SIR,

In reference to para 3 of your Circular Memo No. $\frac{1433}{D.B.}$ dated 28.4.94 Communicating Government Order on the Budget Estimates for 1894-95, I have the honour to state that public latrines have been recently constructed at Narsapur and Palacole and it is under contemplation to construct some more at Achanta, Bhimavaram, Akividu and Ragole and provision will be made in the ensuing Budget. The Medical and Sanitary Officer has suggested to fill in a filthy tank at Narsapur. During the last official year Rs 161-12-0 was spent but owing to want of earth, the work could not be

Continued

Continued for the remaining balance available viz, Rs 138, it is said that the filling up of the tank or repairing it and conserving it costs Rs 2,000. This and one in front of a temple are the only tanks in the town; there have been accidents at the latter; it is therefore now fenced and it is a question whether the former should be reserved at all for fresh water supply during hot season, but as it has been condemned by the District Surgeon it will have to be filled up and the difficulty in so doing is not small. The subject will however be placed before the Board at the next meeting. Tahsildars have been called on to report at what places they propose the entertainment of toties. Steps have been taken to impress on the officers concerned the necessity of employing scavengers for removing the night soil and of encouraging their employment on private scavenging work.
