NOTE FOR THE UNDER SECRETARY.

(Not for Record.)

With reference to para. 1 of the order on C.N. 2755 M., it is submitted that it is not usual for Government to deal directly with District Medical & Sanitary Officers. Communications on medical matters are addressed to the Surgeon-General and those on Sanitation to the Sanitary Commissioner. Moreover, the arrangement proposed in this order would throw some additional labour on this office. May not therefore the Sanitary Commissioner's proposal at the close of para. 1 of his letter be sanctioned as it stands?

Dated 26th August 1895. N^o 1241 Mis.

Sir,
I have the honor to bring to your notice that I have not been furnished with a copy of G.O. N^o 1236, M., dated 1st August 1895, recording your inspection notes of the Cuddalore Municipality, and to request you will be good enough to send me one should the same be available in your office.

It is obvious that District Medical and Sanitary Officers should be supplied with copies of all such reports, yet my experience is that such is not the case - at least until they are published months or years afterwards in the Sanitary Commissioner's Proceedings.

As the extra cost of printing a few more copies of such orders must be trivial it seems to me that their supply can be arranged for, and their

their distribution effected, through your office.

There may also be special points in such reports regarding which the Sanitary Commission might desire information as to the subsequent action or inaction (usually the latter) of the Council thereon, and these could be drawn attention to at the time of forwarding the G.O. containing the Notes.

Enclosure.

SIR,

I have the honour to forward herewith copy of letter No. 1241 Zuis dated 26th August 1895 from the District Sanitary Officer, South Arcot, in which he points out that he has not been supplied with a copy of my last Inspection Notes upon his Head Quarters town. It has been usual for this Office to direct to Municipal Councils forwarding this to the District Sanitary Officers, but I have reason to believe that this old custom has fallen into desuetude, and it would therefore seem advisable to permit that four extra copies of the G.Os embodying these Notes be supplied to this Office for District Sanitary Officers, and the Senior Local Medical Officer or Civil Surgeons of the towns concerned.

2. Not

2. Not only would it be possible to have the benefit of the co-operation of the District Sanitary Officer if he were made acquainted with the recommendations made, but it would be possible to avoid working at cross purposes. Granting the acknowledgment of the same principles, there are often open to the sanitarian various ways of effecting them in practice, and it has to my knowledge occurred that a Council has been advised by myself to erect a certain structure only to find that it is a pet point of the Local Officer that another form should be used. Municipal Councils are thus apt to add this apparent difference of opinion to one of the already numerous reasons for doing nothing.

3. In this connection, it seems advisable that District Sanitary Officers should be impressed by Government with the desirability of their reporting to this Office when they find that delay that cannot reasonably be accounted for is occurring in the carrying out

7

of recommendations made in Inspection Notes, or otherwise, by the Sanitary Commissioner or his Deputy, which the Municipal Council may have in their replies to Government, pledged themselves to effect. In consideration of the relief afforded by the relaxation of the orders as to inspection of rural areas lately directed by Government (L.S. No. 57^{Public} dated 24th January 1895) it would seem reasonable to require more watchfulness on their part as to progress made by Municipalities.

I have the honor to be

Your most Obedt Servant.

FOR ORDERS.

As to the supply of G.O.s there can
be no objection - I should say
they should issue from this office to
the Civil Surgeons & that some copies for the men
in immediate medical charge of
the M. H. H. & Dispensaries are
hardly needed -
As to the last para of Dr.
K's letter I cannot myself
see any valid objection to
the G.O.s being sent to report
to him if Muni report to carry
out their respective business

24/9/95

Submitted that the San. Comm's
proposal in the last para of his letter
should not be approved. For one
thing it puts part of what is really
his work onto Dist. M. & S. officers,
who, if the suggested orders are issued,
may be held responsible for reporting
delays by Councils.

For another it seems that Councils
should rather be taught to look to
the San. Comm. & his Deputy
only for advice in San. matters &
not be liable to be worried also by
D.M. & S. officers.

Under the system suggested in
the D.O. to Dr. King in the file (dated
7.9.95) there will be sufficient
opportunities for Govt. to judge if
Councils are getting apathetic, &
the G.O.s on Inspection Notes in
such cases can be made more

Severe. Even at present when
there is already on record one
of Dr. King's or Surg. Major
Kannan's Inspect. Notes. The
go. on the next inspection takes
particular note of ^{unexplained} failure to
follow out reasonable suggestions
made in the former.
