Sir,
With reference to S.O. dated 8th August
1895, 2.1388, I have the honor to state that in the
letter of the Sanitary Commissioner dated 5th September
1894, 2.1148 V. circulated with S.O. dated 19th October
1894, 2.1502 etc. he only suggests the maintenance of a
separate register of Vaccination in the form therein given,
which until the receipt of instructions from the
Inspector of Vaccination and Deputy Sanitary Com-
missioner, received on 11th April 1895, could not be
properly understood and consequently it was thought
advisable to defer the submission of the returns until
after carefully studying it, lest both this and the office
of the Inspector of Vaccination be put to unnecessary
labour. Besides this, the form of the return itself
it does very little analogy to the existing returns of
the Vaccinators required not only the collection of
statistics

Statistics to be filled in, but a complex classification
 of the details entailing a good deal of time and labor.
 Accordingly the first return of Vaccination
 for December 1894, could be prepared only in May 1895
 after which time the returns are being monthly sub-
 mitted.
