N. 100.

Municipal Office

Cochin 7th August 1895.

Local & Municipal

CURRENT No. 10/11/12

From,

S. Locke Esquire,

Chairman, Municipal Council, Cochin

The Chief Secretary to Government.

Madras.

Sir,

With reference to G. O. N^o 960 M. dated 10th June 1895.

directing that the action which the Municipal Council proposes to take to remedy the defects noticed in paragraphs 4 (b) and the latter portion of paragraph 5 (b) of the Inspection notes of the Sanitary Commissioner should be reported, I have the honor to submit the following for the consideration of Government.

The drains as stated in paragraph 4 (b) are admittedly of defective pattern, but as already pointed out in my Administration report for 1894-95, it will require at least Rs 10,000 to reconstruct them on an approved pattern in the Fort alone. When the passing of the new Municipal Bill into law enables the Council to levy a drainage tax, I trust that funds will be available to carry out this highly desirable improvement.

As regards the suggestion in para 5 (b) for the construction of "under ground, impervious, dark and deep reservoirs" and to make the water flowing into them

vide page 6 of the
print of the report

"run the gamutlet of rain separators," the Scheme appears to be feasible. But as the Sanitary Commissioner has left us completely in the dark as to the total cost of the undertaking, I request Government will be pleased to direct the Sanitary Engineer to furnish me with plans and estimates of the work proposed, so that the Council may be in a position to consider the ways and means of carrying out the proposal. At present, I may observe, that we have absolutely no funds to devote to the purpose, and if eventually the Scheme be carried out, it will have to be done on borrowed capital, unless Government is prepared to help us with the necessary funds.

I have the honor to be,

Sir,

Your most obed^t servant.

J. Locke
Chairman.

CHIEF SECRETARY
ENCLOSURE
10 AUG 95

Reporting, with reference to G.O.
dated 10th June 1895 re 960, on
the Inspection notes of the Sanitary
Commissioner regarding drains &c.

Recorded.
2. The attention of the Sanitary Engineer will be drawn to the Council's request for the preparation of plans and estimates for the proposed scheme of water supply.

For orders.

As to the water supply scheme.
Dr. King's proposals do not seem likely to provide water in sufficient quantities or with sufficient certainty. May not the Council be asked to await San. Eng^r's investigation of the scheme referred in G.O. 93.M. 21.1.95?

MS 9/5/95
I submit that this may be done & King's scheme might though it may look on paper does not look very promising & when viewed from the practical stand point. It certainly should not be tried without due investigation.

To, The Chairman, M.C. Cochin.
Sanitary Engineer.
It seems true that for the present the San. Eng^r has quite enough to do.
