Letter from the Executive Engineer, Buckingham
canal to the Sanitary Engineer to Govern-
ment, Madras, dated 10th January 1895,
No. 1.

The Chief Engineer informs me that
there is probably in your office level
sections of the Coorum showing M. F. L. and
fall of river, level of river bed at Nappier
Bridge, contour lines showing extent
of shoals exposed at various levels
above or below M. F. L. and other infor-
mation prepared by Mr. Jones in con-
nection with his scheme for improve-
ment of the Coorum. I shall be obliged
if you would kindly let me have refe-
rence for a few days to such papers and
plans as may have been prepared, as
the Chief Engineer has ordered me to work
out the scheme in detail, and much in-
formation that is doubtless already in
record in your office will have again to
be collected unless the records on the
scheme in your office are made avail-
able.

Reply to the above from the Acting Sani-
tary Engineer to Government, dated 1st
January 1895, No. 82.

With reference to your letter

dated the 10th instant, I have the honor
to inform you that all the information
you require will be found in the report,
plans and estimates prepared by Mr.
Jones, which are now with Govern-
ment.

No. 7.

Copy of correspondence to Deputy
Chief Engineer, with a request that the
plans, estimates, and papers in ques-
tion may be forwarded to this office,
with reference to G.O. No. 3164 W, dated
10th ultimo.
