NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on ^{the first} ~~all~~ classes. *at the Municipal Act Schedule rates.*
2. Tax on buildings is levied at $7\frac{1}{2}$ per cent. and tax on lands at $7\frac{1}{2}$ per cent. of rent value. ✓
annas $1\frac{1}{4}$ for every 80 square yards.
3. Water-tax on buildings and lands is levied at _____ per cent.
4. Tax on vehicles and animals is levied at _____ the maximum rates. ✓
5. Tax on carts, &c., is levied at Rs. 4 per cart per annum.
6. Tolls are levied at $3\frac{1}{4}$ the maximum rates. ✓
7. License-fees are levied at the rates sanctioned in G.O. *512 of 1894 dated 13th April 1894.*
8. The house-tax registers were last revised in the official year *1894-95* and the land tax registers in the official year.
9. Total extent of land assessed is *1152* acres. *612 cents.* *1894-95.*
10. The mode of estimating the annual rental of houses and lands is as follows:—

(1) In cases in which the buildings were let out on hire, the tax was assessed on the actual annual rent paid by the tenant.

(2) In cases in which the owners themselves lived in buildings, the tax was assessed on the probable amount of rent that the houses might fetch, having regard to the locality, the state of the buildings and of the adjacent buildings let out on hire.

(3) In respect to gardens and other lands leased out to tenants, the tax was levied on the rents collected from them. In respect to lands cultivated by the owners themselves, the rental value of such lands was taken to be, if it should be wet land, Rs 7-13-0 per acre, and if it should be dry Rs 3-14-6 per acre.

STATEMENT I.-A.—Endowments entrusted to the Municipal Council, under Sections 25 and 26 of Act IV. of 1884 for the official year 1894-95.

[illegible]

Kurnool

10 p. 10. 1663
TH AUGUST 1895, No. M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.
LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. T. CHIDAMBARA RAO, Chairman, Municipal Council, Kurnool, to the Chief Secretary to Government (through the Revenue Divisional Officer in charge of Ramallakot taluk), dated 29th May 1895, No. 73.

I have the honour to submit herewith the administration report of the Kurnool Municipality for 1894-95.

2. *The Chairmanship.*—The term of office as Chairman of M.R.Ry. A. Venkoba Rau Garu having expired on the 3rd August 1894, the Revenue Divisional Officer of Ramallakot remained in charge of the office until 26th October 1894, on which date I assumed charge of the office.

I.—MEETINGS AND CONSTITUTION OF THE COUNCIL.

3. There were twenty-nine meetings of the council held during the year and no meeting was adjourned for want of a quorum. The average attendance at each meeting of official councillors was 1.62 and of non-officials 7. The total average attendance at each meeting was 53.75. The total number of members on the council was 16, of whom 6 were Hindus, 6 Muhammadans, 2 Europeans, 1 American and 1 Parsi.

II.—RECEIPTS.

4. The incidence of taxation was As. 9-7 a head against As. 9-2 of 1893-94 and the incidence of the aggregate income Rs. 4-11-8 against Rs. 1-5-3 in the previous year, the increase under the latter being due to the loan and Government grant in connection with the water-works.

5. Including the opening balance the receipts amounted to Rs. 1,16,078-2-8 including a loan of Rs. 56,220 and a grant of Rs. 25,000 for the water-works, or excluding the figures for the water-works, Rs. 34,858-2-8, as against Rs. 32,373 of 1893-94. The expenditure during the period was Rs. 36,585-9-7 including the amount spent for water-works, or excluding the water-works charges Rs. 33,243-14-5, against Rs. 31,574 in the previous year. The closing balance on the 31st March was Rs. 1,614-4-3 as against Rs. 799-0-2 of the previous year.

6. The statement given below compares the receipts of the year with the figures of the revised estimate and the actuals of 1893-94 :—

	Actuals of 1893-94.	Revised estimate of 1894-95.	Actuals of 1894-95.
	RS.	RS.	RS.
Tax on arts	2,903	3,020	3,035
„ on buildings	7,627	8,150	8,095
„ on lands	508	630	612
„ on vehicles	330	330	348
„ on animals	1,342	1,300	1,248
„ on carts	1,230	1,240	1,278
Tolls (less local fund share)	5,322	5,300	5,293
Contribution from provincial funds	2,618	28,490	27,784
„ „ local funds	2,000	2,000	2,000
Fines and fees	1,328	1,590	1,668
Fees from markets, &c.	1,661	2,430	2,453
„ from municipal schools	2,561	2,580	2,776
Miscellaneous	2,248	58,470	58,689
Total	31,678	1,15,530	1,15,279
Opening balance	695	800	799
Grand total	32,373	1,16,330	1,16,078

7. Comparing the actuals for 1894-95 with the figures of the revised estimate the large increase of Rs. 196 under fees from municipal schools is due to an increase in the number of students attending the schools, and of Rs. 65 under fines and fees is due to the infliction of heavy fines by the magistrates in municipal cases. The increase of Rs. 30 under license fees is due to an increase in the number of offensive trades and of Rs. 38 under taxes on carts is due to an increase in the number of carts registered. The increase of Rs. 110 under sale-proceeds of manure was due to a brisker competition at the sales than was expected. The increases under other heads being slight, no remarks have been offered.

Under Provincial contributions the difference between the figures of the revised estimate and the actuals of the year is very great. The decrease is due to the non-recovery during the year of the amounts due on account of stipends paid to normal students, on account of the net charges of the high school department of the municipal high school and on account of the charges incurred under "Common gymnasium." About Rs. 70 and Rs. 90 have to be recovered respectively under the heads of "Stipends to normal students" and of "Common gymnasium." The actual amount to be recovered on account of the net charges of the high school is, however, only about Rs. 434, or less than that shown under the revised estimate, on account of the decrease in the net charges of the high school department of the municipal high school. The decrease of about Rs. 73 under tax on buildings and lands is due to the whole amount due under these heads not having been collected on account of the remissions granted in the case of some of the owners and on account of the absence from town of several of the defaulters. In some cases no property of the defaulters was available although coercive processes were issued. These circumstances, it is submitted, also account for the non-execution of several coercive processes issued for the recovery of the taxes. The slight differences under the other heads call for no remarks.

8. Comparing the actuals of the year with those of 1893-94, there is an increase of Rs. 133 under tax on arts due to an increase in the number of traders; of Rs. 570 under tax on lands and buildings, due to a revision of the registers during the year; of Rs. 48 under carts, due to an increase in the number of carts registered; of Rs. 216 under fees from the municipal upper primary school, due to the school working throughout the whole year whereas in 1893-94 it worked only for about three months, having been opened in January 1894; of Rs. 34 under hospital receipts, due to an increase in the number of subscribers; of Rs. 790 and 350 under slaughter-house and cart-stand fees, respectively, due to an increase in the rate of fees collected; of Rs. 166 under contributions on account of the municipal high school, due to the recovery during the year of the arrears due for 1893-94; and of Rs. 140 under private scavenging-fees, due to an increase in the number of private houses served by municipal toties. The other items of increase, being small, call for no remarks. There is a decrease of Rs. 94 under tax on animals, due to the absence from town of several of those who maintained them and to the death of the owners in some cases; of Rs. 30 under tolls, due to slack competition at the sales; and of about Rs. 54 under sale-proceeds of tools and plant, &c., due to a decrease in the number of empty tins, cans, &c., available for sale owing to the tins, &c., being returned to the shopkeepers on account of arrangements made with them at the time of the purchase of oil. The decrease of Rs. 34 under sale-proceeds of manure is due to the small number of bidders that attend the sales ever since the issue of orders prohibiting the use of night-soil manure for the growth of melons in the river-bed. It is not necessary to offer any remarks on the other items as the difference is slight.

9. A comparison of the actuals of the year with those of 1893-94 thus shows a marked increase and decrease under some of the chief items of receipts. It seems therefore necessary to deal at greater length with such items.

10. *Tax on Arts.*—The original demand was Rs. 3,288, of which Rs. 85 was remitted on revision and Rs. 151 on appeal. Thus the net demand was Rs. 3,052, of which Rs. 2,998 or 98.23 per cent. were collected during the year against 98.8 in the previous year. Of the balance of Rs. 54 only Rs. 17-8-0 have since been collected and the remaining sum of Rs. 36-8-0 could not be collected owing to the absence

of the parties concerned from the town. Of the arrears of Rs. 50 due for 1890-91, 1892-93 and 1893-94, a sum of Rs. 37-5-6 was collected and Rs. 12-10-6 were written off as irrecoverable. Two hundred and fourteen warrants were issued for the recovery of Rs. 229 and Rs. 196 were collected, being the sum of 181 warrants, against 146 warrants for the recovery of Rs. 162-8-0 in the previous year. Property was attached in seven cases and in one case under arrears was property sold.

11. *Tax on Buildings.*—The tax on buildings was levied at the rate of $7\frac{1}{2}$ per cent. as usual. The original demand was Rs. 8,269-15-4, of which Rs. 18 were remitted on revision and Rs. 39-5-3 on appeals. Thus the net demand was Rupees 8,212-10-1, of which Rs. 8,059-9-11, or 98.13 per cent., were collected within the year and Rs. 34-10-2 were remitted on vacant and ruined buildings, leaving a balance of Rs. 118-6-0. Of this sum Rs. 12-8-6 only have been collected up to date and the remaining amount could not be collected as usual owing to the absence of the defaulters from the town in some cases and to no property being available for attachment in other cases. The house-tax registers were revised at the beginning of the year and the increase in income over the previous year is due to the revision. The arrear demand of the previous year was Rs. 90-8-5, of which Rs. 35-4-3 were collected, Rs. 1-14-0 were remitted and Rs. 53-6-2 were written off as irrecoverable during the year. One thousand, two hundred and fifty-one warrants were issued for the collection of Rs. 773-14-0 against 884 for the recovery of Rs. 482-13-6 in the previous year. The amount of 992 warrants, viz., Rs. 646-9-11, was collected. Property was actually attached in 35 cases but in no case was property sold.

12. *Land Tax.*—The land-tax registers were revised at the beginning of the year and in consequence of the revision the demand rose from Rs. 513-7-0 to Rs. 645-6-8. A sum of Rs. 3-9-2 was, however, remitted on revision and there were no appeals against this tax. The net demand was therefore Rs. 641-13-6, of which Rs. 600-0-1 was collected during the year. Out of the balance of Rs. 41-13-5 a sum of Rupees 25-3-10 has been collected; the remaining sum of Rs. 16-9-7 could not be collected owing to the absence of the defaulters. One hundred warrants were issued for the collection of Rs. 146-0-3 against fifty-seven warrants for the recovery of Rs. 57-2-8 in the previous year. Rs. 104-2-10 were collected, being the amount of sixty warrants. Property was attached in only one case, but not sold. The arrear demand was Rs. 14-14-6, of which Rs. 12-3-6 were collected and the balance was written off as irrecoverable. The total extent of lands assessed during the year is 1,154 acres and 42 cents. With regard to lands leased out to tenants, the tax was levied on the rents collected. In respect of lands cultivated by the owners themselves, the rental value was taken to be, if wet land Rs. 7-13-0 per acre and if dry Rs. 3-14-6 per acre.

13. *Slaughter-house and Cart-stand Fees.*—In 1893-94, slaughter-house fees were collected at the rate of half-an-anna for each sheep and six annas for each head of cow slaughtered, and cart-stand fees were collected at the rate of half-an-anna for each cart. During the year under review, slaughter-house fees were collected at the rate of one anna for each sheep and eight annas for each cow and cart stand fees were collected at the rate of one anna for each cart. The enhanced rates were sanctioned in G.O., No. 1541 M., Local and Municipal, dated 4th November 1893. The increase in income under these heads during the year is due to the enhanced rates levied.

14. *Private Scavenging.*—A sum of Rs. 368 was this year collected under this head as against Rs. 227-0-5 during 1893-94. The increase is due to the increase in the number of private houses served by municipal scavengers. One hundred and seventy-four private houses were served as against 154 in the previous year. With the object of improving this system and making it more popular, it was proposed in the budget for 1895-96 to appoint a special inspector for the purpose, but the proposal could not, unfortunately, be sanctioned by the Government for want of funds.

	1893-94.	1894-95.
	RS.	RS.
Grant I	8,028	10,962
" II	7,505	8,035
" III	11,917	12,798
" IV	1,573	1,883
" V	2,410	2,527
Advances recoverable	189	375
Refunds of other than current collections	2	5
Balance	799	79,493
Total ..	32,373	1,16,078

(b) *Buildings*.—A sum of Rs. 50 was provided in the budget for the construction of a store-room for the hospital purveyor in the hospital compound and of Rs. 80 for the construction of a vaccine depôt. The construction of the store-room cost only Rs. 30-12-0 and of the vaccine depôt cost Rs. 76-4-2. The balance left and an additional sum of Rs. 32-0-2 had to be spent under this head, viz., Rs. 25 for payment made for the preparation of the tracings of the old jail building as sanctioned in G.O., dated 16th November 1894, Mis. No. 1743 M., and Rs. 30 on account of the pay for February of the temporary draftsman employed for three months for the preparation of estimates and plans for the improvement and repairs of the hospital building as suggested by the Assistant Sanitary Engineer to Government. It is requested that Government will be pleased to sanction the entertainment of the draftsman as an application has already been submitted for the purpose as required in G.O., dated 6th May 1895, Mis. No. 787 M.

17. (2) *Repairs—(a) Communications.*—The maintenance of the old roads cost Rs. 1,852-4-9 against a budget provision of Rs. 1,700. As the amount provided in the budget was insufficient, a sum of Rs. 152-4-9 allotted for the construction of new roads was utilized for this purpose and sanctioned in G.O., dated 6th May 1895, Mis. No. 787 M.

(b) *Buildings*—

- (i) The repairs to the hospital buildings cost Rs. 61-9-2 against Rs. 50 in the budget.
- (ii) The repairs to the high school cost Rs. 21-1-0 against Rs. 45 sanctioned in the budget.
- (iii) The travellers' bungalow repairs cost Rs. 19-4-0 against a grant of Rs. 30.
- (iv) The municipal office building repairs cost Rs. 23-13-4 against a grant of Rs. 20.
- (v) The toll gates were repaired at a cost of Rs. 21-11-9 against Rs. 15 sanctioned in the budget.
- (vi) The repairs to the latrines cost Rs. 19-5-8 against Rs. 40 in the budget.
- (vii) The slaughter-house and vaccine depôt had to be repaired at a cost of Rs. 32-1-7 out of the savings under this head. No provision had been made for the purpose in the budget. It was found necessary to make some alterations in the vaccine depôt and separate it from the main hospital building as suggested by the District Medical and Sanitary officer.

(d) The repairs to water-supply channels cost Rs. 118-4-0 against a provision of Rs. 120 in the budget.

Training Schools.—A sum of Rs. 180 was provided in the budget as stipends to normal students. The amount was reduced to Rs. 120 in the revised estimate as the students were paid only from July 1894. A sum of only Rs. 104-4-11 was actually spent for the purpose on account of a difference in the rates of stipends allowed to the several students and on account of deductions made for absence.

19. *The Municipal High School.*—The municipal high school charges amounted to Rs. 5,798, against Rs. 5,850 in the budget and Rs. 6,232 in the previous year. The decrease as against the revised estimate is due to the acting arrangements made in the school owing to the Second Assistant having gone to the Training College, Rajahmundry, for training, to fines and stoppages, and to savings under contingencies. The decrease as against the previous year is due to the abolition of the carpentry class and to the primary department having been detached from it. The charges were as under :—

					Rs.	A. P.
Upper secondary department	..	..	..	..	3,672	4 0
Lower " "	..	..	..	..	2,125	6 5
				Total	5,797	10 5

The average strength of the school during the year was 115.54 as against 154.85 during the year previous and the average attendance 99.10 as against 134.21 in 1893-94 as shown below:—

				Average number on rolls.	Average attendance.	
Upper secondary department	..	..	..	31.43	25.76	
Lower " "	..	..	..	84.11	73.34	
			Total	..	115.54	99.10

The decrease is due to the separation of the upper primary department. Considering only the high school and lower secondary departments of the school, there is an increase in the strength of the school over that of the previous year, the increase being so great as 60 per cent. in the upper secondary department.

20. The results at the public examinations were not creditable. Although six pupils were sent up for the Matriculation examination none passed. This is due to the fact that three of the pupils had to absent themselves from several subjects at the examination, two of the best boys in the class, who had generally stood first and second in all school examinations, thus failing owing to their absence. The results of the lower secondary examination were good. Twelve, out of the 24 pupils sent up, passed this examination.

21. *The Upper Primary School.*—The total expenditure during the year including the pay of the gymnastic instructor and the cost of gymnastic apparatus was Rs. 972-7-1. The average strength of the school during the year was 161 and the average attendance 95.

The subjoined table shows the number of pupils presented for examination under each standard, the number passed and the percentage of passes to the number examined:—

Name of Examination.	Name of standard.	Number presented for examination.	Number passed.	Percentage of passes to number examined.
Lower Primary examination ..	Infants ..	16	7	44
	1st Standard ..	10	7	70
	2nd do. ..	15	9	60
Upper Primary examination ..	3rd do. ..	20	8	40
	4th Standard ..	23	17	74

No separate provision of results grant having been made in the budget, a grant of Rs. 116 was paid to the teachers of this school out of the amount of Rs. 1,000 allotted for all aided schools in the town. The school was located in a rented building, which was not suitable for the purposes of a school. As no other suitable building was available in the town, application was made to the Government to hand over the old civil jail building free of cost for the purpose of locating the school. The application was sanctioned in G.O., dated 22nd December 1894, No. 3296 W., Public Works. A sum of Rs. 199-8-6 was sanctioned in G.O., dated 6th May 1895, Mis. No. 787 M., for effecting the necessary repairs and alterations to make the building suitable for the school.

22. *Other Aided Schools.*—The number of elementary schools at the beginning of the year was 31 with a strength of 1,053 boys and 391 girls and at the end of the year the number of schools was 30 with a strength of 1,101 boys and 315 girls. Including the upper primary school 20 schools were examined for results grants, and Rs. 1,000 were paid as results grants. The number of boys presented for examination was 608 against 732, and the number passed was 413 against 536 in the previous year. The Educational Statements Nos. I, II, III and IV, have not yet been received from the Assistant Inspector of Schools. They will be submitted when received and any variations in the figures will be explained.

A sum of Rs. 240 was allotted in the budget under the head of Inspection, but Rs. 253-11-11 was actually spent for the purpose. The increase is due to the payment of travelling allowance to the permanent inspecting schoolmaster now undergoing training in the Teachers' College, Saidapet. Sanction for the increased expenditure is respectfully solicited.

A sum of Rs. 20 was provided in the revised estimate for contingencies under Inspection against the budget amount of Rs. 10. The actual charges, however, amounted to Rs. 17-4-9 against Rs. 18-8-0 of the previous year.

The sum of Rs. 150 provided in the budget for building and furniture grants was not utilized as no application was made.

23. *Common Gymnasium.*—The sum of Rs. 200 provided in the budget under this head was reduced to Rs. 150 in the revised estimate as the gymnastic instructor was paid at the rate of only Rs. 8 a month instead of at Rs. 12, as no competent person was available. The services of a trained gymnastic instructor have been secured since the commencement of the current year.

24. *Grant III.*—The charges on account of the municipal dispensary amounted to Rs. 5,228-8-7, as against Rs. 5,400 of the revised estimate and Rs. 4,853 in the previous year. As compared with the revised estimate there is a decrease of Rs. 76 in the establishment charges due to fines and stoppages, to the services of a hospital assistant having been lent to the district board for a time, and to a decrease of about Rs. 108 under diets of patients due to the bills for February and March not having been sent within the year. There is a slight increase of Rs. 19 in the value of medicines and a slight decrease of Rs. 6 under sundries and contingencies. Compared with the charges of the previous year there is an increase of Rs. 359-8-7. This is due mainly to the increase in the value of medicines on account of the increase in the number of patients treated.

The hospital establishment consisted of one second-class hospital assistant paid at Rs. 45 and one third-class hospital assistant at Rs. 35, one midwife on Rs. 15, one clerk on Rs. 15, two compounders (one on Rs. 15 and the other on Rs. 9), two ward coolies at Rs. 7 each, one peon on Rs. 6, one nurse on Rs. 8, one cook on Rs. 8, three toties on Rs. 8 each, one dhoby on Rs. 3 and one barber on Rs. 2-8-0, per month. There was, however, no trained midwife attached to the hospital for ten months in the year, but the services of the female ward attendant, who has some practical experience in midwifery, were availed of to some extent. A caste midwife was entertained on the 5th of December and dismissed in the middle of January for inefficiency. The services of a trained Muhammadan midwife have since been secured. The services of the hospital clerk were dispensed with from December 1894 as suggested by the Surgeon-General with the Government of Madras.

The number of in-patients treated in the hospital was 395 against 345, and the number of out-patients was 19,829 against 15,972 in the previous year. The number of operations performed was 64 major and 385 minor against 29 major and 336 minor in 1893-94. Among major operations two died against three in the previous year. There were no deaths among minor operations. Twenty-eight cases of natural labour were conducted during the year against 29 in the previous year.

The report of the District Medical and Sanitary Officer on the working of the dispensary is submitted herewith.

25. No women were trained up as native doctors and nurses during the year for want of funds.

26. *Medical College, Sanitary Inspection and Medical Reserve Staff.*—Contributions under these heads amounting to Rs. 280 were paid during the year to Provincial funds as against Rs. 190 in the budget and revised estimate. The amount was fixed by the Accountant-General and the excess of Rs. 90 has been sanctioned in G.O., Mis. No. 787 M., dated 6th May 1895.

27. *Vaccination.*—The establishment consisted of one vaccinator on Rs. 15 a month and a peon on Rs. 6. The establishment charges amounted to Rs. 252 as in the previous year. The charges under contingencies amounted to Rs. 212-0-6, as against Rs. 190 in the revised estimate and a budget provision of Rs. 250. The decrease as compared with the budget is due to the council having in the month of October 1894 adopted the suggestions of the District Medical and Sanitary Officer and of the President, District Board, to obtain glycerine paste from the district board vaccine depôt and to contribute a sum of Rs. 100 per annum to the district board.

The total number of vaccine operations performed during the year amounted to 1,314 as against 1,040 in the previous year. Eight hundred and sixty-five of these were successful. Six hundred and forty-one operations were performed on children under one year and 497 of these proved successful. The number of births in the year was 778. The average cost of each operation was As. 5-8 against As. 7-3 and of each successful case was As. 8-7 against As. 11-1 in the previous year. Animal lymph was for the most part used. Some cases were performed with glycerine paste. Thirty-four prosecutions were instituted during the year.

28. *Births and Deaths.*—The number of births registered was 778, or 31.72 per mille, against 701 in the previous year. The number of deaths was 699, or 28.55 per mille, against 744 in 1893-94. No prosecutions were instituted in the year for failure to report births and deaths.

29. *Conservancy.*—Thirty-four sweepers (21 males and 13 females) were employed for sweeping the streets and twelve toties for cleaning public latrines. There was also one toty employed at the manure depôt to cover the night-soil and rubbish heaped there with dry-earth and sand. Four toties were employed for private scavenging. Four pukkalis and four sweepers (two males and two females) were employed to flush the drains and one pukkali for watering avenue trees. Night-soil from the 38 public latrines in the town was removed in two closed carts. Five carts and nine buffaloes were employed for the removal of street-sweepings and other rubbish which are in the first instance collected in the 255 dust-bins in the town. Two buffaloes were also employed to supply dry-earth for covering the night-soil at the depôt. Night-soil was carted outside the town to the south of the Hindri river and there mixed with the street-sweepings and other rubbish of the town and covered over with dry earth and sand. The manure thus collected during the year was sold for Rupees 1,310-8-0, besides Rs. 138, the amount of sale-proceeds of cart-stand manure. An inspector on Rs. 25, a maistry on Rs. 10 and seven peons on salaries ranging from Rs. 6 to 7 attend to the conservancy and sanitation of the town. The total expenditure on conservancy during the year amounted to Rs. 6,708-2-5 against Rs. 6,209 in the previous year. The increase in expenditure is due mainly to cholera charges, to increase of private scavenging establishment and to the purchase of two of Richardson and Cruddas' conservancy pans on wheels. The sanitation of the town was good except as regards drainage.

Muhammadan Burial-grounds.—As directed in G.O., Mis. No. 520 M., dated 23rd April 1894, the municipal council issued notices to the persons connected with the several burial-grounds in the town. Most of those to whom notices were issued put in written objections, while several others urged objections, orally, at the meetings specially held for the purpose. In some cases the parties did not either appear or file objections. The resolution of the council, that some of the burial-grounds should be closed while others should be kept open, is now before Government, pending final orders.

30. *Grant IV.*—One hundred and twenty lights were maintained at a cost of Rs. 580, against Rs. 597 of the revised estimate and Rs. 505 of the previous year.

The increase over the previous year is due to the increase in the number of lights. Three masalchies—one on Rs. 6 and two on Rs. 5 each—were employed for the purpose.

31. *Slaughter-house.*—Two peons on Rs. 6 each, one pukkali on Rs. 6 and a sweeper on Rs. 5, were employed on this account. The charges amounted to Rs. 261 as against Rs. 191 in the previous year. The increase is due to contingent charges incurred and to the appointment of an additional peon as the business of collecting fees was kept under the direct management of the council.

32. *Travellers' Bungalow.*—One maty on Rs. 5 and a toty on Rs. 3 a month were employed. The charges amounted to Rs. 109, including contingencies, as against Rs. 116 in the previous year.

33. *Queen's Park.*—One gardener on Rs. 4 was employed. The expenditure amounted to Rs. 82, including cost of watering trees as against Rs. 91 in the previous year. The decrease is due to a decrease in the watering charges in consequence of timely rains.

34. *Cart-stand.*—Two peons on Rs. 6 each were employed and the total cost amounted to Rs. 130.

35. There was a provision of Rs. 30 in the budget for the destruction of stray dogs. The amount was not utilized as there was no occasion for it. A sum of Rs. 250 was sanctioned in G.O., dated 28th May 1894, Mis. No. 660 M., for the removal of monkeys. Of this amount Rs. 238-8-0 was spent. There are still some monkeys left in the town and the necessary steps will be taken for their removal if the townspeople subscribe the necessary amount as the balance of Rs. 11-8-0 now left is insufficient for the purpose.

36. *Other Items.*—(1) *Painter's Wages.*—Rs. 60 was provided for the purpose in the budget. The actual amount spent was Rs. 69. The increase is due to the increase in the number of carts registered. The increase was sanctioned in the revised estimate.

(2) *Sign-Boards, &c.*—A sum of Rs. 2-4-10 was paid on account of assessment of land in the occupation of the municipal council and a sum of Rs. 8-8-0 was spent for providing some streets with sign-boards. There was no provision in the budget. The amounts were sanctioned in the revised estimate.

(3) *Printing Charges.*—The charges amounted to Rs. 332 against a provision of Rs. 300 in the budget. The increase was sanctioned in G.O., dated 6th May 1895, Mis. No. 787 M.

37. *Grant V, Office Establishment.*—The entertainment of an additional clerk on Rs. 15 to the office establishment was sanctioned in the budget for the year under report. The charges amounted to Rs. 1,445 as against Rs. 1,280 in the previous year. The increase is mainly due to the employment of the additional clerk.

Inspection.—The inspection charges amounted to Rs. 285 as against Rs. 300 in the budget. The decrease is due to the Chairmanship having been vacant for some time.

38. *Advances Recoverable.*—A sum of Rs. 374-8-6 was advanced as follows:—

	RS.	A.	P.
As permanent advance to the office manager for postage labels and receipt stamps, &c.	10	0	0
As a permanent advance to the hospital purveyor	100	0	0
To the municipal inspector for purchase of articles necessary for the repairs of the hospital buildings	50	0	0
To the contractor for effecting the necessary improvements and repairs to the old civil jail building for locating the municipal upper primary school	199	8	6
To the midwife who was entertained in the month of February 1895	15	0	0

Refunds of other than current Collections.—A sum of Rs. 4-15-9 was refunded to house-tax and profession tax appellants.

39. The following figures give the ratio of the expenditure under different grants to the total expenditure:—

Grant I	29-962
" II	21-962
" III	34-980
" IV	5-150
" V	6-907
Advances, &c.	1-039
Total	100-000

ENCLOSURE

ANNUAL Concise Report on the Municipal Hospital, Kurnool.

I. Public Health.—Public health was on the average good. Rainfall was satisfactory and the crops were good; prices of food-grains were moderate.

Epidemics.—Cholera broke out at Srisailum on the 3rd March 1894, when it extended rapidly into the district. The municipality, being forewarned in a letter dated 12th March, was prepared to meet the outbreak. The first case broke out within the municipal limits in Roja on the 20th May. There were 36 seizures with 24 deaths during the outbreak. One hospital assistant was deputed on special duty and all the necessary sanitary measures were adopted, and by the 3rd July the disease was completely stamped out.

The malarial exacerbation which developed itself in 1892 in this town as well as in the district generally subsided to a certain extent in 1893 and still more so in the year under report as can be judged from the hospital statistics. In the year 1893-94, 5,153 cases of malarial fevers were treated at the municipal hospital, whereas in 1894-95 only 3,164 cases were admitted.

II. Vital Statistics.—Vital statistics for 1894-95—

Total Births.			Causes of deaths.												
Male.	Female.	Total.	Cholera.		Small-pox.		Fevers.		Bowel complaints.		All other causes.		Total.		Grand Total.
			M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	
404	374	778	14	10	..	..	151	177	13	16	162	156	340	359	699

III. Sanitation—Disposal of Rubbish.

III. *Sanitation—Disposal of Rubbish.*—The sweepings and refuse of the streets and houses are first deposited in dust-bins of which there are 255 in the town. When these dust-bins are full their contents are removed and conveyed in carts or on the backs of buffaloes to the manure dépôt on the right bank of the Hindri river or to the rubbish dépôt in Kothapeta. There are 38 latrines in the town, four of which are provided with seats and partitions, the others are the ordinary "open space" ones. The night-soil is carted away in closed vehicles to the municipal manure dépôt and buried in rubbish heaps deposited there and covered over with dry-earth. I believe the same ground has been used for several years past and I think it is high time that it was closed; but there is no suitable site within a convenient distance of the town as the soil is gravelly and water is found within a foot or two of the surface. A suitable site can be found only at a distance which would necessitate an increase in the conservancy establishment. The manure collected at the dépôt is auctioned periodically. The conservancy of the town including the daily flushings of the drains is attended to by 38 sweepers (23 males and 15 females); five open carts, two closed carts and eleven buffaloes are used for the purpose. The work of conservancy is supervised by an inspector and eight peons.

IV. *Water-supply*.—The town receives its drinking-water supply from the Government irrigation canal through the masonry conduits conducted into the town. Cisterns to draw water from are provided at short distances all along the town channels. People living near the banks of the Hindri river and Tungabhadra supply their drinking-water from springs in the bed of the rivers. The cisterns are conserved for drinking purposes. It is confidently hoped that the completion of the water works now on hand will, if followed soon after by a thorough drainage system, render this town much healthier than it has been for years past.

Drainage.—The water from many houses runs into the main drains in the streets. There are masonry-built drains in twelve of the main streets which are flushed daily. There are 423 cesspools in the town. The existence of these has been pointed out to

be injurious. It is gratifying to note that a sum of Rs. 400 has been sanctioned towards the improvement of the drainage of the town in the direction pointed out by the Sanitary Commissioner.

V. Vaccination.—One thousand three hundred and fourteen cases were vaccinated with 865 successful results. A separate statement is submitted (Stat. xiii).

VI. *Hospital and Dispensary*—*Nature and sufficiency of Accommodation*.—The hospital consists of three blocks of buildings—one for the out-patient dispensary, one for male in-patients consisting of two wards to accommodate six patients each, and a third for female in-patients. The following are the out-houses in connection with the hospital—two latrines, a dead house, a purveyor's room and a store-room. In accordance with the remarks of the Surgeon-General during his last inspection on the 17th September last regarding improvements of the hospital buildings, the Sanitary Engineer was requested to prepare plans and estimates for—

- (1) providing better lighting and ventilation to the compounding room ;
- (2) providing separate waiting accommodation for men and women ;
- (3) improvement of the flooring and roof of the female ward ;
- (4) erection of a separate lying-in ward, &c ;
- (5) huts for venereal and infectious diseases.

As far as it has gone I believe the plans and estimates only are ready. The Assistant Sanitary Engineer in charge of Kurnool water-works who had undertaken to execute the work is temporarily transferred to Madras and the work has therefore to be postponed till his return. The substitution of iron cots for the wooden ones now in use in hospital will, I trust, be effected as speedily as municipal funds permit. Other equipments and furniture are adequate to the requirements of the hospital.

Number of Patients treated as compared with the previous year—

		1890-91.	1891-92.	1892-93.	1893-94.	1894-95.
Total treated	{ In .. Out ..	247 14,425	286 19,360	260 19,021	345 15,972	395 19,829
Average daily sick	{ In .. Out ..	12.71 104.32	15.23 128.52	7.26 120.28	9.80 95.25	10.77 115.97

The above is a quinquennial statement of hospital attendance. There has been an increase of 50 in-patients and 3,857 out-patients during the past year. Although there is a marked rise in the attendance of out-patients, admissions under malarial fevers show a decided fall—a fact which indicates that the period reported on was a favourable one as regards the incidence of malaria in the town.

Mortality and actual Causes of it.—Fourteen deaths occurred among in-patients against 28 in the preceding year.

The causes of death were as follows:—

Disease of the nervous system	3
" " circulatory "	1
" " lungs	1
Other diseases of the respiratory system	1
Diarrhoea	1
Disease of the generative system	2
" " organs of locomotion	1
Ulcer	3
All other general diseases	
Total	14

VII. Operations and Results.—Sixty-four major and 385 minor operations were performed against 29 and 336 in 1893-94. Among major operations two died in 1894-95 against three in the previous year. No deaths among minor operations.

Cm: 2164 m

12

Lurnool

VIII. Establishment, whether efficient and sufficient.—Both sufficient and efficient.

IX. Midwives.—There was no trained midwife attached to the hospital for ten months during the past year, but the services of the female ward attendant, who has some practical experience in midwifery, were availed of to some extent. A caste midwife was entertained on the 5th December and was dismissed for inefficiency in the middle of January. The services of a Muhammadan midwife have been obtained who bids fair to be a useful woman. Twenty-eight cases of natural labour were conducted during the past year against 29 in the year preceding.

General Remarks.—Nil.

KURNOOL,
3rd May 1895.

Fresh Receipts

2. Twenty-nine meetings were held in the previous year. The average attendance was good, but in the case of the Collector should inform the latter that regular in their attendance in future.

3. Receipts.—(1) The number of present demand under this head rose from 1893-94. The registers of the taxes the year, with the result that there were Rs. 562 and Rs. 129 respectively.

(2) Except in the case of the collections under the principal taxes more freely than in the previous year, but 3 (1) of the previous year's review, the at the close of the year was 17 per cent promptitude should be displayed by the

(3) There was a slight increase in carts and license fees and a more noteworthy cart-stands, owing in the last two years to receipts from the tax on animals, tolls and the circumstances explained in paragraph revenue from fines is to be regretted, in part of the police and the municipal execution of the law.

(4) The number of houses served 154 to 174, and the service was worked at. The proportion of the existing private number in the town was, however, still of its review of the previous year's report desirability of extending this service, and efforts to carry out these instructions, enforcement of all insanitary premises.

4. Expenditure.—(1) Public Works.— execution during the year was the water- 2,341-11-2 was spent against an estimate communications amounted to Rs. 2,688 or The Revenue Divisional officer has not reported omission which should not be allowed to Deputy Sanitary Commissioner recorded in it appears that the main roads were in good madan quarters were not well kept. It has since been improved.

(2) Education.—The net expenditure cent. of the receipts from taxation. Of primary education. The municipal council the salary system, but the primary school It also aided nineteen primary schools with seventeen primary schools in 1893-94. The increased, but the results of the matriculation not one of the six students that went up for primary and the departmental and grant examination. Nearly 12 per cent. of the allotment for total number of boys under instruction in 55.2 to 61.9 per cent. of the male population the Director of Public Instruction will be the chairman's report to the recurrence of the educational statements.

patients treated in the municipal increase has not been explained either by twenty-eight cases of labour were 1893-94. The decline is explained the services of an efficient Muhammed results will be looked for in the

(3) *Medical Relief.*—The total number of patients treated at the hospital rose from 16,317 to 20,224, but by the chairman or by the District Surgeon attended by the midwife against twenty-nine in paragraph 24 of the chairman's report. madan midwife have now been secured, but current year.

(4) *Vaccination and vital statistics.*—The number of children vaccinated rose from 1,040 to 1,314, but was decidedly poor, the percentage of success in 1893-94. Infantile vaccination did not reach children under one year of age successfully 778 births registered. The average cost of vaccination was Rs. 1.10. This branch of the administration evidently needs the attention of the municipal council.

The registration of births improved slightly in both cases, however, the returns were far from satisfactory. The special attention of the municipal council was called to the year's review, not a single prosecution was recorded for illegal occurrences. The Government trusts that the returns will be improved upon this point.

(5) *Sanitation.*—On conservancy a large allotment was spent and the expenditure amounted to Rs. 1,000. From paragraph 29 of the Surgeon's report it appears that some attention was given to the town; but the inspection notes of the Deputy Commissioner, No. 28 M., dated 10th January 1895, state that no work was done. Endeavours should be made in the current year to permit the several defects pointed out by the Deputy Commissioner. The question of closing the objectionable burial ground will be invited to G.O., dated 15th April 1895, therein.

3rd

5. *General Remarks.*—The year closed with a deficit of 10 per cent. of the ordinary receipts, but the expenditure on the water-supply scheme was within the budget grant referred to in paragraph 24 of the report, but a separate account should be submitted previously submitted.

The administration of the municipality was on the whole fair, but private scavenging statistics and sanitation demand increased at the end of the year.

the municipal council against twenty-five of the non-official members improved, but it declined and was indifferent. The Government expects them to be more active.

assessed to the tax on arts and the net amount Rs. 2,873 to Rs. 3,052, but buildings and lands were revised during the current year.

under the tax on buildings, the result was to be good. Coercion was resorted to notwithstanding the remark in paragraph 24 of the report of warrants remaining unexecuted. The total number for disposal. Greater attention should be given to the municipal executive in this respect in future.

income from the taxes on vehicles and houses in that from slaughter-houses and shops in the rate of fees collected. The result of sweepings, however, declined under the chairman's report. The fall in the rate as it indicates want of energy on the part of the municipal council in enforcing the sanitary provisions of the law.

The private scavenging agency rose from Rs. 63 against Rs. 75 in 1893-94. The total cleaned by this agency to the total of about one to ten. The Government drew the attention of the council to the fact that the council must now make more energetic use of the law with strictness against the private scavenging agency.

most important of the new works under the scheme, on which a sum of Rs. 2,39,380. The total outlay on the scheme was Rs. 2,39,380. The total outlay on the condition of the town roads—about Rs. 1,00,000. The Deputy Commissioner, No. 28 M., dated 10th January 1895, states that the condition of the lanes was not improved.

education was Rs. 2,475 or 12.4 per cent. of the net receipts from tolls. Rs. 541 was spent on the school on the salary-results system. The grants against three secondary and primary schools at both the municipal schools examination were very unsatisfactory, having passed. At the lower secondary schools the results were, however, fair. The grants were allowed to lapse. The number of municipal and aided schools rose from 10 to 12. The attention of the council should be drawn to the reference in paragraph 22 of the report of excessive delay in the submission of the report.

No. 1663 M., 18TH OCTOBER 1895.

GOVERNMENT OF MADRAS.
LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R. Ry. T. CHIDAMBARA RAO, Chairman, Municipal Council, Kurnool,
to the Chief Secretary to Government (through the Revenue Divisional
Officer in charge of Ramallakot taluk), dated 29th May 1895, No. 73.

I have the honour to submit herewith the administration report of the Kurnool
Municipality for 1894-95.

2. *The Chairmanship.*—The term of office as Chairman of M.R. Ry. A. Venkoba
Rau Garu having expired on the 3rd August 1894, the Revenue Divisional Officer
of Ramallakot remained in charge of the office until 26th October 1894, on which
date I assumed charge of the office.

I.—MEETINGS AND CONSTITUTION OF THE COUNCIL.

3. There were twenty-nine meetings of the council held during the year and no
meeting was adjourned for want of a quorum. The average attendance at each
meeting of official councillors was 1.62 and of non-officials 7. The total average
attendance at each meeting was 53.75. The total number of members on the council
was 16, of whom 6 were Hindus, 6 Muhammadans, 2 Europeans, 1 American and
1 Parsi.

II.—RECEIPTS.

4. The incidence of taxation was As. 9-7 a head against As. 9-2 of 1893-94
and the incidence of the aggregate income Rs. 4-11-8 against Rs. 1-5-3 in the pre-
vious year, the increase under the latter being due to the loan and Government grant
in connection with the water-works.

5. Including the opening balance the receipts amounted to Rs. 1,16,078-2-8
including a loan of Rs. 56,220 and a grant of Rs. 25,000 for the water-works, or
excluding the figures for the water-works, Rs. 34,858-2-8, as against Rs. 32,373 of
1893-94. The expenditure during the period was Rs. 36,585-9-7 including the
amount spent for water-works, or excluding the water-works charges Rs. 33,243-14-5,
against Rs. 31,574 in the previous year. The closing balance on the 31st March was
Rs. 1,614-4-3 as against Rs. 799-0-2 of the previous year.

6. The statement given below compares the receipts of the year with the figures
of the revised estimate and the actuals of 1893-94 :—

	Actuals of 1893-94.	Revised estimate of 1894-95.	Actuals of 1894-95.
	RS.	RS.	RS.
Tax on arts	2,903	3,020	3,035
" on buildings	7,627	8,150	8,095
" on lands	508	630	612
" on vehicles	330	330	348
" on animals	1,342	1,300	1,248
" on carts	1,230	1,240	1,278
Tolls (less local fund share)	5,322	5,300	5,293
Contribution from provincial funds	2,618	28,490	27,784
" local funds	2,000	2,000	2,000
Fines and fees	1,328	1,590	1,668
Fees from markets, &c.	1,661	2,430	2,453
" from municipal schools	2,561	2,580	2,776
Miscellaneous	2,248	58,470	58,689
Total	31,678	1,15,530	1,15,279
Opening balance	695	800	799
Grand total	32,373	1,16,330	1,16,078

7. Comparing the actuals for 1894-95 with the figures of the revised estimate the large increase of Rs. 196 under fees from municipal schools is due to an increase in the number of students attending the schools, and of Rs. 65 under fines and fees is due to the infliction of heavy fines by the magistrates in municipal cases. The increase of Rs. 30 under license fees is due to an increase in the number of offensive trades and of Rs. 38 under taxes on carts is due to an increase in the number of carts registered. The increase of Rs. 110 under sale-proceeds of manure was due to a brisker competition at the sales than was expected. The increases under other heads being slight, no remarks have been offered.

Under Provincial contributions the difference between the figures of the revised estimate and the actuals of the year is very great. The decrease is due to the non-recovery during the year of the amounts due on account of stipends paid to normal students, on account of the net charges of the high school department of the municipal high school and on account of the charges incurred under "Common gymnasium." About Rs. 70 and Rs. 90 have to be recovered respectively under the heads of "Stipends to normal students" and of "Common gymnasium." The actual amount to be recovered on account of the net charges of the high school is, however, only about Rs. 434, or less than that shown under the revised estimate, on account of the decrease in the net charges of the high school department of the municipal high school. The decrease of about Rs. 73 under tax on buildings and lands is due to the whole amount due under these heads not having been collected on account of the remissions granted in the case of some of the owners and on account of the absence from town of several of the defaulters. In some cases no property of the defaulters was available although coercive processes were issued. These circumstances, it is submitted, also account for the non-execution of several coercive processes issued for the recovery of the taxes. The slight differences under the other heads call for no remarks.

8. Comparing the actuals of the year with those of 1893-94, there is an increase of Rs. 133 under tax on arts due to an increase in the number of traders; of Rs. 570 under tax on lands and buildings, due to a revision of the registers during the year; of Rs. 48 under carts, due to an increase in the number of carts registered; of Rs. 216 under fees from the municipal upper primary school, due to the school working throughout the whole year whereas in 1893-94 it worked only for about three months, having been opened in January 1894; of Rs. 34 under hospital receipts, due to an increase in the number of subscribers; of Rs. 790 and 350 under slaughter-house and cart-stand fees, respectively, due to an increase in the rate of fees collected; of Rs. 166 under contributions on account of the municipal high school, due to the recovery during the year of the arrears due for 1893-94; and of Rs. 140 under private scavenging fees, due to an increase in the number of private houses served by municipal toties. The other items of increase, being small, call for no remarks. There is a decrease of Rs. 94 under tax on animals, due to the absence from town of several of those who maintained them and to the death of the owners in some cases; of Rs. 30 under tolls, due to slack competition at the sales; and of about Rs. 54 under sale-proceeds of tools and plant, &c., due to a decrease in the number of empty tins, cans, &c., available for sale owing to the tins, &c., being returned to the shopkeepers on account of arrangements made with them at the time of the purchase of oil. The decrease of Rs. 34 under sale-proceeds of manure is due to the small number of bidders that attend the sales ever since the issue of orders prohibiting the use of night-soil manure for the growth of melons in the river-bed. It is not necessary to offer any remarks on the other items as the difference is slight.

9. A comparison of the actuals of the year with those of 1893-94 thus shows a marked increase and decrease under some of the chief items of receipts. It seems therefore necessary to deal at greater length with such items.

10. *Tax on Arts.*—The original demand was Rs. 3,288, of which Rs. 85 was remitted on revision and Rs. 151 on appeal. Thus the net demand was Rs. 3,052, of which Rs. 2,998 or 98.23 per cent. were collected during the year against 98.8 in the previous year. Of the balance of Rs. 54 only Rs. 17-8-0 have since been collected and the remaining sum of Rs. 36-8-0 could not be collected owing to the absence

of the parties concerned from the town. Of the arrears of Rs. 50 due for 1890-91, 1892-93 and 1893-94, a sum of Rs. 37-5-6 was collected and Rs. 12-10-6 were written off as irrecoverable. Two hundred and fourteen warrants were issued for the recovery of Rs. 229 and Rs. 196 were collected, being the sum of 181 warrants, against 146 warrants for the recovery of Rs. 162-8-0 in the previous year. Property was attached in seven cases and in one case under arrears was property sold.

11. *Tax on Buildings.*—The tax on buildings was levied at the rate of $7\frac{1}{2}$ per cent. as usual. The original demand was Rs. 8,269-15-4, of which Rs. 18 were remitted on revision and Rs. 39-5-3 on appeals. Thus the net demand was Rupees 8,212-10-1, of which Rs. 8,059-9-11, or 98.13 per cent., were collected within the year and Rs. 34-10-2 were remitted on vacant and ruined buildings, leaving a balance of Rs. 118-6-0. Of this sum Rs. 12-8-6 only have been collected up to date and the remaining amount could not be collected as usual owing to the absence of the defaulters from the town in some cases and to no property being available for attachment in other cases. The house-tax registers were revised at the beginning of the year and the increase in income over the previous year is due to the revision. The arrear demand of the previous year was Rs. 90-8-5, of which Rs. 35-4-3 were collected, Rs. 1-14-0 were remitted and Rs. 53-6-2 were written off as irrecoverable during the year. One thousand, two hundred and fifty-one warrants were issued for the collection of Rs. 773-14-0 against 884 for the recovery of Rs. 482-13-6 in the previous year. The amount of 992 warrants, viz., Rs. 646-9-11, was collected. Property was actually attached in 35 cases but in no case was property sold.

12. *Land Tax.*—The land-tax registers were revised at the beginning of the year and in consequence of the revision the demand rose from Rs. 513-7-0 to Rs. 645-6-8. A sum of Rs. 3-9-2 was, however, remitted on revision and there were no appeals against this tax. The net demand was therefore Rs. 641-13-6, of which Rs. 600-0-1 was collected during the year. Out of the balance of Rs. 41-13-5 a sum of Rupees 25-3-10 has been collected; the remaining sum of Rs. 16-9-7 could not be collected owing to the absence of the defaulters. One hundred warrants were issued for the collection of Rs. 146-0-3 against fifty-seven warrants for the recovery of Rs. 57-2-8 in the previous year. Rs. 104-2-10 were collected, being the amount of sixty warrants. Property was attached in only one case, but not sold. The arrear demand was Rs. 14-14-6, of which Rs. 12-3-6 were collected and the balance was written off as irrecoverable. The total extent of lands assessed during the year is 1,154 acres and 42 cents. With regard to lands leased out to tenants, the tax was levied on the rents collected. In respect of lands cultivated by the owners themselves, the rental value was taken to be, if wet land Rs. 7-13-0 per acre and if dry Rs. 3-14-6 per acre.

13. *Slaughter-house and Cart-stand Fees.*—In 1893-94, slaughter-house fees were collected at the rate of half-an-anna for each sheep and six annas for each head of cow slaughtered, and cart-stand fees were collected at the rate of half-an-anna for each cart. During the year under review, slaughter-house fees were collected at the rate of one anna for each sheep and eight annas for each cow and cart stand fees were collected at the rate of one anna for each cart. The enhanced rates were sanctioned in G.O., No. 1541 M., Local and Municipal, dated 4th November 1893. The increase in income under these heads during the year is due to the enhanced rates levied.

14. *Private Scavenging.*—A sum of Rs. 368 was this year collected under this head as against Rs. 227-0-5 during 1893-94. The increase is due to the increase in the number of private houses served by municipal scavengers. One hundred and seventy-four private houses were served as against 154 in the previous year. With the object of improving this system and making it more popular, it was proposed in the budget for 1895-96 to appoint a special inspector for the purpose, but the proposal could not, unfortunately, be sanctioned by the Government for want of funds.

III.—CHARGES.

15. The following is an abstract comparing the charges of the year with those of 1893-94 :—

	1893-94.	1894-95.
	Rs.	Rs.
Grant I	8,028	10,962
„ II	7,505	8,035
„ III	11,917	12,798
„ IV	1,573	1,883
„ V	2,410	2,527
Advances recoverable	139	375
Refunds of other than current collections	2	5
Balance	799	79,493
Total ..	32,373	1,16,078

16. *Grant I—(1) New Works—(a) Communications.*—There was a provision of Rs. 1,000 made in the budget for the construction of roads in streets Nos. 41 Kottapeta, 34 Peta, and 14 Fort. As the sum allotted was not sufficient for the improvement of all the three streets, roads were constructed only in streets Nos. 41 Kottapeta and 14 Fort at a cost of Rs. 836-1-11. The balance of Rs. 163-14-1 was utilized for the maintenance of old roads as the sum allotted for that purpose was found insufficient owing to some of the roads having been washed away during the rains. Although Rs. 600 was provided in the budget for the construction of road in street No. 34 Peta and Rs. 100 only for street No. 14 Fort, it was found necessary to improve street No. 14 Fort at a greater cost. The improvement of street No. 34 Peta was therefore postponed for the present and the amount allotted for it utilized towards the improvement of street No. 14 Fort.

(b) *Buildings*.—A sum of Rs. 50 was provided in the budget for the construction of a store-room for the hospital purveyor in the hospital compound and of Rs. 80 for the construction of a vaccine dépôt. The construction of the store-room cost only Rs. 30-12-0 and of the vaccine dépôt cost Rs. 76-4-2. The balance left and an additional sum of Rs. 32-0-2 had to be spent under this head, viz., Rs. 25 for payment made for the preparation of the tracings of the old jail building as sanctioned in G.O., Mis. No. 1743 M., dated 16th November 1894, and Rs. 30 on account of the pay for February of the temporary draftsman employed for three months for the preparation of estimates and plans for the improvement and repairs of the hospital building as suggested by the Assistant Sanitary Engineer to Government. It is requested that Government will be pleased to sanction the entertainment of the draftsman as an application has already been submitted for the purpose as required in G.O., Mis. No. 787 M., dated 6th May 1895.

(d) *Water-supply*.—Although a sum of Rs. 2,06,000 was provided in the budget for the improvement of the water-supply of the town, credit was taken only for a sum of Rs. 81,220 as directed in G.O., No. 145 M., Local and Municipal, dated 31st January 1895. Mr. Lockyer, the Assistant Sanitary Engineer to Government, who was placed in charge of the works, arrived here in the middle of October 1894. A staff of one accountant and storekeeper on Rs. 35, one surveyor on Rs. 30 and four lascars on Rs. 28 was entertained since 16th October 1894 at a cost of Rs. 93 per mensem. As the Assistant Sanitary Engineer found it necessary to change the site and alter the design of the head-works, he submitted a new scheme for the sanction of Government. Works will be commenced as soon as sanction is accorded. Only a sum of Rs. 3,341-11-2 was spent for the purpose during the year.

17. (2) *Repairs*—(a) *Communications*.—The maintenance of the old roads cost Rs. 1,852-4-9 against a budget provision of Rs. 1,700. As the amount provided in the budget was insufficient, a sum of Rs. 152-4-9 allotted for the construction of new roads was utilized for this purpose and sanctioned in G.O., Mis. No. 787 M., dated 6th May 1895.

(b) *Buildings*—

- b) *Buildings*—
- (i) The repairs to the hospital buildings cost Rs. 61-9-2 against Rs. 50 in the budget.
 - (ii) The repairs to the high school cost Rs. 21-1-0 against Rs. 45 sanctioned in the budget.
 - (iii) The travellers' bungalow repairs cost Rs. 19-4-0 against a grant of Rs. 30.
 - (iv) The municipal office building repairs cost Rs. 23-13-4 against a grant of Rs. 20.
 - (v) The toll gates were repaired at a cost of Rs. 21-11-9 against Rs. 15 sanctioned in the budget.
 - (vi) The repairs to the latrines cost Rs. 19-5-8 against Rs. 40 in the budget.
 - (vii) The slaughter-house and vaccine dépôt had to be repaired at a cost of Rs. 32-1-7 out of the savings under this head. No provision had been made for the purpose in the budget. It was found necessary to make some alterations in the vaccine dépôt and separate it from the main hospital building as suggested by the District Medical and Sanitary officer.

(c) *Drains*.—A sum of Rs. 42-12-3 was spent for the repairs of road side-drains against a grant of Rs. 50.

(d) The repairs to water-supply channels cost Rs. 118-4-0 against a provision of Rs. 120 in the budget.

18. *Grant II, Education.*—The total expenditure during the year under this head was Rs. 8,035, against a provision of Rs. 8,320 in the budget and Rs. 7,505 in the previous year. The decrease in expenditure as compared with the revised estimate is due mainly to the non-utilization of the amount allotted for building and furniture grants and to the appointment of a gymnastic instructor on Rs. 8 per mensem, instead of Rs. 12 sanctioned, for want of a competent man.

Training Schools.—A sum of Rs. 180 was provided in the budget as stipends to normal students. The amount was reduced to Rs. 120 in the revised estimate as the students were paid only from July 1894. A sum of only Rs. 104-4-11 was actually spent for the purpose on account of a difference in the rates of stipends allowed to the several students and on account of deductions made for absence.

19. *The Municipal High School.*—The municipal high school charges amounted to Rs. 5,798, against Rs. 5,850 in the budget and Rs. 6,232 in the previous year. The decrease as against the revised estimate is due to the acting arrangements made in the school owing to the Second Assistant having gone to the Training College, Rajahmundry, for training, to fines and stoppages, and to savings under contingencies. The decrease as against the previous year is due to the abolition of the carpentry class and to the primary department having been detached from it. The charges were as under :—

	RS.	A.	P.
Salaries of teachers	1,200	0	0
Salaries of other staff	1,000	0	0
Grants-in-aid	1,000	0	0
Expenses of the school	1,598	0	0
Total	5,798	0	0

					RS.	A. P.
Upper secondary department	..	..	..	..	3,672	4 0
Lower " "	..	..	..	..	2,125	6 5
				Total	5,797	10 5

The average strength of the school during the year was 115.54 as against 154.85 during the year previous and the average attendance 99.10 as against 134.21 in 1893-94 as shown below:—

				Average number on rolls.	Average attendance.
Upper secondary department	∴	∴	∴	31.43	25.76
Lower " "	∴	∴	∴	84.11	73.34
			Total	115.54	99.10

The decrease is due to the separation of the upper primary department. Considering only the high school and lower secondary departments of the school, there is an increase in the strength of the school over that of the previous year, the increase being so great as 60 per cent. in the upper secondary department.

20. The results at the public examinations were not creditable. Although six pupils were sent up for the Matriculation examination none passed. This is due to the fact that three of the pupils had to absent themselves from several subjects at the examination, two of the best boys in the class, who had generally stood first and second in all school examinations, thus failing owing to their absence. The results of the lower secondary examination were good. Twelve, out of the 24 pupils sent up, passed this examination.

21. *The Upper Primary School.*—The total expenditure during the year including the pay of the gymnastic instructor and the cost of gymnastic apparatus was Rs. 972-7-1. The average strength of the school during the year was 161 and the average attendance 95.

The subjoined table shows the number of pupils presented for examination under each standard, the number passed and the percentage of passes to the number examined:—

Name of Examination.	Name of standard.	Number presented for examination.	Number passed.	Percentage of passes to number examined.
Lower Primary examination ..	Infants ..	16	7	44
	1st Standard ..	10	7	70
Upper Primary examination ..	2nd do. ..	15	9	60
	3rd do. ..	20	8	40
	4th Standard ..	23	17	74

No separate provision of results grant having been made in the budget, a grant of Rs. 116 was paid to the teachers of this school out of the amount of Rs. 1,000 allotted for all aided schools in the town. The school was located in a rented building, which was not suitable for the purposes of a school. As no other suitable building was available in the town, application was made to the Government to hand over the old civil jail building free of cost for the purpose of locating the school. The application was sanctioned in G.O., No. 3296 W., dated 22nd December 1894. A sum of Rs. 199-8-6 was sanctioned in G.O., Mis. No. 787 M., dated 6th May 1895, for effecting the necessary repairs and alterations to make the building suitable for the school.

22. *Other Aided Schools.*—The number of elementary schools at the beginning of the year was 31 with a strength of 1,053 boys and 391 girls and at the end of the year the number of schools was 30 with a strength of 1,101 boys and 315 girls. Including the upper primary school 20 schools were examined for results grants, and Rs. 1,000 were paid as results grants. The number of boys presented for examination was 608 against 732, and the number passed was 413 against 536 in the previous year. The Educational Statements Nos. I, II, III and IV, have not yet been received from the Assistant Inspector of Schools. They will be submitted when received and any variations in the figures will be explained.

A sum of Rs. 240 was allotted in the budget under the head of Inspection, but Rs. 253-11-11 was actually spent for the purpose. The increase is due to the payment of travelling allowance to the permanent inspecting schoolmaster now undergoing training in the Teachers' College, Saidapet. Sanction for the increased expenditure is respectfully solicited.

A sum of Rs. 20 was provided in the revised estimate for contingencies under Inspection against the budget amount of Rs. 10. The actual charges, however, amounted to Rs. 17-4-9 against Rs. 18-8-0 of the previous year.

The sum of Rs. 150 provided in the budget for building and furniture grants was not utilized as no application was made.

23. *Common Gymnasium.*—The sum of Rs. 200 provided in the budget under this head was reduced to Rs. 150 in the revised estimate as the gymnastic instructor was paid at the rate of only Rs. 8 a month instead of at Rs. 12, as no competent person was available. The services of a trained gymnastic instructor have been secured since the commencement of the current year.

24. *Grant III.*—The charges on account of the municipal dispensary amounted to Rs. 5,228-8-7, as against Rs. 5,400 of the revised estimate and Rs. 4,853 in the previous year. As compared with the revised estimate there is a decrease of Rs. 76 in the establishment charges due to fines and stoppages, to the services of a hospital assistant having been lent to the district board for a time, and to a decrease of about Rs. 108 under diets of patients due to the bills for February and March not having been sent within the year. There is a slight increase of Rs. 19 in the value of medicines and a slight decrease of Rs. 6 under sundries and contingencies. Compared with the charges of the previous year there is an increase of Rs. 359-8-7. This is due mainly to the increase in the value of medicines on account of the increase in the number of patients treated.

The hospital establishment consisted of one second-class hospital assistant paid at Rs. 35, one midwife on Rs. 15, one clerk on Rs. 15, two compounders (one on Rs. 15 and the other on Rs. 9), two ward coolies at Rs. 7 each, one peon on Rs. 6, one nurse on Rs. 8, one cook on Rs. 8, three toties on Rs. 8 each, one dhoby on Rs. 3 and one barber on Rs. 2-8-0, per month. There was, however, no trained midwife attached to the hospital for ten months in the year, but the services of the female ward attendant, who has some practical experience in midwifery, were availed of to some extent. A caste midwife was entertained on the 5th of December and dismissed in the middle of January for inefficiency. The services of a trained Muhammadan midwife have since been secured. The services of the hospital clerk were dispensed with from December 1894 as suggested by the Surgeon-General with the Government of Madras.

The number of in-patients treated in the hospital was 395 against 345, and the number of out-patients was 19,829 against 15,972 in the previous year. The number of operations performed was 64 major and 385 minor against 29 major and 336 minor in 1893-94. Among major operations two died against three in the previous year. There were no deaths among minor operations. Twenty-eight cases of natural labour were conducted during the year against 29 in the previous year.

The report of the District Medical and Sanitary Officer on the working of the dispensary is submitted herewith.

25. No women were trained up as native doctors and nurses during the year for want of funds.

26. *Medical College, Sanitary Inspection and Medical Reserve Staff.*—Contributions under these heads amounting to Rs. 280 were paid during the year to Provincial funds as against Rs. 190 in the budget and revised estimate. The amount was fixed by the Accountant-General and the excess of Rs. 90 has been sanctioned in G.O., Mis. No. 787 M., dated 6th May 1895.

27. *Vaccination.*—The establishment consisted of one vaccinator on Rs. 15 a month and a peon on Rs. 6. The establishment charges amounted to Rs. 252 as in the previous year. The charges under contingencies amounted to Rs. 212-0-6, as against Rs. 190 in the revised estimate and a budget provision of Rs. 250. The decrease as compared with the budget is due to the council having in the month of October 1894 adopted the suggestions of the District Medical and Sanitary Officer and of the President, District Board, to obtain glycerine paste from the district board vaccine depôt and to contribute a sum of Rs. 100 per annum to the district board.

The total number of vaccine operations performed during the year amounted to 1,314 as against 1,040 in the previous year. Eight hundred and sixty-five of these were successful. Six hundred and forty-one operations were performed on children under one year and 497 of these proved successful. The number of births in the year was 778. The average cost of each operation was As. 5-8 against As. 7-3 and of each successful case was As. 8-7 against As. 11-1 in the previous year. Animal lymph was for the most part used. Some cases were performed with glycerine paste. Thirty-four prosecutions were instituted during the year.

28. *Births and Deaths.*—The number of births registered was 778, or 31.72 per mille, against 701 in the previous year. The number of deaths was 699, or 28.55 per mille, against 744 in 1893-94. No prosecutions were instituted in the year for failure to report births and deaths.

29. *Conservancy.*—Thirty-four sweepers (21 males and 13 females) were employed for sweeping the streets and twelve toties for cleaning public latrines. There was also one toty employed at the manure depôt to cover the night-soil and rubbish heaped there with dry-earth and sand. Four toties were employed for private scavenging. Four pukkalis and four sweepers (two males and two females) were employed to flush the drains and one pukkali for watering avenue trees. Night-soil from the 38 public latrines in the town was removed in two closed carts. Five carts and nine buffaloes were employed for the removal of street-sweepings and other rubbish which are in the first instance collected in the 255 dust-bins in the town. Two buffaloes were also employed to supply dry-earth for covering the night-soil at the depôt. Night-soil was carted outside the town to the south of the Hindri river and there mixed with the street-sweepings and other rubbish of the town and covered over with dry earth and sand. The manure thus collected during the year was sold for Rupees 1,310-8-0, besides Rs. 138, the amount of sale-proceeds of cart-stand manure. An inspector on Rs. 25, a maistry on Rs. 10 and seven peons on salaries ranging from Rs. 6 to 7 attend to the conservancy and sanitation of the town. The total expenditure on conservancy during the year amounted to Rs. 6,708-2-5 against Rs. 6,209 in the previous year. The increase in expenditure is due mainly to cholera charges, to increase of private scavenging establishment and to the purchase of two of Richardson and Cruddas' conservancy pans on wheels. The sanitation of the town was good except as regards drainage.

Muhammadan Burial-grounds.—As directed in G.O., Mis. No. 520 M., dated 23rd April 1894, the municipal council issued notices to the persons connected with the several burial-grounds in the town. Most of those to whom notices were issued put in written objections, while several others urged objections, orally, at the meetings specially held for the purpose. In some cases the parties did not either appear or file objections. The resolution of the council, that some of the burial-grounds should be closed while others should be kept open, is now before Government, pending final orders.

30. *Grant IV.*—One hundred and twenty lights were maintained at a cost of Rs. 580, against Rs. 597 of the revised estimate and Rs. 505 of the previous year.

The increase over the previous year is due to the increase in the number of lights. Three masalchies—one on Rs. 6 and two on Rs. 5 each—were employed for the purpose.

31. *Slaughter-house.*—Two peons on Rs. 6 each, one pukkali on Rs. 6 and a sweeper on Rs. 5, were employed on this account. The charges amounted to Rs. 261 as against Rs. 191 in the previous year. The increase is due to contingent charges incurred and to the appointment of an additional peon as the business of collecting fees was kept under the direct management of the council.

32. *Travellers' Bungalow.*—One maty on Rs. 5 and a toty on Rs. 3 a month were employed. The charges amounted to Rs. 109, including contingencies, as against Rs. 116 in the previous year.

33. *Queen's Park.*—One gardener on Rs. 4 was employed. The expenditure amounted to Rs. 82, including cost of watering trees as against Rs. 91 in the previous year. The decrease is due to a decrease in the watering charges in consequence of timely rains.

34. *Cart-stand.*—Two peons on Rs. 6 each were employed and the total cost amounted to Rs. 130.

35. There was a provision of Rs. 30 in the budget for the destruction of stray dogs. The amount was not utilized as there was no occasion for it. A sum of Rs. 250 was sanctioned in G.O., Mis. No. 660 M., dated 28th May 1894, for the removal of monkeys. Of this amount Rs. 238-8-0 was spent. There are still some monkeys left in the town and the necessary steps will be taken for their removal if the townspeople subscribe the necessary amount as the balance of Rs. 11-8-0 now left is insufficient for the purpose.

36. *Other Items.*—(1) *Painter's Wages.*—Rs. 60 was provided for the purpose in the budget. The actual amount spent was Rs. 69. The increase is due to the increase in the number of carts registered. The increase was sanctioned in the revised estimate.

(2) *Sign-Boards, &c.*—A sum of Rs. 2-4-10 was paid on account of assessment of land in the occupation of the municipal council and a sum of Rs. 8-8-0 was spent for providing some streets with sign-boards. There was no provision in the budget. The amounts were sanctioned in the revised estimate.

(3) *Printing Charges.*—The charges amounted to Rs. 332 against a provision of Rs. 300 in the budget. The increase was sanctioned in G.O., Mis. No. 787 M., dated 6th May 1895.

37. *Grant V, Office Establishment.*—The entertainment of an additional clerk on Rs. 15 to the office establishment was sanctioned in the budget for the year under report. The charges amounted to Rs. 1,445 as against Rs. 1,280 in the previous year. The increase is mainly due to the employment of the additional clerk.

Inspection.—The inspection charges amounted to Rs. 285 as against Rs. 300 in the budget. The decrease is due to the Chairmanship having been vacant for some time.

38. *Advances Recoverable.*—A sum of Rs. 374-8-6 was advanced as follows:—

	RS.	A.	P.
As permanent advance to the office manager for postage labels and receipt stamps, &c.	10	0	0
As a permanent advance to the hospital purveyor	100	0	0
To the municipal inspector for purchase of articles necessary for the repairs of the hospital buildings	50	0	0
To the contractor for effecting the necessary improvements and repairs to the old civil jail building for locating the municipal upper primary school	199	8	6
To the midwife who was entertained in the month of February 1895	15	0	0

Refunds of other than current Collections.—A sum of Rs. 4-15-9 was refunded to house-tax and profession tax appellants.

39. The following figures give the ratio of the expenditure under different grants to the total expenditure:—

Grant I	29-962
" II	21-962
" III	34-980
" IV	5-150
" V	6-907
Advances, &c.	1-039
Total	100-000

ENCLOSURE.

ANNUAL Concise Report on the Municipal Hospital, Kurnool.

I. Public Health.—Public health was on the average good. Rainfall was satisfactory and the crops were good; prices of food-grains were moderate.

Epidemics.—Cholera broke out at Srisailum on the 3rd March 1894, when it extended rapidly into the district. The municipality, being forewarned in a letter dated 12th March, was prepared to meet the outbreak. The first case broke out within the municipal limits in Roja on the 20th May. There were 36 seizures with 24 deaths during the outbreak. One hospital assistant was deputed on special duty and all the necessary sanitary measures were adopted, and by the 3rd July the disease was completely stamped out.

The malarial exacerbation which developed itself in 1892 in this town as well as in the district generally subsided to a certain extent in 1893 and still more so in the year under report as can be judged from the hospital statistics. In the year 1893-94, 5,153 cases of malarial fevers were treated at the municipal hospital, whereas in 1894-95 only 3,164 cases were admitted.

II. Vital Statistics.—Vital statistics for 1894-95—

Total Births.			Causes of deaths.												Grand Total.
Male.	Female.	Total.	Cholera.		Small-pox.		Fevers.		Bowel complaints.		All other causes.		Total.		
			M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	
404	374	778	14	10	..	..	151	177	13	16	162	156	340	359	699

III. Sanitation—Disposal of Rubbish.—The sweepings and refuse of the streets and houses are first deposited in dust-bins of which there are 255 in the town. When these dust-bins are full their contents are removed and conveyed in carts or on the backs of buffaloes to the manure depôt on the right bank of the Hindri river or to the rubbish depôt in Kothapeta. There are 38 latrines in the town, four of which are provided with seats and partitions, the others are the ordinary "open space" ones. The night-soil is carted away in closed vehicles to the municipal manure depôt and buried in rubbish heaps deposited there and covered over with dry-earth. I believe the same ground has been used for several years past and I think it is high time that it was closed; but there is no suitable site within a convenient distance of the town as the soil is gravelly and water is found within a foot or two of the surface. A suitable site can be found only at a distance which would necessitate an increase in the conservancy establishment. The manure collected at the depôt is auctioned periodically. The conservancy of the town including the daily flushings of the drains is attended to by 38 sweepers (23 males and 15 females); five open carts, two closed carts and eleven buffaloes are used for the purpose. The work of conservancy is supervised by an inspector and eight peons.

IV. Water-supply.—The town receives its drinking-water supply from the Government irrigation canal through the masonry conduits conducted into the town. Cisterns to draw water from are provided at short distances all along the town supply channels. People living near the banks of the Hindri river and Tungabhadra obtain their drinking-water from springs in the bed of the rivers. The cisterns are conserved for drinking purposes. It is confidently hoped that the completion of the water works now on hand will, if followed soon after by a thorough drainage system, render this town much healthier than it has been for years past.

Drainage.—The water from many houses runs into the main drains in the streets. There are masonry-built drains in twelve of the main streets which are flushed daily. There are 423 cesspools in the town. The existence of these has been pointed out to

be injurious. It is gratifying to note that a sum of Rs. 400 has been sanctioned towards the improvement of the drainage of the town in the direction pointed out by the Sanitary Commissioner.

V. Vaccination.—One thousand three hundred and fourteen cases were vaccinated with 865 successful results. A separate statement is submitted (Stat. xiii).

VI. Hospital and Dispensary—Nature and sufficiency of Accommodation.—The hospital consists of three blocks of buildings—one for the out-patient dispensary, one for male in-patients consisting of two wards to accommodate six patients each, and a third for female in-patients. The following are the out-houses in connection with the hospital—two latrines, a dead house, a purveyor's room and a store-room. In accordance with the remarks of the Surgeon-General during his last inspection on the 17th September last regarding improvements of the hospital buildings, the Sanitary Engineer was requested to prepare plans and estimates for—

- (1) providing better lighting and ventilation to the compounding room;
- (2) providing separate waiting accommodation for men and women;
- (3) improvement of the flooring and roof of the female ward;
- (4) erection of a separate lying-in ward, &c;
- (5) huts for venereal and infectious diseases.

As far as it has gone I believe the plans and estimates only are ready. The Assistant Sanitary Engineer in charge of Kurnool water-works who had undertaken to execute the work is temporarily transferred to Madras and the work has therefore to be postponed till his return. The substitution of iron cots for the wooden ones now in use in hospital will, I trust, be effected as speedily as municipal funds permit. Other equipments and furniture are adequate to the requirements of the hospital.

Number of Patients treated as compared with the previous year—

	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.
Total treated	247	286	260	345	395
Average daily sick.	14,425	19,360	19,021	15,972	19,829
	12-71	15-23	7-26	9-80	10-77
	104-32	128-52	120-28	95-25	115-97

The above is a quinquennial statement of hospital attendance. There has been an increase of 50 in-patients and 3,857 out-patients during the past year. Although there is a marked rise in the attendance of out-patients, admissions under malarial fevers show a decided fall—a fact which indicates that the period reported on was a favourable one as regards the incidence of malaria in the town.

Mortality and actual Causes of it.—Fourteen deaths occurred among in-patients against 28 in the preceding year.

The causes of death were as follows:—

Disease of the nervous system	..	..	..	..	..	1
" " circulatory "	..	..	..	..	..	3
" " lungs	..	..	..	..	..	1
Other diseases of the respiratory system	..	..	..	..	..	1
Diarrhoea	..	..	..	..	..	1
Disease of the generative system	..	..	..	..	..	2
" " organs of locomotion	..	..	..	..	..	1
Ulcer	..	..	..	..	..	3
All other general diseases	..	..	..	..	..	—
Total	..	..	..	..	..	14

VII. Operations and Results.—Sixty-four major and 385 minor operations were performed against 29 and 336 in 1893-94. Among major operations two died in 1894-95 against three in the previous year. No deaths among minor operations.

VIII. Establishment, whether efficient and sufficient.—Both sufficient and efficient.

IX. Midwives.—There was no trained midwife attached to the hospital for ten months during the past year, but the services of the female ward attendant, who has some practical experience in midwifery, were availed of to some extent. A caste midwife was entertained on the 5th December and was dismissed for inefficiency in the middle of January. The services of a Muhammadan midwife have been obtained who bids fair to be a useful woman. Twenty-eight cases of natural labour were conducted during the past year against 29 in the year preceding.

General Remarks.—Nil.

KURNOOL,
3rd May 1895.

(Signed) A. L. PATCH, Surgeon-Major,
Medical and Sanitary Officer, Kurnool.

No.

Forwarded.

VELDURTI,
31st May 1895.

(Signed) MUHAMMAD SUFDAR HUSAIN,
Acting Deputy Collector.

ORDER—No. 1663 M., dated 18th October 1895.

The receipts and charges of the Kurnool Municipality for 1894-95 are compared below with the budget and revised estimates for the year and the actuals of 1893-94:—

	Actuals, 1893-94.	Budget estimate, 1894-95.	Revised estimate, 1894-95.	Actuals, 1894-95.
Receipts.				
Balance brought forward	Rs. 695	Rs. 1,430	Rs. 800	Rs. 799
Tax on Arts	2,902	2,900	3,020	3,035

2. Twenty-nine meetings were held by the municipal council against twenty-five in the previous year. The average attendance of the non-official members improved and was good, but in the case of the officials it declined and was indifferent. The Collector should inform the latter that the Government requires them to be more regular in their attendance in future.

3. Receipts.—(1) The number of persons assessed to the tax on arts rose from 871 to 930 and the net current demand under it from Rs. 2,873 to Rs. 3,052. The registers of the taxes on buildings and lands were revised during the year, with the result that there were increases in the net current demands under these heads also of Rs. 562 and Rs. 129, respectively.

(2) Except in the case of the arrears under the tax on buildings, the collections under the principal taxes continued to be good. Coercion was resorted to more freely than in the previous year, but notwithstanding the remark in paragraph 3 (1) of the previous year's review, the number of warrants remaining unexecuted at the close of the year was 17 per cent. of the total number under disposal. Greater promptitude should in future be displayed by the municipal executive in this respect.

(3) There was a slight increase in the income from the taxes on vehicles and carts and license fees and, owing to an enhancement of the rate of fees collected, a noteworthy advance in the receipts from slaughter-houses and cart-stands. The receipts from the tax on animals, tolls and sale of sweepings, however, declined under the circumstances explained in paragraph 8 of the chairman's report. The fall in the revenue from fines is to be regretted, as it apparently indicates want of energy on the part of the police and the municipal executive in enforcing the sanitary provisions of the law.

(4) The number of houses served by the private scavenging agency rose from 154 to 174, and the service was worked at a profit of Rs. 63 against Rs. 75 in 1893-94, which is satisfactory. The proportion of the existing private latrines cleaned by

this agency to the total number in the town was, however, still only about one to ten. The Government in its review of the previous year's report drew the attention of the council to the desirability of extending this service, and the council must now make more energetic efforts to carry out these instructions, enforcing the law with strictness against the owners of all insanitary premises.

4. *Expenditure*—(1) *Public Works*.—The most important of the new works under execution during the year was the water-supply scheme, on which a sum of Rupees 3,342 was spent. The estimate of Rs. 2,39,380 was not utilized in consequence, as explained in paragraph 16 (d) of the report, of the submission by the Assistant Sanitary Engineer of a new scheme for the sanction of Government. The total outlay on communications amounted to Rs. 2,688, or 50·7 per cent. of the net receipts from tolls. The Revenue Divisional officer has not reported on the condition of the town roads—an omission which should not be allowed to recur—but from the inspection notes of the Deputy Sanitary Commissioner recorded in G.O., No. 28 M., dated 10th January 1895, it appears that the main roads were in good order, while the lanes in the Muhammadan quarter were not well kept. It is hoped that the condition of these latter has since been improved.

(2) *Education*.—The net expenditure on education was Rs. 2,475, or 12·4 per cent. of the receipts from taxation. Of this all but Rs. 541 was spent on primary education. The municipal council continued to maintain a high school on the salary system, but the primary school was managed on the 'salary-result system. The council also aided nineteen primary schools with result grants against three secondary and seventeen primary schools in 1893-94. The attendance at both the municipal schools increased, but the results of the matriculation examination were very unsatisfactory, not one of the six students that went up for it having passed. At the lower secondary and the departmental and grant examinations the results were, however, fair. Nearly 12 per cent. of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the municipal and aided schools rose from 55·2 to 61·9 per cent. of the male population of school-going age. The attention of the Director of Public Instruction will be drawn to the reference in paragraph 22 of the chairman's report to the recurrence of the excessive delay in the submission of the educational statements.

(3) *Medical Relief*.—The total number of patients treated in the municipal hospital rose from 16,317 to 20,224. The increase has not been explained either by the chairman or by the District Surgeon, but, as the death rate of the year declined, it may be attributed to the growing popularity of the institution. Only twenty-eight cases of labour were attended by the midwife against twenty-nine in 1893-94. The decline is explained in paragraph 24 of the chairman's report. As the services of an efficient Muhammadan midwife have now been secured much better results will be looked for in the current year.

(4) *Vaccination and vital statistics*.—The number of persons reported to have been vaccinated rose from 1,040 to 1,314, but the quality of the work deteriorated and was decidedly poor, the percentage of success being only 65·8 against 77·2 in 1893-94. Infantile vaccination did not receive sufficient attention, the number of children under one year of age successfully protected being only 497 against 778 births registered. The average cost of each successful case was also very high. This branch of the administration evidently requires increased attention from the municipal council.

The registration of births improved slightly, but the recorded number of deaths declined. In both cases, however, the returns were far from being complete. Although the special attention of the municipal council was drawn to this matter in the previous year's review, not a single prosecution was instituted for failure to register these occurrences. The Government trusts that it will not again be necessary to remark upon this point.

(5) *Sanitation*.—On conservancy a sum of Rs. 6,708, or 98·8 per cent. of the allotment, was spent and the expenditure amounted to 19·7 per cent. of the ordinary

current receipts. From paragraph 29 of the chairman's report and the District Surgeon's report it appears that some attention is being paid to the sanitation of the town; but the inspection notes of the Deputy Sanitary Commissioner recorded in G.O., No. 28 M., dated 10th January 1895, show that a good deal yet remains to be done. Endeavours should be made in the current year to remedy, as far as funds permit, the several defects pointed out by Dr. Bannerman. With reference to the question of closing the objectionable burial grounds in the town the council's attention will be invited to G.O., No. 1265 M., dated 3rd August 1895, and the Collector's letter read therein.

5. *General Remarks*.—The year closed with a balance of Rs. 79,493, or 233·4 per cent. of the ordinary receipts, but the greater portion of this sum is reserved for expenditure on the water-supply scheme which is in progress. The excess expenditure over the budget grant referred to in paragraph 22 of the chairman's report will be admitted in the accounts, but a separate application for this should have been previously submitted.

The administration of the municipality during the year under review continued to be on the whole fair, but private scavenging, vaccination, the registration of vital statistics and sanitation demand increased attention from the municipal council.
