2. Local Boards and Panchayats. Twelve meetings were held by the District Board against thirteen in the previous year, and the average attendance of both classes of members declined and was in different th below the mark. The explanations of the Executive Engineer and the Educational officers for having been absent from all the meetings of the Board should be obtained and submitted to Government. The Taluk Boards held a sufficient number of times meetings, and the attendance of their members, except the officials on the Chingleput Board was on the whole good. There were fifteen union Panchayats at work as in 1893:94, and they met on an average fifteen times against fourteen, the average attendance being five out of eight, as in the preceding three years. The ward system of supervision which was in force in six unions in 1893:94 was extended to seven others during the year under review, and it is stated to have worked satisfactorily. The attempt to introduce the private scavenging system in Saidapet failed but

The official members of the Semiriam Panchayat should be informed that the Government expects them to be more regularly present at the meetings in future.

but it was adopted with some success in Chingleput. ~~Efforts should be made to introduce this system into some more of the larger unions in the District.~~ The working of the Taluk Boards and Panchayats is reported to have been on the whole satisfactory.

3. Receipts.— (1) The collections under land-cess amounted to 97 per cent. of the demand against 94 in 1893:94, though there was a decrease of Rs. 23,961 under this head, due to the smaller amount of arrears outstanding at the beginning of the year.

(2) There was also a decrease (Rs. 1,580) in the current demand under tolls, which is ascribed to want of competition at the sale of one of the farms. It is satisfactory to note that the whole of the demand was realised within the year.

(3) House tax was levied in all the fifteen unions against fourteen in 1893:94 and the collections under this head were very satisfactory, amounting to Rs. 15,299 or 99 per cent. of the demand against Rs. 14,585 or 98 per cent. The number of assessments issued was 317, but property was sold in only forty cases for Rs. 344.

(4) As in the previous year, there were only two markets under the control of the Taluk Boards in the district. Fees were levied in one of these, but the collections were only Rs. 14. It is reported that all endeavours to make them more popular have been in vain. The results of the improvement of the Uttramerur market should be noted in the next administration report.

(1) Owing to the existence of fever in arrears the land cess demand fell to Rs. 176031 against Rs. 207327 in 1893-94. The Collections amounted to 97 per cent. of this, against 94.

(4) As in the previous year, there were only two markets under the control of the Taluk Boards in the district.

This system should be extended as much as possible.

(5) The receipts from avenues amounted to Rs. 2,053 against Rs. 1,501 in the previous year, and the planting operations continued to receive attention. Under the head "Miscellaneous" with reference to circumstances stated in para. 22 of the President's report, it is observed that the Government will object to the remarks in para 317 of last year's review intended as a suggestion rather than an instruction.

4. Expenditure.— (1) Public Works.— The expenditure under this head amounted to Rs. 136616 or 98 per cent. of the allotment Rs. 98894 or 101 per cent in the previous year. Satisfactory. Village roads received

attention, the expenditure on them being Rs. 5,177 or 4·1 per cent. of the total outlay on roads against Rs. 2,486 or 2·6 per cent. in 1893:94. The roads in the district with the exception of some which were worn out by heavy traffic are stated to have been maintained in fair order. The cost of the Local Fund Engineering establishment was only fourteen per cent. of the outlay on works against nineteen in the previous year, a decrease being due chiefly to the larger outlay on works executed by that agency in the year under report.

(2) Education.—The work done by the six visiting Schoolmasters compared on the whole unfavourably with that of the previous year. The District Board maintained one Normal School, which worked at three different centres in succession. In this forty-nine students were trained, of whom sixty passed in it and for and sixteen received certificates the Primary Examination. Taluk Boards maintained sixty-three primary

appear to have received careful attention during the year, and

and are shortly to be specially repaired

Owing to larger expenditure by that Department, the

It is hoped that the attendance will be higher in the current year.

The Govt. is glad to note that ten

were well attended

Fifty-nine six of these were also maintained exclusively for panchamas & musalmans respectively.

twenty-seven
schools with 1,226 pupils in the previous year, and 78 per cent. of the pupils sent up from them for the standard examinations passed against 79 per cent. Ten of these schools were intended exclusively for Panchamas against five in 1893:94 and that five were again maintained for Muhammadans, as on that year. Results grant at the maximum rates were paid to 476 schools attended on the 31st Mar. 1895 by 12,960 pupils, the corresponding figures for the previous year being 436 and 12,184; but Only 84 per cent. of the allotment under this head was spent, the short outlay being explained in para. 31 of the President's report. It is however No explanation has been offered for the failure to disburse observed that more than ten per cent. of the grant earned were not disbursed within the year and no explanation has been offered for this. This is unsatisfactory and such lapses should be guarded against in future. From Statements I-B and IX appear

attention, the expenditure on them being ma

Rs. departments of schools in the Chingleput

ro- taluk. Explanation should be furnished

189 for the short fall of this expenditure was debited

ex- to Local funds in contravention of the

provisions of Art. 5 (ii.) Chapter I of the Grant-in-aid

Code. The total number of boys under

instruction in all the schools maintained

and aided by the local boards was 13,587

or about 15·6 per cent. of the male popu-

-lation of school-going age.

(3) Medical Relief. Three hospitals and

eleven dispensaries were maintained by

the Local Boards against two and twelve

cu- respectively in the previous year. The

-cr- total number of patients treated at

of- these institutions fell from 106,115 to

not- being divided among

-ised 97,784, the decrease appearing in nine

-tham. Ten midwives worked in the

(3) district throughout the year and another

-been for part of it from the middle against nine

and the 93:94, but they attended in all only

very sa- 566 cases

+ 99 pe-

+ Excluding the midwife who joined the District in Feb. 1895 but did not attend any case of labour

Col. It is observed that the matter is being kept in view.

Every endeavour should be made to ... care better results in the current year. ... want of funds, the proposal to employ a female apothecary in the Chingleput ... pital had to be abandoned for the time being three pupils were under midwifery training at the cost of the local boards.

(4) Vaccination. There was a decline ... the number of persons vaccinated reported by the Local Fund vaccinators and ... subordinates and in the quality of the work turned out, the total number of successful cases operations per mille of the populati... having fallen from 41 to 36, and this ret... -gression has not been satisfactorily ... -plained. Infantile vaccination ha... showed a slight improvement, the number of infants protected successful operations per on children under one year of age ...

after ... upper ma...

Taluk ... Registration

roa... the year. ~~The necessary steps~~ should be

taken, especially by the District Medical

and Sanitary Officer, to produce better

results in the current year.

(5) Sanitation. The expenditure under

this head rose from Rs. 18,732 to Rs. 20,275

and bore a satisfactory proportion to the

allotments, ~~under all heads,~~ except under

Improvement of villages: sites, ~~wells~~ others

nearly ten per cent. of the sanctioned

grant was allowed to lapse. Conservancy

establishments were maintained in 23 villages

as in the previous year. The number

of villages visited by the District medical

and Sanitary Officer has not been

reported - an omission which should be

supplied in future reports.

(6) General Remarks. The year closed with

a balance of Rs. 58,843, of which Rs 3,361

were retained to endowed institutions, and

Rs 829, to unions, leaving Rs. 16,7[illegible]

20.8 per cent. of the receipts available

for general purposes; but of this sum

Rs. 214,983 represent the excess collection

~~made~~ on account of land cess. The explanation

promised by the President with reference

~~to this amount~~ in para. 8 of his report will

be awaited. The sum of Rs. 200 spent

by the Uttramerur union panchayat

on the construction of market sheds and

the lighting charges incurred in the

unions of Siperumbidur, Karunguli,

Sembiem, Madurantakam, Uttramerur,

and Tiruvottiyur should have been met

by corresponding contributions from

the Taluk funds as required by section 142 of

the Local Boards Act.

4, and The President's report is full and clear

but the details given in para. 57 (1)(2)(3)(4) of the District

Medical officer's report [illegible] of the

and the administration of local affairs

continued to be satisfactory.

V.R.

The local boards will do well to spend an increased percentage of the grant under this head upon the improvement of water supply.

× Rs 4194, which Rs 412 lapsed.

No information has been furnished as to the ~~causes of the cyclical employment~~ work of the strike

~~clearing gangs for the removal of prickly~~

~~pear in the Taluk, of which there were three~~

employed under the Chingleput Taluk Board.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From C. H. MOUNSEY, Esq., President of the District Board, Chingleput, to the Chief Secretary to Government, dated Saidapet, 13th July 1895, No. 370-L.

I have the honour to report on the operation of local funds in the Chingleput district for the official year 1894–95, and to submit the prescribed statements including the educational Statements I to IV furnished by the Assistant Inspector of Schools.

I.—GENERAL.

2. *Administration.*—During the year under review the territorial jurisdiction of two of the three taluk boards, viz., Saidapet and Tiruvallúr, was altered in consequence of the redistribution of the revenue divisional charges under sanction conveyed in G.O., dated 8th November 1893, No. 2486 L. The Ponnéri revenue taluk which formed part of the Saidapet Taluk ~~Board~~ has now been separated from it and added to the Tiruvallúr Taluk ~~Board~~ with the two unions of Ponnéri and Pulicat attached to it. The Kachinad taluk with an area of 250 square miles and a population of 65,570, which hitherto formed part of the North Arcot district, has also been added to the Tiruvallúr Taluk ~~Board~~. Under the same order of Government the maximum strength of the Saidapet Taluk Board was reduced from fifteen to twelve and that of the Tiruvallúr Taluk Board was raised from twelve to fifteen and the corresponding elective seats on the district board held by the above two boards were altered into three and five, respectively, from five and three.

3. *District Board.*—The constitution of the district board on the 31st March 1895 and the average attendance of the members at meetings are shown in Statement XVI-A. On that date the board had the maximum sanctioned strength of 32 members. Of these three were ex-officio members, thirteen nominated, and sixteen elected.* The nominated members consisted of five officials and eight non-officials. Of the elected members, five were officials and eleven non-officials. The two vacancies at the close of the previous year among the elected members and the seven vacancies which occurred in the course of the year under review, viz., three among nominated and four among elected members were filled up within the year. Twelve meetings were held against thirteen in the previous year and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 14·1 (4·9 among officials and 9·2 among non-officials), or 44 per cent. of the actual strength against 16·6 (5·4 officials and

* Chingleput	..	..	..	..	8

Tiruvallúr	..	..	..	..	5
					—
				Total	.. 16
					—

11·2 non-officials) or 55·3 per cent. in 1893–94. The decrease in the attendance of official members is due to the Executive Engineer and the educational officers not having attended any meeting. The decrease in the attendance of non-officials is due to vacancies in the year among elected members who generally attended at all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The three taluk boards in the district had, on the 31st March 1895, 43 members against 45 in the previous year. Two non-official seats fell vacant at the close of the year in the Chingleput Taluk Board and these have since been filled up. There occurred 23 vacancies during the year—two by death, one by resignation, three by transfer from the local areas of the taluk boards, three by expiry of term of office and fourteen by change in the revenue divisional charges. All these vacancies were filled up within the year. Forty-five meetings were held against 43 in 1893–94 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·3 (2·3 among officials and six among non-officials) or 58 per cent. of the actual strength against eight (two officials and six non-officials) or 53 per cent. in the preceding year. The improvement occurred in the attendance of official members.

5. *Union Panchayats.*—There were fifteen union panchayats at work at the end of the year as in the previous year; Statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1895, an aggregate strength of 123 members against the sanctioned number 127, four vacancies having occurred towards the close of the year on the Madurántakam, Walajabad and Saidapet panchayats. These have been since filled up. Of the actual number of members given above, 38 were ex-officio members, 10 other officials and 75 non-officials. Excluding the nine meetings, at which a quorum was not secured, the panchayats held 228 meetings or 15 on an average against 214 meetings or 14 in the preceding year, and the average attendance at each meeting was 5 (1·8 among officials and 3·2 among non-officials) against 5·2 (1·8 officials and 3·4 non-officials) in 1893–94, out of an average actual strength of 8·2. The attendance of the official element on the Sembiam panchayat was as unsatisfactory as in the previous year. The largest number of meetings, viz., 21, were held in Chingleput and Pulicat. No panchayat fell short of the required number of meetings under section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are available in Statement XVI-B.

The affairs of all the unions except Chingleput, Tiruppórúr, Madurántakam, ~~Uttaramallur~~ and Ponnéri were managed by non-official Chairmen as in the previous year. The Deputy Superintendent of the Reformatory school at Chingleput, the local medical officers at Tiruppórúr, Madurántakam and Ponnéri and the Sub-Registrar at ~~Uttaramallur~~ continued to be Chairmen of the panchayats in their respective unions. The Presidents of the three taluk boards are unanimous in reporting that the members and the Chairmen of the panchayats worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Pulicat union under the control of the Tiruvallúr Taluk Board and to Tiruppórúr, Sríperumbúdúr, Wallajabad, Cheyur and Uttaramerur unions under the Chingleput Taluk Board and the same is reported to have worked satisfactorily in all the thirteen unions in which this system was introduced. It will be extended in the current year to the remaining two unions of Madurántakam and Karunguzhi. Private scavengering was introduced in the Chingleput union with some success through the exertion of Mr. J. P. Lewis the Chairman. The endeavour made to introduce the same in the Saidapet union proved a failure. The taluk boards and all the union panchayats have, on the whole, worked satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and expenditure (debt heads excluded) with those of 1893–94 :—

—	1893–94.				1894–95.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	— 4,225	3,830	705	310	20,680	21,796	1,358	43,834
Receipts	1,43,689	1,09,675	17,235	2,70,599	1,49,523	1,06,769	18,110	2,74,402
Allotment from district to taluk funds ..	— 7,558	7,558	..	..	— 17,252	17,252	..	..
Allotment from taluk to district funds	..	..	..	..	..	..	..	..
Allotment from taluk to union funds	..	— 3,044	3,044	..	..	— 3,224	3,224	..
Total ..	1,31,906	1,18,019	20,984	2,70,909	1,52,951	1,42,593	22,692	3,18,236
Expenditure ..	1,11,226	96,223	19,626	2,27,075	1,27,758	1,16,548	21,811	2,66,117
Balance ..	20,680	21,796	1,358	43,834	25,193	26,045	881	52,119

Excluding debt heads (Rs. 5,492) the year opened with a balance of Rs. 43,834. The current receipts amounted to Rs. 2,74,402 against Rs. 2,70,599 in 1893–94, and the charges to Rs. 2,66,117 against Rs. 2,27,075. The year closed with a balance of Rs. 52,119 in favour of local boards or 19 per cent. of the current receipts. This result was due to a balance considerably in excess of the estimate and to enhanced receipts under house-tax, fees and fines, fishery-rents, Public Works Department receipts and contributions from provincial funds for Public Works, and to short expenditure under Grant IV. The aforesaid balance includes Rs. 3,361 appertaining to the endowment funds. The principle upon which the receipts and charges were distributed among the local boards and union panchayats remained the same as in the previous years. Out of the contribution of Rs. 17,252, a sum of Rs. 15,692 was paid as usual to the Saidapet Taluk Board and the balance to the Tiruvallúr Taluk Board to make up for its inadequate receipts.

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total local fund receipts.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of the total local fund receipts.	
		Land-cess.	Tolls.	House-tax.	Total.		1893–94.	1894–95.	1893–94.	1894–95.	1893–94.	1894–95.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
3,088	1,159,950	1,95,345	33,856	15,299	2,44,500	2,74,402	0 3 2	0 2 11	0 3 9	0 3 5	0 4 0	0 3 9

II.—Receipts.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 49,326 against a *nil* balance in the previous year. The increase was due to largely reduced expenditure in 1893–94. The current receipts excluding debt heads (Rs. 9,447) amounted to Rs. 2,74,402 against Rupees 2,70,599 in 1893–94.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from Statement VII that the total demand including arrears amounted to Rs. 1,76,031, of which Rs. 1,70,362 or 96·7 per cent. of the total demand were collected within the year. In addition to this there was an excess collection of Rs. 24,983 chiefly in Conjeeveram taluk. The reason of this is not yet known. Information will be supplied upon its being known. A sum of Rs. 115 was written off as irrecoverable and there was a balance of Rs. 5,554 left at the close of the year.

9. *Tolls.*—The number and position of the toll-gates in the district were the same as in the previous year, and tolls were collected at all of them at half the maximum rates sanctioned in the Act. All were leased out for the year for a sum of Rs. 31,945 against Rs. 33,549 in 1893–94. The decrease is due to the Vandalúr gate not having fetched good bids during the sales owing to the previous year's contractor having sustained a loss. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and establishment contingencies, the net income from all heads of tolls amounted to Rs. 33,393 or Rs. 48–12–0 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rs. 177, the income from tolls covered 27·5 per cent. of the total outlay against 38 per cent. in the previous year. The large difference is due to the fact of increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—In the previous year this tax was in force in fourteen out of fifteen unions. It was extended during the year under review to Tiruppórúr union also by sanction conveyed in G.O., dated 19th February 1894, Mis. No. 329 L. From Statement VIII it will be seen that there was an arrear of Rs. 116 outstanding at the beginning of the year, which, together with the current demand, Rs. 15,299, raised the total amount for realization to Rs. 15,415. Of this demand, Rs. 15,299 or 99 per cent. were collected within the year against 98 per cent. in the preceding year. A sum of Rs. 15 was remitted on account of vacant houses and Rs. 53 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 48 left uncollected at the end of the year, of which the greater portion has since been remitted. The collections were good in all the unions and especially at Sríperumbúdúr, Karunguzhi, Thiruvotkiyur, Saidapet, Sembiem, Kunnatkur, Pulicat and Tiruvallúr.

The number of houses in the aforesaid 15 unions were 16,575 as per census of 1891, and the number actually assessed to the tax was 18,264. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Thiruvotkiyur and Tiruvallúr. The reason therefor is as explained last year that the census figures do not relate to unoccupied houses.

The average incidence of the tax per house assessed was As. 13–5 against As. 13–4 in 1893–94 and ranged between Rs. 1–2–9 in Saidapet and As. 7–11 in Cheyur. Coercive measures were resorted to in all the unions except Chingleput and Ponnéri. Distress warrants were issued in 317 cases, property distrained in 180, and sold only in 40, the corresponding figures for 1893–94 being 466, 242 and 60. The amount recovered by actual sale was only Rs. 34. The largest number of warrants (51 in each) was issued in Sríperumbúdúr, Saidapet and Tiruvallúr, but they were not executed with promptitude, distraint having resulted in 37, 9 and 4 cases, respectively, while sales were effected in 14 and 2 cases in the aforesaid first two unions only.

11. *Education.*—The receipts under this head are small and do not call for special remarks.

12. *Medical*—(*c*) *Contributions*—(3) *From Private Individuals.*—The contributions amounting to Rs. 803 received from private individuals for constructing an out-patient ward to the Chingleput hospital and for constructing an hospital building at Saidapet have been shown under 6. Public Works as per instructions issued in the memorandum of Government, dated 1st September 1894, No. 736. The revised estimate prepared for the former work in accordance with the views of the Sanitary Board is now before the Chingleput Taluk Board for consideration and an estimate is under preparation for the Saidapet hospital.

(*d*) *Income from Endowments.*—These consisted of rents of the inam lands of Nandambakam, Siruvallur and Gollanchavadi chattrams and of the water-pandal manigms of Kodambakam and Puliyur made over to the Saidapet dispensary. The

receipts under this head amounted to Rs. 208 against Rs. 102 in the previous year. The increase is due to the realization of a heavy balance outstanding at the beginning of the year.

13. *Interest*—(*a*) *On Government Securities.*—This was derived from the investments in Government securities made in favour of (1) the surplus pagoda fund, the proceeds of which are devoted to the upkeep of the Chingleput hospital; (2) the endowment funds of the Chingleput hospital; and (3) the Petrus Uscan's Charity fund designated for the repair of the Marmalong bridge and the steps leading up St. Thomas' Mount. The income from these sources amounted to Rs. 1,549 against Rs. 1,501 in 1893–94 and the decrease is trifling.

14. *Miscellaneous*—(*a*) *Choultry Rents.*—These are derived from the endowment attached to Chendra Sekara Pillay's choultry at Pallávaram and from the lands assigned to the local fund chattram at Chingleput, viz. (1) manigm lands of the late Venkataranga Pillay's choultry at Sríperumbúdúr; (2) the inam lands attached to the same choultry; and (3) the assessment on the resumed inam lands of Rama Naik's choultry. The sum realized from these sources amounted to Rs. 169 against Rs. 131 in 1893–94. The increase is trifling and it is due to realization of a portion of the arrears outstanding at the close of the previous year.

(*b*) *Market Rents.*—Weekly markets are held in various places in the district, but all of them are poorly attended. The Presidents of Chingleput and Tiruvallúr Taluk Boards report that their endeavours to increase the attendance was fruitless. During the year under review tiled sheds at a cost of Rs. 200 have been erected for the weekly market at Uttaramerur and a further endeavour will be made in this direction to make them attractive and thus to increase their usefulness. There were two markets built by the local boards, the weekly market at Avadi and the vegetable market at Pulicat. The Avadi market stands on private land and the owner collects some fees and appropriates them for purposes of charity. Fees were levied in the Pulicat market and the amount realized was Rs. 14 against Rs. 11 in the previous year. Fees will be levied from the current year in the newly constructed market at Uttaramerur.

(*f*) *Fees and Fines.*—A sum of Rs. 2,979 was realized against an estimate of Rs. 1,700 and actuals of Rs. 2,015 in 1893–94. The increase appears chiefly under other fees and fines and it is due to imposition of fines on zamindars and shrotriemdars for delays in submitting accounts of land-cess. Some portion of these fines will be refunded.

(*h*) *Fishery Rents.*—According to the demand, collection and balance statement furnished by Tahsildars, the total demand including arrears amounted to Rs. 2,947, of which Rs. 2,816 or 95·5 per cent. were realized against 74 per cent. in the previous year. Rs. 920 realized under this head from the Public Works Department has been shown as a separate item under 6. Public Works.

(*i*) *Rents and Produce of Land.*—A sum of Rs. 438 was realized against an estimate of Rs. 540 and actuals of Rs. 1,019 in 1893–94. The decrease is due to unusually large receipts under this head in 1893–94 owing to sale of trees blown down by a cyclone and penal assessment charged by Revenue officers which was afterwards refunded.

(*j*) *Avenues.*—The receipts from lease of avenue produce and sale of withered avenue trees amounted to Rs. 2,083 against Rs. 1,501 in 1893–94. The amount obtained is still not equal to Rs. 2,203, the receipts of 1892–93 and it is presumed, as the five-year lease system has been introduced, the amount will not vary much for five more years. The experiment seems to be of doubtful success.

15. *Public Works*—(*d*) *Contributions*—(3) *From Private Individuals.*—The contributions received from private individuals for constructing hospitals, &c., having been shown under this head as per instructions of Government contained in memorandum, dated 1st September 1894, No. 736, instead of under "Medical" as in the previous years, the receipts under this head show an increase over the actuals of the previous year.

16. *Contributions from Provincial Funds*—(*a*) *Education.*—The sum of Rs. 60 shown under the district board in Statement I-A is the amount of stipends paid from

provincial funds to certain teachers from other districts under training in the Teachers' College and was advised by the Accountant-General to be included in the local fund account by credit and debit, respectively. This being excluded, the actual amount drawn from provincial funds on behalf of boys and girls in the boards schools was Rs. 437 against an estimate of Rs. 790. The decrease appears chiefly under the Chingleput taluk board and is explained as due to the earnings of some schools not having been drawn within the year.

(*b*) *Public Works.*—Rs. 14,000 were drawn from Provincial funds under sanction conveyed in G.O., dated 23rd May 1894, Mis. No. 913 L., for re-coating 4 to 12 miles of the Great Western Trunk road which were very bad owing to heavy traffic close to the presidency town.

III.—Expenditure.

17. Statement I-B shows the total expenditure of the local boards under all grants including debt head transactions. The total expenditure excluding debt heads (Rs. 8,215) amounted to Rs. 2,66,117 against Rs. 2,27,075 in 1893–94. The difference is the net result of increased expenditure under Grants I and III and decrease under Grants II and IV. The outlay under the several grants and the percentages of expenditure under each grant to the total outlay of the year are exhibited below:—

Grants.	Expenditure.		Percentages.	
	1893–94.	1894–95.	1893–94.	1894–95.
	Rs.	Rs.		
Grant I	1,18,050	1,57,176	52	59
,, II	24,113	22,364	11	8
,, III	52,705	57,209	23	22
,, IV	32,207	29,368	14	11
Total ..	2,27,075	2,66,117	100	100

18. *Grant I, Public Works.*—Statement III shows the particulars of the outlay on works. The total expenditure on works amounted to Rs. 1,36,791 against Rs. 98,894 in the preceding year, the increase being mainly due to additional allotments provided for the special repairs of certain roads which were much in need of them. The expenditure was equivalent to 49·8 per cent. of the year's receipts and 51·4 per cent. of the total charges against 37 and 43·5 per cent. respectively in 1893–94, and was incurred wholly by the Engineering establishment with the exception of a small amount of Rs. 1,065 which was spent by the Presidents of taluk boards on sundry petty works.

19. *Communications—New and Repair.*—Of the total outlay on works mentioned in the preceding paragraph, Rs. 1,28,637 were spent on roads against an estimate of Rs. 1,29,038 and actuals of Rs. 94,041 in 1893–94. The increase is due to the special repairs mentioned above. Statement IV-A gives statistics of roads in the district. There were 896 miles 7½ furlongs of road in charge of local boards at the commencement of the year. Of this length, 685 miles and 5 furlongs were maintained against 684 miles and 4 furlongs in 1893–94. Excluding the charges on account of bridges, toll-sheds, &c., the cost of maintaining each mile of road repaired was Rs. 272 for district, Rs. 118 for taluk and Rs. 133 for village roads, against Rs. 210, 95 and 62, respectively, in the previous year. The total outlay on village roads was Rs. 5,177 or 4·1 per cent. of the total outlay on roads, viz., Rs. 1,24,983 against 2·6 per cent. in 1893–94.

20. *Condition of Roads.*—All the roads in the district were maintained in fair order except some which are worn out by heavy traffic. The District Board Engineer states that every endeavour is being made by him to restore these roads also by obtaining special grants. In this way the Kodambakam-Sríperumbúdúr road and the three miles of the road from Red Hills to Tiruvallúr close to Tiruvallúr town are being restored.

21. *Civil Buildings—New and Repair.*—A sum of Rs. 1,335 was spent out of a total sanctioned allotment of Rs. 3,706 on new works, which consisted in providing an out-patient ward to the Chingleput hospital, six school-houses and some other petty buildings. The decrease is mainly due to the work of the out-patient ward for the Chingleput hospital not having been taken up for want of the Sanitary Board's approval for the estimate. Under repairs a sum of Rs. 2,413 was spent against an estimate of Rs. 2,231 for repairing and whitewashing, as usual, the buildings in charge of local boards. The increase is due to the special repairs executed to the dispensary building at Nágalápuram from the general savings.

22. *Miscellaneous Public Improvements—New and Repair.*—Rs. 839 were spent under "New Works" against an estimate of Rs. 700. The increase is due to the construction of drainage works in Saidapet union from contributions received from private individuals. The only important work executed was the construction of tiled sheds for the market at Uttaramérur. Under "Repairs" a sum of Rs. 3,567 or 100·4 per cent. of the sanctioned allotment was spent against Rs. 3,482 in 1893–94. The expenditure was incurred as usual on labour employed for watering, watching, fencing and planting avenue trees. Statement IV-B gives statistics of road avenues. The number of miles of road provided with avenues was 533⅜ miles against 524 miles in the preceding year, and the reasons for the variation are noted at the foot of the above statement. There were at the commencement of the year 96,452 ; 6,863 plants were put down in the year and 820 perished, so that there were at the close of the year 102,495 trees. The Engineer reports that in the recent enumeration of trees held by him he found 32,523 trees in excess of the trees hitherto accounted for, and adding this to the number of trees at the close of the year as shown above, the actual total number of trees at the close of the year will be 135,018. Besides these, there were 3,200 plants in the two nurseries of Guindy and Puduvoil against 1,178 at the close of the previous year. As instructed by Government in the review on last year's report, seedlings were raised in baskets. The Engineer reports that this method is more expensive and the trouble in preventing the baskets from being destroyed by white-ants is much, and suggests that the practice of transplanting from nurseries may be continued.

23. *Engineering Establishment.*—Mr. Dwyer continued to be the District Board Engineer of this district, he having been confirmed in that post—*vide* G.O., dated 10th September 1894, No. 1744 L., Mis. The cost of the establishment including contingencies amounted to Rs. 19,603 or 14·4 per cent. of the outlay on works by that agency (Rs. 1,35,726) against 18·8 per cent. in 1893–94. The decrease is chiefly due to increased outlay on works during the year under review. A sum of Rs. 141 is, as advised by the Inspector of Local Fund Accouuts, shown under "Public Works Department Supervision" and was the charge adjusted from Local funds in favour of that department for its having collected fish rents.

(*b*) *Tolls and Ferries.*—Expenditure was incurred in advertising the sale of tolls and supplying license tickets and painting numbers on licensed carts and for repairing a boat at Odappai. The increase as compared with the actuals of 1893–94 is due to repairs executed to the boat at Odappai.

(*d*) *Tools and Plant.*—A sum of Rs. 318 was spent under this head against an estimate of Rs. 145, and the increase is due to purchase of new tools, the spreading work having been undertaken departmentally.

(*g*) *Miscellaneous—Refunds.*—Rs. 195 were spent under this head being the refunds of license fees collected in 1893–94 in Tiruvallúr in respect of town carts passing through the gate at that station. The decrease as compared with the actuals of 1893–94 is due to fees collected in 1890–91 having also been refunded with those for 1892–93 in that year.

24. *Grant II, Education.*—The educational operations of local boards in the district were confined to the spread of primary education. One sessional school, 33 schools on the salary results system and 480 on the results and salary grant systems were maintained against 1, 27 and 440 respectively at the end of 1893–94. The education of Panchama children received attention ; and of the number of schools noted

above, 69 were exclusively maintained for this class. They had on the rolls 1,868 pupils and the average attendance was 1,465 as against 1,793 with an average attendance of 1,395 in 1893–94. Of these schools, 10 were on salary result system and the rest on the result grant system. There were also 5 schools on the salary-result system and 6 on the result grant system for the exclusive benefit of Muhammadans, and these schools were attended by 392 pupils against 432 in the previous year with an average attendance of 273 pupils. There were on the rolls in all the schools on the 31st March last 14,167 boys and 1,240 girls against 13,526 boys and 198 girls in 1893–94, and the total number bore a proportion of 18 per cent. of the school-going population (86,996) calculated at 7½ per cent. of the total population of the district. The outlay on education excluding the expenditure on school buildings (Rs. 1,099) shown in statement III amounted to Rs. 22,364 against Rs. 24,113 in 1893–94 and formed nearly 8 per cent. of the current receipts and 9 per cent. of the current charges of the year. The low percentage was due to full grants earned not having been drawn within the year. The remark of Government under this head contained in paragraph 32 of the general review for 1893–94 is kept in view and every endeavour will be made to increase the outlay.

25. (*a*) *Inspection.*—The inspecting and supervising agencies continued unaltered. The six inspecting schoolmastars employed by the district board visited 806 villages and prepared 729 * schools for examination against 805 and 953 respectively in 1893–94. These results appear bad. Besides these, the Muhammadan Inspecting schoolmaster of the Madras Municipality, who was deputed, as usual, to inspect Muhammadan schools in the district, visited 15 villages and prepared 20 † schools for examination against 24 and 24 respectively in the preceding year. In regard to the apparently short inspection work, inquiries are being instituted to find out the cause thereof as the returns from the Educational officers do not explain it. The cost of this establishment and contingencies amounted to Rs. 3,147 as detailed in the margin against Rs. 3,388 in 1893–94 and an estimate of Rs. 3,500. The decrease as compared with the actuals of 1893–94 and estimate of 1894–95 is due to the Inspecting schoolmaster of Madurántakam taluk having been away for a portion of the year on other duty as Sub-Assistant Inspector of Schools and to the general savings effected in travelling allowances.

	1894–95.	1893–94.
* Number of board schools ..	28	24
Other schools	701	929
Total ..	729	953

	1894–95.	1893–94.
† Number of board schools ..	5	3
Other schools	15	21
Total ..	20	24

	1893–94.	1894–95.
	Rs.	Rs.
Salary	2,400	2,312
Travelling allowance ..	723	594
Contingencies	265	241
Total ..	3,388	3,147

26. (*b*) *Training Schools.*—Nil.

27. (*c*) *Sessional Schools.*—There was one sessional school for the training of village schoolmasters as in the previous year and it was held at four centres during the year as shown below :—

Centres.	Date of commencement.	Date of termination.	Number of teachers trained.
Madurántakam ..	1st April 1894 ..	30th June 1894 ..	11
Poonamallee	16th July ,, ..	16th October ,, ..	12
Do.	17th October ,, ..	17th January 1895 ..	16
Tiruvallúr	1st February 1895 ..	31st May ,, ..	10
		Total ..	49

The sessions at each centre were intended to be only for three months, but keeping in view the number of untrained teachers at each locality, the terms were extended as shown above. The session at the Madurántakam centre was continued from 17th January 1894, but only the actual period during which it was at work in the current year is shown in the foregoing statement. Of the number of teachers who attended the sessional school, 38 were presented for the Primary Examination held in December last, of whom 30 are reported to have passed—9 in the first-class, 7 in the second-class, 9 in compulsory with one optional and 5 in the compulsory. There was a single teacher employed to conduct the sessional school on Rs. 25 a month as in the preceding year and stipends were allowed to teachers attending at Rs. 5 each. The total cost for the year was Rs 902 and the average cost to Local funds for a teacher under training was Rs. 75 against Rs. 84 in the previous year. Though the average cost shows a decrease when compared with that for the preceding year, it is yet high and it is due to not securing the full number of teachers as estimated in the budget. The services of the sessional schoolmaster were dispensed with at the close of the year for, among other things, ill-treating the students. This may be the cause of the students not being heavy there in number.

28. *Technical Schools.*—Nil.

29. (*d*) *Secondary Schools.*—Nil.

30. (*e*) *Elementary Schools*—(*i*) *Salary System.*—Nil.

(*ii*) *Salary Result System.*—There were at the beginning of the year 27 schools —17 for all classes generally, 5 for Muhammadans and 5 for Panchamas. The school at Nayar was closed as the attendance in it fell off and was replaced by one opened at Solaveram. Six additional schools were opened—5 for Panchamas at Madurántakam, Sríperumbúdúr and Olallur by the Chingleput taluk board and at Thervoy and Vengalacherry by the Tiruvallúr taluk board, and one at Varadiehpalayam by the latter board for all classes generally. There were thus at the close of the year 33 schools—18 for all classes, 5 for Muhammadans and 10 for Panchamas—which had on the rolls 1,217 boys and 196 girls with an average attendance of 1,227, the corresponding figures for 1893–94 being 1,028, 198, and 998. The net cost to Local funds of maintaining these schools was Rs. 3,894 or Rs. 3 per pupil against Rs. 3,242 and Rs. 3–4–0 respectively in the preceding year. The cost per pupil in the Upper and Lower Primary departments was Rs. 5 and Rs. 3, respectively, against Rs. 3–9–5 and Rs. 3–3–5 in 1893–94. The increase in the case of Upper Primary departments is due to most of the schools having been in existence for longer periods than in the previous year and to no fees being charged in Panchama schools. The total number of pupils that appeared from these schools at the standard examinations was, as detailed in the foot-note to statement IX, 719, of whom 561 or 78 per cent. passed against 79 per cent. in the preceding year.

31. (*f*) *Grants-in-aid*—(1) *Salary Grant.*—The Lower Primary department of the Free Church Mission High school at Chingleput and of the Wesleyan Mission High schools at Madurántakam and Tiruvallúr, and the Lower Primary school at Alandur were, as usual, aided on the salary-grant system. They had 437 pupils on the 31st March last and a sum of Rs. 427 was paid against Rs. 510 in 1893–94. The decrease is due to no arrears having been drawn in the year as was the case in the previous year.

(2) *Results Grants.*—There were 427 schools aided on the result system with 12,503 boys and 1,044 girls on the rolls on the 31st March last, against 436 schools with 12,184 pupils on the corresponding date in the previous year. The number of pupils examined for grant was 9,015, of whom 6,533 or 72 per cent. were found qualified, the corresponding figures for 1893–94 being 8,352, 6,690 and 80 per cent. Grants were paid at the maximum rates ; and out of the total amount of Rs. 13,222 earned, Rs. 11,684 or 88 per cent. were disbursed within the year. The total expenditure including arrear payments amounted to Rs. 12,280 against an estimate of Rs. 14,700. The decrease is due to full amounts not having been earned as estimated in the budget owing to higher minima required under the new code which was not well understood by the village schoolmasters, this being the first year of its introduction,

(4) *Miscellaneous Grants.*—The details of charge under this head are given in the foot-note to statement X.

32. (*h*) *Miscellaneous*—(1) *Purchase of books*—(2) *Commission on sale of books.*—The expenditure under "Purchase of books" amounted to Rs. 279 against the estimate of Rs. 450 and the actuals (Rs. 389) of 1893–94. The decrease is due both to a smaller demand and to a larger stock at the beginning of the year. The amount realized by sale of books was Rs. 362 and the commission paid thereon Rs. 54.

33. *Grant III—Medical Services, &c.*—There were, as in the previous year, 14 medical institutions, of which the Chingleput, Madurántakam and Sríperumbúdúr hospitals contained accommodation for in-patients. A suitable site for the construction of necessary wards to accommodate in-patients in the Saidapet dispensary was acquired during the current year and the revised estimate called for by the Sanitary Board is under preparation and the work will be taken up immediately after the estimate is approved by that body. The matter of providing accommodation for in-patients in the Tiruvallúr dispensary will be taken up in the current year as stated in paragraph 33 of this office No. 702 L., dated 18th December 1893, embodied in G.O., dated 15th February 1894, No. 304 L. The Honourable P. Rangayya Naidu Garu has not yet carried out his promise of building the ward. There were 32 beds in the Chingleput hospital as in the previous year and four beds in each of the two second-class hospitals at Sríperumbúdúr and Madurántakam. In the first two of the institutions 444 and 14 in-patients were treated against 501 and 12, respectively, in 1893–94. No in-patients were treated in Madurántakam, as provision for accommodating in-patients in this institution was made only in December last. In all the 14 institutions 104,326 out-patients were treated against 105,602 in the preceding year. The total number of in and out patients treated during the year bore a proportion of 9 per cent. of the total population against 9·7 per cent. in 1893–94. The decrease is due to population of Kachinad taluk added to this district in the year under review being included in the above calculation. The European methods of treatment continues to be appreciated by the public. The total cost of maintaining these institutions amounted to Rs. 20,147 as detailed in statement XII against Rs. 18,108 in 1893–94 and a total grant of Rs. 21,677. The increase, as compared with the grant, is chiefly due to complying with a larger number of indents for medicines, as most of them were not procured in the previous year and the stock on hand was exhausted. The increase over the actuals of the preceding year is due to the above cause and to increased expenditure under "Medical subordinates" due to officers in charge of some dispensaries getting grade promotion during the year owing to length of service. The average cost of treating each patient was As. 3–1 against As. 2–9 in 1893–94. The increase is due to the less number of patients treated and to the increased outlay on the purchase of medicines as stated above. As in the preceding year, there were committees by which these institutions were supervised and their work is reported to be satisfactory by all the Taluk Board Presidents except Saidapet who is silent on the point. The delays complained of in the last year's report in payment of establishment bills have now been avoided and they are, under the existing arrangement, passed by any two members of the committees when the committees themselves fail to meet in the beginning of the month. The system of distributing medicines and treating patients during tours of inspection by the District Medical officers having been declared by Government to be optional with them, no information was furnished by the District Medical officer under this head and his concise report on the working of the several institutions in the district is herewith submitted. The Chingleput hospital and Saidapet dispensary have endowments attached to them, the former draws interest from the investments in Government securities as detailed in paragraph 13 of this report; and the latter derives its income from the rents of the inam lands made over to it as particularized in paragraph 12 (*d*). The receipts from these and other miscellaneous sources amounted to Rs. 1,407 and Rs. 307, respectively, and the charges to Rs. 4,016 and Rs. 3,165, the difference in both cases having been made good from general funds.

34. *Medical Schools and Medical Pupils.*—Nil.

35. *Midwives and Midwifery Pupils.*—There were nine midwives at the beginning of the year and in the course of the year three midwifery pupils who had completed their course of training in the Lying-in hospital joined the district, and they were posted to Cheyur, Tirupporúr and Pulicat dispensaries, so that there were twelve midwives at the close of the year. A total number of 566 labour cases were attended by them against 652 in 1893–94. The decrease is due to the midwives being dissatisfied with their pay and prospects; but a remedy is being seen to and, as informed, is expected this year. The system of paying them by results continued to be in force. The cost of maintaining the midwives amounted to Rs. 968 and the average cost of each case attended was Rs. 1–11–4 against Rs. 1–6–10 in the previous year. The increase is due to the less number of cases attended notwithstanding three additional hands employed during the year. Though provision was made in the budget for employing midwives in all the dispensaries, still, for want of trained women, two dispensaries were left unprovided. To meet this, three pupils are undergoing training and, as soon as they complete their course, they will be posted where wanted. The charges for training these pupils amounted to Rs. 355.

36. *Medical training of women.*—The question of employing a lady apothecary to the Chingleput hospital was considered by the district board in its meeting held on 13th October 1894 and it was resolved to defer the proposal till the next budget is framed and, owing to want of funds, no provision was made in the current year's budget also as stated in paragraph 33 (8) of this office No. 629 L., dated 17th December 1894, embodied in G.O., dated 11th February 1895, No. 267 L. The matter will, however, be kept in view and due provision will be made as funds become available.

37. *Vaccination.*—There were 2 Deputy Inspectors of Vaccination and 25 vaccinators and probationers employed by the district board against 2 and 23, respectively, in the preceding year. The increase was due to one temporary first-class vaccinator on Rs. 15 and a probationer on Rs. 6 having been employed on account of additional work involved by the transfer of Kachinad taluk to this district under sanction conveyed in G.Os., dated 15th February 1894 and 26th March 1895, Nos. 304 L. and 569 L., Mis. P. Kristnasami Naidu and K. Varatharajulu Naidu continued to be Deputy Inspectors of Vaccination and the latter who was reported to have been on one year's furlough in the last year's report joined his post in September last. The total number of operations performed by this agency was 41,884, of which 38,827 or 92·7 per cent. were successful, the corresponding numbers for 1893–94 being 42,432, 40,499 and 95·4. The average cost of each successful case was Annas 2–11 against As. 2–10 in the preceding year. This increase is due to fewer operations performed by the vaccinators in the Chingleput range and the explanation offered by the Deputy Inspector that more cases were not available owing to an increased number of operations in the preceding year is not satisfactory.

The outturn by the medical subordinates in charge of hospitals and dispensaries shows a decrease as compared with that of the preceding year. The total number vaccinated was 3,441 against 4,413 in 1893–94 and the number successful 3,145 against 4,137. The percentage of successful cases also fell from 93·7 to 91·3. These results are not satisfactory.

Including the work done by these subordinates, the total number of successful operations was 41,972 or 36·2 per mille of the total population as per census of 1891 against 40·8 in 1893–94. The total number of operations on children under one year of age was 21,174, of which 19,995 or 48 per cent. of the number born (41,627) were successfully protected within the year against 18,229 or 45 per cent. in 1893–94. Vaccination was conducted throughout the year with animal lymph which was used either direct from the calf or in a preserved form. The subjoined abstract shows the year's operations by the vaccine staff, the kind of lymph with which they were performed and the percentage of success in each case.

Method.	Number vaccinated.	Number successful.	Percentage of success to number vaccinated.
1. Fresh animal lymph	11,870	11,059	93·1
2. Glycerine paste	17,279	15,707	90·9
3. Calf scales	12,735	12,061	94·7
Total ..	41,884	38,827	92·7

38. *Sanitation.*—The outlay under this head was as shown below :—

	1893–94.	1894–95.
	RS	RS.
(1) Improvement of water-supply	3,321	2,595
(2) Do. of village-site	3,198	3,607
(3) Scavengering establishments	10,612	11,218
(4) Arrangements at fairs and festivals	1,003	1,103
(5) Other sanitary outlay	598	1,573
Total ..	18,732	20,096

There is increase under all the items as compared with the actuals of the preceding year and it is due to increased provision made to meet the requirements. Fifteen new wells were dug, 65 existing sources of water-supply were improved, and 20 sources of drinking-water were guarded, the corresponding figures last recorded being 21, 97 and 19. In 30 villages prickly-pear was removed and in 27 villages streets were repaired against 39 and 19, respectively, in 1893–94. The Chingleput Taluk Board employed three gangs of itinerating coolies, one for each revenue taluk as in the previous year. Each gang consisted of five coolies on Rs. 5 each and a maistry on Rs. 6. It was required of each cooly to clear prickly-pear on an area of 16 square yards for a day and a proportionate reduction was made on short outturn. In this way 92,167 square yards of prickly-pear were removed and buried or burnt. The actual amount spent on these gangs was Rs. 1,106. The President furnished no information as to the success or otherwise of this system. The remaining two taluk boards were not in favour of it as reported last year and preferred contract system. Conservancy establishments were maintained as in the preceding year in fifteen unions and eight other villages. The arrangements regarding the supervision of these establishments continued unaltered. Special sanitary arrangements were made at the time of festivals at 18 places against 16 in the preceding year, and those made on the occasion of Periapalayam feast were as effectual as in last year. No epidemic broke out. The matter of acquiring the ground around the temple at this place for accommodating pilgrims and carts as suggested by the Sanitary Commissioner in his report on the last year's festival embodied in G.O., dated 13th October 1894, No. 2036 L., is under consideration by the Tiruvallúr Taluk Board. Under other sanitary outlay, a sum of Rs. 1,573 was spent chiefly in providing dust-bins in some unions, repairing some of the latrines and supplying Tamil copies of Dr. King's Simple Sanitary rules to village officers. As cholera was specially prevalent in Madurántakam, Conjeeveram and Saidapet taluks, the charges incurred for travelling allowance of medical subordinates on special duty and for disinfectants were higher than in the preceding year and this accounts for the large increase under this head.

The proportion of the total outlay on sanitation to the sanctioned allotment (Rs. 20,125) was 99·8 per cent. against 89 per cent. in 1893–94.

39. *Choultries.*—The local boards maintained three choultries as in the previous year, which were used as mere rest-houses. They were used by 54,155 travellers against 53,028 in 1893–94. The total cost of their upkeep, as per details furnished in statement XI, amounted to Rs. 308 excluding cost of public works repairs (Rs. 118) against Rs. 315 in 1893–94 and a total estimate of Rs. 300. The increase appears under contingencies and it is trifling. The Chingleput and Pallávaram choultries have endowments in lands as detailed in paragraph 14 (*a*) of this report and the income

derived from the rents of these amounted to Rs. 169 which added to the balance of Rs. 180 and a contribution of Rs. 248 made in the year under review to the Maiyur Chandra Sekara Pillay's choultry from the general local fund revenues to wipe off the *minus* balance with which it closed raised their total assets to Rs. 597. Deducting the total charges Rs. 372 as shown in statement VI, there was a balance of Rs. 225 at the end of the year and the whole of this sum relates to the choultry at Chingleput.

40. *Bungalows.*—There were four bungalows under the control of local boards as in 1893–94, and they were used by 223 travellers against 202 in that year. The total receipts from fees amounted to Rs. 399 against Rs. 350, the increase being due to the increased number of travellers that halted in the first-class bungalow at Chingleput where fees are charged at a higher rate. The total charges excluding the cost of Public Works repairs (Rs. 253) amounted to Rs. 360 against Rs. 592 in the preceding year, the decrease being due to absence of necessity for furniture which were only supplied last year. All the four bungalows were maintained in good order and are decently furnished to meet the requirements of travellers.

41. *Contributions*—(3) *Municipalities.*—A sum of Rs. 1,800 was paid as contribution to the Conjeeveram Municipality, Rs. 400 towards the cost of the arrangements made on the occasion of the Garudotsavam, and Rs. 1,400 towards the upkeep of the municipal dispensary.

(4) *Private Institutions.*—Rupees 300 were paid to the mission dispensary at Eakkadu at Rs. 30 a month for 10 months in the year, pending provision of accommodation for receiving in-patients in the Tiruvallúr dispensary under sanction conveyed in G.O., dated 17th July 1894, No. 1295 L., Mis.

42. *Miscellaneous Endowed Institutions.*—The only item falling under this head is the Petrus Uscaris Charity Fund designated for the purposes mentioned in paragraph 13 above. The investments in Government Securities and Postal Savings Bank appertaining to this fund amounted to Rs. 11,865 as detailed in statement VI-A accompanying this report, and the cash balance in the treasury in favour of it at the beginning of the year was Rs. 1,859. The interest drawn for the year amounted to Rs. 301 and the expenditure to Rs. 547 as shown in statement VI. The net total amount to the credit of this fund at the close of the year was thus Rs. 13,478, of which Rs. 1,613 were in cash in the treasury. This sum also will be invested this year in Government securities.

43. *Lighting.*—The number of lights maintained in the unions and other places increased from 239 to 288 as shown in the margin, and the cost of maintaining them amounted to Rs. 2,643 against Rs. 2,331 in 1893–94. Of this amount Rs. 376 were spent for the purchase of new lights and lamp-posts. The large increase in the number of lights was due to an incorrect account of them being furnished in the previous years and the actual number of new lights put up during the year was only 32 and they were indispensable. The Chingleput Taluk Board managed the work departmentally and the Saidapet Taluk Board by contract. The Tiruvallúr Taluk Board carried out partially by contract and partially by departmental agency. The cost of each light maintained was Rs. 7–13–11 against Rs. 8–4–0 in the preceding year excluding the cost of new lights and lamp-posts purchased. The whole expenditure was met from taluk funds paid as contribution to unions with the exception of Rs. 204 for the lights on the southern trunk road which were met from district funds.

Names of places.	Number of lights in 1893–94.	Number of lights in 1894–95.
(*a*) Unions—		
Chingleput	38	45

Tiruvallúr	34	34
(*b*) Other places—		
Southern Trunk road	23	25
Total ..	239	288

44. *Grant IV, Miscellaneous—Supervision and Office Management.*—The total cost of general administration including contingencies amounted to Rs. 13,868 against Rs. 13,073 in 1893–94 and the total estimate Rs. 14,047. The total expenditure formed 5 per cent. of the current receipts and 5·2 per cent. of the current charges against 4·8 and 5·7 per cent., respectively, in the preceding year. The variations are explained in remark column of statement I-B. The rates at which the travelling allowance was paid to members of local boards remained unaltered.

45. *Repayment and interest on Loans.*—Two half-yearly instalments of the principal and interest of the Korattalayar bridge loan amounting to Rs. 12,627 and Rs. 2,628, respectively, were paid on the due dates. Subjoined is a memorandum showing the particulars of the loan :—

Amount of loan.	Purpose for which raised.	Mode of repayment.	Amount repaid.	Amount still due.	Probable date of repayment.
Rs. 1,99,790 at 4½ per cent.	Construction of the iron girder bridge across the Korattalayar river.	By half-yearly instalments.	Rs. 1,50,896	Rs. 48,894	1898

46. The report was passed by the district board at its meeting held on the 13th instant. A copy of the resolution is enclosed.

—

ENCLOSURE.

ANNUAL Concise report on the working of the Local Fund Hospitals and Dispensaries in the District of Chingleput for the official year 1894-95.

Public Health.—The public health was during the year fairly good. In the month of December 1894, cholera was imported by pilgrims who returned from Tiruvannámalai festival in South Arcot. The number of deaths during the year was 755.

The following diseases were also prevalent :—

Dysentery, diarrhœa, fever, rheumatism, skin diseases, ophthalmia, venereal diseases, diseases of the nervous system, diseases of the ear, connective tissue and ulcers.

2. *Vital Statistics.*—Vital statistics, on the whole, were satisfactory and written up to date.

Statement showing the number of births and deaths in the district of Chingleput during the official year 1894–95 is shown below :—

Taluk.	Population.	Births.	Deaths.					Total.
			Cholera.	Small-pox.	Fever.	Diarrhœa or dysentery.	All other causes.	
Saidapet	224,472	6,751	198	23	1,444	434	2,393	4,492
Chingleput	137,291	5,205	64	6	736	411	1,640	2,857
Madurántakam	263,137	9,356	249	24	1,250	367	3,230	5,120
Conjeeveram	176,123	6,690	190	15	1,072	509	2,048	3,834
Tiruvallúr	236,939	8,129	47	24	1,589	258	3,055	4,973
Ponnéri	122,418	3,849	7	27	762	158	1,448	2,402
Total ..	1,160,380	39,980	755	119	6,853	2,137	13,814	23,678

3. *Sanitation.*—Sanitation of the towns and villages where there are unions is looked after by the union panchayets and in non-union places by the village munsifs. The rubbish and daily sweepings of the union stations are carted away every day outside the towns in scavenging carts and deposited in suitable places till they accumulate in sufficient quantity and are then sold by public auction either annually or periodically to ryots for agricultural purposes. There are eleven public latrines in the district and are built of brick and chunam with enclosures open above and with earth floors. All are in good condition and kept clean and neat. They are resorted to freely by the people. There are twenty-three towns and villages conserved, of which fifteen are unions and eight non-unions.

There are two sources of water-supply in the district, one from tanks and surface drainage and second from wells, the former being rainwater is soft, but contains large quantity of organic impurities ; the latter is harder, but comparatively free from organic impurities. Sixteen tanks and four wells are reserved for drinking purposes ; but as a watch is set over them only for certain periods and not continuously the precautions are doubtful in their efficacy. There are no public masonry drains in any of the towns or villages in the district, but site cuttings exist on both sides of roads, streets and lanes. Houses, public and private, are also deficient of proper drainage and in consequence house waste water and foul water find their way into public streets and lanes and contaminating the subsoil. There are no cess-pools except a few in Pulicat and a large one in Sembium.

Suggestions submitted.—To engage more watchmen to guard the sources of water-supply so that a permanent watch may be made ; to remove prickly pear as much as possible ; to sink few more public wells and to construct some more public latrines ; to introduce two or three night-soil carts in Chingleput town ; and to increase the conservancy establishment and to substitute moveable dust-bins.

Results.—Under the Chingleput Taluk Board one new well was sunk at a cost of Rs. 40, five tanks and three wells repaired for Rs. 127-9-4 and eleven watchmen engaged to guard sources of drinking-water. Two night-soil carts were introduced in Chingleput town. Under the Saidapet Taluk Board a proposal to bring fresh water-supply to the town of Saidapet has been submitted. Under the Tiruvallúr Taluk Board two new wells were sunk and fourteen more repaired. Springs to the extent of Rs 100 were dug and maintained in Ponnéri. Prickly-pears and rank vegetations in all the unions and non-union villages were removed at a cost of Rs. 353–11–0.

4. *Vaccination.*—Vaccination was maintained as heretofore in each dispensary and the work performed by the medical subordinates is shown below :—

Names of dispensaries and hospitals.	Number vaccinated.	Number successful.
Local Fund hospital, Chingleput	117	95
Do. do. Madurántakam	304	275
Do. do. Stríperumbúdúr	296	271
Do. dispensary, Saidapet	282	252

READ—the following papers :—

From C. H. MOUNSEY, Esq., President of the District Board, Chingleput, to the Chief Secretary to Government, dated Saidapet, 13th July 1895, No. 370-L.

I have the honour to report on the operation of local funds in the Chingleput district for the official year 1894–95, and to submit the prescribed statements including the educational Statements I to IV furnished by the Assistant Inspector of Schools.

I.—GENERAL.

2. *Administration.*—During the year under review the territorial jurisdiction of two of the three taluk boards, viz., Saidapet and Tiruvallúr, was altered in consequence of the redistribution of the revenue divisional charges under sanction conveyed in G.O., No. 2486 L., dated 8th November 1893. The Ponnéri revenue taluk which formed part of the Saidapet Local fund taluk has now been separated from it and added to the Tiruvallúr taluk with the two unions of Ponnéri and Pulicat attached to it. The Kachinad taluk with an area of 250 square miles and a population of 65,570, which hitherto formed part of the North Arcot district, has also been added to the Tiruvallúr taluk. Under the same order of Government the maximum strength of the Saidapet Taluk Board was reduced from fifteen to twelve and that of the Tiruvallúr Taluk Board was raised from twelve to fifteen and the corresponding elective seats on the district board held by the above two boards were altered into three and five, respectively, from five and three.

3. *District Board.*—The constitution of the district board on the 31st March 1895 and the average attendance of the members at meetings are shown in Statement XVI-A. On that date the board had the maximum sanctioned strength of 32 members. Of these three were ex-officio members, thirteen nominated, and sixteen elected.* The nominated members consisted of five officials and eight non-officials. Of the elected members, five were officials and eleven non-officials. The two vacancies at the close of the previous year among the elected members and the seven vacancies which occurred in the course of the year under review, viz., three among nominated and four among elected members were filled up within the year. Twelve meetings were held against thirteen in the previous year and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 14·1 (4·9 among officials and 9·2 among non-officials), or 44 per cent. of the actual strength against 16·6 (5·4 officials and

READ—the following papers :—

From C. H. MOUNSEY, Esq., President of the District Board, Chingleput, to the Chief Secretary to Government, dated Saidapet, 13th July 1895, No. 370-L.

I have the honour to report on the operation of local funds in the Chingleput district for the official year 1894–95, and to submit the prescribed statements including the educational Statements I to IV furnished by the Assistant Inspector of Schools.

I.—GENERAL.

2. *Administration.*—During the year under review the territorial jurisdiction of two of the three taluk boards, viz., Saidapet and Tiruvallúr, was altered in consequence of the redistribution of the revenue divisional charges under sanction conveyed in G.O., No. 2486 L., dated 8th November 1893. The Ponnéri revenue taluk which formed part of the Saidapet Local fund taluk has now been separated from it and added to the Tiruvallúr taluk with the two unions of Ponnéri and Pulicat attached to it. The Kachinad taluk with an area of 250 square miles and a population of 65,570, which hitherto formed part of the North Arcot district, has also been added to the Tiruvallúr taluk. Under the same order of Government the maximum strength of the Saidapet Taluk Board was reduced from fifteen to twelve and that of the Tiruvallúr Taluk Board was raised from twelve to fifteen and the corresponding elective seats on the district board held by the above two boards were altered into three and five, respectively, from five and three.

3. *District Board.*—The constitution of the district board on the 31st March 1895 and the average attendance of the members at meetings are shown in Statement XVI-A. On that date the board had the maximum sanctioned strength of 32 members. Of these three were ex-officio members, thirteen nominated, and sixteen elected.* The nominated members consisted of five officials and eight non-officials. Of the elected members, five were officials and eleven non-officials. The two vacancies at the close of the previous year among the elected members and the seven vacancies which occurred in the course of the year under review, viz., three among nominated and four among elected members were filled up within the year. Twelve meetings were held against thirteen in the previous year and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 14·1 (4·9 among officials and 9·2 among non-officials), or 44 per cent. of the actual strength against 16·6 (5·4 officials and

Tiruvallúr	..	5
Total	..	16

11·2 non-officials) or 55·3 per cent. in 1893–94. The decrease in the attendance of official members is due to the Executive Engineer and the educational officers not having attended any meeting. The decrease in the attendance of non-officials is due to vacancies in the year among elected members who generally attended at all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The three taluk boards in the district had, on the 31st March 1895, 43 members against 45 in the previous year. Two non-official seats fell vacant at the close of the year in the Chingleput Taluk Board and these have since been filled up. There occurred 23 vacancies during the year—two by death, one by resignation, three by transfer from the local areas of the taluk boards, three by expiry of term of office and fourteen by change in the revenue divisional charges. All these vacancies were filled up within the year. Forty-five meetings were held against 43 in 1893–94 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·3 (2·3 among officials and six among non-officials) or 58 per cent. of the actual strength against eight (two officials and six non-officials) or 53 per cent. in the preceding year. The improvement occurred in the attendance of official members.

5. *Union Panchayats.*—There were fifteen union panchayats at work at the end of the year as in the previous year; Statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1895, an aggregate strength of 123 members against the sanctioned number 127, four vacancies having occurred towards the close of the year on the Madurántakam, Walajabad and Saidapet panchayats. These have been since filled up. Of the actual number of members given above, 38 were ex-officio members, 10 other officials and 75 non-officials. Excluding the nine meetings, at which a quorum was not secured, the panchayats held 228 meetings or 15 on an average against 214 meetings or 14 in the preceding year, and the average attendance at each meeting was 5 (1·8 among officials and 3·2 among non-officials) against 5·2 (1·8 officials and 3·4 non-officials) in 1893–94, out of an average actual strength of 8·2. The attendance of the official element on the Sembiam panchayat was as unsatisfactory as in the previous year. The largest number of meetings, viz., 21, were held in Chingleput and Pulicat. No panchayat fell short of the required number of meetings under section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are available in Statement XVI-B.

The affairs of all the unions except Chingleput, Tiruppórúr, Madurántakam, Uttramerur and Ponnéri were managed by non-official Chairmen as in the previous year. The Deputy Superintendent of the Reformatory school at Chingleput, the local medical officers at Tiruppórúr, Madurántakam and Ponnéri and the Sub-Registrar at Uttramerur continued to be Chairmen of the panchayats in their respective unions. The Presidents of the three taluk boards are unanimous in reporting that the members and the Chairmen of the panchayats worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Pulicat union under the control of the Tiruvallúr Taluk Board and to Tiruppórúr, Sríperumbúdúr, Wallajabad, Cheyur and Uttramerur unions under the Chingleput Taluk Board and the same is reported to have worked satisfactorily in all the thirteen unions in which this system was introduced. It will be extended in the current year to the remaining two unions of Madurántakam and Karunguzhi. Private scavengering was introduced in the Chingleput union with some success through the exertion of Mr. J. P. Lewis the Chairman. The endeavour made to introduce the same in the Saidapet union proved a failure. The taluk boards and all the union panchayats have, on the whole, worked satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and expenditure (debt heads excluded) with those of 1893–94 :—

—	1893–94.				1894–95.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	— 4,225	3,830	705	310	20,680	21,796	1,358	43,834
Receipts	1,43,689	1,09,675	17,235	2,70,599	1,49,523	1,06,769	18,110	2,74,402
Allotment from district to taluk funds	— 7,558	7,558	..	..	— 17,252	17,252	..	..
Allotment from taluk to district funds	..	..	..	..	..	..	..	..
Allotment from taluk to union funds	..	— 3,044	3,044	..	..	— 3,224	3,224	..
Total ..	1,31,906	1,18,019	20,984	2,70,909	1,52,951	1,42,593	22,692	3,18,236
Expenditure ..	1,11,226	96,223	19,626	2,27,075	1,27,758	1,16,548	21,811	2,66,117
Balance ..	20,680	21,796	1,358	43,834	25,193	26,045	881	52,119

Excluding debt heads (Rs. 5,492) the year opened with a balance of Rs. 43,834. The current receipts amounted to Rs. 2,74,402 against Rs. 2,70,599 in 1893–94, and the charges to Rs. 2,66,117 against Rs. 2,27,075. The year closed with a balance of Rs. 52,119 in favour of local boards or 19 per cent. of the current receipts. This result was due to a balance considerably in excess of the estimate and to enhanced receipts under house-tax, fees and fines, fishery-rents, Public Works Department receipts and contributions from provincial funds for Public Works, and to short expenditure under Grant IV. The aforesaid balance includes Rs. 3,361 appertaining to the endowment funds. The principle upon which the receipts and charges were distributed among the local boards and union panchayats remained the same as in the previous years. Out of the contribution of Rs. 17,252, a sum of Rs. 15,692 was paid as usual to the Saidapet Taluk Board and the balance to the Tiruvallúr Taluk Board to make up for its inadequate receipts.

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total local fund receipts.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of the total local fund receipts.	
		Land-cess.	Tolls.	House-tax.	Total.		1893–94.	1894–95.	1893–94.	1894–95.	1893–94.	1894–95.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

II.—Receipts.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 49,326 against a *nil* balance in the previous year. The increase was due to largely reduced expenditure in 1893–94. The current receipts excluding debt heads (Rs. 9,447) amounted to Rs. 2,74,402 against Rupees 2,70,599 in 1893–94.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from Statement VII that the total demand including arrears amounted to Rs. 1,76,031, of which Rs. 1,70,362 or 96·7 per cent. of the total demand were collected within the year. In addition to this there was an excess collection of Rs. 24,983 chiefly in Conjeeveram taluk. The reason of this is not yet known. Information will be supplied upon its being known. A sum of Rs. 115 was written off as irrecoverable and there was a balance of Rs. 5,554 left at the close of the year.

11·2 non-officials) or 55·3 per cent. in 1893–94. The decrease in the attendance of official members is due to the Executive Engineer and the educational officers not having attended any meeting. The decrease in the attendance of non-officials is due to vacancies in the year among elected members who generally attended at all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The three taluk boards in the district had, on the 31st March 1895, 43 members against 45 in the previous year. Two non-official seats fell vacant at the close of the year in the Chingleput Taluk Board and these have since been filled up. There occurred 23 vacancies during the year—two by death, one by resignation, three by transfer from the local areas of the taluk boards, three by expiry of term of office and fourteen by change in the revenue divisional charges. All these vacancies were filled up within the year. Forty-five meetings were held against 43 in 1893–94 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·3 (2·3 among officials and six among non-officials) or 58 per cent. of the actual strength against eight (two officials and six non-officials) or 53 per cent. in the preceding year. The improvement occurred in the attendance of official members.

5. *Union Panchayats.*—There were fifteen union panchayats at work at the end of the year as in the previous year; Statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1895, an aggregate strength of 123 members against the sanctioned number 127, four vacancies having occurred towards the close of the year on the Madurántakam, Walajabad and Saidapet panchayats. These have been since filled up. Of the actual number of members given above, 38 were ex-officio members, 10 other officials and 75 non-officials. Excluding the nine meetings, at which a quorum was not secured, the panchayats held 228 meetings or 15 on an average against 214 meetings or 14 in the preceding year, and the average attendance at each meeting was 5 (1·8 among officials and 3·2 among non-officials) against 5·2 (1·8 officials and 3·4 non-officials) in 1893–94, out of an average actual strength of 8·2. The attendance of the official element on the Sembiam panchayat was as unsatisfactory as in the previous year. The largest number of meetings, viz., 21, were held in Chingleput and Pulicat. No panchayat fell short of the required number of meetings under section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are available in Statement XVI-B.

The affairs of all the unions except Chingleput, Tiruppórúr, Madurántakam, Uttramerur and Ponnéri were managed by non-official Chairmen as in the previous year. The Deputy Superintendent of the Reformatory school at Chingleput, the local medical officers at Tiruppórúr, Madurántakam and Ponnéri and the Sub-Registrar at Uttramerur continued to be Chairmen of the panchayats in their respective unions. The Presidents of the three taluk boards are unanimous in reporting that the members and the Chairmen of the panchayats worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Pulicat union under the control of the Tiruvallúr Taluk Board and to Tiruppórúr, Sríperumbúdúr, Wallajabad, Cheyur and Uttramerur unions under the Chingleput Taluk Board and the same is reported to have worked satisfactorily in all the thirteen unions in which this system was introduced. It will be extended in the current year to the remaining two unions of Madurántakam and Karunguzhi. Private scavengering was introduced in the Chingleput union with some success through the exertion of Mr. J. P. Lewis the Chairman. The endeavour made to introduce the same in the Saidapet union proved a failure. The taluk boards and all the union panchayats have, on the whole, worked satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and expenditure (debt heads excluded) with those of 1893–94 :—

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total local fund receipts.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of the total local fund receipts.	
		Land-cess.	Tolls.	House-tax.	Total.		1893–94.	1894–95.	1893–94.	1894–95.	1893–94.	1894–95.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
3,688	1,159,950	1,95,345	33,856	15,299	2,44,500	2,74,402	0 3 2	0 2 11	0 3 9	0 3 5	0 4 0	0 3 9

II.—Receipts.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 49,326 against a *nil* balance in the previous year. The increase was due to largely reduced expenditure in 1893–94. The current receipts excluding debt heads (Rs. 9,447) amounted to Rs. 2,74,402 against Rupees 2,70,599 in 1893–94.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from Statement VII that the total demand including arrears amounted to Rs. 1,76,031, of which Rs. 1,70,362 or 96·7 per cent. of the total demand were collected within the year. In addition to this there was an excess collection of Rs. 24,983 chiefly in Conjeeveram taluk. The reason of this is not yet known. Information will be supplied upon its being known. A sum of Rs. 115 was written off as irrecoverable and there was a balance of Rs. 5,554 left at the close of the year.

11·2 non-officials) or 55·3 per cent. in 1893–94. The decrease in the attendance of official members is due to the Executive Engineer and the educational officers not having attended any meeting. The decrease in the attendance of non-officials is due to vacancies in the year among elected members who generally attended at all meetings.

4. *Taluk Boards.*—Statement XVI-A shows the constitution and attendance of the taluk boards. The three taluk boards in the district had, on the 31st March 1895, 43 members against 45 in the previous year. Two non-official seats fell vacant at the close of the year in the Chingleput Taluk Board and these have since been filled up. There occurred 23 vacancies during the year—two by death, one by resignation, three by transfer from the local areas of the taluk boards, three by expiry of term of office and fourteen by change in the revenue divisional charges. All these vacancies were filled up within the year. Forty-five meetings were held against 43 in 1893–94 and none of them had to be adjourned for want of a quorum. The average attendance at each meeting was 8·3 (2·3 among officials and six among non-officials) or 58 per cent. of the actual strength against eight (two officials and six non-officials) or 53 per cent. in the preceding year. The improvement occurred in the attendance of official members.

5. *Union Panchayats.*—There were fifteen union panchayats at work at the end of the year as in the previous year; Statement XVI-A shows their constitution and the number of meetings held by them. The panchayats had, on the 31st March 1895, an aggregate strength of 123 members against the sanctioned number 127, four vacancies having occurred towards the close of the year on the Madurántakam, Walajabad and Saidapet panchayats. These have been since filled up. Of the actual number of members given above, 38 were ex-officio members, 10 other officials and 75 non-officials. Excluding the nine meetings, at which a quorum was not secured, the panchayats held 228 meetings or 15 on an average against 214 meetings or 14 in the preceding year, and the average attendance at each meeting was 5 (1·8 among officials and 3·2 among non-officials) against 5·2 (1·8 officials and 3·4 non-officials) in 1893–94, out of an average actual strength of 8·2. The attendance of the official element on the Sembiam panchayat was as unsatisfactory as in the previous year. The largest number of meetings, viz., 21, were held in Chingleput and Pulicat. No panchayat fell short of the required number of meetings under section 129 of the Act. The details of vacancies that occurred and the appointments made in the several union panchayats in the district are available in Statement XVI-B.

The affairs of all the unions except Chingleput, Tiruppórúr, Madurántakam, Uttramerur and Ponnéri were managed by non-official Chairmen as in the previous year. The Deputy Superintendent of the Reformatory school at Chingleput, the local medical officers at Tiruppórúr, Madurántakam and Ponnéri and the Sub-Registrar at Uttramerur continued to be Chairmen of the panchayats in their respective unions. The Presidents of the three taluk boards are unanimous in reporting that the members and the Chairmen of the panchayats worked harmoniously and with zeal, and attended to sanitation and the laying out of village streets and conservancy. The ward system of supervision was extended during the year under review to Pulicat union under the control of the Tiruvallúr Taluk Board and to Tiruppórúr, Sríperumbúdúr, Wallajabad, Cheyur and Uttramerur unions under the Chingleput Taluk Board and the same is reported to have worked satisfactorily in all the thirteen unions in which this system was introduced. It will be extended in the current year to the remaining two unions of Madurántakam and Karunguzhi. Private scavengering was introduced in the Chingleput union with some success through the exertion of Mr. J. P. Lewis the Chairman. The endeavour made to introduce the same in the Saidapet union proved a failure. The taluk boards and all the union panchayats have, on the whole, worked satisfactorily.

6. *Financial Position.*—The subjoined statement compares the receipts and expenditure (debt heads excluded) with those of 1893–94 :—

	1893–94.				1894–95.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	— 4,225	3,830	705	310	20,680	21,796	1,358	43,834
Receipts	1,43,689	1,09,675	17,235	2,70,599	1,49,523	1,06,769	18,110	2,74,402
Allotment from district to taluk funds	— 7,558	7,558	..	..	— 17,252	17,252	..	..
Allotment from taluk to district funds	..	..	..	..	..	..	..	..
Allotment from taluk to union funds	..	— 3,044	3,044	..	..	— 3,224	3,224	..
Total ..	1,31,906	1,18,019	20,984	2,70,909	1,52,951	1,42,593	22,692	3,18,236
Expenditure ..	1,11,226	96,223	19,626	2,27,075	1,27,758	1,16,548	21,811	2,66,117
Balance ..	20,680	21,796	1,358	43,834	25,193	26,045	881	52,119

Excluding debt heads (Rs. 5,492) the year opened with a balance of Rs. 43,834. The current receipts amounted to Rs. 2,74,402 against Rs. 2,70,599 in 1893–94, and the charges to Rs. 2,66,117 against Rs. 2,27,075. The year closed with a balance of Rs. 52,119 in favour of local boards or 19 per cent. of the current receipts. This result was due to a balance considerably in excess of the estimate and to enhanced receipts under house-tax, fees and fines, fishery-rents, Public Works Department receipts and contributions from provincial funds for Public Works, and to short expenditure under Grant IV. The aforesaid balance includes Rs. 3,361 appertaining to the endowment funds. The principle upon which the receipts and charges were distributed among the local boards and union panchayats remained the same as in the previous years. Out of the contribution of Rs. 17,252, a sum of Rs. 15,692 was paid as usual to the Saidapet Taluk Board and the balance to the Tiruvallúr Taluk Board to make up for its inadequate receipts.

The incidence of local fund taxation per head of the population according to the census of 1891 is shown in the subjoined statement :—

Area in square miles.	Population according to the census of 1891.	Income from taxation.				Total local fund receipts.	Incidence of taxation excluding tolls.		Incidence of taxation including tolls.		Incidence of the total local fund receipts.	
		Land-cess.	Tolls.	House-tax.	Total.		1893–94.	1894–95.	1893–94.	1894–95.	1893–94.	1894–95.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
3,088	1,159,950	1,95,345	33,856	15,299	2,44,500	2,74,402	0 3 2	0 2 11	0 3 9	0 3 5	0 4 0	0 3 9

II.—RECEIPTS.

7. Statements I-A and II-B show the total receipts of the local boards and union panchayats under the several heads including debt head transactions. The year opened with a balance of Rs. 49,326 against a *nil* balance in the previous year. The increase was due to largely reduced expenditure in 1893–94. The current receipts excluding debt heads (Rs. 9,447) amounted to Rs. 2,74,402 against Rupees 2,70,599 in 1893–94.

8. *Land-cess.*—This cess was levied as usual at the rate of one anna in the rupee. It will be observed from Statement VII that the total demand including arrears amounted to Rs. 1,76,031, of which Rs. 1,70,362 or 96·7 per cent. of the total demand were collected within the year. In addition to this there was an excess collection of Rs. 24,983 chiefly in Conjeeveram taluk. The reason of this is not yet known. Information will be supplied upon its being known. A sum of Rs. 115 was written off as irrecoverable and there was a balance of Rs. 5,554 left at the close of the year.

9. *Tolls.*—The number and position of the toll-gates in the district were the same as in the previous year, and tolls were collected at all of them at half the maximum rates sanctioned in the Act. All were leased out for the year for a sum of Rs. 31,945 against Rs. 33,549 in 1893–94. The decrease is due to the Vandalúr gate not having fetched good bids during the sales owing to the previous year's contractor having sustained a loss. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and establishment contingencies, the net income from all heads of tolls amounted to Rs. 33,393 or Rs. 48–12–0 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rs. 177, the income from tolls covered 27·5 per cent. of the total outlay against 38 per cent. in the previous year. The large difference is due to the fact of increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—In the previous year this tax was in force in fourteen out of fifteen unions. It was extended during the year under review to Tiruppórúr union also by sanction conveyed in G.O., Mis. No. 329 L., dated 19th February 1894. From Statement VIII it will be seen that there was an arrear of Rs. 116 outstanding at the beginning of the year which, together with the current demand, Rs. 15,299, raised the total amount for realization to Rs. 15,415. Of this demand, Rs. 15,299 or 99 per cent. were collected within the year against 98 per cent. in the preceding year. A sum of Rs. 15 was remitted on account of vacant houses and Rs. 53 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 48 left uncollected at the end of the year, of which the greater portion has since been remitted. The collections were good in all the unions and especially at Sríperumbúdúr, Karunguzhi, Tiruvottiyur, Saidapet, Sembiem, Kunnattur, Pulicat and Tiruvallúr.

The number of houses in the aforesaid 15 unions was 16,575 as per census of 1891, and the number actually assessed to the tax was 18,264. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Tiruvottiyur and Tiruvallúr. The reason therefor is as explained last year that the census figures do not relate to unoccupied houses.

The average incidence of the tax per house assessed was As. 13–5 against As. 13–4 in 1893–94 and ranged between Rs. 1–2–9 in Saidapet and As. 7–11 in Cheyur. Coercive measures were resorted to in all the unions except Chingleput and Ponnéri. Distress warrants were issued in 317 cases, property distrained in 180, and sold only in 40, the corresponding figures for 1893–94 being 466, 242 and 60. The amount recovered by actual sale was only Rs. 34. The largest number of warrants (51 in each) was issued in Sríperumbúdúr, Saidapet and Tiruvallúr, but they were not executed with promptitude, distraint having resulted in 37, 9 and 4 cases, respectively, while sales were effected in 14 and 2 cases in the aforesaid first two unions only.

11. *Education.*—The receipts under this head are small and do not call for special remarks.

12. *Medical*—(*c*) *Contributions*—(3) *From Private Individuals.*—The contributions amounting to Rs. 803 received from private individuals for constructing an out-patient ward to the Chingleput hospital and for constructing an hospital building at Saidapet have been shown under 6. Public Works as per instructions issued in the memorandum of Government, dated 1st September 1894, No. 736. The revised estimate prepared for the former work in accordance with the views of the Sanitary Board is now before the Chingleput Taluk Board for consideration and an estimate is under preparation for the Saidapet hospital.

(*d*) *Income from Endowments.*—These consisted of rents of the inam lands of Nandambakam, Siruvallur and Gollanchavadi chattrams and of the water-pandal maniyams of Kodambakam and Puliyur made over to the Saidapet dispensary. The

receipts under this head amounted to Rs. 208 against Rs. 102 in the previous year. The increase is due to the realization of a heavy balance outstanding at the beginning of the year.

13. *Interest*—(*a*) *On Government Securities.*—This was derived from the investments in Government securities made in favour of (1) the surplus pagoda fund, the proceeds of which are devoted to the upkeep of the Chingleput hospital; (2) the endowment funds of the Chingleput hospital; and (3) the Petrus Uscan's Charity fund designated for the repair of the Marmalong bridge and the steps leading up St. Thomas' Mount. The income from these sources amounted to Rs. 1,549 against Rs. 1,561 in 1893–94 and the decrease is trifling.

14. *Miscellaneous*—(*a*) *Choultry Rents.*—These are derived from the endowment attached to Chandra Sekara Pillai's choultry at Pallávaram and from the lands assigned to the local fund chattram at Chingleput, viz. (1) maniyam lands of the late Venkataranga Pillai's choultry at Sríperumbúdúr; (2) the inam lands attached to the same choultry; and (3) the assessment on the resumed inam lands of Rama Nayak's choultry. The sum realized from these sources amounted to Rs. 169 against Rs. 131 in 1893–94. The increase is trifling and it is due to realization of a portion of the arrears outstanding at the close of the previous year.

(*b*) *Market Rents.*—Weekly markets are held in various places in the district, but all of them are poorly attended. The Presidents of Chingleput and Tiruvallúr Taluk Boards report that their endeavours to increase the attendance were fruitless. During the year under review tiled sheds at a cost of Rs. 200 have been erected for the weekly market at Uttramerur and a further endeavour will be made in this direction to make them attractive and thus to increase their usefulness. There were two markets built by the local boards, the weekly market at Avadi and the vegetable market at Pulicat. The Avadi market stands on private land and the owner collects some fees and appropriates them for purposes of charity. Fees were levied in the Pulicat market and the amount realized was Rs. 14 against Rs. 11 in the previous year. Fees will be levied from the current year in the newly constructed market at Uttramerur.

(*f*) *Fees and Fines.*—A sum of Rs. 2,979 was realized against an estimate of Rs. 1,700 and actuals of Rs. 2,015 in 1893–94. The increase appears chiefly under other fees and fines and it is due to imposition of fines on zamindars and shrotriemdars for delays in submitting accounts of land-cess. Some portion of these fines will be refunded.

(*h*) *Fishery Rents.*—According to the demand, collection and balance statement furnished by Tahsildars, the total demand including arrears amounted to Rs. 2,947, of which Rs. 2,816 or 95·5 per cent. were realized against 74 per cent. in the previous year. Rs. 920 realized under this head from the Public Works Department has been shown as a separate item under 6(*e*). Public Works.

(*i*) *Rents and Produce of Land.*—A sum of Rs. 438 was realized against an estimate of Rs. 540 and actuals of Rs. 1,019 in 1893–94. The decrease is due to unusually large receipts under this head in 1893–94 owing to sale of trees blown down by a cyclone and penal assessment charged by Revenue officers which was afterwards refunded.

(*j*) *Avenues.*—The receipts from lease of avenue produce and sale of withered avenue trees amounted to Rs. 2,083 against Rs. 1,501 in 1893–94. The amount obtained is still not equal to Rs. 2,203, the receipts of 1892–93 and it is presumed, as the five-year lease system has been introduced, the amount will not vary much for five more years. The experiment seems to be of doubtful success.

15. *Public Works*—(*d*) *Contributions*—(3) *From Private Individuals.*—The contributions received from private individuals for constructing hospitals, &c., having been shown under this head as per instructions of Government contained in memorandum, dated 1st September 1894, No. 736, instead of under "Medical" as in the previous years, the receipts under this head show an increase over the actuals of the previous year.

16. *Contributions from Provincial Funds*—(*a*) *Education.*—The sum of Rs. 60 shown under the district board in Statement I-A is the amount of stipends paid from

9. *Tolls.*—The number and position of the toll-gates in the district were the same as in the previous year, and tolls were collected at all of them at half the maximum rates sanctioned in the Act. All were leased out for the year for a sum of Rs. 31,945 against Rs. 33,549 in 1893–94. The decrease is due to the Vandalúr gate not having fetched good bids during the sales owing to the previous year's contractor having sustained a loss. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and establishment contingencies, the net income from all heads of tolls amounted to Rs. 33,393 or Rs. 48–12–0 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rs. 177, the income from tolls covered 27·5 per cent. of the total outlay against 38 per cent. in the previous year. The large difference is due to the fact of increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—In the previous year this tax was in force in fourteen out of fifteen unions. It was extended during the year under review to Tiruppórúr union also by sanction conveyed in G.O., Mis. No. 329 L., dated 19th February 1894. From Statement VIII it will be seen that there was an arrear of Rs. 116 outstanding at the beginning of the year which, together with the current demand, Rs. 15,299, raised the total amount for realization to Rs. 15,415. Of this demand, Rs. 15,299 or 99 per cent. were collected within the year against 98 per cent. in the preceding year. A sum of Rs. 15 was remitted on account of vacant houses and Rs. 53 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 48 left uncollected at the end of the year, of which the greater portion has since been remitted. The collections were good in all the unions and especially at Sríperumbúdúr, Karunguzhi, Tiruvottiyur, Saidapet, Sembiem, Kunnattur, Pulicat and Tiruvallúr.

The number of houses in the aforesaid 15 unions was 16,575 as per census of 1891, and the number actually assessed to the tax was 18,264. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Tiruvottiyur and Tiruvallúr. The reason therefor is as explained last year that the census figures do not relate to unoccupied houses.

The average incidence of the tax per house assessed was As. 13–5 against As. 13–4 in 1893–94 and ranged between Rs. 1–2–9 in Saidapet and As. 7–11 in Cheyur. Coercive measures were resorted to in all the unions except Chingleput and Ponnéri. Distress warrants were issued in 317 cases, property distrained in 180, and sold only in 40, the corresponding figures for 1893–94 being 466, 242 and 60. The amount recovered by actual sale was only Rs. 34. The largest number of warrants (51 in each) was issued in Sríperumbúdúr, Saidapet and Tiruvallúr, but they were not executed with promptitude, distraint having resulted in 37, 9 and 4 cases, respectively, while sales were effected in 14 and 2 cases in the aforesaid first two unions only.

11. *Education.*—The receipts under this head are small and do not call for special remarks.

12. *Medical*—(*c*) *Contributions*—(3) *From Private Individuals.*—The contributions amounting to Rs. 803 received from private individuals for constructing an out-patient ward to the Chingleput hospital and for constructing an hospital building at Saidapet have been shown under 6. Public Works as per instructions issued in the memorandum of Government, dated 1st September 1894, No. 736. The revised estimate prepared for the former work in accordance with the views of the Sanitary Board is now before the Chingleput Taluk Board for consideration and an estimate is under preparation for the Saidapet hospital.

(*d*) *Income from Endowments.*—These consisted of rents of the inam lands of Nandambakam, Siruvallur and Gollanchavadi chattrams and of the water-pandal maniyams of Kodambakam and Puliyur made over to the Saidapet dispensary. The

receipts under this head amounted to Rs. 208 against Rs. 102 in the previous year. The increase is due to the realization of a heavy balance outstanding at the beginning of the year.

13. *Interest*—(*a*) *On Government Securities.*—This was derived from the investments in Government securities made in favour of (1) the surplus pagoda fund, the proceeds of which are devoted to the upkeep of the Chingleput hospital; (2) the endowment funds of the Chingleput hospital; and (3) the Petrus Uscan's Charity fund designated for the repair of the Marmalong bridge and the steps leading up St. Thomas' Mount. The income from these sources amounted to Rs. 1,549 against Rs. 1,561 in 1893–94 and the decrease is trifling.

14. *Miscellaneous*—(*a*) *Choultry Rents.*—These are derived from the endowment attached to Chandra Sekara Pillai's choultry at Pallávaram and from the lands assigned to the local fund chattram at Chingleput, viz. (1) maniyam lands of the late Venkataranga Pillai's choultry at Sríperumbúdúr; (2) the inam lands attached to the same choultry; and (3) the assessment on the resumed inam lands of Rama Nayak's choultry. The sum realized from these sources amounted to Rs. 169 against Rs. 131 in 1893–94. The increase is trifling and it is due to realization of a portion of the arrears outstanding at the close of the previous year.

(*b*) *Market Rents.*—Weekly markets are held in various places in the district, but all of them are poorly attended. The Presidents of Chingleput and Tiruvallúr Taluk Boards report that their endeavours to increase the attendance were fruitless. During the year under review tiled sheds at a cost of Rs. 200 have been erected for the weekly market at Uttramerur and a further endeavour will be made in this direction to make them attractive and thus to increase their usefulness. There were two markets built by the local boards, the weekly market at Avadi and the vegetable market at Pulicat. The Avadi market stands on private land and the owner collects some fees and appropriates them for purposes of charity. Fees were levied in the Pulicat market and the amount realized was Rs. 14 against Rs. 11 in the previous year. Fees will be levied from the current year in the newly constructed market at Uttramerur.

(*f*) *Fees and Fines.*—A sum of Rs. 2,979 was realized against an estimate of Rs. 1,700 and actuals of Rs. 2,015 in 1893–94. The increase appears chiefly under other fees and fines and it is due to imposition of fines on zamindars and shrotriemdars for delays in submitting accounts of land-cess. Some portion of these fines will be refunded.

(*h*) *Fishery Rents.*—According to the demand, collection and balance statement furnished by Tahsildars, the total demand including arrears amounted to Rs. 2,947, of which Rs. 2,816 or 95·5 per cent. were realized against 74 per cent. in the previous year. Rs. 920 realized under this head from the Public Works Department has been shown as a separate item under 6(*e*). Public Works.

(*i*) *Rents and Produce of Land.*—A sum of Rs. 438 was realized against an estimate of Rs. 540 and actuals of Rs. 1,019 in 1893–94. The decrease is due to unusually large receipts under this head in 1893–94 owing to sale of trees blown down by a cyclone and penal assessment charged by Revenue officers which was afterwards refunded.

(*j*) *Avenues.*—The receipts from lease of avenue produce and sale of withered avenue trees amounted to Rs. 2,083 against Rs. 1,501 in 1893–94. The amount obtained is still not equal to Rs. 2,203, the receipts of 1892–93 and it is presumed, as the five-year lease system has been introduced, the amount will not vary much for five more years. The experiment seems to be of doubtful success.

15. *Public Works*—(*d*) *Contributions*—(3) *From Private Individuals.*—The contributions received from private individuals for constructing hospitals, &c., having been shown under this head as per instructions of Government contained in memorandum, dated 1st September 1894, No. 736, instead of under "Medical" as in the previous years, the receipts under this head show an increase over the actuals of the previous year.

16. *Contributions from Provincial Funds*—(*a*) *Education.*—The sum of Rs. 60 shown under the district board in Statement I-A is the amount of stipends paid from

9. *Tolls.*—The number and position of the toll-gates in the district were the same as in the previous year, and tolls were collected at all of them at half the maximum rates sanctioned in the Act. All were leased out for the year for a sum of Rs. 31,945 against Rs. 33,549 in 1893–94. The decrease is due to the Vandalúr gate not having fetched good bids during the sales owing to the previous year's contractor having sustained a loss. There were no arrears outstanding at the beginning of the year and the whole of the aforesaid lease amount was collected within the year. Excluding charges incurred for construction and repair of toll-sheds and establishment contingencies, the net income from all heads of tolls amounted to Rs. 33,393 or Rs. 18–12–0 per mile of road maintained by local boards. The cost of maintaining each mile of these roads, excluding charges on account of bridges, &c., being Rs. 177, the income from tolls covered 27·5 per cent. of the total outlay against 38 per cent. in the previous year. The large difference is due to the fact of increased expenditure on roads during the year under report on account of special repairs.

10. *House-tax.*—In the previous year this tax was in force in fourteen out of fifteen unions. It was extended during the year under review to Tiruppórúr union also by sanction conveyed in G.O., Mis. No. 329 L., dated 19th February 1894. From Statement VIII it will be seen that there was an arrear of Rs. 116 outstanding at the beginning of the year which, together with the current demand, Rs. 15,299, raised the total amount for realization to Rs. 15,415. Of this demand, Rs. 15,299 or 99 per cent. were collected within the year against 98 per cent. in the preceding year. A sum of Rs. 15 was remitted on account of vacant houses and Rs. 53 were written off as irrecoverable being due on demolished or deserted houses and on houses whose owners were too poor to pay the tax. There was a balance of Rs. 48 left uncollected at the end of the year, of which the greater portion has since been remitted. The collections were good in all the unions and especially at Sríperumbúdúr, Karunguzhi, Tiruvottiyur, Saidapet, Sembiem, Kunnattur, Pulicat and Tiruvallúr.

The number of houses in the aforesaid 15 unions was 16,575 as per census of 1891, and the number actually assessed to the tax was 18,264. The number of houses actually assessed to the tax is in excess of the census figure of 1891 in all the unions except Tiruvottiyur and Tiruvallúr. The reason therefor is as explained last year that the census figures do not relate to unoccupied houses.

The average incidence of the tax per house assessed was As. 13–5 against As. 13–4 in 1893–94 and ranged between Rs. 1–2–9 in Saidapet and As. 7–11 in Cheyur. Coercive measures were resorted to in all the unions except Chingleput and Ponnéri. Distress warrants were issued in 317 cases, property distrained in 180, and sold only in 40, the corresponding figures for 1893–94 being 466, 242 and 60. The amount recovered by actual sale was only Rs. 34. The largest number of warrants (51 in each) was issued in Sríperumbúdúr, Saidapet and Tiruvallúr, but they were not executed with promptitude, distraint having resulted in 37, 9 and 4 cases, respectively, while sales were effected in 14 and 2 cases in the aforesaid first two unions only.

11. *Education.*—The receipts under this head are small and do not call for special remarks.

12. *Medical*—(*c*) *Contributions*—(3) *From Private Individuals.*—The contributions amounting to Rs. 803 received from private individuals for constructing an out-patient ward to the Chingleput hospital and for construeting an hospital building at Saidapet have been shown under 6. Public Works as per instructions issued in the memorandum of Government, dated 1st September 1894, No. 736. The revised estimate prepared for the former work in accordance with the views of the Sanitary Board is now before the Chingleput Taluk Board for consideration and an estimate is under preparation for the Saidapet hospital.

(*d*) *Income from Endowments.*—These consisted of rents of the inam lands of Nandambakam, Siruvallur and Gollanchavadi chattrams and of the water-pandal maniyams of Kodambakam and Puliyur made over to the Saidapet dispensary. The

receipts under this head amounted to Rs. 208 against Rs. 102 in the previous year. The increase is due to the realization of a heavy balance outstanding at the beginning of the year.

13. *Interest*—(*a*) *On Government Securities.*—This was derived from the investments in Government securities made in favour of (1) the surplus pagoda fund, the proceeds of which are devoted to the upkeep of the Chingleput hospital; (2) the endowment funds of the Chingleput hospital; and (3) the Petrus Uscan's Charity fund designated for the repair of the Marmalong bridge and the steps leading up St. Thomas' Mount. The income from these sources amounted to Rs. 1,549 against Rs. 1,561 in 1893–94 and the decrease is trifling.

14. *Miscellaneous*—(*a*) *Choultry Rents.*—These are derived from the endowment attached to Chandra Sekara Pillai's choultry at Pallávaram and from the lands assigned to the local fund chattram at Chingleput, viz. (1) maniyam lands of the late Venkataranga Pillai's choultry at Sríperumbúdúr; (2) the inam lands attached to the same choultry; and (3) the assessment on the resumed inam lands of Rama Nayak's choultry. The sum realized from these sources amounted to Rs. 169 against Rs. 131 in 1893–94. The increase is trifling and it is due to realization of a portion of the arrears outstanding at the close of the previous year.

(*b*) *Market Rents.*—Weekly markets are held in various places in the district, but all of them are poorly attended. The Presidents of Chingleput and Tiruvallúr Taluk Boards report that their endeavours to increase the attendance were fruitless. During the year under review tiled sheds at a cost of Rs. 200 have been erected for the weekly market at Uttramerur and a further endeavour will be made in this direction to make them attractive and thus to increase their usefulness. There were two markets built by the local boards, the weekly market at Avadi and the vegetable market at Pulicat. The Avadi market stands on private land and the owner collects some fees and appropriates them for purposes of charity. Fees were levied in the Pulicat market and the amount realized was Rs. 14 against Rs. 11 in the previous year. Fees will be levied from the current year in the newly constructed market at Uttramerur.

(*f*) *Fees and Fines.*—A sum of Rs. 2,979 was realized against an estimate of Rs. 1,700 and actuals of Rs. 2,015 in 1893–94. The increase appears chiefly under other fees and fines and it is due to imposition of fines on zamindars and shrotriemdars for delays in submitting accounts of land-cess. Some portion of these fines will be refunded.

(*h*) *Fishery Rents.*—According to the demand, collection and balance statement furnished by Tahsildars, the total demand including arrears amounted to Rs. 2,947, of which Rs. 2,816 or 95·5 per cent. were realized against 74 per cent. in the previous year. Rs. 920 realized under this head from the Public Works Department has been shown as a separate item under 6(*e*). Public Works.

(*i*) *Rents and Produce of Land.*—A sum of Rs. 438 was realized against an estimate of Rs. 540 and actuals of Rs. 1,019 in 1893–94. The decrease is due to unusually large receipts under this head in 1893–94 owing to sale of trees blown down by a cyclone and penal assessment charged by Revenue officers which was afterwards refunded.

(*j*) *Avenues.*—The receipts from lease of avenue produce and sale of withered avenue trees amounted to Rs. 2,083 against Rs. 1,501 in 1893–94. The amount obtained is still not equal to Rs. 2,203, the receipts of 1892–93 and it is presumed, as the five-year lease system has been introduced, the amount will not vary much for five more years. The experiment seems to be of doubtful success.

15. *Public Works*—(*d*) *Contributions*—(3) *From Private Individuals.*—The contributions received from private individuals for constructing hospitals, &c., having been shown under this head as per instructions of Government contained in memorandum, dated 1st September 1894, No. 736, instead of under "Medical" as in the previous years, the receipts under this head show an increase over the actuals of the previous year.

16. *Contributions from Provincial Funds*—(*a*) *Education.*—The sum of Rs. 60 shown under the district board in Statement I-A is the amount of stipends paid from

provincial funds to certain teachers from other districts under training in the Teachers' College and was advised by the Accountant-General to be included in the local fund account by credit and debit, respectively. This being excluded, the actual amount drawn from provincial funds on behalf of boys and girls in the boards schools was Rs. 437 against an estimate of Rs. 790. The decrease appears chiefly under the Chingleput taluk board and is explained as due to the earnings of some schools not having been drawn within the year.

(*b*) *Public Works.*—Rs. 14,000 were drawn from Provincial funds under sanction conveyed in G.O., Mis. No. 913 L., dated 23rd May 1894, for re-coating 4 to 12 miles of the Great Western Trunk road which were very bad owing to heavy traffic close to the presidency town.

III.—Expenditure.

17. Statement I-B shows the total expenditure of the local boards under all grants including debt head transactions. The total expenditure excluding debt heads (Rs. 8,215) amounted to Rs. 2,66,117 against Rs. 2,27,075 in 1893–94. The difference is the net result of increased expenditure under Grants I and III and decrease under Grants II and IV. The outlay under the several grants and the percentages of expenditure under each grant to the total outlay of the year are exhibited below:—

Grants.	Expenditure.		Percentages.	
	1893–94.	1894–95.	1893–94.	1894–95.
	Rs.	Rs.		
Grant I	1,18,050	1,57,176	52	59
,, II	24,113	22,364	11	8
,, III	52,705	57,209	23	22
,, IV	32,207	29,368	14	11
Total ..	2,27,075	2,66,117	100	100

18. *Grant I, Public Works.*—Statement III shows the particulars of the outlay on works. The total expenditure on works amounted to Rs. 1,36,791 against Rs. 98,894 in the preceding year, the increase being mainly due to additional allotments provided for the special repairs of certain roads which were much in need of them. The expenditure was equivalent to 49·8 per cent. of the year's receipts and 51·4 per cent. of the total charges against 37 and 43·5 per cent. respectively in 1893–94, and was incurred wholly by the Engineering establishment with the exception of a small amount of Rs. 1,065 which was spent by the Presidents of taluk boards on sundry petty works.

19. *Communications—New and Repair.*—Of the total outlay on works mentioned in the preceding paragraph, Rs. 1,28,637 were spent on roads against an estimate of Rs. 1,29,038 and actuals of Rs. 94,041 in 1893–94. The increase is due to the special repairs mentioned above. Statement IV-A gives statistics of roads in the district. There were 896 miles 7½ furlongs of road in charge of local boards at the commencement of the year. Of this length, 685 miles and 5 furlongs were maintained against 684 miles and 4 furlongs in 1893–94. Excluding the charges on account of bridges, toll-sheds, &c., the cost of maintaining each mile of road repaired was Rs. 272 for district, Rs. 118 for taluk and Rs. 133 for village roads, against Rs. 210, Rs. 95 and Rs. 62, respectively, in the previous year. The total outlay on village roads was Rs. 5,177 or 4·1 per cent. of the total outlay on roads, viz., Rs. 1,24,983 against 2·6 per cent. in 1893–94.

20. *Condition of Roads.*—All the roads in the district were maintained in fair order except some which are worn out by heavy traffic. The District Board Engineer states that every endeavour is being made by him to restore these roads also by obtaining special grants. In this way the Kodambakkam-Sríperumbúdúr road and the three miles of the road from Red Hills to Tiruvallúr close to Tiruvallúr town are being restored.

21. *Civil Buildings—New and Repair.*—A sum of Rs. 1,335 was spent out of a total sanctioned allotment of Rs. 3,706 on new works, which consisted in providing an out-patient ward to the Chingleput hospital, six school-houses and some other petty buildings. The decrease is mainly due to the work of the out-patient ward for the Chingleput hospital not having been taken up for want of the Sanitary Board's approval for the estimate. Under repairs a sum of Rs. 2,413 was spent against an estimate of Rs. 2,231 for repairing and whitewashing, as usual, the buildings in charge of local boards. The increase is due to the special repairs executed to the dispensary building at Nágalápuram from the general savings.

22. *Miscellaneous Public Improvements—New and Repair.*—Rs. 839 were spent under "New Works" against an estimate of Rs. 700. The increase is due to the construction of drainage works in Saidapet union from contributions received from private individuals. The only important work executed was the construction of tiled sheds for the market at Uttramerur. Under "Repairs" a sum of Rs. 3,567 or 100·4 per cent. of the sanctioned allotment was spent against Rs. 3,482 in 1893–94. The expenditure was incurred as usual on labour employed for watering, watching, fencing and planting avenue trees. Statement IV-B gives statistics of road avenues. The number of miles of road provided with avenues was 533⅜ miles against 524 miles in the preceding year, and the reasons for the variation are noted at the foot of the above statement. There were at the commencement of the year 96,452 trees; 6,863 plants were put down in the year and 820 perished, so that there were at the close of the year 102,495 trees. The Engineer reports that in the recent enumeration of trees held by him he found 32,523 trees in excess of the trees hitherto accounted for, and adding this to the number of trees at the close of the year as shown above, the actual total number of trees at the close of the year will be 135,018. Besides these, there were 3,200 plants in the two nurseries of Guindy and Puduvoil against 1,178 at the close of the previous year. As instructed by Government in the review on last year's report, seedlings were raised in baskets. The Engineer reports that this method is more expensive and the trouble in preventing the baskets from being destroyed by white-ants is much, and suggests that the practice of transplanting from nurseries may be continued.

23. *Engineering Establishment.*—Mr. Dwyer continued to be the District Board Engineer of this district, he having been confirmed in that post—*vide* G.O., No. 1744 L., Mis., dated 10th September 1894. The cost of the establishment including contingencies amounted to Rs. 19,603 or 14·4 per cent. of the outlay on works by that agency (Rs. 1,35,726) against 18·8 per cent. in 1893–94. The decrease is chiefly due to increased outlay on works during the year under review. A sum of Rs. 144 is, as advised by the Inspector of Local Fund Accounts, shown under "Public Works Department Supervision" and was the charge adjusted from Local funds in favour of that department for its having collected fish rents.

(*b*) *Tolls and Ferries.*—Expenditure was incurred in advertising the sale of tolls and supplying license tickets and painting numbers on licensed carts and for repairing a boat at Odappai. The increase as compared with the actuals of 1893–94 is due to repairs executed to the boat at Odappai.

(*d*) *Tools and Plant.*—A sum of Rs. 318 was spent under this head against an estimate of Rs. 145, and the increase is due to purchase of new tools, the spreading work having been undertaken departmentally.

(*g*) *Miscellaneous—Refunds.*—Rs. 195 were spent under this head being the refunds of license fees collected in 1893–94 in Tiruvallúr in respect of town carts passing through the gate at that station. The decrease as compared with the actuals of 1893–94 is due to fees collected in 1890–91 having also been refunded with those for 1892–93 in that year.

24. *Grant II, Education.*—The educational operations of local boards in the district were confined to the spread of primary education. One sessional school, 33 schools on the salary results system and 480 on the results and salary grant systems were maintained against 1, 27 and 440 respectively at the end of 1893–94. The education of Panchama children received attention; and of the number of schools noted

above, 69 were exclusively maintained for this class. They had on the rolls 1,868 pupils and the average attendance was 1,465 as against 1,793 with an average attendance of 1,395 in 1893–94. Of these schools, 10 were on the salary result system and the rest on the result grant system. There were also 5 schools on the salary-result system and 6 on the result grant system for the exclusive benefit of Muhammadans, and these schools were attended by 392 pupils against 432 in the previous year with an average attendance of 273 pupils. There were on the rolls in all the schools on the 31st March last 14,167 boys and 1,240 girls against 13,526 boys and 198 girls in 1893–94, and the total number bore a proportion of 18 per cent. of the school-going population (86,996) calculated at 7½ per cent. of the total population of the district. The outlay on education excluding the expenditure on school buildings (Rs. 1,099) shown in statement III amounted to Rs. 22,364 against Rs. 24,113 in 1893–94 and formed nearly 8 per cent. of the current receipts and 9 per cent. of the current charges of the year. The low percentage was due to full grants earned not having been drawn within the year. The remark of Government under this head contained in paragraph 32 of the general review for 1893–94 is kept in view and every endeavour will be made to increase the outlay.

25. (*a*) *Inspection.*—The inspecting and supervising agencies continued unaltered. The six inspecting schoolmasters employed by the district board visited 806 villages and prepared 729 * schools for examination against 805 and 953 respectively in 1893–94. These results appear bad. Besides these, the Muhammadan inspecting schoolmaster of the Madras Municipality, who was deputed, as usual, to inspect Muhammadan schools in the district, visited 15 villages and prepared 20 † schools for examination against 24 and 24 respectively in the preceding year. In regard to the apparently short inspection work, inquiries are being instituted to find out the cause thereof as the returns from the educational officers do not explain it. The cost of this establishment and contingencies amounted to Rs. 3,147 as detailed in the margin against Rs. 3,388 in 1893–94 and an estimate of Rs. 3,500. The decrease as compared with the actuals of 1893–94 and estimate of 1894–95 is due to the inspecting schoolmaster of Madurántakam taluk having been away for a portion of the year on other duty as Sub-Assistant Inspector of Schools and to the general savings effected in travelling allowances.

	1894–95.	1893–94.
* Number of board schools ..	28	24
Other schools	701	929
Total ..	729	953

	1894–95.	1893–94.
† Number of board schools ..	5	3
Other schools	15	21
Total ..	20	24

	1893–94.	1894–95.
	Rs.	Rs.
Salary	2,400	2,312
Travelling allowance ..	723	594
Contingencies	265	241
Total ..	3,388	3,147

26. (*b*) *Training Schools.*—Nil.

27. (*c*) *Sessional Schools.*—There was one sessional school for the training of village schoolmasters as in the previous year and it was held at four centres during the year as shown below :—

Centres.	Date of commencement.	Date of termination.	Number of teachers trained.
Madurántakam ..	1st April 1894 ..	30th June 1894 ..	11
Poonamallee	16th July ,, ..	16th October ,, ..	12
Do.	17th October ,, ..	17th January 1895 ..	16
Tiruvallúr	1st February 1895 ..	31st May ,, ..	10
		Total ..	49

The sessions at each centre were intended to be only for three months, but keeping in view the number of untrained teachers at each locality, the terms were extended as shown above. The session at the Madurántakam centre was continued from 17th January 1894, but only the actual period during which it was at work in the current year is shown in the foregoing statement. Of the number of teachers who attended the sessional school, 38 were presented for the Primary Examination held in December last, of whom 30 are reported to have passed—9 in the first class, 7 in the second class, 9 in compulsory with one optional and 5 in the compulsory. There was a single teacher employed to conduct the sessional school on Rs. 25 a month as in the preceding year and stipends were allowed to teachers attending at Rs. 5 each. The total cost for the year was Rs. 902 and the average cost to Local funds for a teacher under training was Rs. 75 against Rs. 84 in the previous year. Though the average cost shows a decrease when compared with that for the preceding year, it is yet high and it is due to not securing the full number of teachers as estimated in the budget. The services of the sessional schoolmaster were dispensed with at the close of the year for, among other things, ill-treating the students. This may be the cause of the students not being heavy there in number.

28. *Technical Schools.*—Nil.

29. (*d*) *Secondary Schools.*—Nil.

30. (*e*) *Elementary Schools*—(*i*) *Salary System.*—Nil.

(*ii*) *Salary-result System.*—There were at the beginning of the year 27 schools —17 for all classes generally, 5 for Muhammadans and 5 for Panchamas. The school at Nayar was closed as the attendance in it fell off and was replaced by one opened at Solaveram. Six additional schools were opened—5 for Panchamas at Madurántakam, Sríperumbúdúr and Olallur by the Chingleput taluk board and at Tervoi and Vengalacheri by the Tiruvallúr taluk board, and one at Varadayya-palayam by the latter board for all classes generally. There were thus at the close of the year 33 schools—18 for all classes, 5 for Muhammadans and 10 for Panchamas—which had on the rolls 1,217 boys and 196 girls with an average attendance of 1,227, the corresponding figures for 1893–94 being 1,028, 198, and 998. The net cost to Local funds of maintaining these schools was Rs. 3,894 or Rs. 3 per pupil against Rs. 3,242 and Rs. 3–4–0 respectively in the preceding year. The cost per pupil in the Upper and Lower Primary departments was Rs. 5 and Rs. 3, respectively, against Rs. 3–9–5 and Rs. 3–3–5 in 1893–94. The increase in the case of Upper Primary departments is due to most of the schools having been in existence for longer periods than in the previous year and to no fees being charged in Panchama schools. The total number of pupils that appeared from these schools at the standard examinations was, as detailed in the foot-note to statement IX, 719, of whom 561 or 78 per cent. passed against 79 per cent. in the preceding year.

31. (*f*) *Grants-in-aid*—(1) *Salary Grant.*—The Lower Primary departments of the Free Church Mission High school at Chingleput and of the Wesleyan Mission High schools at Madurántakam and Tiruvallúr, and the Lower Primary school at Alandur were, as usual, aided on the salary-grant system. They had 437 pupils on the 31st March last and a sum of Rs. 427 was paid against Rs. 510 in 1893–94. The decrease is due to no arrears having been drawn in the year as was the case in the previous year.

(2) *Results Grants.*—There were 476 schools aided on the result system with 12,503 boys and 1,044 girls on the rolls on the 31st March last, against 436 schools with 12,184 pupils on the corresponding date in the previous year. The number of pupils examined for grant was 9,015, of whom 6,533 or 72 per cent. were found qualified, the corresponding figures for 1893–94 being 8,352, 6,690 and 80 per cent. Grants were paid at the maximum rates; and out of the total amount of Rs. 13,222 earned, Rs. 11,684 or 88 per cent. were disbursed within the year. The total expenditure including arrear payments amounted to Rs. 12,280 against an estimate of Rs. 14,700. The decrease is due to full amounts not having been earned as estimated in the budget owing to higher minima required under the new code which was not well understood by the village schoolmasters, this being the first year of its introduction.

(4) *Miscellaneous Grants.*—The details of charge under this head are given in the foot-note to statement X.

32. (*h*) *Miscellaneous*—(1) *Purchase of books*—(2) *Commission on sale of books.*—The expenditure under "Purchase of books" amounted to Rs. 279 against the estimate of Rs. 450 and the actuals (Rs. 389) of 1893–94. The decrease is due both to a smaller demand and to a larger stock at the beginning of the year. The amount realized by sale of books was Rs. 362 and the commission paid thereon Rs. 54.

33. *Grant III—Medical Services, &c.*—There were, as in the previous year, 14 medical institutions, of which the Chingleput, Madurántakam and Sríperumbúdúr hospitals contained accommodation for in-patients. A suitable site for the construction of necessary wards to accommodate in-patients in the Saidapet dispensary was acquired during the current year and the revised estimate called for by the Sanitary Board is under preparation and the work will be taken up immediately after the estimate is approved by that body. The matter of providing accommodation for in-patients in the Tiruvallúr dispensary will be taken up in the current year as stated in paragraph 33 of this office No. 702 L., dated 18th December 1893, embodied in G.O., No. 304 L., dated 15th February 1894. The Honourable P. Rangayya Nayudu Garu has not yet carried out his promise of building the ward. There were 32 beds in the Chingleput hospital as in the previous year and four beds in each of the two second-class hospitals at Sríperumbúdúr and Madurántakam. In the first two of the institutions 444 and 14 in-patients were treated against 501 and 12, respectively, in 1893–94. No in-patients were treated in Madurántakam, as provision for accommodating in-patients in this institution was made only in December last. In all the 14 institutions 104,326 out-patients were treated against 105,602 in the preceding year. The total number of in and out patients treated during the year bore a proportion of 9 per cent. of the total population against 9·7 per cent. in 1893–94. The decrease is due to population of Kachinad taluk added to this district in the year under review being included in the above calculation. The European method of treatment continues to be appreciated by the public. The total cost of maintaining these institutions amounted to Rs. 20,147 as detailed in statement XII against Rs. 18,108 in 1893–94 and a total grant of Rs. 21,677. The increase, as compared with the grant, is chiefly due to complying with a larger number of indents for medicines, as most of them were not procured in the previous year and the stock on hand was exhausted. The increase over the actuals of the preceding year is due to the above cause and to increased expenditure under "Medical subordinates" due to officers in charge of some dispensaries getting grade promotion during the year owing to length of service. The average cost of treating each patient was As. 3–1 against As. 2–9 in 1893–94. The increase is due to the less number of patients treated and to the increased outlay on the purchase of medicines as stated above. As in the preceding year, there were committees by which these institutions were supervised and their work is reported to be satisfactory by all the Taluk Board Presidents except Saidapet who is silent on the point. The delays complained of in the last year's report in payment of establishment bills have now been avoided, and they are, under the existing arrangement, passed by any two members of the committees when the committees themselves fail to meet in the beginning of the month. The system of distributing medicines and treating patients during tours of inspection by the District Medical officers having been declared by Government to be optional with them, no information was furnished by the District Medical officer under this head and his concise report on the working of the several institutions in the district is herewith submitted. The Chingleput hospital and Saidapet dispensary have endowments attached to them, the former draws interest from the investments in Government securities as detailed in paragraph 13 of this report; and the latter derives its income from the rents of the inam lands made over to it as particularized in paragraph 12 (*d*). The receipts from these and other miscellaneous sources amounted to Rs. 1,407 and Rs. 307, respectively, and the charges to Rs. 4,016 and Rs. 3,165, the difference in both cases having been made good from general funds.

34. *Medical Schools and Medical Pupils.*—Nil.

35. *Midwives and Midwifery Pupils.*—There were nine midwives at the beginning of the year and in the course of the year three midwifery pupils who had completed their course of training in the Lying-in hospital joined the district, and they were posted to Cheyur, Tirupporúr and Pulicat dispensaries, so that there were twelve midwives at the close of the year. A total number of 566 labour cases were attended by them against 652 in 1893–94. The decrease is due to the midwives being dissatisfied with their pay and prospects; but a remedy is being seen to and, as informed, is expected this year. The system of paying them by results continued to be in force. The cost of maintaining the midwives amounted to Rs. 968 and the average cost of each case attended was Rs. 1–11–4 against Rs. 1–6–10 in the previous year. The increase is due to the less number of cases attended notwithstanding three additional hands employed during the year. Though provision was made in the budget for employing midwives in all the dispensaries, still, for want of trained women, two dispensaries were left unprovided. To meet this, three pupils are undergoing training and, as soon as they complete their course, they will be posted where wanted. The charges for training these pupils amounted to Rs. 355.

36. *Medical training of women.*—The question of employing a lady apothecary to the Chingleput hospital was considered by the district board in its meeting held on 13th October 1894 and it was resolved to defer the proposal till the next budget is framed, and, owing to want of funds, no provision was made in the current year's budget also as stated in paragraph 33 (8) of this office No. 629 L., dated 17th December 1894, embodied in G.O., No. 267 L., dated 11th February 1895. The matter will, however, be kept in view and due provision will be made as funds become available.

37. *Vaccination.*—There were 2 Deputy Inspectors of Vaccination and 25 vaccinators and probationers employed by the district board against 2 and 23, respectively, in the preceding year. The increase was due to one temporary first-class vaccinator on Rs. 15 and a second-class vaccinator on Rs. 10 having been employed on account of additional work involved by the transfer of Kachinad taluk to this district under sanction conveyed in G.Os., Mis. Nos. 304 L. and 569 L., dated 15th February 1894 and 26th March 1895. P. Kristnaswami Nayudu and K. Varadarajulu Nayudu continued to be Deputy Inspectors of Vaccination and the latter who was reported to have been on one year's furlough in the last year's report joined his post in September last. The total number of operations performed by this agency was 41,884, of which 38,827 or 92·7 per cent. were successful, the corresponding numbers for 1893–94 being 42,432, 40,499 and 95·4. The average cost of each successful case was Annas 2–11 against As. 2–10 in the preceding year. This increase is due to fewer operations performed by the vaccinators in the Chingleput range and the explanation offered by the Deputy Inspector that more cases were not available owing to an increased number of operations in the preceding year is not satisfactory.

The outturn by the medical subordinates in charge of hospitals and dispensaries shows a decrease as compared with that of the preceding year. The total number vaccinated was 3,441 against 4,413 in 1893–94 and the number successful 3,145 against 4,137. The percentage of successful cases also fell from 93·7 to 91·3. These results are not satisfactory.

Including the work done by these subordinates, the total number of successful operations was 41,972 or 36·2 per mille of the total population as per census of 1891 against 40·8 in 1893–94. The total number of operations on children under one year of age was 21,174, of which 19,995 or 48 per cent. of the number born (41,627) were successfully protected within the year against 18,229 or 45 per cent. in 1893–94. Vaccination was conducted throughout the year with animal lymph which was used either direct from the calf or in a preserved form. The subjoined abstract shows the year's operations by the vaccine staff, the kind of lymph with which they were performed and the percentage of success in each case.

Method.	Number vaccinated.	Number successful.	Percentage of success to number vaccinated.
1. Fresh animal lymph	11,870	11,059	93·1
2. Glycerine paste	17,279	15,707	90·9
3. Calf scabs	12,735	12,061	94·7
Total ..	41,884	38,827	92·7

38. *Sanitation.*—The outlay under this head was as shown below :—

	1893–94.	1894–95.
	RS.	RS.
(1) Improvement of water-supply	3,321	2,595
(2) Do. of village-site	3,198	3,607
(3) Scavenging establishments	10,612	11,218
(4) Arrangements at fairs and festivals	1,003	1,103
(5) Other sanitary outlay	598	1,573
Total ..	18,732	20,096

There is increase under all the items as compared with the actuals of the preceding year and it is due to increased provision made to meet the requirements. Fifteen new wells were dug, 65 existing sources of water-supply were improved, and 20 sources of drinking-water were guarded, the corresponding figures last recorded being 21, 97 and 19. In 30 villages prickly-pear was removed and in 27 villages streets were repaired against 39 and 19, respectively, in 1893–94. The Chingleput Taluk Board employed three gangs of itinerating coolies, one for each revenue taluk as in the previous year. Each gang consisted of five coolies on Rs. 5 each and a maistry on Rs. 6. It was required of each cooly to clear prickly-pear on an area of 16 square yards for a day and a proportionate reduction was made on short outturn. In this way 92,167 square yards of prickly-pear were removed and buried or burnt. The actual amount spent on these gangs was Rs. 1,106. The President furnished no information as to the success or otherwise of this system. The remaining two taluk boards were not in favour of it as reported last year and preferred contract system. Conservancy establishments were maintained as in the preceding year in fifteen unions and eight other villages. The arrangements regarding the supervision of these establishments continued unaltered. Special sanitary arrangements were made at the time of festivals at 18 places against 16 in the preceding year, and those made on the occasion of Periyapalayam feast were as effectual as in last year. No epidemic broke out. The matter of acquiring the ground around the temple at this place for accommodating pilgrims and carts as suggested by the Sanitary Commissioner in his report on the last year's festival embodied in G.O., No. 2036 L., dated 13th October 1894, is under consideration by the Tiruvallúr Taluk Board. Under other sanitary outlay, a sum of Rs. 1,573 was spent chiefly in providing dust-bins in some unions, repairing some of the latrines and supplying Tamil copies of Dr. King's Simple Sanitary rules to village officers. As cholera was specially prevalent in Madurántakam, Conjeeveram and Saidapet taluks, the charges incurred for travelling allowance of medical subordinates on special duty and for disinfectants were higher than in the preceding year and this accounts for the large increase under this head.

The proportion of the total outlay on sanitation to the sanctioned allotment (Rs. 20,125) was 99·8 per cent. against 89 per cent. in 1893–94.

39. *Choultries.*—The local boards maintained three choultries as in the previous year, which were used as mere rest-houses. They were used by 54,155 travellers against 53,028 in 1893–94. The total cost of their upkeep, as per details furnished in statement XI, amounted to Rs. 308, excluding cost of public works repairs (Rs. 118), against Rs. 315 in 1893–94 and a total estimate of Rs. 300. The increase appears under contingencies and it is trifling. The Chingleput and Pallávaram choultries have endowments in lands as detailed in paragraph 14 (*a*) of this report and the income

derived from the rents of these amounted to Rs. 169, which added to the balance of Rs. 180 and a contribution of Rs. 248 made in the year under review to the Maiyur Chandra Sekara Pillai's choultry from the general local fund revenues to wipe off the *minus* balance with which it closed, raised their total assets to Rs. 597. Deducting the total charges Rs. 372 as shown in statement VI, there was a balance of Rs. 225 at the end of the year and the whole of this sum relates to the choultry at Chingleput.

40. *Bungalows.*—There were four bungalows under the control of local boards as in 1893–94, and they were used by 223 travellers against 202 in that year. The total receipts from fees amounted to Rs. 399 against Rs. 350, the increase being due to the increased number of travellers that halted in the first-class bungalow at Chingleput where fees are charged at a higher rate. The total charges excluding the cost of Public Works repairs (Rs. 253) amounted to Rs. 360 against Rs. 592 in the preceding year, the decrease being due to absence of necessity for furniture which was only supplied last year. All the four bungalows were maintained in good order and are decently furnished to meet the requirements of travellers.

41. *Contributions*—(3) *Municipalities.*—A sum of Rs. 1,800 was paid as contribution to the Conjeeveram Municipality, Rs. 400 towards the cost of the arrangements made on the occasion of the Garudotsavam, and Rs. 1,400 towards the upkeep of the municipal dispensary.

(4) *Private Institutions.*—Rupees 300 were paid to the mission dispensary at Ekkadu at Rs. 30 a month for 10 months in the year, pending provision of accommodation for receiving in-patients in the Tiruvallúr dispensary under sanction conveyed in G.O., No. 1295 L., Mis., dated 17th July 1894.

42. *Miscellaneous Endowed Institutions.*—The only item falling under this head is the Petrus Uscan's Charity Fund designated for the purposes mentioned in paragraph 13 above. The investments in Government Securities and Postal Savings Bank appertaining to this fund amounted to Rs. 11,865 as detailed in statement VI-A accompanying this report, and the cash balance in the treasury in favour of it at the beginning of the year was Rs. 1,859. The interest drawn for the year amounted to Rs. 301 and the expenditure to Rs. 547 as shown in statement VI. The net total amount to the credit of this fund at the close of the year was thus Rs. 13,478, of which Rs. 1,613 were in cash in the treasury. This sum also will be invested this year in Government securities.

43. *Lighting.*—The number of lights maintained in the unions and other places increased from 239 to 288 as shown in the margin, and the cost of maintaining them amounted to Rs. 2,643 against Rs. 2,331 in 1893–94. Of this amount Rs. 376 were spent for the purchase of new lights and lamp-posts. The large increase in the number of lights was due to an incorrect account of them being furnished in the previous years and the actual number of new lights put up during the year was only 32 and they were indispensable. The Chingleput Taluk Board managed the work departmentally and the Saidapet Taluk Board by contract. The Tiruvallúr Taluk Board carried out partially by contract and partially by departmental agency. The cost of each light maintained was Rs. 7–13–11 against Rs. 8–4–0 in the preceding year excluding the cost of new lights and lamp-posts purchased. The whole expenditure was met from taluk funds paid as contribution to unions with the exception of Rs. 204 for the lights on the southern trunk road which were met from district funds.

(*j*) *General remarks.*—Nil.

CHINGLEPUT,
31*st May* 1895.

(Signed) H. A. F. NAILER, M.B., Surgn.-Major,
District Medical and Sanitary Officer.

From the same officer, dated 24th July 1895, No. 399, L.

ABSTRACT.—Requesting that the words "2nd-class vaccinator on Rs. 10" may be substituted for the words "probationer on Rs. 6" in the second sentence of paragraph 37 of his letter, No. 370 L., of 13th July 1895.

Also from the same officer, dated Saidapet, 15th August 1895, No. 624 L.

I have the honour to submit herewith a revised demand, collection and balance statement of land-cess for the official year 1894–95 in the annual report form No. VII, and to request that the same be substituted for the one submitted with this office letter, No. 370 L. of 1895.

2. The statement had to be revised as the figures originally advised by the Tahsildar of Conjeeveram under collections related to the fasli year instead of the official and also included a sum of Rs. 14,754 appertaining to land revenue, but erroneously credited to land-cess. This amount has now been deducted from the statement, and I request therefore that the undermentioned figures may be substituted for those given in Statements I-A and I-B submitted with the Local Fund report :—

Head.	As per Statement I-A.			As now corrected.		
	District.	Taluk.	Total.	District.	Taluk.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Land cess	97,673	97,672	1,95,345	90,296	90,295	1,80,591
Grand total receipts	1,85,298	1,65,129	3,33,175	1,77,921	1,57,752	3,18,421
Balance	32,083	26,760	58,843	24,706	19,383	44,089
Net balance available for general purposes	29,971	24,682	54,653	22,594	17,305	39,899

44. *Grant IV, Miscellaneous—Supervision and Office Management.*—The total cost of general administration including contingencies amounted to Rs. 13,868 against Rs. 13,073 in 1893–94 and the total estimate Rs. 14,047. The total expenditure formed 5 per cent. of the current receipts and 5·2 per cent. of the current charges against 4·8 and 5·7 per cent., respectively, in the preceding year. The variations are explained in remark column of statement I-B. The rates at which the travelling allowance was paid to members of local boards remained unaltered.

45. *Repayment and Interest on Loans.*—Two half-yearly instalments of the principal and interest of the Korattalayar bridge loan amounting to Rs. 12,627 and Rs. 2,628, respectively, were paid on the due dates. Subjoined is a memorandum showing the particulars of the loan :—

Amount of loan.	Purpose for which raised.	Mode of repayment.	Amount repaid.	Amount still due.	Probable date of repayment.
Rs. 1,99,790 at 4½ per cent.	Construction of the iron girder bridge across the Korattalayar river.	By half-yearly instalments.	Rs. 1,50,896	Rs. 48,894	1898

46. The report was passed by the district board at its meeting held on the 13th instant. A copy of the resolution is enclosed.

—

ENCLOSURE.

ANNUAL Concise report on the working of the Local Fund Hospitals and Dispensaries in the District of Chingleput for the official year 1894–95.

Public Health.—The public health was during the year fairly good. In the month of December 1894, cholera was imported by pilgrims who returned from Tiruvannámalai festival in South Arcot. The number of deaths during the year was 755.

The following diseases were also prevalent :—

Dysentery, diarrhœa, fever, rheumatism, skin diseases, ophthalmia, venereal diseases, diseases of the nervous system, diseases of the ear, connective tissue and ulcers.

2. *Vital Statistics.*—Vital statistics, on the whole, were satisfactory and written up to date.

Statement showing the number of births and deaths in the district of Chingleput during the official year 1894–95 is shown below :—

Taluk.	Population.	Births.	Deaths.					Total.
			Cholera.	Small-pox.	Fever.	Diarrhœa or dysentery.	All other causes.	
Saidapet	224,472	6,751	198	23	1,444	434	2,393	4,492
Chingleput	137,291	5,205	64	6	736	411	1,640	2,857
Madurántakam	263,137	9,356	249	24	1,250	367	3,230	5,120
Conjeeveram	176,123	6,690	190	15	1,072	509	2,048	3,834
Tiruvallúr	236,939	8,129	47	24	1,589	258	3,055	4,973
Ponnéri	122,418	3,849	7	27	762	158	1,448	2,402
Total ..	1,160,380	39,980	755	119	6,853	2,137	13,814	23,678

3. *Sanitation.*—Sanitation of the towns and villages where there are unions is looked after by the union panchayets and in non-union places by the village munsifs. The rubbish and ing carts and deposited in suitable places till they accumulate in sufficient quantity and are then sold by public auction either annually or periodically to ryots for agricultural purposes. There are eleven public latrines in the district which are built of brick and chunam with enclosures open above and with earth floors. All are in good condition and kept clean and neat. They are resorted to freely by the people. There are twenty-three towns and villages conserved, of which fifteen are unions and eight non-unions.

There are two sources of water-supply in the district, one from tanks and surface drainage and second from wells, the former being rainwater is soft, but contains large quantity of organic impurities; the latter is harder, but comparatively free from organic impurities. Sixteen tanks and four wells are reserved for drinking purposes; but as a watch is set over them only for certain periods and not continuously the precautions are doubtful in their efficacy. There are no public masonry drains in any of the towns or villages in the district, but side cuttings exist on both sides of roads, streets and lanes. Houses, public and private, are also deficient of proper drainage and in consequence house waste water and foul water find their way into public streets and lanes and contaminate the subsoil. There are no cess-pools except a few in Pulicat and a large one in Sembiam.

Suggestions submitted.—To engage more watchmen to guard the sources of water-supply so that a permanent watch may be made; to remove prickly-pear as much as possible; to sink few more public wells and to construct some more public latrines; to introduce two or three night-soil carts in Chingleput town; and to increase the conservancy establishment and to substitute moveable dust-bins.

Results.—Under the Chingleput Taluk Board one new well was sunk at a cost of Rs. 40, five tanks and three wells repaired for Rs. 127–9–4 and eleven watchmen engaged to guard sources of drinking-water. Two night-soil carts were introduced in Chingleput town. Under the Saidapet Taluk Board a proposal to bring fresh water-supply to the town of Saidapet has been submitted. Under the Tiruvallúr Taluk Board two new wells were sunk and fourteen more repaired. Springs to the extent of Rs. 100 were dug and maintained in Ponnéri. Prickly-pear and rank vegetation in all the unions and non-union villages were removed at a cost of Rs. 353–11–0.

4. *Vaccination.*—Vaccination was maintained as heretofore in each dispensary and the work performed by the medical subordinates is shown below :—

Names of dispensaries and hospitals.	Number vaccinated.	Number successful.
Local Fund hospital, Chingleput	117	95

(*i*) No Gosha hospital or dispensary in this district.

(*j*) *General remarks.*—Nil.

Chingleput,
31*st May* 1895.

(Signed) H. A. F. NAILER, M.B., Surgn.-Major,
District Medical and Sanitary Officer.

From the same officer, dated 24th July 1895, No. 399, L.

Abstract.—Requesting that the words "2nd-class vaccinator on Rs. 10" may be substituted for the words "probationer on Rs. 6" in the second sentence of paragraph 37 of his letter, No. 370 L., of 13th July 1895.

Also from the same officer, dated Saidapet, 15th August 1895, No. 624 L.

I have the honour to submit herewith a revised demand, collection and balance statement of land-cess for the official year 1894–95 in the annual report form No. VII, and to request that the same be substituted for the one submitted with this office letter, No. 370 L. of 1895.

2. The statement had to be revised as the figures originally advised by the Tahsildar of Conjeeveram under collections related to the fasli year instead of the official and also included a sum of Rs. 14,754 appertaining to land revenue, but erroneously credited to land-cess. This amount has now been deducted from the statement, and I request therefore that the undermentioned figures may be substituted for those given in Statements I-A and I-B submitted with the Local Fund report :—

Head.	As per Statement I-A.			As now corrected.		
	District.	Taluk.	Total.	District.	Taluk.	Total.

2. *Local Boards and Panchayats.*—Twelve meetings were held by the district board against thirteen in the previous year. The average attendance of both classes of members declined and was indifferent. The explanations of the Executive Engineer and the educational officers for their failure to attend any of the meetings of the board should be obtained and submitted to Government. The taluk boards met a sufficient number of times, and the attendance of the members, except the officials on the Chingleput Board, was on the whole good. There were fifteen union panchayats as in 1893–94, and they met on an average fifteen times against fourteen; the average attendance being five out of eight, as in the preceding three years. The official members of the Sembiam panchayat should be informed that the Government expects them to be more regularly present at the meetings in future. The ward system of supervision, which was in force in seven unions in 1893–94, was extended to six others during the year under review, and is stated to have worked satisfactorily. The attempt to introduce the private scavenging system in Saidapet failed, but it was adopted with some success in Chingleput. Further exertions should be made to establish it in the former union. The working of the taluk boards and panchayats is reported to have been, on the whole, satisfactory.

3. *Receipts.*—(1) Owing to the existence of fewer arrears, the land-cess demand fell to Rs. 1,80,591 from Rs. 2,07,307 in 1893–94. The collections amounted to 97 per cent. of this against 94 per cent. in the preceding year.

(2) There was also a decrease (Rs. 1,580) in the current demand under tolls, which is ascribed to want of competition at the sale of one of the farms. It is satisfactory that the whole of the demand was realised within the year.

(3) House-tax was levied in all the fifteen unions against fourteen in 1893–94 and the collections were very satisfactory, amounting to Rs. 15,299 or 99 per cent. of the demand against Rs. 14,585 or 98 per cent. The number of distress warrants issued was 317, but property was sold in only forty cases for Rs. 34.

Order—dated 19th September 1895, No. 1725 L., Local and Municipal.

The local fund receipts and charges of the Chingleput district for 1894–95 are compared belowwith the budget and revised estimates for the year and the actuals of 1893–94 :—

The average attendance of both classes of members declined and was indifferent. The explanations of the Executive Engineer and the educational officers for their failure to attend any of the meetings of the board should be obtained and submitted to Government. The taluk boards met a sufficient number of times, and the attendance of the members, except the officials on the Chingleput Board, was on the whole good. There were fifteen union panchayats as in 1893–94, and they met on an average fifteen times against fourteen; the average attendance being five out of eight, as in the preceding three years. The official members of the Sembiam panchayat should be informed that the Government expects them to be more regularly present at the meetings in future. The ward system of supervision, which was in force in seven unions in 1893–94, was extended to six others during the year under review, and is stated to have worked satisfactorily. The attempt to introduce the private scavenging system in Saidapet failed, but it was adopted with some success in Chingleput. Further exertions should be made to establish it in the former union. The working of the taluk boards and panchayats is reported to have been, on the whole, satisfactory.

3. *Receipts.*—(1) Owing to the existence of fewer arrears, the land-cess demand fell to Rs. 1,80,591 from Rs. 2,07,307 in 1893–94. The collections amounted to 97 per cent. of this against 94 per cent. in the preceding year.

(2) There was also a decrease (Rs. 1,580) in the current demand under tolls, which is ascribed to want of competition at the sale of one of the farms. It is satisfactory that the whole of the demand was realised within the year.

(3) House-tax was levied in all the fifteen unions against fourteen in 1893–94 and the collections were very satisfactory, amounting to Rs. 15,299 or 99 per cent. of the demand against Rs. 14,585 or 98 per cent. The number of distress warrants issued was 317, but property was sold in only forty cases for Rs. 34.

(4) As in the previous year, there were only two markets under the control of the taluk boards in the district. Fees were levied in one of these, but the collections were only Rs. 14. It is reported that all endeavours to make them more popular have been in vain. The results of the improvement of the Uttramerúr market should be noted in the next administration report.

(5) The receipts from avenues amounted to Rs. 2,083 against Rs. 1,501 in the previous year, and the planting operations continued to receive attention. With reference to paragraph 22 of the President's report, it is observed that the remarks in paragraph 3 (7) of last year's review were intended as a suggestion rather than as an instruction.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 1,36,616 or 98 per cent. of the allotment against Rs. 98,894 or 101 per cent. in the previous year and was satisfactory. Village roads received more attention, the expenditure on them being Rs. 5,177 or 4·1 per cent. of the total outlay on roads against Rs. 2,486 or 2·6 per cent. in 1893–94. The roads in the district appear to have received careful attention during the year, and, with the exception of some which have been worn out by heavy traffic and are shortly to be specially repaired, are stated to have been maintained in fair order. Owing to larger expenditure by that department, the cost of the local fund engineering establishment was only 14 per cent. of the outlay on works against 19 in the previous year.

(2) *Education.*—The work done by the six inspecting schoolmasters compared, on the whole, unfavourably with that of the previous year. The district board maintained a sessional school, which was established at three different centres in succession. Forty-nine students were trained in it, of whom thirty-eight appeared for, and thirty passed, the primary examination. It is hoped that the attendance will be higher in the current year. The taluk boards maintained thirty-three primary schools on the salary-results system with an attendance of 1,413 pupils, against twenty-seven schools with 1,226 pupils in the previous year, while 78 per cent. of the candidates sent up for the standard examinations passed against 79 per cent. The Government is glad to note that ten of these schools were intended exclusively for Panchamas against five in 1893–94 and were well attended, and that five were again maintained for Muhammadans. Result grants at the maximum rates were paid to 476 schools attended on the 31st March 1895 by 12,960 pupils, the corresponding figures for the previous year being 436 and 12,184. Of these 59 and six were also maintained exclusively for Panchamas and Mussalmans respectively. Only 84 per cent. of the allotment under this head was spent, the short outlay being explained in paragraph 31 of the President's report. No explanation has been offered for the failure to disburse as much as 10 per cent. of the grants earned within the year. This is unsatisfactory and similar lapses should be guarded against in future. From Statements I-B and X it appears that a sum of Rs. 1,908 was paid as result grants to the upper primary departments of schools in the Chingleput taluk. It should be explained why this expenditure was debited to local funds in contravention of the provisions of Article 5 (ii), Chapter I, of the Grant-in-aid Code. The total number of boys under instruction in all the schools maintained and aided by the local boards was 13,587, or about 15·6 per cent. of the male population of school-going age.

(3) *Medical Relief.*—Three hospitals and eleven dispensaries were maintained by the local boards against two and twelve, respectively, in the previous year. The total number of patients treated at these institutions fell from 106,115 to 104,784, the decrease being divided among nine of them. Ten midwives worked in the district throughout the year and another for part of it, against nine in 1893–94, but they attended in all only 566 cases of labour against 652, the decrease being ascribed to their dissatisfaction with their pay and prospects. Every endeavour should be made to secure better results in the current year. For want of funds, the proposal to employ a female apothecary in the Chingleput hospital had to be abandoned for the time being, but it is observed that the matter is being kept in view. Three pupils were under midwifery training at the cost of the local boards.

(4) *Vaccination.*—There was a decline both in the reported number of persons vaccinated and in the quality of the work turned out, the total number of successful cases per mille of the population having fallen from 41 to 36. This retrogression has not been satisfactorily explained, but it appears to point to some neglect of their duties by the Deputy Inspectors. Infantile vaccination, however, showed a slight improvement, the total number of infants protected being 17·2 per mille of the population against 16·7 in 1893–94, but it was still only 48 per cent. of the registered number of births in the year. Energetic action should be taken, especially by the District Medical and Sanitary Officer, to produce better results in the current year.

(5) *Sanitation.*—The expenditure under this head rose from Rs. 18,732 to Rs. 20,275, and, except under "Improvement of village-sites," in respect of which nearly 10 per cent. of the sanctioned grant was allowed to lapse, bore a satisfactory proportion to the allotments. The local boards would do well to spend an increased percentage of the grant under this head upon the improvement of water-supply. Conservancy establishments were maintained in fifteen unions and eight other villages as in the previous year. No information has been furnished as to the work of the three itinerating gangs employed under the Chingleput taluk board for the removal of prickly-pear. The number of villages visited by the District Medical and Sanitary Officer has not been reported—an omission which should now be supplied.

5. *General Remarks.*—The year closed with a balance of Rs. 44,089, of which Rs. 3,361 appertained to endowed institutions and Rs. 829 to unions, leaving Rupees 39,899, or 16·7 per cent. of the receipts, available for general purposes. The greater portion of this amount has been allotted for expenditure in the current year's budget. The sum of Rs. 200 spent by the Uttramerúr union panchayat on the construction of market sheds, and the lighting charges incurred in the unions of Sríperumbúdúr, Karunguli, Sembiam, Madurántakam, Uttramerúr, and Tiruvottiyúr, should have been met by corresponding contributions from the taluk funds as required by section 142 of the Local Boards Act.

The President's report is full and clear. With regard to the District Medical Officer's report, it is observed that the account of sanitation in the first part of paragraph 3 seems to be somewhat optimistic and to describe rather what ought to be than what is the actual condition of affairs; it is difficult to believe that in *all* the unions of the district matters are so methodically and carefully regulated. The details given in paragraphs 4 and 5 (*a*), (*e*) and (*f*) of the same report were unnecessary. The administration of local affairs continued to be satisfactory.

VII. Standard or Lower Secondary Examination.	20	5	"	5	7	1	"	1	The Decrease in the number presented is partly due to the decrease in general attendance. Besides under the new system of assignment the managers have no interest in preparing and presenting for examination a large number of pupils. They are satisfied with securing just a sufficient number of passes to earn the grant assigned to their schools. As to the decrease
