Submitting Board Statements of the Coonoor Municipality (Nos 1-2-3 & 4) for 1894-95.

No 47. Municipal Office
Coonoor 25th May 1895

CURRENT No.

From

J. A. Marjoribanks Esqr
Chairman, Municipal Council
Coonoor.

To

The Honorable Mr. J. F. Price C.S.I.
Chief Secretary to Government.
(Through the Collector of Nilgiris)

No 8

Sir,

I have the honor to submit the following report of the administration of the Coonoor Municipality for the official year 1894/95 with Statements in the prescribed forms:-

2. The accounts of the year have been audited by M.R. Ry T. Venkatapati Naidoo Avargal, Assistant Inspector of Local Fund accounts, whose report is herewith submitted.-

I. Constitution of the Council.

3. The sanctioned strength of the Council is twelve, all nominated by Government, but it consisted at the end of the year of eleven members only as the vacancy caused by the departure from the station of Mr. A.-t. Groves, was not filled up before the close of the year. Of these eleven members eight were Europeans and three natives. Viz, one ex officio member, two official and five non-official members, Europeans, and three non-official members, natives. Mr. Marjoribanks' tenure of office as Chairman having expired on the 28 November 1894

he was reelected to that office from the 30 idem. Twenty two meetings were held during the year, and one meeting was adjourned for want of a quorum. The average attendance was as follows:

Officials	1.0
Non-Officials	5.7
Europeans	5.0
Natives	1.7

II. Receipts

A. Receipts from Taxation.

4. The opening balance on the 1st April 1894 was Rs 6,415.12.11, and the receipts of the year amounted to Rs 37,841.10.4. The principal variations between the actuals and the estimates of the year and the actuals of the previous year are explained below.

5. Tax on arts Rs 1,256.8. The increase above the previous year and the budget and revised estimates is owing to the collection of arrears. The average incidence per head was Rs 4.14.7.

6. Tax on Buildings Rs 9244.15. The increase under this head is due to the same cause. 516 buildings were assessed at Rs 8,916.7.4, the average incidence being Rs 17.4.6.

7. Tax on Lands Rs 3,647.1.8. The increase under tax on lands is also due to the collection of arrears. The total extent of land assessed was 2,714 acres and 91 cents. The difference of 110 acres and 35 cents between these figures and those shown in the previous years report is owing to certain patanad lands appertaining to buildings having been through inadvertence included in the taxed acreage of the previous year.

8. Tax on Vehicles Rs 540 - and Tax on animals Rs 797.8.0. These receipts are of a fluctuating nature and depend in a great measure on the number of Vehicles and animals brought up to Coonoor by visitors during the season.

9. Tax on Carts Rs 83. Requires no remark.

B. Miscellaneous Receipts.

10. Rent of Lands Rs 8. This amount was received for two small plots of land, one near the Coonoor bridge and the other in front of Mr. Kelman's shop on the Mount Road.

11. Avenue Receipts Rs 3. This amount is the sale proceeds of a tree cut down from the side of a road.

12. Sale Proceeds of old materials Rs 72.2.1 - The increase under this head is chiefly due to the sale of a large number of empty packing cases and unserviceable tools.

13. Conservancy Receipts Rs 800. There were no bidders at the sale for night soil and sweepings. Under these circumstances the Council accepted an offer of Rs 800 from a planter for the same on condition that the stuff should be delivered at his estate at some distance beyond Municipal limits which was accordingly done.

14 Sale proceeds and Composition Fees of Medicines and Other Hospital Receipts Rs 394.13.7 - The increase under these heads shows that the benefits afforded by the Coonoor Hospital are appreciated and taken advantage of.

15. Income from markets Rs 8680 - The increase is due to keen competition at the annual sale of market tolls and fees. If from the above amount the following items of expenditure be deducted the net receipts will stand at - Rs 7,091-9-5-

Repairs of market sheds and grounds - 1,046-11-7
Establishment and Contingencies - 541-11-4
1,588-6-7

16. Slaughter House Fees Rs 1,900. The increase under this head is also due to competition at the annual sales.

17. Distraint Fees Rs 5-4-0 - Requires no remark.

18. Licence Fees Rs 386-1-6 - The increase is due to the development of this source of revenue.

19. Cart stand Fees Rs 415. This is the amount for which the privilege of collecting cart stand fees was sold at auction.

20. Other Fees. Annas 8 were collected for granting an extract from the register of deaths.

21 Fines under municipal and other acts Rs 97-14-0 The receipts under this head are larger than was anticipated in consequence of an European Police Inspector now being stationed in Coonoor under whose superintendence the Police are more alert in taking up nuisance and other cases for trial before the Special Magistrate.

22. Grants and Contributions from Government Rs 3,980-8- Of this sum Rs 1,300 were received for the Coonoor Hospital. Rs 2,500 for the maintenance of station roads, and Rs 180-8-0 from the Military Department as Compensation under India Act XI of 1881 on account of tax on military officers residing in the Municipality for want of house accommodation in Wellington.

23. Contribution from Local Boards Rs 600. This sum was received from the Nilgiri District Board - Rs 500 being for the Coonoor Hospital and Rs 100. for the maintenance of a part of the old forest road lying beyond municipal limits.

24. Other Grants and Contributions Rs 628. This is the amount of private subscriptions and donations received on account of the Coonoor Hospital.

25. Private Scavenging Rs 1726-5-6 - The increase is due to the extension of Private Scavenging.

26. Other sources Rs 8-2-8 - Of this sum Rs 2-2-8 was received for work done for a private individual, and Rs 6-- for burying dead animals.

27. Other items Rs 50-9-4 - The particulars of this sum will be found detailed in Statement No I.

28. Realizations of sinking Fund for repayment of Loans Rs 2,516-8-0 - This amount is the sale proceeds of Government Securities invested for the repayment of the Slaughter house loan, the balance due on account of which was paid off during the year.

III Expenditure -

29. The expenditure of the year amounted to Rs 38,467-15-2 and the per centage under each grant was as follows:-

	Rs	Per centage
Grant I. Public Works	11179.	29.0
" II. Education	1795.	4.7
" III. Sanitation and Medical services	11208.	29.1
" IV. Lighting & miscellaneous	3941	10.3
" V. Supervision & management	4412	11.5
Repayment of debt	5547	14.4
Refunds &c	386	1.0
Total	38468	100.0

30. Grant I. Public Works - New Works. Buildings - Rs 1380. This sum was spent in making alterations to, and enlarging the Municipal office, the accommodation being found insufficient.

31. Repairs Communications Rs 6000. 5.3. The increase above the budget is due to charges incurred in building stone revetment and parapet walls in dangerous places by the sides of roads. The roads are in good order. The total mileage of roads is 30 miles and 6 furlongs, of which 17 miles are metalled. and the metalling of a further portion will be undertaken as funds are available.

32. Buildings Rs 799. 7.8. This sum was spent in repairing the various buildings shown in statement III A part II.

33. Drainage Rs 674. 14.1. This is the amount laid out in keeping the drainage works in order.

34. Water Supply - Repairs to Channels, &c. The Charges incurred for repairing the drinking water channels and sluices &c, connected therewith, amounted to Rs 567. 11.2

35. Tools and Plant Rs 87. 13. 6. It was not found necessary to incur a larger expenditure under this head, hence the decrease.

36. Contributions to Provincial Funds, Rs 34. 8.0. This sum was paid for the scrutiny by the superintending Engineer of the estimate for enlarging the Municipal office.

37. Grant III. Education - Salary Grants Rs 960. This amount was paid on account of salary grants to the teachers of St. Anthony's School.

38. Results Grants - Rs 236. 1. 6. Of this sum Rs 137. were earned by the Church Mission School, and Rs 99. 1. 6 by the American Mission School inclusive of Rs 25. 1. 6 due for the previous year.

39. Inspection Rs 99. 15. 8. This amount is the contribution paid to the Hilgiri District Board for Educational Inspection.

40. Miscellaneous Rs 1093. 10. 1. Of this the sum of Rs 54. 3. 1 was paid to a drawing master entertained from 10 December 1894 under the sanction of Government dated 20 July 1894 No 953 M Mis, Rs 350 as a building grant to St Anthony's School - Rs 38. 8. as a rent grant to the Church Mission School - Rs 10 to a gymnastic Instructor for the American Mission School, and the balance for furniture &c procured for the drawing master &c.

41. Grant III Sanitation and Medical Services. Hospitals and Dispensaries Rs 4068. 2. 10. The increase above the actuals of the previous year and the revised estimate in the charges incurred for medicines and supplies is to be attributed to the high rate of exchange in making payment for medicines supplied from England. Adverting to G.O. of the 6 June 1894 No 1054 L. I have the honor to state that the Hospital

Assistant attached to the Connor Hospital is allowed free quarters.

42. Contributions to Provincial Funds Rs 305. The contributions for the Medical College, Sanitary Inspection and Medical Reserve staff work as usual paid on advices from the Accountant General.

43. It was not considered necessary to incur any expenditure for training female medical practitioners in this Municipality.

44. General Health. As will be seen from the Civil Surgeon's report the general health of the town during the year under report was satisfactory. The Council has much pleasure in here stating that Surgeon Lieut: Col: Lancaster has supervised the Sanitation of the town carefully and successfully. No cases of typhoid fever, small pox or cholera have occurred during the year. Dr Lancaster has also worked the Hospital well, as is evidenced by the increase in the number of cases treated.

45. Vital Statistics. Particulars under this head for the past three years are given below:

years	Number of operations by municipal vaccinator	cost of each operation Rs as P	Number of Births	Rate per mille	Number of Deaths	Rate per mille
1892/93	615	0-9-4	206	34.1	207	34.1
1893/94	538	0-8-8	257	42.4	217	35.8
1894/95	682	0-7-11	210	34.7	171	28.2

Further particulars of Vaccination, births and deaths will be found in Statements XII and XIII as well as in the Medical Officer's report.

46. Conservancy. There were fourteen conservancy carts employed during the year; eight for the removal of night soil and six for the removal of sweepings; there were also two hand carts for the removal of liquid sewage. The number of public latrines was thirteen and the houses on the register of the private scavenging agency at the end of the year was 142. Two notices were issued under section 176 of the act, one under section 183, six under section 186 (1) and one under section 214, for lopping of branches, clearing undergrowth, &c.

47. Grant IV. Lighting Contingencies. Rs 910-13. The increase under this head is due to the purchase of some new iron lamp posts. Six more lights were put up during the year, so that the number of lights at the end of the year was 86.

48. Markets. The Markets grounds have been thoroughly metalled and improved at a cost of Rs 791-1-4.

49. Slaughter Houses. The number of cattle and sheep slaughtered during the past three years are noted below.

	Cows	Sheep
1892/93	1,342	7,314
1893/94	1,632	10,841
1894/95	1,808	10,187

The fees which the renter is allowed to charge are eight annas for each cow or bullock and two annas for each sheep or goat slaughtered.

50. Other charges Rs 1,839-3-7. Of this sum Rs 383-0-11 were paid for printing the Councils' proceedings and for work executed at the Government Press. Rs 262-5 for law charges in a suit brought against the Municipality. Rs 20 for burying paupers. Rs 382-12-4 for repairing and draining one of the

cart stands and Rs 791-1-4 for metalling and improving the market grounds as stated in para 48 supra.

51. Grant V. Rs 4,411-9-9. The charges under this head call for no remark.

IV Repayment of Debt, closing Balance &c

52 Repayment of Debt - Rs 5546-11-2 - This amount consists of the following items :-

Balance of Principal of the Slaughter House loan raised in the open market	4,000-0-0	
Interest thereon	240-0-0	4,240-0-0
Instalments of principal of market loan	370-11-0	
Interest thereon	30-0-2	400-11-2
Instalments of principal of drainage loans	445-5-8	
Interest thereon	460-10-4	906-0-0
Total		5546-11-2

53. Advances - Rs 254-0-4 - A quantity of stone ware drains for improving the drainage works was procured from Messrs Burn & Co, Calcutta at a cost of Rs 478-3-10, of which drains to the value of Rs 224-3-6 were utilized and their cost adjusted during the year.

54. Refunds Rs 132-5-11. This is the amount of refunds of tax paid to parties on vacant buildings &c.

55. Excess charges. A statement of charges incurred in excess of the regular estimate amounting to Rs 383-10-5 is herewith submitted for the sanction of Government in order to remove audit objections.

56. Closing Balance. The year closed with a balance of Rs 5,789-8-1.

57 This report was read and adopted by the Municipal at its meeting held on the 23rd instant.

58. The following statements &c are herewith submitted.

68

(1) Annual Statement I to XIII.

(2) Report of Medical officer dated 25 April 1895.

(3) Educational statements received from the Inspector of schools western circle dated 6 may 1895.

(4) Statement of Excess Charges

(5) Audit report dated 8 may 1895. No $\frac{L.7.D.}{60}$.

From

Surgeon Lt. Col. John Lancaster M.B. M.C.
Civil Surgeon
Coonoor.

To

J. A. Marjoribanks Esq.
Chairman, Municipal Council
Coonoor

Sir,

I have the honor to forward the exe-
cised annual report on the Municipal Hospitals
for the year 1894-95.

1. Public Health. The public health was on
the whole satisfactory during the year. There was
no epidemic of any kind during the greater
part of the year but in February and March
last, Symptoms of Influenza appeared follow-
ed by an aggravation of respiratory diseases.
The health of the Europeans living in the town

town has been good.

During the months of November and December fevers and diseases of the digestive organs were prevalent among the poorer classes of Hindoos who were exposed to the climate, fatigue, or to the want of suitable clothing. Many who suffered were new arrivals from the plains, Coolies from the surrounding coffee estates and pilgrims from the Malabar coast. In many cases the fever was of a malarial kind and prevailed amongst Coolies living on the lower Slopes of the Hills. There were no cases of Small-pox in the town during the year, which is creditable to the Vaccine Department and to the general Sanitation of the town.

No cases of Typhoid were treated in the Hospital or in the town which is also very Satisfactory.

The rainfall was irregular and there was a long drought from December 1894 to March 1895. The total rainfall was 36.17 inches as compared to 49.10 of the previous year.

2

2 Vital statistics. The total mortality in the town was 171 - or 28.27 per mille as compared to 217 deaths - or 35.87 per mille of the previous year. Many of the deaths occured amongst the floating population of the town, Coolies from Surrounding plantations, travellers and pilgrims from the West coast. 26 cases were brought into Hospital in a moribund condition from the District and from the town.

The principal causes of death were from Fevers - 41. Dysentery and Diarrhoea &c. - 39. Injuries - 2. All other causes - 89.

The total number of births was 210 or 34.72 per mille as compared to 257 or 42.49 per mille of the previous year. This may be due to the large number of labourers and their families who were working on the Nilgiri Railway and who left during the year when the works were nearly closed. The sexes were nearly equal

equal in the birth rate viz 110 males and 100 females.

3. Sanitation. The Sanitary condition of the town has steadily improved during the year, but it is still open to improvement. The drainage is not satisfactory and the water supply of the town is not as satisfactory as it should be. The supply to the European part of the Station is good and it is chiefly from private Springs, but the supply to the native town though fairly abundant is open to pollution. The question of a good water supply to this charming Station is one of vital importance and on it depends the future increased popularity of the Station, as a health resort. The water is here; all it requires is protection from pollution. The water Scheme is engaging the attention of the Council; and the Senior Member of Council and the Sanitary Commissioner have inspected the various Sources of the present supply.

The Scheme will, I believe, soon be sanctioned by Government.

9 8

There have been several improvements carried out during the year. The market and bandy-stands have been thoroughly repaired & metalled. The Hospital has been thoroughly repaired. Much undergrowth has been removed and the Station opened out. The roads are in Capital order and lights have been placed in parts requiring it. All private latrines are efficiently cleaned & Vaccination. Vaccination has steadily improved. There were 682 cases vaccinated, of which 661 were Successful as compared to 538 with 530 Successful in the previous year.

Of children under one year of age 307 were vaccinated; of these 300 cases were successful as compared with 227 vaccinated and 208 Successful cases in the previous year.

The Hospital assistant also vaccinated 6 adults: all

all of which were successful. One of these was under one year. Calf. lymph preserved in Glycerine was used and was sent to me by the Civil Surgeon of Potiacamund.

The work and conduct of Vaccinator C. Dunnigiah were good and he has paid more attention to his work this year.

5. Hospitals

(a) Nature and Sufficiency of accommodation.

The hospital consists of two blocks. One for Europeans and the other for Natives. There is a lying in ward for both races with bath room attached. There are five wards for European and Native patients and for caste patients. There is an isolated shed for Cholera and Small-pox cases.

The accommodation is to be increased in the Municipal Hospital during the year.

(b) State of repair of buildings.

The Hospital is in thorough repair.

(c) State of repair of furniture

The furniture is in good order.

1082

(d) Number of patients treated as compared with previous year.

Years	In-door	Died	Out-door	Total	Average daily attendance. In door	Out door
1891-92	323	47	9175	9498	10.99	50.79
1892-93	265	26	8392	8657	9.45	54.48
1893-94	349	27	8445	8794	12.14	59.46
1894-95	371	34	8899	9270	14.41	72.21

(e) Mortality and actual causes of it.

There were 34 deaths in Hospital. Of these 26 were brought into Hospital in a moribund condition and soon passed away. The cases were chiefly those suffering from exposure. Privations and want with advanced organic diseases either of the lungs or digestive organs.

The causes of the mortality were Dysentery 10
Malarial fever 1. Debility 2. Diseases of
the Nervous System 1. Circulatory System 1.
Diseases of the respiratory organs 3. Diarrhoea 5
Disease of the liver 1 Spleen 1. Urinary
System 2 Generative System 2 General
injuries 4. Local injuries 1

(f) Operations and results.

There were 22 major operations. All of which were successful.
Minor operations 221, the greater portion
of these were performed by the Medical
Subordinate in charge & Muthusawmy
Mudelliar and all of which were successful.

(g) Establishment whether sufficient and efficient.

The establishment is on the whole efficient
but it is necessary to have a 3rd class Hospital
assistant in addition, to relieve the present
heavy work which has to be performed
by the present incumbent. The

The Surgeon General on his late inspection
also noted the necessity for a female nurse attendant
& Midwife.

Mrs. Slepin is the present midwife; she
has been lately entertained owing to the death
of Mrs. Rozario who for many years was
the Matron in charge.

There were 60 cases treated as compared to
74 of the previous year. This decrease is
due to the decreased birth rate as shown in
column 2. The ill health of the late midwife
lost her many cases which were taken up
by midwives in private practice.

In cases 54

Out cases 6.

(i) Dispensary for caste and gratuitous.

None

(j) General remarks.

The working of the Hospital has been very

very satisfactory.

All classes of patients seek advice in it, and much of the popularity of the institution among all classes is due to the good work of 2nd class Hospital Assistant C. Muthusawmy Mudelliar who has been given efficient aid throughout the year. His work and conduct have been very satisfactory

I have the honor to be,

Sir

Your Obedient Servant.

John A. Wickes M.B. M.C.

Surgeon Lt. Col.

Civil Surgeon.

G.D. 940

128

1. Submitted to Government:

2. The Council consisted, for the greater part of the last year, of 12 members - nine Europeans and three natives - only three of the twelve being officials. Mr Majoribanks was its Chairman and the average attendance was 6.7 members each time.

3. The work done seems to have been good, the roads being in good order with a fair supply of lamp posts, Municipal Buildings of various kinds being repaired, and undergrowth being removed - Sanitation generally under the supervision of Surgeon Lt. Colonel Lancaster, was sufficiently attended to; so that the sanitary condition of the town is said to be steadily improving; but Coonoor like Ootacamund ~~stillneeds~~ needs a good water supply and a drainage scheme. A scheme for the water supply is even now before Government and a loan of Rs 20,000 from Provincial Funds has been entered in the Budget

5/1825 mo 95

for expenditure thereon. Vaccination and Private Scavengering show slight improvement.

5. The total receipts were Rs 44,257, and the total Expenditure Rs 38,467- leaving a balance of Rs 5790. The chairman explains the variations between these figures and those of last year, which are not great. The Collections seem Satisfactory and the amount of arrears small. Property was destrained in fourteen cases but in none of these was property actually brought to Sale.

6. I cannot speak, with any personal Experience, of the work of the Municipality during the actual year under report, but from what I have seen of it since I believe it to have been good and to reflect credit on the chairman Mr. Major Bank, & Surgeon Lt Colonel Lancaster and also the rest of the Municipal Council. The administration

of the Council appeared also to be popular, or at least more popular than that of its neighbour, the Coonoor Cantonment.

Recd 10/6

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From J. A. MARJORIBANKS, Esq., Chairman, Municipal Council, Coonoor, to the Chief Secretary to Government (through the Collector of Nilgiris), dated Coonoor, 25th May 1895, No. 47.

I have the honour to submit the following report of the administration of the Coonoor municipality for the official year 1894–95 with statements in the prescribed forms.

2. The accounts of the year have been audited by M.R.Ry. T. Venkatapati Naidoo Avargal, Assistant Inspector of Local Fund Accounts, whose report is herewith submitted.

I.—CONSTITUTION OF THE COUNCIL.

3. The sanctioned strength of the council is twelve, all nominated by Government, but it consisted at the end of the year of eleven members only, as the vacancy caused by the departure from the station of Mr. A. N. Groves was not filled up before the close of the year. Of these eleven members, eight were Europeans and three Natives, viz., one ex-officio member, two official and five non-official members, Europeans, and three non-official members, Natives. Mr. Marjoribanks' tenure of office as chairman having expired on the 28th November 1894, he was re-elected to that office from the 30th idem. Twenty-two meetings were held during the year, and one meeting was adjourned for want of a quorum. The average attendance was as follows:—

Officials	1·0
Non-officials	5·7
Europeans	5·0
Natives	1·7

II.—RECEIPTS.

A.—Receipts from Taxation.

4. The opening balance on the 1st April 1894 was Rs. 6,415–12–11, and the receipts of the year amounted to Rs. 37,841–10–4. The principal variations between the actuals and the estimates of the year and the actuals of the previous year are explained below.

5. *Tax on Arts, Rs.* 1,256–8–0.—The increase above the previous year and the budget and revised estimates is owing to the collection of arrears. The average incidence per head was Rs. 4–14–7.

6. *Tax on Buildings, Rs.* 9,244–15–0.—The increase under this head is due to the same cause. Five hundred and sixteen buildings were assessed at Rs. 8,916–7–0, the average incidence being Rs. 17–4–6.

7. *Tax on Lands, Rs.* 3,647–1–8.—The increase under tax on lands is also due to the collection of arrears. The total extent of land assessed was 2,714 acres and 91 cents. The difference of 110 acres and 35 cents between these figures and those

shown in the previous year's report is owing to certain untaxed lands appertaining to buildings having been, through inadvertence, included in the taxed acreage of the previous year.

8. *Tax on Vehicles, Rs.* 450 *and Tax on Animals, Rs.* 797–8–0.—These receipts are of a fluctuating nature and depend in a great measure on the number of vehicles and animals brought up to Coonoor by visitors during the season.

9. *Tax on Carts, Rs.* 83.—Requires no remark.

B.—Miscellaneous Receipts.

10. *Rent of Lands, Rs.* 8.—This amount was received for two small plots of land, one near the Coonoor bridge and the other in front of Mr. Kelman's shop on the Mount Road.

11. *Avenue Receipts, Rs.* 3.—This amount is the sale-proceeds of a tree cut down from the side of a road.

12. *Sale-proceeds of Old Materials, Rs.* 72–2–1.—The increase under this head is chiefly due to the sale of a large number of empty packing cases and unserviceable tools.

13. *Conservancy Receipts, Rs.* 800.—There were no bidders at the sale for night-soil and sweepings. Under these circumstances, the council accepted an offer of Rs. 800 from a planter for the same on condition that the stuff should be delivered at his estate at some distance beyond municipal limits, which was accordingly done.

14. *Sale-proceeds and composition fees of Medicines and other Hospital Receipts, Rs.* 394–13–7.—The increase under these heads shows that the benefits afforded by the Coonoor hospital are appreciated and taken advantage of.

15. *Income from Markets, Rs.* 8,680.—The increase is due to keen competition at the annual sale of market tolls and fees. If from the above amount the following items of expenditure be deducted, the net receipts will stand at Rs. 7,091–9–5:—

	Rs.	A.	P.
Repairs of market sheds and grounds	1,046	11	7
Establishment and contingencies	541	11	0
Total	1,588	6	7

16. *Slaughter-house fees, Rs.* 1,900.—The increase under this head is also due to competition at the annual sales.

17. *Distraint fees, Rs.* 5–4–0.—Requires no remark.

18. *License fees, Rs.* 386–1–6.—The increase is due to the development of this source of revenue.

19. *Cart-stand fees, Rs.* 415.—This is the amount for which the privilege of collecting cart-stand fees was sold at auction.

20. *Other fees.*—Annas 8 were collected for granting an extract from the register of deaths.

21. *Fines under Municipal and other Acts, Rs.* 97–14–0.—The receipts under this head are larger than was anticipated in consequence of an European Police Inspector now being stationed in Coonoor, under whose superintendence the Police are more alert in taking up nuisance and other cases for trial before the Special Magistrate.

22. *Grants and Contributions from Government, Rs.* 3,980–8–0.—Of this sum Rs. 1,300 were received for the Coonoor hospital, Rs. 2,500 for the maintenance of station roads and Rs. 180–8–0 from the Military Department as compensation under India Act XI of 1881 on account of tax on military officers residing in the municipality for want of house accommodation in Wellington.

23. *Contribution from Local Boards, Rs.* 600.—This sum was received from the Nilgiri district board, Rs. 500 being for the Coonoor hospital and Rs. 100 for the maintenance of a part of the old forest road lying beyond municipal limits.

24. *Other Grants and Contributions, Rs.* 628.—This is the amount of private subscriptions and donations received on account of the Coonoor hospital.

25. *Private Scavenging, Rs.* 1,726–5–6.—The increase is due to the extension of private scavenging.

26. *Other purposes, Rs.* 8–2–8.—Of this sum, Rs. 2–2–8 was received for work done for a private individual and Rs. 6 for burying dead animals.

27. *Other Items, Rs.* 50–9–4.—The particulars of this sum will be found detailed in statement No. I.

28. *Realizations of Sinking Fund for repayment of Loans, Rs.* 2,516–5–0.—This amount is the sale-proceeds of Government securities invested for the repayment of the slaughter-house loan, the balance due on account of which was paid off during the year.

III.—Expenditure.

29. The expenditure of the year amounted to Rs. 38,467–15–2 and the percentage under each grant was as follows:—

	Rs.	Percentage.
Grant I. Public Works	11,179	29·0
„ II. Education	1,795	4·7
„ III. Sanitation and Medical services	11,208	29·1
„ IV. Lighting and Miscellaneous	3,941	10·3
„ V. Supervision and Management	4,412	11·5
Repayment of debt	5,547	14·4
Refunds, &c.	386	1·0
Total ..	38,468	100·0

30. *Grant I., Public Works—New Works, Buildings, Rs.* 1,380.—This sum was spent in making alterations to, and enlarging the municipal office, the accommodation being found insufficient.

31. *Repairs, Communications, Rs.* 6,000–5–3.—The increase above the budget is due to charges incurred in building stone revetments and parapet walls in dangerous places by the sides of roads. The roads are in good order. The total mileage of roads is 30 miles and 6 furlongs, of which 17 miles are metalled, and the metalling of a further portion will be undertaken as funds are available.

32. *Buildings, Rs.* 799–7–8.—This sum was spent in repairing the various buildings shown in statement II-A, Part II.

33. *Drainage, Rs.* 674–14–1.—This is the amount laid out in keeping the drainage works in order.

34. *Water-supply—Repairs of Channels, &c.*—The charges incurred for repairing the drinking-water channels and sluices, &c., connected therewith amounted to Rs. 567–11–2.

35. *Tools and Plant, Rs.* 87–13–6.—It was not found necessary to incur a larger expenditure under this head; hence the decrease.

36. *Contributions to Provincial Funds, Rs.* 34–8–0.—This sum was paid for the scrutiny by the Superintending Engineer of the estimate for enlarging the municipal office.

37. *Grant II—Education, Salary Grants, Rs.* 965.—This amount was paid on account of salary grants to the teachers of St. Anthony's school.

38. *Results Grants, Rs.* 236–1–6.—Of this sum Rs. 137 were earned by the Church Mission school and Rs. 99–1–6 by the American Mission school, inclusive of Rs. 25–1–6 due for the previous year.

39. *Inspection, Rs.* 99–15–8.—This amount is the contribution paid to the Nilgiri district board for educational inspection.

40. *Miscellaneous, Rs.* 493–10–1.—Of this the sum of Rs. 54–3–1 was paid to a drawingmaster entertained from 10th December 1894 under the sanction of Government, dated 20th July 1894, Mis. No. 933 M., Rs. 350 as a building grant to St. Anthony's school, Rs. 38–8–0 as a rent grant to the Church Mission school, Rs. 10 to a gymnastic instructor for the American Mission school and the balance for furniture, &c., procured for the drawingmaster, &c.

41. *Grant III—Sanitation and Medical Services, Hospitals and Dispensaries, Rs.* 4,068–2–10.—The increase above the actuals of the previous year and the revised estimate in the charges incurred for medicines and supplies is to be attributed to the high rate of exchange in making payment for medicines supplied from England. Adverting to G.O., of the 6th June 1894, No. 1054 L., I have the honour to state that the hospital assistant attached to the Coonoor hospital is allowed free quarters.

42. *Contributions to Provincial Funds, Rs.* 305.—The contributions for the medical college, sanitary inspection and medical reserve staff were, as usual, paid on advices from the Accountant-General.

43. It was not considered necessary to incur any expenditure for training female medical practitioners in this municipality.

44. *General Health.*—As will be seen from the Civil Surgeon's report the general health of the town during the year under report was satisfactory. The council has much pleasure in here stating that Surgeon Lieutenant-Colonel Lancaster has supervised the sanitation of the town carefully and successfully. No cases of typhoid fever, small-pox or cholera have occurred during the year. Dr. Lancaster has also worked the hospital well, as is evidenced by the increase in the number of cases treated.

45. *Vital statistics.*—Particulars under this head for the past three years are given below:—

Years.	Number of operations by municipal vaccinator.	Cost of each operation.	Number of Births.	Rate per mille.	Number of Deaths.	Rate per mille.
		Rs. A. P.				
1892–93	615	0 9 4	206	34·1	207	34·1
1893–94	538	0 8 8	257	42·4	217	35·8
1894–95	682	0 7 11	210	34·7	171	28·2

Further particulars of vaccination, births and deaths will be found in statements XII and XIII as well as in the Medical Officer's report.

46. *Conservancy.*—There were fourteen conservancy carts employed during the year, eight for the removal of night-soil and six for the removal of sweepings; there were also two hand-carts for the removal of liquid sewage. The number of public latrines was thirteen and the houses on the register of the private scavenging agency at the end of the year was 142. Two notices were issued under section 176 of the Act, one under section 183, six under section 186 (1) and one under section 214, for lopping of branches, clearing undergrowth, &c.

47. *Grant IV, Lighting Contingencies, Rs.* 910–13–0.—The increase under this head is due to the purchase of some new iron lamp-posts. Six more lights were put up during the year, so that the number of lights at the end of the year was 86.

48. *Markets.*—The market grounds have been thoroughly metalled and improved at a cost of Rs. 791–1–4.

49. *Slaughter-houses.*—The number of cattle and sheep slaughtered during the past three years are noted below:—

	Cows.	Sheep.
1892–93	1,342	7,314
1893–94	1,632	10,841
1894–95	1,808	10,187

The fees which the renter is allowed to charge are 8 annas for each cow or bullock and 2 annas for each sheep or goat slaughtered.

50. *Other Charges—Rs.* 1,839–3–7.—Of this sum, Rs. 383–0–11 were paid for printing the council's proceedings and for work executed at the Government Press, Rs. 262–5–0 for law charges in a suit brought against the municipality, Rs. 20 for burying paupers, Rs. 382–12–4 for repairing and draining one of the cart-stands and Rs. 791–1–4 for metalling and improving the market grounds as stated in paragraph 48 *supra.*

51. *Grant V.—Rs.* 4,411–9–9.—The charges under this head call for no remark.

IV.—Repayment of Debt, Closing Balance, &c.

52. *Repayment of Debt—Rs.* 5,546–11–2.—This amount consists of the following items:—

	Rs. A. P.	Rs. A. P.
Balance of principal of the slaughter-house loan raised in the open market	4,000 0 0	
Interest thereon	240 0 0	
		4,240 0 0
Instalments of principal of market loan ..	370 11 0	
Interest thereon	30 0 2	
		400 11 2
Instalments of principal of drainage loans ..	445 5 8	
Interest thereon	460 10 4	
		906 0 0
Total ..		5,546 11 2

53. *Advances—Rs.* 254–0–4.—A quantity of stoneware drains for improving the drainage works was procured from Messrs. Burn and Co., Calcutta, at a cost of Rs. 478–3–10, of which drains to the value of Rs. 224–3–6 were utilized and their cost adjusted during the year.

54. *Refunds—Rs.* 132–5–11.—This is the amount of refunds of tax paid to parties on vacant buildings, &c.

55. *Excess Charges.*—A statement of charges incurred in excess of the regular estimate amounting to Rs. 383–10–5 is herewith submitted for the sanction of Government in order to remove audit objections.

56. *Closing Balance.*—The year closed with a balance of Rs. 5,789–8–1.

57. This report was read and adopted by the municipal council at its meeting held on the 23rd instant.

58. The following statements, &c., are herewith submitted:—

(1) Annual statements I to XIII.
(2) Report of Medical Officer, dated 25th April 1895.
(3) Educational statements received from the Inspector of Schools, Western Circle, dated 6th May 1895.
(4) Statement of excess charges.
(5) Audit report, dated 8th May 1895, No. 60-L.F.D.

—

Enclosure.

From Surgeon-Lieutenant-Colonel J. LANCASTER, M.B., M.C., Civil Surgeon, Coonoor, to the Chairman, Municipal Council, dated Coonoor, 25th April 1895, No. 54.

I have the honour to forward the Concise Annual report on the Municipal hospital for the year 1894–95.

1. *Public Health.*—The public health was on the whole satisfactory during the year. There was no epidemic of any kind during the greater part of the year, but in February and March last symptoms of influenza appeared followed by an aggravation of respiratory diseases. The health of the Europeans living in the town has been good.

During the months of November and December fevers and diseases of the digestive organs were prevalent among the poorer classes of Hindus who were exposed to the climate, fatigue, or to the want of suitable clothing. Many who suffered were new arrivals from the plains, coolies,

from the surrounding coffee estates and pilgrims from the Malabar Coast. In many cases the fever was of a malarial kind and prevailed amongst coolies living on the lower slopes of the Hills. There were no cases of small-pox in the town during the year, which is creditable to the Vaccine Department and to the general sanitation of the town.

No cases of typhoid were treated in the hospital or in the town which is also very satisfactory.

The rainfall was irregular and there was a long drought from December 1894 to March 1895. The total rainfall was 36·17 inches as compared to 49·10 of the previous year.

2. *Vital Statistics.*—The total mortality in the town was 171 or 28·27 per mille as compared to 217 deaths or 35·87 per mille of the previous year. Many of the deaths occurred amongst the floating population of the town, coolies from surrounding plantations, travellers and pilgrims from the west coast. Twenty-six cases were brought into hospital in a moribund condition from the district and from the town.

The principal causes of death were from fevers 41, dysentery and diarrhœa, &c., 39, injuries 2, all other causes 89.

The total number of births was 210 or 34·72 per mille as compared to 257 or 42·49 per mille of the previous year. This may be due to the large number of labourers and their families who were working on the Nilgiri Railway and who left during the year when the works were nearly closed. The sexes were nearly equal in the birth-rate, viz., 110 males and 100 females.

3. *Sanitation.*—The sanitary condition of the town has steadily improved during the year, but it is still open to improvement. The drainage is not satisfactory and the water-supply of the town is not as satisfactory as it should be. The supply to the European part of the station is good and it is chiefly from private springs, but the supply to the Native town, though fairly abundant, is open to pollution. The question of a good water-supply to this charming station is one of vital importance and on it depends the future increased popularity of the station as a health resort. The water is here; all it requires is protection from pollution. The water scheme is engaging the attention of the council and the senior member of council and the Sanitary Commissioner have inspected the various sources of the present supply. The scheme will, I believe, soon be sanctioned by Government.

There have been several improvements carried out during the year. The market and bandy-stands have been thoroughly repaired and metalled. The hospital has been thoroughly repaired. Much undergrowth has been removed and the station opened out. The roads are in capital order and lights have been placed in parts requiring it. All private latrines are efficiently cleaned.

4. *Vaccination.*—Vaccination has steadily improved. There were 682 cases vaccinated, of wihch 661 were successful as compared to 538 with 530 successful in the previous year.

Of children under one year of age, 307 were vaccinated; of these 300 cases were successful as compared with 227 vaccinated and 208 successful cases in the previous year.

The hospital assistant also vaccinated six cases, all of which were successful. One of these was under one year. Calf-lymph preserved in glycerine was used and was sent to me by the Civil Surgeon of Ootacamund.

The work and conduct of vaccinator C. Durgiah were good and he has paid more attention to his work this year.

5. *Hospitals*—(*a*) *Nature and sufficiency of accommodation.*—The hospital consists of two blocks—one for Europeans and the other for Hindus. There is a lying-in ward for both races with bath-room attached. There are five wards for European and Hindu patients and for caste patients. There is an isolated shed for cholera and small-pox cases.

The accommodation is to be increased in the Municipal hospital during the year.

(*b*) *State of repair of buildings.*—The hospital is in thorough repair.

(*c*) *State of repair of furniture.*—The furniture is in good order.

(*d*) *Number of patients treated as compared with previous year:*—

Years.	In-door.	Died.	Out-door.	Total.	Average daily attendance.	
					In-door.	Out-door.
1891–92	323	47	9,175	9,498	10·99	50·79
1892–93	265	26	8,392	8,657	9·45	54·48
1893–94	349	27	8,445	8,794	12·14	59·46
1894–95	371	34	8,899	9,270	14·41	72·21

(*e*) *Mortality and actual causes of it.*—There were 34 deaths in hospital; of these 26 were brought into hospital in a moribund condition and soon passed away. The cases were chiefly those suffering from exposure, privation and want, with advanced organic disease either of the lungs or digestive organs. The causes of the mortality were dysentery 10, malarial fever 1,

debility 2, diseases of the nervous system 1, circulatory system 1, diseases of the respiratory organs 3, diarrhœa 5, disease of the liver 1, spleen 1, urinary system 2, generative system 2, general injuries 4, local injuries 1.

(*f*) *Operations and results.*—There were 22 major operations, all of which were successful. Minor operations 221; the greater portion of these were performed by the medical subordinate in charge, C. Muthusawmy Mudaliar, and all of which were successful.

(*g*) *Establishment whether sufficient and efficient.*—The establishment is on the whole efficient, but it is necessary to have a third-class hospital assistant in addition to relieve the present heavy work which has to be performed by the present incumbent. The Surgeon-General in his late inspection also noted the necessity for a female ward attendant.

(*h*) *Midwife.*—Mrs. Slynn is the present midwife. She has been lately entertained owing to the death of Mrs. Rozario who for many years was the Matron in charge.

There were 60 cases treated as compared to 74 of the previous year. This decrease is due to the decreased birth-rate as shown in column 2. The ill-health of the late midwife lost her many cases which were taken up by midwives in private practice—

In cases	54
Out cases	6

(*i*) *Dispensary for Caste and Gosha Women.*—None.

(*j*) *General Remarks.*—The working of the hospital has been very satisfactory.

All classes of patients seek advice in it, and much of the popularity of the institution among all classes is due to the good work of second-class hospital assistant C. Muthusawmy Mudaliar who has been given efficient aid throughout the year. His work and conduct have been very satisfactory.

—

No. G.D.-940.

Submitted to Government.

2. The council consisted, for the greater part of the year, of twelve members—nine Europeans and three natives—only three of the twelve being officials. Mr. Majoribanks was its Chairman and the average attendance was 6·7 members each time.

3. The work done seems to have been good, the roads being in good order with a fair supply of lamp-posts, municipal buildings of various kinds being repaired, and undergrowth being removed. Sanitation generally under the supervision of Surgeon-Lieutenant-Colonel Lancaster was sufficiently attended to, so that the sanitary condition of the town is said to be steadily improving, but Coonoor, like Ootacamund, still needs a good water-supply and a drainage scheme. A scheme for the water-supply is even now before Government and a loan of Rs. 25,000 from Provincial funds has been entered in the budget for expenditure thereon. Vaccination and private scavengering show slight improvement.

4. The total receipts were Rs. 44,257, and the total expenditure Rs. 38,467, leaving a balance of Rs. 5,790. The Chairman explains the variations between these figures and those of last year, which are not great. The collections seem satisfactory and the amount of arrears small. Property was distrained in fourteen cases, but in none of these was it actually brought to sale.

5. I cannot speak, with any personal experience, of the work of the municipality during the actual year under report, but from what I have seen of it since I believe it to have been good and to reflect credit on the Chairman, Mr. Majoribanks, and Surgeon-Lieutenant-Colonel Lancaster and upon the rest of the municipal council. The administration of the council appeared also to be popular, or at least more popular than that of its neighbour, the Wellington Cantonment.

(Signed) H. A. SIM,
Collector.

5th June 1895.

199

90

and one meeting was adjourned for want of a quorum.

Except in the case of the tax on lands, and even in this instance there was considerable improvement. The outstanding balance at the close of the year amounted to Rs 257 against Rs 959 in 1893-94.

2. The municipal Council held 22 meetings as in the previous year. The average attendance of the members ~~official and non-official~~ was below the ~~half~~ while that of the non-officials ~~members~~ on the Board was satisfactory.

3. Receipts (1) The rate current demand under each of the principal taxes varied but little ~~slightly~~ from that of the previous year. A small increase in the house tax was nearly counterbalanced by a corresponding decline under the tax on lands, while under the tax on arts & professions the amount of the assessment underwent practically no change although the number of persons assessed fell from 274 to 243.

(2) ~~Except in the case of the arrears under the tax on lands the~~ both current and arrear collections under these heads were on the whole good. ~~It is probable that in the~~ case of the ~~excepted~~ items, the realizations would have been more satisfactory if certain ~~two~~ more fruitful sources had already pointed out in para 36 of P.C. dt 6th July 1894 No. 861 M.

(3) It is to be regretted that owing to want of bidders, the sale of rubbish fetched only Rs 900 or less than one half of the income realized in the previous year. The increase in the receipts from

licence fees, ~~and~~ markets & slaughter-houses is however satisfactory, & the ~~increase~~ advance made since ~~1892~~ is attributed to greater activity on the part of the Police in checking nuisance.

(4) The number of horses served by the private scavenging agency showed hardly any increase, but the profit to the Municipal Council in working the service ~~system~~ rose from Rs 973 to Rs 1087; ~~during the year~~ as however ~~of the fact that~~ only 142 horses out of a total of 516 assessed to the tax on bullocks have been brought under the control of the municipal agency, this service is evidently capable of further expansion. The matter should ~~Election~~ must receive the special attention of the municipal Council in the current year.

4. Expenditure (1) Public works. The only new work undertaken during the year was the enlargement of the municipal office building, on which a sum of Rs 1280 was spent. The total expenditure on communications amounts to Rs 6000 against Rs 5487 in 1893-94 & the roads are reported by the Collector to have been in good order.

(2) Education. The net outlay on education was Rs 1795,

& and steps should be taken to expend it, wherever private arrangements are not satisfactory.

or 11.8 pc. of the receipts from taxation. Of this sum Rs 1705 were spent on primary & the remainder on secondary education. The Municipal Council did not maintain any school of its own, but continued to aid one secondary school with a salary grant and two primary schools with similar grants. The attendance in the secondary school was from 177 to 205, but this was more than offset by a decline in the numbers on the rolls of the two primary ~~secondary~~ schools. ~~The number of pupils in the primary schools was 62 boys & 11 girls. The number of pupils in the secondary schools was 177 boys & 28 girls. The number of pupils in the primary schools was 62 boys & 11 girls.~~ The results of the grant-in-aid examinations were good, and the allotment for grants was slightly exceeded.

x 62 boys living in the Local secondary department,

(3) Medical relief. The number of patients treated in the municipal hospitals rose from 8794 to 9270. The increase being due apparently to the growing popularity of the institution. The suggestions of the Civil Surgeon & the Director General & Civil Surgeon regarding the necessity for strengthening the staff of the hospital should receive early attention.

~~In spite of the remarks made in para 5(5) of the Civil Surgeon's report~~ the midwife attached to the hospital attended only to 60 cases of labour or 14 less than in the previous year. The decrease being attributed to the decline in the birth rate & the ill health of the late midwife: the latter considering the small proportion which the no. of cases attended bears to the total birth rate, the former cause can have had but little, if any, effect on the out turn of work. The remarks made in Govt. para 461 of G.O. d. 6 July 1915 no. 8617. should on this subject be borne in mind.

(41) Vaccination Vital statistics.

Vaccination showed improvement both as regards quantity and as well as quality. The number of children under one year successfully vaccinated amounted to 49.8 per mille of the population against a registered birthrate of 34.7, which is very satisfactory ~~(if the returns are correct)~~. The cost per each successful operation however, continued to be very high and steps should be taken to reduce this as much as possible.

The rate of both births & deaths rates showed a decline. In the former case, an explanation of the explanation falling off is given in para 2 of the Civil Surgeon's report. The fall in the death rate ~~under this head~~ was probably due to the healthiness of the season as compared with the previous.

(42) Sanitation. Nearly 90 pc. of the allotment under this head was utilized & the expenditure amounted to 16.6 pc. of the receipts. This

Confd 1738

to the consideration given by the Council to sanitary & conservancy measures. Nor was there during the year, except a slight outbreak of influenza in the last two months, any epidemic of any kind. The mortality fell by 7.5 per mille as compared with the previous year.

practically to note from para 5 of the Civil Surgeon's report & para 8 of the Collector's endorsement that the sanitation of the town continued to receive careful & attention & that the Municipal Council took a deep interest in the matter, and that the condition of the town in this respect is steadily improving. From the inspection notes of the Sanitary Commr recorded in G.O. of 6th May 1915 Rs. 500 however it would appear however that there are still some general defects which require to be remedied. These should be attended to in the current year as far as funds permit. It is observed that a scheme for water supply for the town is under consideration. That there were no cases of typhoid reported either in the hospital or the town during the year is a gratifying testimony to the

5. General Remarks. The year closed with a balance of Rs. 7892 or 15.3 pc. of the current receipts. The excess expenditure incurred over the several sanctioned allotments — not the revised estimate for the year, which cannot be treated as the sanctioned estimate for the year — will be admitted by the Chairman in the accounts.

The administration of the Municipality during the year under review

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From J. A. MARJORIBANKS, Esq., Chairman, Municipal Council, Coonoor, to the Chief Secretary to Government (through the Collector of Nilgiris), dated Coonoor, 25th May 1895, No. 47.

I have the honour to submit the following report of the administration of the Coonoor municipality for the official year 1894–95 with statements in the prescribed forms.

2. The accounts of the year have been audited by M.R.Ry. T. Venkatapati Nayudu Garu, Assistant Inspector of Local Fund Accounts, whose report is here-with submitted.

I.—Constitution of the Council.

3. The sanctioned strength of the council is twelve, all nominated by Government, but it consisted at the end of the year of eleven members only, as the vacancy caused by the departure from the station of Mr. A. N. Groves was not filled up before the close of the year. Of these eleven members, eight were Europeans and three Natives, viz., one ex-officio member, two official and five non-official members, Europeans, and three non-official members, Natives. Mr. Marjoribanks' tenure of office as chairman having expired on the 28th November 1894, he was re-elected to that office from the 30th idem. Twenty-two meetings were held during the year, and one meeting was adjourned for want of a quorum. The average attendance was as follows:—

Officials	1·0
Non-officials	5·7
Europeans	5·0
Natives	1·7

II.—Receipts.

A.—Receipts from Taxation.

4. The opening balance on the 1st April 1894 was Rs. 6,415–12–11, and the receipts of the year amounted to Rs. 37,841–10–4. The principal variations between the actuals and the estimates of the year and the actuals of the previous year are explained below.

5. *Tax on Arts, Rs.* 1,256–8–0.—The increase above the previous year and the budget and revised estimates is owing to the collection of arrears. The average incidence per head was Rs. 4–14–7.

6. *Tax on Buildings, Rs.* 9,244–15–0.—The increase under this head is due to the same cause. Five hundred and sixteen buildings were assessed at Rs. 8,916–7–0, the average incidence being Rs. 17–4–6.

7. *Tax on Lands, Rs.* 3,647–1–8.—The increase under tax on lands is also due to the collection of arrears. The total extent of land assessed was 2,714 acres and 91 cents. The difference of 110 acres and 35 cents between these figures and those

shown in the previous year's report is owing to certain untaxed lands appertaining to buildings having been, through inadvertence, included in the taxed acreage of the previous year.

8. *Tax on Vehicles, Rs.* 540 *and Tax on Animals, Rs.* 797–8–0.—These receipts are of a fluctuating nature and depend in a great measure on the number of vehicles and animals brought up to Coonoor by visitors during the season.

9. *Tax on Carts, Rs.* 83.—Requires no remark.

B.—Miscellaneous Receipts.

10. *Rent of Lands, Rs.* 8.—This amount was received for two small plots of land, one near the Coonoor bridge and the other in front of Mr. Kelman's shop on the Mount Road.

11. *Avenue Receipts, Rs.* 3.—This amount is the sale-proceeds of a tree cut down from the side of a road.

12. *Sale-proceeds of Old Materials, Rs.* 72–2–1.—The increase under this head is chiefly due to the sale of a large number of empty packing cases and unserviceable tools.

13. *Conservancy Receipts, Rs.* 800.—There were no bidders at the sale for night-soil and sweepings. Under these circumstances, the council accepted an offer of Rs. 800 from a planter for the same on condition that the stuff should be delivered at his estate at some distance beyond municipal limits, which was accordingly done.

14. *Sale-proceeds and composition fees of Medicines and other Hospital Receipts, Rs.* 394–13–7.—The increase under these heads shows that the benefits afforded by the Coonoor hospital are appreciated and taken advantage of.

15. *Income from Markets, Rs.* 8,680.—The increase is due to keen competition at the annual sale of market tolls and fees. If from the above amount the following items of expenditure be deducted, the net receipts will stand at Rs. 7,091–9–5 :—

	Rs.	A.	P.
Repairs of market sheds and grounds	1,046	11	7
Establishment and contingencies	541	11	0
Total	1,588	6	7

16. *Slaughter-house fees, Rs.* 1,900.—The increase under this head is also due to competition at the annual sales.

17. *Distraint fees, Rs.* 5–4–0.—Requires no remark.

18. *License fees, Rs.* 386–1–6.—The increase is due to the development of this source of revenue.

19. *Cart-stand fees, Rs.* 415.—This is the amount for which the privilege of collecting cart-stand fees was sold at auction.

20. *Other fees.*—Annas 8 were collected for granting an extract from the register of deaths.

21. *Fines under Municipal and other Acts, Rs.* 97–14–0.—The receipts under this head are larger than was anticipated in consequence of an European Police Inspector now being stationed in Coonoor, under whose superintendence the Police are more alert in taking up nuisance and other cases for trial before the Special Magistrate.

22. *Grants and Contributions from Government, Rs.* 3,980–8–0.—Of this sum Rs. 1,300 were received for the Coonoor hospital, Rs. 2,500 for the maintenance of station roads and Rs. 180–8–0 from the Military Department as compensation under India Act XI of 1881 on account of tax on military officers residing in the municipality for want of house accommodation in Wellington.

23. *Contribution from Local Boards, Rs.* 600.—This sum was received from the Nilgiri district board, Rs. 500 being for the Coonoor hospital and Rs. 100 for the maintenance of a part of the old forest road lying beyond municipal limits.

24. *Other Grants and Contributions, Rs.* 628.—This is the amount of private subscriptions and donations received on account of the Coonoor hospital.

25. *Private Scavenging, Rs.* 1,726–5–6.—The increase is due to the extension of private scavenging.

26. *Other purposes, Rs.* 8–2–8.—Of this sum, Rs. 2–2–8 was received for work done for a private individual and Rs. 6 for burying dead animals.

27. *Other Items, Rs.* 50–9–4.—The particulars of this sum will be found detailed in statement No. I.

28. *Realizations of Sinking Fund for repayment of Loans, Rs.* 2,516–5–0.—This amount is the sale-proceeds of Government securities invested for the repayment of the slaughter-house loan, the balance due on account of which was paid off during the year.

III.—EXPENDITURE.

29. The expenditure of the year amounted to Rs. 38,467–15–2 and the percentage under each grant was as follows :—

	Rs.	Percentage.
Grant I. Public Works	11,179	29·0
„ II. Education	1,795	4·7
„ III. Sanitation and Medical services	11,208	29·1
„ IV. Lighting and Miscellaneous	3,941	10·3
„ V. Supervision and Management	4,412	11·5
Repayment of debt	5,547	14·4
Refunds, &c.	386	1·0
Total ..	38,468	100·0

30. *Grant I., Public Works—New Works, Buildings, Rs.* 1,380.—This sum was spent in making alterations to, and enlarging the municipal office, the accommodation being found insufficient.

31. *Repairs, Communications, Rs.* 6,000–5–3.—The increase above the budget is due to charges incurred in building stone revetments and parapet walls in dangerous places by the sides of roads. The roads are in good order. The total mileage of roads is 30 miles and 6 furlongs, of which 17 miles are metalled, and the metalling of a further portion will be undertaken as funds are available.

32. *Buildings, Rs.* 799–7–8.—This sum was spent in repairing the various buildings shown in statement II-A, Part II.

33. *Drainage, Rs.* 674–14–1.—This is the amount laid out in keeping the drainage works in order.

34. *Water-supply—Repairs of Channels, &c.*—The charges incurred for repairing the drinking-water channels and sluices, &c., connected therewith amounted to Rs. 567–11–2.

35. *Tools and Plant, Rs.* 87–13–6.—It was not found necessary to incur a larger expenditure under this head; hence the decrease.

36. *Contributions to Provincial Funds, Rs.* 34–8–0.—This sum was paid for the scrutiny by the Superintending Engineer of the estimate for enlarging the municipal office.

37. *Grant II—Education, Salary Grants, Rs.* 965.—This amount was paid on account of salary grants to the teachers of St. Anthony's school.

38. *Results Grants, Rs.* 236–1–6.—Of this sum Rs. 137 were earned by the Church Mission school and Rs. 99–1–6 by the American Mission school, inclusive of Rs. 25–1–6 due for the previous year.

39. *Inspection, Rs.* 99–15–8.—This amount is the contribution paid to the Nilgiri district board for educational inspection.

40. *Miscellaneous, Rs.* 493–10–1.—Of this the sum of Rs. 54–3–1 was paid to a drawing master entertained from 10th December 1894 under the sanction of Government, dated 20th July 1894, Mis. No. 933 M., Rs. 350 as a building grant to St. Anthony's school, Rs. 38–8–0 as a rent grant to the Church Mission school, Rs. 10 to a gymnastic instructor for the American Mission school and the balance for furniture, &c., procured for the drawingmaster, &c.

41. *Grant III—Sanitation and Medical Services, Hospitals and Dispensaries, Rs.* 4,068–2–10.—The increase above the actuals of the previous year and the revised estimate in the charges incurred for medicines and supplies is to be attributed to the high rate of exchange in making payment for medicines supplied from England. Adverting to G.O., of the 6th June 1894, No. 1005 L., I have the honour to state that the hospital assistant attached to the Coonoor hospital is allowed free quarters.

42. *Contributions to Provincial Funds, Rs.* 305.—The contributions for the medical college, sanitary inspection and medical reserve staff were, as usual, paid on advices from the Accountant-General.

43. It was not considered necessary to incur any expenditure for training female medical practitioners in this municipality.

44. *General Health.*—As will be seen from the Civil Surgeon's report the general health of the town during the year under report was satisfactory. The council has much pleasure in here stating that Surgeon Lieutenant-Colonel Lancaster has supervised the sanitation of the town carefully and successfully. No cases of typhoid fever, small-pox or cholera have occurred during the year. Dr. Lancaster has also worked the hospital well, as is evidenced by the increase in the number of cases treated.

45. *Vaccination and Vital statistics.*—Particulars under this head for the past three years are given below:—

Years.	Number of operations by municipal vaccinator.	Cost of each operation.	Number of Births.	Rate per mille.	Number of Deaths.	Rate per mille.
		Rs. A. P.				
1892–93	615	0 9 4	206	34·1	207	34·1
1893–94	538	0 8 8	257	42·4	217	35·8
1894–95	682	0 7 11	210	34·7	171	28·2

Further particulars of vaccination, births and deaths will be found in statements XII and XIII as well as in the Medical Officer's report.

46. *Conservancy.*—There were fourteen conservancy carts employed during the year, eight for the removal of night-soil and six for the removal of sweepings; there were also two hand-carts for the removal of liquid sewage. The number of public latrines was thirteen and that of the houses on the register of the private scavenging agency at the end of the year was 142. Two notices were issued under section 176 of the Act, one under section 183, six under section 186 (1) and one under section 214, for lopping of branches, clearing undergrowth, &c.

47. *Grant IV, Lighting Contingencies, Rs.* 910–13–0.—The increase under this head is due to the purchase of some new iron lamp-posts. Six more lights were put up during the year, so that the number of lights at the end of the year was 86.

48. *Markets.*—The market grounds have been thoroughly metalled and improved at a cost of Rs. 791–1–4.

49. *Slaughter-houses.*—The number of cattle and sheep slaughtered during the past three years are noted below:—

	Cows.	Sheep.
1892–93	1,342	7,314
1893–94	1,632	10,841
1894–95	1,808	10,187

The fees which the renter is allowed to charge are 8 annas for each cow or bullock and 2 annas for each sheep or goat slaughtered.

50. *Other Charges—Rs.* 1,839–3–7.—Of this sum, Rs. 383–0–11 were paid for printing the council's proceedings and for work executed at the Government Press, Rs. 262–5–0 for law charges in a suit brought against the municipality, Rs. 20 for burying paupers, Rs. 382–12–4 for repairing and draining one of the cart-stands and Rs. 791–1–4 for metalling and improving the market grounds as stated in paragraph 48 *supra.*

51. *Grant V.—Rs.* 4,411–9–9.—The charges under this head call for no remark.

IV.—REPAYMENT OF DEBT, CLOSING BALANCE, &c.

52. *Repayment of Debt—Rs.* 5,546–11–2.—This amount consists of the following items:—

	Rs. A. P.	Rs. A. P.
Balance of principal of the slaughter-house loan raised in the open market	4,000 0 0	
Interest thereon	240 0 0	
		4,240 0 0
Instalments of principal of market loan ..	370 11 0	
Interest thereon	30 0 2	
		400 11 2
Instalments of principal of drainage loans ..	445 5 8	
Interest thereon	460 10 4	
		906 0 0
Total ..		5,546 11 2

53. *Advances—Rs.* 254–0–4.—A quantity of stoneware drains for improving the drainage works was procured from Messrs. Burn and Co., Calcutta, at a cost of Rs. 478–3–10, of which drains to the value of Rs. 224–3–6 were utilized and their cost adjusted during the year.

54. *Refunds—Rs.* 132–5–11.—This is the amount of refunds of tax paid to parties on vacant buildings, &c.

55. *Excess Charges.*—A statement of charges incurred in excess of the regular estimate amounting to Rs. 383–10–5 is herewith submitted for the sanction of Government in order to remove audit objections.

56. *Closing Balance.*—The year closed with a balance of Rs. 5,789–8–1.

57. This report was read and adopted by the municipal council at its meeting held on the 23rd instant.

58. The following statements, &c., are herewith submitted:—

(1) Annual statements I to XIII.
(2) Report of Medical Officer, dated 25th April 1895.
(3) Educational statements received from the Inspector of Schools, Western Circle, dated 6th May 1895.
(4) Statement of excess charges.
(5) Audit report, dated 8th May 1895, No. 60-L.F.D.

ENCLOSURE.

From Surgeon-Lieutenant-Colonel J. LANCASTER, M.B., M.C., Civil Surgeon, Coonoor, to the Chairman, Municipal Council, dated Coonoor, 25th April 1895, No. 54.

I have the honour to forward the Concise Annual report on the Municipal hospital for the year 1894–95.

1. *Public Health.*—The public health was on the whole satisfactory during the year. There was no epidemic of any kind during the greater part of the year, but in February and March last symptoms of influenza appeared followed by an aggravation of respiratory diseases. The health of the Europeans living in the town has been good.

During the months of November and December fevers and diseases of the digestive organs were prevalent among the poorer classes of Hindus who were exposed to the climate, fatigue, or to the want of suitable clothing. Many who suffered were new arrivals from the plains, coolies

from the surrounding coffee estates and pilgrims from the Malabar Coast. In many cases the fever was of a malarial kind and prevailed amongst coolies living on the lower slopes of the hills. There were no cases of small-pox in the town during the year, which is creditable to the Vaccine Department and to the general sanitation of the town.

No cases of typhoid were treated in the hospital or in the town which is also very satisfactory.

The rainfall was irregular and there was a long drought from December 1894 to March 1895. The total rainfall was 36·17 inches as compared to 49·10 of the previous year.

2. *Vital Statistics.*—The total mortality in the town was 171 or 28·27 per mille as compared to 217 deaths or 35·87 per mille of the previous year. Many of the deaths occurred amongst the floating population of the town, coolies from surrounding plantations, travellers and pilgrims from the west coast. Twenty-six cases were brought into hospital in a moribund condition from the district and from the town.

The principal causes of death were from fevers 41, dysentery and diarrhœa, &c., 39, injuries 2, all other causes 89.

The total number of births was 210 or 34·72 per mille as compared to 257 or 42·49 per mille of the previous year. This may be due to the large number of labourers and their families who were working on the Nilgiri Railway and who left during the year when the works were nearly closed. The sexes were nearly equal in the birth-rate, viz., 110 males and 100 females.

3. *Sanitation.*—The sanitary condition of the town has steadily improved during the year, but it is still open to improvement. The drainage is not satisfactory and the water-supply of the town is not as satisfactory as it should be. The supply to the European part of the station is good and it is chiefly from private springs, but the supply to the Native town, though fairly abundant, is open to pollution. The question of a good water-supply to this charming station is one of vital importance and on it depends the future increased popularity of the station as a health resort. The water is here; all it requires is protection from pollution. The water scheme is engaging the attention of the council and the senior member of council and the Sanitary Commissioner have inspected the various sources of the present supply. The scheme will, I believe, soon be sanctioned by Government.

There have been several improvements carried out during the year. The market and bandy-stands have been thoroughly repaired and metalled. The hospital has been thoroughly repaired. Much undergrowth has been removed and the station opened out. The roads are in capital order and lights have been placed in parts requiring it. All private latrines are efficiently cleaned.

4. *Vaccination.*—Vaccination has steadily improved. There were 682 cases vaccinated, of which 661 were successful as compared to 538 with 530 successful in the previous year.

Of children under one year of age, 307 were vaccinated; of these 300 cases were successful as compared with 227 vaccinated and 208 successful cases in the previous year.

The hospital assistant also vaccinated six cases, all of which were successful. One of these was under one year. Calf-lymph preserved in glycerine was used and was sent to me by the Civil Surgeon of Ootacamund.

The work and conduct of vaccinator C. Durgiah were good and he has paid more attention to his work this year.

5. *Hospitals*—(*a*) *Nature and sufficiency of accommodation.*—The hospital consists of two blocks—one for Europeans and the other for Hindus. There is a lying-in ward for both races with bath-room attached. There are five wards for European and Hindu patients and for caste patients. There is an isolated shed for cholera and small-pox cases.

The accommodation is to be increased in the Municipal hospital during the year.

(*b*) *State of repair of buildings.*—The hospital is in thorough repair.

(*c*) *State of repair of furniture.*—The furniture is in good order.

(*d*) *Number of patients treated as compared with previous year*;—

Years.	In-door.	Died.	Out-door.	Total.	Average daily attendance.	
					In-door.	Out-door.
1891-92	323	47	9,175	9,498	10·99	50·79
1892-93	265	26	8,392	8,657	9·45	54·48
1893-94	349	27	8,445	8,794	12·14	59·46
1894-95	371	34	8,899	9,270	14·41	72·21

(*e*) *Mortality and actual causes of it.*—There were 34 deaths in hospital; of these 26 were brought into hospital in a moribund condition and soon passed away. The cases were chiefly those suffering from exposure, privation and want, with advanced organic disease either of the lungs or digestive organs. The causes of the mortality were dysentery 10, malarial fever 1, debility 2, diseases of the nervous system 1, circulatory system 1, diseases of the respiratory organs 3, diarrhœa 5, disease of the liver 1, spleen 1, urinary system 2, generative system 2, general injuries 4, local injuries 1.

(*f*) *Operations and results.*—There were 22 major operations, all of which were successful. Minor operations 221; the greater portion of these were performed by the medical subordinate in charge, C. Muthuswámi Mudaliyár, and all of them were successful.

(*g*) *Establishment whether sufficient and efficient.*—The establishment is on the whole efficient, but it is necessary to have a third-class hospital assistant in addition to relieve the heavy work which has to be performed by the present incumbent. The Surgeon-General in his late inspection also noted the necessity for a female ward attendant.

(*h*) *Midwife.*—Mrs. Slynn is the present midwife. She has been lately entertained owing to the death of Mrs. Rozario who for many years was the Matron in charge.

There were 60 cases treated as compared to 74 of the previous year. This decrease is due to the decreased birth-rate as shown in paragraph 2. The ill-health of the late midwife lost her many cases which were taken up by midwives in private practice—

In cases	54
Out cases	6

(*i*) *Dispensary for Caste and Gosha Women.*—None.

(*j*) *General Remarks.*—The working of the hospital has been very satisfactory.

All classes of patients seek advice in it, and much of the popularity of the institution among all classes is due to the good work of second-class hospital assistant C. Muthuswámi Mudaliyár who has been given efficient aid throughout the year. His work and conduct have been very satisfactory.

No. G.D.-940.

Submitted to Government.

2. The council consisted, for the greater part of the year, of twelve members—nine Europeans and three natives—only three of the twelve being officials. Mr. Majoribanks was its Chairman and the average attendance was 6·7 members each time.

3. The work done seems to have been good, the roads being in good order with a fair supply of lamp-posts, municipal buildings of various kinds being repaired, and undergrowth being removed. Sanitation generally under the supervision of Surgeon-Lieutenant-Colonel Lancaster was sufficiently attended to, so that the sanitary condition of the town is said to be steadily improving, but Coonoor, like Ootacamund, still needs a good water-supply and a drainage scheme. A scheme for the water-supply is even now before Government and a loan of Rs. 25,000 from Provincial funds has been entered in the budget for expenditure thereon. Vaccination and private scavengering show slight improvement.

4. The total receipts were Rs. 44,257, and the total expenditure Rs. 38,467, leaving a balance of Rs. 5,790. The Chairman explains the variations between these figures and those of last year, which are not great. The collections seem satisfactory and the amount of arrears small. Property was distrained in fourteen cases, but in none of these was it actually brought to sale.

5. I cannot speak, with any personal experience, of the work of the municipality during the actual year under report, but from what I have seen of it since I believe it to have been good and to reflect credit on the Chairman, Mr. Majoribanks, and Surgeon-Lieutenant-Colonel Lancaster and upon the rest of the municipal council. The administration of the council appeared also to be popular, or at least more popular than that of its neighbour, the Wellington Cantonment.

(Signed) H. A. SIM,
Offg. Collector.

5th June 1895.

ORDER—dated 25th July 1895, No. 1191 M., Local and Municipal.

The receipts and charges of the Coonoor Municipality for 1894-95 are compared below with the budget and revised estimates for the year and the actuals of 1893-94:—

—	Actuals, 1893-94.	Budget estimate, 1894-95.	Revised estimate, 1894-95.	Actuals, 1894-95.

Total ..	46,088	38,680	43,470	44,257

2. The municipal council held 22 meetings as in the previous year and one meeting was adjourned for want of a quorum. The average attendance of the members was, on the whole, satisfactory.

3. *Receipts.*—(1) The net current demand under each of the principal taxes varied but little from that of the previous year. A small increase in the house-tax was nearly counterbalanced by a corresponding decline under the tax on lands, while under the tax on arts and professions the amount of the assessment underwent practically no change although the number of persons assessed fell from 274 to 243.

(2) The collections under these heads, both current and arrears, were, on the whole, good, except in the case of the tax on lands, and even in this instance there was considerable improvement. The outstanding balance at the close of the year amounted to Rs. 237 against Rs. 989 in 1893-94.

(3) It is to be regretted that owing to want of bidders, the sale of rubbish and night-soil fetched only Rs. 800, or less than one-half of the income realized in the previous year. The increase in the receipts from license fees, markets and slaughter-houses is, however, satisfactory. The advance under fines is attributed to greater activity on the part of the police in checking nuisances.

(4) The number of houses served by the private scavenging agency showed hardly any increase, but the profit to the municipal council in working the service rose from Rs. 973 to Rs. 1,087. As, however, only 142 houses out of a total of 516 assessed to the tax on buildings have been brought under the control of the municipal agency, this service is evidently capable of further expansion and steps should be taken to extend it wherever private arrangements are not satisfactory. The matter should receive the special attention of the municipal council in the current year.

4. *Expenditure*—(1) *Public Works.*—The only new work undertaken during the year was the enlargement of the municipal office building, on which a sum of Rs. 1,380 was spent. The total expenditure on communications amounted to Rs. 6,000 against Rs. 5,487 in 1893-94, and the roads are reported by the Collector to have been in good order.

(2) *Education.*—The net outlay on education was Rs. 1,795, or 11·5 per cent. of the receipts from taxation. Of this sum Rs. 1,285 were spent on primary and the remainder on secondary education. The municipal council did not maintain any school of its own, but continued to aid one secondary school with salary grants and two primary schools with result grants. The attendance in the secondary school rose from 177 to 205, sixty-two boys being in the lower secondary department, but this was more than counterbalanced by a decline in the number on the rolls of the two primary schools. The results of the grant examinations were good and the allotment for grants was slightly exceeded.

(3) *Medical Relief.*—The number of patients treated in the municipal hospital rose from 8,794 to 9,270, the increase being due, apparently, to the growing popularity of the institution. The suggestions of the Surgeon-General and the Civil Surgeon regarding the necessity for strengthening the staff of the hospital should receive early attention. The midwife attached to the hospital attended only 60 cases of labour, or 14 less than in the previous year. The decrease is attributed to the decline in the birth-rate and the ill-health of the late midwife; but considering the small proportion which the number of cases attended bears to the total birth-rate, the former cause can have had but little, if any, effect on the outturn of work. The remarks made in paragraph 4 (3) of G.O., dated 6th July 1894, No. 861 M., on this subject should be borne in mind.

(4) *Vaccination and Vital Statistics.*—Vaccination showed improvement both as regards quantity and quality. The number of children under one year successfully vaccinated amounted to 49·8 per mille of the population against a registered birth rate of 34·7, which is very satisfactory. The cost of each successful operation, however, continued high and steps should be taken to reduce this as much as possible.

Both birth and death rates showed a decline. In the former case, an explanation of the falling off is given in paragraph 2 of the Civil Surgeon's report. The fall in the death-rate was probably due to the healthiness of the season.

(5) *Sanitation.*—Nearly 90 per cent. of the allotment under this head was utilized and the expenditure amounted to 16·6 per cent. of the receipts. It is gratifying to note from paragraph 3 of the Civil Surgeon's report and paragraph 3 of the Collector's endorsement that sanitation received the careful and continued attention of the municipal council, and that the condition of the town in this respect is steadily improving. From the inspection notes of the Sanitary Commissioner recorded in G.O., dated 6th May 1895, No. 800 M., it appears, however, that there are still some defects which require to be remedied. These should be attended to in the current year as far as funds permit. It is observed that a scheme of water-supply for the town is under consideration. That there were no cases of typhoid treated either in the hospital or the town during the year is a gratifying testimony to the consideration given by the council to sanitary and conservancy measures. Nor was there during the year, except a slight outbreak of influenza in the last two months, any epidemic of any kind. The mortality fell by 7·5 per mille as compared with the previous year.

5. *General Remarks.*—The year closed with a balance of Rs. 5,790, or 15·3 per cent. of the current receipts. The excess expenditure incurred over the sanctioned allotments—not that over the revised estimate as requested by the Chairman—will be admitted in the accounts.

The administration of the municipality during the year under review continued to be satisfactory. The Government notes with pleasure the testimony borne by the Collector to the popularity of the municipal administration and to the good work done by the Chairman, Mr. Marjoribanks, Surgeon-Lieutenant-Colonel Lancaster, and the other members of the council.
