13TH AUGUST 1895, No. 552, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Land Revenue), dated 29th July 1895, Mis. No. 3753:—

Read—the following endorsement of the Collector of Bellary, dated 18th July 1895, Ref. No. 2125, on the following letter from M.R.Ry. C. RAMAŠESHA IYER, Avergal, B.A., Deputy Collector of Bellary Division, to the Collector of Bellary, dated 28th December 1894, No. 1066—31st December 1894:—

In the village of Hirćhadagalli, in the Bellary taluk, there is a dasabandam kunta. It is endowed with an Inam Survey No. 326 (extent 17–6–0 assessed at Rs. 25–9–0). The kunta has been out of order for some time. The water-spread is fully silted and very little water stands in it. It was intended for the benefit of ryots and cattle in the neighbourhood. It is one mile distant from the village and is not now required for the *village*. The Hagari lies at a distance of about 3 or 4 furlongs from it and provides for all its requirements. The village is a small one consisting of 60 houses and a population of 385. The inamdars were given notice to put the kunta in order, and though they were liberally treated and extensions of time granted up to a total period of two years, no work has been executed and not even a commencement was made. The inam is therefore liable to resumption and the Tahsildar has applied for sanction to the same.

Title-deed No.	Paimaish No.	Extent.	Assessment.

2. Before recommending the measure, I consulted the Taluk Board of Bellary to know if they were willing to take over the inam on condition of sinking a well at a place where water-supply was most defective. They, in the resolution (copy enclosed), agreed to the proposal and offered to sink a well either on the Siruguppa or Kalyandrug road and to maintain it in good repair. I therefore recommend that the inam land of the dasabandam kunta in question be resumed and its assessment assigned to the Taluk Board on condition of a well being constructed and maintained in good order on either of the roads mentioned.

3. I would not advocate the repair of the kunta itself, as with all the cost it would not prove useful. The inam and the water-spread form one identical number and are in one level. If the latter is extended the area available for cultivation will be proportionately diminished. The inamdar will also be bent upon curtailing the water-spread and extending cultivable area by diminishing the supply as much as possible as this will be to his advantage. If the cultivation is prohibited, there will be no adequate revenue for the support of the dasabandam kunta. Further, in the present state of rainfall in the district, the supply of water will fail just at the time when it will be most in need, *i.e.*, in the hot season. As the Hagari is not far and will furnish permanent springs, men and cattle will not be at great disadvantage by the abandonment of the kunta. By sinking a well with stone revetment to it the original object of the endowment will still be kept up and a better use of the endowment would be made than hitherto.

4. I therefore submit the proposal for your kind consideration in view to the sanction of Government being obtained to it.

Endorsement.

Submitted to the Secretary to the Commissioners of Land Revenue, Madras, with copy of Bellary Taluk Board's resolution, with the recommendation that the inam may be resumed and its assessment transferred to the Local Board for construction of a

well between 4th and 9th mile stones on the Bellary-Kalyandrug road where want of water-supply is felt.

2. Some portions of the Divisional officer's report had to be verified and more than one reference was made to him. Hence the delay in submitting it for orders.

Resolution—dated 29th July 1895, Mis. No. 3753.

Submitted for the sanction of Government.

2. The Board supports the Collector's recommendation.
