Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at 5 per cent. and tax on lands at 5 per cent. ~~of rent value~~ gross income / annas 0-0-3 for every 80 square yards. unoccupied land
3. Water-tax on buildings and lands is levied at — per cent.
4. Tax on vehicles and animals is levied at full the maximum rates.
5. Tax on carts, &c., is levied at Rs. 3 per cart per annum.
6. Tolls are levied at half the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. No. 1165 d/22nd Nov. 1886; 403 d/10th April 1889; 151 No. d/28/11/90, 1840 No. d/5th Dec. 90; No. 261 Rev. Mis. d/27th Feb. 93 & 1093 Rev. Mis. d/21st Aug. 93
8. The house-tax registers were last revised in the official year 94-95 and the land tax registers in the official year 94-95
9. Total extent of land assessed is 276 acres partly and 33 cents
10. The mode of estimating the annual rental of houses and lands is as follows:—

The annual rental of houses is estimated on the probable amount that may be realized, if the houses are not actually let on for rent. In fixing such annual rent due consideration is given to the importance of locality of houses in which they are situated and the materials with which they are built.

In the cases of assessed lands the estimated value of the gross produce after deducting the cultivation & expenses is taken as the annual rental. In the cases of lands unoccupied by houses the tax of 3 pies on every 80 sq. yds is charged.

M. [illegible] Chetty
Chairman

Statement I-A.—Endowments entrusted to the Municipal Council under Sections 25 and 26 of Act IV of 1884 for the official year 1894-95.

Total	11+4 (a)	462+147 (a)	7	9+4 (a)	386+123 (a)	2+0	

Remarks

Taking Schools of all classes into account, the Number and Strength of Schools decreased by 2 and 105 respectively, the fall being very heavy in Aided Schools. This was owing to the Laxity of Supervision on the part of the Inspecting School Master of the Municipality.

The Municipal Lower Secondary School:—

At the Lower Secondary Examination, 5 pupils passed out of 7 sent up; at the Primary Examination 17 passed out of 20 sent up. The Head Master is uncertificated and he should qualify himself for a trained or an untrained teacher's certificate during the current year.

The Municipal Lower Primary Schools:—

These are working fairly. They need to be equipped with more furniture.

Physical Education does not receive its due attention in this Municipality.

(a) These figures relate to Inukam: schools.

Total		19 + 5 (a)	6 + 2 (a)	1	5 + 1 [x]	6 + 3 (a)

Remarks

[x] The Gymnastic Instructor holds a Lower Secondary General Education certificate.

(a) These figures relate to Muhammadan Schools.

Out of 24 teachers in the Municipality only 10 teachers hold either trained or untrained teachers' certificates. This is by no means satisfactory.

The Municipal School masters who hold General Education certificates only should be strictly warned to qualify themselves for certificates before 1895 and failing this they must be made to understand that they will be superseded by certificated men.

The teachers of aided schools should be compelled on pain of losing their grants to attend the nearest Sessional School in the District for a course of Instruction for Primary Examination for 3 months.

Thus the number of uncertificated and unpassed teachers may be minimised.

The provision made under Training Schools was not utilized. The cause for this has not been explained by the Inspecting School master.

5 8 0	. . .	65 8 0	. . .	65 8 0	

Remarks (17):

(a) This school was classified as unaided as it received no grants during the year.

Grants were paid at maximum rates during the year.

All the five schools registered were examined for grant and the Municipality paid up all their grants during the year. The allotment under result grants for 1894-95 is Rs 250. In the revised estimate it was reduced to Rs 150.

Results schools fell from 7 to 5 and one of these latter earned no grants; the Masters in Gudiyatam Municipality are as a class of the old school and inefficient; the educational rules and the new code excluded a few schools from the benefits of the grant-in-aid code; all these causes contributed to the low expenditure under results grants.

It is a gratifying feature however that the savings under results grants were utilized during the year towards paying the results stipends earned by the Municipal Schools.

Office of the Sub asst Inspector
Chittoor
of Schools. 12th May 95

Office of the Assistant Inspector of Schools,

FIFTH DIVISION.

No. 1535 N. Vellore, 22nd. May 1895.

From M. R. Ry

P. Venkataramayyar Avl

Assistant Inspector of Schools,
Fifth Division.

To The Chairman, Municipal Council,
Gudiyatam,
thro' the Inspector of Schools,
Southern Circle.

Sir,

I have the honor to forward herewith Educational statements I & IV and statements 5 (a) and 5 (b) of the Gudiyatam Municipality for 1894-95.

2. No advance is noticeable in the progress of primary education in the town. The fall in the aided schools is much regretted. There is no full time inspecting schoolmaster for the Municipality, the schools being under the nominal supervision of the middle school Headmaster, who gets a remuneration of Rs 5 per mensem. This system is not satisfactory and

the

the supervision has not turned out any satisfactory work.

3. Referring to statement 2, I beg to state that 44 per cent of the boys of school-going age are under instruction, the proportion being the same as for the year previous and far below the average for the Municipalities in the Presidency, viz 80.1. A reference to Appendix 8 at page VI of the Public Instruction Report of 1893-94 will show that the Gudiyatam Municipality is the worst of all the Municipalities in the Presidency in point of education.

very unsatisfactory — it will be improved.

4. All the teachers of Aided and Indigenous schools are unpassed and these should attend the nearest Sessional School and pass the Primary Examination. The Head master does not hold any Teacher's certificate and is not qualified for the place under the Madras Educational Rules.

all these teachers at once attend the nearest Sessional School & pass the Primary examinations.

It is desirable to secure the services of a competent & qualified Teacher at once.

5. The Municipal Primary schools have done fairly at the examination seven of the pupils belonging to the Lower Secondary School were sent up for the Lower Secondary Examination and 5 passed for complete certificates though only two passed for grant under the 7th Standard. The Result schools passed fairly in the Compulsory subjects and a few optional subjects should be brought up by these schools.

6. Statement V. regarding the work of the Inspecting School master has not yet been submitted by the Sub. Assistant Inspector and I shall forward the same as soon as received.

I have the honor to be,
Sir,
Your most obedient servant,

Assistant Inspector of Schools,
Fifth Division.

3. *Receipts.*—(1) Owing, apparently, to the partial revision of the registers, the net current demand of the taxes on arts and buildings rose from Rs. 3,116 and Rs. 3,433 to Rs. 3,775 and Rs. 3,795, respectively. There was, however, an unexplained fall of Rs. 40 in the demand under the tax on lands.

(2) In spite of the warning in paragraph 3 (2) of G.O., dated 11th July 1894, No. 855 M., the current collections under the principal taxes declined, and in the case of the tax on lands, under which head only about a fourth of the current demand was realized, were extremely bad. The explanation offered for this in paragraph 6 of the Chairman's report is inadequate. There was an improvement on the very poor results of 1893–94 in the collection of arrears, but only 57·2 per cent. of the demand under the tax on arts was realized. From Statement IV-B it appears that some of the outstandings still date back to as far as 1886–87. The intervention of Government appears to be again necessary to render the realizations of the taxes satisfactory. Under section 37 (1) of the Act the 30th November will be fixed as the date before which the council must clear off the whole of the recoverable existing arrears under the taxes on arts, buildings and lands. The Collector will be requested to report the progress that has been made up to that date and should this not be satisfactory it will be necessary for the Government to take action at once under section 37 (2).

(3) Notwithstanding the remarks in paragraph 3 (3) of the review of the previous year's administration, the number of coercive processes remaining unexecuted at the close of the year continued to be very large. This is especially discreditable to the council, as additional collecting establishment was employed during the year. The Chairman should personally scrutinize the process registers and see that coercive measures are enforced with promptitude. The issue of warrants appears at present to be in many cases a mere farce.

(4) There was an increase in the receipts from the tax on animals and slaughter-house fees, but the income from tolls exhibited a further decline, which has again been left unexplained. The Chairman will now state the reasons of the fall. The revenue from the sale of sweepings and from license fees advanced, but it is evidently capable of further development. Although the point was particularly noticed in the last annual review, a considerable percentage of the current demand under license fees remained uncollected. The Chairman will be requested to explain.

(5) The number of houses served by the private scavenging agency fell from 112 to 62 and the service was worked at a loss of Rs. 56 to the municipal council. The explanation of this condition of things offered in paragraph 16 of the Chairman's report is unintelligible. If the council does its duty by prosecuting under sections 221 and 222 of the Act householders whose premises are in an insanitary condition they will very soon see the advantage of joining the system. It can no longer be pleaded that the service is new and not understood by the people. The next administration report should state in detail what action has been taken upon these instructions. The Government observes with displeasure that, in spite of repeated instructions on the subject, the municipal council made no endeavours to collect the fees for this service in advance. Comments of this nature should not again be necessary. The municipal scavengers should be withdrawn from the houses of those who decline to pay in advance and the owners should then be proceeded against under the Act if their premises are not kept clean.

4. *Expenditure*—(1) *Public Works.*—The hospital building, which was commenced in 1893–94, was the only new work of any importance under execution during the year, and on it a sum of Rs. 2,080 was spent up to 31st March 1895, against an estimate of Rs. 4,290. In this connection the attention of the municipal council is drawn to the remarks of the Sub-Collector in paragraph 2 of his endorsement. The total outlay on communications amounted to Rs. 1,589, or 85·5 per cent. of the net municipal income from tolls. The Revenue Divisional officer has failed to report on the condition of the town roads—an omission which should not be allowed to recur—but the recent inspection notes of the Sanitary Commissioner show them to have been in very bad order. Immediate steps should be taken to improve them.

(2) *Education.*—The net expenditure on education was Rs. 1,899, or 17·4 per cent. of the income from taxation. Of this sum, all but Rs. 252 was spent on primary education. As in the previous year, the municipal council maintained one

secondary and three primary schools on the salary-result system, but the number of schools actually aided fell from seven to four. Taken as a whole, the attendance at the municipal schools showed an improvement, but at the aided schools it declined considerably. The results of the examination of the municipal schools were good, but in the case of the aided institutions they were poor. It is also a matter for great regret that nearly three-fourths of the allotment for grants was allowed to lapse, and that the number of boys under instruction in the municipal and aided schools fell from 445 to 353, representing only 25·5 per cent. of the male population of school-going age. It is further very unsatisfactory that both the teachers in the two existing aided schools were unpassed men. The managers of these institutions should be compelled to employ trained men on pain of having their grants from municipal funds considerably reduced or entirely withheld.

(3) *Medical Relief.*—There was a large increase in the number of patients treated at the municipal dispensary, which appears to be due to the growing popularity of the institution rather than to any exceptional sickness in the town. The midwife employed by the council attended 118 cases of labour against 103 in 1893–94.

(4) *Vaccination and Vital Statistics.*—Notwithstanding the remarks of Government in the review of the reports for the previous two years, vaccination continued to be backward, the total number of successful cases being only 37·3 per mille of the population against a general average of 53 for all municipalities in 1893–94. Unsatisfactory as these results are, not a single prosecution was instituted to compel vaccination. The Chairman will explain the reason of this. It is probably to be found in the apathy and want of energy of his council and himself.

The registration of vital statistics showed a marked retrogression, and here again not a single prosecution was instituted against those who violated the provisions of the law upon the subject.

(5) *Sanitation.*—Nearly 9 per cent. of the allotment for conservancy was allowed to lapse, and the expenditure amounted to only 19·3 per cent. of the current receipts against 23·5 per cent. in the previous year. The Chairman's report furnishes little or no information regarding the sanitary condition of the town, but from the Sanitary Commissioner's inspection notes recorded in G.O., dated 1st August 1895, No. 1237 M., it is evident that it was far from satisfactory. The municipal council should take steps to remove one by one, as funds permit, the various defects pointed out in these notes.

5. *General Remarks.*—The year closed with a deficit balance of Rs. 111, which was again due to the continued neglect of the municipal council to realize the current demand under the principal taxes and to develop the revenue. The expenditure incurred under Grant IV in excess of the sanctioned allotments for the year will be admitted in the accounts. The request contained in the concluding portion of paragraph 42 of the Chairman's report will be referred to the Director of Public Instruction for remarks. The administration of the municipality during the year under review continued to be markedly inefficient in almost every branch. The Chairman and the council appear to have made no efforts to remedy any of the shortcomings pointed out in the last annual review. Should the next report not show an improvement upon the existing unsatisfactory condition of things, it will be incumbent upon the Government to replace some of the present council by more earnest and energetic members.

2. The municipal council held twenty-six meetings against twenty-five in 1893–94, and six others were adjourned for want of a quorum against seven in that year. The average attendance of the official members improved and was satisfactory, and that of the non-officials continued to be fair. The details given in paragraph 2 of the Chairman's report were unnecessary.

Vital statistics can be largely improved by the immediate registration of births and deaths, which is now put off for a long time or merged into oblivion in many instances on account of ignorance or apathy on the part of parents or relatives concerned who fail to inform the registrar then and there. The condition of registration is very unsatisfactory among the Paraiyas. It has also been observed that causes of deaths have been improperly stated or concealed, which materially affect the statistics. It would be better to fall back upon the old custom of serving notices through the sanitary pygusts to the parents or relatives concerned who shall, under the fear of some penalty, inform births or deaths to the registrar within the specified time.

3. Sanitation is much *in statu quo*. The council maintained six springs all through the year. The number was reduced very recently to three in consequence of sinking four ring-wells in the bed of the river. However, the new departure did not attract the public who did not even attempt to approach the wells, and held to the acquired habit on account of the tempting neighbourhood of the springs which, only in name reserved for washing and bathing, were accessible to all purposes. The existing water-supply should be conserved at least, as the surface area surrounding the spring is highly contaminated by human ordure and excreta of other animals and the springs are used indiscriminately for washing, bathing and drinking purposes.

Conservancy.—Appointment of two additional sweepers and a toty, erection of a zinc-sheet latrine, construction of twelve more dust-bins, purchase of a night-soil cart, constitute improvements under the head of conservancy. Sanitary inspectors were sent to the Medical College to obtain sanitary training, who will prove more useful in future.

Latrines are fully resorted to and many more are required on account of the backward condition of private scavenging, which serves only 63 houses. Backyards are filthy and ill-drained and contain cesspits side by side of the wells, the water of which is used for inferior domestic purposes. Chittoor road street is partly provided with V-shaped drain which is blocked up in many places. Ninety-two streets are provided with side-cuttings which have inefficient outlets, in consequence whereof sewage and storm-water stagnate. Minor lanes are far from clean. Many vacant ruinous sites are found about the town for which nobody seems to be responsible. There are two daily markets and one weekly fair. The daily market on the southern side of the river, which is a private one, is located in the most objectionable site. The weekly fair provides insufficient and ill accommodation and has an untidy surface. Slaughter-house is a small confine wherein no provision is made for gutting. The town is fairly lighted.

4. *Vaccination*.—The total number of cases vaccinated by the municipal vaccinator was 705 against 703 during the previous year, 96·8 per cent. of the number of operations having proved successful against 96·3 in the previous year. The total number of successful operations performed during the year was only 36·4 per mille of the population against 36·1 per mille in the previous year. Four hundred and forty-one infants under one year were successfully vaccinated to 454 of that age. Re-vaccination was performed in 27 cases, out of which 23 proved successful. Hospital assistant performed 17 operations with success. Vaccination among lower classes is as backward as registration.

5. Dispensary continues to be under the same thatched roof wherein things are most niggardly packed up. It is in a very bad state of repairs. The new building for dispensary is long under construction.

Furniture is in a fair condition. An iron cot and an operation table were supplied during the year under report.

The total number of patients treated during the year was 9,803 against 8,812 in the previous year, the daily average for the year being 40·87 against 35·88 in the previous year.

The total number of major operations performed during the year was four, three being performed by the undersigned and one by Venkataratna Pillai. The total number of minor operations performed during the year was 184.

The undersigned relieved the 3rd-class hospital assistant, Venkataratna Pillai, who was in charge of the dispensary till the 1st of March 1895.

The establishment consists of a compounder on Rs. 15, a peon on Rs. 6, a water-man on Rs. 5, and a midwife on Rs. 10, and is sufficient for the present.

Midwife conducted 118 cases of labour for the year. She is not popular among the respectable classes.

6. *General Remarks*.—The condition of sanitation leaves very much to be desired.

"No accommodation has been provided for the in-patients" is the remark of every visiting officer.

In absence of a lying in hospital a labour ward may be attached with advantage to the dispensary, the want of which is badly felt in difficult cases and many a life can be saved by its supplement.

In treatment of serious wound cases brought very frequently by the police from adjoining villages, which require keeping in the dispensary at least till they are pronounced out of danger, want of bedding and clothing is badly felt.

GUDIYATTAM,
16*th May* 1895. (Signed) MUHAMMAD JAMAL-UD-DIN,
Hospital Assistant, Municipal Dispensary.

No. 1339.

Forwarded to the Chairman, Municipal Council, Gudiyáttam.

VELLORE,
20*th May* 1895. (Signed) C. ADAMS, Surgeon-Major,
Dt. Medl. and Sany. Officer, North Arcot.

Forwarded.

14*th June* 1895. (Signed) M. SUBRAYALU CHETTI,
Chairman.

Forwarded.

As only three members besides the Chairman are necessary to form a quorum, it should not have been necessary to hold three meetings to formally pass this report. Had I not happened to have been in camp at Gudiyáttam a third meeting would have had to have been adjourned for want of a quorum. The work in the new hospital building struck me as very poor.

14*th June* 1895. (Signed) E. L. VAUGHAN,
Acting Sub-Collector.

Submitted.

21*st June* 1895. (Signed) S. H. WYNNE,
Collector.

ORDER—dated 16th September 1895, No. 1499 M., Local and Municipal.

The receipts and charges of the Gudiyáttam Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94.

28. *Grant III, Hospitals.*—The report of the hospital assistant about the working of the dispensary is herewith submitted.

29. *Medicines and Supplies.*—Rs. 227–4–3 was spent against Rs. 107 of the revised estimate. The amount was under-estimated at the time of the budget on the consideration that medicines worth Rs. 605–4–0 had been supplied in 1893–94. As remarked by Government in the last report, a cot and an operation table were supplied during the year.

30. *Contribution to Provincial Funds.*—Rs. 125 was spent, against Rs. 70 of the revised estimate, under the following three items:—

	Rs.
Medical College	72
Sanitary Inspection	46
Medical Reserve Staff	7
Total ..	125

31. There is only one second-class vaccinator and he is paid Rs. 10 per month. The work of the vaccinator is supervised by the hospital assistant, who is paid an extra supervision allowance of Rs. 2 per month. The total number of cases vaccinated during the year was 705, of which 683 cases were successful, as compared with 703 and 677 respectively of the previous year. Glycerine paste was used in all these cases. The hospital assistant vaccinated 17 cases in the year against 32 of the previous year. All were successful.

32. There is one registrar of births and deaths on Rs. 10 per month. The total number of births and deaths registered during the year was 499 and 318, respectively, against 656 and 748 of the previous year. The reason for the decrease has been explained in this office letter, No. 260, dated 5th July 1894, and G.O., No. 1077 M., Mis., dated 13th August 1894, thereon. The old system will be revived.

33. *Cholera Charges.*—Rs. 50 provided in the revised estimate was not spent as there was no necessity for it.

34. The expenditure on conservancy amounted to Rs. 2,947–15–3, or 19·30 per cent. of the total receipts.

35. The outlay under Grant III was Rs. 4,643–15–3 against Rs. 4,570 of the revised estimate.

36. *Grant IV, Lighting Contingencies.*—Rs. 468–8–3 was spent, against Rs. 400 of the revised estimate and Rs. 459–6–2, the actuals of the previous year. The increase is due to the additional lights and partly to the enhanced rate of kerosine oil.

37. *Other Charges.*—Under this item Rs. 681–5–8 was spent, against Rs. 500 of the revised estimate, under the following heads:—

	Rs.	A.	P.
(1) Printing charges	578	7	4
(2) Rewards for killing dogs and pigs	34	7	0
(3) Numbering carts	26	10	1
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Other charges, such as railway fare, purchase of copy stamps, &c.	13	2	6
Total ..	681	5	8

The charges under printing, &c., works largely increased on account of numerous appeals on taxation and for the larger amount of work. This was an unforeseen expenditure.

38. The outlay under Grant IV amounted to Rs. 1,806–8–10 against Rs. 1,570 of the revised estimate and Rs. 1,641–1–4, the actuals of the previous year.

39. The excess amount over the revised estimate spent under this grant, under the circumstances stated above, will meet the sanction of the Government.

40. The outlay under Grant V amounted to Rs. 1,719–4–9 against Rs. 1,720 of the revised estimate.

41. The other items call for no special remarks.

42. The year closed with a *minus* balance of Rs. 111–1–1 against instructions contained in G.O., No. 233 M., dated 12th February 1895, the total receipts and expenditure being Rs. 14,522–7–5 and Rs. 14,633–8–6 against Rs. 15,200 and Rs. 14,960 respectively of the revised estimate. If, as promised by the Director of Public Instruction in his letter, No. 3677, dated 26th March 1895, the furniture, &c., grant should have been received within the close of the year, there would not have been a *minus* balance. Rs. 300 was spent at the close of the year for the purchase of furniture, gymnastic apparatus, &c., on the surety of the promise made by the Director of Public Instruction. Since there was disappointment, a *minus* balance of Rs. 111–1–1 accrued. The council request that the Government would be pleased to sanction the payment of Rs. 150, as a special case, under the circumstances stated above.

43. *General Remarks.*—The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–3 and As. 7–8 respectively.

44. The number of meetings convened during the year was 32, as that of the previous year, of which six meetings had to be adjourned for want of a quorum.

45. The total mileage of roads within the municipal limits is 19 $\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was 12 $\frac{7}{32}$, and the total length of roads metalled was 7.

46. One zinc-sheet latrine was newly constructed during the year. The total number of latrines in existence on the 31st March 1895 was thirteen.

47. Twelve dust-bins were purchased during the year, thus making in all 74 moveables and 100 fixtures.

48. There are now in all 212 lights in the town, which is sufficient for the present.

49. The report was placed before the council on the 1st and 6th June, but as there was no quorum on those days it was finally passed by the council in a special meeting held on 10th June 1895 (copy of resolution enclosed). Hence a delay of ten days.

—

Enclosure.

Annual Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1894–95.

1. *Public Health.*—The town somehow enjoyed immunity from the inroads of cholera. The most common diseases prevalent throughout the year were fevers, diseases of the eye, diseases of the ear, ulcers, diseases of the cutaneous system, digestive complaints and rheumatic affections. The public enjoyed fair health on the whole.

2. *Vital Statistics.*—

Population.	Years.	Ratio of births per mille of estimated population.	Ratio of deaths per mille of estimated population.	Ratio of deaths of infants under one year of age per mille to registered births in the preceding year.	Ratio of deaths of infants between one and five years of age per mille to population of that age.
18,747 ..	1893–94	34·9	39·8	224·9	51·0
	1894–95	26·6	16·9	151·7	33·4

16TH SEPTEMBER 1895, No. 1499 M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBBARAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 30th May 1895, No. 264.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1894–95 as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. On the 1st April 1894 there were te[n] councillors on the roll including the ex-officio councillor. M.R.Ry. Somasundra Mudaliyar Avargal vacated his seat on his transfer from this station and M.R.Ry. Vadivélu Mudaliyar Avargal succeeded him. M.R.Ry. Jadayappa Mudaliyar Avarg[al] was re-appointed on the 17th July 1894, M.R.Ry. Hanumantha Rao Garu was newly appointed on 17th July 1894, in place of Koti Subbayya Chettiyar, who va[cated] his seat on the expiry of his term. I have been holding the office of Chairman [t]hroughout the year. Of these twelve councillors M.R.Ry. V. Ramachandra Rao Gar[u], Tahsildar, official councillor, resigned the councillorship on 13th February 1895 a[nd] no successor has been appointed in his stead up to date, but I understand his r[esignation] has since been withdrawn. Thus there were only eleven councillors on the 31st March 1895; of these one is the European ex-officio councillor, one native official (Chairman) and the remaining nine native non-officials. All were nominated.

3. The budget for the year under rep[ort] was passed by the Government in their order, dated 19th March 1894, No. 353 M., and it was revised in their order, dated 14th February 1895, No. 235 M.

4. The usual statements of receipts and c[harges] prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contribu[tions] from other funds and deducting the *minus* balance of Rs. 744–7–6, amounted t[o] Rs. 14,522–7–5.

6. The total current receipts amounted t[o] Rs. 15,266–14–11 against Rs. 15,870 and Rs. 15,940, anticipated in the budget a[nd] the revised estimates, respectively, and Rs. 14,206–10–1, the actuals of the pr[e]vious year. The decrease under the revised estimate occurs chiefly under tax on arts, buildings and contributions from Government. In reference to paragraph 3 (2) of the last administration review, particular attention was paid during the year under report towards the clearance of the large old outstanding arrears. The bill-collectors had to surmount the various difficulties, which were represented to Govern[ment] in this office letters, Nos. 376 and 435, dated 27th September and 12th Novem[ber] 1894, respectively. Further they had to be engaged in the Magistrate's Court in conducting prosecutions sanctioned by the council for non-payment of taxes. Hence they had no sufficient time to clear off

s. 140–1–3 was remitted as irrecoverable and
d under cart animals was collected, leaving

s.—Rs. 100 was realized for license granted
dals against Rs. 40 of the revised estimate.

14. *Fees from Educational Institutions.*—Rs. 849–6–3 was collected against Rs. 900 of the revised estimate and Rs. 730–8–9, the actuals of the previous year. This is a fluctuating item.

15. *Grants and Contributions from Government.*—Rs. 11–13–0 was received as grant from Government for the girls at Thaliyattam primary school. Rupees 150 expected in the revised estimate, under furniture, &c., grant, was not received under circumstances stated in paragraph 6 *supra*, although Rs. 300 was spent for the purchase of furniture and gymnastic apparatus. Hence a fall under this head.

16. *Miscellaneous.*—(*a*) (i) *Private Scavenging.*—Rs. 79–2–0 was the original demand, of which Rs. 17–7–0 was collected. Arrears, Rs. 51–6–0, was also collected and Rs. 65–1–0 was written off by the council as irrecoverable out of the demand of Rs. 165–3–0. As explained in this office letters to Government, Nos. 376 and 435, dated 27th September 1894 and 12th November 1894, respectively, the private scavenging system is being worked afresh and hence decrease.

17. The other items of receipts are more or less equal to the figures in the revised estimate and do not call for special remarks.

III.—Expenditure.

18. The total expenditure amounted to Rs. 14,633–8–6 against Rs. 14,960 of the revised estimate.

19. *Grant I, Public Works*—(i) *New Works*—(*a*) *Communications.*—Rs. 118–15–0 was spent in gravelling Dhirnampet-Puthu street and Panjukutti street against Rs. 220 of the revised estimate, as the other two works were not completed by the contractor within the close of the official year. The contractor being new was heavily fined by the council and payment made during the current year.

20. *Buildings.*—Rs. 1,277–7–9 was spent against Rs. 1,900 of the revised estimate. As the original estimate prepared for the construction of the hospital building had to be modified occasionally and for various other inconveniences, the contractor pleaded that he was unable to submit bills for the amount provided in the revised estimate. Hence less work was done by Rs. 400 for which the contractor was fined heavily. The other new contractor to whom the construction of daily market shed for Rs. 200 was given failed to complete the work within the year. Hence payment was made in the current year.

21. *Repairs—Communications.*—Rs. 1,469–9–11 was spent in metalling twelve roads, cutting side-channels and repairing tunnels against Rs. 1,550 of the revised estimate. The difference has been paid in the current year, as the new contractor failed to complete his works within the close of the official year.

22. *Buildings.*—Rs. 85–8–9 was spent against Rs. 60 of the revised. The increase is due to having repaired the dead-house and hospital police shed which stood in want of urgent repairs.

23. The outlay under Grant I amounted to Rs. 3,573–3–0 against Rs. 4,350 of the revised estimate.

24. *Grant II, Education.*—The report and statements received from the Educational authorities are herewith submitted and they were verified and found correct.

25. *Salary-result Grants.*—Rs. 493–9–0 was spent against Rs. 250 of the revised estimate. The increase is due to fair results at examinations and to the excess grant earned over the sanctioned estimate by the several municipal schools during the year. 75 per cent. of grant was given to these schools.

26. *Result Grants.*—Rs. 65–8–0 was spent against Rs. 150 of the revised estimate. The decrease is on account of the low grants earned by aided schools under the revised Educational rules. On the 31st March 1895 there were only three pure result schools against six of the previous year. This also contributed to the decrease.

27. The outlay under Grant II amounted to Rs. 2,889–8–8 against Rs. 2,750 of the revised estimate and Rs. 2,340–15–1, the actuals of the previous year.

28. *Grant III, Hospitals.*—The report of the hospital assistant about the working of the dispensary is herewith submitted.

29. *Medicines and Supplies.*—Rs. 7–4–3 was spent against Rs. 107 of the revised estimate. The amount was under-estimated at the time of the budget on the consideration that medicines worth Rs. 5–4–0 had been supplied in 1893–94. As remarked by Government in the last report, a cot and an operation table were supplied during the year.

30. *Contribution to Provincial Fund.*—Rs. 125 was spent, against Rs. 70 of the revised estimate, under the following three items:—

	RS.
Medical College	72
Sanitary Inspection	46
Medical Reserve Staff	7
Total ..	125

31. There is only one second-class vaccinator and he is paid Rs. 10 per month. The work of the vaccinator is supervised by the hospital assistant, who is paid an extra supervision allowance of Rs. 2 per month. The total number of cases vaccinated during the year was 705, of which 683 cases were successful, as compared with 703 and 677 respectively of the previous year. Glycerine paste was used in all these cases. The hospital assistant vaccinated 17 cases in the year against 32 of the previous year. All were successful.

32. There is one registrar of births and deaths on Rs. 10 per month. The total number of births and deaths registered during the year was 499 and 318, respectively, against 656 and 748 of the previous year. The reason for the decrease has been explained in this office letter, No. 260, dated 5th July 1894, and G.O., No. 1077 M., Mis., dated 13th August 1894, thereon. The old system will be revived.

33. *Cholera Charges.*—Rs. 50 provided in the revised estimate was not spent as there was no necessity for it.

34. The expenditure on conservancy amounted to Rs. 2,947–15–3, or 19·30 per cent. of the total receipts.

35. The outlay under Grant III was Rs. 4,643–15–3 against Rs. 4,570 of the revised estimate.

36. *Grant IV, Lighting Contingencies.*—Rs. 468–8–3 was spent, against Rs. 400 of the revised estimate and Rs. 459–6–2, the actuals of the previous year. The increase is due to the additional lights and partly to the enhanced rate of kerosine oil.

37. *Other Charges.*—Under this item Rs. 681–5–8 was spent, against Rs. 500 of the revised estimate, under the following heads:—

	RS.	A.	P.
(1) Printing charges	578	7	4
(2) Rewards for killing dogs and pigs	34	7	0
(3) Numbering carts	26	10	1
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Other charges, such as railway fare, purchase of copy stamps, &c.	13	2	6
Total ..	681	5	8

The charges under printing, &c., works largely increased on account of numerous appeals on taxation and for the larger amount of work. This was an unforeseen expenditure.

38. The outlay under Grant IV amounted to Rs. 1,806–8–10 against Rs. 1,570 of the revised estimate and Rs. 1,641–1–4, the actuals of the previous year.

39. The excess amount over the revised estimate spent under this grant, under the circumstances stated above, will meet the sanction of the Government.

Give them 2 months — one month is hardly enough to turn round in — or say until the end of Novr. & immediately after which the Colr. shd. report the position

M. 29.8.95

Note.

The council is apparently absolutely apathetic. All the members are however nominated or ex-officio, & it is difficult to know what to do with them. Jaggayyapetta probably contains no better men than those already serving. A threat may however frighten them into taking some little trouble.

M. 29.8.95

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTY Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 30th May 1895, No. 264.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1894–95 as required by section 252 of Act IV of 1884.

I.—Constitution of the Municipal Council.

2. On the 1st April 1894 there were ten councillors on the roll including the ex-officio councillor. M.R.Ry. Somasundra Mudaliár Avargal vacated his seat on his transfer from this station and M.R.Ry. Vadivelu Mudaliár Avargal succeeded him. M.R.Ry. Jadayappa Mudaliár Avargal was re-appointed on the 17th July 1894, M.R.Ry. Hanumantha Rao Garu was newly appointed on 17th July 1894, in place of Koti Subbayya Settyar, who vacated his seat on the expiry of his term. I have been holding the office of Chairman throughout the year. Of these twelve councillors M.R.Ry. V. Ramachendra Row Garu, Tahsildar, official councillor, resigned the councillorship on 13th February 1895 and no successor has been appointed in his stead up to date, but I understand his resignation has since been withdrawn. Thus there were only eleven councillors on the 31st March 1895; of these one is the European ex-officio councillor, one native official (Chairman) and the remaining nine native non-officials. All were nominated.

3. The budget for the year under report was passed by the Government in their order, dated 19th March 1894, No. 353 M., and it was revised in their order, dated 14th February 1895, No. 235 M.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—Receipts.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 744–7–6, amounted to Rs. 14,522–7–5.

6. The total current receipts amounted to Rs. 15,266–14–11 against Rs. 15,870 and Rs. 15,940, anticipated in the budget and the revised estimates, respectively, and Rs. 14,206–10–1, the actuals of the previous year. The decrease against the revised occurs chiefly under tax on arts, buildings and contributions from Government. In reference to paragraph 3 (2) of the last administration report, particular attention was paid during the year under report towards the clearance of the large old outstanding arrears. The bill-collectors had to surmount the various difficulties, which were represented to Government in this office letters, Nos. 376 and 435, dated 27th September and 12th November 1894, respectively. Further they had to be engaged in the Magistrate Court in conducting prosecutions sanctioned by the council for non-payment of taxes. Hence they had no sufficient time to clear off the current

collections. Rs. 150 was provided in the revised budget for 1894–95 for furniture grants from Government. Application was made for their purchase to the Assistant Inspector of Schools on 23rd November 1894 in this office letter, No. 452, and it was long pending disposal on the objection made in his letter, No. 6427, dated 29th November 1894; consequently, a revised estimate was prepared and sent to the Assistant Inspector of Schools with my letter, No. 73, dated 25th February 1895, which was sanctioned by the Director of Public Instruction in his Proceedings, No. 3677, dated 26th March 1895, on condition that the articles should be purchased and necessary vouchers submitted for Rs. 300 before the 28th March 1895, which was accordingly sent with my letter, No. 148, dated 28th March 1895. The expected grant of Rs. 150 was not received within the close of the official year. But on the 27th April 1895, letter, No. 4944, dated 25th April 1895, was received from the Director of Public Instruction, expressing his inability to sanction the grant referred to, as there was no time to admit of payment.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts—Current.*—Rs. 4,371 was the original amount fixed by Chairman, of which Rs. 596 was remitted by the council. Hence the final settled demand was Rs. 3,775, against the revised estimate of Rs. 3,750. Rs. 3,067–8–0, or 81·25 per cent. of the net demand, was collected during the year against Rs. 2,675 of the previous year.

Arrears.—Out of Rs. 696–11–0, Rs. 398–11–4 was collected during the year and Rs. 190–7–0 was written off as irrecoverable by the council.

The number of persons taxed under each of the seven classes of the schedule excluding the 1st was 5, 29, 66, 80, 247, 3 and 799, respectively, and the amount under each class was Rs. 250, Rs. 725, Rs. 786, Rs. 477, Rs. 733–8–0, Rs. 6 and Rs. 797–8–0 respectively. Thus the incidence of taxation was Rs. 3–1–2 against Rs. 2–7–3.

9. (*b*) *Tax on Buildings—Current.*—Rs. 3,864–5–0 was the original demand. The council reduced it to Rs. 3,795–7–0. Rs. 2,691, or 70·9 per cent. of the net demand, was collected within the year, against Rs. 2,785–13–6 of the previous year.

There were in all 3,794 houses including unoccupied, of which 2,914, or 76·8 per cent. of census number, were subject to house-tax. The average incidence of taxation under this head was therefore Rs. 1–4–10.

Arrears.—Rs. 696–9–6 was collected during the year out of Rs. 728–7–3, and Rs. 24–6–6 was remitted by the council.

10. *Tax on Lands—Current.*—The demand was fixed at Rs. 458–4–5, of which Rs. 53–5–10 was remitted on appeal and Rs. 102–8–0 was collected during the year.

The total extent of lands assessed during the year was 276 acres and 33 cents at Rs. 1–7–6 per acre against Rs. 1–9–9 per acre of the previous year.

Arrears.—The arrear balance at the beginning of the year was Rs. 397–13–7, and Rs. 313–14–1 was collected and Rs. 26–4–4 was remitted as irrecoverable during the year.

11. Tax on buildings and lands was levied at 5 per cent. on the annual rental value, and the tax of 3 pies on every 80 square yards was charged as usual on unoccupied lands. The registers of tax on arts, buildings and lands were revised partly in the year.

12. *Tax on Animals—Current.*—The demand, as assessed and finally settled, was Rs. 695–12–0 and Rs. 689–12–0, respectively, of which Rs. 542–4–0 was collected and Rs. 3–8–0 was remitted by the council.

Arrears.—Out of Rs. 485–6–3, Rs. 140–1–3 was remitted as irrecoverable and Rs. 322–10–6 excluding Rs. 3 collected under cart animals was collected, leaving a small balance of Rs. 22–10–6.

13. *Realization under Special Acts.*—Rs. 100 was realized for license granted under Act II of 1888 for dramatic pandals against Rs. 40 of the revised.

14. *Fees from Educational Institutions.*—Rs. 849–6–3 was collected against Rs. 900 of the revised and Rs. 730–8–9 of the actuals of the previous year. This is a fluctuating item.

15. *Grants and Contributions from Government.*—Rs. 11–13–0 was received as grant from Government for the girls at Thaliyatam primary school. Rupees 150 expected in the revised under furniture, &c., grant, was not received under circumstances stated in paragraph 6 *supra*, although Rs. 300 was spent for the purchase of furniture and gymnastic apparatus. Hence a fall under this head.

16. *Miscellaneous*—(*a*) (i) *Private Scavenging.*—Rs. 79–2–0 was the original demand; of which Rs. 17–7–0 was collected. Arrears, Rs. 51–6–0, was also collected and Rs. 65–1–0 was remitted by the council as irrecoverable out of the demand of Rs. 165–3–0. As explained in this office letters to Government, Nos. 376 and 435, dated 27th September 1894 and 12th November 1894, respectively, private scavenging system is being worked afresh and hence decrease.

17. The other items of receipts are more or less equal to the figures in the revised estimate and do not call for special remarks.

III.—Expenditure.

18. The total expenditure amounted to Rs. 14,633–8–6 against Rs. 14,960 of the revised.

19. *Grant I, Public Works*—(i) *New Works*—(*a*) *Communications.*—Rs. 118–15–0 was spent in gravelling Dhirnampet-Puthu street and Panjukutti street against Rs. 220 of the revised, as the other two works were not completed by the contractor within the close of the official year. The contractor being new was heavily fined by the council and payment made during the current year.

20. *Buildings.*—Rs. 1,277–7–9 was spent against Rs. 1,900 of the revised. As the original estimate prepared for the construction of the hospital building had to be modified occasionally and for various other inconveniences, the contractor pleaded that he was unable to submit bills for the amount provided in the revised. Hence less work was done by Rs. 400 for which the contractor was fined heavily. The other new contractor to whom the construction of daily market shed for Rs. 200 was given failed to complete the work within the year. Hence payment was made in the current year.

21. *Repairs—Communications.*—Rs. 1,469–9–11 was spent in metalling twelve roads, cutting side-channels and repairing tunnels against Rs. 1,550 of the revised. The difference has been paid in the current year, as the new contractor failed to complete his works within the close of the official year.

22. *Buildings.*—Rs. 85–8–9 was spent against Rs. 60 of the revised. The increase is due ~~for~~ having repaired the dead-house and hospital police shed which stood in want of urgent repairs.

23. The outlay under Grant I amounted to Rs. 3,573–3–0 against Rs. 4,350 of the revised.

24. *Grant II, Education.*—The report and statements received from the Educational authorities are herewith submitted and they were verified and found correct.

25. *Salary-results Grants.*—Rs. 493–9–0 was spent against Rs. 250 of the revised. The increase is due ~~for~~ fair results at examinations and to the excess grant earned over the sanctioned estimate by the several municipal schools during the year. 75 per cent. of grant was given to these schools.

26. *Results Grants.*—Rs. 65–8–0 was spent against Rs. 150 of the revised. The decrease is on account of the low grants earned by aided schools under the revised Educational rules. On the 31st March 1895 there were only three pure results schools against six of the previous year. This also contributed to the decrease.

27. The outlay under Grant II amounted to Rs. 2,889–8–8, against Rs. 2,750 of the revised and Rs. 2,340–15–1 of the actuals of the previous year.

28. *Grant III, Hospitals.*—The report of the hospital assistant about the working of the dispensary is herewith submitted.

29. *Medicines and Supplies.*—Rs. 227-4-3 was spent against Rs. 170 of the revised. The amount was under-estimated at the time of budget on the consideration that medicines worth Rs. 605-4-0 had been supplied in 1893-94. As remarked by Government in the last report, a cot and an operation table were supplied during the year.

30. *Contribution to Provincial Funds.*—Rs. 125 was spent, against Rs. 70 of the revised, under the following three items:—

	Rs.
Medical College	72
Sanitary Inspection	46
Medical Reserve Staff	7
Total ..	125

31. There is only one second-class vaccinator and he is paid Rs. 10 per month. The work of the vaccinator is supervised by the hospital assistant, who is paid an extra supervision allowance of Rs. 2 per month. The total number of cases vaccinated during the year was 705, of which 683 cases were successful, as compared with 703 and 677 of the previous year respectively. Glycerine paste was used in all these cases. The hospital assistant vaccinated 17 cases in the year against 32 of the previous year. All were successful.

32. There is one registrar of births and deaths on Rs. 10 per month. The total number of births and deaths registered during the year was 499 and 318, respectively, against 656 and 748 of the previous year. The reason for the decrease has been explained in this office letter, No. 260, dated 5th July 1895, and G.O., No. 1077 M., Mis., dated 13th August 1894, thereon. The old system will be revived.

33. *Cholera Charges.*—Rs. 50 provided in the revised was not spent as there was no necessity for it.

34. The expenditure on conservancy amounted to Rs. 2,947-15-3, or 19·30 per cent. of the total receipts.

35. The outlay under Grant III was Rs. 4,643-15-3 against Rs. 4,570 of the revised.

36. *Grant IV, Lighting Contingencies.*—Rs. 468-8-3 was spent, against Rs. 400 of the revised and Rs. 459-6-2 of the actuals of the previous year. The increase is due to the additional lights and partly to the enhanced rate of kerosine oil.

37. *Other Charges.*—Under this item Rs. 681-5-8 was spent, against Rs. 500 of the revised, under the following heads:—

	Rs.	A.	P.
(1) Printing charges	578	7	4
(2) Rewards for killing dogs and pigs	34	7	0
(3) Numbering carts	26	10	1
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Other charges, such as railway fare, purchase of copy stamps, &c.	13	2	6
Total ..	681	5	8

The charges under printing, &c., works largely increased on account of numerous appeals on taxation and for the larger amount of work. This was an unforeseen expenditure.

38. The outlay under Grant IV amounted to Rs. 1,806-8-10, against Rs. 1,570 of the revised and Rs. 1,641-1-4 of the actuals of the previous year.

39. The excess amount over the revised spent under this grant, under the circumstances stated above, will meet the sanction of the Government.

40. The outlay under Grant V amounted to Rs. 1,719-4-9 against Rs. 1,720 of the revised.

41. The other items call for no special remarks.

42. The year closed with a *minus* balance of Rs. 111-1-1 against instructions contained in G.O., No. 233 M., dated 12th February 1895, the total receipts and expenditure being Rs. 14,522-7-5 and Rs. 14,633-8-6 against Rs. 15,200 and Rs. 14,960 of the revised respectively. If, as promised by the Director of Public Instruction in his letter, No. 3677, dated 26th March 1895, the furniture, &c., grant should have been received within the close of the year, there would not have been a *minus* balance. Rs. 300 was spent at the close of the year for the purchase of furniture, gymnastic apparatus, &c., on the surety of the promise made by the Director of Public Instruction. Since there was disappointment, a *minus* balance of Rs. 111-1-1 accrued. The council request that the Government would be pleased to sanction the payment of Rs. 150, as a special case, under the circumstances stated above.

43. *General Remarks.*—The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9-3 and As. 7-8 respectively.

44. The number of meetings convened during the year was 32, as that of the previous year, of which six meetings had to be adjourned for want of quorum.

45. The total mileage of roads within the municipal limits is 19 $\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was 12 $\frac{7}{32}$, and the total length of roads metalled was 7.

46. One zinc-sheet latrine was newly constructed during the year. The total number of latrines in existence on the 31st March 1895 was thirteen.

47. Twelve dust-bins were purchased during the year, thus making in all 74 moveables and 100 fixtures.

48. There are now in all 212 lights in the town, which is sufficient for the present.

49. The report was placed before the council on the 1st and 6th June, but as there was no quorum on those days it was finally passed by the council in a special meeting held on 10th June 1895 (copy of resolution enclosed). Hence a delay of ten days.

—

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1894-95.

1. *Public Health.*—The town somehow enjoyed immunity from the inroads of cholera. The most common diseases prevalent throughout the year were fevers, diseases of the eye, diseases of the ear, ulcers, diseases of the cutaneous system, digestive complaints and rheumatic affections. The public enjoyed a fair health on the whole.

2. *Vital Statistics.*—

Population.	Years.	Ratio of births per mille of estimated population.	Ratio of deaths per mille of estimated population.	Ratio of deaths of infants under one year of age per mille to registered births in the preceding year.	Ratio of deaths of infants between one and five years of age per mille to population of that age.
18,747 ..	1893-94	34·9	39·8	224·9	51·0
	1894-95	26·6	16·9	151·7	33·4

Vital statistics can be largely improved by the immediate registration of births and deaths, which is now put off for a long time or merged into oblivion in many instances on account of ignorance or apathy on the part of parents or relatives concerned who fail to inform the registrar then and there. The condition of registration is very unsatisfactory among the Pariahs. It has also been observed that causes of deaths have been improperly stated or concealed, which materially affect the statistics. It would be better to fall back upon the old custom of serving notices through the sanitary pygusts to the parents or relatives concerned who shall, under the fear of some penalty, inform births or deaths to the registrar within the specified time.

3. Sanitation is much *in statu quo*. The council maintained six springs all through the year. The number was reduced very recently to three in consequence of sinking four ring-wells in the bed of the river. However, the new departure did not attract the public who did not even attempt to approach the wells, and held to the acquired habit on account of the tempting neighbourhood of the springs which, only in name reserved for washing and bathing, were accessible to all purposes. The existing water-supply should be conserved at least, as the surface area surrounding the spring is highly contaminated by human ordure and excreta of other animals and the springs are used indiscriminately for washing, bathing and drinking purposes.

Conservancy.—Appointment of two additional sweepers and a toty, erection of a zinc-sheet latrine, construction of twelve more dust-bins, purchase of a night-soil cart, constitute improvements under the head of conservancy. Sanitary inspectors were sent to the Medical College to obtain sanitary training, who will prove more useful in future.

Latrines are fully resorted to and many more are required on account of the backward condition of private scavenging, which serves only 63 houses. Backyards are filthy and ill-drained and contain cesspits side by side of the wells, the water of which is used for inferior domestic purposes. Chittoor road street is partly provided with V-shaped drain which is blocked up in many places. Ninety-two streets are provided with side-cuttings which have inefficient outlets, in consequence whereof sewage and storm-water stagnate. Minor lanes are far from clean. Many vacant ruinous sites are found about the town for which nobody seems to be responsible. There are two daily markets and one weekly fair. The daily market on the southern side of the river, which is a private one, is located in the most objectionable site. The weekly fair provides insufficient and ill accommodation and has an untidy surface. Slaughter-house is a small confine wherein no provision is made for gutting. The town is fairly lighted.

4. *Vaccination.*—The total number of cases vaccinated by the municipal vaccinator was 705 against 703 during the previous year, 96·8 per cent. of the number of operations having proved successful against 96·3 in the previous year. The total number of successful operations performed during the year was only 36·4 per mille of the population against 36·1 per mille in the previous year. Four hundred and forty-one infants under one year were successfully vaccinated to 454 of that age. Re-vaccination was performed in 27 cases, out of which 23 proved successful. Hospital assistant performed 17 operations with success. Vaccination among lower classes is as backward as registration.

5. Dispensary continues to be under the same thatched roof wherein things are most niggardly packed up. It is in a very bad state of repairs. The new building for dispensary is long under construction.

Furniture is in a fair condition. An iron cot and an operation table were supplied during the year under report.

The total number of patients treated during the year was 9,803 against 8,812 in the previous year, the daily average for the year being 40·87 against 35·88 in the previous year.

The total number of major operations performed during the year was four, three being performed by the undersigned and one by Venkétaratna Pillay. The total number of minor operations performed during the year was 184.

The undersigned relieved the 3rd-class hospital assistant, Venkétaratna Pillay, who was in charge of the dispensary till the 1st of March 1895.

The establishment consists of a compounder on Rs. 15, a peon on Rs. 6, a waterman on Rs. 5, and a midwife on Rs. 10, and is sufficient for the present.

Midwife conducted 118 cases of labour for the year. She is not popular among the respectable classes.

6. *General Remarks.*—The condition of sanitation leaves very much to be desired.

"No accommodation has been provided for the in-patients" is the remark of every visiting officer.

In absence of a lying in hospital a labour ward may be attached with advantage to the dispensary, the want of which is badly felt in difficult cases and many a life can be saved by its supplement.

In treatment of serious wound cases brought very frequently by the police from adjoining villages, which require keeping in the dispensary at least till they are pronounced out of danger, want of bedding and clothing is badly felt.

GUDIYATTAM,
16*th May* 1895.

(Signed) MUHAMMAD JAMAL-UD-DIN,
Hospital Assistant, Municipal Dispensary.

No. 1339.

Forwarded to the Chairman, Municipal Council, Gudiyáttam.

VELLORE,
20*th May* 1895.

(Signed) C. ADAMS, Surgeon-Major,
Dt. Medl. and Sany. Officer, North Arcot.

Forwarded.

14*th June* 1895.

(Signed) M. SUBRAYALU CHETTY,
Chairman.

Forwarded.

As only three members besides the Chairman are necessary to form a quorum, it should not have been necessary to hold three meetings to formally pass this report. Had I not happened to have been in camp at Gudiyáttam a third meeting would have had to have been adjourned for want of a quorum. The work in the new hospital building struck me as very poor.

14*th June* 1895.
