GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers :—

From L. C. MILLER, Esq., President, District Board, Vizagapatam, to the Chief Secretary to Government, dated Vizagapatam, 28th August 1895, No. 910.

I have the honour to submit my report on the administration of the local boards of this district for the official year 1894–95, together with the prescribed statements prepared in accordance with the instructions contained in the Local Fund rules and in G.Os., No. 987 L., dated 4th May 1889 and No. 1273 L., dated 28th May 1890, respectively.

2. As in the previous year, the affairs of the Local Fund department were administered by the district board, 4 taluk boards and 14 union panchayats, without alteration either in territorial jurisdiction or constitution except that during the year the villages of Balighattam and Pedaboddapalle were included in the Narasapatnam Union, and Gollapalle and Kottabelgam in Bobbili and Párvatípuram Unions, respectively. The district board consisted of 32 members excluding the President; half of them were elected by the taluk boards (5 by Narasapatnam, 2 by Vizagapatam, 6 by Vizianagram and 3 by Párvatípuram) and the remainder appointed by Government. The Narasapatnam and Vizianagram Taluk Boards consisted each of 18 members, and those of Vizagapatam and Párvatípuram of 12 each, exclusive of their Presidents, the Divisional officers.

I.—GENERAL.

3. *District Board.*—Statement No. XVI shows the constitution of the district and taluk boards at the close of the year, and the attendance of members at meetings. On the 31st March 1895 the district board had its full strength of 32 members. Of these, 4 were ex-officio, 12 appointed by Government (3 officials and 9 non-officials) and 16 elected (5 officials and 11 non-officials). The number of nominated officials including ex-officio members remained unaltered. The three nominated officials exclusive of the ex-officio members are the District Surgeon, the Assistant Inspector of Schools and the Assistant Collector. The following statement compares the above figures with those of last year:—

—	Nominated officials including the ex-officio members (Divisional officers).	Elected officials.	Nominated non-officials.	Elected non-officials.	Total.	Percentage of nominated officials.	Percentage of elected members.
On the 31st March 1894 ..	7	4	8	9	28	25	46·4
Do. 1895 ..	7	5	9	11	32	21·9	50

During the year 2 members were elected by the taluk boards (1 by Vizagapatam and 1 by Párvatípuram). At the close of the year, the total number of Europeans and Eurasians occupying seats on the district board was 8 against 9 in the previous year, and that of natives of India 24 against 19. The number of meetings held by the district board was 8 against 12 in the previous year. The reason for the decrease in the number of meetings held last year was that it was not considered necessary to call a meeting unless there was a reasonable amount of business for disposal. G.O., No. 2873 L., Mis., dated 12th November 1890, allows discretion in the matter of calling meetings. No meetings were postponed for want of a quorum.

The average attendance of officials was 5·87 and that of non-officials 11·12 against 4·16 and 9·91 in the previous year. The non-official members of the district board have drawn mileage at the maximum rate of four annas a mile for journeys by road, and double second-class fare for journeys by rail.

4. *Taluk Boards.*—The four taluk boards in the district had, on the last day of the year, 59 members against a sanctioned strength of 60. All the members were, as usual, appointed by Government. Of them, 15 were officials and 44 non-officials against 13 and 44 in the previous year. There were 8 Europeans and Eurasians at the close of the year against 7 in the previous year. The number of meetings held was 49 against 47 in the previous year as shown below :—

	1893–94.	1894–95.
Narasapatnam	12	12
Vizagapatam	12	12
Vizianagram	11	12
Párvatipuram	12	13
Total ..	47	49

The average attendance of officials was 2·25, 1·6, 1·75 and 2·23; and that of non-officials 7·91, 3·6, 6·75 and 4·76. The Vizianagram Taluk Board postponed two meetings for want of a quorum. There were no changes in the rate of mileage drawn by the non-official members.

5. *Unions.*—Statement No. XVI-A shows the constitution of, and the number of meetings held by, the union panchayats. At the close of the year they had their full number of members (124). On the addition of the villages of Balighattam and Pedaboddapalle to the Narasapatnam Union, as stated above, the maximum number of its members was increased from 12 to 14. But as directed by Government in G.O., No. 224 L., Mis., dated 5th February 1895, steps will be taken as vacancies occur to reduce the number to 12. Of the 124 members, 24 were ex-officio or village officers, 26 were officials and 74 non-officials against 22, 25 and 57 in the preceding year. The panchayats held in all 200 meetings, or on an average 14 each, against 213 and 15 respectively in 1893–94. The largest number of meetings was held by the union panchayats of Jami and Gajapatinagram (20 each), while that of Srungavarapukota held only 11 meetings. Its failure to meet every month is explained to have been due to the postponement of two meetings for want of a quorum. The total number of meetings postponed by all the unions in the district for want of a quorum was 6 (Razam 2, Srungavarapukota 2, Pondur 1 and Bobbili 1), against 15 in the previous year. As usual the work of the panchayats consisted chiefly in the supervision of the conservancy establishments and making sanitary arrangements in the villages under their control. This work and the ward system of supervision which was introduced into all the unions without exception are reported to have been done satisfactorily.

6. *Financial Position.*—The following statement shows the financial position of the local boards for the year 1894–95 as compared with that of the previous year:—

	1893–94.				1894–95.			
	District funds.	Taluk funds.	Union funds.	Total	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	10,941	33,499	1,745	46,185	28,785	35,638	1,324	65,747
Receipts	1,84,758	1,56,167	9,062	3,49,987	1,76,973	1,50,996	11,413	3,39,382
Allotments from district to taluk funds.	−13,216	+13,216	..	..	−32,341	+32,341	..	..
Allotments from taluk to district funds.	..	..	..	..	..	..	..	..
Allotments from taluk to union funds.	..	−9,425	+9,425	..	..	−7,212	+7,212	..
Total assets	1,82,483	1,93,457	20,232	3,96,172	1,73,417	2,11,763	19,949	4,05,129
Total expenditure ..	1,53,698	1,57,819	18,908	3,30,425	1,61,034	2,03,097	18,451	3,82,582
Closing balance ..	28,785	35,638	1,324	65,747	12,383	8,666	1,498	22,547

Excluding debt heads (Rs. 4,179), the actual receipts amounted to Rs. 3,35,203 against Rs. 3,45,082 in 1893–94, and the charges to Rs. 3,75,978 against Rs. 3,29,145. There is a large decrease of Rs. 17,000 and odd in land-cess, due chiefly to non-adjustment within the year of a sum of Rs. 14,000 paid in the Ganjám district by the Maharajah of Vizianagram. There are considerable increases under tolls and house-tax, and smaller ones under other heads which reduce the total decrease. The increase in expenditure is under almost all heads. The year closed with a balance of Rs. 22,547 or 6·73 per cent. of the actual receipts. There was no change in the system of distributing receipts and charges between the district and taluk boards. Grants given to the taluk boards from the district funds amounted to Rs. 32,341.

7. *Taxation.*—According to the census of 1891, the population of the district was 1,851,006. The average taxation per head was As. 2–8 including and As. 2–3 excluding tolls, against As. 2–9 and As. 2–5 in the previous year. Taking into account the entire Local Fund income, the amount contributed by each person was As. 2–4 against As. 3 in the preceding year.

II.—RECEIPTS.

8. *Opening Balance.*—The opening balance of the year as finally audited by the Accountant-General was Rs. 65,747 including an endowment fund balance of Rs. 8,870. The total receipts amounted to Rs. 3,39,382 against Rs. 3,49,987 in the previous year.

9. *Rates and Taxes—(a) Cess on Land, Rs.* 2,53,220.—The balance remaining uncollected at the close of the year 1893–94 was Rs. 26,264. This was altered to Rs. 27,351 after jamabandi. The demand for the year was Rs. 2,62,171, making the amount to be collected Rs. 2,89,522. Of this, Rs. 2,53,220 were collected and Rs. 39 were written off, leaving a balance of Rs. 36,263 at the close of the year.

10. *Tolls under Act V of* 1884.—There were eight toll bars at the close of the year 1893–94. From 1st April 1894 the toll-gates at Thallavalasa, Gazuvaka and Kerada were abolished and new bars were opened at the Nelivada tank on the Vizianagram-Párvatípuram road and at Lothugedda on the Párvatípuram-Palkonda road—*vide* G.O., No. 14 L., Mis., dated 9th January 1894. But these bars having been found to be unsuitably placed for the prevention of the evasion of tolls during the hot weather, they were shifted to Gotlam and Ullibhadra, respectively—*vide* G.O., No. 1333 L., Mis., dated 20th July 1894. There were therefore only seven toll bars during the year under report and the right of collecting tolls was sold for Rs. 35,640 as shown below. The whole amount was realised before the close of the year, as also a sum of Rs. 52-10-11 on account of interest on arrear payment.

Toll-gates.	Rents.
	Rs.
(1) Gotlam	10,640
(2) Ramastalam	2,900
(3) Ramabhadrapur	4,980
(4) Tuddali	4,340
(5) Sankili	2,400
(6) Kottakki	7,110
(7) Ullibhadra	3,270
Total ..	35,640

11. *Contributions from Municipalities, Rs.* 6,848.—The district board was obliged to entirely forego its share of the Vizagapatam Municipal tolls and to reduce its share of the Anakápalle Municipal tolls from 60 to 30 per cent. to enable the municipal councils to bear the loss of their toll revenue caused by the opening of the railway. The contributions payable by the Bimlipatam, Anakápalle and

Vizianagram Municipalities in the ratios noted against each amounted to Rupees 7,227–8–0 as shown below :—

Name of Municipality.	Amount of tolls.	Local Fund share.	District Board's percentage.
	RS.	RS. A. P.	
Bimlipatam	5,510	1,377 8 0	25 per cent.
Anakápalle	7,000	2,100 0 0	30 ,, ,,
Vizianagram	15,000	3,750 0 0	25 ,, ,,
		7,227 8 0	

The Bimlipatam and Anakápalle Muncipalities paid their contributions before the close of the year. Deducting Rs. 4–11–1 as the district board's share of the cost of repairs to the toll shed at Bimlipatam, there was an arrear balance of Rs. 250 on account of the previous year due by the Vizianagram Municipality. This was paid in May 1894. Out of the current year's dues, only Rs. 3,125 were paid, and steps have been taken to realise the balance of Rs. 625. The total realisations under the head thus amounted to Rs. 6,847–12–11.

12. *House-tax, Rs.* 9,907.—This was, as usual, levied at the maximum rates in all the unions. The balance remaining outstanding at the close of the previous year was Rs. 523–8–8, and not Rs. 744–13–11 as was erroneously shown in statement No. VIII submitted with the previous year's report. The demand for the year under report was Rs. 10,194–4–0. The total demand including arrears amounted to Rs. 10,717–12–8, of which Rs. 9,906–10–4 or 92·43 per cent. were collected. The sums remitted and written off amounted to Rs. 180–5–4; the average taxation per house was As. 10–3 against As. 10–1 in the previous year. For the collection of the tax 863 warrants were issued, but in only 23 cases property to the value of Rs. 23 was distrained and in 16 cases was sold for Rs. 6–8–0.

13. (2) *Education.*—The receipts under this head amounted to Rs. 10,735 against Rs. 11,400 entered in the budget. The decrease occurs chiefly under sale-proceeds of books.

14. (3) *Medical.*—The amount entered under "contributions from private individuals" is the annual contribution paid by the Raja of Bobbili towards the cost of maintaining the hospital at Bobbili. Rupees 1,703 are credited to (*e*) Miscellaneous. This is the total of Rs. 1,037, sale-proceeds of inoculated calves and calf lymph; Rs. 75, sale-proceeds of unserviceable articles belonging to hospitals; Rs. 277, moiety of the cost of dead-houses recovered from Provincial funds; and Rs. 314, stipends refunded by a female apothecary who has taken employment under the Maharajah of Travancore instead of under the board and had therefore by her agreement to reimburse the board the amount spent by it on her education.

15. (4) *Interest*—(*a*) *On Government Securities, Rs.* 58.—This is the amount of interest on Government securities belonging to the Jalluri Narsubayammah's choultry under the management of the Vizagapatam Taluk Board.

16. (5) *Miscellaneous*—(3) *Contribution from Private Individuals.*—Only Rs. 775 were credited against Rs. 1,100 entered in the budget. The decrease is due to the absence of applications, with donations, from people interested in the improvement of village water-supply, owing to the more favourable season.

17. *Market Rents.*—There were six markets under the charge of the taluk boards at the close of last year. The introduction of the fee system into the markets at Meranghi and Belgam having proved a failure, they were given up and two new ones are now being tried at Chípurupalle and Chodavaramu. The fees realised at these markets amounted to Rs. 3,570 against Rs. 2,778 in the previous year. The increase in fees indicates that the markets are freely resorted to by the public. The taluk board Presidents have not reported on their condition, but the principal ones are known to be in good order.

18. *Fees and Fines.*—Fees for the erection of pandals and fines levied in unions for nuisances amounted to Rs. 1,225 against Rs. 659 in the previous year.

19. *Ferry Rents.*—The right of collecting fees at the Sankili and Marripenta ferries under the charge of the district board was leased out for Rs. 375. The whole of this was collected. A further sum of Rs. 1–8–0 on account of a temporary ferry at Vatada and Rs. 2–2–6 on account of interest on arrear payments of kists was also credited to this head. The total realisations amounted to Rupees 378–10–6.

20. *Fishery Rents.*—Rupees 756 were realised by the sale of fish in several tanks under the charge of the Vizianagram Taluk board.

21. *Avenues.*—Rupees 400 were realised under this head against Rs. 380 entered in the budget by the sale of avenue clippings and produce.

22. *Sundry Receipts.*—As usual, petty items amounting to Rs. 307 realised by the sale of sweepings in unions and vegetables, &c., grown on tank bunds and on the road side were credited to this head.

23. (*d*) *Contributions from* (1) *Municipalities*—Rs. 972, credited to this head, is the amount of tolls realised at the Pontoon bridge by the Vizagapatam Municipality and paid to the district board towards the cost of upkeep of the Pontoon bridge.

24. (3) *From Private Individuals, Rs.* 175.—This is the total of the amount of Rs. 150 paid by the Proprietor of Kasimkóta towards the cost of constructing roads in the Kasimkóta Union and Rs. 25 paid by the people of Uttaraville for the construction of certain culverts.

25. (6) *Public Works* (*e*) *Refunds of Expenditure, Rs.* 163.—This is the amount of cancelled cheques of previous years adjusted during the year under report, as per result statement No. 45-A.A.Z., dated 22nd October 1894, of the Inspector of Local Fund Accounts on the treasury accounts for September 1894.

26. (*f*) *Miscellaneous, Rs.* 306.—The following are the details of this item :—

	RS.	A.	P.
1. Cost of contractors' agreement forms recovered from contractors	188	0	0
2. Sale-proceeds of grass, cowdung, &c., on certain roads credited by the Engineer	53	13	9
3. Unexpended balance of compensation for the lands taken up for the Srungavarapukota-Bhimasinghi road	18	9	8
4. Unexpended balance of compensation for the lands taken up for the Razam-Pondur road	10	11	3
5. Unexpended balance of the amount sanctioned for the registration of a sale-deed of the hospital site at Jami ..	1	8	0
6. Unexpended balance of the amount sanctioned for a civil suit in the District Munsif's Court of Párvatípuram ..	2	2	0
7. Sale-proceeds of unserviceable articles credited by the Engineer	30	14	0
Total ..	305	10	8

27. (7) *Contributions from Provincial Funds for* (*a*) *Education.*—Rs. 5,049 were realised under this head against Rs. 4,600 entered in the budget. The increase is due to the encashment of some of the result grant bills which remained uncashed at the close of the previous year.

28. *Allotments to Taluk Funds.*—Allotments from the District to Taluk funds were Rs. 32,341 as shown below :—

	RS.
Narasapatnam	13,200
Vizagapatam	9,312
Vizianagram	6,579
Párvatípuram	3,250
Total ..	32,341

This leaves the Narasapatnam and Párvatípuram Taluk Boards with *minus* balances —a fact which was not ascertained till the adjustment of the accounts after the close of the year.

III.—EXPENDITURE.

29. *Grant I, Public Works.*—The outlay on public works amounted to Rupees 1,85,254 by the Local Fund Engineering Department and Rs. 653 by other Agency and was 54·8 per cent. of the year's receipts and 48·6 per cent. of the total expenditure. The outlay on communications alone amounted to Rs. 1,49,114 or 97·6 per cent. of the total allotments against 85·2 per cent. in the preceding year.

30. (*a*) *New Works* (1) *Communications, Rs.* 25,210.—In the budget for 1894–95, Rs. 15,000 were allotted for payment of compensation for the lands taken up for the Narasapatnam-Waddadi road. The following allotments, amounting to Rupees 11,009, were subsequently made by the local boards for the execution of the following works:—

		RS.
1.	For constructing a road from Srungavarapukota to Bhimasinghi	5,000
2.	For laying boundary stones on the above road	343
3.	For constructing a retaining wall on the 6th and 7th furlongs of the 30th mile of Vizianagram-Nathavalsa road	610
4.	For constructing a road from Chípurupalle to Laveru	600
5.	For constructing village roads	2,080
6.	For petty works each costing less than Rs. 300	2,376
	Total	11,009

In addition to this, Rs. 1,135 were allotted for payment of compensation for the lands taken up for the Razam-Pondur road and Rs. 1,500 for compensation for the Nagur ferry, which was taken over by the district board in 1891 under the Canal and Ferries Act. The fishermen, who were in the enjoyment of the ferry for a long time, having claimed compensation, the board sanctioned Rs. 1,500 in December 1894. The total amount made available for expenditure under this head thus amounted to Rs. 28,644. Of this, Rs. 25,210 were expended before the close of the year. The decrease is due to the fact that out of Rs. 15,000 allotted for compensation for the lands taken up for the Narasapatnam-Waddadi road, only Rs. 13,200 were actually required, and there were also savings under some other petty works.

31. *Important Works.*—The only important work under construction during the year was the road from Srungavarapukota to Bhimasinghi, which is a very important feeder to the East Coast Railway. A sum of Rs. 4,732 was expended on this road against Rs. 5,000 allotted during the year. In the current year's budget, Rs. 3,000 have again been provided to meet the cost of masonry works, &c., remaining incomplete at the close of last year.

32. (2) *Civil Buildings.*—The budget grant under this head, including subsequent allotments, was Rs. 10,650, of which Rs. 7,123 were expended for the construction of buildings as detailed below:—

	RS.
Schools	3,005
Hospitals	2,439
Choultries	189
Bungalows	1,083
Dead houses	395
Registration fees, &c., for purchasing the Victoria Ghosha Female Hospital, Vizagapatam	90
Demarcation stones for the lands taken up for the Waltair travellers' bungalow	12
Total	7,123

The decrease is chiefly due to the non-utilization of the grant of Rs. 1,500 provided for the completion of the Local Fund hospital at Viraghattam and to the short expenditure of Rs. 1,000 against Rs. 2,500 provided for the Local Fund hospital at Razam, together with savings under some minor works costing less than Rs. 300 each. The President of the Vizianagram Taluk Board finds fault

with the Engineering department for the non-completion of the hospital at Viraghattam, for which funds are being provided year after year from 1892–93. I have called upon the Engineer for an explanation.

33. (3) *Miscellaneous Public Improvements.*—Rs. 7,406 was the expenditure under this head against Rs. 1,808 in the previous year. Rs. 1,009 were expended for constructing tanks and wells, Rs. 6,275 on markets and Rs. 122 for constructing side drains.

34. (*b*) *Repairs* (1) *Communications.*—The expenditure under this head amounted to Rs. 1,23,904 against Rs. 1,24,190 allotted. This is satisfactory compared with the results of the previous year, in which the actual expenditure was Rs. 1,17,884 against Rs. 1,37,864 allotted, owing to the neglect of some overseers who were subsequently dismissed from the Board's service.

35. (2) *Civil Buildings.*—The expenditure under this head was Rs. 9,458 against a grant of Rs. 9,350. The only important buildings repaired during the year were the Victoria Ghosha Female Hospital, Vizagapatam, purchased by Sri Raja G. N. Gajapati Rao Garu, C.I.E., and presented to the district board for the hospital and the Local Fund hospital at Palkonda.

36. (3) *Miscellaneous Public Improvements.*—The expenditure under this head was Rs. 12,806 as shown below against Rs. 13,230 allotted:—

	RS.
Maintaining avenues along the district board roads	7,843
Do. do. the Narasapatnam Taluk Board roads	1,200
Do. do. the Vizagapatam do.	140
Do. do. the Vizianagram do.	2,245
Do. do. the Párvatípuram do.	463
Repairing markets	915
Total	12,806

37. *Mileage.*—The details regarding the mileage and cost of roads constructed and repaired during the year are shown in statement No. IV-A. The following statement compares the total length of roads under the charge of local boards during 1894–95 compared with the figures of 1893–94:—

		Mileage of roads under the local boards at the beginning of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.
				RS.		RS.
1893–94	Village	69	69	10,601	5	1,700
	Taluk	408	408	31,294	2	1,967
	District	376	376	74,850	15	8,638
	Total	853	853	1,16,745	22	12,305
1894–95	Village	74	74	7,129	6	2,610
	Taluk	410	410	38,658	..	231
	District	391	391	74,322	12	5,032
	Total	875	875	1,20,109	18	8,573

The expenditure on village roads alone amounted to Rs. 9,739 against Rupees 12,301 in 1893–94. The expenditure on all new roads amounted to Rs. 8,573 against Rs. 12,305 in the year 1893–94. The amount spent on road repairs amounted to Rs. 1,20,109 against Rs. 1,16,745 in 1893–94. In the mileage particulars given above, the amount spent on bridges and culverts and compensation for lands is excluded according to rules.

38. *Condition of Roads.*—Almost all the roads under the charge of the Narasapatnam Taluk Board are in good order, with the exception of a few miles of the Trunk road between Anakápalle and Kasimkóta, the Narasapatnam-Kondasanta road, the Narasapatnam-Polavaram road, and the Gazuvaka-Panchadarla road. The last three are not important communications. The President of the Vizagapatam Taluk Board reports that all the roads are in fair order with the exception of three

village roads, and nearly two miles of the Vizianagram-Kottavalasa road formerly abandoned and now repaired by the board again owing to the increased traffic on account of the advent of the railway. In the Vizianagram taluk all the roads except the Bimlipatam-Chittivalasa road and a few village roads are reported to have been in fair order. The roads under the charge of the Párvatípuram Taluk Board are in a good condition excepting that from Duggi to one mile beyond Kurupám. The maintenance grant of this road is said to be insufficient. It is under contemplation to put it in thorough order next year. In reviewing the administration report of last year, Government called for report as to what extent the roads reported to have been in bad order have improved during the year under report. I find from the taluk board reports that some improvement has been effected. But the Bimlipatam-Chittivalasa road and the Duggi-Kurupám road show no improvement; this was due to very heavy traffic on the former and the latter is only a fair-weather cart-track, and cannot be in a satisfactory condition without being metalled. The proposal to metal it is now before the board. The minor Zemindar of Kurupám drove over the whole of the road from Vizianagram to Párvatípuram by night in May 1895 and informed my predecessor, Mr. Wolfe-Murray, that the worst part was only that between Vizianagram and Gajapatinagaram. Mr. Wolfe-Murray remarks that there are few districts where the roads are good enough to go such a distance by night. On the whole I may say that the roads appear to have improved and are in fair order.

39. *Condition of Avenues.*—Rs. 11,891 were expended by the local boards for the maintenance of avenues. The amount realised by the sale of clippings and rent of fruit trees is Rs. 400. The number of trees on the road sides at the beginning of the year was 124,510, the number of trees planted during the year was 8,865 and 7,114 having died, the number remaining at the close of the year was 126,261. The avenues are growing well, but most of them being young, the revenue derived under "Avenues," *i.e.*, Rs. 400, is not in proportion to their number.

40. *Engineering Establishment.*—This establishment worked as usual under the control of the district board and the total cost, including contingencies, amounted to Rs. 27,914. The percentage of the cost compared with the expenditure on works executed by it was 15 per cent. against 19 per cent. in the preceding year. Rs. 1,227 were spent on the purchase of tools and plant.

41. *Contributions to Municipalities.*—This is the total of Rs. 681 paid to the Vizagapatam and Bimlipatam Municipal Councils on account of the cost of the upkeep of the local fund roads lying within their limits and Rs. 1,186 paid to the Vizagapatam Municipal Council on account of the district board's share of the cost of materials purchased for the use of the Vizagapatam Pontoon bridge in 1891, when it was under the charge of the municipality.

42. *Contributions to Private Individuals, Rs.* 2,500.—This is the contribution paid by the district board and the Vizagapatam Taluk Board towards the construction of a big choultry in Vizagapatam for the convenience of all classes of Hindus—*vide* G.O., Mis. No. 566 L., dated the 26th March 1895.

43. *Grant II, Education.*—The educational operations of the local boards are for the most part confined to the maintenance and aid of secondary and elementary schools and the training of primary school teachers. At the beginning of the year there were seven secondary schools on the salary system, six on the salary-result system, and 139 primary schools. At its close the number of secondary schools on the salary system was reduced to six owing to the conversion of the Gajapatinagaram school into a salary-result institution. The number of schools on the salary-result system increased to 11 owing to the raising of the standards of the primary schools at Chípurupalle, Viraghattam, Razam and Baljipeta. Of the primary schools, those at Garugubille, Kottakki, Amity, Venkatabhairipuram, Bandaluppi, Vallarigudaba and the Párvatípuram night school were closed for want of funds and those at Andra and Jonnavalasa for want of sufficient attendance, and two night schools at Narasapatnam and Madugula and a Pariah school at Kasimkóta were newly opened. There were thus 17 secondary schools (6 on the salary system and 11 on the salary-result system) and 129 primary schools at

the close of the year against 13 secondary schools and 139 primary schools at the end of the previous year. The number of pupils attending these schools was 5,798 against 5,980 in 1893–94. The slight falling off in attendance is due to a net decrease of six in the number of schools. The details of receipts, charges and other particulars connected with the board and aided schools are given in statements Nos. IX and X. These do not include miscellaneous receipts, receipts from sale-proceeds of books and charges connected with their purchase, &c.

44. *Inspection, Rs.* 4,062.—In the inspecting agency employed by the board for the supervision of the board and other schools there were a few changes about the close of the year, but the number of officers remained unaltered. As recommended by the Director of Public Instruction, the scale of this establishment was revised and sanctioned by Government in the budget for 1894–95. But the new scale was not brought into operation till January 1895 owing to the delay on the part of the Assistant Inspector of Schools in the submission of proposals. The actual expenditure under this head therefore amounted to Rs. 4,062 against Rs. 4,530 allotted. The work done by these officers shows some improvement over that of the previous year. They visited 1,024 villages and prepared 136 board schools and 665 other schools for examination, the corresponding figures for the previous year being 699, 153 and 633, respectively.

45. (*b*) *Sessional Schools.*—There were three schools of this class working during the year at Sálúru, Chódavaramu and Kasimkota for training primary school teachers. Their cost amounted to Rs. 1,024 against Rs. 1,608 in the previous year. The latter figure included payment of arrears of the previous year to the amount of Rs. 355. Thirty-two teachers were trained in these schools, of whom seventeen appeared for the Primary School examination and sixteen passed, three of them being placed in the first class.

46. (*c*) *Secondary Schools.*—Including the High School at Yellamanchili, there were seventeen secondary schools at the close of the year as explained above. In the year 1893–94 the working of the high school at Yellamanchili was most unsatisfactory, and it failed to pass even one candidate for the Matriculation examination. In order to improve it, increased salaries of Rs. 100 and Rs. 70 were provided in the budget for 1894–95 to secure the services of L.T. graduates for the posts of headmaster and assistant master, and accordingly the headmaster's post was filled up in July 1894 and that of the assistant master in February 1895. L.T. graduates and competent teachers being secured for both places, some improvement is now probable. Out of the three students sent up for the Matriculation examination, one was successful and out of eight candidates sent up for the Lower Secondary examination five passed. The net cost of the upper secondary department was Rs. 812 against Rs. 324 in the previous year, owing to the increase of salaries provided for the head and second masters of the Yellamanchili high school. Out of 49 candidates for the Lower Secondary examination from the secondary schools on the salary system, 33 passed, the corresponding figures for the previous year being 39 and 20, respectively. The following abstract shows the strength and cost of the secondary departments of the schools detailed in statement No. IX:—

School Department.	Number.	Average attendance.	Net expenditure.	Average net cost per pupil.
			Rs.	Rs. A. P.
Upper Secondary Schools and Departments—				
salary System	1	24	812	33 13 4
Lower Secondary Schools and Departments—				
(*a*) Salary system	6	236	3,237	13 11 5
(*b*) Salary-result system	11	64	1,119	17 7 9

47. *Board Primary Schools.*—The number of schools of this class existing at the close of the year was 129 as explained above. The following statement shows the aggregate strength and cost of the upper and lower primary departments of all board schools, including the primary departments attached to the secondary schools:—

village roads, and nearly two miles of the Vizianagram-Kottavalasa road formerly abandoned and now repaired by the board again owing to the increased traffic on account of the advent of the railway. In the Vizianagram taluk all the roads except the Bimlipatam-Chittivalasa road and a few village roads are reported to have been in fair order. The roads under the charge of the Párvatípuram Taluk Board are in a good condition excepting that from Duggi to one mile beyond Kurupám. The maintenance grant of this road is said to be insufficient. It is under contemplation to put it in thorough order next year. In reviewing the administration report of last year, Government called for report as to what extent the roads reported to have been in bad order have improved during the year under report. I find from the taluk board reports that some improvement has been effected. But the Bimlipatam-Chittivalasa road and the Duggi-Kurupám road show no improvement; this was due to very heavy traffic on the former and the latter is only a fair-weather cart-track, and cannot be in a satisfactory condition without being metalled. The proposal to metal it is now before the board. The minor Zemindar of Kurupám drove over the whole of the road from Vizianagram to Párvatípuram by night in May 1895 and informed my predecessor, Mr. Wolfe-Murray, that the worst part was only that between Vizianagram and Gajapatinagaram. Mr. Wolfe-Murray remarks that there are few districts where the roads are good enough to go such a distance by night. On the whole I may say that the roads appear to have improved and are in fair order.

39. *Condition of Avenues.*—Rs. 11,891 were expended by the local boards for the maintenance of avenues. The amount realised by the sale of clippings and rent of fruit trees is Rs. 400. The number of trees on the road sides at the beginning of the year was 124,510, the number of trees planted during the year was 8,865 and 7,114 having died, the number remaining at the close of the year was 126,261. The avenues are growing well, but most of them being young, the revenue derived under "Avenues," *i.e.*, Rs. 400, is not in proportion to their number.

40. *Engineering Establishment.*—This establishment worked as usual under the control of the district board and the total cost, including contingencies, amounted to Rs. 27,914. The percentage of the cost compared with the expenditure on works executed by it was 15 per cent. against 19 per cent. in the preceding year. Rs. 1,227 were spent on the purchase of tools and plant.

41. *Contributions to Municipalities.*—This is the total of Rs. 681 paid to the Vizagapatam and Bimlipatam Municipal Councils on account of the cost of the upkeep of the local fund roads lying within their limits and Rs. 1,186 paid to the Vizagapatam Municipal Council on account of the district board's share of the cost of materials purchased for the use of the Vizagapatam Pontoon bridge in 1891, when it was under the charge of the municipality.

42. *Contributions to Private Individuals, Rs.* 2,500.—This is the contribution paid by the district board and the Vizagapatam Taluk Board towards the construction of a big choultry in Vizagapatam for the convenience of all classes of Hindus—*vide* G.O., Mis. No. 566 L., dated the 26th March 1895.

43. *Grant II, Education.*—The educational operations of the local boards are for the most part confined to the maintenance and aid of secondary and elementary schools and the training of primary school teachers. At the beginning of the year there were seven secondary schools on the salary system, six on the salary-result system, and 139 primary schools. At its close the number of secondary schools on the salary system was reduced to six owing to the conversion of the Gajapatinagaram school into a salary-result institution. The number of schools on the salary-result system increased to 11 owing to the raising of the standards of the primary schools at Chípurupalle, Viraghattam, Razam and Baljipeta. Of the primary schools, those at Garugubille, Kottakki, Amity, Venkatabhairipuram, Bandaluppi, Vallarigudaba and the Párvatípuram night school were closed for want of funds and those at Andra and Jonnavalasa for want of sufficient attendance, and two night schools at Narasapatnam and Madugula and a Pariah school at Kasimkóta were newly opened. There were thus 17 secondary schools (6 on the salary system and 11 on the salary-result system) and 129 primary schools at

the close of the year against 13 secondary schools and 139 primary schools at the end of the previous year. The number of pupils attending these schools was 5,798 against 5,980 in 1893–94. The slight falling off in attendance is due to a net decrease of six in the number of schools. The details of receipts, charges and other particulars connected with the board and aided schools are given in statements Nos. IX and X. These do not include miscellaneous receipts, receipts from sale-proceeds of books and charges connected with their purchase, &c.

44. *Inspection, Rs.* 4,062.—In the inspecting agency employed by the board for the supervision of the board and other schools there were a few changes about the close of the year, but the number of officers remained unaltered. As recommended by the Director of Public Instruction, the scale of this establishment was revised and sanctioned by Government in the budget for 1894–95. But the new scale was not brought into operation till January 1895 owing to the delay on the part of the Assistant Inspector of Schools in the submission of proposals. The actual expenditure under this head therefore amounted to Rs. 4,062 against Rs. 4,530 allotted. The work done by these officers shows some improvement over that of the previous year. They visited 1,024 villages and prepared 136 board schools and 665 other schools for examination, the corresponding figures for the previous year being 699, 153 and 633, respectively.

45. (*b*) *Sessional Schools.*—There were three schools of this class working during the year at Sálúru, Chódavaramu and Kasimkota for training primary school teachers. Their cost amounted to Rs. 1,024 against Rs. 1,608 in the previous year. The latter figure included payment of arrears of the previous year to the amount of Rs. 355. Thirty-two teachers were trained in these schools, of whom seventeen appeared for the Primary School examination and sixteen passed, three of them being placed in the first class.

46. (*c*) *Secondary Schools.*—Including the High School at Yellamanchili, there were seventeen secondary schools at the close of the year as explained above. In the year 1893–94 the working of the high school at Yellamanchili was most unsatisfactory, and it failed to pass even one candidate for the Matriculation examination. In order to improve it, increased salaries of Rs. 100 and Rs. 70 were provided in the budget for 1894–95 to secure the services of L.T. graduates for the posts of headmaster and assistant master, and accordingly the headmaster's post was filled up in July 1894 and that of the assistant master in February 1895. L.T. graduates and competent teachers being secured for both places, some improvement is now probable. Out of the three students sent up for the Matriculation examination, one was successful and out of eight candidates sent up for the Lower Secondary examination five passed. The net cost of the upper secondary department was Rs. 812 against Rs. 324 in the previous year, owing to the increase of salaries provided for the head and second masters of the Yellamanchili high school. Out of 49 candidates for the Lower Secondary examination from the secondary schools on the salary system, 33 passed, the corresponding figures for the previous year being 39 and 20, respectively. The following abstract shows the strength and cost of the secondary departments of the schools detailed in statement No. IX:—

School Department.	Number.	Average attendance.	Net expenditure.	Average net cost per pupil.
			RS.	RS. A. P.
Upper Secondary Schools and Departments—				
salary System	1	24	812	33 13 4
Lower Secondary Schools and Departments—				
(*a*) Salary system	6	236	3,237	13 11 5
(*b*) Salary-result system	11	64	1,119	17 7 9

47. *Board Primary Schools.*—The number of schools of this class existing at the close of the year was 129 as explained above. The following statement shows the aggregate strength and cost of the upper and lower primary departments of all board schools, including the primary departments attached to the secondary schools:—

School Departments.	Number.	Average attendance.	Net expenditure.	Average net cost per pupil.
			Rs.	Rs. A. P.
Upper Primary Schools and Departments—				
(*a*) Salary system	1	16	136	8 8 0
(*b*) Salary result system	109	626	5,220	8 5 5
Lower Primary Schools and Departments—				
(*a*) Salary system	1	11	64	5 13 1
(*b*) Salary-result system	140	3,817	20,470	5 5 10

48. (*c*) *Grants-in-aid* (2) *Results Grants.*—The amount spent under this head was Rs. 11,051 against Rs. 9,100 allotted and Rs. 10,791, actuals of the previous year. The increase is due to a slight increase in the number of aided schools, to the prompter issue of certifying memoranda and consequent earlier payment of result grants by the Vizianagram, Párvatípuram and Narasapatnam Taluk Boards. The number of schools at the close of the year was 383 against 359 in the previous year. The attendance, on the other hand, fell from 8,915 to 8,475, which is accounted for by the introduction of the system of assigning grants for each school in the beginning of the year—a system, which, it is explained by the Assistant Inspector, discouraged the attendance of unnecessary pupils, and by the prohibition contained in the inter-school rules against the passing on of boys from one school to another without a certificate from the former school. Seven thousand six hundred and twenty-four pupils were examined for results grants and 5,122 were found qualified for them. The corresponding figures for the previous year were 7,330 and 4,781. There is thus an increase both in numbers of examinees and in the percentage of successful examinees to the total number examined.

49. *Progress of Muhammadan Education.*—There were 21 Muhammadan schools in the district with 595 pupils, against 20 with 497 pupils in the previous year. The Muhammadan pupils studying in schools open both to Muhammadans and Hindus were 639 against 564 last year. The improvement in Muhammadan education is slight. Thirty-four pupils appeared for the Primary School examination and nineteen passed. Of the 24 teachers in board schools, only four did not hold general educational certificates on the 31st March last. The Muhammadan officers entrusted with the work appear to have paid due attention to their work.

50. *General Progress of Education.*—The number of pupils on rolls on the 31st March 1895 in all the board and aided schools was 14,633 against 14,895. The falling off in the number of pupils compared with the previous year is, as explained above, mainly due to the assignment system of grants. The educational operations of the year may be regarded as, on the whole, encouraging.

51. *Grant III, Medical Services, Sanitation, &c.—Local Fund Hospitals and Dispensaries.*—Statement No. XII shows the working of these institutions. There were at the close of the year twelve hospitals and three dispensaries under the charge of the taluk boards. All these institutions, with the exception of those at Nakkapilli, Viraghattam and Razam, are provided with buildings erected for the purpose. That at Razam is located in a building lent by the Raja of Bobbili, but a new one is under construction and will be completed this year. The Palkonda hospital building being out of repairs, the hospital was temporarily located in the primary school building. The hospital building at Viraghattam is still under construction. That at Amity has been completed, but the taluk board has been unable to provide it with a medical officer, and the President is doubtful of the value of the institution even if fully equipped. The matter is under consideration. None of the officers in charge of local fund hospitals or dispensaries were provided with free quarters or allowed house-rent in lieu thereof. The hospital assistants in charge of these institutions with the exception of the officer at Párvatípuram are paid seven-eighths of their salaries and charge allowances from local funds, the balance being paid from provincial funds. At Párvatípuram there is a separate hospital for the treatment of Government servants, and the whole cost of the local board's institution is met from local funds. The total number of beds available in these hospitals was 107 against 102 in 1893–94. The total number of in and out patients treated was 903 and 167,567, respectively, against 794 and 141,864 in the previous

year. There was increase in attendance in all the institutions, those under the charge of the Párvatípuram Taluk Board being, as in the previous year, the most in request. The total cost of maintaining the hospitals and dispensaries amounted to Rs. 27,220 against Rs. 20,368 in the previous year and their working appears on the whole to be satisfactory. The system of supervision by hospital committees has not been tried in the local board institutions in this district. The attention of the Presidents of taluk boards will, however, be drawn to it during the current year. The increase in expenditure compared with the previous year is due to the higher rate of pay allowed to the Yellamanchili hospital assistant, who was promoted to first class, and to the entertainment of a senior hospital assistant and lately of a civil apothecary at Narasapatnam. The Vizagapatam Taluk Board has had to grant leave allowance to the hospital assistant at Jami in addition to the pay allowed to his *locum tenens*. The Vizianagram Taluk Board increased the rates of pay allowed to the Razam and Viraghattam hospital assistants in consequence of their promotion to first class from July 1894. There are besides these institutions, three hospitals solely intended for women and children—one at Vizagapatam, one at Vizianagram and one at Bobbili. A building for the use of the hospital at Vizagapatam has been purchased by Sri Raja G. N. Gajapatirao Garu, C.I.E., at a cost of Rs. 8,000 and presented to the district board, which has carried out the necessary repairs to it. It is excellently situated in the heart of the town and yet secluded. The working of the institution is reported by the District Surgeon to be very satisfactory, and the officer in charge, Miss D'Prazer, is commended by him for the great interest taken by her in her work. Miss D'Prazer's pay is paid by Raja Gajapatirao, and all other expenses connected with the hospital are paid by the district board. The hospital, though intended for purdah and high caste women only, is, at present, treating women of all classes, the District Medical and Sanitary officer's opinion being that it will thus attain popularity and finally attract and be reserved for the classes of women for whom it is intended. It is at present unfortunately necessary to employ a male compounder, but he will, I hope, be soon replaced by a woman. At Vizianagram and Bobbili, only the pay of the lady apothecaries is paid by the district board, and all other expenses are being met by the Maharajah of Vizianagram and the Raja of Bobbili. The lady apothecary of Bobbili Miss Martin was temporarily transferred to Párvatípuram pending the completion of quarters and a hospital building at Bobbili, which are being provided by the Raja. The Vizianagram samasthanam provided a building for the use of the female hospital in that town and quarters for the apothecary in the cantonment, and arrangements have also been made now for the supply of a separate stock of medicines, &c. Hitherto the female apothecary used to send her prescriptions to the Maharajah's hospital. The Raja of Bobbili promised to deposit in the name of the district board a sum of Rs. 20,000 in fixed deposit with Messrs. Arbuthnot and Co. for the maintenance of the male and female hospitals at Bobbili. The working of the lady apothecaries of Vizianagram and Bobbili is remarked on in the District Surgeon's report enclosed. They have been hampered by want of proper buildings and medicines so far, and the work will improve, I have no doubt.

52. *Midwives.*—At the commencement of the year there were eleven midwives attached to local fund hospitals, of whom one died, one was dismissed and one resigned. Their places were not filled up and there remained only eight at the close of the year. The number of labour cases attended by them was 1,257 as shown below, against 1,239 in the previous year:—

	1894–95.
Narasapatnam	50
Yellamanchili	95
Chódavaramu	107
Sálúru	123
Bobbili	234
Párvatípuram	107
Jami	142
Surungavarapukota	147
Razam	106
Palkonda	26
Viraghattam	120
	1,257

School Departments.	Number.	Average attendance.	Net expenditure.	Average net cost per pupil.
			Rs.	Rs. A. P.
Upper Primary Schools and Departments—				
(*a*) Salary system	1	16	136	8 8 0
(*b*) Salary result system	109	626	5,220	8 5 5
Lower Primary Schools and Departments—				
(*a*) Salary system	1	11	64	5 13 1
(*b*) Salary-result system	140	3,817	20,470	5 5 10

48. (*c*) *Grants-in-aid* (2) *Results Grants.*—The amount spent under this head was Rs. 11,051 against Rs. 9,100 allotted and Rs. 10,791, actuals of the previous year. The increase is due to a slight increase in the number of aided schools, to the prompter issue of certifying memoranda and consequent earlier payment of result grants by the Vizianagram, Párvatípuram and Narasapatnam Taluk Boards. The number of schools at the close of the year was 383 against 359 in the previous year. The attendance, on the other hand, fell from 8,915 to 8,475, which is accounted for by the introduction of the system of assigning grants for each school in the beginning of the year—a system, which, it is explained by the Assistant Inspector, discouraged the attendance of unnecessary pupils, and by the prohibition contained in the inter-school rules against the passing on of boys from one school to another without a certificate from the former school. Seven thousand six hundred and twenty-four pupils were examined for results grants and 5,122 were found qualified for them. The corresponding figures for the previous year were 7,330 and 4,781. There is thus an increase both in numbers of examinees and in the percentage of successful examinees to the total number examined.

49. *Progress of Muhammadan Education.*—There were 21 Muhammadan schools in the district with 595 pupils, against 20 with 497 pupils in the previous year. The Muhammadan pupils studying in schools open both to Muhammadans and Hindus were 639 against 564 last year. The improvement in Muhammadan education is slight. Thirty-four pupils appeared for the Primary School examination and nineteen passed. Of the 24 teachers in board schools, only four did not hold general educational certificates on the 31st March last. The Muhammadan officers entrusted with the work appear to have paid due attention to their work.

50. *General Progress of Education.*—The number of pupils on rolls on the 31st March 1895 in all the board and aided schools was 14,633 against 14,895. The falling off in the number of pupils compared with the previous year is, as explained above, mainly due to the assignment system of grants. The educational operations of the year may be regarded as, on the whole, encouraging.

51. *Grant III, Medical Services, Sanitation, &c.—Local Fund Hospitals and Dispensaries.*—Statement No. XII shows the working of these institutions. There were at the close of the year twelve hospitals and three dispensaries under the charge of the taluk boards. All these institutions, with the exception of those at Nakkapilli, Viraghattam and Razam, are provided with buildings erected for the purpose. That at Razam is located in a building lent by the Raja of Bobbili, but a new one is under construction and will be completed this year. The Palkonda hospital building being out of repairs, the hospital was temporarily located in the primary school building. The hospital building at Viraghattam is still under construction. That at Amity has been completed, but the taluk board has been unable to provide it with a medical officer, and the President is doubtful of the value of the institution even if fully equipped. The matter is under consideration. None of the officers in charge of local fund hospitals or dispensaries were provided with free quarters or allowed house-rent in lieu thereof. The hospital assistants in charge of these institutions with the exception of the officer at Párvatípuram are paid seven-eighths of their salaries and charge allowances from local funds, the balance being paid from provincial funds. At Párvatípuram there is a separate hospital for the treatment of Government servants, and the whole cost of the local board's institution is met from local funds. The total number of beds available in these hospitals was 107 against 102 in 1893–94. The total number of in and out patients treated was 903 and 167,567, respectively, against 794 and 141,864 in the previous

year. There was increase in attendance in all the institutions, those under the charge of the Párvatípuram Taluk Board being, as in the previous year, the most in request. The total cost of maintaining the hospitals and dispensaries amounted to Rs. 27,220 against Rs. 20,868 in the previous year and their working appears on the whole to be satisfactory. The system of supervision by hospital committees has not been tried in the local board institutions in this district. The attention of the Presidents of taluk boards will, however, be drawn to it during the current year. The increase in expenditure compared with the previous year is due to the higher rate of pay allowed to the Yellamanchili hospital assistant, who was promoted to first class, and to the entertainment of a senior hospital assistant and lately of a civil apothecary at Narasapatnam. The Vizagapatam Taluk Board has had to grant leave allowance to the hospital assistant at Jami in addition to the pay allowed to his *locum tenens*. The Vizianagram Taluk Board increased the rates of pay allowed to the Razam and Viraghattam hospital assistants in consequence of their promotion to first class from July 1894. There are besides these institutions, three hospitals solely intended for women and children—one at Vizagapatam, one at Vizianagram and one at Bobbili. A building for the use of the hospital at Vizagapatam has been purchased by Sri Raja G. N. Gajapatirao Garu, C.I.E., at a cost of Rs. 8,000 and presented to the district board, which has carried out the necessary repairs to it. It is excellently situated in the heart of the town and yet secluded. The working of the institution is reported by the District Surgeon to be very satisfactory, and the officer in charge, Miss D'Prazer, is commended by him for the great interest taken by her in her work. Miss D'Prazer's pay is paid by Raja Gajapatirao, and all other expenses connected with the hospital are paid by the district board. The hospital, though intended for purdah and high caste women only, is, at present, treating women of all classes, the District Medical and Sanitary officer's opinion being that it will thus attain popularity and finally attract and be reserved for the classes of women for whom it is intended. It is at present unfortunately necessary to employ a male compounder, but he will, I hope, be soon replaced by a woman. At Vizianagram and Bobbili, only the pay of the lady apothecaries is paid by the district board, and all other expenses are being met by the Maharajah of Vizianagram and the Raja of Bobbili. The lady apothecary of Bobbili Miss Martin was temporarily transferred to Párvatípuram pending the completion of quarters and a hospital building at Bobbili, which are being provided by the Raja. The Vizianagram samasthanam provided a building for the use of the female hospital in that town and quarters for the apothecary in the cantonment, and arrangements have also been made now for the supply of a separate stock of medicines, &c. Hitherto the female apothecary used to send her prescriptions to the Maharajah's hospital. The Raja of Bobbili promised to deposit in the name of the district board a sum of Rs. 20,000 in fixed deposit with Messrs. Arbuthnot and Co. for the maintenance of the male and female hospitals at Bobbili. The working of the lady apothecaries of Vizianagram and Bobbili is remarked on in the District Surgeon's report enclosed. They have been hampered by want of proper buildings and medicines so far, and the work will improve, I have no doubt.

52. *Midwives.*—At the commencement of the year there were eleven midwives attached to local fund hospitals, of whom one died, one was dismissed and one resigned. Their places were not filled up and there remained only eight at the close of the year. The number of labour cases attended by them was 1,257 as shown below, against 1,239 in the previous year:—

	1894–95.
Narasapatnam	50
Yellamanchili	95
Chódavaramu	107
Sálúru	123
Bobbili	234
Párvatípuram	107
Jami	142
Surungavarapukota	147
Razam	106
Palkonda	26
Viraghattam	120
	1,257

The average number of labour cases attended by each was 157 against 113 in 1893–94. The average cost of each case was Rs. 1–8–9 against Rs. 1–11–7 in 1893–94. All the midwives are trained at the Government Lying-in Hospital, Madras, and are paid at Rs. 20 to Rs. 15 monthly.

53. *Midwifery Pupils.*—There are three midwifery pupils under training in Madras.

54. (*b*) *Vaccination.*—The strength and cost of the vaccine establishment employed by the district board during the year are shown in statement No. XIII. As in the previous year, there were three itinerating calf vaccination depôts in the three local fund taluks of Narasapatnam, Vizianagram and Párvatípuram, and one stationary depôt at Vizagapatam under the direct supervision of the Assistant Surgeon. Four hundred and ninety-one calves were inoculated in all these depôts and 4,429 plates of lymph were obtained, the corresponding figures for the previous year being 472 and 3,913. The itinerating calf vaccination depôts were under the charge of superintending vaccinators on Rs. 25 each per mensem. They supplied lymph to all local fund vaccinators employed in the three local fund taluks of Narasapatnam, Vizianagram and Párvatípuram. The calf depôt at Vizagapatam was under the charge of a superintending vaccinator on Rs. 20. Lymph was supplied from this depôt to the local fund vaccinators in the Vizagapatam and Surungavarapukota taluks and to all other districts applying for it. The vaccination establishment employed during the year was as follows:—

First-class Deputy Inspector of vaccination	1
Second-class ,, ,,	1
Superintending vaccinators	4
First-class vaccinators	11
Second-class ,,	13
Probationers	6
Peons	2
Watchers employed to look after the calves in each Itinerating depôt and in that at Vizagapatam	4

The total cost of the establishment including rewards paid to vaccinators was Rs. 11,868–9–11 against Rs. 10,292–6–6 in the preceding year. The increase occurs chiefly under "Rewards to vaccinators." The system of supplying lymph by the itinerating calf vaccination depôts does not altogether meet with the approval of the District Surgeon, who thinks that a central depôt would secure a better quality of lymph. The failure which led to the expression of this opinion, however, occurred in the current year, and the matter is now under consideration. The total number of cases vaccinated was 72,039 against 67,608 in the previous year. Of these, 65,235 were successful against 62,646 in 1893–94. The statement given below compares the work turned out by vaccinators in each of the revenue taluks with that of the previous year:—

Name of taluk.	Name of range.	1893–94.		1894–95.		Population as per census of 1891.
		Number vaccinated.	Number successful.	Number vaccinated.	Number successful.	
Golgonda	Vizagapatam Range.	9,485	9,356	2,348	2,235	118,514
Sarvasiddhi		7,250	7,105	5,526	5,199	154,966
Viraville		3,179	2,672	2,792	2,021	197,866
Anakápalle		3,004	2,974	14,655	14,376	135,147
Vizagapatam		1,815	1,784	2,340	2,323	62,814
Srungavarapukota		3,534	3,481	4,423	4,335	129,323
Bimlipatam	Vizianagram Range	4,813	4,205	5,559	5,227	105,482
Vizianagram		2,432	2,257	4,797	4,282	135,777
Gajapatinagaram		6,422	6,162	3,165	2,840	123,796
Sálúru		5,276	4,627	4,435	2,880	83,699
Bobbili		6,595	5,832	5,493	4,888	128,785
Párvatipuram		3,373	3,136	5,029	4,278	109,185
Palkonda		5,013	4,048	8,106	7,420	208,821
Chipurupalle		5,417	5,007	3,371	2,931	156,831
		67,608	62,646	72,039	65,235	1,851,006

In consequence of some of the taluks which were visited last year not having been visited this year, there was a decrease in the number of operations in them. But taking the total number of operations, there was an increase of 2,589. During the year M.R.Ry. Rao Sahib V. Ananta Rao Pantulu Garu, a member of the district board, voluntarily offered his services to examine the vaccination operations in the Bimlipatam taluk, in order to ascertain how far the returns are reliable. He travelled from village to village in the taluk at his own cost, and after examining about 80 per cent. of the operations performed, made an interesting report to the district board that the work done in the taluk was satisfactory. The board gave a vote of thanks to the member for his valuable work. Of the 72,039 cases vaccinated, 65,235 or 90·6 per cent. were successful, against 62,646 or 92·7 per cent. in 1893–94. The average number of successful vaccine operations performed by each vaccinator during the year was 1,977 against 1,898 in the previous year. The average cost of each case successfully vaccinated was As. 2–11 against As. 2–8 in 1893–94. In addition to the work done by the vaccinators, the medical subordinates in charge of local fund hospitals and dispensaries vaccinated 1,144 cases, of which 994 were successful against 1,898 in the preceding year. The number of children under one year vaccinated by these officers was 225 against 450, of which 209 were successful against 382 in the previous year. The largest number of cases were vaccinated by the medical subordinate in charge of the local fund hospital at Sálúru. The hospital assistant at Gajapatinagaram did not vaccinate a single case. Including the work done by medical subordinates, the total number of successful operations performed in the local fund area was 66,229 or 35·8 per mille of the population against 34·9 in the preceding year. The total number of births registered was 46,481. The total number of infants under one year of age vaccinated was 14,080 (including the number vaccinated by medical subordinates) against 10,846 in 1893–94. These figures, the District Surgeon considers, unreliable, but gives no reason for this opinion. The permanent calf depôt at Vizagapatam cost the district board Rs. 925–11–6 against Rs. 906–1–1 in the previous year. Its work was supervised by the Assistant Surgeon. Animal lymph only was used throughout the district for vaccine operations. The work of the deputy inspectors is pronounced by the District Surgeon to be unsatisfactory; only 39 per cent. of cases were inspected against 57 per cent. last year and the District Surgeon remarks that this board is unfortunate in the officers selected by the Inspector of Vaccination to serve it.

55. (*c*) *Sanitation.*—The expenditure under this head was Rs. 18,310 as detailed below:—

	Allotment.	Expenditure.
	Rs.	Rs.
Improvement of water-supply	3,430	1,801
Do. of village-sites	3,810	3,459
Scavenging establishment	11,700	11,835
Arrangements at fairs and festivals	500	695
Other sanitary outlay	1,090	520
Total	20,530	18,310

The percentage of expenditure to the sanctioned allotments was 89·2. The decrease occurs chiefly under "Improvement of water-supply," and is said to be due to the favourable character of the season, which did not give room for much expenditure. It is however evident that there is ample room in the district for the expenditure of Rs. 3,430 in a year in improving water-supply, whatever the season may be like. No sanitary works of importance were undertaken, but many of a petty kind were, as usual, carried out. One tank was dug at a cost of Rs. 150 and seven wells at a cost of Rs. 272. Eleven existing sources of water-supply were repaired at a cost of Rs. 360. Thirty-six watchmen were employed to guard drinking-water sources at a cost of Rs. 1,019. There were seven itinerating conservancy gangs employed at a cost of Rs. 3,459. The gangs employed by the Vizagapatam, Vizianagram and Párvatípuram Taluk Boards visited 29 villages

laying out streets, drains and clearing village-sites by removing prickly-pear and obnoxious vegetation. The Taluk Board of Narasapatnam has not given the number of villages visited nor any information regarding the work of this establishment. There were also 27 permanent scavenging establishments numbering 338 persons (against 339 last year) employed in fourteen union villages and thirteen other villages at the close of the year. The establishments employed in unions worked under the supervision of the union Chairmen and those in other villages worked under the orders of the taluk revenue officers concerned. Rupees 695 were spent for making sanitary arrangements at fairs and festivals and Rs. 520 on minor works of public utility, such as construction and repairs of latrines and dust-bins, &c.

56. *Markets.*—The salaries of the market sweepers and other contingent charges amounted to Rs. 122 against Rs. 95 in the preceding year. A further sum of Rs. 7,190 was expended for constructing market godowns and compound walls and debited to "Grant I, Public Works."

57. *Bungalows.*—The number of travellers' bungalows was the same as in the previous year. The travellers' bungalows are in tiled buildings and are in good condition. The inspection bungalows are only thatched sheds. All are provided with watchers. Six hundred and three travellers visited these bungalows during the year. The fees paid by them amounted to Rs. 931 against Rs. 1,052 in the previous year. The cost of maintaining these bungalows, including contingencies, amounted to Rs. 545, the salaries of the watchers of some of them, to which are attached avenue nurseries, being debited to avenue establishment. The expenditure incurred for repairs amounted to Rs. 2,026.

58. The total expenditure under Grant III amounted to Rs. 74,243 against Rs. 63,024 in the previous year.

59. The expenditure under Grant IV, including the cost of controlling establishment at the presidency town, account and audit establishments in the Collector's office and the Local Board's office establishment and other miscellaneous items, such as travelling allowance to be paid to members of local boards, amounted to Rs. 18,711 against Rs. 19,291 in the previous year.

60. The grand total expenditure amounted to Rs. 3,82,582 against Rs. 3,30,425 in 1893–94, leaving a balance of Rs. 22,547.

ENCLOSURE.

From Surgeon-Lieutenant-Colonel A. H. LEAPINGWELL, District Medical and Sanitary Officer, to the President, District Board, Vizagapatam, dated Vizagapatam, 17th July 1895, No. 3095/S.

I have the honour to forward the concise annual report for the year 1894–95, drawn up in accordance with G.O., No. 735, Public, dated 2nd October 1894.

I. Public Health and Vital Statistics.—The public health has been satisfactory.

No cases of cholera occurred. Small-pox was less prevalent than in the previous year; the deaths recorded from this disease were only 335 against 794, and there is reason to believe that some deaths from measles were included under small-pox as I find this has occurred in the Vizagapatam Municipality. Some deaths from small-pox were reported in every month.

Measles were prevalent during the latter months of the year.

There are no means of ascertaining how many of the deaths ascribed to fevers are really due to fevers; no less than 86·72 per cent. of the total deaths appear under this heading.

The deaths from bowel-complaints were 878 against 788 last year.

The following table shows the ratio per mille of births and deaths during the past three years and of deaths under cholera, small-pox, fevers and bowel-complaints for the same period :—

Years.	Ratio per mille.		Deaths.			
	Births.	Deaths.	Cholera.	Small-pox.	Fevers.	Bowel complaints.
1892–93	19·13	19·7	2,128	1,537	29,421	1,192
1893–94	25·39	14·51	185	794	23,151	788
1894–95	25·50	18·18	..	335	28,798	878

Registration shows very little improvement. Probably not more than two out of every five births are registered.

II. Sanitation.—Sanitation is improving. There are fourteen unions and in all these tanks or wells are reserved for drinking purposes only; latrines are provided and there are sweepers for cleaning the towns.

There are also seven itinerating parties who visit the larger villages.

I have recommended that a permanent scavenging establishment should be entertained at Simhachalam as large numbers of pilgrims visit the place on other occasions besides the recognised festivals.

III. Vaccination.—The following gives the strength of the vaccination department :—

First-class Deputy Inspector of Vaccination	1
Second-class do. do.	1
Superintending vaccinators	4
First-class vaccinators	11
Second-class do.	13
Probationers	6
Two peons	2
Four watchers	4
Total ..	42

There are four vaccine depôts—one at head-quarters and three itinerating.

These are in charge of superintending vaccinators. The itinerating parties consist of a superintending vaccinator, one first class, one second class and two probationers.

The number of vaccinations reported was 72,039 against 67,608 in the previous year. Of this number 66,481 were primary and 5,558 revaccinations.

The percentage of success under primary was 91·06 against 92·96 in 1893–94.

The following table shows the details of vaccine operations with results for the years 1893–94 and 1894–95 :—

Years.	Primary.	Revaccination.	Result.					
			Primary.			Revaccination.		
			Successful.	Unsuccessful.	Unknown.	Successful.	Unsuccessful.	Unknown.
1893–94	66,139	1,469	61,482	3,063	1,594	1,164	242	63
1894–95	66,481	5,558	60,539	5,147	795	4,696	727	135

There were 13,855 vaccinations under one year of age against 10,846. I do not place much reliance on these figures.

The cost of a successful case was As. 2–11 against As. 2–8 in last year, but this does not include the cost of grants which will be paid to vaccinators during the current year.

Only 39 per cent. were inspected by the Deputy Inspector against 57 per cent. last year.

In the Vizagapatam range there have been no less than three Deputy Inspectors and two vaccinators acting as Deputy Inspectors during the year. The Vizianagram range was in charge of one man throughout the year, but his work was most unsatisfactory.

This board is unfortunate in the men who are sent to it as Deputy Inspectors. I suppose the reason is that they are generally sent here as a punishment, the district being very unpopular among them.

IV. Hospitals and Dispensaries.—There are thirteen hospitals and three dispensaries maintained by the district board. Besides these there are two lady apothecaries—one at Párvatípuram and one at Vizianagram.

(*a*) *Nature and sufficiency of accommodation.*—The hospitals now provide 123 beds as against 102, an increase of 21 over the previous year; 65 are for males and 58 for females.

(*b*) *State of repair of buildings.*—Buildings generally are in good repair.

(*c*) *State of repair of furniture.*—Sufficient and in order.

(*d*) *Number of patients treated as compared with previous years.*—There were 1,028 in-patients and 175,949 out-patients treated against 794 in-patients and 141,864 out-patients last year—an increase of 234 in-patients and 34,085 out-patients.

Every hospital shows an increase, see the following table:—

Name of institutions.	Number of persons treated in 1892-93.			Number of persons treated in 1893-94.			Number of persons treated in 1894-95.		
	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.	In-door.	Out-door.	Total.
1. Bobbili	55	13,303	13,358	60	14,972	15,032	50	18,023	18,073
2. Chípurupalle	79	4,619	4,698	47	6,031	6,078	42	6,297	6,339
3. Chódavaramu	50	11,039	11,089	72	12,553	12,625	59	12,574	12,633
4. Gajapatinagaram ..	..	6,566	6,566	..	7,412	7,412	1	8,921	8,922
5. Jami	1	6,043	6,044	29	7,530	7,559	29	9,149	9,178
6. Nakkapilli	..	1,388	1,388	..	2,015	2,015	..	2,579	2,579
7. Narasapatnam	134	5,056	5,190	130	4,756	4,886	205	6,386	6,591
8. Palkonda	111	11,570	11,681	88	14,151	14,249	78	15,303	15,381
9. Párvatípuram	74	18,091	18,165	111	22,168	22,279	146	28,140	28,286
10. Pondur	..	2,924	2,924	6	4,238	4,244	24	5,120	5,144
11. Razam	..	8,023	8,023	..	8,033	8,033	..	9,594	9,594
12. Sálúru	130	12,154	12,284	137	15,041	15,178	134	19,068	19,202
13. Srungavarapukota ..	50	6,460	6,510	60	6,747	6,807	75	7,699	7,774
14. Viraghattam	..	2,715	2,715	..	8,127	8,127	..	10,676	10,676
15. Yellamanchili	76	7,598	7,674	54	8,080	8,134	60	8,038	8,098
16. Women and Children Hospital, Vizagapatam.	..	..	..	..	..	..	125	7,748	7,873
17. Women and Children Hospita,l Vizianagram.	..	..	..	..	..	..	..	634	634
18. Women and Children Hospital, Párvatípuram.	..	..	..	..	..	..	Statistics included in Local fund hospital, Párvatípuram.		
Total ..	760	1,17,549	1,18,309	794	1,41,864	1,42,658	1,028	1,75,949	1,76,977

* (1) Want of a proper accommodation for male and female wards as the hospital is located in the Primary school building.

(2) Favourableness of seasons.

(*e*) *Mortality and actual causes of it.*—Thirty-nine deaths were reported among in-patients. Of these twelve are from dysentery, nine malarial fevers, four chronic Bright's disease and three pneumonia.

(*f*) *Operations and results.*—There were 120 major operations and 3,126 minor operations. One death followed a major operation. Of the latter 57 or nearly one-half were performed at the Victoria Gosha Hospital, Vizagapatam.

(*g*) *Establishment whether sufficient and efficient.*—There were two civil apothecaries, ten hospital assistants, three private practitioners and three lady apothecaries employed during the year.

Compounders trained at head-quarters are attached to all hospitals and dispensaries.

(*h*) *Midwives.*—There were eleven midwives working at the commencement of the year; one died, one was dismissed and one resigned, leaving eight at the close of the year. Three women are under training at Madras and are expected shortly

and I have recommended that three more be sent for training. Their pay varies, some drawing Rs. 15 and others Rs. 20 according to the agreement under which they were entertained. They are not paid by results and no minimum is fixed.

The average number attended by those midwives who worked throughout the year was 157 which must be considered very fair work. The greatest number was attended by the Bobbili midwife, 238.

The medical subordinates under whom they serve submit a monthly statement to my office showing cases attended by the midwife and cases verified by them. Every midwife is provided with a book in which the signature of the husband of the patient or a near neighbour is entered as a proof of attendance.

One case came to my knowledge while on inspection in which the midwife, though present at the house during the labour, had not been called to attend and had not given any assistance, but nevertheless the case was recorded as attended by her.

I have reason to think that such instances are not uncommon and, if rewards are offered for extra cases, it will be very difficult to effectually check their work.

(*i*) *Victoria Gosha Hospital.*—The Victoria Gosha hospital has been open throughout the year, though it was formally opened by His Excellency the Governor in October last. This building, which is excellently situated in the heart of the town, but in a secluded position, was purchased by Sri Raja Gajapati Row, C.I.E., for Rs. 8,000 and presented to the board. The board carried out repairs and alterations costing Rs. 2,000, and the Raja furnished the building and provided the bedding and clothing. He is also paying the salary of the lady apothecary.

There is accommodation for twelve in-patients. There is also a lying-in room, an operation room, out-patient room, office and dispensing room. Three of the wards are known as the "Lady Wenlock" wards and three are named after a deceased aunt of the Raja, "Sri Godey Janikiah Garu."

One hundred and twenty-five in-patients were treated and 7,748 out-patients, the average daily attendance was 7·35 and 85·56 respectively.

Fourteen women were admitted into the lying-in wards, seven of them required an operation. Some had been in labour for days prior to admission and had been brought from out-lying villages; all recovered.

The midwife who works in the town and was formerly attached to the civil hospital is now under the supervision of the lady apothecary. She attended 189 cases during the year.

There were 57 major and 219 minor operations. All recovered.

It has been arranged that in future all midwives serving under the district board shall in turn be attached for six months to this hospital and reside in the hospital compound.

This training will be of great benefit to them and, in time as the work increases, it will be possible to train midwives here instead of sending them to Madras.

Miss D'Prazer, who has been in charge throughout the year, is well fitted for her post. She is strong and active, interested in her hospital, well qualified and has done excellent work.

Up to date there has been no attempt to restrict admissions to the class for which the hospital is specially intended, but in another year or so, when the hospital is better known, this should be done. It will then be necessary to attach another lady apothecary to the hospital, for in operations requiring chloroform and other help, Miss D'Prazer is now compelled to call in male assistance.

All the hospital servants are females, but it has not been possible as yet to get a female compounder.

Other lady apothecaries.—Miss Martin was for a time at Bobbili and was then transferred to Párvatípuram. She has done very little work at either place.

At Bobbili a house was provided for her by the Raja as a residence and she sent her prescriptions to the local fund hospital.

At Párvatípuram she saw female patients in a temporary shed in the compound of the local fund hospital.

It is proposed to transfer her to Vizagapatam to assist at the Gosha hospital.

Miss Cabral has been throughout the year at Vizianagram where the Maharajah provided her with a house in the cantonment.

Medicines were said to have been ordered for her from England, but she did not receive them.

Her prescriptions were sent to the Maharajah's hospital, but this does not appear to have been a satisfactory arrangement. She has done very little work. I hear that a house in the town will very shortly be given her for a dispensary and that she will be provided with necessary medicines and instruments.

At Bobbili the Raja has built a hospital for women and a house for a lady apothecary. These will soon be ready for occupation.

General Remarks.—There has been an increase in expenditure of Rs. 8,302. This was chiefly due to increased cost of European medicines.

The cost of bazaar medicine also considerably exceeded that of the previous year. Under this heading have hitherto been included many articles which are not properly medicines. I have pointed this out and have had them struck out of this year's indents.

The contractors' rates also have been considerably reduced.

Owing to promotion of some of the medical subordinates and to the employment of a civil apothecary in the place of a hospital assistant at Narasapatnam, the salary of medical subordinates show an increase of Rs. 1,113.

All hospitals and dispensaries were inspected during the year.

From the President, District Board, Vizagapatam, dated 2nd September 1895, Endt. No. 870.

ORDER—No. 1946 L., dated 19th October 1895.

The Local Fund receipts and charges of the Vizagapatam district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

2. *Local Boards and Union Panchayats.*—The District Board held eight meetings against twelve in the previous year, and the average attendance of the members improved and was fair. The Taluk Boards, of which there are four, met a sufficient number of times, and the average attendance of their members—excepting the officials on the Narasapatnam and the non-officials on the Vizagapatam boards—was on the whole good. There were again fourteen Panchayats at work. They held on an average fourteen meetings each against fifteen, and the average attendance of the panchayatdars was six

out of a total strength of nine. It is to be regretted that the Srungavarapukóta Panchayat failed to assemble once a month as required by section 129 of the Local Boards Act, two of its meetings having had to be adjourned for want of a quorum. The ward system of supervision, which was adopted in all the unions, is reported to have worked satisfactorily.

3. *Receipts.*—(1) The collections under land-cess fell from 91 to 87 per cent. of the demand, which is attributed mainly to non-adjustment in time of Rs. 14,000 paid by the Maharajah of Vizianagram in Ganjám.

(2) Tolls were collected at seven gates against eight in 1893–94, and the whole of the demand was realized within the year.

(3) House-tax was again levied in all the fourteen unions at the maximum rates, and 92 per cent. of it was collected against 89 per cent. in the previous year. In the unions of Chipurupalle, Gajapatinagaram, Pondur and Razam almost the whole of the demand was realized, but in both Chódavaramu and Srungavarapukóta 30 per cent. of it was outstanding at the end of the year. Warrants were issued in 863 cases for a sum of Rs. 885, but property was distrained in only 23 cases involving Rs. 23 and sold in only sixteen for Rs. 7.

(4) Fees were levied in six markets, and the income from them was Rs. 3,570 against Rs. 2,778 in 1893–94, the whole of the demand having been realized. The collection of fees in the Chipurupalle market does not appear to have been reported for the approval of Government. The expenditure on works connected with these institutions having risen from Rs. 1,517 to Rs. 8,402, the balance in their favour at the end of the year was Rs. 3,992 against Rs. 6,834 in the previous year. No action appears to have been taken on the suggestion of Government in paragraph 3 (4) of G.O., No. 2040 L., dated 15th October 1894, that the number of the markets might probably with advantage be increased.

(5) The income from avenues was again small, and the President explains that this is due to the fact that most of the trees are young.

4. *Expenditure*—(1) *Public Works.*—It is satisfactory that the expenditure under this head amounted to 98 per cent. of the sanctioned allotment against 83 in the previous year. The outlay on communications taken by itself was Rs. 1,49,114, or 97·6 per cent. of the allotment, against Rs. 1,32,511, or 85·2 per cent. The short expenditure upon the hospital at Razam has not been accounted for, and the amount provided for the completion of the Viraghattam hospital was again not utilized. The explanation of this called for by the President from the Engineer should be submitted to Government. The expenditure on village roads was Rs. 9,739, or 7·6 per cent. of the total outlay on communications, against Rs. 12,301, or 9·4 per cent., in the previous year. The roads appear to have improved and are reported to be in fair order, but much is still evidently necessary before they can be considered to be in a satisfactory condition. Owing to the increase in the expenditure on works above noticed, the cost of the Engineering establishment was only 15 per cent. of the outlay incurred by that agency against 19 per cent. in the previous year.

(2) *Education.*—There were again eight Inspecting schoolmasters and their work showed some improvement when compared with that of the previous year. Three sessional schools were maintained and sent up seventeen students for the Primary examination, of whom sixteen were successful. Although the number passed was large in comparison to that presented, it is disappointing that more candidates were not sent up for examination. There were seventeen secondary schools (a high school and sixteen middle schools) against thirteen in 1893–94, the increase being due to the raising of the standard of the primary schools at Chipurupalle, Viraghattam, Razam and Baljipeta. These institutions were attended by 1,146 pupils against 824 in the previous year. From the high school three students went up for the Matriculation and eight for the Lower Secondary examinations, and there was an improvement over the poor results of the previous year, as one of the former and five of the latter passed. From the other secondary schools forty-one students were sent up for the Lower Secondary examination, and

of these twenty-eight passed. It is observed that the average net cost per pupil in the upper secondary department of the high school was very high, being Rs. 33–13–4 against Rs. 17–0–10 in the previous year. Steps should be taken to reduce this in the current year and efforts should also be made to render all the lower secondary schools more nearly self-supporting. There were 129 board primary schools with 4,642 pupils against 139 with 5,147 pupils in the previous year. The results of the examination of these schools have not been reported, but from statement No. IV furnished by the Educational officers, it appears that 3,937 pupils appeared for the several standard examinations, and that 2,633, or 66·9 per cent. of them, were successful against 67·2 per cent. in 1893–94. This is again not satisfactory. The number of schools aided from Local funds rose from 359 to 383, but the attendance in them fell from 8,499 to 8,344; the decrease being ascribed to the new system of assigning grants for each school in the beginning of the year. Of these pupils, 7,445 were presented for examination and 4,991, or 67·0 per cent. of them, were found qualified for grants against 65·3 per cent. in the previous year. It is satisfactory to observe that the amount of result grants paid to these schools exceeded the allotment by 16·4 per cent. owing to the prompt issue of certifying memoranda. The education of Mussulmans continued to receive fair attention. Thirty-four pupils of this class appeared for the Primary examination and nineteen of them passed. The total number of boys under instruction in the board and aided schools was only 13,101, or 9·4 per cent. of the male population of school-going age, against 9·9 per cent. in the previous year, the average for the Presidency being 13·4 per cent.

(3) *Medical Relief.*—The Taluk Boards again maintained twelve hospitals and three dispensaries. The number of patients treated in them again exhibited a satisfactory increase, rising from 142,658 to 168,470. In addition to these, three women's and children's hospitals were kept up and were in charge of female apothecaries trained on account of the board by the Countess of Dufferin Fund Committee. The interest in her work evinced by Miss D'Prazer, who was in charge of the Victoria Gosha Hospital at Vizagapatam, is noted with approval. There were only eight midwives at the close of the year against eleven in 1893–94, the decrease being due to the death of one, the dismissal of another, and the resignation of a third. They attended on an average thirteen cases each per mensem against nine in the previous year, the largest number of cases having again been treated by the woman attached to the Bobbili hospital. These numbers are considerably above the usual average, and the returns made by the midwives should be carefully checked.

(4) *Vaccination.*—There was again an improvement in the work of this department, the reported number of successful cases being 65,235, or 35·2 per mille of the population, against 62,646, or 33·8 per mille, in 1893–94, but the quality of the work showed a slight deterioration, the reported percentage of successful cases to the total number being 90·6 against 92·7. Infantile vaccination also made fair progress, the total number of children under one year of age protected being 14,080 against 10,846 in 1893–94. The Government notes with pleasure the good work done by M.R.Ry. Rao Sahib V. Anantarao Pantulu in verifying the vaccination returns. His example is worthy of imitation by other non-official members of Local Boards. There can be no doubt that if it was followed there would be a marked improvement in vaccination. The Sanitary Commissioner's attention is drawn to the remarks at the close of paragraph 54 of the President's report regarding the inefficiency of the Deputy Inspectors posted to this district.

(5) *Sanitation.*—The proportion of the expenditure to the allotment under this head rose from 79 to 89 per cent., but it was still not satisfactory. More than 47 per cent. of the allotment for the "improvement of water-supply" was left unutilized from insufficient causes; the Government fully agrees with the remarks of the President on this head. The reason why more than 52 per cent. of the allotment for "other sanitary outlay" was allowed to lapse has not been reported. Thirty-six watchmen were employed to guard existing sources of water-supply and seven itinerating gangs to remove prickly-pear and rank vegetation. It is not stated whether the work done by these latter was worth the money expended upon them. Conservancy

staffs were maintained in fourteen unions and thirteen other villages. The Government trusts that the work done by these establishments in non-union villages is adequately controlled. Without strict supervision it is likely to be worthless and the money expended wasted. The number of towns and villages visited by the District Medical and Sanitary Officer has not been reported—an omission which should be supplied in future.

5. *General Remarks*.—The year closed with a balance of Rs. 22,547. Of this sum, however, Rs. 1,498 appertained to unions and Rs. 4,883 to endowed institutions, leaving Rs. 16,166, or 5·1 per cent. of the receipts, available for general purposes. Notwithstanding the remarks of Government in the reviews of the previous years' reports, the deficits with which the transactions of the unions of Narasapatnam, Srungavarapukóta, Jami, Pondur and Saluru and the choultries at Purushottapuram and Palkonda closed the year have not been made good by additional allotments or loans from the general Taluk Funds.

The administration of local affairs showed an improvement on that of the previous year and continued to be on the whole satisfactory. Education, however, requires more attention.

Vizagapatam
Secretary.
Dated the 28th Aug: 95

Vizagapatam
Dated 28 August 95

District Board Officer

Chairman

President.

× The total of debit head Charges under Taluq Boards is incorrectly put down in the General Revenue account as 233 instead of 232. Hence the difference of one rupee.

1 Local Fund Tolls	..	..	..	35640	..	..	35640	..	..	..	..	..	35640	..	..	35640	..	..	..	..	..	..	..	..	..	..	..	..	..	..	..	..	..	(a) Rs 35693 is the amount shown under this head in the Statement of the difference being due to interest Collected on arrears payments. (b) This does not include Rs 2-2-6 on account of interest on arrear payments. (c) The increase in the arrear balance brought forward is due to the Vizagapatam Taluq Jamabandi having shown Correct Balance at the end of the previous year against the Bimlipatam Taluq Amani.
