19 Read Correspondence ending with letter no $\frac{409}{29.6.95}$ from the Chairman, Municipal Council, Cocanada, regarding the reconstruction of the bridge over the Yeluru near Simson's lock at Cocanada.

The agreement entered into by the President with the Chairman of the Municipal Council subject to the approval of the Board as per the memorandum submitted is approved. The Board cannot accede to the prayer of the Council that the debt should be a perpetual one. The District Engineer is directed to prepare & submit plans & estimates as soon as possible for the following works:-

(1) A new girder bridge of sufficient span in place of that over the Yeluru which has fallen.

(2) A Siphon to replace the ~~low~~ girder conveying water to the Town of Cocanada.

(3) The repair or, if need be, reconstruction of the Robertson bridge.

18th, V A Brodie

(In school) President.

Vice President, District Board.

M 29/8

Memorandum.

Yelera Bridge-no 1

That the District Board shall reconstruct and maintain the Yelera Bridge near Simson's Lock and provide suitable means for carrying fresh water to the town in lieu of the present water girder and in Consideration thereof the Cocanada Municipality shall pay a contribution of $4\frac{1}{2}$ per cent on all money advanced for the said works by the said District Board.

The District Board besides maintaining the road way over the Bridge shall also maintain the bridge itself hereafter and no charges for maintenance shall be debitable to the municipality as Capital outlay. The amount advanced shall be repaid by the municipality by instalments of not less than Rs 1000.0.0 per annum commencing from the official year 1902-1903.

Robertson Bridge no 2.

That The District Board shall likewise maintain the Robertson Bridge on the boundary of the District Board and the Cocanada

municipality receiving, from the municipality,
a fixed contribution of Rs 100.0.0 per annum
from the current official year inclusive.

Main Bridge no 3.

That the question of the main Bridge between
Cocanada and Jagannakpur requires
no settlement at present.

GODAVARI DISTRICT.

Refon C No. 129/83 of 95

BOARD OFFICE 29th May 1895

FROM

U A Brooke Esquire
President

District Board Godavari.

TO

The Chief Secretary to Government,
Local and Municipal Department,
Madras.

SIR,

The municipal Council, Cocanada,
owns a bridge over the Yelera river near Simson's
Lock to the west of the Cocanada town. During
the floods of 1894, the bridge collapsed and
there has since been much correspondence on this
subject between Government and the Collector,
Godavari, in connection with the municipal
Council's endeavours to get itself relieved of the
responsibility of reconstructing the bridge.
Vide G.O. no. 864. M. M. S. dated 20th May 1895.
2. The Government having, however, directed
the municipal Council to have the bridge
restored immediately at its own cost, the latter
requested the District Board to help it

out of the difficulty as the municipality is
sadly in need of funds.

3 The District Board, which is also interested
to some extent, as the fall of the bridge renders
its road from Samalcotta to Cocanada useless &
causes inconvenience to the people of a good
many villages, thereupon resolved to take
upon itself the duty of reconstructing the
Bridge on certain conditions. A copy of the
District Board's Resolution no 19 together
13-7-95
with a copy of the memorandum therein
referred to containing the terms on which
the District Board has under-taken to restore
the Bridge is enclosed. I have therefore, the
honor now to request that Government may
be pleased to approve of the arrangement
entered into by the District Board with the municipal
Council. A copy of the municipal Council's resolution
accepting the conditions stipulated by the Board is also enclosed.

I have the honor to be

Sir
Yours most obedient servant,

Sanitary Engineer to Govt.

Proceedings of the Sanitary Board
No. 13 dated 24 June 1895.

Read G.O. dated 20 May 1895
No. 921 L. his: forwarding papers re-
lating to the handyal drainage
scheme for opinion as to certain
points specified.

Resolved that Government be
informed that the Board are of
opinion that the abolition of the
Handyal Tank would be advisable
regard to the danger

town stands in with respect to possible breaching of the bund, and the sanitary danger attending its influence upon the subsoil water within the town site. The question of abolition is however so closely connected with the feasibility of the scheme from a financial point of view, that the Board consider that with this expression of opinion the various points raised in the reports placed before them can best be disposed of by the Revenue Department.

2. The Board, however, are of opinion that the connection between the influence of irrigation within the ditch and subsoil water fluctuation within the town is demonstrable, and that its abolition is essential in the interests of the health of the inhabitants. To obtain the full sanitary results of this improvement, they also consider the stretch of wet cultivation immediately between the town and the tank should be prohibited.

Whether it be decided to retain the

tank or not, the surface drain shown in the plan submitted to the Board should be adopted.

LEM. DEPARTMENT.

C. No.

1837L

FOR ORDERS.

It seems to me that, at all
events to begin with, it will
suffice to cut the drains (4½
ft deep) shown by the dotted
red lines round the Fort &
down the river at the points
D + G. If this is done, the
wet culture, coloured green on
the plan will have to be aban-
doned, & so far as I can see
the people who own it will have
to be compensated - but will
also lose the mungah revenue
on the land. What this will
cost we don't know. I should
say we ought to find out before
going farther. Until this is
done I am not prepared
to say how far I will go in
helping the S. B.

MS

579/95

Please see the notes & orders in
go. 921. L.
20.5.95

The San. B. has gone beyond
the scope of the go. I said
that it is "advisable" that the
tent above the town (apparently
it means both the large & small
tents which are virtually one, see
plan) should be abolished.

Whether the danger to the town
& the adverse influence upon the
subsoil water level render it worth
while to do this appears to be a
question for the R.O., & this
part of the matter may be referred
there for disposal.

2. The San. B. says that
the prohibition of cultivation in
the Fort Ditch is "essential", &
that the drain between the town

1. The town should be dug.
3. The Dist. Bd. (Please see its resolution in G.O. 921. L. 20.5.95) asks Govt. to give it the Rs. 5000 required for the drain.

The balance available out of the 1/4 lakhs placed at the disposal of L. & M. for Public Works is Rs. 35,000. Rs. 10,000 has been allotted for the Brahmapur - Goundanpur road since the note for orders in G.O. 921. L. was written.

Orders are solicited as to whether the Bd. may be helped.

4. The extent of the cultivation in the Fort Ditch is not known. Mr. Mulla in his letter dated 15.10.94 in the printed Bd. in G.O. 921. L. says it is "small".

No compensation appears to have been paid for stopping bet cultivation in Kurnool as it was prohibited under the Towns Improvement Act (III of 1871) (vide please G.O. 2367 (Financial). 6.10.84).

In G.O. dated 19.11.90. No. 1740. M. The Cuddapah Council's attention was drawn to these papers, & from the D.M. Officer's letter in G.O. 1475. M. it appears

FOR ORDERS.

* G.O. 827 17.7.95 Financial.

not apparent as Act III of 1871 had by that time been repealed. Perhaps it was under Act 326 & 327 of the present Act (IV of 1902).

Mandral is not a Municipality, however, these sections don't apply. The Collector proposes

(vide para 15. of Rev. Dist. note in G.O. 921. L. 20.5.95) to do it under sec. 133. C.C.P. but the

Rev. Board do not consider this possible. Apparently, unless

Govt. considers this sec. may be applied, the only thing to do is to buy out the cultivators. What this Bd. cost may be ascertained from the Collector.

5. The Secy Bd. lately says that in order that the full benefit of the drain may be felt the bet cultivation between it & the tank should be stopped. The reason for this is not clear.

Not at all clear
MM

rain would remove surface
 fluous subsoil water.
 The matter, however, is one
 for the Rev. Dep. & the
 decision on it may be left to
 it. Probable it would be
 well to watch the effect of
 the drain first.
 W.S. 29/95 4/9/95.

Drainage &
 improvement of
 Nandyal town
 H.M.
 I certainly think so
 (for orders).

Memo.
 The papers were telegraphed
 pending production from
 Rev. Dep. of papers relating to
 compensation in Kurnool
 concerning which H.M. had
 asked for information.

papers, & from the D.M. Officer's

Again G.O., dated 20th May 1895, No. 921. d
 Again G.O., dated 189 , No.
 Current No. 1837 1/2 of 1895, dated 27th June 1895 from the Secy. Commr for Madras, &
 " " " 189 " " " See Secy. Bd. Sub-Committee on
 " " " 189 " " " "

ORDER. 12-9-95. No. 1669 Lins

The Govt. Before adopting the
 more sweeping proposals of the
 San. Board the Govt. would
 prefer to watch the effect upon
 the health of the town of cutting
 to a depth of four & a half feet
 the drain, passing round the town
 & terminating both ways in the
 weir, which is shown by a dotted
 red line on the plan referred to
 in the Board's proceedings.

2. The execution of this work
 would necessitate the abandonment
 of the wet cultivation both in the
 Port Ditch & in survey fields Nos.
 829 — 832, 834, 835, 837 — 839,
 814, and 1906, coloured green
 upon the plan. The Govt.
 does not consider that this
 cultivation can be legally

would remove ^{super-}oil water.
 prohibited under ^{is one}
 Crim. Procedure, as has been
 suggested by the Collector, is
 of opinion that the owners of the
 land must be compensated for the
 loss which the prohibition ^{would}
 entail. The Govt. ^{would} also lose
 the difference between the ^{old} & ^{new}
 assessment on this cultivation.

3. The Collector of Kurnool will
 be requested to report the amount of
 revenue that ^{would} be lost to Govt.
 if this wet cultivation is prohibited, &
 the sum that it ^{would} be necessary
 to award as compensation to the
 owners of it. Upon receipt of this
 information Govt. will be in a
 position to determine the proportion
 of the cost of the work that may
 be fairly contributed from Prov.
 funds.

4. The grounds upon which
 the San. Bd. consider that "to
 obtain the full sanitary results of
 this improvement the stretch of
 wet cultivation immediately between
 the town & the tank sh^d. be pro-
 hibited" are not clear

Mr. Rigg
