Local and Municipal.

Enclosure.

Sir,

With reference to your endorsement No. 1294 dated 12th September 1895, Local and Municipal, I have the honor to state that although the appointment of a lately passed Hospital Assistant at Tanjore is decidedly an improvement upon the former state of things, it by no means meets the requirements of the case. None but a very young Hospital Assistant having practically no experience of sanitation would accept the small sum offered and unless the demand for this class of men for medical service, for which their education specially fits them, is less in future than at present, it would be a foregone conclusion that he would resign as soon as he can obtain a more paying appointment.

I

2. I think it would be desirable, in accordance with conventional usage to limit the use of the title of "Health Officer" to men qualified by holding special Public Health diplomas. I consider its use in connection with this appointment, is open to objection

3 What a town having so large a population as Tanjore requires, is a Health Officer in the true acceptation of the word. Such a man holding the qualification of L.M.&S. and the license in Sanitary Science of the Madras University, would demand the same pay as an Assistant Surgeon in Government employ. As I presume pay for this class of man would not be forthcoming, I consider that at least a grade of education that would demand a minimum of Rs 75 rising to Rs 100 should be required. Such a man should be known as "Chief Sanitary Inspector", and, holding in view the executive *nature* of his duties, and the fact that there is a District Sanitary Officer resident in the town, I consider a native or Eurasian of good general education who had undergone the course and passed the

examination

R

examination lately inaugurated for Sanitary Inspectors at the Medical College would be eligible. but, would give the preference to Civil Apothecaries, or men holding the D.P.W. Overseer's Certificate, who had undergone the test in Hygiene mentioned Such a post should be opened to general competition after nomination.

4. Working in a subordinate position to this Chief Sanitary Inspector, I am of opinion that the following staff would be efficient:

Chief Sanitary Inspector (certificated) Rs 75 *plus* 15 horse allowance – rising by increments to Rs 100 in three years

One 2nd class Sanitary Inspector (Certificated) on Rs 45, *plus* Rs 7-8-- horse allowance, rising by increments to Rs 60 in 3 years.

Four Conservancy overseers on Rs 10

This would give a supervising staff of much greater value costing Rs 182-8 against Rs 175 as proposed by the Municipality.

5. The menial staff also requires organization, but I presume the reference of Government is limited to the question above discussed

I have the honor to be
Sir
Your most obed Servt

LOCAL AND MUNICIPAL DEPARTMENT.

Papers to be read in Proceedings :—

Again G.O., dated 189 , No.

Current No. 2696 M of 1895, dated August 1895 from the Chairman, M.C. Tanjore.
Current No. 3160 M of 1895, dated 15th October from the Sanitary Commissioner.

Order. No 1824 Mis. dt. 4-11-95

As a qualified Health officer for the municipality has now been entertained, the Government does not consider that there is any necessity to retain the services of all the existing six Sanitary Inspectors on salaries ranging from Rs 25 to Rs 15. The budget for 1896-97 should contain proposals for reducing their number and salaries.

P.R. 25/10/95 W 28.10.95 2/11/95

Note. The Sanitary Commissioner was not consulted about the Health officer's appointment which was sanctioned in G.O. 1356-M 17-8-95, but only about the Staff of Inspectors. His proposals to employ a Chief Sanitary Inspector on Rs 75 & Rs 15 horse allce can be considered after orders are passed on the general scheme recently suggested by him [G.O. 16-10-95 No. 1668 M.]
