though not the payment of the contribution, should they be pleased to adhere to their former order or at least to grant an acre or such an extent as may be sufficient for the construction of the building alone, if they are not inclined to sanction the proposal of the Municipal Council in its entirety.

Your most obedient Servant,

after it is established on a firm basis, become municipal property with all its endowments. The site selected is the most suited to the purpose — being quite out of the town and connected with it by means of a bridge; and the proposed contribution itself is very paltry. The grant is not an absolute one as it will be subjec to the condition that in the event of the Institution failing either for wan of funds or for any other cause, the site proposed to be given shall rever to the Municipality.

In these circumstances, would, on behalf of the Council, =pectfully request Government to =consider the matter and sanctio the grant of the 2 acres of land th

not in any way, controlled by Legislative Enactment.

Even in the matter of the proposed contribution, the question does not seem to be altogether free from doubt. Section 113, clause 2, does not make any distinction between hospital for human beings and a hospital for animals. There is nothing in the section to show that the word "hospital" has been used, not in its extended, but in a restricted sense. It is one of the duties of the Municipalities to encourage institutions of the kind and there is no reason why under a humane and civilized Government, sick animals should be neglected and disregarded.

The hospital in question will,

by Sale, gift or otherwise immoveable property vested in it, Subject of course to the Sanction of Government. If this is conceded, the proposed Contribution of Rs 2000/ may be open to objection but not the proposed grant of land.

If the payt of muncl money is open to objn. why not that of part of muncl land - It is as well muncl property as money.

Only the other day the grant of a portion of a public lane as a gift for the construction of the American Mission Hospital was ratified and approved of by Government and they are now negotiating for the purchase of the Race Course ground belonging to the Municipality for the construction of houses for District Officials.

G.O. 26.2.95, No. 304 M.

The constn of a hospital is a legitimate object for wh. muncl funds may be devoted under Sec 113.

This is only a sale of muncl land not a gift -

Lands required for public and useful purposes are being grant by all Municipalities with the Sanctio of Government whose Sovereign right to Sanction or veto Such grants is,

not

the extent of the Park and the position of the two acres proposed to be granted to the Said Society.

It will be seen from the above that the Site selected lies at one end of the Park and is cut off from it by a road and borders on the Public road leading to Melur; and being Situate in a position where it is hardly likely to be used by the Public, the grant of the Same will not in any way, affect the usefulness of the Park.

Section 113 of the Municipal Act IV of 1884 seems to control only the application of funds raised thereunder to certain Specified purposes without affecting the power of the Municipal Council to convey either
