The incumbency of Horse Cattle has been noticed in the reviews for the last three years in ~~front~~ and the Collector's attention will be invited to the instructions in para 2. of G.O. dated 11th Oct. 1894. No. 2005. L.

2. Local Boards.— The boards held a sufficient number of meetings and the average attendance of members ~~continued to be generally good~~ except in the case of the officials on the Palghat board and the non-officials on the Malappuram board ~~continued to be on the whole good~~. The Director of Public Instruction will be requested to call upon Mr. Logan to explain his absence from all the meetings held after he was appointed a member of the district board. The working of the taluk boards is reported to have been satisfactory and the members of the Calicut board are stated to have evinced much interest and earnestness in their work. No unions have been formed in this district.

3. Receipts.— (1) The collections under land cess rose from Rs. 2,36,857 or 86 per cent. of the demand to Rs. 2,46,089 or 89 per cent.

(2) Owing to the ~~establishment of~~ substitution for ferries of toll gates at ~~the mouths of~~ four bridges, the reconstruction of which was recently completed ~~whose ferries were working in the previous~~ year

year, the income from tolls levied under the Local Boards Act ~~amounted to~~ increased by Rs. 7,109 or Rs. 9,866 ~~more than in the previous year~~. It is satisfactory to note that the whole of the demand including the arrears was realized within the year.

The contributions paid by the Palghat Municipality ~~amounted to~~ were Rs. 7,129 against Rs. 525 in 1893-94, the large increase being due to the recovery of the arrears due from the Palghat Municipality for that year. The total receipts under this head thus rose from Rs. 67,997 to Rs. 84,467.

(3) The income from school fees ~~amounted to~~ was Rs. 21,231 or Rs. 3,057 more than in the previous year, the increase being ~~due to the~~ the result of improved attendance in the schools under all the ~~several~~ taluk boards except ~~that of~~ Wynaad.

(4) Fees were levied in eleven markets under the control of the taluk boards ~~as in 1893-94~~, but the receipts from this source ~~amounted to only~~ Rs. fell from Rs. 2,486 to Rs. 2,427 ~~against Rs. 2,480~~ in the previous year for reasons explained in para 29 of the Pres. report

The Pres. will be requested to report the causes which led to this sale. It appears to the Govt. that the abandonment of a road is an insufficient reason for disposing of the trees along its margins.

38

The outlay on improvements in these institutions having risen from Rs. 1,752 to Rs. 4,689 the balance in favour of these institutions at the end of the year was reduced from Rs. 5,229 to Rs. 2,870

(5) Ferry rents brought in Rs. 65,062 or Rs. 11,158 less than in the previous year, the decline being due to the substitution of tolls for ferries at four places, as stated in clause (2) supra.

(6) The receipts from avenues rose from Rs. 5,032 to Rs. 6,476, the increase being ascribed chiefly to the sale of trees on certain ~~abandoned~~ roads in the Malappuram taluk which had been abandoned. The extension of avenues did not receive as much attention as in the previous year, only 1,459 trees having been planted against 3,328; but the condition of the trees is reported to have been generally good.

(7) The Public Works receipts increased from Rs. 4,099 to Rs. 7,799, the rise being

chiefly caused by the payment of

being [illegible] the contribution

received from the French Govt. for the

reconstruction of the Kahé bridge.

4. Expenditure.— (1) Public Works.— The

(Rs. 1,91,139)

expenditure under this head was only Rs. 1,91,039

= 93 per cent of the allotment against

(Rs. 2,23,786) = 96 per cent in 1893-94.

being mainly owing

The short outlay was due chiefly to

the delay in obtaining sanction for

the estimates of the Kootoopoya bridge.

The expenditure on communications

amounted to Rs. 1,72,666 or Rs. 30,187

less than the previous year's figures.

A sum of Rs. 6,027 or 4·7 per cent of the

communications

total outlay on roads was spent on

village roads against Rs. 6,407 or 5 per

cent in 1893-94. The general condition

of the roads which continued to be

maintained on the A system is report-

-ed to have been, on the whole, fair;

very small

considering the allotments they received.

The success of this

This system appears to be well adapted

to

(2). The Educational Department are stated to have largely over estimated the receipts from aid to the Educational rate from Provincial Funds in aid of education, with the result that the actuals were as much as Rs. 10,971 less than the figure entered in the Budget. The attention of the D.P.I. will be invited to this matter; as such inaccuracy disorganizes the arrangements of the Local Boards. His attention will also be drawn to the remarks at the close of para 34. of the Prest's report upon the subject of temporary buildings for primary Schools. The Govt is inclined to concur in the views there expressed.

new works as well as repairs,

but the greater part of the increase occurs under new works. It is satisfactory that over 99 per cent. of the allotments for repairs was again utilized within the year.

& their general condition

naturally varies together with the energy & efficiency of the contractors, but it

Ther is satisfactory.

to the requirements of the District. The co

of the Engineering establishment was 21,

cent of the expenditure on works against

19 per cent in the previous year, the in

Caused by

crease being due to the short outlay on

works above referred to. Steps have how

ever been taken to reduce this in the

current year so as to keep it within th

prescribed limit of 20 per cent.

again

(2) Education.— There were seventeen

inspecting schoolmasters, [illegible] in the previous

year and their work appears to have

been on the whole satisfactory. The

District Board continued to maintain

three preparatory Mappila training

schools, which were attended by 84 stu-

1893-94.

dents or one less than in the previous

year. It is satisfactory to observe that the

Nurse

of them passed the Primary examina-

tion and that the average cost of edu-

of them

cating each fell from Rs. 160 to Rs. 71. There

were two sessional schools in the District

and they

which worked at five different centres in all. Of

the

the 63 students trained in these schools who appeared for the Primary examination 45 passed. The taluk boards continued to maintain nine secondary schools, and they were attended by 880 pupils on the 31st. March 1895 against 786 on the corresponding day in 1894. But the results of the Lower secondary examination were not satisfactory, Except in Badagara, Manjeri and Mattur and the Kodavayur and Kottayi schools did badly in the Primary examination as well. It is observed that the Ponnani taluk board has taken the necessary steps to make these schools self-supporting. There were 306 boards primary schools on the salary results system against 299 in 1893-94; but their strength fell from 17,006 to 16,605. Fair progress appears to have been made by these institutions, 69 per cent of the pupils who appeared for the Standard examinations having passed again, as in the previous

This is again an improvement.

The cost for each pupil was highest in Badagara, Kottayi, and Betatnad, & steps should be taken to lower it. There appears to be no reason why all these institutions schools should not be self-supporting.

Vide remark in the last column of Statement B, under Grant II (C) Grants-in-aid (2) Results Grants.

The Calicut board opened a second school for Cherumas, & the Tellicherry board nine others. The progress made by these should be stated noted in the next administration report.

previous year. The number of schools and with results grants was 318, of which were in existence on the 31st. March 18 with an attendance of 15,688 pupils corresponding figures for 1893-94 being 322 and 15,271. In these schools 9989 pupils were examined and 7,458 of them or 75 per cent were found qualified for grants against 9,579 and 7,080 or 74 per cent in the previous year. Only 79 per cent of the allotment for result grants was paid, owing, it is reported, to the late date on which some of the schools were examined. The two schools maintained by the Malappuram taluk board for Panchamas exclusively for the benefit of the Panchamas are reported to have worked well on the whole. and the Tellicherry and Calicut boards opened nine and one schools respectively for the Cherumas in addition to the one which was in existence in the Calicut taluk in the previous year. The total

number

number of boys under instruction in the schools maintained and aided from local funds was 15.8 per cent. of the male population of school-going age against 15.9 per cent. in 1893-94.

(3) Medical Relief.— ~~The taluk boards again~~ ~~maintained~~ Nine hospitals and nine dispensaries ~~as in the previous year~~ were again at work in the district. and there was a further increase in the number of patients treated at them as shown in the margin. There were five midwives as in the preceding year and they attended altogether 343 cases of labour against 251, ~~the average being~~ or six cases each per mensem on an average against four. ~~Notwithstanding the remarks in para. 4(3) of G. O. dt/ 11th October 1894 No. 2006~~, the work of the midwives at Badagara and Vayittiri ~~continued to be~~ were again unsatisfactory. ~~It is hoped that better results will be secured in the current year~~ If they do not show better results in the current year it is hoped that in the No information has been furnished regarding the steps, if any, taken

1893-94 . . . 101,029
1894-95 . . . 1,04,589.

of women

taken to advance the female medical education, as required in G. O. dt/ 5th September 1887 No. 1684-A. L, the omission which should be supplied in future reports.

(4) Vaccination.— It is to be regretted that the progress made by ~~in the work~~ ~~of~~ this department in the preceding two years was not sustained in the year under review. There was a decline both the in quantity and quality of the work done, only 55,045 cases or 92 per cent. of the total number ~~performed~~ having been successful against 62,062 or 94 per cent. in 1893-94 in the previous year ~~and~~ ~~There~~ explanation offered for this in para. 69 of the President's report cannot be considered satisfactory. The number of children under one year successfully protected from small-pox also fell from 1145 to 1119, ~~It is hoped that the~~ steps taken by the District Board will secure better results in the current year. No substantial improvement can be expected unless the members

The explanation of this decline offered by the Dist. Medical and Sanitary Officer ~~cannot be~~ not appear to Govt. to be adequate, & the President is probably no doubt correct in considering that the department is in an unsatisfactory condition. ~~requires to be thoroughly overhauled~~. The report upon this subject already called for in G.O. dated 8th May 1895 No. 1388 should be expedited. Meanwhile the enhancement of the minima of cases required from each

Office: G.O. receiving the Vaccination Dept's report. Put it up when this is returned. Submitted.

Edition Table.

members of the local boards take a personal interest and co-operate with the officers of the Revenue Department in popularizing vaccination in the district.

(5) Sanitation.— Excluding Rs. 334 spent by the Engineering establishment and debited to Grant I, the total outlay on sanitation was Rs. 8122 or 89 per cent of the allotment against Rs. 7811 or 86 per cent in the previous year. The short outlay, which occurred chiefly under Improvement of water supply, has not been satisfactorily explained. Three new wells were sunk and 46 existing sources of water-supply were repaired or otherwise improved against 256 and 41 respectively in 1893-94 and the number of villages in which conservancy establishments were employed rose from 41 to 43. The District Medical and Sanitary officer visited 45 towns and villages against

47

Vaccinator is approved. The limits fixed are still moderate, even when the peculiar circumstances of the district are taken into consideration.

The Govt. trust that in places where these establishments are controlled by a revenue officer the supervision is adequate. Unless careful watched their work of these is likely to be worthless & the funds spent upon them thrown away.—

The weak point in the administration of local affairs was vaccination, but otherwise it continued to be on the whole satisfactory.

47 in the previous year.

5. General Remarks.— The year closed with a balance of Rs. 58,024. Of this, however, Rs. 4,970 appertained to endowed institutions, leaving Rs. 53,054 or nearly 12 per cent of the receipts available for general purposes.

The President's report is full and clear but the statement given in para. 56 should have been ~~omitted~~ separate statement should have been separately submitted. The officers referred to in para. 84 should be called upon to explain the delay in the submission of their reports. ~~Except in regard to vaccination, the administration of local affairs continued to be on the whole satisfactory.~~

To be read with
the Malabar L. F. Report for 1894-95

15. *School Fees.*—The receipts under this head amounted to Rs. 21,331, against 19,990, the budget estimate, and Rs. 18,274, the actuals of 1893–94. The increase both the estimate and the actuals of last year is due to the improved attendance he schools under the management of all the taluk boards excepting Wynaad. The sident Taluk Board, Palghat, observes that the income from primary schools has re than doubled itself in the course of the last three years, although the number such schools has remained almost stationary during that period. In Wynaad there as a falling off, which is reported to be due to (1) the decline in the strength of the ayittiri school and its consequent abolition from 1st February last and (2) to over-stimate by the Educational officers at the time of framing their budget.

16. *Sale-proceeds of Books.*—The income under this head amounted to Rs. 1,760–14–4, against Rs. 1,750, the budget estimate, and Rs. 1,682, the actuals of 1893–94. The increase over the actuals of last year was due to the opening of a new book depôt at Cannanore under the charge of the Sub-Assistant Inspector of Schools, Kasaragod Range, during the year under report.

17. *Income from Endowments.*—As the Moyan training school for mistresses at Tellicherry has been transferred to Government, the income from Moyan lands and the interest on Rs. 12,000 invested in Government securities on behalf of the Moyan endowment were credited to Provincial funds in accordance with the instructions of the Accountant-General, and consequently there was no income under this head during the year under report.

18. *Education—Miscellaneous.*—The sum of Rs. 118–12–7 shown under this head consists of (1) Rs. 97–9–6, the amount of stipend recovered by the execution of decree against a normal student who subsequently left the Educational Department in contravention of the terms of his agreement and (2) other sundry receipts.

19. *Medical.*—The receipts under this head amounted to Rs. 567 against Rs. 308 in the previous year. Of the sum of Rs. 18–11–9 shown under the head of "Hospital receipts", Rs. 10–2–0 was the amount realized by the Wynaad Taluk Board from paying patients during the year. Under "Sale of medicines" from hospitals and dispensaries, Rs. 45–9–0 were realized by the Wynaad Taluk Board against Rs. 21 in the previous year. A sum of Rs. 8–9–9 was also realized by the Tellicherry Taluk Board on account of dieting charges of paying patients, although no provision has been made in the taluk board budget under this head.

20. *Contribution from Municipalities.*—The sum of Rs. 252–5–0 shown under this head represents the contribution paid by some of the municipalities and the Government medical institutions in the district for the vaccine paste supplied to them from the district board central vaccine depôt at Calicut. 8,843 grains of paste were supplied during the year from the above depôt to the different municipalities and Government institutions as shown in the margin. The price per each grain of paste supplied was fixed at one anna in accordance with the recommendation of the district medical and sanitary officer. The total value of the paste supplied was thus Rs. 552–11–0, of which Rs. 252–5–0 were realized during the year, leaving a balance of Rs. 300–6–0, which will be collected during the current year. The statement showing the quantity of paste supplied was received from the District Medical and Sanitary Officer only on the 14th March 1895 and hence the delay in recovering the whole amount before the close of the official year.

the Malabar D. B. Report for 1894-95

3/10

II.—Receipts.

The total current receipts amounted to Rs. 5,23,174 against Rs. 4,45,272 in the previous year. The sum of Rs. 67,595 shown against "Miscellaneous debt account" includes Rs. 64,564 being the amounts deposited by the toll and ferry renters for 1895–96. They will be adjusted towards the close of the current official year.

12. *Land Cess.*—The income from this source amounted to Rs. 2,46,089–1–11, against Rs. 2,37,250, the budget estimate, and Rs. 2,36,857, the actuals of 1893–94. The increase over both the estimate and the actuals of the last year was due to the prompt collections during the year under report. The demand, including the arrears of 1893–94, amounted to Rs. 2,75,305–15–2 against the total demand of Rupees 2,74,045–11–1 in the previous year. The percentage of collections to the total demand was 89·4 against 86·4 in the previous year. At the close of the year there was a balance of Rs. 27,264. Of this amount Rs. 22,858 have since been collected, leaving only a balance of Rs. 4,406, as shown below, towards the close of the fasli year:—

	Rs.
Chirakkal taluk	14
Kóttayam „	69
Ernad „	238
Ponnáni „	43
Wynaad „	4,042
Total ..	4,406

The balance in the Wynaad taluk is still somewhat large. There is considerable difficulty in realizing the outstanding arrears in this taluk. The Revenue officers are, however, trying their best to collect the balances and a temporary establishment consisting of two clerks has been given to the Tahsildar for issuing processes. The collections of fasli 1304 show, however, a considerable improvement in this taluk, being 80 per cent. of the total demand against 63 per cent. in the previous year.

13. *Tolls.*—Statement No. V furnishes the information regarding tolls in the district. The number of tolls was 38, or four more than in the preceding year, which was due to the substitution of tolls for ferries at Kutticole, Mahé, Koduvalli and Nuradi on completion of the bridges at those stations. As in the previous year, tolls were levied at the maximum rates specified in Schedule B of the Act at all these gates excepting Kutnad and Edappal, in the Ponnáni taluk, where they were levied at half the maximum rates. No toll was managed under amani during the year. The total receipts from all the 38 toll-gates amounted to Rs. 77,337–15–7, against Rs. 80,000, the budget estimate, and Rs. 67,472, the actuals of 1893–94. The increase over the actuals of the last year was due to the establishment of the four toll-gates at the bridges named above. Particulars regarding the demand, collection and balance of tolls are furnished in Statement No. VIII. It is satisfactory to note that the whole of the demand, including the arrears of last year, was collected during the year under report. The sum of Rs. 7,129–3–7 shown under contribution from municipalities is composed of Rs. 4,597–5–3, the contribution paid by the Palghat Municipality on account of tolls for last year, and Rs. 2,531–14–4, the contribution due by that municipality for 1893–94 realized during the year under report. The total contribution due by the Palghat Municipality to the district board on account of tolls for last year was Rs. 5,139–7–11, of which Rs. 542–2–8 were deducted by the council on account of hospital contribution due to it by the Palghat Taluk Board. This procedure on the part of the municipal council is irregular and I am submitting a separate report to Government on the subject. Deducting contributions to Provincial funds, municipalities and the French Government and the cost of maintenance of toll-sheds, the net receipts from tolls during the year amounted to Rs. 64,150–9–0 or, 37 per cent. of the total outlay on communications, against 24 per cent. in the previous year.

14. *Education.*—The income under this head amounted to Rs. 23,210 against Rs. 20,999 in the previous year There were increases of Rs. 3,057 and Rs. 79 under "School fees" and "Sale-proceeds of books" and a decrease of Rs. 859 under "Income from endowments."

II.—Receipts.

The total current receipts amounted to Rs. 5,23,174 against Rs. 4,45,272 in the previous year. The sum of Rs. 67,595 shown against "Miscellaneous debt account" includes Rs. 64,564 being the amounts deposited by the toll and ferry renters for 1895–96. Cochin „	976
Total ..	8,843

21. *Contribution from Private Individuals.*—The sum of Rs. 100 shown under this head is the annual contribution paid by the Kavalapara Estate, which is under the management of the Court of Wards, for the upkeep of the civil hospital at Vaniyamkulam in the Walavanad taluk.

22. *Medical—Income from Endowments.*—The President, Taluk Board, Palghat, reports that the annual income of about Rs. 50 from the lands set apart by the

Walluvanatkara Samuham in aid of the Ponnáni hospital was not credited to the taluk board during the year by the Ponnáni Tahsildar as usual and that he has taken the necessary steps for collecting the same during the current year.

23. *Medical—Miscellaneous.*—The sum of Rs. 150–12–0 shown under this head represents the sale-proceeds of unserviceable articles such as empty bottles, packing cases, &c., belonging to the medical institutions under the taluk boards and (2) other sundry receipts.

24. *Interest on Government securities.*—There was no income under this head during the year for reasons already explained in paragraph 17 *supra*.

25. *Contribution from Private Individuals for purposes other than Education, Medical or Works.*—The sum of Rs. 150 credited to this head consists of (1) Rs. 60, the usual contribution paid by M.R.Ry. Kolayi Chathu Nair Avargal towards the pay of the masalji at the Puduppadi chattram in the Calicut taluk, (2) Rs. 25, the amount contributed by M.R.Ry. Tarakal Kunhi Kuttan Unni Wariar Avargal towards sinking a well at Molayankavu in the Walavanad taluk and (3) Rs. 65, the amount of contribution made to the Palghat Taluk Board by the Guruvayur temple authorities towards the pay of the scavenging establishment entertained for that amsam.

26. *Choultry Rents.*—The receipts under this head amounted to Rs. 590–9–9 against Rs. 620, the budget estimate, and Rs. 701, the actuals of 1893–94. The increase in 1893–94 was, as remarked in the administration report of that year, due to the collection of arrears of rent due on account of previous years. The decrease under the estimate is small and calls for no special remarks. The rents due from the lands forming the endowment of the eleven endowed choultries in the district are collected by the Tahsildar of Ernad and distributed equally among the eleven endowed institutions. A portion of the Vatakancheri musafarkhana continued as in previous years to be rented at Rs. 3 per mensem to the Police Department for use as a police station. A sum of Rs. 36, which included the three months' arrears of 1893–94, was levied during the year as rent from that department for the above building, Rs. 9 ; the rent for the last three months of 1894–95 which was left in arrears has since been collected.

27. *Market Rents.*—During the year under report the right of collecting fees at the Pudunagaram market under the Palghat Taluk Board was sold in auction for the first time. It was sold for Rs. 43. The total income from all the markets in the district during the year amounted to Rs. 2,436–11–6 against the budget estimate of Rs. 3,100. The decrease below the estimate was due to (1) the bids at the auction sales for the right of collecting fees in the markets under the management of the Calicut, Malappuram and Palghat Taluk Boards having fallen short of the estimated amounts ; (2) the closure of the Manakadavu market in the Calicut taluk and (3) to the loss sustained by the resale of the Vayittiri market under the Wynaad Taluk Board. In the case of No. 3, the President, Taluk Board, Wynaad, reports that steps have been taken to recover from the defaulter the loss sustained by the resale in accordance with the terms of the sale notice. As in the previous year, the condition of the markets was generally fair and people resorted to them freely.

28. *Bungalow Fees.*—The fees collected from Local Fund travellers' bungalows and halting sheds amounted to Rs. 1,509–14–9 against Rs. 1,440, the budget estimate, and Rs. 1,669, the actuals of 1893–94. As remarked in the administration report of last year the bungalows which were transferred to the management of the respective taluk boards during 1893–94 continued to be under their management during the year under report. The collections from them, however, fell a little short of the estimate in all the taluks excepting Calicut and Wynaad, which was due to the fact that they were not so frequently resorted to during the year as was anticipated. The amount of Rs. 272–14–0 shown under district board represents the income derived from halting sheds belonging to that board.

29. *Fees and Fines.*—The income under this head which consists mainly of (1) magisterial fines levied under the Towns Nuisance Act, (2) fees levied for the erection of pandals on the occasion of fairs and festivals, (3) rents collected for the slaughter-house at Angadipuram by the Malappuram Taluk Board and (4) receipts from Bandypettahs under the management of the taluk boards amounted to Rs. 1,081–3–1 against

Rs. 620, the budget estimate, and Rs. 523, the actuals of 1893–94. The increase over both the estimate and the actuals of the previous year was due to (1) the receipts from Bandypettahs having been credited under this head in accordance with the instructions of the Accountant-General contained in his letter, No. 11, dated 23rd January last, and (2) to an increase in the levy of nuisance fines under Act III of 1889. The President, Taluk Board, Wynaad, reports that in a single case of "gambling in a public place" in the Wynaad taluk, the fines imposed on the accused amounted to more than Rs. 90.

30. *Ferry Receipts.*—The collections under this head amounted to Rs. 65,062–1–5 against the budget estimate of Rs. 76,000. The large decrease under the estimate was due to the substitution of tolls for ferries at the bridges named in the margin which were reconstructed and opened for traffic last year. As in the previous year, the ferries in the district continued to be under the control of the district board which assumed management in accordance with G.O., No. 632, Financial, dated 22nd July 1891.

Mahé.	Nuradi, and
Koduvalli.	Kutticole.

31. *Avenues.*—The receipts under this head, which consist of the sale-proceeds of avenue produce, avenue trees and of withered trees and clippings, amounted during the year to Rs. 6,476–9–4 against Rs. 6,570, the budget estimate, and Rs. 5,032, the actuals of 1893–94. There was a decrease below the estimate under the district board and all the taluk boards excepting Palghat and Malappuram, which was due to want of competition at auction sales. In the Palghat Taluk a sum of Rs. 1,166 was realized against the budget estimate of Rs. 1,000, while, under the Malappuram Taluk Board, the actual collections amounted to Rs. 2,244 against the estimated figure of Rs. 600, which was due to the sale of trees on certain abandoned roads belonging to that board. The right of selling avenue produce and clippings in the district was, during the year under report, transferred from the management of the Local Fund Engineering establishment to the Revenue Department. The Engineering Department continues to plant trees and to maintain them.

32. *Sundry Receipts.*—The collections under this head which consist of miscellaneous items amounted to Rs. 146–8–0 against Rs. 480, the budget estimate, and Rs. 348, the actuals of 1893–94. The large decrease below both the estimate and the actuals of last year was due to the receipts from Bandypettahs which were formerly credited under this head having been transferred to "fees and fines" in accordance with the Accountant-General's instructions referred to in paragraph 29 *supra*. The rent realized from the Chávakkát Hospital compound amounting to Rs. 29–6–8 has been credited under this head in both the treasury account and the I-A statement.

33. *Public Works.*—The receipts under this head amounted to Rs. 7,799–9–0 against Rs. 7,670, the budget estimate, and Rs. 4,099, the actuals of 1893–94. The large increase over the actuals of the previous year was due to a sum of Rs. 5,888–4–7 having been realized during the year under "Contribution from private individuals." This amount consists of (1) Rs. 5,164–1–5, being the contribution paid by the French Government for the reconstruction of the Mahé bridge which was completed last year, and (2) Rs. 724–3–2, the contribution made by the Cochin Sircar on account of frontier ferries and for the maintenance of the Ponnáni-Cochin canal for the year 1893–94. The contribution due for last year from the Sircar has been realized since the close of the official year. The sum of Rs. 223–4–0 shown under "Sale of buildings" is composed of (1) Rs. 100, the sale-proceeds of an old school-building in the Kottayam taluk which was sold by the Tellicherry Taluk Board to the Revd. J. O. Stermeyer, Secular Agent, Basel German Evangelical Mission at Cannanore, (2) Rs. 97–4–0, the amount realized by the sale of two buildings acquired by the Malappuram Taluk Board along with the site for a market at Ferokh and (3) Rs. 26, the sale-proceeds of a district board building attached to Tiruvangad school. The amount under "Tools and plant" represents, as in the last year, the sale proceeds of a large number of second-hand tools sold at two-thirds of their value to the A system contractors.

34. *Contribution from Provincial Funds.*—The amount received as contribution from Provincial funds for education during the year amounted to Rs. 15,979–3–2

against Rs. 26,950, the budget estimate for the year, and Rs. 18,030, the actuals of 1893–94. The large decrease below the estimate was due to (1) over-estimate as in last year by the educational officers at the time of framing their budget, and (2) to the Palghat Taluk Board not having been able to draw the building grant of nearly Rs. 1,500 in the case of cheap school buildings proposed in the budget but not constructed owing to the fact that no satisfactory arrangement could be made to procure the necessary sites required for them during the year. In this connection, the President, Taluk Board, Palghat, points out that the construction of cheap buildings for Board Primary schools is more or less a waste of money. If cheap buildings are constructed, considerable sums have to be spent annually for their upkeep and repairs and the question of giving substantial buildings is a difficult one in view of the financial difficulties of the Board and can be entertained only in the case of the more stable and well attended primary schools. He therefore suggests that rented buildings may be obtained for these schools in future. He also says that the rent of rented buildings for most of the primary schools would probably not exceed the cost of the annual repairs to the cheap but flimsy edifices which are erected at a cost of Rs. 150 or even Rs. 300.

35. The allotments made from district funds to the various taluk boards during the year amounted to Rs. 47,304–2–3 as shown below :—

		Rs.	A.	P.
(1) Tellicherry Taluk Board	.. .. ..	5,818	7	3
(2) Calicut do.	.. .. ..	4,600	0	0
(3) Malappuram do.	.. .. ..	10,380	0	0
(4) Palghat do.	.. .. ..	9,942	0	0
(5) Wynaad do.	.. .. ..	16,563	11	0
	Total ..	47,304	2	3

The above amount includes the allotment for primary education on account of the net savings to the district board caused by the transfer of the training schools to Government.

III.—Expenditure.

36. Excluding allotments from district to taluk funds, the total expenditure during the year amounted to Rs. 4,81,885 against Rs. 4,88,725 in the previous year. Statement I-B shows in detail the total amount expended as compared with the budget estimates for the year and the actuals of 1893–94 and the following abstract compares the expenditure under the several heads and the percentages of outlay under each grant with the corresponding figures of 1893–94 :—

Grants.	1893–94.	1894–95.	Percentage. 1893–94.	Percentage. 1894–95.
Grant I—	Rs.	Rs.		
Communications	2,02,853	1,72,625	..	..
Buildings	16,332	11,938	..	..
Miscellaneous Public Improvements	4,601	6,732	..	..
Establishment and contingencies	42,801	40,247	..	..
Tools and plant	809	548	..	..
Contribution to Provincial, Municipal, &c., funds ..	25,244	22,539	..	..

Miscellaneous	9	17	..	..
Total ..	66,747	74,819	13·65	15·53
Grant IV—				
Supervision and Management	21,682	20,156	..	..
Refunds, etc.	..	..	..	..
Payment of interest and loan	8,632	3,622	..	..
Total ..	30,314	23,778	6·20	4·93
Debt head charges	8,861	42,598	1·81	8·84
Grand Total, Expenditure ..	4,88,725	4,81,885	100·00	100·00

37. The total amount spent on public works during the year was Rs. 1,91,295 against Rs. 2,06,223, the budget estimate, and Rs. 2,23,786, the actuals of 1893–94. 92·7 per cent. of the total allotments was spent against 95·69 in the previous year. The decrease in the percentage was mainly due to a small portion only of Rs. 13,000 allotted for the construction of the Kootoopoya bridge on road No. 2 at the Coorg boundary having been spent during the year owing to the late receipt of the sanction of Government to the estimate prepared by the Engineer. Of the total expenditure on public works, Rs. 1,72,625 were spent on communications alone, Rs. 11,938 on civil buildings, and Rs. 6,732 under miscellaneous public improvements against Rs. 2,02,853, Rs. 16,332, and Rs. 4,601, respectively, in the previous year. Statement No. III exhibits in detail the particulars of the outlay on public works during the year. Of the total expenditure, Rs. 1,89,208 were spent by the Local Fund Engineering Department and Rs. 2,087 by the Revenue Department on behalf of the local boards.

38. *Communications—New Works.*—Thirty-one new works were taken in hand under this head against 43 works in the previous year. The total expenditure on these works amounted to Rs. 33,845 which includes the amount spent on petty works costing Rs. 300 and less which are lumped together as "minor works" in statement No. III. The Engineer reports that 69 original works (including minor works) were completed during the year at a cost of Rs. 45,122 as shown below : —

	Amount spent in 1893–94.	Amount spent in 1894–95.
	Rs.	Rs.
2 rolled iron beams bridges	1,957	5,416
7 rail-girder bridges	..	3,599
28 wooden and masonry bridges	608	8,843
20 renewals of platforms with wood, iron rolled beams and rail girders	1,977	6,228
12 miscellaneous, such as diversions, revetments, and abutments, &c.	9,806	6,688
Total ..	14,348 +	30,774
	= 45,122	

The following are some of the important original works completed or in progress during the year :—

Project.	Amount of estimate.	Outlay in the previous year.	Outlay during 1894–95.	Remarks.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	
1. Reconstructing the damaged pier of Nuradi iron-girder bridge on road No. 57.	9,977 0 0	6,505 7 3	3,543 14 3	Work completed.
2. Reconstructing Kutticole bridge with rolled iron beams and timber platform on road No. 1.	5,447 13 9	1,956 7 6	3,616 4 10	Do.
3. Reconstructing the abutment of Koodakadavu bridge with rolled iron plates at $\frac{1}{8}$ mile on road No. 1.	3,424 0 9	1,779 10 5	1,753 0 8	Do.
4. Reconstructing one of the abutments and renewing the wood work of Keringapalam bridge at $\frac{7}{1}$ mile on road No. 40.	1,789 0 0	1,647 2 6	219 0 0	Do.
5. Reconstructing abutment of Palli bridge and platform with iron rail girders at $\frac{37}{8}$ mile on road No. 1.	1,700 0 0	..	1,696 9 1	Do.
6. Constructing a bridge of 2 span of 25 feet each with rolled iron beams and timber planking at $\frac{7}{8}$ and $\frac{10}{4}$ mile on road No. 90.	1,800 0 0	..	1,800 0 0	Do.
7. Renewing the platform of Nellipaya bridge with rolled iron beams and timber planking.	1,700 0 0	..	877 13 0	The wood work done by the contractor being found unsatisfactory, the payment was not made during the year. Steps taken to mend the defects.
8. Reconstructing the Kootoopoya bridge with masonry support and iron superstructure and timber platform.	26,000 0 0	..	1,542 3 10	..
9. Constructing a bridge (mambat) to cross the Nulla at $\frac{37}{8}$ mile on road No. 5.	2,100 0 0	..	2,100 0 0	Work completed.

39. *Communications—Repairs.*—The original budget provision under this head was Rs. 1,34,650. Subsequent allotments sanctioned from time to time brought the total grant up to Rs. 1,39,778. Of this sum, Rs. 1,38,780 or 99·29 per cent. of the total allotment was expended on repairs of roads during the year, against 99·95 per cent. in the previous year. The slight decrease in the percentage was mainly due to the payment of Rs. 626, being the liabilities on roads Nos. 1, 2, 3, 12 and 21 having been withheld during the year owing to the death of the A system contractor M.R.Ry. P. Kelan, who was in charge of them. The above amount, with the exception of the liabilities on road No. 2 which have since been ordered to be credited to the department owing to the miserable condition in which that road was kept by the deceased contractor, has been included in the list of incomplete works of last year and re-appropriated in view to its payment to his legal heirs.

40. Statement IV-A exhibits the mileage and cost of roads constructed and repaired during the year under report. There were, at the commencement of the year, 1,462 miles of road including village roads in charge of the local boards. One thousand three hundred and sixty-two miles and four furlongs of roads were repaired during the year at a cost of Rs. 1,29,067–1–11, giving an average expenditure of Rs. 94–11–8 per mile against Rs. 93–9–4 per mile of the previous year; two miles and three furlongs of new road for extending road No. 50 in the Calicut taluk were constructed during the year at a cost of Rs. 119–13–1. As regards the opening of the feeder road to the Kadalundi Railway Station, the President of the Mallápuram Taluk Board reports "that the work has not yet been commenced. It appears from enquiry made that there was some irregularity in the matter of construction of this road. The board has, however, resolved on the completion of this work and it will be finished as soon as possible." As in the previous year, all the roads in the district were in charge of the local boards with the exception of the Calicut-Vayittiri road and the portion of the Chundale-Mysore road (from the 60th to the 72nd mile) referred to in the last year's administration report which are maintained by the Public Works Department. The tolls on the former road, five in number, were as in previous years managed by the district board and the net receipts derived therefrom deducting Rs. 1,170, the fixed contribution due to the Calicut Municipality on account of the Malaparamba toll in accordance with G.O., No. 285 L., dated 8th February 1887, transferred to the Public Works Department towards the close of the year.

41. *Village roads.*—One hundred and fifty-eight miles and half a furlong of village roads were repaired during the year at a cost of Rs. 6,027–4–11 against 144 miles and 2 furlongs with Rs. 6,406–11–8 during 1893–94.

42. *General condition of the roads.*—The roads in the district continued to be under the A system contract during the year. With regard to the above system, the Engineer reports that it has been found to work satisfactorily in the district. In addition to the large savings in expenditure under this system, there has also been an improvement in many of the roads. In North Malabar, the district board roads are generally fair with the exception of a portion of road No. 2, Tellicherry-Coorg, for 14 miles upon which the allotment now given is insufficient to carry out the extensive repairs required to keep it up for the very heavy coffee and up-country traffic. In South Malabar too the roads were in fair order with the exception of roads Nos. 5 and 6. Road No. 5 is the Carcoor Ghât road and is a military line of communication. The allotment allowed for this road (Rs. 50 per mile) is too small as it allows only 5 cubic yards of gravel per furlong. Road No. 6 is the main road leading from Calicut *viâ* Kundotti, Mallápuram, Mannur and Palghat to the Coimbatore frontier at Waliar. The Engineer reports that this road is in bad order and that an increased allotment is urgently necessary to keep it up in a condition suitable for the very heavy timber traffic that generally passes along it. As regards the Ponnáni-Cochin canal, the Engineer remarks that it was kept open throughout the year with a reduced maintenance grant of Rs. 3,162 (the balance of Rs. 138 to make up the budget provision having been transferred to other works). The taluk board roads are also reported to be in fairly good order. With regard to the A system contract, the President of the Taluk Board, Palghat, remarks that "the members of the board are of opinion that the roads are not in good condition, but they are unable to say that they could be more satisfactorily maintained with the small allotments on them during the year under report." Since January 1895, most of the newspapers in this district have been criticizing the A system contracts unfavourably but without good reason. Roads cannot be maintained in excellent order unless money is spent freely on them. The resources of the local boards in this district are limited and, consequently, all that the boards can do is to spend the money at their disposal to the best advantage. It will be seen from statement III-B that accompanied the budget for 1894–95 that there are 1,453 miles of road in the district and that only Rs. 1,32,830 (or Rs. 91–4–0 per mile) could be allotted for their maintenance. On roads Nos. 1 to 7, which are the most important roads in the district, the allotment exceeds Rs. 100 a mile. Their mileage is 367 and the allotment on them is Rs. 63,814. Deducting these figures from the former figures, we find that the ordinary roads have a mileage of 1,086 and that the allotment on them is Rs. 69,016. Thus, on an average, the allotment per mile of ordinary road is Rs. 62–6–0. A study of the statement III-B above referred to will show that on two roads the allotment is less than Rs. 10 per mile and that on 22 roads the allotment is less than Rs. 31 per mile. It must be clear to any body who looks at the matter without prejudice that with such allotments it would be impossible for the roads to be kept in good order even if they were repaired departmentally. Then other factors have to be considered, viz., the difficulty in obtaining good granite, the heavy rainfall, the heavy timber, coffee, pepper, and ginger traffic. With the small allotments it would be waste of money to adopt Mr. Chappan Menon's proposal to give out the roads in strips of four or five miles in length to be repaired by petty contractors. The A system contract may have faults, but those faults can be remedied. One great advantage gained by it is that the strength and cost of the Local Fund Engineering establishment are less than they would be if the roads were maintained departmentally or given out to petty contractors. In my opinion the A system contract is well adapted to the requirements of this district.

43. Particulars regarding the length in miles of road avenues are exhibited in statement IV-B. One thousand four hundred and fifty-nine trees were planted during the year against 3,328 in the previous year, the number that perished being 193 against 1,314 in the corresponding figure for the previous year. As already remarked in paragraph 31 *supra*, the management of the avenues was, during the year under report, transferred from the Engineering to the Revenue Department. Their condition is reported to be generally good throughout the district.

44. *Civil Buildings.*—The expenditure under this head (both repairs and original) amounted to Rs. 11,937–8–5 against Rs. 16,332 in the previous year as shown below :—

	1894–95. Rs.	A.	P.
Schools	1,776	6	4
Hospitals and dispensaries	2,672	14	5
Choultries	1,365	4	0
Bungalows	4,657	9	1
Other buildings	1,465	6	7
Total	11,937	8	5

Some of the more important civil buildings completed or in progress during the year are enumerated below :—

Description of work.	Amount of estimate. Rs.	A.	P.	Outlay in the previous year. Rs.	A.	P.	Outlay during 1894–95. Rs.	A.	P.	Remarks.
1. Constructing a bungalow and out-houses at Chávakkát.	1,395	13	5	1,185	15	1	154	10	6	Works completed.
2. Constructing an officer's shed at Edakkara	699	0	0	603	8	6	95	7	8	
3. Do. halting shed at Mankara	571	11	2	500	0	0	71	11	2	
4. Do. an overseer's quarters at Manantoddy.	688	0	0	..			687	15	6	
5. Do. an halting shed at Kalpetta	620	0	0	..			211	2	11	Work not completed.
6. Do. a building for Assistant Engineer and overseer's office at Palghat.	2,000	0	0	..			688	10	11	The work not completed during the year 1894–95. A revised estimate for Rs. 2,300 has since been sanctioned.
7. Tiling the hospital at Badagara	600	0	0	..			592	14	5	Completed.
8. Constructing gymnastic shed and apparatus for the Local Fund school at Badagara.	831	5	0	738	12	6	84	8	6	

45. *Miscellaneous Public Improvements.*—The total outlay under this head during the year amounted to Rs. 6,732–3–11 against Rs. 4,601 in 1893–94 as shown below :—

	Rs.	A.	P.
Markets	4,545	11	11
Avenues	1,606	12	7
Miscellaneous	579	11	5
Total	6,732	3	11

In accordance with the orders of Government contained in paragraph 3 (3) of the Government Order reviewing the report for last year the large balances to the credit of markets were utilized by all the taluk boards excepting Palghat as far as possible on the works mentioned below :—

	Amount of estimate. Rs.	A.	P.
(1) Erecting the market stalls at Mayaparamba	100	2	6
(2) Tiling market shed at Angadipuram	4,500	0	0
(3) Constructing a pucka market shed at Ferokh	2,200	0	0
(4) Do. market stall at Vayittiri	668	0	0

The President, Taluk Board, Palghat, reports that steps are being taken during the current year to construct substantial tiled sheds and compound walls and to provide one good well for each market as far as funds under endowment balance will permit.

46. *Establishment and Contingencies.*—Mr. Maylor, the permanent District Board District Engineer, took leave on medical certificate for one year and went home. Mr. Underwood, Assistant Engineer, Palghat Sub-division, was appointed to act for

him, and Mr. Anderson, Overseer, Ernad taluk, was put in charge of the Palghat sub-division (G.O., Mis. No. 870 L., dated 16th May 1894). The total cost of the engineering establishment, including contingencies, amounted to Rs. 39,483–15–8 or 20·86 per cent. of the total amount expended on public works by the engineering department against 18·9 per cent. in the previous year and 20 per cent., the prescribed maximum. The increase in percentage was mainly due to (1) the allotment for works during the year having considerably fallen short of the figure for the previous year, and (2) the amount provided for the Kootoopoya bridge not having been utilized for reasons explained in paragraph 37 *supra*. The revision of the Wynaad engineering establishment sanctioned in the budget for the current year (paragraph 36 (1) of the budget report) will in future keep the cost of establishment within the prescribed limit of 20 per cent., and consequently no further reductions are necessary under this head.

47. *Public Works Department supervision.*—A sum of Rs. 763 was adjusted during the year to the credit of the Public Works Department for scrutiny of plans and estimates for the Kootoopoya and Koduvalli bridges.

48. *Tools and Plant.*—The charges under this head amounted to Rs. 547–12–8 against Rs. 600, the budget estimate, and Rs. 809, the actuals of 1893–94. The original budget provision was Rs. 1,300, but, as there was no necessity to purchase any new tools owing to the A system of contract being in force in the district, a sum of Rs. 700 was transferred to other heads on the recommendation of the District Board District Engineer, leaving only a balance of Rs. 600 under this head. The percentage of expenditure to the total outlay on works was ·29 against ·36 in the previous year and 1 per cent. the limit prescribed by Government.

49. *Contributions to Provincial, Municipal and other funds.*—The contributions made during the year under report are the following :—

	Rs.	A.	P.
(1) *To the Public Works Department.*—The net receipts from tolls on the Calicut-Vayittiri road, which is in charge of the Public Works Department	11,115	9	0
(2) *To Municipalities and Private Individuals*—			
(i) To the Calicut Municipality on account of tolls on the Beypore-Calicut and Calicut-Vayittiri roads.	1,895	1	6
(ii) To the Tellicherry Municipality on account of tolls on the Calicut-Tellicherry and Tellicherry-Wynaad roads	2,649	8	8
(iii) To the Palghat Municipality on account of roads passing through that municipality	550	0	0
(3) To the Cochin Sircar on account of frontier ferries	1,779	0	0
(4) To the French Government on account of Mahé toll	4,550	0	0
Total	23,539	3	2

The amount shown against French Government includes the contributions due both for 1893–94 and 1894–95.

50. *Refunds.*—The sum of Rs. 359–3–7 shown under this head consists of (1) Rs. 353–3–7, the compensation granted to the Payyoli lock contractor for loss sustained by him during the period the lock was under repair, (2) Rs. 4, the amount refunded to the owner of the Angadipuram school compound as a compensation for the loss sustained by him by the troops quartered there, and (3) Rs. 2, the fee for toll-passes refunded, the passes not having been issued.

51. I cannot close the Grant I portion of the report without placing on record the valuable services rendered to the board by Mr. W. E. Underwood, the Acting District Board Engineer, who has since been transferred to Madura.

52. *Grant II.*—The total expenditure of the local boards on education during the year under report amounted to Rs. 85,701–4–11 against Rs. 1,04,019, the budget estimate, and Rs. 89,024, the actuals of the previous year. Statements IX and X exhibit in detail the receipts, charges and other particulars connected with the board and aided schools.

53. *Inspection.*—As in the previous year there were 17 Inspecting Schoolmasters, of whom 11 were for Hindu and six for Mappila schools. The work of the Hindu Inspecting Schoolmasters was supervised by the four Sub-Assistant Inspectors of Schools, while the Mappila Sub-Assistant Inspector, who was in charge of Mappila education throughout the district, supervised the work of the six Mappila Inspecting Schoolmasters. The work done by the inspecting agency during the year under report is shown in statement A appended. The total charges on account of inspection during the year amounted to Rs. 8,565–2–4 against the budget estimate of Rs. 9,310. The decrease under the estimate was mainly due to (1) savings under "Travelling Allowance" of Inspecting Schoolmasters, (2) to the increase of one rupee per mensem provided in the budget for each of the Inspecting Schoolmasters of Cannanore and Talipparamba sub-ranges and of the increased rate of travelling allowance provided at 12 annas per diem for the latter not having been drawn during the year, and (3) savings in pay caused by some of the Inspecting Schoolmasters having been on leave for a few months of the year.

54. *Preparatory Mappila Training Schools.*—The number of these schools remained the same as in the previous year, viz., three, which were held at Tellicherry, Malappuram and Tirúr. They were under the management of the district board, and had on their rolls 34 students against 35 in the previous year. All the 34 students were paid stipends from Local Funds. The total expenditure on account of these schools during the year amounted to Rs. 3,222–13–3. It is satisfactory to note that all the 34 students passed the Primary examination. With a view to reduce the expenditure on these schools as required in paragraph 4 (2) of the Government Order, reviewing the report for 1893–94, three months' notice has been given to the Hindustani munshees in these schools, who are now paid at the rate of Rs. 10 per mensem in accordance with the recommendation of the educational officers. The services of the munshees will accordingly be dispensed with shortly. The cost of educating each successful student in these schools during the year under report was as follows :—

			Rs.	A.	P.
(1)	Preparatory Mappila Training School,	Tellicherry	66	1	11
(2)	Do.	do. Malappuram	71	0	8
(3)	Do.	do. Tirúr	61	8	6

55. *Sessional Schools.*—As in the previous year there were two sessional schools under full-term teachers, who were each paid a salary of Rs. 20 per mensem from District Board Funds. These schools were itinerating schools, being held for four months only in a taluk. The number of teachers for admission in each session was, as in the previous year, restricted to ten, and each teacher was paid a stipend of Rs. 5 per mensem. The sessional school in the Palghat range was successively held at Cherpalcheri (Walavanad taluk), Chávakkát (Ponnáni taluk) and Álattúr (Palghat) for four months at each place. Twenty-seven students were sent up for the Primary examination from these schools, of whom twenty-four passed. This is satisfactory. The sessional school in the Calicut range was first held at Quilandi (Kurumbranát taluk) for a period of five months and then removed to Calicut, where it was held for seven months or two sessions which was due to the fact that there was a large number of unpassed teachers in that taluk. The number sent up from these schools for the Primary examination was 36, of whom 21 passed. The total outlay on account of these schools amounted during the year to Rs. 1,914–4–3.

56. *Secondary Schools.*—There were nine secondary schools as in the previous year. This number is exclusive of the two vernacular schools at Erinjolly and Pitlantavitu under the Tellicherry Taluk Board, which have been classed as in last year under primary schools. The financial particulars of each department of the secondary schools are given in statement No. IX. The total expenditure on account of these schools during the year amounted to Rs. 15,729–11–2 against Rs. 17,080, the budget estimate, and Rs. 15,736, the actuals of 1893–94. The decrease below the estimate was mainly due to (1) savings effected on account of certain temporary vacancies in the Angadipuram and Cherpalcheri schools under the Malappuram Taluk Board, (2) to the annual increments to the salaries of teachers provided for in the budget not having

been granted to four out of the five middle schools under the Palghat Taluk Board, and (3) to the amount of Rs. 475 sanctioned by the Palghat Taluk Board for furniture and books not having been utilized before the close of the official year.

With regard to item No. 2, the President of the Palghat Taluk Board explains that, at the suggestion of the educational officers, it has been laid down as a rule that, in order to entitle the masters of a middle school for increment, the school should, in the first instance, be self-supporting, and that further it should have an attendance of 100 pupils on the rolls. The Álattúr school alone fulfilled these conditions in 1893–94 and consequently got the increment in 1894–95. The nine secondary schools are reported to have worked satisfactorily on the whole during the year. A statement showing the working of the middle schools in the prescribed form is subjoined :—

Name of schools.	Grade of schools.	Number of pupils on 31st March 1895.	Matriculation class.	Lower Secondary Examination.		Primary Examination.	
				Number presented.	Number passed.	Number presented.	Number passed.
Badagara	Lower Secondary grade.	83	Nil.	10	7	12	10
Manjári		87		11	8	17	12
Angadipuram		85		6	1	14	8
Cherpalcheri		78		10	1	10	8
Álattór		149		22	11	25	21
Koduvayur		106		12	2	18	7
Kottayi		70		8	2	16	4
Betutnad		91		8	3	19	11
Chávakkát		131		16	2	19	16

57. *Elementary Schools.*—There were during the year under report 304 of these schools against 302 in the previous year. Including the three preparatory Mappila Training Schools at Tellicherry, Malappuram and Tirúr, and the Salary-result Schools of Erinjolly and Pitlantavitu referred to in paragraph 56 *supra*, the total number aggregated 309. The total number of pupils in attendance on the 31st March 1895 in these 309 schools was 12,877 boys and 3,762 girls against 13,474 and 3,567, the corresponding figures of the previous year. Rs. 30,237–11–10 were spent by the taluk boards in the shape of fixed salary and Rs. 10,145–11–9 as results grants against Rs. 30,451 and Rs. 12,255 respectively in the previous year. The contingent and other charges of these schools amounted to Rs. 4,040–13–7 against Rs. 4,439 in 1893–94. Of the sum of Rs. 65–14–3 shown under "servants of elementary schools" (1) Rs. 6 represents the salary for two months of the previous year of the late masalji of the Ferokh School paid during the year under report, and (2) Rs. 59–14–3, the salary disbursed to some of the peons sanctioned in the budget for 1894–95 for Board Primary Schools. These peons were not entertained by the Taluk Boards of Tellicherry, Calicut and Malappuram owing to the difficulty in obtaining proper securities from the men appointed as peons in some cases, and in others owing to the late receipt of recommendation from the educational officers. The amount of Rs. 59–14–3 referred to above was disbursed by the Taluk Boards of Palghat and Wynaad, which entertained the peons for the taluks under them late in the year.

58. *Grant-in-Aid Schools.*—There were on the 31st March 1895 311 of these schools against 322 in the previous year. These schools had on their rolls 15,688 boys against 15,271 in 1893–94. 9,989 pupils were examined for result grant, of whom 7,458 passed against 9,579 presented and 7,080 passed in the previous year. The total result earnings amounted to Rs. 13,179–8–0, of which Rs. 9,105–10–9 were paid during the year.

59. *Panchama Schools.*—The two schools referred to in the last year's administration report were maintained by the Malappuram Taluk Board during the year. Both of them are reported to have worked well on the whole. The President, Taluk Board, Calicut, reports that at the close of 1893–94 there was a Cheruma school at Mokur in the Calicut taluk, and that one at Makkada for the education of the above class was opened during the year under report. Both the schools were provided with books and maps

at a cost of Rs. 43–6–0. The number of pupils on the rolls on the 31st March 1895 in these two schools was as shown below :—

	Boys.	Girls.
Mokur	36	3
Makkada	39	3

During the year under report nine Cheruma schools were opened in the Chirakkal taluk under the Tellicherry Taluk Board. A sum of Rs. 111–6–3 is reported to have been sanctioned by the above board for purchase of books and slates to these schools.

60. *Contribution to Provincial Services.*—The sum of Rs. 53–15–11 shown under this head consists of (1) Rs. 40–10–7, the amount refunded by the Malappuram Taluk Board from the salary grant drawn on behalf of certain teachers of the middle schools under that board in accordance with the objection statement of the Accountant-General, and (2) Rs. 13–5–4, the amount refunded by the Palghat Taluk Board on account of salary grant overdrawn for the Kottayi Middle school.

61. *Purchase of books and commission on sale of books.*—The expenditure under these heads amounted to Rs. 2,222–9–9 and Rs. 304–12–5, respectively, against the budget estimates of Rs. 1,800 and Rs. 400.

62. *Refunds.*—The amount of Rs. 42–1–8 charged under this head consists of (1) Rs. 27–7–7 refunded by the Malappuram Taluk Board to the teacher of a Mappila school, and (2) Rs. 14–10–1, the amount refunded by the Palghat Taluk Board from the grant overdrawn in the previous year for two of the Salary-result System Mappila schools. This amount was first shown in the treasury account against contribution to Provincial funds, but was since debited to this head in accordance with the Accountant-General's alteration memo. No. A.A.Z.L. 21, dated 10th July 1894. Rupees 27–7–7, refunded by the Malappuram Taluk Board, represents the results grant earned from Provincial funds by the teacher of a Mappila school. This was credited to the taluk board on a C. memo. drawn on its behalf by the Sub-Assistant Inspector of Mappila Schools in anticipation of sanction (which was not granted) to convert the school in question into a salary-result school.

63. *Grant III—Local Fund Hospitals and Dispensaries.*—The number of these institutions remained the same as in the previous year, viz., 18, of which nine were hospitals with accommodation for in-patients and nine dispensaries. The dispensary sanctioned for Malappuram has not yet been opened. The Malappuram Taluk Board has, on the recommendation of the District Superintendent of Police, proposed to transfer the provision for this dispensary to Mannárakkat, where a medical institution is considered to be far more necessary than at Malappuram. On the representation of the Inspector-General of Police, the matter has been referred to the district board by Government and the board's resolution on the subject will be submitted in due course. 1,535 in- and 103,054 out- patients were treated at the above hospitals and dispensaries during the year against 1,380 in- and 99,649 out- patients in the previous year. The increase in both classes of patients is satisfactory.

64. The total charges on account of hospitals and dispensaries during the year amounted to Rs. 37,009–6–7 against Rs. 30,967 in the previous year. The increase is mainly under "medicines and surgical apparatus," which were obtained during the year from Messrs. Burgoyne, Burbidges and Company of London. Exchange and the import duty charged on drugs has largely contributed to the increase over the estimate. I have already in my letter Ref. on C. No. 53-L.F. of 1895, dated 18th February 1895, brought to the notice of Government the desirability of exempting from import duty medicines and drugs required for the use of the Local Fund and Municipal hospitals in the district, but the orders of Government have not yet been received. The fact of the Malappuram Taluk Board having paid during the year under report the amount due for the supply of the previous year also accounts for the large increase under this head. The decrease below the estimate in the case of "medical subordinates" and "clerks and servants" was mainly due to (1) non-utilization of the provision for the Malappuram dispensary as remarked in the previous paragraph, and (2) to non-payment during the year of Wynaad allowance to the Hospital Assistant at Sultan's Battery

for want of Government sanction and of the pay for one month (November) of the Apothecary at Manantoddy hospital. The average cost of treating each in- and out-patient was Rs. 2–5–0 and Rs. 0–5–2, respectively, against Rs. 2–9–5 and Rs. 0–4–5 the corresponding figures for the previous year.

65. *Midwives.*—The number of midwives remained the same as in the previous year, viz., five, and they were attached to the hospitals named in the margin. The five midwives together attended on 343 cases of labour against 251 in the previous year. The midwife attached to the Manjéri hospital attended 82 cases of natural labour against 65 in the previous year, while the midwives at Chávakkát and Alattúr attended 145 and 95 cases, respectively, against 120 and 57 the corresponding figures of the previous year. The work done by the midwives at the Badagara and Vayittiri hospitals was not satisfactory, they having attended only 12 and 9 cases of labour, respectively, during the year. These results are very disappointing, and the attention of the Presidents of the Tellicherry and the Wynaad Taluk Boards will be drawn to this matter. If on enquiry it turns out that the bad results are due to no default on the part of the midwives, arrangements will be made to transfer them to other stations where their services will be better utilized. The total charges on account of these midwives amounted during the year to Rs. 1,015–1–7 against the budget provision of Rs. 925. The increase above the estimate was due to the midwives at Chávakkát, Alattúr and Manjéri, who were paid partly by results, having attended on a large number of cases during the year under report.

1. Manjéri hospital.
2. Chávakkát do.
3. Vayittiri do.
4. Badagara do.
5. Alattúr dispensary.

66. *District Surgeon's Establishment.*—The charges under this head amounted to Rs. 837–6–6 against the budget estimate of Rs. 1,190. The decrease below the estimate was mainly due to (1) the provision made for a travelling compounder on a salary of Rs. 9 per mensem and for the purchase of a portable medicine box at a cost of Rs. 139 not having been utilized in accordance with G.O., No. 823 L., dated 8th May 1894, and (2) to savings under "travelling allowance and contingencies."

67. *Cholera Charges.*—The expenditure under this head amounted only to Rupees 63–8–9 against Rs. 174, the budget estimate, and Rs. 170, the actuals of 1893–94. The decrease below the estimate was due to freedom from the epidemic during the greater portion of the year.

68. In accordance with the orders of Government contained in G.O., No. 1005 L., dated 6th June 1894, directing the grant of free quarters or house-rent in lieu to Hospital Assistants, a sum of Rs. 310 was provided in the budget by the Taluk Boards of Tellicherry, Malappuram and Wynaad for the current year, which was subsequently raised by Government to Rs. 600. No rent was, however, paid under the above Government Order to any of the Hospital Assistants during the year under report.

69. *Vaccination.*—The vaccine establishment during the year was the same as in 1893–94. The work done by the three female vaccinators (two first-class and one second-class) is shown in the subjoined statement :—

Year.	Number of cases vaccinated.			
	Successful.	Unsuccessful.	Unknown.	Total.
1893–94	2,466	198	110	2,774
1894–95	2,573	122	31	2,726

The above statement shows that there has been an increase in the number of successful cases vaccinated, though the total number of cases vaccinated is less than that of the previous year by 48. The following abstract compares the work done by the whole vaccine agency and the average cost per successful case with the corresponding figures of the previous year :—

Year.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to number vaccinated.	Cost per successful case.
				Rs. A. P.
1893–94	65,869	62,062	94·22	0 3 3
1894–95	59,546	55,045	92·44	0 3 6

A comparison of the total number of cases vaccinated during the year with that of the previous year shows that there is a decrease of 6,323 cases, which is attributed by the District Medical and Sanitary Officer to (1) the absence of certain vaccinators on privilege leave, (2) to the long illness of one of the best vaccinators who used to vaccinate on an average 300 cases per mensem, and (3) to one of the first-class vaccinators having been placed in charge of the office of Deputy Inspector of Vaccination, Calicut Circle, from the 6th December to the 4th March 1895 while the Deputy Inspector was under suspension. The increase of 3 pies in the cost per successful case was due to the decrease in the number of cases vaccinated. The vaccinators who failed to perform the minimum number of cases assigned to them were punished by a fine of one anna for each case short of the minimum number. On account of the backward state of vaccination in the district, the minimum number for each class of vaccinators was, on the recommendation of the District Medical and Sanitary officer, raised by the district board as a temporary measure in its proceedings of 26th January last as shown in the margin. This will, it is hoped, cause an improvement in the results of the current year. The number of vaccination cases performed by the medical subordinates in charge of hospitals and dispensaries during the year was 169 against 232 in the previous year. The decrease is due to vaccination by medical subordinates having been made optional under G.O., No. 1066 L., dated 9th May 1892. Of the 169 cases operated on by the medical subordinates, 147 were successful against 215 in the previous year. The number of children under one year of age successfully vaccinated was 1,119 against 1,145 in 1893–94. Infantile vaccination is still very backward in the district, and this is due to the people objecting to their children being vaccinated. With a view to improve the state of affairs, the District Medical and Sanitary Officer suggested the desirability of making infantile vaccination compulsory in the district, but the board, whilst admitting that the principle of compulsory vaccination was sound, decided that the time had not yet come for making vaccination in Malabar compulsory. I must here remark that Surgeon-Major Mallin's inspection of the district during January and February last has shown that vaccination in this district is in a very rotten state. Deputy Inspectors of Vaccination have falsified their returns; vaccinators have sent in false returns; in fact it is difficult to say how much of the work said to have been done is false and how much true. The matter is receiving my serious consideration. No cases of infantile vaccination were performed by medical subordinates during the year.

	Former minimum.	Minimum raised as per District Board's Proceedings of January 1895.
First-class vaccinators	150	200
Female first-class vaccinators	60	100
Male second-class do.	100	150
Female do. do.	40	80
Probationary do.	60	100
Wynaad first-class do.	130	150
Wynaad second-class vaccinators	80	100

70. *Animal vaccination.*—During the year under report the eight taluk vaccine depôts which existed in 1893–94 were closed and a central depôt at Calicut was established in their stead from May 1894 for manufacturing animal lymph in the form of glycerine paste and supplying them throughout the district. 239 calves were inoculated against 568 in all the eight depôts in the previous year. With the animal lymph taken from the above calves 34,710 grains of glycerine paste were manufactured and supplied to local fund and municipal vaccinators, and officers in charge of jails, police hospitals and civil hospitals and dispensaries. All operations were performed with animal lymph during the year. The cost of maintaining the central vaccine depôt during the year amounted to Rs. 1,449–7–2.

71. *Sanitation.*—The total expenditure under this head during the year under report amounted to Rs. 7,967 against Rs. 7,810 in the previous year as shown below:—

	1893–94.	1894–95.
	Rs.	Rs.
(1) Improvement of water-supply	866	958
(2) Do. of village site	50	91
(3) Conservancy establishment	6,170	6,448
(4) Arrangements at fairs and festivals	261	347
(5) Other sanitary outlay	463	123
Total ..	7,810	7,967

The above sum of Rs. 7,967 is exclusive of Rs. 219–13–4 charged under Grant I towards constructing parapet walls to ten wells at Kollengóte and constructing drains and platforms to four wells in the Ponnáni taluk. Thus the total expenditure on sanitation during the year amounted to Rs. 8,187. The proportion of the expenditure to the allotment was 89 per cent. against 93 per cent. in the previous year. The decrease in the percentage was mainly due to a sum of Rs. 333–14–1, sanctioned by the Wynaad Taluk Board for constructing a well at Sultan's Battery, which was completed last year, not having been drawn from the treasury before the close of the official year. Three new wells were sunk at a cost of Rs. 150. Twenty-eight wells and two tanks—one at Tanur and the other at Elathur—were cleaned or otherwise improved, and parapet walls to ten wells were constructed at a cost of Rs. 911–5–6. A sum of Rs. 55–7–9 was also spent on constructing drains and platforms to four wells in the Ponnáni taluk as remarked above. As in the previous year, one watchman was employed to guard the drinking water-supply at the Jubilee tank at Badagara. The sum of Rs. 91–1–0 shown under "improvement of village site" consists of (1) Rs. 50 spent by the Malappuram Taluk Board for removal of rank vegetation in five villages in Ernad and two villages in Walavanad taluks, and (2) Rs. 41–1–0 spent by the Palghat Taluk Board for repairing a public lane at Guruvayur in the Ponnáni Taluk. Forty-three villages were conserved during the year against 41 in 1893–94. Ninety-six men and 24 carts were employed for the above villages against 96 and 22 the corresponding figures of the previous year. The arrangements for supervising the work of these establishments continued the same as in 1893–94, and these worked satisfactorily during the year. Sanitary arrangements were made at ten places against nine in the previous year, the total charges being Rs. 347–6–3. An expenditure of Rs. 122–9–4 was incurred under "other sanitary outlay," the details of which are given in Statement No. XIV.

72. *Public health.*—As compared with the previous year, the general health of the people may be said to have been satisfactory. Cholera caused 515 deaths against 349 in the previous year. Prompt measures were adopted to check its progress, and a special medical subordinate was deputed to the affected localities to attend on the sick and distribute medicines. The total number of births and deaths in the district during the year was 54,113 and 33,094, respectively, against the corresponding figures of 48,750 and 41,518 in 1893–94. As compared with the preceding year, there was a decrease in the number of deaths from small-pox, fever and from other causes during the year under report.

73. *Markets.*—Annas 8 shown under this head represents the charges incurred by the Wynaad Taluk Board in notifying the auction sale of the Vayittiri market. The expenditure on account of building and repairing market stalls has been shown against "Miscellaneous Public Works Improvements" under Grant I.

74. *Choultries and Bungalows.*—The establishment and contingent charges of these institutions amounted to Rs. 1,308–11–2 and Rs. 2,185–15–4, respectively, against the budget estimates of Rs. 1,352 and Rs. 1,806. The increase over the estimate in

Year.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to number vaccinated.	Cost per successful case.
1893–94	65,869	62,062	94·22	Rs. A. P. 0 3 3
1894–95	59,546	55,045	92·44	0 3 6

A comparison of the total number of cases vaccinated during the year with that of the previous year shows that there is a decrease of 6,323 cases, which is attributed by the District Medical and Sanitary Officer to (1) the absence of certain vaccinators on privilege leave, (2) to the long illness of one of the best vaccinators who used to vaccinate on an average 300 cases per mensem, and (3) to one of the first-class vaccinators having been placed in charge of the office of Deputy Inspector of Vaccination, Calicut Circle, from the 6th December to the 4th March 1895 while the Deputy Inspector was under suspension. The increase of 3 pies in the cost per successful case was due to the decrease in the number of cases vaccinated. The vaccinators who failed to perform the minimum number of cases assigned to them were punished by a fine of one anna for each case short of the minimum number. On account of the backward state of vaccination in the district, the minimum number for each class of vaccinators was, on the recommendation of the District Medical and Sanitary officer, raised by the district board as a temporary measure in its proceedings of 26th January last as shown in the margin. This will, it is hoped, cause an improvement in the results of the current year. The number of vaccination cases performed by the medical subordinates in charge of hospitals and dispensaries during the year was 169 against 232 in the previous year. The decrease is due to vaccination by medical subordinates having been made optional under G.O., No. 1066 L., dated 9th May 1892. Of the 169 cases operated on by the medical subordinates, 147 were successful against 215 in the previous year. The number of children under one year of age successfully vaccinated was 1,119 against 1,145 in 1893–94. Infantile vaccination is still very backward in the district, and this is due to the people objecting to their children being vaccinated. With a view to improve the state of affairs, the District Medical and Sanitary Officer suggested the desirability of making infantile vaccination compulsory in the district, but the board, whilst admitting that the principle of compulsory vaccination was sound, decided that the time had not yet come for making vaccination in Malabar compulsory. I must here remark that Surgeon-Major Mallin's inspection of the district during January and February last has shown that vaccination in this district is in a very rotten state. Deputy Inspectors of Vaccination have falsified their returns; vaccinators have sent in false returns; in fact it is difficult to say how much of the work said to have been done is false and how much true. The matter is receiving my serious consideration. No cases of infantile vaccination were performed by medical subordinates during the year.

	Former minimum.	Minimum raised as per District Board's Proceedings of January 1895.
First-class vaccinators	150	200
Female first-class vaccinators	60	100
Male second-class do.	100	150
Female do. do.	40	80
Probationary do.	60	100
Wynaad first-class do.	130	150
Wynaad second-class vaccinators	80	100

70. *Animal vaccination.*—During the year under report the eight taluk vaccine depôts which existed in 1893–94 were closed and a central depôt at Calicut was established in their stead from May 1894 for manufacturing animal lymph in the form of glycerine paste and supplying them throughout the district. 239 calves were inoculated against 568 in all the eight depôts in the previous year. With the animal lymph taken from the above calves 34,710 grains of glycerine paste were manufactured and supplied to local fund and municipal vaccinators, and officers in charge of jails, police hospitals and civil hospitals and dispensaries. All operations were performed with animal lymph during the year. The cost of maintaining the central vaccine depôt during the year amounted to Rs. 1,449–7–2.

71. *Sanitation.*—The total expenditure under this head during the year under report amounted to Rs. 7,967 against Rs. 7,810 in the previous year as shown below:—

	1893–94. Rs.	1894–95. Rs.
(1) Improvement of water-supply	866	958
(2) Do. of village site	50	91
(3) Conservancy establishment	6,170	6,448
(4) Arrangements at fairs and festivals	261	347
(5) Other sanitary outlay	463	123
Total ..	7,810	7,967

The above sum of Rs. 7,967 is exclusive of Rs. 219–13–4 charged under Grant I towards constructing parapet walls to ten wells at Kollengóte and constructing drains and platforms to four wells in the Ponnáni taluk. Thus the total expenditure on sanitation during the year amounted to Rs. 8,187. The proportion of the expenditure to the allotment was 89 per cent. against 93 per cent. in the previous year. The decrease in the percentage was mainly due to a sum of Rs. 333–14–1, sanctioned by the Wynaad Taluk Board for constructing a well at Sultan's Battery, which was completed last year, not having been drawn from the treasury before the close of the official year. Three new wells were sunk at a cost of Rs. 150. Twenty-eight wells and two tanks—one at Tanur and the other at Elathur—were cleaned or otherwise improved, and parapet walls to ten wells were constructed at a cost of Rs. 911–5–6. A sum of Rs. 55–7–9 was also spent on constructing drains and platforms to four wells in the Ponnáni taluk as remarked above. As in the previous year, one watchman was employed to guard the drinking water-supply at the Jubilee tank at Badagara. The sum of Rs. 91–1–0 shown under "improvement of village site" consists of (1) Rs. 50 spent by the Malappuram Taluk Board for removal of rank vegetation in five villages in Ernad and two villages in Walavanad taluks, and (2) Rs. 41–1–0 spent by the Palghat Taluk Board for repairing a public lane at Guruvayur in the Ponnáni Taluk. Forty-three villages were conserved during the year against 41 in 1893–94. Ninety-six men and 24 carts were employed for the above villages against 96 and 22 the corresponding figures of the previous year. The arrangements for supervising the work of these establishments continued the same as in 1893–94, and these worked satisfactorily during the year. Sanitary arrangements were made at ten places against nine in the previous year, the total charges being Rs. 347–6–3. An expenditure of Rs. 122–9–4 was incurred under "other sanitary outlay," the details of which are given in Statement No. XIV.

72. *Public health.*—As compared with the previous year, the general health of the people may be said to have been satisfactory. Cholera caused 515 deaths against 349 in the previous year. Prompt measures were adopted to check its progress, and a special medical subordinate was deputed to the affected localities to attend on the sick and distribute medicines. The total number of births and deaths in the district during the year was 54,113 and 33,094, respectively, against the corresponding figures of 48,750 and 41,518 in 1893–94. As compared with the preceding year, there was a decrease in the number of deaths from small-pox, fever and from other causes during the year under report.

73. *Markets.*—Annas 8 shown under this head represents the charges incurred by the Wynaad Taluk Board in notifying the auction sale of the Vayittiri market. The expenditure on account of building and repairing market stalls has been shown against "Miscellaneous Public Works Improvements" under Grant I.

74. *Choultries and Bungalows.*—The establishment and contingent charges of these institutions amounted to Rs. 1,308–11–2 and Rs. 2,185–15–4, respectively, against the budget estimates of Rs. 1,352 and Rs. 1,806. The increase over the estimate in

Year.	Number of persons vaccinated.	Number of successful cases.	Percentage of successful cases to number vaccinated.	Cost per successful case.
1893–94	65,869	62,062	94·22	Rs. A. P. 0 3 3
1894–95	59,546	55,045	92·44	0 3 6

A comparison of the total number of cases vaccinated during the year with that of the previous year shows that there is a decrease of 6,323 cases, which is attributed by the District Medical and Sanitary Officer to (1) the absence of certain vaccinators on privilege leave, (2) to the long illness of one of the best vaccinators who used to vaccinate on an average 300 cases per mensem, and (3) to one of the first-class vaccinators having been placed in charge of the office of Deputy Inspector of Vaccination, Calicut Circle, from the 6th December to the 4th March 1895 while the Deputy Inspector was under suspension. The increase of 3 pies in the cost per successful case was due to the decrease in the number of cases vaccinated. The vaccinators who failed to perform the minimum number of cases assigned to them were punished by a fine of one anna for each case short of the minimum number. On account of the backward state of vaccination in the district, the minimum number for each class of vaccinators was, on the recommendation of the District Medical and Sanitary officer, raised by the district board as a temporary measure in its proceedings of 26th January last as shown in the margin. This will, it is hoped, cause an improvement in the results of the current year. The number of vaccination cases performed by the medical subordinates in charge of hospitals and dispensaries during the year was 169 against 232 in the previous year. The decrease is due to vaccination by medical subordinates having been made optional under G.O., No. 1066 L., dated 9th May 1892. Of the 169 cases operated on by the medical subordinates, 147 were successful against 215 in the previous year. The number of children under one year of age successfully vaccinated was 1,119 against 1,145 in 1893–94. Infantile vaccination is still very backward in the district, and this is due to the people objecting to their children being vaccinated. With a view to improve the state of affairs, the District Medical and Sanitary Officer suggested the desirability of making infantile vaccination compulsory in the district, but the board, whilst admitting that the principle of compulsory vaccination was sound, decided that the time had not yet come for making vaccination in Malabar compulsory. I must here remark that Surgeon-Major Mallin's inspection of the district during January and February last has shown that vaccination in this district is in a very rotten state. Deputy Inspectors of Vaccination have falsified their returns; vaccinators have sent in false returns; in fact it is difficult to say how much of the work said to have been done is false and how much true. The matter is receiving my serious consideration. No cases of infantile vaccination were performed by medical subordinates during the year.

	Former minimum.	Minimum raised as per District Board's Proceedings of January 1895.
First-class vaccinators	150	200
Female first-class vaccinators	60	100
Male second-class do.	100	150
Female do. do.	40	80
Probationary do.	60	100
Wynaad first-class do.	130	150
Wynaad second-class vaccinators	80	100

70. *Animal vaccination.*—During the year under report the eight taluk vaccine depôts which existed in 1893–94 were closed and a central depôt at Calicut was established in their stead from May 1894 for manufacturing animal lymph in the form of glycerine paste and supplying them throughout the district. 239 calves were inoculated against 568 in all the eight depôts in the previous year. With the animal lymph taken from the above calves 34,710 grains of glycerine paste were manufactured and supplied to local fund and municipal vaccinators, and officers in charge of jails, police hospitals and civil hospitals and dispensaries. All operations were performed with animal lymph during the year. The cost of maintaining the central vaccine depôt during the year amounted to Rs. 1,449–7–2.

71. *Sanitation.*—The total expenditure under this head during the year under report amounted to Rs. 7,967 against Rs. 7,810 in the previous year as shown below:—

	1893–94.	1894–95.
	Rs.	Rs.
(1) Improvement of water-supply	866	958
(2) Do. of village site	50	91
(3) Conservancy establishment	6,170	6,448
(4) Arrangements at fairs and festivals	261	347
(5) Other sanitary outlay	463	123
Total ..	7,810	7,967

The above sum of Rs. 7,967 is exclusive of Rs. 219–13–4 charged under Grant I towards constructing parapet walls to ten wells at Kollengóte and constructing drains and platforms to four wells in the Ponnáni taluk. Thus the total expenditure on sanitation during the year amounted to Rs. 8,187. The proportion of the expenditure to the allotment was 89 per cent. against 93 per cent. in the previous year. The decrease in the percentage was mainly due to a sum of Rs. 333–14–1, sanctioned by the Wynaad Taluk Board for constructing a well at Sultan's Battery, which was completed last year, not having been drawn from the treasury before the close of the official year. Three new wells were sunk at a cost of Rs. 150. Twenty-eight wells and two tanks—one at Tanur and the other at Elathur—were cleaned or otherwise improved, and parapet walls to ten wells were constructed at a cost of Rs. 911–5–6. A sum of Rs. 55–7–9 was also spent on constructing drains and platforms to four wells in the Ponnáni taluk as remarked above. As in the previous year, one watchman was employed to guard the drinking water-supply at the Jubilee tank at Badagara. The sum of Rs. 91–1–0 shown under "improvement of village site" consists of (1) Rs. 50 spent by the Malappuram Taluk Board for removal of rank vegetation in five villages in Ernad and two villages in Walavanad taluks, and (2) Rs. 41–1–0 spent by the Palghat Taluk Board for repairing a public lane at Guruvayur in the Ponnáni Taluk. Forty-three villages were conserved during the year against 41 in 1893–94. Ninety-six men and 24 carts were employed for the above villages against 96 and 22 the corresponding figures of the previous year. The arrangements for supervising the work of these establishments continued the same as in 1893–94, and these worked satisfactorily during the year. Sanitary arrangements were made at ten places against nine in the previous year, the total charges being Rs. 347–6–3. An expenditure of Rs. 122–9–4 was incurred under "other sanitary outlay," the details of which are given in Statement No. XIV.

72. *Public health.*—As compared with the previous year, the general health of the people may be said to have been satisfactory. Cholera caused 515 deaths against 349 in the previous year. Prompt measures were adopted to check its progress, and a special medical subordinate was deputed to the affected localities to attend on the sick and distribute medicines. The total number of births and deaths in the district during the year was 54,113 and 33,094, respectively, against the corresponding figures of 48,750 and 41,518 in 1893–94. As compared with the preceding year, there was a decrease in the number of deaths from small-pox, fever and from other causes during the year under report.

73. *Markets.*—Annas 8 shown under this head represents the charges incurred by the Wynaad Taluk Board in notifying the auction sale of the Vayittiri market. The expenditure on account of building and repairing market stalls has been shown against "Miscellaneous Public Works Improvements" under Grant I.

74. *Choultries and Bungalows.*—The establishment and contingent charges of these institutions amounted to Rs. 1,308–11–2 and Rs. 2,185–15–4, respectively, against the budget estimates of Rs. 1,352 and Rs. 1,806. The increase over the estimate in

the case of bungalows was due to (1) the two months' pay of the Sultan's Battery bungalow establishment for 1893–94 having been disbursed only in 1894–95, and (2) to the extra expenditure incurred by the Tellicherry, Malappuram and Palghat Taluk Boards for furniture to certain bungalows under their management, and (3) to the entertainment of a masalji on a salary of Rs. 4 per mensem for the Chávakkát bungalow, which was sanctioned in paragraph 2 of G.O., No. 575 L., dated 26th March 1895. The bungalows are reported to have been maintained in a fair condition during the year.

75. *Contribution to Provincial Services.*—The contributions paid to provincial funds for medical, sanitary and other purposes amounted to Rs. 3,883 against Rs. 2,556 as shown below :—

	1893–94.	1894–95.
	Rs.	Rs.
(1) Medical College	780	2,236
(2) Sanitary inspection	1,464	1,417
(3) Medical reserve staff	269	230
(4) Cutler's establishment	43	"
Total ..	2,556	3,883

The above figures were those advised by the Accountant-General. No amount has been charged to cutler's establishment in accordance with G.O., No. 97 L., dated 18th January 1895.

76. *Contribution to Municipalities.*—The contribution paid by the District Board and the Taluk Boards of Tellicherry and Palghat to the different municipalities on account of hospitals and dispensaries amounted during the year to Rs. 8,000–2–6 against the budget estimate of Rs. 8,683. The decrease under the estimate was mainly due to a sum of Rs. 542–2–8, being a portion of the contribution due by the Palghat Taluk Board to the Palghat Municipality, not having been paid during the year under report. This amount was deducted by the above municipality from the toll contribution due by it to the district board as already remarked in paragraph 13 *supra.*

77. *Contribution to Private Individuals.*—Rupees 200 shown under this head is the amount of contribution paid by the Palghat Taluk Board for the maintenance of the mission hospital at Kodakkal in accordance with G.O., Mis., No. 2322 L., dated 21st October 1893.

78. *Refunds.*—The sum of Rs. 15 shown under this head represents the amount refunded to the Police Department, being the excess rent paid by that department for one of the rooms of the travellers' bungalow, which was used as an office of the Assistant Superintendent of Police, Malappuram.

79. *Grant IV.*—Under this grant the expenditure amounted to Rs. 23,778–8–9 against Rs. 24,657, the budget estimate, and Rs. 30,314, the actuals of 1893–94. The decrease below the estimate appears, for the most part, under "Audit establishment" and "Printing charges." The decrease in the former case was due to savings under travelling allowance, while under the latter it was due to a less number of forms having been printed during the year under report.

80. *Law Charges.*—The sum of Rs. 65–8–2 shown under this head consists of (1) Rs. 60–0–2, the expenditure incurred by the district board in recovering by civil suits the stipends paid to certain normal students owing to their failure to conform to the terms of their agreements executed by them, and (2) Rs. 5–8–0, the amount spent by the Palghat Taluk Board for defending a civil suit brought against it by a certain road contractor.

81. *Loans.*—Rupees 3,000 were paid as instalment of principal on account of loan received from Imperial funds and Rs. 622–6–3 as interest thereon.

IV.—Endowments.

82. The total number of endowed institutions in the district was the same as in the previous year, viz., 25. Their receipts and charges are given in Statement No. VI.

V.—General Remarks.

83. The audit of the Local Fund accounts was conducted by the Treasury Deputy Collector with the assistance of an establishment of three audit clerks. Mr. Brito, the Assistant Inspector of Local Fund Accounts, examined in April last the accounts of the Local Fund audit and Engineer's offices. The results of his inspection were on the whole satisfactory. The concise report of the District Medical and Sanitary officer on the working of the Local Fund hospitals and dispensaries in the district during the year is enclosed.

84. The delay in the submission of the report is due to the late receipt of the reports due from the Presidents of Taluk Boards, the District Board District Engineer and the District Medical and Sanitary Officer as shown below :—

President, Wynaad Taluk Board,	9th June 1895.

—

Enclosure.

Annual Concise Report of the Local Fund Civil Hospitals and Dispensaries in the District of Malabar for the official year 1894–95.

Number of Hospitals and Dispensaries.—No change has taken place during the year in the number of medical institutions, which was the same as in the previous year, viz., 18 (nine hospitals and nine dispensaries).

2. *Sick treated.*—1,535 in- and 103,054 out- patients were treated against 1,380 in- and 99,649 out- patients in the previous year, showing an increase of 155 in- and 3,405 out- patients for the year under report.

3. *General results of treatment.*—Of the in-patients, 1,129 were cured, 126 relieved and 123 died, giving ratios of 73·55, 8·20 and 8·01 per 100 treated against 72·32, 7·91 and 9·34 in the previous year.

4. The abstract return of in-door and out-door patients treated in the hospitals and dispensaries of the district during the year under report is herewith submitted.

The statement showing the number of in-door and out-door patients treated and the daily average attendance during the five years beginning from 1890–91 is also submitted.

5. *Surgical Operations.*—The progress made during the year in this important branch of medical treatment is satisfactory. Both the major and minor operations showed an increase over the previous year as may be seen from the following table :—

Year.	Major operations.				Minor operations.
	Total.	Cured.	Relieved.	Died.	
1893–94	195	166	12	11	3,890
1894–95	285	248	10	12	4,236

6. *Dispensary Vaccination.*—The number of vaccine operations performed by the medical subordinates during the year was 169 against 232 in the previous year, showing a decrease of 63 cases for the year under report, which is due to vaccination having been made discretionary under G.O., No. 1066 L., dated the 9th May 1892, as stated in last report. Of these, 147 were successful, 9 unsuccessful and 13 unknown : no children were vaccinated under one year of age.

7. *Midwives.*—The number of midwives employed in the district during the year was the same as in the previous year, viz., five. The total number of labour cases attended by the midwives during the year was 343 against 251 in the previous year, showing an increase of 92 cases for the year under report, as may be seen from the following table :—

Names of institutions to which midwives attached.		Number of labour cases attended during 1893-94.	Number of labour cases attended during 1894-95.
Civil Hospital	Manjéri	65	82
	Chowghat	120	145
	Vayittiri	9	9
	Badagara	..	12
Civil Dispensary, Álattúr ..		57	95
	Total ..	251	343

8. *Sanitation—Vaccination.*—The vaccine establishment during the year under report was the same as in the previous year, viz. :—

1 Deputy Inspector, first class,
2 Deputy Inspectors, second class,
9 Vaccinators, first class,
2 Female vaccinators, first class,
23 Vaccinators, second class,
1 Female vaccinator, second class,
11 Probationary vaccinators, and
3 Peons.

The following table shows the comparison of the work of the female vaccinators for the year with that for the previous year :—

Years.	Cases vaccinated. Successful.	Unsuccessful.	Unknown.	Total.
1893-94	2,466	198	110	2,774
1894-95	2,573	122	31	2,726

The total number of cases vaccinated in the district during the year by vaccinators and vaccinatrices was 59,546 against 65,869 in the previous year; of these, 55,045 were successful, 2,812 unsuccessful, and 1,689 unknown. The percentage of success to total number vaccinated was 92·44 against 94·22 in the previous year. On comparing the total number of cases vaccinated during the year with that of the previous year, there is found a decrease of 6,323 cases for the year under report. The decrease was mainly due to the absence of certain vaccinators on privilege leave and to the long illness of one of the best men who used to vaccinate on an average 300 cases per month, and to one of the first-class vaccinators having been placed in charge of the office of the Deputy Inspector of Vaccination, Calicut Circle, from 6th December 1894 to 4th March 1895 while the Deputy Inspector was under suspension. All the vaccinators have performed the minimum number of cases assigned to them, with the exception of a few who have been punished by a fine of one anna for each case short of the minimum. Looking into the backward state of vaccination, I recommended the advisability of raising the minimum as a temporary measure and an increase of the staff, which latter, however, Government declined to sanction. The district board having, in its proceedings of the 26th January 1895, accepted my first recommendation, it is hoped that future results will show an improvement. The total number of cases vaccinated under one year of age was 1,234; of these, 1,119 were successful, 73 unsuccessful and 42 unknown. Infantile vaccination was very backward, considering the number of births registered during the year (54,113). This backward state was mainly due to the people objecting to their children being vaccinated. To improve this state of affairs I proposed to the district board on the 4th September 1894 the desirability of making infantile vaccination compulsory in the district, but it is to be regretted that my proposal was not sanctioned by the board.

Animal Vaccination.—At the commencement of the year under report, the eight taluk depôts were abolished and a central one at Calicut in their place for manufacturing animal lymph in the form of glycerine paste and supplying the same throughout the district was established under G.O., No. 527 L., dated the 17th March 1894. The staff at the depôt consisted of one first-class vaccinator, one probationary vaccinator, one watchman, one sweeper and two grass-cutters. The total number of calves inoculated during the year amounted to 239. With the animal lymph taken direct from the calves 34,710 grains of glycerine paste were manufactured at the depôt. Out of this quantity, 24,384 grains were issued to the Local Fund vaccinators and the remaining 10,326 grains to the Municipal vaccinators and Medical officers in charge of jails, police hospitals and civil hospitals and dispensaries.

During the year all operations were performed with animal lymph and their results are shown below :—

Nature of lymph used.	Successful.	Unsuccessful.	Unknown.	Total.
Number vaccinated with fresh animal lymph (calf-to-arm) ..	224	1	..	225
Number vaccinated with glycerine paste in bottles	53,950	2,734	1,649	58,333
Number vaccinated with glycerine paste between plates of glass ..	660	71	39	770
Number vaccinated with glycerine paste in tubes	211	6	1	218
Total ..	55,045	2,812	1,689	59,546

9. *Water-supply.*—The sources of water-supply continued to be the same, viz., wells, tanks and rivers. The drinking supply is obtained chiefly from wells attached to each dwelling house. The water, originally good and abundant, is badly polluted, the wells being in most cases entirely unprotected, so that filth drains into them unchecked. Every public well should be provided with a masonry parapet wall, platform and drain to carry off waste dirty water. It should also be provided with a yoke and pulley. There are about 73 public wells and one public tank (the Jubilee tank at Badagara for which a watchman is provided) set apart for drinking purposes. There are also 13 public tanks set apart for washing and bathing purposes, most of which are incredibly filthy.

10. *Drainage.*—Generally speaking, there is no regular system of drainage by pucka-built drains. The peculiar circumstances of the rural parts of this district (the houses being, for the most part, scattered, and not collected into towns and villages as in other districts) do not lend themselves to the formation of any regular system of drainage. During the monsoon temporary drains are cut along both sides of the road in the neighbourhood of the houses to carry off storm water. House drainage flows into the backyards, where it soaks into the ground or is received into cess-pools which exist in most of the compounds.

11. *Conservancy.*—The sweepings and other refuse of the conserved villages are collected and carried outside to selected spots, where these are in some cases burnt, and sold in others, or used for filling up hollows and low-lying grounds. The refuse of the villages not conserved is collected by the ryots themselves in their compounds, whence it is eventually removed to the fields to be used as manure. Forty-three villages were conserved against 41 in the previous year. There are 16 public latrines, which are, to some extent, resorted to by the public and which are kept in a fair condition. The conservancy establishment of the district consists of 1 Inspector, 2 maistries, 84 sweepers, 9 toties with 24 public carts and 38 dust-bins. The arrangements for the conservancy of the district remained in much the same state as before and are utterly inadequate, considering the area and population to be dealt with. The number of latrines, dust-bins, rubbish-carts, and the sanitary staff requires to be greatly increased.

12. *General Health of the District.*—Compared with the previous year the general health of the people may be said to have been satisfactory. Cholera, however, caused 515 deaths against 349 in the previous year. Prompt measures were adopted to check its progress. In addition to the medical aid rendered at the hospitals and dispensaries in the district, one special medical subordinate was deputed to itinerate in the affected localities to attend the sick and advise on general sanitary and other precautions: cholera medicines were freely distributed with necessary instructions. The total number of births and deaths in the district with a population of 2,464,154 amounted to 54,113 against 48,750 and 33,094 against 41,518 in the previous year respectively, showing an increase of 5,363 births and a decrease of 8,424 deaths for the year under report. The ratio of births to population was 21·96 per mille and that of deaths was 13·43 per mille. Of the total number of deaths registered, 515 were from cholera, 1,068 from small-pox, 17,144 from fever and 14,466 from all other causes.

13 *Medical Inspections.*—Out of eighteen medical institutions, those at Álattúr and Kollengót were inspected twice and the remaining sixteen institutions at Ponnáni, Chowghat, Vanianculam, Nilambúr, Manjéri, Tamaracherry, Manantoddy, Vayittiri, Badagara, Quilandi, Nadapuram, Kúttaparamba, Talipparamba, Sultan's Battery, Angadipuram and Triprayar once, making a total of twenty inspections during the year under report.

14. *Sanitary Inspections.*—Seven towns and villages were inspected twice and thirty-eight towns and villages once, making a total of forty-five inspections during the year under report.

Calicut,
19th June 1895.

(Signed) H. St. C. Carruthers, Surgeon-Major,
Ag. Dist. Medl. and Sany. Officer, Malabar.

From the same officer, dated 9th and 25th September and 1st October 1895.

Order—No. 1952 L., Local and Municipal, dated 19th October 1895.

The Local Fund receipts and charges of the Malabar district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95	Actuals, 1894–95.

2. *Local Boards.*—The boards held a sufficient number of meetings and the average attendance of the members continued to be generally good, except in the case of the non-officials on the Malappuram board and the officials on the Palghat board. The irregularity of these latter has been noticed in the reviews of the last three years, and the President's attention will be invited to the instructions in paragraph 2 of G.O., No. 2005 L., dated 11th October 1894. The Director of Public Instruction will be requested to call upon Mr. Logan to explain his absence from all the meetings of the district board held after he was appointed a member. The working of the taluk boards is reported to have been satisfactory, and the members of the Calicut board are stated to have evinced much interest and earnestness in their work. No unions have been formed in this district.

3. *Receipts.*—(1) The collections under land cess rose from Rs. 2,36,857, or 86 per cent. of the demand, to Rs. 2,46,089, or 89 per cent.

(2) Owing to the substitution of toll-gates for ferries at four bridges, the reconstruction of which was recently completed, the income from tolls levied under the Local Boards Act increased by Rs. 9,866. The whole of the demand, including the arrears, was realized within the year. The contributions paid by the Palghat Municipality were Rs. 7,129 against Rs. 525 in 1893–94, the large increase being due to the recovery of arrears for that year. The total receipts under this head thus rose from Rs. 67,997 to Rs. 84,467.

(3) The income from school-fees was Rs. 21,331, or Rs. 3,057 more than in the previous year, the increase being the result of improved attendance in the schools under all the taluk boards except Wynaad.

(4) Fees were again levied in eleven markets under the control of the taluk boards, but for reasons explained in paragraph 27 of the President's report the receipts from this source fell from Rs. 2,486 to Rs. 2,437. The outlay on improvements to these institutions having risen from Rs. 1,752 to Rs. 4,689, the balance in their favour at the end of the year was reduced from Rs. 5,229 to Rs. 2,870.

(5) Ferry rents brought in Rs. 65,062, or Rs. 11,158 less than in the previous year, the decline being due to the substitution of tolls for ferries at four places, as stated in clause (2) *supra*.

(6) The receipts from avenues rose from Rs. 5,032 to Rs. 6,476, the increase being ascribed chiefly to the sale of trees on certain roads in the Malappuram taluk which had been abandoned. The President will be requested to report the causes which led to this sale. It appears to the Government that the abandonment of a road is an insufficient reason for disposing of the trees along its margins. The extension of avenues did not receive as much attention as in the previous year, only 1,459 trees having been planted against 3,328, but the condition of the trees is reported to have been generally good.

(7) The Public Works receipts increased from Rs. 4,099 to Rs. 7,799, the rise being chiefly caused by the payment of a contribution by the French Government for the reconstruction of the Mahé bridge.

(8) The Educational department are stated to have largely over-estimated the receipts from Provincial funds in aid of education, with the result that the actuals were as much as Rs. 10,971 less than the figure entered in the budget. The attention of the Director of Public Instruction will be invited to this matter; such inaccuracy disorganizes the arrangements of the local boards. His attention will also be drawn to the remarks at the close of paragraph 34 of the President's report upon the subject of temporary buildings for primary schools. The Government is inclined to concur in the views there expressed.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head (Rupees 1,91,139) was only 93 per cent. of the allotment against 96 per cent. (Rs. 2,23,786) in 1893–94, the short outlay being mainly owing to the delay in obtaining sanction for the estimates of the Kootoopoya bridge. The expenditure on communications, new works as well as repairs, amounted to Rs. 1,72,666, or Rs. 30,187 less than the previous year's figure, but the greater part of the decrease occurs under new works. It is satisfactory that over 99 per cent. of the allotment for repairs was again utilized within the year. A sum of Rs. 6,027, or 4·7 per cent. of the total outlay on communications, was spent on village roads against Rs. 6,407, or 5 per cent., in 1893–94. The roads continued to be maintained on the A system and their general condition is reported to have been, on the whole, fair, considering the very small allotments they received. The success of this system naturally varies with the energy and efficiency of the contractors, but there is no reason to suppose that it is not well adapted to the requirements of the district. The cost of the engineering establishment was 21 per cent. of the expenditure on works against 19 per cent. in the previous year, the increase being caused by the short outlay on works above referred to. Steps have, however, been taken to reduce this in the current year so as to keep it within the prescribed limit of 20 per cent.

(2) *Education.*—There were again seventeen inspecting schoolmasters, and their work appears to have been, on the whole, satisfactory. The three preparatory Mappila training schools were attended by thirty-four students, or one less than in 1893–94. All of these passed the Primary examination and the average cost of educating each of them fell from Rs. 160 to Rs. 71. This is satisfactory. There were two sessional schools in the district and they worked at five different centres. Of the sixty-three students trained in them who appeared for the Primary examination forty-five passed. This is again an improvement. The taluk boards continued to maintain nine secondary schools, and in these 880 pupils were under instruction on the 31st March 1895 against 786 on the corresponding day in 1894. Except in Badagara, Manjeri and Alattúr, the results of the Lower Secondary examination were unsatisfactory, and the Koduvayur and Kottayi schools did badly in the Primary examination as well. The cost of each pupil was highest in Badagara, Kottayi and Betatnad, and steps should be taken to lower it. There appears to be no reason why all these institutions should not be self-supporting. There were 306 boards' primary schools on the salary-result system against 299 in 1893–94 but their strength fell from 17,006 to 16,605. Fair progress appears to have been made by them, 69 per cent. of the pupils who appeared for the standard examinations having again passed. The number of schools aided with result grants was 318, and of these 311 with an attendance of 15,688 pupils were in existence on the 31st March 1895; the corresponding figures for 1893–94 being 311, 322 and 15,271. In these schools 9,989 pupils were examined and 7,458 of them, or 75 per cent., were found qualified for grants, against 9,579 and 7,089, or 74 per cent., in the previous year. Only 79 per cent. of the allotment for result grants was paid, owing, it is reported, to the late date on which some of the schools were examined. The two schools for Panchamas maintained by the Malappuram taluk board are reported to have worked well on the whole. The Calicut board opened a second school for Cherumas, and the Tellicherry board nine others. The progress made by these should be noted in the next administration report. The total number of boys under instruction in the schools maintained and aided from local funds was 15·8 per cent. of the male population of school-going age against 15·9 per cent. in 1893-94.

(3) *Medical Relief.*—Nine hospitals and nine dispensaries were again at work in the district, and there was a further increase in the number of patients treated at them as shown in the margin. There were five midwives as in the preceding year, and they attended altogether 343 cases of labour against 251, or on an average six cases each per mensem against four. The work of the midwives at Badagara and Vayittiri was again unsatisfactory. It is hoped that in the current year it will improve. No information has been furnished regarding the steps, if any, taken to advance the medical education of women as required in G.O., No. 1684-A. L., dated 5th September 1887. The omission should be supplied in future reports.

1893–94	1,01,029
1894–95	1,04,589

(4) *Vaccination.*—It is to be regretted that the progress made by this department in the preceding two years was not sustained in the year under review. There was a decline in both the quantity and the quality of the work done, only 55,045 cases, or 92 per cent. of the total number, having been successful against 62,062, or 94 per cent., in 1893–94. The number of children under one year successfully protected from small-pox also fell from 1,145 to 1,119. The explanation of this decline offered by the District Medical and Sanitary Officer does not appear to Government to be adequate, and the President is no doubt correct in considering that the department is in an unsatisfactory condition. The report upon this subject already called for in G.O., No. 1388 L., dated 8th August 1895, should be expedited. It is observed that the minimum of cases required from each vaccinator has been enhanced.

(5) *Sanitation.*—Excluding Rs. 334 spent by the engineering establishment and debited to Grant I, the total outlay on sanitation was Rs. 8,122, or 89 per cent. of the allotment, against Rs. 7,811, or 86 per cent., in the previous year. The short outlay, which occurred chiefly under improvement of water-supply, has not been satisfactorily explained. Three new wells were sunk and forty-six existing sources of water-supply were repaired or otherwise improved against six and forty-one, respectively, in 1893–94, and the number of villages in which conservancy establishments were employed rose from forty-one to forty-three. The Government trusts that in places where these establishments are controlled by amsam and revenue officials, the supervision is adequate. Unless carefully watched, their work is likely to be worthless and the funds spent upon them thrown away. The District Medical and Sanitary Officer visited forty-five towns and villages against forty-seven in the previous year.

5. *General Remarks.*—The year closed with a balance of Rs. 58,024. Of this, however, Rs. 4,970 appertained to endowed institutions, leaving Rs. 53,054, or nearly 12 per cent. of the receipts, available for general purposes.

The President's report is full and clear, but the statement given in paragraph 56 should have been submitted separately. The officers referred to in paragraph 84 have, it is presumed, been called upon to explain the delay in the submission of their reports.

The administration of local affairs continued to be, on the whole, satisfactory.
