RECEIVED.

No. III—For Upper Secondary or High Schools.

PUBLIC INSTRUCTION.

To be returned

No. 10927/2812

Central Educational Circle,

Bellary District.

No. 514/13

INSPECTION REPORT FOR 1894-95.

Name of School	Municipal High School Bellary
By whom managed	Municipal Council Bellary
Number and date of Proceedings recognizing the school under the Madras Educational Rules.	Temporary Sanction G.628 dt 21st August 1891.
Date of Examination	November 21. 1894
Number of hours spent in Examination ...	Sub Assistant Six Inspector — Eight } 14
Date of Report	November 24, 1894
Date of Despatch	December 24. 1894
Date of the last preceding Examination ...	20th, 21st and 25th April 1893

3/228 Inspgs

Instructions for the Preparation of the Report.

1. The name of the school, as recognized by the Department, should be entered in full on the title-page.

2. Except in the case of schools directly managed by Government or by a Local Board, the names of responsible Managers should be given in full on the title-page.

3. Any explanation which the Manager or Head Master of a school may desire to give regarding each table (Tables *g*, *h* and *j* excepted), should be given in the space allotted for the purpose.

4. The remarks of the Inspecting Officers should find place, as far as practicable, in the space allotted for the purpose. Whether the defects noticed in the last review have been remedied should be noted by the Inspecting officer in the column for remarks belonging to the table or statement to which the defects refer. *Only such general remarks as cannot appropriately be entered in the form should appear in a covering letter.*

5. *Table* (*a*).—Managers should afford the Inspecting officer facilities for verifying the accounts. If any important change has taken place in the receipts or expenditure of the institution since the close of the year, so as to alter materially its financial position, the facts should be noted in the blank page. The net cost of the institution to the Manager should be shown against (6).

6. *Table* (*b*).—(1) The names and other particulars of acting as well as permanent incumbents should be shown in this table.

(2) In column 7, it should be stated whether the teacher holds a 'trained-teacher's certificate' or an 'untrained-teachers certificate,' or is 'uncertificated.' If in addition he holds a technical certificate, the words 'Technical certificate in _____' should be inserted. The date of the certificate should be given. Teachers must produce their certificates when required by the Inspecting Officer at the time of inspection.

(3) Under "Payments from Manager's Funds," in the case of members of religious societies, the rate of salary on which the grant is allowed *minus* the grant should be entered. In cases where no grant is allowed and no salaries are fixed, the salary of the teacher should be fixed according to the Manager's estimate of the value of the teacher's services.

(4) Gymnastic, drill and other special instructors should be included in this table, but not menial servants.

7. *Table* (*b*2).— The Inspecting officers should note their opinion on the work of the teachers in the column for remarks.

8. *Table* (*c*).—(1) Explanation should be furnished in the appropriate column regarding fluctuations in attendance.

(2) Explanation should be furnished regarding pupils admitted without Vaccination certificates where such certificates are required by the rules.

9. *Table* (*e*).—In column 8 only such pupils as cannot be shown under other heads should be entered.

10. In column 17 only pupils, whose parents' or guardians' occupation cannot after reasonable inquiry be ascertained, should be entered.

11. *Table* (*f*).—The fee registers should be produced for inspection. The Inspecting officer should not only examine carefully the record of the terms concerned,

but note any irregularity. It should also be noted whether the registers are kept in the forms prescribed in the Educational Rules.

12. Column 12 should show boarders specially exempted from payment of school fees.

13. Column 10 should exhibit Muhammadan, Uriya or other pupils who are allowed to pay fees at favourable rates.

When the percentage of wholly free and partially free pupils exceeds the fixed limit, explanation should be given in column for remarks.

14. If fees are levied at rates other than those fixed in the Fee Notification, the date of the general or special sanction should be entered in the column for remarks. It should also be noted whether fees are levied monthly or by the term; and if the latter whether they are paid in full at the beginning of the term or by instalments. In the case of pupils admitted after the beginning of the term, it should be stated whether they produced acquittance or leaving certificates.

15. *Table* (*g*).—(1) How far the rules of recognition are fulfilled should be noted in this statement. The word "Yes" should be entered against each head if the rule is completely satisfied. If the rule is not satisfied the defects noticed should be entered. No entries should be made by the Manager either in this statement or in the subsidiary table.

(2) In the case of schools which have been recognized recently or since the last inspection, the entries in the Manager's application for recognition should be verified as directed in circular memorandum No. 7838, dated 10th July 1891.

16. *Table* (*h*).—The results of two consecutive years should be compared in this table.

17. The names of teachers chiefly responsible for the results of the various public examinations should be shown in the column specially provided for the purpose.

18. *Table* (*j*).—If in the opinion of the Inspecting officers the progress made in any particular subject is not satisfactory, they should note the same in the column for remarks with their opinion on the explanation offered if any.

19. It is desirable that the scrutiny of registers should, as far as possible, be conducted within the school premises, and the registers should not be taken away from the school except under circumstances in which their submission in original to the controlling officers is deemed necessary or when there are important omissions or irregularities requiring very careful scrutiny.

N.B.—*It is particularly requested that all entries in this form be made on ruled pencil lines.*

Upper Secondary / Lower Secondary

Year	Upper Secondary: Boys on Roll on 31st March	Upper Secondary: School fee	Upper Secondary: Net Cost	Upper Secondary: Average Net Cost per pupil	Lower Secondary: Boys on Roll on 31st March	Lower Secondary: School fee	Lower Secondary: Net Cost	Lower Secondary: Average Net Cost per pupil
1891–92	51	1347	1022	20	75	1428	928	12
1892–93	68	1688	1367	20	110	1463	1594	14
1893–94	62	2196	1744	28	124	1815	981	7

Inspecting Officer's Remarks.

With increased attendance and as the staff is trained, the income from fees and salary grant will rise and the net cost should diminish.

A part of this net cost may be regarded as a set off against the aid which the Municipal Council would give to this institution if it were not a Municipal School.

The steady fall in the net cost, as shewn in the opposite column, is noted.

(b) *Teaching Staff.*

Name of Teacher.	Age.	Appointment.	Forms or classes taught with number of hours devoted to each per week.	No. of hours devoted to teaching each day. N.B.—The exercises performed simultaneously by a class should be reported on generally, and those done individually, particularly.

(l). The general impression of the Inspecting Officer with respect to the efficiency of the institution from a scholastic point of view, and regarding the dress and manners of the pupils and discipline and tone of the institution.

The school is doing good work and judging from the large increase in the attendance appears to be very popular in the town.

The discipline and tone of the whole institution were very good and the dress and manners of the pupils left nothing to be desired.

The results of the Public examinations were very poor both in the matriculation and the Lower Secondary examination. At the Inspection the Upper forms did very well, the lower forms fairly, except Form III which was bad.

The new building, the erection of which was, I understand, long ago sanctioned by Government, has not yet been begun.

All the records and registers of the school are most neatly and methodically kept. The state of these records reflects much credit on the Headmaster.

For the excellent library in the school, it would be well to have a printed catalogue.

(Signed) E. Marsden.

10. - Do - A. Gopalswamy Naidu Garu

The further Consideration of the Administration Report.

Proposed by Mr C Roy V. Sreenivasa Row Garu that all allusion to the approval by Surgeon Captain Bannerman and the Surgeon-General be

...ted — Seconded by
...by D. Krishnamachariu
Garu.

Amendment by the Hon:
Rao Bahadur A. Sabapathy
Mooda. Anergal that the
reference to the Remarks
of the Surgeon-General be
Extracted into the Report
Seconded by MBBy K. Runga.
Row Garu —

The proposer and the Seconder
with drew their proposition in
favor of the Amendment
viz: to omit reference to Sur=
=gon Captain Bannerman
and Extract only the re=
=marks of the Surgeon C
General without any Com=
=ment.

Carried by majority C
Ns. C. E. Plunkett voting C
against and MBBy T.
Hunpygah Garu not voting

Proposed by MBBy D.
Krishnamachariu Garu
that in the place of approval
by Dr. J. A. Laing, the
Approval by the Sanitary
Board be mentioned
Report and Seconded by
the Hon: A. Sabapathy Mooda.
Anergal Rao Bahadur

Carried Unanimously

Proposed by MBBy D. Krishna
=macharlu Garu and C
Seconded by MBBy T. E. Chetta=
=permal Ellaay Anergal
that the paragraph referring
to the Consideration of Dr. Jo
Evans Objections when a Site
was Selected, be omitted.

Amendment by MBBy K.
Sreenivasa Rao Garu that,
instead of omitting the para,
it might be altered into the
objections noted by Dr. Jo.
Evans might well be taken
have been Considered when
the Site was Selected".

Amendment not Seconded
Proposition Carried out by
majority —

Proposed by MBBy H. Cole=
=ingam Anergal that in the
place of para 5-8, the following
be substituted :-

"The Director of Public

tion in his remarks on
the Budget for 1895-96. Suggested
the advisability of doing away
with the upper Secondary
Department of the Municipal
High School and working it
as a Lower Secondary School
as there is already a well
Conducted Second Grade College
in the Town. The Council Consi-
-dered the above suggestion
and resolved not to abolish
the upper Secondary depart-
-ment of the Municipal High
School but to maintain it as
the actual Expenditure on
Education during the last
three years has not exceeded
the 15 percent limit.

Seconded by Mr C. E. Plunkett

10. Do B. Cuttiah Chetty Garu.
11. Surgeon Major J. W. Evans.

The further Consideration of the Administration Report.

A Second Amendment proposed by Mr. C. E. Plunkett that all the present paragraphs respecting to the Lying in Hospital Building be scored out and the following be entered in their place.

the new Lying-in Hospital
the Completion of the Construc=
=tion of which was reported
in the Report for 1893-94 was
not opened during the year
under report. It was in=
=spected by the Chairman
and several of the Councillors
on the 24th April 1894 prior
to the building being taken
over by the Council from the
Contractor. The result of
this inspection was that several
objections were raised by
many of the Councillors
on the ground of defective
workmanship incomplete=
=ness &c. These objections
were considered at the
Council meeting of 8th May 94.
and it was then resolved to
erect a compound wall
round the premises and to
make certain improve=
=ments to the matron's
Quarters. This caused a
delay; moreover there was
a claim made by the
Contractor for additional
payment for certain altera=
=tions in the Original Estimate

that he alleged he ha
=cated. This claim was
=ferred to the Public Works
Sub Committee for further re=
=port and caused more
delay, so that the building
was not finally handed
over to the Council by the
Contractor before the 19th
January 1895; the present
District Medical and Sanit=
=ary Officer then pointed out
certain grave objections to the
Site of the new building
and he suggested its sale,
as there was every probability
of effecting this without ma=
=terial loss to the Council
and the Selection of another
more suitable Site. At their
meeting of 26th February 95
the Council Considered the
District Medical and Sanit=
=ary Officer's suggestions and
unanimously resolved to
adopt them - a special Sub
Committee was appointed
to receive offers from intend=
=ing purchasers for the present
building and to select a new
Site;

... no record before this resolution was given effect to, the year under report Expired. No answer being yet received from the Sub Committee, a reminder will be sent to them to Expedite the Same.

The present building was also inspected by the Surgeon General with the Govern= =ment of Madras on the 21st September 1894. when he regarded it as well c adopted for the purpose for which it was built- but re= =marked that it is a pity it is sited where it is. He also recommended the C Council's reconsideration of their resolution of 8th may 1894. when many of the c Suggestions made after c personal inspection by Some of the Councillors were not adopted, Such as the provision of a well of C. Servants Quarters Etc. with regard to none of which has anything been done as yet.

This is not an Amendment of the Original proposition or its Amendment.

The Hon: Rao Bahadur A. Sabapathy Moodeliar Anver= =gal proposes to withdraw his Proposition and Dr. J.W. Evans is absent and to the the Sanction of the C Council the Proposition of the Hon: Rao Bahadur A Sabapathy Mood= =Anergal is permitted to be withdrawn — The Amend= =ment of M.Roby K. Sreene= =vasa Rao Agaree falls C throughs Accordingly.

Proposed by Mr. C. E. Plunkett And Seconded by M.Roby J.B. Coteling and Anergal that all the paragraphs C referring to the Lying-in= =Hospital Building be Scored out and the lines under quotation (vide below the above mentioned Second Amendment) be Entered in their places.

The

The proposition is not carried
5 Voting for and 8 against.

Meeting adjourned to
tomorrow at 9.30 Am. it
being now 9.30 Am.

1667

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From M.R.Ry. C. RAMASESHA IYER, Avargal, B.A., Ex-officio Chairman, Municipal Council, Bellary, to the Chief Secretary to Government (through the Revenue Officer in charge of division, Bellary), dated 2nd July 1895, No. 2201.

I have the honour to submit the report for the official year 1894–95 on the working of the Madras District Municipalities Act IV of 1884 in the Municipality of Bellary, together with the statements required in G.O., No. 2193 M., dated 10th December 1891, as well as Statements Nos. I, II, III and IV of the Assistant Inspector of Schools, Third Division, and the report of the District Medical and Sanitary Officer on the working of the Sabapathi Mudaliar hospital and the branch dispensaries located in Bruce Petta and Cowle Bazaar.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. The maximum number of councillors is 24, of whom one is ex-officio, five are nominated and eighteen elected. At the commencement of the year, the council contained sixteen members and at the close of the year there were 21. During the year, thirteen vacancies occurred in the council—two among the nominated councillors and eleven among the elected councillors. The vacancies among the nominated councillors and nine vacancies out of twelve including the one referred to in G.O., No. 284 M., Mis., dated 9th March 1894, among elected councillors, were filled up during the year. Elections for filling up the remaining three vacancies were also held during the year, but the appointments were gazetted in the year 1895–96.

3. During the year under report twelve elections were held—five on 10th May 1894, four on 12th May 1894, two on 2nd March 1895 and one on 23rd March 1895—for filling up the vacancies in wards Nos. II, III, IV, V, VI, VII, VIII and IX. The elections in wards Nos. II, III, IV, VIII and IX were contested. As the number of valid nominations was the same as that of the vacancies, in wards Nos II, V, VI and VII no elections were held under rule 22 (*b*) of the rules for the conduct of elections. Out of 144 registered voters in ward No. II, 266 in ward No. III, 281 in ward No. III (according to the new list), 258 in ward No. IV, 41 in ward No. VIII and 277 in ward No. IX, six, 52, 140, 147, 27 and 88 voters went to the poll respectively. Reports containing full particulars regarding the elections were submitted to Government in my letters Nos. 1052, dated 2nd June 1894, 12338, dated 14th March 1895 and 6, dated 31st March 1895.

4. The council held 52 meetings during the year, excluding two meetings that were adjourned for want of quorum against fifty in the previous year. The average attendance at each meeting was twelve ; the largest number of councillors present at any one meeting was eighteen and the smallest six.

II.—RECEIPTS.

5. The budget and the revised estimate for the year 1894–95 were reviewed by Government in their orders, Nos. 193 M., Local and Municipal, dated 21st February 1894, and 162 M., Local and Municipal, dated 4th February 1895 respectively.

6. The actual receipts of the year, exclusive of the opening balance, amounted to Rs. 81,070–3–7 against Rs. 76,260 of the revised estimate and Rs. 82,175, the actuals of the previous year. The increase over the revised estimate occurred chiefly under "Tax on Arts," "Tax on Buildings," "Tax on Vehicles," "Tax on Animals," "Tax on Carts," "Fees from Educational Institutions," "Fines under Municipal and other Acts," "Grant from Government—(iii) Other purposes" and "Private scavenging," and it is counterbalanced by a slight falling off under "Rent of Lands," "Avenue Receipts," "Sale-proceeds of old materials," "Income from Markets" and "Grants from Government on account of Municipal schools." The slight decrease under the actuals of the previous year is chiefly due to smaller realization of outstanding arrears under "Tax on Buildings" and under "Fines under Municipal and other Acts." In the former case the outstanding arrears were irrecoverable and in the latter case, the fines levied by the Bench Magistrates were rather low. This decrease is counterbalanced partly by an increase under collections of current taxes.

7. *Receipts from Taxation*—(2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts.*—This tax was revised during the year and levied on the first seven classes of schedule A of the Act. The demand registers were prepared in the month of May 1894. The original current demand was Rs. 10,281–8–0 against Rs. 10,355 of the previous year; the number of appeals preferred against the imposition of the tax was 168 against 193 in the previous year. All the appeals were disposed of during the year. In 93 cases the tax was confirmed, in 16 reduced, in 18 remitted, and 41 appeals were dismissed being time-barred and unaccompanied with the required amount of deposit. The remissions granted by the council on hearing appeals amounted to Rs. 126 against Rs. 226–8–0 of the previous year. Of the final demand of Rs. 10,155–8–0, the sum of Rs. 9,641–3–0 was realized against Rs. 9,250 of the previous year, leaving a balance of Rs. 514–5–0 against Rs. 878–8–0 of the previous year. The arrears outstanding at the commencement of the year amounted to Rs. 1,421 against Rupees 2,346–8–0 of the previous year, of which Rs. 74 were collected against Rs. 641 in the previous year; Rs. 534 were written off the accounts by the council as irrecoverable as recommended by the sub committees to whom the arrear lists were referred for personal enquiry and report. The council is satisfied that these arrears are irrecoverable and that there is no use in retaining them on the books. There is still a balance of Rs. 813 relating to the year 1893–94. This amount has been reported by the officers charged with the execution of warrants to be irrecoverable. The lists in these cases have been referred to the sub-committees for verification. On hearing from them the amount will be adjusted.

8. (*b*) *Tax on Buildings.*—The assessment on buildings that were materially enlarged and improved was revised during the year, and new houses erected during the year were brought under taxation. As in the previous year, the tax was levied at the maximum rate of 7½ per cent. of the annual rent value. The annual value is estimated on the annual rent for which the houses are let as far as it could be ascertained, and on the probable rent if the houses are in the occupation of the owners themselves, due consideration being given to the importance of the locality in which the houses are situated. The demand registers were prepared in the month of April 1894. The total current demand of the tax was Rs. 28,195–12–11 against Rupees 28,162–14–6 of the previous year; the remissions granted by the council on appeal amounted to Rs. 102–5–10; the demand as finally settled was Rs. 28,093–7–1, of which Rs. 27,092–11–6 were collected against Rs. 26,631–9–2 of the previous year. The remissions granted on account of vacant houses amounted to As. 11–2, and Rupees 1,000–0–5 were outstanding at the close of the year against Rs. 1,232–3–11 of the previous year. The arrears outstanding at the beginning of the year amounted to Rs. 2,262–6–4 against Rs. 4,598–14–11 of the previous year, of which Rs. 664–10–8 were realized against Rs. 2,056–5–3 of the previous year, Rs. 45 were remitted and Rs. 689–12–10 were written off the accounts by the council as irrecoverable as recommended by the sub-committees to whom the arrear lists were referred for personal enquiry and report. The council is satisfied that these arrears are irrecoverable. There is still a balance of Rs. 862–14–10 against Rs. 1,030–2–5 of the previous year. The lists of arrears have been forwarded to the sub-committees for

personal enquiry and report. On receipt of their reports, the amount will be adjusted. Eighty-nine appeals were preferred against the assessment on houses. All the appeals were disposed of during the year. In 29 cases the tax was confirmed, in nineteen reduced, in four remitted, and 37 appeals were dismissed being time-barred and unaccompanied with the required deposit.

9. Out of 14,126 houses in the municipality according to the census of 1891, 10,657 were brought under assessment. All houses, the annual rent value of which is less than Rs. 6, were exempted from taxation, provided they were the owner's sole property liable to taxation. For the purpose of census, every detached building, whatever was its rental value and whether it was a main building or an out-house, when used for dwelling purposes, was separately numbered. The Government military buildings and sepoys' huts situated in the Cantonment, for which no tax is paid, are not included in the number of houses assessed. Hence the difference between the number of houses as per census and that brought under assessment.

10. (*c*) *Tax on Lands.*—This tax was levied at 2 pies per 80 square yards and based upon the actual extent of land. The demand register was prepared in the month of April 1894. Out of the current demand of Rs. 638, Rs. 548–8–9 were realized against Rs. 561–4–6 in the previous year, leaving a balance of Rs. 89–7–3 at the close of the year. No appeals were preferred against the assessment on lands. The arrears outstanding at the commencement of the year amounted to Rs. 146–14–10, of which Rs. 2–9–4 were collected and Rs. 70–3–4 were written off the accounts by the council as irrecoverable, as recommended by the sub-committee to whom the arrear list was referred for personal enquiry and report. There is still a balance of Rs. 74–2–2 relating to the year 1893–94 to be adjusted during the current year 1895–96. The extent of taxable land within the municipality being very limited, there is no room for increase of tax under this head. The Tahsildar of Bellary has been requested to furnish a list of lands according to recent survey. On receipt of the necessary information from him, the demand register will be revised.

11. (*e*) *Tax on Vehicles.*—Rs. 1,129–8–0 were collected during the year for the two half years, against Rs. 1,000 of the revised estimate and Rs. 981, the actuals of the previous year. The number of notices of demand issued for the collection of the tax was 154. No prosecutions were instituted for failure to take out licenses, as the owners obtained licenses on the simple presentation of distress warrants.

12. (*f*) *Tax on Animals.*—This tax realized Rs. 1,800–4–0 against the revised estimate of Rs. 1,700 and the actuals of Rs. 1,777 in the previous year. The number of demand notices issued for the collection of the tax was 251. No prosecutions were instituted for failure to take out licenses under this head, as the tax was paid upon the issue of distress warrants.

13. (*g*) *Tax on Carts.*—The income derived from registration of carts amounted to Rs. 1,313–8–0 against Rs. 1,200 of the revised estimate and Rs. 1,265, the actuals of the previous year. The Sanitary Inspectors of Bruce Petta and Cowle Bazaar and the Prosecuting Inspector, who were, as usual, authorized to seize unregistered carts, seized 419 carts and sent them over to the municipal office for registration; 418 were returned to the owners on their taking out licenses for them and the remaining one cart was sold by public auction.

14. (*h*) *Tolls.*—There were fourteen toll-gates as in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act, and they were leased out for the year for Rs. 20,050 against Rs. 20,150 in the previous year. The toll contract for the year 1894–95 was sold on the 13th March 1894. The decrease under the revised estimate is slight and calls for no remarks. The whole of the contracted sum was realized by monthly instalments before the close of the year, and the usual contribution of one-third of the revenue, amounting to Rs. 6,683–8–3, was paid to the District Board for through traffic before the close of the year. The gross receipts from tolls including interest on overdue kists amounted to Rs. 20,050–8–11.

15. (3) *Realizations under Special Acts*—(*c*) *Fees under Act II of* 1888.—Rs. 90 were realized under this head, against the revised estimate of Rs. 50 and the actuals of Rs. 60 of the previous year, on account of licenses issued for the erection

of a pandal for amateur dramatic performances and for the use of a place of public resort (for circus performances) under G.O., No. 1460 M., dated 10th September 1891.

16. (4) *Revenue derived from Municipal Property and Powers apart from Taxation* (*a*) (i) *Rent of Lands.*— Rs. 162–11–5 were realized against Rs. 200 of the revised estimate and Rs. 212, the actuals of the previous year, for storing building materials in public streets. The decrease is due to a smaller number of owners of houses having utilized municipal ground for storing building materials.

17. (iii) *Avenue Receipts.*—Rs. 113–5–0 were realized by the sale of decayed trees and avenue clippings against Rs. 200 of the revised estimate and Rs. 120, the actuals of the previous year. This is a fluctuating item and calls for no remarks.

18. (*b*) (i) *Sale-proceeds of Lands and Buildings.*—No income was derived under this head, as no immovable property vested in the council was sold during the year.

19. (iii) *Sale-proceeds of Old Materials, Empty Oil-cans, Packing Cases, &c.*— Rs. 9–12–6 were realized against the revised estimate of Rs. 50 and the actuals of Rs. 359 in the previous year. This is a fluctuating item and calls for no remarks.

20. (*c*) *Conservancy Receipts—Sale-proceeds of Night-soil, Street Refuse, &c.*— Rs. 249–8–11 were realized by the sale of bratties made of the dung collected in the municipal cattle-yard and of street sweepings, against the revised estimate of Rs. 200 and the actuals of Rs. 202 in the previous year. No income was derived from the sale of night-soil during the year as it was buried in trenches, there being no demand for it as manure. The number of cart loads of street sweepings removed daily from Bruce Petta, Civil Lines, Cowle Bazaar and Cantonment was 80, and the number for the whole year was about 29,200. Four thousand eight hundred and ninety-four cart loads were sold to and removed by ryots in Bruce Petta and 12,306 cart loads were removed by the ryots of Cowle Bazaar free of charge, as there was no demand for it in Cowle Bazaar. About 12,000 cart loads were burnt in cinerators. The number of cart loads of night-soil removed daily from private and public latrines in Bruce Petta, Civil Lines, Cowle Bazaar and Cantonment was 18, and the number for the whole year was about 6,600.

21. (*d*) (i) *Fees from Educational Institutions.*—Rs. 5,243–5–1 were realized against Rs. 4,200 of the revised estimate and Rs. 4,566, the actuals of the previous year. The increase over the revised estimate is due to the increase in the strength of the municipal high school and the municipal anglo-vernacular primary school.

22. (ii) *Other Revenue from Educational Institutions* (*Sale of Books.*)—Rs. 118–13–3 were realized by the sale of books from the municipal book depôt against the revised estimate of Rs. 100 and Rs. 22, the actuals of the previous year. The stock of books in the book depôt was sold by public auction and the book depôt was abolished before the close of the year in accordance with the resolution of the council passed at its meeting held on 10th January 1893. Hence the increase over the revised estimate.

23. (*e*) (i) *Sale-proceeds and Composition Fees of Medicines.*—The income derived from the sale of medicines from the Sabapathi Mudaliar hospital amounted to Rs. 198–9–5 against the revised estimate of Rs. 200, the actuals of the previous year being Rs. 96. During the year eight gentlemen paid their yearly subscription of Rs. 6 each in advance for the supply of medicines from the Sabapathi Mudaliar hospital and the dispensaries to them and their families in accordance with the resolution of the council passed at its meeting held on the 15th May 1894.

24. (ii) *Other Hospital Receipts.*—Rs. 30–3–4 were realized under this head against the revised estimate of Rs. 20 and the actuals of Rs. 23 of the previous year. This sum includes dieting charges recovered from patients in the Sabapathi Mudaliar hospital and the sale-proceeds of packing cases received from the Medical Stores.

25. (*f*) (i) *Income from Markets.*—The fees realized amounted to Rs. 164–2–3 against Rs. 200 of the revised estimate and Rs. 163, the actuals of the previous year. The council maintained two markets in the town—one in Bruce Petta and the other in Cowle Bazaar. The vegetable market in Bruce Petta was held on Fridays on a piece of open ground in front of the municipal branch dispensary. Most of the

stalls in the Cowle Bazaar market built some years ago at a cost of upwards of Rs. 14,000 were unoccupied. Eleven stalls only were occupied during the year. The council is unable to compel vendors of vegetables and shopkeepers to open their shops in these stalls for want of provision in the District Municipalities Act IV of 1884. This matter has already been brought to the notice of Government in the previous reports. Persons exposing vegetables and other articles for sale on the side of public roads were prosecuted both by the police and the municipal council. The collection of market fees in the Bruce Petta vegetable market is effected departmentally under the supervision of a municipal councillor, and counterfoil receipts are granted to vendors for payment of fees.

26. (ii) *Income from Slaughter-houses.*—Rs. 3,308–5–10 were realized against Rs. 3,300 of the revised estimate and Rs. 3,118, the actuals in the previous year. The increase over the actuals of the previous year is due to keen competition at the sale of the contracts. There are four slaughter-houses—one in Bruce Petta and three in Cowle Bazaar. The collection of fees in the slaughter-houses was leased to contractors. Forty-four prosecutions were instituted against persons for slaughtering sheep in other than slaughter-houses without obtaining licenses. Forty-two persons were convicted.

27. (*g*) *Other Fees*—(i) *Distraint Fees.*—Rs. 6–2–4 were realized against the revised estimate of Rs. 50 and the actuals of Rs. 7 in the previous year. The number of distraint warrants pending at the commencement of the year was 3,502. The number issued during the year was 5,691. In 4,700 cases the taxes were collected on simple presentation of warrants before distraint. In 2,549 cases warrants were cancelled. In 63 cases property was distrained. In 29 cases property was returned on payment of the tax, and in 34 cases property was sold by public auction for realization of the tax. In 1,881 cases the officers charged with the execution of warrants have endorsed to the effect that the amounts could not be realized. Pending the report of the sub-committees as to the correctness of the statements made by the officers charged with the execution of warrants, the amounts cannot be written off and the warrants cancelled. These warrants are shown under column 10 of appendix A to statements IV-A and IV-B as warrants remaining unexecuted at the close of the year.

28. (ii) *License Fees.*—The fees realized under this head amounted to Rupees 1,634–7–9 against the revised estimate of Rs. 1,510 and the actuals of Rs. 1,351 of the previous year. The increase over the revised estimate is due to a larger number of persons having taken out licenses for offensive and dangerous trades than what was expected. Sixty-seven prosecutions were instituted against defaulters for not taking out licenses as particularized below :—

	NO.
Firewood depôts	10
Timber depôts	3
Oil mills	3
Brick kilns	2
Lime kiln	1
Places for storing skins	10
Place for the sale of straw	1
Depositing grain in the public street	35
Manufactory of fire-works	1
Dyeing house	1

29. (iii) *Cart-stand Fees.*—There were three cart-stands—two in Bruce Petta and one in Cowle Bazaar. They were, as usual, leased out to contractors. The realizations amounted to Rs. 507–12–2 against the revised estimate of Rs. 500, the actuals of the previous year being Rs. 653. The whole of the contracted sum was collected in monthly instalments before the close of the year.

30. (iv) *Other Fees.*—Rs. 15–14–0 were realized on account of fees for copying extracts from registers of births and deaths and house-tax registers and miscellaneous petitions against the revised estimate of Rs. 10, the actuals of the previous year being Rs. 7.

31. (*h*) *Fines under Municipal and other Acts.*—Rs. 3,102–15–6 were realised under this head, against Rs. 2,500 of the revised estimate, and Rs. 3,542, the actuals of the previous year. The total number of cases prosecuted under the District Municipalities Act, IV of 1884, and the Bye-laws and the Towns Nuisances Act, III of 1889, was 1,553 against 1,457 in the previous year. This number does not include the 2,004 cases prosecuted by the police under the Towns Nuisances Act, III of 1889, and the District Municipalities Act, IV of 1884.

32. (i) *Interest on Investments*—(iii) *Medical.*—Rs. 112–3–7, being the interest which accrued on the funded capital of Rs. 2,500 of the Sabapathi Mudaliar hospital, was realised, against the revised estimate of Rs. 100, and Rs. 102, the actuals of the previous year.

33. (5) *Grants and Contributions*—(*a*) *From Government*—(i) *Education—Municipal Schools.*—The realisations under this head amounted to Rs. 1,317–14–0 against the revised estimate of Rs. 1,500, the actuals in the previous year being Rs. 1,625. No grant was drawn on behalf of M.R.Ry. O. Gopala Pillai, B.A., Second Assistant, as he has not passed the Practical Test, and of the Tamil pandit from 1st June 1894, as the appointment was abolished, as suggested by the Director of Public Instruction in his letter, No. 320, dated 17th January 1894, embodied in G.O., dated 21st February 1894, No. 193 M., Local and Municipal. An application for increased grants on behalf of the headmaster and the first assistant of the municipal high school was submitted to the Acting Director of Public Instruction, but that officer, in his Proceedings, No. 8282, dated 4th September 1894, stated that owing to the exiguity of the finances of the department, he was unable to sanction the increased grants applied for. The application was renewed on 6th February 1895 for reconsideration, but the Director of Public Instruction, in his Proceedings, No. 2611, dated 5th March 1895, stated that he was unable to reconsider the orders passed in Proceedings, No. 8282, dated 4th September 1894, quoted above. Hence the decrease under the revised estimate.

34. (iii) *Other Purposes—Sanitation.*—Rs. 3,194–4–0 were realized from Government on account of the conservancy of military lines in the cantonment, against the revised estimate of Rs. 3,200, the actuals in the previous year being Rs. 3,195.

35. *Other Purposes—Compensation for exemption of Military Officers from Municipal Taxes.*—Rs. 709–8–0 were realized from Government, against the revised estimate of Rs. 600, and Rs. 462, the actuals of the previous year. The increase over the revised estimate and the actuals of the previous year is due to the recovery from the Pay Examiner, Military Accounts Department, during the year, of Rs. 114–8–0, being profession tax of the officers of the 1st Battalion, Cheshire Regiment, for the half-year ending 31st March 1894.

36. (*b*) *From Local Boards*—(ii) *Medical.*—Rs. 1,200 were realized from the District Board of Bellary as usual on account of contribution for the Sabapathi Mudaliar hospital.

37. (6) *Miscellaneous*—(*a*) *Recoveries on account of Services rendered to Private Individuals*—(i) *Private Scavenging.*—The current demand amounted to Rs. 3,609–4–8, of which Rs. 3,236–10–4 were realized against Rs. 3,245–10–8 of the previous year. Rs. 372–10–4 were outstanding on 31st March 1895. This balance is irrecoverable as the occupiers of the houses to which the latrines are attached have left the station and as certain latrines were not in use. This amount will be written off the accounts during the current official year 1895–96. The arrears outstanding at the commencement of the year amounted to Rs. 304–12–8, of which Rs. 143–5–4 were collected and Rs. 161–7–4 for 1893–94 were written off the accounts as irrecoverable, as recommended by the sub-committees to whom the arrear lists were referred for personal enquiry and report. During the year the fees were levied at 8 pies per head per month and collected quarterly as usual and the number of private latrines cleaned by municipal agency rose from 1,517 to 1,576. The demand registers were prepared in April 1894.

38. During the year there were in all 2,492 private latrines or places used as such including the number under municipal agency. All possible efforts were used to keep the premises in a sanitary state.

39. In six cases notices were issued to put up latrines in proper order, in 98 cases to remove rubbish from premises, in 178 cases to remove silt from the side drain under the steps and pyals in front of houses, in six cases to desist from allowing offensive liquid matter to run down from houses, in one case to repair two cattle yards by paving and draining the flooring, in five cases to remove excreta from latrines, in one case to close up a hole excavated for a cess-pool, in one case to cleanse and secure premises from being used as a latrine, in two cases to remove trap doors of private latrines and in one case to cleanse and put a cess-pool in order. Five persons were prosecuted for failing to put up their latrines in proper order. Nine persons were prosecuted for failing to remove rubbish from their premises, one person was prosecuted for failing to desist from allowing offensive liquid matter to run down from his house and two prosecutions were instituted for failing to remove trap doors of latrines.

40 (ii) *Other Purposes.*—Rs. 392–5–0 were realized from owners of houses for cleaning their cess-pools against the revised estimate of Rs. 300, and Rs. 535, the actuals of the previous year. The number of cess-pools cleaned during the year was 251 against 212 in the previous year. The decrease under this head is due to the quantity of liquid matter removed from cess-pools being smaller than that in the previous year.

41 (*b*) *Other Items*—(ii) *Refunds of Expenditure of previous year.*—Rs. 82 were recovered, against the revised estimate of Rs. 40, and Rs. 287, the actuals of the previous year, as particularised below :—

	Rs.	A.	P.
Value of kerosine oil supplied to the Collector's office during 1893–94	8	7	0
Amount of an uncashed cheque mislaid by the party credited by adjustment	24	12	0
Process-fees recovered	48	13	0

42. (iv) *Other Items.*—Rs. 92–0–8 were realized as detailed below, against Rs. 40 of the revised estimate, and Rs. 330, the actuals of the previous year :—

	Rs.	A.	P.
Value of stone slabs collected as royalty for quarrying credited by adjustment	76	8	8
Amount recovered for supply of water at a theatrical pandal for use in case of accident from fire	6	0	0
Summons batta	0	12	0
Sale-proceeds of one unclaimed seized cart	8	12	0

III.—Expenditure.

43. The total expenditure amounted to Rs. 77,826–3–1, against Rs. 81,996 of the revised estimate, and Rs 77,005, the actuals of the previous year ; the closing balance being Rs. 36,077–9–8, against Rs. 27,100 of the revised estimate and Rs. 32,834 of the previous year. The actual charges were distributed among the several grants as shown below :—

	Rs.	A.	P.
Grant I, Public Works	12,630	1	10
„ II, Education	12,707	8	7
„ III, Sanitation and Medical Services	38,583	4	9
„ IV, Lighting and Miscellaneous Municipal Purposes ..	6,519	10	6
„ V, General Establishment	6,991	2	2
Advances	250	0	0
Refunds	144	7	3

44. *Grant I, Public Works—(I) New Works—(b) Buildings.*—Rs. 4,107–2–3 were expended on the works enumerated below, against Rs. 4,150 of the revised estimate and against Rs. 5,152, the actuals of the previous year.

			Rs.	A.	P.
(1)	Construction	of the lying-in hospital	2,523	9	5
(2)	„	of powder magazine	6	6 15	0
(3)	„	of a movable latrine in Miller Petta ..	25	7	6
(4)	„	of a movable latrine near the lock hospital in Cowle Bazaar	199	4	10
(5)	„	of a movable latrine in the F division in Bruce Petta	427	13	10
(6)	„	of a urinal in A division, Cowle Bazaar ..	45	0	5
(7)	„	of a urinal in D division, Cowle Bazaar ..	44	15	7
(8)	„	of a urinal in the Goldsmith Street, Bruce Petta	3	2	3
(9)	„	of a urinal in the Car Street, Bruce Petta ..	3	2	3
(10)	„	of a urinal in the Flower Bazaar Street ..	3	2	3
(11)	„	of a movable latrine in the Chucklers' patch in Cowle Bazaar	6	12	2
(12)	Cost of zinc sheets, &c., purchased for constructing public latrines on hand		217	12	9

Works No. 1 and 2 were completed in the previous year. Works Nos. 3, 8, 9, 10 and 11 were undertaken in the previous year but completed during the year. Works Nos. 4, 5, 6 and 7 were undertaken and completed during the year.

45. (2) *Repairs*—(*a*) *Communications.*—The expenditure on the repair of roads under the control of the municipal council amounted to Rs. 4,135-13-9, against Rs. 4,700 of the revised estimate, and Rs. 3,733, the actuals of the previous year, in addition to the usual contribution of Rs. 2,000 (shown under (5) Contributions—(*c*). To others for public works) paid to the Military Works Department for the maintenance of the roads in the cantonment. The outlay on communications, including the contribution paid to the Military Works Department as per G.O., No. 7599, dated 30th November 1892, was 52 per cent. of the net revenue from tolls against 42·67 per cent. in the previous year. At the close of the year the claim of one of the municipal contractors for Rs. 99-13-6 for gravel supplied by him during the year was pending. If this sum is added to the amount actually paid during the year, the amount expended for repair of roads during the year would be Rs. 7,035-11-3 or 52·6 per cent. of the net income from tolls. It will be observed from Statement II-A that a large number of roads was repaired and that they were kept in a satisfactory condition. Repairs to roads were carried on departmentally under my * personal supervision and of a sub-committee constituted for the purpose. The total mileage of roads under the control of the municipal council was 36 miles 6 furlongs, of which 20 miles 7 furlongs were metalled, 10 miles 4 furlongs are gravelled, and 5 miles 3 furlongs are unmetalled.

* Late Chairman.

46. (*b*) *Buildings.*—Rs. 74-12-11 were expended, against the revised estimate of Rs. 600, and Rs. 774, the actuals of the previous year, for executing the necessary repairs to the undermentioned buildings :—

	Rs.	A.	P.
Municipal high school building	17	14	1
The Sabapathi Mudaliar hospital	18	12	4
Cowle Bazaar dispensary	1	14	3
The latrine near the Cowle Bazaar mutton slaughter-house	1	8	0
The urinal near the Bruce Petta vegetable market ..	1	12	3
The Cowle Bazaar beef slaughter-house	21	0	0
The Cowle Bazaar mutton slaughter-house	12	0	0

Some of the municipal buildings having been repaired during the previous year, the allotment under this head was not fully utilized. Hence the decrease.

47. (*d*) *Water-supply*—(i) *Repairs to Works, Machinery, &c.*—Rs. 1-6-0 were expended, against the revised estimate of Rs. 300, and Rs. 279, the actuals of the previous year. An advance of Rs. 140 was made to a contractor for constructing a parapet wall and to put up pulleys to the butchers' well in Bruce Petta. But the work was completed only during the current official year 1895-96. Hence the decrease under the revised estimate.

48. (ii) *Establishment.*—The charges of the establishment consisting of five tank watchmen amounted to Rs. 310-7-11, against the revised estimate of Rs. 310, the actuals of the previous year being Rs. 296. An additional tank watchman for the Fort ditch sanctioned in G.O., No. 162 M., Local and Municipal, dated 4th February 1895, was entertained during the year.

49. *Establishment.*—The municipal public works establishment, which consisted of an overseer, a clerk, a peon, two maistries and eight coolies, was maintained at a cost of Rs. 1,200-7-0 against the revised estimate of Rs. 1,290, the actuals in the previous year being Rs. 1,517. The decrease under the revised estimate and the actuals of the previous year is due to the payment of minimum salary of Rs. 45 to the overseer and of Rs. 10 to a maistry, instead of Rs. 50 and Rs. 15, respectively, sanctioned in the budget, and also to the post of overseer being vacant for some time, as no competent person could be secured for it.

50. (5) *Contributions*—(*b*) *To Provincial Funds for scrutiny of Estimates, &c.*—No expenditure was incurred under this head as no estimates were forwarded to the Public Works Department for scrutiny.

51. (*c*) *To others for Public Works.*—Rs. 2,000 sanctioned in G.O., No. 7599, dated 30th November 1892, were paid as usual to the Military Works Department during the year for the maintenance of the municipal roads in the cantonment, as provided in the revised estimate.

52. *Grant II, Education.*—The total expenditure on education amounted to Rs. 12,707-8-7, against Rs. 13,780 of the revised estimate, the actuals of the previous year being Rs. 12,693.

53. (i) *Training Schools*—(*c*) *Allowance to Teachers undergoing training.*—Rs. 245-4-0 were incurred, against the revised estimate of Rs. 220, and of Rs. 35, the actuals of the previous year, on account of B. Vijia Rao, an F.A., and M.R.Ry. A. Bhimachari, B.A., teachers of the municipal high school, for undergoing training. The former was trained at the Teachers' College, Saidapet, and he resumed his duties in the municipal high school in January 1895. The latter joined the Teachers' College, Saidapet, on 16th January 1895, for undergoing training, and under instructions from the Director of Public Instruction he was required to join the Training College, Rajahmundry. Being a graduate, he drew an allowance of Rs. 25 per mensem from the municipality in addition to a scholarship of Rs. 15 per mensem from Provincial funds. Travelling allowances were also paid to the two teachers. Hence the increase over the revised estimate.

54. (2) *Municipal Schools*—(i) *On Salary system*—(*a*) *Establishment.*—Two schools —a high school and an Anglo-vernacular primary school—were maintained during the year, and Rs. 8,274-0-11 were expended, against Rs. 8,610 of the revised estimate, the actuals of the previous year being Rs. 7,978.

55. The teaching staff of the municipal high school consisted of four graduates, three F.As., one trained Matriculate, one untrained Matriculate, a Sanscrit pandit, a Telugu pandit, a Tamil pandit, a Hindustani munshi, a writing master, and a trained first-class gymnastic instructor. The services of the Tamil pandit were dispensed with from 1st June 1894, as there was not a sufficient number of Tamil pupils to justify his retention, in accordance with the suggestion of the Director of Public Instruction in his letter, No. 320, dated 17th January 1894, embodied in G.O., No. 193 M., Local and Municipal, dated 21st February 1894.

56. In the municipal high school, the number of pupils on the rolls on the 31st March 1895 was 213 against 186 in the previous year, the average attendance being 179 against 143 in the previous year. The net cost of the upper secondary department was Rs. 160-10-4 against Rs. 544-1-5 in the previous year; the average net cost per pupil being Rs. 2-9-5 against Rs. 10-4-3 in the previous year. The average net cost of the lower secondary department was Rs. 1,186-10-0 against Rs. 981-4-2 in the previous year. The average net cost per pupil in the lower secondary department was Rs. 10-2-3 against Rs. 10-14-5 in the previous year. The increased attendance of pupils resulted in the reduction of the net cost to the municipality. Twenty-nine pupils presented themselves for the Matriculation examination, of whom

six passed. None went up for the Upper Secondary examination during the year. Ten pupils appeared for the Lower Secondary examination, of whom two were successful. The Inspector of Schools, Central Circle, inspected the school on 21st November 1894, and reported in the tabular inspection report for 1894–95 that the school was doing good work, and judging from the large increase in the attendance appears to be very popular in the town; that the discipline and tone of the whole institution were very good and the dress and manners of the pupils left nothing to be desired; that the results of the public examinations held in December 1893 were very poor both in the Matriculation and the Lower Secondary examinations. He also remarked that at the inspection the upper forms did very well, the lower forms fairly except Form III which was bad, that all the records and registers of the school are most neatly and methodically kept and that the state of these records reflects much credit on the head-master, that the gymnastic results were good in the VI, V and IV forms and fair in the III, II and I forms. The Director of Public Instruction, in reviewing the tabular inspection report of the Inspector of Schools, Central Circle, on the municipal high school, remarked that there has been a further accession to the strength since the previous inspection; that the attendance was fairly representative; that the proportion of Muhammadans under instruction was satisfactory; that the results of the Matriculation and Lower Secondary examinations of December 1893 were very unsatisfactory, while those at the inspection were, on the whole, fair, and that gymnastic results seemed to have been fairly satisfactory.

57. During the year, Mr. R. Sewell, late Collector of Bellary, forwarded from England a set of five books for a science prize for the municipal high school. The council received with thanks the handsome gift of highly instructive and interesting books for presentation to the students of the municipal high school.

58. The council duly considered, at its meeting held on 25th March 1895, G.O., No. 162 M., dated 4th February 1895, reviewing the Bellary municipal budget for 1895–96, and referring for consideration and report the suggestion of the Director of Public Instruction in paragraph 2 of his letter embodied in the Government Order regarding the abolition of the upper secondary department of the municipal high school, and working it as a lower secondary school, and also letter received from Rev. Mr. B. Lucas, of the London Mission Society, recommending the abolition of the upper secondary department, and the letters from certain municipal councillors and from the President, Anjuman-i-Faizrasan, protesting against the abolition of the upper secondary department of the municipal high school, and resolved not to abolish the upper secondary department of the municipal high school, but to maintain it, as the actual expenditure on education during the last three years has not exceeded the 15 per cent. limit but has been less than the budget allotments of those years. In 1890–91 the percentage of net expenditure on education was 8·9; in 1891–92, 15·7; in 1892–93, 14·7; in 1893–94, 11·4; and in 1894–95, 10·5. In the year 1891–92 there was a highly-paid Government servant in charge of the school as headmaster, and the expenditure exceeded in consequence the budget allotment. Government, in their Order, Mis. No. 838 M., dated 17th May 1895, have recorded the views of the council on this subject.

59. The teaching staff in the municipal Anglo-vernacular primary school consisted of two matriculates, three middle-school men, two trained Hindustani teachers of the primary grade, two Hindustani teachers who passed the lower secondary examination of whom one is trained.

60. The number of pupils on the rolls on 31st March 1895 was 195 against 176 in the previous year, the average attendance being 141 against 138 in the previous year. As the strength of a primary class should not exceed thirty under the Madras Educational rules, and as there were 48 pupils in the first class, an additional teacher on a salary of Rs. 20 per mensem was entertained from 13th February 1895. The net cost of the institution was Rs. 1,179–2–3 against Rs. 1,184–8–4 in the previous year, and the average net cost per pupil was Rs. 8–5–10 against Rs. 8–12–9 in the preceding year.

8-9-4

61. The following is a summary of the results of examinations :—

	Number of pupils examined.	Number of pupils passed.
First Standard	34	23
Second „	39	36
Third „	51	41
Fourth „	47	28

62. (*b*) *Contingencies.*—Rs. 331–10–9 were incurred under this head, against Rs. 500 of the revised estimate, and Rs. 325, the actuals of the previous year.

63. (ii) *On Salary-results System—(a) Fixed Payments.*—Rs. 1,336–3–3 were expended, against Rs. 1,440 of the revised estimate, and Rs. 1,262, the actuals of the previous year. The decrease under the revised estimate is attributable to the payment of minimum salaries of Rs. 8 and Rs. 12–8–0 to the teacher of the Bruce Petta Madiga school and to the headmistress of the Cowle Bazaar Hindu Caste Girls' school, respectively, instead of Rs. 9 and Rs. 15 sanctioned in the budget; to the non-employment of the sweeper in the Madiga school, Bruce Petta, and to the post of the teacher of the night-school in the Glass Bazaar, Bruce Petta, for Muhammadans, being vacant for five months. The number of schools maintained under salary-results system was eight against eight in the previous year.

64. Four Hindustani schools were maintained by the municipal council during the year—three in Bruce Petta and one in Cowle Bazaar. Of the three schools in Bruce Petta, two were day-schools and one a night-school. Of the two day-schools one was located in a rented building in Mellor Petta, and the other also in a rented building in the Glass Bazaar street, Bruce Petta.

65. In the Mellor Petta Hindustani school, the number of pupils on rolls on 31st March 1895 was 20 against 28 in the previous year, the average attendance being 20 against 21 in the previous year. The net cost to the municipality was Rs. 127–15–6 against Rs. 173–15–3 in the preceding year, the average net cost per pupil being Rs. 6–6–4 against Rs. 8–4–6 in the previous year.

66. The night-school for Muhammadans started on 1st November 1892, gradually decreased in strength and failed entirely owing to the inefficiency of the teacher. It was therefore abolished on 4th September 1894. It was re-opened in a rented building on 12th February 1895 in Lalakumman, and Syed Ahmed, Hindustani munshi of the municipal high school, has been appointed teacher of the school. The school was inspected by the headmaster of the municipal high school during the year, and subsequently by the Sub-Assistant Inspector of Schools, Bellary Range. The latter officer reported that the school was in a thriving condition. The number of pupils on 31st March 1895 was 31 against 22 in the previous year, the average attendance being 25 as in the preceding year. No fees are levied in the school as the pupils attending the school belong to the labouring classes of Muhammadans, who are too poor to afford to pay school fees. The net cost of the school was Rs. 55–8–3 against Rs. 84–12–8 in the preceding year, and the average net cost per pupil was Rs. 2–3–6 against Rs. 3–6–3 in the previous year.

67. The new school in Glass Bazaar street, Bruce Petta, which was opened on 7th October 1893 at the special request of the Muhammadan community of Bruce Petta for the benefit of the Muhammadans, continued to be maintained throughout the year. The number of pupils on rolls on 31st March 1895 was 38 against 33 in the previous year, and the average daily attendance was 31 against 34 in the preceding year. No fees are levied in the school as the pupils cannot afford to pay them. The net cost of the school was Rs. 87–8–0 against Rs. 24–0–6 in the previous year, the average net cost per pupil being Rs. 2–13–2 against As. 11–4.

68. The number of pupils on rolls on 31st March 1895 in the Cowle Bazaar Hindustani school was 33 against 30 in the previous year, the average attendance being 26 against 24 in the previous year. The net cost to the municipality on account of this school was Rs. 177–6–11 against Rs. 169–5–4 in the previous year, the average net cost per pupil being Rs. 6–13–2 against Rs. 6–0–10 in the previous year.

69. Two poor schools—one in Bruce Petta and the other in Cowle Bazaar—were maintained during the year for the benefit of the Madigas. The Bruce Petta Madiga school was started on 10th August 1892 in a rented building situated close to the Pariah quarters in Herial Ookkadum. The school was occasionally inspected and the progress reported to me * by M.R.Ry. O. Gopala Pillai, B.A., Science Teacher of the municipal high school, as desired by me *. The number of pupils on rolls on 31st March 1895 was 31 against 28 in the previous year, the average attendance being 17 against 22 in the previous year. The net cost of the school was Rs. 130–10–11 against Rs. 101–12–0 in the previous year, the average net cost per pupil being Rs. 7–11–0 against Rs. 4–12–11 in the previous year.

* Late Chairman.

70. The Cowle Bazaar Madiga school was opened on 7th April 1892 and is located in the Cowle Bazaar market-stalls, which have been partly converted into a school building. The number of pupils on rolls on 31st March 1895 was 34 against 37 in the previous year, the average daily attendance being 33 against 28 in the previous year. The net cost to the municipality was Rs. 190–8–6 against Rs. 142–1–0 in the previous year, the average net cost per pupil being Rs. 5–12–5 against Rs. 5–1–2 in the previous year. This school was occasionally inspected by the headmaster of the municipal Anglo-vernacular primary school as directed by me†. No fees are levied for imparting instruction in the two poor schools for Madigas, as the pupils attending them are very poor.

† Late Chairman.

71. Two schools—one in Bruce Petta and the other in Cowle Bazaar—were maintained during the year for the education of females. The Ripon Caste Girls' school is located in a rented, spacious building in the Brahmin Street, Bruce Petta. Owing to the increase in the number of classes, the appointment of an additional schoolmistress was found absolutely necessary. One Miss Martin, who has passed the Primary School examination, was therefore appointed schoolmistress on 4th September 1894 and put in charge of the Infant Standard class. The headmistress has passed the Middle School examination in the first class and is a certificated schoolmistress. The first assistant schoolmistress has passed the Primary School examination and has appeared for the Method examination, but the results are not yet announced. The school was inspected by the Acting Sub-Assistant Inspector, Girls' Schools, Second Range, in August 1894, and occasionally by M.R.Ry. V. P. Ramachendra Sastri, B.A., First Assistant of the municipal high school. The strength of the school on 31st March 1895 was 60 against 62 in the previous year, the average attendance being 54 against 42 in the previous year. The net cost of the school was Rs. 563–13–4 against Rs. 440–9–8 in the previous year; the average net cost per pupil was Rs. 10–7–1 against Rs. 10–7–10 in the previous year.

72. The Cowle Bazaar Hindu Caste Girls' school is located in a rented building in Cowle Bazaar. It was handed over to the management of the municipal council on 1st April 1892. It is under the superintendence of the Chairman of the Cowle Bazaar sub-committee. There were 66 pupils on rolls on 31st March 1895 against 60 in the previous year, the average attendance being 54 against 45 in the previous year. The net cost of the school was Rs. 390–11–4 against Rs. 385–2–4 in the previous year; the average net cost per pupil was Rs. 7–3–9 against Rs. 8–8–11 in the previous year. The teaching staff consisted of three schoolmistresses. The headmistress has passed the Upper Primary examination, and the first assistant mistress has passed the Primary School examination. The second assistant mistress is an unpassed woman.

73. *(b) Results Grants.*—Rupees 482–15–0 were expended, against Rs. 360 of the revised estimate, and Rs. 519, the actuals of the previous year. The increase over the revised estimate is due to credit being taken for grants of Rs. 4–6–0, Rs. 173–8–0 and Rs. 150 earned by the Cowle Bazaar Madiga school, the Ripon Caste Girls' school and the Cowle Bazaar Hindu Caste Girls' school, respectively, from Provincial funds and payment made from municipal funds instead of from "Deposit account" as was done in former years. The Bruce Petta Hindustani school earned a grant of Rs. 10 against

Rs. 20–2–6 in the previous year. The grant earned by the Hindustani night-school amounted to Rs. 17–3–0 against Rs. 17–14–8 in the previous year. The Hindustani school in Glass Bazaar earned a grant of Rs. 27–8–0. The Cowle Bazaar Hindustani school earned a grant of Rs. 15. The Bruce Petta Madiga school and Cowle Bazaar Madiga school earned grants amounting to Rs. 19–6–0 and Rs. 70–6–0, respectively, against Rs. 3–5–8 and Rs. 28–15–9 in the previous year. The Ripon Caste Girls' school, the Cowle Bazaar Hindu Caste Girls' school, and the Madiga school, Cowle Bazaar, earned Provincial grants of Rs. 173–8–0, Rs. 150 and Rs. 4–6–0, respectively, against Rs. 10–4–8, Rs. 437–13–4 and Rs. 8–12–0 in the previous year.

74. *(c) Contingencies.*—The expenditure under this head amounted to Rs. 386–14–6, against the revised estimate of Rs. 470 and the actuals of Rs. 343 in the previous year.

75. (3) *Salary Grants.*—The salary grant drawn by the manager of the Wardlaw College amounted to Rs. 300–13–6 against the revised estimate of Rs. 310, the actuals in the preceding year being Rs. 524.

76. The only school that earns salary grant from municipal funds is the Wardlaw College. There were 226 pupils on the rolls on 31st March 1895 in the lower secondary and primary departments of the Wardlaw College—Europeans and Eurasians 14, Native Christians 20, Muhammadans 11, Brahmans 97, and non-Brahman Hindus 84. All classes of the community were well represented. The average number was 226 and the average daily attendance 197. Fifteen pupils appeared for the Lower Secondary examination; three of these obtained complete certificates and three more passed in the compulsory and one optional subject. Two others, who passed in some of the subjects the previous year, completed their tests this year and have obtained complete certificates. Twenty-six pupils were sent up for the Primary examination, of whom four passed in the first class, eight in the second class and one in the compulsory and one optional subject. The expenditure during the year amounted to Rs. 3,747–12–11 including Rs. 2,974–12–7, being salaries paid to the teaching staff. The net cost to the management was Rs. 180–1–5. The cost would have increased more than three-fold if a vacancy, which occurred in the lower secondary department, had been filled up during the year. The manager reports that owing to want of means, and chiefly owing to the fact that the allotment for salary grants from municipal funds for 1894–95 was reduced from Rs. 600 to Rs. 300, the teaching staff was not strengthened and that the work of the institution was therefore carried on under considerable difficulties. The usual allotment of Rs. 600 on account of salary grants was reduced by the council in accordance with the proposals of the Director of Public Instruction contained in his letter, No. 11427, dated 20th October 1893, and the necessary notice was given to the manager of the Wardlaw College of the reduction in the grant in conformity with the instructions of the Director of Public Instruction. Excluding the pandits and the gymnastic instructor, there were on the 31st March 1895 three trained teachers and four untrained teachers.

77. The Director of Public Instruction in his Proceedings, No. 4827, dated 23rd April 1895, in reviewing the tabular inspection report of the Inspector of Schools, Central Circle, dated 24th December 1894, on the Wardlaw College, made the following remarks :—

"*Staff.*—The staff is weak for a second-grade college. As the first assistant is an under-graduate of the First Arts standard, he should not be given any work in the college. The services of a teacher holding the L.T. degree might have been secured for the second assistant mastership. All the uncertificated teachers should be urged to qualify professionally. Under the educational rules drawing must be taught as one of the compulsory subjects in the upper secondary forms, and it would be economical if a trained teacher qualified to teach literary subjects as well as drawing were employed at an early date. Should the Director's suggestion for the reduction of the municipal high school to the status of a lower secondary school be carried out, the municipal council would be in a position to aid the primary and lower secondary departments of the Wardlaw College more liberally."

(But the council resolved not to abolish the upper secondary department of the municipal high school and Government have recorded the views of the council on this subject as stated in paragraph 58 *supra*.)

" 2. *Accommodation.*—Early arrangements should be made for improving the accommodation.

" 3. *Reading Room.*—The formation of a reading room in connection with the college is strongly recommended, the charge being met from subscriptions from teachers and pupils.

" 4. *Strength and Attendance.*—Though there was an accession to the total strength of the institution, the college classes are weaker than in the year previous, owing to the poor results of the Matriculation examination. The three lowest classes also were not sufficiently strong. All the classes of the community were suitably represented. The average attendance was low and greater regularity should be enforced.

" 5. *Examinations.*—The college acquitted itself creditably at the First Examination in Arts held in December 1893. The results of the Matriculation examination were, however, very poor and those of the Lower Secondary examination indifferent. The inspection also disclosed numerous defects which should receive the prompt attention of the staff.

" 6. *Finance.*—Of the total cost of the institution during the year 1893–94 aggregating Rs. 10,232, fees and grants met 91 per cent. This is satisfactory.

" 7. *General.*—The tone and discipline of the institution were satisfactory."

78. (4) *Results Grants.*—The number of result-grant schools at the commencement of the year was 33; no new schools were opened during the year, and the number closed during the year was nine. Four of them were closed as the managers have left the station. The managers of two schools died during the year. The manager of a school took up an appointment in one of the Fund offices. One school was closed as the manager was not able to secure the services of a competent teacher. The manager of a school closed it owing to reduction in the number of pupils. The number of schools at the close of the year was 24. The number of pupils on rolls on 31st March 1895 was 988 boys and 110 girls against 1,257 boys and 131 girls in the previous year. The number of pupils examined was 734, of whom 546 were found qualified for grants. The total amount of grant earned by the schools was Rupees 1,166–9–0, against Rs. 1,500 of the revised estimate, and Rs. 1,455, the actuals of the previous year. Results grants were paid at the maximum rate allowed by the Grant-in-aid Code to the managers of schools who employed trained or passed teachers, and three-fourths of the maximum rates to those who employed untrained or unpassed teachers. Grant was also given to the Infant standard. Certain certifying memoranda issued by the Assistant Inspector of Schools, Third Division, and by the Sub-Assistant Inspector of Muhammadan Schools at the maximum rates to the managers of result-grant schools who employed untrained or unpassed teachers, were returned for revision, but the Assistant Inspector of Schools, Third Division, in his letter, No. 557, dated 3rd February 1895, stated that no reduction should be made in the grants earned by result-grant schools as the assignments fixed for them by his predecessor at the late conference were made with due consideration to the qualifications of the teachers employed therein and other circumstances connected with the schools, and that any further reduction in the grants passed by him would be felt very much by teachers, and education may suffer thereby. The council could not accept the recommendation of the Assistant Inspector of Schools for payment of more than three-fourths of maximum grant to untrained or unpassed teachers, as it will be opposed to the instructions of the Director of Public Instruction and to the orders of Government. Six of the teachers of result-grant schools appeared for the Primary School examination during the year, but the results are not yet announced.

79. (6) *Inspection*—(*b*) *Municipal Inspectors*—(i) *Establishment.*—Rs. 165–7–1 were incurred, against Rs. 300 of the revised estimate, and Rs. 237, the actuals of the previous year, for maintaining an inspecting schoolmaster for the supervision of the elementary and aided schools. The decrease under the revised estimate and the actuals of the previous year is due to the payment of minimum salary of Rs. 20 to the inspecting schoolmaster instead of Rs. 25 sanctioned in the budget, and also to

the non-payment of the salary of the inspecting schoolmaster from 1st December 1894 as his salary bills for the last five months have not yet been countersigned and forwarded to me for payment by the Assistant Inspector of Schools, Third Division. The number of schools visited by the inspecting schoolmaster during the year was 59, the number examined 59, and the number of pupils examined was 15,026. The work done by the inspecting schoolmaster was reported by the Assistant Inspector of Schools, Third Division, to be fair.

80. In accordance with the suggestions of the Director of Public Instruction, the council opened, on 8th November 1894, a sessional school and placed the inspecting schoolmaster of this municipality in charge of it for imparting instruction to unpassed teachers of result-grant schools in the subjects of the Primary School examination, and thereby to enable them to pass the examination and ultimately to qualify themselves for teachers' certificates. Seventeen teachers attended the school and eleven of them have appeared for the Primary School examination. The results are not yet announced.

81. (ii) *Contingencies.*—Rs. 8–14–8 were incurred, against the revised estimate of Rs. 10 and the actuals of Rs. 6, for supplying stationery articles to the inspecting schoolmaster.

82. (7) *Miscellaneous*—(*b*) *Common Gymnasium*—(ii) *Contingencies.*—The allotment of Rs. 50 under this head has not been utilized.

83. (*c*) *Other Items.*—Rs. 8–11–11 were incurred, against the revised estimate of Rs. 10 and the actuals of Rs. 9, for paying commission to the curator of the municipal book depôt for the sale of books. The book depôt was abolished at the close of the year.

84. *Grant III, Sanitation and Medical Services.*—Rs. 38,583–4–9 were expended against the revised estimate of Rs. 42,370, the actuals in the previous year being Rs. 35,987.

85. (1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—One hospital and two dispensaries were maintained during the year; of these the Sabapathi Mudaliar hospital receives both in and out patients. The Cowle Bazaar and Bruce Petta dispensaries afforded aid to out-patients only. The three institutions are working satisfactorily and increasing in importance year after year. The medical relief afforded by the municipal council is fully appreciated by the public. Five hundred and ninety-seven in-patients and 32,726 out-patients were treated during the year against 625 in-patients and 37,186 out-patients in the preceding year. The decrease in the number of out-patients is due to the closing of the branch dispensary for about a month during the illness of M.R.Ry. C. E. Runganatha Mudaliar, who was in charge of it, and to the dispensary having been placed in charge of temporary medical subordinates from time to time. The hospital assistant in charge of the branch dispensary at Cowle Bazaar states that the decline in the number of out-patients at the Cowle Bazaar branch dispensary is attributable to the cantonment hospital at Cowle Bazaar rendering medical relief to the civil population of the town and to the fairly healthy condition of the town during the year. The average daily attendance of out-patients was 25 in the Sabapathi Mudaliar hospital, 32 in Bruce Petta dispensary, and 33 in the Cowle Bazaar dispensary. The charges on account of establishments amounted to Rs. 4,022–11–7 against Rs. 4,470 of the revised estimate, the actuals of the previous year being Rs. 3,844. The decrease under the revised estimate is due to the savings effected by the entertainment of a third-class hospital assistant on Rs. 25 in the branch dispensary at Cowle Bazaar instead of a second-class hospital assistant on Rs. 35, and of a second-class hospital assistant on Rs. 35 in the branch dispensary at Bruce Petta, in consequence of the death on 16th October 1894 of the senior medical subordinate, M.R.Ry. C. E. Ranganatha Mudaliar, who was drawing Rs. 60 per mensem; to the non-employment of a second-class hospital assistant on Rs. 35 in the Sabapathi Mudaliar hospital in place of second-class hospital assistant M. Rajagopaul Pillai transferred to the local fund dispensary at Holagundi; and to the non-employment of the establishment sanctioned for the lying-in hospital. Third-class hospital assistant M. Munisawmy Iyer was appointed on 11th March 1895 in place of second-class hospital assistant M. Rajagopaul Pillai transferred to the local fund dispensary at Holagundi.

86. The new lying-in hospital which was constructed at a cost of Rs. 6,846–1–5 was handed over to the council by the contractor on 19th January 1895. It was not opened during the year. Surgeon-Major J. W. Evans, Acting District Medical and Sanitary Officer, in his letter, No. 464, dated 12th February 1895, requested the municipal council to consider the desirability of disposing of or adapting the building for some other purpose and building a new one adjacent to, or in the compound of, the Sabapathi Mudaliar hospital. He made the above recommendation on the following grounds:—

(1) Distance of the lying-in hospital building from the Sabapathi Mudaliar hospital, thus necessitating the entertainment of a separate staff.

(2) Publicity of the site in front of the District Court, and the sub-committee report that the cries of the women in labour cases will be heard in the court buildings.

(3) Proximity to the main road and consequently the difficulty there will be in keeping dust out and securing privacy.

(4) The council will have no difficulty in disposing of the hospital building without incurring any loss.

87. The following facts were laid before the council on 26th February 1895 in connection with the letter of the Acting District Medical and Sanitary Officer, suggesting the disposal of the new lying-in hospital building and the construction of another in its place:—

(1) The site on which the building stands was selected by the then District Medical and Sanitary Officer, Surgeon-Major W. O'Hara, in consultation with the then Collector, Mr. R. Sewell. The exact spot was actually marked out by the former.

(2) The site was approved by the Sanitary Board in their Proceedings, No. 32, dated 11th January 1893.

(3) The present Surgeon-General, after inspection of the building on the 21st September 1894, made the following remarks:—

"Also inspected with Mr. Plunket the very good new lying-in hospital. It is a pity it was sited so far away from the Sabapathi Mudaliar hospital. It appears very well adapted for the proposed uses, and in my opinion it would be very desirable to carry out the suggestions of the Lady Dufferin Fund at it, and to devote one of the smaller rooms for the purposes of a dispensary for caste and gosha women who will not attend at the other dispensaries. It is most desirable that a properly-trained female medical practitioner's services should be obtained and placed in sub-charge. No hospital assistant, male or female, is fit for such a charge.

"I am glad to hear that a wall is to be placed round the compound. I think the committee should reconsider their resolution of the 8th May, No. 5, as regards the kitchen for the hospital assistant, also regarding the well—a lying-in hospital without an ample supply of water is dangerous—also regarding quarters for the hospital servants who should be always available; the furniture should be as simple as possible and all the furniture should be without any projections which can lodge dust and it ought all to be easily cleaned."

88. The council unanimously resolved to dispose of the new lying-in hospital building and to select a new site for another building, as there are grave objections to the site of the new lying-in hospital, and as there is every probability of realizing the value of the building by sale without material loss, and appointed a special committee to receive offers for the purchase of the present building and to select a new site and to do the needful. When offers are received, the sanction of Government will be obtained in due course for the sale of the building.

89. The two second-class hospital assistants of the Sabapathi Mudaliar hospital, the medical subordinate of the Bruce Petta branch dispensary, and the third-class hospital assistant of the Cowle Bazaar branch dispensary, were provided with free quarters in the premises of the hospital and dispensaries respectively. House-rent was paid to second-class hospital assistant C. Ramanjulu Naidu who took charge of the Bruce Petta dispensary on 10th November 1894, as the building occupied by the late hospital assistant has not been vacated by the widow who owns the house. She has agreed to construct a new building for the accommodation of the hospital assistant. The building was under construction during the year and it has since

been completed. When the lying-in hospital is opened, the female hospital assistant will be placed in charge of it and will have free quarters provided for her in the premises of the hospital.

90. The council has framed rules under section 127 of the District Municipalities Act, IV of 1884, for the treatment of patients, &c., in the Sabapathi Mudaliar hospital and the two branch dispensaries at Bruce Petta and Cowle Bazaar, and they were sanctioned by Government in their Order, No. 1652 M., Mis., dated 6th October 1891.

91. Two midwives were, as usual, maintained during the year. Sixty-three labour cases were conducted by the two municipal midwives. Midwife Oonnamalai, who was attached to the Sabapathi Mudaliar hospital, conducted 14 cases up to September 1894, when she was transferred to the local fund dispensary at Holgundi. Midwife Mooniammah, who was appointed in place of Oonnamalai, conducted 22 cases. Midwife Rosamah was engaged in attending to labour cases in the town and she conducted 27 labour cases till March 1895. The work turned out by the two municipal midwives is poor. The District Medical and Sanitary Officer reports that "the midwives did exceedingly bad work and that they were replaced by those who, it is hoped, will do better work."

92. *Medical Training of Women.*—No action was taken by the municipal council during the year on the resolution of the Government of India regarding the training of female practitioners, as Mrs. A. D. Carmody, who had been selected by the municipal council to undergo training in the Medical College, Madras, completed the three years' training coruse, passed the final examination for the grade of hospital assistant, and has been employed as female hospital assistant in the Sabapathi Mudaliar hospital from 1st July 1892. She was paid a salary of Rs. 35 per mensem during the first two years of her service and she has been drawing at the rate of Rs. 50 per mensem from 1st July 1894 as per agreement entered into by her with the municipal council prior to her proceeding to Madras for undergoing training in the Medical College. In accordance with the suggestion of the District Medical and Sanitary Officer, the council sent female hospital assistant Mrs. A. D. Carmody to the Government Lying-in Hospital at Madras to receive special course of training in midwifery for three months. She has produced a certificate from the Superintendent of the Government Lying-in Hospital, Madras, to the effect that she has superintended 28 cases of labour and has applied the forceps on three occasions.

93. The Surgeon-General to the Government of Madras inspected the Sabapathi Mudaliar hospital and recommended certain improvements to the hospital and made suggestions regarding furniture and bedding and clothing. The council have duly considered the remarks and recommendations of the Surgeon-General and have made provision in the budget for the current official year 1895–96 for the carrying out of some of the suggestions of the Surgeon-General.

94. (*b*) *Medicines and Supplies.*—Rs. 3,102–13–7 were expended, against Rs. 3,200 of the revised estimate, and Rs. 2,567, the actuals of the previous year.

95. (*c*) *Diet of Patients.*—Rs. 1,844–9–10 were incurred, against Rs. 2,050 of the revised estimate, and Rs. 1,945, the actuals of the previous year, on account of diet of in-patients in the Sabapathi Mudaliar hospital. The decrease under the revised estimate is attributable to the fall in the number of in-patients admitted into the hospital and to no expenditure being incurred on account of diet of patients of the new lying-in hospital as it was not opened during the year.

96. (*d*) *Sundries and Contingencies.*—Rs. 1,304 were expended, against Rs. 2,000 of the revised estimate, and Rs. 1,023, the actuals of the previous year. The decrease under the revised estimate is due to the great fall in the number of out-patients at the branch dispensaries at Bruce Petta and Cowle Bazaar and to the non-supply of furniture, crockery, and bedding and clothing for the new lying-in hospital as it was not opened during the year.

97. M.R.Ry. P. Nagappa Mudaliar Avargal, a cotton merchant of Adóni, forwarded up to the close of the year 66 cloths for distribution to the deserving patients of the Sabapathi Mudaliar hospital. The council accepted his offer with thanks.

98. (2) (*a*) *Contributions to Provincial Funds*—(1) *Medical College.*—The amount of contribution paid to the Medical College was Rs. 418, against Rs. 150 of the revised estimate, and Rs. 132, the actuals of the previous year.

99. (ii) *Sanitary Inspection.*—Rs. 265 were incurred under this head against the revised estimate of Rs. 240, the actuals in the preceding year being Rs. 248.

100. (iii) *Medical Reserve Staff.*—The charges under this head amounted to Rs. 43, against the revised estimate of Rs. 50 and the actuals of Rs. 46 in the previous year.

101. (iv) *Cutlers' Establishment.*—The allotment under this head was not spent as no contribution was claimed by the Accountant-General during the year.

102. (*b*) *Contributions to Local Boards*—(iii) *For second Clerk in the Office of the District Medical and Sanitary Officer.*—The contribution paid to the district board towards the pay of the second clerk in the office of the District Medical and Sanitary Officer amounted to Rs. 120, against the revised estimate of Rs. 140 and the actuals of Rs. 129 in the previous year.

103. (3) *Vaccination*—(*a*) *Establishment.*—The vaccine staff consisted of one inspecting vaccinator on Rs. 20, a first-class vaccinator on Rs. 15 and a second-class vaccinator on Rs. 10 per mensem. The charges on account of the establishment amounted to Rs. 530–8–3 against the revised estimate of Rs. 600, the actuals of the preceding year being Rs. 597. The decrease under the revised estimate is due to the savings effected by the payment of minimum salary of Rs. 20 to the inspecting vaccinator instead of Rs. 25 sanctioned in the budget, and by the imposition of fines upon the vaccination staff for their deficient work.

104. Compulsory vaccination has been in force in this municipality from 1st January 1891. Two vaccine depôts—one in the branch dispensary at Bruce Petta, and the other in one of the market stalls in Cowle Bazaar—were, as usual, maintained and cow calves were hired for vaccination purposes. The total number of operations performed with fresh animal lymph direct from the calf during the year was 3,043 including those vaccinated by medical subordinates, against 3,026 in the previous year; 2,854 were successful against 2,863 in the previous year. The total number of cases of primary vaccination was 2,727, of which 2,589 were successful. The total number of operations performed on children below one year of age was 2,202 against 1,680 in the previous year. Of this number 2,110 were successful against 1,615 in the previous year, the total number of births registered being 2,169 against 1,939 in the previous year. The total number of cases re-vaccinated was 316, of which 265 were successful. The percentage of successful cases of primary vaccination was 95·5 and that of re-vaccination 85·4. The average cost of each successful case was annas five as in the previous year. The number of cases vaccinated during the past three years is compared below :—

Year.	Total.	Successful.	Unsuccessful.
1892–93	3,922	3,750	172
1893–94	3,026	2,863	163
1894–95	3,043	2,854	189

The number of operations performed by the municipal medical subordinates with animal lymph was 40 against 87 in the previous year; 36 were successful. Municipal medical subordinates Mrs. A. D. Carmody, M. Rajagopaul Pillai, C. Ramaswami Naiker, M. Munisawmi Aiyar attached to the Sabapathi Mudaliar hospital, and M.R Ry. C. E. Runganatha Mudaliar and C. Ramanjulu Naidu of the Bruce Petta branch dispensary, did not perform any vaccine operations during the year. The District Medical and Sanitary Officer states that "they were employed in verifying the work done by the vaccine staff and that vaccination is not usually done in hospitals except by the vaccine staff."

105. The work done by the vaccine staff was supervised by the Assistant Surgeon and the municipal hospital assistants. Under section 138 of the District Municipalities Act, IV of 1884, 1,950 notices were issued to the parents or guardians of unprotected children to have their children vaccinated at the vaccine depôts against 1,160 in the previous year. In 1,310 cases the notice was complied with. Ninety children died, 429 left the town and the vaccination of 22 children was postponed on medical certificate and twelve of them left the town during the year 1895–96. In 99 cases the parties were prosecuted and 49 convicted. Rs. 43–14–0 were realised as fine from them. Out of 99 cases in which prosecutions were instituted, 67 children have since been vaccinated during the current official year 1895–96, 22 children have left the town, one child died, and the vaccination of nine children has been postponed on medical certificate.

106. Out of 345 cases (in which notices had been issued before the close of the year 1893–94) and eleven prosecutions pending on 31st March 1894, 193 children were vaccinated, 64 died and 99 left the town during the year 1894–95.

107. (*b*) *Contingencies.*—The contingent charges under this head amounted to Rs. 348–1–10, as particularized below, against Rs. 300 of the revised estimate, and Rs. 282, the actuals of the previous year. The number of calves hired for animal vaccination was 71.

	Rs.	A.	P.
Hire of calves	198	0	0
Wages of cooly to look after inoculated calves	68	7	0
Thaving charges	6	10	6
Feeding charges	14	15	11
Sundry articles such as bandages, ropes, &c.	4	14	6
Lancets	14	9	1
Stationery	40	8	10

108. (4) *Registration of Births and Deaths*—(*a*) *Establishment.*—The charges on account of the establishment for vital statistics, which consisted of two registrars and three reporters, amounted to Rs. 645–6–0, against Rs. 670 of the revised estimate, the actuals in the previous year being Rs. 644. The decrease under the revised estimate is due to the payment of a minimum salary of Rs. 6 to two of the reporters instead of Rs. 7 sanctioned in the budget.

109. The office of the registrar of births and deaths, Bruce Petta, is located in the branch dispensary at Bruce Petta, and that of the registrar of births and deaths, Cowle Bazaar, in one of the market stalls in Cowle bazaar. The registrars moved about in the town in the morning and evening to verify the cases reported by the reporters and division peons and also to collect information personally. The total number of births registered during the year was 2,169 against 1,939 in the previous year, and the registered number of deaths was 1,566 against 1,574 in the previous year. The number of prosecutions instituted during the year for failure to register births and deaths was 31. In 24 cases the parties were convicted and the fines inflicted amounted to Rs. 15–10–0. The total number of births and deaths registered during the past three years is compared below :—

Year.	Births.	Deaths.
1892–93	1,526	1,878
1893–94	1,939	1,574
1894–95	2,169	1,566

110. The registers of births and deaths are maintained in bound books in the forms prescribed by the Sanitary Commissioner for Madras, and the names of the parents are entered in all cases but those of children only in a few cases of the Muhammadan community. Hindu children are not given names within seven days.

111. (*b*) *Contingencies.*—The charges incurred under this head amounted to Rs. 12–8–5, against Rs. 20 of the revised estimate, the actuals in the previous year being Rs. 18.

112. (5) *Conservancy, Road-cleaning and Road-watering*—(*a*) (1) *Establishment.*—Rs. 12,063–8–1 were expended under this head, against Rs. 12,580 of the revised estimate, and Rs. 11,809, the actuals in the previous year. The decrease under the revised estimate is due to the payment of minimum salary of Rs. 6 to the newly entertained division peons instead of Rs. 7 provided in the budget and to the savings effected by the infliction of fines on the sanitary staff and stoppages of pay of the servants who absented themselves without leave or absconded. An assistant sanitary inspector for the cantonment and civil lines, whose appointment was sanctioned in

G.O., No. 605 M., Mis., dated 10th May 1894, was employed during the year. The council selected the sanitary inspector of Bruce Petta and sent him to the Medical College, Madras, for a course of four months' practical and theoretical training in Hygiene, as required by Government in their Order, No. 1914 M., dated 10th December 1894. He passed in Hygiene (Intermediate) in the second class.

113. The street sweepings were, as usual, first collected in dust-bins and thence conveyed in carts belonging to the municipal council to the rubbish depôts for being sold to the ryots or for being burnt in cinerators. During the year street sweepings were sold at six pies per cart-load and a large quantity was burnt in cinerators. The night-soil was removed in air-tight galvanized iron barrels mounted on carts belonging to the council outside municipal limits and buried in trenches in private lands as the owners thereof have leased them for the purpose free of charge. The manufacture of poudrette was discontinued from 1st April 1893, as there is no demand for it as manure. The number of dust-bins on 31st March 1894 was 396. Of these 302 were fixtures and 94 movable dust-bins. The number of movable dust-bins put up during the year was four. The total number of dust-bins on 31st March 1895 was 400.

114. There were 27 public latrines on 31st March 1894. No latrines were demolished during the year. Two latrines—one in Bruce Petta and the other in Cowle bazaar—were constructed during the year with corrugated-iron sheets. The number of public latrines on 31st March 1895 was 29. The sites selected in the cantonment and the civil lines for the construction of two public latrines with corrugated-iron sheets not having been approved by the Station Staff Officer and the Acting District Medical and Sanitary Officer, the construction of the two latrines for which materials had been purchased was not undertaken during the year. All the public latrines were cleaned twice a-day and tarred during the year. A very rigid inspection was kept over the proper cleaning of the latrines in order to induce the public to resort to them freely. There were 34 night-soil carts at work during the year.

115. There were thirty urinals on 31st March 1894. One urinal was demolished during the year and two were constructed during the year. The number of urinals on 31st March 1895 was 31.

116. (ii) *Other Charges, such as purchase or hire of Carts, Dry-earth, purchase and maintenance or hire of Bullocks, &c.*—Rs. 11,302–5–5 were expended under this head, against Rs. 12,000 of the revised estimate, and Rs. 10,133, the actuals of the previous year.

117. The municipal council maintained carts and bullocks of their own for removing street sweepings, night-soil and urine. Contractors were also entertained for supplying drivers and bullocks for five rubbish carts and one urine cart belonging to the municipal council. There were 76 bullocks and 16 buffaloes on 31st March 1894. One buffalo was purchased during the year and one bullock and one buffalo were sold by public auction as they became unserviceable through old age and two buffaloes died during the year. There were 75 bullocks and 14 buffaloes on 31st March 1895. The number of conservancy carts at work during the year was 29. The municipal cattle are in very good condition and the feeding of the cattle was frequently inspected by * myself.

* Late Chairman.

118. (*b*) *Private Scavenging*—(i) *Establishment.*—The expenditure under this head amounted to Rs. 2,432–7–9 against Rs. 2,980 of the revised estimate, the actuals in the preceding year being Rs. 2,397. The decrease under the revised estimate is due to savings effected by stoppage of pay of the latrine inspectors for one month owing to their unsatisfactory work, and by payment of minimum salary of Rs. 6 to the newly-entertained toties instead of the maximum pay of Rs. 7. The private latrines were cleaned once a day in the morning. The work of scavenging was inspected by the latrine inspectors, who are four in number. The number of houses served by the private scavenging agency was 1,517 at the commencement of the year and 1,576 at the close of the year. During the year fees were levied quarterly at the rate of eight pies per head per month. The municipality does not charge private scavenging fees for removing the contents of vessels and receptacles put outside houses. Private scavenging fees are charged when the scavengers go inside the houses and actually

themselves clean out the privies. The latrines which were cleaned out by scavengers employed by the owners of houses were frequently inspected and the owners prosecuted whenever the latrines were found in an insanitary condition. The private scavenging service was worked at a profit of Rs. 947–7–11 to the municipal council.

119. (*c*) *Cholera Charges.*—The expenditure under this head amounted to Rupees 20–11–4 against the revised estimate of Rs. 400, the actuals in the previous year being Rs. 43. The public health during the year was satisfactory. There was practically an immunity from cholera, one case only being recorded against two cases in the preceding year. There was only one attack and only one death from cholera in Bruce Petta. It was imported into Bruce Petta by an old Muhammadan woman on 3rd September 1894, who had gone to Jammalamadugu where cholera was prevalent. The woman was reported to have caught the infection at Moothanore railway station in the Cuddapah district. She arrived in Bellary on the morning of 3rd September 1894 and she expired on the following day. The bedding and clothing of the deceased were burnt. The house was thoroughly disinfected with disinfecting powder and sulphur fumes. The number of deaths from small-pox during the year was one against two in the previous year.

120. (*d*) *Contingencies.*—The charges on account of sundry articles such as baskets, brooms, tar, &c., for the use of the conservancy department, amounted to Rs. 107–8–8 against Rs. 500 of the revised estimate, the actuals in the preceding year being Rs. 114.

121. The Acting Sanitary Commissioner for Madras inspected the town in October 1894. His suggestions and proposals were discussed in the meetings, and the resolutions of the municipal council were entered against each suggestion or proposal in the margin of the Sanitary Commissioner's memorandum. The Sanitary Commissioner's inspection notes and the resolutions of the municipal council were submitted to Government which were recorded in their Order, dated 25th March 1895, No. 534 M., Local and Municipal.

122. *Grant IV, Lighting and Miscellaneous Municipal Purposes*—(*a*) *Establishment.*—The outlay under this head was Rs. 1,663–8–2 against the revised estimate of Rs. 1,740, the actuals in the previous year being Rs. 1,642. The decrease under the revised estimate is due to the savings effected by stoppages from the pay of lamplighters who broke or damaged panes of glass of lanterns and chimneys through their carelessness.

123. (*b*) *Contingencies.*—The charges incurred under this head amounted to Rs. 2,239–6–5, against the revised estimate of Rs. 2,500, and Rs. 2,439, the actuals of the previous year. The number of lamps on 31st March 1894 was 478, the number removed during the year was eleven, the number of lamps put up during the year was eleven. The total number of lamps on 31st March 1895 was 478. Thirteen lamp posts and lanterns have been purchased, but they were not put up during the year. The street lamps were regularly inspected by the lamp superintendents, who are four in number, and occasionally by the sanitary inspectors. They were also frequently inspected by me * and the members of the sub-committee. The lighting of the town was carried on departmentally as was done in the preceding year.

* Late Chairman.

124. (2) (ii) *Slaughter-houses*—(*a*) *Establishment.*—The charges on account of the establishment, which consisted of an inspector on Rs. 15 per mensem, amounted to Rs. 172–11–10 against the revised estimate of Rs. 180, the actuals in the preceding year being Rs. 180. The inspector looks after both the sheep and bullock slaughter-houses in Cowle Bazaar.

125. (*b*) *Contingencies.*—Rs. 3–11–6 were incurred for repairing the iron rods in the slaughter-houses against the revised estimate of Rs. 10.

126. (3) *Choultries.*—As usual, the employment of a watchman at the Prince of Wales' choultry cost Rs. 72 against the revised estimate of Rs. 70, the actuals in the preceding year being Rs. 72.

127. (4) *Travellers' Bungalow.*—The travellers' bungalow situated near the Mainwarring tank, on being restored to Government in accordance with G.O., No. 257 L., Mis., dated 4th February 1891, was transferred to the management of the district board during the year 1891–92, on condition of the municipal council paying half the net cost.

128. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 295–15–0 against the revised estimate of Rs. 100. The increase over the revised estimate is due to the expenditure incurred by the district board for putting up wire fence for the compound of the travellers' bungalow as required by the municipal council.

129. (5) *Avenues.*—The establishment consisted of one maistry on Rs. 10 and six servants on Rs. 6 each per mensem. The charges amounted to Rs. 529–10–2 against the revised estimate of Rs. 550, the actuals in the preceding year being Rs. 525. The establishment attended to the watering of the young trees and planting new ones and fencing them.

130. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 89–14–0 against the revised estimate of Rs. 100, the actuals in the previous year being Rs. 84.

131. (6) *Public Garden*—(*b*) *Purchase of Seeds, repair of Well, purchase of Bullocks, &c.*—The expenditure under this head amounted to Rs. 366–11–0, against the revised estimate of Rs. 400, and Rs. 452, the actuals of the previous year. The usual contribution of Rs. 25 per mensem on account of the bandstand garden situated in the cantonment was paid to the Military authorities. A contribution of Rs. 6 per mensem was also paid on account of the public pleasure garden situated in the compound of the Prince of Wales' choultry in Bruce Petta.

132. (8) *Fire*—(*a*) *Establishment.*—The charges on account of a lascar amounted to Rs. 69–8–2 against the revised estimate of Rs. 80, the actuals in the preceding year being Rs 72. There are two fire-engines belonging to the municipal council; one is placed in the Cowle Bazaar police station and is under the charge of the police; the other is kept in the municipal office in Bruce Petta. All the division peons have been trained in working the fire-engines.

133. (*b*) *Purchase of Fire-Engine, Buckets, Repairs, &c.*—The expenditure incurred in executing the necessary repairs to the fire-engines amounted to Rs. 4–2–0 against the revised estimate of Rs. 50 and the actuals of Rs. 4 in the previous year.

134. (9) *Other Charges*—(1) *Work done for private individuals other than private scavenging.*—The expenditure amounted to Rs. 378–10–5 against the revised estimate of Rs. 600, the actuals in the previous year being Rs. 281, for cleaning cesspools in the town. No regular establishment was entertained for cesspools as servants could not be secured for this work. The services of municipal sweepers were utilized for this purpose and they were paid at the rate of As. 2 per day in addition to their pay as sweepers. The number of cesspools cleaned during the year was 251 against 212 in the previous year. The contents of cesspools are conveyed in air-tight galvanized iron barrels mounted on carts and thrown outside municipal limits. The rules regarding the concreting of the flooring and pointing the side revetments of cesspools are very strictly enforced. The cesspools now being concreted into pucka-built cisterns get filled up with water in a short time and they have to be emptied out more frequently. The amount realized from owners of cesspools for cleaning was Rs. 392–5–0. This system was worked at a profit of Rs. 13–10–7 to the municipal council.

135. (ii) *Rewards for destruction of Wild Animals and Snakes.*—Rs. 57–8–0 were incurred, against the revised estimate of Rs. 100 and the actuals of Rs. 55 in the previous year, for payment of rewards for the destruction of cobras and stray dogs.

136 (iii) *Printing.*—The cost of printing the minutes of the resolutions of the municipal council and lists of voters amounted to Rs. 394–15–11 against the revised estimate of Rs. 350, the actuals in the preceding year being Rs. 253.

137. (v) *Other Items.*—Rs. 181–5–11 were incurred on account of the following, against Rs. 320 of the revised estimate, and Rs. 668, the actuals of the previous year:—

	Rs.	A.	P.
Numbering houses	25	6	11
Tin sheets for numbering carts	44	8	8
Land assessment	20	12	6
Cost of ballot boxes for purposes of elections	10	0	1
Law charges in municipal cases	74	2	0
Cost of sign-boards	6	7	9

138. *Grant V—(a) General Establishment*—(1) *Office Establishment.*—The charges on account of office establishment amounted to Rs. 3,785–10–5 against the revised estimate of Rs. 3,800, and Rs. 3,556, the actuals in the previous year.

139. (ii) *Inspection.*—The charges incurred under this head amounted to Rs. 720, being the sum provided in the revised estimate, against Rs. 720, the actuals in the preceding year.

140. (*b*) *Collection of Municipal Taxes.*—Bill collectors were entertained for the collection of taxes. Some were paid fixed monthly salary and others commission on the number of bills collected. The expenditure on account of the establishment for collection of taxes amounted to Rs. 1,302–4–3, against Rs. 1,500 of the revised estimate, and Rs. 1,289, the actuals of the previous year.

141. (ii) *Purchase of Account-books, Paper, Money-boxes, repair to Outposts, &c.*—The outlay under this head amounted to Rs. 379–2–3, against the revised estimate of Rs. 200, the actuals in the previous year being Rs. 418. The increase over the revised estimate is due to the supply of new forms of accounts by the Inspector of Local Fund Accounts from V. N. Jubilee Press, Madras, which cost Rs. 329–11–0.

142. (*d*) *Office Contingencies—Other than* (*b*)(ii).—The expenditure incurred under this head amounted to Rs. 434–1–3, against the revised estimate of Rs. 800, and Rs. 527, the actuals of the previous year. The decrease under the revised estimate is due to economy observed in the expenditure of stationery articles.

143. (*c*) *Contribution for Central Office and Audit Establishments.*—The contributions on account of central office and audit establishments amounted to Rs. 370, against the revised estimate of Rs. 370 and the actuals of Rs. 445 in the preceding year. These contributions are paid on requisitions received from the Accountant-General.

144. *Advances Recoverable*—(*b*) *Others.*—The advances made during the year amounted to Rs. 715, of which Rs. 465 were recovered by adjustments. The balance outstanding at the close of the year was Rs. 250.

145. *Refunds of other than current Collections.*—The expenditure under this head amounted to Rs. 144–7–3, as detailed below, against the revised estimate of Rs. 300, the actuals of the previous year being Rs. 839:—

	Rs.	A.	P.
Remission on account of house-tax	127	5	3
Refund of fine	0	12	0
,, of surplus sale-proceeds of seized carts	13	4	0
,, of money paid by a ryot for manure	3	2	0

IV.—Closing Balance.

146. The closing balance amounted to Rs. 36,077–9–8, against the revised estimate of Rs. 27,100, and Rs. 32,831, the actuals of the previous year. The increase over the revised estimate is due to the larger collection of taxes than what was estimated and to the non-utilization of the full amount allotted under Grants II, III, IV and V, which is partly counterbalanced by excess expenditure under Grant I, Public Works. The greater portion of the closing balance is reserved for expenditure on the proposed high school building.

147. During the year the accounts of the previous year 1893–94 were audited by M.R.Ry. P. Rajagopaul Mudaliar Avargal, Assistant Inspector of Local Fund Accounts. He passed the following remarks on the maintenance of the accounts of the municipality:—

"The general result of the audit is satisfactory, more so if the heaviness of the varied transactions of this large municipality, most of which are managed departmentally, entailing, as they do, more account and clerical labour than in other municipalities, is taken into account.

"2. Nothing was discovered important enough to call for immediate action on the part of Government."

148. I have again to record this year, as in the previous years, my thanks to the council for the hearty support accorded to me * in the discharge of my duties and for the cordial and harmonious manner in which discussions were conducted at the meetings.

* Late Chairman.

149. M.R.Ry. P. C. Anunthacharlu Garu, B.A., B.L, retired from the office of Chairman on the 31st May 1895, on which date his three years' term of councillorship expired, and at their meeting on the 5th June 1895 the council unanimously recorded the following resolution:—

"The council unanimously records with pleasure its high appreciation of the able and energetic manner in which M.R.Ry. P. C. Anunthacharlu Garu administered the affairs of the municipality during the period he held the office of Chairman."

150. This report was laid before the council at its meetings held on the 18th, 19th and 20th June 1895. A copy of the resolution passed at each meeting is herewith submitted.

ENCLOSURE.

REPORT on the Bellary Sabapathi Hospital and the Branch Dispensaries for 1894–95.

Public Health.—The public health during the year was satisfactory. One case of cholera was recorded. The following comparative statement shows the prevalence of the principal diseases:—

Disease.	1893–94.	1894–95.
Cholera	2	1
Small-pox	2	1
Fevers	678	572
All other causes	873	979
Total deaths	1,555	1,553

2. *Vital Statistics*—

	1893–94.	1894–95.
Population	54,460	59,467
Total births	1,939	2,169
Total deaths	1,574	1,552
Birth-rate per mille	36·27	36·47
Death-rate „	29 08	26·11

3. *Sanitation.*—The chief wants of Bellary seem to be proper water and drainage scheme. The present system of allowing cesspools to be dug under the roads and streets is very bad, and as they are often only emptied every 6 or 12 months their state is very bad and the surrounding soil must be saturated by percolation to a considerable area.

4. *Vaccination.*—Compulsory vaccination was in force. Of a total of 3,103 operations performed during the year under report 2,818 are returned as successful as against 2,939 and 2,781 in the preceding year. In children under one year of age 2,162 operations were performed with 2,074 cases successful, as against 1,614 and 1,553 in the year previous. The percentage of success was 96 33, while in 1893–94 it was 96·76. The system of registration and the service of notices work well. The medical subordinates attached to the medical institutions performed 40 cases all under one year of age. They were also employed in verifying the work done by the vaccination staff. The municipal vaccine establishment consisted of, as in 1893–94, one inspecting vaccinator on Rs. 20, one first-class vaccinator on Rs. 15, and one second-class vaccinator on Rs. 10.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of Accommodation*—

(i) *Sabapathi Hospital.*—A fine, large building, which, however, needs a few alterations in order to utilize all space to the best advantage. The male wards are usually full but there is not so much demand for beds on the female side.

(ii) *Bruce Petta Dispensary.*—This consists of one hall for dispensing medicines and for out-patients to be attended to and one room used as store. There is neither a dressing-room nor a convenient place for out-patients to wait and this causes great inconvenience.

(iii) *Cowle Bazaar Dispensary.*—Needs more accommodation and an additional room is much required. During his inspection on 20th September 1894 the Surgeon-General also remarked about these.

(*b*) *State of repair of Buildings*—

(i) *Sabapathi Hospital.*—Much needs repairs. The necessary funds were budgeted for but nothing has been done. Much inconvenience is caused and the state of repair impedes the efficiency of the hospital.

(ii) *Bruce Petta and Cowle Bazaar Dispensaries*—In good state of repair.

(*c*) *State of repair of furniture.*—

(i) *Sabapathi Hospital.*—In fair order.

(ii) *Bruce Petta and Cowle Bazaar.*—Not in good state of repair. Some repairs have lately been asked for.

(*d*) *Number of Patients treated as compared with previous years.*—During the year under report there were 597 in-patients and 32,726 out-patients treated as against 625 in and 37,186 out patients in 1893–94. The following table shows increase or decrease in attendance in out-patients:—

(i) Sabapathi hospital	8,090	9,008	Increase,	918
(ii) Bruce Petta dispensary	12,623	11,554	Decrease,	1,069
(iii) Cowle Bazaar dispensary	16,473	12,164	Decrease,	4,309

There has been marked decrease in the Cowle Bazaar dispensary. No explanation is, however, offered by the hospital assistant attached to it.

(*e*) *Mortality and actual causes*—

(i) *Sabapathi Hospital.*—Fifty-seven deaths.

Causes—		Causes—	
Dysentery	4	Disease of urinary system	6
Leprosy	1	„ of generative system	5
All other pural disease	1	„ of organs of locomotion	2
Disease of the nervous system	4	„ of connective tissue	2
Lungs (diseases of)	11	Ulcers	3
Other disease of respiratory system	1	Poisons	2
Other disease of digestive system	11	Local injuries	1
Spleen (disease of)	1		57
Disease of lymphatic system	2		

(ii) *Bruce Petta Dispensary.*—No deaths.

(iii) *Cowle Bazaar Dispensary.*—No deaths. The hospital assistant says they are not reported and hence not recorded.

(*f*) *Operations and Results.*—There were 71 major and 1,127 minor operations conducted, with seven deaths under the head of major operations. The minor operations were all successful. The following comparative statement exhibits the operations performed in each institution, with results:—

Name of Institution.	1893–94.		1894–95.		Results.								Fractures.	
					1893–94.				1894–95.					
					Major.		Minor.		Major.		Minor.			
	Major.	Minor.	Major.	Minor.	Cured.	Otherwise.	Cured.	Otherwise.	Cured.	Otherwise.	Cured.	Otherwise.	1893–94.	1894–95.
Sabapathi hospital	36	384	65	508	32	4	384	..	58	7	508	..	36	49
Bruce Petta dispensary	4	171	5	238	4	..	171	..	5	..	238	..	14	5
Cowle Bazaar do.	5	494	1	381	5	..	494	..	1	..	381	..	35	30
Total	45	1,049	71	1,127	41	4	1,049	..	64	7	1,127	..	85	84

(*g*) *Establishment whether sufficient and efficient*—

(i) *Sabapathi Hospital*—.Another male attendant is required. The menial staff is not very efficient.

(ii) *Bruce Petta Dispensary.*—Is now sufficient and efficient.

(iii) *Cowle Bazaar Dispensary.*—A midwife was posted to this dispensary in March last and the establishment is sufficient and efficient.

(*h*) *Midwives' Work actually done.*—During the year there were two midwives—one Onnammaley and the other Rosammahatt—ached to the institutions. The former conducted 14 cases up to September 1894 when she was transferred to Holagundy dispensary, and the latter conducted 27 cases till March when she was transferred to Kosgi dispensary, both under the Adóni Taluk Board. The place of the former was taken up in the Sabapathi hospital by midwife Muneammah in September 1894 from the Holagundy dispensary, and she conducted 22 labour cases, and the place of the latter was taken up by a newly-arrived midwife. Neither of the midwives did good work and they have both been transferred.

(*i*) *If Dispensaries for Caste and Gosha Women who cannot or will not attend the ordinary dispensaries have been working, a special note should be added on their working.*—A lying-in hospital was built on a site near the District Court at some distance from the Sabapathi hospital. At a meeting of the council on 9th April 1895 the question was discussed, and an offer having been made by a private individual to purchase it, a sub-committee was formed to consider the question. I am on the sub-committee but have received no further communication and, as far as I know, nothing further has been done.

(*j*) *General Remarks.*—Nil.

BELLARY,
9th May 1895.

(Signed) J. W. EVANS, Surgeon-Major,
District Medical and Sanitary Officer.

Submitted to the Collector.

2. The collections under house and profession taxes show an increase over the past year. There are, however, still large arrear balances of 1893–94 under several heads, but the council have taken steps in the matter. Lists of arrears have been made out and furnished to the sub-committees for enquiry and report on the solvency of the defaulters, &c.

3. Many of the roads have been put in fair order, but increased attention is still necessary in the case of some of them. It is noted that it is in the contemplation of the council to dispose of the newly-constituted lying-in hospital and to erect another at a more suitable site.

The side-drains are periodically cleaned of silt and they need greater attention. The question of sink-pits needs the serious consideration of the council. The matter is, however, engaging their attention and a sub-committee has been formed to consider the whole question and submit proposals for improving the drainage.

4. Water-supply has been sufficiently attended to.

5. The streets and the principal lanes are kept clean and the small lanes have also received proper attention. Private scavengering has received its due share of attention.

6. Education is keeping up its position. Though the demand for the municipal rubbish has increased, yet the realization from this source has not been large.

7. Children vaccination shows a good advance over the past year. Notice to parents or guardians of unprotected children have been issued in greater numbers with better success. The registration of births and deaths also shows an improvement over the previous year.

8. The general condition of municipality has been good.

BELLARY,
9th July 1895.

(Signed)
Dy. Collector, Hd.-Qr. Division.

---

1. Forwarded.

2. *Paragraph* 7, *Tax on Arts.*—Slackness in administration alone can be responsible for having to write off Rs. 534 and to recommend the writing off of Rs. 813 as irrecoverable.

3. *Paragraph* 8, *Tax on Buildings.*—A similar remark applies to Rs. 689 written off and Rs. 862 still outstanding.

4. *Paragraph* 25, *Income from Markets.*—On Friday and on part of Saturday an enormous market is held in the streets of Brucepetta, where a general market place should be provided. The Cowl bazaar market is empty, chiefly because vend is allowed along the sides of the streets. No real effort is made by the municipal council to prevent this.

5. *Paragraph* 37, *Private Scavenging.*—This affects well-to-do people and Rs. 161 needs to be written off only because the council will not collect the fees in advance.

6. *Paragraph* 45, *Repairs—Communications.*—This year there has been an improvement in the main roads of the town, but a few are still very bad, *e.g.*, the Siruguppa road. Complaints are common as to the state of the roads under the Military Department (municipal grant Rs. 2,000) and in some respects they are justified, *e.g.*, the road past the cemetery. The non-cantonment avenues need attention.

7. *Paragraphs* 86–88, *Sale of Lying-in Hospital.*—I shall give my views on this proposal when it is forwarded to Government.

8. *Paragraphs* 103–110, *Vaccination and Vital Registration.*—There is a satisfactory increase of 230 in the registration of births, of which the advantages are beginning to be recognized. I am not sure that the decrease in the number of deaths is a correct result. On the census of 1891 (60,000) births are 36, deaths 26, per mille. The population now is not probably less than 65,000, which gives 33 and 24 per mille, respectively. Judging from the surrounding district and after allowing for the circumstances of a malodorous town, I should say the births should be not less than 36 and the registration of deaths similarly corrected would then rise to at least 27.

9. Even taking these figures—viz., a birth-rate of 36 per mille on a population of 65,000, which brings the number of births to 2,340—vaccination must he held to be very fair with 2,854 successful cases. The result, no doubt, is principally due to the 99 prosecutions.

10. *Paragraph* 118, *Private Scavengering.*—The profit of Rs. 947 is unwise. The fees should be reduced so as merely to cover expenses.

11. *Paragraph* 134, *Cesspools.*—There are some 850 of these in the town and they are not emptied as soon as they get full. The result is a discharge of foul gas under the covering so offensive that doors and windows in the locality have sometimes to be closed and people are suddenly attacked with nausea and purging. In fact, next to a water-supply, the main need of the town is a drainage scheme.

12. *Paragraph* 146, *Closing Balance.*—I am not aware that the large balance of Rs. 36,000 is ear-marked for the erection of a high school building, and considering the crying sanitary needs of the town other works may have to take precedence.

13. *Paragraph* 149, *The Retiring Chairman.*—There is much in the executive administration of the municipality during the past year to which exception may be taken, but it must be admitted that M.R.Ry. Ananth̄a Charlu Garu has increased its efficiency during his term of office (two years nine months) and has shown considerable public spirit in bearing this honorary burden so long. But the post, I am driven to think, both in office-work and in out-door inspection, requires more time than most private gentlemen can spare, and unless the town is very lucky in its next elected Chairman, it may become necessary to attach a salary to the appointment to secure the whole time of the incumbent.

14. *General Remarks.*—The encroachments in Brucepetta main bazaar are very bold, many houses projecting a yard or more beyond the lines of avenue trees.

A smart epidemic of cholera has just made its appearance.

(Signed) J. H. A. TREMENHEERE,
Collector.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From M.R.Ry. C. RAMASESHA AIYAR, Avargal, B.A., Ex-officio Chairman, Municipal Council, Bellary, to the Chief Secretary to Government (through the Revenue Officer in charge of division, Bellary), dated 2nd July 1895, No. 2201.

I have the honour to submit the report for the official year 1894–95 on the working of the Madras District Municipalities Act IV of 1884 in the Municipality of Bellary, together with the statements required in G.O., No. 2193 M., dated 10th December 1891, as well as Statements Nos. I, II, III and IV of the Assistant Inspector of Schools, Third Division, and the report of the District Medical and Sanitary Officer on the working of the Sabhapati Mudaliyar hospital and the branch dispensaries located in Bruce Petta and Cowle Bazaar.

I.—Constitution of the Municipal Council.

2. The maximum number of councillors is 24, of whom one is ex-officio, five are nominated and eighteen elected. At the commencement of the year, the council contained sixteen members and at the close of the year there were 21. During the year, thirteen vacancies occurred in the council—two among the nominated councillors and eleven among the elected councillors. The vacancies among the nominated councillors and nine vacancies out of twelve including the one referred to in G.O., Mis. No. 284 M., dated 9th March 1894, among elected councillors, were filled up during the year. Elections for filling up the remaining three vacancies were also held during the year, but the appointments were gazetted in the year 1895–96.

3. During the year under report twelve elections were held—five on 10th May 1894, four on 12th May 1894, two on 2nd March 1895 and one on 23rd March 1895—for filling up the vacancies in wards Nos. II, III, IV, V, VI, VII, VIII and IX. The elections in wards Nos. II, III, IV, VIII and IX were contested. As the number of valid nominations was the same as that of the vacancies, in wards Nos. II, V, VI and VII no elections were held under rule 22 (*b*) of the rules for the conduct of elections. Out of 144 registered voters in ward No. II, 266 in ward No. III, 281 in ward No. III (according to the new list), 258 in ward No. IV, 41 in ward No. VIII and 277 in ward No. IX, six, 52, 140, 147, 27 and 88 voters went to the poll respectively. Reports containing full particulars regarding the elections were submitted to Government in my letters Nos. 1052, dated 2nd June 1894, 12338, dated 14th March 1895 and 6, dated 31st March 1895.

4. The council held 52 meetings during the year, excluding two meetings that were adjourned for want of quorum against fifty in the previous year. The average attendance at each meeting was twelve; the largest number of councillors present at any one meeting was eighteen and the smallest six.

II.—Receipts.

5. The budget and the revised estimate for the year 1894–95 were reviewed by Government in their orders, Nos. 193 M., Local and Municipal, dated 21st February 1894, and 162 M., Local and Municipal, dated 4th February 1895 respectively.

6. The actual receipts of the year, exclusive of the opening balance, amounted to Rs. 81,070–3–7 against Rs. 76,260 of the revised estimate and Rs. 82,175, the actuals of the previous year. The increase over the revised estimate occurred chiefly under "Tax on Arts," "Tax on Buildings," "Tax on Vehicles," "Tax on Animals," "Tax on Carts," "Fees from Educational Institutions," "Fines under Municipal and other Acts," "Grant from Government—(iii) Other purposes" and "Private scavenging," and it is counterbalanced by a slight falling off under "Rent of Lands," "Avenue Receipts," "Sale-proceeds of old materials," "Income from Markets" and "Grants from Government on account of Municipal schools." The slight decrease under the actuals of the previous year is chiefly due to smaller realization of outstanding arrears under "Tax on Buildings" and under "Fines under Municipal and other Acts." In the former case the outstanding arrears were irrecoverable and in the latter case, the fines levied by the Bench Magistrates were rather low. This decrease is counterbalanced partly by an increase under collections of current taxes.

7. *Receipts from Taxation*—(2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts.*—This tax was revised during the year and levied on the first seven classes of schedule A of the Act. The demand registers were prepared in the month of May 1894. The original current demand was Rs. 10,281–8–0 against Rs. 10,355 of the previous year; the number of appeals preferred against the imposition of the tax was 168 against 193 in the previous year. All the appeals were disposed of during the year. In 93 cases the tax was confirmed, in 16 reduced, in 18 remitted, and 41 appeals were dismissed being time-barred and unaccompanied with the required amount of deposit. The remissions granted by the council on hearing appeals amounted to Rs. 126 against Rs. 226–8–0 of the previous year. Of the final demand of Rs. 10,155–8–0, the sum of Rs. 9,641–3–0 was realized against Rs. 9,250 of the previous year, leaving a balance of Rs. 514–5–0 against Rs. 878–8–0 of the previous year. The arrears outstanding at the commencement of the year amounted to Rs. 1,421 against Rupees 2,346–8–0 of the previous year, of which Rs. 74 were collected against Rs. 641 in the previous year; Rs. 534 were written off the accounts by the council as irrecoverable as recommended by the sub-committees to whom the arrear lists were referred for personal enquiry and report. The council is satisfied that these arrears are irrecoverable and that there is no use in retaining them on the books. There is still a balance of Rs. 813 relating to the year 1893–94. This amount has been reported by the officers charged with the execution of warrants to be irrecoverable. The lists in these cases have been referred to the sub-committees for verification. On hearing from them the amount will be adjusted.

8. (*b*) *Tax on Buildings.*—The assessment on buildings that were materially enlarged and improved was revised during the year, and new houses erected during the year were brought under taxation. As in the previous year, the tax was levied at the maximum rate of 7½ per cent. of the annual rent value. The annual value is estimated on the annual rent for which the houses are let as far as it could be ascertained, and on the probable rent if the houses are in the occupation of the owners themselves, due consideration being given to the importance of the locality in which the houses are situated. The demand registers were prepared in the month of April 1894. The total current demand of the tax was Rs. 28,195–12–11 against Rupees 28,162–14–6 of the previous year; the remissions granted by the council on appeal amounted to Rs. 102–5–10; the demand as finally settled was Rs. 28,093–7–1, of which Rs. 27,092–11–6 were collected against Rs. 26,631–9–2 of the previous year. The remissions granted on account of vacant houses amounted to As. 11–2, and Rupees 1,000–0–5 were outstanding at the close of the year against Rs. 1,232–3–11 of the previous year. The arrears outstanding at the beginning of the year amounted to Rs. 2,262–6–4 against Rs. 4,598–14–11 of the previous year, of which Rs. 664–10–8 were realized against Rs. 2,056–5–3 of the previous year, Rs. 45 were remitted and Rs. 689–12–10 were written off the accounts by the council as irrecoverable as recommended by the sub-committees to whom the arrear lists were referred for personal enquiry and report. The council is satisfied that these arrears are irrecoverable. There is still a balance of Rs. 862–14–10 against Rs. 1,030–2–5 of the previous year. The lists of arrears have been forwarded to the sub-committees for

personal enquiry and report. On receipt of their reports, the amount will be adjusted. Eighty-nine appeals were preferred against the assessment on houses. All the appeals were disposed of during the year. In 29 cases the tax was confirmed, in nineteen reduced, in four remitted, and 37 appeals were dismissed being time-barred and unaccompanied with the required deposit.

9. Out of 14,126 houses in the municipality according to the census of 1891, 10,657 were brought under assessment. All houses, the annual rent value of which is less than Rs. 6, were exempted from taxation, provided they were the owner's sole property liable to taxation. For the purpose of census, every detached building, whatever was its rental value and whether it was a main building or an out-house, when used for dwelling purposes, was separately numbered. The Government military buildings and sepoys' huts situated in the Cantonment, for which no tax is paid, are not included in the number of houses assessed. Hence the difference between the number of houses as per census and that brought under assessment.

10. (*c*) *Tax on Lands.*—This tax was levied at 2 pies per 80 square yards and based upon the actual extent of land. The demand register was prepared in the month of April 1894. Out of the current demand of Rs. 638, Rs. 548–8–9 were realized against Rs. 561–4–6 in the previous year, leaving a balance of Rs. 89–7–3 at the close of the year. No appeals were preferred against the assessment on lands. The arrears outstanding at the commencement of the year amounted to Rs. 146–14–10, of which Rs. 2–9–4 were collected and Rs. 70–3–4 were written off the accounts by the council as irrecoverable, as recommended by the sub-committee to whom the arrear list was referred for personal enquiry and report. There is still a balance of Rs. 74–2–2 relating to the year 1893–94 to be adjusted during the current year 1895–96. The extent of taxable land within the municipality being very limited, there is no room for increase of tax under this head. The Tahsildar of Bellary has been requested to furnish a list of lands according to recent survey. On receipt of the necessary information from him, the demand register will be revised.

11. (*e*) *Tax on Vehicles.*—Rs. 1,129–8–0 were collected during the year for the two half years, against Rs. 1,000 of the revised estimate and Rs. 981, the actuals of the previous year. The number of notices of demand issued for the collection of the tax was 154. No prosecutions were instituted for failure to take out licenses, as the owners obtained licenses on the simple presentation of distress warrants.

12. (*f*) *Tax on Animals.*—This tax realized Rs. 1,800–4–0 against the revised estimate of Rs. 1,700 and the actuals of Rs. 1,777 in the previous year. The number of demand notices issued for the collection of the tax was 251. No prosecutions were instituted for failure to take out licenses under this head, as the tax was paid upon the issue of distress warrants.

13. (*g*) *Tax on Carts.*—The income derived from registration of carts amounted to Rs. 1,313–8–0 against Rs. 1,200 of the revised estimate and Rs. 1,265, the actuals of the previous year. The Sanitary Inspectors of Bruce Petta and Cowle Bazaar and the Prosecuting Inspector, who were, as usual, authorized to seize unregistered carts, seized 419 carts and sent them over to the municipal office for registration; 418 were returned to the owners on their taking out licenses for them and the remaining one cart was sold by public auction.

14. (*h*) *Tolls.*—There were fourteen toll-gates as in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act, and they were leased out for the year for Rs. 20,050 against Rs. 20,150 in the previous year. The toll contract for the year 1894–95 was sold on the 13th March 1894. The decrease under the revised estimate is slight and calls for no remarks. The whole of the contracted sum was realized by monthly instalments before the close of the year, and the usual contribution of one-third of the revenue, amounting to Rs. 6,683–8–3, was paid to the District Board for through traffic before the close of the year. The gross receipts from tolls including interest on overdue kists amounted to Rs. 20,050–8–11.

15. (3) *Realizations under Special Acts*—(*c*) *Fees under Act II of* 1888.—Rs. 90 were realized under this head, against the revised estimate of Rs. 50 and the actuals of Rs. 60 of the previous year, on account of licenses issued for the erection

of a pandal for amateur dramatic performances and for the use of a place of public resort (for circus performances) under G.O., No. 1460 M., dated 10th September 1891.

16. (4) *Revenue derived from Municipal Property and Powers apart from Taxation* (*a*) (i) *Rent of Lands.*— Rs. 162–11–5 were realized against Rs. 200 of the revised estimate and Rs. 212, the actuals of the previous year, for storing building materials in public streets. The decrease is due to a smaller number of owners of houses having utilized municipal ground for storing building materials.

17. (iii) *Avenue Receipts.*—Rs. 113–5–0 were realized by the sale of decayed trees and avenue clippings against Rs. 200 of the revised estimate and Rs. 120, the actuals of the previous year. This is a fluctuating item and calls for no remarks.

18. (*b*) (i) *Sale-proceeds of Lands and Buildings.*—No income was derived under this head, as no immovable property vested in the council was sold during the year.

19. (iii) *Sale-proceeds of Old Materials, Empty Oil-cans, Packing Cases, &c.*— Rs. 9–12–6 were realized against the revised estimate of Rs. 50 and the actuals of Rs. 359 in the previous year. This is a fluctuating item and calls for no remarks.

20. (*c*) *Conservancy Receipts—Sale-proceeds of Night-soil, Street Refuse, &c.*— Rs. 249–8–11 were realized by the sale of bratties made of the dung collected in the municipal cattle-yard and of street sweepings, against the revised estimate of Rs. 200 and the actuals of Rs. 202 in the previous year. No income was derived from the sale of night-soil during the year as it was buried in trenches, there being no demand for it as manure. The number of cart loads of street sweepings removed daily from Bruce Petta, Civil Lines, Cowle Bazaar and Cantonment was 80, and the number for the whole year was about 29,200. Four thousand eight hundred and ninety-four cart loads were sold to and removed by ryots in Bruce Petta and 12,306 cart loads were removed by the ryots of Cowle Bazaar free of charge, as there was no demand for it in Cowle Bazaar. About 12,000 cart loads were burnt in cinerators. The number of cart loads of night-soil removed daily from private and public latrines in Bruce Petta, Civil Lines, Cowle Bazaar and Cantonment was 18, and the number for the whole year was about 6,600.

21. (*d*) (i) *Fees from Educational Institutions.*—Rs. 5,243–5–1 were realized against Rs. 4,200 of the revised estimate and Rs. 4,566, the actuals of the previous year. The increase over the revised estimate is due to the increase in the strength of the municipal high school and the municipal anglo-vernacular primary school.

22. (ii) *Other Revenue from Educational Institutions* (*Sale of Books.*)—Rs. 118–13–3 were realized by the sale of books from the municipal book depôt against the revised estimate of Rs. 100 and Rs. 22, the actuals of the previous year. The stock of books in the book depôt was sold by public auction and the book depôt was abolished before the close of the year in accordance with the resolution of the council passed at its meeting held on 10th January 1893. Hence the increase over the revised estimate.

23. (*e*) (i) *Sale-proceeds and Composition Fees of Medicines.*—The income derived from the sale of medicines from the Sabhapati Mudaliyar hospital amounted to Rs. 198–9–5 against the revised estimate of Rs. 200, the actuals of the previous year being Rs. 96. During the year eight gentlemen paid their yearly subscription of Rs. 6 each in advance for the supply of medicines from the Sabhapati Mudaliyar hospital and the dispensaries to them and their families in accordance with the resolution of the council passed at its meeting held on the 15th May 1894.

24. (ii) *Other Hospital Receipts.*—Rs. 30–3–4 were realized under this head against the revised estimate of Rs. 20 and the actuals of Rs. 23 of the previous year. This sum includes dieting charges recovered from patients in the Sabhapati Mudaliyar hospital and the sale-proceeds of packing cases received from the Medical Stores.

25. (*f*) (i) *Income from Markets.*—The fees realized amounted to Rs. 164–2–3 against Rs. 200 of the revised estimate and Rs. 163, the actuals of the previous year. The council maintained two markets in the town—one in Bruce Petta and the other in Cowle Bazaar. The vegetable market in Bruce Petta was held on Fridays on a piece of open ground in front of the municipal branch dispensary. Most of the

stalls in the Cowle Bazaar market built some years ago at a cost of upwards of Rs. 14,000 were unoccupied. Eleven stalls only were occupied during the year. The council is unable to compel vendors of vegetables and shopkeepers to open their shops in these stalls for want of provision in the District Municipalities Act IV of 1884. This matter has already been brought to the notice of Government in the previous reports. Persons exposing vegetables and other articles for sale on the side of public roads were prosecuted both by the police and the municipal council. The collection of market fees in the Bruce Petta vegetable market is effected departmentally under the supervision of a municipal councillor, and counterfoil receipts are granted to vendors for payment of fees.

26. (ii) *Income from Slaughter-houses.*—Rs. 3,308–5–10 were realized against Rs. 3,300 of the revised estimate and Rs. 3,118, the actuals in the previous year. The increase over the actuals of the previous year is due to keen competition at the sale of the contracts. There are four slaughter-houses—one in Bruce Petta and three in Cowle Bazaar. The collection of fees in the slaughter-houses was leased to contractors. Forty-four prosecutions were instituted against persons for slaughtering sheep in other than slaughter-houses without obtaining licenses. Forty-two persons were convicted.

27. (*g*) *Other Fees*—(i) *Distraint Fees.*—Rs. 6–2–4 were realized against the revised estimate of Rs. 50 and the actuals of Rs. 7 in the previous year. The number of distraint warrants pending at the commencement of the year was 3,502. The number issued during the year was 5,691. In 4,700 cases the taxes were collected on simple presentation of warrants before distraint. In 2,549 cases warrants were cancelled. In 63 cases property was distrained. In 29 cases property was returned on payment of the tax, and in 34 cases property was sold by public auction for realization of the tax. In 1,881 cases the officers charged with the execution of warrants have endorsed to the effect that the amounts could not be realized. Pending the report of the sub-committees as to the correctness of the statements made by the officers charged with the execution of warrants, the amounts cannot be written off and the warrants cancelled. These warrants are shown under column 10 of appendix A to statements IV-A and IV-B as warrants remaining unexecuted at the close of the year.

28. (ii) *License Fees.*—The fees realized under this head amounted to Rupees 1,634–7–9 against the revised estimate of Rs. 1,510 and the actuals of Rs. 1,351 of the previous year. The increase over the revised estimate is due to a larger number of persons having taken out licenses for offensive and dangerous trades than what was expected. Sixty-seven prosecutions were instituted against defaulters for not taking out licenses as particularized below :—

	No.
Firewood depôts	10
Timber depôts	3
Oil mills	3
Brick kilns	2
Lime kiln	1
Places for storing skins	10
Place for the sale of straw	1
Depositing grain in the public street	35
Manufactory of fire-works	1
Dyeing house	1

29. (iii) *Cart-stand Fees.*—There were three cart-stands—two in Bruce Petta and one in Cowle Bazaar. They were, as usual, leased out to contractors. The realizations amounted to Rs. 507–12–2 against the revised estimate of Rs. 500, the actuals of the previous year being Rs. 653. The whole of the contracted sum was collected in monthly instalments before the close of the year.

30. (iv) *Other Fees.*—Rs. 15–14–0 were realized on account of fees for copying extracts from registers of births and deaths and house-tax registers and miscellaneous petitions against the revised estimate of Rs. 10, the actuals of the previous year being Rs. 7.

31. (*h*) *Fines under Municipal and other Acts.*—Rs. 3,102-15-6 were realised under this head against Rs. 2,500 of the revised estimate, and Rs. 3,542, the actuals of the previous year. The total number of cases prosecuted under the District Municipalities Act, IV of 1884, and the Bye-laws and the Towns Nuisances Act, III of 1889, was 1,553 against 1,457 in the previous year. This number does not include the 2,004 cases prosecuted by the police under the Towns Nuisances Act, III of 1889, and the District Municipalities Act, IV of 1884.

32. (i) *Interest on Investments*—(iii) *Medical.*—Rs. 112-3-7, being the interest which accrued on the funded capital of Rs. 2,500 of the Sabhapati Mudaliyar hospital, was realised against the revised estimate of Rs. 100, and Rs. 102, the actuals of the previous year.

33. (5) *Grants and Contributions*—(*a*) *From Government*—(i) *Education—Municipal Schools.*—The realisations under this head amounted to Rs. 1,317-14-0 against the revised estimate of Rs. 1,500, the actuals in the previous year being Rs. 1,625. No grant was drawn on behalf of M.R.Ry. O. Gopala Pillai, B.A., Second Assistant, as he has not passed the Practical Test, and of the Tamil pandit from 1st June 1894, as the appointment was abolished, as suggested by the Director of Public Instruction in his letter, No. 320, dated 17th January 1894, embodied in G.O., No. 193 M., Local and Municipal, dated 21st February 1894. An application for increased grants on behalf of the headmaster and the first assistant of the municipal high school was submitted to the Acting Director of Public Instruction, but that officer, in his Proceedings, No. 8282, dated 4th September 1894, stated that owing to the exiguity of the finances of the department, he was unable to sanction the increased grants applied for. The application was renewed on 6th February 1895 for reconsideration, but the Director of Public Instruction, in his Proceedings, No. 2611, dated 5th March 1895, stated that he was unable to reconsider the orders passed in Proceedings, No. 8282, dated 4th September 1894, quoted above. Hence the decrease under the revised estimate.

34. (iii) *Other Purposes—Sanitation.*—Rs. 3,194-4-0 were realized from Government on account of the conservancy of military lines in the cantonment against the revised estimate of Rs. 3,200, the actuals in the previous year being Rs. 3,195.

35. *Other Purposes—Compensation for exemption of Military Officers from Municipal Taxes.*—Rs. 709-8-0 were realized from Government against the revised estimate of Rs. 600, and Rs. 462, the actuals of the previous year. The increase over the revised estimate and the actuals of the previous year is due to the recovery from the Pay Examiner, Military Accounts Department, during the year, of Rs. 114-8-0, being profession tax of the officers of the 1st Battalion, Cheshire Regiment, for the half-year ending 31st March 1894.

36. (*b*) *From Local Boards*—(ii) *Medical.*—Rs. 1,200 were realized from the District Board of Bellary as usual on account of contribution for the Sabhapati Mudaliyar hospital.

37. (6) *Miscellaneous*—(*a*) *Recoveries on account of Services rendered to Private Individuals*—(i) *Private Scavenging.*—The current demand amounted to Rs. 3,609-4-8, of which Rs. 3,236-10-4 were realized against Rs. 3,245-10-8 of the previous year. Rs. 372-10-4 were outstanding on 31st March 1895. This balance is irrecoverable as the occupiers of the houses to which the latrines are attached have left the station and as certain latrines were not in use. This amount will be written off the accounts during the current official year 1895-96. The arrears outstanding at the commencement of the year amounted to Rs. 304-12-8, of which Rs. 143-5-4 were collected and Rs. 161-7-4 for 1893-94 were written off the accounts as irrecoverable, as recommended by the sub-committees to whom the arrear lists were referred for personal enquiry and report. During the year the fees were levied at 8 pies per head per month and collected quarterly as usual and the number of private latrines cleaned by municipal agency rose from 1,517 to 1,576. The demand registers were prepared in April 1894.

38. During the year there were in all 2,492 private latrines or places used as such including the number under municipal agency. All possible efforts were used to keep the premises in a sanitary state.

39. In six cases notices were issued to put up latrines in proper order, in 98 cases to remove rubbish from premises, in 178 cases to remove silt from the side drain under the steps and pyals in front of houses, in six cases to desist from allowing offensive liquid matter to run down from houses, in one case to repair two cattle yards by paving and draining the flooring, in five cases to remove excreta from latrines, in one case to close up a hole excavated for a cess-pool, in one case to cleanse and secure premises from being used as a latrine, in two cases to remove trap doors of private latrines and in one case to cleanse and put a cess-pool in order. Five persons were prosecuted for failing to put up their latrines in proper order. Nine persons were prosecuted for failing to remove rubbish from their premises, one person was prosecuted for failing to desist from allowing offensive liquid matter to run down from his house and two prosecutions were instituted for failing to remove trap doors of latrines.

40. (ii) *Other Purposes.*—Rs. 392-5-0 were realized from owners of houses for cleaning their cess-pools against the revised estimate of Rs. 300, and Rs. 535, the actuals of the previous year. The number of cess-pools cleaned during the year was 251 against 212 in the previous year. The decrease under this head is due to the quantity of liquid matter removed from cess-pools being smaller than that in the previous year.

41. (*b*) *Other Items*—(ii) *Refunds of Expenditure of previous year.*—Rs. 82 were recovered, against the revised estimate of Rs. 40, and Rs. 287, the actuals of the previous year, as particularised below :—

	Rs.	A.	P.
Value of kerosine oil supplied to the Collector's office during 1893-94	8	7	0
Amount of an uncashed cheque mislaid by the party credited by adjustment	24	12	0
Process-fees recovered	48	13	0

42. (iv) *Other Items.*—Rs. 92-0-8 were realized as detailed below, against Rs. 40 of the revised estimate, and Rs. 330, the actuals of the previous year :—

	Rs.	A.	P.
Value of stone slabs collected as royalty for quarrying credited by adjustment	76	8	8
Amount recovered for supply of water at a theatrical pandal for use in case of accident from fire	6	0	0
Summons batta	0	12	0
Sale-proceeds of one unclaimed seized cart	8	12	0

III.—Expenditure.

43. The total expenditure amounted to Rs. 77,826-3-1, against Rs. 81,996 of the revised estimate, and Rs. 77,005, the actuals of the previous year; the closing balance being Rs. 36,077-9-8, against Rs. 27,100 of the revised estimate and Rs. 32,834 of the previous year. The actual charges were distributed among the several grants as shown below :—

	Rs.	A.	P.
Grant I, Public Works	12,630	1	10
„ II, Education	12,707	8	7
„ III, Sanitation and Medical Services	38,583	4	9
„ IV, Lighting and Miscellaneous Municipal Purposes ..	6,519	10	6
„ V, General Establishment	6,991	2	2
Advances	250	0	0
Refunds	144	7	3

44. *Grant I, Public Works*—(*1*) *New Works*—(*b*) *Buildings.*—Rs. 4,107-2-3 were expended on the works enumerated below against Rs. 4,150 of the revised estimate and against Rs. 5,152, the actuals of the previous year.

			Rs.	A.	P.
(1)	Construction	of the lying-in hospital	2,523	9	5
(2)	„	of powder magazine	606	15	0
(3)	„	of a movable latrine in Miller Petta ..	25	7	6
(4)	„	of a movable latrine near the lock hospital in Cowle Bazaar	199	4	10
(5)	„	of a movable latrine in the F division in Bruce Petta	427	13	10
(6)	„	of a urinal in A division, Cowle Bazaar ..	45	0	5
(7)	„	of a urinal in D division, Cowle Bazaar ..	44	15	7
(8)	„	of a urinal in the Goldsmith Street, Bruce Petta	3	2	3
(9)	„	of a urinal in the Car Street, Bruce Petta ..	3	2	3
(10)	„	of a urinal in the Flower Bazaar Street ..	3	2	3
(11)	„	of a movable latrine in the Chucklers' patch in Cowle Bazaar	6	12	2
(12)	Cost of zinc sheets, &c., purchased for constructing public latrines on hand		217	12	9

Works Nos. 1 and 2 were completed in the previous year. Works Nos. 3, 8, 9, 10 and 11 were undertaken in the previous year but completed during the year. Works Nos. 4, 5, 6 and 7 were undertaken and completed during the year.

45. (2) *Repairs*—(*a*) *Communications.*—The expenditure on the repair of roads under the control of the municipal council amounted to Rs. 4,935–13–9 against Rs. 4,700 of the revised estimate, and Rs. 3,733, the actuals of the previous year, in addition to the usual contribution of Rs. 2,000 (shown under (5) Contributions—(*c*). To others for public works) paid to the Military Works Department for the maintenance of the roads in the cantonment. The outlay on communications, including the contribution paid to the Military Works Department as per G.O., No. 7599, dated 30th November 1892, was 52 per cent. of the net revenue from tolls against 42·67 per cent. in the previous year. At the close of the year the claim of one of the municipal contractors for Rs. 99–13–6 for gravel supplied by him during the year was pending. If this sum is added to the amount actually paid during the year, the amount expended for repair of roads during the year would be Rs. 7,035–11–3 or 52·6 per cent. of the net income from tolls. It will be observed from statement II-A that a large number of roads was repaired and that they were kept in a satisfactory condition. Repairs to roads were carried on departmentally under my * personal supervision and of a sub-committee constituted for the purpose. The total mileage of roads under the control of the municipal council was 36 miles 6 furlongs, of which 20 miles 7 furlongs were metalled, 10 miles 4 furlongs are gravelled, and 5 miles 3 furlongs are unmetalled.

* Late Chairman.

46. (*b*) *Buildings.*—Rs. 74–12–11 were expended against the revised estimate of Rs. 600, and Rs. 774, the actuals of the previous year, for executing the necessary repairs to the undermentioned buildings :—

	Rs.	A.	P.
Municipal high school building	17	14	1
The Sabhapati Mudaliyar hospital	18	12	4
Cowle Bazaar dispensary	1	14	3
The latrine near the Cowle Bazaar mutton slaughter-house	1	8	0
The urinal near the Bruce Petta vegetable market ..	1	12	3
The Cowle Bazaar beef slaughter-house	21	0	0
The Cowle Bazaar mutton slaughter-house	12	0	0

Some of the municipal buildings having been repaired during the previous year, the allotment under this head was not fully utilized. Hence the decrease.

47. (*d*) *Water-supply*—(i) *Repairs to Works, Machinery, &c.*—Rs. 1–6–0 were expended against the revised estimate of Rs. 300, and Rs. 279, the actuals of the previous year. An advance of Rs. 140 was made to a contractor for constructing a parapet wall and to put up pulleys to the butchers' well in Bruce Petta. But the work was completed only during the current official year 1895–96. Hence the decrease under the revised estimate.

48. (ii) *Establishment.*—The charges of the establishment consisting of five tank watchmen amounted to Rs. 310–7–11 against the revised estimate of Rs. 310, the actuals of the previous year being Rs. 296. An additional tank watchman for the Fort ditch sanctioned in G.O., No. 162 M., Local and Municipal, dated 4th February 1895, was entertained during the year.

49. *Establishment.*—The municipal public works establishment, which consisted of an overseer, a clerk, a peon, two maistries and eight coolies, was maintained at a cost of Rs. 1,200–7–0 against the revised estimate of Rs. 1,290, the actuals in the previous year being Rs. 1,517. The decrease under the revised estimate and the actuals of the previous year is due to the payment of minimum salary of Rs. 45 to the overseer and of Rs. 10 to a maistry, instead of Rs. 50 and Rs. 15, respectively, sanctioned in the budget, and also to the post of overseer being vacant for some time, as no competent person could be secured for it.

50. (5) *Contributions*—(*b*) *To Provincial Funds for scrutiny of Estimates, &c.*—No expenditure was incurred under this head as no estimates were forwarded to the Public Works Department for scrutiny.

51. (*c*) *To others for Public Works.*—Rs. 2,000 sanctioned in G.O., No. 7599, dated 30th November 1892, were paid as usual to the Military Works Department during the year for the maintenance of the municipal roads in the cantonment, as provided in the revised estimate.

52. *Grant II, Education.*—The total expenditure on education amounted to Rs. 12,707–8–7 against Rs. 13,780 of the revised estimate, the actuals of the previous year being Rs. 12,693.

53. (i) *Training Schools*—(*c*) *Allowance to Teachers undergoing training.*—Rs. 245–4–0 were incurred, against the revised estimate of Rs. 220, and of Rs. 35, the actuals of the previous year, on account of B. Vijia Rao, an F.A., and M.R.Ry. A. Bhimachari, B.A., teachers of the municipal high school, for undergoing training. The former was trained at the Teachers' College, Saidapet, and he resumed his duties in the municipal high school in January 1895. The latter joined the Teachers' College, Saidapet, on 16th January 1895, for undergoing training, and under instructions from the Director of Public Instruction he was required to join the Training College, Rajahmundry. Being a graduate, he drew an allowance of Rs. 25 per mensem from the municipality in addition to a scholarship of Rs. 15 per mensem from Provincial funds. Travelling allowances were also paid to the two teachers. Hence the increase over the revised estimate.

54. (2) *Municipal Schools*—(i) *On Salary system*—(*a*) *Establishment.*—Two schools —a high school and an Anglo-vernacular primary school—were maintained during the year, and Rs. 8,274–0–11 were expended, against Rs. 8,610 of the revised estimate, the actuals of the previous year being Rs. 7,978.

55. The teaching staff of the municipal high school consisted of four graduates, three F.As., one trained Matriculate, one untrained Matriculate, a Sanscrit pandit, a Telugu pandit, a Tamil pandit, a Hindustani munshi, a writing master, and a trained first-class gymnastic instructor. The services of the Tamil pandit were dispensed with from 1st June 1894, as there was not a sufficient number of Tamil pupils to justify his retention, in accordance with the suggestion of the Director of Public Instruction in his letter, No. 320, dated 17th January 1894, embodied in G.O., No. 193 M., Local and Municipal, dated 21st February 1894.

56. In the municipal high school, the number of pupils on the rolls on the 31st March 1895 was 213 against 186 in the previous year, the average attendance being 179 against 143 in the previous year. The net cost of the upper secondary department was Rs. 160–10–4 against Rs. 544–1–5 in the previous year; the average net cost per pupil being Rs. 2–9–5 against Rs. 10–4–3 in the previous year. The average net cost of the lower secondary department was Rs. 1,186–10–0 against Rs. 981–4–2 in the previous year. The average net cost per pupil in the lower secondary department was Rs. 10–2–3 against Rs. 10–14–5 in the previous year. The increased attendance of pupils resulted in the reduction of the net cost to the municipality. Twenty-nine pupils presented themselves for the Matriculation examination, of whom

six passed. None went up for the Upper Secondary examination during the year. Ten pupils appeared for the Lower Secondary examination, of whom two were successful. The Inspector of Schools, Central Circle, inspected the school on 21st November 1894, and reported in the tabular inspection report for 1894–95 that the school was doing good work, and judging from the large increase in the attendance appears to be very popular in the town; that the discipline and tone of the whole institution were very good and the dress and manners of the pupils left nothing to be desired; that the results of the public examinations held in December 1893 were very poor both in the Matriculation and the Lower Secondary examinations. He also remarked that at the inspection the upper forms did very well, the lower forms fairly except Form III which was bad, that all the records and registers of the school are most neatly and methodically kept and that the state of these records reflects much credit on the headmaster, that the gymnastic results were good in the VI, V and IV forms and fair in the III, II and I forms. The Director of Public Instruction, in reviewing the tabular inspection report of the Inspector of Schools, Central Circle, on the municipal high school, remarked that there has been a further accession to the strength since the previous inspection; that the attendance was fairly representative; that the proportion of Muhammadans under instruction was satisfactory; that the results of the Matriculation and Lower Secondary examinations of December 1893 were very unsatisfactory, while those at the inspection were, on the whole, fair, and that gymnastic results seemed to have been fairly satisfactory.

57. During the year, Mr. R. Sewell, late Collector of Bellary, forwarded from England a set of five books for a science prize for the municipal high school. The council received with thanks the handsome gift of highly instructive and interesting books for presentation to the students of the municipal high school.

58. The council duly considered, at its meeting held on 25th March 1895, G.O., No. 162 M., dated 4th February 1895, reviewing the Bellary municipal budget for 1895–96, and referring for consideration and report the suggestion of the Director of Public Instruction in paragraph 2 of his letter embodied in the Government Order regarding the abolition of the upper secondary department of the municipal high school, and working it as a lower secondary school, and also letter received from Rev. Mr. B. Lucas, of the London Mission Society, recommending the abolition of the upper secondary department, and the letters from certain municipal councillors and from the President, Anjuman-i-Faizrasan, protesting against the abolition of the upper secondary department of the municipal high school, and resolved not to abolish the upper secondary department of the municipal high school, but to maintain it, as the actual expenditure on education during the last three years has not exceeded the 15 per cent. limit but has been less than the budget allotments of those years. In 1890–91 the percentage of net expenditure on education was 8·9; in 1891–92, 15·7; in 1892–93, 14·7; in 1893–94, 11·4; and in 1894–95, 10·5. In the year 1891–92 there was a highly-paid Government servant in charge of the school as headmaster, and the expenditure exceeded in consequence the budget allotment. Government, in their Order, Mis. No. 838 M., dated 17th May 1895, have recorded the views of the council on this subject.

59. The teaching staff in the municipal Anglo-vernacular primary school consisted of two matriculates, three middle-school men, two trained Hindustani teachers of the primary grade, two Hindustani teachers who passed the lower secondary examination of whom one is trained.

60. The number of pupils on the rolls on 31st March 1895 was 195 against 176 in the previous year, the average attendance being 141 against 138 in the previous year. As the strength of a primary class should not exceed thirty under the Madras Educational rules, and as there were 48 pupils in the first class, an additional teacher on a salary of Rs. 20 per mensem was entertained from 13th February 1895. The net cost of the institution was Rs. 1,179–2–3 against Rs. 1,184–8–4 in the previous year, and the average net cost per pupil was Rs. 8–5–10 against Rs. 8–9–4 in the preceding year.

61. The following is a summary of the results of examinations :—

		Number of pupils examined.	Number of pupils passed.
First Standard	.. ..	34	23
Second „	.. ..	39	36
Third „	.. ..	51	41
Fourth „	.. ..	47	28

62. (*b*) *Contingencies.*—Rs. 331–10–9 were incurred under this head, against Rs. 500 of the revised estimate, and Rs. 325, the actuals of the previous year.

63. (ii) *On Salary-results System—(a) Fixed Payments.*—Rs. 1,336–3–3 were expended, against Rs. 1,440 of the revised estimate, and Rs. 1,262, the actuals of the previous year. The decrease under the revised estimate is attributable to the payment of minimum salaries of Rs. 8 and Rs. 12–8–0 to the teacher of the Bruce Petta Madiga school and to the headmistress of the Cowle Bazaar Hindu Caste Girls' school, respectively, instead of Rs. 9 and Rs. 15 sanctioned in the budget; to the non-employment of the sweeper in the Madiga school, Bruce Petta, and to the post of the teacher of the night-school in the Glass Bazaar, Bruce Petta, for Muhammadans, being vacant for five months. The number of schools maintained under salary-results system was eight against eight in the previous year.

64. Four Hindustani schools were maintained by the municipal council during the year—three in Bruce Petta and one in Cowle Bazaar. Of the three schools in Bruce Petta, two were day-schools and one a night-school. Of the two day-schools one was located in a rented building in Mellor Petta, and the other also in a rented building in the Glass Bazaar street, Bruce Petta.

65. In the Mellor Petta Hindustani school, the number of pupils on rolls on 31st March 1895 was 20 against 28 in the previous year, the average attendance being 20 against 21 in the previous year. The net cost to the municipality was Rs. 127–15–6 against Rs. 173–15–3 in the preceding year, the average net cost per pupil being Rs. 6–6–4 against Rs. 8–4–6 in the previous year.

66. The night-school for Muhammadans started on 1st November 1892, gradually decreased in strength and failed entirely owing to the inefficiency of the teacher. It was therefore abolished on 4th September 1894. It was re-opened in a rented building on 12th February 1895 in Lalakumman, and Syed Ahmed, Hindustani munshi of the municipal high school, has been appointed teacher of the school. The school was inspected by the headmaster of the municipal high school during the year, and subsequently by the Sub-Assistant Inspector of Schools, Bellary Range. The latter officer reported that the school was in a thriving condition. The number of pupils on 31st March 1895 was 31 against 22 in the previous year, the average attendance being 25 as in the preceding year. No fees are levied in the school as the pupils attending the school belong to the labouring classes of Muhammadans, who are too poor to afford to pay school fees. The net cost of the school was Rs. 55–8–3 against Rs. 84–12–8 in the preceding year, and the average net cost per pupil was Rs. 2–3–6 against Rs. 3–6–3 in the previous year.

67. The new school in Glass Bazaar street, Bruce Petta, which was opened on 7th October 1893 at the special request of the Muhammadan community of Bruce Petta for the benefit of the Muhammadans, continued to be maintained throughout the year. The number of pupils on rolls on 31st March 1895 was 38 against 33 in the previous year, and the average daily attendance was 31 against 34 in the preceding year. No fees are levied in the school as the pupils cannot afford to pay them. The net cost of the school was Rs. 87–8–0 against Rs. 24–0–6 in the previous year, the average net cost per pupil being Rs. 2–13–2 against As. 11–4.

68. The number of pupils on rolls on 31st March 1895 in the Cowle Bazaar Hindustani school was 33 against 30 in the previous year, the average attendance being 26 against 24 in the previous year. The net cost to the municipality on account of this school was Rs. 177–6–11 against Rs. 169–5–4 in the previous year, the average net cost per pupil being Rs. 6–13–2 against Rs. 6–0–10 in the previous year.

69. Two poor schools—one in Bruce Petta and the other in Cowle Bazaar—were maintained during the year for the benefit of the Madigas. The Bruce Petta Madiga school was started on 10th August 1892 in a rented building situated close to the Pariah quarters in Herial Ookkadum. The school was occasionally inspected and the progress reported to me * by M.R.Ry. O. Gopala Pillai, B.A., Science Teacher of the municipal high school, as desired by me *. The number of pupils on rolls on 31st March 1895 was 31 against 28 in the previous year, the average attendance being 17 against 22 in the previous year. The net cost of the school was Rs. 130–10–11 against Rs. 101–12–0 in the previous year, the average net cost per pupil being Rs. 7–11–0 against Rs. 4–12–11 in the previous year.

* Late Chairman.

70. The Cowle Bazaar Madiga school was opened on 7th April 1892 and is located in the Cowle Bazaar market-stalls, which have been partly converted into a school building. The number of pupils on rolls on 31st March 1895 was 34 against 37 in the previous year, the average daily attendance being 33 against 28 in the previous year. The net cost to the municipality was Rs. 190–8–6 against Rs. 142–1–0 in the previous year, the average net cost per pupil being Rs. 5–12–5 against Rs. 5–1–2 in the previous year. This school was occasionally inspected by the headmaster of the municipal Anglo-vernacular primary school as directed by me †. No fees are levied for imparting instruction in the two poor schools for Madigas, as the pupils attending them are very poor.

† Late Chairman.

71. Two schools—one in Bruce Petta and the other in Cowle Bazaar—were maintained during the year for the education of females. The Ripon Caste Girls' school is located in a rented, spacious building in the Brahmin Street, Bruce Petta. Owing to the increase in the number of classes, the appointment of an additional schoolmistress was found absolutely necessary. One Miss Martin, who has passed the Primary School examination, was therefore appointed schoolmistress on 4th September 1894 and put in charge of the Infant Standard class. The headmistress has passed the Middle School examination in the first class and is a certificated schoolmistress. The first assistant schoolmistress has passed the Primary School examination and has appeared for the Method examination, but the results are not yet announced. The school was inspected by the Acting Sub-Assistant Inspector, Girls' Schools, Second Range, in August 1894, and occasionally by M.R.Ry. V. P. Ramachandra Sastri, B.A., First Assistant of the municipal high school. . The strength of the school on 31st March 1895 was 60 against 62 in the previous year, the average attendance being 54 against 42 in the previous year. The net cost of the school was Rs. 563–13–4 against Rs. 440–9–8 in the previous year; the average net cost per pupil was Rupees 10–7–1 against Rs. 10–7–10 in the previous year.

72. The Cowle Bazaar Hindu Caste Girls' school is located in a rented building in Cowle Bazaar. It was handed over to the management of the municipal council on 1st April 1892. It is under the superintendence of the Chairman of the Cowle Bazaar sub-committee. There were 66 pupils on rolls on 31st March 1895 against 60 in the previous year, the average attendance being 54 against 45 in the previous year. The net cost of the school was Rs. 390–11–4 against Rs. 385–2–4 in the previous year; the average net cost per pupil was Rs. 7–3–9 against Rs. 8–8–11 in the previous year. The teaching staff consisted of three schoolmistresses. The headmistress has passed the Upper Primary examination, and the first assistant mistress has passed the Primary School examination. The second assistant mistress is an unpassed woman.

73. (*b*) *Result Grants.*—Rupees 482–15–0 were expended, against Rs. 360 of the revised estimate, and Rs. 519, the actuals of the previous year. The increase over the revised estimate is due to credit being taken for grants of Rs. 4–6–0, Rs. 173–8–0 and Rs. 150 earned by the Cowle Bazaar Madiga school, the Ripon Caste Girls' school and the Cowle Bazaar Hindu Caste Girls' school, respectively, from Provincial funds and payment made from municipal funds instead of from "Deposit account" as was done in former years. The Bruce Petta Hindustani school earned a grant of Rs. 10 against

Rs. 20–2–6 in the previous year. The grant earned by the Hindustani night-school amounted to Rs. 17–3–0 against Rs. 17–14–8 in the previous year. The Hindustani school in Glass Bazaar earned a grant of Rs. 27–8–0. The Cowle Bazaar Hindustani school earned a grant of Rs. 15. The Bruce Petta Madiga school and Cowle Bazaar Madiga school earned grants amounting to Rs. 19–6–0 and Rs. 70–6–0, respectively, against Rs. 3–5–8 and Rs. 28–15–9 in the previous year. The Ripon Caste Girls' school, the Cowle Bazaar Hindu Caste Girls' school, and the Madiga school, Cowle Bazaar, earned Provincial grants of Rs. 173–8–0, Rs. 150 and Rs. 4–6–0, respectively, against Rs. 10–4–8, Rs. 437–13–4 and Rs. 8–12–0 in the previous year.

74. (*c*) *Contingencies.*—The expenditure under this head amounted to Rs. 386–14–6, against the revised estimate of Rs. 470 and the actuals of Rs. 343 in the previous year.

75. (3) *Salary Grants.*—The salary grant drawn by the manager of the Wardlaw College amounted to Rs. 300–13–6 against the revised estimate of Rs. 310, the actuals in the preceding year being Rs. 524.

76. The only school that earns salary grant from municipal funds is the Wardlaw College. There were 226 pupils on the rolls on 31st March 1895 in the lower secondary and primary departments of the Wardlaw College—Europeans and Eurasians 14, Native Christians 20, Muhammadans 11, Brahmans 97, and non-Brahman Hindus 84. All classes of the community were well represented. The average number was 226 and the average daily attendance 197. Fifteen pupils appeared for the Lower Secondary examination; three of these obtained complete certificates and three more passed in the compulsory and one optional subject. Two others, who passed in some of the subjects the previous year, completed their tests this year and have obtained complete certificates. Twenty-six pupils were sent up for the Primary examination, of whom four passed in the first class, eight in the second class and one in the compulsory and one optional subject. The expenditure during the year amounted to Rs. 3,747–12–11 including Rs. 2,974–12–7, being salaries paid to the teaching staff. The net cost to the management was Rs. 180–1–5. The cost would have increased more than three-fold if a vacancy, which occurred in the lower secondary department, had been filled up during the year. The manager reports that owing to want of means, and chiefly owing to the fact that the allotment for salary grants from municipal funds for 1894–95 was reduced from Rs. 600 to Rs. 300, the teaching staff was not strengthened and that the work of the institution was therefore carried on under considerable difficulties. The usual allotment of Rs. 600 on account of salary grants was reduced by the council in accordance with the proposals of the Director of Public Instruction contained in his letter, No. 11427, dated 20th October 1893, and the necessary notice was given to the manager of the Wardlaw College of the reduction in the grant in conformity with the instructions of the Director of Public Instruction. Excluding the pandits and the gymnastic instructor, there were on the 31st March 1895 three trained teachers and four untrained teachers.

77. The Director of Public Instruction in his Proceedings, No. 4827, dated 23rd April 1895, in reviewing the tabular inspection report of the Inspector of Schools, Central Circle, dated 24th December 1894, on the Wardlaw College, made the following remarks :—

"*Staff.*—The staff is weak for a second-grade college. As the first assistant is an under-graduate of the First Arts standard, he should not be given any work in the college. The services of a teacher holding the L.T. degree might have been secured for the second assistant mastership. All the uncertificated teachers should be urged to qualify professionally. Under the educational rules drawing must be taught as one of the compulsory subjects in the upper secondary forms, and it would be economical if a trained teacher qualified to teach literary subjects as well as drawing were employed at an early date. Should the Director's suggestion for the reduction of the municipal high school to the status of a lower secondary school be carried out, the municipal council would be in a position to aid the primary and lower secondary departments of the Wardlaw College more liberally."

(But the council resolved not to abolish the upper secondary department of the municipal high school and Government have recorded the views of the council on this subject as stated in paragraph 58 *supra*.)

"2. *Accommodation.*—Early arrangements should be made for improving the accommodation.

"3. *Reading Room.*—The formation of a reading room in connection with the college is strongly recommended, the charge being met from subscriptions from teachers and pupils.

"4. *Strength and Attendance.*—Though there was an accession to the total strength of the institution, the college classes are weaker than in the year previous, owing to the poor results of the Matriculation examination. The three lowest classes also were not sufficiently strong. All the classes of the community were suitably represented. The average attendance was low and greater regularity should be enforced.

"5. *Examinations.*—The college acquitted itself creditably at the First Examination in Arts held in December 1893. The results of the Matriculation examination were, however, very poor and those of the Lower Secondary examination indifferent. The inspection also disclosed numerous defects which should receive the prompt attention of the staff.

"6. *Finance.*—Of the total cost of the institution during the year 1893–94 aggregating Rs. 10,232, fees and grants met 91 per cent. This is satisfactory.

"7. *General.*—The tone and discipline of the institution were satisfactory."

78. (4) *Results Grants.*—The number of result-grant schools at the commencement of the year was 33; no new schools were opened during the year, and the number closed during the year was nine. Four of them were closed as the managers of a school took up an appointment in one of the Fund offices. One school was closed as the manager was not able to secure the services of a competent teacher. The manager of a school closed it owing to reduction in the number of pupils. The number of schools at the close of the year was 24. The number of pupils on rolls on 31st March 1895 was 988 boys and 110 girls against 1,257 boys and 131 girls in the previous year. The number of pupils examined was 734, of whom 546 were found qualified for grants. The total amount of grant earned by the schools was Rupees 1,166–9–0, against Rs. 1,500 of the revised estimate, and Rs. 1,455, the actuals of the previous year. Results grants were paid at the maximum rate allowed by the Grant-in-aid Code to the managers of schools who employed trained or passed teachers, and three-fourths of the maximum rates to those who employed untrained or unpassed teachers. Grant was also given to the Infant standard. Certain certifying memoranda issued by the Assistant Inspector of Schools, Third Division, and by the Sub-Assistant Inspector of Muhammadan Schools at the maximum rates to the managers of result-grant schools who employed untrained or unpassed teachers, were returned for revision, but the Assistant Inspector of Schools, Third Division, in his letter, No. 557, dated 3rd February 1895, stated that no reduction should be made in the grants earned by result-grant schools as the assignments fixed for them by his predecessor at the late conference were made with due consideration to the qualifications of the teachers employed therein and other circumstances connected with the schools, and that any further reduction in the grants passed by him would be felt very much by teachers, and education may suffer thereby. The council could not accept the recommendation of the Assistant Inspector of Schools for payment of more than three-fourths of maximum grant to untrained or unpassed teachers, as it will be opposed to the instructions of the Director of Public Instruction and to the orders of Government. Six of the teachers of result-grant schools appeared for the Primary School examination during the year, but the results are not yet announced.

79. (6) *Inspection*—(*b*) *Municipal Inspectors*—(i) *Establishment.*—Rs. 165–7–1 were incurred, against Rs. 300 of the revised estimate, and Rs. 237, the actuals of the previous year, for maintaining an inspecting schoolmaster for the supervision of the elementary and aided schools. The decrease under the revised estimate and the actuals of the previous year is due to the payment of minimum salary of Rs. 20 to the inspecting schoolmaster instead of Rs. 25 sanctioned in the budget, and also to

the non-payment of the salary of the inspecting schoolmaster from 1st December 1894 as his salary bills for the last five months have not yet been countersigned and forwarded to me for payment by the Assistant Inspector of Schools, Third Division. The number of schools visited by the inspecting schoolmaster during the year was 59, the number examined 59, and the number of pupils examined was 15,026. The work done by the inspecting schoolmaster was reported by the Assistant Inspector of Schools, Third Division, to be fair.

80. In accordance with the suggestions of the Director of Public Instruction, the council opened, on 8th November 1894, a sessional school and placed the inspecting schoolmaster of this municipality in charge of it for imparting instruction to unpassed teachers of result-grant schools in the subjects of the Primary School examination, and thereby to enable them to pass the examination and ultimately to qualify themselves for teachers' certificates. Seventeen teachers attended the school and eleven of them have appeared for the Primary School examination. The results are not yet announced.

81. (ii) *Contingencies.*—Rs. 8–14–8 were incurred, against the revised estimate of Rs. 10 and the actuals of Rs. 6, for supplying stationery articles to the inspecting schoolmaster.

82. (7) *Miscellaneous*—(*b*) *Common Gymnasium*—(ii) *Contingencies.*—The allotment of Rs. 50 under this head has not been utilized.

83. (*c*) *Other Items.*—Rs. 8–11–11 were incurred, against the revised estimate of Rs. 10 and the actuals of Rs. 9, for paying commission to the curator of the municipal book depôt for the sale of books. The book depôt was abolished at the close of the year.

84. *Grant III, Sanitation and Medical Services.*—Rs. 38,583–4–9 were expended against the revised estimate of Rs. 42,370, the actuals in the previous year being Rs. 35,987.

85. (1) *Hospitals and Dispensaries*—(*a*) *Establishment.*—One hospital and two dispensaries were maintained during the year; of these the Sabhapati Mudaliyar hospital receives both in and out patients. The Cowle Bazaar and Bruce Petta dispensaries afforded aid to out-patients only. The three institutions are working satisfactorily and increasing in importance year after year. The medical relief afforded by the municipal council is fully appreciated by the public. Five hundred and ninety-seven in-patients and 32,726 out-patients were treated during the year against 625 in-patients and 37,186 out-patients in the preceding year. The decrease in the number of out-patients is due to the closing of the branch dispensary for about a month during the illness of M.R.Ry. C. E. Ranganatha Mudaliyar, who was in charge of it, and to the dispensary having been placed in charge of temporary medical subordinates from time to time. The hospital assistant in charge of the branch dispensary at Cowle Bazaar states that the decline in the number of out-patients at the Cowle Bazaar branch dispensary is attributable to the cantonment hospital at Cowle Bazaar rendering medical relief to the civil population of the town and to the fairly healthy condition of the town during the year. The average daily attendance of out-patients was 25 in the Sabhapati Mudaliyar hospital, 32 in Bruce Petta dispensary, and 33 in the Cowle Bazaar dispensary. The charges on account of establishments amounted to Rs. 4,022–11–7 against Rs. 4,470 of the revised estimate, the actuals of the previous year being Rs. 3,844. The decrease under the revised estimate is due to the savings effected by the entertainment of a third-class hospital assistant on Rs. 25 in the branch dispensary at Cowle Bazaar instead of a second-class hospital assistant on Rs. 35, and of a second-class hospital assistant on Rs. 35 in the branch dispensary at Bruce Petta, in consequence of the death on 16th October 1894 of the senior medical subordinate, M.R.Ry. C. E. Ranganatha Mudaliyar, who was drawing Rs. 60 per mensem; to the non-employment of a second-class hospital assistant on Rs. 35 in the Sabhapati Mudaliyar hospital in place of second-class hospital assistant M. Rajagopaul Pillai transferred to the local fund dispensary at Holagundi; and to the non-employment of the establishment sanctioned for the lying-in hospital. Third-class hospital assistant M. Muniswami Aiyar was appointed on 11th March 1895 in place of second-class hospital assistant M. Rajagopala Pillai transferred to the local fund dispensary at Holagundi.

86. The new lying-in hospital which was constructed at a cost of Rs. 6,846–4–5 was handed over to the council by the contractor on 19th January 1895. It was not opened during the year. Surgeon-Major J. W. Evans, Acting District Medical and Sanitary Officer, in his letter, No. 464, dated 12th February 1895, requested the municipal council to consider the desirability of disposing of or adapting the building for some other purpose and building a new one adjacent to, or in the compound of, the Sabhapati Mudaliyar hospital. He made the above recommendation on the following grounds:—

(1) Distance of the lying-in hospital building from the Sabhapati Mudaliyar hospital, thus necessitating the entertainment of a separate staff.

(2) Publicity of the site in front of the District Court, and the sub-committee report that the cries of the women in labour cases will be heard in the court buildings.

(3) Proximity to the main road and consequently the difficulty there will be in keeping dust out and securing privacy.

(4) The council will have no difficulty in disposing of the hospital building without incurring any loss.

87. The following facts were laid before the council on 26th February 1895 in connection with the letter of the Acting District Medical and Sanitary Officer, suggesting the disposal of the new lying-in hospital building and the construction of another in its place:—

(1) The site on which the building stands was selected by the then District Medical and Sanitary Officer, Surgeon-Major W. O'Hara, in consultation with the then Collector, Mr. R. Sewell. The exact spot was actually marked out by the former.

(2) The site was approved by the Sanitary Board in their Proceedings, No. 32, dated 11th January 1893.

(3) The present Surgeon-General, after inspection of the building on the 21st September 1894, made the following remarks:—

"Also inspected with Mr. Plunket the very good new lying-in hospital. It is a pity it was sited so far away from the Sabhapati Mudaliyar hospital. It appears very well adapted for the proposed uses, and in my opinion it would be very desirable to carry out the suggestions of the Lady Dufferin Fund at it, and to devote one of the smaller rooms for the purposes of a dispensary for caste and gosha women who will not attend at the other dispensaries. It is most desirable that a properly-trained female medical practitioner's services should be obtained and placed in sub-charge. No hospital assistant, male or female, is fit for such a charge.

"I am glad to hear that a wall is to be placed round the compound. I think the committee should reconsider their resolution of the 8th May, No. 5, as regards the kitchen for the hospital assistant, also regarding the well—a lying-in hospital without an ample supply of water is dangerous—also regarding quarters for the hospital servants who should be always available; the furniture should be as simple as possible and all the furniture should be without any projections which can lodge dust and it ought all to be easily cleaned."

88. The council unanimously resolved to dispose of the new lying-in hospital building and to select a new site for another building, as there are grave objections to the site of the new lying-in hospital, and as there is every probability of realizing the value of the building by sale without material loss, and appointed a special committee to receive offers for the purchase of the present building and to select a new site and to do the needful. When offers are received, the sanction of Government will be obtained in due course for the sale of the building.

89. The two second-class hospital assistants of the Sabhapati Mudaliyar hospital, the medical subordinate of the Bruce Petta branch dispensary, and the third-class hospital assistant of the Cowle Bazaar branch dispensary, were provided with free quarters in the premises of the hospital and dispensaries respectively. House-rent was paid to second-class hospital assistant C. Ramanjulu Nayudu who took charge of the Bruce Petta dispensary on 10th November 1894, as the building occupied by the late hospital assistant has not been vacated by the widow who owns the house. She has agreed to construct a new building for the accommodation of the hospital assistant. The building was under construction during the year and it has since

been completed. When the lying-in hospital is opened, the female hospital assistant will be placed in charge of it and will have free quarters provided for her in the premises of the hospital.

90. The council has framed rules under section 127 of the District Municipalities Act, IV of 1884, for the treatment of patients, &c., in the Sabhapati Mudaliyar hospital and the two branch dispensaries at Bruce Petta and Cowle Bazaar, and they were sanctioned by Government in their Order, Mis. No. 1652 M., dated 6th October 1891.

91. Two midwives were, as usual, maintained during the year. Sixty-three labour cases were conducted by the two municipal midwives. Midwife Oonnamalai, who was attached to the Sabhapati Mudaliyar hospital, conducted 14 cases up to September 1894, when she was transferred to the local fund dispensary at Holgundi. Midwife Mooniammah, who was appointed in place of Oonnamalai, conducted 22 cases. Midwife Rosamah was engaged in attending to labour cases in the town and she conducted 27 labour cases till March 1895. The work turned out by the two municipal midwives is poor. The District Medical and Sanitary Officer reports that "the midwives did exceedingly bad work and that they were replaced by those who, it is hoped, will do better work."

92. *Medical Training of Women.*—No action was taken by the municipal council during the year on the resolution of the Government of India regarding the training of female practitioners, as Mrs. A. D. Carmody, who had been selected by the municipal council to undergo training in the Medical College, Madras, completed the three years' training coruse, passed the final examination for the grade of hospital assistant, and has been employed as female hospital assistant in the Sabhapati Mudaliyar hospital from 1st July 1892. She was paid a salary of Rs. 35 per mensem during the first two years of her service and she has been drawing at the rate of Rs. 50 per mensem from 1st July 1894 as per agreement entered into by her with the municipal council prior to her proceeding to Madras for undergoing training in the Medical College. In accordance with the suggestion of the District Medical and Sanitary Officer, the council sent female hospital assistant Mrs. A. D. Carmody to the Government Lying-in Hospital at Madras to receive a special course of training in midwifery for three months. She has produced a certificate from the Superintendent of the Government Lying-in Hospital, Madras, to the effect that she has superintended 28 cases of labour and has applied the forceps on three occasions.

93. The Surgeon-General to the Government of Madras inspected the Sabhapati Mudaliyar hospital and recommended certain improvements to the hospital and made suggestions regarding furniture and bedding and clothing. The council have duly considered the remarks and recommendations of the Surgeon-General and have made provision in the budget for the current official year 1895–96 for the carrying out of some of the suggestions of the Surgeon-General.

94. (*b*) *Medicines and Supplies.*—Rs. 3,102–13–7 were expended, against Rs. 3,200 of the revised estimate, and Rs. 2,567, the actuals of the previous year.

95. (*c*) *Diet of Patients.*—Rs. 1,844–9–10 were incurred, against Rs. 2,050 of the revised estimate, and Rs. 1,945, the actuals of the previous year, on account of diet of in-patients in the Sabhapati Mudaliyar hospital. The decrease under the revised estimate is attributable to the fall in the number of in-patients admitted into the hospital and to no expenditure being incurred on account of diet of patients of the new lying-in hospital as it was not opened during the year.

96. (*d*) *Sundries and Contingencies.*—Rs. 1,304 were expended, against Rs. 2,000 of the revised estimate, and Rs. 1,023, the actuals of the previous year. The decrease under the revised estimate is due to the great fall in the number of out-patients at the branch dispensaries at Bruce Petta and Cowle Bazaar and to the non-supply of furniture, crockery, and bedding and clothing for the new lying-in hospital as it was not opened during the year.

97. M.R.Ry. P. Nagappa Mudaliyar Avargal, a cotton merchant of Ádóni, forwarded up to the close of the year 66 cloths for distribution to the deserving patients of the Sabhapati Mudaliyar hospital. The council accepted his offer with thanks.

98. (2) (*a*) *Contributions to Provincial Funds*—(1) *Medical College.*—The amount of contribution paid to the Medical College was Rs. 418, against Rs. 150 of the revised estimate, and Rs. 132, the actuals of the previous year.

99. (ii) *Sanitary Inspection.*—Rs. 265 were incurred under this head against the revised estimate of Rs. 240, the actuals in the preceding year being Rs. 248.

100. (iii) *Medical Reserve Staff.*—The charges under this head amounted to Rs. 43, against the revised estimate of Rs. 50 and the actuals of Rs. 46 in the previous year.

101. (iv) *Cutlers' Establishment.*—The allotment under this head was not spent as no contribution was claimed by the Accountant-General during the year.

102. (*b*) *Contributions to Local Boards*—(iii) *For second Clerk in the Office of the District Medical and Sanitary Officer.*—The contribution paid to the district board towards the pay of the second clerk in the office of the District Medical and Sanitary Officer amounted to Rs. 120, against the revised estimate of Rs. 140 and the actuals of Rs. 129 in the previous year.

103. (3) *Vaccination*—(*a*) *Establishment.*—The vaccine staff consisted of one inspecting vaccinator on Rs. 20, a first-class vaccinator on Rs. 15 and a second-class vaccinator on Rs. 10 per mensem. The charges on account of the establishment amounted to Rs. 530–8–3 against the revised estimate of Rs. 600, the actuals of the preceding year being Rs. 597. The decrease under the revised estimate is due to the savings effected by the payment of minimum salary of Rs. 20 to the inspecting vaccinator instead of Rs. 25 sanctioned in the budget, and by the imposition of fines upon the vaccination staff for their deficient work.

104. Compulsory vaccination has been in force in this municipality from 1st January 1891. Two vaccine depôts—one in the branch dispensary at Bruce Petta, and the other in one of the market stalls in Cowle Bazaar—were, as usual, maintained and cow calves were hired for vaccination purposes. The total number of operations performed with fresh animal lymph direct from the calf during the year was 3,043 including those vaccinated by medical subordinates, against 3,026 in the previous year; 2,854 were successful against 2,863 in the previous year. The total number of cases of primary vaccination was 2,727, of which 2,589 were successful. The total number of operations performed on children below one year of age was 2,202 against 1,680 in the previous year. Of this number 2,110 were successful against 1,615 in the previous year, the total number of births registered being 2,169 against 1,939 in the previous year. The total number of cases re-vaccinated was 316, of which 265 were successful. The percentage of successful cases of primary vaccination was 95·5 and that of re-vaccination 85·4. The average cost of each successful case was annas five as in the previous year. The number of cases vaccinated during the past three years is compared below :—

Year.	Total.	Successful.	Unsuccessful.
1892–93	3,922	3,750	172
1893–94	3,026	2,863	163
1894–95	3,043	2,854	189

The number of operations performed by the municipal medical subordinates with animal lymph was 40 against 87 in the previous year; 36 were successful. Municipal medical subordinates Mrs. A. D. Carmody, M. Rajagopala Pillai, C. Ramaswami Naiker, M. Muniswami Aiyar attached to the Sabhapati Mudaliyar hospital, and M.R.Ry. C. E. Ranganatha Mudaliyar and C. Ramanjulu Nayudu of the Bruce Petta branch dispensary, did not perform any vaccine operations during the year. The District Medical and Sanitary Officer states that "they were employed in verifying the work done by the vaccine staff and that vaccination is not usually done in hospitals except by the vaccine staff."

105. The work done by the vaccine staff was supervised by the Assistant Surgeon and the municipal hospital assistants. Under section 138 of the District Municipalities Act, IV of 1884, 1,950 notices were issued to the parents or guardians of unprotected children to have their children vaccinated at the vaccine depôts against 1,160 in the previous year. In 1,310 cases the notice was complied with. Ninety children died, 429 left the town and the vaccination of 22 children was postponed on medical certificate and twelve of them left the town during the year 1895–96. In 99 cases the parties were prosecuted and 49 convicted. Rs. 43–14–0 were realised as fine from them. Out of 99 cases in which prosecutions were instituted, 67 children have since been vaccinated during the current official year 1895–96, 22 children have left the town, one child died, and the vaccination of nine children has been postponed on medical certificate.

106. Out of 345 cases (in which notices had been issued before the close of the year 1893–94) and eleven prosecutions pending on 31st March 1894, 193 children were vaccinated, 64 died and 99 left the town during the year 1894–95.

107. (*b*) *Contingencies.*—The contingent charges under this head amounted to Rs. 348–1–10, as particularized below, against Rs. 300 of the revised estimate, and Rs. 282, the actuals of the previous year. The number of calves hired for animal vaccination was 71.

	Rs.	A.	P.
Hire of calves	198	0	0
Wages of cooly to look after inoculated calves	68	7	0
Shaving charges	6	10	6
Feeding charges	14	15	11
Sundry articles such as bandages, ropes, &c.	4	14	6
Lancets	14	9	1
Stationery	40	8	10

108. (4) *Registration of Births and Deaths*—(*a*) *Establishment.*—The charges on account of the establishment for vital statistics, which consisted of two registrars and three reporters, amounted to Rs. 645–6–0, against Rs. 670 of the revised estimate, and actuals in the previous year being Rs. 644. The decrease under the revised estimate is due to the payment of a minimum salary of Rs. 6 to two of the reporters instead of Rs. 7 sanctioned in the budget.

109. The office of the registrar of births and deaths, Bruce Petta, is located in the branch dispensary at Bruce Petta, and that of the registrar of births and deaths, Cowle Bazaar, in one of the market stalls in Cowle bazaar. The registrars moved about in the town in the morning and evening to verify the cases reported by the reporters and division peons and also to collect information personally. The total number of births registered during the year was 2,169 against 1,939 in the previous year, and the registered number of deaths was 1,566 against 1,574 in the previous year. The number of prosecutions instituted during the year for failure to register births and deaths was 31. In 24 cases the parties were convicted and the fines inflicted amounted to Rs. 15–10–0. The total number of births and deaths registered during the past three years is compared below :—

Year.	Births.	Deaths.
1892–93	1,526	1,878
1893–94	1,939	1,574
1894–95	2,169	1,566

110. The registers of births and deaths are maintained in bound books in the forms prescribed by the Sanitary Commissioner for Madras, and the names of the parents are entered in all cases but those of children only in a few cases of the Muhammadan community. Hindu children are not given names within seven days.

111. (*b*) *Contingencies.*—The charges incurred under this head amounted to Rs. 12–8–5, against Rs. 20 of the revised estimate, the actuals in the previous year being Rs. 18.

112. (5) *Conservancy, Road-cleaning and Road-watering*—(*a*) (1) *Establishment.*—Rs. 12,063–8–1 were expended under this head, against Rs. 12,580 of the revised estimate, and Rs. 11,809, the actuals in the previous year. The decrease under the revised estimate is due to the payment of minimum salary of Rs. 6 to the newly entertained division peons instead of Rs. 7 provided in the budget and to the savings effected by the infliction of fines on the sanitary staff and stoppages of pay of the servants who absented themselves without leave or absconded. An assistant sanitary inspector for the cantonment and civil lines, whose appointment was sanctioned in

G.O., Mis. No. 605 M., dated 10th May 1894, was employed during the year. The council selected the sanitary inspector of Bruce Petta and sent him to the Medical College, Madras, for a course of four months' practical and theoretical training in Hygiene, as required by Government in their Order, No. 1914 M., dated 10th December 1894. He passed in Hygiene (Intermediate) in the second class.

113. The street sweepings were, as usual, first collected in dust-bins and thence conveyed in carts belonging to the municipal council to the rubbish depôts for being sold to the ryots or for being burnt in cinerators. During the year street sweepings were sold at six pies per cart-load and a large quantity was burnt in cinerators. The night-soil was removed in air-tight galvanized iron barrels mounted on carts belonging to the council outside municipal limits and buried in trenches in private lands as the owners thereof have leased them for the purpose free of charge. The manufacture of poudrette was discontinued from 1st April 1893, as there is no demand for it as manure. The number of dust-bins on 31st March 1894 was 396. Of these 302 were fixtures and 94 movable dust-bins. The number of movable dust-bins put up during the year was four. The total number of dust-bins on 31st March 1895 was 400.

114. There were 27 public latrines on 31st March 1894. No latrines were demolished during the year. Two latrines—one in Bruce Petta and the other in Cowle bazaar—were constructed during the year with corrugated-iron sheets. The number of public latrines on 31st March 1895 was 29. The sites selected in the cantonment and the civil lines for the construction of two public latrines with corrugated-iron sheets not having been approved by the Station Staff Officer and the Acting District Medical and Sanitary Officer, the construction of the two latrines for which materials had been purchased was not undertaken during the year. All the public latrines were cleaned twice a-day and tarred during the year. A very rigid inspection was kept over the proper cleaning of the latrines in order to induce the public to resort to them freely. There were 34 night-soil carts at work during the year.

115. There were thirty urinals on 31st March 1894. One urinal was demolished during the year and two were constructed during the year. The number of urinals on 31st March 1895 was 31.

116. (ii) *Other Charges, such as purchase or hire of Carts, Dry-earth, purchase and maintenance or hire of Bullocks, &c.*—Rs. 11,302–5–5 were expended under this head, against Rs. 12,000 of the revised estimate, and Rs. 10,133; the actuals of the previous year.

117. The municipal council maintained carts and bullocks of their own for removing street sweepings, night-soil and urine. Contractors were also entertained for supplying drivers and bullocks for five rubbish carts and one urine cart belonging to the municipal council. There were 76 bullocks and 16 buffaloes on 31st March 1894. One buffalo was purchased during the year and one bullock and one buffalo were sold by public auction as they became unserviceable through old age and two buffaloes died during the year. There were 75 bullocks and 14 buffaloes on 31st March 1895. The number of conservancy carts at work during the year was 29. The municipal cattle are in very good condition and the feeding of the cattle was frequently inspected by * myself.

* Late Chairman.

118. (*b*) *Private Scavenging*—(i) *Establishment.*—The expenditure under this head amounted to Rs. 2,432–7–9 against Rs. 2,980 of the revised estimate, the actuals in the preceding year being Rs. 2,397. The decrease under the revised estimate is due to savings effected by stoppage of pay of the latrine inspectors for one month owing to their unsatisfactory work, and by payment of minimum salary of Rs. 6 to the newly-entertained toties instead of the maximum pay of Rs. 7. The private latrines were cleaned once a day in the morning. The work of scavenging was inspected by the latrine inspectors, who are four in number. The number of houses served by the private scavenging agency was 1,517 at the commencement of the year and 1,576 at the close of the year. During the year fees were levied quarterly at the rate of eight pies per head per month. The municipality does not charge private scavenging fees for removing the contents of vessels and receptacles put outside houses. Private scavenging fees are charged when the scavengers go inside the houses and actually

themselves clean out the privies. The latrines which were cleaned out by scavengers employed by the owners of houses were frequently inspected and the owners prosecuted whenever the latrines were found in an insanitary condition. The private scavenging service was worked at a profit of Rs. 947–7–11 to the municipal council.

119. (*c*) *Cholera Charges.*—The expenditure under this head amounted to Rupees 20–11–4 against the revised estimate of Rs. 400, the actuals in the previous year being Rs. 43. The public health during the year was satisfactory. There was practically an immunity from cholera, one case only being recorded against two cases in the preceding year. There was only one attack and only one death from cholera in Bruce Petta. It was imported into Bruce Petta by an old Muhammadan woman on 3rd September 1894, who had gone to Jammalamadugu where cholera was prevalent. The woman was reported to have caught the infection at Moothanore railway station in the Cuddapah district. She arrived in Bellary on the morning of 3rd September 1894 and she expired on the following day. The bedding and clothing of the deceased were burnt. The house was thoroughly disinfected with disinfecting powder and sulphur fumes. The number of deaths from small-pox during the year was one against two in the previous year.

120. (*d*) *Contingencies.*—The charges on account of sundry articles such as baskets, brooms, tar, &c., for the use of the conservancy department, amounted to Rs. 107–8–8 against Rs. 500 of the revised estimate, the actuals in the preceding year being Rs. 114.

121. The Acting Sanitary Commissioner for Madras inspected the town in October 1894. His suggestions and proposals were discussed in the meetings, and the resolutions of the municipal council were entered against each suggestion or proposal in the margin of the Sanitary Commissioner's memorandum. The Sanitary Commissioner's inspection notes and the resolutions of the municipal council were submitted to Government which were recorded in their Order, No. 534 M., Local and Municipal, dated 25th March 1895.

122. *Grant IV, Lighting and Miscellaneous Municipal Purposes*—(*a*) *Establishment.*—The outlay under this head was Rs. 1,663–8–2 against the revised estimate of Rs. 1,740, the actuals in the previous year being Rs. 1,642. The decrease under the revised estimate is due to the savings effected by stoppages from the pay of lamplighters who broke or damaged panes of glass of lanterns and chimneys through their carelessness.

123. (*b*) *Contingencies.*—The charges incurred under this head amounted to Rs. 2,239–6–5, against the revised estimate of Rs. 2,500, and Rs. 2,439, the actuals of the previous year. The number of lamps on 31st March 1894 was 478, the number removed during the year was eleven, the number of lamps put up during the year was eleven. The total number of lamps on 31st March 1895 was 478. Thirteen lamp posts and lanterns have been purchased, but they were not put up during the year. The street lamps were regularly inspected by the lamp superintendents, who are four in number, and occasionally by the sanitary inspectors. They were also frequently inspected by me * and the members of the sub-committee. The lighting of the town was carried on departmentally as was done in the preceding year.

* Late Chairman.

124. (2) (ii) *Slaughter-houses*—(*a*) *Establishment.*—The charges on account of the establishment, which consisted of an inspector on Rs. 15 per mensem, amounted to Rs. 172–11–10 against the revised estimate of Rs. 180, the actuals in the preceding year being Rs. 180. The inspector looks after both the sheep and bullock slaughter-houses in Cowle Bazaar.

125. (*b*) *Contingencies.*—Rs. 3–11–6 were incurred for repairing the iron rods in the slaughter-houses against the revised estimate of Rs. 10.

126. (3) *Choultries.*—As usual, the employment of a watchman at the Prince of Wales' choultry cost Rs. 72 against the revised estimate of Rs. 70, the actuals in the preceding year being Rs. 72.

127. (4) *Travellers' Bungalow.*—The travellers' bungalow situated near the Mainwaring tank, on being restored to Government in accordance with G.O., Mis. No. 257 L., dated 4th February 1891, was transferred to the management of the district board during the year 1891–92, on condition of the municipal council paying half the net cost.

128. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 295–15–0 against the revised estimate of Rs. 100. The increase over the revised estimate is due to the expenditure incurred by the district board for putting up wire fence for the compound of the travellers' bungalow as required by the municipal council.

129. (5) *Avenues.*—The establishment consisted of one maistry on Rs. 10 and six servants on Rs. 6 each per mensem. The charges amounted to Rs. 529–10–2 against the revised estimate of Rs. 550, the actuals in the preceding year being Rs. 525. The establishment attended to the watering of the young trees and planting new ones and fencing them.

130. (*b*) *Contingencies.*—The expenditure under this head amounted to Rupees 89–14–0 against the revised estimate of Rs. 100, the actuals in the previous year being Rs. 84.

131. (6) *Public Garden*—(*b*) *Purchase of Seeds, repair of Well, purchase of Bullocks, &c.*—The expenditure under this head amounted to Rs. 366–11–0, against the revised estimate of Rs. 400, and Rs. 452, the actuals of the previous year. The usual contribution of Rs. 25 per mensem on account of the bandstand garden situated in the cantonment was paid to the Military authorities. A contribution of Rs. 6 per mensem was also paid on account of the public pleasure garden situated in the compound of the Prince of Wales' choultry in Bruce Petta.

132. (8) *Fire*—(*a*) *Establishment.*—The charges on account of a lascar amounted to Rs. 69–8–2 against the revised estimate of Rs. 80, the actuals in the preceding year being Rs. 72. There are two fire-engines belonging to the municipal council; one is placed in the Cowle Bazaar police station and is under the charge of the police; the other is kept in the municipal office in Bruce Petta. All the division peons have been trained in working the fire-engines.

133. (*b*) *Purchase of Fire-Engine, Buckets, Repairs, &c.*—The expenditure incurred in executing the necessary repairs to the fire-engines amounted to Rs. 4–2–0 against the revised estimate of Rs. 50 and the actuals of Rs. 4 in the previous year.

134. (9) *Other Charges*—(1) *Work done for private individuals other than private scavenging.*—The expenditure amounted to Rs. 378–10–5 against the revised estimate of Rs. 600, the actuals in the previous year being Rs. 281, for cleaning cesspools in the town. No regular establishment was entertained for cesspools as servants could not be secured for this work. The services of municipal sweepers were utilized for this purpose and they were paid at the rate of As. 2 per day in addition to their pay as sweepers. The number of cesspools cleaned during the year was 251 against 212 in the previous year. The contents of cesspools are conveyed in air-tight galvanized iron barrels mounted on carts and thrown outside municipal limits. The rules regarding the concreting of the flooring and pointing the side revetments of cesspools are very strictly enforced. The cesspools now being concreted into pucka-built cisterns get filled up with water in a short time and they have to be emptied out more frequently. The amount realized from owners of cesspools for cleaning was Rs. 392–5–0. This system was worked at a profit of Rs. 13–10–7 to the municipal council.

135. (ii) *Rewards for destruction of Wild Animals and Snakes.*—Rs. 57–8–0 were incurred, against the revised estimate of Rs. 100 and the actuals of Rs. 55 in the previous year, for payment of rewards for the destruction of cobras and stray dogs.

136. (iii) *Printing.*—The cost of printing the minutes of the resolutions of the municipal council and lists of voters amounted to Rs. 394–15–11 against the revised estimate of Rs. 350, the actuals in the preceding year being Rs. 253.

137. (v) *Other Items.*—Rs. 181–5–11 were incurred on account of the following, against Rs. 320 of the revised estimate, and Rs. 668, the actuals of the previous year:—

	Rs.	A.	P.
Numbering houses	25	6	11
Tin sheets for numbering carts	44	8	8
Land assessment	20	12	6
Cost of ballot boxes for purposes of elections	10	0	1
Law charges in municipal cases	74	2	0
Cost of sign-boards	6	7	9

138. *Grant V—(a) General Establishment*—(1) *Office Establishment.*—The charges on account of office establishment amounted to Rs. 3,785–10–5 against the revised estimate of Rs. 3,800, and Rs. 3,556, the actuals in the previous year.

139. (ii) *Inspection.*—The charges incurred under this head amounted to Rs. 720, being the sum provided in the revised estimate, against Rs. 720, the actuals in the preceding year.

140. (*b*) *Collection of Municipal Taxes.*—Bill collectors were entertained for the collection of taxes. Some were paid fixed monthly salary and others commission on the number of bills collected. The expenditure on account of the establishment for collection of taxes amounted to Rs. 1,302–4–3, against Rs. 1,500 of the revised estimate, and Rs. 1,289, the actuals of the previous year.

141. (ii) *Purchase of Account-books, Paper, Money-boxes, repair to Outposts, &c.*—The outlay under this head amounted to Rs. 379–2–3, against the revised estimate of Rs. 200, the actuals in the previous year being Rs. 418. The increase over the revised estimate is due to the supply of new forms of accounts by the Inspector of Local Fund Accounts from V. N. Jubilee Press, Madras, which cost Rs. 329–11–0.

142. (*d*) *Office Contingencies—Other than* (*b*)(ii).—The expenditure incurred under this head amounted to Rs. 434–1–3, against the revised estimate of Rs. 800, and Rs. 527, the actuals of the previous year. The decrease under the revised estimate is due to economy observed in the expenditure of stationery articles.

143. (*c*) *Contribution for Central Office and Audit Establishments.*—The contributions on account of central office and audit establishments amounted to Rs. 370, against the revised estimate of Rs. 370 and the actuals of Rs. 445 in the preceding year. These contributions are paid on requisitions received from the Accountant-General.

144. *Advances Recoverable*—(*b*) *Others.*—The advances made during the year amounted to Rs. 715, of which Rs. 465 were recovered by adjustment. The balance outstanding at the close of the year was Rs. 250.

145. *Refunds of other than current Collections.*—The expenditure under this head amounted to Rs. 144–7–3, as detailed below, against the revised estimate of Rs. 300, the actuals of the previous year being Rs. 839:—

	Rs.	A.	P.
Remission on account of house-tax	127	5	3
Refund of fine	0	12	0
" of surplus sale-proceeds of seized carts	13	4	0
" of money paid by a ryot for manure	3	2	0

IV.—Closing Balance.

146. The closing balance amounted to Rs. 36,077–9–8, against the revised estimate of Rs. 27,100, and Rs. 32,831, the actuals of the previous year. The increase over the revised estimate is due to the larger collection of taxes than what was estimated and to the non-utilization of the full amount allotted under Grants II, III, IV and V, which is partly counterbalanced by excess expenditure under Grant I, Public Works. The greater portion of the closing balance is reserved for expenditure on the proposed high school building.

147. During the year the accounts of the previous year 1893–94 were audited by M.R.Ry. P. Rajagopala Mudaliyar Avargal, Assistant Inspector of Local Fund Accounts. He passed the following remarks on the maintenance of the accounts of the municipality:—

"The general result of the audit is satisfactory, more so if the heaviness of the varied transactions of this large municipality, most of which are managed departmentally, entailing, as they do, more account and clerical labour than in other municipalities, is taken into account.

"2. Nothing was discovered important enough to call for immediate action on the part of Government."

148. I have again to record this year, as in the previous years, my thanks to the council for the hearty support accorded to me * in the discharge of my duties and for the cordial and harmonious manner in which discussions were conducted at the meetings.

* Late Chairman.

149. M.R.Ry. P. C. Anantacharlu Garu, B.A., B.L., retired from the office of Chairman on the 31st May 1895, on which date his three years' term of councillorship expired, and at their meeting on the 5th June 1895 the council unanimously recorded the following resolution :—

"The council unanimously records with pleasure its high appreciation of the able and energetic manner in which M.R.Ry. P. C. Anantacharlu Garu administered the affairs of the municipality during the period he held the office of Chairman."

150. This report was laid before the council at its meetings held on the 18th, 19th and 20th June 1895. A copy of the resolution passed at each meeting is herewith submitted.

Enclosure.

Report on the Bellary Sabhapati Hospital and the Branch Dispensaries for 1894–95.

Public Health.—The public health during the year was satisfactory. One case of cholera was recorded. The following comparative statement shows the prevalence of the principal diseases :—

Disease.	1893–94.	1894–95.
Cholera	2	1
Small-pox	2	1
Fevers	678	572
All other causes	873	979
Total deaths ..	1,555	1,553

2. *Vital Statistics*—

	1893–94.	1894–95.
Population	54,460	59,467
Total births	1,939	2,169
Total deaths	1,574	1,552
Birth-rate per mille	36·27	36·47
Death-rate „	29·08	26·11

3. *Sanitation.*—The chief wants of Bellary seem to be proper water and drainage schemes. The present system of allowing cesspools to be dug under the roads and streets is very bad, and as they are often only emptied every 6 or 12 months their state is very bad and the surrounding soil must be saturated by percolation to a considerable area.

4. *Vaccination.*—Compulsory vaccination was in force. Of a total of 3,103 operations performed during the year under report 2,818 are returned as successful as against 2,939 and 2,781 in the preceding year. In children under one year of age 2,162 operations were performed with 2,074 cases successful, as against 1,614 and 1,553 in the year previous. The percentage of success was 96·33, while in 1893–94 it was 96·76. The system of registration and the service of notices work well. The medical subordinates attached to the medical institutions performed 40 cases all under one year of age. They were also employed in verifying the work done by the vaccination staff. The municipal vaccine establishment consisted of, as in 1893–94, one inspecting vaccinator on Rs. 20, one first-class vaccinator on Rs. 15, and one second-class vaccinator on Rs. 10.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of Accommodation*—

(i) *Sabhapati Hospital.*—A fine, large building, which, however, needs a few alterations in order to utilize all space to the best advantage. The male wards are usually full but there is not so much demand for beds on the female side.

(ii) *Bruce Petta Dispensary.*—This consists of one hall for dispensing medicines and for out-patients to be attended to and one room used as store. There is neither a dressing-room nor a convenient place for out-patients to wait and this causes great inconvenience.

(iii) *Cowle Bazaar Dispensary.*—Needs more accommodation and an additional room is much required. During his inspection on 20th September 1894 the Surgeon-General also remarked about these.

(*b*) *State of repair of Buildings*—

(i) *Sabhapati Hospital.*—Much needs repairs. The necessary funds were budgeted for but nothing has been done. Much inconvenience is caused and the state of repair impedes the efficiency of the hospital.

(ii) *Bruce Petta and Cowle Bazaar Dispensaries.*—In good state of repair.

(*c*) *State of repair of furniture*—

(i) *Sabhapati Hospital.*—In fair order.

(ii) *Bruce Petta and Cowle Bazaar.*—Not in good state of repair. Some repairs have lately been asked for.

(*d*) *Number of Patients treated as compared with previous years.*—During the year under report there were 597 in-patients and 32,726 out-patients treated as against 625 in and 37,186 out patients in 1893–94. The following table shows increase or decrease in attendance in out-patients :—

(i) Sabhapati hospital ..	8,090	9,008	Increase,	918
(ii) Bruce Petta dispensary ..	16,473	11,554	Decrease,	4,919
(iii) Cowle Bazaar dispensary ..	12,623	12,164	Decrease,	459

There has been marked decrease in the Cowle Bazaar dispensary. No explanation is, however, offered by the hospital assistant attached to it.

(*e*) *Mortality and actual causes*—

(i) *Sabhapati Hospital.*—Fifty-seven deaths.

Causes—		Causes—	
Dysentery	4	Disease of urinary system ..	6
Leprosy	1	„ of generative system	5
All other pural disease ..	1	„ of organs of locomotion	2
Disease of the nervous system	4	„ of connective tissue ..	2
Lungs (diseases of)	11	Ulcers	3
Other disease of respiratory system	1	Poisons	2
Other disease of digestive system	11	Local injuries	1
Spleen (disease of)	1		57
Disease of lymphatic system ..	2		

(ii) *Bruce Petta Dispensary.*—No deaths.

(iii) *Cowle Bazaar Dispensary.*—No deaths. The hospital assistant says they are not reported and hence not recorded.

(*f*) *Operations and Results.*—There were 71 major and 1,127 minor operations conducted, with seven deaths under the head of major operations. The minor operations were all successful. The following comparative statement exhibits the operations performed in each institution, with results :—

Name of Institution.	1893–94.		1894–95.		Results.								Fractures.	
					1893–94.				1894–95.					
					Major.		Minor.		Major.		Minor.			
	Major.	Minor.	Major.	Minor.	Cured.	Otherwise.	Cured.	Otherwise.	Cured.	Otherwise.	Cured.	Otherwise.	1893–94.	1894–95.
Sabhapati hospital	36	384	65	508	32	4	384	..	58	7	508	..	36	49
Bruce Petta dispensary	4	171	5	238	4	..	171	..	5	..	238	..	14	5
Cowle Bazaar do.	5	494	1	381	5	..	494	..	1	..	381	..	35	30
Total ..	45	1,049	71	1,127	41	4	1,049	..	64	7	1,127	..	85	84

(*g*) *Establishment whether sufficient and efficient*—

(i) *Sabhapati Hospital.*—Another male attendant is required. The menial staff is not very efficient.

(ii) *Bruce Petta Dispensary.*—Is now sufficient and efficient.

(iii) *Cowle Bazaar Dispensary.*—A midwife was posted to this dispensary in March last and the establishment is sufficient and efficient.

(*h*) *Midwives' Work actually done.*—During the year there were two midwives—one Onnammaley and the other Rosammahatt—ached to the institutions. The former conducted 14 cases up to September 1894 when she was transferred to Holagundi dispensary, and the latter conducted 27 cases till March when she was transferred to Kosgi dispensary, both under the Adóni Taluk Board. The place of the former was taken up in the Sabhapati hospital by midwife Muneammah in September 1894 from the Holagundi dispensary, and she conducted 22 labour cases, and the place of the latter was taken up by a newly-arrived midwife. Neither of the midwives did good work and they have both been transferred.

(*i*) *If Dispensaries for Caste and Gosha Women who cannot or will not attend the ordinary dispensaries have been working, a special note should be added on their working.*—A lying-in hospital was built on a site near the District Court at some distance from the Sabhapati hospital. At a meeting of the council on 9th April 1895 the question was discussed, and an offer having been made by a private individual to purchase it, a sub-committee was formed to consider the question. I am on the sub-committee but have received no further communication and, as far as I know, nothing further has been done.

(*j*) *General Remarks.*—Nil.

Bellary,
9*th May* 1895.

(Signed) J. W. EVANS, Surgeon-Major,
District Medical and Sanitary Officer.

Submitted to the Collector.

2. The collections under house and profession taxes show an increase over the past year. There are, however, still large arrear balances of 1893–94 under several heads, but the council have taken steps in the matter. Lists of arrears have been made out and furnished to the sub-committees for enquiry and report on the solvency of the defaulters, &c.

3. Many of the roads have been put in fair order, but increased attention is still necessary in the case of some of them. It is noted that it is in the contemplation of the council to dispose of the newly-constituted lying-in hospital and to erect another at a more suitable site.

The side-drains are periodically cleaned of silt and they need greater attention. The question of sink-pits needs the serious consideration of the council. The matter is, however, engaging their attention and a sub-committee has been formed to consider the whole question and submit proposals for improving the drainage.

4. Water-supply has been sufficiently attended to.

5. The streets and the principal lanes are kept clean and the small lanes have also received proper attention. Private scavenging has received its due share of attention.

6. Education is keeping up its position. Though the demand for the municipal rubbish has increased, yet the realization from this source has not been large.

7. Children vaccination shows a good advance over the past year. Notice to parents or guardians of unprotected children have been issued in greater numbers with better success. The registration of births and deaths also shows an improvement over the previous year.

8. The general condition of municipality has been good.

Bellary,
9*th July* 1895.

(Signed) C. RAMASESHA AIYAR,
Dy. Collector, Hd.-Qr. Division.

---

1. Forwarded.

2. *Paragraph* 7, *Tax on Arts.*—Slackness in administration alone can be responsible for having to write off Rs. 534 and to recommend the writing off of Rs. 813 as irrecoverable.

3. *Paragraph* 8, *Tax on Buildings.*—A similar remark applies to Rs. 689 written off and Rs. 862 still outstanding.

4. *Paragraph* 25, *Income from Markets.*—On Friday and on part of Saturday an enormous market is held in the streets of Brucepetta, where a general market place should be provided. The Cowle bazaar market is empty, chiefly because vend is allowed along the sides of the streets. No real effort is made by the municipal council to prevent this.

5. *Paragraph* 37, *Private Scavenging.*—This affects well-to-do people and Rs. 161 needs to be written off only because the council will not collect the fees in advance.

6. *Paragraph* 45, *Repairs—Communications.*—This year there has been an improvement in the main roads of the town, but a few are still very bad, *e.g.*, the Siruguppa road. Complaints are common as to the state of the roads under the Military Department (municipal grant Rs. 2,000) and in some respects they are justified, *e.g.*, the road past the cemetery. The non-cantonment avenues need attention.

7. *Paragraphs* 86–88, *Sale of Lying-in Hospital.*—I shall give my views on this proposal when it is forwarded to Government.

8. *Paragraphs* 103–110, *Vaccination and Vital Registration.*—There is a satisfactory increase of 230 in the registration of births, of which the advantages are beginning to be recognized. I am not sure that the decrease in the number of deaths is a correct result. On the census of 1891 (60,000) births are 36, deaths 26, per mille. The population now is not probably less than 65,000, which gives 33 and 24 per mille, respectively. Judging from the surrounding district and after allowing for the circumstances of a malodorous town, I should say the births should be not less than 36 and the registration of deaths similarly corrected would then rise to at least 27.

9. Even taking these figures—viz., a birth-rate of 36 per mille on a population of 65,000, which brings the number of births to 2,340—vaccination must he held to be very fair with 2,854 successful cases. The result, no doubt, is principally due to the 99 prosecutions.

10. *Paragraph* 118, *Private Scavengering.*—The profit of Rs. 947 is unwise. The fees should be erduced so as merely to cover expenses.

11. *Paragraph* 134, *Cesspools.*—There are some 850 of these in the town and they are not emptied as soon as they get full. The result is a discharge of foul gas under the covering so offensive that doors and windows in the locality have sometimes to be closed and people are suddenly attacked with nausea and purging. In fact, next to a water-supply, the main need of the town is a drainage scheme.

12. *Paragraph* 146, *Closing Balance.*—I am not aware that the large balance of Rs. 36,000 is ear-marked for the erection of a high school building, and considering the crying sanitary needs of the town other works may have to take precedence.

13. *Paragraph* 149, *The Retiring Chairman.*—There is much in the executive administration of the municipality during the past year to which exception may be taken, but it must be admitted that M.R.Ry. Ananta Charlu Garu has increased its efficiency during his term of office (two years nine months) and has shown considerable public spirit in bearing this honorary burden so long. But the post, I am driven to think, both in office-work and in out-door inspection, requires more time than most private gentlemen can spare, and unless the town is very lucky in its next elected Chairman, it may become necessary to attach a salary to the appointment to secure the whole time of the incumbent.

14. *General Remarks.*—The encroachments in Brucepetta main bazaar are very bold, many houses projecting a yard or more beyond the lines of avenue trees.

A smart epidemic of cholera has just made its appearance.

(Signed) J. H. A. TREMENHEERE,
Collector.

Bellary,
10*th July* 1895.

Order—No. 1667 M., Local and Municipal, dated 18th October 1895.

The receipts and charges of the Bellary Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94.

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.

2. Fifty-two meetings were held by the municipal council against fifty in the previous year. The average attendance of the official members improved and was good, but in the case of the non-officials it declined and was indifferent. Twelve

seats were filled by election during the year and eight of them were contested, only 35·1 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) The net current demand of the tax on buildings increased by Rs. 142. The demands under the taxes on arts and lands remained almost stationary.

(2) The current collections under the principal taxes continued to be good, but the arrear realizations under all of them showed a marked decline and were extremely poor. Large amounts were again written off as irrecoverable, nearly 38 per cent. of the arrear demand under the tax on arts and about a third of that under the tax on buildings and lands being so treated. Inefficient administration in former years is, as observed by the Collector, the cause of this loss to the council. Notwithstanding these heavy remissions and the remarks of Government in its review of the last administration report, arrears dating back as far as 1889–90 were still outstanding on the 31st March 1895. These should be adjusted without further delay, and the Chairman will report on the 1st January next the progress in collections under the principal taxes that has been made up to then.

(3) The number of warrants issued was 5,657 against 7,077 in 1893–94, but, although the Government has repeatedly remarked on this subject, nearly 21 per cent. of the total number of those under disposal remained unexecuted at the close of the year. This is not creditable to the municipal executive, and the Chairman should see that there is no occasion for similar remarks in future.

(4) The receipts from the taxes on vehicles, animals and carts, fees from educational institutions, slaughter-houses and license fees improved, but the income from fines exhibited a decline. The amount realised by the sale of street sweepings, &c., was Rs. 250 against Rs. 202 in 1893–94. No action has apparently been taken by the municipal council to improve the revenue from this source, or to create a demand for the night-soil. The Chairman states that about 43 per cent. of the total quantity of rubbish collected during the year was removed by the ryots of Cowle Bazaar free of charge. That they removed it shows that they fully appreciate its value as manure, and there is therefore no reason why they should not be made to pay for it. As already directed in the previous year's review, the council should end[illegible]ur to sell the sweepings by auction, after previously publishing the date of sale as widely as possible. The attention of the municipal council will be drawn to the Collector's remarks in paragraph 4 of his endorsement, in which the Government entirely concurs. It appears to be perfectly within the power of the council to make the Cowle Bazaar market a success, and it is unsatisfactory that the neglect to do so continues.

(5) The number of houses served by the private scavenging agency and the receipts from this source rose from 1,517 to 1,576, and from Rs. 3,275 to Rs. 3,380, respectively, and the service was worked at a profit of Rs. 948 against Rs. 878 in 1893–94. More than one-half of the arrear demand was, however, written off as irrecoverable, and about Rs. 373 of the current demand remained uncollected on the 31st March 1895. The continued neglect on the part of the municipal council to collect the fees in advance, notwithstanding the repeated orders of Government, is reprehensible and should not be allowed to recur. It is unlikely that the private latrines, which are still outside the system, are all kept in a satisfactory condition, and the municipal council should endeavour to bring them also under its control. If the owners fail to arrange for their proper cleansing and are prosecuted for keeping insanitary premises, they will probably find it to their advantage to avail themselves of the service. All profits from the service should be spent upon its improvement, and when this is satisfactory the fees may be reduced. It is not desirable that the service should be made a source of profit. A sum of Rs. 392 was realized in the shape of fees for cleaning private cesspools. From the Collector's remarks in paragraph 11 of his endorsement it appears that these are not regularly attended to. The council should at once make arrangements to improve the service.

4. *Expenditure*—(1) *Public Works.*—No new work of any importance was undertaken, but the balances of Rs. 2,523 and Rs. 607, respectively, due on account of the

lying-in hospital and the powder magazine which were constructed in 1893–94, were disbursed during the year. Including the contributions paid to the Military Works department for the upkeep of the cantonment roads, the total outlay on communications amounted to Rs. 6,936 or 51·9 per cent. of the net income from tolls. The Collector reports that the general condition of the roads has improved, but that a few of them are still in very bad order. These latter should receive immediate attention at the hands of the council. The council's attention will be drawn to his remarks on this subject in paragraph 6 of his endorsement. The encroachments mentioned in paragraph 14 should be promptly and strictly dealt with, and should be removed in all cases in which such a course is possible.

(2) *Education.*—The net expenditure on education was Rs. 6,028 or 10·8 per cent. of the receipts from taxation. All but Rs. 1,852 of this, was devoted to primary education. As in the previous year, the municipal council maintained a secondary school and a primary school on the salary system and eight primary schools on the salary-result system. Of the latter, two were for Madigas, one for Muhammadans and two for girls. The attendance at the secondary school increased, but the results of the Matriculation and Lower Secondary examinations were again far from satisfactory. The strength of the primary schools taken together rose from 476 to 508, and they did fairly well at the departmental examinations. The council also aided a secondary school with salary grant and twenty-five primary schools against thirty-five in the previous year, with result grants. The attendance at the secondary school improved, but at the primary schools it declined owing to the fact that nine of them were closed during the year. These institutions appear to have worked fairly well on the whole, but it is matter for regret that more than 22 per cent. of the allotment for result grants was allowed to lapse. The number of boys under instruction in the municipal and aided schools fell from 44·1 to 39·8 per cent. of the male population of school-going age, and was far below the general average of 54·2 per cent. for all municipalities in 1893–94. The attention of the Director of Public Instruction will be drawn to the Chairman's remarks in paragraph 78 of the report regarding the payment of result grants at reduced rates to untrained or unpassed teachers employed in the aided schools.

(3) *Medical Relief.*—There was a decline of 4,488 in the total number of patients treated at the municipal hospital and the branch dispensaries, which is explained by the Chairman in paragraph 85 of his report. The two midwives employed by the council attended between them only sixty-three cases of labour. It is hoped that as they have now been replaced by others, there will be an improvement in the current year.

The council's attention will be called to the remarks of the District Medical and Sanitary Officer in paragraph 5 (*b*) and (*c*) of his report on the subject of the repairs needed in the hospital and dispensaries. The report regarding the disposal of the lying-in hospital will be awaited.

(4) *Vaccination and Vital Statistics.*—The total number of persons vaccinated during the year was 3,043, or seventeen more than in 1893–94. The quality of the work declined slightly, but continued to be fair. Owing, as observed by the Collector, to the large number of prosecutions instituted by the council against parents and guardians of unprotected children, infantile vaccination made satisfactory progress, the reported number of successful cases among children under one year of age having been 2,110 against 1,615 in 1893–94.

There was again an improvement in the registration of births, but that of deaths declined slightly and was evidently defective, as the rate recorded was considerably below the normal. This subject requires increased attention.

(5) *Sanitation.*—On conservancy, a sum of Rs. 25,926, or 95 per cent. of the allotment, and 32 per cent. of the current receipts, was spent. From paragraphs 112 to 118 of the Chairman's report, it appears that some attention is being paid to the sanitation of the town; but from the inspection notes of the Sanitary Commissioner recorded in G.O., No. 534 M., dated 25th March 1895, it is evident that a great deal yet remains to be done in this direction. The council should take steps to remedy the

various defects pointed out by that officer, one after another, as funds permit. A scheme for the water-supply of the town is now under investigation by the Sanitary Engineer, and this must take precedence of a drainage scheme.

5. *General Remarks.*—The year closed with a balance of Rs. 36,078, or 44·5 per cent. of the receipts, but the greater portion of this sum is stated to be reserved for the erection of a building for the high school. In this connection the municipal council's attention will be drawn to the Collector's remarks in paragraph 12 of his endorsement, in which the Government fully concurs.

The administration of the municipality during the year under review showed an improvement on that of the previous year and was on, the whole, satisfactory. The Government notes with pleasure the testimony borne by the municipal council and the Collector to the good work done by the late Chairman M.R.Ry. P. C. Ananta Charlu.
