READ—the following papers:—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 12th June 1895, No. 599-G.D.

I have the honour to submit herewith plans and estimates, amounting to Rs. 13,920, received from the District Board, Gódávári, for extending Pálakollu and Akid road from Akid to Dumpagadapa, and to request that you will be so good as to obtain the sanction of Government to the same.

2. The estimate has been scrutinized by this office and bears the counter-signature of the President, District Board.

* No. 8 of 29th September 1894.

3. A copy of extract from the Proceedings * of the District Board sanctioning the estimate is enclosed.

Note by the Chief Engineer, Public Works Department.

No hydraulic details have been submitted so as to show the sufficiency of waterway provided for the culverts. The Superintending Engineer should satisfy himself as to the sufficiency of waterway allowed in each case.

2. It would be well to make the concrete under the arch of the same thickness as that under the abutments, so that the bed may thus be brought to the same level throughout; and unless the streams are extremely sluggish, the concrete should be extended up and down stream so as to fill all the space between wings.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.
