(those irregularity in this matter was remarked upon in the previous year's review also)

2- Local Boards- The Local Boards held a sufficient number of meetings and the average attendance of two members, except in the case of the officials on the District and the Mangalore Taluk Boards, continued to be on the whole satisfactory. The poor attendance of the official members of these two boards was the subject for remark in last year's review also. There are no unions in this district.

3. Receipts- (1) The collections under land-cess amounted to 99 per cent of the demand as in the previous year.

(2) There were fifteen toll gates as in 1893-94, at which the maximum rates at them and the whole of the demand was realised within the year.

(3) Fees appear to have been levied in thirteen markets against eleven in the previous year.

and the market rents rose from Rs 1,302 to Rs 1,379.

(4) The receipts from avenues fell from Rs 2,008 to Rs 1,253, the decrease being ascribed to the sale of trees and avenue clippings having been sold during the year. Little or nothing again appears to have been done for the extension of avenues in the district; but the condition of the existing trees is reported to have been good.

4. Expenditure (1) Public works. It is much to be regretted that the expenditure under this head was once more very low, being only 62 percent of the allotments against 81 in the previous year. The principal explanation offered for this is that several large estimates were not sanctioned until late in the year. In the ~~para: 28 of the Resident's report~~ reports of the two previous years the Govt has observed that this same explanation has been advanced for the same shortcoming, & Govt. has on both occasions remarked that it was not adequate. ~~cannot be considered altogether satisfactory.~~ It however is observed, from para: 15 of the Resident's letter printed in G.O. dated 24th January 1895 No 155 L. that the District Board has taken steps to prevent the occurrence of lapses of grants, ~~occurring by delays in having estimates sanctioned.~~ The expenditure on village roads amounted to 9·9 per cent of the total outlay on roads against 9·6 in 1893-94. The condition of the roads has not been reported. This omission should be supplied in future. ~~report~~. Owing to the above noticed short outlay on works, the cost of the Local Fund Engineering establishment and of Tools and Plant exceeded the prescribed limits. Once more by 6 per cent. and 0·5 per cent. respectively.

Owing to these causes, it is hoped that the adoption of the is afforded & it is hoped that its adoption The Course therein suggested will obviate the necessity for further Comment upon this subject.

(2) Education - The attention of the Director of Public Instruction is drawn to the incompleteness of the information furnished by the Educational officers. When these statements are received, the Educational operations will be separately reviewed.

(3) Medical Relief. Six hospitals and ten dispensaries were maintained by the Taluk Boards as in the previous year. There was a further increase in the total number of patients treated in these institutions, which testifies to their growing popularity. The decline in the attendance at the Udipi hospital and the Mulki dispensary is however ascribed to their inadequate supplies of medicines having been exhausted in those towns. The explanation of the officer responsible for this should be obtained and the recurrence of this contingency should be carefully guarded against. The circumstances under which the dispensary at Kolatatte was transferred by the Taluk Board to Uppinangadi without the sanction of Government, in the face of the protests of the District Medical officer should be explained at an early date. The eight midwives employed in the District attended

1893:94. 67,270
1894:95. 75,188

attended in all 826 cases of labour against 803 in the previous year, or on an average nine cases each per mensem against eight in the previous year. It is to be regretted that the work of however The midwife at Mudabidri considerably more than in the previous year, being only 22 cases against 44. Every endeavour should be made to secure better results in the current year. Nothing has been done by the District Board for the further education of women, the importance of which was emphasized in G.O. dated 5th September 1887, No. 1686 D.Z. in 1893-4 the medical education, required in Although ample funds were available.

In this connection the Board's attention is drawn to the District Medical officer's suggestion referred to in para: 40 of the President's report.

(4) Vaccination. It is to be regretted that there was again a considerable decline

decline both in the quantity and quality of the work of this department, the total numbers of successful operations and of those on children under one year being only 21·5 and 0·9 per mille of the population against 34 and 2·8 respectively per mille in 1893-94. These very unsatisfactory results are attributed partly to the inferior quality of the lymph supplied and partly to the inefficiency of the Vaccinators and ~~the~~ Deputy Inspectors. It is ~~however~~ observed that ~~the necessary~~ steps have been taken to ~~secure~~ an ~~improvement in future~~. the special attention of the District Medical officer ~~should~~ Will be directed to this matter and that

render the lymph supplied more reliable, & it is hoped that in the current year the ground which has been lost will be recovered.

(5) Sanitation. The expenditure under this head amounted to Rs 5,906 or 80 per cent. of the allotment against Rs 4,975 or 78 per cent in the preceding year

which, as was observed in the previous years review, a want of energy on the part of the Executive, and

× Includes 3 villages in the case of Conservancy which has been erroneously shown by the Resident, under other Sanitary outlay.

The ~~other~~ Govt. trusts that the neglect to properly Supervise ~~the work of~~ this staff, referred to ~~in~~ by the District Medical & Sanitary Officer is not general. Without the strictest Control their work is liable to be useless & the money spent upon them thrown away.

year. The explanation offered in paras. 46 and 49 of the President's report for the short outlay which occurs chiefly under Improvement of water supply and other Sanitary outlay cannot be considered satisfactory. The attention of the Taluk Boards is drawn to the remarks and suggestions of the District Medical officer in the penultimate clause of paragraph II and the first clause of paragraph IV of his report. Twenty three × towns and villages were provided with conservancy establishments against twenty in the previous year, and the private scavenging system was adopted in a few ~~some~~ villages, a sum of Rs 26 having been collected as fees for this ~~purpose~~ service in Kasaragod. The number of villages visited by the District Medical and Sanitary Officer has not

decline both in the quantity and quality of the work of this department, the total numbers of successful operations and of those on children under one year being only 21·5 and 0·9 per mille of the population against 34 and 2·8 respectively per mille in 1893-94. These very unsatisfactory results are attributed partly to the inferior quality of the lymph supplied and partly to the inefficiency of the Vaccinators and Deputy Inspectors. It is however observed that the necessary steps have been taken to secure an improvement in future. The special attention of the District Medical officer should be directed to this matter and that

The Govt. trust that the neglect to properly supervise the work of this staff, reported to be so by the District Medical & Sanitary Officer is not general. Without the strictest control their work is likely to be useless & the money spent upon them thrown away.

not been reported. The omission should be allowed to recur which should be supplied in future reports.

5. General Remarks - The year closed with a balance of Rs 109,365 of which only Rs 2486 appertained to endowed institutions. The amount available for general purposes was thus Rs 106,879 or more than 45 per cent. of the receipts. The existence of so large a balance in hand, notwithstanding the remarks in paragraph 5 of G. Os. dated 28th September 1893 No 2143 L and 12th September 1894, No 1788 L., is unsatisfactory. A large portion of this sum is however provided for expenditure in the current year's budget and the Government trusts that all of it will be utilized fully utilized. The administration of local affairs during the year under review cannot be considered

(2) Education - Seven inspecting schoolmasters were employed by the district board, including one newly entertained in August 1894, and their work is reported to have been good. Three sessional schools were at work against four in the previous year and the number of students trained in them fell from 34 to 24. The School at Putlur was opened too late to enable its pupils to appear for the primary examination. From the other two sent up schools fifteen students appeared for it and nine of these passed — a fair result. The taluk boards again maintained an upper and four lower secondary schools, of which they were attended on the 31st March 1895 by 641 pupils against 613 on the corresponding day in the previous year. The Coondapoor High School fared even worse than in 1893-94 at the matriculation

Matriculation examination, only four candidates out of twelve sent up having been successful against ~~the same number~~ four out of ten in that year, and at the lower secondary examination the results obtained by it were bad and compared very unfavourably with those of the middle schools. The attention of the taluk boards should be drawn to the necessity for improving the working staff of this institution. The results obtained by the middle schools were on the whole fair, 31 out of 62 candidates sent up having passed the Lower Secondary examination. The Secondary institutions were worked at a net profit of Rs 662 to the taluk boards. There were 141 board primary schools with 4,902 pupils against 138 with 4,588 pupils in the previous year and the progress made

made by them was satisfactory, 81 per cent. of the pupils sent up for the Standard examinations having passed against 73 per cent. Two of these schools were again maintained for the exclusive benefit of the Panchamas and seventeen for the Muhammadans. Of the former the school at Jeppu continued to work well, but the other, which has not been successful and accordingly to be transferred to another locality. Result grants were paid to only 154 schools with 5,179 pupils against 206 with 6,347 pupils in the previous year. This large decrease has again been explained. Of these institutions 3,867 pupils were presented for examination and 3,143 or 81.3 per cent. passed, the corresponding figures for 1893-94 being 4,206, 3,214, and 76.4 per cent. Owing to the closure of some of the schools and

Malabar 1795

and to the late receipt of some of the certifying memoranda before the time, as much as 26 per cent of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the schools maintained and aided from local funds was only 12.3 per cent of the male population of school going age against 14.4 per cent in the previous year. The attention of the Director of Public Instruction is drawn to the incompleteness of the information furnished by the Educational officers.

South Canara L

Review of the Administration [illegible] Local Boards of S. Canara for 1894-95.

1937 L

No. 1950 L., Local and Municipal, 19th October 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From W. H. WELSH, Esq., President, District Board, South Canara, to the Chief Secretary to Government, dated Mangalore, 12th July 1895, Dis. No. 364 D.B.

I have the honour to submit the report on the administration of the local boards in this district for the last official year 1894–95. The prescribed statements, with the exception of those relating to education, and a copy of the District Board's Resolution passing the report are enclosed.

I.—General.

2. *Administration.*—The number of boards remained the same as in the previous year, viz., one district board and five taluk boards. There was no change in their territorial jurisdiction and constitution.

3. No unions were constituted for reasons already given in previous reports.

4. *The District Board.*—Statement No. XVI shows the constitution of the several boards on the 31st March last, and the number of meetings attended by each member. On that date there were 17 members on the district board against 24, the full sanctioned strength, on the same date of the previous year. The decrease was due to the General Duty Deputy Collector having been detailed to other districts to introduce the disposal number system there and to the expiry, a few days before the close of the year, of the term of office of six elected members. The Uppinangadi taluk board held two elections in the year under report to return a member for the district board in the place of Mr. M. A. Sequeira, Tahsildar of Uppinangadi, transferred to Kasaragod. His successor in office, M.R.Ry. R. Rama Rao, was elected, but [illegible] vacated his seat by transfer and his successor M.R.Ry. V. Rama Rao came elected at the second election. The District Board held 13 meetings with an ave[illegible] attendance of 12 members (2·4 official and 9·6 non-official) against 14 meetings with an average attendance of 12·5 (2·8 official and 9·7 non-official) in the previous year.

No meeting was adjourned for want of a quorum.

5. *Taluk Boards.*—The strength of the taluk boards on the 31st March last was 48 (16 official and 32 non-official) against 60 (19 official and 41 non-official) on the same date of the preceding year. The 12 vacant seats have been since filled up. The total number of meetings held by these boards was 65 as in the previous year. The average attendance at each meeting was 6·3 (2 official and 4·3 non-official) against 6·7 (2 official and 4·7 non-official) in 1893–94. Only one meeting of the Taluk Board of Mangalore failed for want of a quorum.

6. *Financial position.*—Statements I-A and I-B show in detail receipts and charges during the year. Excluding debt accounts, the receipts amounted to Rs. 3,32,163 and the charges to Rs. 2,18,273 against Rs. 3,10,561 and Rs. 2,24,509 respectively in the previous year. The year closed with a balance of Rs. 1,09,365, which was 32·9 per cent. of the receipts.

7. The receipts and charges were distributed among the several boards on the same principle as in the previous years.

8. *Taxation.*—The incidence of taxation per head of population was As. 2–9 including and As. 2 excluding tolls against As. 2–10 and As. 2–1 respectively in the preceding year, the decrease being due to smaller receipts from both sources.

Review of the Administration Report of the S. Canara District Board for 1894-95.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers :—

From W. H. WELSH, Esq., President, District Board, South Canara, to the Chief Secretary to Government, dated Mangalore, 12th July 1895, Dis. No. 364 D.B.

I have the honour to submit the report on the administration of the local boards in this district for the last official year 1894–95. The prescribed statements, with the exception of those relating to education, and a copy of the District Board's Resolution passing the report are enclosed.

I.—General.

2. *Administration.*—The number of boards remained the same as in the previous year, viz., one district board and five taluk boards. There was no change in their territorial jurisdiction and constitution.

3. No unions were constituted for reasons already given in previous reports.

4. *The District Board.*—Statement No. XVI shows the constitution of the several boards on the 31st March last, and the number of meetings attended by each member. On that date there were 17 members on the district board against 24, the full sanctioned strength, on the same date of the previous year. The decrease was due to the General Duty Deputy Collector having been detailed to other districts to introduce the disposal number system there and to the expiry, a few days before the close of the year, of the term of office of six elected members. The Uppinangadi taluk board held two elections in the year under report to return a member for the district board in the place of Mr. M. A. Sequeira, Tahsildar of Uppinangadi, transferred to Kasaragod. His successor in office, M.R.Ry. R. Rama Rao, was elected, but he also vacated his seat by transfer and his successor M.R.Ry. V. Rama Rao came to be elected at the second election. The District Board held 13 meetings with an average attendance of 12 members (2·4 official and 9·6 non-official) against 14 meetings with an average attendance of 12·5 (2·8 official and 9·7 non-official) in the previous year.

No meeting was adjourned for want of a quorum.

5. *Taluk Boards.*—The strength of the taluk boards on the 31st March last was 48 (16 official and 32 non-official) against 60 (19 official and 41 non-official) on the same date of the preceding year. The 12 vacant seats have been since filled up. The total number of meetings held by these boards was 65 as in the previous year. The average attendance at each meeting was 6·3 (2 official and 4·3 non-official) against 6·7 (2 official and 4·7 non-official) in 1893–94. Only one meeting of the Taluk Board of Mangalore failed for want of a quorum.

6. *Financial position.*—Statements I-A and I-B show in detail receipts and charges during the year. Excluding debt accounts, the receipts amounted to Rs. 3,32,163 and the charges to Rs. 2,18,273 against Rs. 3,10,561 and Rs. 2,24,509 respectively in the previous year. The year closed with a balance of Rs. 1,09,365, which was 32·9 per cent. of the receipts.

7. The receipts and charges were distributed among the several boards on the same principle as in the previous years.

8. *Taxation.*—The incidence of taxation per head of population was As. 2–9 including and As. 2 excluding tolls against As. 2–10 and As. 2–1 respectively in the preceding year, the decrease being due to smaller receipts from both sources.

II.—Receipts.

9. *Opening balance.*—The year opened with an actual balance of Rs. 95,553 against an estimate of Rs. 52,210. The increase of Rs. 43,343 is due chiefly to enhanced receipts during the preceding year under tolls, ferries and school fees and to short expenditure under all the four grants. This opening balance exceeded the closing balance shown in the previous year's report by Rs. 569. This was made up of Rs. 566 adjusted from Provincial to Local funds in connection with the provincialization of board training schools sanctioned in G.O., No. 674 L., dated 9th April 1894, and of Rs. 3 being land-cess adjusted with reference to the latter part of paragraph 3 (1) of G.O., No. 1788 L., dated 12th September 1894. The alterations in the accounts of 1893–94 with reference to these items were made after the submission of our report to Government.

10. *Receipts.*—The current receipts of the local boards amounted to Rs. 2,36,610 against Rs. 2,32,590, the estimate of the year and Rs. 2,38,199, the actuals of the preceding year. The receipts under the several heads of revenue are compared below with those of the previous year:—

—	1893–94.	1894–95.	Percentage of total receipts. 1893–94.	Percentage of total receipts. 1894–95.
	Rs.	Rs.		
Rates and taxes—				
Cess on land	1,32,440	1,30,304	55·6	55·0
Tolls	47,426	47,031	19·9	19·9
Education—				
School fees	15,068	14,938	6·3	6·3
Other items	1,157	1,126	0·5	0·5
Medical	290	243	0·1	0·1
Interest	..	..	..	..
Miscellaneous	..	3	..	..
Contribution from private individuals—				
Choultry rents	24	6	..	..
Market	1,302	3,711	0·6	1·6
Bungalow fees	1,549	1,473	0·7	0·6
Fees and fines	1,018	1,433	0·4	0·6
Ferry rents	28,883	29,026	12·1	12·3
Avenues	2,008	1,253	0·9	0·5
Rents and produce of land	35	14	..	..
Sundry receipts	46	42	..	..
Public works	1,290	681	0·5	0·3
Contribution from Provincial funds	5,663	5,315	2·4	2·3
Contribution from Special funds	5	11	..	..
Total ..	2,38,199	2,36,610	100·0	100·0

11. *Land-cess.*—The total collections amounted to Rs. 1,30,304 and were 55 per cent. of the current receipts and 98·5 per cent. of the demand. The cess was levied at the rate of 1 anna and 6 pies in the rupee of assessment.

12. *Tolls.*—There were 15 toll-gates under the management of the district board and they were all leased out for the year for Rs. 47,003. Tolls were as usual levied at the maximum rates at all the gates. The total receipts of the year, including interest levied for late payment of kists by toll contractors and composition fees amounted to Rs. 47,031 against Rs. 47,426 for the preceding year. Deducting a sum of Rs. 280 spent on works, establishment, &c., the net income under this head amounted to Rs. 46,751 which was Rs. 44–15–2 per mile of roads maintained during the year and was equal to 67·1 per cent. of the total outlay on roads against 64·5 per cent. in 1893–94.

The whole of the demand for the year was realized.

13. *Educational.*—The educational receipts amounted to Rs. 16,064 against Rs. 16,225 in the preceding year. Under "School fees" there was an apparent decrease as compared with the actuals of the preceding year, but an increase of Rs. 1,128 as compared with the estimate. The apparent falling off was due to some of the amount payable into the treasury in 1892–93 having been remitted in 1893–94, thereby swelling the actuals of this year and the increase was due to improved attendance. The decrease in the sale-proceeds of books resulted from the posts of two colporteurs having remained vacant for some time.

14. *Medical.*—The total receipts under this head were Rs. 243 against Rs. 290 in the previous year. Only Rs. 99 worth of medicines was sold from the reserve stock. "Contribution from Municipalities," Rs. 100, is the amount annually paid by the Municipal Council of Mangalore towards the upkeep of the vaccine depôt in consideration of the lymph supplied to the council. The amount of miscellaneous receipts under this head represents the proceeds of unserviceable articles sold at the several hospitals and dispensaries and value of lymph supplied from the depôt to the Government hospitals in the district.

15. *Miscellaneous.*—Contribution from private individuals, Rs. 3. This amount was paid by the inhabitants of Udipi for the cost of a street lamp put up in that town.

16. *Choultry rent.*—Rupees 6 is the rent collected from the Registration Department for using the Musaferkhana at Baindur as a Sub-Registrar's office up to the end of May 1894. That department since vacated it and shifted to a building specially provided for it.

17. *Market rents.*—No new markets were opened during the year under report. The Puttur market having proved a failure, the taluk board has resolved to give over the building for the use of the Primary school. The remaining markets were popular and largely attended. Fees were levied at the several markets at rates varying from 1 to 3 pies per head-load. The right of collecting fees was leased out except at the Shankranaraina market where it was collected through Revenue agency. The actual receipts were Rs. 1,379 against Rs. 1,302 in the previous year. The receipts from some of the markets having been found inadequate to meet the cost of erecting sheds, credit was also taken for a contribution of Rs. 2,332 from General Local fund revenue as a loan to make up the deficiency under rule 25 of the Local Fund rules. A second shed for the sale of fish and a well have been sanctioned for the Udipi market. A substantial shed has also been sanctioned for the Kunjal market. The thatched roof of the Coondapoor weekly market was replaced by a tiled one and the fish market at that place was provided with a second substantial shed. A weekly fair held at Mulki is reported as not flourishing.

18. *Ferry rents.*—The receipts under this head exceeded the estimate. The excess was due to interest and penalties levied from ferry renters who failed to pay their instalments in time. The whole demand was realized.

19. *Bungalow fees.*—The receipts from bungalows amounted to Rs. 1,473 against Rs. 1,549 in the preceding year. The decrease resulted from the abolition of the District Bungalow Fund from January 1894 (*vide* paragraph 17 of last year's administration report printed in G.O., No. 1788 L.,) dated 12th September 1894. Nine hundred and ninety-seven travellers halted at the bungalows against 738 in the previous year. The condition of the bungalows is reported to be generally good, except Charmadi bungalow and Nagodi shed.

20. *Fees and fines.*—Rupees 1,020 were realized by the sale of the right of collecting fees during the cattle fair at Kulgunda on the occasion of the Jatra at Subramanya against Rs. 764 collected in 1893–94. This mainly contributed to enhance the receipts under this head. Cholera had prevailed at the place during the time of the previous year's festival. Fines collected under the Police Act and a sum of Rs. 26 levied for cleansing private latrines at Kasaragod were credited to this head.

21. *Avenues.*—There were 78,964 avenue trees in the beginning of the year, 53 trees were planted since and 675 were struck off the list, leaving at the end of March last 78,342 trees in existence. The income from this source, Rs. 1,253, fell short of that of the previous year by Rs. 755, the decrease being due to the sale of a smaller quantity of avenue clippings and fewer withered trees. Rupees 806 having been spent on the planting and maintenance of trees, the net profit on this head was Rupees 447. The condition of the trees is reported to be good.

22. *Sundry receipts.*—Rupees 42 were made up of the following items:—

	Rs.
Sale-proceeds of cow-dung and rubbish collected at cart-stands and market sites	18
Sale-proceeds of old bungalow furniture and crockery	22
Petty items	2
Total	42

II.—Receipts.

9. *Opening balance.*—The year opened with an actual balance of Rs. 95,553 against an estimate of Rs. 52,210. The increase of Rs. 43,343 is due chiefly to enhanced receipts during the preceding year under tolls, ferries and school fees and to short expenditure under all the four grants. This opening balance exceeded the closing balance shown in the previous year's report by Rs. 569. This was made up of Rs. 566 adjusted from Provincial to Local funds in connection with the provincialization of board training schools sanctioned in G.O., No. 674 L., dated 9th April 1894, and of Rs. 3 being land-cess adjusted with reference to the latter part of paragraph 3 (1) of G.O., No. 1788 L., dated 12th September 1894. The alterations in the accounts of 1893–94 with reference to these items were made after the submission of our report to Government.

10. *Receipts.*—The current receipts of the local boards amounted to Rs. 2,36,610 against Rs. 2,32,590, the estimate of the year and Rs. 2,38,199, the actuals of the preceding year. The receipts under the several heads of revenue are compared below with those of the previous year:—

—	1893–94.	1894–95.	Percentage of total receipts.	
			1893–94.	1894–95.
Rates and taxes—	Rs.	Rs.		
Cess on land	1,32,440	1,30,304	55·6	55·0
Tolls	47,426	47,031	19·9	19·9
Education—				
School fees	15,068	14,938	6·3	6·3
Other items	1,157	1,126	0·5	0·5
Medical	290	243	0·1	0·1
Interest	..	..	..	..
Miscellaneous	..	3	..	..
Contribution from private individuals—				
Choultry rents	24	6	..	..
Market ,,	1,302	3,711	0·6	1·6
Bungalow fees	1,549	1,473	0·7	0·6
Fees and fines	1,013	1,433	0·4	0·6
Ferry rents	28,883	29,026	12·1	12·3
Avenues	2,008	1,253	0·9	0·5

Contribution from Special funds	5	11	..	..
Total ..	2,38,199	2,36,610	100·0	100·0

11. *Land-cess.*—The total collections amounted to Rs. 1,30,304 and were 55 per cent. of the current receipts and 98·5 per cent. of the demand. The cess was levied at the rate of 1 anna and 6 pies in the rupee of assessment.

12. *Tolls.*—There were 15 toll-gates under the management of the district board and they were all leased out for the year for Rs. 47,003. Tolls were as usual levied at the maximum rates at all the gates. The total receipts of the year, including interest levied for late payment of kists by toll contractors and composition fees amounted to Rs. 47,031 against Rs. 47,426 for the preceding year. Deducting a sum of Rs. 280 spent on works, establishment, &c., the net income under this head amounted to Rs. 46,751 which was Rs. 44–15–2 per mile of roads maintained during the year and was equal to 67·1 per cent. of the total outlay on roads against 64·5 per cent. in 1893–94.

The whole of the demand for the year was realized.

13. *Educational.*—The educational receipts amounted to Rs. 16,064 against Rs. 16,225 in the preceding year. Under "School fees" there was an apparent decrease as compared with the actuals of the preceding year, but an increase of Rs. 1,428 as compared with the estimate. The apparent falling off was due to some of the amount payable into the treasury in 1892–93 having been remitted in 1893–94, thereby swelling the actuals of this year and the increase was due to improved attendance. The decrease in the sale-proceeds of books resulted from the posts of two colporteurs having remained vacant for some time.

14. *Medical.*—The total receipts under this head were Rs. 243 against Rs. 290 in the previous year. Only Rs. 99 worth of medicines was sold from the reserve stock. "Contribution from Municipalities," Rs. 100, is the amount annually paid by the Municipal Council of Mangalore towards the upkeep of the vaccine depôt in consideration of the lymph supplied to the council. The amount of miscellaneous receipts under this head represents the proceeds of unserviceable articles sold at the several hospitals and dispensaries and value of lymph supplied from the depôt to the Government hospitals in the district.

15. *Miscellaneous.*—Contribution from private individuals, Rs. 3. This amount was paid by the inhabitants of Udipi for the cost of a street lamp put up in that town.

16. *Choultry rent.*—Rupees 6 is the rent collected from the Registration Department for using the Musaferkhana at Baindur as a Sub-Registrar's office up to the end of May 1894. That department since vacated it and shifted to a building specially provided for it.

17. *Market rents.*—No new markets were opened during the year under report. The Puttur market having proved a failure, the taluk board has resolved to give over the building for the use of the Primary school. The remaining markets were popular and largely attended. Fees were levied at the several markets at rates varying from 1 to 3 pies per head-load. The right of collecting fees was leased out except at the Shankranaraina market where it was collected through Revenue agency. The actual receipts were Rs. 1,379 against Rs. 1,302 in the previous year. The receipts from some of the markets having been found inadequate to meet the cost of erecting sheds, credit was also taken for a contribution of Rs. 2,332 from General Local fund revenue as a loan to make up the deficiency under rule 25 of the Local Fund rules. A second shed for the sale of fish and a well have been sanctioned for the Udipi market. A substantial shed has also been sanctioned for the Kunjal market. The thatched roof of the Coondapoor weekly market was replaced by a tiled one and the fish market at that place was provided with a second substantial shed. A weekly fair held at Mulki is reported as not flourishing.

18. *Ferry rents.*—The receipts under this head exceeded the estimate. The excess was due to interest and penalties levied from ferry renters who failed to pay their instalments in time. The whole demand was realized.

19. *Bungalow fees.*—The receipts from bungalows amounted to Rs. 1,473 against Rs. 1,549 in the preceding year. The decrease resulted from the abolition of the District Bungalow Fund from January 1894 (*vide* paragraph 17 of last year's administration report printed in G.O., No. 1788 L.,) dated 12th September 1894. Nine hundred and ninety-seven travellers halted at the bungalows against 738 in the previous year. The condition of the bungalows is reported to be generally good, except Charmadi bungalow and Nagodi shed.

20. *Fees and fines.*—Rupees 1,020 were realized by the sale of the right of collecting fees during the cattle fair at Kulgunda on the occasion of the Jatra at Subramanya against Rs. 764 collected in 1893–94. This mainly contributed to enhance the receipts under this head. Cholera had prevailed at the place during the time of the previous year's festival. Fines collected under the Police Act and a sum of Rs. 26 levied for cleansing private latrines at Kasaragod were credited to this head.

21. *Avenues.*—There were 78,964 avenue trees in the beginning of the year, 53 trees were planted since and 675 were struck off the list, leaving at the end of March last 78,342 trees in existence. The income from this source, Rs. 1,253, fell short of that of the previous year by Rs. 755, the decrease being due to the sale of a smaller quantity of avenue clippings and fewer withered trees. Rupees 806 having been spent on the planting and maintenance of trees, the net profit on this head was Rupees 447. The condition of the trees is reported to be good.

22. *Sundry receipts.*—Rupees 42 were made up of the following items:—

	Rs.
Sale-proceeds of cow-dung and rubbish collected at cart-stands and market sites	18
Sale-proceeds of old bungalow furniture and crockery	22
Petty items	2
Total	42

23. *Public Works.*—Of the sum of Rs. 55 appearing against contributions from private individuals, Rs. 50 was contributed by M.R.Ry. Manjeshwar Siva Rau towards the improvement of water-supply in the Kasaragod taluk and Rs. 5-4-0 was paid by the inhabitants of Puttur towards the repair of the road leading to the Hindu cremation ground. Miscellaneous receipts under this head are composed of Rs. 68, fees paid by private individuals for plans and estimates prepared for them by the Local Fund Engineer, Rs. 100, rent of a portion of the Jeppu quay used by the Basel Mission and Rs. 17 a sum of petty items.

24. *Contribution from Provincial Funds.*—The details of the receipts are given below :—

	Rs.
Salary grant to the teachers of the Board High school, Coondapoor	1,067
Result grant to Board Middle schools	1,226
Result grant to Board Primary schools	2,760
Furniture grant to the Board Middle school, Puttur	50
Total ...	5,103

The decrease as compared with the estimate is chiefly due to the payment of result grant to the middle schools on the "Assignment system" introduced during the year.

25. *Building grant.*—Rupees 212 was paid from Provincial funds in aid of the Board Primary school buildings at Mangalpete, Tallur and Hosdrug.

III.—Expenditure.

26. Excluding debt heads, Rs. 20,673, the total charges amounted to Rs. 2,18,273 against Rs. 2,24,509 in the previous year. There was a decrease under Grants I, II and IV and an increase under Grant III, Medical and Sanitation. The expenditure under the principal heads and the percentage of outlay under each grant to the total outlay are contrasted below with the corresponding figures of the preceding year :—

Grants.	1893-94.	1894-95.	Percentage. 1893-94.	Percentage. 1894-95.
Grant I.	Rs.	Rs.		
Communications	99,790	85,940	..	..
Buildings	9,598	9,027	..	..
Miscellaneous public improvements	2,879	3,018	..	..
Establishment and contingencies	22,821	23,300	..	..
Tools and plant	1,887	1,455	..	..
Miscellaneous, including refunds of receipts	28	40	..	..
Total ..	1,37,003	1,22,780	61	56
Grant II.				
Education	42,520	41,178	..	..
Miscellaneous, including refunds	1,483	1,783	..	..
Total ..	44,003	42,961	20	20
Grant III.				
Hospitals and Dispensaries including Medical pupils, Midwives, Midwifery pupils and District Medical officer's establishment.	18,073	22,448	..	..
Vaccination	5,972	6,593	..	..
Sanitation	4,967	5,906	..	..
Markets	4	5	..	..
Bungalows	838	1,087	..	..
Choultries	334	324	..	..
Contributions to Provincial, &c., funds	1,783	2,308	..	..
Miscellaneous	217	2,763	..	..
Total ..	32,188	41,434	14	19
Grant IV.				
Supervision and management	11,315	11,096	..	..
Refunds	..	2	..	..
Total ..	11,315	11,098	5	5
Total, Expenditure ..	2,24,509	2,18,273	100	100

27. *Grant I, Public Works.*—The total outlay on public works, Rs. 97,993, fell short of the allotment, Rs. 1,58,040, by Rs. 60,047. The fall was specially under new works and amounted to Rs. 52,395.

28. The district board and the Local Fund Engineer made every effort to spend the whole grant for new works during the year as ordered in paragraph 5 of G.O., No. 1788 L., dated 12th September 1894 ; but for obvious reasons explained below their efforts were frustrated :—

(1) The allotment provided for the following works remained unutilized owing to the delay in receipt of sanction to their estimates :—

Name of work.	Amount allotted during the year.	Date of submission for sanction.	Date of sanction.
	Rs.		
Kadimbilla bridge	10,000	October 1892 ..	January 1895.
Sullya bridge	15,000	January 1893 ..	May ,,
Hossangadi bridge	2,000	November 1894 ..	February ,,
Yenoor bridge	2,000	Do. ..	Do. ,,

(2) An allotment of Rs. 5,000 provided for the Yermal bridge lapsed as an estimate for the work was not received in time. The Engineer states that the preparation of the estimate was delayed owing to the large amount of out-door work in connection with it. The district map did not give information about the catchment basin and elaborate survey had to be undertaken.

(3) The district board resolved that ferry renters should provide their own boats and that the system of providing them with boats from the board's funds should be discontinued. Nearly Rs. 2,500 allotted for the purchase of boats remained therefore unspent and there is a corresponding decrease in the receipts from ferry rents in 1895-96.

(4) Certain new works were for some reason or other commenced late in the year and a sum of Rs. 3,200 out of their allotment remained unspent.

(5) Out of a total allotment of Rs. 3,000 provided for constructing quarters for the medical subordinate at Puttur and for constructing a hospital and providing quarters for the medical subordinate at Mulki, only about Rs. 150 were spent during the year, the works having been held in abeyance. The Taluk Board President stated that the civil apothecary at Puttur did not require the proposed quarters. The allotment supplied for quarters and a new hospital at Mulki was appropriated by the taluk board solely for the hospital and they called for a revised estimate for a hospital only which would utilize the whole amount, thus postponing the building of quarters and allowing the whole provision to lapse.

(6) A sum of Rs. 1,710 provided for the Oomilar bridge remained unspent as the iron superstructure locally ordered for the work was not supplied by the contractor and payment could not be made.

(7) Details for a revised estimate for the Pollotte bridge were not available in time to admit of the allotment sanctioned for the work being fully utilized. Hence Rs. 1,525 out of the funds provided for this work remained unspent.

The short expenditure on other items has been explained in the accompanying statement No. III.

29. *Important projects.*—The following important works were undertaken during the year :—

	Rs.
1. Constructing the Pollotte bridge	1,195
2. Renewing the Kallukatta bridge	944
3. Do. the superstructure of the Condadi bridge	1,323
4. Constructing the Panambur-Karnad road	2,923
5. Do. the Bajpe Suratkal road	1,154
6. Gravelling coast road north of Mabukal	2,195
7. Do. do. do. of Yadamavinahólé	2,118

23. *Public Works.*—Of the sum of Rs. 55 appearing against contributions from private individuals, Rs. 50 was contributed by M.R.Ry. Manjeshwar Siva Rau towards the improvement of water-supply in the Kasaragod taluk and Rs. 5-4-0 was paid by the inhabitants of Puttur towards the repair of the road leading to the Hindu cremation ground. Miscellaneous receipts under this head are composed of Rs. 68, fees paid by private individuals for plans and estimates prepared for them by the Local Fund Engineer, Rs. 100, rent of a portion of the Jeppu quay used by the Basel Mission and Rs. 17 a sum of petty items.

24. *Contribution from Provincial Funds.*—The details of the receipts are given below :—

	Rs.
Salary grant to the teachers of the Board High school, Coondapoor	1,067
Result grant to Board Middle schools	1,226
Result grant to Board Primary schools	2,760
Furniture grant to the Board Middle school, Puttur	50
Total ...	5,103

The decrease as compared with the estimate is chiefly due to the payment of result grant to the middle schools on the "Assignment system" introduced during the year.

25. *Building grant.*—Rupees 212 was paid from Provincial funds in aid of the Board Primary school buildings at Mangalpete, Tallur and Hosdrug.

III.—Expenditure.

26. Excluding debt heads, Rs. 20,673, the total charges amounted to Rs. 2,18,273 against Rs. 2,24,509 in the previous year. There was a decrease under Grants I, II and IV and an increase under Grant III, Medical and Sanitation. The expenditure under the principal heads and the percentage of outlay under each grant to the total outlay are contrasted below with the corresponding figures of the preceding year :—

(6) A sum of Rs. 1,710 provided for the Oomilar bridge remained unspent as the iron superstructure locally ordered for the work was not supplied by the contractor and payment could not be made.

(7) Details for a revised estimate for the Pollotte bridge were not available in time to admit of the allotment sanctioned for the work being fully utilized. Hence Rs. 1,525 out of the funds provided for this work remained unspent.

The short expenditure on other items has been explained in the accompanying statement No. III.

29. *Important projects.*—The following important works were undertaken during the year :—

	Rs.
1. Constructing the Pollotte bridge	1,195
2. Renewing the Kallukatta bridge	944
3. Do. the superstructure of the Condadi bridge	1,323
4. Constructing the Panambur-Karnad road	2,923
5. Do. the Bajpe Suratkal road	1,154
6. Gravelling coast road north of Mabukal	2,195
7. Do. do. do. of Yadamavinahólé	2,118

Item No. 1 is on the main line of communication between Mysore and South Canara. Items Nos. 2 and 3 stand on important roads leading from Sampaje and Agumbi ghât roads to the coast in the Kasaragod and Udipi taluks, respectively. These two works were completed during the year. Item No. 2 had been commenced in 1893–94 at an estimated outlay of Rs. 6,500. Item No. 4 which forms part of the coast road in the Mangalore taluk was commenced in 1888–89 at an estimated outlay of Rs. 45,370. A sum of Rs. 21,873 was spent on it up to the end of last year. Item No. 5 is a useful village road which opens communication between the inland villages and Suratkal on the coast in Mangalore taluk. Items Nos. 6 and 7, which were sandy tracks forming part of the coast road in the Udipi and Coondapoor taluks, respectively, were gravelled to make them fit for cart traffic.

30. *Roads.*—Statement IV-A gives the statistics of roads. Twenty-seven miles of village roads were constructed during the year at an outlay of Rs. 3,411 raising the mileage of roads from 1,815 to 1,842. Of these 1,040 miles were maintained during the year at a cost of Rs. 59,789 against 1,038 miles at a cost of Rs. 62,952 during the preceding year, the decrease occurring under village and district roads. The expenditure on village roads, Rs. 6,889, was 71·1 per cent. of the allotment against Rs. 6,977 and 79·7 per cent., respectively, in the preceding year. The amount appearing under new taluk roads constructed represents the cost of gravelling and improving portions of the coast road and of improving a small road in the Udipi taluk.

31. *Buildings.*—The outlay on civil buildings was Rs. 9,027 against Rs. 9,598 in the previous year. Rs. 7,173 was spent on new works and Rs. 1,854 on repairs. The principal buildings constructed were the travellers' bungalows at Beltangadi, Brahmavar and Coondapoor. The first two buildings were completed during the year and the work of the third was nearly finished.

32. *Miscellaneous Public Improvements.*—The expenditure under this head amounted to Rs. 3,018 as shown below against Rs. 2,879 in the previous year :—

	Rs.
Avenues	806
Markets	238
Latrines	1,683
	291
Total ...	3,018

Three new wells were sunk, one at Mulki and two in the Town of Udipi, but their steining was not completed. The market sheds erected are named in paragraph 17 *supra*. Rs. 370 was sanctioned for two latrines of corrugated iron for the town of Coondapoor. One latrine was completed, but the iron work remained to be fixed on the other.

33. *Local Fund Engineering establishment and contingencies.*—The total expenditure under these heads amounted to Rs. 23,208 or 24 per cent. of the outlay on works executed by the department against Rs. 22,251 or 20·1 per cent. in the previous year. The high percentage is due to short outlay on works explained above. The district board maintained the same Engineering establishment as in the previous year and its entire cost (Rs. 21,211) was, as usual, debited to the district board's funds. During the year the Engineer's salary was raised from Rs. 425 to Rs. 500 and the salary of the supervisor's lascar from Rs. 6 to Rs. 7. This accounts for the increase in the cost of the establishment over that of the preceding year.

34. *Tools and plant.*—The expenditure on tools and plant amounted to Rs. 1,455 or 1·4 per cent. of the total outlay on works against Rs. 1,887 or 1·6 per cent. in the preceding year. Though the expenditure falls short of the estimate, it exceeds the prescribed limit of 1 per cent. by reason of the decrease in the outlay on works.

35. *Refund of Receipts.*—Rs. 40 represents the amount of rent and fines refunded to two ferry contractors.

36. *Grant II, Education.*—Statistics relating to the educational operations of the boards having been received only in part from the Educational officers the portion of the report relating to Grant II and the statements connected with it are not submitted herewith, but will follow.

37. *Grant III, Medical Services, &c., Hospitals and Dispensaries.*—The number of these institutions remained the same as in the previous year, viz., six hospitals and ten dispensaries. All the hospitals were officered by civil apothecaries and the dispensaries by hospital assistants. Two of the latter class of subordinates were Government servants, seven local fund servants and one a private hospital assistant taken into the service of the board. All the medical subordinates were natives of the district, except two, the civil apothecary in charge of the hospital at Bantval and the hospital assistant in charge of the dispensary at Hosdrug. In the hospitals accommodation for in-patients continued to be 44.

In all the institutions 75,188 (353 in and 74,835 out) patients were treated against 67,270 (345 in and 66,925 out) patients in the preceding year, or 7·4 per cent. of the total population against 6·6 per cent. The large and progressive increase in attendance is satisfactory and shows that these institutions are steadily growing in pupularity and that the European mode of treatment is fast gaining the confidence of the people.

During the year under report the Jalsoor dispensary was transferred to Sullia and located in a building hired for the purpose. The transfer was sanctioned in G.O., Mis. No. 1859 L., dated 24th August 1893. Quarters are provided for the hospital assistant at Hebri.

All the hospital sub-committees have been abolished, except the one at Bantval and another at Puttur; but these never met during the year.

Compounders were employed at the hospitals at Bantval, Udipi, Coondapoor and Kasaragod. Provision has been made for the employment of such servants in the remaining hospitals at Karkal and Puttur during the current year.

The total cost of maintaining these institutions was Rs. 19,820 against Rs. 15,028 in the previous year and the average cost of treating each patient was As. 4–3 against As. 3–7. The chief cause of this apparent increase in cost is that payments for medicines in the previous year 1893–94 were only Rs. 880, whereas last year Rs. 4,483 was disbursed. The valuation statements not having been received in time, payments could not be made in 1893–94 and the cost seemed unduly small.

38. *Medical pupils.*—There were three pupils under training at Madras and one intended for reserve duty and entertained from October last was going through his pre-collegiate course in the Wenlock hospital at Mangalore. One of the former had returned to Mangalore in March 1894 on the score of ill-health. He rejoined the Medical College after his recovery in October last after an absence of seven months. The cost on account of these students amounted to Rs. 345 against Rs. 360, the budget estimate.

39. *Midwives.*—The number of midwives continued to be eight. They attended 826 labour cases or on an average 8·6 cases a month against 803 or 8·3 per mensem in the previous year. The Udipi midwife attended 151 cases, Karkal 161, Coondapoor 136, Kasaragod 96, Mulki 75, Bantval 100, Puttur 85 and Mudbidri 22. The average cost per case was Rs. 1–8–1 against Rs. 1–8–5 in 1893–94. Besides their pay, all the midwives were paid house-rent at Re. 1 each per mensem, except the midwife at Puttur, who was paid at the rate of Rs. 2. The midwives in the Mangalore, Kasaragod and Uppinangadi taluks were paid conveyance allowance at As. 2 a mile for attending cases at a distance of over two miles. The midwives at Udipi, Coondapoor and Karkal were paid extra remuneration at Re. 1 a case over a minimum of 140, 150 and 100 cases, respectively, in the year. The midwives at Puttur and Kasaragod were given As. 12 and As. 8 per case over a monthly minimum of 7 and 8 cases, respectively.

40. *Medical training of Women.*—The Board contributes Rs. 1,000 towards the Women and Children's hospital at Mangalore, where it is advised by the District Medical officer a female pupil should be placed and a scholarship founded for her training.

41. *Vaccination.*—The vaccine staff maintained by the district board consisted as in the preceding year of two deputy inspectors, six first-class, ten second-class vaccinators and nine probationers.

The total number of operations performed by the vaccine department was 34,684, of which 21,700 or 62·5 per cent. were successful against 33,979 out of 37,798, giving a percentage of 89·8 in 1893–94.

In addition to these, 356 operations were performed by medical subordinates, of which 200 were successful against 406 and 296, respectively, last year.

The statistics of infantile vaccination are noted below. It will be seen that the figures do not favourably compare with those of the previous year.

1893–94	3,114
1894–95	1,806

Of the total number of operations under this head, 43 were performed by medical subordinates, of which 23 were successful, 17 were unsuccessful and 3 unknown. The number of births being 32,910 during the year, the outturn bears a ratio of 54·8 per mille against 85·3 per mille in 1893–94.

42. The large decrease in the number of operations is chiefly ascribed to absence of small-pox in the Northern division and the temporary incompleteness of part of the staff during the year; while the increase in the number of unsuccessful cases is due to the defective quality of the lymph supplied from the animal depôt maintained at head-quarters. The failure in the quality of the lymph had been noticed so far back as December 1893 and when it recurred in the subsequent months also, Mr. Dance asked the District Medical and Sanitary officer to report why lymph was so often reported to be bad, who were chiefly to blame for it, and what measures he had taken to remedy the defects. In reply that officer stated that during the months of September, October and November 1893 the supply of calves for inoculation was, in spite of stringent orders, so irregular that the calves had often to be inoculated with paste lymph instead of fresh lymph direct from the calf; that arrangements had been made for a regular supply of calves; and that fresh lymph had been obtained from Tellicherry, Calicut and Madras, of which the Madras lymph alone proved successful.

Again in the months of July, August and November 1894 the quality of the lymph having been complained against, Mr. Dance repeatedly called the attention of the District Medical and Sanitary officer to it in view to matters being improved. Subsequently lanoline lymph from Bangalore was used to inoculate a fresh series of calves owing to the failure of the lymph in the depôt and at every third inoculation, humanized lymph was added to keep up the virulence of the lymph. The depôt vaccinator was also instructed to make the scarifications deep enough and to ensure this being done, he was ordered to use the lancet fixed to a piece of wood like a pen. Much attention was also paid to the stabling of calves. With all these precautions, there was a marked deterioration in the character of the lymph throughout the greater part of the year. Dr. Lee was of opinion that this result was chiefly due to failure to renew the source when the deterioration was first observed, but partly also to neglect of minor details and lack of vigilant supervision. It is, however, gratifying to hear from that officer that M.R.Ry., Chandrasekara Mudaliyar, the present Assistant Surgeon, is devoting much attention to this important matter. It was considered whether we should adopt the system of inoculating calves locally and taking them round the country. But the scattered nature of the population and the impossibility of taking calves along the steep paths and the narrow paddy bunds and through the narrow passes between walls are fatal to the proposal. The district board has recently sanctioned the purchase of Saigon tubes to be used instead of bottles as advised by the District Medical and Sanitary officer.

Dr. Lee remarks that the retrogression in vaccination may be partly due to the fact that the vaccinators are men of very inferior qualifications and the deputy inspectors are not as able as such officials should be. He thinks that better educated men, whom the hospital assistant class could provide, should be selected, and that preference should be given to natives of the district.

The district board has since sanctioned a further proposal of Dr. Lee that three pupil-vaccinators should be trained at the animal depôt, so that there may be trained hands ready to fill permanent and temporary vacancies, whereas hitherto the nominees of vaccinators, many of whom were of bad physique and unfit for hard work, have found their way into the staff for want of better men.

The failure of lymph has entirely upset the system by which discipline was enforced in the staff. When the lymph is uniformly of fair quality, incompetent and lazy vaccinators are fined on a fixed scale when their outturn is short of the minimum.

It was impossible to enforce this, as the successful results evidently bore no proportion to the exertions of the vaccinators. Some of the best vaccinators showed worse than those who do not exert themselves.

It has become necessary to note which batch of lymph was sent to certain vaccinators and compare their outturn. This complicated procedure was not in force in the year under report. It follows that rewards and punishments no longer followed good and bad work.

In places where there is opposition to vaccination, the failure of lymph must have acted with double force. Where we are working uphill and a number of subjects have with difficulty been obtained, it must be very disheartening to find that the operations came to nothing, and it may be difficult to get the same subjects to come forward again. The total number of operations successful and unsuccessful fell below last year's figures.

43. During the year under review only preserved animal lymph (glycerine paste) is reported to have been used for vaccination.

44. The total cost on account of vaccination amounted to Rs. 6,593 and the average cost of each successful case was As. 4–10 against Rs. 5,972–6–0 and As. 2–4, respectively, in the preceding year.

The decrease in the charges as compared with the estimate, Rs. 7,260, was chiefly due to some of the bills not having been submitted in time before the close of the year. Savings were also effected by the transfer to Malabar of the first-class deputy inspector. Until his successor arrived after two months a first-class vaccinator was in charge of the office. The present deputy inspector drew only Rs. 60 per mensem as his salary under instructions from the Sanitary Commissioner against Rs. 70 provided in the budget as usual.

45. *Sanitation.*—Excluding the cost of wells and latrines Rs. 529 debited to Grant I, a sum of Rs. 5,898 was spent on sanitation against Rs. 4,967 in the preceding year as shown below :—

	1894–95.	1893–94.
	Rs.	Rs.
1. Improvement of water-supply	1,251	669
2. Scavengering establishment	3,377	2,984
3. Arrangements at fairs and festivals	1,088	984
4. Other sanitary outlay	182	330
Total ...	5,898	4,967

46. The sum of Rs. 1,251 standing against "improvement of water-supply" was spent on sinking, improving and repairing wells. The decrease under the estimate was due to the non-completion of the work of some of the wells provided for during the year and to the allotment sanctioned for a well at Coondapoor having lapsed, the work having been put off pending selection of a proper site.

47. Twenty towns and villages were provided with conservancy establishments as in the previous year. Four additional sweepers were entertained for the town of Udipi and one for Baindur. As the work at Hosdrug was found to be too much for one sweeper, the sweeper at Nileshwar was transferred thither and the Kotépoor sweeper made to attend to Nileshwar in addition to Kotépoor. The work of the conservancy establishments was supervised by the medical subordinates where there are hospitals and dispensaries and at other places by revenue officials. The District Medical and Sanitary officer's recommendation that unions should be formed is one which I cannot support at present when the population is sufficiently burdened with new taxation in various forms, such as abkári tree tax, contributions to the revenue survey and demarcation of their land and the new Tariff Act. The scavengering of the town of Udipi is the matter which appears chiefly to need attention.

48. Arrangements at fairs and festivals were made at nineteen different places against fourteen in the previous year. Medical subordinates were specially deputed to supervise the sanitary arrangements at two important places, viz., Subramanya and Dharmastala. No epidemics were reported. The decrease under the estimate represents savings.

49. The short expenditure under "other sanitary outlay" was due to nearly the whole of the allotment under the head having been left unutilized by the Udipi and Coondapoor taluk boards. The allotment was intended by the boards for the purchase of iron latrines, but the non-settlement of their prices within the year resulted in the large balance left.

50. The total cost on account of sanitation, including Rs. 529, the cost of the sanitary works debited to Grant I, was 70·2 per cent. of the allotment against 77·6 per cent. in the previous year.

51. Public health was far from good. Small-pox prevailed in the south of the district resulting in 156 deaths. Cholera also appeared for a short time in the neighbourhood of Mudabidri. The medical subordinate of that station was specially deputed to the infected villages. Twenty-eight persons were reported to have been attacked, of whom fifteen succumbed to the disease. Mortality from fever was unusually high, 9,264 deaths having been registered from this cause. The total number of deaths from all causes was 21,676 and the death rate 21·35 per mille of population.

A copy of the District Medical and Sanitary officer's report is enclosed.

52. *Public bungalows.*—The decrease observable under this head was chiefly due to the provision of about Rs. 845 made for furnishing some of the bungalows in the district having not been actually disbursed. The contractor did not finish the furniture ordered before the close of the year and it is only now being delivered.

53. *Contributions.*—The amount of contributions to Provincial services was the actual amount of expenditure advised by the Accountant-General. Rs. 600 was as usual paid to the Municipal Council, Mangalore, towards the cost of the Wenlock hospital. The council was also paid a sum of Rs. 520 being the proportionate part of the annual contribution of Rs. 1,000 sanctioned in G.O., Mis. No. 1200 L., dated 29th June 1894, in aid of the hospital for women and children opened by the council on the 24th September 1894. The usual grant of Rs. 250 was paid to the leper asylum at Jeppu (now transferred to Kankanadi).

54. *Miscellaneous.*—Credit having been taken under receipts from markets for a contribution of Rs. 2,332 as a loan from general local fund revenues for reasons stated in paragraph 17 *supra*, an equal amount has been entered on the side of charges. Rewards for killing dogs and cobras were paid by the Mangalore and Udipi taluk boards. Rs. 30 provided by the Coondapoor taluk board for this purpose lapsed, as there were no claims during the year. Six street lamps were put up in the town of Coondapoor and six lamps in addition to the twelve that already existed were provided for the town of Udipi. Eight lamps were maintained in the town of Kasaragod as in the previous year.

55. *Grant IV, Supervision and office management.*—The expenditure under this grant amounted to Rs. 11,098 and was 3·3 per cent. of the total receipts and 5 per cent. of the total charges against 3·6 per cent. and 5 per cent., respectively, in the previous year. The decrease seen under the head Local Boards Office Establishment was due to the establishments of the district and Mangalore taluk boards having drawn their pay at rates lower than those provided in the budget; Government refused sanction to the higher rates recommended for the district board's office clerks, and a clerk of the Mangalore taluk board's office drew the minimum rate of the pay of his post as he was newly appointed to it. Rs. 3,000 provided for the formation of a Provident fund for the benefit of the local fund employés under the head "pensions" was surrendered in framing the regular budget for the year pending the drawing up of a scheme.

The strength of the establishments entertained by the several local boards remained the same as in the previous year.

A sum of Rs. 85 appearing against "Law charges" represents the expenses incurred by the Udipi taluk board for the defence of the appeal suits filed by the trustees of the Anantheshwar temple at Udipi. The matter in dispute was referred to in paragraph 58 of the local fund administration report printed in G.O., No. 2023 L., dated 15th September 1892.

56. *Allotments from District Funds.*—The district board made the following allotments to the several taluk boards:—

	Rs.
Mangalore	8,351
Kasaragod	8,484
Uppinangadi	8,185
Udipi	11,040
Coondapoor	12,818

57. *Endowments.*—The only endowed institutions in the district were the markets shown in statement No. VI. The total receipts from the markets were Rs. 4,174 and the total charges Rs. 1,688, leaving a closing balance of Rs. 2,486.

58. *Local Fund Accounts.*—The Assistant Inspector of Local Fund Accounts inspected the accounts of the district for the period from March 1893 to February 1894. He reported that the general result of the inspection was on the whole satisfactory.

Enclosure.

Report on the working of Local Fund hospitals and dispensaries of South Canara district for the official year 1894–95, No. 856.

I. Public health and vital statistics.—The number of births and deaths in the year with the causes of the latter was as follows:—

Deaths.										Births.		
Cholera.	Small-pox.	Fevers.	Dysentery and diarrhœa.	Suicide.	Accidents.	Snake-bite.	Killed by wild beasts.	All other causes.	Total.	Males.	Females.	Total.
15	156	9,264	1,242	73	323	94	3	10,506	21,676	16,960	15,950	32,910

Death-rate per mille	21·35
Birth-rate „	32·4

The health of the district was not so good as in the preceding year, the mortality from fevers having considerably exceeded the average.

There were no abnormal seasonal phenomena and crops were generally good. The rainfall at Mangalore was 122·65 inches.

The district was free from cholera throughout most of the year, but towards the close of March a few cases occurred in the villages of Sanur, Kanthavar, Ladi and Pranthaya of the Mudbidri division. Most of those attacked were either on their way back or had recently returned from coffee estates above the ghâts where they had been employed. The hospital assistant at Mudbidri was deputed on special duty to the infected villages. He reported that 28 persons in all were attacked, of whom 13 recovered and the rest succumbed to the malady. The mortality from all other causes did not exceed the usual average.

II. Sanitation.—Conservancy establishments are maintained in twenty towns and villages, but seven of the latter have only one sweeper each. In towns where there are hospitals or dispensaries the work is supervised by medical subordinates, but elsewhere it is neglected, and the sweeper becomes more or less a private servant. The number of public latrines in the larger towns is still very insufficient, and no system of private scavengering has been introduced anywhere except in a few cases where voluntary but inadequate arrangements are made by the house-holders themselves. The Civil Apothecary of Udipi's remarks on this subject are typical of the state of affairs elsewhere. He writes— "A good number of the private compounds have latrines of their own, but a large number have none, either because the owners are too poor or too stingy to spend any money, or, as in a few instances, there is not sufficient space for constructing a latrine, and the result is that the lanes and alleys and even some of the principal streets are freely resorted to for purposes of nature." This is no exaggerated picture as I have myself witnessed the disgusting practices alluded to. Public latrines are, as before observed, too few in number and are often placed in out-of-the-way localities and therefore seldom resorted to, while some large villages, such as Karkal and Bantvál, have no public latrines at all.

I am of opinion that the only efficacious remedy for this state of things is to form the towns of Coondapoor, Udipi, Karkal, Mulki, Bantvál, Puttur and Kasaragod into unions; the second on the list—Udipi—might indeed be constituted a municipality. Funds could then be raised to provide adequate conservancy establishments, such as the taluk boards with so many demands on their slender resources can ill-afford.

Excluding the Nilgiris, unions have now been established in every district throughout the Presidency excepting Malabar and Canara, though it cannot be maintained that there are any exceptional conditions in this district to prejudice their utility; on the contrary I am convinced that their operations in the places indicated would be attended with much and substantial advantage.

The expenditure on public wells is still below requirements. Good wells should be provided at each of the halting places for carts on the trunk roads, and the number of deep wells along the foot of the ghâts, where malarial fevers and enlarged spleen prevail, should be increased.

Funds for this important object would be available were the cost of the Sanitary establishments now maintained in the large towns and villages borne by the persons benefited, *i.e.*, their inhabitants either chiefly or altogether, instead of by the taluk boards.

III. Vaccination.—The number of vaccinations performed by the vaccine department and by medical subordinates is shown in the subjoined statements:—

By Vaccinators.

Year.	Total vaccinated.				Under one year of age.			
	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
1893–94	33,979	2,924	895	37,798	2,784	255	58	3,097
1894–95	21,700	11,085	1,899	34,684	978	710	75	1,763

By Medical Subordinates.

Year.	Total vaccinated.				Under one year of age.			
	Successful.	Unsuccessful.	Unknown.	Tota .	Successful.	Unsuccessful.	Unknown.	Total.
1893–94	296	73	37	406	11	3	3	17
1894–95	200	126	30	356	23	17	3	43

There is a falling off in the total vaccinated by the vaccine department of 3,114 as compared with the previous year and of 10,789 as compared with 1892–93, while the percentage of successful cases likewise exhibits a marked reduction, having been only 61·4 in the Northern Range and 61·6 in the Southern Range, as compared with 92 per cent. in 1893–94 and 97·5 per cent. in 1892–93. The Deputy Inspector, Northern Range, attributes the reduction in the number of operations in his division to (1) the absence of small-pox, (2) the incompleteness of the staff for nearly three-fourths of the year, and (3) the defective quality of the preserved animal lymph supplied from the head-quarter depôt.

The Deputy Inspector, Southern Range, attributes the increase in his division to the appearance of small-pox in Hosdrug and neighbouring villages and in some villages near Kasaragod. He adds that the increase would have been greater had it not been for "the failure of lymph supply from the depôt on several occasions in consequence of which the vaccinators were without lymph for considerable lengths of time." He is of opinion that the large proportion of failures was due to the ineffective character of the lymph supplied, especially in the months of December, January and February, but also in April, July, August and November as well.

The net cost of working the animal vaccine depôt at Mangalore was Rs. 661–4–6, the expenditure on establishment being Rs. 323–6–9, and on hire of calves, feeding charges and contingencies Rs. 442–5–9; while the receipts (including Rs. 100 contributed by the Mangalore municipality) were Rs. 104–8–0.

There has unfortunately been a marked deterioration in the character of the lymph throughout most of the year, due, I believe, chiefly to failure to renew the source when this deterioration was first observed, but partly also to neglect of minor details always liable to occur when vigilant supervision is lacking. The present Assistant Surgeon, M.R.Ry. Chandrasekara Mudaliyar, is devoting much attention to this important matter, and lymph from fresh sources—Mysore and Madras—has been used to renew the stock, so better results may be confidently anticipated in the coming year. The emoluments of vaccinators have been increased and this long-needed measure will, it is hoped, attract a better stamp of men to the department, the recruiting of which has for years past been very unsatisfactory. Mistaken leniency to vaccinators frequently reported for serious breaches of departmental rules is much to be deprecated since it encourages them in such practices and weakens the authority and influence of the deputy inspectors. These latter, too, are neither so able or energetic as such officials should be. Better educated men, whom the hospital assistant class could provide, should be selected. They would, especially if natives of the district, be far in a way better than the natives of Malabar whom the Inspector of Vaccination usually appoints and whose sole aim seems to be to get a transfer as soon as they can.

With reference to paragraph 4 (4) of G.O., No. 1788 L., dated 12th September 1894, preserved animal lymph (glycerine paste) only was used for vaccination in the year under review.

When calves are being inoculated from a previously vaccinated animal, a small quantity of human lymph is occasionally inserted as well, with the object of keeping the animal lymph from degenerating which it is said to have a tendency to do from prolonged calf to calf cultivation (*vide* Report on Animal Vaccination by Surgeon-Major Barclay printed by Government Press, Madras, 1890, page 21).

IV. Hospitals and Dispensaries.—The number of hospitals and dispensaries—viz., six of the former and ten of the latter—remains the same as in the previous year. The hospitals were all built for the purpose, but several of the dispensaries are still located in hired edifices. The dispensary buildings, of which there are five erected for the purpose, are wretchedly small and incommodious, and it would be well, if it is contemplated to construct any more, that the standard plan should be strictly adhered to. The want of suitable quarters for medical subordinates is much felt, especially in the outlying stations, where they now find it difficult, if not impossible, to procure them within a convenient distance of their work. Having regard to the fact that the rainfall in some of these places exceeds 170 inches annually, while their climate is very insalubrious, it is obvious that if the boards wish to keep these officers healthly and efficient, which is plainly to their interest so to do, they must house them properly. Moreover as local fund hospital assistants, unlike Government ones, are not entitled to house allowance, it becomes all the more incumbent on the local boards to do what I advocate.

The dispensaries at Golitattu and Jalsur were removed to Uppinangadi and Sullia respectively. I have protested against the former measure and it has not as yet been approved by Government, the taluk board of Uppinangadi having made the change without previous sanction and in opposition to the advice of the then District Medical officer. My objection to the transfer is chiefly on the ground that the dispensary was primarily opened for the benefit of the villages near the ghâts between the Siradi and Bisli trunk roads and within the fever zone. With this object in view Nelliyadi was first selected, but as there was no building ready there, the hospital assistant was temporarily placed at Golitattu where he remained, the original intention having been overlooked, possibly through changes of officials, till the recent transfer was effected. The taluk board seems to have been tempted to this step by the offer of a building at Uppinangadi for a dispensary whereby the expense of erecting one at Nelliyad iwould be avoided; but both this building and the site on which it stands have since been condemned by the District Engineer.

The district board formerly had it in contemplation that the hospital assistants at inland stations should itinerate or visit outlying stations within their respective divisions periodically, but this purpose has actually been carried out in one instance only, viz., at Kolloor, where a monthly visit is paid to Hannar by the medical subordinate, and a number of patients are thus treated who would otherwise have been beyond the reach of medical aid.

There are now three local fund pupils under training in Madras for the hospital assistant grade, two of whom will, after qualifying, replace the two Government hospital assistants still in charge of dispensaries in the district, and the third will be available for the new dispensary it is proposed to open at Baindur where such an institution is calculated to be very useful. One pupil has been recently entertained as it was found necessary to have a reserve man available for special duty at fairs or festivals or to fill any casual vacancy.

V. Attendance of patients.—

Names of hospitals and dispensaries.	Patients.				Average daily attendance.				Number of cases attended by midwives.

		1893–94	1894–95.
Operations performed..	Major	91	87
	Minor	1,494	1,501

It is gratifying to note that the attendance of patients exhibits a steady and progressive increase, being nearly 11 per cent. more than in the previous year and 36 per cent. over that of 1892-93. This increase is attributed in great measure to the larger number of cases of malarial fevers treated, the mortality from fevers having, as already reported, considerably exceeded that of 1893–94. Among hospitals, Bantvál and Puttur, and among dispensaries, Beltangadi, Uppinangadi and Manjeshwar, show the largest increase. On the other hand there was a considerable decrease at Udipi hospital, ascribed to exhaustion of stock of medicines, and at Mulki and Kolloor dispensaries, the assigned cause for the former being a short supply of medicines and for the latter the opening of a new dispensary at Kaloor (Mysore Province) near the British frontier.

Major operations were somewhat fewer, 87 only having been performed as compared with 91 in 1893–94 and 105 in 1892–93. In the last period, however, no less than 26 were done by Dr. Bannerman while on circuit chiefly for cataract, an operation rarely undertaken by medical subordinates. Such opportunities of doing useful work must in future, I regret to observe, become rare or even cease altogether, as District Medical officers are restricted to the briefest possible periods of absence from their head-quarters under G.O., No. 259 L., dated 9th February 1895.

VI. Work of Midwives and Medical training of Women.—The number of midwives remains the same as in the previous year, viz., eight, who are stationed in the following towns—Coondapoor, Udipi, Karkal, Mulki, Mudbidri, Bantvál, Puttur and Kasaragod. They were all trained at the Government Lying-in Hospital, Madras, at the expense of the local boards with the exception of the Udipi midwife, the cost of whose training was defrayed by the Mangalore Municipality. The total number of labours attended by these women was 826, an increase of 22 above last year, and of 107 over 1892–93—a very gratifying result. The midwife at Karkal had the most cases, and next to her those at Udipi and Coondapoor, while the midwife at Mudbidri, the only one whose work was unsatisfactory, attended but 22. This, however, is in some measure due to the circumstance that the Jains, who form the majority of the population of Mudbidri, are of strongly conservative instincts and averse to anything savouring of innovation.

The taluk board of Kasaragod has been advised to entertain midwives for Manjeshwar and Hosdrug, both important centres of population, and have decided to do so.

The district board contributes Rs. 1,000 annually to the Women and Children's Hospital, Mangalore, but has made no separate provision for the medical training of women. A scholarship for a lady medical pupil to study for the Apothecary grade ought, I consider, to be founded by the district board, the pupil when qualified to be employed either at the Women and Children's Hospital or as should otherwise be decided.

The board should also provide a certain number of stipends for pupil midwives to be trained at Mangalore for service in the district. Stipends of Rs. 5 per mensem for three or four pupils would suffice in the first instance.

VII. General Remarks.—Only one clerk is allowed for the District Medical officer's office, the work of which has been steadily increasing year by year, and is now beyond the power of one man to cope with efficiently, while in the event of the clerk's absence on leave or through ill-health, no one can be found competent to temporarily fill the post and the records fall into confusion and disorder.

In proof that the duties are too arduous for one man, I may mention that the present very industrious clerk has no relaxation even on the authorized holidays enjoyed in other offices, and is threatened with the affection known as writers' cramp due to the excessive work of the office.

In other districts, *e.g.*, North Arcot, a second clerk is allowed, and I trust therefore that a similar concession may be made here.

Mangalore,
24th May 1895.

(Signed) W. A. LEE, Surgeon-Major,
District Medical and Sanitary Officer.

From the same Officer, dated Mangalore, 20th September 1895, Disposal No. 486-D.B

With reference to paragraph 36 of the Local Fund Administration Report, dated the 12th July 1895, Disposal No. 364-D.B. of 1895, I have the honour to report as follows on the educational operations of the district during the last official year 1894–95. The statements relating to education are enclosed.

2. *Grant II, Education.*—The boards maintained as in the previous year one high, four secondary, 141 elementary and three sessional schools. They sold school-books by means of depôts established at the head-quarters of the several taluks and paid result grants to aided schools. They also spent Rs. 2,122 on the improvement and repairs of local fund school buildings which was debited to Grant I. The expenditure on

education under Grant II alone was Rs. 42,961, against Rs. 44,003 during the preceding year, as shown below :—

	1894–95.	1893–94.
	Rs.	Rs.
Inspection	3,112	2,533
Training schools	22	..
Sessional „	423	581
Secondary „	11,501	11,802
Elementary „	20,183	20,699
Grants-in-aid	5,937	6,905
Miscellaneous	1,783	1,483
Total ..	42,961	44,003

3. *Inspection.*—The number of inspecting schoolmasters was raised from six to seven. The supervision of the elementary schools in the Udipi and Mangalore taluks was found too heavy for the two inspecting schoolmasters attached to those taluks so that many schools do not appear to have received a single visit between two successive grant examinations. A new division was therefore formed consisting of some maganes in the north of the Mangalore and of some in the south of the Udipi taluk. The new division is known as the "Mulki range" and will, I hope, effect improvements in instruction in the central part of the district. The additional inspecting schoolmaster whose post on Rs. 20 was sanctioned in G.O., No. 1094 L., Local and Municipal, dated 11th June 1894, was entertained in August 1894. The addition of this officer accounts for the increase in the cost of inspection as compared with that of the preceding year.

The seven inspecting schoolmasters visited and examined 448 schools during the year. Their working is reported to have been good.

4. *Training Schools.*—A sum of Rs. 22 shown under this head represents the amount of travelling allowance paid to a board schoolmaster sent to Calicut for training.

5. *Sessional Schools.*—Three sessional schools were held for a space of three months successively at Udipi, Mangalore and Puttur. As the last-named school was opened on the 7th January 1895 and closed after three months on the 6th April 1895 after the close of the year under report, part of its expenditure was defrayed in the current official year. These schools were conducted by a teacher on Rs. 25 permanently employed for the purpose. The post of the teacher was sanctioned in G.O., No. 1094 L., Local and Municipal, dated 11th June 1894. The number of students admitted in the three schools was twenty-four, of whom twenty were result schoolmasters, one board schoolmaster, one stipendiary student and two free students. Of these, twenty-two appeared for the terminal examination and eighteen passed. The cost on account of these schools was Rs. 421, or Rs. 21–0–9 for each student educated and Rs. 23–6–2 for each successful student against Rs. 533–9–3 or Rs. 15–11–1 and Rs. 22–3–8, respectively, in the previous year. Including Rs. 61, the expenditure incurred on account of the Puttur school since the 1st April 1895, the total cost on account of the three schools was Rs. 482, or Rs. 24–1–7 for educating each student and Rs. 26–12–5 for each successful student.

6. *Secondary Schools.*—There were four middle schools at Udipi, Karkal, Puttur and Kasaragod and one high school at Coondapoor as in the previous year. The Coondapoor high school was worked on the salary system and the other four schools on the salary-result system. The number of pupils on the rolls in all these schools on the 31st March 1895 was 641 against 570 on the corresponding date of the preceding year. The Coondapoor school sent up twelve students for the Matriculation examination, of whom four passed against five and two, respectively, in 1893–94. In all the five schools thirty-four out of eighty-two students passed the Lower Secondary examination, three having passed out of twenty from the Coondapoor school, twelve out of twenty-five from the Udipi school, eight out of thirteen from the Karkal school, four out of eleven from the Puttur school, and seven out of thirteen from the Kasaragod school. The best result was secured by the Karkal school and the worst by the Coondapoor high school, only three having passed out of twenty. Instruction

in gymnastics was imparted in all the five secondary schools by specially trained teachers attached to the schools. The pupils were also instructed in drill. The Coondapoor school obtained a new set of apparatus and much interest is taken in the use of it by the headmaster.

The cost on account of these schools was Rs. 11,501, against Rs. 12,580, the estimate for the year, and Rs. 11,802, the actuals of the previous year. The decrease was chiefly due to the "results" being paid according to the assignment system. Nearly a half of the provision for miscellaneous charges of the middle schools also remained unutilized. The receipts on account of these schools being Rs. 12,163 and charges, exclusive of the expenditure on buildings, being Rs. 11,501, the result was a net profit of Rs. 662. This will justify increased outlay and it is proposed to enlarge Coondapoor high school and to increase the small library already existing. Taking the schools individually, however, the schools at Karkal and Kasaragod were worked at a loss. Pupils from the school at Coondapoor competed at the Mangalore inter-school gymkhana and a team may perhaps be sent in from Puttur school this year.

7. *Primary Schools.*—The number of these schools at the beginning of the year was 138. Ten schools were since closed and thirteen new schools opened, leaving 145 schools on the 31st March 1895. The number of pupils on the rolls on that date was 4,902 against 4,845 on the corresponding date of the preceding year. The number of pupils presented for examination was 3,041 and the number passed 2,479 or 81·1 per cent.

As in the preceding year, two Panchama schools were maintained from local funds —one at Jeppu in the neighbourhood of Mangalore and another at Kasaragod. The Jeppu school is reported to have worked well. The pupils were, as usual, given a gratuitous supply of books and clothes and a midday meal. The other school, which was opened as an experimental measure, does not promise to be a success where it now is. The taluk board has therefore resolved to transfer it to Kudlu, an interior village about three miles from Kasaragod and containing a considerable Panchama population. The pupils of this school also were supplied with books and clothes by the taluk board as at Jeppu.

The number of Hindustani schools was seventeen as in the preceding year, seven being in Coondapoor taluk, four in Udipi taluk and six in Mangalore taluk. In the remaining two taluks of Kasaragod and Uppinangadi there were no such schools in which anything of secular education was given, although there were many private mosque schools teaching the Koran. In the seventeen schools secular instruction was imparted to Muhammadan children in the Hindustani language. These schools were supervised by a Muhammadan inspecting schoolmaster specially appointed for the purpose.

There were no special schools for Mappilas; but a few Mappila children attended the Hindustani and other schools. The matter is to be taken in hand in the current year.

The total cost on account of the board primary schools was Rs. 20,183 against Rs. 20,590, the amount provided for the year, the decrease being chiefly due to some of the salary bills payable during the year having remained unpaid until the close of the year.

8. *Aided Schools.*—The number of aided schools on the 31st March last was 154 with 5,832 pupils on the rolls, 663 of whom were girls. Three thousand eight hundred and sixty-seven pupils were presented for examination and 3,143 or 81·2 per cent. passed against 4,538 and 3,418 or 75·3 per cent., respectively, in the preceding year. The amount of result grant paid at the maximum rates was Rs. 5,737 against the budget provision of Rs. 7,800, the decrease being due partly to the closure of some schools during the year and partly to some certifying memoranda having been received too late for encashment before the end of March last. Part of the allotment under "Building grants" remained unutilized by reason of the late receipt of completion certificates from the Educational officers.

The number of pupils under instruction in schools under the boards is as follows:—

		Boys.	Girls.
High school		174	2
Middle school		452	13
Primary schools	Canarese	3,812	628
	Hindustani	372	59
	Panchama	25	6
Aided schools		5,169	663
		10,004	1,371

This does not, however, represent the whole number of children who are receiving education. In rural tracts the population live in scattered homesteads and not in clusters of house or village streets. Consequently schools must be scarce and instruction is imparted by private teachers. I hear of some who have been trained in training schools and are engaged in tuition in the interior but cannot be recognised by the boards as they keep no school. So their pupils are not entered in statistical tables. Besides these trained teachers there are many of the class of pial schoolmasters who teach each a few children in outlying parts where schools cannot be kept up. The religious schools at the Mappila places of worship for boys and girls are hardly worth mention.

9. *Purchase and Sale of Books.*—Rs. 1,397 was spent on the purchase of school books for sale at the local fund book depôts and Rs. 383 was paid as salary and commission to the selling agents. The sale-proceeds of books realized during the year being Rs. 1,102, the net cost to local funds on account of the depôts was Rs. 678 against Rs. 380 in the preceding year resulting from an expenditure of Rs. 1,433 and Rs. 1,053 realized by the sale of books.

10. The total receipts from educational items was Rs. 21,379 and the total charges including Rs. 2,122 debited to Grant I was Rs. 45,083. The net cost to local funds on account of education was therefore Rs. 23,704.

11. This portion of the administration report will be laid before the board at its next meeting. Even after the statements were received from the Educational officers as they did not furnish sufficient information further particulars had to be collected.

Order—No. 1950 L., Local and Municipal, dated 19th October 1895.

The Local Fund receipts and charges of the South Canara district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.		
				District Fund.	Taluk Funds.	Total.
Receipts.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Total	3,27,993	2,84,800	3,28,730	2,17,137	1,77,720	3,45,979

in gymnastics was imparted in all the five secondary schools by specially trained teachers attached to the schools. The pupils were also instructed in drill. The Coondapoor school obtained a new set of apparatus and much interest is taken in the use of it by the headmaster.

The cost on account of these schools was Rs. 11,501, against Rs. 12,580, the estimate for the year, and Rs. 11,802, the actuals of the previous year. The decrease was chiefly due to the "results" being paid according to the assignment system. Nearly a half of the provision for miscellaneous charges of the middle schools also remained unutilized. The receipts on account of these schools being Rs. 12,163 and charges, exclusive of the expenditure on buildings, being Rs. 11,501, the result was a net profit of Rs. 662. This will justify increased outlay and it is proposed to enlarge Coondapoor high school and to increase the small library already existing. Taking the schools individually, however, the schools at Karkal and Kasaragod were worked at a loss. Pupils from the school at Coondapoor competed at the Mangalore inter-school gymkhana and a team may perhaps be sent in from Puttur school this year.

7. *Primary Schools.*—The number of these schools at the beginning of the year was 138. Ten schools were since closed and thirteen new schools opened, leaving 145 schools on the 31st March 1895. The number of pupils on the rolls on that date was 4,902 against 4,845 on the corresponding date of the preceding year. The number of pupils presented for examination was 3,041 and the number passed 2,479 or 81·1 per cent.

As in the preceding year, two Panchama schools were maintained from local funds —one at Jeppu in the neighbourhood of Mangalore and another at Kasaragod. The Jeppu school is reported to have worked well. The pupils were, as usual, given a gratuitous supply of books and clothes and a midday meal. The other school, which was opened as an experimental measure, does not promise to be a success where it now is. The taluk board has therefore resolved to transfer it to Kudlu, an interior village about three miles from Kasaragod and containing a considerable Panchama population. The pupils of this school also were supplied with books and clothes by the taluk board as at Jeppu.

The number of Hindustani schools was seventeen as in the preceding year, seven being in Coondapoor taluk, four in Udipi taluk and six in Mangalore taluk. In the remaining two taluks of Kasaragod and Uppinangadi there were no such schools in which anything of secular education was given, although there were many private mosque schools teaching the Koran. In the seventeen schools secular instruction was imparted to Muhammadan children in the Hindustani language. These schools were supervised by a Muhammadan inspecting schoolmaster specially appointed for the purpose.

There were no special schools for Mappilas; but a few Mappila children attended the Hindustani and other schools. The matter is to be taken in hand in the current year.

The total cost on account of the board primary schools was Rs. 20,183 against Rs. 20,590, the amount provided for the year, the decrease being chiefly due to some of the salary bills payable during the year having remained unpaid until the close of the year.

8. *Aided Schools.*—The number of aided schools on the 31st March last was 154 with 5,832 pupils on the rolls, 663 of whom were girls. Three thousand eight hundred and sixty-seven pupils were presented for examination and 3,143 or 81·2 per cent. passed against 4,538 and 3,418 or 75·3 per cent., respectively, in the preceding year. The amount of result grant paid at the maximum rates was Rs. 5,737 against the budget provision of Rs. 7,800, the decrease being due partly to the closure of some schools during the year and partly to some certifying memoranda having been received too late for encashment before the end of March last. Part of the allotment under "Building grants" remained unutilized by reason of the late receipt of completion certificates from the Educational officers.

The number of pupils under instruction in schools under the boards is as follows:—

		Boys.	Girls.
High school		174	2
Middle school		452	13
Primary schools	Canarese	3,812	628
	Hindustani	372	59
	Panchama	25	6
Aided schools		5,169	663
		10,004	1,371

This does not, however, represent the whole number of children who are receiving education. In rural tracts the population live in scattered homesteads and not in clusters of house or village streets. Consequently schools must be scarce and instruction is imparted by private teachers. I hear of some who have been trained in training schools and are engaged in tuition in the interior but cannot be recognised by the boards as they keep no school. So their pupils are not entered in statistical tables. Besides these trained teachers there are many of the class of pial schoolmasters who teach each a few children in outlying parts where schools cannot be kept up. The religious schools at the Mappila places of worship for boys and girls are hardly worth mention.

9. *Purchase and Sale of Books.*—Rs. 1,397 was spent on the purchase of school books for sale at the local fund book depôts and Rs. 383 was paid as salary and commission to the selling agents. The sale-proceeds of books realized during the year being Rs. 1,102, the net cost to local funds on account of the depôts was Rs. 678 against Rs. 380 in the preceding year resulting from an expenditure of Rs. 1,433 and Rs. 1,053 realized by the sale of books.

10. The total receipts from educational items was Rs. 21,379 and the total charges including Rs. 2,122 debited to Grant I was Rs. 45,083. The net cost to local funds on account of education was therefore Rs. 23,704.

11. This portion of the administration report will be laid before the board at its next meeting. Even after the statements were received from the Educational officers as they did not furnish sufficient information further particulars had to be collected.

Order—No. 1950 L., Local and Municipal, dated 19th October 1895.

The Local Fund receipts and charges of the South Canara district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

—	Actuals, 1893-94.	Budget estimate, 1894-95.	Revised estimate, 1894-95.	Actuals, 1894-95.

2. *Local Boards.*—The local boards held a sufficient number of meetings, and the average attendance of the members, except the officials on the district and the Mangalore taluk boards, whose irregularity in this matter was remarked upon in the previous year's review also, continued to be on the whole satisfactory. The Collector should bring to the notice of Government the names of official members who are persistently irregular in their attendance. There are no unions in this district.

3. *Receipts.*—(1) The collections under land-cess amounted to 98·5 per cent. of the demand as in the previous year.

(2) There were fifteen toll-gates as in 1893–94. Tolls were levied at the maximum rates at them, and the whole of the demand was realized within the year.

(3) Fees appear to have been levied in thirteen markets against eleven in the previous year, and the market rents rose from Rs. 1,302 to Rs. 1,379.

(4) The receipts from avenues fell from Rs. 2,008 to Rs. 1,253, the decrease being ascribed to the sale of fewer dead trees and avenue clippings during the year. Little or nothing again appears to have been done to extend the avenues in the district, but the condition of the existing trees is reported to have been good. It is not satisfactory that the year closed with fewer avenue trees than there were at the end of the previous year.

4. *Expenditure*—(1) *Public works.*—It is much to be regretted that the expenditure under this head was once more very low, being only 62 per cent. of the allotments against 81 per cent. in the previous year. The principal explanation offered for this is that several large estimates were not sanctioned until late in the year. In the reports of the two previous years the same explanation of the same shortcoming has been advanced, and Government has on both occasions remarked that it was not adequate. It is observed, however, from paragraph 15 of the President's letter printed in G.O., No. 155 L., dated 24th January 1895, that the district board has taken steps to prevent the occurrence of lapses of grants owing to this cause. The course therein suggested is approved and it is hoped that its adoption will obviate the necessity of further comment upon the subject. The expenditure on village roads amounted to 9·9 per cent. of the total outlay on roads against 9·6 in 1893–94. The condition of the roads has not been reported. This omission should be supplied in future. Owing to the short outlay on works already noticed, the cost of the engineering establishment and of tools and plant again exceeded the prescribed limits.

(2) *Education.*—Including one newly entertained in August 1894, seven inspecting schoolmasters were employed by the district board, and their work is reported to have been good. Three sessional schools were opened against four in the previous year, and the number of students trained in them fell from 34 to 24. The school at Puttur was commenced too late to enable its pupils to appear for the primary examination. The other two sent up fifteen students for it and nine of these passed, —a fair result. The taluk boards again maintained an upper and four lower secondary schools, and they were attended on the 31st March 1895 by 641 pupils against 613 on the corresponding day in the previous year. The Coondapoor high school fared even worse than in 1893–94 at the Matriculation examination, only four candidates out of twelve sent up having been successful against four out of ten in that year, and at the lower secondary examination the results obtained by it were bad and compared very unfavourably with those of the middle schools. The attention of the taluk board should be drawn to the necessity of improving the working of this institution. The results obtained by the middle schools were on the whole fair, 31 out of 62 candidates sent up having passed the lower secondary examination. These institutions were worked at a net profit of Rs. 662 to the taluk boards. There were 141 boards' primary schools with 4,902 pupils, against 138 with 4,588 pupils in the previous year, and the progress made by them was satisfactory, 81 per cent. of the pupils sent up for the standard examinations having passed against 73 per cent. Two of these were again maintained for the exclusive benefit of Panchamas and seventeen for Mussalmans. Of the former the school at Jeppu continued to work well, but the other was not successful and is accordingly to be transferred to another locality. The Government is glad to note that the question of opening special Mappila schools is being taken in hand. Result grants were paid to only 154 schools with 5,179 pupils against 206 with 6,347 pupils in the previous year. This large decrease has again been left unexplained. Of these pupils 3,867 were presented for examination and 3,143, or 81·3 per cent., passed, the corresponding figures for 1893–94 being 4,206, 3,214 and 76·4 per cent. Owing to the closure of some of the schools and to the late receipt of some of the certifying memoranda, as much as 26 per cent. of the allotment for result grants was allowed to lapse. The total number of boys under instruction in the schools maintained and aided from local funds was only 12·3 per cent. of the male

population of school-going age against 14·4 per cent. in the previous year. The attention of the Director of Public Instruction is drawn to the incompleteness of the information furnished by the educational officers.

(3) *Medical relief.*—Six hospitals and ten dispensaries were maintained by the taluk boards as in the previous year.

*1893–94	..	..	..	..	67,270
1894–95	..	..	..	..	75,188

There was a further increase * in the total number of patients treated in these institutions, which testifies to their growing popularity. The decline in the attendance at the Udipi hospital and the Mulki dispensary is ascribed to their supplies of medicines being exhausted. The recurrence of this contingency should be carefully guarded against. The circumstances under which the dispensary at Golitattu was transferred, if, as appears from paragraph IV of Surgeon-Major Lee's report, it has been transferred, by the taluk board to Uppinangadi without the sanction of Government, and in the face of the protests of the District Medical officer should be explained at an early date. The eight midwives employed in the district attended in all 826 cases of labour, or on an average nine cases each per mensem against eight in the previous year. The midwife at Mudabidri, however, only assisted at 22 cases against 44 in 1893–94. Although ample funds were available, nothing was done by the district board to further the medical education of women, the importance of which was emphasized in G.O., No. 1684 A. L., dated 5th September 1887. In this connection the board's attention is drawn to the District Medical officer's suggestion referred to in paragraph 40 of the President's report.

(4) *Vaccination.*—It is to be regretted that there was again a considerable decline both in the quantity and quality of the work of this department, the total numbers of successful operations and of those on children under one year being only 21·5 and 0·9 per mille of the population against 34 and 2·8, respectively, per mille in 1893–94. These very unsatisfactory results are attributed partly to the inferior quality of the lymph supplied and partly to the inefficiency of the vaccinators and Deputy Inspectors. It is observed that steps have been taken to render the lymph supplied more reliable, and it is hoped that in the current year the special attention of the District Medical officer will be directed to this matter and that the ground which has been lost will be recovered.

(5) *Sanitation.*—The expenditure under this head amounted to Rs. 5,906, or 80 per cent. of the allotment, against Rs. 4,975, or 78 per cent., in the preceding year. The explanation offered in paragraphs 46 and 49 of the President's report for the short outlay, which occurs chiefly under improvement of water-supply and other sanitary outlay, indicates, as was observed in the previous year's review, a want of businesslike habits on the part of the executive and cannot be considered satisfactory. The attention of the taluk boards is drawn to the remarks and suggestions of the District Medical officer in the penultimate clause of paragraph II and the first clause of paragraph IV of his report. Twenty-three towns and villages were provided with conservancy establishments against twenty in the previous year. The Government trusts that the neglect referred to by the District Medical and Sanitary officer to supervise properly this staff is not general. Without the strictest control their work is likely to be useless and the money spent upon them thrown away. The private scavenging system was adopted in a few villages, a sum of Rs. 26 having been collected as fees for this service in Kasaragod. The number of villages visited by the District Medical and Sanitary officer has not been reported. The omission should not be allowed to recur.

5. *General remarks.*—The year closed with a balance of Rs. 1,09,365, of which only Rs. 2,486 appertained to endowed institutions. The amount available for general purposes was thus Rs. 1,06,879, or more than 45 per cent of the receipts. The existence of so large a balance notwithstanding the remarks in paragraph 5 of G.Os., No. 2143 L., dated 28th September 1893, and No. 1788 L., dated 12th September 1894, is much to be regretted. A large portion of this sum has, however, been allotted for expenditure in the current year's budget and the Government trusts that

the executive of the Boards concerned will take care that all of it is duly utilized. The administration of local affairs during the year under review cannot be considered so efficient as it should have been.

XVI-B.—Statement showing the vacancies that have occurred and the appointments made

Name of the Panchayat.	Maximum number of members sanctioned by Government.	Actual number at the commencement of the year.				Vacancies that have occurred during the year.	
		Ex-officio members (village headmen)	Official members.	Other members.	Total.	Names of members.	Occupation of members.
No. 1	2	3	4	5	6	7	8
			Nil				

Notes.—(1) This statement should show only the Panchayats in which vacancies have occurred or appointments have been made during the year.

(2) In the last column—

(*a*) the cause of vacancy in each case;

(*b*) the reasons for the removal of members or chairmen by the President of the District Board under the power delegated to him in G.O., dated 17th May 1894, No. 889 L; and (*c*) the reasons for appointing an official other than a Medical officer should always be stated.

(3) It should be remembered that official members do not vacate their seats on the Panchayats by reason of their transfer to other localities. Their resignations should therefore be invariably obtained before their places can be filled up.
