The Chief Secretary to

(through the Collector of Tinnevely)

Sir

Encls = 1

I have the honor to report that
the Hospital building of this Muni-
cipality is located in a bad and
insanitary place and is not suf-
ficient to meet the present
requirements of the institution,
where attendance is daily increas-
ing. Considering these, both the
Collector and the District Medi-
cal & Sanitary Officer have remarked
in their inspection notes that
a new building should be con-
structed in a better locality.

Hence

Hence it has been proposed to construct a building on the northern bank of the Thirumudulam tank. The place selected is good in both the Medical and Sanitary points of view. The Collector & District Board President has called on the District Board Engineer to submit the necessary plan and estimate. The estimated cost of the building will be about Rupees 9000/- To meet this large expenditure, the Municipal Council has no funds of its own at present. But a sum of Rupees 9100/- has been invested in Government securities in favor of the Hospital. Considering the financial circumstances of the Municipal Council and the necessity to construct new building in a more suitable site the Council has resolved in its Resolution No. 8 of 24th April 95

This amount was collected by public subscription when the Hospital was first built (vide letter to go. 1192 17.7.94)

(Copy of which is herewith submitted for perusal) to utilize the above sum of Rupees 9100/- for erecting a hospital.

I therefore beg to request that you will be so good as to obtain the sanction of the Government for the sale of the Government securities referred to above.

I have the honor to be Sir

Current No. 2888 M of 1895, dated 31st August 1895 from the Srinivillipattinam D.O.

FOR ORDERS.

Please see the notes & orders
on the first of the Currents read
alone. In reply to the reference
made on this, the Chairman states
that the approximate sum which
may be realized by the sale of
the present hospital and its site
is Rs 2000.

At present the interest from
the investment of Rs 9000 in 3½
per cent. brings in Rs. 318.8. The
Budget estimate for the Hospital is Rs. 2520
So it costs the Council about Rs. 2200
per annum. The total budgeted expenditure
of the Council is only Rs. 12840, so the
charges for the Hospital are already 17
per cent. of the total charges. The
outlay under Grant III is 41 per cent.
of the total outlay. The Council now
proposes to expend a sum equal to
about 75 per cent. of its annual
income on a new hospital, & to sell

Rs (9100 - 2000) = Rs. 7100. worth
of securities, & so give up an income
of about Rs. 250, & make the
charges under Grant III heavier
than ever.

It is submitted that until the
ordinary rudiments of sanitation are
attended to in the town it is better
for the Council to try and
be content with the existing building
which has served the Public Board
well enough, apparently.

W. G. Wiggins I agree with the above
note. The Council wishes to
go ahead for fast

Order.

The application for the sale of the Government Promissory Notes in question, should be renewed after the estimates for the new hospital building have been approved by competent authority.

12/7/95

For orders.

The approximate cost of hospitals is known as they are usually built on standard plans. The statement that this one will cost Rs. 9000 may be taken to be about correct. Orders as to permitting the sale of the securities are solicited. They form the only endowment of the Dist Hospital, and if they are sold that institution will have to be supported entirely out of municipal funds. Submitted that the Council, for so young & poor a body, with little ambitions should be advised to wait a little to see how its finances look at the end of some little time more.
