(a) Items thus marked include interest levied on instalments paid in arrear.

NOTE TO STATEMENT I.

1. Tax on arts, &c., is levied on $\frac{\text{the first}}{\text{all}}$ classes. but the first.
2. Tax on buildings is levied at ½ per cent. and tax on lands at $\frac{½}{\text{annas } 4}$ $\frac{\text{per cent. of rent value.}}{\text{for every 80 square yards.}}$
3. Water-tax on buildings and lands is levied at not per cent.
4. Tax on vehicles and animals is levied at —— the maximum rates.
5. Tax on carts, &c., is levied at Rs. 2 per cart per annum.
6. Tolls are levied at —— the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. No 1011 dated 14-6-92
8. The house-tax registers were last revised in the official year 94-95 and the land tax registers in the same official year.
9. Total extent of land assessed is — acres.
10. The mode of estimating the annual rental of houses and lands is as follows:—

In case of houses, the actual rent they are paying or had last paid is taken as the rent value, in other cases the gross annual rent at which a building might reasonably be expected to let with reference to rent paid for similar houses in the neighbourhood is taken.

The land tax is assessed ordinarily on the rent for which the land lord leases out the land and in other cases the rent value is fixed with reference to the rent paid for similar lands in the neighbourhood.

Chagapatanj
Municipal Office
Dec 1895

B. Simpanarayya
Chairman I/C

Subject.

The resolution of the Council approving the administration Report of the Vizagapatam Municipality for 1894-95

2/2346 Mdpl 95

1725

SEPTEMBER 1895, No. M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. B. SURYANARAYANA SASTRI, B.A., B.L., Chairman, Municipal Council, Vizagapatam, to the Chief Secretary to Government (through the Collector of Vizagapatam), dated 15th July 1895, No. 663.

I have the honour to submit my annual report on the working of the Vizagapatam Municipality for 1894-95 together with the prescribed statements as per separate packet.

I.—CONSTITUTION OF THE COUNCIL.

2. The municipality continued to be administered under Madras Act IV of 1884. M.R.Ry. Rao Bahadur V. Jagannatha Rao Pantulu Garu, the Revenue Divisional officer, held the office of Chairman until the 3rd July 1894, when I took charge of the office, having been duly elected by the council as Chairman on the 2nd June, and ever since I have held the charge.

3. The sanctioned strength of the council is twenty, consisting of five nominated and fifteen elected members. One nominated and eleven elected seats fell vacant during the year. The former were filled up by the nomination of Sheik Ambu Sarang Saheb Bahadur on the 6th November 1894, and for the latter, elections were held on the 21st July, 3rd August, 13th November 1894 and 9th March 1895, for filling up the vacancies, and the names of all the gentlemen except that of the last date were gazetted within the official year. There was thus one vacancy on the 31st March 1895 in the elected seats.

4. The number of registered voters and the results of elections held during the year under review are given in Statement X-A.

5. There were nineteen members at the close of the year, of whom seven were officials and twelve non-officials.

6. During the year under report, the council met 34 times against 20 in the preceding year which was on average 2·83 per mensem. Five meetings were dissolved for want of quorum. The average attendance at each meeting actually held was 8·90, of which the average attendance of officials was 2·33. The average attendance of the members would have been better had it not been for the frequent vacancies in the strength during the year under report. A comparative statement of meetings and attendance of councillors is appended.

II.—RECEIPTS.

7. The following abstract shows the receipts under the several heads in 1894-95, as compared with the figures of the preceding year and with the revised estimate:—

heads of Taxation in

Items.	Actuals, 1893–94.	Actuals, 1894–95.	Increase.	Decrease.	Revised estimate, 1895–96.

Recoveries for services rendered to private individuals	1,424	1,859	435	..	2,010
Miscellaneous	75	349	274	..	370
Advances recoverable	..	9	9	..	110
Total ..	47,197	61,509	23,550	9,238	62,630
Total including opening balance ..	55,145	70,091	24,184	9,238	71,210

The total current receipts amounted to Rs. 61,509–1–3, against Rs. 47,196–15–3, the actuals of the previous year, and Rs. 62,630 anticipated in the revised estimate. The increase as compared with the preceding year is the net result of an increase in thirteen items and a decrease in four items. The increase is largest under (1) tax on buildings, (2) tax on vehicles and animals, (3) tax on arts, (4) rent of lands, &c., (5) grants from local funds and other sources and recoveries for services rendered to private individuals. The largest decrease is in the item "Grants from Government."

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—This tax continued to be levied at Rs. 7–8–0 per cent. on the rent value of buildings and lands. During the year under review the tax has been revised with an increase of Rs. 1,483–15–6. In addition to this, a sum of Rs. 2,924–11–6 was also assessed on the Railway buildings as detailed below:—

	Rs.	A.	P.
Recovery of house-tax refunded in 1892–93	373	7	6
Tax due for 1893–94	1,265	10	0
„ for 1894–95	1,265	10	0
Total ..	2,924	11	6

The date of the register is 27th August 1894.

9. According to the census of 1891 there were in all 9,069 houses. The number of houses assessed on the 31st March 1894 was 4,145 as per last year's report. Adding to this 173 new houses brought under taxation by the divisional councillors at the time of the revision of the tax, as also 23 buildings of the East Coast Railway assessed as per G.O., dated 25th May 1894, No. 658, the total number was 4,341. Of this one was exempted on account of poverty, leaving 4,340 on the 31st March 1895.

10. *House Tax.*—Including the increase effected by revision and new assessments as explained in paragraph 8 *supra*, the current net demand amounted to Rupees 16,668–1–6 against Rs. 12,354–5–0 in the previous year. The collections within the year were Rs. 15,815–13–6 and Rs. 43–8–6 remitted against Rs. 9,437–7–0 in the

preceding year and Rs. 342–7–6 have since been collected. The increase in the demand was due to the increase effected by revision of the tax and to the assessment fixed on railway buildings.

11. The arrears demand was Rs. 3,466–1–4; Rs. 2,777–4–9 was collected during the year, Rs. 12–9–6 remitted and Rs. 372–14–0 written off as irrecoverable on account of poverty, &c., and the balance will be adjusted shortly. The current and arrears collections brought to credit within the year amounted to Rs. 18,593–2–3 against Rs. 12,387–15–0 in the previous year. The increase was owing to the increased assessment and to prompt collection. Of the current year 94·88 and of arrears 80·12 per cent. were realised within the year, against 77·82 and 79·79 and 77·52 and 76·13 in 1892–93 and 1893–94 respectively.

12. The current demand on lands was Rs. 648–3–0 against Rs. 743–7–0 in the previous year, the decrease being the result of some lands having been acquired by the East Coast Railway. The collections within the year amounted to Rs. 530–11–6 against Rs. 469–15–6 in the preceding year. The arrear demand was Rs. 273–15–6, of which Rs. 231 was collected, Rs. 15–12–0 was written off, the lands having been acquired by the East Coast Railway, leaving Rs. 27–3–6 for adjustment. The extent of lands assessed cannot be given as they have not been surveyed. The land-tax is assessed ordinarily on the rent-value fixed with reference to rents paid for similar lands in the neighbourhood.

13. *Tax on Arts, &c.*—This tax was, as usual, levied on all classes but the first in Schedule B. Particulars are as follow:—

	Number of persons assessed.	Amount. Rs.	A.	P.
2nd Class	15	725	0	0
3rd „	58	1,375	0	0
4th „	102	1,152	0	0
5th „	173	1,008	0	0
6th „	290	879	0	0
7th „	98	175	0	0
8th „	633	615	8	0
Total ..	1,369	5,929	8	0

In the 2nd, 3rd, 4th, 5th, 6th, 7th and 8th classes, one, three, six, five, three, twenty-one and eighteen persons, respectively, were assessed to the tax for one half-year only.

14. The current demand was Rs. 5,929–8–0 against Rs. 6,062–8–0 in the previous year. The decrease was chiefly due to the remissions made by the council on appeal and to the exemption of market owners from this tax, as also to the remission granted to some public officers who claimed exemption on the ground that they had not exercised their profession within municipal limits though their head-quarters are in the municipal limits. Of the current year's demand Rs. 5,533, or 93·32 per cent., was collected within the year, leaving Rs. 396–8–0 for subsequent adjustment. The arrears demand was Rs. 1,401–8–0, of which Rs. 987–15–0 was collected, Rs. 49 remitted, Rs. 300–8–0 written off, and the balance of Rs. 64–1–0 will be adjusted shortly.

15. The average incidence of this tax was Rs. 4–5–3, against Rs. 4–5–1 in the preceding year, per head of persons assessed to the tax.

16. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals, but not on carts. The demand under this tax was Rs. 3,204–4–0 against Rs. 3,052–8–0 in the previous year. The increase in the demand was owing to the careful registration effected during the year. The current collections amounted to Rs. 3,164 against Rs. 2,665 in the preceding year, leaving a balance of Rs. 40–4–0, and this has since been collected. Of the arrear demand of Rs. 459–12–0, Rupees 371–8–0 was collected and Rs. 62–8–0 written off, leaving Rs. 25–12–0 for adjustment. A comparative statement of taxes with percentage of collections is appended.

17. *Coercive Process.*—Appendix A to Statements IV-A and IV-B shows the extent to which coercive measures were resorted to during the current year for the

collection of taxes. The number of warrants of all kinds issued was 2,134 against 1,066 in the previous year. Adding to this the unexecuted warrants of 1893–94, the total number was 2,407, of which 2,059 were executed or cancelled within the year, leaving 348 to be executed in 1895–96. The number of prosecutions instituted during the year for arrears and current taxes was 123 against 207 in the preceding year. Of these, 122 were disposed of within the year.

18. *Tolls.*—There are five toll-gates, viz.—

(1) Bowdara.
(2) Katakamvari.
(3) Waltair.
(4) Turner Pontoon Bridge.
(5) Dolphin's Ferry.

These were levied at full schedule rates. The right of collecting tolls was, as usual, leased out to farmers at a public auction and realised Rs. 10,896 + 20–11–1 = Rs. 10,916–11–1 against Rs. 14,820 in the preceding year, showing a decrease of Rs. 3,903–4–11. The decrease as compared with the actuals of the previous year was due to the diversion of traffic by the East Coast Railway. The district board share (*vide* paragraph 18 of the last year's report) said to be due on account of the toll-gate at Gazuwaka was not paid since the receipts from that gate fell short of the expenditure incurred by the board for the upkeep of the Turner pontoon bridge. No tolls share was paid to the district board during the year under report under the arrangement approved of by Government in G.O., Mis. No. 1811 M., dated 27th November 1894.

19. *Incidence of Taxation.*—Statements IX and IX-A exhibit the incidence of taxation in the year under report. The total average incidence was Rs. 1–12–7 with tolls and Rs. 1–7–6 excluding them, against As. 15–4 and As. 9–10, respectively, in the previous year. The increase in the incidence was due to the increase effected in taxation and contributions from private individuals.

B.—Miscellaneous.

20. The receipts under this head amounted to Rs. 21,158 against Rs. 14,085 in the previous year, showing an increase of Rs. 7,073, which is chiefly due to the grants from the Hon'ble the Maharajah of Vizianagram, G.C.I.E., for constructing a road along the beach from the band-stand to the Judge's house at Waltair.

21. *Rent of Lands, &c.*—The income from these sources amounted to Rs. 853, against Rs. 132–9–0 in the preceding year and Rs. 900 in the revised estimate. The increase was partly due to the sale-proceeds of the night-soil depôt ground at Allipore, which was acquired by the East Coast Railway, and partly due to the sale-proceeds of the old materials of the dilapidated houses purchased by the council for improving the branch roads leading to the Town railway station.

22. *Conservancy Receipts.*—Rs. 18 was realised by sale of rubbish. The reasons for this small income under this head were fully explained in my letter, dated 31st October 1894, No. 1029.

23. *Fees from Educational Institutions*—show an increase of Rs. 13 over the amount collected in the preceding year.

24. *Fees and Revenue from Markets and Slaughter-houses*—amounted to Rs. 1,206 against Rs. 1,058 in the preceding year. The increase is attributable to the brisk competition at the time of sale of these rights in auction.

25. *License Fees.*—Under this item Rs. 207 was realised during the year under report.

26. *Other Fees*—amounted to Rs. 584 against Rs. 529 in the preceding year. The following are the details:—

	Rs.	A.	A.
(*a*) Distraint fees	43	8	0
(*b*) Cart-stand fees	538	1	6
(*c*) Other fees	2	0	0
	583	9	6

The increase was due to the cart-stand near the Town railway station having been leased out for 12 months during the year.

27. *Fines under Municipal and other Acts.*—Receipts under this head amounted to Rs. 545–2–0 against Rs. 741–10–6 in the preceding year. The decrease was due to the heavy fines inflicted last year in nuisance cases such as cock-fighting and gambling.

28. *Grants and Contributions—From Government.*—(*a*) Rs. 100–13–3 was drawn from Provincial funds on account of contribution due towards the stipends of normal students paid from municipal funds during the year under report.

(*b*) Rs. 800 was contributed by the Railway department for constructing new roads in the new site purchased from Sree Ankitam Atcheyyamma Garu, proprietrix of Shermahamudpuram estate for forming a village for the people of Tikkavanipalem referred to in paragraph 14 of my memorandum on the revised estimate embodied in G.O., dated 1st February 1895, No. 152 M.

From Local Funds.—Rs. 600 was the usual contribution paid by the district board towards the maintenance of its roads lying within the municipal limits. Besides this, Rs. 1,186–5–0, being the moiety of cost of outlay on Turner pontoon bridge alluded to in paragraph 28 (*b*) of my administration report for last year, were also paid by the board within the year.

Other Grants.—Subscriptions from local gentlemen on account of the poor-house are entered under this head. They amounted to Rs. 227–4–0. The small increase was due to the payment of arrears subscriptions in the year under review.

There being no road from the band-stand to the Judge's bungalow at Waltair in continuation of the beach road already existing, the Hon'ble the Maharajah of Vizianagram, G.C.I.E., has generously granted Rs. 12,000 for its construction. Rs. 395 have been paid by the proprietrix referred to in paragraph 28 *supra* for compensating the owners of huts for forming proper lines in the village to be called after her name.

29. *Recoveries for Services rendered to Private Individuals—Private Scavenging.*—The number of private latrines under municipal agency during the year under report was 1,079 against 938 in the preceding year. The demand for the current year amounted to Rs. 1,820–6–1 against Rs. 1,534–14–11 in the previous year. The current collections came up to Rs. 1,501–11–0, leaving a balance of Rs. 318–11–1 on the 31st March 1895. Of this Rs. 95–2–9 has since been collected, and the balance will be adjusted shortly. The arrears demand was Rs. 456–2–1, of which Rs. 350–11–2 was collected, Rs. 80–15–9 written off as irrecoverable, leaving only Rs. 24–7–2 for subsequent adjustment.

30. Six hundred and forty notices were issued during the year to various persons under the provisions of the Act against 463 in the previous year, and forty prosecutions were instituted for failure to comply with them.

31. *Other Items.*—Fishery rents amounted to Rs. 312 against Rs. 51 in the previous year. The increase was due to the right of fishing having been leased out for the full year. The other items which fall under this head are refunds of expenditure of previous year, fees for numbering carts, &c., and sundries, which fetched Rs. 2, Rs. 19–4–0 and Rs. 14–15–0, respectively, in the year under report.

32. *Loans.*—No loans were contracted during the year under report.

33. *Opening Balance.*—The closing balance of 1893–94 was, according to the auditor's figure, Rs. 8,582–0–5, which has been adopted as the opening balance of the year under report.

III.—Expenditure.

34. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and with the revised estimate for that under report:—

Items.	Actuals of 1893–94.		Actuals of 1894–95.		Revised estimate, 1894–95.
	Rs.	Rs.	Rs.	Rs.	Rs.
Grant I—					
(*a*) Communications	9,339	..	15,730	..	19,800
(*b*) Buildings	3,275	..	1,801	..	2,600
(*c*) Drainage	2,319	..	2,016	..	1,900
(*d*) Water-supply	80	..	705	..	1,220
(*e*) Miscellaneous	284	..	365	..	360
Establishment	1,184	..	1,151	..	1,150
Miscellaneous tools and plant	58	16,539	1,036	22,804	1,070
Grant II—					
Education	4,640	4,640	4,666	4,666	5,490
Grant III—					
(*a*) Hospitals and dispensaries	2,686	..	2,817	..	2,850
Vaccination	347	..	331	..	330
Registration	628	..	599	..	670
Conservancy	11,807	15,468	12,271	16,018	12,610
Grant IV—					
Lighting	1,384	..	1,425	..	1,470
Market and Slaughter-houses	134	..	152	..	140
Choultries and Travellers' bungalow	2,605	..	2,229	..	2,060
Avenues	134	..	157	..	190
Public Gardens, Survey of Lands and other charges	1,264	5,521	1,044	4,987	1,270
Grant V—					
Supervision and management	3,894	..	3,969	..	3,950
Repayment of loans	..	..	..	..	..
Interest on debt	..	..	..	..	..
Advances recoverable	77	..	100	..	830
Refunds	424	..	138	..	120
Pension and gratuities	..	4,395	..	4,207	90
Total expenditure	..	46,563	..	52,682	60,170
Closing balance	..	8,582	..	17,409	11,040
Total including balance	..	55,145	..	70,091	71,210

35. The total expenditure was more than the previous year's figure by Rs. 6,119, the increase occurring chiefly under construction of new communications.

36. The following shows the percentage of expenditure under each grant to the total charges of the municipality :—

	1893–94.	1894–95.
Grant I, Public Works	35·54	43·29
,, II, Education	9·96	8·86
,, III, Medical and Sanitation	33·22	30·40
,, IV, Lighting and Municipal purposes	11·85	9·47
,, V, Supervision	8·36	7·53
Advance and Refunds	1·07	0·45
Total	100·00	100·00

37. *Grant I, Public Works.*—The total outlay under this grant amounted to Rs. 22,804 or 43·29 of the total expenditure of the year against Rs. 16,539 or 35·54 per cent. of cost in the preceding year and Rs. 28,100, the revised estimate for the year. The details are given in statement II-A. The decrease, when compared with the revised estimate, chiefly occurs under new communications and new buildings.

38. *Communications.*—The expenditure on new works was Rs. 9,969–7–5 and on repairs Rs. 5,760–4–1 against Rs. 2,749–14–6 and Rs. 6,588–13–4 respectively in the preceding year and Rs. 19,800 provided in the revised estimate. The decrease as compared with the revised estimate was owing to the new roads at Dondaparti and the road from band-stand to the Judge's house not having been completed within the year as anticipated at the time of preparing the revised estimate.

39. The total mileage of roads under municipal control at the end of March 1894 was—

	M.	F.	YDS.
(*a*) Metalled and gravelled roads	31	6	169
(*b*) Gravelled roads	3	7	167
(*c*) Pathways	2	7	42

Adding to this the length of the new roads made during the year, viz., 1 mile and 4 furlongs, the mileage at the end of March 1895 stood as follows :—

	M.	F.	YDS.
(*a*) Metalled and gravelled roads	33	2	167
(*b*) Gravelled roads	3	7	169
(*c*) Pathways	2	7	42

Of these 22 miles of roads were actually repaired during the year.

40. *Tolls and Road charges.*—The total outlay incurred during the year on new communications and repairs to roads come up to Rs. 4,834 more than the toll revenue as given below :—

	Rs.
The net toll receipts	10,896
Expenditure on roads	15,730

41. The roads were kept in good order. As the Deputy Sanitary Commissioner did not visit this place during the year, his suggestions or remarks are not entered here.

42. *Buildings.*—The outlay under this head amounted to Rs. 1,801 against Rs. 3,725 in the preceding year and Rs. 2,600 in the revised estimate. The decrease compared with the actuals of 1893–94 was due to the large expenditure incurred on bulls slaughter-house in that year while that under the revised estimate was due chiefly to the non-construction of the market proposed to be constructed at Waltair at a cost of Rs. 500. Four latrines were built at a cost of Rs. 960 at new Dondaparti in accordance with the standard plan. Certain improvements at a cost of Rs. 145–14–0 were made to the sheep slaughter-house as suggested by the Assistant Surgeon. Wheeling apparatus to the bulls slaughter at a cost of Rs. 40 was also made. The repairs amounted to Rs. 556 against Rs. 485 last year and Rs. 600 in the revised estimate. The increase over the actuals of the previous year was due to the repairs executed to the compound wall and the latrine of the poor house, which was greatly damaged by the heavy rains in October 1894.

43. *Drainage.*—No new drains of any perceptible nature had been constructed during the year, but certain improvements have been made to the existing drains at the Town railway station. The Deputy Sanitary Commissioner in his last inspection notes noted that the drains near the town station stagnate on the near side of the line; that these should have been continued through the line, and that this defect should now be made good.

All the drains about the station empty themselves right through the line and the other defects noticed by the Deputy Sanitary Commissioner in his notes referred to above were almost remedied. With regard to the stagnation of sewage water near the railway cutting, the Manager of the East Coast Railway was addressed and he is making arrangements for remedying it. The total outlay under this head was Rs. 2,016 against Rs. 2,319 in the previous year including the cost of drain flushing establishment. The decrease compared with the actuals of last year was due to several new drains having had to be opened in 1893–94 while in the year under report no new drain was opened. The increase over the revised estimate figure was chiefly due to removal of silt from drains and baling sewage water from the channel in the swamp into the fish pond.

44. *Water-supply.*—The expenditure under this head amounted to Rs. 705 against Rs. 80 in the previous year and Rs. 1,220 in the revised estimate. The large increase over the outlay of last year was due to the construction of three pucca wells and two temporary ones in new Dondaparti at a cost of Rs. 470–11–3; Rs. 34–14–0 was spent in digging trial pits and despatching water for analysis to the Chemical Examiner, Madras, in pursuance of the Hanumanthawaka water project. Silt from many of the drinking water wells in the town was removed at a cost of Rs. 74–8–8 and a well at Atti Butchayya's house was improved by providing a platform to it at a cost of Rs. 20–1–3. The platforms and parapet walls of some wells in the Allipore and Fort divisions were repaired and pointed with cement at a cost of Rs. 67–9–4.

45. *Miscellaneous.*—For the formation of the new Dondaparti village and the village called Atcheyyammapeta a sum of Rs. 365–4–9 was spent in forming house sites, reclaiming the land by removing prickly-pear and thorny bushes.

46. *Establishment.*—The cost of establishment and contingencies amounted to Rs. 1,151 against Rs. 1,184 in the previous year and Rs. 1,150 in the revised estimate. The decrease was due to printing charges incurred on account of certain forms which were required to be printed during the year 1893–94. The increase over the revised estimate is very small and calls for no remark. As the purchase of necessary tools only was made during the year, Rs. 64 only was spent on this account against Rs. 100 provided in the revised estimate.

47. *Grant II, Education.*—The outlay under this grant amounted to Rs. 4,666 against Rs. 4,640 in 1893–94. The increase over the actuals was due chiefly to building grants, normal stipends, salary grants and results stipends. The decrease compared with the revised estimate was chiefly due to non-utilization of result and building grants.

48. *Training Schools.*—Four masters were under training in the Vizagapatam normal school and no one was sent to Madras to be trained in the Teachers' College. Rupees 88–0–9 was spent towards the stipends of these students against Rs. 52 in the previous year and Rs. 200 in the revised estimate. The increase over the actuals of 1893–94 was due to the increased number of students under training, while the decrease compared with the revised estimate was due to the late admission of students into the institution.

49. *Salary-result Schools.*—There are, as usual, five schools under this system — three day schools and two night schools — under the management of the municipal council. The total expenditure under this head was Rs. 1,572 against Rs. 1,277 in the previous year and Rs. 1,570 in the revised estimate. The increase over the previous year is chiefly attributable to the payment of result stipends of the Muhammadan schools appertaining to 1892–93 and 1893–94 on account of late receipt of certifying memoranda from the inspecting officers and the increase over the revised estimate was small and calls for no remark.

50. *Salary Grants.*—Rs. 812 was spent on this account against Rs. 617 in the preceding year and Rs. 800 in the revised estimate. The increase was due to the payment of arrear grants due to certain masters of the London Mission High school.

The strength of the middle school department of the Hindu College and London Mission High school was 123 and 167 respectively against 110 and 177 in the preceding year.

51. *Results Grants.*—The number of results schools aided by the council was 21 against 23 in the last year. Two schools were closed, viz., one London Mission Primary school was placed under the salary system and Sreerangamvari school was amalgamated with Appavu school. Rs. 1,441–12–0 on account of current and Rs. 37–3–0 on account of arrears were paid to managers of schools on account of grants earned by results schools against Rs. 2,194 in the previous year. The decrease was due to strict examination on the part of the inspecting officers and to the abolition of two schools noted above. Results grants were paid at maximum rates to all the schools.

52. *Inspection.*—The expenditure under this head was Rs. 252 against Rs. 276 in 1893–94 and Rs. 260 in the revised estimate. The increase in the previous year was due to the printing of the report sheet, &c., of the Superintendent of Schools.

53. *Miscellaneous.*—The expenditure amounts to Rs. 363–7–0 against Rupees 221–15–11 in the preceding year and Rs. 660 in the revised estimate.

The increase over the previous year was due to the payment of building grant of Rs. 100 to two schools, Chendikavari and Waltair and to the payment of rent grant of nearly Rs. 31–10–0 to temple and Hindu Primary schools. Particulars of other items are as follow :—

		Rs.	A.	P.
(a) i.	Gymnastic instructor's pay	144	0	0
ii.	Contingencies, rent of gymnastic ground	10	0	0
	Cost of gymnastic apparatus	72	0	0
(c)	Other items—printing charges	5	13	0
	Total ..	231	13	0

54. *Statement I.*—The total number of schools in the municipality was 35 including two industrial schools and the number of pupils under instruction was 2,114 boys and 140 girls against 2,028 boys and 137 girls in 37 schools in the previous year. The decrease in the number of schools was due to the abolition of four primary schools aided by the municipal funds and one unaided indigenous school. There was no actual loss to the primary education as two primary schools, viz, the Hindu Primary and Jalaripeta schools were amalgamated with the Chendikavari and Bhupathivari schools. The school at Chachadipeta, which was unaided in 1893–94, became aided in 1894–95, while the London Mission Primary school was added to the secondary department. The Sreerangamvari school, which had a weak attendance, was obliged to be closed during the year. It is satisfactory to observe that the schools had an increase of attendance, though the number of schools on the 31st March 1895 fell short.

55. *Statement II.*—Gives the classwar distribution of pupils. There was an increase in the first, second and third classes and decrease in the fifth and last classes. There was also an increase in the number of the boys of the fourth class and a decrease in the number of girls in the same class. The decrease in the non-brahminical class was due to the increased demand for labour in the town generally after the advent of the East Coast Railway.

56. *Statement III*—The number of teachers employed in schools was 100, of whom 13 possessed trained teachers' certificates, 13 untrained teachers certificates, 51 general education certificates and 23 were unpassed teachers against 85, 14, 12, 46 and 13 respectively in the previous year. Besides the above teachers there were two unpassed drawing masters in the industrial schools and one untrained gymnast for municipal and aided primary schools in the town. Twenty-three out of 51 teachers underwent training, but were not qualified for certificates. The teachers of the industrial schools are not included in this and the gymnasts of the high schools are classified under general teachers.

57. *Statement IV (Results Schools).*—The number of pupils presented for examination was 788, of whom 517 or 65·74 per cent. passed against 797 presented and 561 or 70 per cent. passed in the preceding year. The schools did poorly when compared with the results of the preceding year. Both the number of pupils presented and the number passed show a marked decrease while the results in Geography, Hygiene and English show that they were not well taught. History, Drawing and Object lessons find no place in the results. All these point to the lack of proper supervision over the results schoolmasters. The Assistant Inspector of Schools notes that the inspecting schoolmaster's work was fairly satisfactory. The bad results alluded to above were due to the permanent inspecting schoolmaster taking leave for more than two months in the year and the acting incumbent not doing his duties satisfactorily.

58. *Statement IV—Salary-results Schools.*—The number of pupils presented was 182, of whom 108 passed against 168 presented and 103 passed in the previous year. The results were, on the whole, more satisfactory than those of the preceding year, as Geography and Hygiene showed improvement.

59. *Grant III, Medical Services, Sanitation, &c.—Hospitals and Dispensaries.*—Rs. 2,400 was paid as contribution to the civil dispensary during the year under report as in last year. Rupees 240, 152, 25 were also disbursed in the year on account of contribution to the Medical College, sanitary inspection and medical reserve staff respectively. The total charges under this head were Rs. 2,817 against Rs. 2,686 in the preceding year. The dispensary of Vizagapatam is under the management of a committee of seven members, among whom are the Collector, the District Surgeon and the Chairman of the municipality.

60. The total number of sick treated at the civil dispensary was 21,520, of whom 464 were intern and 21,056 extern patients against 455 and 18,121 in 1893–94.

61. *Vaccination.*—This has been compulsory in the town since 1st August 1890. The total number of operations performed by the first-class vaccinator was 1,575 including re-vaccination against 1,630 in 1893–94. Of these, 1,464 or 92·95 per cent. were successful. Out of these, 1,071 were under one year of age, the total number of children vaccinated being 1,108. All these cases were operated with calf lymph only. The number of prosecutions instituted under clause 2, section 138 of the District Municipalities Act IV of 1884 was 54; in three of these cases the Magistrate had to enforce the provisions of clause 3 of the said section. The outlay under vaccination was Rs. 331–15–11 against Rs. 347–7–5 in 1893–94 and Rs. 330 in the revised estimate. The large expenditure in 1893–94 was due to the payment of arrears for animal lymph. The total number of births registered within the municipality was 1,189, the number of children under one year of age operated being 1,108 against 1,048 in the previous year.

62. *Vital Statistics.*—The following statement shows the total number of births and deaths during the year with the rates per mille as compared with the figures of the preceding year. It is doubtful whether the deaths reported from small-pox are really due to that disease :—

Years.	Births.	Rate per mille.	Deaths.	Rate per mille.
1893–94	1,341	38·88	994	28·82
1894–95	1,189	34·47	1,061	30·76

The causes of death were classified as below :—

Small-pox	10
Fever	363
Bowel-complaints	385
Suicide	1
Wounds and accidents	11
Snake-bite	3
All other causes	288
Total ..	1,061

The total number of births registered was 1,189 against 1,341 in the preceding year, showing a decrease of 152. Three prosecutions were instituted for failure to comply with the provisions of section 247 of the Act and the parties were fined by the Magistrate.

63. The total charges on account of registration of vital statistics was Rs. 598–13–3 against Rs. 626–15–4 in the previous year. The decrease was due to no forms having been printed in the year under report.

64. *General Health.*—The north-east monsoon having seasonably set in in the year under report, there was no scarcity of water felt throughout the year. The market was well supplied, but the prices of food-grains and other necessaries of life were high.

The public health was satisfactory. There was no cholera, but the deaths from bowel diseases were more than in the previous year, 385 against 349.

65. The death-rate is less than the birth-rate by 3·71 per mille of population during the year under review. The total mortality increased from 994 to 1,061 compared with last year. The death-rate was 30·76 per mille of population against 28·82 in the preceding year. The District Surgeon's report is herewith submitted. The remarks of the District Surgeon in connection with the defective registration of births, bathing and washing clothes on the platforms of wells and the deposit of silt removed from side drains will be attended to and remedied in the current year 1895–96.

Instructions have already been given to the registrar and sub-registrars to be more accurate and careful with regard to registration of vital statistics. As regards removal of silt from side drains, wheel barrows have been specially made and are being used from about the middle of last year. When it rains continuously for a week or ten days the drains naturally get blocked up with silt. More careful supervision will however be exercised to see that silt is removed more promptly. As regards the suggestion that the backyards of buildings require more attention, I beg to submit that notices were being issued to owners of houses to keep their compounds clean during the year under report and more attention will be paid hereafter in this direction.

66. *Conservancy.*—The expenditure under this head amounted to Rupees 12,270–12–11 against Rs. 11,807–6–8, showing an increase of Rs. 463–6–3 over the actuals of the previous year. These charges amounted to 19·95 per cent. including private contributions and 24·95 without them of the total receipts against 25·01 in the previous year. The increase over the actuals of 1893–94 was due to the increased establishment under private scavenging and purchase of corrugated iron dustbins.

67. The number of public latrines was 78 against 76 in the previous year. Of these 4 were built during the year according to the standard plan, 46 are square blocks enclosed by pucca walls and 28 temporary which are being replaced as they were damaged. The latrines are freely resorted to and are cleaned twice a day by toties under the supervision of two inspectors and five maistries. The average population per latrine was 417.

68. Four night-soil depôts are in use whereto the night-soil is carried by toties in airtight hand carts and deposited there in trenches dug for the purpose which are cropped after six months. Though one of the four depôts had been acquired by the Railway department it has been used for the purpose of depositing night-soil and rubbish. Another place near Allipore has been selected in consultation with the District Medical and Sanitary Officer. Application will be submitted to the Government for its acquisition under the Land Acquisition Act.

69. In addition to the cart-stands now existing the places noted below were treated as cart-stands :—

(1) Market in Kottapeta.
(2) Vacant site near the Port office in the wharf.

70. The number of toties that attended the public latrines was 57 and it was found sufficient.

71. The rubbish in the town is removed to the cenerators constructed at the four night-soil depôts and burnt there. Debris of houses, &c., is deposited in the swamp. Thirty corrugated iron dustbins were purchased during the year as suggested by the Deputy Sanitary Commissioner in addition to the existing bins, viz., 2 galvanised iron, 54 sheet iron, 180 masonry. Besides these 260 wicker baskets were also provided for temporary deposit of rubbish. The number of conservancy carts employed was 12.

72. *Private Scavenging.*—The total charges under this head was Rs. 1,933–5–6 against Rs. 1,478–8–11 in the preceding year and Rs. 2,000 in the revised estimate. The increase is apparent as the staff had to be increased in proportion to the number of private latrines added to the municipal agency.

The number of latrines conserved by the municipal agency during the year was 1,079 against 938 in 1893–94.

73. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The number of lights during the year under report was 225 against 210 in the previous year. The charges under this item amounted to Rs. 1,425–3–0 against Rs. 1,384–6–1 in the preceding year. The increase was due to the increased number of lights.

74. The other charges amounted to Rs. 3,561–10–6 against Rs. 4,137–7–0 in 1893–94. In the following items the expenditure during the year under report exceeded that provided in the revised estimate :—

(1) Poor house—Choultry contingencies.
(2) Public gardens—Purchase of seeds, &c.
(3) Printing.

The cause of increase in No. (1) was due to the fixed rates of food articles that were current in March 1894, while in No. (2) the charges were incurred in the purchase of flower pots for the Fitzgerald park opened by Mr. Edward Fitzgerald in commemoration of the visit of His Excellency Lord Wenlock, the Governor of Madras, to this place in October last. This park has been transferred to the municipality by Mr. Fitzgerald.

The increase in No. (3) was due to the payments made for printing voters' lists and to the increased number of meeting proceedings.

75. The charges on account of poor house establishment amounted to Rs. 456 and the contingent charges including the cost of feeding and clothing paupers amounted to Rs. 1,772–10–0 against Rs. 455–12–0 and Rs. 2,148–12–5 respectively in the previous year. The aggregate number of paupers dieted in the institution during the year under report was 22,973 against 25,838 in 1893–94, the average daily number being 63·97 and 70·79 respectively. The average cost of clothing and dieting per head per diem was As. 1–6 against As. 1–7 in the preceding year.

76. *Grant V, Supervision and Management*—amounted to Rs. 3,968–12–2 against Rs. 3,894–0–3 in the previous year and Rs. 3,950 in the revised estimate. The following were the particulars :—

	Rs.	A.	P.
(*a*) Office establishment	1,473	12	8
(*b*) Collection of taxes and contingencies	2,214	15	6
(*c*) Contribution to central office	250	0	0
Total ..	3,968	12	2

The increase over the revised estimate in (*b*) was chiefly due to the purchase of the Madras Manual, volumes I and II, Hygiene and other books and two hanging lamps for the use of the office.

77. The other items call for no remark.

78. The total cost of supervision and management was 6·45 per cent. of the receipts against 8·25 per cent. in the previous year.

79. *Closing Balance.*—The closing balance amounted to Rs. 17,409 against Rs. 8,582–0–5 in the preceding year and is 28·3 per cent. against 18·19 of the receipts of the previous year.

80. The audit of accounts for 1894–95 was conducted by the Assistant Inspector of Local Fund Accounts in June 1895 and the delay in the submission of this report is due to it.

—

ENCLOSURE.

From the District Medical and Sanitary Officer, Vizagapatam, to the Chairman, Municipal Council, Vizagapatam, dated 30th June 1895, No. 2882-S.

I have the honour to forward the annual report on the civil hospital for the year 1894–95.

1. *Public Health.*—The public health was satisfactory. There was no cholera, but deaths from bowel diseases were more than in the previous year, 385 against 349.

It is doubtful whether the deaths reported from small-pox were really due to that disease.

The cases into which I had an opportunity of enquiring proved to be deaths from measles which was epidemic in the town and district during the latter portion of the year.

2. *Vital Statistics.*—The following table shows the births and deaths and ratio per mille for the last three years :—

Births and deaths.	1892–93.	1893–94.	1894–95.
Births	1,082	1,341	1,189
Ratio per mille	32·08	38·88	34·47
Deaths	1,106	994	1061
Ratio per mille	32·79	28·82	30·76

It is clear that the registration of births is defective.

3. *Sanitation.*—The roads and lanes are well kept, but, from the smell noticed after a light shower of rain, I can only conclude that the backyards require more attention.

Some arrangements should be made to cart away the silt removed from side drains; this is often left for days at the side of the roads.

Bathing and washing clothes on the platforms of wells should be put a stop to.

There is no doubt that the sanitation of the town has greatly improved during the last few years.

4. *Vaccination.*—Vaccination is compulsory. There were in all 1,575 vaccinations. Of these, 1,421 were primary and 154 re-vaccinations. Of the primary, 1,380 were successful, a percentage of 97·11. Eighty-four of the re-vaccinations were successful, a percentage of 50·54.

One thousand one hundred and eight were under one year of age. Of these 1,071 were successful.

All vaccination was with calf lymph.

The Assistant Surgeon superintends and inspects the work in the town and the calf depôt.

5. *Hospitals and Dispensaries.*—(*a*) Accommodation is ample. There are 36 beds in the hospital and eight in the contageous shed behind the hospital.

(*b*) The buildings were put in thorough repairs and a small room, formerly used as a labour ward, was converted into an operation room at a total cost of Rs. 719–2–4.

(*c*) *Furniture.*—The furniture is sufficient and in good order.

(*d*) *Number of patients treated.*—There was an increase of 2,935 in the number of out-patients treated but a falling off of 21 in the number of in-patients. This was partly due to the opening of the women and children's hospital and partly to the temporary closure of wards for repairs.

(*e*) *Mortality.*—There were 23 deaths among in-patients and 47 among out-patients, a percentage to total treated of 4·97 and ·22 respectively.

The causes of death are shown below :—

1. Dysentery.
2. Malarial fevers.
3. Debility.
4. Rheumatism.
5. Tubercularsis.
6. Other general diseases.
7. Nervous disease.
8. Circulating disease.
9. Lungs.
10. Respiratory.
11. Diarrhœa.
12. Liver disease.
13. Other digestive disease.
14. Urinary disease.
15. Ulcers.

(*f*) *Operations.*—One hundred and fifteen major and 463 minor operations were performed. Of the major two terminated fatally—one, a case of hepatic abscess, and another, a case of amputation of leg for sloughing ulcer in an old man who was weakened by diarrhœa.

(*g*) *Establishment.*—Establishment is sufficient and complete. A second compounder has been appointed during the year.

(*h*) *Midwives.*—The midwife has been transferred to the gosha hospital.

(*i*) *Gosha Hospital.*—The report on the gosha hospital will be sent to the President, District Board, as it is maintained by the board.

(*j*) *Remarks.*—First-class Hospital Assistant M. Appalanarasayya Naidu has been in charge throughout the year and has done excellent work.

I have alluded to the inclusion in the municipal return under small-pox of deaths due to measles. Some of these appear to have been entered as small-pox because as the municipal manager informed me, there was no heading "measles" in the printed return.

I have asked the chairman to make arrangements for the immediate report in future of all cases of cholera or small-pox to the Sanitary Inspector and to my office.

Forwarded.

I took charge of the division about a week ago. So far as I have seen, the roads are kept in good order.

VIZAGAPATAM,
17*th June* 1895.

(Signed) K. NARASIMHAM,
Acting Huzur Deputy Collector.

Forwarded.

The roads are good for the most part as far as I have seen them.

VIZAGAPATAM,
19*th July* 1895.

(Signed) L. C. MILLER,
Acting Collector.

2. The municipal council held thirty-four meetings against twenty in the previous year. The average attendance of the non-official members improved and was fair, but that of the officials declined and was poor. Eleven seats were filled by election during the year and ten of these were contested, 32·9 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) The net current demand under the tax on arts and professions fell by Rs. 133. The Chairman is requested to report in detail the circumstances under which certain public officers were exempted from assessment on the ground that though their head-quarters were within municipal limits they had not exercised their professions there during the year. The house and land tax registers were revised during the year with the result that there was an increase of Rs. 4,414 in the demand under the former head, but owing, apparently, to the fact that some land was taken up by the East Coast Railway, a decline under the latter of Rs. 95.

(2) The collections under the principal taxes showed a decided improvement on those of the previous year and in the case of the current demand were, on the whole, good. The realization of arrears, however, needs more attention. Large sums under this latter head were again written off as irrecoverable, nearly one-fourth of the arrear demand under the tax on arts and about 11 per cent. of that under the tax on buildings being so treated. Notwithstanding these heavy remissions and the remarks of Government in its review of the previous year's report, arrears dating back to as far as 1889–90 were still outstanding on the 31st March 1895. These should be immediately adjusted. Coercive measures were adopted to a considerably larger extent than in the previous year and the execution of warrants was fairly prompt.

(3) There was an increase in the receipts from the tax on vehicles, animals and carts, and from markets and slaughter-houses, but in consequence of the diversion of traffic ~~consequent upon~~ the opening of the East Coast Railway, the income from tolls fell heavily although the district board has foregone its share.

(4) The number of houses served by the private scavenging agency and the receipts from this source rose from 938 and Rs. 1,420 to 1,079 and Rs. 1,852, respectively, but the service was still worked at a loss (Rs. 81) to the municipal council. Had the fees been invariably collected in advance, as repeatedly ordered by Government, a profit would have resulted. In G.O., No. 1181 M., dated 31st August 1894, the council's attention was drawn to its neglect in this matter, but notwithstanding this and the Chairman's promise in his letter, dated 31st October 1894, No. 1029, that he would do his utmost to carry out the instructions of Government, as much as Rs. 319 of the current demand remained uncollected on the 31st March 1895. The greater part of this has, however, been subsequently collected or adjusted, and the Government trusts that this is the last occasion upon which it will be necessary to remark upon this point.

4. *Expenditure.*—(1) *Public Works.*—With the exception of four pucca latrines which were constructed at a cost of Rs. 981, no new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 15,730, but Rs. 9,099 of this were spent in laying out a new road from the bandstand to the Judge's bungalow at Waltair, towards which a munificent contribution of Rs. 12,000 was paid by the Hon'ble the Maharajah of Vizianagram. The ordinary expenditure on roads was thus Rs. 6,631, or 60·9 per cent. of the income from tolls. The town roads are reported by the Revenue Divisional Officer and the Collector to have been in good order. No explanation is given of the failure to spend the whole of the provision for the roads at Dondapati and for the market at Waltair.

(2) *Education.*—The net expenditure on education was Rs. 4,522, or 11·2 per cent. of the income from taxation. All but Rs. 812 of this was devoted to primary education. The municipal council continued to maintain five primary schools on the salary-result system, one of which was for Muhammadans and another for fishermen. The attendance at these declined slightly and the results of the departmental examinations were not satisfactory. Two secondary schools were also aided with salary

grants and twenty-one primary schools, against twenty-three in 1893–94, with result grants. There was again a decline in the strength of these institutions taken together. No information has been furnished regarding the working of the salary-grant schools—an omission which should be supplied in future reports; but those on the system of results appear to have once again done indifferently at the grant examinations, and owing partly to this cause and partly to the fact that two of these schools were closed during the year, more than one-fourth of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the municipal and aided schools also fell from 64·0 to 56·6 per cent. of the male population of school-going age. Only three of the forty-eight teachers employed in the municipal and aided primary schools are trained men, but it is matter for regret that notwithstanding this, result grants were paid to the aided schools at the maximum rates. The municipal council should employ none but qualified teachers in its own schools and should insist on the managers of aided schools doing the same, by reducing or entirely withholding the grants paid to them.

(3) *Medical Relief.*—A sum of Rs. 2,400 was, as usual, spent in aid of the local hospital. There was again an increase of 2,914 in the total number of patients treated at this institution. The midwife attached to it is reported to have been transferred to the gosha hospital under the control of the district board.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year fell from 1,630 to 1,575, but the quality of the work done improved, the percentage of success being 93·0 against 89·1 in 1893–94. Infantile vaccination also showed an improvement, the number of children under one year successfully protected having been 1,071 against 1,189 births registered during the year.

The number of deaths registered increased slightly, but the births recorded declined. The returns were incomplete in both cases as the rates were below the normal, and this is not a matter for surprise, for, notwithstanding the remarks in paragraph 4 (4) of G.O., No. 1181 M., dated 31st August 1894, only three prosecutions were instituted during the year for failure to register. This subject demands increased attention.

(5) *Sanitation.*—On conservancy a sum of Rs. 12,270, or 98·1 per cent. of the allotment and 19·9 per cent. of the current receipts, was spent. The District Surgeon states that the sanitary condition of the town has greatly improved during the last few years and the Government is glad to note from paragraphs 69 to 72 of the Chairman's report that several of the points brought to notice by the Deputy Sanitary Commissioner in his inspection notes, recorded in G.O., No. 1472 M., dated 16th October 1894, are being attended to. The endeavours made in this direction should be sustained. The expenditure on the poor-house was still high and should be further reduced.

5. *General Remarks.*—The year closed with a balance of Rs. 17,409, or 28·3 per cent. of the current receipts, but the greater portion of this may be reserved for the water-supply scheme now under investigation.

Except in regard to education, the registration of vital statistics and sanitation, all of which require the continued attention of the council, the administration of the municipality during the year under review continued to be, on the whole, satisfactory. The Government notes with pleasure the liberality of the Maharajah of Vizianagram and of the lady and the gentleman referred to in paragraphs 28 and 74 of the Chairman's report.

No. 1725 M., 23RD OCTOBER 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. B. SURYANARAYANA SASTRI, B.A., B.L., Chairman, Municipal Council, Vizagapatam, to the Chief Secretary to Government (through the Collector of Vizagapatam), dated 15th July 1895, No. 663.

I have the honour to submit my annual report on the working of the Vizagapatam Municipality for 1894–95 together with the prescribed statements as per separate packet.

I.—CONSTITUTION OF THE COUNCIL.

2. The municipality continued to be administered under Madras Act IV of 1884. M.R.Ry. Rao Bahadur V. Jagannatha Rao Pantulu Garu, the Revenue Divisional officer, held the office of Chairman until the 3rd July 1894, when I took charge of the office, having been duly elected by the council as Chairman on the 2nd June, and ever since I have held the charge.

3. The sanctioned strength of the council is twenty, consisting of five nominated and fifteen elected members. One nominated and eleven elected seats fell vacant during the year. The former were filled up by the nomination of Shaikh Ambu Sarang Sahib Bahadur on the 6th November 1894, and for the latter, elections were held on the 21st July, 3rd August, 13th November 1894 and 9th March 1895 for filling up the vacancies, and the names of all the gentlemen except that of the last date were gazetted within the official year. There was thus one vacancy on the 31st March 1895 in the elected seats.

4. The number of registered voters and the results of elections held during the year under review are given in Statement X-A.

5. There were nineteen members at the close of the year, of whom seven were officials and twelve non-officials.

6. During the year under report, the council met 34 times against 20 in the preceding year which was on average 2·83 per mensem. Five meetings were dissolved for want of quorum. The average attendance at each meeting actually held was 8·90, of which the average attendance of officials was 2·38. The average attendance of the members would have been better had it not been for the frequent vacancies in the strength during the year under report. A comparative statement of meetings and attendance of councillors is appended.

II.—RECEIPTS.

7. The following abstract shows the receipts under the several heads in 1894–95, as compared with the figures of the preceding year and with the revised estimate:—

Items.	Actuals, 1893–94.	Actuals, 1894–95.	Increase.	Decrease.	Revised estimate, 1894–95.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	7,948	8,582	634	..	8,580
Tax on buildings and lands	12,943	19,358	6,415	..	19,650

Rent of lands, buildings, &c., and sale-proceeds of lands, produce of gardens, &c.	132	853	721	..	900
Conservancy receipts	13	18	5	..	30
Fees and revenues from educational institutions	30	43	13	..	40
,, ,, ,, market and slaughter-houses	1,058	1,206	148	..	1,200
License fees	238	207	..	31	300
Other fees	529	584	55	..	670
Fines under Municipal and other Acts	742	545	..	197	500
Grants from Government	8,972	901	..	8,071	1,050
,, from Local Funds	600	1,786	1,186	..	1,850
,, from other sources	217	12,643	12,426	..	12,660
Recoveries for services rendered to private individuals	1,424	1,859	435	..	2,010
Miscellaneous	75	349	274	..	370
Advances recoverable	..	9	9	..	110
Total ..	47,197	61,509	23,550	9,238	62,630
Total including opening balance ..	55,145	70,091	24,184	9,238	71,210

The total current receipts amounted to Rs. 61,509–1–3 against Rs. 47,196–15–3, the actuals of the previous year, and Rs. 62,630 anticipated in the revised estimate. The increase as compared with the preceding year is the net result of an increase in thirteen items and a decrease in four items. The increase is largest under (1) tax on buildings, (2) tax on vehicles and animals, (3) tax on arts, (4) rent of lands, &c., (5) grants from local funds and other sources and recoveries for services rendered to private individuals. The largest decrease is in the item "Grants from Government."

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—This tax continued to be levied at Rs. 7–8–0 per cent. on the rent value of buildings and lands. During the year under review the tax has been revised with an increase of Rs. 1,483–15–6. In addition to this, a sum of Rs. 2,924–11–6 was also assessed on the railway buildings as detailed below :—

	Rs.	A.	P.
Recovery of house-tax refunded in 1892–93	373	7	6
Tax due for 1893–94	1,265	10	0
,, for 1894–95	1,265	10	0
Total ..	2,924	11	6

The date of the register is 27th August 1894.

9. According to the census of 1891 there were in all 9,069 houses. The number of houses assessed on the 31st March 1894 was 4,145 as per last year's report. Adding to this 173 new houses brought under taxation by the divisional councillors at the time of the revision of the tax, as also 23 buildings of the East Coast Railway assessed as per G.O., No. 658, dated 25th May 1894, the total number was 4,341. Of this one was exempted on account of poverty, leaving 4,340 on the 31st March 1895.

10. *House Tax.*—Including the increase effected by revision and new assessments as explained in paragraph 8 *supra*, the current net demand amounted to Rupees 16,668–1–6 against Rs. 12,254–5–0 in the previous year. The collections within the year were Rs. 15,815–13–6 and Rs. 43–8–6 remitted against Rs. 9,437–7–0 in the

preceding year and Rs. 342–7–6 have since been collected. The increase in the demand was due to the increase effected by revision of the tax and to the assessment fixed on railway buildings.

11. The arrears demand was Rs. 3,466–4–4 ; Rs. 2,777–4–9 was collected during the year, Rs. 12–9–6 remitted and Rs. 372–14–0 written off as irrecoverable on account of poverty, &c., and the balance will be adjusted shortly. The current and arrear collections brought to credit within the year amounted to Rs. 18,593–2–3 against Rs. 12,387–15–0 in the previous year. The increase was owing to the increased assessment and to prompt collection. Of the current year 94·88 and of arrears 80·12 per cent. were realised within the year, against 77·82 and 79·79 and 77·52 and 76·13 in 1892–93 and 1893–94 respectively.

12. The current demand on lands was Rs. 648–3–0 against Rs. 743–7–0 in the previous year, the decrease being the result of some lands having been acquired by the East Coast Railway. The collections within the year amounted to Rs. 530–11–6 against Rs. 469–15–6 in the preceding year. The arrear demand was Rs. 273–15–6, of which Rs. 231 was collected, Rs. 15–12–0 was written off, the lands having been acquired by the East Coast Railway, leaving Rs. 27–3–6 for adjustment. The extent of lands assessed cannot be given as they have not been surveyed. The land-tax is assessed ordinarily on the rent-value fixed with reference to rents paid for similar lands in the neighbourhood.

13. *Tax on Arts, &c.*—This tax was, as usual, levied on all classes but the first in Schedule B. Particulars are as follow :—

	Number of persons assessed.	Amount. Rs.	A.	P.
2nd Class	15	725	0	0
3rd ,, ...	58	1,375	0	0
4th ,, ...	102	1,152	0	0
5th ,, ...	173	1,008	0	0
6th ,, ...	290	879	0	0
7th ,, ...	98	175	0	0
8th ,, ...	633	615	8	0
Total ..	1,369	5,929	8	0

In the 2nd, 3rd, 4th, 5th, 6th, 7th and 8th classes, one, three, six, five, three, twenty-one and eighteen persons, respectively, were assessed to the tax for one half-year only.

14. The current demand was Rs. 5,929–8–0 against Rs. 6,062–8–0 in the previous year. The decrease was chiefly due to the remissions made by the council on appeal and to the exemption of market owners from this tax, as also to the remission granted to some public officers who claimed exemption on the ground that they had not exercised their profession within municipal limits though their head-quarters are in the municipal limits. Of the current year's demand Rs. 5,533, or 93·32 per cent., was collected within the year, leaving Rs. 396–8–0 for subsequent adjustment. The arrears demand was Rs. 1,401–8–0, of which Rs. 987–15–0 was collected, Rs. 49 remitted, Rs. 300–8–0 written off, and the balance of Rs. 64–1–0 will be adjusted shortly.

15. The average incidence of this tax was Rs. 4–5–3 against Rs. 4–5–1 in the preceding year per head of persons assessed to the tax.

16. *Tax on Vehicles, Animals and Carts.*—The full schedule rates were levied on vehicles and animals, but not on carts. The demand under this tax was Rs. 3,204–4–0 against Rs. 3,052–8–0 in the previous year. The increase in the demand was owing to the careful registration effected during the year. The current collections amounted to Rs. 3,164 against Rs. 2,665 in the preceding year, leaving a balance of Rs. 40–4–0, and this has since been collected. Of the arrear demand of Rs. 459–12–0, Rupees 371–8–0 was collected and Rs. 62–8–0 written off, leaving Rs. 25–12–0 for adjustment. A comparative statement of taxes with percentage of collections is appended.

17. *Coercive Process.*—Appendix A to Statements IV-A and IV-B shows the extent to which coercive measures were resorted to during the current year for the

collection of taxes. The number of warrants of all kinds issued was 2,134 against 1,066 in the previous year. Adding to this the unexecuted warrants of 1893-94, the total number was 2,407, of which 2,059 were executed or cancelled within the year, leaving 348 to be executed in 1895-96. The number of prosecutions instituted during the year for arrears and current taxes was 123 against 207 in the preceding year. Of these, 122 were disposed of within the year.

18. *Tolls.*—There are five toll-gates, viz.—

(1) Bowdara.
(2) Katakamvari.
(3) Waltair.
(4) Turner Pontoon Bridge.
(5) Dolphin's Ferry.

These were levied at full schedule rates. The right of collecting tolls was, as usual, leased out to farmers at a public auction and realised Rs. 10,896 + 20-11-1 = Rs. 10,916-11-1 against Rs. 14,820 in the preceding year, showing a decrease of Rs. 3,903-4-11. The decrease as compared with the actuals of the previous year was due to the diversion of traffic by the East Coast Railway. The district board's share (*vide* paragraph 18 of the last year's report) said to be due on account of the toll-gate at Gazuwaka was not paid since the receipts from that gate fell short of the expenditure incurred by the board for the upkeep of the Turner pontoon bridge. No tolls share was paid to the district board during the year under report under the arrangement approved of by Government in G.O., Mis. No. 1811 M., dated 27th November 1894.

19. *Incidence of Taxation.*—Statements IX and IX-A exhibit the incidence of taxation in the year under report. The total average incidence was Rs. 1-2-9 with tolls and As. 13-8¼ excluding them, against As. 15-4 and As. 9-10, respectively, in the previous year. The increase in the incidence was due to the increase effected in taxation and contributions from private individuals.

B.—Miscellaneous.

20. The receipts under this head amounted to Rs. 21,158 against Rs. 14,085 in the previous year, showing an increase of Rs. 7,073, which is chiefly due to the grants from the Hon'ble the Maharajah of Vizianagram, G.C.I.E., for constructing a road along the beach from the band-stand to the Judge's house at Waltair.

21. *Rent of Lands, &c.*—The income from these sources amounted to Rs. 853, against Rs. 132-9-0 in the preceding year and Rs. 900 in the revised estimate. The increase was partly due to the sale-proceeds of the night-soil depôt ground at Allipore, which was acquired by the East Coast Railway, and partly due to the sale-proceeds of the old materials of the dilapidated houses purchased by the council for improving the branch roads leading to the Town railway station.

22. *Conservancy Receipts.*—Rs. 18 was realised by sale of rubbish. The reasons for this small income under this head were fully explained in my letter, dated 31st October 1894, No. 1029.

23. *Fees from Educational Institutions*—show an increase of Rs. 13 over the amount collected in the preceding year.

24. *Fees and Revenue from Markets and Slaughter-houses*—amounted to Rs. 1,206 against Rs. 1,058 in the preceding year. The increase is attributable to the brisk competition at the time of sale of these rights in auction.

25. *License Fees.*—Under this item Rs. 207 was realised during the year under report.

26. *Other Fees*—amounted to Rs. 584 against Rs. 529 in the preceding year. The following are the details:—

	Rs.	A.	P.
(*a*) Distraint fees	43	8	0
(*b*) Cart-stand fees	538	1	6
(*c*) Other fees	2	0	0
	583	9	6

The increase was due to the cart-stand near the Town railway station having been leased out for 12 months during the year.

27. *Fines under Municipal and other Acts.*—Receipts under this head amounted to Rs. 545-2-0 against Rs. 741-10-6 in the preceding year. The decrease was due to the heavy fines inflicted last year in nuisance cases such as cock-fighting and gambling.

28. *Grants and Contributions—From Government.*—(*a*) Rs. 100-13-3 was drawn from Provincial funds on account of contribution due towards the stipends of normal students paid from municipal funds during the year under report.

(*b*) Rs. 800 was contributed by the Railway department for constructing new roads in the new site purchased from Sri Ankitam Atchayyamma Garu, proprietrix of Shermahamudpuram estate, for forming a village for the people of Tikkavani-palaiyam referred to in paragraph 14 of my memorandum on the revised estimate embodied in G.O., No. 152 M., dated 1st February 1895.

From Local Funds.—Rs. 600 was the usual contribution paid by the district board towards the maintenance of its roads lying within the municipal limits. Besides this, Rs. 1,186-5-0, being the moiety of cost of outlay on Turner pontoon bridge alluded to in paragraph 28 (*b*) of my administration report for last year, were also paid by the board within the year.

Other Grants.—Subscriptions from local gentlemen on account of the poor-house are entered under this head. They amounted to Rs. 227-4-0. The small increase was due to the payment of arrears subscriptions in the year under review.

There being no road from the band-stand to the Judge's bungalow at Waltair in continuation of the beach road already existing, the Hon'ble the Maharajah of Vizianagram, G.C.I.E., has generously granted Rs. 12,000 for its construction. Rs. 395 have been paid by the proprietrix referred to in paragraph 28 *supra* for compensating the owners of huts for forming proper lines in the village to be called after her name.

29. *Recoveries for Services rendered to Private Individuals—Private Scavenging.*—The number of private latrines under municipal agency during the year under report was 1,079 against 938 in the preceding year. The demand for the current year amounted to Rs. 1,820-6-1 against Rs. 1,534-14-11 in the previous year. The current collections came up to Rs. 1,501-11-0, leaving a balance of Rs. 318-11-1 on the 31st March 1895. Of this Rs. 95-2-9 has since been collected, and the balance will be adjusted shortly. The arrears demand was Rs. 456-2-1, of which Rs. 350-11-2 was collected, Rs. 80-15-9 written off as irrecoverable, leaving only Rs. 24-7-2 for subsequent adjustment.

30. Six hundred and forty notices were issued during the year to various persons under the provisions of the Act against 463 in the previous year, and forty prosecutions were instituted for failure to comply with them.

31. *Other Items.*—Fishery rents amounted to Rs. 312 against Rs. 51 in the previous year. The increase was due to the right of fishing having been leased out for the full year. The other items which fall under this head are refunds of expenditure of previous year, fees for numbering carts, &c., and sundries, which fetched Rs. 2, Rs. 19-4-0 and Rs. 14-15-0, respectively, in the year under report.

32. *Loans.*—No loans were contracted during the year under report.

33. *Opening Balance.*—The closing balance of 1893-94 was, according to the auditor's figure, Rs. 8,582-0-5, which has been adopted as the opening balance of the year under report.

III.—Expenditure.

34. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and with the revised estimate for that under report:—

Items.	Actuals of 1893–94.		Actuals of 1894–95.		Revised estimate, 1894–95.
	Rs.	Rs.	Rs.	Rs.	Rs.
Grant I—					
(*a*) Communications	9,339	..	15,730	..	19,800
(*b*) Buildings	3,275	..	1,801	..	2,600
(*c*) Drainage	2,319	..	2,016	..	1,900
(*d*) Water-supply	80	..	705	..	1,220
(*e*) Miscellaneous	284	..	365	..	360
Establishment	1,184	..	1,151	..	1,150
Miscellaneous tools and plant	58	16,539	1,036	22,804	1,070
Grant II—					
Education	4,640	4,640	4,666	4,666	5,490
Grant III—					
(*a*) Hospitals and dispensaries	2,686	..	2,817	..	2,850
Vaccination	347	..	331	..	330
Registration	628	..	599	..	670
Conservancy	11,807	15,468	12,271	16,018	12,610
Grant IV—					
Lighting	1,384	..	1,425	..	1,470
Market and Slaughter-houses	134	..	132	..	140
Choultries and Travellers' bungalow	2,605	..	2,229	..	2,060
Avenues	134	..	157	..	190
Public Gardens, Survey of Lands and other charges	1,264	5,521	1,044	4,987	1,270
Grant V—					
Supervision and management	3,894	..	3,969	..	3,950
Repayment of loans	..	..	..	..	..
Interest on debt	..	..	..	..	..
Advances recoverable	77	..	100	..	830
Refunds	424	..	138	..	120
Pension and gratuities	..	4,395	..	4,207	90
Total expenditure	..	46,563	..	52,682	60,170
Closing balance	..	8,582	..	17,409	11,040
Total including balance	..	55,145	..	70,091	71,210

35. The total expenditure was more than the previous year's figure by Rs. 6,119, the increase occurring chiefly under construction of new communications.

36. The following shows the percentage of expenditure under each grant to the total charges of the municipality :—

	1893–94.	1894–95.
Grant I, Public Works	35·54	43·29
„ II, Education	9·96	8·86
„ III, Medical and Sanitation	33·22	30·40
„ IV, Lighting and Municipal purposes	11·85	9·47
„ V, Supervision	8·36	7·53
Advance and Refunds	1·07	0·45
Total	100·00	100·00

37. *Grant I, Public Works.*—The total outlay under this grant amounted to Rs. 22,804 or 43·29 of the total expenditure of the year against Rs. 16,539 or 35·54 per cent. of cost in the preceding year and Rs. 28,100, the revised estimate for the year. The details are given in statement II-A. The decrease, when compared with the revised estimate, chiefly occurs under new communications and new buildings.

38. *Communications.*—The expenditure on new works was Rs. 9,969–7–5 and on repairs Rs. 5,760–4–1 against Rs. 2,749–14–6 and Rs. 6,588–13–4 respectively in the preceding year and Rs. 19,800 provided in the revised estimate. The decrease as compared with the revised estimate was owing to the new roads at Dondaparti and the road from band-stand to the Judge's house not having been completed within the year as anticipated at the time of preparing the revised estimate.

39. The total mileage of roads under municipal control at the end of March 1894 was—

	M.	F.	YDS.
(*a*) Metalled and gravelled roads	31	6	169
(*b*) Gravelled roads	3	7	167
(*c*) Pathways	2	7	42

Adding to this the length of the new roads made during the year, viz., 1 mile and 4 furlongs, the mileage at the end of March 1895 stood as follows :—

	M.	F.	YDS.
(*a*) Metalled and gravelled roads	33	2	167
(*b*) Gravelled roads	3	7	169
(*c*) Pathways	2	7	42

Of these 22 miles of roads were actually repaired during the year.

40. *Tolls and Road charges.*—The total outlay incurred during the year on new communications and repairs to roads come up to Rs. 4,834 more than the toll revenue as given below :—

	Rs.
The net toll receipts	10,896
Expenditure on roads	15,730

41. The roads were kept in good order. As the Deputy Sanitary Commissioner did not visit this place during the year, his suggestions or remarks are not entered here.

42. *Buildings.*—The outlay under this head amounted to Rs. 1,801 against Rs. 3,725 in the preceding year and Rs. 2,600 in the revised estimate. The decrease compared with the actuals of 1893–94 was due to the large expenditure incurred on bulls slaughter-house in that year while that under the revised estimate was due chiefly to the non-construction of the market proposed to be constructed at Waltair at a cost of Rs. 500. Four latrines were built at a cost of Rs. 960 at new Dondaparti in accordance with the standard plan. Certain improvements at a cost of Rs. 145–14–0 were made to the sheep slaughter-house as suggested by the Assistant Surgeon. Wheeling apparatus to the bulls slaughter at a cost of Rs. 40 was also made. The repairs amounted to Rs. 556 against Rs. 485 last year and Rs. 600 in the revised estimate. The increase over the actuals of the previous year was due to the repairs executed to the compound wall and the latrine of the poor house, which was greatly damaged by the heavy rains in October 1894.

43. *Drainage.*—No new drains of any perceptible nature had been constructed during the year, but certain improvements have been made to the existing drains at the Town railway station. The Deputy Sanitary Commissioner in his last inspection notes noted that the drains near the town station stagnate on the near side of the line; that these should have been continued through the line, and that this defect should now be made good.

All the drains about the station empty themselves right through the line and the other defects noticed by the Deputy Sanitary Commissioner in his notes referred to above were almost remedied. With regard to the stagnation of sewage water near the railway cutting, the Manager of the East Coast Railway was addressed and he is making arrangements for remedying it. The total outlay under this head was Rs. 2,016 against Rs. 2,319 in the previous year, including the cost of drain flushing establishment. The decrease compared with the actuals of last year was due to several new drains having had to be opened in 1893–94, while in the year under report no new drain was opened. The increase over the revised estimate figure was chiefly due to removal of silt from drains and baling sewage water from the channel in the swamp into the fish pond.

44. *Water-supply.*—The expenditure under this head amounted to Rs. 705 against Rs. 80 in the previous year and Rs. 1,220 in the revised estimate. The large increase over the outlay of last year was due to the construction of three pucca wells and two temporary ones in new Dondaparti at a cost of Rs. 470–11–3 ; Rs. 34–14–0 was spent in digging trial pits and despatching water for analysis to the Chemical Examiner, Madras, in pursuance of the Hanumantawaka water project. Silt from many of the drinking-water wells in the town was removed at a cost of Rs. 74–8–8 and a well at Atti Butchayya's house was improved by providing a platform to it at a cost of Rs. 20–1–3. The platforms and parapet walls of some wells in the Allipore and Fort divisions were repaired and pointed with cement at a cost of Rs. 67–9–4.

45. *Miscellaneous.*—For the formation of the new Dondaparti village and the village called Atchayyammapeta a sum of Rs. 365–4–9 was spent in forming house sites, reclaiming the land by removing prickly-pear and thorny bushes.

46. *Establishment.*—The cost of establishment and contingencies amounted to Rs. 1,151 against Rs. 1,184 in the previous year and Rs. 1,150 in the revised estimate. The decrease was due to printing charges incurred on account of certain forms which were required to be printed during the year 1893–94. The increase over the revised estimate is very small and calls for no remark. As the purchase of necessary tools only was made during the year, Rs. 64 only was spent on this account against Rs. 100 provided in the revised estimate.

47. *Grant II, Education.*—The outlay under this grant amounted to Rs. 4,666 against Rs. 4,640 in 1893–94. The increase over the actuals was due chiefly to building grants, training stipends, salary grants and results stipends. The decrease compared with the revised estimate was chiefly due to non-utilization of result and building grants.

48. *Training Schools.*—Four masters were under training in the Vizagapatam training school and no one was sent to Madras to be trained in the Teachers' College. Rupees 188–0–9 was spent towards the stipends of these students against Rs. 52 in the previous year and Rs. 200 in the revised estimate. The increase over the actuals of 1893–94 was due to the increased number of students under training, while the decrease compared with the revised estimate was due to the late admission of students into the institution.

49. *Salary-result Schools.*—There are, as usual, five schools under this system — three day schools and two night schools — under the management of the municipal council. The total expenditure under this head was Rs. 1,572 against Rs. 1,277 in the previous year and Rs. 1,570 in the revised estimate. The increase over the previous year is chiefly attributable to the payment of result stipends of the Muhammadan schools appertaining to 1892–93 and 1893–94 on account of late receipt of certifying memoranda from the inspecting officers and the increase over the revised estimate was small and calls for no remark.

50. *Salary Grants.*—Rs. 812 was spent on this account against Rs. 617 in the preceding year and Rs. 800 in the revised estimate. The increase was due to the payment of arrear grants due to certain masters of the London Mission High school.

The strength of the middle school department of the Hindu College and London Mission High school was 123 and 167 respectively against 110 and 177 in the preceding year.

51. *Result Grants.*—The number of result schools aided by the council was 21 against 23 in the last year. Two schools were closed, viz., one London Mission Primary school was placed under the salary system and Srírangamvari school was amalgamated with Appavu school. Rs. 1,441–12–0 on account of arrears were paid to managers of schools on account of grants earned by result schools against Rs. 2,194 in the previous year. The decrease was due to strict examination on the part of the inspecting officers and to the abolition of two schools noted above. Result grants were paid at maximum rates to all the schools.

52. *Inspection.*—The expenditure under this head was Rs. 252 against Rs. 276 in 1893–94 and Rs. 260 in the revised estimate. The increase in the previous year was due to the printing of the report sheet, &c., of the Superintendent of Schools.

53. *Miscellaneous.*—The expenditure amounts to Rs. 363–7–0 against Rupees 221–15–11 in the preceding year and Rs. 660 in the revised estimate.

The increase over the previous year was due to the payment of building grant of Rs. 100 to two schools, Chendikavari and Waltair and to the payment of rent grant of nearly Rs. 31–10–0 to temple and Hindu Primary schools. Particulars of other items are as follow:—

		Rs.	A.	P.
(*a*)	i. Gymnastic instructor's pay	144	0	0
	ii. Contingencies, rent of gymnastic ground	10	0	0
	Cost of gymnastic apparatus	72	0	0
(*c*)	Other items—printing charges	5	13	0
	Total ..	231	13	0

54. *Statement I.*—The total number of schools in the municipality was 35 including two industrial schools and the number of pupils under instruction was 2,114 boys and 140 girls against 2,028 boys and 137 girls in 37 schools in the previous year. The decrease in the number of schools was due to the abolition of four primary schools aided by the municipal funds and one unaided indigenous school. There was no actual loss to the primary education as two primary schools, viz, the Hindu Primary and Jalaripeta schools were amalgamated with the Chendikavari and Bhupativari schools. The school at Chachadipeta, which was unaided in 1893–94, became aided in 1894–95, while the London Mission Primary school was added to the secondary department. The Srírangamvari school, which had a weak attendance, was obliged to be closed during the year. It is satisfactory to observe that the schools had an increase of attendance, though the number of schools on the 31st March 1895 fell short.

55. *Statement II.*—Gives the classwar distribution of pupils. There was an increase in the first, second and third classes and decrease in the fifth and last classes. There was also an increase in the number of the boys of the fourth class and a decrease in the number of girls in the same class. The decrease in the non-brahminical class was due to the increased demand for labour in the town generally after the advent of the East Coast Railway.

56. *Statement III*—The number of teachers employed in schools was 100, of whom 13 possessed trained teachers' certificates, 13 untrained teachers certificates, 51 general education certificates and 23 were unpassed teachers against 85, 14, 12, 46 and 13 respectively in the previous year. Besides the above teachers there were two unpassed drawing masters in the industrial schools and one untrained gymnast for municipal and aided primary schools in the town. Twenty-three out of 51 teachers underwent training, but were not qualified for certificates. The teachers of the industrial schools are not included in this and the gymnasts of the high schools are classified under general teachers.

57. *Statement IV (Result Schools).*—The number of pupils presented for examination was 788, of whom 517 or 65·74 per cent. passed against 797 presented and 561 or 70 per cent. passed in the preceding year. The schools did poorly when compared with the results of the preceding year. Both the number of pupils presented and the number passed show a marked decrease while the results in Geography, Hygiene and English show that they were not well taught. History, Drawing and Object lessons find no place in the results. All these point to the lack of proper supervision over the results schoolmasters. The Assistant Inspector of Schools notes that the inspecting schoolmaster's work was fairly satisfactory. The bad results alluded to above were due to the permanent inspecting schoolmaster taking leave for more than two months in the year and the acting incumbent not doing his duties satisfactorily.

58. *Statement IV—Salary-result Schools.*—The number of pupils presented was 182, of whom 108 passed against 168 presented and 103 passed in the previous year. The results were, on the whole, more satisfactory than those of the preceding year, as Geography and Hygiene showed improvement.

59. *Grant III, Medical Services, Sanitation, &c.—Hospitals and Dispensaries.*—Rs. 2,400 was paid as contribution to the civil dispensary during the year under report as in last year. Rupees 240, 152, 25 were also disbursed in the year on account of contribution to the Medical College, sanitary inspection and medical reserve staff respectively. The total charges under this head were Rs. 2,817 against Rs. 2,686 in the preceding year. The dispensary of Vizagapatam is under the management of a committee of seven members, among whom are the Collector, the District Surgeon and the Chairman of the municipality.

60. The total number of sick treated at the civil dispensary was 21,520, of whom 464 were intern and 21,056 extern patients against 485 and 18,121 in 1893–94.

61. *Vaccination.*—This has been compulsory in the town since 1st August 1890. The total number of operations performed by the first-class vaccinator was 1,575 including re-vaccination against 1,630 in 1893–94. Of these, 1,464 or 92·95 per cent. were successful. Out of these, 1,071 were under one year of age, the total number of children vaccinated being 1,108. All these cases were operated with calf lymph only. The number of prosecutions instituted under clause 2, section 138 of the District Municipalities Act IV of 1884 was 54; in three of these cases the Magistrate had to enforce the provisions of clause 3 of the said section. The outlay under vaccination was Rs. 331–15–11 against Rs. 347–7–5 in 1893–94 and Rs. 330 in the revised estimate. The large expenditure in 1893–94 was due to the payment of arrears for animal lymph. The total number of births registered within the municipality was 1,189, the number of children under one year of age operated being 1,108 against 1,048 in the previous year.

62. *Vital Statistics.*—The following statement shows the total number of births and deaths during the year with the rates per mille as compared with the figures of the preceding year. It is doubtful whether the deaths reported from small-pox are really due to that disease :—

Years.	Births.	Rate per mille.	Deaths.	Rate per mille.
1893–94	1,341	38·88	994	28·82
1894–95	1,189	34·47	1,061	30·76

The causes of death were classified as below :—

Small-pox	10
Fever	363
Bowel-complaints	385
Suicide	1
Wounds and accidents	11
Snake-bite	3
All other causes	288
Total	1,061

The total number of births registered was 1,189 against 1,341 in the preceding year, showing a decrease of 152. Three prosecutions were instituted for failure to comply with the provisions of section 247 of the Act and the parties were fined by the Magistrate.

63. The total charges on account of registration of vital statistics was Rs. 598–13–3 against Rs. 626–15–4 in the previous year. The decrease was due to no forms having been printed in the year under report.

64. *General Health.*—The north-east monsoon having seasonably set in in the year under report, there was no scarcity of water felt throughout the year. The market was well supplied, but the prices of food-grains and other necessaries of life were high.

The public health was satisfactory. There was no cholera, but the deaths from bowel diseases were more than in the previous year, 385 against 349.

65. The death-rate is less than the birth-rate by 3·71 per mille of population during the year under review. The total mortality increased from 994 to 1,061 compared with last year. The death-rate was 30·76 per mille of population against 28·82 in the preceding year. The District Surgeon's report is herewith submitted. The remarks of the District Surgeon in connection with the defective registration of births, bathing and washing clothes on the platforms of wells and the deposit of silt removed from side drains will be attended to and remedied in the current year 1895–96.

Instructions have already been given to the registrar and sub-registrars to be more accurate and careful with regard to registration of vital statistics. As regards removal of silt from side drains, wheel barrows have been specially made and are being used from about the middle of last year. When it rains continuously for a week or ten days the drains naturally get blocked up with silt. More careful supervision will however be exercised to see that silt is removed more promptly. As regards the suggestion that the backyards of buildings require more attention, I beg to submit that notices were being issued to owners of houses to keep their compounds clean during the year under report and more attention will be paid hereafter in this direction.

66. *Conservancy.*—The expenditure under this head amounted to Rupees 12,270–12–11 against Rs. 11,807–6–8, showing an increase of Rs. 463–6–3 over the actuals of the previous year. These charges amounted to 19·95 per cent. including private contributions and 24·95 without them of the total receipts against 25·01 in the previous year. The increase over the actuals of 1893–94 was due to the increased establishment under private scavenging and purchase of corrugated iron dustbins.

67. The number of public latrines was 78 against 76 in the previous year. Of these 4 were built during the year according to the standard plan, 46 are square blocks enclosed by pucca walls and 28 temporary which are being replaced as they are damaged. The latrines are freely resorted to and are cleaned twice a day by toties under the supervision of two inspectors and five maistries. The average population per latrine was 442.

68. Four night-soil depôts are in use whereto the night-soil is carried by toties in airtight hand carts and deposited there in trenches dug for the purpose which are cropped after six months. Though one of the four depôts had been acquired by the Railway department it has been used for the purpose of depositing night-soil and rubbish. Another place near Allipore has been selected in consultation with the District Medical and Sanitary Officer. Application will be submitted to the Government for its acquisition under the Land Acquisition Act.

69. In addition to the cart-stands now existing the places noted below were treated as cart-stands :—

(1) Market in Kottapeta.
(2) Vacant site near the Port office in the wharf.

70. The number of toties that attended the public latrines was 57 and it was found sufficient.

71. The rubbish in the town is removed to the cinerators constructed at the four night-soil depôts and burnt there. Debris of houses, &c., is deposited in the swamp. Thirty corrugated iron dustbins were purchased during the year as suggested by the Deputy Sanitary Commissioner in addition to the existing bins, viz., 2 galvanized iron, 54 sheet iron, 180 masonry. Besides these 260 wicker baskets were also provided for temporary deposit of rubbish. The number of conservancy carts employed was 12.

72. *Private Scavenging.*—The total charges under this head were Rs. 1,933–5–6 against Rs. 1,478–8–11 in the preceding year and Rs. 2,000 in the revised estimate. The increase is apparent as the staff had to be increased in proportion to the number of private latrines added to the municipal agency.

The number of latrines conserved by the municipal agency during the year was 1,079 against 938 in 1893–94.

73. *Grant IV, Lighting and Miscellaneous Municipal Purposes.*—The number of lights during the year under report was 225 against 210 in the previous year. The charges under this item amounted to Rs. 1,425–3–0 against Rs. 1,384–6–1 in the preceding year. The increase was due to the increased number of lights.

74. The other charges amounted to Rs. 3,561–10–6 against Rs. 4,137–7–0 in 1893–94. In the following items the expenditure during the year under report exceeded that provided in the revised estimate :—

(1) Poor house—Choultry contingencies.
(2) Public gardens—Purchase of seeds, &c.
(3) Printing.

The cause of increase in No. (1) was due to the fixed rates of food articles that were current in March 1894, while in No. (2) the charges were incurred in the purchase of flower pots for the Fitzgerald park opened by Mr. Edward Fitzgerald in commemoration of the visit of His Excellency Lord Wenlock, the Governor of Madras, to this place in October last. This park has been transferred to the municipality by Mr. Fitzgerald.

The increase in No. (3) was due to the payments made for printing voters' lists and to the increased number of meeting proceedings.

75. The charges on account of poor house establishment amounted to Rs. 456 and the contingent charges including the cost of feeding and clothing paupers amounted to Rs. 1,772–10–0 against Rs. 455–12–0 and Rs. 2,148–12–5 respectively in the previous year. The aggregate number of paupers dieted in the institution during the year under report was 22,973 against 25,838 in 1893–94, the average daily number being 63·97 and 70·79 respectively. The average cost of clothing and dieting per head per diem was As. 1–6 against As. 1–7 in the preceding year.

76. *Grant V, Supervision and Management*—amounted to Rs. 3,968–12–2 against Rs. 3,894–0–3 in the previous year and Rs. 3,950 in the revised estimate. The following were the particulars :—

	Rs.	A.	P.
(*a*) Office establishment	1,473	12	8
(*b*) Collection of taxes and contingencies	2,244	15	6
(*c*) Contribution to central office	250	0	0
Total ..	3,968	12	2

The increase over the revised estimate in (*b*) was chiefly due to the purchase of the Madras Manual, volumes I and II, Hygiene and other books and two hanging lamps for the use of the office.

77. The other items call for no remark.

78. The total cost of supervision and management was 6·45 per cent. of the receipts against 8·25 per cent. in the previous year.

79. *Closing Balance.*—The closing balance amounted to Rs. 17,409 against Rs. 8,582–0–5 in the preceding year and is 28·3 per cent. against 18·19 of the receipts of the previous year.

80. The audit of accounts for 1894–95 was conducted by the Assistant Inspector of Local Fund Accounts in June 1895 and the delay in the submission of this report is due to it.

ENCLOSURE.

From the District Medical and Sanitary Officer, Vizagapatam, to the Chairman, Municipal Council, Vizagapatam, dated 30th June 1895, No. 2882-S.

I have the honour to forward the annual report on the civil hospital for the year 1894–95.

1. *Public Health.*—The public health was satisfactory. There was no cholera, but deaths from bowel diseases were more than in the previous year, 385 against 349.

It is doubtful whether the deaths reported from small-pox were really due to that disease.

The cases into which I had an opportunity of enquiring proved to be deaths from measles which was epidemic in the town and district during the latter portion of the year.

2. *Vital Statistics.*—The following table shows the births and deaths and ratio per mille for the last three years :—

Births and deaths.	1892–93.	1893–94.	1894–95.
Births	1,082	1,341	1,189
Ratio per mille	32·08	38·88	34·47
Deaths	1,106	994	1,061
Ratio per mille	32·79	28·82	30·76

It is clear that the registration of births is defective.

3. *Sanitation.*—The roads and lanes are well kept, but, from the smell noticed after a light shower of rain, I can only conclude that the backyards require more attention.

Some arrangements should be made to cart away the silt removed from side drains; this is often left for days at the side of the roads.

Bathing and washing clothes on the platforms of wells should be put a stop to.

There is no doubt that the sanitation of the town has greatly improved during the last few years.

4. *Vaccination.*—Vaccination is compulsory. There were in all 1,575 vaccinations. Of these, 1,421 were primary and 154 re-vaccinations. Of the primary, 1,380 were successful, a percentage of 97·11. Eighty-four of the re-vaccinations were successful, a percentage of 50·54.

One thousand one hundred and eight were under one year of age. Of these 1,071 were successful.

All vaccination was with calf lymph.

The Assistant Surgeon superintends and inspects the work in the town and the calf depôt.

5. *Hospitals and Dispensaries.*—(*a*) Accommodation is ample. There are 36 beds in the hospital and eight in the contageous shed behind the hospital.

(*b*) The buildings were put in thorough repairs, and a small room, formerly used as a labour ward, was converted into an operation room at a total cost of Rs. 719–2–4.

(*c*) *Furniture.*—The furniture is sufficient and in good order.

(*d*) *Number of patients treated.*—There was an increase of 2,935 in the number of out-patients treated but a falling off of 21 in the number of in-patients. This was partly due to the opening of the women and children's hospital and partly to the temporary closure of wards for repairs.

(*e*) *Mortality.*—There were 23 deaths among in-patients and 47 among out-patients, a percentage to total treated of 4·97 and ·22 respectively.

The causes of death are shown below :—

1. Dysentery.
2. Malarial fevers.
3. Debility.
4. Rheumatism.
5. Tubercularsis.
6. Other general diseases.
7. Nervous disease.
8. Circulation disease.
9. Lungs.
10. Respiratory.
11. Diarrhœa.
12. Liver disease.
13. Other digestive disease.
14. Urinary disease.
15. Ulcers.

(*f*) *Operations.*—One hundred and fifteen major and 463 minor operations were performed. Of the major two terminated fatally—one, a case of hepatic abscess, and another, a case of amputation of leg for sloughing ulcer in an old man who was weakened by diarrhœa.

(*g*) *Establishment.*—Establishment is sufficient and complete. A second compounder has been appointed during the year.

(*h*) *Midwives.*—The midwife has been transferred to the gosha hospital.

(*i*) *Gosha Hospital.*—The report on the gosha hospital will be sent to the President, District Board, as it is maintained by the board.

(*j*) *Remarks.*—First-class Hospital Assistant M. Appalanarasayya Nayudu has been in charge throughout the year and has done excellent work.

I have alluded to the inclusion in the municipal return under small-pox of deaths due to measles. Some of these appear to have been entered as small-pox because as the municipal manager informed me, there was no heading "measles" in the printed return.

I have asked the chairman to make arrangements for the immediate report in future of all cases of cholera or small-pox to the Sanitary Inspector and to my office.

Forwarded.

I took charge of the division about a week ago. So far as I have seen, the roads are kept in good order.

Vizagapatam,
17*th June* 1895.

(Signed) K. NARASIMHAM,
Acting Huzur Deputy Collector.

Forwarded.

The roads are good for the most part as far as I have seen them.

Vizagapatam,
19*th July* 1895.

(Signed) L. C. MILLER,
Acting Collector.

Order—No. 1725 M., dated 23rd October 1895.

The receipts and charges of the Vizagapatam Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

2. The municipal council held thirty-four meetings against twenty in the previous year. The average attendance of the non-official members improved and was fair, but that of the officials declined and was poor. Eleven seats were filled by election during the year and ten of these were contested, 32·9 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) The net current demand under the tax on arts and professions fell by Rs. 133. The Chairman is requested to report in detail the circumstances under which certain public officers were exempted from assessment on the ground that though their head-quarters were within municipal limits they had not exercised their professions there during the year. The house and land tax registers were revised during the year with the result that there was an increase of Rs. 4,414 in the demand under the former head, but, owing, apparently, to the fact that some land was taken up by the East Coast Railway, a decline under the latter of Rs. 95.

(2) The collections under the principal taxes showed a decided improvement on those of the previous year and in the case of the current demand were, on the whole, good. The realization of arrears, however, needs more attention. Large sums

under this latter head were again written off as irrecoverable, nearly one-fourth of the arrear demand under the tax on arts and about 11 per cent. of that under the tax on buildings being so treated. Notwithstanding these heavy remissions and the remarks of Government in its review of the previous year's report, arrears dating back to as far as 1889–90 were still outstanding on the 31st March 1895. These should be immediately adjusted. The Chairman will, at the expiry of one clear month from the date of receipt of this order, report what has been done. Coercive measures were adopted to a considerably larger extent than in the previous year and the execution of warrants was fairly prompt.

(3) There was an increase in the receipts from the tax on vehicles, animals and carts, and from markets and slaughter-houses, but in consequence of the diversion of traffic caused by the opening of the East Coast Railway, the income from tolls fell heavily, although the district board has foregone its share.

(4) The number of houses served by the private scavenging agency and the receipts from this source rose from 938 and Rs. 1,420 to 1,079 and Rs. 1,852, respectively, but the service was still worked at a loss (Rs. 81) to the municipal council. Had the fees been invariably collected in advance, as repeatedly ordered by Government, a profit would have resulted. In G.O., No. 1181 M., dated 31st August 1894, the council's attention was drawn to its neglect in this matter, but notwithstanding this and the Chairman's promise in his letter, No. 1029, dated 31st October 1894, that he would do his utmost to carry out the instructions of Government, as much as Rs. 319 of the current demand remained uncollected on the 31st March 1895. The greater part of this has, however, been subsequently collected or adjusted, and the Government trusts that this is the last occasion upon which it will be necessary to remark upon this point.

4. *Expenditure.*—(1) *Public Works.*—With the exception of four pucca latrines which were constructed at a cost of Rs. 981, no new work of any importance was undertaken during the year. The total outlay on communications amounted to Rs. 15,730, but Rs. 9,099 of this were spent in laying out a new road from the bandstand to the Judge's bungalow at Waltair, towards which a munificent contribution of Rs. 12,000 was paid by the Hon'ble the Maharajah of Vizianagram. The ordinary expenditure on roads was thus Rs. 6,631, or 60·9 per cent. of the income from tolls. The town roads are reported by the Revenue Divisional Officer and the Collector to have been in good order. No explanation is given of the failure to spend the whole of the provision for the roads at Dondaparti and for the market at Waltair.

(2) *Education.*—The net expenditure on education was Rs. 4,522, or 11·2 per cent. of the income from taxation. All but Rs. 812 of this was devoted to primary education. The municipal council continued to maintain five primary schools on the salary-result system, one of which was for Muhammadans and another for fishermen. The attendance at these declined slightly and the results of the departmental examinations were not satisfactory. Two secondary schools were also aided with salary grants and twenty-one primary schools, against twenty-three in 1893–94, with result grants. There was again a decline in the strength of these institutions taken together. No information has been furnished regarding the working of the salary-grant schools—an omission which should be supplied in future reports; but those on the system of results appear to have once again done indifferently at the grant examinations, and owing partly to this cause and partly to the fact that two of these schools were closed during the year, more than one-fourth of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the municipal and aided schools also fell from 64·0 to 56·6 per cent. of the male population of school-going age. Only three of the forty-eight teachers employed in the municipal and aided primary schools are trained men, but it is matter for regret that notwithstanding this, result grants were paid to the aided schools at the maximum rates. The municipal council should employ none but qualified teachers in its own schools and should compel the managers of aided schools to do the same, by reducing or entirely withholding the grants paid to them.

(3) *Medical Relief.*—A sum of Rs. 2,400 was, as usual, contributed towards the local hospital. There was again an increase (2,914) in the total number of patients treated at this institution. The midwife attached to it is reported to have been transferred to the gosha hospital under the control of the district board.

(4) *Vaccination and Vital Statistics.*—The reported number of persons vaccinated during the year fell from 1,630 to 1,575, but the quality of the work done improved, the percentage of success being 93·0 against 89·1 in 1893–94. Infantile vaccination also showed an advance, the number of children under one year successfully protected having been 1,071 against 1,189 births registered during the year.

The number of deaths registered increased slightly, but the births recorded declined. The returns were incomplete in both cases as the rates were below the normal, and this is not a matter for surprise, for, notwithstanding the remarks in paragraph 4 (4) of G.O., No. 1181 M., dated 31st August 1894, only three prosecutions were instituted during the year for failure to register. This subject demands increased attention.

(5) *Sanitation.*—On conservancy a sum of Rs. 12,270, or 98·1 per cent. of the allotment and 19·9 per cent. of the current receipts, was spent. The District Surgeon states that the sanitary condition of the town has greatly improved during the last few years and the Government is glad to note from paragraphs 69 to 72 of the Chairman's report that several of the points brought to notice by the Deputy Sanitary Commissioner in his inspection notes, recorded in G.O., No. 1472 M., dated 16th October 1894, are being attended to. The endeavours made in this direction should be sustained. The expenditure upon the poor-house was still high and should be further reduced.

5. *General Remarks.*—The year closed with a balance of Rs. 17,409, or 28·3 per cent. of the current receipts, but the greater portion of this may be reserved for the water-supply scheme now under investigation.

Except in regard to education, the registration of vital statistics and sanitation, all of which require the continued attention of the council, the administration of the municipality during the year under review continued to be, on the whole, satisfactory. The Government notes with pleasure the liberality of the Hon'ble the Maharajah of Vizianagram and of the lady and the gentleman referred to in paragraphs 28 and 74 of the Chairman's report.

CUDDAPAH MUNICIPAL OFFICE,

Dated 13 July 1895.

No 2394

Enclosure 3

Local & Municipal Department
CURRENT No. 2394 M.

From M. R. Ry. C. Chellaya Setty Avl B. A. B. L.
Chairman, Municipal Council,
Cuddapah.

To The Chief Secretary to Government
Local and Municipal Department
Fort St George.

Through
The Collector of
Cuddapah.

Sir

I have the honor to submit herewith the administration report of the Cuddapah Municipality for the Official year 1894-95 with the prescribed Statements and the report of the District Medical and Sanitary Officer Cuddapah, on the working of the Municipal Hospital.

Constitution of the Council.

2. The Sanctioned maximum Strength of the Council is 16 Councillors, 12 Elected and

four nominated including the Ex Officio Councillor, the Revenue Divisional Officer. Seven vacancies were filled up during the year, three by nomination and four by election of Councillors and the maximum number existed at the close of the year. The number of registered voters in the Municipality was 831.

29 meetings were actually held during the year against 20 in the previous year, the average attendance of Councillors thereat being one official and 6 non officials against 2 and 7 respectively in the previous year. 6 meetings were adjourned for want of quorum against 5 in the previous year. Compared with the previous year the attendance of the Councillors, both officials and non officials, shows a slight decline which was due mostly to the frequent occurrences of vacancies and Elections during the year.

II Receipts

3. The subjoined is an abstract of the total receipts of the Municipality for the year under report as compared with the revised estimates for the year and the actuals of the previous year.

	Actuals 1893.94	Actuals 1894.95	Revised Estimate 1894.95
Opening balance	12147	7730	7730
(A) Municipal rates and taxes			
Taxon Arts	3544	3876	3980
Taxon buildings & lands including Water tax	14543	16696	15920
Taxon vehicles, Carts & Animals	1802	2081	2170
Tolls	8020	7841	8010.
Total income from taxation	27909	29494	30080
(B) Realizations under Special Acts	35	145	40
(C) Revenue derived from municipal property & powers apart from taxation	9625	9581	9880
(D) Grants and Contributions	5803	5948	6060
(E) Miscellaneous: including extraordinary and debt heads	4338	2986	3230
Total receipts	47710	48154	49290
Grand total including opening balance	59857	55884	57020

From the above abstract it will be seen that, for the year under report, the income from taxation amounted to Rs 29494 and the other receipts to Rs 18660 against the revised Estimates for the year Rs 30080 and 19210 and the actuals of the

previous year Rs 27909 and 19801 respectively. The total receipts for the year, though less than the revised estimate, ~~exceeding~~ exceeded the actuals of the previous year, the increase being under taxation. Added to the opening balance of Rs 7730 the receipts for the year amounted to Rs 55884, against Rupees 59857 in previous year (Rs 59857). The important items of taxation and other receipts are noticed below:-

(1) Receipts from taxation.

Tax on Arts ~~&c~~ levied the previous year this tax was revised and levied on the first Seven classes of Schedule A of the Act. The Number of assessees under all the six classes excepting the first under which no persons were taxed, was 702 against 737 in the year as detailed below, the decrease occurring chiefly under classes 4, 5 and 6. A good number of merchants falling under these 3 classes gave up trade during the year.

	1894.95.	1893.94
Class I	"	"
II	3	4
III	32	25

Class IV	89	77
V	188	193
VI	350	398
VII	40	40
Total	702	737.

The original Current demand of this tax for the year was Rs 4144 against Rs 4026 in the previous year but the remissions granted by the Council on appeal having been larger than in the previous year (Rs 156 against 58) the net Current demand remained almost the same as in the previous year (Rs 3988 against Rs 3968). The Current Collections of this tax amounted to Rs 3610 against Rs 3464 in the previous year and Rs 52 were written off accounts. Out of the Arrear demand of Rs 556, Rs 264 were Collected and Rs 260 written off accounts as irrecoverable. Including Arrears and Current there was, at the close of the year, a balance of Rs 361, where of Rs 75 have since been Collected and Rs 82 written off accounts. Rs 203 Still remains to be adjusted. Ninety Appeals were

were preferred against the imposition of this tax and all of them were disposed of before the close of the year. In 37 Cases the tax was confirmed, in 16 it was exempted and in 37 it was reduced. 16 prosecutions were instituted for the Collection of this tax and 15 were disposed of before the close of the year. The remaining 1 has also been Since disposed of.

Tax on buildings:— The principle on which this tax was levied remained the Same as in the previous year. There are at large 5289 houses in the Town, 2618 of which are taxable. The others are either ruined houses deserted by owners, or houses the taxes on which owners are too poor to pay, or thatched or tiled huts whose annual rent-value falls below the minimum prescribed in the Act. In the year under report, houses, the taxes on which were written off in the previous year under Section 51 of the Act or by reason of their being ruined, were removed from the Demand and assessment was enhanced on some of the buildings built after European Style but [omitted in the previous

year to be assessed at 12 per Cent of their actual or Estimated Cost for their annual rental). The original Current demand of this tax thus amounted to Rs 10201 against 10229 in the previous year. 274 Appeals were preferred and all but one were disposed of before the close of the year. The tax was confirmed in 193, exempted in 44, reduced in 143 and raised in 3 Cases. The total remissions amounting to Rs 59 against 52 in the previous year. The net Current demand was thus Rs 10142 against Rs 10177 and the total Current Collections Rs 9645 against Rs 9656 in the previous year.

Excluding Rs 58 remitted on account of vacant houses and Rs 11 written off as irrecoverable, the balance outstanding at the close of the year was Rs 431 against Rs 1519 in the previous year. Rs 182 of the balance have Since been Collected and Rs 50 written off account by reason of most of the houses being utterly ruined or raised to ground.

Out of the arrear demands of Rs 1613, Rs 1386 were Collected, Rs 58 remitted and Rs 123 written off accounts, leaving a balance of Rs 46 for

adjustment in the Current year. 40 prosecutions were instituted for the collection of this tax and 26 were disposed of before the close of the year. The rest have also been since disposed of. A Sum of Rs 6 was received as prior to the account of this tax.

Tax on Lands:— As in the previous year this tax was levied at 4 annas per acre on an estimated Annual rental of Rs 3½. The Current and Arrear demands of this tax amounted to Rs 488 where of Rs 168 were Collected leaving at the close of the year a balance of Rs 320 of which Rs 230 have been Since Collected and Rs 90 Still remain to be adjusted during the Current year. The interest taken by the Revenue Authorities towards the Collection of this tax in the present year, enabled the Council to realize the large amount of arrears that remained due at the close of last year, Rs 185, of which Rs 124 had already been Collected.

Tax on buildings and Lands:— This was as usual levied at 3 per Cent on the annual rent value. Out of the net Current

demand of Rs 4143, Rs 3892 were Collected, Rs 22 remitted and Rs 4 written off as irrecoverable and out of the Arrear demand of Rs 761, Rs 598 were Collected, Rs 23 remitted and Rs 50 written off as irrecoverable, So that the total Current and Arrear balance of the tax at the Close of the year was Rs 315 where of Rs 180 have been Since Collected and Rs 20 written off leaving Still Rs 115 for adjustment in the Current year.

Tax on vehicles with springs, Carts and Animals:— The total Collection of this tax amounted to Rs 2081 against 1802 in the previous year.

Tolls:— Tolls were as usual leased out for Rs 8010 where of Rs 7833 were realized before the close of the year and the balance also has Since been received. One out of the three Municipal gates was repaired during the year at a Cost of Rs 62 So that the net income from tolls amounted to Rs 7771 against 7963 in the previous year.

Tolls were levied at the maximum rates specified in Schedule B of the Act.

Incidence of Taxation:— The total income from

taxation being Rs 29494 including, and Rs 21653 excluding tolls, the average incidence of Municipal taxation was Rs 1-11-1 in the former and Rs 1-3-11 in the latter against Rs 1-9-2 and Rs 1-2-3 respectively in the previous year.

(B) Realizations under Special Acts:—

The Sum of Rs 145 realized under this head was the license fees levied for the Erection of pendals for theatrical performances.

(C) Revenue derived from Municipal property and powers apart from taxation:—

The total receipts under this head amounted to Rs 9581 against Rs 9625 in the previous year the difference being the net result of less receipts under "Avenue receipts" "Fees from Travellers Bungalow" "Sale proceeds of old materials" "Conservancy receipts" "Slaughter houses and other fees" counterbalanced by enhanced Collections under other items as detailed in Statement I.

Rent of lands:— The Sums of Rs 13 received under this head was the rent fixed for the Municipal grounds occupied by certain Shop keepers and others in Some of the public

Streets.

Income from Markets:—

The Collection of market fees was leased out for Rs 3360. Including the arrear balance of Rs 150 the total amount to be realized during the year was Rs 3510 whereof Rs 3348 were received and Rs 50 remitted during the year leaving the remainder for adjustment in the Current year.

Income from Slaughter Houses:—

The Collection of fees in the Slaughter house was also leased out for Rs 1520 of which Rs 1270 were collected during the year and the balance has since been realized.

Licensed fees:—

The receipts under this head amounted to Rs 854 against Rs 888 in the previous year the decrease being due to a fall in Some of the offensive and dangerous trades during the year.

Boat Stand fees:— This was leased out also for Rs 216 whereof Rs 20 were realized during the year and Steps are being taken to recover the balance by filing a Suit against the renter

in the Civil Court.

Fines under Municipal and other Acts:—
A Sum of Rs 348 was received as fines in Nuisance & other cases against 301 in the previous year. The number of prosecutions instituted during the year for Nuisance and other offences were 134. 95 of which were Convicted.

Interest on investments:—

Educational:— The interest due on Smith's Prize Endowment attached to the Municipal High School was not received before the close of the year. It has since been received and adjusted

Medical:— Rs 458 were realized as interest on the Hospital Endowment Fund.

(D) Grants and Contributions:—

Including the Arrear balance of Rs 604 the total Contribution from Provincial Funds towards the net Cost of the High School Department of the Municipal High School was Rs 3448, Rs 608 being Still due out of the Contribution for the year under report.

(E) Miscellaneous:—

Private Scavenging fees — Excluding Rs 31 remitted and written off accounts the total Collection under this head amounted to Rs 730 against the total demand of Rs 1102 (including the arrear balance) and the actuals of the previous year Rs 778. There was at the close of the year a large balance of Rs 343 owing to a large number of applications for the Service having been received about a month or so before the close of the year and the bills issued for the same not having been Completely Collected before the close of the year. Rs 165 have since been Collected and the balance Still outstanding is Rs 178. The number of houses Served by this Agency was 1003.

Other purposes:— Rs 1691 have been taken Credit for from deposits on account of House Service pipes against Rs 2658 in the previous year.

Other items:— The Sum of Rs 23-3-7 received Rs. refunds of Expenditure of previous and Current years and other items are detailed below.

0-5-8 Refund of undisbursed amounts out of previous years Expenditure.

	Actuals 1893.94	Actuals 1894.95	Revised Estimate 1894.95

0-3-5 Cost of a Copy of Election rules

1-0-0 Cost of tender forms.

4-14-0 Unclaimed deposits Credited to Imp. Fund.

28-3-7

Extraordinary debt :—

A Sum of Rs 533 was realized As interest on Rate Works Sinking fund for the year.

Advances recovered :— The Sum of Rs 8-12-0 received under this head was as detailed below :—

7-14-0 } Process fees advanced in previous year recovered.

0-14-0 } Recovery in Cash out of advances made in the previous years for Private Works

Total 8-12-0

III Expenditure.

4. The Total expenditure for the year amounted to Rs 49439 Against Rs 52127 in the previous year and it was distributed among the several grants as shown below :—

No II A part I. No new roads were laid out during the year.

Buildings:— The budget allotment of Rs 500 under this head was for the Construction of a Verandah in front of the Travellers Bungalow and for the improvement of Some of the Market Stalls. A Sum of Rs 287 was Spent for tiling Some of the market Stalls against Rs 200 provided for the purpose but the provision made for the verandah in front of the travellers Bungalow was left unutilized during the year it being found inadequate for the Same. The Work is undertaken in the Current year. Including Rs 77 Spent for Constructing a Shed for the Vaccine depot, in purchasing a house for the Municipal School at Yerramukkapalle and for making temporary latrines during Moharum, the total expenditure under this head amounted to Rs 314 against Rs 471 in the previous year.

Drainage:— The allotment of Rs 300 provided in the budget for making drains

was Subsequently revised as Rs 320 and utilized in Constructing U Shaped drains in Bommanvadi, Jumma Masjid, Dy. Venkatachelam and Gaddibazaar streets vide Statement II A part I.

The expenditure amounted to Rs 315.

Water Supply:— The Construction of drivers' and Coolies' quarters at Bugga and the extension of Water Supply to Agady were Completed during the year at a Cost of Rs 1498 as detailed in Statement II A part I against the revised estimate of Rs 1450. The excess expenditure, Rs 48, had to be incurred in Constructing a platform round the hydrant in the Travellers Bungalow.

Repairs:— Communications

A Sum of Rs 3854 was expended for repairing the Several roads and streets enumerated in Statement II A part II against the estimate of Rs 3800 and the actuals of the previous year Rs 3616. The total length of the roads and Streets within the limits of this Municipality is 25½ miles and the total

extent of the roads maintained during the year was 3¾ miles where of 2¼ miles are metalled and 1½ miles are gravelled. The repairs to roads were carried on Contract System under the Supervision of the Chairman and the Ward Councillors. A gang of Coolies was also entertained for patch work on roads at a Cost of Rs 614 against Rs 687 in the previous year. The total outlay on roads both New works and repairs was less in the previous year more than 50 per Cent of the tolls received during the year and the roads have been as far as possible maintained in good order. Many (18) of the side Streets and lanes in the Town, which as the Sanitary Commissioner remarked in his inspection Notes, had been in a neglected State, have been repaired during the year and Some more are being attended to in the Current year.

Buildings :— The original allotment of Rs 300 Sanctioned in the budget for repairing market Stalls, municipal High School and

Slaughter houses has been Supplemented by further allotments amounting in all to Rs 380 for repairing the Travellers Bungalow Municipal Primary School buildings and the buildings attached to the municipal Hospital etc as detailed in Statement II A part II. The total expenditure under this head amounted therefore to Rs 682 against 534 in the previous year. The Several Suggestions of the Sanitary Commissioner for the improvement of Butchers stalls in the market and the Slaughter houses are now given effect to in the Current year.

Drainage :— No expenditure was anticipated under this head but Subsequently provision had to be made for repairing the old drain in Jumma Masjid Street and for clearing drains in the town. The expenditure amounted to Rs 54.

Water Supply :— Repairs to works and Machinery and Contingencies

The total expenditure under this head amounted to Rs 1936 as detailed below against the revised

revised estimate of Rs 2000 and the Actuals of the previous year Rs 1467.

Improving fountains in the town and reservoir at Bugga	132-4-11
Repairing leakages in main and branch pipes	38-5-6
Cost of flanged pipes, discharge Cocks, stop Cocks, Canvas belting and other machinery and repairs thereto including inspection and testing of Engines and boilers	825-2-0
Cost of fuel for Engines	739-1-4
—Do— oil and other Contingencies	148-7-9
Watering plantations at Bugga	52-7-0
Total	1935-12-6

Arrangements were also made for planting flower and other trees around some of the Stand pipes and fountains in the town to absorb the waste water instead of the same being allowed to Stagnate or flow along side of Streets and roads. The Engine boiler at Bugga got out of order twice during the year and was set

right by the boiler Inspector of the Madras Railway Locomotive Department. Some of the worn-out machinery of the Engines were replaced by fresh mouldings during the year.

Water Supply Establishment:—

The Cost of Establishment for water Supply amounted to Rs 1475 against the revised Estimate of Rs 1430 and the Actuals of the previous year Rs 1404. The increase was due to the employment of a temporary gardener for the Casurina and other plantations at Bugga for about 8 months during the year vide G. O. No $\frac{1574 \text{ M. Mis}}{16.11.93}$. About 2000 casurina and 100 Cashmut plants have been planted on the municipal land at Bugga around the Head Springs. They are thriving well and in good order.

Public Works:— Establishment

The Cost of establishment maintained for public works during the year amounted to Rs 530 against Rs 430 in the previous year the increase being due to the horse allowance Sanctioned to the overseer at Rs 10 per mensem

Grant II. Education:—

6. The total outlay on Education during the year amounted to Rs 9708 against Rs 9411 in the previous year.

Training Schools:— Provision was originally made for the training of the Head Masters of the Hindu and Mahamaddan Primary Schools, a matriculate and two Lower Secondary men. The Head Master of the Hindu Primary School who is a matriculate could not be sent till the latter part of the year. The Head Master of the Mahamadan Primary School was the only teacher that was trained during the year, the Head Master of the other mahamadan School having declined to undergo training and left the School eventually. The stipends paid during the year amounted therefore to Rs 35 at Rs 3 per mensem. In the year under report the Council had under its management one High School on Salary System and four Primary Schools on Salary Results System. The Strength of each of these Schools on the 31st of March 1895, was as shown below.

		Boys	Girls	Average attendance
1	Municipal High School	120	1	56
2	Hindu Primary School	124	17	106
3	Mahamadan —do—	90	"	69
4	—do— Aegady	20	8	18
5	Parish School at Zerramukkapalle	20	2	16.
		254	27	209.

Salary Schools:— The Cost of Establishment of the Municipal High School on Salary System amounted to Rs 6696 against Rs 6640 in the previous year. It was however less than the budget Estimate by Rs 304 owing to the place of the 2nd Assistant master having been vacant for nearly 6 months for want of a Competent man, a Science graduate, Rs 308 were Spent for Contingencies of the School against the budget Estimate of Rs 300. From this School 13 pupils went up for Matriculation and 14 for Lower Secondary examination during the year, and 2 of the former and 6 of the latter passed against 3 and 2 respectively in the previous year.

Salary result Schools:— In statement II B the establishments maintained for the four Schools under Salary result System are detailed a...—

the Cost thereof including Contingencies amounted to Rs 1298 against Rs 1225 in the previous year the increase being due to the entertainment of an additional teacher on Rs 8 per mensem for the Hindu Primary School. Three of the four Schools were examined for results grants and paid Rs 394 excluding Rs 77 arrears of the previous year. The results at the examination were as shown below —

	No examined	No passed
IV Standard	24	12
III "	43	25
II "	29	24
I "	24	18
Infant "	24	13
Total	144	92

144 out of 255 pupils were presented for examination from all the standards and 92 passed. The total Strength of these four Schools on the 31st March 1895 was 281 and their average attendance 209.

The total Cost of maintaining the High and Primary Schools during the year amounted to Rs 8772 But taking into account the School fee Collections (Rs 3015) and the Government Contribution (Rs 3248) towards the net Cost of the High School department

of the municipal High School, amounting in all to Rs 6463, the net Cost to the municipality was only Rs 2309 against Rs 2346 in the previous year.

Result grants :— At the Commencement of the year there were 12 result Schools and one was opened and 4 closed during the year So that the number existing at the Close of the year was 9 Schools with a Strength of 363 boys and 6 girls. The number of pupils examined for results grant was 239 of whom 159 were found qualified. They earned a grant of Rs 450. Including the Arrear grant paid during the year the total amount disbursed was Rs 525 against Rs 765 in the previous year. The results grants were paid at the maximum rates.

Inspection :— As in the previous year there was one Inspecting School Master for the inspection of the Hindu results Schools on Rs 15 per mensem. His work was Supervised by the Sub Assistant Inspector of Schools, Cuddapah range His pay and Contingencies amounted to Rs 166 against Rs 190 in the previous year. The usual Contribution of Rs 90 was paid to the District Board for the

the inspection of the Mahamadan results Schools in the Municipality by their Mahamadan Inspecting School Masters whose work was Supervised by the Sub Assistant Inspector of Mahamadan Schools Central Circle. The total expenditure under this head amounted to Rs 256 against Rs 280 in the previous year. No expenditure was incurred on account of building and other grants and for gymnastic apparatus.

Grant III Medical Services and Sanitation

7. The total expenditure under this grant amounted to Rs 15371 against Rs 12349 in the previous year the increase being due chiefly to the increased expenditure incurred during the year on account of the establishment and Contingencies of the Municipal Hospital besides the Cost of Medicines and diet of patients as explained below.

Hospitals and Dispensaries:—

Establishment:— The total Cost of the Establishment maintained for the Municipal Hospital amounted to Rs 2700 against the actuals of the previous year Rs 2328. the increase being due to the pay of the 3rd class Hospital assistant having been

raised from Rs 35 to Rs 45 per mensem. This man was entertained only in the latter part of the previous year:—

Medicines and Supplies:—

The increase of Rs 1510 under this head over the actuals of the previous year was due to the Cost of Medicines Supplied in the previous year having been billed and paid for in the year under report besides increased demand for medicines from the Hospital.

Diet of patients:— The number of inpatients treated during the year was only 474 against 522 in the previous year but the Cost incurred therefor amounted to Rs 1292 against Rs 1029 in the previous year.

Sundries and Contingencies:— The increase of Rs 487 under this head over the actuals of the previous year was due chiefly to the increased expenditure incurred during the year on account of bedding & clothing, furniture and other Contingencies. Including Rs 278 Spent on buildings, the total amount expended on account of the Hospital was Rs 7222 against 4602 in the previous year. But deducting the District Board's —

Contribution Rs 2500 the net Cost to Municipality was Rs 4722 against Rs 2102 in the previous year. 15763 outpatients attended the Hospital against 15768 in the previous year. The average daily attendance of both in and outpatients during the year was 122 against 164 in the previous year. This decrease in the number as well as the attendance of both in and outpatients is attributed by the District Surgeon to the working of the London mission Hospital. The expenditure was however heavier than in the previous year.

Vaccination.—— This is worked departmentally through the municipal Vaccinator who is placed under the direct Supervision of the Assistant Surgeon (a municipal Councillor) attached to the Municipal Hospital. The total number of Cases vaccinated during the year was 508 against 462 and the total number of Successful cases 465 against 406 in the previous year. The number of children under one year of age Successfully operated on was 132 out of 134 against 170 out of 188 in the previous year. The following Statement shows

the number of births from 6 months prior to the Commencement of the year and the number vaccinated out of the Same during the year.

Months and number of birth.	Died	Left the town	Months and Number of Vaccinations	under one year of age	Above one year of age	Re-vaccinated.

August "	45	16	8 February "	50	24	22	4
September "	19	8	2 March "	35	11	4	20
Total	266	73	57	508	134	300	74

No vaccine operations were performed by the Medical Subordinates. Out of the 465 Successful operations 390 were by means of fresh animal lymph (cow to Arm) and 75 by means of glycerine paste

The Cost of vaccination during the year amounted to Rs 116 for establishment and 122 for Contingencies. The average Cost of each case Successfully operated on was Rs 0.8.2.4 7 prosecutions were instituted for failure to have Children vaccinated and the result was that in all cases Children were vaccinated within the time allowed by the magistrate. All possible measures have been adopted to render Vaccination more Complete and Systematic during the year.

Vital Statistics:— The following abstract Shows the number of births & deaths registered during the year under report as Compared with those in the previous year.

	1894.95	1893.94.
Births	296	229
Deaths.		
Cholera	"	1
Smallpox	4	17
Fevers	294	509
Dysentery	33	18
Suicide	2	2
Wounds	4	1
Accidents	9	5
	346	552

	346	552
Snake bite	1	"
Killed by wild animals	1	"
All other Cases	215	203.
	563	755

Excluding 26 Still born Cases the number of births and deaths registered during the year was 296 and 563 against 229 and 755 respectively in the previous year. Notices were Served upon midwives, grave diggers, and others, making them responsible for the due registration of births and deaths, printed notices were affixed in all Conspicuous places in the Town and circulated among the people as far as possible - and notice was also given by beat of drum once or twice every month. Besides this the ward peons and the registrar were Strictly insisted upon to See that all births and deaths are properly registered. Eleven prosecutions were instituted 7 for not reporting births and 4 for not reporting deaths. 5 of the former and 2 of the latter were Convicted and the rest acquitted. From this it will be Seen that all possible Steps were

taken to render registration complete. Considering the established truth that Cuddapah is unhealthy better results cannot possibly be expected. The Cost of registration during the year amounted to Rs 119 against 132 in the previous year.

Conservancy Establishment :—

The cost of the Conservancy establishment for the year amounted to Rs 4195 against 4190 in the previous year. The establishment Contains the same as in previous year. The Sanitary Inspector underwent training at the medical College and has been declared to have passed the intermediate examination prescribed for Sanitary Inspectors.

Other Charges :— The Cost of removing Street Sweepings and night Soil amounted to Rs 2523 against the revised estimate Rs 2690. As in the previous year 12 Carts with 12 pairs of bulls for the removal of Sweepings and 4 pairs of bulls for the removal of night Soil in the municipal Carts were engaged at a monthly Cost of Rs 200 against 152 in the previous year.

Private Scavenging :—

The establishment maintained for the purpose continued the same as in the previous year except that three Scavengers attached to the three latrines abolished during the year were transferred from General Conservancy to this Agency and that the duties of the Sub Inspector who, in the previous year, had the inspection of the Slaughter houses in addition to his work were confined to the close inspection of the Private Scavenging work and to the extension of the System as far as practicable, other arrangements being made for the inspection of Slaughter houses. The Cost of the Establishment including Contingencies amounted to Rs 888 against 883 in the previous year. Necessary measures were adopted for Compelling landlords to keep their premises in a Sanitary

Condition. Notices were served in 150 Cases to remove rubbish and other filth from the premises and 112 prosecutions were instituted for failure to do so. With all this extension of the Service is found to be a great difficulty especially among the mahamadan Community and prepayment of the fees could not be insisted upon without detriment to the genral appreciation of the System. Frequent inspection of the premises and enforcement of the Sanitary provisions of the law in all Cases in which the premises were kept in an unclean condition and Careful Supervision of the Conservancy establishments have however impressed upon the people the necessity for applying for the Service and ultimately resulted in the improvement of the Sanitary Condition of the town to Some extent.

Grant IV Lighting &c

8. The establishment for lighting Continued the Same as in the previous year, and Cost Rs 360 against Rs 357 in the previous year. The Cost of oil, wicks &c amounted to Rs 930 against 1040 in the previous year. The number of lamps remained the Same as in the previous year. It has Since been increased by 10 more. Even this number viz 148 is Considered to be insufficient to the town. Provision has to be made for at least 10 more this year. Lights are inspected by the Sanitary inspector and occasionally by the Councillors and the Chairman

Market and Slaughter Houses:—

The establishments maintained for the market and Slaughter houses Continued the Same as in the previous year and the

the Cost thereof including Contingencies amounted to Rs 118 for the former and 238 for the latter against 117 and 240 in the previous year. Including Rs 282 Spent under

under Grant I the total expenditure on account of the municipal market amounted to Rs 400.

Travellers Bunglow:—

The establishment continued the Same as in the previous year. It Cost Rs 120 besides Rs 47 for Contingencies against Rs 114 and 152 respectively in the previous year. Further Rs 136 were spent under grant I for repairs to Bunglow and other improvements, So that the total expenditure on account of the Bunglow was 303. Deducting the fees realized in the year viz Rs 236, the net Cost of the Municipality was only Rs 67. The Bunglow is already Comfortable and it will be more So with the verandah now under Construction in front of it.

Avenues:— As in the previous year one Servant on Rs 6 per mensem was employed for watering young avenues. Another Servant on the Same pay was temporarily engaged for two months for fencing the avenues and to look after the plants planted around Some of the fountains in the town. The Cost amounted to Rs 84. A further Sum of Rs 103

was spent on account of thorns &c for fencing. The avenues are in good order. Rs 40 was realized by the Sale of clippings and produce.

Fire Establishment: —— A Sum of Rs 33 was spent for the temporary Establishment maintained for watching fire occurrences in the town.

Other Charges: —— Rs 1876 were distributed as detailed below for Miscellaneous purposes

Cost of materials and labour for laying pipes	402-6-8
Printing Municipal Proceedings Voters Lists &c	384-11-4
Pay of tom tom beater	24-0-0
Kist on municipal Lands	27-2-1
Cost of tin tickets	31-2-0
—Do— Signboards	6-4-0
Total.	1875-10-1

Grant V —— Supervision and Management

9 - The total expenditure under this grant amounted to Rs 3878 against the revised Estimate of Rs 4050 and the Actuals of the previous year Rs 3747. It is detailed below. ——

Office Establishment	1435
Chairmans Conveyance allowance ——	535
Collection Establishment ——	700
Office rent and other Contingencies including Cost of account books }	598
Contribution to Government for audit Establishment }	310
Total	3878.

Repayment of debt: ——

The Annual instalment amounting to Rs 172 was paid during the year towards the repayment of the Special loan of Rs 9695 taken for the Completion of Bugga Water Works and the interest thereon amounting to Rs 407 was also paid besides Rs 2940 due to Debenture holders for the year.

Advances recoverable: ——

The unadjusted advances for the year amounted to Rs 2056-5-0 as noted below.

Amount advanced to the Accountant general Madras for the purchase of Government Securities for investment on account of Water Works Sinking fund }	2030-0-0

Cost of attendance registers & Supplies } 11-9-0
to the Inspecting School Master for Sale }

Process fees 14-12-0

Total 2056-6-0.

Rs 2030 advanced to the Accountant General has been Since adjusted and the Government Securities to the value of Rs 1800 are as usual in the Custody of the Accountant General. In Connection with remittances by Municipalities for investment, the Accountant General has ordered that remittances should be by Cheques or hundies on a bank at Madras and that in no case the amount would be received in Cash or Currency Notes. The Sum of Rs 2030 above referred to was once refused but with the Special permission of the Accountant General a remittance transfer receipt was obtained for the amount on payment of the required fees and the amount was invested. The annual instalment of Rs 200 payable during the year towards repayment of the loan taken from the Hospital Endowment fund could not be remitted

during the year on account of the Same difficulty. The amount will be invested during the Current year.

Closing Balance.

10. Including the opening balance of Rs 7730 the total receipts for the year amounting to Rs 55884 and the total expenditure under all grants to Rs 49439 the year closed with a balance of Rs 6445 at Credit of the Council.

I have the honor to be

Sir

Your most obedient Servant

Chellayya Pillay

Chairman

Administration Report of the
Municipal Hospital, Cuddapah
for the year 1894-1895.

The Public health in the Town of Cuddapah, has been fairly good during the year under reference. There was no cholera during the year on the town, though it broke out in the District at Jammalamadugu. Measles and mumps prevailed to some extent; there were no deaths from these.

Malarial Fevers as usual prevailed during the latter part of the year. The total number treated from this disease was 7033 of which 44 were In and 6989 Out patients against 6976 in the previous year. Showing an increase of 57. Lung diseases especially Pneumonia prevailed for the most part of the year, and to a greater extent than the previous year. It mostly occurred as a complication in Remittent Fever. There were Altogether 195 were treated under Lung diseases and 530 under Diseases of the other Respiratory organs, Showing an increase of 61 of the former and 13 of the latter.

II The Institution has been well attended by all classes of people, a fairly large number of them coming from Distant Talugs.

III

III. This Institution is maintained by Municipal Funds together with a Contribution of Rs 2500/- from Local Funds.

IV. The Institution ought to be occasionally visited by the Municipal Councillors, but I am sorry to say that the Councillors have not done so. The Surgeon General with the Government of Madras, inspected the Hospital on 29th September 1894 and made the following remarks in the visitors book:—

"Visited the Municipal Hospital. There were 16 In-patients who appeared to be carefully looked after. The hospital was in good order and the records properly kept. I concur in the Suggestions of the District Medical and Sanitary Officer regarding the redistribution of the rooms as an Out-patient Department. An operation room is very desirable, wards for males and females for cholera and Small-pox are also necessary. Say two beds each. A separate lying in ward and delivery room are required. The kitchen is most necessary. The present one is only fit to be made into a store room. Standard plans for these buildings should be obtained from

from the Sanitary Board. Bed side tables (Cheapoys) are most necessary for each bed. The services of a gardener are necessary to keep such a large compound clean and to make a garden in which convalescents can take exercises. There should be a few iron seats in the garden under trees".

The main building of the Hospital is in a good condition, a separate Operating Theatre will be very beneficial and I hope the Municipal authorities will endeavour to find some means to make this addition to the buildings. The Out houses require repair and as there were no funds available provision has been made for these in the next years allotments. All affairs connected with the Hospital are discussed and disposed of at the Municipal meetings.

A Separate Hospital Committee should exist which ought to meet once a month to discuss matters concerning the Hospital. The Chairman of the Municipal Council was addressed on this Subject on the 26th October 1894, but no steps seem to have been taken for the forming of the committee. If a committee of this sort existed it would do a lot for the Hospital. The rich merchants could be persuaded

to

to endow the Hospital with beds and subscriptions could be collected for the suggested Operation Theatre

V The Hospital is under the immediate charge of the District Medical and Sanitary Officer and during his absence the Assistant to the District Medical and Sanitary Officer is in charge

VI During the year 15763 Out and and 474 In-patients were treated showing a decrease of 5 Out and 48 In-patients as against the previous year. The decrease in the admissions has been due to the less admissions from fever. Moreover the London Missionary Society had a Dispensary in Undupal where the native Christians and others from its vicinity resorted to. This Dispensary has been removed to Jaffna Malabar where a Hospital is under construction by the same Mission. Though the people are poor yet they are averse to having themselves admitted into the hospital and this is chiefly the case with the illiterate. They seem to think that it is impossible to be an In-patient, as the popular belief (unwritten) is that hospitals are only for paupers. They rather go to the numerous quacks and spend the little that they have in medicines and diet (Puthiamo) as they are popularly called rather than come.

come to Hospitals. If they do come to the Hospital it is at the last moment when human aid cannot save them. The decrease in In-patients is also due to the less admissions of Byragees and other mendicants who have been sent to the various Choultries as they are cases of Starvation and not disease.

VII The most prevailing diseases during the year were:-

1. Malarial Fevers
2. Other diseases of digestive system
3. Rheumatic affections
4. Ulcers
5. Diseases of the eye
6. Other diseases of Respiratory System
7. Diseases of the ear
8. Skin affections.

VIII 60 Major and 526 Minor Operations were performed during the year showing an increase of 12 Major and 73 Minor as against the previous year.

IX The Medical Subordinates do not perform vaccine Operations as the Municipal Vaccine depôt is situated in the Hospital Compound and the vaccination is carried on there. Vaccination will be reported on further.

X

X Conservancy Establishment

Consists of:-

1 Inspector on Rs. 25 + 10 Rs house allowance per mensem.
6 Peons on Rs. 6/- each per mensem
1 Mistry on Rs. 8/- — Do. — Do. —
2 Female Totis at Rs. 6/- — Do. — Do. —
2 Female Totis at Rs. 4/- — Do. — Do. —

The Establishment is quite sufficient for the town.

There are 4 wooden hose carts for removing night Soil and one closed cask for removing urine. The latter is not sufficient and should at least be doubled. This was suggested also in last years report. It would also be good if the Municipality were to have one closed wooden hose cart for each ward for the removal of night Soil. There are 12 country carts for removing street sweepings.

Latrines. There are altogether 36 latrines as compared with 42 of last year. Of these 24 are Pucka built, 6 Kacha walled and 6 Kacha walled. Of these 18 are for Males and 18 for females. This number is quite sufficient. Every latrine ought to have an iron receptacle placed close by into which all the excreta ought to be deposited and then removed. The excreta should on no account be deposited on the ground. Outside the latrines awaiting removal. There are at present 8 receptacles and provision has been made for 10 more in next years allotment and this number will be sufficient.

Dust bins. There are 173 of which 7 are iron movable and 166 are Stone Slabbed. More are required.

Private Scavengering Establishment.

1 Inspector on Rs. 15/- each per mensem
13 Scavengers at Rs. 4/- — Do. — Do. —
1 Scavengers at Rs. 5/- — Do. — Do. —

There are altogether 1003 houses that are cleaned by the Municipal Scavengers as compared with 613 of last year. The 6 latrines that were demolished were at the request of inhabitants close by who have now gone in for the private Scavengering System. The demolition was approved of by the Sanitary Commissioner.

Is this correct?

Manure depôts. The night Soil and rubbish is removed and deposited Outside the town and is disposed of by public auction once a year.

Drainage. A few Side drains have been laid since last report but many more are still required.

Roads. The main roads require repairs badly. Provision has been made for this in next years allotment. 18 bye lanes have been converted into roads.

House Drainage. All the houses have more or less a cesspool. The cesspools are covered with slabs which appear never to have been removed since the day they were laid down.

The

The cesspools in most cases are not puckka built and hence the contends soak into the ground. Every cesspool ought to be puckka built and there should be a separate staff for removing the waters from them daily &c. Some rule should be observed and each house owner or tenant should be held responsible for its cleanliness. The Sanitary Inspector should make this one of his chief duties.

Water supply :- Good and abundant. brought into the town by pipes.

Vaccination. 508 cases were vaccinated during the year under reference and this shows an increase of 46 as compared with the previous year. Vaccination is in a backward State in the Town. The unhealthy climates has a great deal to do with this for the people are afraid to have their children Vaccinated one account of the fever. As soon as notices are served on them they send the children away, and thus evade vaccination. Moreover a large number of children are born in a most emaciated condition and even after 6 months they are in such a poor state of health, that they are not fit for vaccination.

General Remarks. The total amount of Rainfall registered during the year under review at the Meteorological Observatory was 37.77 inches against 39.44 of the previous year. Total number of labour cases was 47. Of these 24 were attended to by the Eurasian midwife and 23 by the native.

28 TH OCTOBER 1895, No. M., LOCAL AND MUNICIPAL.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. C. CHELLAYA PILLAY, Avergal, B.A., B.L., Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated 18th July 1895, No. 444.

I have the honour to submit herewith the administration report of the Cuddapah Municipality for the official year 1894–95 with the prescribed statements and the report of the District Medical and Sanitary Officer, Cuddapah, on the working of the Municipal hospital.

I.—CONSTITUTION OF THE COUNCIL.

2. The sanctioned maximum strength of the council is sixteen councillors, twelve elected and four nominated including the ex-officio councillor, the Revenue Divisional officer. Seven vacancies were filled up during the year, three by nomination and four by election of councillors and the maximum number existed at the close of the year. The number of registered voters in the municipality was 851.

Twenty-nine meetings were actually held during the year against twenty in the previous year, the average attendance of councillors thereat being one official and six non-officials against two and seven respectively in the previous year. Six meetings were adjourned for want of quorum against five in the previous year. Compared with the previous year the attendance of the councillors, both officials and non-officials, shows a slight decline which was due mostly to the frequent occurrences of vacancies and elections during the year.

II.—RECEIPTS.

3. The subjoined is an abstract of the total receipts of the municipality for the year under report as compared with the revised estimates for the year and the actuals of the previous year :—

—e	Actuals, 1893–94.	Actuals, 1894–95.	Revised estimate, 1894–95.
	Rs.	Rs.	Rs.
Opening balance ..	12,147	7,730	7,730
(a) Municipal rates and taxes—			
Tax on arts	3,544	3,876	3,980
,, buildings and lands including water-tax	14,543	15,696	15,920
,, vehicles, carts and animals	1,802	2,081	2,170
Tolls	8,020	7,841	8,010
Total income from taxation ..	27,909	29,494	30,080
(b) Realizations under Special Acts	35	145	40
(c) Revenue derived from municipal property and powers apart from taxation	9,625	9,581	9,880
(d) Grants and contributions	5,803	5,948	6,060
(e) Miscellaneous, including extraordinary and debt heads	4,338	2,986	3,230
Total receipts ..	47,710	48,154	49,290
Grand Total including opening balance ..	59,857	55,884	57,020

From the above abstract it will be seen that, for the year under report, the income from taxation amounted to Rs. 29,494 and the other receipts to Rs. 18,660 against the revised estimates for the year Rs. 30,080 and Rs. 19,210 and the actuals of the previous year Rs. 27,909 and Rs. 19,801 respectively. The total receipts for the year, though less than the revised estimate, exceeded the actuals of the previous year, the increase being under taxation. Added to the opening balance of Rs. 7,730, the receipts for the year amounted to Rs. 55,884 against Rs. 59,857 in previous year (Rs. 59,857). The important items of taxation and other receipts are noticed below.

A.—Receipts from Taxation.

Tax on Arts.—As in the previous year this tax was revised and levied on the first seven classes of Schedule A of the Act. The number of assessees under all the six classes excepting the first under which no persons were taxed was 702 against 737 in the year as detailed below, the decrease occurring chiefly under classes 4, 5 and 6. A good number of merchants falling under these three classes gave up trade during the year :—

	1894–95.	1893–94.
Class I	..	..
„ II	3	4
„ III	32	25
„ IV	89	77
„ V	188	193
„ VI	350	398
„ VII	40	40
Total ..	702	737

The original current demand of this tax for the year was Rs. 4,144 against Rs. 4,026 in the previous year, but the remissions granted by the council on appeal having been larger than in the previous year (Rs. 156 against Rs. 58), the net current demand remained almost the same as in the previous year (Rs. 3,988 against Rs. 3,968). The current collections of this tax amounted to Rs. 3,610 against Rs. 3,464 in the previous year and Rs. 50 were written off the accounts. Out of the arrear demand of Rs. 558, Rs. 264 were collected and Rs. 260 written off accounts as irrecoverable. Including arrears and current there was, at the close of the year, a balance of Rs. 361, whereof Rs. 75 have since been collected and Rs. 82 written off accounts. Rupees 203 still remains to be adjusted. Ninety appeals were preferred against the imposition of this tax and all of them were disposed of before the close of the year. In 37 cases the tax was confirmed, in 16 it was exempted and in 37 it was reduced. Sixteen prosecutions were instituted for the collection of this tax and 15 were disposed of before the close of the year. The remaining one has also been since disposed of.

Tax on Buildings.—The principle on which this tax was levied remained the same as in the previous year. There are altogether 5,289 houses in the town, 2,618 of which are taxable. The others are either ruined houses deserted by owners, or houses the taxes on which owners are too poor to pay, or thatched or tiled huts whose annual rent-value falls below the minimum prescribed in the Act. In the year under report, houses, the taxes on which were written off in the previous year under section 51 of the Act or by reason of their being ruined, were removed from the demand and assessment was enhanced on some of the buildings built after European style but omitted in the previous year to be assessed at 12 per cent. of their actual or estimated cost for their annual rental. The original current demand of this tax thus amounted to Rs. 10,201 against Rs. 10,229 in the previous year. Two hundred and seventy-four appeals were preferred and all but one were disposed of before the close of the year. The tax was confirmed in 83, exempted in 44, reduced in 143 and raised in 3 cases, the total remissions amounting to Rs. 59 against Rs. 52 in the previous year. The net current demand was thus Rs. 10,142 against Rs. 10,177 and the total current collections Rs. 9,645 against Rs. 8,656 in the previous year.

Excluding Rs. 55 remitted on account of vacant houses and Rs. 11 written off as irrecoverable, the balance outstanding at the close of the year was Rs. 431 against

Rs. 1,519 in the previous year. Rs. 182 of the balance have since been collected and Rs. 50 written off the accounts by reason of most of the houses being utterly ruined or razed to ground.

Out of the arrear demand of Rs. 1,613, Rs. 1,386 were collected, Rs. 58 remitted and Rs. 123 written off accounts, leaving a balance of Rs. 46 for adjustment in the current year. Forty prosecutions were instituted for the collection of this tax and 26 were disposed of before the close of the year. The rest have also been since disposed of. A sum of Rs. 6 was received as penalties on account of this tax.

Tax on Lands.—As in the previous year this tax was levied at 4 annas per acre on an estimated annual rental of Rs. 3–8–0. The current and arrear demands of this tax amounted to Rs. 488, whereof Rs. 168 were collected leaving at the close of the year a balance of Rs. 320, of which Rs. 230 have been since collected and Rs. 90 still remain to be adjusted during the current year. The interest taken by the Revenue authorities towards the collection of this tax in the present year enabled the council to realize the large amount of arrears that remained due at the close of last year, Rs. 185, of which Rs. 124 had already been collected.

Water-tax on Buildings and Lands.—This was as usual levied at 3 per cent. of the annual rent-value. Out of the net current demand of Rs. 4,143, Rs. 3,892 were collected, Rs. 22 remitted and Rs. 4 written off as irrecoverable, and out of the arrear demand of Rs. 761, Rs. 598 were collected, Rs. 23 remitted and Rs. 50 written off as irrecoverable, so that the total current and arrear balance of the tax at the close of the year was Rs. 315, whereof Rs. 180 have been since collected and Rs. 20 written off, leaving still Rs. 115 for adjustment in the current year.

Tax on Vehicles with Springs, Carts and Animals.—The total collection of this tax amounted to Rs. 2,081 against Rs. 1,802 in the previous year.

Tolls.—Tolls were as usual leased out for Rs. 8,010, whereof Rs. 7,833 were realized before the close of the year and the balance also has since been received. One out of the nine municipal gates was repaired during the year at a cost of Rs. 62, so that the net income from tolls amounted to Rs. 7,771 against Rs. 7,963 in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act.

Incidence of Taxation.—The total income from taxation being Rs. 29,494 including, and Rs. 21,653 excluding, tolls, the average incidence of municipal taxation was Rs. 1–11–1 in the former and Rs. 1–3–11 in the latter against Rs. 1–9–8 and Rs. 1–2–3 respectively in the previous year.

(*b*) *Realizations under Special Acts.*—The sum of Rs. 145 realized under this head was the license fees levied for the erection of pandals for theatrical performances.

(*c*) *Revenue derived from Municipal property and powers apart from Taxation.*—The total receipts under this head amounted to Rs. 9,581 against Rs. 9,625 in the previous year, the difference being the net result of less receipts under "Avenue receipts," "Fees from travellers' bungalow," "Sale-proceeds of old materials," "Conservancy receipts," "Slaughter-house and other fees" counterbalanced by enhanced collections under other items as detailed in statement I.

Rent of Lands.—The sum of Rs. 13 received under this head was the rent fixed for the municipal ground occupied by certain shopkeepers and others in some of the public streets.

Income from Markets.—The collection of market fees was leased out for Rs. 3,360. Including the arrear balance of Rs. 150, the total amount to be realized during the year was Rs. 3,510, whereof Rs. 3,348 were received and Rs. 75 remitted during the year, leaving the remainder for adjustment in the current year.

Income from Slaughter-houses.—The collection of fees in the slaughter-houses was also leased out for Rs. 1,520, of which Rs. 1,270 were collected during the year and the balance has since been realized.

License Fees.—The receipts under this head amounted to Rs. 354 against Rs. 388 in the previous year, the decrease being due to a fall in some of the offensive and dangerous trades during the year.

Cart-stand Fees.—This was leased out also for Rs. 216, whereof Rs. 20 were realized during the year and steps are being taken to recover the balance by filing a suit against the renter in the Civil Court.

Fines under Municipal and Other Acts.—A sum of Rs. 348 was received as fines in nuisance and other cases against Rs. 301 in the previous year. The number of prosecutions instituted during the year for nuisance and other offences was 134, 95 of which were convicted.

Interest on Investments—Educational.—The interest due on Smith's Prize Endowment attached to the municipal high school was not received before the close of the year. It has since been received and adjusted.

Medical.—Rs. 458 were realized as interest on the hospital endowment fund.

(*d*) *Grants and Contributions.*—Including the arrear balance of Rs. 800, the total contribution from provincial funds towards the net cost of the High school department of the municipal high school was Rs. 3,448, Rs. 608 being still due out of the contribution for the year under report.

(*e*) *Miscellaneous.*—Nil.

Private Scavenging Fees.—Excluding Rs. 31 remitted and written off accounts the total collection under this head amounted to Rs. 730 against the total demand of Rs. 1,104 (including the arrear balance) and the actuals of the previous year Rs. 778. There was at the close of the year a large balance of Rs. 343 owing to a large number of applications for the service having been received about a month or so before the close of the year and the bills issued for the same not having been completely collected before the close of the year. Rs. 165 have since been collected and the balance still outstanding is Rs. 178. The number of houses served by this Agency was 1,003.

Other Purposes.—Rs. 1,691 have been taken credit for from deposits on account of house service pipes against Rs. 2,658 in the previous year.

Other Items.—The sum of Rs. 23-3-7 received under refunds of expenditure of previous and current years and other items are detailed below:—

	Rs.	A.	P.
Refund of undisbursed amounts out of previous year's expenditure	0	5	8
Recoveries from parties for work done and paid for in the previous year	11	4	6
Recovery of the cost of tools lost by a contractor ..	5	8	0
Cost of a copy of election rules	0	3	5
Cost of tender forms	1	0	0
Unclaimed deposits credited to municipal fund	4	14	0
Total ..	23	3	7

Extraordinary and Debt.—A sum of Rs. 533 was realized as interest on water works sinking fund for the year.

Advances Recovered.—The sum of Rs. 8-12-0 received under this head was as detailed below:—

	Rs.	A.	P.
Process fees advanced in previous year recovered ..	7	14	0
Recovery in cash out of advance made in the previous year for prize books	0	14	0
Total ..	8	12	0

III.—Expenditure.

4. The total expenditure for the year amounted to Rs. 49,439 against Rs. 52,127 in the previous year and it was distributed among the several grants as shown below:—

—	Actuals, 1893-94.	Actuals, 1894-95.	Revised estimate, 1894-95.
	Rs.	Rs.	Rs.
Grant I, Public Works	15,982	10,948	10,880
,, II, Education	9,411	9,708	10,130
,, III, Sanitation and medical services ..	12,349	15,371	15,450
,, IV, Lighting and miscellaneous purposes.	4,677	3,912	4,460
,, V, Supervision and management ..	3,747	3,890	4,050
Repayment of debt, &c.	5,961	5,610	5,790
Total ..	52,127	49,439	50,760

5. *Grant I, Public Works.*—A sum of Rs. 10,948 was spent on works under this grant including cost of establishments, contingencies and tools and plant against Rs. 15,982 in the previous year, the difference being due entirely to expenditure incurred on water works at Bugga in the previous year.

(1) *New Works—Communications.*—The allotment under this head was fully utilized for the construction of eight culverts as detailed in the accompanying statement No. II-A, part I. No new roads were laid out during the year.

Buildings.—The budget allotment of Rs. 500 under this head was for the construction of a verandah in front of the travellers' bungalow and for the improvement of some of the market stalls. A sum of Rs. 237 was spent for tiling some of the market stalls against Rs. 200 provided for the purpose; but the provision made for the verandah in front of the travellers' bungalow was left unutilized during the year, it being found inadequate for the same. The work is undertaken in the current year. Including Rs. 77 spent for constructing a shed for the vaccine depôt, in purchasing a house for the municipal school at Yerramukkapalle and for making temporary latrines during moharum, the total expenditure under this head amounted to Rs. 314 against Rs. 471 in the previous year.

Drainage.—The allotment of Rs. 300 provided in the budget for making drains was subsequently revised as Rs. 320 and utilized in constructing U-shaped drains in Bommanvadi, Jumma Masjid, Y. Vencatachelam and Gaddibazaar streets—*vide* statement II-A, part I.

The expenditure amounted to Rs. 315.

Water-supply.—The construction of drivers' and coolies' quarters at Bugga and the extension of water-supply to Agady were completed during the year at a cost of Rs. 1,498 as detailed in statement II-A, part I, against the revised estimate of Rupees 1,450. The excess expenditure, Rs. 48, had to be incurred in constructing a platform round the hydrant in the travellers' bungalow.

Repairs—Communications.—A sum of Rs. 3,854 was expended for repairing the several roads and streets enumerated in statement II-A, part II, against the estimate of Rs. 3,800 and the actuals of the previous year, Rs. 3,616. The total length of the roads and streets within the limits of this municipality is $25\frac{1}{2}$ miles and the total extent of the roads maintained during the year was $3\frac{3}{4}$ miles, whereof $2\frac{1}{4}$ miles are metalled and $1\frac{1}{2}$ miles are gravelled. The repairs to roads were carried on contract system under the supervision of the Chairman and the ward councillors. A gang of coolies was also entertained for patch works on roads at a cost of Rs. 614 against Rs. 687 in the previous year. The total outlay on roads, both new works and repairs, was, as in the previous year, more than 50 per cent. of the tolls received during the year and the roads have been, as far as possible, maintained in good order. Many (18) of the side streets and lanes in the town, which, as the Sanitary Commissioner remarked in his inspection notes, had been in a neglected state, have been repaired during the year and some more are being attended to in the current year.

Buildings.—The original allotment of Rs. 300 sanctioned in the budget for repairing market stalls, municipal high school and slaughter-houses has been supplemented by further allotments amounting in all to Rs. 380 for repairing the travellers' bungalow,

municipal primary school buildings and the buildings attached to the municipal hospital, &c., as detailed in statement II-A, part II. The total expenditure under this head amounted therefore to Rs. 682 against Rs. 534 in the previous year. The several suggestions of the Sanitary Commissioner for the improvement of butchers' stalls in the market and the slaughter-houses are now given effect to in the current year.

Drainage.—No expenditure was anticipated under this head but subsequently provision had to be made for repairing the old drain in Jumma Masjid street and for clearing drains in the town. The expenditure amounted to Rs. 54.

Water-supply—Repairs to Works and Machinery and Contingencies.—The total expenditure under this head amounted to Rs. 1,936 as detailed below against the revised estimate of Rs. 2,000 and the actuals of the previous year Rs. 1,467 :—

	Rs.	A.	P.
Improving fountains in the town and reservoir at Bugga ..	132	4	11
Repairing leakages in main and branch pipes	38	5	6
Cost of flanged pipes, discharge cocks, stop-cocks, canvas belting and other machinery and repairs thereto including inspection and testing of engines and boilers	825	2	0
Cost of fuel for engines	739	1	4
Cost of oil and other contingencies	148	7	9
Watering plantations at Bugga	52	7	0
Total ..	1,935	12	6

Arrangements were also made for planting flower and other trees around some of the stand pipes and fountains in the town to absorb the waste water instead of the same being allowed to stagnate or flow along side of streets and roads. The engine boiler at Bugga got out of order twice during the year and was set right by the Boiler Inspector of the Madras Railway Locomotive Department. Some of the worn-out machinery of the engines were replaced by fresh mouldings during the year.

Water-supply Establishment. — The cost of establishment for water-supply amounted to Rs. 1,475 against the revised estimate of Rs. 1,430 and the actuals of the previous year, Rs. 1,404. The increase was due to the employment of a temporary gardener for the casuarina and other plantations at Bugga for about eight months during the year (*vide* G.O., dated 16th November 1893, Mis. No. 1574 M). About 2,000 casuarina and 100 cashew-nut plants have been planted on the municipal land at Bugga around the head springs. They are thriving well and in good order.

Public Works—Establishment.—The cost of establishment maintained for public works during the year amounted to Rs. 530 against Rs. 430 in the previous year, the increase being due to the horse allowance sanctioned to the overseer at Rs. 10 per mensem.

6. *Grant II, Education.*—The total outlay on education during the year amounted to Rs. 9,708 against Rs. 9,411 in the previous year.

Training Schools.—Provision was originally made for the training of the headmaster of the Hindu and Muhammadan primary schools, a matriculate and two lower secondary men. The headmaster of the Hindu primary school who is a matriculate could not be sent till the latter part of the year. The headmaster of the Muhammadan primary school was the only teacher that was trained during the year, the headmaster of the other Muhammadan school having declined to undergo training and left the school eventually. The stipends paid during the year amounted, therefore, to Rs. 35 at Rs. 3 per mensem. In the year under report the council had under its management one high school on salary system and four primary schools on salary-results system. The strength of each of these schools on the 31st March 1895 was as shown below :—

	Boys.	Girls.	Average attendance.
(1) Municipal high school	120	1	56
(2) Hindu primary school	124	17	106
(3) Muhammadan primary school	90	..	69
(4) Do. do. at Agady	20	8	18
(5) Pariah school at Yerramukkapalle	20	2	16
Total ..	254	27	209

Salary Schools.—The cost of establishment of the municipal high school on salary system amounted to Rs. 6,696 against Rs. 6,640 in the previous year. It was, however, less than the budget estimate by Rs. 304 owing to the place of the second assistant master having been vacant for nearly six months for want of a competent man, a science graduate; Rs. 308 were spent for contingencies of the school against the budget estimate of Rs. 300. From this school thirteen pupils went up for matriculation and seventeen for lower secondary examination during the year, and two of the former and six of the latter passed against three and two, respectively, in the previous year.

Salary-result Schools.—In statement II-B the establishments maintained for the four schools under salary-result system are detailed and the cost thereof including contingencies amounted to Rs. 1,298 against Rs. 1.225 in the previous year, the increase being due to the entertainment of an additional teacher on Rs. 8 per mensem for the Hindu primary school. Three of the four schools were examined for results grants and paid Rs. 394, excluding Rs. 77, arrears of the previous year.

The results at the examination were as shown below :—

	Number examined.	Number passed.
Fourth standard	24	12
Third do.	43	25
Second do.	29	24
First do.	24	18
Infant do.	24	13
Total ..	144	92

One hundred and forty-four out of 255 pupils were presented for examination from all the standards and 92 passed. The total strength of these four schools on the 31st March 1895 was 281 and their average attendance 209.

The total cost of maintaining the high and primary schools during the year amounted to Rs. 8,772. But taking into account the school-fee collections (Rs. 3,015) and the Government contributions (Rs. 3,448) towards the net cost of the high school department of the municipal high school, amounting in all to Rs. 6,463, the net cost to the municipality was only Rs. 2,309 against Rs. 2,346 in the previous year.

Result Grants.—At the commencement of the year there were twelve result schools and one was opened and four closed during the year, so that the number existing at the close of the year was nine schools with a strength of 363 boys and 6 girls. The number of pupils examined for results grant was 239, of whom 159 were found qualified. They earned a grant of Rs. 450. Including the arrear grant paid during the year the total amount disbursed was Rs. 525 against Rs. 765 in the previous year. The results grants were paid at the maximum rates.

Inspection.—As in the previous year there was one inspecting schoolmaster for the inspection of the Hindu results schools on Rs. 15 per mensem. His work was supervised by the Sub-Assistant Inspector of Schools, Cuddapah Range. His pay and contingencies amounted to Rs. 166 against Rs. 190 in the previous year. The usual contribution of Rs. 90 was paid to the district board for the inspection of the Muhammadan results schools in the municipality by their Muhammadan inspecting schoolmaster whose work was supervised by the Sub-Assistant Inspector of Muhammadan Schools, Central Circle. The total expenditure under this head amounted to Rs. 256 against Rs. 280 in the previous year. No expenditure was incurred on account of building and other grants and for gymnastic apparatus.

7. *Grant III, Medical Services and Sanitation*—The total expenditure under this grant amounted to Rs. 15,371 against Rs. 12,349 in the previous year, the increase being due chiefly to the increased expenditure incurred during the year on account of the establishment and contingencies of the municipal hospital besides the cost of medicines and diet of patients as explained below.

Hospitals and Dispensaries—Establishment.—The total cost of the establishment maintained for the municipal hospital amounted to Rs. 2,700 against the actuals of the previous year, Rs. 2,328, the increase being due to the pay of the third-class hospital assistant having been raised from Rs. 35 to Rs. 45 per mensem. This man was entertained only in the latter part of the previous year.

Medicines and Supplies.—The increase of Rs. 1,510 under this head over the actuals of the previous year was due to the cost of medicines supplied in the previous year having been billed and paid for in the year under report besides increased demand for medicines from the hospital.

Diet of Patients.—The number of in-patients treated during the year was only 474 against 522 in the previous year, but the cost incurred therefor amounted to Rs. 1,292 against Rs. 1,029 in the previous year.

Sundries and Contingencies.—The increase of Rs. 487 under this head over the actuals of the previous year was due chiefly to the increased expenditure incurred during the year on account of bedding and clothing, furniture and other contingencies. Including Rs. 278 spent on buildings, the total amount expended on account of the hospital was Rs. 7,222 against Rs. 4,602 in the previous year. But deducting the district board's contribution, Rs. 2,500, the net cost to municipality was Rs. 4,722 against Rs. 2,102 in the previous year. Fifteen thousand seven hundred and sixty-three out-patients attended the hospital against 15,768 in the previous year. The average daily attendance of both in and out patients during the year was 122 against 164 in the previous year. This decrease in the number as well as the attendance of both in and out patients is attributed by the District Surgeon to the working of the London Mission hospital. The expenditure was, however, heavier than in the previous year.

Vaccination.—This is worked departmentally through the municipal vaccinator who is placed under the direct supervision of the Assistant Surgeon (a municipal councillor) attached to the municipal hospital. The total number of cases vaccinated during the year was 508 against 462 and the total number of successful cases 465 against 406 in the previous year. The number of children under one year of age successfully operated on was 132 out of 134 against 170 out of 188 in the previous year. The following statement shows the number of births from six months prior to the commencement of the year and the number vaccinated out of the same during the year:—

Months and number of births.		Died.	Left the town.	Months and number of vaccinations.		Under one year of age.	Above one year of age.	Revaccinated.
October 1893	17	5	3	April 1894	40	7	23	10

Total ..	266	73	57		508	134	300	74

No vaccine operations were performed by the medical subordinates. Out of the 465 successful operations, 390 were by means of fresh animal lymph (calf-to-arm) and 75 by means of glycerine paste. The cost of vaccination during the year amounted to Rs. 116 for establishment and Rs. 122 for contingencies. The average cost of each

case successfully operated on was As. 8-2. Forty-seven prosecutions were instituted for failure to have children vaccinated and the result was that in all cases children were vaccinated within the time allowed by the Magistrate. All possible measures have been adopted to render vaccination more complete and systematic during the year.

Vital Statistics.—The following abstract shows the number of births and deaths registered during the year under report as compared with those in the previous year:—

	1894-95.	1893-94.
Births	296	229
Deaths—		
Cholera	..	..
Small-pox	4	17
Fevers	294	509
Dysentery	33	18
Suicide	2	2
Wounds	4	1
Accidents	9	5
Snake-bite	1	..
Killed by wild animals	1	..
All other cases	215	203
Total ..	563	755

Excluding 26 still-born cases the number of births and deaths registered during the year was 296 and 563 against 229 and 755, respectively, in the previous year. Notices were served upon midwives, grave diggers and others, making them responsible for the due registration of births and deaths; printed notices were affixed in all conspicuous places in the town and circulated among the people as far as possible, and notice was also given by beat of drum once or twice every month. Besides this the ward peons and the registrar were strictly insisted upon to see that all births and deaths are properly registered. Eleven prosecutions were instituted, seven for not reporting births and four for not reporting deaths. Five of the former and two of the latter were convicted and the rest acquitted. From this it will be seen that all possible steps were taken to render registration complete. Considering the established truth that Cuddapah is unhealthy, better results cannot possibly be expected. The cost of registration during the year amounted to Rs. 119 against Rs. 132 in the previous year.

Conservancy Establishment.—The cost of the conservancy establishment for the year amounted to Rs. 4,195 against Rs. 4,190 in the previous year. The establishment contained the same as in previous year. The sanitary inspector underwent training at the Medical College and has been declared to have passed the intermediate examination prescribed for sanitary inspectors.

Other Charges.—The cost of removing street sweepings and night-soil amounted to Rs. 2,523 against the revised estimate, Rs. 2,690. As in the previous year, twelve carts with twelve pairs of bulls for the removal of sweepings and four pairs of bulls for the removal of night-soil in the municipal carts were engaged at a monthly cost of Rs. 200 against Rs. 152 in the previous year.

Private Scavenging.—The establishment maintained for the purpose continued the same as in the previous year, except that three scavengers attached to the three latrines abolished during the year were transferred from general conservancy to this agency and that the duties of the sub-inspector who, in the previous year, had the inspection of the slaughter-houses in addition to his work were confined to the close inspection of the private scavenging work and to the extension of the system as far as practicable, other arrangements being made for the inspection of slaughter-houses. The cost of the establishment including contingencies amounted to Rs. 888 against Rs. 883 in the previous year. Necessary measures were adopted for compelling landlords to keep their premises in a sanitary condition. Notices were served in 150 cases to remove rubbish and other filth from the premises and 112 prosecutions were instituted for failure to do so. With all this extension of the service is found to be a great

difficulty especially among the Muhammadan community and pre-payment of the f could not be insisted upon without detriment to the general appreciation of system. Frequent inspection of the premises and enforcement of the sanitary pro sions of the law in all cases in which the premises were kept in an unclean con tion and careful supervision of the conservancy establishments have, however, i pressed upon the people the necessity for applying for the service and ultimate resulted in the improvement of the sanitary condition of the town to some extent.

8. *Grant IV—Lighting, &c.*—The establishment for lighting continued the san as in the previous year, and cost Rs. 360 against Rs. 357 in the previous year. Th cost of oil, wicks, &c., amounted to Rs. 930 against Rs. 1,040 in the previous yea The number of lamps remained the same as in the previous year. It has since bee increased by ten more. Even this number, viz., 148, is considered to be insufficien to the town. Provision has to be made for at least ten more this year. Lights ar inspected by the sanitary inspector and occasionally by the councillors and th Chairman.

Market and Slaughter-houses.—The establishments maintained for the market and slaughter-houses continued the same as in the previous year and the cost thereof including contingencies amounted to Rs. 118 for the former and Rs. 238 for the latte against Rs. 117 and Rs. 240 in the previous year. Including Rs. 282 spent unde Grant I, the total expenditure on account of the municipal market amounted t Rs. 400.

Travellers' Bungalow.—The establishment continued the same as in the previo year. It cost Rs. 120 besides Rs. 47 for contingencies against Rs. 114 and Rs. 152, re spectively, in the previous year. Further Rs. 136 were spent under Grant I for repairs to bungalow and other improvements, so that the total expenditure on account of the bungalow was Rs. 303. Deducting the fees realized in the year, viz., Rs. 236, the net cost of the municipality was only Rs. 67. The bungalow is already comfort- able and it will be more so with the verandah now under construction in front of it.

Avenues.—As in the previous year one servant on Rs. 6 per mensem was em- ployed for watering young avenues, another servant on the same pay was temporarily engaged for two months for fencing the avenues and to look after the plants planted around some of the fountains in the town. The cost amounted to Rs. 84. A further sum of Rs. 105 was spent on account of thorn, &c., for fencing. The avenues are in good order. Rupees 40 was realized by the sale of clippings and produce.

Fire Establishment.—A sum of Rs. 33 was spent for the temporary establishment maintained for watching fire occurrences in the town.

Other Charges.—Rs. 1,876 were distributed as detailed below for miscellaneous purposes :—

	Rs.	A.	P.
Cost of materials and labour for laying pipes	1,402	6	8
Printing municipal proceedings, voters' lists, &c.	384	11	4
Pay of tom-tom beater	24	0	0
Kist on municipal lands	27	2	1
Cost of tin tickets	31	2	0
„ of sign boards	6	4	0
Total ..	1,875	10	1

9. *Grant V, Supervision and Management.*—The total expenditure under this grant amounted to Rs. 3,878 against the revised estimate of Rs. 4,050, and the actuals of the previous year, Rs. 3,747. It is detailed below :—

	Rs.
Office establishment	1,735
Chairman's conveyance allowance	535
Collection establishment	700
Office rent and other contingencies including cost of account books ..	598
Contribution to Government for audit establishment	310
Total ..	3,878

Repayment of Debt.—The annual instalment amounting to Rs. 172 was paid during the year towards the repayment of the special loan of Rs. 9,695 taken for the completion of Bugga water works, and the interest thereon amounting to Rs. 407 was also paid, besides Rs. 2,940 due to debenture holders for the year.

Advances Recoverable.—The unadjusted advances for the year amounted to Rs. 2,056-5-0 as noted below :—

	Rs	A.	P.
Amount advanced to the Accountant-General, Madras, for the purchase of Government securities for investment on account of water works sinking fund	2,030	0	0
Cost of attendance registers supplied to the inspecting school-master for sale	11	9	0
Process fees	14	12	0
Total ..	2,056	5	0

Rupees 2,030 advanced to the Accountant-General has been since adjusted and the Government securities to the value of Rs. 1,800 are, as usual, in the custody of the Accountant-General. In connection with remittances by municipalities for investment, the Accountant-General has ordered that remittances should be by cheques or hundies on a bank at Madras and that in no case the amount would be received in cash or currency notes. The sum of Rs. 2,030 above referred to was once refused, but with the special permission of the Accountant-General, a remittance transfer receipt was obtained for the amount on payment of the required fees and the amount was invested. The annual instalment of Rs. 200 payable during the year towards repayment of the loan taken from the hospital endowment fund could not be remitted during the year on account of the same difficulty. The amount will be invested during the current year.

IV.—Closing Balance.

10. Including the opening balance of Rs. 7,730, the total receipts for the year mounting to Rs. 55,884 and the total expenditure under all grants to Rs. 49,439, the r closed with a balance of Rs. 6,445 at credit of the council.

Enclosure.

Administration report of the Municipal Hospital, Cuddapah, for the year 1894-95.

The public health in the town of Cuddapah has been fairly good during the year under reference. There was no cholera during the year in the town, though it broke out in the district at Jammalamadugu. Measles and mumps prevailed to some extent; there were no deaths from these.

Malarial fevers, as usual, prevailed during the latter part of the year. The total number treated from this disease was 7,033, of which 44 were in and 6,989 out patients against 6,976 in the previous year, showing an increase of 57. Lung diseases, especially pneumonia, pre- vailed for the most part of the year, and to a greater extent than the previous year. It mostly occurred as a complication in remittent fever. Altogether 195 were treated under lung diseases, and 530 under diseases of the other respiratory organs, showing an increase of 61 of the former and 13 of the latter.

2. The institution has been well attended by all classes of people, a fairly large number of them coming from distant taluks.

3. This institution is maintained by municipal funds together with a contribution of Rs. 2,500 from local funds.

4. The institution ought to be occasionally visited by the municipal councillors, but I am sorry to say that the councillors have not done so. The Surgeon-General with the Government of Madras inspected the hospital on 29th September 1894, and made the following remarks in the visitors book :—

"Visited the municipal hospital. There were sixteen in-patients who appeared to be care- fully looked after. The hospital was in good order and the records properly kept. I concur in the suggestions of the District Medical and Sanitary Officer regarding the redistribution of the rooms as an out-patient department. An operation room is very desirable; huts for males and females as an out-patient department. An operation room is very desirable; huts for males and females

for cholera and small-pox are also necessary, say two beds each. A separate lying-in ward a delivery room are required. The kitchen is most necessary. The present one is only fit to made into a store-room. Standard plans for these buildings should be obtained from the sanita board. Bed-side tables (teapoys) are most necessary for each bed. The services of a garden are necessary to keep such a large compound clean and to make a garden in which convalescent ca take exercises. There should be a few iron seats in the garden under trees."

The main building of the hospital is in a good condition; a separate operating theatre w be very beneficial and I hope the municipal authorities will endeavour to find some means make this addition to the buildings. The out-houses require repair, and as there were no fund available, provision has been made for these in the next year's allotment. All affairs connected with the hospital are discussed and disposed of at the municipal meetings. A separate hospital committee should exist which ought to meet once a month to discuss matters concerning the hospital. The Chairman of the municipal council was addressed on this subject on the 26th October 1894, but no steps seem to have been taken for the forming of the committee. If a committee of this sort existed it would do a lot for the hospital. The rich merchants could be persuaded to endow the hospital with beds, and subscriptions could be collected for the suggested operation theatre.

5. The hospital is under the immediate charge of the District Medical and Sanitary Officer and during his absence the Assistant to the District Medical and Sanitary Officer is in charge.

6. During the year 15,763 out and 474 in patients were treated, showing a decrease of 5 out and 48 in patients against the previous year. The decrease in the admissions has been due to the less admissions from fever. Moreover the London Missionary Society had a dispensary in Cuddapah where the Native Christians and others from its vicinity resorted to. This dispensary has been removed to Jammalamadugu, where a hospital is under construction by the same mission. Though the people are poor, yet they are averse to having themselves admitted into the hospital and this is chiefly the case with the illiterate. They seem to think that it is *infra dig* to be an in-patient, as the popular belief amongst them is that hospitals are only for paupers. They rather go to the numerous quacks and spend the little that they have in medicines and diet (puthiams) as they are popularly called rather than come to hospitals. If they do come to the hospital it is at the last moment when human aid cannot save them. The decrease in in-patients is also due to the less admissions of byragis and other mendicants who have been sent to the various choultries as they are cases of starvation and not disease.

7. The most prevailing diseases during the year were—

(1) Malarial fevers.
(2) Other diseases of digestive system.
(3) Rheumatic affections.
(4) Ulcers.
(5) Diseases of the eye.
(6) Other diseases of respiratory system.
(7) Diseases of the ear.
(8) Skin affections.

8. Sixty major and 526 minor operations were performed during the year, showing an increase of 12 major and 73 minor as against the previous year.

9. The medical subordinates do not perform vaccine operations as the municipal vaccine depôt is situated in the hospital compound and the vaccination is carried on there. Vaccination will be reported on further.

10. *Conservancy.*—Establishment consists of—

1 inspector on Rs. 25 + 10 rupees horse allowance per mensem.
6 peons on Rs. 6 each per mensem.
1 maistry on Rs. 8 do.
29 male toties at Rs. 6 each do.
29 female toties at Rs. 4 each per mensem.

The establishment is quite sufficient for the town.

There are four wooden box carts for removing night-soil and one closed cask for removing urine. The latter is not sufficient and should at least be doubled. This was suggested also in last year's report. It would also be good if the municipality were to have one closed wooden box cart for each ward for the removal of night-soil. There are twelve country carts for removing street sweepings.

Latrines.—There are altogether 36 latrines as compared with 42 of last year. Of these 24 are pucca built, 6 mud walled and 6 slab walled. Of these 18 are for males and 18 for females. This number is quite sufficient. Every latrine ought to have an iron receptacle placed close by into which all the excreta ought to be deposited and then removed. The excreta should on no account be deposited on the ground outside the latrine awaiting removal. There are at present eight receptacles and provision has been made for ten more in next year's allotment and this number will be sufficient.

Dustbins.—There are 173, of which 7 are iron moveable and 166 are stone slabbed. More are required.

Private scavengering.—Establishment—

1 inspector on Rs. 15 per mensem.
13 scavengers at Rs. 4 each per mensem.
1 scavenger at Rs. 5 per mensem.

There are altogether 1,003 houses that are cleaned by the municipal scavengers as compared with 613 of last year. The six latrines that were demolished were at the request of inhabitants close by who have now gone in for the private scavengering system. The demolition was approved of by the Sanitary Commissioner.

Manure Depôt.—The night-soil and rubbish is removed and deposited outside the town and is disposed of by public auction once a year.

Drainage.—A few side drains have been laid since last report but many more are still required.

Roads.—The main roads require repairs badly. Provision has been made for this in next year's allotment. Eighteen bye-lanes have been converted into roads.

House drainage.—All the houses have more or less a cesspool. The cesspools are covered with slabs which appear never to have been removed since the day they were laid down.

The cesspools in most cases are not pucca built and hence the contents soak into the ground. Every cesspool ought to be pucca built and there should be a separate staff for removing the water from them daily. Some rule should be observed and each house owner or tenant should be held responsible for its cleanliness. The sanitary inspector should make this one of his chief duties.

Water-supply.—Good and abundant; brought into the town by pipes.

Vaccination.—Five hundred and eight cases were vaccinated during the year under reference and this shows an increase of 46 as compared with the previous year. Vaccination is in a backward state in the town. The unhealthy climate has a great deal to do with this for the people are afraid to have their children vaccinated on account of the fever. As soon as notices are served on them they send the children away, and thus evade vaccination. Moreover a large number of children are born in a most emaciated condition and even after six months they are in such a poor state of health that they are not fit for vaccination.

General Remarks.—The total amount of rainfall registered during the year under review at the Meteorological Observatory was 37·77 inches against 39·44 of the previous year. Total number of labour cases was 47, of these 24 were attended to by the Eurasian midwife and 23 by the native.

CUDDAPAH,
9th May 1895.

Fresh Reading

2. The municipal council held twenty-[illegible]e meetings against twenty in 1893–94. The average attendance of the non-official [illegible]embers improved and was satisfactory, but that of the officials declined and was very [illegible]poor. The Collector should inform the latter that the Government expects them to [illegible]be more regular in their attendance in future. Four seats were filled by election[illegible]ring the year, and of these three were contested, 66·8 per cent. of the voters concer[illegible]ed attending the poll.

3. *Receipts.*—(1) The number of person[illegible]ssessed to the tax on arts fell from 737 to 702, but the net current demand under th[illegible]head showed a slight increase over that of the previous year. The demands under th[illegible]house and water taxes declined slightly, while that of the tax on lands remained unal[illegible]ed.

(2) The current collections under th[illegible]principal taxes improved and, except in the case of the tax on lands, were good. Th[illegible]arrear realizations under the house and water taxes were also fair, but the collection[illegible]of the arts tax were indifferent and of the land tax extremely poor. It is observed[illegible], however, that in the case of the tax on arts the balance was considerably reduced b[illegible] writing off a sum of Rs. 261, and that the greater portion of the outstandings und[illegible]r the land tax has been collected since the close of the year. The old arrears unde[illegible]the land and water taxes should not be allowed to disfigure the municipal books[illegible]ny longer. The number of coercive processes issued declined, and their execu[illegible]on was less prompt than in 1893–94. The condition of the collections was not, ho[illegible]ver, such as to justify such leniency.

(3) The income from the taxes on ve[illegible]cles, animals and carts and from school-fees exhibited an increase, but that from the[illegible]ale of rubbish showed a marked decline, for which no explanation has been offered. [illegible]This omission should be supplied. The advance under fines is satisfactory in so far as[illegible]t indicates greater activity on the part of the police and the municipal executive in en[illegible]rcing the sanitary provisions of the law.

(4) It is gratifying to note that the[illegible]number of houses served by the private scavenging agency rose from 613 to 1,003[illegible]. Owing, however, to the fact that only about two-thirds of the total demand unde[illegible]this head was realized within the year, the service was worked at a loss of Rs. 162 [illegible]the municipal council. It is explained in paragraph 3 of the chairman's report that th[illegible]s was due to the fact that a large number of house-holders joined the system just at [illegible]e end of the year and had not paid the fees before its close. This shows that the c[illegible]uncil are still omitting to insist upon the prepayment of these fees. The Governmen[illegible]trusts that it will not again be necessary to remark upon this point.

4. *Expenditure*—(1) *Public Works.*—[illegible]sum of Rs. 569 was spent during the year in completing the coolies' and driver[illegible]quarters at the Bugga water-works, and the water-supply was extended to Agadi at [illegible]cost of Rs. 757. No other new works of any importance were undertaken d[illegible]ing t[illegible]year. The total outlay on communications amounted to Rs. 4,054 or 52·[illegible]t. of the net revenue from tolls, and the Collector reports that the main roa[illegible]s were[illegible]in good order. It is observed that steps are being taken by the council to improv[illegible]the side streets and lanes which were reported to have been in an unsatis[illegible]ctory [illegible]ondition.

(2) *Education.*—The net expenditu[illegible]on education was Rs. 3,245 or ·11 per cent. of the receipts from taxation. Of [illegible]his Rs. 1,009 were spent on secondary and the remainder on primary education[illegible]. At the commencement of the year the municipal council maintained a high schoo[illegible]on the salary system and three primary schools on the salary-results system. To [illegible]ese, another primary school of the latter kind for Panchamas was added during the[illegible]year. The attendance at the high school improved, but the results of the Matriculati[illegible]n and Lower Secondary examinations were poor. The numbers on the rolls of the pri[illegible]ary schools rose from 255 to 279, and the pupils from them were fairly successful[illegible]at the departmental examinations. The council aided nine primary schools with r[illegible]sults grants against fifteen in the previous year. The attendance at these institutio[illegible]s fell from 539 to 369 and although they did fairly well at the grant examinations, [illegible]fourth of the allotment for results grants lapsed during the year. It is also matte[illegible]for regret that the number of boys under instruction in the municipal and aided sch[illegible]ools fell from 67·2 to 56·6 per cent. of the male population of school-going age. Fr[illegible]m the educational statement submitted by the Assistant Inspector of Schools it is[illegible]observed that very few of the teachers employed in the municipal and aided sch[illegible]ols were trained men. The council should employ none but qualified teachers in its[illegible]own schools and by reducing or entirely

withholding the grants payable to the
institutions doing the same. The educat
evidently requires increased attention.

(3) *Medical Relief.*—The number
showed a further decline, which is partly
Surgeon's report. The chairman will be
in-patients increased, although the numbe
by the Eurasian midwife in 1893–94 was
but in the year under review it was even
cases of labour. If she does not do bette
consider the desirability of replacing her b

Regulation of total expenditure would very probably improve if the Chairman and Councillors took a personal interest in the method of keeping the work as by attendance &c. being in the hands of a person who would know and would be taking steps to check the returns.

No. 1724 M., 23RD OCTOBER 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. C. CHELLAYA PILLAI, Avargal, B.A., B.L., Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated 18th July 1895, No. 444.

I have the honour to submit herewith the administration report of the Cuddapah Municipality for the official year 1894–95 with the prescribed statements and the report of the District Medical and Sanitary Officer, Cuddapah, on the working of the municipal hospital.

I.—CONSTITUTION OF THE COUNCIL.

2. The sanctioned maximum strength of the council is sixteen councillors, twelve elected and four nominated including the ex-officio councillor, the Revenue Divisional officer. Seven vacancies were filled up during the year, three by nomination and four by election of councillors and the maximum number existed at the close of the year. The number of registered voters in the municipality was 851.

Twenty-nine meetings were actually held during the year against twenty in the previous year, the average attendance of councillors thereat being one official and six non-officials against two and seven respectively in the previous year. Six meetings were adjourned for want of quorum against five in the previous year. Compared with the previous year the attendance of the councillors, both officials and non-officials, shows a slight decline which was due mostly to the frequent occurrences of vacancies and elections during the year.

II.—RECEIPTS.

3. The subjoined is an abstract of the total receipts of the municipality for the year under report as compared with the revised estimates for the year and the actuals of the previous year :—

	Actuals,	Revised estimate,
Tolls		2,170
,, vehicles, car[illegible]		8,010
Realizations under S[illegible]		30,080
[illegible]enue derived fr[illegible]		40
also lea[illegible]sation ..		9,880
the bala[illegible]ts and contribu[illegible]		6,060
[illegible]llaneous, inclu[illegible]		3,230
Lic[illegible]		49,290
in the p[illegible]		
dangerou[illegible]		57,020

From the above abstract it will be seen that, for the year under report, the income from taxation amounted to Rs. 29,494 and the other receipts to Rs. 18,660 against the revised estimates for the year Rs. 30,080 and Rs. 19,210 and the actuals of the previous year Rs. 27,909 and Rs. 19,801 respectively. The total receipts for the year, though less than the revised estimate, exceeded the actuals of the previous year, the increase being under taxation. Added to the opening balance of Rs. 7,730, the receipts for the year amounted to Rs. 55,884 against Rs. 59,857 in previous year. The important items of taxation and other receipts are noticed below.

A.—Receipts from Taxation.

Tax on Arts.—As in the previous year this tax was revised and levied on the first seven classes of Schedule A of the Act. The number of assessees under all the six classes excepting the first under which no persons were taxed was 702 against 737 in the year as detailed below, the decrease occurring chiefly under classes 4, 5 and 6. A good number of merchants falling under these three classes gave up trade during the year :—

	1894–95.	1893–94.
Class I	..	..
„ II	..	..
„ III	..	..
„ IV	3	..
„ V	32	4
„ VI	89	25
„ VII	188	77
.. ..	350	193
.. ..	40	398
Total ..	702	40
		737

The original current demand of this tax for the year was Rs. 4,144 against Rs. 4,026 in the previous year, but the remissions granted by the council on appeal having been larger than in the previous year (Rs. 156 against Rs. 58), the net current demand remained almost the same as in the previous year (Rs. 3,988 against Rs. 3,968). The current collections of this tax amounted to Rs. 3,610 against Rs. 3,464 in the previous year and Rs. 50 were written off the accounts. Out of the arrear demand of Rs. 558, Rs. 264 were collected and Rs. 260 written off the accounts as irrecoverable. Including arrears and current there was, at the close of the year, a balance of Rs. 361, whereof Rs. 75 have since been collected and Rs. 82 written off the accounts. Rupees 203 still remains to be adjusted. Ninety appeals were preferred against the imposition of this tax and all of them were disposed of before the close of the year. In 37 cases the tax was confirmed, in 16 it was exempted and in 37 it was reduced. Sixteen prosecutions were instituted for the collection of this tax and 15 were disposed of before the close of the year. The remaining one has also been since disposed of.

Tax on Buildings.—The principle on which this tax was levied remained the same as in the previous

	Actuals, 1893–94.	1894–95.	Estimate 1894–95.

Grand Total including opening balance ..	59,857	55,884	57,020

Rs. 1,519 in the previous year. Rs. 182 of the balance have since been collected and Rs. 50 written off the accounts by reason of most of the houses being utterly ruined or razed to ground.

Out of the arrear demand of Rs. 1,613, Rs. 1,386 were collected, Rs. 58 remitted and Rs. 123 written off the accounts, leaving a balance of Rs. 46 for adjustment in the current year. Forty prosecutions were instituted for the collection of this tax and 26 were disposed of before the close of the year. The rest have also been since disposed of. A sum of Rs. 6 was received as penalties on account of this tax.

Tax on Lands.—As in the previous year this tax was levied at 4 annas per acre on an estimated annual rental of Rs. 3–8–0. The current and arrear demands of this tax amounted to Rs. 488, whereof Rs. 168 were collected leaving at the close of the year a balance of Rs. 320, of which Rs. 230 have been since collected and Rs. 90 still remain to be adjusted during the current year. The interest taken by the Revenue authorities towards the collection of this tax in the present year enabled the council to realize the large amount of arrears that remained due at the close of last year, Rs. 185, of which Rs. 124 had already been collected.

Water-tax on Buildings and Lands.—This was as usual levied at 3 per cent. of the annual rent-value. Out of the net current demand of Rs. 4,143, Rs. 3,892 were collected, Rs. 22 remitted and Rs. 4 written off as irrecoverable, and out of the arrear demand of Rs. 761, Rs. 598 were collected, Rs. 23 remitted and Rs. 50 written off as irrecoverable, so that the total current and arrear balance of the tax at the close of the year was Rs. 315, whereof Rs. 180 have been since collected and Rs. 20 written off, leaving still Rs. 115 for adjustment in the current year.

Tax on Vehicles with Springs, Carts and Animals.—The total collection of this tax amounted to Rs. 2,081 against Rs. 1,802 in the previous year.

Tolls.—Tolls were as usual leased out for Rs. 8,010, whereof Rs. 7,833 were realized before the close of the year and the balance also has since been received. One out of the nine municipal gates was repaired during the year at a cost of Rs. 62, so that the net income from tolls amounted to Rs. 7,771 against Rs. 7,963 in the previous year. Tolls were levied at the maximum rates specified in schedule D of the Act.

Incidence of Taxation.—The total income from taxation being Rs. 29,494 including, and Rs. 21,653 excluding, tolls, the average incidence of municipal taxation was Rs. 1–11–1 in the former and Rs. 1–3–11 in the latter against Rs. 1–9–8 and Rs. 1–2–3 respectively in the previous year.

(*b*) *Realizations under Special Acts.*—The sum of Rs. 145 realized under this head was the license fees levied for the erection of pandals for theatrical performances.

(*c*) *Revenue derived from Municipal property and powers apart from Taxation.*—The total receipts under this head amounted to Rs. 9,581 against Rs. 9,625 in the previous year, the difference being the net result of less receipts under "Avenue receipts," "Fees from travellers' bungalow," "Sale-proceeds of old materials," "Conservancy receipts," "Slaughter-house and other fees," counterbalanced by enhanced collections under other items as detailed in statement I.

Rent of Lands.—The sum of Rs. 13 received under this head was the rent fixed for the municipal ground occupied by certain shopkeepers and others in some of the public streets.

Income from Markets.—The collection of market fees was leased out for Rs. 3,360. Including the arrear balance of Rs. 150, the total amount to be realized during the year was Rs. 3,510, whereof Rs. 3,348 were received and Rs. 75 remitted during the year, leaving the remainder for adjustment in the current year.

Income from Slaughter-houses.—The collection of fees in the slaughter-houses was also leased out for Rs. 1,524, of which Rs. 1,270 were collected during the year and the balance has since been realized.

License Fees.—The receipts under this head amounted to Rs. 354 against Rs. 388 in the previous year, the decrease being due to a fall in some of the offensive and dangerous trades during the year.

Cart-stand Fees.—This was leased out also for Rs. 216, whereof Rs. 20 were realized during the year and steps are being taken to recover the balance by filing a suit against the renter in the Civil Court.

Fines under Municipal and Other Acts.—A sum of Rs. 348 was received as fines in nuisance and other cases against Rs. 301 in the previous year. The number of prosecutions instituted during the year for nuisance and other offences was 134, 95 of which were convicted.

Interest on Investments—Educational.—The interest due on Smith's Prize Endowment attached to the municipal high school was not received before the close of the year. It has since been received and adjusted.

Medical.—Rs. 458 were realized as interest on the hospital endowment fund.

(*d*) *Grants and Contributions.*—Including the arrear balance of Rs. 800, the total contribution from provincial funds towards the net cost of the High school department of the municipal high school was Rs. 3,448, Rs. 608 being still due out of the contribution for the year under report.

(*e*) *Miscellaneous.*—Nil.

Private Scavenging Fees.—Excluding Rs. 31 remitted and written off accounts, the total collection under this head amounted to Rs. 730 against the total demand of Rs. 1,104 (including the arrear balance) and the actuals of the previous year Rs. 778. There was at the close of the year a large balance of Rs. 343 owing to a large number of applications for the service having been received about a month or so before the close of the year and the bills issued for the same not having been completely collected before the close of the year. Rs. 165 have since been collected and the balance still outstanding is Rs. 178. The number of houses served by this Agency was 1,003.

Other Purposes.—Rs. 1,691 have been taken credit for from deposits on account of house service pipes against Rs. 2,658 in the previous year.

Other Items.—The sum of Rs. 23-3-7 received under refunds of expenditure of previous and current years and other items are detailed below:—

	Rs.	A.	P.
Refund of undisbursed amounts out of previous year's expenditure	0	5	8
Recoveries from parties for work done and paid for in the previous year	11	4	6
Recovery of the cost of tools lost by a contractor ..	5	8	0
Cost of a copy of election rules	0	3	5
Cost of tender forms	1	0	0
Unclaimed deposits credited to municipal fund	4	14	0
Total ..	23	3	7

Extraordinary and Debt.—A sum of Rs. 533 was realized as interest on water works sinking fund for the year.

Advances Recovered.—The sum of Rs. 8-12-0 received under this head was as detailed below:—

	Rs.	A.	P.
Process fees advanced in previous year recovered ..	7	14	0
Recovery in cash out of advance made in the previous year for prize books	0	14	0
Total ..	8	12	0

III.—Expenditure.

4. The total expenditure for the year amounted to Rs. 49,439 against Rs. 52,127 in the previous year and it was distributed among the several grants as shown below:—

—	Actuals, 1893–94.	Actuals, 1894–95.	Revised estimate, 1894–95.
	Rs.	Rs.	Rs.
Grant I, Public Works	15,982	10,948	10,880
,, II, Education	9,411	9,708	10,130
,, III, Sanitation and medical services ..	12,349	15,371	15,450
,, IV, Lighting and miscellaneous purposes.	4,677	3,912	4,460
,, V, Supervision and management ..	3,747	3,890	4,050
Repayment of debt, &c.	5,961	5,610	5,790
Total ..	52,127	49,439	50,760

5. *Grant I, Public Works.*—A sum of Rs. 10,948 was spent on works under this grant including cost of establishments, contingencies and tools and plant against Rs. 15,982 in the previous year, the difference being due entirely to expenditure incurred on water works at Bugga in the previous year.

(1) *New Works—Communications.*—The allotment under this head was fully utilized for the construction of eight culverts as detailed in the accompanying statement No. II-A, part I. No new roads were laid out during the year.

Buildings.—The budget allotment of Rs. 500 under this head was for the construction of a verandah in front of the travellers' bungalow and for the improvement of some of the market stalls. A sum of Rs. 237 was spent for tiling some of the market stalls against Rs. 200 provided for the purpose; but the provision made for the verandah in front of the travellers' bungalow was left unutilized during the year, it being found inadequate for the same. The work is undertaken in the current year. Including Rs. 77 spent for constructing a shed for the vaccine depôt, in purchasing a house for the municipal school at Yerramukkapalle and for making temporary latrines during moharum, the total expenditure under this head amounted to Rs. 314 against Rs. 471 in the previous year.

Drainage.—The allotment of Rs. 300 provided in the budget for making drains was subsequently revised as Rs. 320 and utilized in constructing U-shaped drains in Bommanvadi, Jumma Masjid, Y. Vencatachalam and Gaddibazaar streets—*vide* statement II-A, part I.

The expenditure amounted to Rs. 315.

Water-supply.—The construction of drivers' and coolies' quarters at Bugga and the extension of water-supply to Agady were completed during the year at a cost of Rs. 1,498 as detailed in statement II-A, part I, against the revised estimate of Rupees 1,450. The excess expenditure, Rs. 48, had to be incurred in constructing a platform round the hydrant in the travellers' bungalow.

Repairs—Communications.—A sum of Rs. 3,854 was expended for repairing the several roads and streets enumerated in statement II-A, part II, against the estimate of Rs. 3,800 and the actuals of the previous year, Rs. 3,616. The total length of the roads and streets within the limits of this municipality is $25\frac{1}{2}$ miles and the total extent of the roads maintained during the year was $3\frac{3}{4}$ miles, whereof $2\frac{1}{4}$ miles are metalled and $1\frac{1}{2}$ miles are gravelled. The repairs to roads were carried on contract system under the supervision of the Chairman and the ward councillors. A gang of coolies was also entertained for patch works on roads at a cost of Rs. 6[illegible] against Rs. 687 in the previous year. The total outlay on roads, both new works and repairs, was, as in the previous year, more than 50 per cent. of the tolls received during the year and the roads have been, as far as possible, maintained in good order. Many (18) of the side streets and lanes in the town, which, as the Sanitary Commissioner remarked in his inspection notes, had been in a neglected state, have been repaired during the year and some more are being attended to in the current year.

Buildings.—The original allotment of Rs. 300 sanctioned in the budget for repairing market stalls, municipal high school and slaughter-houses has been supplemented by further allotments amounting in all to Rs. 380 for repairing the travellers' bungalow,

municipal primary school buildings and the buildings attached to the municipal hospital, &c., as detailed in statement II-A, part II. The total expenditure under this head amounted therefore to Rs. 682 against Rs. 534 in the previous year. The several suggestions of the Sanitary Commissioner for the improvement of butchers' stalls in the market and the slaughter-houses are now given effect to in the current year.

Drainage.—No expenditure was anticipated under this head but subsequently provision had to be made for repairing the old drain in Jumma Masjid street and for clearing drains in the town. The expenditure amounted to Rs. 54.

Water-supply—Repairs to Works and Machinery and Contingencies.—The total expenditure under this head amounted to Rs. 1,936 as detailed below against the revised estimate of Rs. 2,000 and the actuals of the previous year Rs. 1,467:—

	Rs.	A.	P.
Improving fountains in the town and reservoir at Bugga ..	132	4	11
Repairing leakages in main and branch pipes	38	5	6
Cost of flanged pipes, discharge cocks, stop-cocks, canvas belting and other machinery and repairs thereto including inspection and testing of engines and boilers	825	2	0
Cost of fuel for engines	739	1	4
Cost of oil and other contingencies	148	7	9
Watering plantations at Bugga	52	7	0
Total ..	1,935	12	6

Arrangements were also made for planting flower and other trees around some of the stand pipes and fountains in the town to absorb the waste water instead of the same being allowed to stagnate or flow along side of streets and roads. The engine boiler at Bugga got out of order twice during the year and was set right by the Boiler Inspector of the Madras Railway Locomotive Department. Some of the worn-out machinery of the engines were replaced by fresh mouldings during the year.

Water-supply Establishment. — The cost of establishment for water-supply amounted to Rs. 1,475 against the revised estimate of Rs. 1,430 and the actuals of the previous year, Rs. 1,404. The increase was due to the employment of a temporary gardener for the casuarina and other plantations at Bugga for about eight months during the year (*vide* G.O., Mis. No. 1574 M., dated 16th November 1893). About 2,000 casuarina and 100 cashew-nut plants have been planted on the municipal land at Bugga around the head springs. They are thriving well and in good order.

Public Works—Establishment.—The cost of establishment maintained for public works during the year amounted to Rs. 530 against Rs. 430 in the previous year, the increase being due to the horse allowance sanctioned to the overseer at Rs. 10 per mensem.

6. *Grant II, Education.*—The total outlay on education during the year amounted Rs. 9,708 against Rs. 9,411 in the previous year.

Training Schools.—Provision was originally made for the training of the headmaster of the Hindu and Muhammadan primary schools, a matriculate and two lower secondary men. The headmaster of the Hindu primary school who is a matriculate could not be sent till the latter part of the year. The headmaster of the Muhammadan primary school was the only teacher that was trained during the year, the headmaster of the other Muhammadan school having declined to undergo training and left the school eventually. The stipends paid during the year amounted, therefore, to Rs. 35 at Rs. 3 per mensem. In the year under report the council had under its management one high school on salary system and four primary schools on salary-result system. The strength of each of these schools on the 31st March 1895 was as shown below:—

	Boys.	Girls.	Average attendance.
(1) Municipal high school	120	1	56
(2) Hindu primary school	124	17	106
(3) Muhammadan primary school	90	..	69
(4) Do. do. at Agady	20	8	18
(5) Pariah school at Yerramukkapalle	20	2	16
Total ..	254	27	209

Salary Schools.—The cost of establishment of the municipal high school on salary system amounted to Rs. 6,696 against Rs. 6,640 in the previous year. It was, however, less than the budget estimate by Rs. 304 owing to the place of the second assistant master having been vacant for nearly six months for want of a competent man, a science graduate; Rs. 308 were spent for contingencies of the school against the budget estimate of Rs. 300. From this school thirteen pupils went up for matriculation and seventeen for lower secondary examination during the year, and two of the former and six of the latter passed against three and two, respectively, in the previous year.

Salary-result Schools.—In statement II-B the establishments maintained for the four schools under salary-result system are detailed and the cost thereof including contingencies amounted to Rs. 1,298 against Rs. 1,225 in the previous year, the increase being due to the entertainment of an additional teacher on Rs. 8 per mensem for the Hindu primary school. Three of the four schools were examined for results grants and paid Rs. 394, excluding Rs. 77, arrears of the previous year.

The results at the examination were as shown below:—

	Number examined.	Number passed.
Fourth standard	24	12
Third do.	43	25
Second do.	29	24
First do.	24	18
Infant do.	24	13
Total ..	144	92

One hundred and forty-four out of 255 pupils were presented for examination from all the standards and 92 passed. The total strength of these four schools on the 31st March 1895 was 281 and their average attendance 209.

The total cost of maintaining the high and primary schools during the year mounted to Rs. 8,772. But taking into account the school-fee collections (Rs. 3,015) nd the Government contributions (Rs. 3,448) towards the net cost of the high school partment of the municipal high school, amounting in all to Rs. 6,463, the net cost the municipality was only Rs. 2,309 against Rs. 2,346 in the previous year.

Result Grants.—At the commencement of the year there were twelve result ools and one was opened and four closed during the year, so that the number sting at the close of the year was nine schools with a strength of 363 boys and 6 s. The number of pupils examined for results grant was 239, of whom 159 were d qualified. They earned a grant of Rs. 450. Including the arrear grant paid ng the year the total amount disbursed was Rs. 525 against Rs. 765 in the previous . The results grants were paid at the maximum rates.

Inspection.—As in the previous year there was one inspecting schoolmaster for the inspection of the Hindu results schools on Rs. 15 per mensem. His work was supervised by the Sub-Assistant Inspector of Schools, Cuddapah Range. His pay and contingencies amounted to Rs. 166 against Rs. 191 in the previous year. The usual contribution of Rs. 90 was paid to the district board for the inspection of the Muhammadan results schools in the municipality by their Muhammadan inspecting schoolmaster whose work was supervised by the Sub-Assistant Inspector of Muhammadan Schools, Central Circle. The total expenditure under this head amounted to Rs. 256 against Rs. 281 in the previous year. No expenditure was incurred on account of building and other grants and for gymnastic apparatus.

7. *Grant III, Medical Services and Sanitation*—The total expenditure under this grant amounted to Rs. 15,371 against Rs. 12,349 in the previous year, the increase being due chiefly to the increased expenditure incurred during the year on account of the establishment and contingencies of the municipal hospital besides the cost of medicines and diet of patients as explained below.

Hospitals and Dispensaries—Establishment.—The total cost of the establishment maintained for the municipal hospital amounted to Rs. 2,700 against the actuals of the previous year, Rs. 2,328, the increase being due to the pay of the third-class hospital assistant having been raised from Rs. 35 to Rs. 45 per mensem. This man was entertained only in the latter part of the previous year.

Medicines and Supplies.—The increase of Rs. 1,510 under this head over the actuals of the previous year was due to the cost of medicines supplied in the previous year having been billed and paid for in the year under report besides increased demand for medicines from the hospital.

Diet of Patients.—The number of in-patients treated during the year was only 474 against 522 in the previous year, but the cost incurred therefor amounted to Rs. 1,292 against Rs. 1,029 in the previous year.

Sundries and Contingencies.—The increase of Rs. 487 under this head over the actuals of the previous year was due chiefly to the increased expenditure incurred during the year on account of bedding and clothing, furniture and other contingencies. Including Rs. 278 spent on buildings, the total amount expended on account of the hospital was Rs. 7,222 against Rs. 4,602 in the previous year. But deducting the district board's contribution, Rs. 2,500, the net cost to municipality was Rs. 4,722 against Rs. 2,102 in the previous year. Fifteen thousand seven hundred and sixty-three out-patients attended the hospital against 15,768 in the previous year. The average daily attendance of both in and out patients during the year was 122 against 164 in the previous year. This decrease in the number as well as the attendance of both in and out patients is attributed by the District Surgeon to the working of the London Mission hospital. The expenditure was, however, heavier than in the previous year.

Vaccination.—This is worked departmentally through the municipal vaccinator who is placed under the direct supervision of the Assistant Surgeon (a municipal councillor) attached to the municipal hospital. The total number of cases vaccinated during the year was 508 against 462 and the total number of successful cases 465 against 406 in the previous year. The number of children under one year of age successfully operated on was 132 out of 134 against 170 out of 188 in the previous year. The following statement shows the number of births from six months prior to the commencement of the year and the number vaccinated out of the same during the year:—

Months and number of births.		Died.	Left the town.	Months and number of vaccinations.		Under one year of age.	Above one year of age.	Revaccinated.
October 1893	17	5	3	April 1894	40	7	23	10
November ,,	18	3	5	May ,,	40	..	30	10
December ,,	15	3	4	June ,,	40	8	24	8
January 1894	14	5	1	July ,,	40	7	31	2
February ,,	18	4	4	August ,,	40	6	31	3
March ,,	15	8	1	September ,,	43	15	27	1

September ,,	19	8	2	March ,,	35	11	4	20
Total ..	266	73	57		508	134	300	74

No vaccine operations were performed by the medical subordinates. Out of the 465 successful operations, 390 were by means of fresh animal lymph (calf-to-arm) and 75 by means of glycerine paste. The cost of vaccination during the year amounted to Rs. 116 for establishment and Rs. 122 for contingencies. The average cost of each case successfully operated on was As. 8–2. Forty-seven prosecutions were instituted for failure to have children vaccinated and the result was that in all cases children were vaccinated within the time allowed by the Magistrate. All possible measures have been adopted to render vaccination more complete and systematic during the year.

Vital Statistics.—The following abstract shows the number of births and deaths registered during the year under report as compared with those in the previous year:—

	1894–95.	1893–94.
Births	296	229
Deaths—		
Cholera	4	17
Small-pox	294	509
Fevers	33	18
Dysentery	2	2
Suicide	4	1
Wounds	9	5
Accidents	1	..
Snake-bite	1	..
Killed by wild animals	215	203
All other cases	——	——
Total ..	563	755
	——	——

Excluding 26 still-born cases the number of births and deaths registered during the year was 296 and 563 against 229 and 755, respectively, in the previous year. Notices were served upon midwives, grave diggers and others, making them responsible for the due registration of births and deaths; printed notices were affixed in all conspicuous places in the town and circulated among the people as far as possible, and notice was also given by beat of drum once or twice every month. Besides this the ward peons and the registrar were strictly insisted upon to see that all births and deaths are properly registered. Eleven prosecutions were instituted, seven for not reporting births and four for not reporting deaths. Five of the former and two of the latter were convicted and the rest acquitted. From this it will be seen that all possible steps were taken to render registration complete. Considering the established truth that Cuddapah is unhealthy, better results cannot possibly be expected. The cost of registration during the year amounted to Rs. 119 against Rs. 132 in the previous year.

Conservancy Establishment.—The cost of the conservancy establishment for the year amounted to Rs. 4,195 against Rs. 4,190 in the previous year. The establishment continued the same as in previous year. The sanitary inspector underwent training at the Medical College and has been declared to have passed the intermediate examination prescribed for sanitary inspectors.

Other Charges.—The cost of removing street sweepings and night-soil amounted to Rs. 2,523 against the revised estimate, Rs. 2,690. As in the previous year, twelve carts with twelve pairs of bulls for the removal of sweepings and four pairs of bulls for the removal of night-soil in the municipal carts were engaged at a monthly cost of Rs. 200 against Rs. 152 in the previous year.

Private Scavenging.—The establishment maintained for the purpose continued the same as in the previous year, except that three scavengers attached to the three latrines abolished during the year were transferred from general conservancy to this agency and that the duties of the sub-inspector who, in the previous year, had the inspection of the slaughter-houses in addition to his work were confined to the close inspection of the private scavenging work and to the extension of the system as far as practicable, other arrangements being made for the inspection of slaughter-houses. The cost of the establishment including contingencies amounted to Rs. 893 against Rs. 883 in the previous year. Necessary measures were adopted for compelling landlords to keep their premises in a sanitary condition. Notices were served in 150 cases to remove rubbish and other filth from the premises and 112 prosecutions were instituted for failure to do so. With all this extension of the service is found to be a great

difficulty especially among the Muhammadan community and pre-payment of the fees could not be insisted upon without detriment to the general appreciation of the system. Frequent inspection of the premises and enforcement of the sanitary provisions of the law in all cases in which the premises were kept in an unclean condition and careful supervision of the conservancy establishments have, however, impressed upon the people the necessity for applying for the service and ultimately resulted in the improvement of the sanitary condition of the town to some extent.

8. *Grant IV—Lighting, &c.*—The establishment for lighting continued the same as in the previous year, and cost Rs. 360 against Rs. 357 in the previous year. The cost of oil, wicks, &c., amounted to Rs. 930 against Rs. 1,040 in the previous year. The number of lamps remained the same as in the previous year. It has since been increased by ten more. Even this number, viz., 148, is considered to be insufficient to the town. Provision has to be made for at least ten more this year. Lights are inspected by the sanitary inspector and occasionally by the councillors and the Chairman.

Market and Slaughter-houses.—The establishments maintained for the market and slaughter-houses continued the same as in the previous year and the cost thereof including contingencies amounted to Rs. 118 for the former and Rs. 238 for the latter against Rs. 117 and Rs. 240 in the previous year. Including Rs. 282 spent under Grant I, the total expenditure on account of the municipal market amounted to Rs. 400.

Travellers' Bungalow.—The establishment continued the same as in the previous year. It cost Rs. 120 besides Rs. 47 for contingencies against Rs. 114 and Rs. 152, respectively, in the previous year. Further Rs. 136 were spent under Grant I for repairs to the bungalow and other improvements, so that the total expenditure on account of the bungalow was Rs. 303. Deducting the fees realized in the year, viz., Rs. 233, the net cost of the municipality was only Rs. 70. The bungalow is already comfortable and it will be more so with the verandah now under construction in front of it.

Avenues.—As in the previous year one servant on Rs. 6 per mensem was employed for watering young avenues, another servant on the same pay was temporarily engaged for two months for fencing the avenues and to look after the plants planted around some of the fountains in the town. The cost amounted to Rs. 84. A further sum of Rs. 105 was spent on account of thorn, &c., for fencing. The avenues are in good order. Rs. 40 was realized by the sale of clippings and produce.

Fire Establishment.—A sum of Rs. 33 was spent for the temporary establishment maintained for watching fire occurrences in the town.

Other Charges.—Rs. 1,876 were distributed as detailed below for miscellaneous purposes :—

	Rs.	A.	P.
Cost of materials and labour for laying pipes	1,402	6	8
Printing municipal proceedings, voters' lists, &c.	384	11	4
Pay of tom-tom beater	24	0	0
Kist on municipal lands	27	2	1
Cost of tin tickets	31	2	0
„ of sign boards	6	4	0
Total ..	1,875	10	1

9. *Grant V, Supervision and Management.*—The total expenditure under this grant amounted to Rs. 3,890 against the revised estimate of Rs. 4,050, and the actuals of the previous year, Rs. 3,747. It is detailed below :—

	Rs.
Office establishment	1,736
Chairman's conveyance allowance	535
Collection establishment	700
Office rent and other contingencies including cost of account books ..	609
Contribution to Government for audit establishment	310
Total ..	3,890

Repayment of Debt.—The annual instalment amounting to Rs. 172 was paid during the year towards the repayment of the special loan of Rs. 9,695 taken for the completion of Bugga water works, and the interest thereon amounting to Rs. 407 was also paid, besides Rs. 2,940 due to debenture holders for the year.

Advances Recoverable.—The unadjusted advances for the year amounted to Rs. 2,056–5–0 as noted below :—

	Rs.	A.	P.
Amount advanced to the Accountant-General, Madras, for the purchase of Government securities for investment on account of water works sinking fund	2,030	0	0
Cost of attendance registers supplied to the inspecting schoolmaster for sale	11	9	0
Process fees	14	12	0
Total ..	2,056	5	0

Rupees 2,030 advanced to the Accountant-General has been since adjusted and the Government securities to the value of Rs. 1,800 are, as usual, in the custody of the Accountant-General. In connection with remittances by municipalities for investment, the Accountant-General has ordered that remittances should be by cheques or hundies on a bank at Madras and that in no case the amount would be received in cash or currency notes. The sum of Rs. 2,030 above referred to was once refused, but with the special permission of the Accountant-General, a remittance transfer receipt was obtained for the amount on payment of the required fees and the amount was invested. The annual instalment of Rs. 200 payable during the year towards repayment of the loan taken from the hospital endowment fund could not be remitted during the year on account of the same difficulty. The amount will be invested during the current year.

IV.—Closing Balance.

10. Including the opening balance of Rs. 7,730, the total receipts for the year amounting to Rs. 55,884 and the total expenditure under all grants to Rs. 49,439, the year closed with a balance of Rs. 6,445 at credit of the council.

—

Enclosure.

Administration report of the Municipal Hospital, Cuddapah, for the year 1894–95.

The public health in the town of Cuddapah has been fairly good during the year under reference. There was no cholera during the year in the town, though it broke out in the district at Jammalamadugu. Measles and mumps prevailed to some extent; there were no deaths from these.

Malarial fevers, as usual, prevailed during the latter part of the year. The total number treated from this disease was 7,033, of which 44 were in and 6,989 out patients against 6,976 in the previous year, showing an increase of 57. Lung diseases, especially pneumonia, prevailed for the most part of the year, and to a greater extent than the previous year. It mostly occurred as a complication in remittent fever. Altogether 195 were treated under lung diseases, and 530 under diseases of the other respiratory organs, showing an increase of 61 of the former and 13 of the latter.

2. The institution has been well attended by all classes of people, a fairly large number of them coming from distant taluks.

3. This institution is maintained by municipal funds together with a contribution of Rs. 2,500 from local funds.

4. The institution ought to be occasionally visited by the municipal councillors, but I am sorry to say that the councillors have not done so. The Surgeon-General with the Government of Madras inspected the hospital on 29th September 1894, and made the following remarks in the visitors book :—

"Visited the municipal hospital. There were sixteen in-patients who appeared to be carefully looked after. The hospital was in good order and the records properly kept. I concur in the suggestions of the District Medical and Sanitary Officer regarding the redistribution of the rooms as an out-patient department. An operation room is very desirable; huts for males and females

for cholera and small-pox are also necessary, say two beds each. A separate lying-in ward and delivery room are required. The kitchen is most necessary. The present one is only fit to be made into a store-room. Standard plans for these buildings should be obtained from the sanitary board. Bed-side tables (teapoys) are most necessary for each bed. The services of a gardener are necessary to keep such a large compound clean and to make a garden in which convalescent can take exercises. There should be a few iron seats in the garden under trees."

The main building of the hospital is in a good condition; a separate operating theatre will be very beneficial and I hope the municipal authorities will endeavour to find some means to make this addition to the buildings. The out-houses require repair, and as there were no funds available, provision has been made for these in the next year's allotment. All affairs connected with the hospital are discussed and disposed of at the municipal meetings. A separate hospital committee should exist which ought to meet once a month to discuss matters concerning the hospital. The Chairman of the municipal council was addressed on this subject on the 26th October 1894, but no steps seem to have been taken for the forming of the committee. If a committee of this sort existed it would do a lot for the hospital. The rich merchants could be persuaded to endow the hospital with beds, and subscriptions could be collected for the suggested operation theatre.

5. The hospital is under the immediate charge of the District Medical and Sanitary Officer and during his absence the Assistant to the District Medical and Sanitary Officer is in charge.

6. During the year 15,763 out and 474 in patients were treated, showing a decrease of 5 out and 48 in patients against the previous year. The decrease in the admissions has been due to the less admissions from fever. Moreover the London Missionary Society had a dispensary in Cuddapah where the Native Christians and others from its vicinity resorted to. This dispensary has been removed to Jammalamadugu, where a hospital is under construction by the same mission. Though the people are poor, yet they are averse to having themselves admitted into the hospital and this is chiefly the case with the illiterate. They seem to think that it is *infra dig* to be an in-patient, as the popular belief amongst them is that hospitals are only for paupers. They rather go to the numerous quacks and spend the little that they have in medicines and diet (puthiams) as they are popularly called rather than come to hospitals. If they do come to the hospital it is at the last moment when human aid cannot save them. The decrease in in-patients is also due to the less admissions of byragis and other mendicants who have been sent to the various choultries as they are cases of starvation and not disease.

7. The most prevailing diseases during the year were—

(1) Malarial fevers.
(2) Other diseases of digestive system.
(3) Rheumatic affections.
(4) Ulcers.
(5) Diseases of the eye.
(6) Other diseases of respiratory system.
(7) Diseases of the ear.
(8) Skin affections.

8. Sixty major and 526 minor operations were performed during the year, showing an increase of 12 major and 73 minor as against the previous year.

9. The medical subordinates do not perform vaccine operations as the municipal vaccine depôt is situated in the hospital compound and the vaccination is carried on there. Vaccination will be reported on further.

10. *Conservancy.*—Establishment consists of—

1 inspector on Rs. 25 + 10 rupees horse allowance per mensem.
6 peons on Rs. 6 each per mensem.
1 maistry on Rs. 8 do.
29 male toties at Rs. 6 each do.
29 female toties at Rs. 4 each per mensem.

The establishment is quite sufficient for the town.

There are four wooden box carts for removing night-soil and one closed cask for removing urine. The latter is not sufficient and should at least be doubled. This was suggested also in last year's report. It would also be good if the municipality were to have one closed wooden box cart for each ward for the removal of night-soil. There are twelve country carts for removing street sweepings.

Latrines.—There are altogether 36 latrines as compared with 42 of last year. Of these 24 are pucca built, 6 mud walled and 6 slab walled. Of these 18 are for males and 18 for females. This number is quite sufficient. Every latrine ought to have an iron receptacle placed close by into which all the excreta ought to be deposited and then removed. The excreta should on no account be deposited on the ground outside the latrine awaiting removal. There are at present eight receptacles and provision has been made for ten more in next year's allotment and this number will be sufficient.

Dustbins.—There are 173, of which 7 are iron moveable and 166 are stone slabbed. More are required.

Private scavengering.—Establishment—

1 inspector on Rs. 15 per mensem.
13 scavengers at Rs. 4 each per mensem.
1 scavenger at Rs. 5 per mensem.

There are altogether 1,003 houses that are cleaned by the municipal scavengers as compared with 613 of last year. The six latrines that were demolished were at the request of inhabitants close by who have now gone in for the private scavengering system. The demolition was approved of by the Sanitary Commissioner.

Manure Depôt.—The night-soil and rubbish is removed and deposited outside the town and is disposed of by public auction once a year.

Drainage.—A few side drains have been laid since last report but many more are still required.

Roads.—The main roads require repairs badly. Provision has been made for this in next year's allotment. Eighteen bye-lanes have been converted into roads.

House drainage.—All the houses have more or less a cesspool. The cesspools are covered with slabs which appear never to have been removed since the day they were laid down.

The cesspools in most cases are not pucca built and hence the contents soak into the ground. Every cesspool ought to be pucca built and there should be a separate staff for removing the water from them daily. Some rule should be observed and each house owner or tenant should be held responsible for its cleanliness. The sanitary inspector should make this one of his chief duties.

Water-supply.—Good and abundant; brought into the town by pipes.

Vaccination.—Five hundred and eight cases were vaccinated during the year under reference and this shows an increase of 46 as compared with the previous year. Vaccination is in a backward state in the town. The unhealthy climate has a great deal to do with this for the people are afraid to have their children vaccinated on account of the fever. As soon as notices are served on them they send the children away, and thus evade vaccination. Moreover a large number of children are born in a most emaciated condition and even after six months they are in such a poor state of health that they are not fit for vaccination.

General Remarks.—The total amount of rainfall registered during the year under review at the Meteorological Observatory was 37·77 inches against 39·44 of the previous year. Total number of labour cases was 47, of these 24 were attended to by the Eurasian midwife and 23 by the native.

(Signed) A. J. O'HARA, Surgn.-Maj., I.M.D.,
District Medical and Sanitary Officer.

Cuddapah,
9th May 1895.

Current No. 664-Eng.

Forwarded.

2. The main roads are in good order.

(Signed) J. HEWETSON,
Ag. Collector.

23rd July 1895.

Order—No. 1724 M., dated 23rd October 1895.

The receipts and charges of the Cuddapah Municipality for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.

2. The municipal council held twenty-nine meetings against twenty in 1893–94. The average attendance of the non-official members improved and was satisfactory, but that of the officials declined and was very poor. The Collector should inform the latter that the Government expects them to be more regular in their attendance in future. Four seats were filled by election during the year, and of these three were contested, 66·8 per cent. of the voters concerned attending the poll.

3. *Receipts.*—(1) The number of persons assessed to the tax on arts fell from 737 to 702, but the net current demand under this head showed a slight increase over that of the previous year. The demands under the house and water taxes declined slightly, while that of the tax on lands remained unaltered.

(2) The current collections under the principal taxes improved and, except in the case of the tax on lands, were good. The arrear realizations under the house and water taxes were also fair, but the collections of the arts tax were indifferent and of the land tax extremely poor. It is observed, however, that in the case of the tax on arts the balance was considerably reduced by writing off a sum of Rs. 261, and that the greater portion of the outstandings under the land tax has been collected since the close of the year. The old arrears under the land and water taxes should not be allowed to disfigure the municipal books any longer. They go back to the year 1890–91 and the Government must insist upon their being either collected or written off without further delay. The number of coercive processes issued declined, and their execution was less prompt than in 1893–94. The condition of the collections was not, however, such as to justify such leniency.

(3) The income from the taxes on vehicles, animals and carts and from school-fees exhibited an increase, but that from the sale of rubbish showed a marked decline, for which no explanation has been offered. This omission should be supplied. The advance under fines is satisfactory in so far as it indicates greater activity on the part of the police and the municipal executive in enforcing the sanitary provisions of the law.

(4) It is gratifying to note that the number of houses served by the private scavenging agency rose from 613 to 1,003. Owing, however, to the fact that only about two-thirds of the total demand under this head was realized within the year, the service was worked at a loss of Rs. 162 to the municipal council. It is explained in paragraph 3 of the chairman's report that this was due to the fact that a large number of house-holders joined the system just at the end of the year and had not paid the fees before its close. This shows that the council is still omitting to insist upon the prepayment of these fees. The Government trusts that it will not again be necessary to remark upon this point.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 569 was spent during the year in completing the coolies' and drivers' quarters at the Bugga water-works, and the water-supply was extended to Agadi at a cost of Rs. 757. No other new works of any importance were undertaken during the year. The total outlay on communications amounted to Rs. 4,054, or 52·1 per cent. of the net revenue from tolls, and the Collector reports that the main roads were in good order. It is observed that steps are being taken by the council to improve the side streets and lanes which were reported to have been in an unsatisfactory condition.

(2) *Education.*—The net expenditure on education was Rs. 3,245, or 11 per cent. of the receipts from taxation. Of this Rs. 1,009 were spent on secondary and the remainder on primary education. At the commencement of the year the municipal council maintained a high school on the salary system and three primary schools on the salary-result system. To these, another primary school of the latter kind for Panchamas was added during the year. The attendance at the high school improved, but the results of the Matriculation and Lower Secondary examinations were poor. The number on the rolls of the primary schools rose from 255 to 279, and the pupils from them were fairly successful at the departmental examinations. The council aided nine primary schools with result grants against fifteen in the previous year. The attendance at these institutions fell from 539 to 369 and, although they did fairly well at the grant examinations, a fourth of the allotment for result grants lapsed during the year. It is also matter for regret that the number of boys under instruction in the municipal and aided schools fell from 67·2 to 56·6 per cent. of the male population of school-going age. From the educational statements submitted by the Assistant Inspector of Schools it is observed that very few of the teachers employed in the municipal and aided schools were trained men. The council should employ none but qualified teachers in its own schools and, by reducing or entirely withholding the grants payable to them, should insist on the managers of aided institutions doing the same. The educational branch of the council's administration evidently requires increased attention.

(3) *Medical Relief.*—The number of patients treated in the municipal hospital showed a further decline, which is partly accounted for in paragraph 6 of the District Surgeon's report. The chairman will be requested to explain why the cost of dieting in-patients increased, although the number of such patients decreased. The work done

by the Eurasian midwife in 1893–94 was characterized by Government as discreditable, but in the year under review it was even still worse, as she attended only twenty-four cases of labour. If she does not do better in the current year, the council should consider the desirability of replacing her by a more competent person.

(4) *Vaccination and Vital Statistics.*—In paragraph 7 of the chairman's report it is stated that all possible measures were adopted to render vaccination more complete and systematic, but the results achieved were still very disappointing. The number of operations performed showed but a slight increase, and the quality of the work done, though better than in the previous year, was still indifferent. Infantile vaccination was especially backward. From the statement embodied in the chairman's report it would appear that all the infants who neither died nor left the town were vaccinated, but in view of the fact that the total number of children under one year successfully protected was only 7·6 per mille of the population against a general average of 21·6 for all municipalities for 1893–94, the probability is that the birth returns were not complete. Some explanation is offered for this state of things in the District Surgeon's report, but that officer also is of opinion that vaccination is in a backward state in the town. It is observed, however, that the number of prosecutions instituted for failure to vaccinate rose from two to forty-seven during the year, which shows that the council is beginning to bestir itself somewhat in the matter. The endeavours made to improve this branch of the administration should be sustained, and it is hoped that the council will be able to report much better results in the current year.

The registration of births improved slightly, but that of deaths declined. In the former case, even making allowances for the unhealthiness of Cuddapah, the returns were evidently far from being complete. Registration of vital statistics would very probably improve if the Chairman and councillors took a personal interest in it instead of leaving the work, as they apparently do, entirely in the hands of registrars and ward peons and never taking any steps to check the returns. Seven prosecutions were instituted for failure to register against two in the previous year; but the number was evidently still inadequate. The council should pay closer attention to this subject in the current year.

(5) *Sanitation.*—On conservancy a sum of Rs. 7,648, or 94·1 per cent. of the allotment and 15·9 per cent. of the current receipts was spent. The District Surgeon's suggestion that the number of conservancy carts should be increased, and his remarks regarding the public latrines and the cess-pools in the town should receive attention, and steps should be taken to remedy one by one, as funds permit, the various minor defects noticed by the Sanitary Commissioner in his inspection notes recorded in G.O., No. 182 M., dated 7th February 1895. The question of improving the drainage of the town is now under consideration.

5. *General Remarks.*—The year closed with a balance of Rs. 6,445, or 13·4 per cent. of the current receipts.

The administration of the municipality during the year under review showed an improvement in several branches, but much still remains to be done and it cannot yet be regarded as satisfactory.

6. The delay in the submission of the report is regrettable and should not be allowed to recur.
