GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From M.R.Ry. M. VENKATACHELAM PANTULU Garu, Chairman-delegate, Municipal Council, Bimlipatam, to the Chief Secretary to Government (through the Principal Assistant Collector, Vizagapatam), dated Bimlipatam, 23rd May 1895, No. 151-M.

I have the honour to submit herewith annexed the annual accounts of this municipality for the official year ending with March 1895, together with my report on the administration of this municipality for 1894–95. These accounts and the administration report were duly circulated among the councillors and formally passed by them at their meeting held on 29th instant. The accounts are not yet audited and so no audited figures could be given. In this connection I once more bring to the notice of Government the views expressed by M.R.Ry. Rao Sahib V. Anantha Rao Pantulu Garu, late Chairman of this municipality, enumerated in paragraph 1 of this office No. 100-M., of 16th May last, embodied in G.O., No. 905 M., of 16th July last. The matter is said to have been referred to the Accountant-General for his remarks and nothing is heard of what has since transpired (*vide* paragraph 6 of the Government Order above quoted).

2. The municipality is governed by Act IV of 1884 (the District Municipalities Act). The strength of the council on the 31st March last was 15 against 14 on the corresponding date of the last year, of whom 3 were officials and 12 non-officials. The maximum sanctioned is 16. The vacancy caused by the transfer of Lieut. F. Icely, the Port Officer, to Vizagapatam was not filled till 7th May 1895 by his successor, Captain H. J. Boas. The elective franchise of councillors has not yet been extended to this municipality, and the councillors are nominated by Government. The council, however, elect their Chairman. Of the 15 councillors on the rolls by the 31st March 1895, five are Europeans and Eurasians and the rest are natives.

3. The term of office of M.R.Ry. Rao Sahib V. Anantha Rao Pantulu, the Chairman of the municipality, expired on the 25th August 1894, and Mr. E. Scott, the then Divisional officer, assumed charge of the municipality and delegated his powers to the said gentleman. Two meetings were convened on 24th September and 31st October 1894 for the election of Chairman, and Mr. F. J. Griffin was formally and unanimously elected to the chair and was gazetted on 20th November 1894. The latter held the office up to 27th April 1895 and resigned the Chairmanship of the municipality and delegated his powers to me (the local sub-registrar of assurances). His resignation was accepted by the Collector, and Mr. R. Morris, the Divisional officer, on assuming charge, delegated his powers to me under section 32 (2) of the Municipal Act. It would not be out of place for me if I mention here that Mr. Griffin, during the short period of his term of office as the Chairman, has taken warm interest in the municipal administration at the critical moment of financial deficit, and managed the affairs to the satisfaction of those that entrusted the onerous duty to him. The council met 16 times in the year under report. No meeting was adjourned for want of a quorum. The average attendance at each meeting actually held was 1·93 in the case of officials and 7·25 in that of non-officials, thus making an average attendance of 9·18 at each meeting against 7·68 of the last year. There is only a slight improvement in the attendance of official members over 1·18 of last year.

The attendance of the non-official councillors is satisfactory. The Divisional officer attended the meetings of the council on two occasions. The members have taken interest in the management of the municipality and given every assistance to the Chairman on all occasions whenever it was found necessary.

4. A sum of Rs. 63–3–1 was to be collected during the year under report, being the arrears for 1893–94. Of this Rs. 21–5–6 were collected and the balance, Rupees 41–13–7, was written off as irrecoverable by the council.

5. A sum of Rs. 5,216–1–4 was the total amount of the principal taxes as originally assessed by the Chairman, of which Rs. 345–8–6 were remitted by the council on appeal. The balance—Rs. 4,870–8–10—was finally-assessed demand, of which Rs. 4,785–2–10 were collected, leaving a balance of Rs. 85–6–0 to be accounted for during 1895–96.

6. It will be observed from the demand, collection and balance statement that most of the remissions appertain to the tax on arts. If the new Act comes into operation, I think the municipal finances will improve.

7. *Tax on Arts.*—The demand originally assessed by the Chairman was Rupees 1,717, of which Rs. 328 were remitted by the council. The demand finally settled was Rs. 1,389, of which Rs. 1,380–8–0 were collected and credited during the year. The balance of Rs. 8–8–0 was to be collected during the current year. Out of Rupees 14–8–0 outstanding at the beginning of the year, Rs. 14 were collected and the balance, Annas 8, was written off as irrecoverable.

The decrease of Rs. 5–8–0 under the revised estimate of Rs. 1,400 is very trivial and needs no special explanation.

8. *Tax on Buildings.*—A sum of Rs. 2,610–7–0 was the original demand under this head, of which Rs. 2–0–6 were remitted by the council under section 51 of the Act, thus leaving a balance of Rs. 2,608–6–6 to be collected. Of this Rs. 2,544–8–6 were collected and credited during the year. A sum of Annas 9 was remitted to a party under section 72 (1). The balance remained to be collected was Rs. 63–14–0, of which an amount of Rs. 20–0–4 has since been collected.

The arrears appertaining to 1893–94 was Rs. 39–11–1. Of this Rs. 6–1–3 were collected. The balance of Rs. 33–9–10 was written off as irrecoverable. The slight decrease of Rs. 9–15–3 under the revised estimate of Rs. 2,560 calls for no remarks.

9. The assessment of thatched houses was finally settled by the council, and it was resolved by them that no tax should be levied in consideration of the poor condition of the owners.

10. *Land Tax.*—The full demand of Rs. 79–2–4 was collected during the year.

11. *Tax on Vehicles with Springs.*—The amount originally assessed was Rupees 241–8–0, of which Rs. 7–8–0 were remitted by the council on appeal. Hence the final demand was Rs. 234, of which Rs. 229–8–0 were collected during the year, leaving Rs. 4–8–0 for subsequent collection. The whole amount, Rs. 4–8–0, has since been collected, thus leaving nothing to be adjusted.

12. *Tax on Animals and Carts without Springs*—Rs. 391 and Rs. 177 were the amounts originally assessed; of these Rs. 7 and Re. 1 were remitted by the council on appeal. The net demands were Rs. 384 and Rs. 176; of these Rs. 377–8–0 and Rs. 174 were collected and credited. Rupees 6–8–0 and Rs. 2 were the amounts outstanding at the close of the year, respectively, under the above heads. Rs. 4–8–0 have since been collected on account of tax on animals.

A sum of Rs. 3 was the amount outstanding under tax on animals for 1893–94 on account of tax on dogs belonging to the late Telegraph Master, Bimlipatam, Mr. H. Clerk. The Administrator-General paid only As. 14–3 as the proportionate amount of dividend that could be paid from the assets of the deceased. The balance, Rs. 2–1–9, was therefore written off as irrecoverable.

13. *Tolls*—Rs. 5,510 was the amount that could be fetched under the head of tolls during the year under report. This year was exceptionally a bad one for traffic. Rs. 18–12–4 were paid for repairing the toll-gates. The net gross collection, after

deducting the charges incidental, was Rs. 5,491–3–8. The amount due to the district board was a fourth share of the above. The due was fully paid and the council solicited the Board to reduce its share, which was not approved of by it.

14. *Rent of Lands.*—Rs. 30–7–7 was the only amount that could be realized from the private parties in the town on account of stones, &c., taken out by them from the hill leased out by the council from His Highness the Maharajah of Vizianagram, G.C.I.E.

15. *Rent of Buildings.*—The amount, Rs. 333, was the rent on the two buildings belonging to the council.

16. *Sale-proceeds of old materials, &c.*—The empty oil cases, &c., were not sold during the year under report, as it was found that the market was dull. Hence the reduction.

17. *Sale-proceeds of Night-soil, Street-refuse.*—The sale of sweepings at the municipal cart-stand fetched only Rs. 45, and 8 annas and 4 pies was the penal interest collected from the renter on overdue kists.

18. *Fees from Educational Institutions.*—The actual amount that was collected under this item was only Rs. 1,380–0–3 against Rs. 1,500 put down in the revised estimate at the suggestion of the Educational authorities. There was a decrease of Rs. 119–15–9. Judging from the average collections of the past three years, the present collections compare favourably and nothing can be said against the same.

19. *Sale-proceeds of Medicines.*—Of the sum put down in the revised estimate—*i.e.* Rs. 500—only Rs. 440–13–1 were realized and credited. The decrease, Rs. 59–2–11 could only be accounted for as no medicines from England were received in time and the hospital was left for about a month without sufficient stock of medicines.

20. *Other Hospital Receipts.*—The sum of Rs. 517 was collected against Rs. 560 of the revised estimate. The difference, Rs. 43, was the amount of collections for March 1894, which ought to have been collected in April following were received and credited during March 1894 only; hence the decrease.

21. *Income from Slaughter-houses.*—The sum of Rs. 43–0–2 was the actual amount for which the slaughter-houses were leased out and Pies 2 is the penal interest on overdue kists.

22. *Distraint Fees.*—For the collection of municipal taxes, 110 warrants had to be issued and 2 warrants were outstanding on account of last year. The total number was 112, of which 108 were executed and 4 warrants were outstanding at the close of the year. Of the number of 110 warrants, only in 10 cases the property had to be attached and in the remaining cases the collection was made after issue of warrants but before distraint. Rs. 3 was the only amount that could be realized under the head. The party that was reported to have been prosecuted in paragraph 5 of letter, No. 100 M., of 16th May 1894, subsequently tendered payment and so the prosecution was withdrawn.

23 *License Fees.*—Rs. 95 was the amount that was collected on account of licenses issued for offensive and dangerous trades as well as for the erection of pandals. The slight increase of Rs. 5 over the revised estimate of Rs. 90 is due to a number of pandals erected during the year for marriages in the town.

24. *Fines under Municipal and other Acts.*—There is an increase of Rs. 31–14–6 over the revised estimate figure of Rs. 140. The increase is owing to the detection of nuisance cases with care and vigilance by the police as well as by the conservancy staff maintained by the municipality.

25. *Interest on Investments—Educational—Jubilee Gold Medal Fund.*—The sum of Rs. 14–1–7 was the interest collected on a Government promissory note held by the council in trust at 4 per cent. The Government having reduced the interest on the same from 4 to 3½ per cent. in accordance with Circular, No. 288–I., of 30th June 1894, only a small interest accrued.

26. *Contributions from Government—Other Purposes.*—The Director of Public Instruction, sanctioning only Rs. 25–8–0 in his Proceedings, No. 3421, of 21st March

1895, towards salary of the trained gymnastic instructor, remarked that the teacher was not eligible for more than a third of his salary under the Grant-in-aid Code; hence the decrease of Rs. 14–8–0 under the revised estimate.

27. *Contribution from Local Boards—Medical and other Purposes.*—Rs. 381–4–0 were the usual contributions from the Taluk Board, Vizianagram, towards the hospital and the maintenance of roads.

28. *Private Scavenging.*—The original demand under this head was Rs. 444–6–0, against which Rs. 441 were collected, leaving a balance of Rs. 3–6–0 to be accounted for during 1895–96, of which an amount of Rs. 1–2–0 has since been collected. A sum of Rs. 6 was outstanding on account of 1893–94 of which As. 6 were collected. The balance, Rs. 5–10–0, had to be written off as irrecoverable.

29. *Refunds of Expenditure of previous year.*—A sum of Rs. 4–3–10 was the transit pay and travelling allowance paid to the headmaster, Middle school, for 11th March 1893, when he went to act as additional Sub Assistant Inspector of Schools, Vizagapatam district. But the same was paid to him by Government and it was refunded to the municipality. A sum of Rs. 12–15–0 was the amount of grant paid to the teachers of the Town school for 1893–94. The teachers declined to receive the amount, as the grant was distributed in terms of the resolution of the council that the grant of each class a teacher teaches will only go to that teacher independent of the grant earned by other classes. But they contested that the same will have to be distributed among them in proportion to their salaries.

30. *Fee for numbering Carts.*—This is the amount collected from cartmen for the tin tickets issued to them. The small increase over the revised estimate requires no explanation.

31. The total receipts of the year exclusive of the opening balance of Rs. 300 amount to Rs. 12,874–12–5, against the revised estimate figure of Rs. 13,130, and Rs. 14,090 of the sanctioned budget for 1894–95. The total receipts including the opening balance amounted to Rs. 13,174–12–5. The actual expenditure during the year amounted to Rs. 12,957–12–10; thus there was a balance of Rs. 216–15–7, against the revised estimate balance of Rs. 250.

32. *Grant I, Public Works—New Works—Buildings.*—Rs. 183–5–4 was the amount spent in re-roofing the apothecary's quarters and for the construction of a contagious shed. All these items were explained at the time of submitting the proposals to meet the financial deficit: *vide* letters, Nos. 449 of 29th October, and 480 M. of 11th November, 1894. The new latrine which was proposed to be built during the year could not be constructed as explained in the letters quoted above.

33. *Repairs—Communications.*—A sum of Rs. 662–6–11 was spent on roads, against the revised estimate figure of Rs. 1,000 and that of the sanctioned budget of Rs. 1,600. I regret to mention here that the orders of Government could not be carried out in spending the required proportion of toll revenue. This was due to the fall of revenue. But I may state here that all the roads that require immediate repairs were attended to. The Government will be glad to observe from the remarks of the Deputy Sanitary Commissioner and Inspector of Vaccination, Dr. C. Mallins, who inspected the town on 7th April 1895, that "*The roads are in a very good order.*" In these circumstances I trust that the Government will not view this as a violation of their order, but as a result of paucity of funds to meet the required charges.

34. *Drainage.*—Owing to heavy rains all the drains were blocked up with sand and stones. The cost of removing the same is the cause of increase of Rs. 10–14–10 over the revised estimate of Rs. 50.

35. The total amount spent under Grant I was only Rs. 1,021–4–10, against the revised and budget estimates of Rs. 1,360 and Rs. 2,000. Statement II-A furnishes the details of the expenditure. The works under Grant I were as usual conducted under the direct supervision of the councillors who have helped the Chairman in executing the works rapidly and substantially.

36. *Grant II, Education—Salary System—Establishment.*—A sum of Rs. 1,408–9–5 was the amount spent, against Rs. 1,430 of the revised estimate. The decrease was owing to the changes in the teaching staff. The increase of Rs. 13–4–7 over the

revised estimate figure of Rs. 20 under contingencies needs no remarks. The net cost to municipality was Rs. 435–11–6. I am really sorry to represent to Government that the school did not shine well during the public examinations, as out of 23 sent up for the Lower Secondary examination only two passed. This is partly to be accounted for by the frequent change of the headmaster of the school owing to his acting appointment as Sub-Assistant Inspector of Schools and partly by the difficult nature of the examination.

37. *Salary-result System—Fixed Payments.*—The slight decrease of Rs. 7–12–2 under the revised estimate of Rs. 780 was owing to certain savings effected from the salaries of the teachers on leave.

38. *Result Grants.*—A sum of Rs. 248–6–0 was paid to the teachers of the Town, Muhammadan, Pariya and Night schools on account of result grant to the teachers. Rs 48–6–0 were paid in excess over the revised estimate figure of Rs. 200, but it was owing to the payment of grant due to the teachers of the Town and Muhammadan schools for 1893–94 during the year: *vide* paragraph 39 of letter, No. 100 M., of 16th May last.

39. *Contingencies.*—The slight increase of Rs. 5–7–10 over the revised estimate figure of Rs. 100 needs no special mention. The net cost to the municipality under the salary-result system schools amounts to Rs. 752–3–11. The results of these schools compare favourably with those of the middle school.

40. *Result Grants.*—The primary schools in the town have not earned the full grants owing to some technical objections under the revised Grant-in-aid Code.

41. *Municipal Inspector's Establishment.*—The cause of decrease was already explained in paragraph 25 of the letter, No. 734 M., of 4th January 1895.

42. The other items under Grant II do not call for any particular remarks with the exception of utilizing the amount provided for the purpose of gold medal. Owing to the receipt of interest during 1893–94 on 31st March 1894 the medals were not given to the deserved boys. So two medals will have to be purchased and distributed now to the pupils of the middle school in satisfaction of the trust entrusted to the council. The amount was shown under liabilities foot-note to Statement II, as noted below:—

			Rs.	A.	P.
Interest collected during 1893–94	..	..	36	0	0
Do. do. 1894–95	..	..	14	1	7
Total	..		50	1	7

43. The total expenditure under Grant II was Rs. 2,878–1–7, against the revised estimate of Rs. 2,860 and Rs. 3,120 of the sanctioned budget. The total receipts under school fees amount to Rs. 1,380–0–3. The net cost to the municipality was therefore Rs. 1,498–1–4 under education. The report of the Educational officers on the education of the municipality is enclosed.

44. *Grant III, Sanitation and Medical Services—Hospital Establishment.*—The slight decrease under the revised estimate needs no explanation. The Government is not pleased to sanction either of the proposals of the council contained in this office No. 531 M., of 29th November 1894, with regard to the medical officer of this station. Owing to the frequent changes in the medical officers, the people may not have faith in the English treatment which appears to have been attracting the people. The council is obliged to maintain till now a highly paid medical officer on a salary of Rs. 112–8–0 quite detrimental to their finances in accordance with the budget estimate figure. There is also change in the compounder during the year. The council used to maintain a compounder on a salary of Rs. 25 per month in consideration of his long service in the department. But he was found disqualified in compounding and his services were dispensed with and another man on Rs. 15 per month has been entertained.

45. *Medicines and Supplies.*—A sum of Rs. 707–0–10 was spent for the purchase of medicines against the revised estimate of Rs. 650. The increase, Rs. 57–0–10,

was owing to the purchase of medicines locally and to the payment of duty on medicines received from England from Messrs. Burgoyne, Burbidges and Co., London.

46. *Diet of Patients.*—Rs. 378-6-0 were spent for dieting in-patients against Rs. 360 provided for.

47. *Contingencies.*—A sum of Rs. 389-13-10 was spent under this head against Rs. 340 provided for in the revised estimate. The increase of Rs. 49-13-10 was owing to the purchase of new bedding and the payment of reward for a large number of cases attended by the midwife. The medical officer's report is herein enclosed on the working of the hospital. The net cost to the municipality was Rs. 2,075-2-0.

48. The hospital has been freely resorted to; 129 in and 13,564 out patients were treated during the year against 106 in and 10,204 out patients during 1893-94. The hospital was twice inspected by the District Surgeon during the year under report.

49. The work of the midwife seems to have been well appreciated by the public in general inasmuch as 150 cases were attended by her against 125 of the previous year, and I can say that the work of the midwife was satisfactory on the whole. The payment of remuneration for the extra cases attended by her worked satisfactorily.

50. *Contributions to Provincial Funds.*—These amounts were paid in accordance with the instructions of the Accountant-General.

51. *Contribution to Local Boards—Medical.*—An amount of Rs. 12 was paid to the Taluk Board, Vizianagram, on account of reserve compounders at the District Surgeon's office.

52. *Vaccination*—requires no explanation. The work of the Second-class Vaccinator S. Narayana Appadu is satisfactory. He takes keen interest and is popular. His work was examined by the Deputy Sanitary Commissioner and Inspector of Vaccination who remarks that "*On the whole vaccination is carefully looked after.*" The vaccination was made compulsory during 1893-94. The civil apothecary in charge of the hospital also vaccinates and supervises the work of the vaccinator. The civil apothecary vaccinated 44 cases, of which 39 were successfull against 58 of the year previous. Of the 44 cases, six were operated on children under one year against the same figure of last year. The work turned out by the vaccinator was 719, of which 689 were successful, against 592 and 563 of the previous year respectively. Of the 719 cases, 341 were under one year of age, of which 339 were successful, against 157 and 154 of the previous year respectively. All these cases were operated upon with the calf-lymph supplied from the calf vaccine depôt, Vizagapatam, the cost of the lymph being paid to the District Surgeon. The total number of vaccine operations performed by the civil apothecary and the vaccinator was 763, of which 728 were successful, against 650 and 621 of the previous year.

53. *Registration of Births and Deaths.*—The slight variations between the revised estimate and the actuals require no special explanation. The total number of births registered during the year under report was 297 against 303 of the last year. The total number of deaths registered was 269 against 232 of the previous year. The work of the registrar was also examined by the Deputy Sanitary Commissioner, who remarked that "*His books are kept neatly in English up to date*".

54. *Conservancy.*—The decrease under the revised estimate, Rs. 2,020, and that of actuals, Rs. 2,012-10-0, is owing to the non-entertainment of sweepers proposed for the new latrines. The town was inspected by the Deputy Sanitary Commissioner on the 27th April last and remarked that "*Certainly at the time of my inspection the streets were remarkably clean (although my arrival was unexpected)*".

55. *Private Scavenging.*—This does not appear to have been popularized although every attempt is made to make it so. The cost of the maintenance of the establishment was Rs. 619-2-0 against Rs. 620 of the revised estimate. The total receipts amount to Rs. 441-6-0. The net cost to the municipality was therefore

Rs. 177-12-0. The number of latrines under the management of the municipality was 255 against 286 of the previous year. Attempts will be made to make it self-supporting.

56. *Cholera.*—No epidemic of any nature made its appearance during the year under report. Only a few cases of small-pox and measles in a sporadic form appeared. Immediate steps were taken to check the spread of the disease in the affected parts. Public health, on the whole, appears to be good.

57. *Lighting Establishment and Contingencies.*—There is no change. It was worked on the same lines as that of the previous year.

58. *Choultries—Poor House.*—The Lord Ripon Poor House has been doing immense good under the management of M.R.Ry. Ch. Sanyasi Naidu Garu, Municipal councillor, merchant, and abkári renter. He takes keen interest in the well-being of the institution and even lays out money out of his own pocket if funds do not permit of any extra charge.

59. *Avenue Establishment.*—The services of these servants were dispensed with and the cocoanut trees were leased out for three years during the year 1895-96 at Rs. 52 per year.

60. The other items under Grant IV require no special remarks. The council had to pay the rents on lands leased out to the council by His Highness the Maharaja of Vizianagram, G.C.I.E., for two years, 1893-94 and 1894-95, during the year under report, as no bills were submitted to them during 1893-94. The total amount of expenditure under Grant IV amounted to Rs. 995-9-10 against Rs. 960 of the estimate.

61. *Grant V.*—No remarks, with the exception of increased expenditure of Rs. 19-10-0 over the revised estimate of Rs. 90 under office contingencies, which was due to the payment of cost of printed forms, &c., supplied.

62. *Refunds of other than current Collections.*—This was the amount refunded to the oilmongers, &c., in accordance with the orders of the High Court of Judicature.

63. The total expenditure under all items amounted to Rs. 12,957-12-10, against Rs. 13,180 of the revised estimate and Rs. 13,890 of the budget for 1894-95. The balance at the close of the year as certified by the Deputy Tahsildar was Rs. 1,837-7-7 including the deposits, Rs. 1,620-8-0, of the toll-renters, &c., for 1895-96.

64. In conclusion, I beg to state that the year under report cannot be considered bright inasmuch as in every item the municipal finances fell short. Every possible arrangement was made to observe strict scrutiny of expenditure. It is hoped that the finances will be improved during the current year and some new works, such as the construction of additional latrine, &c., will be attended to.

65. A copy of the resolution passed by the council passing the accounts and the administration report is herein enclosed.

ENCLOSURE.

REPORT on the Municipal Hospital, Bimlipatam.

I Public Health.—The year under report has been on the whole a healthy one. No epidemics visited the town and its surroundings. Measles and small-pox prevailed to a certain extent during the months of December, January and February.

II. Vital Statistics—Hospital.—There were nine deaths amongst in-patients, three of these were admitted in a moribund state, five amongst out-patients.

In 1893-94 there were two amongst in-patients and none recorded against out.

Causes of death	
In-patients—	
Dysentery	1
Malarial fever	1
Phthisis pulmonalis	2
Dropsy	1
Anæmia	1
Labour preternatural—"craniotomy"	1
Debility	2
Total	9
Out-patients—	
Beri-beri	1
Infantile convulsions	1
Pneumonia	2
Chi Bright's disease	1
Total	5

III. Sanitation.—The town is considered a sanitarium and kept in a very satisfactory condition. Three public latrines are in use, to which a few resort and these are kept clean.

Public and private scavenging works well, the conservancy staff is sufficient to cope with the work.

Drainage good and mostly natural. Water-supply ample and good, four samples of water were sent to the Chemical Examiner lately for analysis.

Slaughter-houses are away from the town and kept clean. There are night-soil pits and some "cinerators" which work well.

IV. Vaccination.—The vaccinator has worked well. Total cases done during 1893–94 were 592 of which 563 were successful. In 1894–95, 719 were performed and 689 were successful.

Work done by medical subordinate in 1893–94, 58 cases, 58 were successful; 1894–95, 44 cases, 39 successful. Glycerine paste is used and works successful.

V. Hospital.—The hospital is well situated to meet the convenience of all sorts and conditions of people. It is well ventilated and has accommodation for ten males and four females. There is also accommodation for European patients, which is seldom used now-a-days. Some petty repairs are required to the windows and doors. The Chairman, Municipal Council, has been informed of this.

The dead-house requires immediate repairs. The contagious shed is in good order.

Furniture and Fittings.—In good repairs and adequate.

ATTENDANCE of patients compared with previous year.

	Total treated.		Average daily attendance.	
	In.	Out.	In.	Out.
1893–94	106	10,204	7·31	67·61
1894–95	129	13,564	6·35	90·74

Operations.—In 1893–94 there were 19 major, 395 minor operations performed. In 1894–95 there were 23 major and 483 minor operations done as follows:—

Paracentesis abdominis	2
Removal of tumours	2
Sequestrotomy tarsal bones	1
Amputation of foot	1
Incision for large abscess in dangerous positions	8
Version and forceps	1
Radical cure for hydrocele	7
Craniotomy	1
Total	23

Establishment—

	RS.	A.	P.
One compounder	15	0	0
„ nurse or midwife	15	0	0
„ peon	6	0	0
„ waterman	3	8	0
„ cook	4	0	0
„ male sweeper	4	8	0
„ female sweeper	3	8	0

The staff is sufficient and efficient, but it would be desirable to have a female attender to attend on female in-patients.

Midwife's Work.—Attended 150 cases during the year. Her cases are all examined both by the municipality and medical officer.

There is no hospital for caste and gosha women, but females and children are attended to in a separate room.

General Remarks.—The most prevailing diseases were malarial fevers, skin diseases, rheumatic affections, ulcers, worms and digestive diseases.

The necessaries of life are easily procurable in the markets.

The average rainfall for 1893–94 was 39·41 against 39·42 of 1894–95.

The hospital was inspected twice by the District Medical and Sanitary Officer and once by the Deputy Sanitary Commissioner.

Ag. Principal Assistant Collector.

No. 2365-C.

Forwarded.

2. I have reason to believe with reference to paragraph 1 of the report that the Accountant-General expressed the opinion that the late Chairman was in error as to the manner in which local fund accounts were audited, and considered that no alterations need be made in the system of dealing with municipal accounts.

3. It is possible that the attendance of official members might be improved if the meetings of the council were held on fixed dates and at fixed hours. I have reason to believe that the short attendance of the divisional officer is due to the irregular intervals at which meetings are held.

4. The expenditure on public works being less than half the net receipts from tolls, and the financial position of the district board not being very satisfactory, I do not think a sufficient case is made out for the remission sought and referred to in paragraph 13.

5. The roads are in very good order indeed. The traffic is very light over all but the half-mile from the toll-gate on the Vizianagram road to the beach, and it consequently costs very little to keep the roads in good repair.

6. The private scavenging system seems to be working somewhat badly and requires the personal attention of the Chairman and the councillors.

7. It is greatly to be regretted that Mr. Griffin, a very energetic Chairman, was compelled for private reasons to resign office.

VIZAGAPATAM,

4-5 Parler

2. Sixteen meetings were held by the municipal council against fifteen in 1893–94. The average attendance of the members improved and was satisfactory. In this connection, the Chairman's attention will be drawn to the Collector's remarks in paragraph 3 of his endorsement.

3. *Receipts.*—(1) The net current demand of the taxes on arts, buildings and lands remained almost stationary. Owing to a large decline in the number of persons assessed to the tax on arts—for which an explanation should be submitted without delay—the average assessment under this head rose from Rs. 4–10–8 to Rs. 8–11–9, or more than double the general average for municipalities in 1893–94. The council's decision in the matter of the taxation of thatched houses, referred to in paragraph 9 of the Chairman's report, appears to be ill-advised and scarcely regular. The council has not the power to grant a general exemption of this description, and it is not probable that the value of *all* the thatched houses in the town is so low as to entitle their owners to an exemption under section 63 (3) of the District Municipalities Act.

(2) The collections under the principal taxes continued to be very satisfactory.

(3) There was a decline in the income from tolls, but that from license fees was nearly treble that of the previous year. This latter, however, is still very small and appears capable of much development. The subject should engage the attention of the council in the current year. The same remark applies to the revenue from sales of the town rubbish, which was again very low. The income of the municipality has of late years been on the decrease, and the council cannot afford to neglect any means of improving it. The increase in the receipts from fines, which is ascribed to greater vigilance on the part of the police and the municipal executive in detecting nuisance cases, is satisfactory. The number of houses served by the private scavenging agency, it is observed with regret, again fell (from 286 to 255) and the service was again worked at a loss (Rs. 178) to the municipal council. The council's attention was drawn in the review of the last year's report to the necessity of energetic action to extend the system and to the desirability of prosecuting the owners of insanitary premises, but the present report contains little or no information to show what has been done in either of these directions. The Chairman will now report fully upon the subject. The Government must insist upon an improvement in the management of this service. On the other hand it is not likely that the general body of the ratepayers

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The outlay on communications amounted, under the circumstances explained in paragraph 32 of the Chairman's report, to only Rs. 662, or 16·1 per cent. of the net municipal income from tolls, against the prescribed minimum of 50 per cent. The town roads are, however, reported to have been in very good order.

(2) *Education.*—The net expenditure on education was Rs. 1,472, or 16·5 per cent. of the income from taxation. Of this, all but Rs. 436 was devoted to primary education. The municipal council continued to maintain a lower secondary school on the salary system and four primary schools on the salary-result system. There was a decline in the attendance at the former, while that at the latter remained almost stationary. The results of the Lower Secondary examination were poor, only two of the twenty-three candidates who appeared for it having been successful, but the primary schools appear to have done well at the departmental examinations. Two primary schools were aided with result grants against four in the previous year. The strength of these schools declined, the results of the grant examinations were unsatisfactory, and all but 20·4 per cent. of the allotment for grants was was allowed to lapse. It is also to be regretted that the total number of boys under instruction in the municipal and aided schools fell from 49·3 to 42·9 per cent. of the male population of school-going age, against a general average of 54·2 for municipalities in 1893–94. This branch of the council's work appears to require increased attention.

(3) *Medical Relief.*—There was again a large increase of 3,383 in the total number of patients treated at the municipal hospital, which, considering that the year was not one of unusual sickness, may be ascribed to the increasing popularity of the institution. It is satisfactory that the midwife employed by the municipal council attended 150 cases of labour against 125 in the previous year. The council's attention

14 6 159

The matter should be reconsidered without delay

87

[illegible] burdened with the cost of a private source & on the other hand it is not right that insanitary premises should be permitted to continue in contravention of the laws & to the detriment of public health.

will be drawn to the civil apothecary's remarks in paragraph V of his report regarding the repairs to the hospital and the dead-hou and the entertainment of a female servant at the hospital. The details given in his report of the various operations performed were unnecessary.

(4) *Vaccination and Vital Statistics.*—T report number of persons vaccinated during the year rose from 650 to 763, and the quality of the work turned out is stated to have again been good. It is also satisfactor that 345 infants, or forty-eight more than the number of births registered, were succ ssfully operated upon.

There was an improvement in the regis ation of deaths, but that of births declined slightly. In both cases the recorded r es are considerably below the normal, and the subject demands the continued attentio of the council.

(5) *Sanitation.*—Ninety-six per cent. o the allotment under this head was utilized and the expenditure amounted to 22·4 per cent. of the receipts. The civil apothecary states that the sanitary condition of he town is satisfactory, but from the inspection notes of the Deputy Sanitary Commi ioner recorded in G.O., dated 6th August 1895 No. 1279 M., it does not appear to be ree from defects. Every endeavour should be made to remedy them as funds permi

5. *General Remarks.*—The year closed with a balance of Rs. 217, or only 1·7 per cent. of the total receipts. The council sh ld endeavour, as has already been remarked, to develop every possible source of r venue. With reference to paragraph 1 of the Chairman's report, his attention will b drawn to the Collector's remarks in paragraph 2 of his endorsement and to the Acc untant-General's letter communicated with G.O., dated 15th October 1894, No. 1460 L.

The administration of the municipality du ng the year under review continued to be, on the whole, satisfactory and creditable to the Chairman and the municipal council. The private scavenging system and ducation, however, require increased attention. The Government notes with pleasure he testimony borne by the Chairman to the assistance rendered to him by the councillors.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. M. VENKATACHALAM PANTULU Garu, Chairman-delegate, Municipal Council, Bimlipatam, to the Chief Secretary to Government (through the Principal Assistant Collector, Vizagapatam), dated Bimlipatam, 23rd May 1895, No. 151-M.

I have the honour to submit herewith annexed the annual accounts of this municipality for the official year ending with March 1895, together with my report on the administration of this municipality for 1894–95. These accounts and the administration report were duly circulated among the councillors and formally passed by them at their meeting held on 29th instant. The accounts are not yet audited and so no audited figures could be given. In this connection I once more bring to the notice of Government the views expressed by M.R.Ry. Rao Sahib V. Anantha Rao Pantulu Garu, late Chairman of this municipality, enumerated in paragraph 1 of this office No. 100-M., of 16th May last, embodied in G.O., No. 905 M., of 16th July last. The matter is said to have been referred to the Accountant-General for his remarks and nothing is heard of what has since transpired (*vide* paragraph 6 of the Government Order above quoted).

2. The municipality is governed by Act IV of 1884 (the District Municipalities Act). The strength of the council on the 31st March last was 15 against 14 on the corresponding date of the last year, of whom 3 were officials and 12 non-officials. The maximum sanctioned is 16. The vacancy caused by the transfer of Lieut. F. Icely, the Port Officer, to Vizagapatam was not filled till 7th May 1895 by his successor, Captain H. J. Boas. The elective franchise of councillors has not yet been extended to this municipality, and the councillors are nominated by Government. The council, however, elect their Chairman. Of the 15 councillors on the rolls by the 31st March 1895, five are Europeans and Eurasians and the rest are natives.

3. The term of office of M.R.Ry. Rao Sahib V. Anantha Rao Pantulu, the Chairman of the municipality, expired on the 25th August 1894, and Mr. E. Scott, the then Divisional officer, assumed charge of the municipality and delegated his powers to the said gentleman. Two meetings were convened on 24th September and 31st October 1894 for the election of Chairman, and Mr. F. J. Griffin was formally and unanimously elected to the chair and was gazetted on 20th November 1894. The latter held the office up to 27th April 1895 and resigned the Chairmanship of the municipality and delegated his powers to me (the local sub-registrar of assurances). His resignation was accepted by the Collector, and Mr. R. Morris, the Divisional officer, on assuming charge, delegated his powers to me under section 32 (2) of the Municipal Act. It would not be out of place for me if I mention here that Mr. Griffin, during the short period of his term of office as the Chairman, has taken warm interest in the municipal administration at the critical moment of financial deficit, and managed the affairs to the satisfaction of those that entrusted the onerous duty to him. The council met 16 times in the year under report. No meeting was adjourned for want of a quorum. The average attendance at each meeting actually held was 1·93 in the case of officials and 7·25 in that of non-officials, thus making an average attendance of 9·18 at each meeting against 7·68 of the last year. There is only a slight improvement in the attendance of official members over 1·18 of last year.

The attendance of the non-official councillors is satisfactory. The Divisional officer attended the meetings of the council on two occasions. The members have taken interest in the management of the municipality and given every assistance to the Chairman on all occasions whenever it was found necessary.

4. A sum of Rs. 63–3–1 was to be collected during the year under report, being the arrears for 1893–94. Of this Rs. 21–5–6 were collected and the balance, Rupees 41–13–7, was written off as irrecoverable by the council.

5. A sum of Rs. 5,216–1–4 was the total amount of the principal taxes as originally assessed by the Chairman, of which Rs. 345–8–6 were remitted by the council on appeal. The balance—Rs. 4,870–8–10—was finally-assessed demand, of which Rs. 4,785–2–10 were collected, leaving a balance of Rs. 85–6–0 to be accounted for during 1895–96.

6. It will be observed from the demand, collection and balance statement that most of the remissions appertain to the tax on arts. If the new Act comes into operation, I think the municipal finances will improve.

7. *Tax on Arts.*—The demand originally assessed by the Chairman was Rupees 1,717, of which Rs. 328 were remitted by the council. The demand finally settled was Rs. 1,389, of which Rs. 1,380–8–0 were collected and credited during the year. The balance of Rs. 8–8–0 was to be collected during the current year. Out of Rupees 14–8–0 outstanding at the beginning of the year, Rs. 14 were collected and the balance, Annas 8, was written off as irrecoverable.

The decrease of Rs. 5–8–0 under the revised estimate of Rs. 1,400 is very trivial and needs no special explanation.

8. *Tax on Buildings.*—A sum of Rs. 2,610–7–0 was the original demand under this head, of which Rs. 2–0–6 were remitted by the council under section 51 of the Act, thus leaving a balance of Rs. 2,608–6–6 to be collected. Of this Rs. 2,544–8–6 were collected and credited during the year. A sum of Annas 9 was remitted to a party under section 72 (1). The balance remained to be collected was Rs. 63–14–0, of which an amount of Rs. 20–0–4 has since been collected.

The arrears appertaining to 1893–94 was Rs. 39–11–1. Of this Rs. 6–1–3 were collected. The balance of Rs. 33–9–10 was written off as irrecoverable. The slight decrease of Rs. 9–15–3 under the revised estimate of Rs. 2,560 calls for no remarks.

9. The question of the assessment of thatched houses was finally settled by the council, and it was resolved by them that no tax should be levied in consideration of the poor condition of the owners.

10. *Land Tax.*—The full demand of Rs. 79–2–4 was collected during the year.

11. *Tax on Vehicles with Springs.*—The amount originally assessed was Rupees 241–8–0, of which Rs. 7–8–0 were remitted by the council on appeal. Hence the final demand was Rs. 234, of which Rs. 229–8–0 were collected during the year, leaving Rs. 4–8–0 for subsequent collection. The whole amount, Rs. 4–8–0, has since been collected, thus leaving nothing to be adjusted.

12. *Tax on Animals and Carts without Springs.*—Rs. 391 and Rs. 177 were the amounts originally assessed; of these Rs. 7 and Re. 1 were remitted by the council on appeal. The net demands were Rs. 384 and Rs. 176; of these Rs. 377–8–0 and Rs. 174 were collected and credited. Rupees 6–8–0 and Rs. 2 were the amounts outstanding at the close of the year, respectively, under the above heads. Rs. 4–8–0 have since been collected on account of tax on animals.

A sum of Rs. 3 was the amount outstanding under tax on animals for 1893–94 on account of tax on dogs belonging to the late Telegraph Master, Bimlipatam, Mr. H. Clerk. The Administrator-General paid only As. 14–3 as the proportionate amount of dividend that could be paid from the assets of the deceased. The balance, Rs. 2–1–9, was therefore written off as irrecoverable.

13. *Tolls.*—Rs. 5,510 was the amount that could be fetched under the head of tolls during the year under report. This year was exceptionally a bad one for traffic. Rs. 18–12–4 were paid for repairing the toll-gates. The net gross collection, after deducting the charges incidental, was Rs. 5,491–3–8. The amount due to the district board was a fourth share of the above. The due was fully paid and the council solicited the Board to reduce its share, which was not approved of by it.

14. *Rent of Lands.*—Rs. 30–7–7 was the only amount that could be realized from the private parties in the town on account of stones, &c., taken out by them from the hill leased out by the council from the Maharajah of Vizianagram, G.C.I.E.

15. *Rent of Buildings.*—The amount, Rs. 333, was the rent on the two buildings belonging to the council.

16. *Sale-proceeds of old materials, &c.*—The empty oil cases, &c., were not sold during the year under report, as it was found that the market was dull. Hence the reduction.

17. *Sale-proceeds of Night-soil, Street-refuse.*—The sale of sweepings at the municipal cart-stand fetched only Rs. 45, and 8 annas and 4 pies was the penal interest collected from the renter on overdue kists.

18. *Fees from Educational Institutions.*—The actual amount that was collected under this item was only Rs. 1,380–0–3 against Rs. 1,500 put down in the revised estimate at the suggestion of the Educational authorities. There was a decrease of Rs. 119–15–9. Judging from the average collections of the past three years, the present collections compare favourably and nothing can be said against the same.

19. *Sale-proceeds of Medicines.*—Of the sum put down in the revised estimate—*i.e.*, Rs. 500—only Rs. 440–13–1 were realized and credited. The decrease, Rs. 59–2–11, could only be accounted for as no medicines from England were received in time and the hospital was left for about a month without sufficient stock of medicines.

20. *Other Hospital Receipts.*—The sum of Rs. 517 was collected against Rs. 560 of the revised estimate. The difference, Rs. 43, was the amount of collections for March 1894, which ought to have been collected in April following and which was received and credited during March 1894 only; hence the decrease.

21. *Income from Slaughter-houses.*—The sum of Rs. 43–0–2 was the actual amount for which the slaughter-houses were leased out and Pies 2 is the penal interest on overdue kists.

22. *Distraint Fees.*—For the collection of municipal taxes, 110 warrants had to be issued and 2 warrants were outstanding on account of last year. The total number was 112, of which 108 were executed and 4 warrants were outstanding at the close of the year. Of the number of 110 warrants, only in 10 cases the property had to be attached and in the remaining cases the collection was made after issue of warrants but before distraint. Rs. 3 was the only amount that could be realized under the head. The party that was reported to have been prosecuted in paragraph 5 of letter, No. 100 M., of 16th May 1894, subsequently tendered payment and so the prosecution was withdrawn.

23. *License Fees.*—Rs. 95 was the amount that was collected on account of licenses issued for offensive and dangerous trades as well as for the erection of pandals. The slight increase of Rs. 5 over the revised estimate of Rs. 90 is due to a number of pandals erected during the year for marriages in the town.

24. *Fines under Municipal and other Acts.*—There is an increase of Rs. 31–14–6 over the revised estimate figure of Rs. 140. The increase is owing to the detection of nuisance cases with care and vigilance by the police as well as by the conservancy staff maintained by the municipality.

25. *Interest on Investments—Educational—Jubilee Gold Medal Fund.*—The sum of Rs. 14–1–7 was the interest collected on a Government promissory note held by the council in trust at 4 per cent. The Government having reduced the interest on the same from 4 to $3\frac{1}{2}$ per cent. in accordance with Circular, No. 288–I., of 30th June 1894, only a small interest accrued.

26. *Contributions from Government—Other Purposes.*—The Director of Public Instruction, sanctioning only Rs. 25–8–0 in his Proceedings, No. 3421, of 21st March

1895, towards salary of the trained gymnastic instructor, remarked that the teacher was not eligible for more than a third of his salary under the Grant-in-aid Code; hence the decrease of Rs. 14–8–0 under the revised estimate.

27. *Contribution from Local Boards—Medical and other Purposes.*—Rs. 381–4–0 were the usual contributions from the Taluk Board, Vizianagram, towards the hospital and the maintenance of roads.

28. *Private Scavenging.*—The original demand under this head was Rs. 444–6–0, against which Rs. 441 were collected, leaving a balance of Rs. 3–6–0 to be accounted for during 1895–96, of which an amount of Rs. 1–2–0 has since been collected. A sum of Rs. 6 was outstanding on account of 1893–94 of which As. 6 were collected. The balance, Rs. 5–10–0, had to be written off as irrecoverable.

29. *Refunds of Expenditure of previous year.*—A sum of Rs. 4–3–10 was the transit pay and travelling allowance paid to the headmaster, Middle school, for 11th March 1893, when he went to act as additional Sub-Assistant Inspector of Schools, Vizagapatam district. But the same was paid to him by Government and it was refunded to the municipality. A sum of Rs. 12–15–0 was the amount of grant paid to the teachers of the Town school for 1893–94. The teachers declined to receive the amount, as the grant was distributed in terms of the resolution of the council that the grant of each class a teacher teaches will only go to that teacher independent of the grant earned by other classes. But they contested that the same will have to be distributed among them in proportion to their salaries.

30. *Fee for numbering Carts.*—This is the amount collected from cartmen for the tin tickets issued to them. The small increase over the revised estimate requires no explanation.

31. The total receipts of the year exclusive of the opening balance of Rs. 300 amount to Rs. 12,874–12–5, against the revised estimate figure of Rs. 13,130, and Rs. 14,090 of the sanctioned budget for 1894–95. The total receipts including the opening balance amounted to Rs. 13,174–12–5. The actual expenditure during the year amounted to Rs. 12,957–12–10; thus there was a balance of Rs. 216–15–7; against the revised estimate balance of Rs. 250.

32. *Grant I, Public Works—New Works—Buildings.*—Rs. 183–5–4 was the amount spent in re-roofing the apothecary's quarters and for the construction of a contagious shed. All these items were explained at the time of submitting the proposals to meet the financial deficit: *vide* letters, Nos. 449 of 29th October, and 480 M. of 11th November, 1894. The new latrine which was proposed to be built during the year could not be constructed as explained in the letters quoted above.

33. *Repairs—Communications.*—A sum of Rs. 662–6–11 was spent on roads, against the revised estimate figure of Rs. 1,000 and that of the sanctioned budget of Rs. 1,600. I regret to mention here that the orders of Government could not be carried out in spending the required proportion of toll revenue. This was due to the fall of revenue. But I may state here that all the roads that require immediate repairs were attended to. The Government will be glad to observe from the remarks of the Deputy Sanitary Commissioner and Inspector of Vaccination, Dr. C. Mallins, who inspected the town on 7th April 1895, that "*The roads are in a very good order.*" In these circumstances I trust that the Government will not view this as a violation of their order, but as a result of paucity of funds to meet the required charges.

34. *Drainage.*—Owing to heavy rains all the drains were blocked up with sand and stones. The cost of removing the same is the cause of increase of Rs. 10–14–10 over the revised estimate of Rs. 50.

35. The total amount spent under Grant I was only Rs. 1,021–4–10, against the revised and budget estimates of Rs. 1,360 and Rs. 2,000. Statement II-A furnishes the details of the expenditure. The works under Grant I were as usual conducted under the direct supervision of the councillors who have helped the Chairman in executing the works rapidly and substantially.

36. *Grant II, Education—Salary System—Establishment.*—A sum of Rs. 1,408–9–5 was the amount spent against Rs. 1,430 of the revised estimate. The decrease was owing to the changes in the teaching staff. The increase of Rs. 13–4–7 over the

revised estimate figure of Rs. 20 under contingencies needs no remarks. The net cost to municipality was Rs. 435–11–6. I am really sorry to represent to Government that the school did not shine well during the public examinations, as out of 23 sent up for the Lower Secondary examination only two passed. This is partly to be accounted for by the frequent change of the headmaster of the school owing to his acting appointment as Sub-Assistant Inspector of Schools and partly by the difficult nature of the examination.

37. *Salary-result System—Fixed Payments.*—The slight decrease of Rs. 7–12–2 under the revised estimate of Rs. 780 was owing to certain savings effected from the salaries of the teachers on leave.

38. *Result Grants.*—A sum of Rs. 248–6–0 was paid to the teachers of the Town, Muhammadan, Paraiya and Night schools on account of result-grants to the teachers. Rs. 48–6–0 were paid in excess of the revised estimate figure of Rs. 200, but it was owing to the payment of grant due to the teachers of the Town and Muhammadan schools for 1893–94 during the year: *vide* paragraph 39 of letter, No. 100 M., of 16th May last.

39. *Contingencies.*—The slight increase of Rs. 5–7–10 over the revised estimate figure of Rs. 100 needs no special mention. The net cost to the municipality under the salary-result system schools amounts to Rs. 752–3–11. The results of these schools compare favourably with those of the middle school.

40. *Result Grants.*—The primary schools in the town have not earned the full grants owing to some technical objections under the revised Grant-in-aid Code.

41. *Municipal Inspector's Establishment.*—The cause of decrease was already explained in paragraph 25 of the letter, No. 734 M., of 4th January 1895.

42. The other items under Grant II do not call for any particular remarks with the exception of utilizing the amount provided for the purpose of gold medal. Owing to the receipt of interest during 1893–94 on 31st March 1894 the medals were not given to the deserving boys. So two medals will have to be purchased and distributed now to the pupils of the middle school in satisfaction of the trust entrusted to the council. The amount was shown under liabilities in the foot-note to Statement II, as noted below:—

			Rs.	A.	P.
Interest collected during 1893–94	..	..	36	0	0
Do. do. 1894–95	..	..	14	1	7
Total	..	..	50	1	7

43. The total expenditure under Grant II was Rs. 2,878–1–7 against the revised estimate of Rs. 2,860 and Rs. 3,120 of the sanctioned budget. The total receipts under school fees amount to Rs. 1,380–0–3. The net cost to the municipality was therefore Rs. 1,498–1–4 under education. The report of the Educational officers on the education of the municipality is enclosed.

44. *Grant III, Sanitation and Medical Services—Hospital Establishment.*—The slight decrease under the revised estimate needs no explanation. The Government is not pleased to sanction either of the proposals of the council contained in this office No. 531 M., of 29th November 1894, with regard to the medical officer of this station. Owing to the frequent changes in the medical officers, the people may not have faith in the English treatment which appears to have been attracting the people. The council is obliged to maintain till now a highly paid medical officer on a salary of Rs. 112–8–0 quite detrimental to their finances in accordance with the budget estimate figure. There is also change in the compounder during the year. The council used to maintain a compounder on a salary of Rs. 25 per month in consideration of his long service in the department. But he was found disqualified in compounding and his services were dispensed with and another man on Rs. 15 per month has been entertained.

45. *Medicines and Supplies.*—A sum of Rs. 707–0–10 was spent for the purchase of medicines against the revised estimate of Rs. 650. The increase, Rs. 57–0–10,

was owing to the purchase of medicines locally and to the payment of duty on medicines received from England from Messrs. Burgoyne, Burbidges and Co., London.

46. *Diet of Patients.*—Rs. 378–6–0 were spent for dieting in-patients against Rs. 360 provided for.

47. *Contingencies.*—A sum of Rs. 389–13–10 was spent under this head against Rs. 340 provided for in the revised estimate. The increase of Rs. 49–13–10 was owing to the purchase of new bedding and the payment of reward for a large number of cases attended by the midwife. The medical officer's report is herein enclosed on the working of the hospital. The net cost to the municipality was Rs. 2,075–2–0.

48. The hospital has been freely resorted to; 129 in and 13,564 out patients were treated during the year against 106 in and 10,204 out patients during 1893–94. The hospital was twice inspected by the District Surgeon during the year under report.

49. The work of the midwife seems to have been well appreciated by the public in general inasmuch as 150 cases were attended by her against 125 of the previous year, and I can say that the work of the midwife was satisfactory on the whole. The payment of remuneration for the extra cases attended by her worked satisfactorily.

50. *Contributions to Provincial Funds.*—These amounts were paid in accordance with the instructions of the Accountant-General.

51. *Contribution to Local Boards—Medical.*—An amount of Rs. 12 was paid to the Taluk Board, Vizianagram, on account of reserve compounders at the District Surgeon's office.

52. *Vaccination*—requires no explanation. The work of the Second-class Vaccinator S. Narayana Appadu is satisfactory. He takes keen interest and is popular. His work was examined by the Deputy Sanitary Commissioner and Inspector of Vaccination who remarks that "*On the whole vaccination is carefully looked after.*" The vaccination was made compulsory during 1893–94. The civil apothecary in charge of the hospital also vaccinates and supervises the work of the vaccinator. The civil apothecary vaccinated 44 cases, of which 39 were successfull against 58 of the year previous. Of the 44 cases, six were operated on children under one year against the same figure of last year. The work turned out by the vaccinator was 719, of which 689 were successful, against 592 and 563 of the previous year respectively. Of the 719 cases, 341 were under one year of age, of which 339 were successful, against 157 and 154 of the previous year respectively. All these cases were operated upon with the calf-lymph supplied from the calf vaccine depôt, Vizagapatam, the cost of the lymph being paid to the District Surgeon. The total number of vaccine operations performed by the civil apothecary and the vaccinator was 763, of which 728 were successful, against 650 and 621 of the previous year.

53. *Registration of Births and Deaths.*—The slight variations between the revised estimate and the actuals require no special explanation. The total number of births registered during the year under report was 297 against 303 of the last year. The total number of deaths registered was 269 against 232 of the previous year. The work of the registrar was also examined by the Deputy Sanitary Commissioner, who remarked that "*His books are kept neatly in English up to date*".

54. *Conservancy.*—The decrease under the revised estimate, Rs. 2,020, and that of actuals, Rs. 2,012–10–0, is owing to the non-entertainment of sweepers proposed for the new latrines. The town was inspected by the Deputy Sanitary Commissioner on the 27th April last who remarked that "*Certainly at the time of my inspection the streets were remarkably clean (although my arrival was unexpected)*".

55. *Private Scavenging.*—This does not appear to have been popularized although every attempt is made to make it so. The cost of the maintenance of the establishment was Rs. 619–2–0 against Rs. 620 of the revised estimate. The total receipts amount to Rs. 441–6–0. The net cost to the municipality was therefore

Rs. 177–12–0. The number of latrines under the management of the municipality was 255 against 286 of the previous year. Attempts will be made to make it self-supporting.

56. *Cholera.*—No epidemic of any nature made its appearance during the year under report. Only a few cases of small-pox and measles in a sporadic form appeared. Immediate steps were taken to check the spread of the disease in the affected parts. Public health, on the whole, appears to be good.

57. *Lighting Establishment and Contingencies.*—There is no change. It was worked on the same lines as that of the previous year.

58. *Choultries—Poor House.*—The Lord Ripon Poor House has been doing immense good under the management of M.R.Ry. Ch. Sanyási Nayudu Garu, Municipal councillor, merchant, and abkári renter. He takes keen interest in the well-being of the institution and even lays out money out of his own pocket if funds do not permit of any extra charge.

59. *Avenue Establishment.*—The services of these servants were dispensed with and the cocoanut trees were leased out for three years during the year 1895–96 at Rs. 52 per year.

60. The other items under Grant IV require no special remarks. The council had to pay the rents on lands leased out to the council by the Maharaja of Vizianagram, G.C.I.E., for two years, 1893–94 and 1894–95, during the year under report, as no bills were submitted to them during 1893–94. The total amount of expenditure under Grant IV amounted to Rs. 995–9–10 against Rs. 960 of the estimate.

61. *Grant V.*—No remarks, with the exception of increased expenditure of Rs. 19–10–0 over the revised estimate of Rs. 90 under office contingencies, which was due to the payment of cost of printed forms, &c., supplied.

62. *Refunds of other than current Collections.*—This was the amount refunded to the oilmongers, &c., in accordance with the orders of the High Court of Judicature.

63. The total expenditure under all items amounted to Rs. 12,957–12–10, against Rs. 13,180 of the revised estimate and Rs. 13,890 of the budget for 1894–95. The balance at the close of the year as certified by the Deputy Tahsildar was Rs. 1,837–7–7 including the deposits, Rs. 1,620–8–0, of the toll-renters, &c., for 1895–96.

64. In conclusion, I beg to state that the year under report cannot be considered bright inasmuch as in every item the municipal finances fell short. Every possible arrangement was made to observe strict scrutiny of expenditure. It is hoped that the finances will be improved during the current year and some new works, such as the construction of additional latrine, &c., will be attended to.

65. A copy of the resolution passed by the council passing the accounts and the administration report is herein enclosed.

ENCLOSURE.

REPORT on the Municipal Hospital, Bimlipatam.

I. Public Health.—The year under report has been on the whole a healthy one. No epidemics visited the town and its surroundings. Measles and small-pox prevailed to a certain extent during the months of December, January and February.

II. Vital Statistics—Hospital.—There were nine deaths amongst in-patients, three of these were admitted in a moribund state, five amongst out-patients.

In 1893–94 there were two amongst in-patients and none recorded against out.

Causes of death	
In-patients—	
Dysentery	1
Malarial fever	1
Phthisis pulmonalis	2
Dropsy	1
Anæmia	1
Labour preternatural—"craniotomy"	1
Debility	2
Total	9
Out-patients—	
Beri-beri	1
Infantile convulsions	1
Pneumonia	2
Chi Bright's disease	1
Total	5

III. Sanitation.—The town is considered a sanitarium and kept in a very satisfactory condition. Three public latrines are in use, to which a few resort and these are kept clean.

Public and private scavenging works well, the conservancy staff is sufficient to cope with the work.

Drainage good and mostly natural. Water-supply ample and good, four samples of water were sent to the Chemical Examiner lately for analysis.

Slaughter-houses are away from the town and kept clean. There are night-soil pits and some "cinerators" which work well.

IV. Vaccination.—The vaccinator has worked well. Total cases done during 1893–94 were 592, of which 563 were successful. In 1894–95, 719 were performed and 689 were successful.

Work done by medical subordinate in 1893–94, 58 cases, 58 were successful; 1894–95, 44 cases, 39 successful. Glycerine paste is used and works successful.

V. Hospital.—The hospital is well situated to meet the convenience of all sorts and conditions of people. It is well ventilated and has accommodation for ten males and four females. There is also accommodation for European patients, which is seldom used now-a-days. Some petty repairs are required to the windows and doors. The Chairman, Municipal Council, has been informed of this.

The dead-house requires immediate repairs. The contagious shed is in good order.

Furniture and Fittings.—In good repairs and adequate.

ATTENDANCE of patients compared with previous year.

—	Total treated.		Average daily attendance.	
	In.	Out.	In.	Out.
1893–94	106	10,204	7·31	67·61
1894–95	129	13,564	6·35	90·74

Operations.—In 1893–94 there were 19 major, 395 minor operations performed. In 1894–95 there were 23 major and 483 minor operations done as follows:—

Paracentesis abdominis	2
Removal of tumours	2
Sequestrotomy tarsal bones	1
Amputation of foot	1
Incision for large abscess in dangerous positions	8
Version and forceps	1
Radical cure for hydrocele	7
Craniotomy	1
Total	23

Establishment—	RS.	A.	P.
One compounder	15	0	0
„ nurse or midwife	15	0	0
„ peon	6	0	0
„ waterman	3	8	0
„ cook	4	0	0
„ male sweeper	4	8	0
„ female sweeper	3	8	0

The staff is sufficient and efficient, but it would be desirable to have a female attender to attend on female in-patients.

Midwife's Work.—Attended 150 cases during the year. Her cases are all examined both by the municipality and medical officer.

There is no hospital for caste and gosha women, but females and children are attended to in a separate room.

General Remarks.—The most prevailing diseases were malarial fevers, skin diseases, rheumatic affections, ulcers, worms and digestive diseases.

The necessaries of life are easily procurable in the markets.

The average rainfall for 1893–94 was 39·41 against 39·42 of 1894–95.

The hospital was inspected twice by the District Medical and Sanitary Officer and once by the Deputy Sanitary Commissioner.

BIMLIPATAM,
9th April 1895.

(Signed) E. T. JONES,
Civil Apothecary in Medical charge.

Forwarded to Government.

(Signed) M. VENKATACHALAM,
Chairman-delegate, Municipal Council.

Extra No. 1.

Forwarded. The undersigned has only just come to this division and has had no opportunity of inspecting the municipal roads.

VIZIANAGRAM,
6th June 1895.

(Signed) E. B. ELWIN,
Ag. Principal Assistant Collector.

No. 2365-C.

Forwarded.

2. I have reason to believe with reference to paragraph 1 of the report that the Accountant-General expressed the opinion that the late Chairman was in error as to the manner in which local fund accounts were audited, and considered that no alterations need be made in the system of dealing with municipal accounts.

3. It is possible that the attendance of official members might be improved if the meetings of the council were held on fixed dates and at fixed hours. I have reason to believe that the short attendance of the divisional officer is due to the irregular intervals at which meetings are held.

4. The expenditure on public works being less than half the net receipts from tolls, and the financial position of the district board not being very satisfactory, I do not think a sufficient case is made out for the remission sought and referred to in paragraph 13.

5. The roads are in very good order indeed. The traffic is very light over all but the half-mile from the toll-gate on the Vizianagram road to the beach, and it consequently costs very little to keep the roads in good repair.

6. The private scavenging system seems to be working somewhat badly and requires the personal attention of the Chairman and the councillors.

7. It is greatly to be regretted that Mr. Griffin, a very energetic Chairman, was compelled for private reasons to resign office.

VIZAGAPATAM,
12th June 1895.

(Signed) R. MORRIS,
Ag. Collector.

ORDER—dated 4th September 1895, No. 1421 M., Local and Municipal.

The receipts and charges of the Bimlipatam Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.

2. Sixteen meetings were held by the municipal council against fifteen in 1893–94. The average attendance of the members improved and was satisfactory. In this connection, the Chairman's attention will be drawn to the Collector's remarks in paragraph 3 of his endorsement.

3. *Receipts.*—(1) The net current demand of the taxes on arts, buildings and lands remained almost stationary. Owing to the large decline from 294 to 159 in the number of persons assessed to the tax on arts—for which an explanation should be submitted without delay—the average assessment under this head rose from Rs. 4–10–8 to Rs. 8–11–9, or more than double the general average for municipalities in 1893–94. The council's decision in the matter of the taxation of thatched houses, referred to in paragraph 9 of the Chairman's report, appears to be ill-advised and irregular. The council has not the legal power to grant a general exemption of this description, and it is not probable that the value of *all* the thatched houses in the town is so low as to entitle their owners to an exemption under section 63 (3) of the District Municipalities Act. The matter should be reconsidered without delay.

(2) The collections under the principal taxes continued to be very satisfactory.

(3) There was a decline in the income from tolls. The receipts from license fees were nearly treble those of the previous year; they are, however, still very small and appear capable of much development. The subject should engage the attention of the council in the current year. The same remark applies to the revenue from sales of the town rubbish, which was again very low. The income of the municipality has of late years been on the decrease, and the council cannot afford to neglect any means of improving it. The increase in the receipts from fines, which is ascribed to greater vigilance on the part of the police and the municipal executive in detecting nuisance cases, is satisfactory.

(4) The number of houses served by the private scavenging agency, it is observed with regret, again fell (from 286 to 255) and the service was again worked at a loss (Rs. 178) to the municipal council. The council's attention was drawn in the review of the previous year's report to the necessity of energetic action to extend the system and to the desirability of prosecuting the owners of insanitary premises, but the present report contains little or no information to show what has been done in either of these directions. The Chairman will now report fully upon the subject. The Government must insist upon an improvement in the management of this service. On the one hand it is not proper that the general body of the rate-payers should be burdened with the cost of a private service, and on the other hand it is not right that insanitary premises should be permitted to continue in contravention of the law and to the detriment of the public health.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken during the year. The outlay on communications amounted, under the circumstances explained in paragraph 32 of the Chairman's report, to only Rs. 662, or 16·1 per cent. of the net municipal income from tolls, against the prescribed minimum of 50 per cent. The town roads are, however, reported to have been in very good order.

(2) *Education.*—The net expenditure on education was Rs. 1,472, or 16·5 per cent. of the income from taxation. Of this, all but Rs. 436 was devoted to primary education. The municipal council continued to maintain a lower secondary school on the salary system and four primary schools on the salary-result system. There was a decline in the attendance at the former, while that at the latter remained almost stationary. The results of the Lower Secondary examination were poor, only two of the twenty-three candidates who appeared for it having been successful, but the primary schools appear to have done well at the departmental examinations. Two primary schools were aided with result grants against four in the previous year. The strength of these schools declined, the results of the grant examinations were unsatisfactory, and all but 20·4 per cent. of the allotment for grants was allowed to lapse. It is also to be regretted that the total number of boys under instruction in the municipal and aided schools fell from 49·3 to 42·9 per cent. of the male population of school-going age, against a general average of 54·2 for municipalities in 1893–94. This branch of the council's work appears to require increased attention.

(3) *Medical Relief.*—There was again a large increase of 3,383 in the total number of patients treated at the municipal hospital, which, considering that the year was not one of unusual sickness, may be ascribed to the increasing popularity of the institution. It is satisfactory that the midwife employed by the municipal council attended 150 cases of labour against 125 in the previous year. The council's attention will be drawn to the civil apothecary's remarks in paragraph V of his report regarding the repairs to the hospital and the dead-house and the entertainment of a female servant at the hospital. The details given in this report of the various operations performed were unnecessary.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year rose from 650 to 763, and the quality of the work turned out is stated to have again been good. It is also satisfactory that 345 infants, or forty-eight more than the number of births registered, were successfully operated upon.

There was an improvement in the registration of deaths, but that of births declined slightly. In both cases the recorded rates are considerably below the normal, and the subject demands the continued attention of the council.

(5) *Sanitation.*—Ninety-six per cent. of the allotment under this head was utilized and the expenditure amounted to 22·4 per cent. of the receipts. The civil apothecary states that the sanitary condition of the town is satisfactory, but from the inspection notes of the Deputy Sanitary Commissioner recorded in G.O., dated 6th August 1895, No. 1279 M., it does not appear to be free from defects. Every endeavour should be made to remedy these as funds permit.

5. *General Remarks.*—The year closed with a balance of Rs. 217, or only 1·7 per cent. of the total receipts. The council should endeavour, as has already been remarked, to develop every possible source of revenue. With reference to paragraph 1 of the Chairman's report, his attention will be drawn to the Collector's remarks in paragraph 2 of his endorsement and to the Accountant-General's letter communicated with G.O., dated 15th October 1894, No. 1460 M.

The administration of the municipality during the year under review continued to be, on the whole, satisfactory and creditable to the Chairman and the municipal council. The private scavenging system and education, however, require increased attention. The Government notes with pleasure the testimony borne by the Chairman to the assistance rendered to him by the councillors.
