FURTHER PAPER, No.

OF 189

1895.  
LOCAL AND MUNICIPAL  
DEPARTMENT.

FROM

THE CHAIRMAN,  
MUNICIPAL COUNCIL,  
MADURA.

No.

ENCLOSURE. *nil.*

Dated } 19 September 1895.  
Received } 21 SEP 95.

No. 63.

SUBJECT.

*Submitting report on the  
disposal of night soil and  
rubbish.*

*N. disp. order No. 17/10/95  
misc  
Recorded in the file*

*V.D.  
2/10/95*

*W. W. W.*

*Copy to the Sanitary Commission  
Apt. 2/10/95*

least liable to objection both on account of  
Sanitary grounds and on account of long dis-  
tance from the outskirts of the town is a  
difficult task.

7. If the depot is far away from the town,  
the work of transport will more or less suffer  
or necessitate the employment of additional  
carts which the Municipality can ill-  
afford in its present state of finances.

8. The suggestion of the Sanitary Commission  
to cover the rubbish in the Depot daily  
with earth is hardly possible of execution  
considering the cost and labor it will involve

I have the honor to be,  
Sir,

Your most obedient servant,

Chairman  
Delegate.

Wm. A. C.

3. The rubbish collected in the town  
is now being promptly removed to the depot  
selected for the purpose, thrown in heaps at first  
and then spread out as often as necessary.  
The Contractor to whom it has been leased  
sells the same by cart loads for purposes  
of manure or disposes of it in such other  
manner as he thinks fit.

4. The nightsoil is similarly removed  
in air tight iron carts to the appointed  
depot where it is deposited in trenches of  
 $36 \times 1\frac{1}{2} \times 1\frac{1}{2}$  feet dug for the purpose and  
covered with a layer of dry earth. As soon  
as a trench is filled up, another ready for  
the purpose is used. The contents of these trenches  
are emptied by the Contractor after lapse of  
some time to whom the same has been leased  
out for the first time this year.

5. The question of constructing a light tram-  
way and generators has been deferred for the  
present until the completion of the drainage  
works which seem to be more important  
from a Sanitary point of view than either of  
these 2 works.

6. It is in contemplation to remove the  
night soil depot to some other unobjectionable  
locality as soon as a convenient site is avail-  
able but the selection of a piece of ground -  
least

63

1891  
From,  
Messrs. J. L. Pelletier, Daniel Pelletier  
Chairman, Delégue  
Municipal Council

To The Chief Secretary, Government,  
Fort St. George.

Referring to G.O. No. 1453 in this dated 16<sup>th</sup> March 1895. I have the honor to report that in view to expedite the collection and transport of rubbish and night soil, the manual staff of sweepers has been strengthened by the enlistment of 10 additional hands and the number of rubbish and night soil carts has also been increased.

2. Another cause for the defect noticed has since been traced and the defect itself remedied by the enhancement of wages to the Rubbish Cart Contractors with the result that good and strong bullocks are being now supplied. The action taken in this direction has been reported to Government in this office letter no. 27 dated 11<sup>th</sup> April 1895.
