* These two columns do not appear in the Collector's statement.

The following clerical errors are also noticed in the statement :—

Taluks and Divisions.	Details.	Figure given in the return submitted by the Collector.	Correct figure.
1	2	3	4
Chicacole taluk— Tekkali	Total of column 13. Do. 23.	73,100 258,669	73,000 198,669
Berhampur taluk— Ganjám	Total of column 21.	7,500	7,400
Agency tracts— Ramagiri	Total of not sanctioned works column 22.	7	9

The necessary corrections have been made in the copy of the statement submitted to the Board. They should now be carried out in the Collector's office copy.

Secretary.

To the Secretary to Government, Revenue Department,
Collector of Ganjám.

Copy to the Chief Engineer for Irrigation.

(c) A sum of Rs. 27,200 is provided for masonry works on the Tekkali-Anantagiri roads. It is not clear for what kind of masonry work the amount is intended and whether the whole of the amount would be available for unskilled labour. The Collector is requested to furnish the necessary information.

(d) In the Parlákimedi division, two sums of Rs. 60,000 and 1,95,000 are provided for the construction of bridges across the Mahéndratana river near Matchumara and across the Vamsadhara river near Bhagiradhipur, respectively. These works which will demand skilled labour should not have been included in a programme of relief works. With reference to the marginally-noted works proposed in the Mohiri division, the Collector's attention will be invited to paragraph 5 (14) of B.P., No. 411, dated 7th June 1892, with the remark that works of that nature should, if possible, be excluded from future programmes.

Works.	Cost. RS.
Construction of a market	10,000
„ of a rest-house	3,000

Statement B.—From the entries in columns 6 and 7 of this statement it appears that a sum of Rs. 33,500 is provided for the repair of eight existing irrigation works in the Purushottapur division; but these are shown as *new* works in statement C and the number of such works is entered as 9. The Collector is requested to report whether the works referred to are really new ones. If so, they should not have been included in this statement as it is intended to show only the state of the existing irrigation works and the provision made for their repair.

Statement C.—(a) The two sums of Rs. 20,000 and 40,000 provided for the construction of certain irrigation works in the Mohiri and Purushottapur divisions, should have been entered also in column 25 of the statement, as the works are shown in statement A as “sanctioned works” and the amounts of their detailed estimates are stated to be ready.

(b) The total number of small works in the Parlákimedi division is given in column 22 of the statement as 14, but this is incorrect, especially, as it appears from column 24 that estimates are ready for 51 works.

(c) The total amount of large works—“not sanctioned”—in the Sômpetá division, for which detailed estimates are stated to be ready, is entered in statement C as Rs. 68,780; but according to statement A it is only Rs. 61,890. The Collector is requested to explain the discrepancy.

(d) It is observed that in the undermentioned cases the figures entered in column 5 of the statement showing the number of persons provided for by relief works for three months differ considerably from the maximum numbers that the amounts entered in column 23 could provide for, for the same period at 1½ annas per man per diem. The Collector is requested to explain how he arrived at his figures :—

Divisions.	Class of work.	Amounts entered in column 23 of Collector's statement C.	Maximum number of persons that the amount in column 23 can provide for for 3 months at 1½ annas per man per diem.	Numbers entered in column 5 of statement C.	Difference.
1	2	3	4	5	6
		RS.			
Tekkali	Large works sanctioned ..	38,200	5,093	330	4,763
Parlákimedi	Do. do.	8,000	1,066	67	999
Mohiri	Do. do.	20,000	2,666	169	2,497
Purushottapur	Do. do.	40,000	5,333	338	4,995
Ganjám	Do. not sanctioned ..	2,98,413	39,788	2,729	37,059
Goomsur	Do. sanctioned ..	42,000	5,500	355	5,245
Aska	Do. do.	84,790	11,305	696	10,609
	Do. not sanctioned ..	2,30,892	30,786	1,952	28,834
<i>Agency Tracts.</i>					
Balliguda	Large works sanctioned ..	24,000	3,200	1,700	1,500
Udayagiri	Do. do.	67,690	9,012	10,990	1,978

3. Estimates are stated to be ready for works to cost Rs. 21,53,392 or 57 per cent. of the total provision, excluding the amount provided for land improvements for which no estimates are required.

4. The Collector also gives in statement A, a list of additional works roughly estimated to cost 3.03 lakhs of rupees. Of the ten additional works shown in last year's list, only five have been retained as such in the current year's list, four having been included in the regular programme and one having been altogether omitted. The reason for the omission is not given. With reference to the four works included in the programme, it will be observed that the Chief Engineer in his endorsement read above, reports that none of the works can, at present, be considered as available for famine relief. These works should, therefore, be excluded from the programme until further orders and shown under additional works at the end of the statement. The Ganjam-Gopalpur canal, referred to in paragraph 3 of the Chief Engineer's endorsement, should however continue to be included in the programme as directed in B.P., No. 412, dated 8th June 1892.

5. In the agency tracts provision is made to the extent of Rs. 4,40,163 for the construction of new irrigation works and roads and for repairs to the latter; and of Rs. 8,192 for the improvement of drinking-water supplies. The total provision amounts to Rs. 4,48,355 and the works are estimated to be sufficient to provide employment for 20 per cent. of the population of these tracts for three months.

6. The population given by the Collector in statement C having been found to differ from that given in the Census report in the case of the Goomsur taluk and the Agency tracts, as shown in the subjoined statement, the latter figures have been adopted. The Collector will be requested to report how he arrived at his figures and also why he has made provision in only three divisions of the agency tracts when there are really seven. Future programmes should show the percentage of population provided for in each division of a taluk.

Divisions as found in the Census report of 1891.	Population as given in the Census Report of 1891 (in thousands).	Population as given by Collector (in thousands).
Non-agency—		
Goomsur ...	186	186
Surada ...	16	16
Aska ...	109	109
Total ...	311	317

Balliguda ...	107	107
Udayagiri ...	71	71
Ichchhapuram*	1	1
Parlakimedi*	52	52
Sompeta*	5	5
Surada*	7	7
Total ...	307	299

* Not shown in the Collector's statement C.

7. Statement A.—(a) In the Mohiri division a sum of Rs. 7,000 is provided for repairing "one major irrigation work." Full particulars of the work should have been given, as the cost of the work exceeds Rs. 5,000 (*vide* rule 4 of paragraph 5 of B.P., No. 411, dated 7th June 1892).

(b) In the Chicacole division two sums of Rs. 30,500 and 90,630 are provided for "digging and spreading gravel" and for "collecting and spreading stone"; but the names of the roads on which these works are to be carried out are not given. Similar omissions occur in the Tekkali division and in the Ichchhapuram division. Such omissions should be avoided in future.

of three of the projects specified in the appendix to the Proceedings of the Board of Revenue, No. 264, dated the 2nd July 1894, bearing your rescript quoted above.

2. As regards the other projects referred to in the appendix, the Executive Engineer reports that nothing is known about them. Their investigation by this department does not appear to have ever been ordered.

ENCLOSURE.

STATEMENT showing famine works and the progress on investigation of each work.

Name of work.	Remarks.
1. Excavating Heerathara Nalla from Hammanpalli to Ateholi, including new sluices for converting Pandiya and Kanaka lands into wet—Approximate cost Rs. 10,000.	The sections of channel and other information have been received from the Sub-divisional officer. Plans for required masonry works, &c., have to be prepared and the sections and the information received from the Sub-divisional officer have to be checked.
2. Extension of Heeratharabatti beyond Dolibili Tampara to water Ateholi and Kumari lands and complete repairs to existing channels—Approximate cost Rs. 15,000.	Owing to the pressure of work in the Sub-division, the investigation is not continued.
3. Construction of an anicut across the Loharakhandy river near Guraba and digging channels on either side to divert water to several villages—Approximate cost, Rs. 12,000.	Under investigation and the result will be shortly communicated.

Endorsement by the Chief Engineer for Irrigation, dated Madras, 17th June 1895, No. 263-M.

Copy forwarded to the Board of Revenue (R.S., L.R. and Agri.), for information with reference to its Proceedings, No. 264, dated 2nd July 1894.

2. None of the projects can at present be considered as available for famine relief.

3. Work on the Ganjam-Gopalpur canal was stopped under G.O. No. 598 I., dated 4th December 1889.

RESOLUTION—dated 18th July 1895, No. 220.

The abstract of the programme of famine relief works for the Ganjam district during the current year, will be submitted for the information of Government.

2. The programme for the non-agency taluks of the district contains provision for the construction of 79 new irrigation works at a cost of 5.18 lakhs, and for repairs to existing works to cost 2.53 lakhs; for the construction of about 436 miles of new roads to cost 13.45 lakhs, and for repairs to old roads 14.24 lakhs; for works for the improvement of drinking-water supply 1.54 lakhs; and for other miscellaneous works 84 lakh. The last item includes a small sum of Rs. 15,400 for land improvements to be executed with the aid of State loans. The total provision amounts to Rs. 37,79,528, and the works are calculated to be sufficient to provide employment for 22 per cent. of the population of the area for a period of three months. The provision made in the Goomsur and Chicacole taluks and in the Mohiri and Ganjam divisions is below the prescribed minimum, the provision in the last-named division (which suffices for only 6 per cent. of the population) being altogether inadequate. The Collector is requested to take early steps to amplify the programme in the above cases. The mileage of new roads proposed is large and it is not clear whether, if these roads were made, the District Board could maintain them.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 24th May 1895, Mis. No. 2663:—

Read—the following letter from R. H. SHIPLEY, Esq., Acting Collector of Ganjám, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Chatrapur, 17th May 1895, Pl. No. 93-Ver.:—

I have the honour to submit, herewith, statements A and C relating to famine relief works proposed for 1895-96. Statement B has not yet been received from the Principal Assistant Collector and the Goomsur General Deputy Collector. Urgent reminders have been sent to them for the same, on receipt of which a general statement will be compiled and submitted.

2. The number and mileage of town and village roads entered in the A statement are not given. The Presidents of Taluk Boards have been called on to furnish the information which has not been submitted as yet. Steps will be taken for furnishing this information in the next programme.

3. The delay in the submission of the statements is due to the late receipt of returns from the Executive Engineer and Divisional officers, and to the receipt of Board's Proceedings, Mis. No. 2180, dated 29th April 1895, prescribing a revised form for statement C, when that statement in the old form was ready for despatch.

Resolution—dated 24th May 1895, Mis. No. 2663.

In the abstract statement C, which has been submitted by the Collector after a delay of over a month and a half, the number of persons for whom each of the different classes* of works in each taluk can provide employment in case of famine is not given separately. The required information should be furnished forthwith.

2. The instructions given in B.P., No. 2180, dated 29th April 1895, merely formulate those previously given in B.P., No. 411, dated 7th June 1892.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Collector of Ganjám.
