2. *Local Boards and Union Panchayats.*—twelve meetings were held by the dis-
trict board against thirteen in 1893–94. The attendance of the members improved,
and was fair in the case of the officials and good in that of the non-officials. The
taluk boards met a sufficient number of times and the average attendance of their
members, except that of the officials on the Tinnevelly and Srívilliputtúr boards, was,
on the whole, good. The irregular attendance of the official members of the latter
board has been noticed by Government in the reviews of the past three years, but
still continues. The attention of the President will be drawn to paragraph 2 of the
last of these, and he will be requested to see that there is an improvement in this res-
pect in the current year. Of the twenty-seven unions which were in existence at the
commencement of the year, that at Srívilliputtúr was converted into a municipality
from 1st October 1894. The panchayats of the remaining unions met on an average
fifteen times as in the previous year, and the average attendance of the members was
6·7 against 6·9. The ward system of supervision, which was adopted in twenty unions,
is reported to have worked fairly well, and the private scavenging system was intro-
duced into two of the unions under the Tinnevelly Taluk Board. The working of
the local boards and union panchayats appears to have been, on the whole, satisfac-
tory.

3. *Receipts.*—(1) The collections under land-cess amounted to 92 per cent. of the
demand against 89 in 1893–94.

(2) There were twenty-seven toll-gates in the previous year and it is satis-
factory that almost the whole of the demand under this head was realized within the
year.

(3) House-tax was collected in all the ...nions except Kayattár and was levied at the maximum rates. The collections am...unted to 86 per cent. of the demand against 87 in the previous year. In sixteen u...ions they were good and in six others fair, but in the remaining three they were un...atisfactory, especially in Káyalpatnam, where only 49 per cent. of the demand was re...alized within the year. Nearly three-fourths of the total number of processes were ...ssued in the Sivakási Union. Property was distrained in 164 cases and sold in twenty...-nine, the corresponding figures for the previous year being 267 and forty.

(4) Three additional markets were ope...ned during the year and the fee system was introduced in two of these and revived i...n another of the existing ones. There were thus twenty-nine markets in which f...es were levied against twenty-six in 1893–94, but owing to want of competition ...at the sales of the farms the income derived from them fell from Rs. 4,348 to 1...s. 3,976. The expenditure on public works connected with these institutions rose ... from Rs. 2,838 to Rs. 6,229, and the balance to their credit at the end of the yea... was thus reduced from Rs. 15,741 to Rs. 11,754. This figure is still high, but it i... proposed to utilize the greater portion of the amount in the current year.

(5) There was a small increase of Rs. ...92 in the income from avenues, which is ascribed to careful management.

4. *Expenditure*—(1) *Public Works.*—Th...ere was a slight improvement in the percentage of expenditure to the allotment un...der this head, which rose from 66 to 73, but it was still very indifferent. The explan...ations offered for this in the last column of Statement III and in paragraph 24 of the ...President's report are in many cases very similar to those given last year and are gen...erally unsatisfactory. The attention of the local boards will be called to the instru...tions upon the point in paragraph 4 (1) of the last annual review, that works for wh...ich estimates are not ready and for the execution of which arrangements have not ...been made should generally be excluded from the budgets, and a decided improveme...nt in this respect will be looked for in the current year. Village roads received les...s attention, the outlay upon them being only 4·7 per cent. of the total expenditure on ... communications against 5·2 per cent. in the previous year. The condition of the ...roads is reported to have been poor generally and in parts bad. The Governme...nt trusts that the district board's expecta-tions that increased grants and greater ener...y on the part of the Engineer will lead to an improvement may be realized. The co...st of the Local Fund Engineering estab-lishment continued to be 19 per cent. of the ...outlay on works incurred by that agency.

(2) *Education.*—As in the previous year, there were thirteen inspecting schoolmasters, and their work is reported to have been, on the whole, fair. In the training school at Melaviraraghavapuram ma...intained by the district board there were thirty-nine students. Of these, twenty-seven were in the primary classes and twenty-six of them appeared for, and twenty-three passed, the examination. Fifty-six students were trained in the three sessional schools, and of these fifty-three were presented for examination and forty-four passed. It is observed that the reduction made in grants paid to untrained teachers is still only 5 per cent. The President will be requested to report whether reasons exist why the instructions in the concluding sentence of paragraph 4 (2) of G.O., dated 7th September 1894, No. 1834 L., cannot be followed. Including the newly-opened school at Tiruk...rangudi, which was attended by twelve pupils, the taluk boards maintained two ...anskrit secondary schools. The other school at Alvartirunagiri had thirty-two p...upils on the last day of the year. The taluk boards maintained sixty-two primary ...schools with 2,671 pupils against sixty with 2,629 pupils in 1893–94. These s...chools are reported to have worked well, 84 per cent. of the pupils presented for e...xamination having passed against 80 per cent. in that year. Two new schools for Panchamas were opened. There was a decline, as shown in the margin, in the number of schools aided from local funds, which is explained in paragraph 35 of the President's report. In consequence of this, the total number of boys under ...struction in the board and aided schools was 18·9 per cent. of the male population ... school-going age against 20·4 in 1893–94, the average for the Presidency in that ye... being 13·4.

Chief Secretary.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From A. W. B. HIGGENS, Esq., President, District Board, Tinnevelly, to the Chief Secretary to Government, dated Tinnevelly, 13th July 1895, Dt. Bd. Ref. I. on Cur. No. 511 of 1895.

I have the honour to submit the annual report for the year 1894–95 on the administration in the Tinnevelly district of the Local Boards Act (V of 1884). The prescribed statements are enclosed.

I.—GENERAL.

2. *District Board.*—As in the previous year the district board consisted of an *ex-officio* President and thirty-two members, of whom thirteen were officials (four *ex-officio*, four nominated and five elected) and nineteen non-officials (eight nominated and eleven elected). But on the 31st March 1895 there was a vacancy of one elective official seat, which was subsequently filled by a non-official elected member. During the year, the Tinnevelly taluk board elected one non-official member, the Tuticorin board one official member and the Sérmádévi board one official and two non-officials. Twelve meetings were held during the year with an average attendance of 17·8 members (6·2 official and 11·6 non-official) against thirteen meetings with an average attendance of sixteen members (6·3 official and 9·7 non-official). The decrease in the attendance of the official members is trifling, while the increase in the attendance of non-official members is an indication of increased interest taken in local fund business. No meeting was postponed for want of a quorum.

3. *Taluk Boards.*—As in the preceding year there were four taluk boards corresponding to the four revenue divisions of the district. The taluk boards with the exception of Tinnevelly, the strength of which was eighteen members (five official and thirteen non-official), had, as in 1893–94, each an *ex-officio* President and fifteen members (five official and ten non-official).

On the 31st March 1895 the strength of the Tinnevelly and the Tuticorin taluk boards fell short of the prescribed number by two members each, vacancies having occurred about the end of the year consequent on the transfer of two official members, the resignation of an official member and the expiration of the term of a non-official member. The vacancies were filled up subsequently. The boards held on an average 13·5 meetings during the year with an average attendance of 8·2 members (1·8 official and 6·4 non-official) against fourteen meetings in the previous year with an average attendance of 8·6 members (2·2 official and 6·4 non-official). The Tinnevelly and Srívilliputtúr taluk boards held each fourteen meetings during the year against thirteen and fourteen, respectively, in the preceding year, while the Tuticorin and Sérmádévi boards held thirteen meetings each against 16 and 14, respectively, in 1893–94. Only one meeting—Tuticorin taluk board—was postponed for want of a quorum.

4. *Unions.*—Excluding the Srivilliputtúr union, which was converted into a municipality from the 1st October 1894, the total number of unions was 26, in 25 of which house-tax was levied. These 26 unions had, on the 31st March 1895, 293 members (69 *ex-officio* and 224 nominated) against the sanctioned maximum strength of 310 members, being on an average 11·8 per union. Official members were appointed where suitable non-official members were not available. The average attendance was 6·7 members (2·3 official and 4·4 non-official) against 6·9 members (2·5 official and 4·4 non-official) in the preceding year, while the meetings averaged 15·2 against 14·9 in 1893–94. Mélaviraraghavapuram took the first place, as in last year, with 22 meetings. All the panchayats met not less than once a month which is satisfactory.

(1) Pettai	1
(2) Sivagiri	2
(3) Alvartirunagari	1
(4) Káyalpatnam	2
(5) Viravanallur	1
Total ...	7

The number of meetings postponed for want of a quorum was only seven as marginally noted in five unions against eighteen in twelve unions in the previous year, showing an improvement. The Srívilliputtúr union panchayat met eight times before its dissolution on 30th September 1894. The ward system was in force in twenty unions as in the preceding year, and is reported to have worked fairly well. It has been in the current year introduced into the unions of Puliyangudi and Sivagiri, and its early introduction into the remaining four unions—(1) Alvartirunagari, (2) Sáttankulam, (3) Ettiyapuram and (4) Kayattár—is promised by the Taluk Board Presidents. The private scavengering system was introduced into the unions of Mélaviraraghavapuram and Kilaviraraghavapuram under the Tinnevelly taluk board. A monthly fee of 2 annas is levied on each house for clearing the privy once a day and 4 annas for attending to it twice.

5. *Financial.*—The following abstract compares the financial results of the year under report with those of the preceding year :—

—	1893–94.				1894–95.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

* The figures of the Accountant-General as finally audited have been adopted—*vide* budget of 1895–96 printed in G.O., No. 261 L., dated 9th February 1895.

Excluding debt heads and allotment from one fund to another, the total assets of the year amounted to Rs. 5,87,559 and the expenditure to Rs. 4,32,377 against Rs. 5,50,949 and Rs. 4,10,420, respectively, in the preceding year, leaving a balance of Rs. 1,55,182 as compared with Rs. 1,40,529 in 1893–94. There is an increase both

under assets and charges, the former occurring chiefly under opening balance and the latter in the outlay on public works. The causes of variations are explained under the respective heads.

6. *Union Funds.*—The total assets, excluding the contribution of Rs. 11,928, amounted to Rs. 72,512, the charges to Rs. 66,287 and the balance to Rs. 18,153.

7. In the following statement the incidence of local fund taxation during the year is compared with that of the preceding year :—

District.	Area in square miles.	Population of the district according to the census of 1891, exclusive of municipalities.	Income from taxation.				Total local fund receipts.
			Land-cess.	Tolls.	House-tax.	Total.	
1	2	3	4	5	6	7	8
Tinnevelly	5,376	1,847,534	Rs. 2,55,044	Rs. 61,851	Rs. 51,975	Rs. 3,68,870	Rs. 4,47,030

District.	Incidence of taxation, excluding tolls.		Incidence of taxation, including tolls.		Average incidence of local fund receipts.	
	1893–94.	1894–95.	1893–94.	1894–95.	1893–94.	1894–95.
	9	10	11	12	13	14
Tinnevelly	Rs. A. P. 0 2 9	Rs. A. P. 0 2 8	Rs. A. P. 0 3 3	Rs. A. P. 0 3 2	Rs. A. P. 0 3 11	Rs. A. P. 0 3 10

II.—Receipts.

8. *Opening Balance.*—The opening balance amounted to Rs. 1,46,357 against the estimate of Rs. 60,220 and Rs. 95,245, the actuals of 1893–94. The increase of Rs. 86,137 over the estimate was due chiefly to short expenditure in the preceding year under Grant I, Public Works—*vide* paragraph 21 of the administration report of that year printed in G.O., dated 17th September 1894, No. 1834 L., Local and Municipal.

9. *Land-cess.*—The receipts amounted to Rs. 2,55,044 against the estimate of Rs. 2,51,500 and Rs. 2,67,382, the actuals of the preceding year. The increase of Rs. 3,544 over the estimate was due to collection of arrears under the Tuticorin, and to prompt collections under the Srívilliputtúr taluk board. There is, however, a decrease of Rs. 1,316 under the Sérmádévi taluk board, which was due to the unfavourable character of the season.

10. *Tolls.*—As in former years, tolls were collected at half the maximum rates. The total revenue of Rs. 61,851 under this head was made up of (*a*) rental (including license fees), Rs. 54,887 ; (*b*) interest from defaulting lessees, Rs. 54 ; (*c*) arrear collections, Rs. 490, and contributions from the Tuticorin municipality, Rs. 5,933, and from the recently-created Srívilliputtúr municipality, Rs. 487. The increase of Rs. 1,351 over the estimate was due to prompt collections and to a large amount of contribution received from the Tuticorin municipality, while the decrease of Rs. 2,238, as compared with the actuals of the preceding year, was owing to less competition at the sales during the year under report.

11. *House-tax.*—During the first half of the year, the tax was collected in 26 unions as in the previous year, while in the second half, the collection was confined to 25 unions only, the Srívilliputtúr union having been then converted into a municipality—*vide* G.O., dated 10th August 1894, No. 1065 M., Local and Municipal. The total receipts amounted to Rs. 51,975 against Rs. 52,000, the estimate, and Rs. 50,326, the actuals, of the preceding year. Of the demand of the late Srívilliputtúr union on account of the first half-year, a sum of Rs. 1,047 was written off the accounts—*vide* G.O., dated 8th May 1895, No. 811 M., Mis. The receipts on the whole fell short of

the estimate by Rs. 25 only. Notwithstanding the decreased collection in the Srívilliputtúr union above mentioned, there was an increase of Rs. 1,649 over the total income of 1893–94. This was due to the fact that in 1893–94 the tax was collected in the unions of Sáttánkulam, Ettiyapuram and Káyalpatnam from the latter half of the year only—*vide* paragraph 11 of the administration report of the past official year. The percentage of total collections to the demand exclusive of remissions was 86·6. The marginally-noted five unions collected the full demand within the year against only one in the preceding year. Of the remaining unions, the collections were good in the following eleven unions:—Virudupatti (99·7 per cent.), Varttirayiruppu (98·3), Sáttúr (95·5), Ettiyapuram (95·4), Ambásamudram (95·1), Kalladakurichi (94·3), Tenkási (94), Sivakási (93·1), Sérmádévi (92·3), Alvartirunagari (91·8) and Kilaviraraghavapuram (90·1). They were indifferent in six unions—Puliyankudi (87·5), Srívaikuntam (84·2), Sankaranayinárkóyil (82), Kadayanallur (77·4), Sáttánkulam (76·8) and Kulasékarapatnam (75·7); and unsatisfactory in Sivagiri (67·5), Tiruchendúr (64·3), Káyalpatnam (48·8) and Srívilliputtúr (39·7). The Taluk Board Presidents concerned have been requested to forward the explanations of the chairmen of the last-mentioned unions, except Srívilliputtúr, for short collections. The incidence of taxation and other particulars connected with it are shown in statement XVIII. Excluding Srívill puttúr union, the average tax per house was annas 9–8, ranging between Rs. 1–4–3 in Virudupatti and annas 4-7 in Sáttánkulam unions, as against an average of annas 9–8 and a maximum of Rs. 1–5–7 in Mélaviraraghávapuram and minimum of annas 2–1 in Sáttánkulam union in the preceding year. Coercive process was issued in 2,763 cases against 3,179 cases in the previous year. Property was sold in the marginally-noted unions in 29 cases, involving Rs. 29–2–0, against 40 cases, involving Rs. 23–8–0, in 1893–94.

(1) Mélaviraraghavapuram.
(2) Pettai.

(2) Puliyankudi	3	1	9	0
(3) Kalladakurichi	17	20	0	0
(4) Rajapalaiyam	2	1	14	0
(5) Sivakási	3	2	0	0
(6) Virudupatti	3	3	7	0
Total ...	29	29	2	0

12. *Education.*—The total receipts under this head amounted to Rs. 3,427 against the estimate of Rs. 3,540 and actuals Rs. 3,567 of the past official year. The decrease below the estimate is chiefly due to short sales of books, and to the closure of the Pasuvandanai school during the year. The usual contribution of Rs. 60 was received from the Tuticorin municipality on account of the services of an inspecting schoolmaster.

13. *Medical.*—There was a large falling off in the receipts under this head, the revenue realized being Rs. 888 against the estimate of Rs. 2,130 and the actuals, Rs. 5,386, of the preceding year. This was due, in the former case, to the decrease in contributions from private individuals, the zemindars of Sivagiri and Uttumalai not having paid their contributions for the up-keep of the dispensaries in Sivagiri and Vírakéralampudur, and in the latter case owing to the fact of certain adjustments on account of sale-proceeds of Government promissory notes of the Srívaikuntam and Sáttúr hospitals having been made in 1893–94, while there was not a similar item of receipt in the year under report.

14. *Interest on Government Securities.*—The amount realized under this head was Rs. 1,152 against the estimate of Rs. 970 and Rs. 918, the actuals of the previous year. The amount was adjusted as advised by the Accountant-General. The 4 per cent. notes have been converted into $3\frac{1}{2}$ per cent. securities.

15. *Interest on Loans.*—Only Rs. 500 were realized as interest on loans paid from the endowment fund balance on account of Srívaikuntam bridge-work, against Rs. 750 of the preceding year, the decrease corresponding to the repayment of the annual instalment.

16. *Miscellaneous.*—The following items are included under this head:—

Items.	Actuals of 1893–94.	Estimate of 1894–95.	Actuals of 1894–95.	Difference.
	Rs.	Rs.	Rs.	Rs.
(*a*) Choultry rents	22,529	30,150	26,623	3,527
(*b*) Market-rents	4,348	4,550	3,976	574
(*c*) Bungalow fees	599	730	560	170
(*d*) Ferry-rents	105	90	51	39
(*e*) Fishery-rents	15,560	13,800	12,768	1,032
(*f*) Avenues	6,502	6,800	7,294	494
(*g*) Other items—				
Contributions from private individuals	1,443	2,350	1,420	930
Fees and fines	5,253	4,300	5,733	1,433
Sundry receipts	2,147	1,560	1,742	182
Total	58,486	64,330	60,167	

(*a*) *Choultry rents.*—The decrease below the estimate, *i.e.*, 3,527, occurs entirely under the Sérmádévi taluk board. This decrease is to some extent nominal, Rs. 2,832 being made up by the value of rent received in kind and used for food, and there being only Rs. 695 yet to be collected.

(*b*) *Market-rents.*—The decrease is ascribed to want of competition under the Sérmádévi and Tuticorin taluk boards. The total number of markets was 45 against 42 in 1893–94, new markets having been opened during the year in Karvalamvundanallur and Panavadale villages in Sankaranayinárkóyil taluk and Kadayanallur village in Tenkási taluk. There were 29 fee-levying markets against 26 in the preceding year, the system having been introduced in the new markets of Karvalamvundanallur and Kadayanallur and revived in the Panagudi market in Nángunéri taluk. In many of the fee-levying markets wells have been sunk, trees planted and masonry and thatched sheds constructed. Sheds with corrugated iron roof have also been erected in one such market. Steps are being taken for the execution of further improvements.

(*c*) *Bungalow Fees.*—Including the bungalow at Virudupatti, transferred to Srívilliputtúr taluk board by G.O., dated 16th October 1894, No. 2076 L., Mis., there were seven bungalows against six in the previous year. All are reported to be in fair order.

(*d*) *Ferry-rents.*—The decrease under this head was due to poor competition at the sales.

(*e*) *Fishery-rents.*—There was a fall under this head in all the taluks except Srívilliputtúr, and this is ascribed to the unfavourable character of the season; under the Srívilliputtúr taluk board there was an increase ascribed to keen competition. No rents were collected by the Public Works Department.

(*f*) *Avenues.*—The increase was due to careful management.

(*g*) *Other items.*—Under this head are included the receipts derived from (1) contributions from private individuals for sanitary works, (2) fines imposed under the Police Act, (3) process service fees, (4) private scavengering fees, (5) pandal fees, (6) fees for the temporary use of cart-stands and village-sites during fairs and festivals, and (7) pensionary contribution of local fund servants. The decrease under contribution from private individuals was partly due to labour having been contributed instead of money and partly to fewer donations. The increase under fees and fines was due to the gradual development of the unions.

17. *Contributions on account of Public Works.*—A sum of Rs. 7,000 was realized from the Ettiyapuram estate in part payment of the contribution promised towards the construction of a road between Ettiyapuram and Viláttikulam, the estimate for which was forwarded to Government through the Superintending Engineer on 3rd December 1894. A sum of Rs. 433 was contributed by certain villagers for the construction of a bridge and culvert (Rs. 398) and a school-house for Marava boys (Rs. 35).

18. *Contribution from Provincial Funds.*—The total amount drawn under this head was Rs. 4,398 against the estimate of Rs. 8,610 and Rs. 5,602, the actuals of the preceding year. The decrease of Rs. 4,212 below the estimate occurs chiefly under

the building grant taken credit for in the budget on account of the Board Technical Institute. The grant was not realized, the construction of the school having been deferred pending experience of the results of the industrial classes expected to be opened during 1895–96. The decrease was also due to the following causes—(1) certifying memoranda for certain salary-results schools having been issued late in the year were not cashed before the close of the year, and (2) the provincial grant for the circle gymnast of the Srívilliputtúr taluk board was not adjusted within the year. Rupees 413 were drawn as building grant in favour of the Board school-house erected in Elayarasanéndal.

19. *Repayment of Loans.*—On account of the eighth instalment of the loan of Rs. 45,000 obtained from the endowment fund balance for the construction of the Srívaikuntam iron bridge, Rs. 5,000 were adjusted from the district to taluk funds.

20. *Allotment from the District to Taluk Funds.*—Rupees 12,510 were allotted to taluk funds; Rs. 2,407 to Tinnevelly for payment of compensation on account of lands acquired for the Sankaranayinárkóyil-Chintamani road (*vide* paragraph 25 of this office report giving cover to the budget of 1894–95 printed in G.O., dated 23rd February 1894, No. 371 L., Local and Municipal); Rs. 5,353 to Tuticorin; Rs. 1,250 to Sérmádévi; and Rs. 3,500 to Srívilliputtúr to meet the deficit balance and for the execution of certain public and water-supply works in these boards.

Allotment from Taluk to District Fund.—Rupees 3,540 were appropriated for the execution of important renewals on roads—*vide* paragraph 26 of the report that accompanied the budget of the year under report.

Allotment from Taluk to Taluk Funds.—Rupees 3,566 were paid from the surplus of the Pandarakulam chattram fund in Tinnevelly taluk for the construction of the chattram at Maniyáchi in Tuticorin taluk—*vide* column 3 of paragraph 19 of the administration report of 1893–94.

21. *Provident Fund.*—The subscriptions of Rs. 1,722 and the adjustment of Rs. 2,366 towards bonus and interest are shown under debt head.

III.—Expenditure.

22. *Grant I, Public Works.*—The total outlay on public works was Rs. 1,72,338 against the estimate of Rs. 2,29,769 and Rs. 1,61,407, the actuals of the preceding year. The decrease of Rs. 57,431 below the estimate is explained under each head of expenditure. Of the total allotment, 75 per cent. were spent against 66·1 in the previous year under the agencies shown below:—

	Rs.		
By the Imperial Public Works Department ...	1,012,	being	cent. per cent. of allotment.
„ Local Fund Public Works Department.	1,57,207	„	73·9 „
By other agency	14,119	„	88·8 „
Total ...	1,72,338		

23. *Communications.*—Of the allotment of Rs. 1,81,970, Rs. 1,45,610 or 80·6 per cent. were spent on roads and connected masonry works against Rs. 1,39,082 or 76·8 per cent. in the previous year. The expenditure was incurred by the following agencies to the extent shown against each:—

	Rs.		
By the Public Works Department	1,012,	being	cent. per cent. of allotment.
„ Local Fund Public Works Department.	1,35,990	„	79·5 „
By other agency	8,608	„	86·1 „
Total ...	1,45,610		

The cause for non-utilization of the remaining allotment, *i.e.*, Rs. 36,360 is explained against the works that go to make up the sum—*vide* Statement III. The expenditure incurred by the Public Works Department was on the incomplete work of raising the bund of Srívaikuntam-Periyakulam tank over which road No. XXIII runs. Besides the allotments for the annual maintenance of roads a sum of Rs. 42,496 was provided for the execution of important renewals to 45 miles of road, of which Rs. 36,661 were spent within the year, the decrease being due to the fact that from failure of rain and consequent want of water near the roads it was not possible to spread the materials. The miles completely renewed were $29\frac{1}{4}$ against $75\frac{1}{2}$ miles in the preceding year. Of the 200 miles that required thorough renewal $104\frac{3}{4}$ have thus been put in order—*vide* paragraph 22 of the administration report of 1893–94. The rest will be taken up in the next and succeeding years.

The average cost of maintenance per mile including renewals was Rs. 131 against Rs. 125 in the previous year.

The revenue from tolls covered 57·6 per cent. of the cost of maintenance against 55 in 1893–94.

The condition of the roads generally may be characterized as poor and in parts bad. This is believed to be due to some extent to the continued failure of the rains resulting in want of water within a reasonable distance from the road side. The Engineer complains of inadequate allotments on many roads. The worst portions are those for which renewal work was in progress or is proposed. Materials were collected throughout, and spread where water was available. The President of the Tinnevelly Taluk Board reports that the roads in his division are rather better than in the previous year. The Board is not satisfied with the condition of its roads as a whole, but trusts that with the increased allotment provided in the current year and greater exertions on the part of its Engineer their condition will be improved.

The avenues on the main roads and on many of the minor lines are in a good condition. Fruit-bearing trees are planted as far as practicable—*vide* Statement IV-B. The maintenance of avenues cost Rs. 4,098, while the income derived from avenues amounted to Rs. 7,294.

24. *Civil Buildings.*—The expenditure on civil buildings was Rs. 11,198 against the estimate of Rs. 29,337 or 38·6 per cent. of the allotment. Large allotments were sanctioned for construction of (1) Local Fund offices at head-quarters, (2) a dispensary at Mélaviraraghavapuram, (3) a rest-house for Muhammadans in the same place, (4) the Board Technical institute, (5) low caste chattram at Kurukusalai and (6) a dispensary building at Tirukurungudi, besides improvements and repairs to certain chattram buildings. These allotments could not be utilized within the year for the following reasons:—

(1) Sanction for the estimate for the Local Fund offices was received late in year.

(2) A suitable site has not been yet secured for the Mélaviraraghavapuram dispensary.

(3) The site for the Muhammadan rest-house was acquired late in the year and the work has since been put on hand.

(4) The construction of the technical institute was kept in abeyance as explained in paragraph 18 *supra*.

(5) and (6) Sites have not yet been secured for the Kurukusalai chattram and the dispensary at Tirukurungudi, though preliminary arrangements have been made for their acquisition.

25. The chattram work at Maniyáchi junction was nearly completed. The following are the details of expenditure on civil buildings:—

	Rs.
(1) Schools	795
(2) Hospitals and dispensaries	1,439
(3) Choultries	7,411
(4) Bungalows and rest-houses	1,553
Total ...	11,198

26. *Miscellaneous—Public Improvements.*—The total outlay on these works amounted to Rs. 15,530 or 84·1 per cent. of the allotment of Rs. 18,462—

	Rs.
(1) Markets	1,962
(2) Tanks and wells	1,644
(3) Sanitary works	1,075
(4) Chattram irrigation works	6,094
(5) Avenues	4,169
(6) Miscellaneous (bathing ghâts)	586
Total	15,530

	Rs.	
By Local Fund Public Works Department	13,766	being 83·8 per cent. of allotment.
By other agency	1,764	„ 87·4 „ „
Total	15,530	

The decrease of Rs. 2,932 under the estimate is spread over several works and the causes are explained in Statement III.

27. *Establishment Charges.*—The charges amounted to Rs. 33,396 against an estimate of Rs. 33,660 and Rs. 30,253, the actuals of the previous year. The details are—

	Rs.
(1) Local Fund Engineering establishment including contingencies	30,234
(2) Tools and plant	1,693
(3) Other establishment charges	1,397
(4) Tolls and ferries	72
Total	33,396

The expenditure on account of Local Fund Engineering establishment bears a percentage of 19·2 to the outlay on works executed by that agency against 18·6 per cent. in the preceding year and 20 per cent., the prescribed maximum limit, while the percentage of tools and plant was 1 against 1·4 in 1893–94. The Public Works Department scrutinized the following estimates :—

	Rs.	Charges. Rs.
(1) Constructing a chattram at Maniyáchi Railway station	4,900	122
(2) Constructing a road between Ettiyapuram and Vilátti-kulam	51,900	1,297
(3) Constructing a road dam across the Nambiyar river	4,700	117
Total	61,500	1,536
Deduct for—		
Repairing a portion of road from Srívilliputtúr passing over Ponnankani tank bund—*vide* paragraph 8 of administration report for 1893–94		139
		1,397

The details of expenditure under tolls and ferries are shown in Statement V.

28. *Contribution.*—The usual contribution of Rs. 9,150 on account of tolls was paid to the Tinnevelly and Palamcottah municipalities. A sum of Rs. 2,286 was actually paid to the Madura District Board for the Aruppukóttai-Virudupatti road, of which Rs. 1,639 are kept under suspense head as advised by the Accountant-General, the Madura District Board not having shown the amount in its account for March 1895. Rs. 1,500 were contributed to the Ettiyapuram estate for the construction of a dispensary and improvement of a drinking-water pond. The sum of Rs. 200 allotted for payment to the mittadar of Karukurichi for quarry license fees was not disbursed, the amount not having been claimed within the year.

29. *Grant II, Education.*—Besides the sum of Rs. 795 spent under Grant I for the construction and repair of certain board schools, the total sum spent on education amounted to Rs. 49,384 against an estimate of Rs. 59,254 and Rs. 47,378, the actuals of 1893–94. The expenditure fell short of the estimate by Rs. 9,870, the decrease occurring under (*a*) inspection Rs. 97 ; (*b*) charges connected with the industrial class, &c., of the board training school, Rs. 2,743 ; (*c*) stipends to Muhammadan teacher pupils, Rs. 104 ; (*d*) secondary schools, Rs. 142 ; (*e*) salary-result schools, Rs. 1,911 ; (*f*) results grant, Rs. 4,177 ; (*g*) building and furniture grants, Rs. 594 ; and other items, Rs. 102. The reasons for short expenditure are explained below under each head.

30. *Inspection.*—As in the previous year there were thirteen inspecting schoolmasters. The establishment and the scale of pay was revised during the year under report—*vide* paragraph 27 of the letter submitted with the budget of 1894–95. The inspecting schoolmasters visited 1,391 villages and inspected 1,911 boys' schools including the board salary-result schools against 1,374 villages and 1,974 boys' schools in the previous year. The number of visits paid to schools ranged as usual between two and four. The inspecting schoolmasters prepared for examination 73 board schools and 1,889 other schools against 60 board and 1,887 other schools in the preceding year.

The work of the inspecting schoolmasters is reported to be on the whole fair —*vide* Statement XX. The charges of inspection were Rs. 6,013 against an estimate of Rs. 6,110 and Rs. 5,544, the actuals of the preceding year. The decrease under the estimate is trifling, while the increase over the actuals of 1893–94 was due to the revision of the establishment of inspecting schoolmasters as mentioned above.

31. *Training Schools.*—The training school at Mélaviraraghavapuram continued to be maintained by the board. The pupils trained in the lower secondary standard were 12 and under primary, 27 against 10 and 29, respectively, in 1893–94. The Palamcottah municipality sent for training one student in the primary grade against two deputed in the same grade by Tinnevelly municipality in the preceding year. There was no private (non-stipendiary) student under training. Of the 27 students in the primary grade, 26 were presented for examination with 23 passes. The result of the written test in school management for the lower secondary and primary training classes are not yet known. The net cost of the training department was Rs. 2,463 or Rs. 60 per pupil against Rs. 1,926 or Rs. 49–6–2 per pupil in 1893–94. The decrease in the preceding year was due to the stipends of the lower secondary grade having been borne entirely by provincial funds and to the drawing of arrear of contribution from provincial funds. During the year under report Rs. 4 only were paid from provincial funds against Rs. 6, the stipend of each lower secondary student. The difference of Rs. 288 for the year was met from local funds. On the 31st March 1895, there were 119 pupils in the practising branch of the institution, against 110 on the corresponding date of the preceding year. Instruction was given as in 1893–94 under the first four and the infant standards. The pupils under all standards were presented for examination with the following results :—

Standard.	Number presented.	Number passed. First class or merit pass.	Number passed. Second class or ordinary pass.
IV	17	4	8
III	22	1	16
II	18	3	11
I	10	3	7
Infant	5	3	2
Total	72	14	44

The department earned no result grant as it is not entitled to it under the new grant-in-aid rules. The total cost of the practising branch was Rs. 120, of which Rs. 55 were drawn from provincial funds as salary grant.

The total charges of the board training school were Rs. 4,799 against an estimate of Rs. 7,500 and Rs. 4,797, the actuals of 1893–94. The decrease of Rs. 2,701 under the estimate was due to the non-opening of the industrial class for want of a building and to the admission of 39 students only against 45 provided for in the budget. The necessary accommodation for the industrial class has since been secured and it is hoped that the class will be opened shortly. Only one Muhammadan teacher came forward against two in the preceding year to be trained in the school at Madras. The stipends amounted to Rs. 86, of which three-eighths were contributed from provincial funds.

32. *Special Training Schools.*—As in the preceding year there were three sessional schools, one in each of the Sub-Assistant Inspector's ranges. The course of training occupied as usual three months. The total number of students admitted was 56 against 59 in the previous year and 60, the prescribed strength. The rate of stipend was, as in 1893–94, Rs. 5 per student.

Fifty-three students were presented for examination with success in 44 cases. The cost of these schools amounted to Rs. 1,158 against an estimate of Rs. 1,200 and Rs. 858, the actuals of the preceding year. The large difference in the cost in the two years was due to the stipends of one of the schools not having been drawn in 1893–94. The charges of training per pupil was Rs. 20–10–10 against Rs. 14–8–8 in the previous year.

33. *Secondary Schools.*—The Sanscrit school attached to the Tirukurungudi chattram and sanctioned in the budget of 1894–95—*vide* paragraph 27 of the report was opened about the end of the year with an attendance of 12 pupils. In the Alvartirunagari Sanscrit school the average attendance rose from 19 in 1893–94 to 24. The number of pupils on the rolls on the 31st March 1895 was 32. The total charges of this institution were, as in the preceding year, Rs. 180, of which one-third was drawn from provincial funds. The cost to local funds per pupil was Rs. 5 against Rs. 6 in the previous year. Advanced Sanscrit literature and Vedas are taught in the institution, which was inspected by the educational agency. A sum of Rs. 8 only was spent during the year on account of the Tirukurungudi school.

34. *Elementary Schools.*—There were at the commencement of the year 60 salary-result schools against 58 in the preceding year. During the year under report three new schools were opened, one under Tinnevelly and two under the Sérmádévi taluk boards, and four schools in the former were raised to the upper primary grade. The Muhammadan schools at Kadayanallur and the Hindu school at Krishnapuram under the Sérmádévi taluk board were amalgamated. For want of attendance the school at Pasuvandanai under the Tuticorin taluk board was transferred to Kayalpatnam and that of Sengundrapuram under the Srívilliputtúr taluk board to Sippiparai. There were thus 62 schools at the close of the year against 60 in the previous year. All the schools are reported to work fairly well. Ten of these schools were attended exclusively by the fifth-class boys and three by Muhammadan pupils against eight and four in the preceding year. The fifth-class pupils were admitted free, besides being provided with books, slates, &c., gratis. A large number of Marava boys and boys belonging to working classes attend five schools under the Sérmádévi taluk board. The financial results of the several classes of schools are exhibited in Statement IX. The total expenditure on account of these schools amounted to Rupees 14,798 against an estimate of Rs. 16,709 and Rs. 13,132, the actuals of 1893–94. The decrease of Rs. 1,911 below the estimate is spread over all the taluk boards under the heads of salaries of masters and miscellaneous—Rs. 1,025 in the former and Rs. 1,008 in the latter, the difference of Rs. 122 being counterbalanced by the increase under results grants. Of the decrease under salaries Rs. 233 are savings and Rs. 792 lapsed owing to amalgamation and the late opening of the school transferred to Kayalpatnam mentioned above. The decrease under miscellaneous is partly accounted for by the same reasons and partly by the non-purchase of maps, books, &c., under the Tinnevelly taluk board. The net cost to local funds of instructing

a pupil of the upper primary grade was Rs. 8–12–9 and of lower primary, Rs. 1–3–5 against Rs. 5–11–8 and Rs. 3–14–9, respectively, in the preceding year. Results grants were paid at 75 per cent. as in the previous year. The Sérmádévi Board has followed the Tinnevelly and Srívilliputtúr taluk boards in providing all its schools with the apparatus requisite for recognition. There were six gymnastic instructors, the Sérmádévi taluk board having entertained an additional instructor during the year under report.

35. *Grant-in-Aid Schools.*—At the end of the year there were 768 schools with an attendance of 23,406 against 848 with 25,569 in the preceding year. There was a decrease both under the number of schools and pupils, which was chiefly due to the failure on the part of the managers to conform to the rules of recognition under the new Grant-in-aid Code and to the strict scrutiny of the applications for aid. All the taluk boards except Srívilliputtúr, which paid at the maximum rates, paid results grants at 75 per cent. of the rates. The number of pupils examined was 15,061, of whom 10,686 were found eligible for grants against 18,011 and 13,147, respectively, in 1893–94. The amount of grant earned by them amounted to Rs. 22,070, which was Rs. 1,980 more than the earnings of the preceding year. The amount disbursed within the year was Rs. 17,241. The average grant per head of pupil was Rs. 1–9–9 against Rs. 1–8–6 in the previous year. Including the arrear payment of Rs. 3,889 and Rs. 60 on account of building grants, the total charges amounted to Rs. 21,190 against an estimate of Rs. 25,961 and Rs. 21,741, the actuals of 1893–94. The decrease of Rs. 4,771 below the estimate was owing chiefly to the certifying memoranda of certain schools not having been cashed within the year.

36. *General progress of Education.*—The total number of pupils under instruction in board and aided schools was 26,163 against 28,256 in the previous year. Taking $7\frac{1}{2}$ per cent. of the total population as the male population of school-going age, the percentage of the number of pupils under instruction was 18·8 against 20·4 in 1893–94. The decrease was due to reduction in the number of schools as mentioned above.

Statement No. XXI shows the qualifications of the teachers entertained in the board and aided schools. The untrained teachers were paid results grants with a deduction of 5 per cent. as in the preceding years.

37. *Grant III, Hospitals and Dispensaries.*—There were 8 hospitals and 10 dispensaries against 8 hospitals and 8 dispensaries in the preceding year. During the year under report 2 new dispensaries were opened—1 at Sivagiri (*vide* paragraph 30 of the report that accompanied the budget of 1894–95); and the other, the Lady Dufferin female dispensary, at Mélaviraraghavapuram—*vide* G.O., dated 24th July 1894, No. 1357 L., Mis. The total number of patients treated was 145,134 (785 in-patients and 144,349 out-patients) against 126,490 (808 in-patients and 125,682 out-patients) in the previous year. Even leaving out of consideration the number of out-patients (5,450 treated in the 2 new dispensaries), there was a net increase of 13,217 in the cases treated by the old institutions over those of the previous year, Srívilliputtúr hospital heading the list with 10,157 patients. The last-mentioned institution continued under the management of the local board, notwithstanding the conversion of the Srívilliputtúr union into a municipality from 1st October 1894. As in the previous year there were 8 aided medical institutions—7 managed by mission agency and one by a medical practitioner. The number of cases treated in them was 55,748 against 57,747 in 1893–94. The dispensary at Nazareth stood, as usual, at the top of the list with 16,597 cases. The total charges on account of purely local fund institutions amounted to Rs. 28,658 against an estimate of Rs. 29,201 and Rs. 25,713, the actuals of the preceding year. The average cost of treating a patient was As. 3–1 against As. 3–3 in 1893–94. The district board maintained a reserve hospital assistant at a cost of Rs. 358. Towards the training of a medical lady pupil a sum of Rs. 450 was paid to the Marchioness of Dufferin fund. It is reported that the 2 hospital committees of Mélaviraraghavapuram and Sankaranayinárkóyil did no work during 1894–95 and that their abolition is under contemplation. The District Surgeon's establishment cost Rs. 835 against Rs. 675 in the previous year, the increase being due to the entertainment of an additional clerk on Rs. 10 (*vide* paragraph 17 of the letter that accompanied the budget of 1895–96 printed in G.O., dated 9th February 1895, No. 261 L., Local and Municipal), and to the extra expenditure unde-

contingencies (furniture, &c.). The system of distributing medicines through the District Medical and Sanitary officer during his tours of inspection was given up under G.O., dated 8th May 1894, No. 823 L., Local and Municipal.

38. *Midwives.*—There were 10 midwives against 8 in the preceding year, the 2 additional hands being attached to Melaviraraghavapuram and Sérmádévi dispensaries. They were paid partly by fixed salary and partly by results. The number of cases attended by them was 520 against 441 in 1893–94. The average number of cases attended by each midwife was 52 against 55·1 in the previous year. The total expenditure under this head was Rs. 939—by salary Rs. 929 and by results Rs. 10 against Rs. 731 composed of salary Rs. 715 and results Rs. 16 in 1893–94. The average cost per case was Rs. 1–12–11 against Rs. 1–10–6 in the preceding year.

39. *Medical Pupils and Practitioners.*—A lady medical pupil of the apothecary grade was under training as mentioned above.

40. *Vaccination.*—The particulars regarding vaccine staff and its work are shown in statement No. XIII. As in the previous year the establishment consisted of 3 Deputy Inspectors (1 first-class and 2 second-class) and 37 vaccinators (7 first-class, 15 second-class and 15 probationary vaccinators). The total number of cases vaccinated was 82,626 against 86,477 in the previous year and the prescribed minimum of 76,080. The minimum was raised in consequence of the certifying vaccinators having been attached to the batches, their services for granting certificates to school boys not being required under the new Educational Grant-in-Aid Code. The net decrease of 3,851 cases below the operations of the previous year is due to a decrease of 5,689 cases in the Sáttúr range, while the Tinnevelly and Sérmádévi ranges show an increase of 1,035 and 803 cases, respectively. The Deputy Inspector ascribes the deficit to the prohibition against the vaccination of travellers at fairs and festivals. This prohibition has been imposed in consideration of the impracticability of verifying such cases and of the opportunity such a practice gives for falsification of returns.

The Deputy Inspector's explanation is unsatisfactory in the face of the fact that there was a considerable increase in the other two ranges, though the same rule was in force there also. The neglect of the Sáttúr Deputy Inspector and Vaccinators is under enquiry.

As in the preceding year vaccination was performed with animal lymph. The calf-to-arm process was adopted and glycerine paste was also used; 67,866 cases were vaccinated under the former process and 14,760 under the latter. The district authorities made particular enquiries, especially at the time of annual settlement, about the progress of vaccination and impressed on the minds of the village officials their responsibility in the matter. Meritorious services rendered were noticed and published in the local gazette. The total number of successful cases was 79,487 or 96·2 per cent. of the operations against 82,537 or 95·4 per cent. in the preceding year. The Deputy Inspectors verified 52,679 or 63 per cent. of the total outturn against 74,303 or 90 per cent. in 1893–94. The decrease in the percentage of verification was presumably due to more real scrutiny on the part of the Deputies. The expenditure amounted to Rs. 11,021 against an estimate of Rs. 10,628 and Rs. 10,762, the actuals of the previous year. The increase was due partly to the formation of an additional batch in the Sérmádévi range, the extra cost involved being Rs. 83–12–0—Rs. 30 on account of a calf peon and Rs. 53–12–0 on account of contingent charges connected with lymph calves—and partly to increase in general contingencies, travelling allowance, &c. The cost of a successful case was As. 2–2 against As. 2–1 in the preceding year. The subjects operated upon in the local fund and aided dispensaries were 2,056, showing an increase of 71 cases over the figures of 1893–94. The number of successful cases was 1,620 or 79·2 of the cases vaccinated. The number of infants vaccinated was 291 with success in 231 cases against 294 with success in 251 cases in the preceding year. The officer in charge of purely local fund institutions vaccinated 1,816 or 6 cases less than in the previous year with success in 1,459 cases.

41. *Infant Vaccination.*—The total number of operations upon children under one year of age was 17,056 with success in 16,743, or 98·1 per cent. of the cases against 19,895 with success in 19,327 or 97·1 per cent. in the preceding year. Infant vaccination bears a proportion of 20·6 per cent. to the total number of operations under all

heads and of 23·1 per cent. to that of children capable of vaccination out of the district population exclusive of municipalities. The number of successful operations during the year was 9·1 per mille against 10·4 in 1893–94.

42. *Sanitation.*—Exclusive of Rs. 3,305 spent on sanitary public works under Grant I in the construction and repair of 8 tanks and wells, 9 bathing ghauts and the drains in the Virudupatti union, the expenditure under the head was Rs. 50,726 against an estimate of Rs. 57,047 and Rs. 51,483, the actuals of the preceding year. The percentage of expenditure to the budget and subsequent allotment was 88·9 against 94·6 in 1893–94 and to the total receipts, 8·2 against 10·1. The decrease of Rupees 6,391 below the estimate occurs under the five sub-heads—water-supply (Rs. 2,296), improvement of village-site (Rs. 540), scavengering establishment (Rs. 1,781), fairs and festivals (Rs. 87) and "other sanitary outlay" (Rs. 1,617) and is spread over several unions and the non-union villages in six revenue taluks. The decrease under the late Srívilliputtúr union alone amounted to Rs. 1,415. The details of expenditure under this head are shown in Statement No. XIV, of which the following is an abstract:—

	Rs.
(1) Improvement of water-supply	10,837
(2) Village-site	6,229
(3) Scavengering establishment	28,959
(4) Arrangements at fairs and festivals	1,170
(5) Other sanitary outlay	3,531
Total ...	50,726

The works executed included the construction of 2 new tanks, the digging of 20 new wells and the repair of 196 existing sources of water-supply against 2 tanks, 30 wells and 182 old sources of water-supply in the previous year. Twenty-eight watchmen were employed to watch the sources of drinking-water, being an increase of nineteen over those employed in the preceding year. The number of villages improved was 126 against 148 in 1893–94. The unions and villages conserved were 27 and 61, respectively, against the same number of unions and 60 villages in the preceding year, the increase in the latter being due to the entertainment of conservancy establishment for the village of Sippiparai in Sáttúr taluk. The intinerating conservancy staff of the Srívilliputtúr taluk attended to the sanitation of 55 villages including hamlets, and the value of work so far as was measurable was Rs. 540 against Rs. 484, the cost of their maintenance. Prickly-pear was removed in one village under the Srívilliputtúr taluk board. The number of stations conserved during fairs and festivals was 18 at a cost of Rs. 1,170 against 21 at a cost of Rs. 1,148 in the previous year. The expenditure under "other sanitary outlay" comprised the following items:—

	Rs.
(*a*) Construction of drains, permanent and temporary latrines and repairs	1,492
(*b*) Purchase of iron dust-bins and construction of masonry bins ...	442
(*c*) Cholera and other epidemic charges	466
(*d*) Sanitary, other items, such as tools, &c.	514
(*e*) Cost of sanitary maistries	617
Total ...	3,531

The charges relative to the purchase and repair of rubbish carts, wheel-barrows and hire of bulls have been shown under scavengering establishment as required by Government.

The sanitary condition of the unions and villages generally are reported to be on the whole fair. But there is still much room for improvement.

43. *Epidemics.*—Cholera made its appearance at different times in five taluks—(1) Sankaranayinárkóyil, (2) Ottappidáram, (3) Tenkási, (4) Ambásamudram and (5) Nángunéri. The total number of deaths registered was 4,066 against 5,482 in the previous year. Besides the local medical subordinates, the two reserve hospital assistants attached to the district were specially detailed for cholera duty and medicines

were issued from the stock kept at head-quarters for the purpose. The disease was not of a virulent nature. Small-pox of a mild form occurred in various parts of the district. The deaths returned were 334 against 759 in the preceding year.

44. *Choultries.*—The total number of chattrams under management was 39 against 38 in the preceding year, the additional institution being Sivagurunadha Pillai's chattram at Ambásamudram transferred to Sérmádévi taluk board by G.O., No. 363 L., dated 22nd February 1894. Of these, 25 were endowed and the rest unendowed, 8 of the former being feeding institutions. The total number of wayfarers fed was 81,246 against 79,997 in 1893–94. The cost of feeding amounted to Rs. 10,245 (the value of grain collected in kind and utilized for the purpose being Rs. 2,597) against Rs. 10,013 in the previous year. As in the preceding year, 67 disabled, lame and blind persons drew pension from the Tirukurungudi and Kuttalam chattrams. Excluding the usual contributions towards medical institutions, education and the proportion of the pay of the 2nd clerk of the Sérmádévi taluk board, the total charges including public works amounted to Rs. 38,246 against Rs. 34,507 in 1893–94, the increase being due to larger outlay on public works. The statistics of the institutions are shown in Statement No. XI. The deficit balances of the chattrams of Padmaneri and Valliyur were made good by appropriations from general funds of the Sérmádévi Taluk Board—*vide* Statement No. VI.

45. *Markets.*—The *minus* balances of the markets of Srívaikuntam, Sérmádévi and Tisayanvilai were cleared from the surplus of other markets under the respective taluk boards—*vide* Statement No. VI.

46. *Contributions.*—A sum of Rs. 4,221 against Rs. 2,384 in the previous year was paid for presidency charges as advised by the Accountant-General on account of medical college, sanitary inspection, medical reserve staff and cutlers' establishment. Including the sum of Rs. 687 being the excess collection of house-tax refunded to the new Srívilliputtúr Municipality, the total amount of contributions paid to municipalities amounted to Rs. 3,357 against an estimate of Rs. 2,405 and the actuals of Rs. 1,690 of the preceding year. As in 1893–94, Rs. 2,640 were paid in aid of private dispensaries.

47. *Miscellaneous.*—The charges incurred on account of the following items are shown under this head and amounted to Rs. 11,912 against an estimate of Rs. 12,375 and Rs. 11,562, the actuals of the preceding year:—

		Rs.
(*a*)	Lighting	11,458
(*b*)	Establishments of water-pandals at the district head-quarters—Nángunéri, Sankaranayinárkóyil, Srívaikuntam, Vilátikulam and Tinnevelly	414
(*c*)	Refunds	40
	Total	11,912

The decrease is trifling. All the tax-levying unions except Satankulam and Sivagiri were provided with lights. The Tinnevelly taluk board provided Puliyangudi union with 15 lamps during the year and 3 other unions with 37 additional lights. The Tuticorin taluk board supplied Káyalpatnam and Ettiyapuram unions with 28 and 37 lamps respectively, and 3 other unions with 38 additional lights; while the Sérmádévi and Srívilliputtúr boards increased the number of lights in 3 unions each, the additional lights being 81 and 26, respectively. There were thus 1,589 lights at the end of the year against 1,327 in the preceding year. On the Tinnevelly-Palamcottah road 41 lights were maintained as in 1893–94. In the non-union villages of Kodaganallur and Gengaikondam 16 lamps were maintained, the cost being borne by the villages. The cost of lighting ranges between Rs. 1–4–11 and As. 7–2 per lamp per month, the former being the rate on the Tinnevelly-Palamcottah road and the latter in Rajapalayam and Kalladakurichi unions against Rs. 2–0–6 and As 8–4, respectively, in the previous year. The higher rate allowed for the road was due to its being lighted throughout the month including moonlight nights. As in the preceding year lighting was let out on contract in the road mentioned and also in 3 unions against 5 unions in 1893–94.

48. *Grant IV, Establishment, &c.*—The total charges under this grant amounted to Rs. 37,730 against an estimate of Rs. 38,871 and Rs. 35,131, the actuals of the preceding year. The details were as follows:—

		Rs.
(1)	Controlling establishment at the Presidency including the printing work done at the Government Press	3,418
(2)	Establishment at the Collector's office	3,640
(3)	Local Boards' establishment including contingencies	14,608
(4)	Travelling allowance to non-official members	3,167
(5)	Pensions	372
(6)	Law charges and refunds	686
(7)	Loans	9,830
(8)	Miscellaneous	350
	Total ...	35,071
	Provident Fund ...	2,659
	Total ...	37,730

The expenditure under items (1) and (5) was incurred as advised by the Accountant-General. The sum of Rs. 9,830 under item (7) includes Rs. 8,500, the principal repaid (Rs. 5,000 on account of the eighth instalment of the Rs. 45,000 loan obtained from endowment fund and Rs. 3,500 for the sixth instalment of the Rs. 35,000 borrowed from the Ettiyapuram estate) and Rs. 1,330, the interest due on the unpaid portions of those loans (Rs. 500 to the endowment fund and Rs. 830 to the Ettiyapuram estate). The sum of Rs. 350 shown under item (8) was the amount placed at the disposal of the Accountant-General for the premium and interest on Government securities purchased in order to be given to the Ettiyapuram estate for the payment of the above said instalment. There was no change in the rates of travelling allowance to non-official members.

49. *Closing Balance.*—The year closed with a balance of Rs. 1,61,337 as shown below against Rs. 1,46,357, the actuals of the preceding year and Rs. 83,320 estimated in the budget of 1895–96:—

Name of Local Boards.	Balance as per budget of 1895–96.	Actual balance as per report.	Union fund balance.	Endowment fund balance.	Debt head balance.	Net balance.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
District Board	38,710	67,737	..	Ferry 1,296 Provident Fund * 5,425	6,966	54,050
Tinnevelly Taluk Board ..	5,395	20,639	3,852	11,149	173	5,465
Tuticorin do.	11,605	30,648	4,677	11,011	1,162	13,798
Sérmádévi do.	17,380	24,448	4,481	12,009	723	7,235

* Excludes Rs. 293 being the bonus forfeited and credited to General Local funds on account of establishment charges.

50. (*iv*) *Endowed Institutions.*—Including Sivagurunadha Pillai's chattram transferred to the Sérmádévi taluk board, the Tirukurungudi Sanscrit school, the dispensary at Sivagiri and the markets of Kadayanallur and Karvalamvandanallur opened during the year, the Ambásamudram bridge lighting fund brought on the list and Tinnevelly water-pandal omitted to be shown in paragraph 48 of the last report and now included, and excluding the Tenkási school which ceased to exist, the funds belonging to it not being realizable and since written off the accounts—*vide* G.O., dated 27th May 1895, No. 944 L., Mis., the total number of endowed institutions was 90 against 84 in the previous year. There were 4 schools, 12 hospitals and dispensaries, 25 chattrams, 44 markets and 5 miscellaneous institutions. Excluding the opening balance of Rs. 47,243, a sum of Rs. 5,500 paid on account of loan and

interest and Rs. 17,932 contributed from general local funds to meet the extra cost of certain institutions, the receipts amounted to Rs. 38,725, the expenditure, Rs. 72,962 and the balance to Rs. 36,438 against a balance of Rs. 47,243 in the preceding year. The balance is only nominal as a large portion of it will be utilized in 1895–96 on incomplete and uncommenced works of the year under report.

51. (*v*) *General remarks.*—As compared with the transactions of the previous year there was a small decrease under receipts and a marked increase under expenditure. It is worthy of mention that medical institutions and schools for special classes of the community are increasing. There was a small decrease under vaccination and education, but the results in the latter were better than in 1893–94. There was a further improvement in the attendance of the non-official members of local boards and panchayats which indicate a greater interest in public affairs on the part of the people.

The Srívilliputtúr Taluk Board President states that Virudupatti union is well on the way to becoming a municipality, and that its financial position is better than that of the Srívilliputtúr municipality recently established.

52. The report of the District Medical and Sanitary officer, the statistics relating to education received from the educational agency and a copy of the District Board's Resolution No. 1, dated 8th July 1895, are enclosed.

Enclosures.

Proceedings of the District Board, Tinnevelly, dated 8th July 1895.

Concise Annual Report on Local Fund Hospitals and Dispensaries in the district of Tinnevelly for the year 1894–95.

Public health.—The general state of public health was not satisfactory during the year under review, as cholera prevailed all over the district throughout the year.

Cholera.—The cholera epidemic which had broken out in the district in November 1893, and which had reached its height in January 1894, was prevailing in a mild form when the official year under review began. In July 1894 only ninety deaths from the disease were reported. In the month of August, it received a fresh impetus at the cattle fair held at Sankaranayinárkóyil soon after the end of the Audi festival, and the number of deaths increased to 624 for the same month and 799 for September, the disease being chiefly confined to Sankaranayinárkóyil and Ottappidáram taluks. It again abated in October and continued to prevail in a mild form chiefly in Tenkási, Ambásamudram, Nángunéri and Sankaranayinárkóyil taluks till the end of the official year. The following statement shows the number of deaths from cholera for the last five years :—

Years.	Total deaths.
1890–91	7,034
1891–92	4,885
1892–93	890
1893–94	5,482
1894–95	4,066

The two reserve hospital assistants as well as the medical subordinates of Sankaranayinárkóyil, Ottappidáram, Ambásamudram, Tenkási, Virakeralampudur and Nángunéri were specially deputed to visit the affected villages and towns, to treat cholera patients and to make the necessary sanitary recommendations. The usual cholera medicines were supplied to the medical subordinates and also to the revenue officials for distribution in the affected localities.

Small-pox.—Small-pox prevailed to slight extent throughout the district. There were only 334 deaths against 759 in the preceding year. The following table shows the number of deaths from small-pox for the last four years :—

Years.	Deaths.
1891–92	3,934
1892–93	1,698
1893–94	759
1894–95	334

Fever.—Fevers prevailed during all the months of the year in all the taluks, Ottappidáram taluk having suffered the most. The total number of deaths for the year was 8,546 against 6,796 during the preceding year. The mortality was highest in the months of December and January.

2. *Vital Statistics—Births.*—The total number of births registered during the year for the whole district including the three municipalties was 56,197 or 29·32 per mille of population against 53,053 or 27·68 per mille in the preceding year, showing a slight increase of 1·64 per mille. Of these total births, 2,148 occurred in the municipal towns against 2,388 in the preceding year, showing a decrease of 240. Of the total births in the district, 29,051 were of the male and 27,146 of the female sex, or in the proportion of 100 of the former to 93·44 of the latter. In the municipal towns 1,078 males were born against 1,070 females.

Deaths.—The number of deaths for the whole district including the three municipal towns was 48,017 or 25·06 per mille of population against 46,927 or 24·49 per mille in the preceding year, showing a very slight increase of ·57 per mille.

3. *Sanitation.*—During the year there were 27 unions and 61 conserved villages in the district. The general sanitary condition of the district cannot be said to be satisfactory. A great deal yet remains to be done towards the improvement of the sanitation of the union towns and conserved villages. In a few large union towns efforts have been made to protect the sources of drinking-water; but in other towns and villages there is no restriction against the people contaminating them by washing themselves, their clothes and their cattle in and near them. In several places all the wells are used indiscriminately for drinking purposes and most of them have no proper platforms and drains to carry away spilt water. The banks of rivers and channels and tank bunds are freely resorted to for calls of nature. It is highly necessary that steps should be taken by the authorities to prevent this wholesale pollution of the drinking water-supply. The conservancy staff is often insufficient and their work is imperfectly supervised. Large streets and lanes are swept well, and the sweepings are removed out of the town limits; but small lanes and alleys are always neglected. Refuse from private houses is allowed to be accumulated for months in back-yards and on private grounds. There is no regular drainage system, and in most towns cess-pools are absent. The refuse water is allowed to soak into the soil of the back-yards, streets, &c. Latrines are provided for females chiefly. Their number is insufficient and their surroundings are very often dirty. Males are allowed to commit nuisances anywhere and everywhere. Very little has been done towards the introduction of the private scavengering system in the union towns. The non-conserved villages are in the most backward sanitary state. Thirty-eight towns and villages were inspected by the District Medical and Sanitary officer during the year.

4. *Vaccination.*—No changes were made during the year in the vaccine establishment which consisted of three deputy inspectors, seven first class, fifteen second class and fifteen probationary vaccinators. The total number of cases vaccinated during the year was 82,626 against 86,477 in the preceding year, showing a decrease of 3,851. Of these, 79,487 or 98·09 were reported successful against 82,537 or 98·11 per cent. in the preceding year, the ratio of successful cases

being very nearly the same. The decrease of 3,851 cases is mainly due to the prohibition of the practice of vaccinating subjects at fairs and festivals. It was found necessary to put a stop to this practice, as it afforded much scope to the vaccinators to return false cases, it being impracticable on the part of the deputy inspectors to verify cases vaccinated on these occasions. The following table gives the number of cases vaccinated for the last three years :—

Year.	Total number vaccinated.	Successful.	Percentage of success.	Under one year.		Total number of cases verified by deputy inspectors.
				Total vaccinated.	Successful.	
1892–93	80,586	78,035	96·83	18,224	17,955	59,436
1893–94	86,477	82,537	98·11	19,895	19,327	74,425
1894–95	82,626	79,487	98·09	17,056	16,743	54,310

Infantile vaccination.—Seventeen thousand and fifty-six children under one year of age were vaccinated during the year with a success of 16,743 or 98·16 per cent., against 19,895 with 19,327 or 97·14 per cent. successful cases in the preceding year, showing a large decrease of 2,839 cases, namely, 754 in the Tinnevelly, 80 in the Sérmádévi and 2,005 in the Sáttúr range The last-mentioned range is responsible for nearly three-fourths of the total decrease. The percentage of infants vaccinated to total births was only 31·55 against 39·26 in the preceding year and against 35 per cent. in 1892–93—an unsatisfactory feature in the vaccine work of the district for the year under review.

Revaccination.—The total number of cases revaccinated during the year was 8,351, of which 7,444 or 89·13 per cent. were successful against 8,476 with 7,528 or 88·81 per cent. successful cases in the preceding year, showing a slight decrease of 125 cases.

Verification.—The three deputy inspectors verified 54,310 cases or 60·23 per cent. of the total number of cases vaccinated during the year, against 74,425 or 86·96 per cent. in the preceding year, thus showing a decrease of 20,115 cases or 25·83. The percentage of cases verified by each deputy inspector is as follows :—

Tinnevelly deputy inspector 49·44 against 83·03 in the preceding year.
Sérmádévi " 76·21 " 83·15 " "
Sáttúr Deputy Inspector 76·48 against 91·53 in the preceding year.

It was observed by the District Medical and Sanitary officer during his inspections of vaccination work that certain deputy inspectors were in the habit of showing as verified cases which were not actually verified by them, and thus falsifying their registers. This irregularity was brought to the notice of the authorities concerned; and since then the deputy inspectors have bestowed greater care and attention on their verification work; hence the decrease in the number of cases verified during the year.

Dispensary vaccination.—The total number of cases vaccinated by the medical subordinates in charge of local fund and aided hospitals and dispensaries during the year was 2,056 against 1,985 in the preceding year, showing a very slight increase of 71 cases. Of these, 1,620 or 78·79 per cent. proved successful. The percentage of success is rather low, and is attributable to the deterioration of animal lymph during transit. The total number of children vaccinated under one year of age was 291, with a success of 231 against 294 with success of 251 cases in the preceding year.

5. *Hospitals and Dispensaries.*—The number of hospitals and dispensaries entirely supported or aided by the several taluk boards was 26 against 24 in the preceding year, one new dispensary having been opened at Sivagiri and another (for females) at Mélaviraraghavapuram in September last. Of these, four are under the Srívilliputtúr, eight under the Sérmádevi, nine under the Tuticorin and four under the Tinnevelly taluk boards and one under the district board, Tinnevelly; eight local fund hospitals and three local fund aided dispensaries, as per margin, have accommodation for in-patients.

1. Srívilliputtúr.
2. Sáttúr.
3. Virudapatti.
4. Sankaranainárkóyil.
5. Ambásamudram.
6. Nángunéri.
7. Srívaikuntam.
8. Ottappidáram.
9. Nazareth.
10. Meynánapuram.
11. Sawyerpuram.

(*a*) *Nature and sufficiency of accommodation.*—Of the eighteen local fund hospitals and dispensaries fourteen are located in buildings specially built for the purpose and the rest in rented buildings. All of these have more or less sufficient accommodation, with the exception of the Tenkási and Mélaviraraghavapuram dispensaries, which badly want buildings specially built for them, the former accommodation for in-patients.

(*b*) *State of repair of buildings.*—All the local fund hospital and dispensary buildings have been kept in a fair state of repairs.

(*c*) *State of repair of furniture.*—The furniture belonging to all the hospitals and dispensaries was in a good state of repairs.

(*d*) *Number of patients treated as compared with previous years.*—The total number of in and out patients treated in all the local fund and aided hospitals and dispensaries during the year was 200,882 against 184,237 in the preceding year, showing an increase of 16,645. Of the total number treated, 901 were in-patients against 1,188 in the preceding year, showing a decrease of 287. Srívilliputtúr, Vírakeralampudur, Náñgunéri, Tiruchendúr and Nágalápuram dispensaries show an increased attendance of 10,159, 1,424, 1,075, 832 and 2,527, respectively; while Tenkási, Rádhápuram, Christianagaram and Sérmádévi show a decrease of 704, 1,896, 1,801 and 907, respectively. The increase is attributable to the opening of two new dispensaries and also to the prevalence of fevers and cholera during the year. The large decrease in Rádhápuram and Christianagaram dispensaries is due to their not working for several weeks owing to the resignation of their late incumbents. The highest number treated in any one hospital was 23,023 at Srívilliputtúr. The Mission hospital at Nazareth and the Rádhápuram and Nágalápuram Mission dispensaries are mainly responsible for the decrease in the number of in-patients. In the first-mentioned institution, 73 in-patients were treated against 191 in the preceding year, showing a decrease of 118 cases, while no in-patients were admitted during the year in the other two dispensaries, where 123 and 17 in-patients, respectively, were treated in the past year. The subjoined table gives the number of attendance in all the local fund and aided hospitals and dispensaries for the last four years :—

——	1891–92.	1892–93.	1893–94.	1894–95.
In	968	896	1,188	901
Out	147,282	161,311	183,049	199,981
Total ..	148,250	162,207	184,237	200,882

The average daily attendance for the year was 1,481·16 against 1,386·72 in the preceding year, showing an increase of 94·44. The following table shows the average daily attendance for the last four years :—

Years.	Average attendance.
1891–92	1,195·57
1892–93	1,221·34
1893–94	1,386·72
1894–95	1,481·16

(*e*) *Mortality and actual causes of it.*—Of 901 in-patients treated during the year, 62 or 6·88 per cent. died against 5·13 in the preceding year. The actual causes of mortality were diarrhœa dysentery, fevers, injuries, heart disease, bronchitis and cholera.

(*f*) *Operations and results.*—Ninety major and 5,320 minor operations were performed during the year against 82 major and 4,400 minor in the preceding year, showing an increase of eight major and 920 minor operations. The highest number of major operations (20) was performed at Ambásamudram, Sáttúr standing next to it. Of 90 major operations, 78 were cured, 5 died and the rest were discharged otherwise. The statement given below shows the number of major and minor operations performed during the last five years :—

Years.	Major operations.	Minor operations.	Total.
1890–91	86	3,785	3,871
1891–92	92	4,302	4,394
1892–93	104	4,719	4,823
1893–94	82	4,400	4,482
1894–95	90	5,320	5,410

(*g*) *Establishment whether sufficient and efficient.*—The establishments of the several local fund hospitals and dispensaries were sufficient and efficient.

(*h*) *Midwives' work actually done.*—Midwives were attached to ten hospitals and dispensaries. Of these, two were diplomated and the rest locally trained. The midwives at Mélaviraraghavapuram and Sérmádévi were entertained during the year. The total number of cases attended by them during the year was 520 or 52 per head against 431 or 54 per head in the preceding year. The highest number (112) was attended by the midwife at Virudupatti. The work turned out by the midwives at Mélaviraraghavapuram and Nángunéri was very unsatisfactory. The former attended only ten cases during the last eight months of the year and the latter 32 cases during the whole year. The following statement gives the number of cases attended by each midwife with results :—

Dispensary to which attached.	Total cases attended.	Natural labour.	Difficult labour.	Recovered.	Died.
Virudupatti	112	112	..	112	..
Tenkási	82	70	12	80	2
Srívilliputtúr	61	31	30	57	4
Srivaikuntam	54	52	2	54	..
Ambásamudram	52	47	5	51	1
Sankaranayinárkóyil	51	51	..	51	..
Sáttúr	44	39	5	44	..

Sérmadévi	22	19	3	20	2
Melaviraraghavapuram	10	3	7	9	1
Total ..	520	454	66	509	11

(*i*) A female dispensary was opened at Mélaviraraghavapuram on the 15th September last. One thousand one hundred and twenty-seven patients were treated up to the end of the year under review, the daily average attendance being 18·67.

Palamcottah,
1st June 1895.

(Signed) K. C. SANJANA, Surgeon-Major,
Dt. Medl. and Sanitary Officer, Tinnevelly.

From the same officer, dated 29th July 1895, District Board Reference K. on Current No. 511 of 1895.

Order—dated 16th September 1895, No. 1707 L., Local and Municipal.

The local fund receipts and charges of the Tinnevelly District for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

2. *Local Boards and Union Panchayats.*—Twelve meetings were held by the district board against thirteen in 1893–94. The attendance of the members improved, and was fair in the case of the officials and good in that of the non-officials. The taluk boards met a sufficient number of times, and the average attendance of their members, except of the officials on the Tinnevelly and Srívilliputtúr boards, was, on the whole, good. The irregular attendance of the official members of the latter board has been noticed by Government in the reviews of the past three years, but

still continues. The attention of the President will be drawn to paragraph 2 of the last of these reviews, and he will be requested to see that there is an improvement in this respect in the current year. Of the twenty-seven unions which were in existence at the commencement of the year, that at Srívilliputtúr was converted into a municipality from 1st October 1894. The panchayats of the remaining unions met on an average fifteen times as in the previous year, and the average attendance of the members was 6·7 against 6·9. The ward system of supervision, which was adopted in twenty unions, is reported to have worked fairly well. The private scavenging system was introduced into two of the unions under the Tinnevelly taluk board. The working of the local boards and union panchayats appears to have been, on the whole, satisfactory.

3. *Receipts.*—(1) The collections under land-cess amounted to 92 per cent. of the demand against 89 per cent. in 1893–94.

(2) There were twenty-seven toll-gates as in the previous year and it is satisfactory that almost the whole of the demand under this head was realized within the year.

(3) House-tax was collected in all the unions except Kayattár and was levied at the maximum rates. The collections amounted to 86 per cent. of the demand against 87 in the previous year. In sixteen unions they were good and in six others fair, but in the remaining three they were unsatisfactory, especially in Káyalpatnam, where only 49 per cent. of the demand was realized within the year. Nearly three-fourths of the total number of processes were issued in the Sivakási union. Property was distrained in 164 cases and sold in twenty-nine, the corresponding figures for the previous year being 267 and forty.

(4) Three additional markets were opened during the year and the fee system was introduced in two of these, and revived in another of the existing markets. There were thus twenty-nine markets in which fees were levied against twenty-six in 1893–94, but owing to want of competition at the sales of the farms the income derived from them fell from Rs. 4,348 to Rs. 3,976. The expenditure on public works connected with these institutions rose from Rs. 2,838 to Rs. 6,229, and the balance to their credit at the end of the year was thus reduced from Rs. 15,741 to Rs. 11,754. This figure is still high, but it is proposed to utilize the greater portion of the amount in the current year.

(5) There was a small increase of Rs. 792 in the income from avenues, which is ascribed to careful management.

4. *Expenditure*—(1) *Public Works.*—There was a slight improvement in the percentage of expenditure to the allotment under this head, which rose from 66 to 73, but it was still very indifferent. The explanations offered for this in the last column of Statement III and in paragraph 24 of the President's report are in many cases very similar to those given last year and are generally unsatisfactory. The attention of the local boards will be called to the instructions upon the point in paragraph 4 (1) of the last annual review, that works for which estimates are not ready and for the execution of which arrangements have not been made should generally be excluded from the budgets, and a decided improvement in this respect will be looked for in the current year. Village roads received less attention, the outlay upon them being only 4·7 per cent. of the total expenditure on communications against 5·2 per cent. in the previous year. The condition of the roads is again reported to have been poor generally and in parts bad. The Government trusts that the district board's expectations that increased grants and greater energy on the part of the engineer will lead to an improvement may be realized. This is not the first time, however, that the engineer's work has been animadverted upon; and as remarked in paragraph 2 of G.O., dated 9th February 1895, No. 261 L., if he does not do better, he should be replaced by a more competent officer. The cost of the local fund engineering establishment continued to be 19 per cent. of the outlay on works incurred by that agency.

(2) *Education.*—As in the previous year, there were thirteen inspecting schoolmasters, and their work is reported to have been, on the whole, fair. In the

training school at Mélavírarághavapuram maintained by the district board there were thirty-nine students. Of these, twenty-seven were in the primary classes and twenty-six of them appeared for, and twenty-three passed, the examination. Fifty-six students were trained in the three sessional schools, and of these fifty-three were presented for examination and forty-four passed. It is observed that the reduction made in grants paid to untrained teachers is still only 5 per cent. The President will be requested to report whether any sufficient reason exists why the instructions in the concluding sentence of paragraph 4 (2) of G.O., dated 17th September 1894, No. 1834 L., should not be followed. Including the newly-opened school at Tirukurangudi, which was attended by twelve pupils, the taluk boards maintained two Sanskrit secondary schools. The other school at Alvartirunagari had thirty-two pupils on the last day of the year. The taluk boards maintained sixty-two primary schools with 2,671 pupils against sixty with 2,629 pupils in 1893–94. These schools are reported to have worked well, 84 per cent. of the pupils presented for examination having passed against 80 per cent. in that year. Two new schools for Panchamas were opened. There was a decline, as shown in the margin, in the number of schools aided from local funds, which is explained in paragraph 35 of the President's report. In consequence of this, the total number of boys under instruction in the board and aided schools was 18·9 per cent. of the male population of school-going age against 20·4 in 1893–94, the average for the Presidency in that year being 13·4.

	Schools.	Pupils.
1893–94	848	25,569
1894–95	768	25,458

(3) *Medical Relief.*—Including two dispensaries newly opened during the year—one at Sivagiri and the other at Mélavírarághavapuram for females, the latter of which was placed in charge of a female apothecary trained by the Countess of Dufferin Fund Committee on behalf of the district board—eight hospitals and ten dispensaries were maintained by the local boards against eight of each class in 1893–94. There was again a satisfactory increase in the number of patients treated at them. The taluk boards also aided eight dispensaries, of which seven were managed by mission agency and one by a private practitioner. The total number of patients under treatment in these fell from 57,747 to 55,748. A contribution of Rs. 450 was paid by the district board to the Countess of Dufferin Fund for the training of a female medical pupil. Ten midwives were employed by the taluk boards against eight in the preceding year and they attended in all 520 cases of labour or on an average four each per mensem against 441 or an average of five each. This is again unsatisfactory and steps should be taken to obtain better results in the current year.

1893–94	126,490
1894–95	145,134

(4) *Vaccination.*—It is to be regretted that although the executive authorities of the district are stated to have taken special interest in the progress of vaccination, there was a decline in the work of the department. The total number of successful operations and of those on children under one year of age were, respectively, 43·8 and 9·1 per mille of the population against 45·4 and 10·5 in 1893–94, the decrease being attributed to the unsatisfactory work turned out in the Sáttúr range. The result of the inquiry which is being held into the neglect of the deputy inspector and the vaccinators of that range should be reported to Government.

(5) *Sanitation.*—It is unsatisfactory that the percentage of expenditure to the allotment under this head fell from 95 to 89, short outlay occurring under all heads. The instructions in paragraph 4 (5) of the last annual review do not appear to have been followed. Taluk board presidents should immediately upon the receipt of this order call for suggestions for the sanitary improvement of their unions from all chairmen, and proposals which appear worthy of execution after scrutiny and comparison with the recommendations of inspecting officers should, as soon as estimates for them have been framed, be entered in the budget for the ensuing year. The improvement of water-supply should continue to be given the first place. One hundred and twenty-six villages were improved against 148 in 1893–94; conservancy establishments were maintained in twenty-seven unions and sixty-one other villages against twenty-seven and sixty, respectively, and twenty-eight watchmen were employed to guard sources

of drinking-water supply against sixteen in that year. The Government trusts that the conservancy establishments and watchmen in non-union villages are properly supervised. Unless it is carefully controlled, their work is frequently useless; the money allotted for their salaries being better expended in improvements of a permanent nature to local sources of water-supply. The itinerating conservancy staff employed by the Srívilliputtúr taluk board appears to have done good work. The District Medical and Sanitary Officer visited thirty-eight towns and villages. With regard to the increase in the lighting charges referred to in paragraph 47 of the President's report, the attention of all local boards will be called to paragraph 41 of the last General Local Fund Review.

5. *General Remarks.*—The year closed with a balance of Rs. 1,61,337. Of this Rs. 18,172 appertained to unions, Rs. 36,275 to endowed institutions and Rs. 15,846 to debt heads and special items, leaving Rs. 91,044, or 26 per cent. of the receipts, available for general purposes. The greater portion of this sum has been allotted for expenditure in the current year's budget. The deficits with which the transactions of the union panchayats of Sankaranayinárkóyil and Srívaikuntam closed the year should have been made good by additional allotments from the taluk funds, and the expenditure incurred on lighting in the Puliyángudi and Kalladakurchi unions should have also been met by contributions from the taluk funds as required by section 142 of the Local Boards Act.

Except as regards public works, vaccination and sanitation, the board's administration was fair.

also been met by contributions from the Taluk funds as required by section 142 of the Local Boards Act.

Except as regards public works, vaccination and sanitation the administration of boards' affairs was fair.

V.R. 19/8/95

W.C. 21.8.95

To

The President, District Board, Tinnevelly.
" Collector of Tinnevelly.
" Chairmen, Munl. Councils in the Tinnevelly Dt.
" Acc.t H. Genl.
" Director of Pub: Instn.
" Surgeon-Genl.
" Sanitary Commr.
" " Engineer
" Public Works Dept.

With regard to the increase in the lighting charges referred to in para 47. of the President's report, the attention of all local boards will be called to para 4(5) of the last General Local Fund Review.

Fill up. I mean the para telling them to lost one lights until there are less bad smells.

~~have been on the whole fair, though there is still much room for improvement~~

5/ General Remarks - The year closed with a balance of Rs. 1,61,337 - of this ~~sum, however~~, Rs 18,172 a - pertained to Unions, Rs 36 ~~275~~ 458 to En - dowed institutions and Rs. 15,846 to debt heads and special items, leaving Rs ~~91024~~ 90884 or 26 per cent of the receipts available for general pur - poses - The greater portion of this has been allotted for expenditure sum ~~should be spent for the Local~~ Budget ~~of the rati-payas~~ in the current year. The deficits with which the transac - tions of the Union panchayats of Sankaranayinárkoyil and Sri - vaikuntam closed the year, should have been made good by addition allotments from the Taluk fund and the expenditure incurred o lighting in the Puliyángudi and Kalladakurichi Unions should have

(5) Sanitation. It is unsatisfactory ~~to note~~ that the percentage of ex - penditure to the allotment under this head fell from 95 to 89, ~~the de -~~ Short outlay occurring under all heads. ~~The number of~~ One hundred & seventy-six villages ~~in which~~ Village - Sittalis were improved ~~and privies~~ - pear was ~~increased, was 170~~ 126 against 148 in 1893-94; ~~but~~ Conser - vancy establishments were main - tained in ~~27~~ twenty seven Unions and ~~60~~ sixty one other vil - lages against ~~27~~ twenty seven and ~~60~~ sixty respectively and ~~28~~ twenty eight watchmen were employed to guard ~~the~~ sources of drinking water supply against ~~16~~ sixteen in that year. The itinerating conservancy staff employed by the Srivilliputtur Taluk Board appears to have done good work - The District Medical & Sanitary Officer visits ~~eight~~ twenty eight towns and villages ~~and the Sani - tary Condition of the Unions & villages generally~~ is reported to have

The instructions in para 4 (5) of the last annual review do not appear to have been followed. Taluk Board Presidents should immediately upon the receipt of this order call for suggestions for the sanitary improvement of their Unions from all their Chairmen, & such of these as appear worthy of execution after scrutiny & comparison with the recommendations of inspecting officers should be entered in the budget for the ensuing year, as soon as estimates for them have been framed.

The improvement of water supply should continue to be given the first place.

The considerable balance in favour of the Unions should be spent for their sanitary needs, the improvement of water-supply being given the first place.

previous year and it is satisfac

average four each per mensem against
441 or an average of five each. This is
again not satisfactory and steps should be
taken to obtain better results in the
current year.

(4) Vaccination. It is to be re-
gretted that there was a decline
in the work of the department.
although the Revenue authorities are
stated to have taken special interest
in the progress of vaccination. The
total number of successful operations
and of those on children under one
year of age were respectively 43.2 per mille
and 9.1 per mille of the population
against 45.4 and 10.5 in 1893-94, the de-
crease being attributed to the un-
satisfactory work turned out in the
Saltin range. The result of the in-
quiry, which is being held at the
instance of the Deputy Inspector,
the vaccinators of that range will
be reported to Govt.

— the latter of
for females which was placed in
charge of a female apothecary
trained by the District Board, (the Countess of Dufferin Fund Committee on behalf of
were eight hospitals and ten dis-
pensaries maintained by the Local
Boards against eight of each class
in 1893-94. There was again a satisfactory
increase in the number of patients
treated at them. The
Taluk Boards also aided eight dis
pensaries, of which seven were ma-
naged by mission agency and one
by a private practitioner, and the
total number of patients treated in
these fell from 57,747 to 55,748. A
contribution of Rs. 450 was paid by
the District Board to the Countess
of Dufferin Fund for the training
of a female medical pupil. Ten
midwives were employed by the
Taluk Boards against eight in the
preceding year and they attended in
all 520 cases of labour or on an
average

1893-94 126490
1894-95 145134

previous year and it is satisfac

maintained ~~62~~ sixty-two primary schools with ~~2670~~ pupils against ~~60~~ sixty with ~~2629~~ pupils in 1893-94. These schools are reported to have worked well, ~~84~~ 84 per cent of the pupils presented for examination having passed against 80 per cent in that year. There was a decline, as shown in the margin, in the number of schools aided from Local funds, which is explained in para 35 of the President's report. In consequence of this, the total number of boys under instruction in the Board and aided schools was 18.9 per cent of the male population of school going age against 21 in 1893-94, the average for the Presidency in that year being 13.4.

Two new schools for Panchamas were opened

	Schools	Pupils
1893-94	848	25,569
1894-95	768	25,458

(3) Medical Relief - Including two dispensaries newly opened during the year - one at Sivagiri the other at Mélavirarághavapuram for

per cent of the outlay on works incurred by that agency.

(2) Education. As in the previous year, there were thirteen Inspecting Schoolmasters, and their ~~which showed~~ work ~~an improvement~~ is reported to have been on the whole fair. In the ~~normal~~ training school at Mélaviriar ághavapuram maintained by the District Board there were ~~39~~ thirty-nine students, ~~were trained, and out of~~ Of these, twenty seven were ~~27~~ classes and twenty six of them in the primary ~~grade~~, ~~26~~ appeared for and ~~23~~ twenty-three passed the examination. Fifty six students were trained in the three Sessional schools, and of these ~~53~~ fifty-three were presented for examination and ~~44~~ forty four passed including the newly opened school at Tirukkuranguḍi, which was attended by twelve pupils, the Taluk Boards maintained two Sanskrit Secondary schools. The other school at Azhvartirunagari had 32 thirty-two pupils on the last day of the year - The Taluk Boards maintained

It is observed that the reduction made in grants paid to untrained teachers is still only 5 per cent. The Govt. will be requested to report whether reasons exist for the instructions in the concluding sentence of para 4 (2) of G.O. dated 7th Sept. 1894. No. 1832-2. cannot be followed.

Office I know this is the correct transliteration, but it is unpronounceable in English, & "l" is much nearer the vernacular sound than "zh".

previous year and it is satisfactory

to the allotment under this head, this rose from 66 to 73, but it was still far very indifferent. below the mark. The explanations offered for this in the last column of Statement III are in many cases very similar to the same as those given last year and are generally unsatisfactory. It is thus evident that the remarks of Govt. on this subject in the last year's review have received no attention from the Local Boards concerned. The Govt. trusts that this will be a decided improvement in this respect in the current year will be looked for

and in para 24. of the President's report

Village roads received less attention this outlay being only 4·7 per cent of the total expenditure on communications against 5·2 per cent in the previous year. The general condition of the roads is reported to have been generally poor and in parts bad. The cost of the Local Fund Engineering establishment continued to be 6 per cent

The attention of the Local Boards will be called to the instructions issued upon the point in para 4(i) of the last annual review, and that works for which estimates are not ready & for the execution of which arrangements have not been made should generally be excluded from entrusted to the Budgets, and

The Govt. trusts that the District Boards expectations that increased grants & greater energy on the part of the Engineer will lead to an improvement may be fulfilled. realized.

two of these and revived in another of existing ones.

the ~~22 markets~~ There were thus 29 twenty-nine markets in which fees were levied against 26 in 1893-94, twenty-six but owing to want of competition at the sales of the farms the income derived from them again fell ~~a decline in the market rents from~~ Rs. 4,348 to Rs. 3,976 The expenditure on public works connected with these institutions rose from Rs. 2838 to Rs. 6,229, and the balance to their credit at the end of the year thus is reduced from Rs. 15741 to Rs. 54. The figure is still high, but it is ~~It is, however,~~ proposed to utilize the greater portion of this amount in the current year.

There was a small increase of 792 in the income from avenues, which is ascribed to careful management, but the arrear still seems small when compared in proportion to the number of trees existing at the road-sides. The Board will be requested to report whether

Expenditure (1) Public Works

There was a slight improvement in the percentage of expenditure

previous year and

realized within the year.

(3) House-tax was ~~levied~~ collected at the maximum rates ~~in 25 Unions, the exception being the one at Kayalpatnam, and~~ in all the Unions except Kayattar and was levied The collections ~~under the head~~ amounted to 86 per cent of the demand against 87 in the previous year. In sixteen ~~of the~~ Unions they ~~collections~~ were good and in six others fair, ~~while~~ but in the remaining three they were unsatisfactory especially in Kayalpatnam, where only 49 per cent of the demand was realized within the year. Nearly three-fourths of the total number of processes were issued in the Sivakasi Union. Property was distrained in 164 cases and sold in ~~29~~ twenty-nine the corresponding figures for the previous year being 267 and 47.

(4) Three additional markets were opened during the year

per cent

was converted into a municipality from 1st October 1894. The panchayats of the remaining Unions met on an average fifteen times in the previous year and the average attendance of the members was 6.7 against 6.9. The ward system of supervision, which was adopted in twenty unions is reported to have worked fairly well, and the private scavenging system, was introduced into two of the Unions under the Tinnevelly Taluk Board. The working of the local boards and union panchayats appears to have been on the whole satisfactory.

3/ Receipts. (1) The collections under land-cess amounted to 92 per cent of the demand against 89 in 1893-94

(2) There were ~~27~~ twenty seven toll gates as in the previous year and it is satisfac-

2D

2/ Local Boards and Union Panchayats

Twelve meetings were held by the District Board against thirteen in 1893-94, but the attendance of the members improved, and was fair in the case of the officials and good in that of the non officials. The Taluk Boards held a sufficient number of meetings, and the average attendance of their members, except that of the officials on the Tinnevelly and Srivilliputtur boards, was on the whole good. The irregular attendance of the official members of the latter Board has been noticed by [illegible] in the reviews of the past three years, but still continues. The attention of the President will be drawn to para 2 of the Resolution, and he will be requested to see that there is an improvement in this respect in the current year. Of the twenty-seven Unions which were in existence at the commencement of the year, that at Srivilliputtur [illegible] per cent

	Unaided and Indigenous	741 2	31	12	134	564 2	
	Total	2526	276	121	800	929	

The number of unpassed teachers in the year was lowby 75 while that of teachers holding General Education Certificates was more by 90.

Forty two teachers of the Second Grade Normal School got trained in the year

128 of the Primary teachers of the Second Grade

The Budget provision of Rs 2800 was utilized for 15 Hours

Secondary and 30 Primary teachers for 12 months, but only 12 teachers were available for the Senior Secondary classes during 29 days for the January class

remained throughout the term and so only Rs 2180 of the provision was utilized.

Note.—1. *In the column of remarks it should be noted whether the provision made in the b* — *training teachers during the year under report had been carried out.*

2. *No comments should be made except as notes entered in the column of remarks.*

3. *This statement should be submitted in time to reach the Presidents of Local Boa* — *the Chairman of Municipal Councils concerned before the 1st May.*

(a) The increase represents the Sandhurst school as Timbuctoo, which was opened as a Provincial school in the year.
(b) The decrease in Secondary Schools is due to the C. Prize Winners at Timbuctoo, who left Timaculla to attend the Sandhurst school.
(c) The decrease in Aided Schools arises from the Sandhurst school having been opened as a Provincial school.
(d) The increase in Unaided Schools arises from the Sandhurst school having been opened as a Provincial school.
(e) The difference in Aided and Unaided Schools arises from the transference of Schools from the Unaided to the Aided Section.

Effect of Secondary Schools on Primary Schools:
Timaculla: Primary 83 — Secondary 5
Timaculla: (Scholarships) Primary 83 — Secondary 5
Sandhurst: Primary 83 — Secondary 5

Grant Secondary Schools: Timaculla, Sandhurst

Note.—1. *Where an institution is aided from Prial or Local (or Municipal) Funds, it should be shown a… nicipal) according as it has received a larger grant from Provincial or Local (or Municipal) Funds.*
2. *No comments should be made except as entered in the column of remarks.*
3. *This statement should be submitted in to reach the Presidents of Local Boards or the C… before the 1st May.*
