III Read the following memoirs.

(4) Read Inspection notes of Sanitary
Commissioners. C. C no 801 Ind / 6 May 1875.
Read and resolved that steps be taken
to remedy evils pointed out by the Sanitary
Commissioners and the Council regret that with
the limited means at their disposal they are
not in a position to mend natural dis-
advantages that exist in this old & irregularly
constructed town. As there are many
points which require time and trouble,
Government be requested to extend time
of inspection by the Sanitary Commissioners
for a year instead of six months.

To,

The Sanitary Commissioner
Madras.

Sir,

In reference to G. O. No. 8014 dated 1st May 1895
I have the honor to inform you that Government were
regarded to extend the time of suspension by you
for one year instead of six months as the same was
received hardly six weeks ago and as it appears that
you have already come to Viriyaragaram on
suspension.

2. Nothing like tangible improvement can be
made within a month or two and I venture to
think that it is nothing but fair that sufficient
opportunity should be given to the Council
for improving the sanitary condition of the
town with its natural disadvantages.

3. An extract from the proceedings of the
Council dated 3rd July 1895 is herein enclosed
for information and request you will
also recommend for extension of time.

I have the honor to be

Sir,

Your most obedient servant

SIR,

With reference to the accompanying letter from the Chairman Municipal Council, Ellore, requesting the favor of Government extending the period during which tangible improvements are required at the hands of the Municipality, I have the honor to advise that, under the circumstances stated in the Chairman's letter, the request be acceded to.

2. It would, however, be advisable that the Council be required by Government to state item by item what improvements they contemplate, and how they propose to find the requisite funds. Thus, it seems not unlikely that matters that might well wait will be first attended to. For example, the Council has just applied to the Sanitary Engineer for a standard plan of a market, whilst it is probable that the urgent question

of reforming existing modes of con-
servancy and water-supply has not
been duly provided for.

I have the honor to be
