GOVERNMENT HOUSE,
Pondicherry.
2nd November 1895. }

3483 M. 1895

a market is opened on the new site and a portion of the bazaars were transferred thither, the present market owner might close his markets and they would thus be deprived of the only market there is in a healthy spot.

10. In conclusion your Petitioners pray that your Excellency will be pleased to direct the Sanitary Commissioner to Government to inspect and report on the new site, as it would be a great pity, if after the new market is built it should be found that it cannot be used as such on sanitary grounds.

For which act of kindness as in duty bound your Petitioners will ever pray.

New Town
April 95

6. That Dr. Vurdappah himself an expert as a medical man in matters of sanitation apparently satisfied with the unhealthiness of the new site interrogated the President at a meeting of Municipal Commissioners held on the 25th ultimo with the result as under :—

Q. Dr. Vurdappah "Is it a fact that a new Private market is in contemplation to be built near the Naval Hospital roads in the midst of paracheries."

A. The President Yes : subject of course to the sanction of the Commissioners under section 359.

Q. Dr. Vurdappah "Has any plan been submitted and permission granted to build the market."

A. The President Yes.

Q. Dr. Vurdappah "Is there any standard plan prescribed for the new private market to be built."

A. The President No.

Q. Dr. Vurdappah "If there be no standard plan is it not advisable to have one in accordance with modern sanitary principles."

A. The President, I do not think it necessary to have a standard plan. No plan is sanctioned that does not meet all sanitary requirements.

Q. Dr. Vurdappah "Have the residents of Periamet submitted a petition to the Municipal President condemning the site of a new private market as it is being built between paracheries and surrounded with latrines, expressing also that the old market at Periamet is quite enough for their wants."

A. The President Yes.

7. That from the above it will be seen that the plans have been approved of for the new markets. The very fact that sanction has been accorded to the erection of a new market cannot but raise a claim on behalf of the owner thereof when the time arises for his applying for a license to use the building as a market, although the Commissioners despite the sanction and approval are not bound to grant such license, your memorialists therefore apprehend that the Commissioners might naturally be constrained to grant a license since the owner had received sanction from the President, and had undergone considerable expense in the building of the market.

8. That the object of a market in any locality is to concentrate to one spot, the sale of all the necessities of life, and this object would be vitiated if there were two markets in the same locality. Further, while the plans of the new market might be free from objection as regards sanitation etc., yet the site your memorialists respectfully submit is not free from such objections.

9. That your Petitioners will be glad to have a second market built even by the same man in any other healthy locality in the neighbourhood free from objection, which the present site is open to. It is seriously apprehended that if

To

His Excellency The Right Honorable Cecil
Lawley, Baron Ellenlock, G. C. S. I.

Governor of Madras.

The humble petition of the undersigned inhabitants
of New Town (Periamettu) Madras, and its
immediate vicinity.

HUMBLY SHOWETH,

1. That your Petitioners on the 3rd August 1894, having heard that it was in contemplation to remove the market at New Town, which has been in existence for over half a century—nay that sanction has been accorded to its removal to a site known as Kallarachery, petitioned the Municipal Commissioners protesting against its removal on the grounds of public convenience and sanitation.
2. That your Petitioners in reply were informed on 14th idem that "No permission had been given for the removal of the market in New Town to any other site. Application had been made by one T. Mahomed Sulaiman Khan Saib to permit him to build another market in Kallarachery, and he had been called on to submit plan of what he proposed to put up."
3. That your Petitioners thereupon on 25th February 1895, again petitioned the Municipality through one of the Commissioners of the Division, Dr. Vurdappah, reiterating their protest to the erection of a market on the new site, on the grounds of inconvenience, and insanitation, and as the present one was sufficient to meet all requirements.
4. That your Petitioners crave leave to refer you to the accompanying rough plan from which it will be seen that the present market is situated in a square which is high ground, and to which all the streets in the locality lead. It is therefore central and very convenient. Further, the drainage capacity all round is large and ample.
5. That from the same plan, it will be seen, that the new site forms part of a parachery known as Kallarachery, a very hot bed of epidemics, surrounded by miserable huts, three public latrines, and the Municipal scavenging parachery. Behind, is a low lying ground which is completely inundated during the rains, and which has been, raised even to its present height by Municipal rubbish. Lastly the streets leading thereto are very narrow, and the drainage consists of tiled drainage, and in some places none at all. It cannot therefore be but a very unhealthy spot pregnant with microbes of Tymotic poison, cholera and fevers.

To

His Excellency The Right Honorable Veilby Lawley,
Baron Wenlock, G. C. S. I.,
Governor of Madras.

C. S. Desh

The humble Petition of the undersigned Inhabitants
of New Town (Periamettu), Madras, and its
immediate vicinity

HUMBLY SHOWETH,

That your Memorialists in April last petitioned your Excellency in Council, protesting against the erection of a New Market on a site near the locality known as Kallarachery, in New Town, on the grounds that it was environed by a neighbourhood highly insanitary and for years the hot-bed of Cholera, Small-pox, Fever and other epidemics; soliciting that the site might be inspected and reported upon by the Sanitary Commissioner. For further particulars your Memorialists crave leave to refer you to such Memorial, copy of which is enclosed.

2. That no reply having been received for some months, a Telegram was sent to your Excellency in Council, soliciting an early reply. To this, copy of an endorsement, dated 8th May last, was sent last month. The endorsement was to the effect that their Memorial had been sent to the President, Municipal Commission, for disposal.

3. That thereupon the Municipality was asked for a reply and the following was received on the 15th instant:—"Petitioners are informed, with reference to their letter of the 4th instant, that the President cannot refuse sanction to build a Market, so long as the provisions of Section 265 are fulfilled; it, however, rests with the Commissioners to sanction the building being opened and used as a Market."

4. That your Petitioners respectfully submit that this reply is highly unsatisfactory; for though the Market building in itself may be free from objections, its insanitary surroundings cannot but make it unfit for use as such; and though the Commissioners are not bound to give the owner a License to use it as such, despite the permission of the President to build a Market, yet the owner, once he has built it, will have a claim on the Commissioners for a License. It was to obviate this claim,—if claim there can be,—that the protest was made, before even the foundations for the Market were excavated.
