No. 1686A L., LOCAL AND MUNICIPAL, 14TH SEPTEMBER 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

No. 1490-S.

Remarks by the Sanitary Commissioner, Madras, on the recorded vital statistics in the Districts and Municipalities of the Madras Presidency for the month of March 1895.

DISTRICTS.

The district vital statistical returns for the month under review show an aggregate of 71,753 births and 50,198 deaths, which, reckoned upon the census population of 1891, yield annual ratios of 25.5 and 17.8, respectively. Considered, however, with reference to the estimated population of the month, they represent 24.1 and 16.8 per mille per annum. Classified according to sex, 36,765 boys and 34,988 girls were born, while 26,242 males and 23,956 females died during the month, or, relatively, 105.0 boys were born for every 100 girls and 109.5 males died for every 100 females.

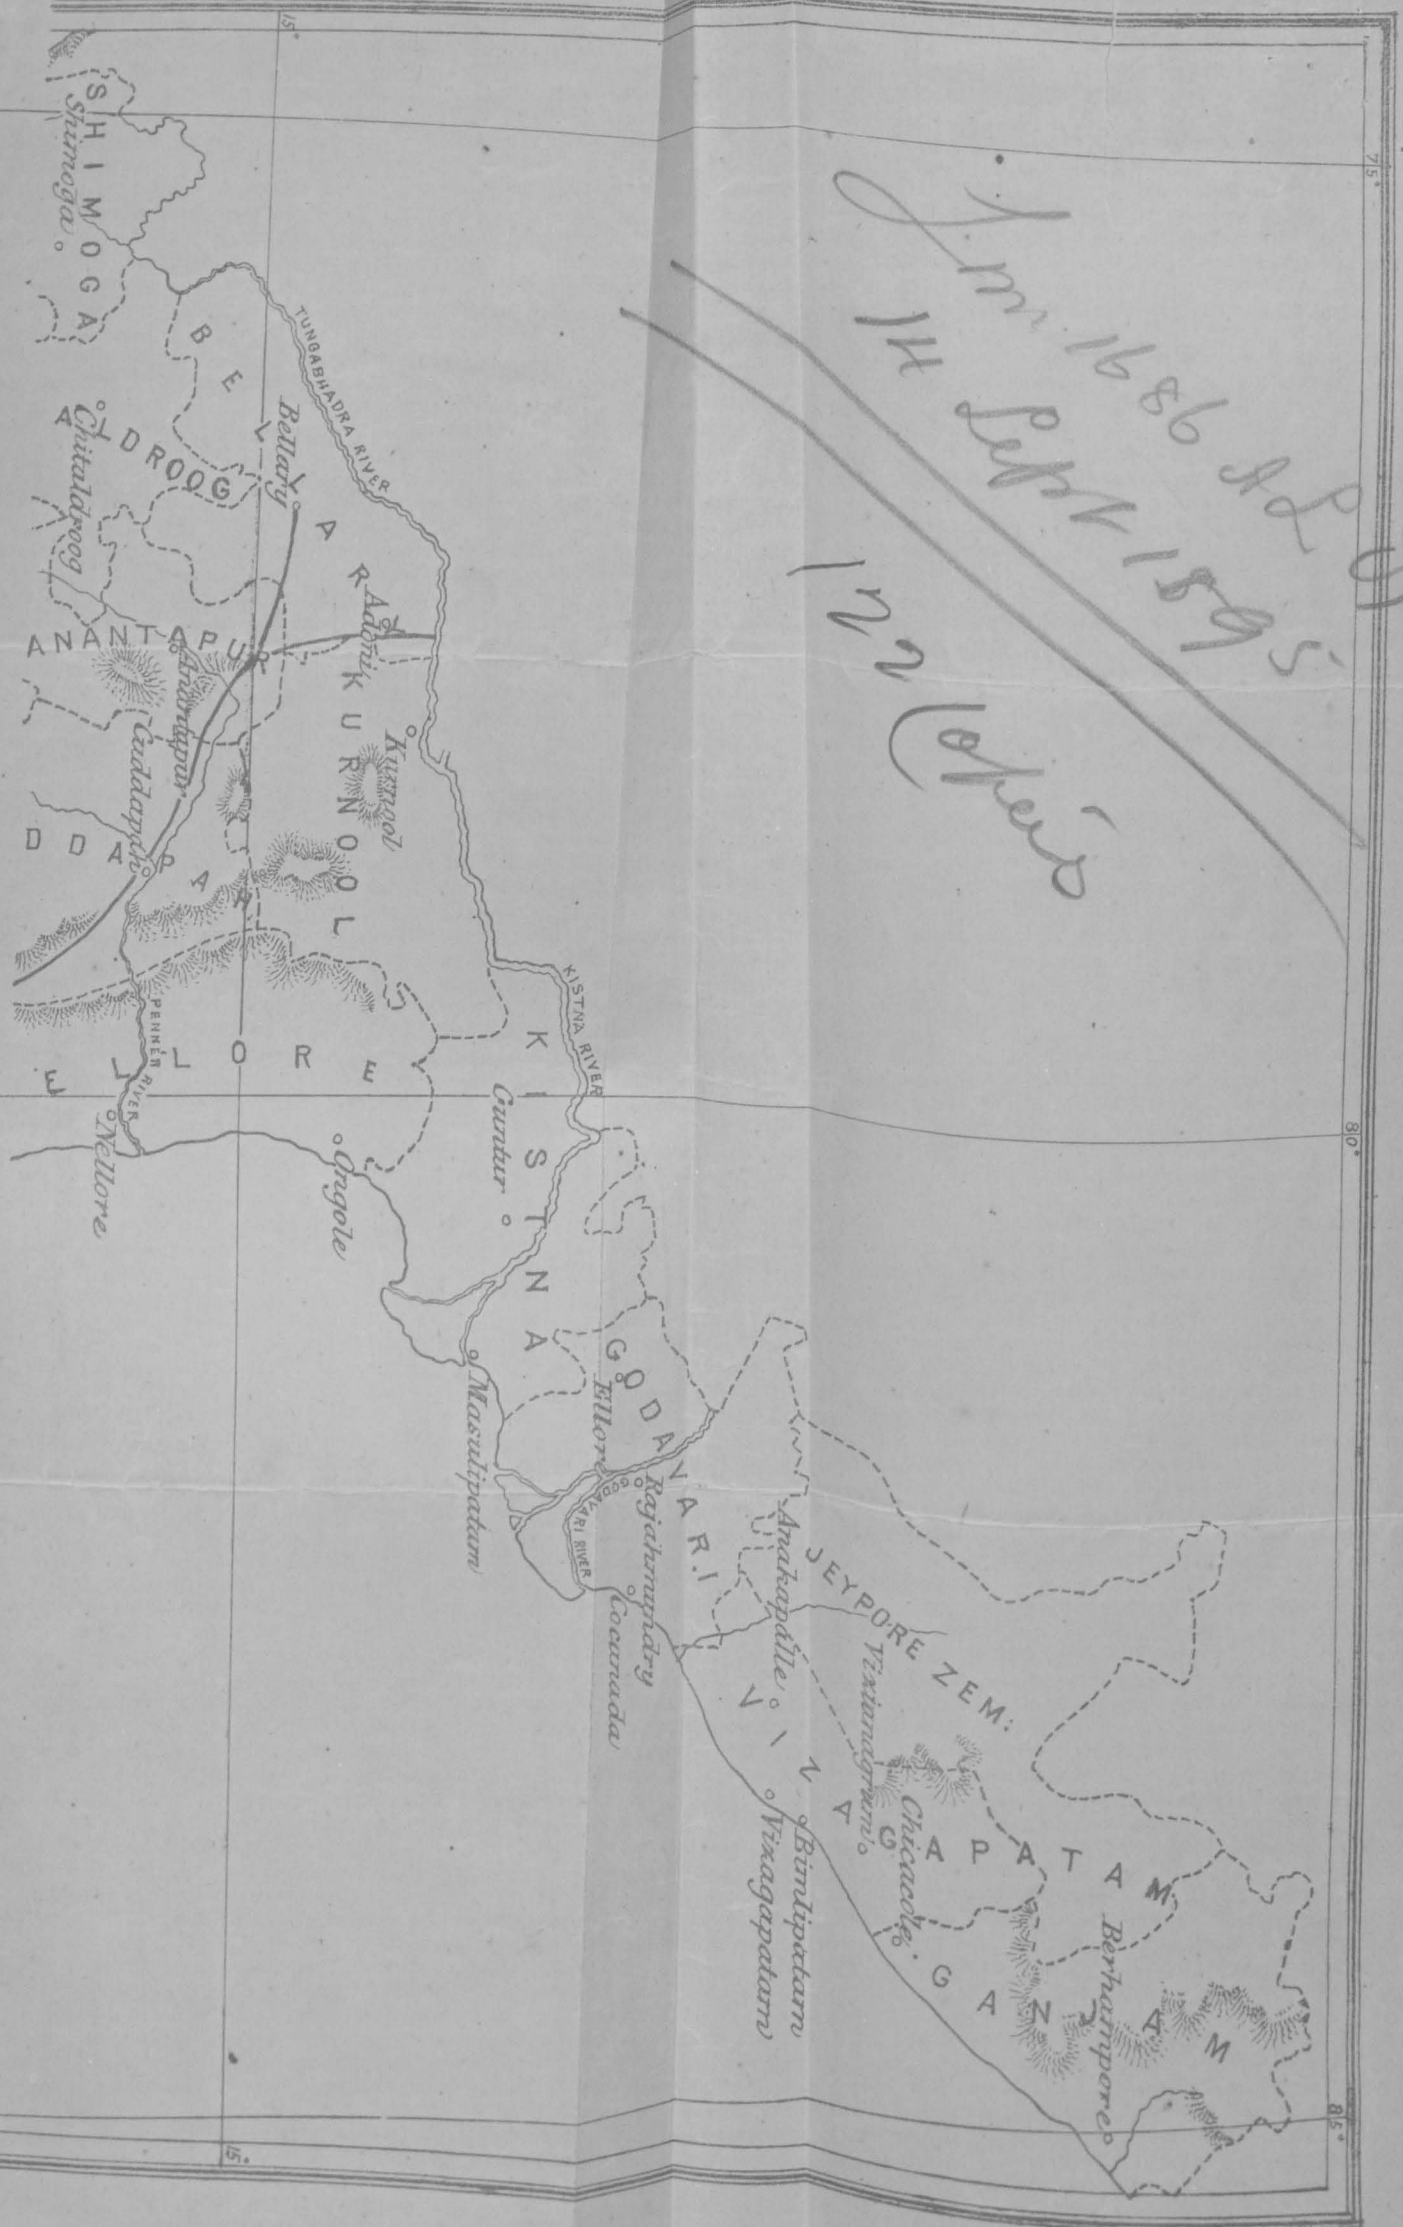

2. In the annexed table, the deaths registered under the several causes are compared with those of the preceding month and the corresponding month of the previous year:—

	Deaths from							Ratio per mille of population per annum.						
	Cholera.	Small-pox.	Fevers.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.	Cholera.	Small-pox.	Fevers.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.
March 1894 ..	3,195	1,876	20,466	1,769	1,082	23,176	51,564	1.1	0.7	7.3	0.6	0.4	8.2	18.3
February 1895 ..	2,544	421	19,047	1,581	735	23,571	47,899	0.9	0.01	6.8	0.6	0.3	8.4	17.0
March ..	2,188	469	21,752	1,491	861	23,437	50,198	0.8	0.2	7.7	0.5	0.3	8.3	17.8

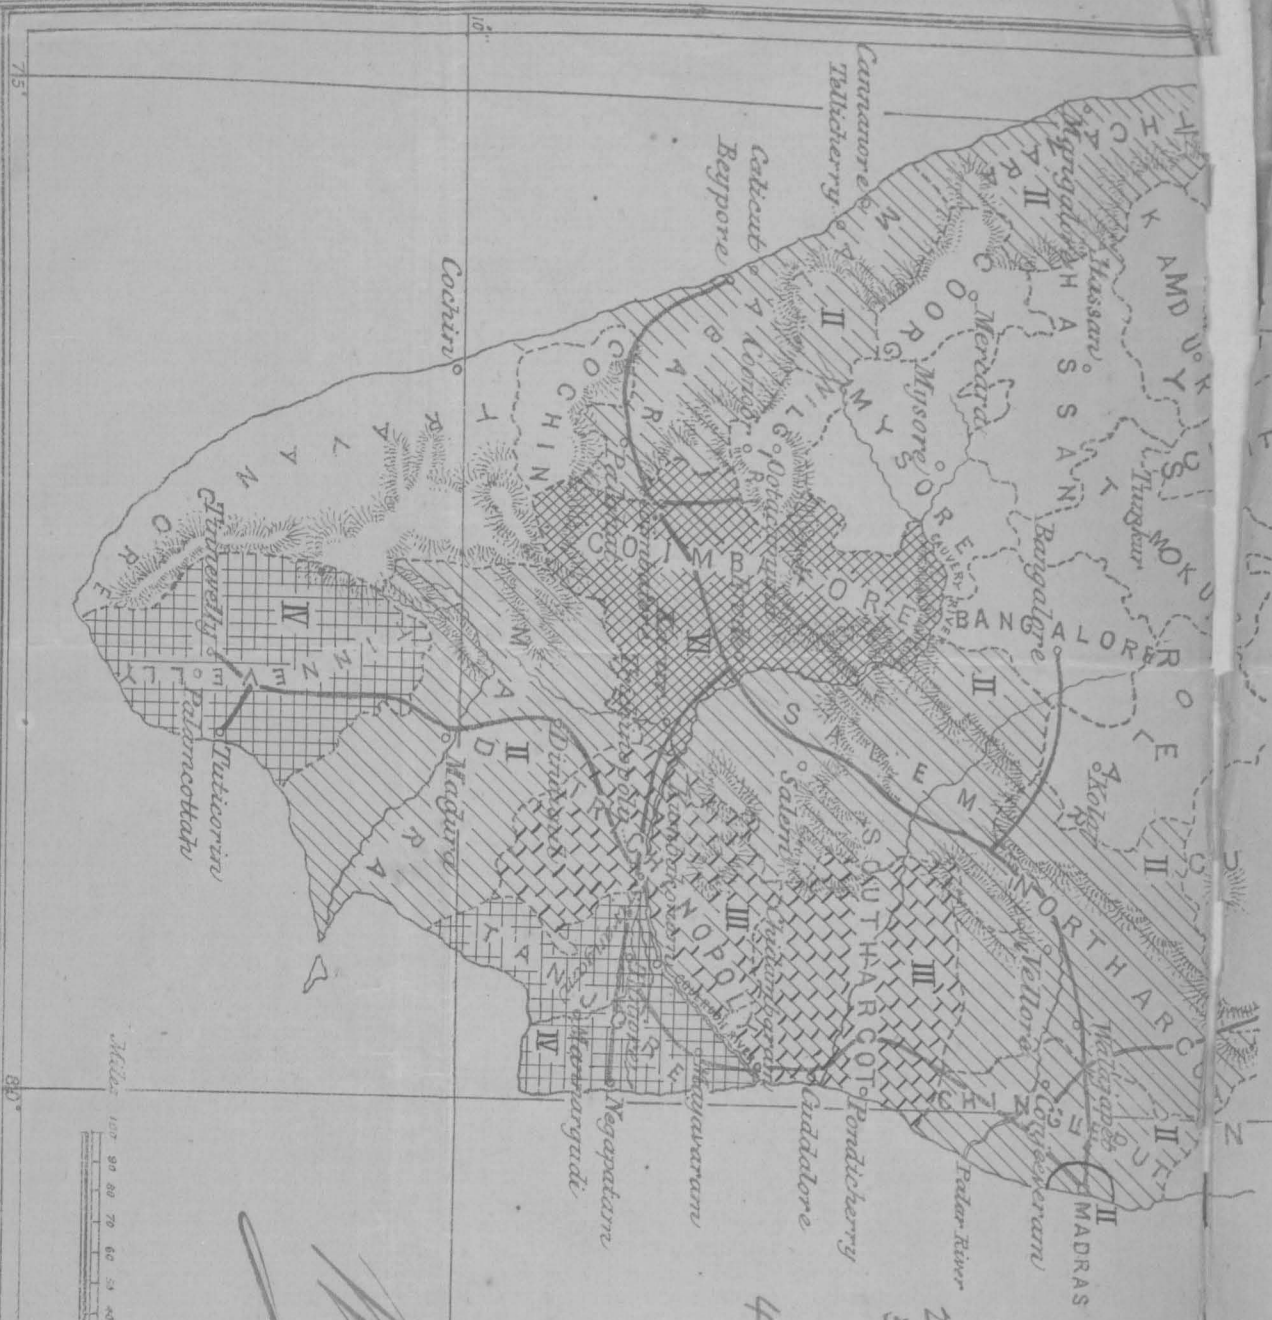

3. Deaths from cholera were reported from twelve districts. They amounted to 2,188 against 2,544 in the preceding month, the highest death-rate from this cause having been recorded in Coimbatore (4.7). Small-pox caused 469 deaths against 421 in the previous month. Bellary returned the highest death-rate (1.0): 21,752 persons fell victims to fevers against 19,047 in February last. The death-rate was high in Cuddapah (18.4), Vizagapatam (16.3), Kurnool (16.3), Nilgiris (16.1) and Madras (10.7). Dysentery and diarrhoea caused 1,491 deaths against 1,581 in the preceding month, Madras, as usual, returning the highest death-rate (3.2).

4. The accompanying map of the Madras Presidency exhibits the places where deaths from cholera were recorded, the districts being shaded according to the intensity of cholera which prevailed there.

MUNICIPALITIES.

5. The returns received from the municipalities in the Presidency show a total of 5,749 births and 4,709 deaths, representing annual ratios of 32.8 and 26.9 per mille, respectively, on the census population of 1891, and 31.2 and 25.6 per mille on the estimated population. Of the births, 2,913 were boys and 2,836 were girls, or, in other words, 102.7 boys were born for every 100 girls; and of the deaths, 2,461 were males and 2,248 females, i.e., 109.4 males died for every 100 females. In three towns (Mannargudi, Gudiyattam and Coonoor), the births and deaths were identical numerically. The mortality among infants under one year of age was 202.5 per mille per annum of the population of that age in that month against 193.5 in February last.

6. The accompanying statement compares the deaths from several causes in the month under review with those of February last and March 1894 :—

	Deaths from							Ratio per mille of population per annum.						
	Cholera.	Small-pox.	Fever.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.	Cholera.	Small-pox.	Fever.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.
March 1894 ..	344	55	1,563	508	52	2,670	5,192	2.0	0.3	8.9	2.9	0.3	15.3	29.7
February 1895 ..	239	20	1,282	496	43	2,602	4,682	1.4	0.1	7.3	2.8	0.2	14.9	26.7
March ..	155	28	1,379	430	59	2,658	4,709	0.9	0.2	7.9	2.4	0.3	15.2	26.9

7. From cholera 155 persons died against 239 in the preceding month. Periyakulam, Chidambaram and Tanjore suffered the most, with death-rates of 16.1, 14.8 and 13.0 per mille, respectively. Twenty-eight people fell victims to small-pox against 20 in February last. Fever accounted for 1,379 deaths; it was largely prevalent in Cuddapah, the death-rate being 22.1 per mille. Ten other towns returned also high rates of mortality, varying from 10.7 in Madras to 14.9 in Walajapet. Dysentery and diarrhoea caused 430 deaths. The death-rate under this head was large in five towns, ranging from 5.1 in Calicut to 10.8 in Vizagapatam.
