. (*b*) *Results Grants.*—The amount of grant earned by these schools was Rs. 391–15–2, a little below the estimate, and the difference needs no explanation. The rate of calculation was the same as in previous years.

	Rs.	A.	P.
Revised estimate	400	0	0
Actuals	391	15	2
Decrease ..	8	0	10

50. (*c*) *Contingencies.*—The difference is very trifling and calls for no explanation.

	Rs.	A.	P.
Revised estimate	140	0	0
Actuals	145	0	11
Increase ..	5	0	11

51. (*d*) *Results Grants.*—The several schools apparently did not acquit themselves as well as they should have done, and hence there is a decrease. The whole amount allowed in the certifying memoranda issued by the Inspecting officers was paid to the managers of the schools concerned.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	248	1	0
Decrease ..	51	15	0

52. *Inspection*—(6) (*b*) (*i*) *Establishment.*—The supervisor has not completed his course for a certificate according to the educational rules and hence is still appointed sub. *pro tem.* He is expected to obtain a certificate shortly or will have to be replaced. The decrease is due to round numbers having been adopted in the estimate.

	Rs.	A.	P.
Revised estimate	220	0	0
Actuals	216	0	0
Decrease ..	4	0	0

53. 7 (*b*) *Common Gymnasium Establishment.*—The gymnast succeeded in passing the practical examination and obtained a certificate. This system of instructing the boys of the salary-result schools by turns continues. The difference of Re. 1 is due to the fine imposed on him for his bad behaviour.

	Rs.	A.	P.
Revised estimate	120	0	0
Actuals	119	0	0
Decrease ..	1	0	0

54. 7 (*c*) *Other Items.*—The expenditure under this head was incurred in printing receipts, forms, &c., for all the schools.

	Rs.	A.	P.
Revised estimate	15	0	0
Actuals	14	0	6
Decrease ..	0	15	6

55. *Grant III*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The increase is due to the Accountant-General having ordered the salary of hospital assistant M. Muttuswámi Pillai to be paid from Municipal funds during the time he was on leave. This hospital assistant was at first granted sick leave for three months and this was subsequently converted into privilege leave, without this office being consulted or sanction for the leave obtained. He served this municipality for only a little over one month and for this municipality to be burdened with his salary for three months, I thought very unjust and I strongly objected to it. My objection was overruled both by the Surgeon-General and the Accountant-General and the salary was ordered to be paid. Further during the period of his leave, he was promoted to first-class hospital assistant and this entailed additional expenditure to the municipality, as the difference of his salary, viz., Rs. 20 per mensem, had to be paid for nearly three months. The salary of his *locum-tenens* at Rs. 35 per mensem was however recovered from the Provincial funds for a little more than two months. The present hospital assistant T. Ramunni is of the third class. He has worked very satisfactorily and is very popular with the public. He is very hard working and intelligent. He is, however, under orders to Palghat. The medical pupil, who is now under training since October last, in order to qualify as a municipal hospital assistant, has been working satisfactorily and has made great progress in his studies as well as in dispensing of medicines and in attending to surgical cases. He will enter college on the 1st of October next. The midwife is reported to have worked very unsatisfactorily and has further been detected in producing a false certificate of having attended a case and to have forged the name of the husband of the woman she reported as having attended. She was guilty of very serious offences, but as the District and Medical and Sanitary Officer recommended that she should be fined as it is very difficult to secure another midwife in her place, she was let off with a heavy fine. She attended only 77 cases against 105 in 1893–94.

	Rs.	A.	P.
Revised estimate	1,280	0	0
Actuals	1,407	12	4
Increase ..	127	12	4

56. *Vaccination.*—It is gratifying to report that vaccination has made some progress during the year under report although for some months no vaccine operations were performed on account of the lymph received from the Berhampur vaccine depôt having been of a very inferior quality. The medical officer in his report has reported fully on this, and hence I need not repeat the same. The first-class vaccinator Vinayakakotta continued to work during the year and has worked faithfully.

57. *Medicines and Supplies.*—Owing to the very large number of out-patients treated, viz., 24,853, the expenditure of medicines has been proportionate to the number treated. The hospital is very popular and patients come from all parts of the division for treatment. Further as medicines are now being received from Messrs. Burgoyne, Burbidges and Company and not from the Medical Stores as hitherto, the prices of the former firm are very high when compared with those of the latter institution. Hence the increase.

	Rs.	A.	P.
Revised estimate	1,000	0	0
Actuals	1,101	6	4
Increase ..	101	6	4

58. *Diet of patients.*—Only 151 in-patients were treated against 185 in 1893–94, as admissions are restricted to only very serious cases. Hence the decrease.

	Rs.	A.	P.
Revised estimate	500	0	0
Actuals	387	5	1
Decrease ..	112	10	11

59. *Sundries and Contingencies.*—For the same reasons given under medicines and supplies the amount of contingent charges shows an increase.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	350	0	7
Increase ..	50	0	7

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	48	0	5
Increase ..	18	0	5

60. *Vaccination—(b) Contingencies.*—Owing to the increase in the number of vaccine operations more lymph had to be purchased. Hence the increase.

61. *Registration of Births and Deaths.*—Although nine cases for failure to register births and five cases for failure to register deaths were prosecuted during the year, still I regret to state registration of vital statistics has made no progress whatever. On the other hand there is a decrease when compared with last year, as 419 births and 429 deaths were registered during the year under report against 451 and 434, respectively in 1893–94. The registrar has been doing his best to show an improvement, but has met with no success. A great majority of the population are of a rude illiterate nature and will not yield to municipal laws easily, hence the difficulty to improve the registration of vital statistics. It is to be hoped that in the current year more prosecutions will take place and that there will be marked improvement in registration.

62. *Conservancy Establishment.*—The decrease is due to the full establishment of toties for public latrines not having been employed for several months owing to there not having been a sufficient number of latrines constructed till some months after the provision was made, also to fines and stoppages of salaries of sweepers who left for Rangoon in the course of the year after having worked for several days each in the month.

	Rs.	A.	P.
Revised estimate	2,450	0	0
Actuals	2,375	3	8
Decrease ..	74	12	4

63. 5 (*a*) (*ii*) *Other charges, &c.*—No fodder for cattle was stored last year and in addition to the daily cost of fodder for the year under report, a supply has been purchased and kept in stock for the current year. Owing to the conservancy carts being old and greatly out of repairs they needed on several occasions to be repaired. Hence the increase.

	Rs.	A.	P.
Revised estimate	270	0	0
Actuals	339	12	0
Increase ..	69	12	0

64. *Private Scavenging Establishment.*—Many were fined on account of bad and careless work; hence the decrease. I regret to report that the system of cleaning private latrines under municipal agency made no progress whatever. The fault appears to lie a great deal with the toties as they are better paid by each household when engaged privately; and hence in order to secure better wages, they often neglect the private latrines. The rate of fees charged by the municipality is now very low, viz., As. 2 and As. 4 for cleaning the latrines once and twice, respectively. When the sweepers are engaged privately, the parties pay according to their circumstances and some pay as much as As. 8 and As. 12 per mensem. I fear this system will not work satisfactorily unless something is done to improve the wages of the toties, but this is impossible unless the fees are raised. I have, as a rule, always punished the toties severely, whenever reported for neglect of work.

	Rs.	A.	P.
Revised estimate	470	0	0
Actuals	463	4	0
Decrease ...	6	12	0

65. (*b*) (*ii*) *Contingencies, &c.*—Two night-soil carts were prepared. Hence the expenditure.

	Rs.	A.	P.
Revised estimate	80	0	0
Actuals	73	5	9
Decrease ..	6	10	3

	Rs.
Revised estimate	50
Actuals	

66. (*c*) *Cholera Charges.*—I am glad to report that it was unnecessary to spend any of this allotment, as this municipality and its surroundings have been free from cholera during the year under report.

	Rs.	A.	P.
Revised estimate	200	0	0
Actuals	179	10	6
Decrease ..	20	5	6

67. (*d*) *Contingencies.*—It was found unnecessary to spend the whole of the allotment under this head. Hence the decrease.

	Rs.	A.	P.
Revised estimate	190	0	0
Actuals	183	7	1
Decrease ..	6	8	11

68. *Grant IV—(i) Lighting—(a) Establishment.*—The decrease is due to fines and stoppages and to one lamplighter not having been employed for more than a month, when a number of lanterns were undergoing repair.

	Rs.	A.	P.
Revised estimate	410	0	0
Actuals	435	0	5
Increase ..	25	0	5

69. (*b*) *Contingencies.*—A large number of lanterns needed much repair and in addition fresh burners and chimneys. Hence the increase.

70. *Other charges—(i) Rewards for destruction of wild animals and printing, &c.*—Rupees 19–10–0 was spent out of Rs. 20 allotted for the destruction of stray and dangerous dogs. A sum of Rs. 276–4–11 was spent in printing charges, exceeding the allotment by Rs. 16–4–11. A sum of Rs. 50 was provided for other items, but out of this amount a small sum of Rs. 14–0–2 only was spent for the freight of the census reports and tom-tom charges.

	Rs.	A.	P.
Revised estimate	360	0	0
Actuals	337	9	11
Decrease ..	22	6	1

71. *Hot weather charges.*—The council resolved to open a shed for the supply of water and buttermilk, &c., to travellers during the hot months of the year. A man was in addition engaged to distribute the above. Hence the charges under this head.

	Rs.	A.	P.
Revised estimate	35	0	0
Actuals	34	9	10
Decrease ..	0	6	2

72. *Law charges.*—The expenditure under this head was incurred in appealing against the decision of the Stationary Magistrate in the cases of godown renters prosecuted for failing to pay their rents on the 1st of each month in accordance with bye-law No. 47 (7).

	Rs.	A.	P.
Revised estimate	..	..	..
Expenditure	32	5	0

73. *Grant V—(a) (2) Inspection.*—The chairman-delegate and the ex-officio chairman during the periods they held charge of this office did not draw the conveyance allowance; hence the original allotment, viz., Rs. 300, was cut down to Rs. 210 in the revised estimate.

	Rs.	A.	P.
Revised estimate	210	0	0
Actuals	210	13	4
Increase ..	0	13	4

74. (*c*) *Collection of Tolls—(i) Establishment.*—The salaries of the establishment engaged to collect statistics of carts at the toll-gates in the months of February and March 1894 had to be paid for March 1894 in the month of April of the year under report. Hence the expenditure under this head.

	Rs.	A.	P.
Revised estimate	30	0	0
Actuals	24	0	0
Decrease ..	6	0	0

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	39	4	8
Decrease ..	0	11	4

75. (*ii*) *Contingencies.*—The expenditure under this head was incurred in March 1894 for the purchase of oil, stationery, &c., for the tolls statistics collectors and which amount had to be paid in the year under report.

76. (*d*) *Office Contingencies other than* (*b*) (*ii*).—The increase was due to an almirah having been purchased for the office for Rs. 20, as one was greatly needed for preserving records, &c., also to a great number of printed forms, &c., having been obtained from Madras.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	310	7	5
Increase ..	10	7	5

77. *Refunds of other than current collections.*—It was found that erroneous demands had been made in some cases of tax on animals in 1893–94 and the amounts collected. The parties appealed and the council remitted the amount expended under this head.

	Rs.	A.	P.
Revised Estimate	10	0	0
Actuals	6	8	0
Decrease ..	3	8	0

78. *Demand, Collection and Balance statement.*—There was at the close of 1893–94 a balance of old demand amounting to Rs. 206–4–0 and arrears of 1893–94 amounting to Rs. 716–9–0 making a total demand of Rs. 922–13–0. Of this amount Rs. 682–8–0 were collected and Rs. 240–5–0 written off as irrecoverable (under tax on animals alone, Rs. 212–12–0 were remitted on account of poverty, erroneous demand, &c.). There is a balance of only Rs. 293–3–0 left uncollected out of the demand for the second half of the year under report. Out of this amount Rs. 203–4–0 is for tax on animals. It was with great difficulty that the large amount due under arrears of last year and the amount due for the year under report under tax on animals were collected. The balance outstanding could not but be left uncollected. It is to be hoped that at the end of the current year there will be no outstandings whatever.

79. *Coercive process.*—There were 97 warrants involving a sum of Rs. 157 remaining unexecuted at the close of 1893–94. During the year under report 677 warrants involving a sum of Rs. 708–7–6 were issued, making a total of 774 warrants involving a sum of Rs. 865–7–6 to be executed during the year under report. Of this amount 113 warrants involving a sum of Rs. 171–11–0 were cancelled, in 616 involving a sum of Rs. 636–12–6, the amounts were collected after issue of warrants, in only twelve cases involving a sum of Rs. 18, property was distrained but not sold, leaving a balance of only 33 warrants involving a sum of Rs. 44 unexecuted at the close of the year. The tax-payers seem to think that the taxes due by them should be paid only after the warrants are presented; and hence so many as 616 warrants had to be cancelled after they were issued, as the parties paid the amounts due when the warrants were presented. This procedure does not involve any additional expense to them, but on the other hand they have additional time in which to pay their taxes.

80. Thirty-six meetings were convened during the year and none were adjourned for want of a quorum. The average attendance of the councillors at the meetings were 9·5 against 8·12 in 1893–94. The office of chairman was vacant at the close of 1893–94 and the Divisional officer took charge and delegated his powers under section 32 (2) of the Act to M.R.Ry. T. V. Siva Ráo Pantulu. I was duly elected by the council at the meeting held on the 7th May 1894, but did not take charge of the office till the 18th June 1894, as my appointment did not appear in the Gazette till that date.

ENCLOSURE.

ANNUAL Report of the Municipal Hospital, Chicacole, for the year 1894–95.

I. Public Health.—The public health of the town has been very satisfactory during the year under report. Excepting a few cases of small-pox, measles and chicken-pox, no other epidemic prevailed in the town. One death was registered

under small-pox. During the rainy and in the cold season there was a large number of cases treated under fevers of a mild malarial type. Leprosy appears to be on the increase in the town, and the majority of cases is among the low castes who, as a rule, live upon putrid fish and also eat the carcasses of dead animals. This is being prevented as much as possible, but with the inadequate staff of the municipality it is almost impossible to altogether prevent these people from consuming the above.

II. Vital Statistics.—The registrar of births and deaths registered 419 births and 429 deaths during the year. Nine cases for failure to register births and five cases for failure to register deaths were prosecuted before the Magistrate. All were convicted and the total amount realised as fines under this head was Rs. 3. Although so many cases were prosecuted still the public do not come forward voluntarily to register, and almost all the births and deaths registered were from information gathered by the registrar and nuisance peons.

III. Sanitation.—The sanitation of the town is on the whole very satisfactory, but there is still room for much improvement. It is a matter of great difficulty to introduce reforms in sanitation and to prevent the discontinuance of long-standing customs. The committing of nuisances in the river-bed within the municipal limits has been completely stopped. A very large number of cases were prosecuted at the beginning for committing these offences, but at present these offences are greatly minimised. Seven additional temporary latrines were put up for the convenience of the public, and these with the previously existing ones are sufficient to meet the wants of the public. These latrines are kept as clean as can be expected. The sanitary and conservancy staffs are the same as in previous years. A few more sweepers are needed, and it is hoped that the council will make provision for the same in the next budget.

The water-supply is fair and the tanks conserved are the same as in previous years. The tanks need cleaning out and one also deepening. These improvements, I trust, will be taken in hand by the municipal council this year.

The main roads need thorough repair and so also some streets. Most of the roads were put in repair during the year under report, but on account of the wear and tear they are subjected to, they need attending to again. Some lanterns that were under repair were put up during the year, but there are a great many more needed. Provision has been made for a new slaughter-house and the work will be taken in hand this year. The number of dust-bins is insufficient, but it is expected that the municipal council will provide more during the current year.

It has been a long-standing custom to allow the sewage water of houses to flow into the public drains and streets, but as the condition of the drains is such as not to be able to carry away sewage water, strenuous efforts are being made to prevent this nuisance, since the water remains stagnant in the drains and, unless removed, will prove a source of danger to the health of the public. The owners of houses have been requested to construct cesspools for their sewage water and to have them cleaned as frequently as possible. The municipal council has resolved to clean their cesspools under its agency.

IV. Vaccination.—It is gratifying to note that the compulsory sections of the Act regarding vaccination are being strictly enforced. A large number of cases were reported to the Magistrate, and after excluding cases excused by the Magistrate when the parties had their children vaccinated before the expiry of the notice given them by him, a large number still remained for punishment for disobedience of the orders of the Magistrate. A sum of Rs. 52–4–0 was realised as fines under this head. The local Magistrate was very lax at first in assisting this municipality in the enquiry of cases and delayed the enquiry of some cases reported to him in October 1893 till the end of 1894. The Chairman was obliged to report the conduct of the Magistrate to the District Magistrate, with the result that he was fined Rs. 5. Cases are now being disposed of somewhat promptly. The number of cases vaccinated by me and the hospital assistant during the year was 118 with 91 successful, 25 unsuccesful and 2 unknown against 49 cases vaccinated in 1893–94 with 38 successful. The municipal vaccinator vaccinated 1,198 cases during the year with 915 successful, 280 unsuccessful and 3 unknown against 848 cases vaccinated in 1893–94 with 535 successful.

one outturn of work is very good and is in a measure due to the supply of lymph being easily and readily obtained on account of a calf vaccine depôt having been opened in this station by the local fund board and placed under my supervision. During the year lymph was obtained from three different sources for this municipality and the results from each source are as follows :—

Depôts.	Number vaccinated.	Successful.	Unsuccessful.
Berhampur	197	23	174
Palkonda	37	35	2
Chicacole	964	857	107 including 3 unknown.
Total ..	1,198	915	283

The municipal vaccinator has been working very satisfactorily during the year and has done his utmost in assisting in the enforcing of the compulsory sections of the Act. He is required to vaccinate only 900 cases a year, but has exceeded this amount by almost 300.

I regret to state that G.O., No. 1502, dated 19th October 1894, is not being fully carried out by the Magistrate, and parties who have failed to have their children vaccinated after being served with notices by the vaccinator are being allowed extensions by the Magistrate without the producing of medical certificates.

V. Hospitals and Dispensaries.—(*a*) *Nature and sufficiency of accommodation.*—The building was originally a dwelling-house but was improved and used as a hospital. Separate wards were built for females and this building is apart from the main building. A proper store room fitted up with shelves is needed. The accommodation is more than sufficient.

(*b*) *State of repair of building.*—The buildings continue to be in an unsatisfactory condition and much in need of repair. A sum of Rs. 700 has been allotted in the current year's budget for repairs. The repairs will be taken in hand shortly.

(*c*) *State of repair of furniture.*—The furniture is sufficient and in a fair state of repair. Some cots are in a bad condition and as they are not needed will be auctioned after the orders of the Chairman are received. It will be well if the present wooden cots in the male ward be replaced by iron cots.

(*d*) *Number of patients treated as compared with previous years.*—The following table shows the number of patients treated, &c :—

—	Admissions.			Average daily attendance.		
	In.	Out.	Total.	In.	Out.	Total.
1891–92	198	14,797	14,995	10·65	75·11	85·76
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,853	25,105	11·84	137·00	148·84

The number of in-patients treated is less than in 1893–94, but this is due to only very serious cases being admitted. The number of out-patients shows a very satisfactory increase, due to the increasing popularity of the institution and in a great measure to the popularity of the present Hospital Assistant T. Ramunni.

(*e*) *Mortality and actual causes of it.*—There were 13 deaths among in-patients. This is a large number, but as stated above as only very serious cases are admitted, a smaller number cannot be expected as a great many of the cases that died were in a state of hopelessness when admitted. The number of deaths among out-patients cannot be stated as it is difficult to obtain the results of out-patients treated, especially as some come from very distant villages.

(*f*) *Operations and results.*—Twenty-four major operations were performed during the year with the following result: sixteen cured and eight relieved against thirteen major performed in 1893–94. 264 minor operations, all successful, were performed during the year against 243 in 1893–94.

(*g*) *Establishment, whether sufficient and efficient.*—On account of the very large number of patients treated, the dispensary work is far more than what one man can get through. The municipal medical pupil is at present assisting and on his departure to college in October the council has made provision for the entertainment of a paid probationary compounder. The establishment is sufficient and performs the several duties in an efficient manner.

(*h*) *Midwives.*—I regret to report very unfavourably on the work of the midwife. As suspected by me she has been detected in having reported a case falsely and of having forged the name of the husband in the certificate. She was reported by me to the Chairman and recommended for dismissal; but as there is great difficulty in securing a midwife to work in this district, the District Medical and Sanitary Officer took a lenient view of the case and proposed that she should be severely fined. The Chairman accordingly fined her Rs. 5 and warned her that she will be severely dealt with if she commits herself again. She attended in all 77 cases during the year against 105 in 1893–94. The decrease is due to her not being able, in my opinion, to report false cases. The outturn of her work is bad and as a midwife has been working in this station for 12 years, more cases should have been attended.

(*i*) No provision is made for the treatment of gosha and caste women in a separate dispensary.

(*j*) *General Remarks.*—Nil.

(Signed) A. WELLS,
Medical Officer, Civil Station, Chicacole.

C. No. 1194-Rev.

Forwarded through the Collector.

The condition of the main roads is rather better than last year and the lanes are in fair order.

(Signed) J. G. D. PARTRIDGE,
Acting Principal Asst. Collector.

7th May 1895.

Dis. No. 494-Eng.

Forwarded.

2. Thirty-six meetings were held by the municipal council during the year against thirty in the previous year. The average attendance of the non-official members continued to be satisfactory and that of the official members was not unsatisfactory, being 1·5 out of 3.

3. The collections were generally good except in the case of tax on animals, in which there remained a balance of Rs. 203–4–0 out of the final demand of Rs. 987 for the year 1894–95.

4. The selection of suitable sites for rubbish depôts outside the municipal limits has been under contemplation by the municipal council for more than two years without any practical effect being given to its deliberations. The sites should be selected without further delay.

5. The roads are reported to be in fair order unlike their state in 1893–94.

6. Vaccination appears to have received some attention during the year, the total number of successful operations being 1,006 against 573 in the previous year.

7. Fourteen cases were instituted during the year for failure to register births and deaths. All of these ended in conviction, and it is hoped that these and similar prosecutions will ensure a more reliable registration of vital statistics.

of boys under instruction rose from 827 to
lation of school-going age.

(3) *Medical Relief.*—The number of in-patients treated in the municipal hospital showed a decline of 34, while tha of the out-patients rose from 19,150 to 24,853. The decrease in the former case is attributed to the fact that only very serious cases were admitted into the hospital—a restriction the necessity for which should have been explained by the Chairman—and the increase in the latter to the growing popularity of the institution. The civil apothecary's suggestions that a proper store-room should be constructed fo the hospital and that the wooden cots in the male ward should be replaced by iron ones, should receive attention. The midwife attached to the hospital attende only 77 cases of labour against 105 in 1893–94, but it is suspected that the latter figure included cases falsely reported.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From A. WELLS, Esq., Chairman, Municipal Council, Chicacole, to the Chief Secretary to Government (through the Principal Assistant Collector, Ganjám), dated Chicacole, 4th May 1895, No. 351.

I have the honour to submit herewith the annual report on the administration of the Chicacole Municipality for 1894–95 together with the prescribed statements, also the report of the medical officer on the working of the local municipal hospital as well as on the sanitation of the town. These were passed by the council at its meeting held on the 4th May 1895.

2. The accounts of the year have not been audited. Those of 1893–94 were audited in the month of June 1894 and the several suggestions made by the auditor have been carried out as far as possible.

3. The year under report opened with a balance of Rs. 2,206–4–8 which was the closing balance of 1893–94 and which was verified by the auditor. The receipts of the year under report were Rs. 22,711–10–5 which amount together with the opening balance amounted to Rs. 24,917–15–1, which are the total receipts of the year. The total charges of the year amounted to Rs. 21,950–9–1, leaving a balance of Rupees 2,967–6–0 which forms the opening balance of the current year.

4. The following amounts have been expunged both from receipts and charges as they were both credited and debited during the year :—

		Rs.	A.	P.
(1)	Tolls contribution	2,991	5	2
(2)	Refunds of tax on arts	666	8	0
(3)	Do. of school-fees	44	0	6
(4)	Do. of tax on buildings	1	7	0
(5)	Do. of license fees	2	0	0
(6)	Do. of high school contingency	7	8	0
(7)	Refund of fines	1	0	0
(8)	Remission of house-tax on account of vacancy	13	13	0
(9)	Advance recovered	1	1	0

Item (1) is the moiety of tolls paid to the district board as contribution.

Item (2) is the amount refunded to parties on appeal. The amount is very high and is principally due to a very large number of parties assessed for grain-dealing having had their taxes remitted.

Item (3) is the amount refunded to free scholars of the several salary-result system schools whose fees were paid prior to their having free-scholarships sanctioned and also the amount refunded for a pupil of the high school under article 7 of the Fee notification.

Item (4) is the amount refunded to a house-owner on appeal.

Item (5) is the amount refunded on appeal and which was paid as license-fee for a fire-wood depôt, which really did not exist.

Item (6) is the amount refunded as excess payment on chemicals and library books purchased for the high school on the value-payable system.

Item (7) is the amount refunded by a result-system schoolmaster from the grant earned as he was fined for keeping his registers in an irregular and suspicious manner.

Item (8) is the amount refunded to house-owners under section 72 of the Act out of the full amount previously paid as house-tax.

Item (9) is the amount refunded by the gymnast as excess over travelling expenses on the sum advanced to him when returning from the Training College, Saidapet.

	RS.	A.	P.
Revised estimate	2,100	0	0
Actuals	2,121	8	0
Increase ..	21	8	0

5. *Tax on Arts and Professions.*—The increase is due to more careful revision of the list of tax-payers under this head.

	RS.	A.	P.
Revised estimate	2,600	0	0
Actuals	2,641	4	6
Increase ..	41	4	6

6. *Tax on Buildings.*—The increase is due to several new houses having been assessed during the latter half of the year.

	RS.	A.	P.
Revised estimate	570	0	0
Actuals	586	14	4
Increase ..	16	14	4

7. *Tax on Lands.*—The increase is principally due to arrears collected during the year under report and which were not taken into account when the revised estimate was prepared.

	RS.	A.	P.
Revised estimate	170	0	0
Actuals	181	8	0
Increase ..	11	8	0

8. *Tax on Vehicles with springs and Palanquins.*—The increase is due to more careful revision and to some vehicles having been taxed for the first time in the second half-year.

9. *Tax on Animals.*—Owing to the difficulty experienced in previous years in collecting taxes under this head, it was thought that not more than Rs. 1,000 would be collected under this head; but as careful revision and scrutiny were adopted, the expected amount was increased by Rs. 334–8–0. A large amount is outstanding under this head for the second half of the year under report, but on account of a very large amount outstanding in 1893–94 having to be collected this year, it was found difficult to collect the whole of the demand for 1894–95.

	RS.	A.	P.
Revised estimate	1,000	0	0
Actuals	1,334	8	0
Increase ..	334	8	0

10. *Tax on Carts.*—The increase is chiefly due to a very large number of carts having been detected evading taxes for several years and licensed this year and also to some carts having been constructed for carrying passengers to the railway station.

	RS.	A.	P.
Revised estimate	400	0	0
Actuals	485	0	0
Increase ..	85	0	0

11. *Tolls.*—The increase is due to interest recovered. A sum of Rs. 31–14–7, being the moiety of expenditure on repairs to toll-sheds, &c., in 1893–94 and in the year under report already paid from municipal funds, was recovered and credited to the municipal share from tolls. A sum of Rs. 36–7–8 was also collected as interest for instalments not paid within

proper dates. Half of this amount was credited to the municipal share and the other half to the local funds share. The above adjustments brought the municipal share to Rs. 3,055–2–6 and the local fund share to Rs. 2,991–5–2. The increase over the revised estimate figure is also accounted for as above.

	RS.	A.	P.
Revised estimate	10	0	0
Actuals	15	5	9
Increase ..	5	5	9

12. *Avenue Receipts.*—The council, at the time that the revised estimate was prepared, thought that not more than Rs. 10 would be realised; but as some trees that were interfering with the building of the new school building were cut down, a larger amount was realised.

	RS.	A.	P.
Revised estimate	..	..	..
Actuals	1	0	0
Increase ..	1	0	0

13. *Fees from Travellers' Bungalows.*—A sum of one rupee was realised as fee from the chuttram that was repaired and enclosed by a compound wall and used as a travellers' bungalow.

	RS.	A.	P.
Revised estimate	..	..	..
Actuals	25	0	0
Increase ..	25	0	0

14. *Sale-proceeds of Lands and Buildings.*—This amount was realised for a small piece of ground encroached upon by the late M.R.Ry. Yammada Venkata Narasinga Ráo Pantulu in the construction of his house and which was subsequently sold to him on receipt of sanction from Government in its G.O., dated 16th October 1894, Mis. No. 1484 M.

	RS.	A.	P.
Revised estimate	10	0	0
Actuals	4	10	1
Decrease ..	5	5	11

15. *Produce of Lands, Gardens, &c.*—At the time of preparation of the revised estimate it was thought that Rs. 10 would be realised under this head, but as the compound of the late municipal garden was not cultivated, there has been a decrease.

	RS.	A.	P.
Revised estimate	40	0	0
Actuals	25	5	0
Decrease ..	14	11	0

16. *Sale-proceeds of old Materials, &c.*—Owing to insufficient competition at the auctions for the sale of unserviceable articles, the amount budgeted was not realised.

	RS.	A.	P.
Revised estimate	30	0	0
Actuals	22	11	0
Decrease ..	7	5	0

17. *Sale-proceeds of Night-soil, Street Refuse, &c.*—As the District Medical and Sanitary Officer has not visited this town since G.O., dated 1st November 1894, Mis. No. 1593 M., was received, the selection of sites for rubbish depôts outside of municipal limits has not been carried out, and hence the income under this head is again low for the reasons quoted in former reports.

	RS.	A.	P.
Revised estimate	5,800	0	0
Actuals	6,381	8	10
Increase ..	581	8	10

18. *Fees from educational institutions.*—The increase is due to the admission of a large number of boys in the several schools.

	RS.	A.	P.
Revised estimate	80	0	0
Actuals	73	12	3
Decrease ..	6	3	9

19. *Other revenue for educational institutions.*—The decrease is due to insufficient competition at the sales of the work turned out by the carpentry class.

	RS.	A.	P.
Revised estimate	100	0	0
Actuals	100	8	0
Increase ..	0	8	0

20. *Sale-proceeds and composition fees of Medicines.*—There is an improvement under this head compared with last year. The increase over the revised estimate is trifling and needs no explanation.

	RS.	A.	P.
Revised estimate	3	0	0
Actuals			
Increase ..	3	0	0

21. *Other Hospital Receipts.*—One of the unused rooms in the hospital has been rented to the local fund board as a calf vaccine depôt at a monthly rental of Rs. 2 ; hence the income under this head.

	RS.	A.	P.
Revised estimate	2,200	0	0
Actuals	2,128	12	6
Decrease ..	71	3	6

22. *Income from Markets.*—Owing to insufficient competition at the time of the sales, the right of collecting market fees was sold for Rs. 525 only against Rs. 645 in 1893–94. In addition, several godowns in the market were vacant for almost the whole year under report. Hence the decrease.

	RS.	A.	P.
Revised estimate	200	0	0
Actuals	167	8	3
Decrease ..	32	7	9

23. *Income from Slaughter-house.*—Owing to strict inspection of animals slaughtered, the number slaughtered each day fell considerably ; hence the decrease.

	RS.	A.	P.
Revised estimate	10	0	0
Actuals	5	0	0
Decrease ..	5	0	0

24. *Distraint fees.*—It was found necessary to distrain property in only 12 cases, viz. : 3 for tax on arts, 7 for tax on animals, and 2 for tax on carts ; hence the amount realised under this head.

	RS.	A.	P.
Revised estimate	180	0	0
Actuals	181	6	6
Increase ..	1	6	6

25. *License fees.*—The increase is so slight as not to need any explanation.

	RS.	A.	P.
Revised estimate	470	0	0
Actuals	471	4	8
Increase ..	1	4	8

26. *Cart-stand fees.*—The increase is due to interest recovered from the contractor for failing to pay the instalments within the proper dates.

	RS.	A.	P.
Revised estimate	10	0	0
Actuals	8	4	0
Decrease ..	1	12	0

27. *Other fees.*—This amount comprises the following fees recovered : extracts from deaths register, Rs. 2-0-0 ; copy of a document, Rs. 0–4–0 ; extracts from house-tax registers, Rs. 2–8–0 ; and vaccination fees, Rs. 3–8–0 (recovered under G.O. No. 1502 M., Local and Municipal, dated 19th October 1894.)

	RS.	A.	P.
Revised estimate	200	0	0
Actuals	249	13	0
Increase ..	49	13	0

28. *Fines under Municipal and other Acts.*—Owing to a large number of prosecutions under the sections of the Act for compulsory vaccination and also to a large number of prosecutions for committing of nuisances and for breach of other municipal laws, a large income has been realised under this head.

	RS.	A.	P.
Revised estimate	80	0	0
Actuals	89	12	6
Increase ..	9	12	6

29. *Interest.*—Interest at 3½ per cent. only was paid on Rs. 2,000 invested in Government paper for the municipal hospital. A sum of Rs. 14–15–6 was paid in addition as difference in interest and brokerage when 4 per cent. paper was converted into 3½ per cent. paper.

	RS.	A.	P.
Revised estimate	795	0	0
Actuals	794	4	11
Decrease ..	0	11	1

30. *Grants and Contributions from Government*—(1) *Education.*—The decrease is trifling and needs no explanation. A building grant of Rs. 71–10–8 was received for the Kanki Street salary-result school. Rs. 523–11–5 was received as salary grants towards the salaries of the headmaster, pandit and carpenter of the high school. Rs. 119–4–6 was received as grant towards the purchase of chemical apparatus and chemicals for the laboratory and for books purchased for the library attached to the high school, and Rs. 79–10–4 was received on account of furniture and maps purchased for salary-result schools.

	RS.	A.	P.
Revised estimate	170	0	0
Actuals	187	6	9
Increase ..	17	6	9

31. *Refunds of Expenditure of previous years.*—The increase under this head was chiefly due to (1) refund by the Medical officer ordered in paragraph 4 (3) of G.O., dated 7th July 1894, No. 871 M., Local and Municipal, and to recovery from Provincial funds of the salary of the pensioned hospital assistant during the time 1st-class Hospital Assistant M. Muttuswámi Pillai was on leave. The amounts realised under the above were Rs. 90 and Rs. 81–1–4, respectively ; a sum of Rs. 16–5–5 was also recovered from Government on account of land revenue on parade and encamping grounds as no income was derived therefrom in 1893–94.

32. The other items show little or no difference and are hardly worth explanation.

33. *Incidence of Taxation.*—The incidence of taxation per head on the direct taxation and rents is As. 10–6.

34. *Expenditure.*—The actual expenditure during the year amounted to Rupees 21,950–9–1 against the revised estimate, viz., Rs. 22,280, leaving a closing balance of Rs. 2,967–6–0.

35. *Grant I.*—The total expenditure under this head is Rs. 3,183–2–4 against Rs. 3,400, which is the revised estimate figure.

	RS.	A.	P.
Revised estimate	880	0	0
Actuals	729	1	0
Decrease ..	150	15	0

36. (1) (*b*) *New Buildings.*—A sum of Rs. 91–11–3 out of a provision of Rs. 100 was spent on the purchase of corrugated iron for dust-bins and on the subsequent cost of having the same prepared ; Rupees 163–4–5 were paid as balance due for thorough repairs of the beef and mutton stalls in the market ; Rs. 38–0–6 were spent in the construction of temporary latrines to meet the requirements of the public. The choultry near the Post office was enclosed by a wall and gate at a cost of Rs. 51–1–2 ; a sum of Rs. 35–10–4 was spent in improvements to the market latrines. The hospital assistants' quarters were improved by having a kitchen erected at a small cost of Rs. 10. A sum of Rs. 90 was sanctioned for enclosing the high school verandah and a sum of Rs. 394 for dismantling the town school and erection of a building near the high school for the town school classes. Out of these amounts Rs. 58–0–8 and Rs. 281–4–8 were expended up to the close of the year under report ; hence the decrease in expenditure compared with the revised estimate.

37. *Repairs—Communications.*—The income from tolls after deducting the moiety of contribution to the district board was Rs. 3,055-2-6. More than half of this amount has been spent on the repairs of the several roads. The Palkonda road was thoroughly repaired for more than half its length at a cost of Rs. 531-13-5, but as this is the road over which there is the greatest traffic since it leads to the railway station, it has been considerably cut up. A sum of Rs. 424-15-5 was paid away during the current year for work done in 1893-94 as the contractor's bills were outstanding. The condition of the roads is on the whole fair, but many streets and lanes need to be improved with metalling and gravelling. From want of funds these have not been attended to. All the main roads need thorough repair during the current year.

	RS.	A.	P.
Revised estimate	1,640	0	0
Actuals	1,647	3	1
Increase ..	7	3	1

38. *Repairs—Buildings.*—The market godowns were repaired at a cost of Rupees 110-6-5 and the high and middle schools at a cost of Rs. 37-6-6. A sum of Rs. 49-3-10 was spent on re-thatching the carpentry shed and tank watchers' sheds. The Kaki street school was re-thatched at a cost of Rs. 14-9-6. The toll-sheds were re-thatched at a cost of Rs. 9-6-4; Rs. 5-5-2 were spent on petty repairs to the hospital. A sum of Rs. 150 was allotted for repairs to the hospital, but as a great deal of repairs were needed costing about Rs. 700, the work was postponed to the current year, as no funds were available during the year under report.

	RS.	A.	P.
Revised estimate	250	0	0
Actuals	226	5	9
Decrease ..	23	10	3

39. (2) (*c*) (*i*) *Drainage—Repairs to Works.*—Some of the drains had some cut stones removed and other repairs done to them costing in all Rs. 30-5-10.

	RS.	A.	P.
Revised estimate	50	0	0
Actuals	30	5	10
Decrease ..	19	10	2

40. (2) (*d*) (*i*) *Water-supply—Repairs to Works.*—The three tanks conserved for drinking purposes were fed with water from the river when they were dry. They were also cleaned of weeds and other noxious vegetation. A sum of Rs. 42-7-6 was spent for these purposes. A platform was constructed to the well in Gazula street for Rs. 30-14-2. The well at Badullapeta was repaired and the well in the municipal garden raised at a cost of Rs. 15 and Rs. 21-12-6, respectively.

	RS.	A.	P.
Revised estimate	120	0	0
Actuals	110	2	2
Decrease ..	9	13	10

41. (2) (*d*) (*ii*) *Tank Watcher's Establishment.*—The amount in the revised estimate was taken in round numbers. The actual expenditure was Rs. 108; hence the decrease.

	RS.	A.	P.
Revised estimate	110	0	0
Actuals	108	0	0
Decrease ..	2	0	0

42. (3) *Public Works Establishment.*—The supervisor and lascar were granted an increase of Rs. 3 and 1, respectively, to their salaries since 1st April 1894. These were sanctioned by Government in its review of the budget of the Chicacole Municipality for the year under report.

	RS.	A.	P.
Revised estimate	320	0	0
Actuals	320	0	0

43. (4) *Tools and Plant and other Stores.*—Several tools required for public works were purchased during the year. The allotment was found more than sufficient.

	RS.	A.	P.
Revised estimate	30	0	0
Actuals	12	0	6
Decrease ..	17	15	6

44. *Grant II—(i) Training Schools—(b) Stipends to Normal Students.*—A larger amount than what was anticipated was spent as travelling allowance to the gymnast to and from Saidapet where he was sent for training, also as travelling allowance to certain schoolmasters who were sent to Vizagapatam and Rajahmundry for training.

	RS.	A.	P.
Revised estimate	15	0	0
Actuals	45	1	6
Increase ..	30	1	6

45. *Municipal Schools—(i) On Salary System—(a) Establishment.*—The salary of the 2nd assistant of the high school who resigned on the 14th December 1894 was not drawn from the 15th December 1894 till the opening of the school after the Christmas holidays as no one was appointed in his place. The acting headmaster of the town school was appointed on a salary of only Rs. 35 per mensem from 4th March 1895 instead of Rs. 40, the salary of the permanent incumbent. The above together with certain other minor items of deductions from the salaries of some of the establishment was the cause of the decrease.

	RS.	A.	P.
Revised estimate	5,560	0	0
Actuals	5,514	4	2
Decrease ..	145	11	10

46. *High School.*—This school has been suffering from great disadvantages owing to the 1st and 2nd assistants not having been permanently appointed as they failed to obtain the L.T. Degree. The 2nd assistant returned from the Training college in February 1894 and in December 1894 resigned. No proper substitute was appointed till the 5th February 1895. The substitute appointed not being a L. T. was appointed only sub. *pro tem* and he also resigned in the current year. The 1st assistant having failed to obtain the L.T. Degree for the past two years was given notice that he will be replaced by a better qualified man. A trained L.T. who had taken physical science as his optional subject has been secured and he will join his appointment on the opening of the school after the summer vacation. The 1st assistant was sick for some time during January and February 1895 and then had to go to Madras to appear for the practical test of the L.T. Degree. The 2nd assistant's post is not sufficiently attractive for a L.T. at present and none has been secured for it, although one was advertised for. The results of the public examinations are on the whole very favourable notwithstanding the above disadvantages. Twenty-two boys appeared for the Matriculation and 6 passed, being about 27 per cent. This is favourable when compared with the average of the Presidency, namely, 22 per cent. The results of the Lower Secondary examination were very good. The number of boys who appeared for examination is 15 and 10 boys came out successful out of that number. Five were sent up for the compulsory portion and two passed. The average attendance of the school during the year under report was 64. The headmaster continues to discharge his duties very efficiently and satisfactorily. It is to be hoped that the results of the current year will be more favourable. The town school has been amalgamated with the high school since the beginning of the current year and the constant supervision by the Headmaster of the High school now will in a great measure tend to supply better material to the higher classes than previously. The carpentry class continued to work satisfactorily during the year. The net cost of this class to the municipality was Rs. 92-11-10. As the Inspector of Schools remarks this does not include the cost of other work performed for the municipality by the carpenter. If this is included, the net cost will be very trifling. The total receipts of the high school were Rs. 4,057-5-2 and the charges Rs. 4,606-8-6. The net cost to the municipality is Rs. 549-3-4. The school laboratory was provided with chemicals and chemical apparatus at a cost of Rs. 201-3-0.

47. *Middle School.*—The strength of this school continues to be very satisfactory. The highest number was 144 and average attendance 102. The additional master is still employed, but the one first appointed was removed to one of the primary schools as he was not successful in teaching this class. A better qualified teacher has been appointed in his place. The headmaster of this school was ill for four months and

the lower masters were promoted during his absence. The result was, I regret to say, very unsatisfactory as the results of the several classes at the examination for promotion were very poor. The acting incumbents were severely reprimanded and warned by me.

48. *Schools on Salary-Result System*—(*a*) *Fixed payments.*—The localities of the schools during the year under report were the same as last year. Three headmasters and one assistant master were sent for training and are expected to return shortly. The acting assistant master of the Muhammadan school and the headmaster of the Kanki street school died during the year and were replaced by others. The net cost of these schools was Rs. 992-0-1. The strength of the Arsavelli school is far from satisfactory and its continuance or not will be considered in the current year. There is a result system school in addition in this locality. The headmasters and their assistants have during the year worked satisfactorily.

	RS.	A.	P.
Revised estimate	1,560	0	0
Actuals	1,546	3	4
Decrease ..	13	12	8

49. (*b*) *Result Grants.*—The amount of grant earned by these schools was Rs. 391-15-2, a little below the estimate, and the difference needs no explanation. The rate of calculation was the same as in previous years.

	RS.	A.	P.
Revised estimate	400	0	0
Actuals	391	15	2
Decrease ..	8	0	10

50. (*c*) *Contingencies.*—The difference is very trifling and calls for no explanation.

	RS.	A.	P.
Revised estimate	140	0	0
Actuals	145	0	11
Increase ..	5	0	11

51. (4) *Result Grants.*—The several schools apparently did not acquit themselves as well as they should have done, and hence there is a decrease. The whole amount allowed in the certifying memoranda issued by the Inspecting officers was paid to the managers of the schools concerned.

	RS.	A.	P.
Revised estimate	300	0	0
Actuals	248	1	0
Decrease ..	51	15	0

52. *Inspection*—(6) (*b*) (*i*) *Establishment.*—The supervisor has not completed his course for a certificate according to the educational rules and hence is still appointed sub. *pro tem.* He is expected to obtain a certificate shortly or will have to be replaced. The decrease is due to round numbers having been adopted in the estimate.

	RS.	A.	P.
Revised estimate	220	0	0
Actuals	216	0	0
Decrease ..	4	0	0

53. (7) (*b*) *Common Gymnasium Establishment.*—The gymnast succeeded in passing the practical examination and obtained a certificate. This system of instructing the boys of the salary-result schools by turns continues. The difference of Re. 1 is due to the fine imposed on him for his bad behaviour.

	RS.	A.	P.
Revised estimate	120	0	0
Actuals	119	0	0
Decrease ..	1	0	0

54. (7) (*c*) *Other Items.*—The expenditure under this head was incurred in printing receipts, forms, &c., for all the schools.

	RS.	A.	P.
Revised estimate	15	0	0
Actuals	14	0	6
Decrease ..	0	15	6

55. *Grant III*—(1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—The increase is due to the Accountant-General having ordered the salary of hospital assistant M. Muttuswámi Pillai to be paid from Municipal funds during the time he was on leave. This hospital assistant was at first granted sick leave for three months and this was subsequently converted into privilege leave, without this office being consulted or sanction for the leave obtained. He served this municipality for only a little over one month and for this municipality to be burdened with his salary for three months, I thought very unjust and I strongly objected to it. My objection was overruled both by the Surgeon-General and the Accountant-General and the salary was ordered to be paid. Further during the period of his leave, he was promoted to first-class hospital assistant and this entailed additional expenditure to the municipality, as the difference of his salary, viz., Rs. 20 per mensem, had to be paid for nearly three months. The salary of his *locum-tenens* at Rs. 35 per mensem was however recovered from the Provincial funds for a little more than two months. The present hospital assistant T. Ramunni is of the third class. He has worked very satisfactorily and is very popular with the public. He is very hard working and intelligent. He is, however, under orders to Palghat. The medical pupil, who is now under training since October last, in order to qualify as a municipal hospital assistant, has been working satisfactorily and has made great progress in his studies as well as in dispensing of medicines and in attending to surgical cases. He will enter college on the 1st of October next. The midwife is reported to have worked very unsatisfactorily and has further been detected in producing a false certificate of having attended a case and to have forged the name of the husband of the woman she reported as having attended. She was guilty of very serious offences, but as the District and Medical and Sanitary Officer recommended that she should be fined as it is very difficult to secure another midwife in her place, she was let off with a heavy fine. She attended only 77 cases against 105 in 1893-94.

	RS.	A.	P.
Revised estimate	1,280	0	0
Actuals	1,407	12	4
Increase ..	127	12	4

56. *Vaccination.*—It is gratifying to report that vaccination has made some progress during the year under report although for some months no vaccine operations were performed on account of the lymph received from the Berhampur vaccine depôt having been of a very inferior quality. The medical officer in his report has reported fully on this, and hence I need not repeat the same. The first-class vaccinator Vinayakakotta continued to work during the year and has worked faithfully.

57. *Medicines and Supplies.*—Owing to the very large number of out-patients treated, viz., 24,853, the expenditure of medicines has been proportionate to the number treated. The hospital is very popular and patients come from all parts of the division for treatment. Further as medicines are now being received from Messrs. Burgoyne, Burbidges and Company and not from the Medical Stores as hitherto, the prices of the former firm are very high when compared with those of the latter institution. Hence the increase.

	RS.	A.	P.
Revised estimate	1,000	0	0
Actuals	1,101	6	4
Increase ..	101	6	4

58. *Diet of patients.*—Only 151 in-patients were treated against 185 in 1893-94, as admissions are restricted to only very serious cases. Hence the decrease.

	RS.	A.	P.
Revised estimate	500	0	0
Actuals	387	5	1
Decrease ..	112	10	11

59. *Sundries and Contingencies.*—For the same reasons given under medicines and supplies the amount of contingent charges shows an increase.

	RS.	A.	P.
Revised estimate	300	0	0
Actuals	350	0	7
Increase ..	50	0	7

	RS.	A.	P.
Revised estimate	30	0	0
Actuals	48	0	5
Increase ..	18	0	5

60. *Vaccination—(b) Contingencies.*—Owing to the increase in the number of vaccine operations more lymph had to be purchased. Hence the increase.

61. *Registration of Births and Deaths.*—Although nine cases for failure to register births and five cases for failure to register deaths were prosecuted during the year, still I regret to state registration of vital statistics has made no progress whatever. On the other hand there is a decrease when compared with last year, as 419 births and 429 deaths were registered during the year under report against 451 and 434, respectively in 1893–94. The registrar has been doing his best to show an improvement, but has met with no success. A great majority of the population are of a rude illiterate nature and will not yield to municipal laws easily, hence the difficulty to improve the registration of vital statistics. It is to be hoped that in the current year more prosecutions will take place and that there will be marked improvement in registration.

62. *Conservancy Establishment.*—The decrease is due to the full establishment of toties for public latrines not having been employed for several months owing to there not having been a sufficient number of latrines constructed till some months after the provision was made, also to fines and stoppages of salaries of sweepers who left for Rangoon in the course of the year after having worked for several days each in the month.

	RS.	A.	P.
Revised estimate	2,450	0	0
Actuals	2,375	3	8
Decrease ..	74	12	4

63. (5) (*a*) (*ii*) *Other charges, &c.*—No fodder for cattle was stored last year and in addition to the daily cost of fodder for the year under report, a supply has been purchased and kept in stock for the current year. Owing to the conservancy carts being old and greatly out of repairs they needed on several occasions to be repaired. Hence the increase.

	RS.	A.	P.
Revised estimate	270	0	0
Actuals	339	12	0
Increase ..	69	12	0

64. *Private Scavenging Establishment.*—Many were fined on account of bad and careless work; hence the decrease. I regret to report that the system of cleaning private latrines under municipal agency made no progress whatever. The fault appears to lie a great deal with the toties as they are better paid by each household when engaged privately; and hence in order to secure better wages, they often neglect the private latrines. The rate of fees charged by the municipality is now very low, viz., As. 2 and As. 4 for cleaning the latrines once and twice, respectively. When the sweepers are engaged privately, the parties pay according to their circumstances and some pay as much as As. 8 and As. 12 per mensem. I fear this system will not work satisfactorily unless something is done to improve the wages of the toties, but this is impossible unless the fees are raised. I have, as a rule, always punished the toties severely, whenever reported for neglect of work.

Decrease ..	6	0	0

	Rs.	A.	P.
Revised estimate	40	0	0
Actuals	39	4	8
Decrease ..	0	11	4

75. (*ii*) *Contingencies.*—The expenditure under this head was incurred in March 1894 for the purchase of oil, stationery, &c., for the tolls statistics collectors and which amount had to be paid in the year under report.

76. (*d*) *Office Contingencies other than* (*b*) (*ii*).—The increase was due to an almirah having been purchased for the office for Rs. 20, as one was greatly needed for preserving records, &c., also to a great number of printed forms, &c., having been obtained from Madras.

	Rs.	A.	P.
Revised estimate	300	0	0
Actuals	310	7	5
Increase ..	10	7	5

77. *Refunds of other than current collections.*—It was found that erroneous demands had been made in some cases of tax on animals in 1893–94 and the amounts collected. The parties appealed and the council remitted the amount expended under this head.

	Rs.	A.	P.
Revised Estimate	10	0	0
Actuals	6	8	0
Decrease ..	3	8	0

78. *Demand, Collection and Balance statement.*—There was at the close of 1893–94 a balance of old demand amounting to Rs. 206–4–0 and arrears of 1893–94 amounting to Rs. 716–9–0 making a total demand of Rs. 922–13–0. Of this amount Rs. 682–8–0 were collected and Rs. 240–5–0 written off as irrecoverable (under tax on animals alone, Rs. 212–12–0 were remitted on account of poverty, erroneous demand, &c.). There is a balance of only Rs. 293–3–0 left uncollected out of the demand for the second half of the year under report. Out of this amount Rs. 203–4–0 is for tax on animals. It was with great difficulty that the large amount due under arrears of last year and the amount due for the year under report under tax on animals were collected. The balance outstanding could not but be left uncollected. It is to be hoped that at the end of the current year there will be no outstandings whatever.

79. *Coercive process.*—There were 97 warrants involving a sum of Rs. 157 remaining unexecuted at the close of 1893–94. During the year under report 677 warrants involving a sum of Rs. 708–7–6 were issued, making a total of 774 warrants involving a sum of Rs. 865–7–6 to be executed during the year under report. Of this amount 113 warrants involving a sum of Rs. 171–11–0 were cancelled, in 616 involving a sum of Rs. 636–12–6, the amounts were collected after issue of warrants, in only twelve cases involving a sum of Rs. 18, property was distrained but not sold, leaving a balance of only 33 warrants involving a sum of Rs. 44 unexecuted at the close of the year. The tax-payers seem to think that the taxes due by them should be paid only after the warrants are presented; and hence so many as 616 warrants had to be cancelled after they were issued, as the parties paid the amounts due when the warrants were presented. This procedure does not involve any additional expense to them, but on the other hand they have additional time in which to pay their taxes.

80. Thirty-six meetings were convened during the year and none were adjourned for want of a quorum. The average attendance of the councillors at the meetings were 9·5 against 8·12 in 1893–94. The office of chairman was vacant at the close of 1893–94 and the Divisional officer took charge and delegated his powers under section 32 (2) of the Act to M.R.Ry. T. V. Siva Ráo Pantulu. I was duly elected by the council at the meeting held on the 7th May 1894, but did not take charge of the office till the 18th June 1894, as my appointment did not appear in the Gazette till that date.

ENCLOSURE.

ANNUAL Report of the Municipal Hospital, Chicacole, for the year 1894–95.

I. Public Health.—The public health of the town has been very satisfactory during the year under report. Excepting a few cases of small-pox, measles and chicken-pox, no other epidemic prevailed in the town. One death was registered under small-pox. During the rainy and in the cold season there was a large number of cases treated under fevers of a mild malarial type. Leprosy appears to be on the increase in the town, and the majority of cases is among the low castes who, as a rule, live upon putrid fish and also eat the carcasses of dead animals. This is being prevented as much as possible, but with the inadequate staff of the municipality it is almost impossible to altogether prevent these people from consuming the above.

II. Vital Statistics.—The registrar of births and deaths registered 419 births and 429 deaths during the year. Nine cases for failure to register births and five cases for failure to register deaths were prosecuted before the Magistrate. All were convicted and the total amount realised as fines under this head was Rs. 3. Although so many cases were prosecuted still the public do not come forward voluntarily to register, and almost all the births and deaths registered were from information gathered by the registrar and nuisance peons.

III. Sanitation.—The sanitation of the town is on the whole very satisfactory, but there is still room for much improvement. It is a matter of great difficulty to introduce reforms in sanitation and to prevent the discontinuance of long-standing customs. The committing of nuisances in the river-bed within the municipal limits has been completely stopped. A very large number of cases were prosecuted at the beginning for committing these offences, but at present these offences are greatly minimised. Seven additional temporary latrines were put up for the convenience of the public, and these with the previously existing ones are sufficient to meet the wants of the public. These latrines are kept as clean as can be expected. The sanitary and conservancy staffs are the same as in previous years. A few more sweepers are needed, and it is hoped that the council will make provision for the same in the next budget.

The water-supply is fair and the tanks conserved are the same as in previous years. The tanks need cleaning out and one also deepening. These improvements, I trust, will be taken in hand by the municipal council this year.

The main roads need thorough repair and so also some streets. Most of the roads were put in repair during the year under report, but on account of the wear and tear they are subjected to, they need attending to again. Some lanterns that were under repair were put up during the year, but there are a great many more needed. Provision has been made for a new slaughter-house and the work will be taken in hand this year. The number of dust-bins is insufficient, but it is expected that the municipal council will provide more during the current year.

It has been a long-standing custom to allow the sewage water of houses to flow into the public drains and streets, but as the condition of the drains is such as not to be able to carry away sewage water, strenuous efforts are being made to prevent this nuisance, since the water remains stagnant in the drains and, unless removed, will prove a source of danger to the health of the public. The owners of houses have been requested to construct cesspools for their sewage water and to have them cleaned as frequently as possible. The municipal council has resolved to clean their cesspools under its agency.

IV. Vaccination.—It is gratifying to note that the compulsory sections of the Act regarding vaccination are being strictly enforced. A large number of cases were reported to the Magistrate, and after excluding cases excused by the Magistrate when the parties had their children vaccinated before the expiry of the notice given them by him, a large number still remained for punishment for disobedience of the orders of the Magistrate. A sum of Rs. 52–4–0 was realised as fines under this head. The local Magistrate was very lax at first in assisting this municipality in the enquiry of cases and delayed the enquiry of some cases reported to him in October 1893 till the end of 1894. The Chairman was obliged to report the conduct of the Magistrate to the District Magistrate, with the result that he was fined Rs. 5. Cases are now being disposed of somewhat promptly. The number of cases vaccinated by me and the hospital assistant during the year was 118 with 91 successful, 25 unsuccesful and 2 unknown against 49 cases vaccinated in 1893–94 with 38 successful. The municipal vaccinator vaccinated 1,198 cases during the year with 915 successful, 280 unsuccessful and 3 unknown against 848 cases vaccinated in 1893–94 with 535 successful.

The outturn of work is very good and is in a measure due to the supply of lymph being easily and readily obtained on account of a calf vaccine depôt having been opened in this station by the local fund board and placed under my supervision. During the year lymph was obtained from three different sources for this municipality and the results from each source are as follows :—

Depôts.	Number vaccinated.	Successful.	Unsuccessful.
Berhampur	197	23	174
Palkonda	37	35	2
Chicacole	964	857	107 including 3 unknown.
Total ..	1,198	915	283

The municipal vaccinator has been working very satisfactorily during the year and has done his utmost in assisting in the enforcing of the compulsory sections of the Act. He is required to vaccinate only 900 cases a year, but has exceeded this amount by almost 300.

I regret to state that G.O., No. 1502, dated 19th October 1894, is not being fully carried out by the Magistrate, and parties who have failed to have their children vaccinated after being served with notices by the vaccinator are being allowed extensions by the Magistrate without the producing of medical certificates.

V. Hospitals and Dispensaries.—(*a*) *Nature and sufficiency of accommodation.*—The building was originally a dwelling-house but was improved and used as a hospital. Separate wards were built for females and this building is apart from the main building. A proper store room fitted up with shelves is needed. The accommodation is more than sufficient.

(*b*) *State of repair of building.*—The buildings continue to be in an unsatisfactory condition and much in need of repair. A sum of Rs. 700 has been allotted in the current year's budget for repairs. The repairs will be taken in hand shortly.

(*c*) *State of repair of furniture.*—The furniture is sufficient and in a fair state of repair. Some cots are in a bad condition and as they are not needed will be auctioned after the orders of the Chairman are received. It will be well if the present wooden cots in the male ward be replaced by iron cots.

(*d*) *Number of patients treated as compared with previous years.*—The following table shows the number of patients treated, &c :—

—	Admissions.			Average daily attendance.		
	In.	Out.	Total.	In.	Out.	Total.
1891–92	198	14,797	14,995	10·65	75·11	85·76
1892–93	240	18,176	18,416	12·22	97·78	110·00
1893–94	185	19,150	19,335	10·10	118·17	128·27
1894–95	151	24,853	25,105	11·84	137·00	148·84

The number of in-patients treated is less than in 1893–94, but this is due to only very serious cases being admitted. The number of out-patients shows a very satisfactory increase, due to the increasing popularity of the institution and in a great measure to the popularity of the present Hospital Assistant T. Ramunni.

(*e*) *Mortality and actual causes of it.*—There were 13 deaths among in-patients. This is a large number, but as stated above as only very serious cases are admitted, a smaller number cannot be expected as a great many of the cases that died were in a state of hopelessness when admitted. The number of deaths among out-patients cannot be stated as it is difficult to obtain the results of out-patients treated, especially as some come from very distant villages.

(*f*) *Operations and results.*—Twenty-four major operations were performed during the year with the following result : sixteen cured and eight relieved against thirteen major performed in 1893–94. 264 minor operations, all successful, were performed during the year against 243 in 1893–94.

(*g*) *Establishment, whether sufficient and efficient.*—On account of the very large number of patients treated, the dispensary work is far more than what one man can get through. The municipal medical pupil is at present assisting and on his departure to college in October the council has made provision for the entertainment of a paid probationary compounder. The establishment is sufficient and performs the several duties in an efficient manner.

(*h*) *Midwives.*—I regret to report very unfavourably on the work of the midwife. As suspected by me she has been detected in having reported a case falsely and of having forged the name of the husband in the certificate. She was reported by me to the Chairman and recommended for dismissal ; but as there is great difficulty in securing a midwife to work in this district, the District Medical and Sanitary Officer took a lenient view of the case and proposed that she should be severely fined. The Chairman accordingly fined her Rs. 5 and warned her that she will be severely dealt with if she commits herself again. She attended in all 77 cases during the year against 105 in 1893–94. The decrease is due to her not being able, in my opinion, to report false cases. The outturn of her work is bad and as a midwife has been working in this station for 12 years, more cases should have been attended.

(*i*) No provision is made for the treatment of gosha and caste women in a separate dispensary.

(*j*) *General Remarks.*—Nil.

Medical Officer, Civil Station, Chicacole.

C. No. 1194-Rev.

Forwarded through the Collector.

The condition of the main roads is rather better than last year and the lanes are in fair order.

(Signed) J. G. D. PARTRIDGE,
Acting Principal Asst. Collector.

7th May 1895.

Dis. No. 494-Eng.

Forwarded.

2. Thirty-six meetings were held by the municipal council during the year against thirty in the previous year. The average attendance of the non-official members continued to be satisfactory and that of the official members was not unsatisfactory, being 1·5 out of 3.

3. The collections were generally good except in the case of tax on animals, in which there remained a balance of Rs. 203–4–0 out of the final demand of Rs. 987 for the year 1894–95.

4. The selection of suitable sites for rubbish depôts outside the municipal limits has been under contemplation by the municipal council for more than two years without any practical effect being given to its deliberations. The sites should be selected without further delay.

5. The roads are reported to be in fair order unlike their state in 1893–94.

6. Vaccination appears to have received some attention during the year, the total number of successful operations being 1,006 against 573 in the previous year.

7. Fourteen cases were instituted during the year for failure to register births and deaths. All of these ended in conviction, and it is hoped that these and similar prosecutions will ensure a more reliable registration of vital statistics.

CHATRAPUR,
13*th May* 1895.

(Signed) R. H. SHIPLEY,
Acting Collector.

From the Chairman, Municipal Council, Chicacole, dated 6th June 1895, No. 449.

ABSTRACT.—Submitting with remarks the Educational statements of the Chicacole Municipality for the year 1894–95.

ORDER—dated 22nd July 1895, No. 1162 M., Local and Municipal.

The receipts and charges of the Chicacole Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.
Receipts.	RS.	RS.	RS.	RS.
Balance brought forward	1,656	1,610	2,210	2,206
Tax on Arts	1,828	1,500	2,100	2,122
„ on Buildings and Lands	3,113	3,200	3,170	3,228
„ on Vehicles and Animals	1,604	1,170	1,170	1,516
„ on Carts	323	350	400	485
Tolls	3,617	3,500	3,010	3,055
Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, &c.	55	100	90	71
Conservancy Receipts	22	30	30	23
Fees and Revenue from Educational Institutions	5,866	5,880	5,880	6,455
„ „ from Medical Institutions	92	80	100	104
Income from Markets and Slaughter-houses	2,458	2,400	2,400	2,296
License Fees	175	180	180	181
Other Fees	618	520	490	485
Fines under Municipal and other Acts	167	150	200	250
Interest on Investments and Premium on Loans	80	80	80	90

Total ..	963	1,090	1,090	1,115
GRANT V—				
Supervision and Management	1,741	1,800	1,730	1,728
Advances Recoverable	24	..	..	8
Refunds	5	..	10	7
Balance	2,206	860	1,550	2,967
Total ..	23,632	23,070	23,830	24,918

2. The municipal council held thirty-six meetings against thirty in 1893–94. The average attendance of the members improved and was, on the whole, satisfactory.

3. *Receipts.*—(1) The net current demand under the tax on arts and professions rose from Rs. 1,868 to Rs. 2,170, but the average assessment per head was still only Rs. 3–1–1 against a general average of Rs. 4 for all municipalities in 1893–94. It would appear, therefore, that this source of revenue is capable of further development if the tax is properly assessed. The demand under the tax on houses showed a slight increase of Rs. 71, while that under the tax on lands remained stationary. The collections under these taxes continued to be satisfactory.

(2) It is observed that the receipts from the taxes on buildings, lands and carts showed increases, ascribed in great measure to more careful administration. Every effort should be made to realize all the outstandings under the tax on animals before the close of the current year.

(3) The revenue derived from the sale of the town refuse showed hardly any improvement. The removal of the rubbish depôts outside the municipal limits should be given effect to without further delay; when this is done, a demand for the sweepings will, no doubt, be created, resulting in an enhanced income from this source. The large increase in the receipts from school fees is noted.

(4) It is to be regretted that the number of houses served by the private scavenging agency fell from 278 to 258 out of a total of 1,226 assessed to the tax on buildings, and that the service was worked at a loss of Rs. 95 to the municipal council. The council should consider the desirability of raising the rate of fees for the service and of giving better wages to the scavengers. The result should be reported to Government. It is not creditable that this municipality should continue to be so backward in the matter of private scavenging.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The expenditure on communications amounted to Rs. 1,647 or 55·0 per cent. of the net income from tolls. It is satisfactory to note that the main roads are reported to have been in rather better condition than in the previous year.

(2) *Education.*—The net expenditure on primary education was Rs. 1,721, that on secondary education being a *minus* figure of Rs. 213. The total outlay on education was thus Rs. 1,508, or 14·5 per cent. of the receipts from taxation. As in the previous year, the municipal council maintained one high school and one lower secondary school on the salary system and seven primary schools on the salary-results system, and aided six primary schools with result grants. The number of pupils in the high school fell from 106 to 91; in the lower secondary school there was an increase of 14; while in the primary schools there was little or no variation. The attendance in the aided schools showed an improvement, but it is not satisfactory that nearly 17 per cent. of the allotment for result grants was allowed to lapse. Excepting the Matriculation examination, at which only six candidates passed out of twenty-two presented, the results of the various examinations in the municipal and aided schools were fair, though not so good as in the previous year, and the total number
