From

J. P. Hewett, Esq., C.I.E.,

Offg. Secy. to the Govt. of India

To

The Chief Secretary to the Government of Madras.

Home Department.

(Medical)

Simla, the 9 September 1895.

Sir,

I am directed to acknowledge the receipt of your letter No. 1123 Miscellaneous, dated the 15th July 1895, requesting the sanction of the Government of India, under Article 89 of the Civil Service Regulations, to the grant of an honorarium of Rs. 600/- yearly to the Professor of Hygiene in the Madras Medical College for delivering a course of lectures on Hygiene to a class of Sanitary Inspectors.

2. In reply I am to state that from the enclosures to your letter it is observed that the course of lectures to be given to English speaking Sanitary Inspectors selected and sent up for training by Municipal Councils to the Madras Medical College is to be the same as that given to Hospital Assistants, but it appears to be intended that the Professor of Hygiene should lecture to this class separately. The Professor of Hygiene has, it would appear, from paragraph 1 of the letter from the Principal, Medical College, to the Secretary to the Surgeon General with the Government of Madras No. 104, dated 29th June 1894, represented that his work is already very heavy and it appears, in these circumstances, that it would be undesirable to add to his present duties. I am, therefore, to suggest the following alternative proposals for the consideration of the Governor in Council, viz.,

So 1914 - Page 9
10/12-94

(a)

- (a) to place the Inspectors in a class with Hospital Assistants, or
- (b) to substitute trained Medical Subordinates for the present Sanitary Inspectors.

With regard to the first alternative I am to observe that, since the addition of a few pupils to the class of Hospital Assistants to whom the Professor of Hygiene already lectures would not materially add to that officer's labours, it would not be open to the objection which has been taken to the proposal, submitted with your letter under reply, by the Principal of the Medical College. Moreover, the need for a special allowance would also disappear. As regards the second alternative, it is understood that some Municipalities in Madras already employ Hospital Assistants as their Sanitary Inspectors. On the assumption that such men have adequate training in Hygiene, difficulty would occur only in the case of Municipalities who were either unable or unwilling to offer pay at rates sufficiently high to attract properly trained men.

3. I am to request that the proposals set forth above may be considered and that the Governor General in Council may be favoured with the opinion of the Madras Government thereon.

I have the honour to be,
Sir,
Your most obedient Servant,

J. P. Hewett

Offg. Secy. to the Govt. of India.
