CHAIRMAN, MUNICIPAL COUNCIL,
VELLORE.

Local & Municipal Dept.
CURRENT No. 1521 M

To

THE CHIEF SECRETARY TO GOVERNMENT,
LOCAL AND MUNICIPAL DEPARTMENTS,
FORT ST. GEORGE.

(Through the Divisional Officer.)

Sir,

I have the honor to reply to the various points demanding explanation in G. O. No. 595 M dated 2nd April 1895 Local and Municipal Departments, Reviewing the Vellore Municipal Budget for 1895-96.

2. Para 3 - The Council proposes to levy in lieu of the present rate of 2 Rupees per half year on all carts the following rates -

	Per half year
For each cart drawn by two bulls -	Rs 2 -
For each cart drawn by one bull -	Rs 1 -

The reason being that the present rate is inequitable, because carts drawn by two bulls carry heavier loads than single bullock carts, hence the damage to roads is greater; besides that, the former class of carts monopolise the greater part of, if not all, the trade in the place - single bullock carts being chiefly used for the conveyance of persons. I however doubt whether as the

Act

Act now stands such a distinction in rates can be made—

3. Para 4—(2) For the present the Council has resolved to postpone the construction of a clock tower. With reference to the provision of Rs 1000 for the construction of a straight road from Kosapet to Arasamaram Pilliyar Kovil street the council would respectfully point out that in the interests of the public it believes the allotment to be essential. At present people going from Kosapet to Arasamaram Pilliyar covil street, as well as religious processions, have to pass through several streets before they can reach either of those places— This entails much hardship upon them as the present route is very circuitous—hence the necessity for the allotment to obviate the inconvenience complained of. Similarly the allotment of Rs 200 for the construction of a road to Shembaukam becomes necessary. This is an important village in which is situated a temple largely resorted to by people from Vellore for religious purposes— At present there is a circuitous—cart-track which runs underneath the railway girder-bridge which during the monsoons is entirely swamped. It is proposed to construct a short road, within municipal limits, to meet the road on the opposite side belonging to the Local Fund.

4. Para (4) The Council has resolved to accept the following recommendation of the Surgeon-General viz:—

(i) to continue to maintain a 1st Class Hospital assistant

(ii) To employ a female apothecary

(iii) To entertain one additional ward attendant and 1 toty.

The necessary proposition statement is herewith forwarded—

5. With reference to the provision made for the three private scavenging inspectors on Rs 9. 8 and 7, the Council will respectfully request a reconsideration of the order of Government on this point for the reasons given below;—

Owing to the stringent orders of Government on the Inspection notes of the Sanitary Commissioner, the owners of cess-pits, who refused to close them and substitute private latrines in their stead, were prosecuted the result being that the number of private latrines cleaned by municipal agency has risen from 583 on the 30th November 1894 to 776 on the 31st March 1895, and a larger increase in numbers is anticipated— the ordinary inspecting staff have scarcely

scarcely time enough to supervise their own legitimate duties, and if this work was to be handed over to them, the sanitation of the town will suffer. Under these circumstances it is respectfully requested that Government will be pleased to accord its sanction to the continuance of the 3 private scavenging inspectors.

6. With reference to the surmise that the number of scavengers is to be reduced from 58 to 48, I beg to state that no actual reduction is proposed. The number 58 was erroneously shown, year after year, in the Budgets as the correct number whereas the actual working strength is 48. Hence the alteration in figures.

7. As for the reduction of the number of Conservancy peons from 11 to 7 viz 2 for the Chief Sanitary Inspector and 1 for each of his 5 assistants, I would respectfully point out, that although 11 peons are shown under the head of Conservancy only 5 are actually employed under the present inspectors on actual Conservancy duty. 2 are attached to the divisional Councillors. 1 is attached to the Hospital purveyor for purchasing the necessary articles of diet. 3 are employed in the office, as the present staff is inadequate for the requirements of the office and to render assistance to the bill Collectors when distraining property. If two of these are placed at the disposal of the Chief Sanitary Inspector, there will be one only left for the purpose mentioned.

8. The resolution of the Council No 1 dated 23rd April 1895 considering the G O reviewing the Budget for 1895-96 is enclosed.

I have the honor to be,
Sir,
Your most obedt Servant.

Para 3

I consider the opening of a road from Hosapet to Arasamaram Pillaiyar Koil Street very necessary. The 'impasse' stretches right across the town and necessitates a detour of half a mile on either side. There is a vacant space which might be acquired just at the spot and the amount (Rs 1000) allotted will be ample for all expenses. The other road to Shenbakam- will only be useful to the Sivite Sect as leading to their temple. I do not consider it very necessary at present.
