I. Read again House and Water Taxes Appeals
on Government buildings for 1893-94.

Resolution

In pursuance of Resolution dated the 7th
September 1893, the Council resolves to cal-
culate the rent for the purpose of taxation on
houses built after native style at 8 per cent
on the value of the house and on those built
after European style at 12 per cent, as the latter
fetch a much higher proportion of rent. The
Council

rent value is calculated on the actual or
estimated value thereof at 12 per cent in the
case of buildings under class (1) and at 8
per cent in the case of those under class (2).

This distinction is made as it has been general-
ly found by experience that houses built in
European style fetch much higher rent than
houses of native style and equal cost. No dis-
tinction is made between Government and
private buildings. The matter was fully
discussed at the Meetings of the Council
held on 7th September and 11th December 1893,
in connection with the appeals preferred by
the Executive Engineer against assessment
of certain Government buildings, and I
subjoin the Resolutions of the Council for
the information of Government.

I have the honor to be,
Sir,

Your most obedient servant,

Cy Amburaj
Chairman Delegate.

Sir,

With reference to G.O. dated the 26th June 1895 No 1023 M. Miscellaneous, I have the honor to report that the orders contained in G.O. dated the 6th April 1893 No 468 M. in connection with assessment on buildings in this Municipality have been duly given effect to. For the purpose of Municipal assessment on buildings the buildings in this Municipality are arranged into two classes, (1) Buildings built after European style (2) Buildings built after native style, the tax being levied at the rate of $7\frac{1}{2}$ per cent per annum on the annual rental. For buildings that are not rented the annual
