Administration Report.

Reviewing the — of the Anantapur District Board for 1894–95.

population, but it was only 29 per cent. of the births registered during the year. There is thus ample scope for progress, and the Government trusts that every endeavour will be made to secure better results in the current year.

(5) *Sanitation.*—The total outlay under this head was 91 per cent. of the allotment against 87 in the previous year. The improvement of village-sites appears to have received much attention, the number of villages conserved being seventy-nine against twenty in 1893–94, and fifteen watchmen were employed to guard drinking-water supplies against fourteen in that year. The short expenditure under "Water-supply" is regretted, and the reason for it has not been explained. It is presumed that the boards have satisfied themselves that the conservancy establishments in non-unions are adequately supervised. Without strict control their work is likely to be worthless and the money expended upon their pay would be more usefully devoted to permanent improvements to local sources of water-supply. The District Medical and Sanitary officer visited seventy-two villages against thirty-eight in 1893–94.

(6) *Miscellaneous.*—Notwithstanding the remarks in paragraph 41 of the General Review for 1893–94, the charges on account of lighting rose from Rs. 926 to Rs. 1,655. The President will be requested to see that funds, which might be better spent upon permanent improvements to unions, are not allotted in an undue proportion for what is rather a luxury than a necessity.

5. *General Remarks.*—The year closed with a balance of Rs. 25,308. Of this sum, however, Rs. 10,844 appertained to endowed institutions and Rs. 714 to unions, leaving Rs. 13,750 or 15 per cent. of the receipts available for general purposes. Most of the individual details given in paragraph 4 of the President's letter were unnecessary and paragraphs 1 and 3 of the District Medical and Sanitary officer's report might with advantage have been condensed.

Except in regard to vaccination, the administration of local affairs showed an improvement on that of the previous year and was, on the whole, satisfactory.

6. The Presidents of the taluk boards should be called upon to explain the delay in the submission of their reports. The attention of the Director of Public Instruction will be drawn to the delay in the receipt of the educational statements brought to notice in paragraph 3 of the President's letter.

2. *Local Boards and Union Panchayats.*—The local boards held a full number of meetings, and, except in the case of the officials on the district board, the attendance of members was sufficiently regular. There were as in the previous year eleven union panchayats. They met a sufficient number of times, and the attendance was fair, being on an average six members out of a total strength of eleven. Notwithstanding the remark in paragraph 2 of G.O., No. 1790 L., dated 13th September 1894, the number of official members on the Bukkapatnam panchayat exceeded that of the non-officials; no further time should be lost in altering the proportions. The ward system of supervision, which was in force in the five unions under the Gooty taluk board, is reported to have worked with moderate success in four of them. The private scavenging system appears to have continued to work fairly well in the Hindupur and Tadpatri unions. The members of the taluk boards and union panchayats are reported to have generally evinced interest in the affairs under their charge.

3. *Receipts.*—(1) The collections under land-cess amounted to only Rs. 77,676 or 84·5 per cent. of the demand against Rs. 1,11,958 or 95 per cent. in the previous year, the decrease being due to the existence of fewer arrears than in that year and to short credits to this head in the accounts of the year under review.

(2) There was a further slight decline in the current demand under tolls which amounted to Rs. 3,956 against Rs. 4,049 in the previous year. The whole of this sum was collected within the year.

(3) House-tax was levied at three-fourths of the maximum rates in all the eleven unions in the district and the collections under this head amounted to Rupees 10,911 or 89 per cent. of the demand against Rs. 11,162 or 79 per cent. in 1893–94. The current collections were excellent in Gooty, where the whole of the demand was realized without resorting to coercive measures and in the other unions they were fair. As much as 36 per cent. of the total arrear demand of Rs. 1,800 was however left uncollected and there were old arrears dating from 1887–88. This is unsatisfactory and the Presidents of the taluk boards concerned should see that these amounts are realized, or if irrecoverable written off the accounts, without further delay. Distress warrants were issued in 3,622 cases for the collection of Rs. 1,688, but property was sold in only twenty-six cases for Rs. 10.

(4) Fees continued to be levied in twenty-two markets as in the previous year, but the receipts from this source fell from Rs. 4,793 to Rs. 4,260. The balance in favour of these institutions at the close of the year was still large, being Rs. 10,746 against Rs. 13,011 in 1893–94. The major portion of this sum should be utilized

in the current year on the improvement of the markets, on the construction of feeder roads to them, or on the sanitation of the villages in which they are held. If this is not done the rates of fees should be reduced.

(5) The receipts from avenues also fell from Rs. 1,070 to Rs. 353. The Government regrets to observe that nothing was done to extend them. The condition of the existing trees is reported to have been good.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head rose from Rs. 38,322 or 80 per cent. of the allotments to Rs. 47,381 or 90 per cent. The short outlay, which occurs chiefly under New Works—Miscellaneous Public Improvements and New Works and Repairs—Civil Buildings, is explained in paragraphs 24 and 26 of the President's report. The delay in submitting and sanctioning estimates therein referred to is unsatisfactory. Taluk boards should be required to lay out their programmes farther in advance, and as a general rule, works should be excluded from the budgets until estimates for them are ready and proper arrangements for their execution have been made. The expenditure on village roads amounted to Rs. 7,508 or 21 per cent. of the total outlay on roads against Rs. 1,931 or 7·5 per cent. in 1893–94, but the increase was nominal, being due to a re-classification of the roads. The general condition of the roads in the district is reported to have been on the whole fair. The cost of the local fund engineering establishment was 24 per cent. of the outlay on works executed by that agency against 34 per cent. in the preceding year, but it was still 4 per cent. in excess of the prescribed limit, and should be further reduced.

(2) *Education.*—There were four inspecting schoolmasters as in the previous year, and, except in the Penukonda range, their work is reported to have been fair. Four sessional schools were maintained by the district board against three in 1893–94, and out of the thirty-seven students trained in them, thirty-two appeared for and twenty-one passed the primary examination. A new lower secondary school was opened at Dharmavaram towards the close of the year. It is not clear from the report or any of the statements whether this and the existing lower secondary school at Penukonda were maintained on the salary or the salary-result system. The work in the latter was very unsatisfactory, none of the nine pupils who appeared for the lower secondary examination having passed. There were 58 board primary schools on the salary-result system, one of which was for girls, with an attendance of 2,326 pupils against 55 schools with 2,350 pupils in the previous year, but only 78 per cent. of the candidates sent up for the standard examinations passed against 80 per cent. The number of schools aided by the taluk boards with result grants, which were paid at the maximum rates, rose from 159 with 3,595 pupils to 204 with 3,806 pupils, but only 72·5 per cent. of the pupils examined were found qualified for grants against 80 per cent. in the previous year. No explanation has been offered of this decline or of the non-disbursement of 36 per cent. of the grants earned within the year. The total number of boys under instruction in the schools maintained and aided from local funds was 11·1 per cent. of the male population of school-going age against 10·9 in 1893–94, but it is still considerably below the general average for the Presidency.

(3) *Medical Relief.*—The taluk boards maintained four hospitals and six dispensaries as in the previous year and there was a further increase of 2,535 in the total number of persons treated in these institutions, which is ascribed to their growing popularity. The attention of the taluk boards is drawn to the District Medical officer's remarks on the condition of the hospital buildings and furniture. Four midwives were employed throughout the year, while a fifth was entertained in March 1895 and they attended in all 204 cases of labour against 174 in 1893–94. No information has been furnished regarding the steps taken, if any, for the furtherance of female medical education as required in G.O., No. 1684-A. L., dated 5th September 1887. This omission should be supplied in future reports.

(4) *Vaccination.*—There was a retrogression both in the quantity and quality of the work of this department, the total number of persons successfully vaccinated being only 26 per mille of the population against 27·7 in the previous year. Infantile vaccination, however, showed a slight improvement, the total number of children under one year of age successfully vaccinated having risen from 8·2 to 8·5 per mille of the

population, but it was only 29 per cent. of the births registered during the year. There is thus ample scope for progress, and the Government trusts that every endeavour will be made to secure better results in the current year.

(5) *Sanitation.*—The total outlay under this head was 91 per cent. of the allotment against 87 in the previous year. The improvement of village-sites appears to have received much attention, the number of villages conserved being seventy-nine against twenty in 1893–94, and fifteen watchmen were employed to guard drinking-water supplies against fourteen in that year. The short expenditure under "Water-supply" is regretted, and the reason for it has not been explained. It is presumed that the boards have satisfied themselves that the conservancy establishments in non-unions are adequately supervised. Without strict control their work is likely to be worthless and the money expended upon their pay would be more usefully devoted to permanent improvements to local sources of water-supply. The District Medical and Sanitary officer visited seventy-two villages against thirty-eight in 1893–94.

(6) *Miscellaneous.*—Notwithstanding the remarks in paragraph 41 of the General Review for 1893–94, the charges on account of lighting rose from Rs. 926 to Rs. 1,655. The President will be requested to see that funds, which might be better spent upon permanent improvements to unions, are not allotted in an undue proportion for what is rather a luxury than a necessity.

5. *General Remarks.*—The year closed with a balance of Rs. 25,308. Of this sum, however, Rs. 10,844 appertained to endowed institutions and Rs. 714 to unions, leaving Rs. 13,750 or 15 per cent. of the receipts available for general purposes. Most of the individual details given in paragraph 4 of the President's letter were unnecessary and paragraphs 1 and 3 of the District Medical and Sanitary officer's report might with advantage have been condensed.

Except in regard to vaccination, the administration of local affairs showed an improvement on that of the previous year and was, on the whole, satisfactory.

6. The Presidents of the taluk boards should be called upon to explain the delay in the submission of their reports. The attention of the Director of Public Instruction will be drawn to the delay in the receipt of the educational statements brought to notice in paragraph 3 of the President's letter.

G. S. FORBES,
for *Chief Secretary*.

To the President, District Board, Anantapur.
" Chairman, Municipal Council, Anantapur.
" Collector of Anantapur.
" Accountant-General.
" Surgeon-General.
" Sanitary Commissioner.
" Sanitary Engineer.
" Director of Public Instruction.
" Public Works Department.
Editors' Table.

Exd. C. M. Brisson.

(*f*) *Operations and Results.*—The number of operations performed during the year was 39 major and 1,571 minor against 25 major and 1,410 minor in the preceding year. In the Tadpatri hospital 18 major operations were performed during the year. The people are very averse to surgical treatment and therefore it is difficult to show more operations in this district. Want of sufficient accommodation and instruments also contribute to some extent to this state.

(*g*) *Establishment, whether sufficient and efficient.*—The present establishment existing in all the hospitals and dispensaries is sufficient. It is very difficult to get trained compounders whenever vacancies occur. All the compounders in the district are untrained men, but some have fair knowledge of compounding.

(*h*) *Midwives.*—There were five midwives on the 31st March 1895 against four in the previous year. The midwife at Dharmavaram joined on the 18th March 1895. The total number of cases conducted during the year was 204 against 174 in the previous year. The following table shows the number of cases conducted by the midwives for the last five years :—

Years.	Number of cases conducted.
1890–91	163
1891–92	161
1892–93	138
1893–94	174
1894–95	204

The following shows the number of cases conducted by each midwife during the years 1893–94 and 1894–95 :—

	1893–94.	1894–95.
Gooty	30	36
Tadpatri	64	68
Penukonda	33	39
Hindupur	47	58
Dharmavaram	..	3
Total ..	174	204

Tadpatri and Hindupur showed good results. Penukonda midwife was transferred to Dharmavaram as she was not popular and the new midwife was sent to Penukonda. On receipt of G.O., No. 1790 L., Local and Municipal, dated 13th September 1894, strict orders were issued to the hospital assistants that the midwives should be warned to show better work in future. The people of this district do not avail themselves of the services of these women, but generally they employ barber women. Only in difficult cases the services of midwives are sought for. The midwives of Gooty and Tadpatri are paid at Rs. 7 per month and an extra remuneration of Rs. 1–8–0 for each case they conduct up to a maximum amount of Rs. 15. The midwives at Hindupur, Penukonda and Dharmavaram are paid at Rs. 15 per month irrespective of results.

(*i*) There is no accommodation provided in any hospital or dispensary in this district for caste and gosha women.

(*j*) *General Remarks.*—The poverty of the district precludes the undertaking of improvement in sanitary defects.

Anantapur,
10*th June* 1895.

(Signed) H. M. HAKIM, Surgeon-Major,
District Medical and Sanitary Officer.

Review of the Anantapur
L. F. Report for 1894-95.

No. 1943 L., Local and Municipal, 18th October 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From A. C. TATE, Esq., President, District Board, Anantapur, to the Chief Secretary to Government, dated Anantapur, 27th July 1895, No. 41.

I have the honour to submit my report on the working of the Madras Local Boards Act V of 1884 in the Anantapur district during the official year 1894–95.

2. *Territorial jurisdiction.*—During the year under report no alteration was made in the territorial jurisdiction except the addition of the Srikantapur village with its hamlet to the Hindupur union and the exclusion from the Dharmavaram union of the villages of Royalcheruvu, Kunutur and Mallakalava and the inclusion of Regatipalli in the union—*vide* G.Os., No. 2157 L., dated 23rd October 1894 and No. 2197 L., dated 21st October 1894.

3. None of the reports from the taluk boards were received within the prescribed date although the special attention of the Presidents was drawn to the due dates. The reports of the taluk boards were received on the dates noted in the margin.

Anantapur Taluk Board report and statements received on 18th June 1895 and 23rd June 1895, respectively.
Gooty Taluk Board report and statements received on 22nd June 1895 and 1st July 1895, respectively.
Penukonda Taluk Board report and statements received on 16th June 1895 (incomplete) and 27th July 1895.
Educational statements were received on 1st July 1895.

4. *District Board.*—The maximum number of members of the district board continued to be 24 as in the previous year. On the 31st March 1895 there were 24 members, 3 of whom, divisional officers, were ex-officio members. Nine members were nominated (three officials and six non-officials) and the remaining twelve (one official and eleven non-officials) were elected by the taluk boards. Of the twelve elected seats on the 31st March 1895, three seats were filled up during the year under report. M.R.Ry. R. Srinivasa Rao Garu was elected by the Penukonda Taluk Board to fill the vacancy caused by the death of M.R.Ry. G. Narasinga Rao Garu, and M.R.Ry. P. Kesava Pillai Avargal and M.R.Ry. H. Sitarama Rao Garu were re-elected by the Gooty and Anantapur Taluk Boards, respectively.

Mr. K. C. Manavedan Raja continued to be the President till June 1894, when he was succeeded by Mr. F. A. Nicholson, who was President of the district board during the remainder of the year. M.R.Ry. T. Ranga Rao Avargal, Treasury Deputy Collector, was Vice-President of the district board during the entire year. The number of meetings held during the year was thirteen. No meeting was adjourned for want of a quorum. The average attendance of officials and non-officials was 3·3 and 10·3 against 3·5 and 8·9 in the previous year. Statement XVI shows the constitution of the district board on the 31st March 1895.

5. *Taluk Boards.*—On the 31st March 1895, the three taluk boards in the district had a total strength of 42 (13 officials and 29 non-officials), the sanctioned strength, against 38 members on the 31st March 1894. The taluk boards held in all 45 meetings against the same number of meetings in the previous year. Penukonda Taluk Board held the largest number of meetings, viz., sixteen, and the remaining

two boards—Gooty and Anantapur—held fifteen and fourteen meetings, respectively. Only one meeting was adjourned by the Anantapur Taluk Board for want of a quorum, and no meetings were adjourned for this reason by the Taluk Boards of Gooty and Penukonda. The average attendance of members of the Penukonda Taluk Board rose from 9·7 to 10·9, while that of the remaining two taluk boards shows a slight decrease from 6·4 and 6·3 to 5·9 and 6·1, respectively. The President of the Anantapur Taluk Board reports that the falling off in the attendance of non-official members was due to the irregular attendance of M.R.Ry. C. Byyapa Reddi Garu of Pedda Chegallareva, which village has since been transferred to the Dharmavaram taluk in the Penukonda Taluk Board's jurisdiction, while that of the Gooty Taluk Board was due to M.R.Ry. K. Venkatasami Chetti Garu who attended only one meeting during the year having resigned his membership, and also to the irregular attendance of M.R.Ry. M. Rangasami Aiyangar Avargal, Sub-Assistant Inspector of Schools, who attended only two meetings during the year. This officer has since been transferred to the Kurnool district.

6. *The working of Taluk Boards.*—During the year under report the members of the taluk boards generally showed interest in the working of the taluk boards. The Gooty Taluk Board President reports that no school committee was appointed during the year as the schools are generally situated in villages where it is difficult to procure the services of competent men to sit on the committee. He reports that occasional visits were paid to some of the schools by the President, Rev. W. W. Stephenson and M.R.Ry. P. Kesava Pillai Avargal. The services of the taluk board members were also utilized in check-measuring works, such as union roads, &c., and their opinions were taken in matters of house-tax appeals and encroachments. Dispensary committees were in existence throughout the year under the Gooty Taluk Board, and they are reported to have worked well. The Penukonda Taluk Board is not in favour of appointing school or dispensary committees for the reasons already brought to the notice of Government in paragraphs 4 (*a*) and 39 of my report, dated 15th July 1894, No. 40, printed in G.O., No. 1790 L., dated 13th September 1894. The President of the Anantapur Taluk Board has not furnished information on the subject of school committee, as it did not commence work during the year under report. There were no dispensaries under the Anantapur Taluk Board.

The non-official members of the taluk boards were paid travelling allowance as follows:—

District Board.—Two annas per mile and double second-class fare by rail.

Gooty Taluk Board.—Two annas per mile by road and single second-class fare by rail.

Penukonda Taluk Board.—Two annas per mile by road and double second-class fare by rail.

Anantapur Taluk Board.—One rupee for every ten miles by road. The railway does not serve to members of this board.

7. *Panchayats.*—The unions continued the same as in 1893–94, and house-tax was levied in all of them at three-fourths the maximum rates. On the 31st March 1895 the total number of members on all panchayats was 117 against 121, the sanctioned strength. Of the 117 members, 39 held their seats ex-officio, being village headmen, and of the remainder, 10 were officials and 68 non-officials. The four vacancies were in the unions of Kalyandrug (one) and Dharmavaram (three). All these vacancies have since been filled up. The total number of meetings held by all the panchayats was 143 against 140 in the previous year. The number of meetings adjourned for want of a quorum was six as shown in the margin. No meetings were adjourned in the other unions for this reason. The largest number of meetings was held by the Uravakonda union, viz., sixteen followed by Tadpatri (fifteen) and Penukonda, Dharmavaram, Hindupur and Yadiki thirteen each. The remaining unions of Bakkapatnam, Kalyandrug, Madakasíra, Gooty and Pamidi complied with the provisions of the Act by holding twelve meetings in the year. The average attendance of the panchayats

Pamidi 2.	Penukonda 1.
Dharmavaram 2.	Uravakonda 1.

at each meeting was 5·8 (2·4 officials and 3·4 non-officials) against 5·2 (2·1 officials and 3·1 non-officials) in the preceding year. Of eleven panchayats, nine were presided over by Government officials (three Deputy Tahsildars and six Medical Subordinates) and the remaining two by non-officials.

8. *The working of Panchayats.*—The work of these bodies consisted for the most part in supervising conservancy and in the carrying out of sanitary arrangements in their villages. On the whole, the Chairmen and members of the panchayats are reported to have shown a fair amount of interest in carrying out the affairs of the unions. The President of the Gooty Taluk Board reports that the ward system of supervision was in force in all the unions, and that it worked fairly well in Tadpatri and Yadiki, and tolerably well in Uravakonda and Pamidi. The system was introduced in the Gooty union only in September 1894. The President of the Penukonda Taluk Board reports that the ward system of supervision was not in force in the year under report, but that steps will be taken for its introduction during the current year. There were no unions under the Anantapur Taluk Board. The private scavenging system continued to be in operation in the Tadpatri and Hindupur unions. It was not adopted in the other unions. In Tadpatri no scale of private scavenging fees was fixed. People offered to pay at rates ranging from one anna to eight annas according to the size of the household. The fees are collected in two half-yearly instalments by the union bill-collector, who gets an increase of a rupee to his pay on this account. Two additional toties were employed and paid out of the subscriptions raised, and the cleaning of the private latrines was done by these toties as well as by the former staff. There were 97 latrines against 87 in the previous year. In the Hindupur union there is no separate establishment for the purpose of cleaning private latrines. The work was done by the union toties. The number of latrines conserved was fifteen against twelve in the previous year. The scavenging fees in Hindupur town are collected at the rate of three annas per latrine per mensem without regard to the number of inmates. The work was supervised by the sanitary maistries and the latrines were cleaned twice a day.

9. *Receipts.*—The year opened with a balance of Rs. 50,148 as anticipated in the revised estimate. The total receipts of the year including the opening balance amounted to Rs. 1,66,688 against an estimate of Rs. 1,75,070 and Rs. 1,79,212, the actuals of the year 1893–94.

10. *Land-cess.*—This was levied at the usual rate of one anna per rupee. The actual collections of cess were Rs. 77,676 against the revised estimate of Rs. 86,000 and Rs. 1,12,823, the actuals of the previous year. The decrease of Rs. 8,324 is said to be due to short credits given to land-cess by the Tahsildars of the marginally-noted taluks, who have been instructed by the Collector of Anantapur to give proper credit to land-cess without delay so as to reduce the balances against those taluks.

Tadpatri.	Dharmavaram.
Hindupur.	Anantapur.

11. *Tolls.*—Statement No. V shows the statistics of tolls. There were during the year under report six toll-gates as in the preceding year. The revenue realized under this head was Rs. 4,128. Deducting from this Rs. 172 as detailed in the margin, the actual amount collected from the lessees of the tolls was Rs. 3,956 against the revised estimate of Rs. 4,560 and Rs. 4,083, the actuals of the previous year. The decrease is due to the non-realization within the official year of the outstanding arrear balance of Rs. 600 from the contractor of the Hindupur toll-gate who had made default in 1891–92. This arrear balance with costs awarded by the court amounting in all to Rs. 1,000–11–0 were, however, recovered from the contractor and credited to the treasury on the 4th April 1895. Half maximum rates were levied at all gates. No new gates were established during the year under report.

	Rs.	A.	P.
License fees	121	6	0
Fines imposed on toll contractors.	6	0	0
Excess collections to be refunded.	44	4	6
Total ..	171	10	6

(or 172 in round figures.)

The Anantapur Municipality contributed Rs. 620 as a local fund share of the tolls levied by it against Rs. 270 paid in the preceding year. The increase is accounted for by the fact that the four gates were sold separately instead of jointly as in the previous years.

12. *House-tax.*—The tax on houses was levied at three-fourths rates in all the eleven unions in the district. There were no unions in which house-tax was newly sanctioned and no unions in which house-tax was newly levied. From statement VIII it will be seen that the total demand under this tax, including arrears, was Rupees 12,214, of which Rs. 10,911 or 89·3 per cent. were realized against Rs. 11,162 or 78·6 per cent. in 1893–94. The decrease is due to short collections in the union of Dharmavaram (65·4). The collections were excellent in Gooty (100 per cent.) and good in the unions of Hindupur (98·2), Bukkapatnam (96·6), Madakasíra (95·4) Yadiki (95·2), Tadpatri (92·6), Uravakonda (91·7) and Pamidi (90·8); and fair in the unions of Kalyandrug (86·1) and Penukonda (84·4). The Penukonda Taluk Board has in its Resolution, No. 22, dated 9th March 1895, resolved to write off the amount embezzled by the late Chairman M.R.Ry. F. D. Pulliah Garu. The President of the said taluk board has been requested to obtain the sanction of Government for writing off the amount. The President of the Penukonda Taluk Board states that, considering the state of collections in the Dharmavaram union during the year under report, it can be said that the union has turned out better work than in any former year. During the year under report, Rs. 1,190 were collected against a demand of Rs. 1,819. The Chairman of this union, a hospital assistant, was transferred in the middle of the year, and he left a large amount of recoverable arrears uncollected. He was suspended in connection with a sessions case. To set matters right in this union the Tahsildar of Dharmavaram has been appointed Chairman of the union, as a special case. As the system of uniform rates has been introduced in all the unions under the Penukonda Taluk Board, it is believed that the entire dues will be collected in the current year.

Kalyandrug	25
Hindupur	60
Madakasira	..
Yadiki	43
Bukkapatnam	25
Total	513

From the statement showing the incidence of house-tax it will be seen that the total number of houses assessed was 23,085 and the current demand Rs. 10,414. The average incidence per house assessed to the tax was As. 7–3 against As 6–9 in 1893–94. Five hundred and thirteen houses were exempted from taxation under section 78 of the Act as detailed in the margin. In 3,622 cases distress warrants were issued involving Rs. 1,688 against 586 cases involving Rs. 251 in 1893–94. Property was distrained in 133 cases against 43 in 1893–94, and property was sold in 26 cases against 20 in 1893–94.

13. *School-fees.*—The receipts under this head amounted to Rs. 3,180 against the revised estimate of Rs. 4,070 and Rs. 3,244, the actuals of 1893–94, the decrease of Rs. 890 being the net result of an increase of Rs. 85 in the Gooty Taluk, owing to the increased strength in the salary-result schools at Konakondla and Pamidi, and a decrease of Rs. 940 and Rs. 35 in the Penukonda and Anantapur Taluks respectively. The following causes account for the decrease in the Penukonda and Anantapur Taluks:—

(1) Late opening of the secondary school at Dharmavaram.
(2) Do. of the salary-result school at Roddom.
(3) Reduction of school-fees in the secondary department of the schools under the Penukonda Taluk.

(4) The non-collection of fees in the Salary-result schools at Raptad and Bandamedipalli for eleven and two months, respectively, owing to the frequent absence of the teachers.

The teacher of the Raptad school was dismissed; and that of the Bandamedipalli, who was an acting and an uncertificated man, left the school without leave.

14. *Markets.*—During the year under report there were 24 markets in the district and the fee system was in force in 22 markets as in the previous year, and the right of collection in all of them was leased. The income thus derived amounted to Rs. 4,175 against Rs. 4,750, the revised estimate and Rs. 4,669, the actuals of 1893–94. The decrease is due to the low bids obtained for the markets under the Penukonda taluk board and to the non-payment of kists by the contractor of the Dharmavaram market, against whom a civil suit has been instituted by the taluk board.

15. *Bungalow Fees.*—Rs. 661 was realized against Rs. 800, the revised estimate and Rs. 296, the actuals of the year 1893–94. The decrease of Rs. 139 was due to the Deputy Superintendent of Revenue Settlement not having occupied the travellers' bungalow at Anantapur for the whole year, owing to his transfer to the Bellary district.

16. *Fishery Rents.*—The receipts under this head amounted to Rs. 1,974 against Rs. 2,190, the revised estimate and Rs. 1,603, the actuals of 1893–94. The decrease of Rs. 216 is explained to be due to want of water-supply to many of the big tanks under the Gooty taluk board.

17. *Sundry Receipts.*—The income under this head shows a considerable decline, being Rs. 367 against Rs. 730, the revised estimate and Rs. 743, the actuals of the previous year. The decrease is explained by the President of the Penukonda taluk board to be due to the short collections from the sale-proceeds of sweepings in the cart-stands in the unions of Dharmavaram, Penukonda and Hindupur. Traffic is now chiefly carried on by railway and few carts are coming to the cart-stands at the above places. Under the Gooty taluk board the right of collecting the sweepings and taking them away was let on contract. Rs. 367 shown above includes Rs. 6 credited to the district board, being the sale-proceeds of old records of the vaccine department.

18. *Contributions from Private Individuals.*—The amount collected under this head was Rs. 455 against Rs. 550, the revised estimate. This was collected from the inhabitants of the marginally-noted villages. The decrease of Rs. 95 was due to the non-payment of the contribution promised by the inhabitants of Hemavati (Rs. 90) and Nagalore (Rs. 5).

	Rs.
Roddom	100
Badali	150
Chilmatur	145
Kaki	60
Total	455

19. (*f*) *Miscellaneous.*—Rs. 936 shown under this head consists of the following items:—

	Rs.	A.	P.
(1) Part-payment of the amount contributed by the district board to the Anantapur Municipality for the construction of the Municipal High school-house	491	7	10
(2) Amount paid by the Revenue Department for supervising the repairs to the Tadpatri taluk cutcherry by the Local Fund Department	141	0	0
(3) Refund of imprest amounts by overseers	40	13	8
(4) Witness batta paid to the District Board engineer by Munsif Courts	8	12	0
(5) Rent of the Local Fund engineer's residence	191	9	10
(6) Sale of nursery ground by the overseer of Penukonda	54	8	0
(7) Cost awarded by the Munsif Court, Gooty, in a civil suit brought by a Local Fund contractor Shaik Sahib	7	14	0
Total	936	1	4

20. *Provincial Contribution.*—Rs. 1,986 were credited to this head against Rupees 2,880, the revised estimate and Rs. 2,611, the actuals of the previous year, on account of the Board Primary schools. The decrease of Rs. 894 is explained as follows:—

(1) Some of the schools under each board did not earn grants as estimated in the revised estimate.

The Anantapur Municipality contributed Rs. 620 as a local fund share of the tolls levied by it against Rs. 270 paid in the preceding year. The increase is accounted for by the fact that the four gates were sold separately instead of jointly as in the previous years.

12. *House-tax.*—The tax on houses was levied at three-fourths rates in all the eleven unions in the district. There were no unions in which house-tax was newly sanctioned and no unions in which house-tax was newly levied. From statement VIII it will be seen that the total demand under this tax, including arrears, was Rupees 12,214, of which Rs. 10,911 or 89·3 per cent. were realized against Rs. 11,162 or 78·6 per cent. in 1893–94. The decrease is due to short collections in the union of Dharmavaram (65·4). The collections were excellent in Gooty (100 per cent.) and good in the unions of Hindupur (98·2), Bukkapatnam (96·6), Madakasíra (95·4) Yadiki (95·2), Tadpatri (92·6), Uravakonda (91·7) and Pamidi (90·8); and fair in the unions of Kalyandrug (86·1) and Penukonda (84·4). The Penukonda Taluk Board has in its Resolution, No. 22, dated 9th March 1895, resolved to write off the amount embezzled by the late Chairman M.R.Ry. F. D. Pulliah Garu. The President of the said taluk board has been requested to obtain the sanction of Government for writing off the amount. The President of the Penukonda Taluk Board states that, considering the state of collections in the Dharmavaram union during the year under report, it can be said that the union has turned out better work than in any former year. During the year under report, Rs. 1,190 were collected against a demand of Rs. 1,819. The Chairman of this union, a hospital assistant, was transferred in the middle of the year, and he left a large amount of recoverable arrears uncollected. He was suspended in connection with a sessions case. To set matters right in this union the Tahsildar of Dharmavaram has been appointed Chairman of the union, as a special case. As the system of uniform rates has been introduced in all the unions under the Penukonda Taluk Board, it is believed that the entire dues will be collected in the current year.

From the statement showing the incidence of house-tax it will be seen that the total number of houses assessed was 23,085 and the current demand Rs. 10,414. The average incidence per house assessed to the tax was As. 7–3 against As 6–9 in 1893–94. Five hundred and thirteen houses were exempted from taxation under section 78 of the Act as detailed in the margin. In 3,622 cases distress warrants were issued involving Rs. 1,688 against 586 cases involving Rs. 251 in 1893–94. Property was distrained in 133 cases against 43 in 1893–94, and property was sold in 26 cases against 20 in 1893–94.

13. *School-fees.*—The receipts under this head amounted to Rs. 3,180 against the revised estimate of Rs. 4,070 and Rs. 3,244, the actuals of 1893–94, the decrease of Rs. 890 being the net result of an increase of Rs. 85 in the Gooty Taluk, owing to the increased strength in the salary-result schools at Konakondla and Pamidi, and a decrease of Rs. 940 and Rs. 35 in the Penukonda and Anantapur Taluks respectively. The following causes account for the decrease in the Penukonda and Anantapur Taluks:—

(1) Late opening of the secondary school at Dharmavaram.
(2) Do. of the salary-result school at Roddom.
(3) Reduction of school-fees in the secondary department of the schools under the Penukonda Taluk.
(4) The non-collection of fees in the Salary-result schools at Raptad and Bandamedipalli for eleven and two months, respectively, owing to the frequent absence of the teachers.

The teacher of the Raptad school was dismissed; and that of the Bandamedipalli, who was an acting and an uncertificated man, left the school without leave.

14. *Markets.*—During the year under report there were 24 markets in the district and the fee system was in force in 22 markets as in the previous year, and the right of collection in all of them was leased. The income thus derived amounted to Rs. 4,175 against Rs. 4,750, the revised estimate and Rs. 4,669, the actuals of 1893–94. The decrease is due to the low bids obtained for the markets under the Penukonda taluk board and to the non-payment of kists by the contractor of the Dharmavaram market, against whom a civil suit has been instituted by the taluk board.

15. *Bungalow Fees.*—Rs. 661 was realized against Rs. 800, the revised estimate and Rs. 296, the actuals of the year 1893–94. The decrease of Rs. 139 was due to the Deputy Superintendent of Revenue Settlement not having occupied the travellers' bungalow at Anantapur for the whole year, owing to his transfer to the Bellary district.

16. *Fishery Rents.*—The receipts under this head amounted to Rs. 1,974 against Rs. 2,190, the revised estimate and Rs. 1,603, the actuals of 1893–94. The decrease of Rs. 216 is explained to be due to want of water-supply to many of the big tanks under the Gooty taluk board.

17. *Sundry Receipts.*—The income under this head shows a considerable decline, being Rs. 367 against Rs. 730, the revised estimate and Rs. 743, the actuals of the previous year. The decrease is explained by the President of the Penukonda taluk board to be due to the short collections from the sale-proceeds of sweepings in the cart-stands in the unions of Dharmavaram, Penukonda and Hindupur. Traffic is now chiefly carried on by railway and few carts are coming to the cart-stands at the above places. Under the Gooty taluk board the right of collecting the sweepings and taking them away was let on contract. Rs. 367 shown above includes Rs. 6 credited to the district board, being the sale-proceeds of old records of the vaccine department.

18. *Contributions from Private Individuals.*—The amount collected under this head was Rs. 455 against Rs. 550, the revised estimate. This was collected from the inhabitants of the marginally-noted villages. The decrease of Rs. 95 was due to the non-payment of the contribution promised by the inhabitants of Hemavati (Rs. 90) and Nagalore (Rs. 5).

	Rs.
Roddom	100
Badali	150

Total ..	455

19. (*f*) *Miscellaneous.*—Rs. 936 shown under this head consists of the following items:—

	Rs.	A.	P.
(1) Part-payment of the amount contributed by the district board to the Anantapur Municipality for the construction of the Municipal High school-house	491	7	10
(2) Amount paid by the Revenue Department for supervising the repairs to the Tadpatri taluk cutcherry by the Local Fund Department	141	0	0
(3) Refund of imprest amounts by overseers	40	13	8
(4) Witness batta paid to the District Board engineer by Munsif Courts	8	12	0
(5) Rent of the Local Fund engineer's residente	191	9	10
(6) Sale of nursery ground by the overseer of Penukonda ..	54	8	0
(7) Cost awarded by the Munsif Court, Gooty, in a civil suit brought by a Local Fund contractor Shaik Sahib ..	7	14	0
Total ..	936	1	4

20. *Provincial Contribution.*—Rs. 1,986 were credited to this head against Rupees 2,880, the revised estimate and Rs. 2,611, the actuals of the previous year, on account of the Board Primary schools. The decrease of Rs. 894 is explained as follows:—

(1) Some of the schools under each board did not earn grants as estimated in the revised estimate.

(2) The salary-result school at Raptad and the Mala school at Atmakúr did not earn any grants.

21. *Expenditure.*—The total charges amounted to Rs. 1,41,380 against Rupees 1,45,090, the revised estimate and Rs. 1,29,064, the actuals of the previous year. Statement I B shows the total expenditure under the several grants as compared with the figures of the previous year. The decrease is due to short expenditure, especially under Grant I.

22. *Grant I, Public Works—New Works, Communications.*—An outlay of Rupees 3,823, viz. (Rs. 3,665 by Engineer and Rs. 158 by Presidents), was incurred as shown below :—

	Rs.
(*a*) Compensation paid for the lands taken up for constructing the feeder road from Alúr-Guntakal road to the limits of the railway station at Guntakal junction	89
(*b*) Constructing culvert on Singanamala-Garaladinna road	70

(*d*) Constructing $\frac{7}{8}$th mile of road from Hindupur to Hindupur Railway station	845
(*e*) Constructing a road from Bangalore High road to Penukonda Railway station	7
(*f*) Constructing $\frac{3}{8}$th mile of market feeder road to the west of Hindupur	437
(*g*) Constructing wing walls strengthening the culverts on Penukonda Railway station road	762
(*h*) Constructing a road from Damajipalli road to Nagasamudram Railway station	200
(*i*) Constructing a bridge on the Dharmavaram union road	69
Total ..	3,823

(*a*) The amount shown under this head was paid by the Gooty taluk board as compensation to the owners of the land taken up for constructing the feeder road from the Alúr-Guntakal road to the limits of the Guntakal Junction Railway station.

(*b & e*) The balances withheld from contractors' bills for work done in the previous year were paid during the year under report.

(*c*) Rs. 1,000 were first allotted by the Penukonda taluk board for the road, and when the work was taken in hand the allotment given was found quite inadequate. The taluk board sanctioned an additional allotment of Rs. 347 in their Resolution, No. 3, dated 10th November 1894. Thus the road was put in fair trafficable order on expenditure of Rs. 1,344 out of the allotment sanctioned.

(*d*) An estimate amounting to Rs. 845 was sanctioned for the road and the whole was utilized during the year under report.

(*f*) The Penukonda taluk board had sanctioned at the latter part of the year Rs. 1,000, of which only Rs. 437 were spent before 31st March 1895. The heavy unspent balance on this work was due to scarcity of labour in Hindupur.

(*g*) The sanctioned estimate of this work was Rs. 900, of which Rs. 762 was spent before the close of the official year. The unexpended balance of Rs. 138 was due to the late date at which the estimate was sanctioned by the taluk board and will be spent during the current year.

(*h*) Rs. 200 was provided for the work and the whole was spent.

(*i*) Rs. 69 was spent by the Chairman of the Dharmavaram union for the construction of a bridge on the railway feeder road.

23. *Original Works—Civil Buildings.*—A sum of Rs. 3,092 was expended on the following works :—

(1) *Constructing an animal vaccination shed at Anantapur.*—Rs. 950 was provided for the work in the revised estimate, of which Rs. 559 was spent before 31st March 1895. The unspent balance is due to the fact that the site for the building was not selected till 1st March 1895. The work has been since completed.

(2) *Jubilee Chattram.*—Rs. 530 was provided in the revised estimate for completing the Jubilee chattram at Tadpatri, but nothing was spent. The President of the Gooty taluk board reports that the Engineer failed to incur any expenditure

on this work although his attention was frequently drawn in the monthly reviews to the facts that the building was left incomplete and the materials exposed to the sun and rain were deteriorating. On the other hand, the District Board Engineer states that the fact of the provision being made in the revised estimate was communicated to him only in the latter part of February 1895 and that he was therefore unable to incur any expenditure.

(3) *Constructing a School-house at Singanamala.*—The deposit of Rs. 68–7–0 withheld from the contractor's bills for constructing a school-house at Singanamala was paid during the year under report.

(4) *Construction of School-houses at Nagalore and Chilmatur.*—These were completed during the year at a cost of Rs. 390 (Nagalore) and Rs. 387 (Chilmatur) against an estimate of Rs. 390 for each.

(5) *Constructing a Ward to the Hospital at Dharmavaram.*—Rs. 750 was provided in the revised estimate for payment to the contractor in the current year. The work was completed prior to 31st March 1894, which fact was brought to the notice of Government in paragraph 24 (*v*) of the annual report for 1893–94.

(6) *Constructing a School-house at Roddom.*—Rs. 800 was allotted by the Penukonda Taluk Board. Of this Rs. 618 was spent in the year. The non-expenditure of the balance is reported to have been due to the late date at which the estimate was sanctioned.

(7) *Constructing post-mortem Shed in the Dispensary at Dharmavaram.*—Rs. 192–8–0 is the moiety of the estimate contributed by the Penukonda Taluk Board from local funds.

(8) *Temporary Shed to the Hospital at Dharmavaram.*—Rs. 46 was sanctioned by the Penukonda Taluk Board for the construction of a shed as an out-house to the hospital at Dharmavaram, and the whole amount was expended during the year.

24. *Original Works—Miscellaneous Public Improvements.*—Rs. 1,580 was spent on the following :—

(1) *Construction of the Yadiki Market.*—The revised estimate for the work amounted to Rs. 1,113 and was sanctioned by the Gooty Taluk Board in its resolution, No. 4, dated 7th December 1894. Of this Rs. 563 was spent during the year in addition to Rs. 260–8–8 incurred in the year 1892–93. The short expenditure is due to the lateness of sanction of the estimate and to the contractor having supplied corrugated iron of wrong sizes which was rejected by the Engineer.

(2) *Constructing the Market at Uravakonda.*—Rs. 1,000 was allotted for the work by the Gooty Taluk Board, but only Rs. 553 was spent. The short expenditure is attributed by the District Board Engineer to the lateness of sanction of the estimate by the taluk board; while the President of the taluk board states that the Engineer submitted the estimate on the 5th November 1894, and the same was sanctioned by the taluk board at the next monthly meeting held on the 7th December 1894, and that it will thus be seen that the taluk board was not responsible for the late sanction of the estimate. Rs. 553 shown above includes Rs. 200 paid by the President of the Gooty Taluk Board to the owners of the land taken up for the Uravakonda market.

(3) *Constructing the Market at Pamidi.*—Rs. 127 was spent during the year and the work completed.

(4) *Construction of Pials to the Singanamal Market.*—Rs. 40 was spent on this work.

(5) *Construction of Market at Hindupur.*—The amount of the estimate as revised was Rs. 5,100, of which Rs. 1,859 was spent up to 31st March 1894. During the year under report Rs. 2,000 was provided in the budget, and only Rs. 190 was spent by the Penukonda Taluk Board. The Engineer reports that the large unspent balance is due to no contractor agreeing to take up the work as the rates were very low. He further states that the estimate is under revision.

(6) *Construction of a Market at Penukonda.*—Rs. 107-6-8 shown against this work represents the amount paid to contractor S. A. Razack Sahib on account of arrears due for former years' work.

25. *Repairs—Communications.*—The total expenditure incurred under this head amounted to Rs. 33,891 (viz., Rs. 32,864 by the Engineer and Rs. 1,027 by Presidents) against the revised estimate of Rs. 35,800. The decrease was chiefly due to the non-utilization of Rs. 1,300 sanctioned by the district board for repairing the road on the bund of Srikantapuram tank. The Executive Engineer, Bellary Division, has stated in his No. 1261, dated 30th October 1894, that the work will be carried out by the Public Works Department according to annexure to G.O., No. 609 I., dated 5th August 1891. The total length of the roads in charge of the local boards at the commencement of the year was 699 1/10 miles to which 10 1/2 miles of new village roads constructed and 4 1/2 1/0 miles of village roads repaired during the year were added, so that the total length of the roads was 714 3/8 miles, of which 680 7/8 miles were maintained during the year under report. Of the remaining 33 1/2 miles, 23 miles were not maintained for want of provision in the budget, and the rest represents the length of roads newly constructed as aforesaid. Of the total length, 320 miles appertains to the district and 307 7/8 to the taluks and the remaining 86 1/2 miles are village roads. The last item includes 10 1/2 miles of village roads newly constructed. The variations in the village and taluk roads from the figures entered in the last year's Statement IV-A is due to the classification of the village and taluk roads made by the new Engineer as per G.O., No. 812, dated 30th April 1888. The increase of 68 miles in the district roads is due to the transfer of 68 miles of the Kodikonda-Madakasíra road from the control of the Penukonda taluk board to that of the district board. The annual grants ranged from Rs. 8 to Rs. 125 per mile, while the average cost of each mile maintained was Rs. 48 against Rs. 37 in the previous year. The expenditure was mainly incurred in spreading materials collected in previous years, constructing road dams, digging side-drains and renewing the worst portions of roads. The general condition of the roads in the district is, on the whole, fair.

26. *Civil Buildings—Repairs.*—The expenditure for "Repairs—Civil Buildings" amounted to Rs. 3,035 (Rs. 2,856 by the Engineer and Rs. 179 by Presidents), against the revised estimate of Rs. 3,460, and Rs. 1,548, actuals of 1893-94. The unexpended balance of Rs. 425 was due to the late date at which the estimates for repairing the dispensaries at Dharmavaram and Uravakonda were sanctioned. Statement III shows the works on which Rs. 3,035 were incurred.

27. *Repairs—Miscellaneous Public Improvements.*—Rs. 1,960 (Rs. 1,719 by the Engineer and Rs. 241 by Presidents) was spent for maintaining the existing avenues and on the following works :—

	Rs.	A.	P.
Maintenance of existing avenues	1,405	12	0
,, ,, markets	395	11	3
Repairing dasabandam well at Bramhasamudram	158	0	0
Total ..	1,959	7	3

Avenues.—There was no provision in the budget for 1894-95 for planting avenues. The number of trees at the beginning of the year under report was 37,784, and 331 trees were newly planted in place of those that died. There was no extension of avenues during the year. The condition of the existing avenues is reported to be satisfactory considering the small amount spent upon them.

28. *Local Fund Engineering Establishment.*—The cost of the Engineering establishment including contingencies amounted to Rs. 10,900, or 24·1 per cent. of the total outlay on works, against 34·3 per cent. in the year 1893-94.

29. *Grant II.*—The total expenditure on education amounted to Rs. 24,798, against an estimate of Rs. 26,000, and Rs. 26,707, the actuals of the year 1893-94.

	Rs.
(*a*) Inspection	1,598
(*b*) Sessional schools	765
(*c*) Secondary ,, ...	1,367
(*d*) Primary schools	15,533
(*e*) Grant-in-aid	5,014
Miscellaneous grants	521

30. *Inspection.*—Educational operations were supervised by two Sub-Assistant Inspectors assisted by four inspecting schoolmasters as in the previous year. The total expenditure was Rs. 1,598, against an estimate of Rs. 1,860, and Rs. 1,739, the actuals of the previous year. The decrease under the estimate is due to the inspecting schoolmastership of the Penukonda sub-range having been vacant from July to December 1894. Statement E shows the work of the inspecting schoolmasters in the district.

31. *Sessional Schools.*—Four schools of this class were maintained for about three months each in the places named in the margin, against three schools in the year 1893-94. The number of students trained in the four schools was 37, including four free students. Of this number, 32 appeared for the Primary examination and 21 of them secured certificates. The cost of maintaining these schools amounted to Rs. 765 against Rs. 432 in the previous year. Three schools, held at Kalyandrug, Uravakonda and Yadiki, were in charge of an untrained matriculate, C. Sundra Aiyar, and the one in Gudibunda in charge of the inspecting schoolmaster of the Hindupur sub-range owing to C. Sundra Aiyar's ignorance of the Canarese language.

Kalyandrug.	Uravakonda.
Gudibunda.	Yadiki.

32. *Secondary Schools.*—There were two such schools on the 31st March 1895—one at Penukonda and the other at Dharmavaram. The secondary school at Dharmavaram was opened on the 1st February 1895. On the 31st March 1895, there were 81 boys in both the schools against 66 boys in the Penukonda school only in the previous year. The results of the examination of the Penukonda school were unsatisfactory. Nine candidates appeared and none passed. The Dharmavaram school was opened only in February 1895. The taluk board passed a resolution granting one year's trial for the Penukonda secondary school before transferring it to the salary-results system. A sum of Rs. 1,367 was spent on the two schools. The net cost to local funds for the Penukonda school was Rs. 286-3-3, and the net cost per pupil in the lower secondary department was Rs. 8-10-9. At the Dharmavaram school there was a profit of Rs. 3-0-1 to local board over the expenditure incurred on the school.

33. *Board Primary Schools.*—On the 31st March 1895, there were 58 schools against 55 schools in the year 1893-94. All the schools were worked on the salary-results system. On the 31st March 1895 there was a total strength of 2,055 boys and 271 girls against 2,094 boys and 256 girls in 1894. The total expenditure on these schools amounted to Rs. 15,533 against Rs. 17,590 in 1893-94. The net cost of maintaining these schools was Rs. 11,394, and the average net cost per pupil in the upper primary department was Rs. 14-1-10, and in the lower primary department Rs. 3-13-6. The decrease was due to the following :—

(1) Closing of Pairur school from May 1894.
(2) Late opening of Roddom school in 1894.
(3) Savings effected under contingencies.
(4) The teachers of the schools at Narapala, Padamatiyaleru, Kudair and Kundakur did not draw their pay for February 1895 until after the close of the year.
(5) The teachers of the schools at Raptad and Bandamidipalli did not draw their pay for 8 and 2 months respectively (*vide* paragraph 13 (4) *supra*).
(6) The posts of certain teachers in the salary-result schools at Tadpatri, Urayakonda, Pamidi and Yellanur schools were vacant for some months during the year.

Night classes were held in sixteen salary-result schools against fifteen in the previous year.

34. *Grant-in-aid Results.*—On the 31st March 1895 there were 204 schools aided from local funds with 3,928 pupils, against 165 schools with 3,595 pupils in the previous year, while the number of pupils examined was 3,226 against 3,151. Of these, 2,326 passed against 2,520 in the previous year, and the amount of grants paid during the year was Rs. 5,014 against Rs. 5,311. The grants were paid at full rates during the year.

35. *General Progress of Education.*—The progress of education was, on the whole, good. The number of board primary schools rose from 55 to 58. The number of aided schools also showed an increase from 165 to 204. Night schools were open in sixteen schools against fifteen in the previous year. The percentage of the number of pupils in the board and aided schools to the school-going population was 5·9 and to the school-going male population 11·6.

36. *Grant III, Medical—Sanitation—Hospitals and Dispensaries.*—Statement No. XII affords the statistics relating to the hospitals and dispensaries maintained by local boards in the district. The number of these remained unchanged, *viz.*, four hospitals (Tadpatri, Gooty, Penukonda and Hindupur) and six dispensaries (Dharmavaram, Kalyandrug, Uravakonda, Bukkapatnam, Madakasíra and Pamidi). The total number of patients treated in the hospitals and dispensaries was 50,589 (243 in-patients and 50,346 out-patients) against 48,054 (229 in-patients and 47,825 out-patients) of the previous year, showing an increase of fourteen in-patients and of 2,521 out-patients. This steady increase is a sign of the growing popularity of these institutions and appreciation of western methods of treatment. The total number of patients amounted to 7·2 per cent. of the population against 6·8 per cent. in the previous year. The total expenditure on the maintenance of hospitals and dispensaries, excluding the cost of midwives and midwifery pupils, District Medical and Sanitary Officer's establishment and travelling allowance paid to medical subordinates, was Rs. 13,082 against Rs. 11,755, the actuals of 1893–94. The increase is partly due to the payment of arrears of pay to the Dharmavaram hospital assistant and to the raising of the salary of the Hindupur hospital assistant owing to his promotion from second to first class. The average cost of treating an in and out patient also was Rs. 1–7–0 and As. 1–1, respectively, against Rs. 1–5–4 and anna 1 in 1893–94.

37. *Midwives.*—On the 31st March 1895 there were five midwives attached to the marginally-noted institutions against four on the corresponding date last year. The midwife of the Dharmavaram dispensary joined on the 18th March 1895. The total number of cases attended by the midwives was 204 against 174 in the previous year as noted in the margin. All showed an increase of work as compared with last year. The midwives at Penukonda, Hindupur and Dharmavaram are paid Rs. 15 per month irrespective of results, and those at Gooty and Tadpatri are paid each Rs. 7 per mensem *plus* Rs. 1–8–0 for each successful case attended by them provided that the total amount does not exceed Rs. 15 per mensem. Mary Abraham, who was sent in March 1894 for training at the Lying-in Hospital, Madras, passed in Midwifery. The cost of maintaining the five midwives amounted to Rs. 662 against Rs. 656 in the year 1893–94. The average cost per case treated was Rupees 3–3–11 against Rs. 3–12–4 in the previous year. The cost of training Mary Abraham in the Lying-in Hospital, Madras, amounted to Rs. 93.

Gooty	1

Penukonda	1
Hindupur	1
Dharmavaram	1

	1893–94.	1894–95.
Tadpatri	64	68
Gooty	30	36
Penukonda	33	39
Hindupur	47	58
Dharmavaram	..	3
Total ..	174	204

38. *Vaccination.*—The number of ranges in the district was two, and the vaccine staff continued to be the same as in the previous year. The total expenditure amounted to Rs. 6,175 against Rs. 6,570, the revised estimate and Rs. 5,575, the actuals of the previous year. The average cost of each successful case was As. 5–6 against As. 4–9 in the year 1893–94. Animal vaccination was in force in the district throughout the year, and the number of calves inoculated during the year for vaccine purposes was 159 against 149 in the previous year. The total number of cases vaccinated during the year was 19,287, of which 17,964, or 93·14 per cent., were successful, against 19,710 with 18,945 successful in 1893–94, showing a decrease of 423 cases. All the cases vaccinated during the year were with animal lymph.

39. *Infantile Vaccination.*—The number of children vaccinated under one year of age was 6,215, or nearly 30·1 per cent. of the registered births (20,630). Of these 5,877 cases were successful, against 5,757 with 5,571 successful in 1893–94.

40. *Medical Subordinates* vaccinated 303 cases, of which 289 were successful, against 539 with 458 successful in the previous year. Ninety-one children under one year old were vaccinated by medical subordinates; 88 of these cases were successful. The methods of vaccination adopted in the total number (303) of cases were as follows —seven cases were vaccinated with fresh animal lymph (calf to arm), 246 with preserved animal lymph, and 50 with glycerine paste.

41. *Sanitation.*—Rs. 13,413 was spent under all heads of sanitation, against Rs. 14,750, the revised estimate, and Rs. 12,616, the actuals of the previous year. The decrease was mainly due to short expenditure especially under "Improvement of water-supply" and "other sanitary outlay." No sanitary work of importance was undertaken during the year. Statement XIV furnishes details. No new wells were sunk; twenty-nine existing sources of water-supply were repaired; fifteen watchers were employed to guard drinking-water sources from pollution; 79 village-sites were improved, including eight in which removal of prickly-pear and rank vegetation was undertaken; eleven unions and six other villages were conserved during the year. In the unions the establishments were supervised by the Chairman and in non-union villages by the village reddies. Sanitary arrangements such as the entertainment of scavengers and construction of temporary latrines were made in twelve villages on occasions of fairs and festivals.

42. *Village Sanitation.*—The District Medical and Sanitary Officer visited union kasbas and certain other villages and brought the defects to the notice of the local boards. The President of the Gooty Taluk Board reports that the defects were remedied as far as funds permitted, while the President of the Penukonda Taluk Board states that the sanitation of union towns was in a very backward state, and that there were no funds with the unions or taluk boards to remedy all the defects pointed out by the District Medical and Sanitary Officer. Further information is given in the report of the District Medical and Sanitary Officer, which is herewith submitted.

43. *Markets.*—The amount spent on markets as per Statement VI was Rs. 6,525, of which Rs. 4,273 was spent on public works, and Rs. 550 was allotted by the Penukonda Taluk Board for other purposes such as water-supply, and out of the remainder, Rs. 1,533 was spent on establishment and Rs. 169 for contingent charges.

44. *Choultries.*—Statement XI shows the number of choultries that were under the control of local boards. The Munro choultry is the only endowed choultry in the district. The total cost, excluding the cost, of public works, of maintaining these choultries amounted to Rs. 816 against Rs. 910, the revised estimate. The decrease is mainly due to the non-entertainment of watchers sanctioned for the chattrams at Malyavantam and Lapatchi.

45. *Bungalows.*—The cost of the upkeep of the bungalows amounted to Rs. 299 against Rs. 250, the revised estimate, and Rs. 215, the actuals of the year 1893–94. Of this Rs. 205 was spent on establishment and contingencies, and Rs. 94 on repair of certain buildings. The President of the Penukonda Taluk Board reports that the bungalow at Chermakothapalli is in need of repairs, that an estimate has been prepared and that the repairs will be carried out in the current year, and that the Palasamudram bungalow is in a fairly good order. The President of the Anantapur Taluk Board has not furnished any information on the condition of the bungalows under the Anantapur Taluk Board. The Gooty Taluk Board President says that the

bungalows at Gooty and Tadpatri are in a fair condition, but that the one in Ráyalcheruvu is in need of repairs and promises to have them carried out in the current year.

46. *Miscellaneous—Lighting Charges.*—Out of Rs. 1,655 shown under this item, only Rs. 1,634 was incurred for lighting charges against Rs. 926 in the previous year. There were 96 lights in the beginning of the year. Thirty-two new lights—Tadpatri (6), Gooty (16), Penukonda (5), and Dharmavaram (5)—were put up. Thus at the close of the year there were 128 lights as detailed below :—

Tadpatri	20
Gooty	24
Penukonda	26
Madakasíra	23
Hindupur	30
Dharmavaram	5
Total ..	128

47. *Grant IV.*—The total expenditure under this grant amounted to Rs. 13,277 against an estimate of Rs. 13,800. The decrease of Rs. 523 is due to savings under different heads, which are explained in Statement I-B.

Enclosure.

Administration Report on the working of the Local Fund Hospitals and Dispensaries of the Anantapur District for the official year 1894–95.

Public Health.—(1) The average rainfall for the whole district was less than the previous year. Most of the tanks in the district did not receive full supply owing to the insufficiency of rain, and the agricultural produce was not satisfactory. There has not been any appreciable increase in the prices of food-grains during the year, probably owing to the opening of the railway and easy communication with other districts. The people in Penukonda town have suffered from want of water, as many of the wells have run dry.

(2) *Cholera* prevailed in the district in an epidemic form, more so in some villages. The disease was first imported from Ankireddipalli in the Kurnool district, where it was then said to be prevalent, in April 1894 to the Tadpatri taluk. All necessary precautionary measures were taken to prevent the spread of the disease by means of fumigation of the town, &c. The disease then appeared in Tadpatri town on the 27th May 1894 in a mild form. Again it appeared on the 8th August 1894 in a virulent type. I found it difficult to trace the source from where the epidemic was imported on the second occasion. I am of opinion that it must have been imported from the Kurnool district as the disease was then prevalent in some of the bordering villages of the Tadpatri taluk. The disease gradually made its way to Anantapur taluk. The villages of Singanamala and Bandamidipalli suffered most. The disease then made its appearance in the Gooty and Dharmavaram taluks in a mild form. The taluks of Anantapur and Tadpatri suffered most. The taluks of Penukonda, Hindupur and Madakasíra were free from this epidemic. There were altogether 1,460 attacks with 720 deaths in the whole district, excluding Anantapur municipal town, during the year under report. The hospital assistants in charge of the medical institutions and reserve medical subordinates were deputed to some of the villages to attend to the sanitation and to distribute medicines. All necessary precautions to stamp out the disease were duly carried out, such as disinfection of villages and towns by burning sulphur and tar, disinfection and destruction of ejected matters, disinfection of clothes, and water-supply was guarded against pollution. Special dhobies and toties were also entertained for the purpose. Medicines were also sent to the village heads with instructions to distribute them. The following instructions were also issued to the medical officers who were deputed on cholera duty :—To advise people to drink water after it was boiled ; watchmen should be appointed for all the drinking-water wells to prevent pollution ;

the excreta disinfected, put in a quantity of straw and burnt or buried, after admixture with solid disinfectants, far from the drinking-water supply ; people advised not to eat over-ripe and rotten fruits and prevent the sale of such in the market ; if any market people showed signs of the disease, to have them segregated and their excreta disinfected. The Presidents of taluk boards have, with great alacrity, readily carried out the suggestions made by me from time to time regarding this epidemic. The sanitary condition of towns and villages was properly looked after.

(3) *Small-pox* was also prevalent in the whole district during the year under review and 125 persons succumbed against 190 in the previous year. The correct number of attacks from this disease cannot be given, as information has not been regularly supplied. On receipt of information from the Tahsildars and Deputy Tahsildars that small-pox was prevalent, orders were issued to the vaccinators, through the Deputy Inspectors of Vaccination, to vaccinate all unprotected children, and Tahsildars and Deputy Tahsildars were requested to issue orders to the village officers to assist vaccinators in vaccinating the unprotected children.

(4) *Fevers* were prevalent and 2,023 deaths occurred during the year under report against 2,652 in the previous year. The number of deaths in the months of April and May was larger, viz., 313 and 228, respectively, and the smallest in February (116).

2. *Vital Statistics.*—The total number of births and deaths registered during the year was 20,630 and 12,058, respectively, against 19,320 births and 12,728 deaths in the previous year. The statistics cannot be said to be correct, as I found on my inspection of villages and towns that some cases of births were not found in the registers kept by the village officers in some towns and villages and this state of things will continue until this important duty is relegated to the hard-worked village officials. I suggest that registration be made compulsory in union towns and registrars' work could be easily performed by the union clerks.

3. *Sanitation.*—(1) The District Medical and Sanitary Officer, Anantapur, inspected Gooty and Tadpatri hospitals and Pamidi dispensary twice, and the rest only once during the year under report. In all 72 towns and villages were inspected and reported on by me against 38 in the previous year. This increase is accounted for by the district having been in charge of a District Medical and Sanitary Officer throughout the year.

(2) *Sanitation of Union Towns and Conserved Villages.*—There are eleven union towns in the whole district. Gooty, Tadpatri, Yadiki and Pamidi were inspected twice, and the rest only once, during the year. The sanitation of the union towns is day by day better looked after under the energetic Chairmen—in majority of cases medical officers and in other cases intelligent officials. Rubbish and filth are removed outside the towns except in the case of Kalyandrug, where they are thrown in the existing hollows in the town itself, which is quite objectionable. No steps have been taken as yet to remedy the same, although this defect has been pointed out more than once. There are no sufficient number of latrines. The existing latrines are only mere open enclosures without seats. The contents of these are generally removed to a distance and buried in pits dug for the purpose. At Bukkapatnam and Madakasíra the night-soil is thrown in convenient places. Male population resort more to fields than to the latrines. Dry-earth system is not in force. I have suggested in the individual reports that iron buckets with covers should be substituted in lieu of baskets for the removal of excreta and to advise the public to use the excreta as manure for the fields. Small streets, open spaces and corners are not properly attended to, and ruined houses in some towns are used as latrines. Water-supply is obtained from wells, tanks and river and is generally much contaminated by men and animals in some cases, although watchmen have been appointed to prevent pollution. Rubbish heaps are also stored along some of the rivers and channels and people commit nuisance in and around them. In a few cases the dead bodies are buried and burnt in the beds of rivers and very near the source of drinking-water supply. There is no proper system of drainage in any of the towns. The main streets have side cuttings or rough drains to carry away rain water. In some towns, people are allowed to construct pials on the side channels, which, I think, is very objectionable on sanitary grounds and this makes the channels difficult of access for cleaning. Nearly all houses in towns have covered cesspools. These are seldom cleaned and they are not

built of impermeable material. The following suggestions have been made in the individual sanitary reports:—Proper attention should be paid to the cleanliness of lanes and open spaces. More latrines, sweepers and toties are required. Slaughter-houses should be constructed. Iron buckets with covers should be purchased for the removal of night-soil. Burial of dead bodies in the rivers and tanks should be prohibited. More dust-bins should be purchased. Ruined houses should be pulled down and places kept clean. Iron night-soil carts should be purchased. Proper care should be taken regarding the preservation of drinking-water supply. Night-soil should be removed outside the town and buried in pits dug for the purpose. Castor-oil factory existing in the town of Dharmavaram should be removed. Provision should be made for the erection of covered latrines. The vegetation growing round the wells should be removed. Cesspools should be cleaned regularly.

(3) *Sanitation of non-conserved Villages.*—During the year under report, 35 villages were inspected and the sanitary condition of these is far from satisfactory and this will always remain a vexed question. The villages are never swept. Heaps of rubbish and manure are stored in every convenient place of the village, and how could it be otherwise till the conservative ryot values the ordure as giving fuel for cooking his food and the only manure for his fields till he may be taught something better. The cattle are his only precious possessions and they share his house with him, because he can look after them at night and the ordure remains in the house or yard till required. Open spaces, corners and outskirts are used as latrines. No attention is paid to the drinking-water supply and cattle are tied close to wells in some cases. Burial-grounds are situated close to the village and they are not enclosed. As predicted in my last report, Nemesis did unfortunately overtake some villages for sinning against sanitation; every effort was put forward then for a general cleaning up, but soon the old state of things has re-asserted itself and will perhaps continue till the prevalence of a future epidemic.

4. *Vaccination*—(1) *By the Medical Subordinates.*—The number vaccinated by these during the year was 303, of which 289 cases were successful, against 539 vaccinated with 458 successful in the previous year. Of the cases vaccinated, 91 were under one year of age, of which 88 cases were successful. Out of the 303 cases vaccinated, seven cases were performed with fresh animal lymph (calf to arm), 246 cases with preserved animal lymph, and 50 with glycerine paste.

(2) *By the Vaccination Department.*—Vaccination continues to be very backward in this district. The district is divided into two ranges with two Deputy Inspectors, *viz.*, Anantapur and Penukonda. There are altogether seventeen vaccinators serving in this district. The minimum of cases required from each vaccinator varies according to rank and taluk. The total number vaccinated during the year was 19,287, of which 17,964, or 93·14 per cent., were successful, against 19,710 vaccinated with 18,945 successful in the previous year, thus showing a decrease of 423 cases in the number vaccinated. This decrease is attributable to the less interest taken by some Tahsildars and Deputy Tahsildars in the year under report than in the previous year. Strict circulars were issued by the President, District Board, to all Tahsildars and Deputy Tahsildars in the district to render all assistance to the vaccinators and all efforts used to promote vaccination, but little could be done among a populace averse to vaccination who resort to all sorts of devices to frustrate the efforts from assaulting the vaccinators to wiping off the lymph after the operation, and this will continue until vaccination is made compulsory, and of this I speak from personal experience during my inspections. The total number of births registered during the year, excluding the Anantapur Municipality, was 20,630, of which 6,215 cases were vaccinated under one year of age with 5,877 successful. The average cost of each successful case during the year under review was As. $5\frac{1}{2}$ against As. $4\frac{3}{4}$ in the previous year. The increase of 9 pies is partly due to the payment of Rs. 308 of extra remuneration of last year in the year under report, partly to the purchase of articles for the vaccine depôt and partly to the supply of A, B and C printed forms for the use of Deputy Inspectors and vaccinators as suggested by the Inspector of Vaccination and Deputy Sanitary Commissioner, Madras. The number of calves inoculated during the year was 159 against 149 in the previous year. Vaccinators in this district are unable to do operations without the assistance of the Revenue officials,

which shows that the men appointed as vaccinators are not as efficient as they should be. If they are removed it is very difficult to get others in their stead and so they are retained whether they turn out proper work or not. Animal vaccination was in force throughout the year and all cases were done by the animal lymph alone. The system of giving rewards was also in force during the year and Rs. 417-2-0 were paid including the amount of last year due to the vaccinators. The vaccination depôt was not opened in the year under review as proposed in the budget for want of the building. The building was completed and handed over on the 12th May 1895 and the depôt established from the 21st idem. 12,028 cases were verified by the Deputy Inspectors of Vaccination during the year against 10,635 in the previous year, 2,022 cases were verified by me during my tours of inspection and 799 cases were vaccinated during my visits.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of Accommodation.*—The hospitals at Gooty, Tadpatri and Penukonda are specially built for the purpose and they have sufficient accommodation to treat both in and out patients. The dispensaries of Uravakonda, Kalyandrug and Dharmavaram are also specially built. The hospital at Hindupur and dispensaries of Madakasíra, Bukkapatnam and Pamidi are located in the rented buildings. They are situated in the heart of the towns and ill-ventilated and are not at all suitable for the purpose intended for. I strongly suggest that a special building for the hospital at Hindupur should be provided at an early date as it is an in-patient hospital. Wards are not as yet complete for the dispensary at Dharmavaram and therefore no in-patients were treated during the year although provision was made in the budget.

(*b*) *State of repair of Buildings.*—The hospital of Tadpatri and dispensaries of Dharmavaram and Kalyandrug are in good repair. The hospital at Gooty leaks and is in need of repair. The hospital at Penukonda also requires repair, as it leaks in several places though it was repaired at the end of the year 1893-94. The dispensary at Uravakonda is under repair.

(*c*) *State of repair of Furniture.*—The furniture of Gooty and Penukonda hospitals requires some repairs and the rest are in good condition.

(*d*) *Number of Patients treated as compared with previous years.*—The number of hospitals and dispensaries continued to be the same as in the previous year, viz., four hospitals (Tadpatri, Gooty, Penukonda and Hindupur) and six dispensaries (Dharmavaram, Kalyandrug, Uravakonda, Bukkapatnam, Madakasíra and Pamidi). The total number treated during the year under report in all the hospitals and dispensaries was 243 in and 50,346 out patients against 229 in and 47,825 out patients in the previous year, thus showing an increase of 14 in and 2,521 out patients more than the previous year. A statement showing the daily average attendance and the total number treated at each hospital or dispensary for a period of five years, inclusive of the year under report, is herewith attached. From the statement it will be observed that with the exception of Tadpatri hospital, Dharmavaram and Bukkapatnam dispensaries, all others show an appreciable increase over that of the previous year. The decrease under in-patients in the Tadpatri hospital is due to the absence of the hospital assistant on duty for 22 days, and the decrease under out-patients is due to the prevalence of cholera in the Tadpatri town for about four months, which prevented the people from resorting to treatment from the surrounding villages. The decrease under out-patients in the Dharmavaram dispensary is due to change of hospital assistants and the decrease in Bukkapatnam dispensary is due to the less number of admissions under malarial fevers owing to the tank not having received a large supply. The most common diseases treated during the year were malarial fevers, catarrhal ophthalmia, diseases of digestive and respiratory system, rheumatic affections, ulcers, skin diseases and local injuries.

(*e*) *Mortality and actual causes of it.*—There were altogether twelve deaths among in-patients during the year from the following causes:—

Ulcers	2	Dysentery	1
Ascitis	1	Diarrhœa	1
Paralysis	2	Anasarca	1
Dropsy	1	Valvular disease of the heart	1
Local injury	1	Chronic bronchitis	1

(*f*) *Operations and Results.*—The number of operations performed during the year was 39 major and 1,571 minor against 25 major and 1,410 minor in the preceding year. In the Tadpatri hospital 18 major operations were performed during the year. The people are very averse to surgical treatment and therefore it is difficult to show more operations in this district. Want of sufficient accommodation and instruments also contribute to some extent to this state.

(*g*) *Establishment, whether sufficient and efficient.*—The present establishment existing in all the hospitals and dispensaries is sufficient. It is very difficult to get trained compounders whenever vacancies occur. All the compounders in the district are untrained men, but some have fair knowledge of compounding.

(*h*) *Midwives.*—There were five midwives on the 31st March 1895 against four in the previous year. The midwife at Dharmavaram joined on the 18th March 1895. The total number of cases conducted during the year was 204 against 174 in the previous year. The following table shows the number of cases conducted by the midwives for the last five years :—

Years.	Number of cases conducted.
1890–91	163
1891–92	161
1892–93	138
1893–94	174
1894–95	204

The following shows the number of cases conducted by each midwife during the years 1893–94 and 1894–95 :—

	1893–94.	1894–95.
Gooty	30	36
Tadpatri	64	68
Penukonda	33	39
Hindupur	47	58
Dharmavaram	..	3
Total ..	174	204

Tadpatri and Hindupur showed good results. Penukonda midwife was transferred to Dharmavaram as she was not popular and the new midwife was sent to Penukonda. On receipt of G.O., No. 1790 L., Local and Municipal, dated 13th September 1894, strict orders were issued to the hospital assistants that the midwives should be warned to show better work in future. The people of this district do not avail themselves of the services of these women, but generally they employ barber women. Only in difficult cases the services of midwives are sought for. The midwives of Gooty and Tadpatri are paid at Rs. 7 per month and an extra remuneration of Rs. 1–8–0 for each case they conduct up to a maximum amount of Rs. 15. The midwives at Hindupur, Penukonda and Dharmavaram are paid at Rs. 15 per month irrespective of results.

(*i*) There is no accommodation provided in any hospital or dispensary in this district for caste and gosha women.

(*j*) *General Remarks.*—The poverty of the district precludes the undertaking of improvement in sanitary defects.

Anantapur,
10*th June* 1895.

(Signed) H. M. HAKIM, Surgeon-Major,
District Medical and Sanitary Officer.

2. Local Boards and Union Panchayats-

The local boards held a sufficient number of meetings and the attendance of members was fair, except in the case of the officials on the District Board. There were again eleven union panchayats. ~~at work as in the preceding years.~~ They held a sufficient number of times, ~~All of them met not less than once a month,~~ and the attendance ~~at their meeting~~ was fair, ~~the average~~ being on an average six members out of a total strength of eleven. Notwithstanding the remark in para: 2 of G.O. dated 13th September 1894 No. 1790 L, the number of official members on the Bukkapatnam panchayat exceeded that of the non-officials; no further time should be lost in altering ~~correcting~~ the proportions. ~~of the official element~~. The ward system of supervision, which was in force ~~adopted~~ in the five unions under the Gooty Taluk Board is reported to have worked with moderate success in four

four of them. The private scavenging system appears to have continued to work fairly well in the Hindupur and Tadpatri unions. The ~~members of the~~ Taluk Boards and union panchayats are reported to have generally evinced interest in their ~~work~~ affairs under their charge.

3. Receipts - (1) The collections under Sundries amounted to only Rs 77,676 or 84·5 per cents of the demand against Rs 111,958 or 95 per cent. in the previous year, the decrease being ~~due~~ ascribed to the ~~absence~~ existence of ~~large~~ fever arrears ~~as~~ than in that year and to short credits to this head in the accounts of the year under review.

(2) There was a further ~~falling off~~ decline in the current demand under tolls which amounted to Rs 3,956 against Rs 4,049 in the previous year, ~~but~~ the whole of this sum was collected within the year.

(3) House-tax was levied at three-fourths of the maximum rates in all the eleven unions in the District and the collections under this head amounted to Rs 10911 or 89 per cent. of the demand against Rs 11162 or 79 per cent. in 1893-94. The current collections were excellent in Gooty where the whole of the demand was realised without resorting to coercive measures and fair in the rest. ~~But~~ As much as thirty six per cent. of the total arrear demand of Rs 1,800 was however left uncollected and there were old arrears dating from 1887-88. This is very unsatisfactory and the Presidents of the Taluk Boards concerned should see that these amounts if irrecoverable are realized, or written off the accounts, without further delay. Distress warrants were issued in 3622 cases for the collection of Rs 1,688, but property was sold in only 26 cases for Rs 10.

(4) Fees continued to be levied in twenty two markets as in the previous

four of them. The private scavenging system appears to have continued to work fairly well in the Hindupur and Tadpatri unions. The members of the Taluk Boards and union panchayats are reported to have generally evinced interest in their affairs under their charge.

3. Receipts. (1) The collections under Land cess amounted to only Rs 77,676 or 84·5 per cent. of the demand against Rs 111,958 or 95 per cent. in the previous year, the decrease being due to the existence of fever arrears to a less extent than in that year and to short credits to this head in the accounts of the year under review.

(2) There was a further decline in the current demand under tolls which amounted to Rs 3,956 against Rs 4,049 in the previous year, but the whole of this sum was collected within the year.

(3) House-tax was levied at three-fourths of the maximum rates in all the eleven unions in the district and the collections under this head amounted to Rs 1091 1 or 89 per cent. of the demand against Rs 1,162 or 79 per cent. in 1893-94. The current collections were excellent in Gooty where the whole of the demand was realised without resorting to coercive measures and fair in the rest. But do much as thirty six per cent. of the total arrear demand of Rs 1,800 was however left uncollected and there were old arrears dating from 1887-88. This is unsatisfactory and the Presidents of the Taluk Boards concerned should see that these amounts if irrecoverable are realized, or written off the accounts, without further delay. Distress warrants were issued in 3622 cases for the collection of Rs 1,688, but property was sold in only 26 cases for Rs 10.

(4) Fees continued to be levied in twenty two markets as in the previous

previous year, but the receipts from this source fell from Rs 4,793 to Rs 4260. The balance in favour of these institutions at the close of the year was still large, being Rs 10746 against Rs 13011 in 1893-94. The major portion of this sum should cannot be utilized in the current year on the improvement of the markets or the construction of feeder roads to them and the sanitation of the villages in which they markets are held. If this is not done the rates of fees should be reduced.

(5) The receipts from avenues also fell from Rs 1070 to Rs 353. Nothing was done to extend them avenues, but the condition of the existing trees is reported to have been good.

4c. Expenditure - (1) Public works - The expenditure under this head rose from Rs 38,322 or 80 per cent. of the allotments to Rs 47,381 or 90 per cent. The short outlay, which occurs chiefly under New works, Miscellaneous Public Improvements and New Works and Repairs, Civil Buildings, has been is explained in paras 24 and 26 of the President's report, but the failure to get estimates sanctioned in time is unsatisfactory and should be guarded against in future. The expenditure on village roads amounted to Rs 7,508 or 21 per cent. of the total outlay on roads, against Rs 1,931 or 7.5 per cent. in 1893-94, but the increase was nominal, being due to a re-classification of the roads. The general condition of the roads in the District is reported to have been, on the whole, fair. The cost of the Local Fund Engineering establishment was 24 per cent. of the outlay on works executed by that agency against 34 per cent. in the preceding year, but it was still

Local

The Villages in sanctioning estimates therein referred to is unsatisfactory. & Taluk Boards shd. be required to carry out their programmes further in advance & as a general rule works shd. be excluded from the Budgets until estimates for them are ready & proper arrangements for their execution have been made.

4 per cent in excess of the prescribed limit, should be further reduced.

(2) Education. There were four Inspecting schoolmasters as in the previous year and their work, except in the case of the one attached to the Penukonda range, is reported to have been fair. Four Sessional schools were maintained by the District Board against three in 1893-94 and, out of the thirty-seven students trained in them, thirty-two appeared for and twenty-one passed the primary examination. In addition to the Lower Secondary school at Penukonda, which continued to be maintained by the Taluk Board, a new lower secondary school was opened at Dharmavaram towards the close of the year. It is not clear from the report or any of the statements whether these schools were maintained on the salary or the salary result

work in
Penukonda school the latter one was very unsatisfactory, none of the nine pupils who appeared for the Lower Secondary Examination having passed. There were 58 Board primary schools on the salary results system, one of which was for girls, with an attendance of 2,326 pupils against 55 schools with 2,350 pupils in the previous year, but only 78 per cent. of the candidates sent up pupils presented for the standard examinations passed against 80 per cent. The number of schools aided by the Taluk Boards with results grants, which were paid at the maximum rates, rose from 159 with 3,595 pupils to 204 with 3,806 pupils, but only 72·5 per cent of the pupils examined were found qualified for grants against 80 per cent. in the previous year. No explanation however has been offered for this

4 per cent in excess of the prescribed limit, should be further reduced.

(2) Education. There were four Inspecting schoolmasters as in the previous year and their work, except in the case of the one attached to the Penukonda range, is reported to have been fair. Four Sessional schools were maintained by the District Board against three in 1893-94 and, out of the thirty-seven students trained in them, thirty-two appeared for and twenty-one passed the Primary examination. In addition to the Lower Secondary school at Penukonda, which continued to be maintained by the Taluk Board, another such school was opened at Dharmavaram towards the close of the year. It is not clear from the report or any of the statements whether these schools were maintained on the salary or the salary

result system. The work in the Penukonda school and the latter was very unsatisfactory, none of the nine pupils who appeared for the Lower Secondary Examination having passed. There were 58 Board primary schools on the salary results system, one of which was for girls, with an attendance of 2,326 pupils against 55 schools with 2,350 pupils in the previous year, but only 78 per cent. of the pupils presented for the standard examinations passed against 80 per cent. The number of schools aided by the Taluk Boards with results grants, which were paid at the maximum rates, rose from 159 with 3,595 pupils to 204 with 3,806 pupils, but only 72·5 per cent of the pupils examined were found qualified for grants against 80 per cent. in the previous year. No explanation however has been offered for this

this decline or for the non-disbursement of thirty-six per cent. of the grants earned within the year. The total number of boys under instruction in the schools maintained and aided from Local Funds was 11·1 per cent. of the male population of school-going age against 10·9 in 1893-94, but it is still considerably below the general average for the Presidency.

(3) Medical Relief - The Taluk Boards maintained four hospitals and six dispensaries as in the previous year and there was a further increase of 2535 in the total number of persons treated in these institutions, which is ascribed to their growing popularity. The attention of the taluk boards is drawn to the District Medical officer's remarks on the ~~present state~~ condition of the hospital buildings and furniture. Four midwives were employed throughout the year, while a fifth was entertained in March 1895 and they attended in all 204 cases of labour against 174 in 1893-94.

No.

No information has been furnished regarding the steps taken if any for the furtherance of female Medical Education, as required in G.O. dated 5th September 1887, No. 1684 A.L. This omission should be supplied in future reports.

(4) Vaccination. There was a retrogression both in the quantity and quality of the work of this Department, the total number of persons successfully vaccinated being only 26 per mille. of the population against 27·7 in the previous year. Infantile vaccination, however, showed a slight improvement, the total number of children under one year of age successfully vaccinated having risen from 8·2 to 8·5 per mille. of the population, but it was still only 29 per cent. of the registered ~~number of~~ births during the year. There is thus considerable

scope

scope for progress, ~~but no sub-~~
-stantial improvement can be expected
in this branch of the administration
unless ~~the members of the~~ Local
~~Boards and Panchayats take special personal~~
~~interest in the matter.~~ The Government trusts that every endeavour
will be made to secure better results in the current year.

(5) Sanitation. The total outlay under this head was 91 per cent. of the allotment against 87 in the previous year. The improvement of village sites appears to have received much attention, the number of villages conserved being seventy-nine against twenty in 1893-94 and fifteen watchmen were employed to guard drinking-water supplies against fourteen in that year. The District Medical and Sanitary Officer visited seventy-two villages against thirty-eight in 1893-94.

(6) Miscellaneous. Notwithstanding the remarks in para: 41 of the General Review

The short expenditure under "water-supply" is regretted, & the reason for it has not been explained. It is presumed that the Boards have satisfied themselves that the Conservancy establishments in non unions are adequately supervised. Without strict control their work is likely to be worthless & the money expended upon their pay would be more usefully devoted to permanent improvements to local sources of water-supply.

~~and the~~

Review for 1893-94, the charges on account of lighting rose from Rs. 926 to Rs. 1655. The President will be requested to see that funds which might be better spent upon permanent improvements to unions are not allotted more than is unavoidable for that is rather a luxury than a necessity.

5. General Remarks. The year closed with a balance of Rs. 25,308. Of this sum however Rs. 10,814 appertained to endowed institutions and Rs. 714 to unions, leaving Rs. 13,750 or 15 per cent. of the receipts available for general purposes. Most of the details given in paras: 4 of the Presidents ~~report~~ letter and paragraphs 1 and 3 of the District Medical & Sanitary Officer's report might with advantage have been considerably condensed.

Except in regard to vaccination, the administration of local affairs showed an improvement on that of the previous year and was on the whole satisfactory.

6. The Presidents of the Taluk Boards should be called upon to explain the delay in the submission of their reports. The attention of the Director of Public Instruction will be drawn to the delay in the

the receipt of the Educational s
statements brought to notice in
para: 3 of the President's report.
