SEPTEMBER.

Municipal Report.

Reviewing the Negapatam — for 1894–95.

(3) *Medical Relief.*—The number of in-patients in the municipal hospital fell off slightly, but the total number of out-patients treated in the main hospital and the branch dispensary increased by 1,306. The midwife attached to the hospital attended 124 cases of labour against 117 in the previous year. The action taken upon the suggestion made last year that an additional midwife should be employed in the branch dispensary should be reported. The Chairman will be requested to lay before the council the Civil Surgeon's recommendations regarding the increase to the staff of the hospital and the improvement and extension of the buildings, and to report to Government, through the Surgeon-General, what, if any, action should be taken on these recommendations, stating also what funds can be made available to meet such additional expenditure as may be required.

(4) *Vaccination and Vital Statistics.*—The number of persons vaccinated increased, but the quality of the work was not so good as in the previous year, only 93·6 per cent. of the total number of cases having been successful against 95·6 in 1893–94. Infantile vaccination continued to receive attention, the number of successful operations on infants having been 34·4 per mille of the population against a registered birth-rate of 31·6. The Collector's remarks regarding the work done by the vaccinatrix are endorsed.

The decline in the death-rate is attributed by the Civil Surgeon to the absence of cholera from the town. The recorded birth-rate was still below the normal, and registration appears to be capable of further improvement.

(5) *Sanitation.*—On conservancy a sum of Rs. 22,008, or 107·3 per cent. of the allotment and 31·1 per cent. of the current receipts, was spent. From the Deputy Sanitary Commissioner's inspection notes recorded in G.O., dated 7th June 1895, No. 953 M., it appears that the sanitary condition of the town was far from satisfactory. The council should take steps to remove one by one as funds permit the various defects pointed out by that officer. The number of public latrines should be further increased until there is at least one for every one thousand of the inhabitants. It is observed that a scheme for the town water-supply is under preparation by the Sanitary Engineer.

5. *General Remarks.*—The year closed with a balance of Rs. 10,027, or 14·2 per cent. of the current receipts, and of this Rs. 4,000 were invested in Government securities, and reserved for expenditure upon the water-supply scheme.

Except as regards education and the registration of births, the administration of the municipality during the year under review continued to be on the whole satisfactory.

(True Extract.)

G. S. FORBES,
for *Chief Secretary.*

To the Chairman, Municipal Council, Negapatam.
" Collector of Tanjore.
" President, District Board, Tanjore.
" Accountant-General.
" Director of Public Instruction.
" Surgeon-General.
" Sanitary Commissioner.
" Sanitary Engineer.
Editors' Table.

Exd. A. Raitt.

2. The municipal council held twenty-nine meetings against twenty-seven in 1893–94. The average attendance of the official members improved slightly, but was still smaller than it should have been. That of the non-officials, though not so good as in the previous year, was fair. Three seats were filled by election during the year, and of these two were contested, 70·4 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) Owing, apparently, to more careful assessment, the number of persons paying the tax on arts rose from 1,291 to 1,402 and the net current demand under this head from Rs. 13,346 to Rs. 14,147. On the other hand, the net demands under the taxes on houses and lands showed slight decreases when compared with those of the previous year. In this connection, the attention of the municipal council is drawn to paragraph 8 of the Collector's endorsement regarding the apparent inadequacy of the house-tax assessment; a careful scrutiny should be instituted.

(2) The current collections under the principal taxes were fair, as were also the realizations of arrears of the taxes on houses and lands. Of the arrears of arts tax, however, Rs. 363 were written off the accounts and only 62·7 of the demand was collected. Had the council been more prompt in the realization of its revenues in past years, this loss of income would probably have been avoided. The Government agrees with the Collector in his remarks in paragraph 3 of his endorsement on the subject of the arrears under the taxes on animals, vehicles with springs and carts.

(3) The receipts from tolls amounted to Rs. 1,117 more than in 1893–94; and the income from slaughter-houses and license fees showed a marked improvement, but it is matter for regret that the town sweepings sold for only Rs. 147 against Rs. 152 in the previous year, although in paragraph 27 of his administration report for 1893–94 the Chairman anticipated an increase, rather than a decrease, under this head. The reasons for the fall should have been explained.

(4) The number of houses served by the private scavenging agency rose from 1,391 to 1,495, but the service was worked at a loss of Rs. 2,275 to the municipal council against Rs. 2,711 in 1893–94. The Chairman is requested to state, with reference to G.O., dated 29th November 1894, No. 1827 M., whether the cost of carting away night-soil has been debited to the private scavenging system or to the general municipal conservancy. From paragraph 29 of the Chairman's report it is observed that the mode of assessing private scavenging fees remained unaltered. It should be explained why no action was taken on the remarks of Government in paragraph 3 (4) of G.O., dated 24th August 1894, No. 1148 M.

4. *Expenditure*—(1) *Public Works.*—The only important new work undertaken during the year was the construction of a slaughter-house at a cost of Rs. 631. The total outlay on communications amounted to Rs. 11,108 and exceeded the net municipal income from tolls by about 10 per cent. The town roads are reported by the Revenue Divisional officer to have been generally in fair condition.

(2) *Education.*—The net expenditure on education amounted to Rs. 7,052, or 13·5 per cent. of the receipts from taxation. Of this, a sum of Rs. 2,040 was spent on secondary and the remainder on primary education. One of the primary salary result schools was transferred to the aided list and a new one was opened, so that the number of municipal schools remained the same as in the previous year, viz., four. Taken as a whole, the attendance in these schools was stationary. The results of the examinations were fair, but the average cost of educating pupils in the Nagore school continued to be very high. The Chairman is requested to report how a reduction in the rate may be effected in the current year. The municipal council also aided four secondary schools with salary and twenty-three primary schools with result grants, against four and twenty-six, respectively, in 1893–94. The attendance in these fell off slightly, but the results of the grant examinations were, on the whole, satisfactory. It is, however, noticed with regret that the number of boys under instruction in the municipal and aided schools amounted to only 48·8 per cent. of the male population of school-going age, against an average of 54·2 for all municipalities in 1893–94. The Director of Public Instruction will be requested to report why the budget provision for the sessional school was not utilized.

ORDER—dated 5th September 1895, No. 1446 M., Local and Municipal.

The receipts and charges of the Negapatam Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

and is sufficient for its present requirement. A native midwife should be attached to this dispensary, as her services are very much required in this place. This was pointed out in the last year's report.

NEGAPATAM, 25*th May* 1895.

(Signed) M. USMAN, *Civil Surgeon.*

No. 2347-Rev.

Forwarded.

2. The roads of the town are generally in fair condition.

30*th May* 1895.

(Signed) P. SIVARAMA AIYAR, *Acting Deputy Collector in charge.*

No. 422-Munl.

Submitted to Government in the Local and Municipal Department.

2. It is worthy of note that, out of the 29 meetings held during the year, none were dissolved for want of a quorum.

3. On the whole, the collections under current taxes are fair. Under arrears, the existence of a balance of Rs. 53–12–0 against tax on animals and of Rs. 48 against tax on vehicles with springs from 1893–94, and of Rs. 70 against tax on carts without springs from 1892–93, is unsatisfactory. This should receive the Chairman's attention.

4. *Paragraph* 38 *of the report.*—Under Education, the council's failure to expend the provision made for the opening of a sessional school is to be regretted.

5. *Paragraph* 41 *and Statement No. V-B.*—The total amount of grant passed was Rs. 2,667–14–0, and the balance of grant of 1893–94 paid in 1894–95 was Rupees 216–10–0. Thus the grants for the two years payable amounted to Rs. 2,884–8–0. There was a provision of Rs. 2,700 in the budget; but the amount actually paid was only Rs. 2,258–15–0. The reason why Rs. 625–9–0 or 23·45 per cent. of the total grant earned was withheld is not clear from the report or statements.

6. *Paragraph* 47 *and Medical officer's report.*—In two respects, the medical officer's recommendations demand consideration, viz., (1) the revision of the hospital establishment according to present requirements, and (2) the improvements and repairs to the hospital and out-houses.

7. *Paragraph* 58 *of the report.*—The entry of Rs. 1,912–11–6 as the net income of slaughter-houses is apparently an error for Rs. 1,922–11–6, this being the actual difference between the gross income as per statement I, item 4, and the gross charges as per statement No. II, item 2 (ii).

8. *Statement No. IX.*—Deducting the number of houses taxed from the total number of houses as per census (occupied and unoccupied together), as many as 3,316 houses are either unoccupied or occupied, but not taxed, and represent nearly 27 per cent. of the total. In note 8 to statement No. I, it is stated that the house-tax registers were last revised in 1892–93. A further revision after careful enquiries may possibly bring a larger number of houses to taxation.

Column 2	12,234
Column 16	8,918
	3,316

9. *Statement No. XIII—Vaccination.*—The vaccinatrix has performed the largest number of operations, viz., 1,602 or at the rate of 134 cases per month. This is very creditable.

TANJORE, 8*th June* 1895.

(Signed) T. S. MUTTUSWAMI PILLAI, for *Acting Collector.*

From the Chairman, Municipal Council, Negapatam, dated 12th June 1895, No. 284.

ABSTRACT.—Submitting statements showing the progress of female education in 1894–95.

The lying-in ward is in a deplorable condition. The floor is much worn out and uneven, the walls are cracked and unsafe, the roof is leaky. The doors and windows are losing their holds from decay. The ward requires thorough repair or a new one may be advantageously erected in its place.

The hospital has no special room wherein to conduct operations. They are at present done in the open air by the side of the labour ward which is very objectionable. A proper room for this purpose should soon be provided.

Among out-houses the kitchen, the store and linen rooms and the latrines require alterations and repairs.

(*e*) *State of repair of furniture.*—The furniture are in good order. Twelve more iron cots and 24 bedside tables are required.

(*d*) *Number of patients treated as compared with previous years.*—Nineteen thousand and eight out-door patients and 761 in-door patients were treated during the year against 17,313 and 772 respectively in the previous year.

(*e*) *Mortality and actual causes of it.*—There were 31 deaths among in-door patients against 52 in the previous year. The actual causes of deaths were the following:—

Cerebral apoplexy— 1, Uræmia— 1, Septicæmia—4, Asthenia from dysentery—6, from starvation and diarrhœa—11, from perinicious anæmia—1, Phthisis, pneumonic chronic—5, Tetanus—1, Remittent fever—1.

(*f*) *Operations and results.*—Two hundred and eleven major operations and 3,066 minor operations were performed during the year against 167 and 1,678 respectively in the previous year. The following were the chief among the nature of major operations performed:—

Amputation of limbs.
Operations for tumours.
Do. on eye.
Do. on diseased bones.
Do. for elephantiasis scrotum.
Do. for radical cure for hydrocele.
Obstetric operations.

Of 211 major operations 201 were discharged cured and 10 were discharged relieved. There was no mortality among the operated patients.

(*g*) *Establishment whether sufficient and efficient.*—A large and important hospital as this has only one medical subordinate attached to it, viz., a hospital assistant of the third grade. The town is populous, busy with commerce, and has a port and a large Railway factory. Cases of accidents and other injuries requiring prompt attention are very frequently brought to hospital. There are now about 25 in-door patients, almost all serious cases, and 140 out-door patients (total 165) to attend to duty. Besides, there are other departments, viz., medical stores, surgical instruments, bedding and clothing, and diet of patients, which are of no little importance. The duties in connection with these and 165 patients daily, together with several other minor details incidental to a large institution like this, devolve on a single hospital assistant. It is open to grave question whether these severally important duties could be discharged by a single man to the degree of efficiency that is desired.

Operations of serious nature have often to be undertaken for which the Medical officer finds no adequate help. The hospital assistant being solely engaged in administering chloroform, the Medical officer has to look for help from coolies and compounders in securing blood vessels or holding important structures.

When there are operations or important cases in the wards, which are not infrequent, the out-patients suffer. They have to wait till the work with the in-patients is over or go away without relief.

From the above, it is clear that the services of two medical subordinates are indispensable to this hospital, one of whom must be a man of some standing to render effective help.

Menial servants.—The male wards have one male toty, one male ward cooly, and the female wards, one female toty, one female ward cooly. This number is too small to provide for constant attendance upon patients, who are mostly bed-ridden. When the respective ward attendants are off duty at night, the patients are absolutely left to themselves. The nursing of serious cases is neglected and the excreta of bed-ridden patients remain exposed the whole night. There should be two of each class of servants—one for night and the other for day duty, exclusively. It is only in this way that constant attendance upon patients can be provided for, and this is what is done in all important and large hospitals in the Presidency.

The present native midwife may be advantageously replaced by a European nurse and midwife. The services of the latter would be of more extended use to the hospital. She will not only have charge of the Lying-in patients, but also look after the nursing, cleanliness and comfort of all the patients in the hospital. Bedding and clothing would be better supervised by her.

The European and Eurasian patients have no separate cook. The Hindu cook who is employed for the general class of patients does not know to cook to the taste of European and Eurasian patients and hence these patients are put to great disadvantage.

Scale of Establishment.

The present establishment.	The proposed establishment.
1 hospital assistant, 3rd grade	2 medical subordinates, of whom one, if possible, to be of the grade of Apothecary.
1 native midwife	1 Eurasian nurse and midwife in place of the native midwife who may be posted to Nagore.
1 male toty .. } for male ward	2 male toties .. } 1 for night, 1 for day duty.
1 male ward cooly .. }	2 male ward coolies }
1 female toty } for female ward	2 female toties .. } do. do.
1 female ward cooly }	2 female ward coolies }
1 cook	1 cook for European and Eurasian patients.
1 gardener	
1 cholera toty	
1 peon } for civil Surgeon's office	The rest as they are now.
1 clerk }	
2 compounders	

(*h*) *Midwives.*—A native midwife is attached to the hospital, her pay is Rs. 15 a month. She conducted 124 cases during the year against 117 in the previous year and 106 in the year before. Of 124 cases, 31 cases were conducted in the hospital and 93 in private houses.

(*i*) *Dispensary for Caste and Gosha Women.*—There is no special dispensary in the town for treating caste and gosha women separately. The attention of the municipality was drawn to this subject, as there is a large number of caste and gosha women in the town who will not attend the ordinary dispensaries.

(*j*) *General Remarks.*—The table below compares the number of patients treated and the operations performed during the last ten years. It will be observed from the figures that in the last three years the work has considerably increased in every branch. The same establishment exists now as it did ten years ago when there were only aboutt wo-thirds of the present number of out-door patients, nearly half the present number of in-door patients, about one-fourth the present number of major operations and less than one-sixth the present number of minor operations.

Year.	Total admissions.		Major operations.	Minor operations.	Average daily attendance of in-and out-patients.	Remarks.
	In-patients.	Out-patients.				
1885–86 ..	420	13,215	50	253	109·38	The daily attendance includes the number of admissions and old cases that are continuing under treatment. Although it shows the total number of patients treated in a day, it does not give any idea of the nature of work. This can only be judged by the total number of admissions which require on their first appearance a detailed examination and the number of operations which require considerable amount of labour and care for their successful issue.
1886–87 ..	317	14,201	30	629	162·48	
1887–88 ..	356	12,940	10	536	156·73	
1888–89 ..	436	12,830	12	328	105·72	
1889–90 ..	416	11,722	9	618	107·47	
1890–91 ..	503	15,378	110	672	131·02	
1891–92 ..	561	12,788	81	622	108·47	
1892–93 ..	452	16,961	128	803	138·08	
1893–94 ..	772	17,313	167	1,678	131·35	
1894–95 ..	761	19,008	211	3,006	148·32	

To meet this increase of work with efficiency and to enhance the popularity of the institution further, the establishment must be revised and the accommodation of the hospital improved.

In Nagore Branch Dispensary 6,480 out-door patients were treated against 6,869 in the previous year. There were 485 minor operations against 329 in the previous year. The table below compares the number of patients treated in the last five years.

Year.	Total admission, out-patients.	Minor operations.	Daily average attendance.
1890–91	7,334	144	48·21
1891–92	6,411	190	43·75
1892–93	7,318	261	47·82
1893–94	6,869	329	47·29
1894–95	6,480	485	43·78

The dispensary is in a rented building which is in good order. It is in charge of a medical practitioner who has no qualifications. The staff consists of —

1 compounder,
1 lascar,
1 nurse (dispensary attendant),

and is sufficient for its present requirement. A native midwife should be attached to this dispensary, as her services are very much required in this place. This was pointed out in the last year's report.

(Signed) M. USMAN,
Civil Surgeon.

NEGAPATAM,
25th May 1895.

No. 2347-Rev.

Forwarded.

2. The roads of the town are generally in fair condition.

(Signed) P. SIVARAMA AIYAR,
Acting Deputy Collector in charge.

30th May 1895.

No. 422-Munl.

Submitted to Government in the Local and Municipal Department.

2. It is worthy of note that, out of the 29 meetings held during the year, none were dissolved for want of a quorum.

3. On the whole, the collections under current taxes are fair. Under arrears, the existence of a balance of Rs. 53–12–0 against tax on animals and of Rs. 48 against tax on vehicles with springs from 1893–94, and of Rs. 70 against tax on carts without springs from 1892–93, is unsatisfactory. This should receive the Chairman's attention.

4. *Paragraph* 38 *of the report.*—Under Education, the council's failure to expend the provision made for the opening of a sessional school is to be regretted.

5. *Paragraph* 41 *and Statement No. V-B.*—The total amount of grant passed was Rs. 2,667–14–0, and the balance of grant of 1893–94 paid in 1894–95 was Rupees 216–10–0. Thus the grants for the two years payable amounted to Rs. 2,884–8–0. There was a provision of Rs. 2,700 in the budget; but the amount actually paid was only Rs. 2,258–15–0. The reason why Rs. 625–9–0 or 23·45 per cent. of the total grant earned was withheld is not clear from the report or statements.

6. *Paragraph* 47 *and Medical officer's report.*—In two respects, the medical officer's recommendations demand consideration, viz., (1) the revision of the hospital establishment according to present requirements, and (2) the improvements and repairs to the hospital and out-houses.

7. *Paragraph* 58 *of the report.*—The entry of Rs. 1,912–11–6 as the net income of slaughter-houses is apparently an error for Rs. 1,922–11–6, this being the actual difference between the gross income as per statement I, item 4, and the gross charges as per statement No. II, item 2 (ii).

8. *Statement No. IX.*—Deducting the number of houses taxed from the total number of houses as per census (occupied and unoccupied together), as many as 3,316 houses are either unoccupied or occupied, but not taxed, and represent nearly 27 per cent. of the total. In note 8 to statement No. I, it is stated that the house-tax registers were last revised in 1892–93. A further revision after careful enquiries may possibly bring a larger number of houses to taxation.

Column 2	12,234	
Column 16	8,918	
	3,316	

9. *Statement No. XIII—Vaccination.*—The vaccinatrix has performed the largest number of operations, viz., 1,602 or at the rate of 134 cases per month. This is very creditable.

TANJORE,
8th June 1895.

(Signed) T. S. MUTTUSWAMI PILLAI,
for *Acting Collector.*

From the Chairman, Municipal Council, Negapatam, dated 12th June 1895, No. 284.

ABSTRACT.—Submitting statements showing the progress of female education in 1894–95.

5 Sept 95 / 1446

TH JUNE 1895, No. / M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ— the following paper:—

From F. OLIVER, Esq., Chairman, Municipal Council, Negapatam, to the Chief Secretary to Government (through the Head Assistant Collector and the Collector of Tanjore), dated Negapatam, 20th May 1895, No. 238.

I have the honour to report on the working of this municipality for the official year 1894–95 accompanied by statements of receipts and charges in the prescribed form.

2. The draft report was placed before the council at a meeting held on 23rd May 1895 and adopted by them. An extract from the proceedings is enclosed.

3. The usual concise report of the Civil Surgeon, Negapatam, on the working of the Municipal hospital, Negapatam, and the Branch dispensary, Nagore, and the educational statements I to V received from the Assistant Inspector of Schools, Tanjore, are submitted herewith.

4. The budget and the revised estimates for the year under report were passed by Government in G.O.s, No. 214, M., dated 23rd February 1894, and No. 573 M., dated 29th March 1895.

5. The accounts of the year have not been audited yet.

I.—CONSTITUTION OF THE COUNCIL.

6. The sanctioned maximum strength of the council is 24. The number on the rolls on 31st March 1895 was 18. The council was composed of 12 nominated and 12 elected members. The classification of the council, as it stood at the close of the year, is shown in statement X.

7. *Office of the Chairman.*—I have been in office throughout the year under report, having been elected on the 21st November 1892. I delegated my powers as Chairman to Mr. G. S. Bruce from 15th December 1894 to 28th February 1895.

8. There were three elections held during the year—one for the Nagore west ward, one for the Kadambady ward and one for the Negapatam west ward. In the Nagore west ward, the contest was only nominal, but the Kadambady ward election was keenly contested up to the last moment when one of the candidates withdrew and the only other candidate was declared elected. In the Negapatam west ward, the contest was very severe. There were three candidates. Out of 490 voters on the list then in force, 375 or 76·3 per cent. went to the poll.

9. The registers of voters and of eligible candidates were, as usual, revised during the year, and the number of registered voters rose from 1,832 to 1,931. The proportion of registered voters to the population of the municipality was 1 to 30·6.

10. The number of meetings actually held during the year was 29. There were no meetings which were adjourned for want of a quorum. The average attendance of the official members was 0·83 against 0·85 in the previous year and that of the non-official members 12·1 against 13·3 in the previous year.

11. *Financial position.*—A summary of the transactions of the year excluding deposits is given below as compared with that of the previous year :—

1894–95.

		Rs.			Rs.
Opening balance	..	12,982	Charges		73,633
Receipts ..	..	70,678	Closing balance		10,027
Total ..		83,660	Total ..		83,660

1893–94.

		Rs.			Rs.
Opening balance	..	11,460	Charges		68,724
Receipts ..	..	70,246	Balance		12,982
Total ..		81,706	Total ..		81,706

The closing balance of 1893–94, as per annual statements submitted by this office to Government, was Rs. 12,992–3–9. In his report to Government on the audit of the accounts of this municipality, the Assistant Inspector of Local Fund Accounts has reduced this balance by Rs. 10–6–7 in consequence of his transferring from Municipal funds to deposits the unrefunded house vacancy remissions of 1892–93. In doing so the Assistant Inspector has made a mistake by taking the amount of such remissions as Rs. 10–6–7, while the correct amount is only Rs. 10–5–11. The correct closing balance of 1893–94 is therefore Rs. 12,981–13–10 and not Rs. 12,981–13–2 as given in the corrected audit statements submitted to Government. Similarly the correct amount under deposits is Rs. 8,004–2–8 and not Rs. 8,004–3–4.

12. Compared with previous year the receipts show an increase under tax on arts, lands, tolls, rents on lands, produce of lands and gardens, income from slaughter-houses, license-fees, fishery rents and private scavenging fees. The accompanying statements give details of the above figures. The reasons for the variations between the actuals and the revised estimate figures are explained below.

II.—Receipts.

13. The demand under tax on buildings and lands amounted to Rs. 22,904–4–9. Rs. 15 was remitted by the council on appeal, thus reducing the gross to a finally-settled demand of Rs. 22,889–4–9. Rs. 22,112–11–10 of this demand was collected, Rs. 14–0–11 remitted on account of vacant houses, leaving an uncollected balance of Rs. 762–8–0. Of this balance Rs. 306–12–9 has been collected up to date and Rs. 41–4–0 written off as irrecoverable, showing a balance on this date of Rs. 414–7–3.

14. *Arrears of previous year.*—There were, at the beginning of the year, outstandings amounting to Rs. 1,233–8–10, of which Rs. 1,093–7–6 was collected, Rs. 7–1–8 remitted, Rs. 77–5–6 written off, leaving a balance of Rs. 55–10–2 at the close of the year. Of this balance Rs. 4–8–0 has been realized up to date.

15. The coercive measures adopted for the realization of taxes are shown in the accompanying statement (appendix A to statements IV-A and IV-B). The percentage of current collections to the net demand was 96·6 against 94·8 in the previous year. The average incidence of house-tax was Rs. 2–7–3 per house.

16. *Tax on arts.*—This tax was levied on the first five classes of the schedule. The demand, as finally revised by me, was Rs. 14,821–8–0. Rs. 674 was remitted by the council on appeals, leaving a final demand of Rs. 14,147–8–0 against Rs. 13,349 in 1893–94. The collections amounted to Rs. 12,743–8–0 against Rs. 12,400 in 1893–94 and Rs. 11,817–8–0 in 1892–93 and Rs. 10,775 in 1891–92. The balance at the close of the year was Rs. 1,404, of which Rs. 231 has been collected up to date and Rs. 395 written off. The percentage of current collections to the net demand was 90·0 against 92·9 in 1893–94, 91·89 in 1892–93 and 86 in 1891–92. The remission granted by the council was 4·5 per cent. of the original assessment against 6·1 per cent. in the previous year.

17. *Tax on arts arrear.*—Of the old balance of Rs. 1,069, Rs. 670 was collected, Rs. 21 remitted and Rs. 363 written off, leaving an uncollected balance of Rs. 15.

18. *Tax on vehicles and animals.*—The sum realized under this head was Rs. 3,679 against Rs. 3,815–8–0 in the previous year.

19. *Tax on carts.*—A sum of Rs. 1,652 was realized under this head against Rs. 1,856 in the previous year. The rate of fees, viz., Rs. 4 per cart per annum, continued unaltered. There were 175 carts seized during the year for failure to register.

20. *Tolls.*—The right of collecting tolls at the maximum rates of the schedule in all the seven gates of this municipality was leased for Rs. 15,240. The total sum realized, including interest on late payment of kists, amounted to Rs. 15,252–15–6. The share due to the District Board was paid before the close of the year.

21. (3) (*c*) *Fees under Act II of* 1888.—The sum of Rs. 60 realized under this head represents the license-fees for a dramatic shed.

22. (4) (*a*) (i) *Rent of lands.*—Rs. 1,255–2–6 was realized under this head against Rs. 1,180–12–3 in the previous year.

23. (4) (*b*) (ii) *Produce of lands and gardens.*—Rs. 599–12–5 was realized under this head against Rs. 290–6–5, actuals of the previous year, and Rs. 550 in the revised estimate. The increase under this head is due to the income from the sewage farm.

24. (4) (*b*) (iii) *Sale-proceeds of old materials.*—The receipts under this head amounted to Rs. 286–4–3 against Rs. 250 in the revised estimate and Rs. 184–5–3, actuals of the previous year. The increase is due to the high price at which empty kerosine-oil tins and dealwood cases were sold.

25. (4) (*f*) (ii) *Income from slaughter-houses.*—Rs. 2,027–6–0 was realized under this head against Rs. 2,000 in the revised estimate and Rs. 1,544–12–0, actuals of the previous year. The increase is due to the fees having been collected departmentally and increasing the fee for slaughtering sheep in the Nagore slaughter-house from half to one anna per head.

26. (4) (*g*) (ii) *License-fees.*—Rs. 2,056–3–5 was realized under this head against Rs. 1,500 in the revised estimate and Rs. 1,518, actuals of the previous year. The increase is due to the greater number of timber and firewood depôts than in the previous year and temporary marriage pandals.

27. (4) (*h*) *Fines under Municipal and other Acts.*—Rs. 1,158–7–9 was realized under this head against Rs. 1,300 in the revised estimate and Rs. 1,182–6–0, actuals of the previous year. The fines inflicted by the Bench during the last quarter were less than were anticipated at the time of the revised estimate.

28. (5) (*b*) (iii) *Grants from Local Boards—Other purposes.*—Rs. 909–8–6 was realized under this head against Rs. 1,100 in the revised estimate. The decrease is due to the non-realization of the contributions due for January and February 1895.

29. (6) (*a*) (i) *Private scavenging.*—The income under this head amounted to Rs. 2,313–8–0 against Rs. 2,200 in the revised estimate. The increase is due to the rise in the number of houses served under this system. The fees were levied at the same rate as in the previous year, viz., 2 annas per house per mensem for houses occupied by natives and annas 12 per house per mensem for houses occupied by Europeans.

III.—Expenditure.

30. The following statement shows the percentage of expenditure under each head as compared with the total assets including the opening balance for the years 1893–94 and 1894–95.

		1893–94.	1894–95.
Grant	I.—Public Works	24·22	21·7
,,	II.—Education	9 39	8·8
,,	III.—Medical service and sanitation	32·13	35·6
,,	IV.—Lighting and Miscellaneous purposes ..	9·86	10·2
,,	V.—Supervision and management	7·56	7·3
Advances		0·42	4·5
Refunds		0·52	..
Closing balance		15·90	11·9
	Total ..	100·0	100·0

31. *Grant I, Public Works.*—The total outlay on public works amounted to Rs. 18,180–8–3 against Rs. 19,792–4–7, actuals of the previous year, and Rs. 20,030 in the revised estimate.

32. (1) (*a*) *New Works—Communication.*—The outlay under this head was Rupees 1,167–2–4 against Rs. 1,050 in the revised estimate. Of this sum Rs. 419–10–3 was spent on rebuilding and widening a tunnel on the Holland road which was too narrow to allow free traffic. The metalling of the Hinder Bankshall street was completed at a cost of Rs. 159–14–3. Protection walls to Akkaraikulam south road were constructed at a cost of Rs. 437–3–0. The gravelling of Periacoil north street was completed and a small tunnel reconstructed at the entrance to Thiruvengadatha lane.

33. Under (1) (*b*) *New Works Buildings.*—The expenditure was Rs. 1,921–6–4 against Rs. 2,140 in the revised estimate. A new bull slaughter-house was constructed at a cost of Rs. 630–9–7, and nine stalls on the north row of the market were altered so as to face the court-yard of the building at a cost of Rs. 203. Three iron latrines were provided at a cost of Rs. 772–15–3 and 26 iron dust-bins at a cost of Rs. 262–8–0.

34. (1) (*d*) *New Works—Water-supply.*—The only work under this item was the sinking of a well in Mariammancoil street, Velippalayam. There was a fresh water well in a dilapidated condition at the entrance to the streets, which was very useful to the residents of the street. In place of this well a new one was constructed at a cost of Rs. 132–4–6. The Government having declined to sanction the scheme to open a separate supply channel, the council requested Government to expedite the preparation of the water scheme.

35. (2) (*a*) *Repairs—Communication.*—The outlay on repairs and maintenance of roads was Rs. 9,940–10–11 against Rs. 11,280 in the revised estimate and Rupees 8,551–13–1, actuals of the previous year. The Nagore road, 4th and 5th miles, the Wesleyan Mission College road and the Kadambady road were regravelled during the year. A tunnel on Thamaraikolam road was repaired at a cost of Rs. 168–7–10. Nandukolam road, leading to the new bull slaughter-house, was repaired at a cost of Rs. 202–4–4. The mud roads were kept in good order. The whole of the metalled roads was maintained in a fair condition. The total mileage of unmetalled roads, streets and lanes is 46 and of metalled roads 14, of which about 2 miles were regravelled during the year. The total outlay on roads, both new works and maintenance, was Rs. 11,107–13–3 against a net revenue from tolls of Rs. 10,207–11–3.

36. *Repairs—Buildings.*—Rs. 335–12–9 was spent under this head against Rs. 400 in the revised estimate. The cholera shed was repaired at a cost of Rs. 169–0–4 and the toll sheds at a cost of Rs. 117–2–9.

37. *Repairs—Water-supply.*—The expenditure under this head amounted to Rs. 2,846–12–6 against Rs. 2,960 in the revised estimate. Of this sum Rs. 517–15–11 was spent on pumping out the stagnant water from Akkaraikolam and cleaning the bed, and Rs. 272–4–9 on similarly cleaning Thamaraikolam. The tanks in Negapatam and Nagore were supplied with fresh water at a cost of Rs. 285–5–0. The Jubilee engine was working throughout the year, the annual working expense being Rs. 1,001–8–3. The engine stood in need of certain repairs, which were executed in the South Indian Railway workshop at a cost of Rs. 658–1–11.

38. *Grant II, Education.*—The outlay under this grant amounted to Rs.7,393–7–5 against Rs. 7,910 in the revised estimate and Rs. 7,667–8–0, actuals of the previous year. Provision had been made in the budget for opening a Sessional school, but none was opened during the year by the educational authorities.

39. *Schools on the Salary-results System.*—There were four schools working under this system. The Velippalayam Salary-Result school was converted into a purely results school and a new one opened during the year in Nambiarkuppam. The number on the rolls in all the four schools was the same as in the previous year, viz., 263. The strength of the Negapatam school declined from 128 on 31st March 1894 to 112 on the same day of 1895. In the Nagore school the fourth standard was opened and the strength of the school rose from 72 in the previous year to 91 in the year under report. Out of 56 boys presented for examination in all the four standards of the Negapatam school 38 passed, while in the Nagore school 24 passed out of 29 presented. In Pappanachery and Nambiarkuppam schools 18 and 8 pupils passed out of 21 and 18 presented, respectively. The average cost of educating each pupil was Rs. 8–9–8 against Rs. 7–5–11 in the previous year.

40. *Schools under Salary-grant System.*—The schools aided under this system were same as the last year, viz., the lower secondary departments of the Wesleyan Mission College, St. Antony's High School, St. Mary's Middle school, and the National Middle school and the Upper Primary departments of St. Antony's High School. The schools appear to have done well in the examination by the inspecting officers. The number on the rolls has increased from 349 to 385. The total outlay under this head was Rs. 2,112–2–0 against Rs. 2,054–5–2 in the previous year.

41. *Schools under the Results-system.*—The schools aided under this system were all primary schools. There were 26 schools under this system at the commencement of the year, of which five were closed and two were newly opened, thus leaving 23 schools at the close of the year with a strength of 1,331 boys and 14 girls on 31st March 1895. Eight hundred and fifteen boys were presented for examination, of whom 673 passed, which gives a percentage of success of 82·6 against 81·5 in the previous year. The aggregate amount of results grants disbursed was Rs. 2,258–15–0, which includes Rs. 216–10–0 over-earned results grants of the previous year.

42. *Buildings and Furniture Grants.*—Rupees 234–8–0 spent under this head represents the rent grants to St. Antony's High School, Native branch school, Wesleyan Mission Primary school, &c.

43. *Physical Education.*—The two gymnastic instructors worked under the same arrangements as were in force in the previous year. Boys of all the aided schools which had no gymnastic instructors of their own were instructed. Drill and athletic sports were practised. The managers of the National Middle school, Nagore, and St. Mary's school, Velippalayam, subscribed Rs. 2 per mensem towards the services of the gymnastic instructors lent to them.

44. *Drawing.*—During the year under report a drawing master was appointed to give instructions in drawing to boys of the aided schools. He goes from school to school and takes the boys of each school on that subject for three hours a week, he himself working five hours a day. The results of the examination were good.

45. *Female Education.*—There were at the beginning of the year twelve girls' schools aided from Provincial funds under the results system. Of those under the management of the Wesleyan Mission, one was closed. A new school was opened under the management of the Roman Catholics. The aggregate number of girls on 31st March 1895 was 765 against 637 in the previous year. The schools did well at the results grant examination.

46. *Grant III, Medical Service and Sanitation.*—The total expenditure under this grant was Rs. 29,731–14–0 against Rs. 26,250–5–8 in the previous year and Rs. 29,210 in the revised estimate.

47. *Municipal Hospital, Negapatam, and the Branch Dispensary, Nagore.*—During the year under report N. Muhammad Usman Sahib Bahadur, Civil Surgeon, was in

charge of the Negapatam hospital. Detailed information on the working of the hospital and the Nagore dispensary is given in the Civil Surgeon's report accompanying. The average daily attendance of patients in the hospital was 20·58 in and 108·41 out patients against 22·09 in and 109·26 out patients in the previous year. Seven hundred and sixty-one in and 19,008 out patients were treated against 772 in and 17,313 out patients in the previous year. Although there was a slight decrease in the number of in-patients treated, the number of out-patients shows an increase. Eighty-six in-patients were self-dieting. In the Nagore dispensary 6,480 patients were treated against 6,869 in the previous year and the average daily attendance was 43·78 against 47·29 in the previous year. The total expenditure on these institutions was Rupees 5,421-9-1, of which Rs. 1,228-15-11 was spent on medicines. Bedding and clothing was supplied at a cost of Rs. 435-5-4. The amount realized by subscription for and sale of medicines was Rs. 269-7-9. The midwife attached to the hospital attended 124 cases against 117 in the previous year.

48. *Medical training of Women.*—During the year under report no action was taken towards this object.

49. *Contribution to Government.*—The usual contribution for the sanitary inspection was paid within the year.

50. *Contributions to Local Boards.*—The usual contribution of Rs. 300 due to the district board for the medical school, Tanjore, and the contribution for reserve staff Rs. 41–9–6 were paid within the year.

51. *Vaccination.*—The vaccine staff consists of one first-class vaccinator, a second-class vaccinator and a vaccinatrix. The pay of the vaccinatrix was raised during the year from Rs. 10 to Rs. 15 per mensem on condition that she should vaccinate as many cases as the first-class vaccinator, viz., 120 per mensem. The second-class vaccinator is required to vaccinate 100 cases per mensem. The vaccine depôt was as usual held in the municipal hospital and was supervised by the Civil Surgeon. Calves were hired at the rate of Rs. 3 each and lymph was transferred from one calf to another every sixth day. There were 57 calves inoculated during the year. Vaccinators were furnished with extracts from the birth registers who served notices on parents of children to get them vaccinated. Vaccination was conducted with animal lymph direct from the calf. The compulsory system of vaccination was in force having been introduced in 1886. The number of cases operated by the vaccinators including re-vaccination was 3,991 and by the hospital assistants 129, thus aggregating to 4,120 against 3,940 in the previous year. Statement XIII gives particulars of cases vaccinated by the several vaccinators and the hospital assistants and the results of vaccination. The outlay under this head including establishment charges aggregated to Rs. 761–11–10 and the number of successful cases operated with animal lymph was 3,856. The cost of vaccinating each case was As. 3–2 against As. 2–10 in the previous year. The proportion per mille of the total number of successful operations to the population was 65·1 against 63·6 in the previous year and that of successful operations on infants was 34·3 against 33·5 in the previous year. Deaths from small-pox were 12 against 46 in the previous year. Sixty cases were referred to the Magistrate for failing to have their children vaccinated.

52. *Registration of Vital Statistics.*—The registration of births and deaths was carried on under the same arrangements as in the last year. The number of births registered during the year was 1,874 against 1,892 in the previous year and of deaths 1,873 against 2,147 in the previous year. The birth-rate per mille of population was 31·6 and the death-rate 31·6; 32 prosecutions were filed for failure to register births and deaths, in 28 of which conviction was secured.

53. *Conservancy.*—The outlay under this head amounted to Rs 22,007–9–4 against Rs. 22,010 in the revised estimate. There was no change in the staff except the addition of one female scavenger. The number of carts was the same as in the previous year. As the carts supplied by contractors were small and inefficient, the council resolved to provide their own carts for the removal of rubbish. An iron road-watering cart was also provided during the year. The number of latrines was increased by three (two iron and one tatty latrine) and one of the tatty latrines on the

beach was removed and an iron one substituted. The cleanliness of these latrines was carefully attended to. The pay of 37 scavengers required to clean 1,495 private latrines on an average monthly salary of Rs. 5 is shown under "5 (*b*) (i) private scavenging establishment" and the pay of nine male and ten female scavengers posted to public latrines are shown under "5 (*b*) (ii) public latrine establishment." The general health of the town was good. The year under report was singularly free from cholera. The small sum of Rs. 97–1–9 shown under cholera charges was the cost of preventive measures adopted on information that it prevailed in some of the neighbouring villages.

54. *Conservancy Contingencies.*—The expenditure under this head amounted to Rs. 645–15–0 against Rs. 600 in the revised estimate and consists chiefly of the cost of sanitary powder.

55. *Arrangements during feasts.*—Rupees 292–4–9 was spent under this head against Rs. 300 in the revised estimate. The arrangements during the Kundry feast at Nagore were satisfactory and there was no hitch of any kind notwithstanding the large influx of people from different parts of the country.

56. *Grant IV, Lighting.*—The expenditure under this head amounted to Rupees 5,186–2–7 against Rs. 5,640 in the revised estimate. The lighting was managed departmentally. The supply of oil was received from Madras. The lights were burnt throughout the dark hours of nights. The cost of oil, wick, &c., and sundry repairs to lanterns amounted to Rs. 3,199-7-6, and the establishment charges to Rs. 1,542–4–1. The number of lights was 392. The average cost of burning each lamp was Rs. 1–0–1½. Twenty-six new lamps with old iron rail posts were provided at a cost of Rs. 444–7–0.

57. *Markets.*—There is one market with accommodation for the sale of fish, meat, vegetable and other articles which was leased out for Rs. 3,545. Rupees 11–12–5 was realized as interest on late payment of kists. Deducting the establishment and other charges, Rs. 406–9–0, the net receipts from the market were Rs. 3,138–7–0. Nine stalls were altered so as to face the courtyard of the building at a cost of Rs. 203.

58. *Slaughter-houses.*—The slaughter-houses of which there are three, viz., the sheep and bull slaughter-houses, Negapatam, and the sheep slaughter-house at Nagore were managed departmentally. The amount realized was Rs. 2,027–6–0 against Rs. 1,544–12–0 in the previous year. Deducting the cost of establishment, &c., Rupees 104–10–6, the net income was Rs. 1,922–11–6. The increase under this head is due to the raising of fees for slaughtering sheep from 6 pies to one anna per head and to the departmental collection of fees.

59. *Travellers' Bungalow.*—The council have no travellers' bungalow of their own.

60. *Avenues.*—The expenditure under this head amounted to Rs. 244–4–11 against Rs. 260 in the revised estimate. The existing plants were carefully looked after and are thriving.

61. *Public garden.*—Rupees 972–1–5 was spent under this head against Rs. 1,140 in the revised estimate. The income under this head was Rs. 599–12–5, of which a greater portion, viz., Rs. 313–2–0, was received from the sewage farm in Hathway's park. The following extract from the budget report of this municipality for 1895–96 will give an idea of the progress made in sewage farming up to January 1895: "The garden has since been extended towards the east and west, and the area under cultivation has very much increased. What progress has been made in sewage farming will be evident from paragraph 70 of the administration report for 1893–94 which runs as follows:—. . . . 'In 1892–93 an experimental sewage farm was opened. The operations were commenced in December 1892. About 2½ acres of land were brought under cultivation before March 1893 and 7½ acres during the year under report. The former was divided into 67 beds of 35 × 5 feet each and the latter into 118 beds of 50 × 6 feet each. Hurriali grass was planted. This grass grows well and reaches a height of from 2 to 3 feet. About 15,800 lb. of grass was cut, but as it did not meet with a ready sale at the beginning owing to the prejudice entertained by the public against the usage of sewage, about 3,000 lb. were converted into 1,000 lb. of hay and laid in stock. The sale of fresh grass and hay has been gradually

increasing. Since April last the whole of the low-lying land in the east of the park measuring 3,644 square yards has been reclaimed, fenced in, levelled and made fit for cultivation. About 2,500 square yards of land on the south side of the garden overgrown with prickly-pear was cleared of the same. Hurriali grass was planted over an area of 8 acres divided into plots as under:—

Thirteen	beds of	50	× 100	feet.
Six	beds of	56	× 56	,,
Twenty-three	beds of	138	× 42	,,
Twenty-seven	beds of	140	× 55	,,

About 500 casuarina plants have been planted over an area of 1,368 square yards, ragi sown over 1,632 square yards and cholam over 264 square yards besides vegetables cultivated on 1,275 square yards". Since January last the prickly-pear on the south-east side extending over an area of 2,379 square yards was removed and the whole land levelled. The proposal of the council to reduce the establishment was disallowed by Government and the existing staff was continued throughout the year.

62. *Printing.*—The expenditure under this head amounted to Rs. 522–4–0 against Rs. 600 in the revised estimate. The proportionate cost of printing work done in the Secretariat press was paid within the year.

63. *Other Charges—Compensation for lands.*—The burning-ground at Velipalayam was closed by the council as it was situated in an objectionable site. A new site was acquired for opening a burning-ground about a furlong to the west of the closed one, and the amount of compensation paid for the same was Rs. 544–8–0. The ground has to be reclaimed, raised and levelled, which will be carried out during this year.

64. *Law Charges.*—The expenditure under this head amounted to Rs. 360–0–6 against Rs. 350 in the revised estimate. The amount represents the cost of vakil fees and court expenses in defending two civil suits disputing the title of the council to the sites of alodies and two suits by one of the municipal councillors claiming damages *in re* the removal of an objectionably situated latrine.

65. *Grant V, Office and Supervision.*—The outlay under this grant was Rupees 6,098–14–3 against Rs. 6,110 in the revised estimate. The contributions for the Central office and audit establishments and the cost of forms printed in the V. N. Jubilee press were paid within the year.

66. *Advances recoverable—Others.*—The advance of Rs. 3,678–10–11 represents the cost of coal laid in stock and of the conservancy cart bullocks purchased during the year. As new rubbish carts were constructed by the council, no contractor could be induced to bid for the supply of bullocks and drivers at any reasonable rate below Rs. 25 per pair of bullocks per mensem, although three successive meetings were held for the purpose. The council had therefore no alternative, but to purchase bullocks and work the carts departmentally. The cost of feeding the bullocks, payment of drivers, &c., is supposed to average Rs. 18–8–0 per cart per month.

IV.—Closing Balance.

67. The year closed with a balance of Rs. 10,026–9–9, of which Rs. 4,000 is invested in Government securities. There were liabilities to be met from it amounting to Rs. 931 as per particulars given in the note to statement II.

Enclosure.

Concise Annual Report of the Municipal hospital, Negapatam, and its branch dispensary, Nagore, for the year 1894–95.

Public health.—General health of the public was on the whole good. The town enjoyed perfect immunity from cholera, although the disease prevailed in a more or less severe form in the adjoining villages and almost throughout the district. Importations of the disease into the town were strictly watched and guarded against. Small-pox was less severe during the year, 12 deaths having occurred from it against 46 in the preceding year. Fevers of malarious kind prevailed in the latter part of the year after the heavy rains in November and December, but the mortality from this cause was less than in the previous year. The price of food-grains stood moderate. The rains were in due season and sufficient in quantity being 46·51 during the year.

Vital statistics.—There were 1,873 deaths from all causes, being 31·62 per mille of population during the year against 36·25 per mille in the previous year. The increase in the previous year was due to cholera. Largest number of deaths were recorded against children below one year of age, and the next highest figure was, as usual, against old people exceeding 60 years. The percentage of infantile mortality to total deaths was 32·83 against 26·73 in the previous year. The exact cause of this excess is not known.

Total number of births during the year were 1,874, *i.e.*, 31·64 per mille of population against 31·94 in the previous year.

Sanitation.—There was some improvement in the conservancy department during the year. Three iron latrines were added to the original number and 25 masonry dust-bins were replaced by iron ones. Good pattern rubbish and night-soil carts were provided, which are a decided improvement over the old ones.

The condition of the water-supply is extremely unsatisfactory. In hot weather the wells yield very scanty supply and the tanks become low and hold objectionable quality of water. The water scheme, which is now under consideration, should be carried out early to remedy this long-standing evil.

The sewage water of the town is removed as far as possible by the municipal agency. There is no co-operation of private individuals in this matter. A sewage fee should be levied on those that have large cess-pools attached to their houses, which should be systematically cleaned by increasing the present number of sewage carts.

There are certain spots in the town which are particularly over-crowded and insanitary. These are fishermen's hutting ground, Old street, Onion Bazaar street and the Main Bazaar street. The houses here are huddled together and allow no perflation of air. Some of them should be erased and the streets widened up.

There are a number of private tanks in the town which are a positive nuisance. They are never properly cleaned, and the offensive odour emanating from them in the hot weather is simply revolting. The owners should be forced to clean them every year before fresh water is let into them.

The rubbish depôts in the 3rd and 4th divisions are too near dwellings and drinking water source. They should be removed further from their present situations.

Vaccination.—Vaccination is compulsory in this town and is done by animal lymph direct from calf. Four thousand one hundred and twenty cases were vaccinated in the town during the year; of these 3,991 were operated by the municipal vaccinators and 129 by hospital assistants. Three thousand eight hundred and eighty-nine were primary operations and 231 were cases of re-vaccination. Of 3,889 primary operations, 2,144 were on children under one year of age and 1,618 above one and under six years. The excess of infantile operations over the total birth-rate of the municipality was due to a large number of children not born in the municipality being vaccinated. Negapatam being a busy port invites a large number of families from the adjoining districts and villages for labour. The attention of vaccinators is particularly directed to these families that they may not escape protection and thus prove a source of danger to the town. The cases operated by the vaccinators are verified at the depôt after the operations. The cost of vaccinating each case during the year was 2 annas 11 pies against 2 annas 10 pies in the previous year. The slight excess was due to the hire of the calves being raised from Rs. 2–8–0 to Rs. 3 each, and the cost of operation tables and lancets purchased new during the year.

Municipal Hospital, Negapatam—(a) Nature and sufficiency of accommodation.—The hospital affords accommodation for the general class of people, Europeans and Eurasians and Lying-in cases. No special accommodation is available for caste patients, which is not at all encouraging to this class. There were 86 patients who dieted themselves during the year against 69 in the previous year. More numbers would have attended if there were special encouragement to them by way of accommodation. There is no separate accommodation for treating females suffering from venereal diseases.

(*b*) *State of repair of buildings.*—The European ward is located in a very objectionable site. A portion of the dispensary screened from the out-patients' dressing-room by a small partition is utilized for this purpose. It is a dark ill-ventilated room without a bath-room and other necessary accompaniments. The ward is very unpopular among the classes of patients for whom it is intended. Those that come to remain in it do so out of sheer necessity, but many prefer to remain as out-patients notwithstanding their serious ailments. A separate European ward is very necessary.

The dispensary, which was originally the Apothecary's quarters, is not adapted for its present purpose. It is not sufficiently ventilated and has no proper dressing and examination rooms. The arrangement for the separation of sexes is not satisfactory. Such alterations as are necessary for its present need should be early carried out.

The floor of the male and female wards is in bad order and on account of soakage, the wards have become unhealthy. Surgical cases do not thrive well and complications among them, such as gangrene and erysipilas, have been very common in the hospital. An impermeable cement floor should be provided with drains around to carry off the washings of the wards.

The lying-in ward is in a deplorable condition. The floor is much worn out and uneven, the walls are cracked and unsafe, the roof is leaky. The doors and windows are losing their holds from decay. The ward requires thorough repair or a new one may be advantageously erected in its place.

The hospital has no special room wherein to conduct operations. They are at present done in the open air by the side of the labour ward which is very objectionable. A proper room for this purpose should soon be provided.

Among out-houses the kitchen, the store and linen rooms and the latrines require alterations and repairs.

(*c*) *State of repair of furniture.*—The furniture are in good order. Twelve more iron cots and 24 bedside tables are required.

(*d*) *Number of patients treated as compared with previous years.*—Nineteen thousand and eight out-door patients and 761 in-door patients were treated during the year against 17,313 and 772 respectively in the previous year.

(*e*) *Mortality and actual causes of it.*—There were 31 deaths among in-door patients against 52 in the previous year. The actual causes of deaths were the following :—

Cerebral apoplexy— 1, Uræmia— 1, Septicæmia—4, Asthenia from dysentery—6, from starvation and diarrhœa—11, from perinicious anæmia—1, Phthisis, pneumonic chronic—5, Tetanus—1, Remittent fever—1.

(*f*) *Operations and results.*—Two hundred and eleven major operations and 3,066 minor operations were performed during the year against 167 and 1,678 respectively in the previous year. The following were the chief among the nature of major operations performed :—

Amputation of limbs.
Operations for tumours.
Do. on eye.
Do. on diseased bones.
Do. for elephantiasis scrotum.
Do. for radical cure for hydrocele.
Obstetric operations.

Of 211 major operations 201 were discharged cured and 10 were discharged relieved. There was no mortality among the operated patients.

(*g*) *Establishment whether sufficient and efficient.*—A large and important hospital as this has only one medical subordinate attached to it, viz , a hospital assistant of the third grade. The town is populous, busy with commerce, and has a port and a large Railway factory. Cases of accidents and other injuries requiring prompt attention are very frequently brought to hospital. There are now about 25 in-door patients, almost all serious cases, and 140 out-door patients (total 165) to attend to duty. Besides, there are other departments, viz., medical stores, surgical instruments, bedding and clothing, and diet of patients, which are of no little importance. The duties in connection with these and 165 patients daily, together with several other minor details incidental to a large institution like this, devolve on a single hospital assistant. It is open to grave question whether these severally important duties could be discharged by a single man to the degree of efficiency that is desired.

Operations of serious nature have often to be undertaken for which the Medical officer finds no adequate help. The hospital assistant being solely engaged in administering chloroform, the Medical officer has to look for help from coolies and compounders in securing blood vessels or holding important structures.

When there are operations or important cases in the wards, which are not infrequent, the out-patients suffer. They have to wait till the work with the in-patients is over or go away without relief.

From the above, it is clear that the services of two medical subordinates are indispensable to this hospital, one of whom must be a man of some standing to render effective help.

Menial servants.—The male wards have one male toty, one male ward cooly, and the female wards, one female toty, one female ward cooly. This number is too small to provide for constant attendance upon patients, who are mostly bed-ridden. When the respective ward attendants are off duty at night, the patients are absolutely left to themselves. The nursing of serious cases is neglected and the excreta of bed-ridden patients remain exposed the whole night. There should be two of each class of servants—one for night and the other for day duty, exclusively. It is only in this way that constant attendance upon patients can be provided for, and this is what is done in all important and large hospitals in the Presidency.

The present native midwife may be advantageously replaced by a European nurse and midwife. The services of the latter would be of more extended use to the hospital. She will not only have charge of the Lying-in patients, but also look after the nursing, cleanliness and comfort of all the patients in the hospital. Bedding and clothing would be better supervised by her.

The European and Eurasian patients have no separate cook. The Hindu cook who is employed for the general class of patients does not know to cook to the taste of European and Eurasian patients and hence these patients are put to great disadvantage.

Scale of Establishment.

The present establishment.	The proposed establishment.
1 hospital assistant, 3rd grade	2 medical subordinates, of whom one, if possible, to be of the grade of Apothecary.
1 native midwife	1 Eurasian nurse and midwife in place of the native midwife who may be posted to Nagore.
1 male toty .. } for male ward	2 male toties .. } 1 for night, 1 for day duty.
1 male ward cooly .. }	2 male ward coolies }
1 female toty } for female ward	2 female toties .. { do. do.
1 female ward cooly }	2 female ward coolies }
1 cook	1 cook for European and Eurasian patients.
1 gardener	The rest as they are now.
1 cholera toty	
1 peon } for civil Surgeon's office	
1 clerk }	
2 compounders	

(*h*) *Midwives.*—A native midwife is attached to the hospital, her pay is Rs. 15 a month. She conducted 124 cases during the year against 117 in the previous year and 106 in the year before. Of 124 cases, 31 cases were conducted in the hospital and 93 in private houses.

(*i*) *Dispensary for Caste and Gosha Women.*—There is no special dispensary in the town for treating caste and gosha women separately. The attention of the municipality was drawn to this subject, as there is a large number of caste and gosha women in the town who will not attend the ordinary dispensaries.

(*j*) *General Remarks.*—The table below compares the number of patients treated and the operations performed during the last ten years. It will be observed from the figures that in the last three years the work has considerably increased in every branch. The same establishment exists now as it did ten years ago when there were only aboutt wo-thirds of the present number of out-door patients, nearly half the present number of in-door patients, about one-fourth the present number of major operations and less than one-sixth the present number of minor operations.

Year.	Total admissions. In-patients.	Total admissions. Out-patients.	Major operations.	Minor operations.	Average daily attendance of in-and out-patients.	Remarks.
1885–86 ..	420	13,215	50	253	109·38	The daily attendance includes the number of admissions and old cases that are continuing under treatment. Although it shows the total number of patients treated in a day, it does not give any idea of the nature of work. This can only be judged by the total number of admissions which require on their first appearance a detailed examination and the number of operations which require considerable amount of labour and care for their successful issue.
1886–87 ..	317	14,201	30	629	162·48	
1887–88 ..	356	12,940	10	536	156·73	
1888–89 ..	436	12,830	12	328	105·72	
1889–90 ..	416	11,722	9	618	107·47	
1890–91 ..	503	15,378	110	672	131·02	
1891–92 .	561	12,788	81	622	108·47	
1892–93 ..	452	16,961	128	803	138·08	
1893–94 ..	772	17,313	167	1,678	131·35	
1894–95 ..	761	19,008	211	3,006	148·32	

To meet this increase of work with efficiency and to enhance the popularity of the institution further, the establishment must be revised and the accommodation of the hospital improved.

In Nagore Branch Dispensary 6,480 out-door patients were treated against 6,869 in the previous year. There were 485 minor operations against 329 in the previous year. The table below compares the number of patients treated in the last five years.

Year.	Total admission, out-patients.	Minor operations.	Daily average attendance.
1890–91	7,334	144	48·21
1891–92	6,411	190	43·75
1892–93	7,318	261	47·82
1893–94	6,869	329	47·29
1894–95	6,480	485	43·78

The dispensary is in a rented building which is in good order. It is in charge of a medical practitioner who has no qualifications. The staff consists of —

1 compounder,
1 lascar,
1 nurse (dispensary attendant),

and is sufficient for its present requirement. A native midwife should be attached to this dispensary, as her services are very much required in this place. This was pointed out in the last year's report.

NEGAPATAM,
25*th May* 1895.

(Signed) M. OOSMAN,
Civil Surgeon.

No. 2347-Rev.

Forwarded.

2. The roads of the town are generally in fair condition.

(Signed) P. SIVARAMA AIYAR,
30*th May* 1895. *Acting Deputy Collector in charge.*

No. 422-Munl.

Submitted to Government in the Local and Municipal Department.

2. It is worthy of note that, out of the 29 meetings held during the year, none were dissolved for want of a quorum.

3. On the whole, the collections under current taxes are fair. Under arrears, the existence of a balance of Rs. 53–12–0 against tax on animals and of Rs. 48 against tax on vehicles with springs from 1893–94, and of Rs. 70 against tax on carts without springs from 1892–93, is unsatisfactory. This should receive the Chairman's attention.

4. *Paragraph* 38 *of the report.*—Under Education, the council's failure to expend the provision made for the opening of a sessional school is to be regretted.

5. *Paragraph* 41 *and Statement No. V-B.*—The total amount of grant passed was Rs. 2,667–14–0, and the balance of grant of 1893–94 paid in 1894–95 was Rupees 216–10–0. Thus the grants for the two years payable amounted to Rs. 2,884–8–0. There was a provision of Rs. 2,700 in the budget; but the amount actually paid was only Rs. 2,258–15–0. The reason why Rs. 625–9–0 or 23·45 per cent. of the total grant earned was withheld is not clear from the report or statements.

6. *Paragraph* 47 *and Medical officer's report.*—In two respects, the medical officer's recommendations demand consideration, viz., (1) the revision of the hospital establishment according to present requirements, and (2) the improvements and repairs to the hospital and out-houses.

7. *Paragraph* 58 *of the report.*—The entry of Rs. 1,912–11–6 as the net income of slaughter-houses is apparently an error for Rs. 1,922–11–6, this being the actual difference between the gross income as per statement I, item 4, and the gross charges as per statement No. II, item 2 (ii).

8. *Statement No. IX.*—Deducting the number of houses taxed from the total number of houses as per census (occupied and unoccupied together), as many as 3,316 houses are either unoccupied or occupied, but not taxed, and represent nearly 27 per cent. of the total. In note 8 to statement No. I, it is stated that the house-tax registers were last revised in 1892–93. A further revision after careful enquiries may possibly bring a larger number of houses to taxation.

Column 2	12,234
Column 16	8,918
	3,316

9. *Statement No. XIII—Vaccination.*—The vaccinatrix has performed the largest number of operations, viz., 1,602 or at the rate of 134 cases per month. This is very creditable.

TANJORE,
8*th June* 1895.

SUBJECT.

Submitting the statements of progress of female education for the year 1894-95

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From F. OLIVER, Esq., Chairman, Municipal Council, Negapatam, to the Chief Secretary to Government (through the Head Assistant Collector and the Collector of Tanjore), dated Negapatam, 20th May 1895, No. 238.

I have the honour to report on the working of this municipality for the official year 1894–95 accompanied by statements of receipts and charges in the prescribed form.

2. The draft report was placed before the council at a meeting held on 23rd May 1895 and adopted by them. An extract from the proceedings is enclosed.

3. The usual concise report of the Civil Surgeon, Negapatam, on the working of the Municipal hospital, Negapatam, and the Branch dispensary, Nagore, and the educational statements I to V received from the Assistant Inspector of Schools, Tanjore, are submitted herewith.

4. The budget and the revised estimates for the year under report were passed by Government in G.O.s, No. 214, M., dated 23rd February 1894, and No. 573 M., dated 29th March 1895.

5. The accounts of the year have not been audited yet.

I.—CONSTITUTION OF THE COUNCIL.

6. The sanctioned maximum strength of the council is 24. The number on the rolls on 31st March 1895 was 18. The council was composed of 12 nominated and 12 elected members. The classification of the council, as it stood at the close of the year, is shown in statement X.

7. *Office of the Chairman.*—I have been in office throughout the year under report, having been elected on the 21st November 1892. I delegated my powers as Chairman to Mr. G. S. Bruce from 15th December 1894 to 28th February 1895.

8. There were three elections held during the year—one for the Nagore west ward, one for the Kadambadi ward and one for the Negapatam west ward. In the Nagore west ward, the contest was only nominal, but the Kadambadi ward election was keenly contested up to the last moment when one of the candidates withdrew and the only other candidate was declared elected. In the Negapatam west ward, the contest was very severe. There were three candidates. Out of 490 voters on the list then in force, 375 or 76·3 per cent. went to the poll.

9. The registers of voters and of eligible candidates were, as usual, revised during the year, and the number of registered voters rose from 1,832 to 1,931. The proportion of registered voters to the population of the municipality was 1 to 30·6.

10. The number of meetings actually held during the year was 29. There were no meetings which were adjourned for want of a quorum. The average attendance of the official members was 0·83 against 0·85 in the previous year and that of the non-official members 12·1 against 13·3 in the previous year.

11. *Financial position.*—A summary of the transactions of the year excluding deposits is given below as compared with that of the previous year :—

1894–95.

		RS.		RS.
Opening balance	..	12,982	Charges	73,633
Receipts		70,678	Closing balance	10,027
Total ..		83,660	Total ..	83,660

1893–94.

		RS.		RS.
Opening balance	..	11,460	Charges	68,724
Receipts		70,246	Balance	12,982
Total ..		81,706	Total ..	81,706

The closing balance of 1893–94 as per annual statements submitted by this office to Government, was Rs. 12,992–3–9. In his report to Government on the audit of the accounts of this municipality, the Assistant Inspector of Local Fund Accounts has reduced this balance by Rs. 10–6–7 in consequence of his transferring from Municipal funds to deposits the unrefunded house vacancy remissions of 1892–93. In doing so the Assistant Inspector has made a mistake by taking the amount of such remissions as Rs. 10–6–7, while the correct amount is only Rs. 10–5–11. The correct closing balance of 1893–94 is therefore Rs. 12,981–13–10 and not Rs. 12,981–13–2 as given in the corrected audit statements submitted to Government. Similarly the correct amount under deposits is Rs. 8,004–2–8 and not Rs. 8,004–3–4.

12. Compared with previous year the receipts show an increase under tax on arts, lands, tolls, rents on lands, produce of lands and gardens, income from slaughter-houses, license-fees, fishery rents and private scavenging fees. The accompanying statements give details of the above figures. The reasons for the variations between the actuals and the revised estimate figures are explained below.

II.—RECEIPTS.

13. The demand under tax on buildings and lands amounted to Rs. 22,904–4–9. Rs. 15 was remitted by the council on appeal, thus reducing the gross to a finally-settled demand of Rs. 22,889–4–9. Rs. 22,112–11–10 of this demand was collected, Rs. 14–0–11 remitted on account of vacant houses, leaving an uncollected balance of Rs. 762–8–0. Of this balance Rs. 306–12–9 has been collected up to date and Rs. 41–4–0 written off as irrecoverable, showing a balance on this date of Rs. 414–7–3.

14. *Arrears of previous year.*—There were, at the beginning of the year outstandings amounting to Rs. 1,233–8–10, of which Rs. 1,093–7–6 was collected, Rs. 7–1–8 remitted, Rs. 77–5–6 written off, leaving a balance of Rs. 55–10–2 at the close of the year. Of this balance Rs. 4–8–0 has been realized up to date.

15. The coercive measures adopted for the realization of taxes are shown in the accompanying statement (appendix A to statements IV-A and IV-B). The percentage of current collections to the net demand was 96·6 against 94·8 in the previous year. The average incidence of house-tax was Rs. 2–7–3 per house.

16. *Tax on arts.*—This tax was levied on the first five classes of the schedule. The demand, as finally revised by me, was Rs. 14,821–8–0. Rs. 674 was remitted by the council on appeals, leaving a final demand of Rs. 14,147–8–0 against Rs. 13,349 in 1893–94. The collections amounted to Rs. 12,743–8–0 against Rs. 12,400 in 1893–94 and Rs. 11,817–8–0 in 1892–93 and Rs. 10,775 in 1891–92. The balance at the close of the year was Rs. 1,404, of which Rs. 231 has been collected up to date and Rs. 395 written off. The percentage of current collections to the net demand was 90·0 against 92·9 in 1893–94, 91·89 in 1892–93 and 86 in 1891–92. The remission granted by the council was 4·5 per cent. of the original assessment against 6·1 per cent. in the previous year.

17. *Tax on arts arrear.*—Of the old balance of Rs. 1,069, Rs. 670 was collected, Rs. 21 remitted and Rs. 363 written off, leaving an uncollected balance of Rs. 15.

18. *Tax on vehicles and animals.*—The sum realized under this head was Rs. 3,679 against Rs. 3,815–8–0 in the previous year.

19. *Tax on carts.*—A sum of Rs. 1,652 was realized under this head against Rs. 1,856 in the previous year. The rate of fees, viz., Rs. 4 per cart per annum, continued unaltered. There were 175 carts seized during the year for failure to register.

20. *Tolls.*—The right of collecting tolls at the maximum rates of the schedule in all the seven gates of this municipality was leased for Rs. 15,240. The total sum realized, including interest on late payment of kists, amounted to Rs. 15,252–15–6. The share due to the District Board was paid before the close of the year.

21. (3) (*c*) *Fees under Act II of* 1888.—The sum of Rs. 60 realized under this head represents the license-fees for a dramatic shed.

22. (4) (*a*) (i) *Rent of lands.*—Rs. 1,255–2–6 was realized under this head against Rs. 1,180–12–3 in the previous year.

23. (4) (*b*) (ii) *Produce of lands and gardens.*—Rs. 599–12–5 was realized under this head against Rs. 290–6–5, actuals of the previous year, and Rs. 550 in the revised estimate. The increase under this head is due to the income from the sewage farm.

24. (4) (*b*) (iii) *Sale-proceeds of old materials.*—The receipts under this head amounted to Rs. 286–4–3 against Rs. 250 in the revised estimate and Rs. 184–5–3, actuals of the previous year. The increase is due to the high price at which empty kerosine-oil tins and dealwood cases were sold.

25. (4) (*f*) (ii) *Income from slaughter-houses.*—Rs. 2,027–6–0 was realized under this head against Rs. 2,000 in the revised estimate and Rs. 1,544–12–0, actuals of the previous year. The increase is due to the fees having been collected departmentally and increasing the fee for slaughtering sheep in the Nagore slaughter-house from half to one anna per head.

26. (4) (*g*) (ii) *License-fees.*—Rs. 2,056–3–5 was realized under this head against Rs. 1,500 in the revised estimate and Rs. 1,518, actuals of the previous year. The increase is due to the greater number of timber and firewood depôts than in the previous year and temporary marriage pandals.

27. (4) (*h*) *Fines under Municipal and other Acts.*—Rs. 1,158–7–9 was realized under this head against Rs. 1,300 in the revised estimate and Rs. 1,182–6–0, actuals of the previous year. The fines inflicted by the Bench during the last quarter were less than were anticipated at the time of the revised estimate.

28. (5) (*b*) (iii) *Grants from Local Boards—Other purposes.*—Rs. 909–8–6 was realized under this head against Rs. 1,100 in the revised estimate. The decrease is due to the non-realization of the contributions due for January and February 1895.

29. (6) (*a*) (i) *Private scavenging.*—The income under this head amounted to Rs. 2,313–8–0 against Rs. 2,200 in the revised estimate. The increase is due to the rise in the number of houses served under this system. The fees were levied at the same rate as in the previous year, viz., 2 annas per house per mensem for houses occupied by natives and annas 12 per house per mensem for houses occupied by Europeans.

III.—EXPENDITURE.

30. The following statement shows the percentage of expenditure under each head as compared with the total assets including the opening balance for the years 1893–94 and 1894–95.

	1893-94.	1894-95.
Grant I.—Public Works	24·22	21·7
„ II.—Education	9·39	8·8
„ III.—Medical service and sanitation	32·13	35·6
„ IV.—Lighting and Miscellaneous purposes ..	9·86	10·2
„ V.—Supervision and management	7·56	7·3
Advances	0·42	4·5
Refunds	0·52	..
Closing balance	15·90	11·9
Total ..	100·0	100·0

31. *Grant I, Public Works.*—The total outlay on public works amounted to Rs. 18,180–8–3 against Rs. 19,792–4–7, actuals of the previous year, and Rs. 20,030 in the revised estimate.

32. (1) (*a*) *New Works—Communication.*—The outlay under this head was Rupees 1,167–2–4 against Rs. 1,050 in the revised estimate. Of this sum Rs. 419–10–3 was spent on rebuilding and widening a tunnel on the Holland road which was too narrow to allow free traffic. The metalling of the Hinder Bankshall street was completed at a cost of Rs. 159–14–3. Protection walls to Akkaraikulam south road were constructed at a cost of Rs. 437–3–0. The gravelling of Periakovil north street was completed and a small tunnel reconstructed at the entrance to Tiruvengadatha lane.

33. Under (1) (*b*) *New Works Buildings.*—The expenditure was Rs. 1,921–6–4 against Rs. 2,140 in the revised estimate. A new bull slaughter-house was constructed at a cost of Rs. 630–9–7, and nine stalls on the north row of the market were altered so as to face the court-yard of the building at a cost of Rs. 203. Three iron latrines were provided at a cost of Rs. 772–15–3 and 26 iron dust-bins at a cost of Rs. 262–8–0.

34. (1) (*d*) *New Works—Water-supply.*—The only work under this item was the sinking of a well in Mariammankovil street, Velippalaiyam. There was a fresh water well in a dilapidated condition at the entrance to the streets, which was very useful to the residents of the street. In place of this well a new one was constructed at a cost of Rs. 132–4–6. The Government having declined to sanction the scheme to open a separate supply channel, the council requested Government to expedite the preparation of the water scheme.

35. (2) (*a*) *Repairs—Communication.*—The outlay on repairs and maintenance of roads was Rs. 9,940–10–11 against Rs. 11,280 in the revised estimate and Rupees 8,551–13–1, actuals of the previous year. The Nagore road, 4th and 5th miles, the Wesleyan Mission College road and the Kadambadi road were regravelled during the year. A tunnel on Thamaraikulam road was repaired at a cost of Rs. 168–7–10. Nandukulam road, leading to the new bull slaughter-house, was repaired at a cost of Rs. 202–4–4. The mud roads were kept in good order. The whole of the metalled roads was maintained in a fair condition. The total mileage of unmetalled roads, streets and lanes is 46 and of metalled roads 14, of which about 2 miles were regravelled during the year. The total outlay on roads, both new works and maintenance, was Rs. 11,107–13–3 against a net revenue from tolls of Rs. 10,207–11–3.

36. *Repairs—Buildings.*—Rs. 335–12–9 was spent under this head against Rs. 400 in the revised estimate. The cholera shed was repaired at a cost of Rs. 169–0–4 and the toll sheds at a cost of Rs. 117–2–9.

37. *Repairs—Water-supply.*—The expenditure under this head amounted to Rs. 2,846–12–6 against Rs. 2,960 in the revised estimate. Of this sum Rs. 517–15–11 was spent on pumping out the stagnant water from Akkaraikulam and cleaning the bed, and Rs. 272–4–9 on similarly cleaning Thamaraikulam. The tanks in Negapatam and Nagore were supplied with fresh water at a cost of Rs. 285–5–0. The Jubilee engine was working throughout the year, the annual working expense being Rs. 1,001–8–3. The engine stood in need of certain repairs, which were executed in the South Indian Railway workshop at a cost of Rs. 658–1–11.

38. *Grant II, Education.*—The outlay under this grant amounted to Rs.7,393–7–5 against Rs. 7,910 in the revised estimate and Rs. 7,667–8–0, actuals of the previous year. Provision had been made in the budget for opening a Sessional school, but none was opened during the year by the educational authorities.

39. *Schools on the Salary-result System.*—There were four schools working under this system. The Velippalaiyam Salary-Result school was converted into a purely results school and a new one opened during the year in Nambiarkuppam. The number on the rolls in all the four schools was the same as in the previous year, viz., 263. The strength of the Negapatam school declined from 128 on 31st March 1894 to 112 on the same day of 1895. In the Nagore school the fourth standard was opened and the strength of the school rose from 72 in the previous year to 91 in the year under report. Out of 56 boys presented for examination in all the four standards of the Negapatam school 38 passed, while in the Nagore school 24 passed out of 29 presented. In Pappanacheri and Nambiarkuppam schools 18 and 8 pupils passed out of 21 and 18 presented, respectively. The average cost of educating each pupil was Rs. 8–9–8 against Rs. 7–5–11 in the previous year.

40. *Schools under Salary-grant System.*—The schools aided under this system were same as the last year, viz., the lower secondary departments of the Wesleyan Mission College, St. Antony's High School, St. Mary's Middle school, and the National Middle school and the Upper Primary departments of St. Antony's High School. The schools appear to have done well in the examination by the inspecting officers. The number on the rolls has increased from 349 to 385. The total outlay under this head was Rs. 2,112–2–0 against Rs. 2,054–5–2 in the previous year.

41. *Schools under the Result-system.*—The schools aided under this system were all primary schools. There were 26 schools under this system at the commencement of the year, of which five were closed and two were newly opened, thus leaving 23 schools at the close of the year with a strength of 1,331 boys and 14 girls on 31st March 1895. Eight hundred and fifteen boys were presented for examination, of whom 673 passed, which gives a percentage of success of 82·6 against 81·5 in the previous year. The aggregate amount of result grants disbursed was Rs. 2,258–15–0, which includes Rs. 216–10–0 over-earned results grants of the previous year.

42. *Building and Furniture Grants.*—Rupees 234–8–0 spent under this head represent the rent grants to St. Antony's High School, Native branch school, Wesleyan Mission Primary school, &c.

43. *Physical Education.*—The two gymnastic instructors worked under the same arrangements as were in force in the previous year. Boys of all the aided schools which had no gymnastic instructors of their own were instructed. Drill and athletic sports were practised. The managers of the National Middle school, Nagore, and St. Mary's school, Velippalaiyam, subscribed Rs. 2 per mensem towards the services of the gymnastic instructors lent to them.

44. *Drawing.*—During the year under report a drawing master was appointed to give instructions in drawing to boys of the aided schools. He goes from school to school and takes the boys of each school on that subject for three hours a week, he himself working five hours a day. The results of the examination were good.

45. *Female Education.*—There were at the beginning of the year twelve girls' schools aided from Provincial funds under the result system. Of those under the management of the Wesleyan Mission, one was closed. A new school was opened under the management of the Roman Catholics. The aggregate number of girls on 31st March 1895 was 765 against 637 in the previous year. The schools did well at the result grant examination.

46. *Grant III, Medical Service and Sanitation.*—The total expenditure under this grant was Rs. 29,731–14–0 against Rs. 26,250–5–8 in the previous year and Rs. 29,210 in the revised estimate.

47. *Municipal Hospital, Negapatam, and the Branch Dispensary, Nagore.*—During the year under report N. Muhammad Usman Sahib Bahadur, Civil Surgeon, was in

charge of the Negapatam hospital. Detailed information on the working of the hospital and the Nagore dispensary is given in the Civil Surgeon's report accompanying. The average daily attendance of patients in the hospital was 20·58 in and 108·41 out patients against 22·09 in and 109·26 out patients in the previous year. Seven hundred and sixty-one in and 19,008 out patients were treated against 772 in and 17,313 out patients in the previous year. Although there was a slight decrease in the number of in-patients treated, the number of out-patients shows an increase. Eighty-six in-patients were self-dieting. In the Nagore dispensary 6,480 patients were treated against 6,869 in the previous year and the average daily attendance was 43·78 against 47·29 in the previous year. The total expenditure on these institutions was Rupees 5,421–9–1, of which Rs. 1,228–15–11 was spent on medicines. Bedding and clothing was supplied at a cost of Rs. 435–5–4. The amount realized by subscription for and sale of medicines was Rs. 269–7–9. The midwife attached to the hospital attended 124 cases against 117 in the previous year.

48. *Medical training of Women.*—During the year under report no action was taken towards this object.

49. *Contribution to Government.*—The usual contribution for the sanitary inspection was paid within the year.

50. *Contributions to Local Boards.*—The usual contribution of Rs. 300 due to the district board for the medical school, Tanjore, and the contribution for reserve staff Rs. 41–9–6 were paid within the year.

51. *Vaccination.*—The vaccine staff consists of one first-class vaccinator, a second-class vaccinator and a vaccinatrix. The pay of the vaccinatrix was raised during the year from Rs. 10 to Rs. 15 per mensem on condition that she should vaccinate as many cases as the first-class vaccinator, viz., 120 per mensem. The second-class vaccinator is required to vaccinate 100 cases per mensem. The vaccine depôt was as usual held in the municipal hospital and was supervised by the Civil Surgeon. Calves were hired at the rate of Rs. 3 each and lymph was transferred from one calf to another every sixth day. There were 57 calves inoculated during the year. Vaccinators were furnished with extracts from the birth registers who served notices on parents of children to get them vaccinated. Vaccination was conducted with animal lymph direct from the calf. The compulsory system of vaccination was in force having been introduced in 1886. The number of cases operated by the vaccinators including re-vaccination was 3,991 and by the hospital assistants 129, thus aggregating to 4,120 against 3,940 in the previous year. Statement XIII gives particulars of cases vaccinated by the several vaccinators and the hospital assistants and the results of vaccination. The outlay under this head including establishment charges aggregated to Rs. 761–11–10 and the number of successful cases operated with animal lymph was 3,856. The cost of vaccinating each case was As. 3–2 against As. 2–10 in the previous year. The proportion per mille of the total number of successful operations to the population was 65·1 against 63·6 in the previous year and that of successful operations on infants was 34·3 against 33·5 in the previous year. Deaths from small-pox were 12 against 46 in the previous year. Sixty cases were referred to the Magistrate for failing to have their children vaccinated.

52. *Registration of Vital Statistics.*—The registration of births and deaths was carried on under the same arrangements as in the last year. The number of births registered during the year was 1,874 against 1,892 in the previous year and of deaths 1,873 against 2,147 in the previous year. The birth-rate per mille of population was 31·6 and the death-rate 31·6; 32 prosecutions were filed for failure to register births and deaths, in 28 of which conviction was secured.

53. *Conservancy.*—The outlay under this head amounted to Rs. 22,007–9–4 against Rs. 22,010 in the revised estimate. There was no change in the staff except the addition of one female scavenger. The number of carts was the same as in the previous year. As the carts supplied by contractors were small and inefficient, the council resolved to provide their own carts for the removal of rubbish. An iron road-watering cart was also provided during the year. The number of latrines was increased by three (two iron and one tatty latrine) and one of the tatty latrines on the

beach was removed and an iron one substituted. The cleanliness of these latrines was carefully attended to. The pay of 37 scavengers required to clean 1,495 private latrines on an average monthly salary of Rs. 5 is shown under "5 (*b*) (i) private scavenging establishment" and the pay of nine male and ten female scavengers posted to public latrines are shown under "5 (*b*) (ii) public latrine establishment." The general health of the town was good. The year under report was singularly free from cholera. The small sum of Rs. 97–1–9 shown under cholera charges was the cost of preventive measures adopted on information that it prevailed in some of the neighbouring villages.

54. *Conservancy Contingencies.*—The expenditure under this head amounted to Rs. 645–15–0 against Rs. 600 in the revised estimate and consists chiefly of the cost of sanitary powder.

55. *Arrangements during feasts.*—Rupees 292–4–9 was spent under this head against Rs. 300 in the revised estimate. The arrangements during the Kundry feast at Nagore were satisfactory and there was no hitch of any kind notwithstanding the large influx of people from different parts of the country.

56. *Grant IV, Lighting.*—The expenditure under this head amounted to Rupees 5,186–2–7 against Rs. 5,640 in the revised estimate. The lighting was managed departmentally. The supply of oil was received from Madras. The lights were burnt throughout the dark hours of nights. The cost of oil, wick, &c., and sundry repairs to lanterns amounted to Rs. 3,199–7–6, and the establishment charges to Rs. 1,542–4–1. The number of lights was 392. The average cost of burning each lamp was Rs. 1–0–1½. Twenty-six new lamps with old iron rail posts were provided at a cost of Rs. 444–7–0.

57. *Markets.*—There is one market with accommodation for the sale of fish, meat, vegetable and other articles which was leased out for Rs. 3,545. Rupees 11–12–5 was realized as interest on late payment of kists. Deducting the establishment and other charges, Rs. 406–9–0, the net receipts from the market were Rs. 3,138–7–0. Nine stalls were altered so as to face the courtyard of the building at a cost of Rs. 203.

58. *Slaughter-houses.*—The slaughter-houses of which there are three, viz., the sheep and bull slaughter-houses, Negapatam, and the sheep slaughter-house at Nagore were managed departmentally. The amount realized was Rs. 2,027–6–0 against Rs. 1,544–12–0 in the previous year. Deducting the cost of establishment, &c., Rupees 104–10–6, the net income was Rs. 1,922–11–6. The increase under this head is due to the raising of fees for slaughtering sheep from 6 pies to one anna per head and to the departmental collection of fees.

59. *Travellers' Bungalow.*—The council have no travellers' bungalow of their own.

60. *Avenues.*—The expenditure under this head amounted to Rs. 244–4–11 against Rs. 260 in the revised estimate. The existing plants were carefully looked after and are thriving.

61. *Public garden.*—Rupees 972–1–5 was spent under this head against Rs. 1,140 in the revised estimate. The income under this head was Rs. 599–12–5, of which a greater portion, viz., Rs. 313–2–0, was received from the sewage farm in Hathway's park. The following extract from the budget report of this municipality for 1895–96 will give an idea of the progress made in sewage farming up to January 1895: "The garden has since been extended towards the east and west, and the area under cultivation has very much increased. What progress has been made in sewage farming will be evident from paragraph 70 of the administration report for 1893–94 which runs as follows:—. . . . 'In 1892–93 an experimental sewage farm was opened. The operations were commenced in December 1892. About 2½ acres of land were brought under cultivation before March 1893 and 7½ acres during the year under report. The former was divided into 67 beds of 35 × 5 feet each and the latter into 118 beds of 50 × 6 feet each. Hurriali grass was planted. This grass grows well and reaches a height of from 2 to 3 feet. About 15,800 lb. of grass was cut, but as it did not meet with a ready sale at the beginning owing to the prejudice entertained by the public against the usage of sewage, about 3,000 lb. were converted into 1,000 lb. of hay and laid in stock. The sale of fresh grass and hay has been gradually

increasing. Since April last the whole of the low-lying land in the east of the park measuring 3,644 square yards has been reclaimed, fenced in, levelled and made fit for cultivation. About 2,500 square yards of land on the south side of the garden overgrown with prickly-pear was cleared of the same. Hurriali grass was planted over an area of 8 acres divided into plots as under:—

Thirteen	beds of	50	× 100	feet.
Six	beds of	56	× 56	,,
Twenty-three	beds of	138	× 42	,,
Twenty-seven	beds of	140	× 55	,,

About 500 casuarina plants have been planted over an area of 1,368 square yards, ragi sown over 1,632 square yards and cholam over 264 square yards besides vegetables cultivated on 1,275 square yards". Since January last the prickly-pear on the south-east side extending over an area of 2,379 square yards was removed and the whole land levelled. The proposal of the council to reduce the establishment was disallowed by Government and the existing staff was continued throughout the year.

62. *Printing.*—The expenditure under this head amounted to Rs. 522–4–0 against Rs. 600 in the revised estimate. The proportionate cost of printing work done in the Secretariat press was paid within the year.

63. *Other Charges—Compensation for lands.*—The burning-ground at Velippalaiyam was closed by the council as it was situated in an objectionable site. A new site was acquired for opening a burning-ground about a furlong to the west of the closed one, and the amount of compensation paid for the same was Rs. 544–8–0. The ground has to be reclaimed, raised and levelled, which will be carried out during this year.

64. *Law Charges.*—The expenditure under this head amounted to Rs. 360–0–6 against Rs. 350 in the revised estimate. The amount represents the cost of vakil fees and court expenses in defending two civil suits disputing the title of the council to the sites of alodies and two suits by one of the municipal councillors claiming damages *in re* the removal of an objectionably situated latrine.

65. *Grant V, Office and Supervision.*—The outlay under this grant was Rupees 6,098–14–3 against Rs. 6,110 in the revised estimate. The contributions for the Central office and audit establishments and the cost of forms printed in the V. N. Jubilee press were paid within the year.

66. *Advances recoverable—Others.*—The advance of Rs. 3,678–10–11 represents the cost of coal laid in stock and of the conservancy cart bullocks purchased during the year. As new rubbish carts were constructed by the council, no contractor could be induced to bid for the supply of bullocks and drivers at any reasonable rate below Rs. 25 per pair of bullocks per mensem, although three successive meetings were held for the purpose. The council had therefore no alternative, but to purchase bullocks and work the carts departmentally. The cost of feeding the bullocks, payment of drivers, &c., is supposed to average Rs. 18–8–0 per cart per month.

IV.—CLOSING BALANCE.

67. The year closed with a balance of Rs. 10,026–9–9, of which Rs. 4,000 is invested in Government securities. There were liabilities to be met from it amounting to Rs. 931 as per particulars given in the note to statement II.

ENCLOSURE.

CONCISE ANNUAL REPORT of the Municipal hospital, Negapatam, and its branch dispensary, Nagore, for the year 1894–95.

Public health.—General health of the public was on the whole good. The town enjoyed perfect immunity from cholera, although the disease prevailed in a more or less severe form in the adjoining villages and almost throughout the district. Importations of the disease into the town were strictly watched and guarded against. Small-pox was less severe during the year, 12 deaths having occurred from it against 46 in the preceding year. Fevers of malarious kind prevailed in the latter part of the year after the heavy rains in November and December, but the mortality from this cause was less than in the previous year. The price of food-grains stood moderate. The rains were in due season and sufficient in quantity being 46·51 during the year.

Year 1894-95

Annual Report

Submitting with remarks

the —— of the Negapatam

Municipality for 1894-95

unoccupied, or occupied but not taxed, and represent nearly 27 per Cent of the total.

In Note 8 to Statement No. I, it is stated that the house Tax Registers were last revised in 1892-93. A further revision after careful enquiries may possibly bring a larger number of houses to taxation.

9. Statement No. XIII Vaccination: — The Vaccinatrix has performed the largest number of operations viz, 1602 or at the rate of 134 Cases per month. This is very creditable.

Tanjore Collectrs Office
Dated 8th June 1895

Desp-g to

Lauchlan
For Acting Collector

VC/ dR.

recommendations demand Consider viz. (1) the revision of the Hospital Establishment according to present require - ments and (2) the improvements and repairs to the Hospital and outhouses.

7. Para 58 of the report :- The Entry of Rs 1912 - 11 - 6 as the net income of Slaughter houses is apparently an error for Rs 1922-11-6 this being the actual difference between the Gross income as per Statement I - item 4 - and the Gross charges as per Statement № II - item 2(ii)

8. Statement № IX :- Deducting the number of houses taxed from the total number of houses as per Census (occupied and unoccupied together) as many as 3316 houses are either unoccupied

Column 2.	12,234
Column 16.	8 918
	3,316

the Council's failure to expend the provision made for the opening of a Sessional School is to be regretted.

5. Para 41 and Statement № V B :- The total amount of Grant passed was Rs 2667 - 14 - 0 and the balance of Grant of 1893-94 paid in 1894-95 was Rs 216-10-0. Thus the Grants for the 2 years payable amounted to Rs 2884 - 8 - 0. There was a provision of Rs 2,100 in the Budget; but the amount actually paid was only Rs 2,258 - 15 - 0. The reason why Rs 625-9-0 or 23.45 per Cent of the total grant earned was withheld is not clear from the report or Statements.

6. Para 47 and medical officer's report:- In two respects, the medical officer's

recommendations

Endt No 422/2nd of 1895

Submitted to Government in the Local and Municipal Department.

2. It is worthy of note that, out of the 29 meetings held during the year, none were dissolved for want of a quorum.

3. On the whole, the Collections under Current taxes are fair. under arrears, the existence of a balance of Rs 53.12.- against Tax on Animals and of Rs 48 against Tax on Vehicles with Springs from 1893-94, and of Rs 70 against Tax on Carts without springs from 1892-93, is unsatisfactory. This should receive the Chairman's attention.

dated 25th Dec 95

And hence these patients are put to great disadvantage.

Scale of Establishment.

The present Establishment.	The proposed Establishment.
1 Hospital Assistant 3rd Grade.	(2 medical Subordinates of whom one if possible to be of the grade of Apothecary
1 Native midwife	1 Eurasian nurse & midwife in place of the native midwife who may be posted to (Nazira
1 Male bhy	2 male bhies
1 Male ward cooly } For male ward.	1 for night, 1 for day duty
1 Female bhy	2 male w. coolies
1 Female ward cooly } For female ward	—— do ——
1 Gardener	2 Female bhies
1 Cook	2 Female w. coolies
1 Cholera bhy	—— do ——
1 Peon } For Civil Surgeon's office	1 Cook for European & Eurasian patients
1 Clerk }	
2 Compounders	The rest as they are now.

(k) Midwifery. A native midwife is attached to the Hospital, her pay is Rs 12 a month. She conducted 124 cases during the year against 117 in the previous year and 108 in the year before. Of 124 cases, 31 cases were confined in the hospital and 93 in private houses.

(l) Dispensary for Caste & Gosha women. There is no special dispensary in the town for treating Caste & Gosha women separately. The attention of the Municipality was drawn to this subject as there is a large no. of Caste & Gosha women in the town who will not attend the ordinary dispensaries.

(5) General Remarks :- The table below compares the number of patients treated and the operations performed during the last 10 years. It will be observed from the figures that in the last 3 years the work has considerably increased in every branch. The same establishment exists now as it did 10 years ago when there were only about 2/3 rds of the present number of out door patients, nearly half the present number in-door patients, about ¼ the present no. of major operations and less than 1/6 the present number of minor operations.

Year	Total admissions		Major Operations	Minor Operations	Average daily attendance of In-door patients	Remarks.
	In Patients	Out Patients.				
1885-86	420	13215	50	253	109·38	The daily attendance includes the no. of re-admissions & also cases that are continuing upon treatment. Although it shows the total no. of patients treated in a day it does not give any idea of the nature of the work. This can only be judged by the Total no. of admissions which require on their 1st appearance a deposition, examination & the no. of operations which require considerable amount of Labour & care for their successful issue.
1886-87	317	14201	30	629	162·48	
1887-88	356	12940	10	536	156·73	
1888-89	436	12830	12	328	105·72	
1889-90	416	11722	9	618	107·47	
1890-91	583	15378	110	672	131·02	
1891-92	561	12788	81	622	108·47	
1892-93	462	16961	128	803	138·08	
1893-94	772	17213	167	1678	131·35	
1894-95	761	19008	211	3006	148·32	

To meet this increase of work with efficiency and to enhance the popularity of the institution further, the establishment must be increased and the accommodation of the hospital improved.

No 8

In Nagore Branch Dispensary 6480 Out door patients were treated against 6869 in the previous year. There were 485 minor operations against 329 in the previous year. The table below compares the number of patients treated in the last five years.

Year	Total admissions Out Pat.	Minor Operations	Daily average attendance	Remarks.
1890-91	7334	144	48·21	
1891-92	6411	190	43·75	
1892-93	7318	261	47·82	
1893-94	6869	329	47·29	
1894-95	6480	485	43·78	

The dispensary is in a rented building which is in good order. It is in charge of a medical practitioner who has no qualifications.

The staff consists of :—

1 compounder
1 Lascar.
1 Nurse (Dispensary attendant)

and is sufficient for its present requirement. A native midwife should be attached to this dispensary, as her services are very much required in this place. This was pointed out in the last year's report.

Negapatam
25th May 1895

J. Hd. O'Donovan
Civil Surgeon.

JH
25.5.95

Enclosure No 2
to letter No 238
dated 25th December 1895

Suffer. They have to wait till the work with the In-
-Patients is over or go away without relief.

From the above, it is clear that the services
of two medical Subordinates are indispensable to this
Hospital, one of whom must be a man of some Standing
to render effective help.

Menial Servants. The male wards have 1 male toty,
1 male ward cooly, and the female wards, 1 female toty,
1 female ward cooly. This number is too small to pro-
-vide for constant attendance upon patients, who
are mostly bed-ridden. When the respective ward
attendants are off duty at night, the patients are
absolutely left to themselves. The nursing of serious
cases is neglected and the excreta of bed-ridden
patients remain exposed the whole night. There should
be two of each class of Servants one for night and the
other for day duty exclusively. It is only in this way
that constant attendance upon patients can be pro-
-vided for, and this is what is done in all important
large hospitals in the Presidency.

The present native midwife may be advan-
-tageously replaced by a European nurse & midwife.
The services of the latter would be of more extended
use to the hospital. She will not only have charge
of the Lying-in-Patients but also look after the
nursing, cleanliness & comfort of all the patients in
the Hospital. Bedding & clothing would be better
Supervised by her.

The European & Eurasian patients have no
separate cook. The Hindu Cook who is employed
for the general class of patients does not know to
cook to the taste of European & Eurasian patients

Among Out houses the kitchen, the Store and linen rooms and the latrines require alterations and repairs.

(c) State of repair of furniture. The furniture are in good order. 12 more iron Cots & 24 bedside tables are required.

(d) Numbers of patients treated as compared with previous years. 1908 Out door patients and 761 In-door patients were treated during the year against 17813 and 772 respectively in the previous year.

(e) Mortality & actual Causes of it. There were 31 deaths among In-door patients against 52 in the previous year. The actual Causes of deaths were the following:—

Cerebral Apoplexy—1, Uraemia—1, Septicaemia—4 Asthenia from Dysentry—6, from Starvation & diarrhoea—11, from Pernicious Anaemia—1, Phthisis Pneumonic chronic—5, Tetanus—1, Remittant fever—1.

(f) Operations & results. 211 major operations & 3068 minor operations were performed during the year against 167 & 1678 respectively in the previous year. The following were the chief among the nature of major operations performed.

Amputation of limbs.
Operations for tumours.
Do on eye.
Do on diseased bones.
Do for elephantiasis scrotum.
Do for Radical cure for Hydrocele.
Obstetric operations.

Of 211 major operations 201 were discharged cured and 10 were discharged relieved. There was no mortality among the operated patients.

(g) Establishment whether sufficient & efficient. A large & important hospital as this has only one medical Subordinate attached to it viz, a Hospital Assistant of the 3rd Grade. The town is populous, busy with commerce and has a port and a large Railway & factory. Cases of accidents and other injuries requiring prompt attention are very frequently brought to hospital. There are now about 25 In door Patients, almost all serious cases, and 140 Out door Patients (Total 165) to attend to duty. Besides, there are other departments viz, medical stores, Surgical Instruments, Bedding & clothing & diet of patients which are of no little importance. The duties in connection therewith, these & 165 patients daily, together with several other minor details incidental to a large institution like this, devolve on a single Hospital Assistant. It is open to grave question whether these several important duties could be discharged by a single man to the degree of efficiency that is desired.

Operations of serious nature have often to be undertaken for which the medical officer finds no adequate help. The Hospital Assistant being solely engaged in administering chloroform, the medical officer has to look for help from coolies & Compounders in securing blood vessels or holding important Structures.

When there are operations or important cases in the wards which are not in frequent, the Out-Patients

necessity, but many prefer to remain as Out Patients notwithstanding their serious ailments. A separate European ward is very necessary.

The dispensary which was originally the Apothecary's quarters is not adapted for its present purpose. It is not sufficiently ventilated and has no proper dressing and examination rooms. The arrangement for the separation of sexes is not satisfactory. Such alterations as are necessary for its present need should be early carried out.

The floor of the male & female wards is in bad order and on account of soakage, the wards have become unhealthy. Surgical cases do not thrive well among them. Such as Gangrene & Erysipelas have been very common in the Hospital. An impermiable cement floor should be provided with drains around to carry off the washings of the wards.

The Lying-in-ward is in a deplorable condition. The floor is much worn out and uneven, the walls are cracked & unsafe, the roof is leaky. The doors & windows are loosing their holds from decay. The ward requires thorough repair or a new one may be advantageously erected in its place.

The Hospital has no special room wherein to conduct operations. There are at present done in the open air by the side of the labour ward which is very objectionable. A proper room for this purpose should soon be provided.

danger to the town. The cases operated by the vaccinators are verified at the depôt after the operations. The cost of vaccinating each case during the year was 2 as 11 ps against 2 as 10 ps in the previous year. The slight excess was due to the hire of the calves being raised from Rs 2-8-- to Rs 3-- -- each and the cost of operation tables & lancets purchased new during the year.

Municipal Hospital, Negapatam.

(a) Nature & Sufficiency of Accommodation. The Hospital affords accommodation for the general class of people, Europeans & Eurasians and Lying-in-cases. No special accommodation is available for caste patients, which is not at all encouraging to this class. There were 86 patients who dieted themselves during the year against 69 in the previous year. More numbers would have attended, if there were special encouragement to them by way of accommodation. There is no Separate accommodation for treating females suffering from Venereal diseases.

(b) State of repair of buildings. The European ward is located in a very objectionable site. A portion of the dispensary screened from the Out Patients dressing room by a small partition is utilized for this purpose. It is a dark ill-ventilated room without a bathroom & other necessary accompaniments. The ward is very unpopular among the classes of patients for whom it is intended. Those that come to remain in it do so out of sheer

of infantile mortality to total deaths was 32·83 against 26·73 in the previous year. The exact cause of this excess is not known.

Total no. of Births during the year were 1574, i.e., 31·64 per mille of population against 31·94 in the previous year.

Sanitation. There was some improvement in the Conservancy department during the year. Three iron latrines were added to the original number and twenty five masonry dustbins were replaced by iron ones. Good pattern Rubbish & night Soil carts were provided which are a decided improvement over the old ones.

The condition of the water supply is extremely unsatisfactory. In hot weather the wells yield very scanty supply and the tanks become low and hold objectionable quality of water. The water scheme which is now under consideration should be carried out early to remedy this long standing evil.

The Sewage water of the town is removed as far as possible by the municipal agency. There is no cooperation of private individuals in this matter. A Sewage fee should be levied on those that have large cesspools attached to their houses, which should be systematically cleaned by increasing the present number of Sewage carts.

There are certain spots in the town which are particularly overcrowded and insanitary. These are fishermen's Nutting ground, Old Street, Onion

Bazaar Street and the main Bazaar Street. The houses here are huddled together and allow no perflation of air. Some of them should be erased and the streets widened up.

There are a number of private tanks in the town which are a positive nuisance. They are never properly cleaned and the offensive odour emanating from them in the hot weather is simply revolting. The owners should be forced to clean them every year before fresh water is let into them.

The rubbish depôts in the 3rd & 4th divisions are too near dwellings & drinking water Sources. They should be removed further from their present Situations.

Vaccination. Vaccination is compulsory in this town and is done by animal lymph direct from calf. 4120 cases were vaccinated in the town during the year. Of these 3991 were operated by the municipal vaccinators and 129 by Hospital Assistants. 3889 were primary operations & 231 were cases of revaccination. Of 3889 primary operations, 2146 were on children under one year of age & 1618 above 1 and under 6 years. The excess of infantile operations over the total birth rate of the municipality was due to a large number of children not born in the municipality being vaccinated. Negapatam being a busy port invites a large number of families from the adjoining districts & villages for labour. The attention of vaccinators is particularly directed to these families that they may not escape protection and thus prove a Source of

SUBJECT.

Submitting administration report for 94-95.

1.

Cuddapah 1895

Concise Annual Report of the Municipal Hospital, Negapatam, and its Branch Dispensary, Nagore, for the year 1894-95.

Public health. General health of the public was on the whole good. The town enjoyed perfect immunity from Cholera, although the disease prevailed in a more or less severe form in the adjoining villages and almost throughout the district. Importations of the disease into the town were strictly watched and guarded against. Small pox was less severe during the year 12 deaths having occurred from it against 46 in the preceding year. Fevers of malarious kind prevailed in the latter part of the year after the heavy rains in November & December, but the mortality from this cause was less than in the previous year. The price of food grains stood moderate. The rains were in due season and sufficient in quantity, being 46.51 during the year.

L.B. p.9

Vital Statistics - There were 1873 deaths from all causes, being 31.62 per mille of population during the year against 36.25 per mille in the previous year. The increase in the previous year was due to cholera. Largest no. of deaths were recorded against children below 1 year of age and the next highest figure was as usual against old people exceeding 60 years. The percentage

necessitie meetings were held for the no alternative but
purpose. The Council had therefore, to
purchase bullocks and work the carts
departmentally. The cost of feeding the
bullocks, payment of drivers &c is
supposed to average Rs18-8-0 per cart
per month.

V. Closing balance.

67. The year closed with a balance of
Rs 10,026-9-9 of which Rs 4000 is
invested in Government Securities. There
were liabilities to be met from it
amounting to Rs931 as per particulars
given in the note to Statement II.

I have the honor to be
Sir
Your most obedient Servant
Frank Olma
Chairman

18

Sewage farm was opened. The operations
were commenced in December 1892. About
2½ acres of land were brought under
cultivation before march 1893 and 7½
acres during the year under report. The
former was divided into 67 beds of 35×5
feet each and the latter into 118 beds of
50×6 feet each. Kurriali grass was planted.
This grass grows well and reaches a height
of from 2 to 3 feet. About 15,800 lbs of
grass was cut but as it did not meet with
a ready sale at the beginning owing to the
prejudice entertained by the public
against the usage of sewage, about 3,000 lbs
were converted into 1000 lbs of hay and
laid in stock. The sale of fresh grass and
hay has been gradually increasing.
Since april last the whole of the low lying
land in the east of the park measuring
3,644 Square yards has been reclaimed,
levered in, levelled and made fit for
cultivation. About 2500 Square yards of
land

on the South side of the garden over-
-grown with prickly-pear was cleared
of the same. Kweriali grass was planted
over an area of 8 acres divided into
plots as under.-

Thirteen beds of 50 × 100 feet
Six " of 56 × 56 "
Twenty three " of 138 × 42 "
Twenty seven " of 140 × 55 "

About 500 Casuarina plants have
been planted over an area of 1,368 Square
yards. Ragi sown over 1,632 Square yards
and cholam over 264 Square yards besides
Vegetables cultivated over 1,275 Square yards"
Since January last the prickly-pear on the
South east side extending over an area
of 2379 Square yards was removed and
the whole land levelled. The proposal of
the Council to reduce the establishment
was disallowed by Government and
the existing staff was continued through-
-out the year.

62. Printing.- The expenditure under this
head amounted to to Rs 5-22-4-0 against
Rs 600 in the revised estimate. The
proportionate cost of printing work
done in the Secretariat press was
paid within the year.

63. Other charges.- Compensation for lands.
The burning ground at Uchipalayam
was closed by the Council as it was
distasteful to an objectionable site.
A new site was acquired for opening a
burning ground about a furlong to the
west of the closed one and the amount
of Compensation paid for the same was
Rs 544-8-0. The ground has to be
reclaimed, raised and levelled which
will be carried out during this year.

64. Law charges.- The expenditure
under this head amounted to Rs 360-0-6
against Rs 350 in the revised estimate
The amount represents the cost of pleaders
fees and Court expenses in defending

two

two civil suits disputing the title of the Council to the Dikes of alodies and two suits by one of the Municipal Councillors claiming damages in re the removal of an objectionably situated latrine.

65. Grant V. office and Supervision.— The outlay under this grand was Rs 6098-14-3 against Rs 6110 in the revised estimate. The contributions for the Central office and Audit establishments and the cost of forms printed in the V. N. Publicity Press were paid within the year.

66. Advances recoverable-others.— The advance of Rs 3678-10-11 represents the cost of coals laid in stock and of the Conservancy Cart bullocks purchased during the year. As new rubbish carts were constructed by the Council no Contractor could be induced to bid for the supply of bullocks and drivers at any reasonable rate below Rs 25 per pair of bullocks per mensem although three

Successive

60. Advances.— The expenditure under this head amounted to Rs 244-4-11 against Rs 260 in the revised estimate. The existing plants were carefully looked after and are thriving

61. Public parks.— Rs 972-1-5 was spent under this head against Rs 1140 in the revised estimate. The income under this head was Rs 599. 12. 5 of which a greater portion viz Rs 313-2-0 was received from the Sewage farm in Ashtaroy park. The following extract from the budget report of this Municipality for 1895: 96 will give an idea of the progress made in Sewage farming up to January 1895.— "The garden has since been extended towards the east and west and the area under cultivation has very much increased. What progress has been made in Sewage farming will be evident from para 70 of the administration report for 1893-94 which runs as follows:—

"..... In 1892-93 an experimental

Sewage

realized as interest on late payment of kists. Deducting the establishment and other charges Rs 406-9-0 the net receipts from the market were Rs 3138-7-0. Nine stalls were added so as to face the Courtyard of the building at a cost of Rs 203.-

58. Slaughter-houses.- The slaughter houses of which there are three viz the sheep and Bull slaughter houses Negapatam and the sheep slaughter house at Nagore were managed departmentally. The amount realized was Rs 2027-6-0 against Rs 1530 in the previous year. Deducting the cost of establishment Rs 104-10-6 the net income was Rs 1912-11-6. The increase under this head is due to the raising of fees for slaughtering sheep from 6 pice to one anna per head and to the departmental collection of fees.

59. Travellers Bungalow.- The Council have no travellers Bungalow of their own.

kind notwithstanding the large influx of people from different parts of the country.

56. Grand IV. Lighting.- The expenditure under this head amounted to Rs 5186-2-7 against Rs 5640 in the revised estimate. The lighting was managed departmentally. The supply of oil was received from Madras. The lights were burnt throughout the dark hours of nights. The cost of oil wicks and sundry repairs to lanterns amounted to Rs 3199-7-6 and the establishment charges to 1542-4-1. The number of lights was 392. The average cost of burning each lamp was Rs 1-0-1½. 25 new lamps with old iron rail posts were provided at a cost of Rs 444-7-0.

57 Markets.- There is one market with accommodations for the sale of fish, meat vegetable and other articles which was let out for Rs 3545. Rs 11-12-5 was realized

salary of Rs 5 is shewn under "5. a. i Private scavenging establishment" and the pay of 9 male & 10 female scavengers posted to public latrines are shewn under "5.a. ii Public latrine establishment." The general health of the town was good. The year under report was singularly free from cholera. The small sum of Rs 97.1.9 shewn under cholera charge was the cost of preventive measures adopted on information that it was prevailed in some of the neighbouring villages.

5'4. Conservancy Contingencies.- The expenditure under this head amounted to Rs 645-15-0 against Rs 600 in the revised estimate and consists chiefly of the cost of Sanitary powder.

5'5. Arrangements during feasts.- Rs 292-4-9 was spent under this head against Rs 300. in the revised estimate. The arrangements during the Kundry feast at Dagoro were satisfactory and there was no hitch of any kind

prosecutions were filed for failure to register births and deaths in 28 of which conviction was secured.

5'3. Conservancy:- The outlay under this head amounted to Rs 22,007-9-4 against 22,010 in the revised estimate. There was no change in the staff except the addition of one female scavenger. The number of carts was the same as in the previous year. As the carts supplied by contractors were small & inefficient the Council resolved to provide their own carts for the removal of rubbish. An iron road watering cart was also provided during the year. The number of latrines was increased by 3 (2 iron and one Kathy Latrine) & one of the Kathy latrines on the Beach was removed and an iron one substituted. The cleanliness of these latrines was carefully attended to. The pay of 37 scavengers required to clean 1495 private latrines on an average monthly

Salary

with animal lymph was 3856. The cost of vaccinating each case was annas 3+ pies 2 against annas 2+ pies ten in the previous year. The proportion per mille of the total number of successful operations to the population was 65.1 against 63.6 in the previous year and that of successful operations on infants was 34.3 against 33.5 in the previous year. Deaths from small-pox were 12 against 46 in the previous year. 60 cases were referred to the Magistrate for failing to have their children vaccinated.

52. Registration of Vital Statistics.—

The registration of births & deaths was carried on under the same arrangement as in the last year. The number of births registered during the year was 1874 against 1892 in the previous year and of deaths 1873 against 2147 in the previous year. The birth rate per mille of population was 31.6 and the death rate 31.6; 32.

32 prosecutions

each and lymph was transferred from one calf to another every sixth day. There were 57 calves inoculated during the year. Vaccinators were furnished with extracts from the birth registers who served notices on parents of children to get them vaccinated. Vaccination was conducted with animal lymph direct from the calf. The Compulsory System of Vaccination was in force having been introduced in 1886. The number of cases operated by the Vaccinators including revaccination was 3991 and by the hospital assistants 129 thus aggregating to 4120 against 3940 in the previous year. Statement xiii gives particulars of cases vaccinated by the General Vaccinators and the hospital assistants and the results of vaccination. The outlay under this head including establishment charges aggregated to Rs 761-11-10. and the number of successful cases operated

with

49. Contributions to Government. The usual Contribution for the Sanitary inspection was paid within the year

50. Contributions to Local Boards. The usual Contribution of £300 due to the District Board for the Medical School Service and the Contribution for reserve Staff £41-9-6 were paid within the year.

51. Vaccination. The Vaccine Staff consists of one 1st class Vaccinator, a Second class Vaccinator & a Vaccinatrix The pay of the Vaccinatrix was raised during the year from £30 to £45 per annum on condition that she should vaccinate as many cases as the 1st class Vaccinator viz 120 per mensem. The Second class Vaccinator is required to vaccinate 100 cases per mensem. The Vaccine depot was as usual held in the Municipal Hospital and was Superviced by the Civil Surgeon. Calves were hired at the rate of £3 each.

under this System at the commencement of the year of which 5 were closed and 2 were newly opened, thus leaving 23 schools at the close of the year with a strength of 1331 boys and 14 girls on 31st March 1895. 813 boys were presented for examination of whom 673 passed which gives a percentage of success of 83.8 against 81.5 in the previous year. The aggregate amount of results grants disbursed was £2258-15-0 which includes £216-10-0 over-earned results grants of the previous year.

42. Buildings and furniture grants. £234-8-0 spent under this head represents the rent Grants to St Antonys High school, Galicia Branch school, Wesleyan Mission Primary School &c.

43. Physical Education. The two gymnastic instructors worked under the same arrangements as were in force in the previous year. Boys of all the aided schools which had no Gymnastic instructors of their own were

were instructed. Drill and athletic sports were practised. The managers of the Radhanath Middle school Nagore and St Mary's school Velippalayam subscribed Rs2 per mensem towards the services of the gymnastic instructors sent to them.

44. Drawing. — During the year under report a drawing master was appointed to give instructions in drawing to boys of the Aided schools. He goes from school to school and takes the boys of each school on that subject for 3 hours a week he himself working 6 hours a day. The results of the examination were good.

45. Female Education. — There were at the beginning of the year 12 girls schools aided from Provincial funds under the results system. Of these under the management of the Nagapatam Division, one was closed. A new school was opened under the management of the Roman Catholics. The aggregate number of girls on 31st March 1879 was 765 against 637 in the previous year. The schools did well at the results grant examination.

46. Grant III - Medical Service and Sanitation. — The total expenditure under this grant was Rs 29,731-14-0 against Rs 26,250-5-8 in the previous year + Rs 29,210 in the revised estimate.

47. Municipal Hospitals Negapatam and the Branch Dispensary Nagore. — During the year under report D. Shahamed Osman Sahib Bahadur Civil Surgeon was in charge of the Negapatam hospitals. Detailed information on the working of the hospitals and the Nagore dispensary is given in the Civil Surgeons report accompanying. The average daily attendance of patients in the hospitals was 20.58 in and 108.41 out patients against 22.09 in & 109.26 out patients in the previous year. 761 in & 19008 out patients.

patients were treated against 772 in and 17,313 out patients in the previous year. Although there was a slight decrease in the number of in-patients treated the number of out patients shows an increase. 86 In-patients were self dieting. In the Nagore dispensary 6480 patients were treated against 6869 in the previous year and the average daily attendance was 43.78 against 47.29 in the previous year. The total expenditure on these institutions was Rs 5421-9-1 of which Rs 1228-15-11 was spent on medicines. Bedding and clothing was supplied at a cost of Rs 435-5-4. The amount realized by subscription for sale of medicines was Rs 269-7-9. The midwife attached to hospitals attended 124 cases against 117 in the previous year.

48. Medical Examinations from 8vo.—

During the year under report no action was taken towards this object.

the Nagore school 24 passed out of 27 presented. In Lappanachery & Kanthiar-Kuppam Schools 18 and 8 pupils passed out of 21 & 18 presented respectively. The average cost of educating each pupil was Rs 8-9-8 against Rs 7-5-11 in the previous year.

40. Schools under Salary Grant System. The Schools aided under this system were same as the last year viz the lower Secondary departments of the Wesleyan Mission College, St Antonys High School, St Marys Middle school and the National Middle school and the Upper-primary departments of St Antony's High school. The Schools appear to have done well in the examination by the Inspecting officers. The number on the rolls has increased from 349 to 385. The total outlay under this head was Rs 2112-2-0 against Rs 2054-5-2 in the previous year.

41. Schools under the results System.— The Schools aided under this System were all primary Schools. There were 26 schools

under

against Rs 7910 in the revised estimate Rs 7667-8-0 actuals of the previous year. No provision had been made in the budget for opening a Sessional School but one was opened during the year by the educational authorities.

39. Schools on the Salary results System. - There were four Schools working under this System. The Velippalayam S. R. School was converted into a purely results school and a new one opened during the year in Ramaliarkuppam. The number on the rolls in all the four Schools was the same as in the previous year viz 263. The Strength of the Negapatam School declined from 128 on 31st March 1894 to 112 on the same day of 1895. In the Nagore School the fourth Standard was opened and the Strength of the School rose from 72 in the previous year to 91 in the year under report. Out of 56 boys presented for Examination in all the four Standards of the Negapatam School 38 passed while in the

36. Repairs Buildings.—

Rs 335-12-9 was spent under this head against Rs 400 in the revised estimate. The Cholera shed was repaired at a cost of Rs 169-0-4 and the toll shed at a cost of Rs 117-2-9.

37. Repairs under Supply.- No expenditure under this head amounted to Rs 2,846-12-6 against Rs 2960 in the revised estimate. Of this sum Rs 577-15-11 was spent on pumping out the Nagore and water from Akkaraikolam and cleaning the tiled and Rs 272-4-9 on similarly cleaning Thamaraikolam. The tanks in Negapatam and Nagore were supplied with fresh water at a cost of Rs 285-5-0. The Jubilee Engine was working throughout the year, the annual working expenses being Rs 1001-8-3. The Engine stood in need of certain repairs which were executed in the South Indian Railway workshops at a cost of Rs 658-1-11.

38. Grant II. Education. - The outlay under this grant amounted to Rs 7,393-7-5

against

35. 2. a. Repairs - Communication. -

The outlayon repairs and maintenance of Roads was Rs 9,940 - 10 - 11 against Rs 11,280 in the revised estimate and Rs 8,551 - 13 - 1 actuals of the previous year. The Nagoda Road 4m & 6f Miles, the Wolfpaw Division - College road and the Kadambady road were regravelled during the year. A - tunnel on Thambaraicolam road was repaired at a cost of Rs 168 - 7 - 10. Dandukolam road leading to the new bull-slaughter house was repaired at a cost of Rs 202 - 4 - 4. The mud roads were kept in good order. The whole of the metalled roads was maintained in a fair condition. The total mileage of unmetalled roads, streets and lanes is 46m of metalled roads 14, of which about 2 miles were regravelled during the year. The total outlayon roads both new works and - maintenance was Rs 11,107 - 13 - 3 against a net revenue from tolls of Rs 10,207 - 11 - 3.

A new bull-slaughter house was constructed at a cost of Rs 630 - 9 - 7 and 9 stalls on the north row of the market were altered so as to face the court yard of the building. at a cost of Rs 203. 3 iron latrines were provided at a cost of Rs 772 - 15 - 3 and 26 iron dust bins at a cost of Rs 262 - 8 - 0.

34. 1. d. New works water supply.

The only work under this item was the sinking of a well in Sriamuman coil street Uelippalayam. There was a fresh water well in a dilapidated condition at the entrance to the street which was very useful to the residents of the street. In place of this well a new one was - Constructed at a cost of Rs 132. 4 - 6. The Government having declined to sanction the scheme to open a Separate Supply Channel the Council requested Government to expedite the preparation of the water scheme.

31. Grant I, Public works.— The total outlay on public works amounted to Rs 18,180-8-3 against Rs 19,792-4-7 actuals of the previous year and Rs 2,030 in the revised estimate.

32. 1. a. New works Communication.— The outlay under this head was Rs 1167-2-4 against Rs 1,050 in the revised estimate. Of this sum Rs 419-10-3 was spent on re-building & widening a culvert on the Kollandu Road which was too narrow to allow free traffic. The metalling of the hinder Bankshall street was completed at a cost of Rs 159-14-3. Protection walls to Akkaraicolam South road were constructed at a cost of Rs 437-3-0. The gravelling of Periacoil North street was completed and a small culvert reconstructed at the entrance to Thirunengadatha lane.

33. Under "1. b New works buildings" The expenditure was Rs 1921-6-4 against Rs 2140 in the revised estimate.

and annas 12 per house per mensem for houses occupied by Europeans.

III.— Expenditure.

30. The following statement shows the percentage of expenditure under each head as compared with the total assets including the opening balance for the years 1893-94 & 1894-95.

	1893-94.	1894-95
Grand I. Public works	24.22.	21.7.
Grant II Education	9.39	8.8.
Grant III Medical Service and Sanitation	32.13	35.6
Grant IV. Lighting & Dis purposes	9.86	10.2.
Grant V Superannuation and Management	7.56	7.3
Advances	0.42.	4.5
Refunds	0.52.	0.0
Closing balance	15.90	11.9
	100.0	100.0

temperory marriage pandals.

27. 4. h. Fines under Rl. and other acts.— Rs 1158-7-9 was realized under this head against Rs 1,300 in the revised estimate and Rs 1182-6-0 actuals of the previous year. The fines inflicted by the Bench during the last quarter were less than were anticipated at the time of the revised estimate.

28. 5. h. iii, Grants from Local Boards—Other purposes.— Rs 909-8-6 was realized under this head against Rs 1100 in the revised estimate. The decrease is due to the non-realization of the contributions due for January & February 1896.

29. 6. a. i, Private Scavenging.— The income under this head Amounted to Rs 2313-8-0 against Rs 2,200 in the revised estimate. The increase is due to the rise in the number of houses served under this system. The fees were levied at the same rate as in the previous year viz 2 annas per house per mensem for houses occupied by natives and

24. 4. h. iii Sale proceeds of old Materials.— The receipts under this head Amounted to Rs 286-4-3 against Rs 250 in the revised estimate and Rs 184-5-3 actuals of the previous years. The increase is due to the high prices at which empty Kerosine oil tins and deal wood cases were sold.

25. 4. f. ii Income from slaughter-houses.— Rs 2027-6-0 was realized under this head against Rs 2,000 in the revised estimate and Rs 1,544-12-0 actuals of the previous years. The increase is due to the fees having been Collected departmentally and increasing the fee for slaughtering sheep in the Nagore Slaughter house from half to one Anna per head.

26. 4. G. ii License fees.— Rs 2,056-3-5 was realized under this head against Rs 1,500 in the revised estimate and Rs 1,518 actuals of the previous years. The increase is due to the greater number of timber and firewood depots than in the previous years and

Temperory

carts seized during the year for failure to register.

20. Tolls.- The right of collecting tolls at the maximum rates of the schedule in all the seven gates of this Municipality was leased for Rs 15,240. The total sum realized including interest on late payment of rents Amounted to Rs 15,252-15-6. The share due to the District Board was paid before the close of the year.

21. 3.e, Fees under act II of 1888.- The sum of Rs 60 realized under this head represents the license fees for a dramatic Shed.

22. 4. a. i Rent of lands.- Rs 1255-2-6 was realized under this head against Rs 1180-12-3 in the previous year.

23. 4. b. ii- Produce of lands and gardens.- Rs 599-12-5 was realized under this head against Rs 290-6-5 actuals of the previous year and Rs 550 in the revised estimate. The increase under this head is due to the income from the sewage farm.

and Rs 10,775 in 1891-92. The balance at the close of the year was Rs 1404 of which Rs 231-0-0 has been collected up to date and Rs 395-0-0 written off. The percentage of Current Collections to the net demand was 90.0 against 92.9 in 1893-94, 91.89 in 1892-93 and 86 in 1891-92. The remission granted by the Council was 4.5 per cent of the original assessment against 6.1 per cent in the previous year.

17. Tax on arts arrears.- Of the old balance of Rs 1069 Rs 670 was collected Rs 21 remitted and Rs 363 written off leaving an uncollected balance of Rs 15.

18. Tax on Vehicles and animals.- The sum realized under this head was Rs 3679 against Rs 3815-8-0 in the previous year.

19. Tax on Carts.- A sum of Rs 1652 was realized under this head against Rs 1856 in the previous year. The rate of fees viz Rs 4 per Card per annum Continued unaltered. There were 175 Carts.

year outstandings amounting to Rs 1233-8-10 of which Rs 1093-7-6 was collected, Rs 7-1-8 remitted, Rs 77-5-6 written off, leaving a balance of Rs 55-10-2 at the close of the year. Of this balance Rs 4-8-0 has been realized up to date.

15. The coercive measures adopted for the realization of taxes are shewn in the accompanying statement (appendix A to statements II A & II B). The percentage of current collections to the net demand was 96·6 against 94·8 in the previous year. The average incidence of house tax was Rs 2-7-3 per house.

16. Tax on arts.— This tax was levied on the 1st five classes of the schedule. The demand as finally revised by me, was Rs 14,821-8-0. Rs 674-0-0 was remitted by the Council on appeals leaving a final demand of Rs 14147-8-0 against Rs 13,349 in 1893-94. The collections amounted to Rs 12,743-8-0 against Rs 12,400 in 1893-94 and Rs 11,817-8-0 in 1892-93 and

lands and gardens, income from slaughter-houses, license fees, fishery rents and private scavenging fees. The accompanying statements give details of the above figures. The reasons for the variations between the actuals and the revised estimate figures are explained below.

II.— Receipts.

13. The demand under tax on buildings and lands amounted to Rs 22,904-4-9; Rs 15-0-0 was remitted by the Council on appeal thus reducing the gross to a finally settled demand of Rs 22,889-4-9. Rs 22,112-11-10 of this demand was collected, Rs 14-0-11 remitted on account of waste and houses leaving an uncollected balance of Rs 762-8-0. Of this balance Rs 306-12-9 has been Collected up to date and Rs 41-4-0 written off as irrecoverable shewing a balance on this date of Rs 414-7-3.

14. Arrears of previous year.— There were at the beginning of the year

28

8. There were three Elections held during the year — one for the Nagore west ward, one for the Kadambady ward and one for the Negapatam west ward. In the Nagore west ward the contest was only nominal but the Kadambady ward election was keenly contested up to the last moment when one of the Candidates withdrew and the only other Candidate was declared elected. In the Negapatam west ward the contest was very keen. There were three Candidates. Out of 490 Voters on the list there in force 375 or 76.5 p.c went to the poll.

9. The registers of Voters and of eligible Candidates were as usual revised during the year and the number of registered Voters rose from 1832 to 1931. The proportion of registered Voters to the population of the Municipality was 1 to 30.6

1 to 1 received from the Assistant Inspector of Schools Nagore are submitted herewith. × will be forwarded in a separate cover.

10

4. The budget and the revised Estimates for the year under report were passed by Government in G.O. No. 214 Dn dated 23d February 1894 and No 573 Dn dated 29th March 1895.

5. The accounts of the year have not been audited yet.

11. — Constitution of the Council.

6. The sanctioned maximum strength of the Council is 24. The number on the Rolls on 31st March 1895 was 18. The Council was Composed of 12 nominated and 12 Elected members. The classification of the Council as it stood at the close of the year is shewn in Statement X.

7. Office of the chairman. — I have been in office throughout the year under report, having been Elected on the 21st November 1892. I delegated my powers as chairman to Mr. G. S. Brunt from 15th December 1894 to 28th February 1895

10. The number of meetings actually held during the year was 29. Thereunder no meetings which were adjourned for want of quorum. The average attendance of the official members was 0.83 against 0.85 in the previous year and that of the non-official members 12.1 against 13.3 in the previous year.

11. Financial Position.

A Summary of the transactions of the year excluding deposits is given below as compared with that of the previous year-

1894-95

Opening balance	12982.	charges	73,633
Receipts	70,678	closing balance	10,027
Totals	83,660.	Totals	83,660

1893-94.

Opening balance	11,460	charges	68,724
Receipts	70,246.	Balance.	12,982
Totals	81,706	Totals	81,706

The closing balance of 1893-94 as per annual statements submitted by this officer to Government was Rs 12,992-3-9. In his report to Government on the audit of the accounts of this Municipality the Assistant Inspector of L. F. accounts has reduced this balance by Rs 10.6.7 in Consequence of his transferring from Mg. funds to deposits the unrefunded house tax remissions of 1892-93. In doing so the Assistant Inspector has made a mistake by taking the amount of such remissions as Rs 10.6.7. while the Correct amount is only Rs 10.5.11. The Correct closing balance of 1893-94 is therefore Rs 12,981-13-10 and not Rs 12987-13-2, as given in the Corrected audit Statements Submitted to Government. Similarly the Correct amount under deposits is Rs 8004.2.8 and not 8004.3.4.

12. Compared with previous year The receipts show an increase under tax on arts, Lands, tolls, rents on lands, produce of Lands.

5. Tax on carts, &c., is levied at Rs. 4 per cart per annum.
6. Tolls are levied at —— the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. 773/5-11-93, 534/25-6-88, 365/17-3-93, 747/7-6-93, and 702/29-5-93.
8. The house-tax registers were last revised in the official year 92-93 and the land tax registers in the official year. 93-94
9. Total extent of land assessed is 987 acres.
10. The mode of estimating the annual rental of houses and lands is as follows:—

Houses:— Determined with reference to the rentals fetched by the adjoining houses actually leased. In the case of Railway and Government buildings the rentals are calculated at 7 p.c. on the gross value of the buildings.

Lands:— Estimated with reference to the actual rental of adjoining lands actually leased.

STATEMENT I-A.—Endowments entrusted to the Municipal Council under Sections 25 and 26 of Act IV of 1884 for the official year 189 -9 .

Name of Institution: Municipal Hospital Nagapatam.
