Order—No. 1973 M., dated 25th November 1895.

The Government having reviewed the administration reports of the several district municipalities for the year 1894–95 in the orders read above, now proceeds to consider them collectively.

2. It is to be regretted that there has been no improvement as compared with the previous year in regard to punctuality in the submission of these reports. Only two (from Chicacole and Parlákimedi) were received within the prescribed date, viz., the 1st June, while four (from Coimbatore, Karur, Cannanore and Tellicherry) were more than two months, and two (from Waljapet and Vizianagram) were up-wards of three months late. The Government must insist on absolute punctuality in future. The statements received with the reports were, on the whole, prepared with greater care and accuracy than hitherto, but there is still much room for improvement, especially in Rajahmundry, Cuddapah, Berhampr, Cannanore, Mannárgudi, Masulipatam, Kurnool, Palghat and Tanjore. The Chairmen of the municipal councils of these towns should bear this in mind.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The town of Srívilliputtúr was constituted a municipality on the 1st October 1894, thus raising the number of municipalities administered under the District Municipalities Act IV of 1884 to 56. The following statement shows the constitution of the several municipal councils on the 31st March 1895, as compared with the year 1893–94 :—

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.					
			Officials.		Non-officials.							
	Nominated.	Elected.	Nominated including ex-officio.	Elected.	Nominated.	Elected.	Nominated.	Elected.	Grand Total.	Europeans and Eurasians.	Natives.
1893–94	506	425	160	3	321	348	481	371	852	143	709
1894–95	528	421	166	8	323	354	489	382	871	145	726

Owing to inefficiency of the administration of that municipality, the number of elective seats on the Srírangam council was during the year under review, reduced from twelve to eight, or one-half of the total strength. The newly constituted municipality of Srívilliputtúr was allowed eighteen councillors, all of whom were nominated by Government. There was thus an increase of 22 in the sanctioned number of nominated councillors and a decrease of four in that of elected members. Of the total number of councillors at the end of the year, 22·3 per cent. were officials against 21·5 in the previous year. Three councils, namely, those of Srívilliputtúr, Tinnevelly and Srírangam, consisted entirely of natives against two in 1893–94.

4. As in the previous year, the system of appointing councillors by election was in force in the 34 municipalities shown in Appendix II. The total population of these towns was 1,246,042, and of this number, 37,348, or 3 per cent., were qualified to vote against 2·6 per cent. in 1893–94. One hundred and eighty-two seats were filled by election during the year, and of these 130 were contested, 47·7 per cent. of the voters concerned attending the poll against 51 per cent. in 1893–94.

5. The right of electing its own chairman was enjoyed by 35 municipal councils against 36 in 1893–94, the privilege having been withdrawn from the Anantapúr council owing to its failure to elect a chairman at three successive meetings held for the purpose. At the close of the year 32 out of the 56 chairmen were non-officials as shown below :—

Year.	Number of Municipalities in which the Chairman was an official.			Number of Municipalities in which the Chairman was a non official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand Total.
	Nominated by Government.	Elected by the Council.	Total.	Nominated by Government.	Elected by the Council.	Total.		
1893–94	4	9	13	11	21	32	10	55
1894–95	11	8	19	8	24	32	5	56

6. The average sanctioned strength of the several councils remained the same as in the previous year, namely, seventeen, but the average actual strength rose from fifteen to sixteen. The number of meetings actually held was 1,635, or 123 more than in 1893–94, but 245 meetings were adjourned for want of a quorum against 213 in that year. In Rajahmundry, nearly two-fifths of the number of meetings convened had to be adjourned, and in Chidambaram, Conjeeveram and Tanjore the number of adjourned meetings was also unduly large. The average attendance of the members was 8·5, as in the previous two years, and represented 50 per cent. of the sanctioned strength. The attendance of the non-official members continued to be fair, but that of the officials, though slightly better than in the previous year, was still indifferent.

II.—RECEIPTS.

* This is Rs. 17 less than the closing balance of 1893–94 as shown in that year's accounts, the difference being due to corrections made after audit.

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to 7½ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to 7½ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr these taxes were levied at 6¼ per cent. Thus the maximum rate of 7½ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers in thirteen. The assessments cannot, however, be yet regarded as everywhere complete, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Remitted and written off.		Balance.		Percentage of collections to demand.

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0) and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Kurnool and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Written off as irrecoverable.		Balance.		Percentage of collections to demand.

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srikakulam (25·1),

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to 7½ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to 7½ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0) and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Kurnool and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Sríranjam (25·1),

and Chicacole (23·5). The net demand of this tax was more than that in the previous year in 34 out of the 48 municipalities (excluding Srívilliputtúr) in which it was levied, the increases being large in Tanjore (Rs. 2,892), Trichinopoly (Rs. 2,179), Conjeeveram (Rs. 2,114) and Calicut (Rs. 2,111). On the other hand, there was a decrease of Rs. 998 in Madura, for which an explanation has been called for. The current collections amounting to 87·4 per cent. of the demand against 84·7 in the previous year were fair, but the arrear realizations amounting to 50·6 per cent. against 40·2 per cent. were still indifferent. The current collections were good in Bimlipatam (99·4 per cent.), Coonoor (99·2), Palamcottah (98·9) and Tinnevelly (98·5), but poor in Vizianagram (70·3), Chidambaram (65·2), Tanjore (64·9) and Srívilliputtúr (14·4). The proportion of arrears realized was very low in Ongole (15·8 per cent.), Guntúr (15·6), Madura (11·7) and Bellary (5·2), and the unadjusted balance in Tanjore and Madura continued to be very heavy. The total amount written off as irrecoverable was, however, only Rs. 11,832, or but one-half of the amount in 1893–94.

15. Appendix VI furnishes details of the incidence of the tax on arts in the several municipalities. The total number of persons assessed and the average incidence were 59,967 and Rs. 4–2–5, respectively, against 57,114 and Rs. 4 in the previous year. The number of assessees was only 3·9 per cent. of the population of the towns concerned, but there was an increase in the number taxed under the higher classes of the schedule. The incidence was high in Mannárgudi (Rs. 10–13–5), Negapatam (Rs. 10–1–5), Cochin (Rs. 9–15–1) and Bimlipatam (Rs. 8–11–9), and low in Salem (Rs. 2–7–9), Srívilliputtúr (Rs. 2–4–2) and Chidambaram and Máyavaram (Rs. 2–3–11). In Srívilliputtúr the registers were incomplete and in Máyavaram the low incidence was probably due to the depression in the weaving industry. In the other two towns, there is no apparent reason why it should be so much below the general average. The councils concerned should carefully revise the assessments so as to make them equitable.

16. *Tax on Vehicles with Springs, Animals and Carts.*—These taxes were again levied in all municipalities except Palghat, where the tax on animals has not yet been introduced. The receipts amounted to Rs. 1,62,084 against Rs. 1,52,333 in 1893–94. The increase in the income under this head is satisfactory, and the Government trusts that the efforts made to develop it by the exercise of careful supervision over the municipal executive will be sustained.

17. *Coercive Processes.*—The extent to which coercive measures were adopted for the collection of the several taxes in each municipality is shown in Appendix VII, and the following abstract compares the total figures for 1894–95 with those of the previous year :—

Year.	Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

* This is 308 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.
† This is 72 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.

The total number of warrants issued during the year was 127,791 or 332 less than in 1893–94. Adding to this the unexecuted warrants of the previous year, the total number for disposal was 162,781, of which 132,992 were executed or cancelled within the year, leaving 29,789 to be adjusted in the current year. As usual the largest number of warrants was issued in Calicut (20,437), and in Mangalore, Berhampur and Tanjore also coercive processes were freely resorted to. On the other hand, the number issued in Rajahmundry, Srívilliputtúr, Periyakulam and Coonoor was very small, while none at all were issued in Parlákimedi. In Periyakulam, Coonoor and Parlákimedi, however, the collections were, on the whole, good, and in Srívilliputtúr the municipality commenced work only towards the close of the year; but in Rajahmundry there was no excuse for the leniency shown; the Council of this town should bear this remark carefully in mind. The number of warrants remaining unexecuted at the close of the year, although not so large as in 1893–94, was still over 18 per cent. of the total number. This is not satisfactory. The total amount covered by all the warrants was Rs. 2,77,194, and of this, Rs. 2,05,991 were realized. Property, however, was sold in only 458 cases, the proceeds amounting to Rs. 689. The number of prosecutions instituted for failure to pay the taxes was 3,234, and of these, 653 were in Ootacamund and 530 in Salem.

18. *Tolls.*—The statistics relating to tolls are given in Appendix VIII. Including Srívilliputtúr, there were 53 municipalities which derived an income from tolls. Of these, 49 had toll-gates of their own and the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from the gates managed by the district boards. In Cocanada, Tellicherry, Vániyambádi and Srívilliputtúr the tolls were collected departmentally, while in the other municipalities they were leased out to contractors. The rates of tolls were raised from three-fourths to the maximum in Calicut and from one-half to the maximum in Vániyambádi. Tolls were levied at 334 gates against 342 in 1893–94, and the gross collections amounted to Rs 4,37,529 against Rs. 4,46,737. From this, Rs 1,18,098 were paid to district boards, the balance being credited to municipal funds, while the contributions received from district boards amounted to Rs. 26,309. The total income under this head was thus Rs 3,45,740 against Rs. 3,48,152 in the previous year, the decrease appearing chiefly in Madura and being due to want of competition at the sales.

19. *Incidence of Taxation.*—The average incidence of municipal taxation was As. 13–10 including tolls, and As. 10–6 excluding them, the corresponding figures for the previous years being As. 13–3 and As. 9–10. Appendix IX gives full particulars of the incidence in the several municipalities.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,52,793 against Rs. 12,52,803 in 1893–94. There was an increase under markets and slaughter-houses, fines and grants from Government, which was more than counterbalanced by a decline under sale-proceeds of Government securities, loans and advances recovered. The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The income derived from rents was Rs. 26,573 against Rs. 28,982 in 1893–94, and that from sale-proceeds and produce of lands was Rs. 19,095 against Rs. 11,125. The decrease under the first head, which appears principally in Madura, is attributed to the fact that vacant spaces in the town which were leased out in previous years were reserved for the use of the public, and the increase under the latter occurred chiefly in Máyavaram, where a sum of Rs. 5,000 was realized by the sale of the old travellers' bungalow and a portion of the land attached to it.

22. *Conservancy Receipts.*—These amounted to Rs. 24,755, or Rs. 1,794 less than in 1893–94. The largest income under this head was again in Trichinopoly (Rs. 6,550), Conjeeveram (Rs. 2,831) and Cuddalore (Rs. 2,308). On the other hand nothing was realized in Karúr, Masulipatam, Calicut, Cochin, Vellore and Tanjore. In the last-named town, however, this was due to the fact that the street sweepings were made over to the rubbish cart contractor, who removed them without payment. In the other cases it is generally attributed to want of demand for the sweepings, but the experience of other municipalities shows that where sales are properly advertised, a considerable demand is in course of time created. The Government would again invite the special attention of municipal councils to the desirability of developing this source of revenue.

23. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 92,442 against Rs. 85,521 in 1893–94, and the increase, which appears mainly in Máyavaram, Tellicherry and Tiruppattúr, was due chiefly to general improved attendance at the municipal schools and colleges.

24. *Fees and Revenue from Markets and Slaughter-houses.*—It is gratifying to observe that there was an increase of Rs. 10,473 over the previous year's figure under this head, the receipts amounting to Rs. 1,53,501 against Rs. 1,43,028. Of this, a sum of Rs. 1,12,367 appertained to markets and Rs. 41,134 to slaughter-houses. Leaving out of account the new municipality of Srívilliputtúr, the only towns in which no municipal markets existed were Berhampur, Ellore, Tuticorin, Bimlipatam and Vizianagram. In the last three towns, however, there were suitable private markets, while in the two others the erection of public markets appears to be under contemplation. The total number of municipal markets was 107, the largest number being in Trichinopoly (8), Srírangam (7) and Madura (6). Fees were collected departmentally in five of the markets and were farmed out to contractors in the others. The largest revenue was realized in Trichinopoly (Rs. 16,448), Coonoor (Rs. 8,680), Vellore (Rs. 8,266), Ootacamund (Rs. 7,820) and Madura (Rs. 7,489), and the smallest in Nellore (Rs. 365), Vániyambádi (Rs. 350), Vizagapatam (Rs. 303), Palni (Rs. 229) and Bellary (Rs. 164). Excluding the cost of establishment and public works, which amounted in the aggregate to Rs. 26,185, the net receipts under this head were Rs. 86,182 against Rs. 82,343 in 1893–94.

25. *License Fees.*—The receipts under this head amounted to Rs. 35,843 against Rs. 31,711 in the previous year. The increase, which appears chiefly in Calicut, Tanjore and Negapatam, was due in the first case to the revision of the scale and in the others apparently to more careful supervision. The collections amounted to Rs. 2,000 or more in Madura (Rs. 2,151), Negapatam (Rs. 2,056) and Kumbakónam (Rs. 2,000), but fell below Rs. 100 in Bimlipatam (Rs. 95), Gudiyáttam (Rs. 82) and Srívilliputtúr (Rs. 18). The necessity of reminding municipal councils that these fees should invariably be collected before licenses are issued still exists.

26. *Fines under the Municipal and other Acts.*—The receipts from this source amounted to Rs. 40,924, or Rs. 9,938 more than the previous year's figure. The advance is satisfactory in so far as it indicates increased activity on the part of the police and the municipal executive in checking nuisances. The income exceeded Rs. 2,000 in Madura (Rs. 6,560), Bellary (Rs. 3,103), Kumbakónam (Rs. 2,966) and Trichinopoly (Rs. 2,539), but was below Rs. 100 in Coonoor (Rs. 98), Anantapur (Rs. 97), Ootacamund (Rs. 80) and Srívilliputtúr (Rs. 20).

27. *Grants and Contributions.*—The amount of grants received from Government was Rs. 3,41,534, or Rs. 76,384 more than in the previous year. During the year under review, grants amounting to Rs. 81,000, Rs. 25,000, Rs. 44,000, Rs. 82,920 and Rs. 39,356, respectively, were paid to the Adóni, Kurnool, Ootacamund, Tanjore and Trichinopoly Municipal Councils towards their water-supply projects. The contributions received from local funds and other sources amounted to Rs. 79,988 and Rs. 24,148, respectively, against Rs. 86,449 and Rs. 6,931 in 1893–94. The increase in the latter case was due mainly to the receipt of a liberal contribution of Rs. 12,000 by the Vizagapatam Municipal Council from the Hon'ble the Maharaja of Vizianagram for the construction of a road, and one of Rs. 3,000 by the Vizianagram council from M.R.Ry. P. Narayana Chetti Garu for the establishment of a public library.

28. *Recoveries for Services to Private Individuals.*—The receipts under this head amounted to Rs. 65,303 against Rs. 56,718 in the previous year. Of this, Rs. 60,975 represented fees for the private scavenging service. This system was worked in all the municipalities and in no place was the service rendered gratuitously. The number of houses served by municipal agency increased from 29,012 to 36,257, and exceeded 1,500 in Trichinopoly (4,151), Mangalore (2,283), Palamcottah (2,184), Tinnevelly (1,768) and Bellary (1,576), but fell short of 100 in Karúr (93), Mannárgudi (75), Gudiyáttam (63) and Srívilliputtúr (45). There is however considerable scope for further advance as the total number of houses assessed to the tax on buildings was 265,524, but no real improvement can be expected in this direction unless the penal provisions of the Act are strictly enforced against all persons who keep their premises in an

insanitary state. The total amount of fees due was Rs. 76,965, but of this only Rupees 60,975, or 79 per cent., were collected within the year. It has been necessary again to remind all municipal councils that the fees for this service should invariably be collected in advance. The total expenditure on this account amounted to Rs. 65,658 and exceeded the receipts by Rs. 4,683; but the system was self-supporting in 23 municipalities against 17 in 1893–94. It is hoped that soon this service will be self-supporting in every municipality for it is not fair to the general tax-payer that he should be burdened with the cost of a private service. The net cost was large in Negapatam (Rs. 2,275), Calicut (Rs. 1,780) Trichinopoly (Rs. 1,341), and Rajahmundry (Rs. 1,324).

29. *Sale-proceeds of Government Securities and Realizations of Sinking Fund.*—The amount credited under this head was Rs. 4,823 against Rs. 52,393 in the previous year, the decrease being again due to the fact that the Madura Municipal Council sold a smaller number of Government promissory notes in which the water-works grant was invested.

30. *Loans.*—During the year under review, loans amounting to Rs. 56,220, Rs. 25,900 and Rs. 1,00,000, respectively, were taken from Government by the Municipal Councils of Kurnool, Tanjore and Trichinopoly for expenditure on their water-supply schemes. The Palghat Municipal Council also raised a loan of Rs. 14,500 in the open market for the construction of certain public buildings. Appendix XXII shows further particulars regarding the indebtedness of municipal councils.

III.—EXPENDITURE.

31. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and with the budget estimates for 1894–95 :—

The total charges fell short of the previous year's figure by Rs. 3,24,825, the decrease appearing almost entirely under Grant I and Advances recoverable.

Grant I.—Public Works.

32. The total outlay on public works was Rs. 8,32,609 against the budget estimate of Rs. 10,75,780 and the actuals of Rs. 11,29,434 in the previous year. It amounted to 30·9 per cent. of the year's receipts and 34·5 per cent. of the total expenditure under all heads. The large decrease as compared with the budget estimate and also with the actuals of 1893–94 appears chiefly under water-supply and was due mainly to the non-utilization of the amount provided for the Kurnool water-supply scheme.

33. *Roads.*—The total expenditure on roads was Rs. 2,58,166 against the budget estimate of Rs. 2,33,760 and the previous year's actuals of Rs. 2,57,716. Of this sum, Rs. 38,597 were spent on new works and Rs. 2,19,569 on repairs against Rs. 51,014 and Rs. 2,06,702, respectively, in 1893–94. Although the total outlay did not differ much from that of the previous year, there were noteworthy increases in Tanjore and Vizagapatam and decreases in Bezwada and Tellicherry. The total length of roads maintained by the several municipal councils is stated to have been 1,375 miles, of which 880 were metalled or gravelled and 495 unmetalled. The length of unmetalled roads in Negapatam, Kumbakónam, Conjeeveram, Máyavaram and Mannárgudi was still very large. It is hoped that this state of things will not be allowed to continue long. The condition of the roads in fifty out of the fifty-six municipalities is reported to have been generally good. No information has been furnished in the case of Tirupati, but in the remaining five municipalities of Guntúr, Nellore, Ongole, Gudiyáttam and Chidambaram the state of the roads was far from satisfactory. The municipal councils of these towns have been directed to carry out the necessary repairs in the current year.

34. *Road Charges and Tolls.*—The total expenditure on roads amounted to 69·8 per cent. of the net municipal revenue from tolls against 69·7 per cent. in the previous year. The percentage exceeded 100 in eight municipalities, but fell below the minimum of 50 prescribed by Government in the fourteen towns named in the margin. Those municipal councils which had no excuse to offer for the short outlay under this head have been duly warned in the individual reviews.

Anakápalle	48·0	Cannanore	37·3
Tuticorin	46·9	Bellary	36·9
Madura	45·0	Anantapur	27·3
Karúr	41·4	Berhampur	24·8
Palni	40·1	Bimlipatam	16·1
Wálájapet	38·1	Ongole	15·7
Guntúr	37·9	Adóni	13·9

35. *Buildings.*—The outlay under this head was Rs. 67,691 on new works and Rs. 37,033 on repairs, making a total of Rs. 1,04,724 against Rs. 1,33,726 in 1893–94. For the decrease, which occurs chiefly in Tinnevelly, Madura and Cocanada, no special reasons have been assigned except in the first-named town, where an office building was under construction in the previous year.

36. *Drainage and Water-supply.*—The total expenditure on drainage amounted to Rs. 56,685 against Rs. 71,396 in the previous year. Of this sum, Rs. 30,334 were spent on new works and Rs. 26,351 on repairs. The outlay under new works was large only in Kumbakónam, where the drainage scheme was completed in October 1894. Under water-supply, Rs. 3,11,896 were spent on new works and Rs. 43,158 on repairs, against Rs. 5,81,559 and Rs. 34,925 respectively in 1893–94. The Madura water-supply scheme was also completed. The Adóni, Tanjore and Trichinopoly water-supply projects were under execution and several other water-supply and drainage schemes were either sanctioned by or under the consideration of Government or under investigation by the Sanitary Engineer at the end of the year. The progress made in each of these cases and the action taken in the other municipalities in regard to drainage and water-supply are shown in Appendix X.

37. *Establishment.*—The cost of the public works establishment, excluding that employed on the drainage and water-supply projects, which is included in the expenditure under these heads, amounted to Rs. 29,279 against Rs. 29,491 in the previous year. As usual, the outlay under this head was largest in Ootacamund, where a separate Engineer was employed. In the other towns, either overseers or maistries were employed for the supervision of all ordinary works, but in Karúr, Tiruppattúr and Bimlipatam they were carried out directly under the supervision of the chairmen or councillors. The total cost of this establishment amounted to 8·1 per cent. of the outlay on roads and buildings, against 7·5 per cent. in the previous year.

Grant II.—Education.

38. The educational operations of municipal councils were conducted on the same principles as in previous years. The total outlay on education, exclusive of the expenditure on school buildings (Rs. 8,995) shown under Grant I, but including contributions to Local and Provincial funds (Rs. 1,230), amounted to Rs. 3,11,129 against Rs. 3,06,006 in 1893–94. The increase, which occurred chiefly in Vizianagram and Salem, was due, in the first case, to the inclusion of the charges connected with the library, for which a private contribution of Rs. 3,000 referred to in paragraph 27 *supra* was received, and in the second, mainly to the establishment of new schools. The subjoined abstract compares the particulars of the total expenditure under the several heads with the figures of the previous year.

39. At the close of the year, there were 317 municipal schools and colleges against 302 in 1893–94. Of these, 26 were colleges or secondary schools and 291 primary schools. Of the former, 21 were maintained on the salary system and five on the salary-result system, the corresponding figures for primary schools being five and 286.

40. *Colleges and Secondary Schools.*—Of these three were second-grade colleges, eleven upper secondary schools, and the remaining twelve lower secondary schools. The subjoined abstract shows the strength and cost of the higher departments of these institutions.

	1894–95	211	143	1,242	8 11 0

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6-13-6 to Rs. 5-1-1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1-11-0 to Rs. 1-1-3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8-11-0 against Rs. 14-7-1 in 1893-94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

The results of the First in Arts examination were nearly the same as in the previous year, but it is to be regretted that there was a falling off in those of the Matriculation and the Lower Secondary examinations.

42. *Primary schools.*—The following abstract shows the strength and cost of the primary schools and departments maintained by municipal councils as compared with the figures of 1893-94 :—

—	Strength at the close of the year.	Average attendance.	Net cost.	Average cost of educating pupils.

The strength and average attendance of the salary system schools showed a further decline, but this was more than counterbalanced by an increase under the schools maintained on the salary-result system, which was due mainly, as in the previous year, to the establishment of new schools. The average cost of educating each pupil also showed a decrease under both classes, which is satisfactory. None of the primary schools, however, was self-supporting, and the net cost of each pupil in the primary schools and departments in the following municipalities was excessive :—

The municipal councils concerned should see that the charges of these schools are reduced as much as possible in future. The total number of pupils who appeared from these institutions for the standard examinations rose from 8,466 to 10,294, but it is to be regretted that only 7,502 of these, or 72·9 per cent., passed against 78 per cent. in the previous year.

43. *Grant-in-aid Schools.*—Appendix XII shows the number and strength of the several departments of these schools and the amount of grants paid to them. Their total number and attendance fell from 897 and 51,203 to 820 and 49,416, respectively. This decline appears chiefly in Berhampur, Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employment of trained teachers, and in others to delay in issuing certifying memoranda. Of the total number of pupils, 40,778, or 82·5 per cent., belonged to the result system schools, and 71·4 per cent. of the entire grants disbursed was earned by them. The total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of the allotment, against Rs. 87,948, or 93·8 per cent., in 1893-94. The percentage exceeded 100 in eleven municipalities, but was less than 75 in thirteen others. The explanation of the councils concerned for the failure to utilize the budget allotments in full will be found in Appendix XIII. From the information available, it appears that result grants were paid in 32 municipalities at the maximum rates allowed by the Grant-in-aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decrease, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pupils were under training during the year against 47 in 1893-94. The increase is satisfactory; but in view of the large proportion of untrained teachers now employed in the municipal and aided schools, the number sent for training should, in the opinion of Government, have been still larger. The number of inspecting schoolmasters employed by the councils in all municipalities except Anantapur, Palni, Walajapet and Anakápalle, where no special arrangements were made for the inspection of schools, was 52, or two more than in the previous year.

45. *General Educational Results.*—Appendix XIV shows the net expenditure on education and other statistics relating to municipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12/6 per cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 per cent., in the previous year. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxation

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6-13-6 to Rs. 5-1-1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxation

was excessive in Tellicherry (26), Vellore (23·6), Dindigul (19·7) and Cochin (18·8), while it was very low in Ootacamund (7), Cuddalore (6·4) and Berhampur (5·5), where also the proportion of boys under instruction to the male population of school-going age was below the general average, so that there is ample scope for further outlay in these three towns. The special attention of the municipal councils concerned is again drawn to this matter. The total number of boys under instruction in the municipal and aided schools was 54·3 per cent. of the male population of school-going age against 54·2 per cent. in 1893–94. The percentage in Ongle (116·9), Tellicherry (92·8) and Palamcottah (90·3) is very satisfactory, while in Rajahmundry (15·4) and Gudiyáttam (25·5) the figure is very poor.

Grant III.—Medical Services and Sanitation.

46. *Hospitals and Dispensaries.*—The expenditure under this head was Rupees 2,56,518, or Rs. 13,730 more than in 1893–94. The increase is spread over 35 municipalities, but appears chiefly in Cuddapah, Berhampur, Mangalore, Rajahmundry and Vellore. In Mangalore it was due to the opening of a new hospital for women and children, and in the other cases mainly to the payment of increments earned by the medical subordinates and the arrears of previous years. Every municipality was provided with at least one hospital or dispensary. The hospitals at Dindigul, Ootacamund, Vizagapatam and Vizianagram continued to be under private management, contributions being paid for the upkeep of the first three institutions from municipal funds, while those at Tirupati and Srívilliputtúr remained under the control of the North Arcot District Board and the Srívilliputtúr Taluk Board, respectively. In the case of Wálajapet and Tanjore accommodation for in-patients was provided in the hospitals under the management of the American Mission at Ranipet and in the Rajah-Mirasidar hospital maintained by the District Board at Tanjore, respectively, while in Gudiyáttam and Vániyambádi hospital buildings with accommodation for in-patients were under construction. Appendix XV furnishes information regarding the number of persons treated in the several hospitals and dispensaries. The total number of in-patients treated in these institutions rose from 21,361 to 22,019, and of out-patients from 1,051,836 to 1,134,232. The increase in the latter case, which occurred chiefly in Madura, Masulipatam, Coimbatore and Cuddalore is ascribed to the growing popularity of the institutions. Rules for the treatment of patients, &c., have been framed under section 127 of Act IV of 1884 by all municipal councils which have hospitals or dispensaries of their own.

47. *Midwives.*—A midwife was attached to every municipal hospital and dispensary. The total number of midwives employed was again 67, and they attended in all 4,924 cases of labour against 5,234 in 1893–94, the average number of cases for each being only 74 against 78. The decline is much to be regretted. The largest number of cases was attended by the midwives at Mannárgudi (210), Vizianagram (155), Mangalore (152) and Bimlipatam (150), and the smallest by those at Wálajapet, Bezwada, Cuddapah and Kurnool. It is hoped that the municipal councils of these towns will be able to report better results in the current year.

48. *Medical Training of Women.*—From the information received, which has been summarised as usual in Appendix XVI, it appears that no action was taken by municipal councils in furtherance of female medical education except in Srírangam where a woman was sent up to Madras for training as a midwife. That such action is required in the majority of cases is evident from the fact that at present special arrangements for affording medical relief to women exist only in the thirteen municipalities named in the margin. His Excellency the Governor in Council desires to impress upon all municipal councils the necessity of taking prompt action in this matter, and to suggest that the best means of doing so is to endow scholarships in connection with the Countess of Dufferin's Fund. Appendix XVI-A contains a list of the municipal councils which have hitherto done nothing to

further the objects of this Fund. The administration reports of these and the other municipal councils for the current year should contain information as to the action taken upon these remarks.

49. *Vaccination.*—This subject has already been fully dealt with in G.O., No. 1288 M., dated 8th August 1895, reviewing the report of the Inspector of Vaccination. Appendix XVII shows the statistics relating to vaccination in the several municipalities. Vaccination was compulsory in all municipalities except the newly constituted one of Srívilliputtúr. The total number of operations rose from 92,998 to 95,828, and of these, 89,730, or 93·6 per cent., are reported to have been successful against 87,368, or 93·9 per cent., in 1893–94. The general improvement in the work is satisfactory. The medical subordinates performed in all 2,464 operations, or 678 less than in 1893–94, the decrease being due to the fact that vaccination in dispensaries is now optional. The quality of the work turned out was very good in Máyavaram, Salem and Nellore, but poor in Berhampur, Kurnool and Palni. The total number of successful operations was 53·5 per mille of the population against 53 per mille in 1893–94. The best results were obtained in Coonoor (110·3 per mille), Calicut (104·8), Bezwada (90·9) and Palghat (83·9) and, leaving Srívilliputtúr which has only very recently been reconstituted a municipality out of account, the worst in Berhampur (31·0), Ongole (30·9), Palni (28·6) and Cuddapah (26·8). The total number of children under one year successfully vaccinated was 42,328, or 25·3 per mille of the population, against 35,570, or 21·6 per mille, in 1893–94. Taking the normal birth-rate to be 40 per mille, these results cannot be considered satisfactory except in Coonoor, Ootacamund, Tiruppattúr, Vániyambádi, Salem, Periyakulam, Bellary and Bimlipatam where the number of successful operations on children under one year ranged from 49·8 to 35·1 per mille. In Tuticorin, Palni, Berhampur, Tanjore, and Cuddapah, where the number was below 15 per mille, the work must be regarded as extremely bad. It is hoped that the municipal councils responsible will be able, by carefully following the instructions issued in G.O., No. 1502 M., dated 19th October 1894, to show a marked improvement in this branch of the administration in future. The matter requires continued and careful enquiry. The total number of prosecutions instituted for failure to have children vaccinated rose from 9,414 to 11,253. The highest figures were in Cocanada (1,526), Trichinopoly (1,273), Madura (840) and Adóni (685). Animal lymph was exclusively used in all the municipalities except Bellary, Ellore, Madura, Chidambaram, Srívilliputtúr and Srírangam, the total number of operations performed with it being 89,268 against 86,867 in 1893–94, and the number of successful cases 83,453, or 93 per cent., against 81,690, or 94 per cent. The average cost of each successful operation performed by municipal vaccinators was As. 4–2, being 4 pies less than in 1893–94. It was above As. 8 in Tirupati, Anantapur, Wálajapet, Ongole, Kurnool, Coonoor and Dindigul and below As. 3 in Parlákimedi, Mangalore, Coimbatore, Vizianagram, Madura, Salem, Anakápalle and Calicut.

50. *Vital Statistics.*—The subjoined abstract shows the total number of births and deaths registered during the year as compared with the figures of 1893–94:—

—	Births.	Rate per mille.	Deaths	Rate per mille.
1893–94	54,613	33·1	51,560	31·3
1894–95	53,202	31·7	43,170	25·8

There was a falling off under both heads, which is to be regretted. The rates in both cases being much below the normal, there is ample scope for improvement. The decrease in the number of births registered was comparatively small, but in the case of deaths it is more marked and can only be attributed to imperfect registration. The death-rate exceeded the birth-rate in Cuddapah, Chicacole, Chidambaram, Kumbakónam, Tuticorin, Srírangam and Trichinopoly, but all these towns, except the first two, were visited by cholera during the year. The registration of births and deaths appears to have been greatly neglected in Ellore, that of births in Chicacole,

Trichinopoly and Cuddapah, and that of deaths in Tellicherry, Gudiyáttam and Anantapur. As the special attention of the councils concerned has been drawn to this subject in the individual reviews, the Government trusts that the necessary steps will be taken by them to effect an improvement in the current year. Prosecutions for failure to register births and deaths were instituted in 37 municipalities against 32 in 1893–94, but their total number was only 1,330 against 1,394. They were freely resorted to in Mannárgudi, Kumbakónam, Adóni and Masulipatam, but in Anantapur and Gudiyáttam not a single prosecution was instituted, and in Trichinopoly there was only one solitary instance, although registration in these towns was by no means complete.

51. *Conservancy.*—The expenditure on conservancy, road cleaning and road watering was Rs. 4,78,883 against the budget estimate of Rs. 4,93,600 and the actuals of Rs. 4,69,698 in 1893–94. Of the increase of Rs. 9,185 as compared with the previous year, Rs. 1,018 appears in Srívilliputtúr and the remainder chiefly in Negapatam, Tuticorin and Bellary. The proportion of the expenditure to allotment fell from 96·3 to 95 per cent., but may still be regarded as fair. It ranged from 108·3 to 100·2 per cent. in Tinnevelly, Negapatam, Cochin, Vizianagram, Madura, Nellore, Ootacamund, Parlákimedi and Mangalore, but fell below 85 per cent. in Walajapet, Tellicherry, Kumbakónam, Tirupati, Conjeeveram and Srívilliputtúr. The proportion of expenditure to the ordinary receipts, excluding special grants from provincial funds and loans, was 21·5 per cent. as in the previous year. It was high in Bellary, Srívilliputtúr, Negapatam, Rajahmundry and Vizianagram, and very low in Chicacole, Tanjore and Palghat. The sanitary condition of the several municipalities when they were last visited by the Sanitary Commissioner or his Deputy is shown in Appendix XIX. From this it will be seen that there was hardly a single town in a really satisfactory condition. The Government has nothing to add to the remarks made on this subject in paragraph 53 of the general review for 1893–94, beyond expressing the hope that every effort will be made by municipal councils to effect an improvement in the sanitation of the towns under their control. Appendix XX shows the public latrine accommodation provided in the several towns. The total number of latrines (excluding urinals) rose from 1,092 to 1,131, which gives an average of one latrine for every 1,482 persons. The proportion was below the prescribed minimum of one for every 1,000 inhabitants in no less than 48 municipalities.

Grant IV.—Lighting and Miscellaneous.

52. *Lighting.*—The expenditure under this head rose from Rs. 97,234 to Rs. 1,01,016, the increase occurring chiefly in Vellore and Masulipatam. The total number of lights maintained was 13,322 against 12,585 in 1893–94, or, on an average, nine lamps for every mile of road maintained, as shown in Appendix XXI. The lighting in Palghat and Coonoor was very deficient, as in these towns there were only three lamps to each mile of road.

53. *Public garden, survey of land, fire and other charges.*—Details of the expenditure of Rs. 61,712 under this head are compared below with the figures of the previous year:—

	1893–94.	1894–95.
	Rs.	Rs.
Survey of land	757	881
Fire	524	857
Rewards for the destruction of wild animals	1,622	2,219
Public garden	6,342	6,341
Work done for private individuals	2,695	5,778
Printing	21,625	22,068
Compensation for lands	6,389	4,548
Other charges	14,709	19,020
Total	54,663	61,712

Grant V.—Supervision and Management.

54. On supervision and management a sum of Rs. 1,77,769 was spent against Rs. 1,75,325 in 1893–94 as shown below:—

	1893–94.	1894–95.
	Rs.	Rs.
Municipal office establishments	75,629	77,356
Collection of municipal taxes and contingencies	69,084	70,522
Salary and carriage allowances to Chairmen	15,934	16,272
Contribution to Central office establishments	14,618	13,619
Total	1,75,325	1,77,769

As in the previous year there were paid Chairmen in Cocanada, Coonoor and Nellore, but in the last-named town, the appointment was abolished towards the close of the year under review. The expenditure under Grant V amounted to 7·9 per cent. of the ordinary receipts against the limit of 10 per cent. prescribed by Government. This proportion was, however, exceeded in eleven towns; but in six of them there were special reasons for the excess. Steps should be taken without delay to reduce the expenditure in the remaining towns, viz., Ongole, Gudiyáttam, Walajapet, Anakápalle and Bimlipatam.

IV.—DEBT, CLOSING BALANCES, &c.

55. *Indebtedness of Municipalities.*—During the year under review, loans amounting to Rs. 20,082 were repaid, a sum of Rs. 1,996 was transferred to the sinking fund, and Rs. 35,855 were paid as interest on the municipal debt. Appendix XXII gives details of the loans raised, and of the amounts repaid and still outstanding.

56. *Advances.*—The debit under this head was Rs. 31,264 against Rs. 96,127 in 1893–94, the decrease being due to the inclusion in the previous year's figure of large advances made by the municipal councils of Adóni and Madura for the execution of their water-supply schemes.

57. *Closing Balances.*—The closing balance amounted to Rs. 7,24,098, or 32·5 per cent. of the current receipts. The percentage was very high in Kurnool (233·4), Tanjore (148·6), Tirupati (65·6), Tinnevelly (56·0) and Ootacamund (52·4), but in all these towns water-supply schemes were under execution or preparation, and the money was being reserved for that purpose. In thirteen other towns, the balance was less than the limit of 10 per cent. prescribed by Government, while in Calicut and Gudiyáttam the year closed with a deficit. The worst cases have been duly noticed in the individual reviews.

58. *Municipal Accounts.*—From the consolidated report of the Accountant-General on the audit of the municipal accounts for 1893–94 which has been recently received, it is satisfactory to note that the results of the audit showed an improvement on the previous year. In Madura, Cuddalore, Trichinopoly, Anantapur and Masulipatam, however, the accounts were in a very unsatisfactory condition and the special attention of the Chairmen has been drawn to the matter.

59. *General Administration.*—Detailed remarks on the working of each municipality have already been passed in reviewing the individual reports. It will be sufficient therefore to observe here that the administration improved and was fair in Bellary, Erode, Berhampur, Palghat, Walajapet, Palamcottah and Tuticorin, and was fairly satisfactory in all the other municipalities except Ellore, Cannanore, Gudiyáttam, Cuddalore, Mannárgudi, Srírangam and Vizianagram, where it was markedly inefficient.

His Excellency the Governor in Council is, however, glad to be able to record his opinion that the year's administration compared favourably with that of the previous year, and was on the whole fairly satisfactory.

APPENDIX XVI

Showing the action taken by certain Municipal Councils on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

1. *Adóni.*—"Both the midwives that worked during the year were trained hands, and the present midwife (a Eurasian) is also a trained nurse. The council is unable at present to incur any expenditure on the training of female medical practitioners, having regard to the more pressing demands on the funds at its disposal, such as water-supply, drainage and street improvement schemes, in regard to which there is a great deal to be done."

2. *Bellary.*—No action was taken by the Municipal Council in this matter, as Mrs. A. D. Carmody who had been selected to undergo training at the Medical College, Madras, completed her training, passed the final examination for hospital assistants, and has been employed as a female hospital assistant in the Sabhapati Mudaliyar Hospital.

3. *Conjeeveram.*—No female practitioner was sent for training during the year under report.

4. *Berhampur.*—"The midwife attached to the municipal hospital is a qualified woman, and is besides a Licentiate of Medicine and Surgery. There is also a female apothecary stationed in the town and working in the Jubilee hospital. It is therefore thought unnecessary to send any woman for medical training."

5. *Kurnool.*—No women were trained up as native doctors and nurses during the year for want of funds.

6. *Dindigul.*—No woman was sent up for medical training.

7. *Periyakulam.*—No action was taken as before for the training of female medical practitioners.

8. *Calicut.*—No expenditure was incurred for the medical training of women.

9. *Coonoor.*—It was not considered necessary to incur any expenditure for training female medical practitioners in this Municipality.

10. *Salem.*—No action was taken by the Municipal Council towards the training of female medical practitioners during the year under report.

11. *Vániyámbadi.*—No expenditure was incurred by the council during the year for the training of female medical practitioners as the midwife attached to the municipal dispensary was a trained woman.

12. *Negapatam.*—During the year under report no action was taken for the medical training of women.

13. *Tanjore.*—No woman was trained in this Municipality during the year.

14. *Palamcottah.*—No expenditure was incurred by the council during the year for the training of a female medical practitioner as the midwife attached to the municipal hospital was a trained woman.

15. *Srirangam.*—A woman was sent to the Lying-in Hospital, Madras, for training.

Order—No. 1973 M., dated 25th November 1895.

The Government having reviewed the administration reports of the several district municipalities for the year 1894–95 in the orders read above, now proceeds to consider them collectively.

2. It is to be regretted that there has been no improvement as compared with the previous year in regard to punctuality in the submission of these reports. Only two (from Chicacole and Parlákimedi) were received within the prescribed date, viz., the 1st June, while four (from Coimbatore, Karúr, Cannanore and Tellicherry) were more than two months, and two (from Wálájápet and Vizianagram) were up-wards of three months late. The Government must insist on absolute punctuality in future. The statements received with the reports were, on the whole, prepared with greater care and accuracy than hitherto, but there is still much room for improvement, especially in Rajahmundry, Cuddapah, Berhampur, Cannanore, Mannárgudi, Masulipatam, Kurnool, Palghat and Tanjore. The Chairmen of the municipal councils of these towns should bear this in mind.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The town of Srívilliputtúr was constituted a municipality on the 1st October 1894, thus raising the number of municipalities administered under the District Municipalities Act IV of 1884 to 56. The following statement shows the constitution of the several municipal councils on the 31st March 1895, as compared with the year 1893–94 :—

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.				
			Officials.		Non-officials.						
	Nominated.	Elected.	Nominated including ex-officio.	Elected.	Nominated.	Elected.	Nominated.	Elected.	Grand Total.	Europeans and Eurasians.	Natives.
1893–94	506	425	160	23	321	348	481	371	852	143	709
1894–95	528	421	166	28	323	354	489	382	871	145	726

Owing to inefficiency of the administration of that municipality, the number of elective seats on the Srírangam council was, during the year under review, reduced from twelve to eight, or one-half of the total strength. The newly constituted municipality of Srívilliputtúr was allowed eighteen councillors, all of whom were nominated by Government. There was thus an increase of 22 in the sanctioned number of nominated councillors and a decrease of four in that of elected members. Of the total number of councillors at the end of the year, 22·3 per cent. were officials against 21·5 in the previous year. Three councils, namely, those of Srívilliputtúr, Tinnevelly and Srírangam, consisted entirely of Native gentlemen against two in 1893–94.

4. As in the previous year, the system of appointing councillors by election was in force in the 34 municipalities shown in Appendix II. The total population of these towns was 1,246,042, and of this number, 37,348, or 3 per cent., were qualified to vote against 2·6 per cent. in 1893–94. One hundred and eighty-two seats were filled by election during the year, and of these 130 were contested, 47·7 per cent. of the voters concerned attending the poll against 51 per cent. in 1893–94.

5. The right of electing its own chairman was enjoyed by 35 municipal councils against 36 in 1893–94, the privilege having been withdrawn from the Anantapur council owing to its failure to elect a chairman at three successive meetings held for the purpose. At the close of the year 32 out of the 56 chairmen were non-officials as shown below :—

Year.	Number of Municipalities in which the Chairman was an official.			Number of Municipalities in which the Chairman was a non-official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand Total.
	Nominated by Government.	Elected by the Council.	Total.	Nominated by Government.	Elected by the Council.	Total.		
1893–94	4	9	13	11	21	32	10	55
1894–95	11	8	19	8	24	32	5	56

6. The average sanctioned strength of the several councils remained the same as in the previous year, namely, seventeen, but the average actual strength rose from fifteen to sixteen. The number of meetings actually held was 1,635, or 123 more than in 1893–94, but 245 meetings were adjourned for want of a quorum against 213 in that year. In Rajahmundry, nearly two-fifths of the number of meetings convened had to be adjourned, and in Chidambaram, Conjeeveram and Tanjore the number of adjourned meetings was also unduly large. The average attendance of the members was 8·5, as in the previous two years, and represented 50 per cent. of the sanctioned strength. The attendance of the non-official members continued to be fair, but that of the officials, though slightly better than in the previous year, was still indifferent.

II.—RECEIPTS.

* This is Rs. 17 less than the closing balance of 1893–94 as shown in that year's accounts, the difference being due to corrections made after audit.

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to 7½ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to 7½ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr these taxes were levied at 6¼ per cent. Thus the maximum rate of 7½ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers, in thirteen. The assessments cannot, however, be yet regarded as everywhere complete, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Remitted and written off.		Balance.		Percentage of collections to demand.

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which an explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Written off as irrecoverable.		Balance.		Percentage of collections to demand.

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srírangam (25·1),

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srírangam (25·1),

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to $7\frac{1}{2}$ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to $7\frac{1}{2}$ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr these taxes were levied at $6\frac{1}{4}$ per cent. Thus the maximum rate of $7\frac{1}{2}$ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers, in thirteen. The assessments cannot, however, be yet regarded as everywhere complete, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which an explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only $6\frac{1}{4}$ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, $1\frac{1}{2}$, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srírangam (25·1),

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—RECEIPTS FROM TAXATION.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to $7\frac{1}{2}$ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to $7\frac{1}{2}$ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr these taxes were levied at $6\frac{1}{4}$ per cent. Thus the maximum rate of $7\frac{1}{2}$ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers, in thirteen. The assessments cannot, however, be yet regarded as everywhere complete, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Remitted and written off.		Balance.		Percentage of collections to demand.

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which an explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only $6\frac{1}{4}$ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, $1\frac{1}{2}$, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·6), Srírangam (25·1),

and Chicacole (23·5). The net demand of this tax was more than that in the previous year in 34 out of the 48 municipalities (excluding Srívilliputtúr) in which it was levied, the increases being large in Tanjore (Rs. 2,892), Trichinopoly (Rs. 2,179), Conjeeveram (Rs. 2,114) and Calicut (Rs. 2,111). On the other hand, there was a decrease of Rs. 998 in Madura, for which an explanation has been called for. The current collections, amounting to 87·4 per cent. of the demand against 84·7 in the previous year, were fair, but the arrear realizations, amounting to 50·6 per cent. against 40·2 per cent., were still indifferent. The current collections were good in Bimlipatam (99·4 per cent.), Coonoor (99·2), Palamcottah (98·9) and Tinnevelly (98·5), but poor in Vizianagram (70·3), Chidambaram (65·2), Tanjore (64·9) and Srívilliputtúr (14·4). The proportion of arrears realized was very low in Ongole (15·8 per cent.), Guntúr (15·6), Madura (11·7) and Bellary (5·2), and the unadjusted balance in Tanjore and Madura continued to be very heavy. The total amount written off as irrecoverable was, however, only Rs. 11,832, or but one-half of the amount in 1893–94.

15. Appendix VI furnishes details of the incidence of the tax on arts in the several municipalities. The total number of persons assessed and the average incidence were 59,967 and Rs. 4–2–5, respectively, against 57,114 and Rs. 4 in the previous year. The number of assessees was only 3·9 per cent. of the population of the towns concerned, but there was an increase in the number taxed under the higher classes of the schedule. The incidence was high in Mannárgudi (Rs. 10–13–5), Negapatam (Rs. 10–1–5), Cochin (Rs. 9–15–1) and Bimlipatam (Rs. 8–11–9), and low in Salem (Rs. 2–7–9), Srívilliputtúr (Rs. 2–4–2) and Chidambaram and Máyavaram (Rs. 2–3–11). In Srívilliputtúr the registers were incomplete and in Máyavaram the low incidence was probably due to the depression in the weaving industry. In the other two towns, there is no apparent reason why it should be so much below the general average. The councils concerned should carefully revise the assessments so as to make them equitable.

16. *Tax on Vehicles with Springs, Animals and Carts.*—These taxes were again levied in all municipalities except Palghat, where the tax on animals has not yet been introduced. The receipts amounted to Rs. 1,62,084 against Rs. 1,52,333 in 1893–94. The increase in the income under this head is satisfactory, and the Government trusts that the efforts made to develop it by the exercise of careful supervision over the municipal executive will be sustained.

17. *Coercive Processes.*—The extent to which coercive measures were adopted for the collection of the several taxes in each municipality is shown in Appendix VII, and the following abstract compares the total figures for 1894–95 with those of the previous year :—

Year.	Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

1894–95	† 10,539	34,745	45,284	36,398	8,886

* This figure is 308 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.
† This figure is 72 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.

The total number of warrants issued during the year was 127,791, or 332 less than in 1893–94. Adding to this the unexecuted warrants of the previous year, the total number for disposal was 162,781, of which 132,992 were executed or cancelled within the year, leaving 29,789 to be adjusted in the current year. As usual the largest number of warrants was issued in Calicut (20,437), and in Mangalore, Berhampur and Tanjore also coercive processes were freely resorted to. On the other hand, the number issued in Rajahmundry, Srívilliputtúr, Periyakulam and Coonoor was very small, while none at all were issued in Parlákimedi. In Periyakulam, Coonoor and Parlákimedi, however, the collections were, on the whole, good, and in Srívilliputtúr the municipality commenced work only towards the close of the year; but in Rajahmundry there was no excuse for the leniency shown; the Council of this town should bear this remark carefully in mind. The number of warrants remaining unexecuted at the close of the year, although not so large as in 1893–94, was still over 18 per cent. of the total number. This is not satisfactory. The total amount covered by all the warrants was Rs. 2,77,194, and of this, Rs. 2,05,991 were realized. Property, however, was sold in only 458 cases, the proceeds amounting to Rs. 689. The number of prosecutions instituted for failure to pay taxes was 3,234, and of these, 653 were in Ootacamund and 530 in Salem.

18. *Tolls.*—The statistics relating to tolls are given in Appendix VIII. Including Srívilliputtúr, there were 53 municipalities which derived an income from tolls. Of these, 49 had toll-gates of their own and the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from gates managed by the district boards. In Cocanada, Tellicherry, Vániyambádi and Srívilliputtúr the tolls were collected departmentally, while in the other municipalities they were leased out to contractors. The rates of tolls were raised from three-fourths to the maximum in Calicut and from one-half to the maximum in Vániyambádi. Tolls were levied at 334 gates against 342 in 1893–94, and the gross collections amounted to Rs. 4,37,529 against Rs. 4,46,737. From this, Rs. 1,18,098 were paid to district boards, the balance being credited to municipal funds, while the contributions received from district boards amounted to Rs. 26,309. The total income under this head was thus Rs. 3,45,740 against Rs. 3,48,152 in the previous year, the decrease appearing chiefly in Madura and being due to want of competition at the sales.

19. *Incidence of Taxation.*—The average incidence of municipal taxation was As. 13–10 including tolls, and As. 10–6 excluding them, the corresponding figures for the previous years being As. 13–3 and As. 9–10. Appendix IX gives full particulars of the incidence in the several municipalities.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,52,793 against Rs. 12,52,803 in 1893–94. There was an increase under markets and slaughter-houses, fines and grants from Government, which was more than counterbalanced by a decline under sale-proceeds of Government securities, loans and advances recovered. The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The income derived from rents was Rs. 26,573 against Rs. 28,982 in 1893–94, and that from sale-proceeds and produce of lands was Rs. 19,095 against Rs. 11,125. The decrease under the first head, which appears principally in Madura, is attributed to the fact that vacant spaces in the town which were leased out in previous years were reserved for the use of the public, and the increase under the latter occurred chiefly in Máyavaram, where a sum of Rs. 5,000 was realized by the sale of the old travellers' bungalow and a portion of the land attached to it.

22. *Conservancy Receipts.*—These amounted to Rs. 24,755, or Rs. 1,794 less than in 1893–94. The largest income under this head was again in Trichinopoly (Rs. 6,550), Conjeeveram (Rs. 2,831) and Cuddalore (Rs. 2,308). On the other hand, nothing was realized in Karúr, Masulipatam, Calicut, Cochin, Vellore and Tanjore. In the last-named town, however, this was due to the fact that the street sweepings were made over to the rubbish cart contractor, who removed them without payment. In the other cases it is generally attributed to want of demand for the sweepings, but the experience of other municipalities shows that where sales are properly advertised, a considerable demand is in course of time created. The Government would again invite the special attention of municipal councils to the desirability of developing this source of revenue.

23. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 92,442 against Rs. 85,521 in 1893–94, and the increase, which appears mainly in Máyavaram, Tellicherry and Tiruppattúr, was due chiefly to general improved attendance at the municipal schools and colleges.

24. *Fees and Revenue from Markets and Slaughter-houses.*—It is gratifying to observe that there was an increase of Rs. 10,473 over the previous year's figure under this head, the receipts amounting to Rs. 1,53,501 against Rs. 1,43,028. Of this, a sum of Rs. 1,12,367 appertained to markets and Rs. 41,134 to slaughter-houses. Leaving out of account the new municipality of Srívilliputtúr, the only towns in which no municipal markets existed were Berhampur, Ellore, Tuticorin, Bimlipatam and Vizianagram. In the last three towns, however, there were suitable private markets, while in the two others the erection of public markets appears to be under contemplation. The total number of municipal markets was 107, the largest number being in Trichinopoly (8), Srírangam (7) and Madura (6). Fees were collected departmentally in five of the markets and were farmed out to contractors in the others. The largest revenue was realized in Trichinopoly (Rs. 16,448), Coonoor (Rs. 8,680), Vellore (Rs. 8,266), Ootacamund (Rs. 7,820) and Madura (Rs. 7,489), and the smallest in Nellore (Rs. 365), Vániyambádi (Rs. 350), Vizagapatam (Rs. 303), Palni (Rs. 229) and Bellary (Rs. 164). Excluding the cost of establishment and public works, which amounted in the aggregate to Rs. 26,185, the net receipts under this head were Rs. 86,182 against Rs. 82,343 in 1893–94.

25. *License Fees.*—The receipts under this head amounted to Rs. 35,843 against Rs. 31,711 in the previous year. The increase, which appears chiefly in Calicut, Tanjore and Negapatam, was due in the first case to the revision of the scale and, in the others, apparently to more careful supervision. The collections amounted to Rs. 2,000 or more in Madura (Rs. 2,151), Negapatam (Rs. 2,056) and Kumbakónam (Rs. 2,000), but fell below Rs. 100 in Bimlipatam (Rs. 95), Gudiyáttam (Rs. 82) and Srívilliputtúr (Rs. 18). The necessity of reminding municipal councils that these fees should invariably be collected before licenses are issued still exists.

26. *Fines under the Municipal and other Acts.*—The receipts from this source amounted to Rs. 40,924, or Rs. 9,938 more than the previous year's figure. The advance is satisfactory in so far as it indicates increased activity on the part of the police and the municipal executive in checking nuisances. The income exceeded Rs. 2,000 in Madura (Rs. 6,560), Bellary (Rs. 3,103), Kumbakónam (Rs. 2,966) and Trichinopoly (Rs. 2,539), but was below Rs. 100 in Coonoor (Rs. 98), Anantapur (Rs. 97), Ootacamund (Rs. 80) and Srívilliputtúr (Rs. 20).

27. *Grants and Contributions.*—The amount of grants received from Government was Rs. 3,41,534, or Rs. 76,384 more than in the previous year. During the year under review, grants amounting to Rs. 81,000, Rs. 25,000, Rs. 44,000, Rs. 82,920 and Rs. 39,356, respectively, were paid to the Adóni, Kurnool, Ootacamund, Tanjore and Trichinopoly Municipal Councils towards their water-supply projects. The contributions received from local funds and other sources amounted to Rs. 79,988 and Rs. 24,148, respectively, against Rs. 86,449 and Rs. 6,931 in 1893–94. The increase in the latter case was due mainly to the receipt of a liberal contribution of Rs. 12,000 by the Vizagapatam Municipal Council from the Hon'ble the Maharaja of Vizianagram for the construction of a road, and one of Rs. 3,000 by the Vizianagram council from M.R.Ry. P. Narayana Chetti Garu for the establishment of a public library.

28. *Recoveries for Services to Private Individuals.*—The receipts under this head amounted to Rs. 65,303 against Rs. 56,718 in the previous year. Of this, Rs. 60,975 represented fees for the private scavenging service. This system was worked in all the municipalities and in no place was the service rendered gratuitously. The number of houses served by municipal agency increased from 29,012 to 36,257, and exceeded 1,500 in Trichinopoly (4,151), Mangalore (2,283), Palamcottah (2,184), Tinnevelly (1,768) and Bellary (1,576), but fell short of 100 in Karúr (93), Mannárgudi (75), Gudiyáttam (63) and Srívilliputtúr (45). There is however considerable scope for further advance as the total number of houses assessed to the tax on buildings was 265,524, but no real improvement can be expected in this direction unless the penal provisions of the Act are strictly enforced against all persons who keep their premises in an

insanitary state. The total amount of fees due was Rs. 76,965, but of this only Rupees 60,975, or 79 per cent., were collected within the year. It has been necessary again to remind all municipal councils that the fees for this service should invariably be collected in advance. The total expenditure on this account amounted to Rs. 65,658 and exceeded the receipts by Rs. 4,683, but the system was self-supporting in 22 municipalities against 17 in 1893–94. It is hoped that soon this service will be self-supporting in every municipality for it is not fair to the general tax-payer that he should be burdened with the cost of a private service. The net cost was large in Negapatam (Rs. 2,275), Calicut (Rs. 1,780) Trichinopoly (Rs. 1,341), and Rajahmundry (Rs. 1,324).

29. *Sale-proceeds of Government Securities and Realizations of Sinking Fund.*—The amount credited under this head was Rs. 4,823 against Rs. 52,393 in the previous year, the decrease being again due to the fact that the Madura Municipal Council sold a smaller number of Government promissory notes in which the water-works grant was invested.

30. *Loans.*—During the year under review, loans amounting to Rs. 56,220, Rs. 25,900 and Rs. 1,00,000, respectively, were taken from Government by the Municipal Councils of Kurnool, Tanjore and Trichinopoly for expenditure on their water-supply schemes. The Palghat Municipal Council also raised a loan of Rs. 14,500 in the open market for the construction of certain public buildings. Appendix XXII shows further particulars regarding the indebtedness of municipal councils.

III.—EXPENDITURE.

The total charges fell short of the previous year's figure by Rs. 3,24,825, the decrease appearing almost entirely under Grant I and Advances recoverable.

Grant I.—Public Works.

32. The total outlay on public works was Rs. 8,32,609 against the budget estimate of Rs. 10,75,780 and the actuals of Rs. 11,29,434 in the previous year. It amounted to 30·9 per cent. of the year's receipts and 34·5 per cent. of the total expenditure under all heads. The large decrease as compared with the budget estimate and also with the actuals of 1893–94 appears chiefly under water-supply and was due mainly to the non-utilization of the amount provided for the Kurnool water-supply scheme.

33. *Roads.*—The total expenditure on roads was Rs. 2,58,166 against the budget estimate of Rs. 2,33,760 and the previous year's actuals of Rs. 2,57,716. Of this sum, Rs. 38,597 were spent on new works and Rs. 2,19,569 on repairs against Rs. 51,014 and Rs. 2,06,702, respectively, in 1893–94. Although the total outlay did not differ much from that of the previous year, there were noteworthy increases in Tanjore and Vizagapatam and decreases in Bezwada and Tellicherry. The total length of roads maintained by the several municipal councils is stated to have been 1,375 miles, of which 880 were metalled or gravelled and 495 unmetalled. The length of unmetalled roads in Negapatam, Kumbakónam, Conjeeveram, Máyavaram and Mannárgudi was still very large. It is hoped that this state of things will not be allowed to continue long. The condition of the roads in fifty out of the fifty-six municipalities is reported to have been generally good. No information has been furnished in the case of Tirupati, but in the remaining five municipalities of Guntúr, Nellore, Ongole, Gudiyáttam and Chidambaram the state of the roads was far from satisfactory. The municipal councils of these towns have been directed to carry out the necessary repairs in the current year.

34. *Road Charges and Tolls.*—The total expenditure on roads amounted to 69·8 per cent. of the net municipal revenue from tolls against 69·7 per cent. in the previous year. The percentage exceeded 100 in eight municipalities, but fell below the minimum of 50 prescribed by Government in the fourteen towns named in the margin. Those municipal councils which had no excuse to offer for the short outlay under this head have been duly noticed in the individual reviews.

Palni	40·1	Bimlipatam ..	16·1
Wálájápet ..	38·1	Ongole	15·7
Guntúr	37·9	Ádóni	13.9

35. *Buildings.*—The outlay under this head was Rs. 67,691 on new works and Rs. 37,033 on repairs, making a total of Rs. 1,04,724 against Rs. 1,33,726 in 1893–94. For the decrease, which occurs chiefly in Tinnevelly, Madura and Cocanada, no special reasons have been assigned except in the first-named town, where an office building was under construction in the previous year.

36. *Drainage and Water-supply.*—The total expenditure on drainage amounted to Rs. 56,685 against Rs. 71,396 in the previous year. Of this sum, Rs. 30,334 were spent on new works and Rs. 26,351 on repairs. The outlay under new works was large only in Kumbakónam, where the drainage scheme was completed in October 1894. Under water-supply, Rs. 3,11,896 were spent on new works and Rs. 43,158 on repairs, against Rs. 5,81,559 and Rs. 34,925 respectively in 1893–94. The Madura water-supply scheme was also completed. The Ádóni, Tanjore and Trichinopoly water-supply projects were under execution and several other water-supply and drainage schemes were either sanctioned by or under the consideration of Government, or under investigation by the Sanitary Engineer at the end of the year. The progress made in each of these cases and the action taken in the other municipalities in regard to drainage and water-supply are shown in Appendix X.

37. *Establishment.*—The cost of the public works establishment, excluding that employed on the drainage and water-supply projects, which is included in the expenditure under these heads, amounted to Rs. 29,279 against Rs. 29,491 in the previous year. As usual, the outlay under this head was largest in Ootacamund, where a separate Engineer was employed. In the other towns, either overseers or maistries were employed for the supervision of all ordinary works, but in Karúr, Tiruppattúr and Bimlipatam they were carried out directly under the supervision of the chairmen or councillors. The total cost of this establishment amounted to 8·1 per cent. of the outlay on roads and buildings, against 7·5 per cent. in the previous year.

Grant II.—Education.

38. The educational operations of municipal councils were conducted on the same principles as in previous years. The total outlay on education, exclusive of the expenditure on school buildings (Rs. 8,995) shown under Grant I, but including contributions to Local and Provincial funds (Rs. 1,230), amounted to Rs. 3,11,129 against Rs. 3,06,006 in 1893–94. The increase, which occurred chiefly in Vizianagram and Salem, was due, in the first case, to the inclusion of the charges connected with the library, for which, a private contribution of Rs. 3,000 referred to in paragraph 27 *supra* was received, and in the second, mainly to the establishment of new schools. The subjoined abstract compares the particulars of the total expenditure under the several heads with the figures of the previous year.

39. At the close of the year, there were 317 municipal schools and colleges against 302 in 1893–94. Of these, 26 were colleges or secondary schools and 291 primary schools. Of the former, 21 were maintained on the salary system and five on the salary-result system, the corresponding figures for primary schools being five and 286.

40. *Colleges and Secondary Schools.*—Of these three were second-grade colleges, eleven upper secondary schools, and the remaining twelve lower secondary schools. The subjoined abstract shows the strength and cost of the higher departments of these institutions.

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6–13–6 to Rs. 5–1–1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1–11–0 to Rs. 1–1–3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8–11–0 against Rs. 14–7–1 in 1893–94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

The results of the First in Arts examination were nearly the same as in the previous year, but it is to be regretted that there was a falling off in those of the Matriculation and the Lower Secondary examinations.

42. *Primary schools.*—The following abstract shows the strength and cost of the primary schools and departments maintained by municipal councils as compared with the figures of 1893–94 :—

—	Strength at the close of the year.	Average attendance.	Net cost.	Average cost of educating pupils.

The strength and average attendance of the salary system schools showed a further decline, but this was more than counterbalanced by an increase under the schools maintained on the salary-result system, which was due mainly, as in the previous year, to the establishment of new schools. The average cost of educating each pupil also showed a decrease under both classes, which is satisfactory. None of the primary schools, however, was self-supporting, and the net cost of each pupil in the primary schools and departments in the following municipalities was excessive :—

The municipal councils concerned should see that the charges of these schools are reduced as much as possible in future. The total number of pupils who appeared from these institutions for the standard examinations rose from 8,466 to 10,294, but it is to be regretted that only 7,502 of these, or 72·9 per cent., passed against 78 per cent. in the previous year.

43. *Grant-in-aid Schools.*—Appendix XII shows the number and strength of the several departments of these schools and the amount of grants paid to them. Their total number and attendance fell from 897 and 51,203 to 820 and 49,416, respectively. This decline appears chiefly in Berhampur, Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employment of trained teachers, and in others to delay in issuing certifying memoranda. Of the total number of pupils, 40,778, or 82·5 per cent., belonged to the result system schools, and 71·4 per cent. of the entire grants disbursed was earned by them. The total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of the allotment, against Rs. 87,948, or 93·8 per cent., in 1893–94. The percentage exceeded 100 in eleven municipalities, but was less than 75 in thirteen others. The explanation of the councils concerned for the failure to utilize the budget allotments in full will be found in Appendix XIII. From the information available, it appears that result grants were paid in 32 municipalities at the maximum rates allowed by the Grant-in-aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decrease, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pupils were under training during the year against 47 in 1893–94. The increase is satisfactory; but in view of the large proportion of untrained teachers now employed in the municipal and aided schools, the number sent for training should, in the opinion of Government, have been still larger. The number of inspecting schoolmasters employed by the councils in all municipalities except Anantapur, Palni, Wálájápet and Anakápalle, where no special arrangements were made for the inspection of schools, was 52, or two more than in the previous year.

45. *General Educational Results.*—Appendix XIV shows the net expenditure on education and other statistics relating to municipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12·6 per cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 per cent., in the previous year. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxati-

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6–13–6 to Rs. 5–1–1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

This decline appears chiefly in Berhampur, Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employment of trained teachers, and in others to delay in issuing certifying memoranda. Of the total number of pupils, 40,778, or 82·5 per cent., belonged to the result system schools, and 71·4 per cent. of the entire grants disbursed was earned by them. The total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of the allotment, against Rs. 87,948, or 93·8 per cent., in 1893–94. The percentage exceeded 100 in eleven municipalities, but was less than 75 in thirteen others. The explanation of the councils concerned for the failure to utilize the budget allotments in full will be found in Appendix XIII. From the information available, it appears that result grants were paid in 32 municipalities at the maximum rates allowed by the Grant-in-aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decrease, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pupils were under training during the year against 47 in 1893–94. The increase is satisfactory; but in view of the large proportion of untrained teachers now employed in the municipal and aided schools, the number sent for training should, in the opinion of Government, have been still larger. The number of inspecting schoolmasters employed by the councils in all municipalities except Anantapur, Palni, Wálájápet and Anakápalle, where special arrangements were made for the inspection of schools, was 52, or two more than in the previous year.

45. *General Educational Results.*—Appendix XIV shows the net expenditure on education and other statistics relating to municipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12·6 per cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 per cent., in the previous year. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxati

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6-13-6 to Rs. 5-1-1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1-11-0 to Rs. 1-1-3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8-11-0 against Rs. 14-7-1 in 1893-94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

The average cost of educating each pupil also showed a decrease under both classes, which is satisfactory. The municipal councils concerned should see that the charges of these schools are reduced as much as possible in future. The strength and average attendance of the salary system schools showed a further decline, but this was more than counterbalanced by an increase under the schools maintained on the salary-result system, which was due mainly, as in the previous year, to the establishment of new schools. The average cost of educating each pupil also showed a decrease under both classes, which is satisfactory. None of the primary schools, however, was self-supporting, and the net cost of each pupil in the primary schools and departments in the following municipalities was excessive :—

The municipal councils concerned should see that the charges of these schools are reduced as much as possible in future. The total number of pupils who appeared from these institutions for the standard examinations rose from 8,466 to 10,194, but it is to be regretted that only 7,502 of these, or 72·9 per cent., passed against 78 per cent. in the previous year.

43. *Grant-in-aid Schools.*—Appendix XII shows the number and strength of the several departments of these schools and the amount of grants paid to them. Their total number and attendance fell from 897 and 51,203 to 820 and 49,416, respectively. This decline appears chiefly in Berhampur, Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employment of trained teachers, and in others to delay in issuing certifying memoranda. Of the total number of pupils, 40,778, or 82·5 per cent., belonged to the result system schools, and 71·4 per cent. of the entire grants disbursed was earned by them. The total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of the allotment, against Rs. 87,948, or 93·8 per cent., in 1893–94. The percentage exceeded 100 in eleven municipalities, but was less than 75 in thirteen others. The explanation of the councils concerned for the failure to utilize the budget allotments in full will be found in Appendix XIII. From the information available, it appears that result grants were paid in 32 municipalities at the maximum rates allowed by the Grant-in-aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decrease, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pupils were under training during the year against 47 in 1893–94. The increase is satisfactory; but in view of the large proportion of untrained teachers now employed in the municipal and aided schools, the number sent for training should, in the opinion of Government, have been still larger. The number of inspecting schoolmasters employed by the councils in all municipalities except Anantapur, Palni, Wálájápet and Anakápalle, where special arrangements were made for the inspection of schools, was 52, or two more than in the previous year.

45. *General Educational Results.*—Appendix XIV shows the net expenditure on education and other statistics relating to municipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12·6 per cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 per cent., in the previous year. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxati

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6–13–6 to Rs. 5–1–1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1–11–0 to Rs. 1–1–3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8–11–0 against Rs. 14–7–1 in 1893–94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

APPENDIX XVI.

Showing the action taken by certain Municipal Councils on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

1. *Adóni.*—"Both the midwives that worked during the year were trained hands, and the present midwife (a Eurasian) is also a trained nurse. The council is unable at present to incur any expenditure on the training of female medical practitioners, having regard to the more pressing demands on the funds at its disposal, such as water-supply, drainage and street improvement schemes, in regard to which there is a great deal to be done."

2. *Bellary.*—No action was taken by the Municipal Council in this matter, as Mrs. A. D. Carmody who had been selected to undergo training at the Medical College, Madras, completed her training, passed the final examination for hospital assistants, and has been employed as a female hospital assistant in the Sabhapati Mudaliyar Hospital.

3. *Conjeeveram.*—No female practitioner was sent for training during the year under report.

4. *Berhampur.*—"The midwife attached to the municipal hospital is a qualified woman, and is besides a Licentiate of Medicine and Surgery. There is also a female apothecary stationed in the town and working in the Jubilee hospital. It is therefore thought unnecessary to send any woman for medical training."

5. *Kurnool.*—No women were trained up as native doctors and nurses during the year for want of funds.

6. *Dindigul.*—No woman was sent up for medical training.

7. *Periyakulam.*—No action was taken as before for the training of female medical practitioners.

8. *Calicut.*—No expenditure was incurred for the medical training of women.

9. *Coonoor.*—It was not considered necessary to incur any expenditure for training female medical practitioners in this Municipality.

10. *Salem.*—No action was taken by the Municipal Council towards the training of female medical practitioners during the year under report.

11. *Vániyambádi.*—No expenditure was incurred by the council during the year for the training of female medical practitioners as the midwife attached to the municipal dispensary was a trained woman.

12 *Negapatam.*—During the year under report no action was taken for the medical training of women.

13. *Tanjore.*—No woman was trained in this Municipality during the year.

14. *Palamcottah.*—No expenditure was incurred by the council during the year for the training of a female medical practitioner as the midwife attached to the municipal hospital was a trained woman.

15. *Srirangam.*—A woman was sent to the Lying-in Hospital, Madras, for training.

Note for H.M.

As the Annual Municipal Review was already a little late, a proof was submitted to H.M. for approval, which had not been checked & compared in the office, after coming from the Press. Another proof was being so compared, while this one was sent for approval. The mistakes noted were all made in the Press, the chief error being that in Form II the figures for Kurnool & Madura were transposed. On p. 71 the figures are 1089 & 3734, or a total of 4823, which is correct, but they are shown against Kurnool instead of Madura. It is regretted that this copy was so full of mistakes, but it was thought better to send it up, without being compared, to save time.

ORDER—No. 1973, M., dated 25th November 1895.

The Government having reviewed the administration reports of the several district municipalities for the year 1894-95 in the orders read above, now proceeds to consider them collectively.

2. It is to be regretted that there has been no improvement as compared with the previous year in regard to the punctual submission of these reports. Only two reports (from Chicacole and Parlákimedi) were received within the prescribed date, viz., the 1st June, while four (from Coimbatore, Karur, Cannanore and Tellicherry) were more than two months, and two (from Walajapet and Vizianagram) were upwards of three months late. The Government must insist on absolute punctuality in future. The statements received with the reports were, on the whole, prepared with greater care and accuracy than in the previous year, but there is still much room for improvement, especially in Rajahmundry, Cuddapah, Berhampúr, Cannanore, Mannárgudi, Masulipatam, Kurnool, Palghat and Tanjore. The Chairmen of the municipal councils of these towns should devote more attention to this matter in the current year.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The town of Srívilliputtúr was constituted a municipality on the 1st October 1894, thus raising the number of municipalities administered under the District Municipalities Act IV of 1884 to 56. The following statement shows the constitution of the several municipal councils on the 31st March 1895, as compared with the previous year 1893-94

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.				
			Officials.		Non-officials.

1894-95	528	421	166	28	323	354	489	382	871	145	726

Owing to the inefficiency of the administration the number of elective seats on the Srírangam municipal council was, during the year under review, reduced from twelve to eight, or one-half of the total strength. The newly constituted municipality of Srívilliputtúr was allowed eighteen councillors, all of whom were nominated by Government. Thus there was an increase of 22 in the sanctioned number of nominated councillors and a decrease of four in that of the elected members. Of the total number of councillors at the end of the year, 22·3 per cent. were officials against 21·5 in the previous year. Three councils, namely, those of Srívilliputtúr, Tinnevelly and Srírangam, consisted entirely of natives against two in 1893–94.

4. As in the previous year, the system of appointing councillors by election was in force in the 34 municipalities shown in Appendix II. The total population of these towns was 1,246,042, and of this number, 37,348 or 3 per cent. were qualified to vote against 2·6 in 1893–94. One hundred and eighty-two seats were filled by election during the year, and of these 130 were contested, 47·7 per cent. of the voters concerned attending the poll against 51 per cent. in 1893–94.

5. The right of electing its own chairman was enjoyed by 35 municipal councils against 36 in 1893–94, the privilege having been withdrawn from the Anantapúr municipal council owing to its failure to elect a chairman at three successive meetings held for the purpose. At the close of the year 32 out of the 56 chairmen were non-officials as shown below :—

ORDER—No. 973, M., dated 25th November 1895.

The Government having reviewed the administration reports of the several district municipalities for the year 1894-95 in the orders read above, now proceeds to consider them collectively.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The town of Srívilliputtúr was constituted a municipality on the 1st October 1894, thus raising the number of municipalities administered under the District Municipalities Act IV of 1884 to 56. The following statement shows the constitution of the several municipal councils on the 31st March 1895, as compared with the previous year 1893-94

Owing to the inefficiency of the administration the number of elective seats on the Srírangam municipal council was, during the year under review, reduced from twelve to eight, or one-half of the total strength. The newly constituted municipality of Srívilliputtúr was allowed eighteen councillors, all of whom were nominated by Government. At the close of the year 32 out of the 56 chairmen were non-officials as shown below :—

6. The average sanctioned strength of the several councils remained the same as in the previous year, namely, seventeen, but the average actual strength rose from fifteen to sixteen. The number of meetings actually held was 1,635, or 123 more than in 1893–94, but 245 meetings were adjourned for want of a quorum against 213 in that year. In Rajahmundry, nearly two-fifths of the number of meetings convened had to be adjourned, and in Chidambaram, Conjeeveram and Tanjore the number of adjourned meetings was also unduly large. The average attendance of the members was 8·5, as in the previous two years, and represented 50 per cent. of the sanctioned strength. The attendance of the non-official members continued to be fair, but that of the officials, though slightly better than in the previous year, was still indifferent.

*This is Rs. 17 less than the closing balance of 1893–94 as shown in that year's accounts, the difference being due to corrections made after audit.

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review, the rate of the tax on buildings and lands was raised from 5 to $7\frac{1}{2}$ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to $7\frac{1}{2}$ per cent. in Vániyambádi. In the new municipality of Śrívilliputtúr these taxes were levied at $6\frac{1}{4}$ per cent. Thus the maximum rate of $7\frac{1}{2}$ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers in thirteen. The assessments cannot, however, be yet regarded as complete ~~in several towns~~, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Śrívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

The assessments cannot, however, be yet regarded as complete in several towns, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very large. The large increase in the demand, and the improvement in the collections referred to above, explain the increase of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4-11-8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3-8-0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0) and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Kurnool and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only $6\frac{1}{4}$ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, $1\frac{1}{2}$, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent. were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year:—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Written off as irrecoverable.		Balance.		Percentage of collections to demand.

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srírangam (25·1),

and Chicacole (23·5). The net demand of this tax was more than that in the previous year in 34 out of the 48 municipalities (excluding Srívilliputtúr) in which it was levied, the increases being large in Tanjore (Rs. 2,892), Trichinopoly (Rs. 2,179), Conjeeveram (Rs. 2,114) and Calicut (Rs. 2,111). On the other hand, there was a decrease of Rs. 998 in Madura, for which an explanation has been called for. The current collections amounting to 87·4 per cent. of the demand against 84·7 in the previous year were fair, but the arrear realizations amounting to 50·6 per cent. against 40·2 per cent. were still indifferent. The current collections were good in Bimlipatam (99·4 per cent.), Coonoor (99·2), Palamcottah (98·9) and Tinnevelly (98·5), but poor in Vizianagram (70·3), Chidambaram (65·2), Tanjore (64·9) and Srívilliputtúr (14·4). The proportion of arrears realized was very low in Ongole (15·8 per cent.), Guntúr (15·6), Madura (11·7) and Bellary (5·2), and the unadjusted balance in Tanjore and Madura continued to be very large. The total amount written off as irrecoverable was, however, only Rs. 11,832, or only one-half of the amount in 1893–94.

15. Appendix VI furnishes details of the incidence of the tax on arts in the several municipalities. The total number of persons assessed and the average incidence were 59,967 and Rs. 4–2–5, respectively, against 57,114 and Rs. 4 in the previous year. The number of assessees was only 3·9 per cent. of the population of the towns concerned, but there was an increase in the number taxed under the higher classes of the schedule. The incidence was high in Mannárgudi (Rs. 10–13–5), Negapatam (Rs. 10–1–5), Cochin (Rs. 9–15–1) and Bimlipatam (Rs. 8–11–9), and low in Salem (Rs. 2–7–9), Srívilliputtúr (Rs. 2–4–2) and Chidambaram and Máyavaram (Rs. 2–3–11). In Srívilliputtúr the registers were incomplete and in Máyavaram the low incidence was probably due to the depression in the weaving industry. In the other two towns, there is no apparent reason why it should be so much below the general average. The councils concerned should carefully revise the assessments so as to make them equitable.

16. *Tax on Vehicles with Springs, Animals and Carts.*—These taxes were again levied in all municipalities except Palghat, where the tax on animals has not yet been introduced. The receipts amounted to Rs. 1,62,084 against Rs. 1,52,333 in 1893–94. The increase in the income under this head is satisfactory, and the Government trusts that the efforts made to develop it by the exercise of careful supervision over the municipal executive will be sustained.

17. *Coercive Processes.*—The extent to which coercive measures were adopted for the collection of the several taxes in each municipality is shown in Appendix VII, and the following abstract compares the total figures for 1894–95 with those of the previous year:—

Year.	Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

* This is 308 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.
† This is 72 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.

The total number of warrants issued during the year was 127,791 or 332 less than in 1893–94. Adding to this the unexecuted warrants of the previous year, the total number for disposal was 162,781, of which 132,992 were executed or cancelled within the year, leaving 29,789 to be adjusted in the current year. As usual the largest number of warrants was issued in Calicut (20,437), and in Mangalore, Berhampur and Tanjore also coercive processes were freely resorted to. On the other

hand, the number issued in Rajahmundry, Srívilliputtúr, Periyakulam and Coonoor was very small, while none at all were issued in Parlákimedi. In Periyakulam, Coonoor and Parlákimedi, however, the collections were, on the whole, good, and in Srívilliputtur the municipality commenced work only towards the close of the year; but in Rajahmundry there was no excuse for the leniency shown. The number of warrants remaining unexecuted at the close of the year, although not so large as in 1893–94, was still 18 per cent. of the total number. This is not satisfactory. The total amount covered by all the warrants was Rs. 2,77,194, and of this, Rs. 2,05,991 were realized. Property, however, was sold in only 458 cases, the proceeds amounting to Rs. 689. The number of prosecutions instituted for failure to pay the taxes was 3,234, and of these, 653 were in Ootacamund and 530 in Salem.

18. *Tolls.*—The statistics relating to tolls are given in Appendix VIII. Including Srívilliputtúr, there were 53 municipalities which derived an income from tolls. Of these, 49 had toll-gates of their own and the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from the gates managed by the district boards. In Cocanada, Tellicherry, Vániyambádi and Srívilliputtúr the tolls were collected departmentally, while in the other municipalities they were leased out to contractors. The rates of tolls were raised from three-fourths to the maximum in Calicut and from one-half to the maximum in Vániyambádi. Tolls were levied at 334 gates against 342 in 1893–94, and the gross collections amounted to Rs. 4,37,529 against Rs. 4,46,737. From this, Rs. 1,18,098 were paid to district boards, the balance being credited to municipal funds, while the contributions received from district boards amounted to Rs. 26,309. The total income under this head was thus Rs. 3,45,740 against Rs. 3,48,152 in the previous year, the decrease appearing chiefly in Madura and being due to want of competition at the sales.

19. *Incidence of Taxation.*—The average incidence of municipal taxation was As. 13–10 including tolls, and As. 10–6 excluding them, the corresponding figures for the previous years being As. 13–3 and As. 9–10. Appendix IX gives full particulars of the incidence in the several municipalities.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,52,793 against Rs. 12,52,803 in 1893–94. There was an increase under markets and slaughter-houses, fines and grants from Government, which was more than counterbalanced by a decline under sale-proceeds of Government securities, loans and advances recovered. The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The income derived from rents was Rs. 26,573 against Rs. 28,982 in 1893–94 and that from sale-proceeds and produce of lands was Rs. 19,095 against Rs. 11,125. The decrease under the first head, which appears principally in Madura, is attributed to the fact that vacant spaces in the town which were leased out in previous years were reserved for the use of the public and the increase under the latter occurred chiefly in Máyavaram, where a sum of Rs. 5,000 was realized by the sale of the old travellers' bungalow and a portion of the land attached to it.

22. *Conservancy Receipts.*—These amounted to Rs. 24,755, or Rs. 1,794 less than in 1893–94. The largest income under this head was again in Trichinopoly (Rs. 6,550), Conjeeveram (Rs. 2,831) and Cuddalore (Rs. 2,308). On the other hand nothing was realized in Karúr, Masulipatam, Calicut, Cochin, Vellore and Tanjore. In the last-named town, however, this was due to the fact that the street sweepings were made over to the rubbish cart contractor, who removed them without payment. In the other cases it is generally attributed to want of demand for the sweepings; but the experience of other municipalities shows that where sales are properly advertised, a considerable demand is in course of [illegible] created. The Government would again invite the special attention of municipal councils to the desirability of developing this source of revenue.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,52,793 against Rs. 12,52,803 in 1893–94. There was an increase under markets and slaughter-houses, fines and grants from Government, which was more than counterbalanced by a decline under sale-proceeds of Government securities, loans and advances recovered. The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The income derived from rents was Rs. 26,573 against Rs. 28,982 in 1893–94 and that from sale-proceeds and produce of lands was Rs. 19,095 against Rs. 11,125. The decrease under the first head, which appears principally in Madura, is attributed to the fact that vacant spaces in the town which were leased out in previous years were reserved for the use of the public and the increase under the latter occurred chiefly in Máyavaram, where a sum of Rs. 5,000 was realized by the sale of the old travellers' bungalow and a portion of the land attached to it.

22. *Conservancy Receipts.*—These amounted to Rs. 24,755 or Rs. 1,794 less than in 1893–94. The largest income under this head was again in Trichinopoly (Rs. 6,550), Conjeeveram (Rs. 2,831) and Cuddalore (Rs. 2,308). On the other hand nothing was realized in Karúr, Masulipatam, Calicut, Cochin, Vellore and Tanjore. In the last-named town, however, this was due to the fact that the street sweepings were made over to the rubbish cart contractor, who removed them without payment. In the other cases it is generally attributed to want of demand for the sweepings; but the experience of other municipalities shows that where sales are properly advertised, a considerable demand is in course of time created. The Government would again invite the special attention of municipal councils to the desirability of developing this source of revenue.

23. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 92,442 against Rs. 85,521 in 1893–94, and the increase, which appears mainly in Máyavaram, Tellicherry and Tiruppattúr, was due chiefly to improved attendance at the municipal schools and colleges.

24. *Fees and Revenue from Markets and Slaughter-houses.*—It is gratifying to observe that there was an increase of Rs. 10,473 over the previous year's figure under this head, the receipts amounting to Rs. 1,53,501 against Rs. 1,43,028. Of this, a sum of Rs. 1,12,367 appertained to markets and Rs. 41,134 to slaughter-houses. Leaving out of account the new municipality of Srívilliputtúr, the only towns in which no municipal markets existed were Berhampur, Ellore, Tuticorin, Bimlipatam and Vizianagram. In the last three towns, however, there were suitable private markets, while in the two others the erection of public markets appears to be under contemplation. The total number of municipal markets was 107, the largest number being in Trichinopoly (8), Srírangam (7) and Madura (6). Fees were collected departmentally in five of the markets and were farmed out to contractors in the others. The largest revenue was realized in Trichinopoly (Rs. 16,448), Coonoor (Rs. 8,680), Vellore (Rs. 8,266), Ootacamund (Rs. 7,820) and Madura (Rs. 7,489), and the smallest in Nellore (Rs. 365), Vániyambádi (Rs. 350), Vizagapatam (Rs. 303), Palni (Rs. 229) and Bellary (Rs. 164). Excluding the cost of establishment and public works, which amounted in the aggregate to Rs. 26,185, the net receipts under this head were Rs. 86,182 against Rs. 82,343 in 1893–94.

25. *License Fees.*—The receipts under this head amounted to Rs. 35,843 against Rs. 31,711 in the previous year. The increase, which appears chiefly in Calicut, Tanjore and Negapatam, was due in the first case to the revision of the scale and in the others apparently to more careful supervision. The collections amounted to Rs. 2,000 or more in Madura (Rs. 2,151), Negapatam (Rs. 2,056) and Kumbakónam (Rs. 2,000), but fell below Rs. 100 in Bimlipatam (Rs. 95) Gudiyáttam (Rs. 82) and Srívilliputtúr (Rs. 18). The necessity of reminding municipal councils that these fees should invariably be collected before licenses are issued still exists.

26. *Fines under the Municipal and other Acts.*—The receipts from this source amounted to Rs. 40,924 or Rs. 9,938 more than the previous year's figure. The advance is satisfactory in so far as it indicates increased activity on the part of the police and the municipal executive in checking nuisances. The income exceeded Rs. 2,000 in Madura (Rs. 6,560), Bellary (Rs. 3,103), Kumbakónam (Rs. 2,966) and Trichinopoly (Rs. 2,539), but was below Rs. 100 in Coonoor (Rs. 98), Anantapur (Rs. 97), Ootacamund (Rs. 80) and Srívilliputtúr (Rs. 20).

27. *Grants and Contributions.*—The amount of grants received from Government was Rs. 3,41,534 or Rs. 76,384 more than in the previous year. During the year under review, grants amounting to Rs. 81,000, Rs. 25,000, Rs. 44,000, Rs. 82,920 and Rs. 39,356, respectively, were paid to the Adóni, Kurnool, Ootacamund, Tanjore and Trichinopoly Municipal Councils towards their water-supply projects. The contributions received from local funds and other sources amounted to Rs. 79,988 and Rs. 24,148, respectively, against Rs. 86,449 and Rs. 6,931 in 1893–94. The increase in the latter case was due mainly to the receipt of a liberal contribution of Rs. 12,000 by the Vizagapatam Municipal Council from the Hon'ble the Maharaja of Vizianagram for the construction of a road, and one of Rs. 3,000 by the Vizianagram council from M.R.Ry. P. Narayana Chetti Garu for the establishment of a public library.

28. *Recoveries for Services to Private Individuals.*—The receipts under this head amounted to Rs. 65,303 against Rs. 56,718 in the previous year. Of this, Rs. 60,975 represented fees for the private scavenging service. This system was worked in all the municipalities and in no place was the service rendered gratuitously. The number of houses served by municipal agency increased from 29,012 to 36,257 and exceeded 1,500 in Trichinopoly (4,151), Mangalore (2,28[illegible]), Palamcottah (2,184), Tinnevelly (1,768) and Bellary (1,576), but fell short of [illegible] in Karúr (93), Manuárgudi (75), Gudiyáttam (63) and Srívilliputtúr (45). There is however considerable scope for further advance as the total number of houses assessed to the tax on buildings was 265,524,

but no real improvement can be expected in this direction unless the penal provisions of the Act are strictly enforced against all persons who keep their premises in an insanitary state. The total amount of fees due was Rs. 76,965, but of this only Rupees 60,975, or 79 per cent. were collected within the year. It has been necessary again to remind all municipal councils that the fees for this service should invariably be collected in advance. The total expenditure on this account amounted to Rs. 65,658 and exceeded the receipts by Rs. 4,683; but the system was self-supporting in 22 municipalities against 17 in 1893–94. It is hoped that soon this service will be self-supporting in every municipality for it is not fair to the general tax-payer that he should be burdened with the cost of a private service. The net cost was large in Negapatam (Rs. 2,275), Calicut (Rs. 1,780), Trichinopoly (Rs. 1,341), and Rajahmundry (Rs. 1,324).

29. *Sale-proceeds of Government Securities and Realizations of Sinking Fund.*—The amount credited under this head was Rs. 4,823 against Rs. 52,393 in the previous year, the decrease being again due to the fact that the Madura Municipal Council sold a smaller number of Government promissory notes in which the water-works grant was invested.

30. *Loans.*—During the year under review, loans amounting to Rs. 56,220, Rs. 25,900 and Rs. 1,00,000, respectively, were taken from Government by the Municipal Councils of Kurnool, Tanjore and Trichinopoly for expenditure on their water-supply schemes. The Palghat Municipal Council also raised a loan of Rs. 14,500 in the open market for the construction of certain public buildings. Appendix XXII shows further particulars regarding the indebtedness of municipal councils.

The total charges fell short of the previous year's figure by Rs. 3,24,825, the decrease appearing almost entirely under Grant I and advances recoverable.

GRANT I.—PUBLIC WORKS.

32. The total outlay on public works was Rs. 8,32,609 against the budget estimate of Rs. 10,75,780 and the actuals of Rs. 11,29,434 in the previous year. It amounted to 30·9 per cent. of the year's receipts and 34·5 per cent. of the total expenditure under all heads. The large decrease as compared with the budget estimate and also with the actuals of 1893–94 appears chiefly under water-supply, and was due mainly to the non-utilization of the amount provided for the Kurnool water-supply scheme.

33. *Roads.*—The total expenditure on roads was Rs. 2,58,166 against the budget estimate of Rs. 2,33,760 and the previous year's actuals of Rs. 2,57,716. Of this sum, Rs. 38,597 were spent on new works and Rs. 2,19,569 on repairs against Rs. 51,014 and Rs. 2,06,762, respectively, in 1893–94. Although the total outlay did not differ much from that of the previous year, there were noteworthy increases in Tanjore and Vizagapatam and decreases in Bezwada and Tellicherry. The total length of roads maintained by the several municipal councils is ~~given as~~ 1,375 miles, of which 880 were metalled or gravelled and 495 unmetalled. The length of unmetalled roads in Negapatam, Kumbakónam, Conjeeveram, Máyavaram and Mannárgudi was still very large. It is hoped that this state of things will not be allowed to continue long. The condition of the roads in fifty out of the fifty-six municipalities is reported to have been generally good. No information has been furnished in the case of Tirupati, but in the remaining five municipalities of Guntúr, Nellore, Ongole, Gudiyáttam and Chidambaram the state of the roads was far from satisfactory. The municipal councils of these towns have been directed to carry out the necessary repairs in the current year.

34. *Road Charges and Tolls.*—The total expenditure on roads amounted to 69·8 per cent. of the net municipal revenue from tolls against 69·7 per cent. in the previous year. The percentage exceeded 100 in eight municipalities, but fell below the minimum of 50 prescribed by Government in the fourteen towns named in the margin. ~~The~~ municipal councils which had no excuse to offer for the short outlay under this head have been duly warned in the individual reviews.

Anakápalle	48·0	Cannanore	37·3
Tuticorin	46·9	Bellary	36·9
Madura	45·0	Anantapur	27·3
Karúr	41·4	Berhampur	24·8
Palni	40·1	Bimlipatam	16·1
Walajapet	38·1	Ongole	15·7
Guntúr	37·9	Adóni	13·9

35. *Buildings.*—The outlay under this head was Rs. 67,691 under new works and Rs. 37,033 under repairs, making a total of Rs. 1,04,724 against Rs. 1,33,726 in 1893–94. For the decrease, which occurs chiefly in Tinnevelly, Madura and Cocanada, no special reasons have been assigned except in the first-named town, where an office building was under construction in the previous year.

36. *Drainage and Water-supply.*—The total expenditure on drainage amounted to Rs. 56,685 against Rs. 71,396 in the previous year. Of this sum, Rs. 30,334 were spent on new works and Rs. 26,351 on repairs. The outlay on new works was large only in Kumbakónam, where the drainage scheme was completed in October 1894. Under water-supply, Rs. 3,11,896 were spent on new works and Rs. 43,158 on repairs, against Rs. 5,81,559 and Rs. 34,925 respectively in 1893–94. The Madura water-supply ~~and Kumbakónam drainage schemes were~~ completed. The Adóni, Tanjore and Trichinopoly water-supply projects were under execution and several other water-supply and drainage schemes were either sanctioned by, or under the consideration of Government, or under investigation by the Sanitary Engineer at the end of the year. The progress made in each of these cases and the action taken in the other municipalities in regard to drainage and water-supply are shown, ~~as usual,~~ in Appendix X.

37. *Establishment.*—The cost of the public works establishment, excluding that employed on the drainage and water-supply projects, which is included in the expenditure under these heads, amounted to Rs. 29,279 against Rs. 29,491 in the previous year. As usual, the outlay under this head was largest in Ootacamund, where a

separate Engineer was employed. In the other towns, either overseers or maistries were employed for the supervision of all ordinary works, but in Karúr, Tiruppattúr and Bimlipatam they were carried out directly under the supervision of the chairmen or councillors. The total cost of this establishment amounted to 8·1 per cent. of the outlay on roads and buildings, against 7·5 per cent. in the previous year.

GRANT II.—EDUCATION.

39. The educational operations of municipal councils were conducted on the same principles as in previous years. The total outlay on education, exclusive of the expenditure on school buildings (Rs. 8,995) shown under Grant I, but including contributions to Local and Provincial funds (Rs. 1,230), amounted to Rs. 3,11,129 against Rs. 3,06,006 in 1893–94. The increase, which occurred chiefly in Vizianagram and Salem, was due, in the first case, to the inclusion of the charges connected with the library, for which a private contribution of Rs. 3,000 referred to in paragraph 27 *supra* was received; and in the second, mainly to the establishment of new schools. The subjoined abstract compares the particulars of the total expenditure under the several heads with the figures of the previous year.

40. At the close of the year, there were 317 municipal schools and colleges against 302 in 1893–94. Of these, 26 were colleges or secondary schools and 291 primary schools. Of the former, 24 were maintained on the salary system and five on the salary-result system, the corresponding figures for primary schools being five and 286.

41. *Colleges and Secondary Schools.*—Of these three were second-grade colleges, eleven upper secondary schools, and the remaining twelve lower secondary schools. The subjoined abstract shows the strength and cost of the higher departments of these institutions.

	1894–95	211	143	1,242	8 11 0

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments which were all maintained on the salary system, there was a decrease from Rs. 6–13–6 to Rs. 5–1–1 in the average cost of educating each pupil in them owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was both an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1–11–0 to Rs. 1–1–3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8–11–0 against Rs. 14–7–1 in 1893–94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

42. The following statement shows the results achieved by these institutions in the several public examinations :—

The results of the First in Arts examination were nearly the same as in the previous year, but it is to be regretted that there was a falling off in those of the Matriculation and the Lower Secondary examinations.

43. *Primary schools.*—The following abstract shows the strength and cost of the primary schools and departments maintained by municipal councils as compared with the figures of 1893–94 :—

—	Strength at the close of the year.	Average attendance.	Net cost.	Average cost of educating pupils.
			Rs.	Rs. A. P.

The strength and average att dance of the salary system schools showed a further decline, but this was mo than counterbalanced by an increase under the schools maintained on the sala result system, which was due mainly, as in the previous year, to the establishme of new schools. The average cost of educating each pupil also showed a dec se under both classes, which is satisfactory. None of the primary schools, howeve was self-supporting, and the net cost of each pupil in the primary schools and de artments in the following municipalities was excessive :—

The municipal councils concerned sh ld see that the charges of these schools are reduced as much as possible in future. The total number of pupils who appeared from these institutions for the standard e aminations rose from 8,466 to 10,294, but it is to be regretted that only 7,502 or 72 per cent. of these passed against 78 per cent. in the previous year.

44. *Grant-in-aid Schools.*—Appendix XII shows the number and strength of the several departments of these schools and amount of grants paid to them. Their total number and attendance fell from 897 d 51,203 to 820 and 49,416, respectively. This decline appears chiefly in Berhar , Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employ nt of trained teachers and in others to delay in issuing certifying memoranda. f the total number of pupils, 40,778, or 82·5 per cent. belonged to the result syste schools, and 71·4 per cent. of the entire grants disbursed was earned by them. e total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of e allotment against Rs. 87,948, or 93·8 per cent. in 1893–94. The percentage ex eded 100 in eleven municipalities, but was less than 75 in thirteen others. The planation of the councils concerned for the failure to utilize the budget allotments n full will be found in Appendix XIII. From the information available, it appears at result grants were paid in 32 municipalities at the maximum rates allowed by t Grant-in-aid Code, and in the others at varying rates or under the assignment syste .

45. *Stipends in Training Schools and nspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decr se, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pu s were under training during the year against 47 in 1893–94. The increase is tisfactory; but in view of the large proportion of untrained teachers now empl ed in the municipal and aided schools, the number sent for training should, in the pinion of Government, have been still larger. The number of inspecting school sters employed by the councils in all municipalities except Anantapur, Palni, Wa japet and Anakápalle, where no special arrangements were made for the inspection schools, was 52, or two more than in the previous year.

46. *General Educational Results.*—App dix XIV shows the net expenditure on education and other statistics relating to nicipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12·6 er cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 pe nt., in the previous year. Of this Rs. 32,982, or 18 per cent. were devoted t condary education and the remainder to primary education. The percentage of t xpenditure to the income from taxation

was excessive in Tellicherry (26), Vellore (23·6), Dindigul (19·7) and Cochin (18·8), while it was very low in Ootacamund (7), Cuddalore (6·4) and Berhampur (5·5), where also the proportion of boys under instruction to the male population of school-going age was below the general average, so that there is ample scope for further outlay in these three towns. The special attention of the municipal councils concerned is again drawn to this matter. The total number of boys under instruction in the municipal and aided schools was 54·3 per cent. of the male population of school-going age against 54·2 per cent. in 1893–94. The percentage in Ongle (116·9), Tellicherry (92·8), Palamcottah (90·3) is very satisfactory, while in Rajahmundry (15·4) and Gúdiyáttam (25·5) the figure is very poor.

Order—No. 1973 M., dated 25th November 1895.

The Government having reviewed the administration reports of the several district municipalities for the year 1894–95 in the orders read above, now proceeds to consider them collectively.

2. It is to be regretted that there has been no improvement as compared with the previous year in regard to punctuality in the submission of these reports. Only two (from Chicacole and Parlákimedi) were received within the prescribed date, viz., the 1st June, while four (from Coimbatore, Karúr, Cannanore and Tellicherry) were more than two months, and two (from Wálájápet and Vizianagram) were up-wards of three months late. The Government must insist on absolute punctuality in future. The statements received with the reports were, on the whole, prepared with greater care and accuracy than hitherto, but there is still much room for improvement, especially in Rajahmundry, Cuddapah, Berhampur, Cannanore, Mannárgudi, Masulipatam, Kurnool, Palghat and Tanjore. The Chairmen of the municipal councils of these towns should bear this in mind.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. The town of Srívilliputtúr was constituted a municipality on the 1st October 1894, thus raising the number of municipalities administered under the District Municipalities Act IV of 1884 to 56. The following statement shows the constitution of the several municipal councils on the 31st March 1895, as compared with the year 1893–94 :—

Year.	Sanctioned strength.		Actual strength on 31st March.				Total.				
			Officials.		Non-officials.						
	Nominated.	Elected.	Nominated including ex-officio.	Elected.	Nominated.	Elected.	Nominated.	Elected.	Grand Total.	Europeans and Eurasians.	Natives.
1893–94	506	425	160	23	321	348	481	371	852	143	709
1894–95	528	421	166	28	323	354	489	382	871	145	726

Owing to inefficiency of the administration of that municipality, the number of elective seats on the Srírangam council was, during the year under review, reduced from twelve to eight, or one-half of the total strength. The newly constituted municipality of Srívilliputtúr was allowed eighteen councillors, all of whom were nominated by Government. There was thus an increase of 22 in the sanctioned number of nominated councillors and a decrease of four in that of elected members. Of the total number of councillors at the end of the year, 22·3 per cent. were officials against 21·5 in the previous year. Three councils, namely, those of Srívilliputtúr, Tinnevelly and Srírangam, consisted entirely of Native gentlemen against two in 1893–94.

4. As in the previous year, the system of appointing councillors by election was in force in the 34 municipalities shown in Appendix II. The total population of these towns was 1,246,042, and of this number, 37,348, or 3 per cent., were qualified to vote against 2·6 per cent. in 1893–94. One hundred and eighty-two seats were filled by election during the year, and of these 130 were contested, 47·7 per cent. of the voters concerned attending the poll against 51 per cent. in 1893–94.

5. The right of electing its own chairman was enjoyed by 35 municipal councils against 36 in 1893–94, the privilege having been withdrawn from the Anantapur council owing to its failure to elect a chairman at three successive meetings held for the purpose. At the close of the year 32 out of the 56 chairmen were non-officials as shown below :—

Year.	Number of Municipalities in which the Chairman was an official.			Number of Municipalities in which the Chairman was a non-official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand Total.
	Nominated by Government.	Elected by the Council.	Total.	Nominated by Government.	Elected by the Council.	Total.		
1893–94	4	9	13	11	21	32	10	55
1894–95	11	8	19	8	24	32	5	56

6. The average sanctioned strength of the several councils remained the same as in the previous year, namely, seventeen, but the average actual strength rose from fifteen to sixteen. The number of meetings actually held was 1,635, or 123 more than in 1893–94, but 245 meetings were adjourned for want of a quorum against 213 in that year. In Rajahmundry, nearly two-fifths of the number of meetings convened had to be adjourned, and in Chidambaram, Conjeeveram and Tanjore the number of adjourned meetings was also unduly large. The average attendance of the members was 8·5, as in the previous two years, and represented 50 per cent. of the sanctioned strength. The attendance of the non-official members continued to be fair, but that of the officials, though slightly better than in the previous year, was still indifferent.

II.—RECEIPTS.

* This is Rs. 17 less than the closing balance of 1893–94 as shown in that year's accounts, the difference being due to corrections made after audit.

Compared with the previous year, there was an increase of Rs. 83,792 in the current receipts, which appears mainly under taxes and grants from Government. The variations under the several heads are noticed below :—

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from 5 to 7½ per cent. of the annual rent value in Palghat, while that of the tax on lands was raised from 5 to 6 per cent. in Parlákimedi, and that of the tax on vacant sites from 5 to 7½ per cent. in Vániyambádi. In the new municipality of Srívilliputtúr these taxes were levied at 6¼ per cent. Thus the maximum rate of 7½ per cent. was levied in 36 towns against 35 in 1893–94. In other respects, the rates and methods of taxation remained practically unchanged.

9. There was no material alteration in the principles upon which the valuations of rental for the purpose of the house and land tax assessments were made in the several municipalities, but the house-tax registers were revised during the year in seventeen towns, and the land-tax registers, in thirteen. The assessments cannot, however, be yet regarded as everywhere complete, and the municipal councils concerned should bring them more into accord with those obtaining in the other municipalities. In Mangalore the assessments were based on the registers of 1888–89, but the chairman reports that arrangements have been made for thoroughly revising them in the current year. In Conjeeveram, the land-tax registers were more than five years old; but here also the council is taking steps to revise them.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each municipality, and the following abstract compares the totals for all municipalities with the figures for the previous year :—

Year.	Demand as originally assessed by the chairman.		Remitted by the council on appeal.		Demand as finally settled.		Collected.		Remitted and written off.		Balance.		Percentage of collections to demand.

* This is Rs. 182 in excess of the amount shown as outstanding on the 31st March 1894, owing to corrections made after audit.

† The total of these figures is less than the amount shown in the statement in paragraph 7 *supra* by Rs. 269. Of this Rs. 266 represent penalties which are not included in this abstract, and the remaining difference of Rs. 3 occurs in Masulipatam, for which an explanation has been called for.

It is satisfactory to observe that the net current demand exceeded that of the previous year by Rs. 28,641. Of this Rs. 1,847 belong to the newly constituted municipality of Srívilliputtúr, and the remainder (Rs. 26,794) is spread over 43 towns, the largest increases occurring in Palghat, where the rate of the tax was raised, and in Vizagapatam, where the assessments were carefully revised. The decreases in the remaining thirteen towns were slight. The remissions made on appeal amounted to Rs. 2,855 against Rs. 1,521 in the previous year, and more than one-half of this sum was granted by the Vizianagram Municipal Council alone. A much smaller amount than in 1893–94 was remitted and written off as irrecoverable, and the collections, both current and arrears (91·9 and 69·7 per cent. of the respective demands), improved and were, on the whole, fair. The percentage of the current collections to the demand was, however, very low in Gudiyáttam (66·5), Cannanore (68·2) and Tellicherry (71·2), while that of the arrear realizations was extremely poor in Bimlipatam (15·0), Bellary (27·7) and Anakápalle (28·5). The outstanding arrears at the close of

the year in Madura and Tanjore were again very considerable. The large increase in the demand, and the improvement in the collections referred to above, explain the advance of Rs. 52,175 over the previous year in the income under this head, as shown in the abstract in paragraph 7 *supra*.

11. Appendix IV furnishes details of the incidence of the tax on buildings in the several municipalities. The average was Rs. 2–3–3 against Rs. 2–3–0 in 1893–94. As usual, the incidence was heaviest in the hill stations of Coonoor (Rs. 17–4–6) and Ootacamund (Rs. 12–13–5). In the new municipality of Srívilliputtúr, on the other hand, it was only As. 4–7, the tax having been levied only for the second half year and the registers being admittedly very incomplete. In the remaining 53 towns, it varied from Rs. 4–11–8 in Vizagapatam to Rs. 1–0–6 in Vellore. It was more than Rs. 3–8–0 in Bimlipatam (Rs. 4–9–7), Cuddapah (Rs. 3–14–0), Cocanada (Rs. 3–13–4) and Cochin (Rs. 3–10–0), and below Rs. 1–4–0 in Mannárgudi (Rs. 1–3–10), Tinnevelly (Rs. 1–2–3) and Periyakulam (Rs. 1–1–11). In Tinnevelly, however, the rate of the tax was only 6¼ per cent., but in the other towns, where the tax is levied at the maximum rate, there is apparently no reason why the incidence should be so low. The municipal councils concerned should give this matter their best attention.

The extent of land taxed in Calicut, Cochin, Mangalore and Vizagapatam is not known, but in the remaining 52 towns, 62,854 acres were assessed at Rs. 61,657, which gives an average of As. 15–8 per acre against As. 15–1 in 1893–94. The average assessment was highest in Tinnevelly (Rs. 6–1–7) and lowest in Berhampur (As. 2).

12. As in the previous year, a water-tax on buildings and lands was levied in Cuddapah, Masulipatam, Madura and Ootacamund at 3, 1½, 4 and 2 per cent., respectively, of the annual rent value. Of the total demand of Rs. 20,253 under this head, Rs. 16,944, or 83·7 per cent., were collected and Rs. 359 were remitted and written off, leaving a balance of Rs. 2,950, of which Rs. 315 appertained to Cuddapah, Rs. 899 to Masulipatam, Rs. 1,560 to Madura and Rs. 176 to Ootacamund.

13. *Tax on Arts.*—This tax was levied in 49 municipalities, including Srívilliputtúr, against 48 in 1893–94. It was extended to the last class of the schedule in Calicut, and to the last three classes in Trichinopoly. In Coimbatore, Erode, Karúr, Dindigul, Palni, Tiruppattúr and Vániyambádi the tax was not levied at all, while in nine towns, it was not extended to all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each municipality and the following abstract compares the totals for all municipalities with the figures of the previous year :—

* This is Rs. 235 more than the balance shown as outstanding at the close of 1893–94, the difference being due to corrections made after audit.

† Excludes Rs. 178 on account of penalties.

The net current demand exceeded the previous year's figure by Rs. 20,420 and the remissions granted on appeal again amounted to 7·4 per cent. of the original demand. They were, however, very heavy in Berhampur (27·0), Srírangam (25·1),

and Chicacole (23·5). The net demand of this tax was more than that in the previous year in 34 out of the 48 municipalities (excluding Srívilliputtúr) in which it was levied, the increases being large in Tanjore (Rs. 2,892), Trichinopoly (Rs. 2,179), Conjeeveram (Rs. 2,114) and Calicut (Rs. 2,111). On the other hand, there was a decrease of Rs. 998 in Madura, for which an explanation has been called for. The current collections, amounting to 87·4 per cent. of the demand against 84·7 in the previous year, were fair, but the arrear realizations, amounting to 50·6 per cent. against 40·2 per cent., were still indifferent. The current collections were good in Bimlipatam (99·4 per cent.), Coonoor (99·2), Palamcottah (98·9) and Tinnevelly (98·5), but poor in Vizianagram (70·3), Chidambaram (65·2), Tanjore (64·9) and Srívilliputtúr (14·4). The proportion of arrears realized was very low in Ongole (15·8 per cent.), Guntúr (15·6), Madura (11·7) and Bellary (5·2), and the unadjusted balance in Tanjore and Madura continued to be very heavy. The total amount written off as irrecoverable was, however, only Rs. 11,832, or but one-half of the amount in 1893–94.

15. Appendix VI furnishes details of the incidence of the tax on arts in the several municipalities. The total number of persons assessed and the average incidence were 59,967 and Rs. 4–2–5, respectively, against 57,114 and Rs. 4 in the previous year. The number of assessees was only 3·9 per cent. of the population of the towns concerned, but there was an increase in the number taxed under the higher classes of the schedule. The incidence was high in Mannárgudi (Rs. 10–13–5), Negapatam (Rs. 10–1–5), Cochin (Rs. 9–15–1) and Bimlipatam (Rs. 8–11–9), and low in Salem (Rs. 2–7–9), Srívilliputtúr (Rs. 2–4–2) and Chidambaram and Máyavaram (Rs. 2–3–11). In Srívilliputtúr the registers were incomplete and in Máyavaram the low incidence was probably due to the depression in the weaving industry. In the other two towns, there is no apparent reason why it should be so much below the general average. The councils concerned should carefully revise the assessments so as to make them equitable.

16. *Tax on Vehicles with Springs, Animals and Carts.*—These taxes were again levied in all municipalities except Palghat, where the tax on animals has not yet been introduced. The receipts amounted to Rs. 1,62,084 against Rs. 1,52,333 in 1893–94. The increase in the income under this head is satisfactory, and the Government trusts that the efforts made to develop it by the exercise of careful supervision over the municipal executive will be sustained.

17. *Coercive Processes.*—The extent to which coercive measures were adopted for the collection of the several taxes in each municipality is shown in Appendix VII, and the following abstract compares the total figures for 1894–95 with those of the previous year :—

Year.	Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.

* This is 308 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.
† This is 72 less than the figure shown as outstanding at the close of 1893–94, which was incorrect.

The total number of warrants issued during the year was 127,791, or 332 less than in 1893–94. Adding to this the unexecuted warrants of the previous year, the total number for disposal was 162,781, of which 132,992 were executed or cancelled within the year, leaving 29,789 to be adjusted in the current year. As usual the largest number of warrants was issued in Calicut (20,437), and in Mangalore, Berhampur and Tanjore also coercive processes were freely resorted to. On the other hand, the number issued in Rajahmundry, Srívilliputtúr, Periyakulam and Coonoor was very small, while none at all were issued in Parlákimedi. In Periyakulam, Coonoor and Parlákimedi, however, the collections were, on the whole, good, and in Srívilliputtúr the municipality commenced work only towards the close of the year; but in Rajahmundry there was no excuse for the leniency shown; the Council of this town should bear this remark carefully in mind. The number of warrants remaining unexecuted at the close of the year, although not so large as in 1893–94, was still over 18 per cent. of the total number. This is not satisfactory. The total amount covered by all the warrants was Rs. 2,77,194, and of this, Rs. 2,05,991 were realized. Property, however, was sold in only 458 cases, the proceeds amounting to Rs. 689. The number of prosecutions instituted for failure to pay taxes was 3,234, and of these, 653 were in Ootacamund and 530 in Salem.

18. *Tolls.*—The statistics relating to tolls are given in Appendix VIII. Including Srívilliputtúr, there were 53 municipalities which derived an income from tolls. Of these, 49 had toll-gates of their own and the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) continued to receive a share of the receipts from gates managed by the district boards. In Cocanada, Tellicherry, Vániyambádi and Srívilliputtúr the tolls were collected departmentally, while in the other municipalities they were leased out to contractors. The rates of tolls were raised from three-fourths to the maximum in Calicut and from one-half to the maximum in Vániyambádi. Tolls were levied at 334 gates against 342 in 1893–94, and the gross collections amounted to Rs. 4,37,529 against Rs. 4,46,737. From this, Rs. 1,18,098 were paid to district boards, the balance being credited to municipal funds, while the contributions received from district boards amounted to Rs. 26,309. The total income under this head was thus Rs. 3,45,740 against Rs. 3,48,152 in the previous year, the decrease appearing chiefly in Madura and being due to want of competition at the sales.

19. *Incidence of Taxation.*—The average incidence of municipal taxation was As. 13–10 including tolls, and As. 10–6 excluding them, the corresponding figures for the previous years being As. 13–3 and As. 9–10. Appendix IX gives full particulars of the incidence in the several municipalities.

B.—Miscellaneous Receipts.

20. The miscellaneous receipts amounted to Rs. 12,52,793 against Rs. 12,52,803 in 1893–94. There was an increase under markets and slaughter-houses, fines and grants from Government, which was more than counterbalanced by a decline under sale-proceeds of Government securities, loans and advances recovered. The causes of these variations are noticed below.

21. *Rent of Lands, Buildings, &c., and Sale-proceeds of Lands, Produce of Lands, &c.*—The income derived from rents was Rs. 26,573 against Rs. 28,982 in 1893–94, and that from sale-proceeds and produce of lands was Rs. 19,095 against Rs. 11,125. The decrease under the first head, which appears principally in Madura, is attributed to the fact that vacant spaces in the town which were leased out in previous years were reserved for the use of the public, and the increase under the latter occurred chiefly in Máyavaram, where a sum of Rs. 5,000 was realized by the sale of the old travellers' bungalow and a portion of the land attached to it.

22. *Conservancy Receipts.*—These amounted to Rs. 24,755, or Rs. 1,794 less than in 1893–94. The largest income under this head was again in Trichinopoly (Rs. 6,550), Conjeeveram (Rs. 2,831) and Cuddalore (Rs. 2,308). On the other hand, nothing was realized in Karúr, Masulipatam, Calicut, Cochin, Vellore and Tanjore. In the last-named town, however, this was due to the fact that the street sweepings were made over to the rubbish cart contractor, who removed them without payment. In the other cases it is generally attributed to want of demand for the sweepings, but the experience of other municipalities shows that where sales are properly advertised, a considerable demand is in course of time created. The Government would again invite the special attention of municipal councils to the desirability of developing this source of revenue.

23. *Fees and Revenue from Educational Institutions.*—The receipts under this head amounted to Rs. 92,442 against Rs. 85,521 in 1893–94, and the increase, which appears mainly in Máyavaram, Tellicherry and Tiruppattúr, was due chiefly to general improved attendance at the municipal schools and colleges.

24. *Fees and Revenue from Markets and Slaughter-houses.*—It is gratifying to observe that there was an increase of Rs. 10,473 over the previous year's figure under this head, the receipts amounting to Rs. 1,53,501 against Rs. 1,43,028. Of this, a sum of Rs. 1,12,367 appertained to markets and Rs. 41,134 to slaughter-houses. Leaving out of account the new municipality of Srívilliputtúr, the only towns in which no municipal markets existed were Berhampur, Ellore, Tuticorin, Bimlipatam and Vizianagram. In the last three towns, however, there were suitable private markets, while in the two others the erection of public markets appears to be under contemplation. The total number of municipal markets was 107, the largest number being in Trichinopoly (8), Srírangam (7) and Madura (6). Fees were collected departmentally in five of the markets and were farmed out to contractors in the others. The largest revenue was realized in Trichinopoly (Rs. 16,448), Coonoor (Rs. 8,680), Vellore (Rs. 8,266), Ootacamund (Rs. 7,820) and Madura (Rs. 7,489), and the smallest in Nellore (Rs. 365), Vániyambádi (Rs. 350), Vizagapatam (Rs. 303), Palni (Rs. 229) and Bellary (Rs. 164). Excluding the cost of establishment and public works, which amounted in the aggregate to Rs. 26,185, the net receipts under this head were Rs. 86,182 against Rs. 82,343 in 1893–94.

25. *License Fees.*—The receipts under this head amounted to Rs. 35,843 against Rs. 31,711 in the previous year. The increase, which appears chiefly in Calicut, Tanjore and Negapatam, was due in the first case to the revision of the scale and, in the others, apparently to more careful supervision. The collections amounted to Rs. 2,000 or more in Madura (Rs. 2,151), Negapatam (Rs. 2,056) and Kumbakónam (Rs. 2,000), but fell below Rs. 100 in Bimlipatam (Rs. 95), Gudiyáttam (Rs. 82) and Srívilliputtúr (Rs. 18). The necessity of reminding municipal councils that these fees should invariably be collected before licenses are issued still exists.

26. *Fines under the Municipal and other Acts.*—The receipts from this source amounted to Rs. 40,924, or Rs. 9,938 more than the previous year's figure. The advance is satisfactory in so far as it indicates increased activity on the part of the police and the municipal executive in checking nuisances. The income exceeded Rs. 2,000 in Madura (Rs. 6,560), Bellary (Rs. 3,103), Kumbakónam (Rs. 2,966) and Trichinopoly (Rs. 2,539), but was below Rs. 100 in Coonoor (Rs. 98), Anantapur (Rs. 97), Ootacamund (Rs. 80) and Srívilliputtúr (Rs. 20).

27. *Grants and Contributions.*—The amount of grants received from Government was Rs. 3,41,534, or Rs. 76,384 more than in the previous year. During the year under review, grants amounting to Rs. 81,000, Rs. 25,000, Rs. 44,000, Rs. 82,920 and Rs. 39,356, respectively, were paid to the Adóni, Kurnool, Ootacamund, Tanjore and Trichinopoly Municipal Councils towards their water-supply projects. The contributions received from local funds and other sources amounted to Rs. 79,988 and Rs. 24,148, respectively, against Rs. 86,449 and Rs. 6,931 in 1893–94. The increase in the latter case was due mainly to the receipt of a liberal contribution of Rs. 12,000 by the Vizagapatam Municipal Council from the Hon'ble the Maharaja of Vizianagram for the construction of a road, and one of Rs. 3,000 by the Vizianagram council from M.R.Ry. P. Narayana Chetti Garu for the establishment of a public library.

28. *Recoveries for Services to Private Individuals.*—The receipts under this head amounted to Rs. 65,303 against Rs. 56,718 in the previous year. Of this, Rs. 60,975 represented fees for the private scavenging service. This system was worked in all the municipalities and in no place was the service rendered gratuitously. The number of houses served by municipal agency increased from 29,012 to 36,257, and exceeded 1,500 in Trichinopoly (4,151), Mangalore (2,283), Palamcottah (2,184), Tinnevelly (1,768) and Bellary (1,576), but fell short of 100 in Karúr (93), Mannárgudi (75), Gudiyáttam (63) and Srívilliputtúr (45). There is however considerable scope for further advance as the total number of houses assessed to the tax on buildings was 265,524, but no real improvement can be expected in this direction unless the penal provisions of the Act are strictly enforced against all persons who keep their premises in an

insanitary state. The total amount of fees due was Rs. 76,965, but of this only Rupees 60,975, or 79 per cent., were collected within the year. It has been necessary again to remind all municipal councils that the fees for this service should invariably be collected in advance. The total expenditure on this account amounted to Rs. 65,658 and exceeded the receipts by Rs. 4,683, but the system was self-supporting in 22 municipalities against 17 in 1893–94. It is hoped that soon this service will be self-supporting in every municipality for it is not fair to the general tax-payer that he should be burdened with the cost of a private service. The net cost was large in Negapatam (Rs. 2,275), Calicut (Rs. 1,780) Trichinopoly (Rs. 1,341), and Rajahmundry (Rs. 1,324).

29. *Sale-proceeds of Government Securities and Realizations of Sinking Fund.*—The amount credited under this head was Rs. 4,823 against Rs. 52,393 in the previous year, the decrease being again due to the fact that the Madura Municipal Council sold a smaller number of Government promissory notes in which the water-works grant was invested.

30. *Loans.*—During the year under review, loans amounting to Rs. 56,220, Rs. 25,900 and Rs. 1,00,000, respectively, were taken from Government by the Municipal Councils of Kurnool, Tanjore and Trichinopoly for expenditure on their water-supply schemes. The Palghat Municipal Council also raised a loan of Rs. 14,500 in the open market for the construction of certain public buildings. Appendix XXII shows further particulars regarding the indebtedness of municipal councils.

III.—EXPENDITURE.

31. The following abstract shows the expenditure under the several heads as compared with the figures of the previous year and with the budget estimates for 1894–95 :—

The total charges fell short of the previous year's figure by Rs. 3,24,825, the decrease appearing almost entirely under Grant I and Advances recoverable.

Grant I.—Public Works.

32. The total outlay on public works was Rs. 8,32,609 against the budget estimate of Rs. 10,75,780 and the actuals of Rs. 11,29,434 in the previous year. It amounted to 30·9 per cent. of the year's receipts and 34·5 per cent. of the total expenditure under all heads. The large decrease as compared with the budget estimate and also with the actuals of 1893–94 appears chiefly under water-supply and was due mainly to the non-utilization of the amount provided for the Kurnool water-supply scheme.

33. *Roads.*—The total expenditure on roads was Rs. 2,58,166 against the budget estimate of Rs. 2,33,760 and the previous year's actuals of Rs. 2,57,716. Of this sum, Rs. 38,597 were spent on new works and Rs. 2,19,569 on repairs against Rs. 51,014 and Rs. 2,06,702, respectively, in 1893–94. Although the total outlay did not differ much from that of the previous year, there were noteworthy increases in Tanjore and Vizagapatam and decreases in Bezwada and Tellicherry. The total length of roads maintained by the several municipal councils is stated to have been 1,375 miles, of which 880 were metalled or gravelled and 495 unmetalled. The length of unmetalled roads in Negapatam, Kumbakónam, Conjeeveram, Máyavaram and Mannárgudi was still very large. It is hoped that this state of things will not be allowed to continue long. The condition of the roads in fifty out of the fifty-six municipalities is reported to have been generally good. No information has been furnished in the case of Tirupati, but in the remaining five municipalities of Guntúr, Nellore, Ongole, Gudiyáttam and Chidambaram the state of the roads was far from satisfactory. The municipal councils of these towns have been directed to carry out the necessary repairs in the current year.

34. *Road Charges and Tolls.*—The total expenditure on roads amounted to 69·8 per cent. of the net municipal revenue from tolls against 69·7 per cent. in the previous year. The percentage exceeded 100 in eight municipalities, but fell below the minimum of 50 prescribed by Government in the fourteen towns named in the margin. Those municipal councils which had no excuse to offer for the short outlay under this head have been duly noticed in the individual reviews.

Anakápalle ..	48·0	Cannanore	37·3
Tuticorin ..	46·9	Bellary	36·9
Madura	45·0	Anantapur	27·3
Karúr	41·4	Berhampur	24·8
Palni	40·1	Bimlipatam ..	16·1
Wálájápet ..	38·1	Ongole	15·7
Guntúr	37·9	Ádóni	13·9

35. *Buildings.*—The outlay under this head was Rs. 67,691 on new works and Rs. 37,033 on repairs, making a total of Rs. 1,04,724 against Rs. 1,33,726 in 1893–94. For the decrease, which occurs chiefly in Tinnevelly, Madura and Cocanada, no special reasons have been assigned except in the first-named town, where an office building was under construction in the previous year.

36. *Drainage and Water-supply.*—The total expenditure on drainage amounted to Rs. 56,685 against Rs. 71,396 in the previous year. Of this sum, Rs. 30,334 were spent on new works and Rs. 26,351 on repairs. The outlay under new works was large only in Kumbakónam, where the drainage scheme was completed in October 1894. Under water-supply, Rs. 3,11,896 were spent on new works and Rs. 43,158 on repairs, against Rs. 5,81,559 and Rs. 34,925 respectively in 1893–94. The Madura water-supply scheme was also completed. The Ádóni, Tanjore and Trichinopoly water-supply projects were under execution and several other water-supply and drainage schemes were either sanctioned by or under the consideration of Government, or under investigation by the Sanitary Engineer at the end of the year. The progress made in each of these cases and the action taken in the other municipalities in regard to drainage and water-supply are shown in Appendix X.

37. *Establishment.*—The cost of the public works establishment, excluding that employed on the drainage and water-supply projects, which is included in the expenditure under these heads, amounted to Rs. 29,279 against Rs. 29,491 in the previous year. As usual, the outlay under this head was largest in Ootacamund, where a

separate Engineer was employed. In the other towns, either overseers or maistries were employed for the supervision of all ordinary works, but in Karúr, Tiruppattúr and Bimlipatam they were carried out directly under the supervision of the chairmen or councillors. The total cost of this establishment amounted to 8·1 per cent. of the outlay on roads and buildings, against 7·5 per cent. in the previous year.

Grant II.—Education.

38. The educational operations of municipal councils were conducted on the same principles as in previous years. The total outlay on education, exclusive of the expenditure on school buildings (Rs. 8,995) shown under Grant I, but including contributions to Local and Provincial funds (Rs. 1,230), amounted to Rs. 3,11,129 against Rs. 3,06,006 in 1893–94. The increase, which occurred chiefly in Vizianagram and Salem, was due, in the first case, to the inclusion of the charges connected with the library, for which, a private contribution of Rs. 3,000 referred to in paragraph 27 *supra* was received, and in the second, mainly to the establishment of new schools. The subjoined abstract compares the particulars of the total expenditure under the several heads with the figures of the previous year.

39. At the close of the year, there were 317 municipal schools and colleges against 302 in 1893–94. Of these, 26 were colleges or secondary schools and 291 primary schools. Of the former, 21 were maintained on the salary system and five on the salary-result system, the corresponding figures for primary schools being five and 286.

40. *Colleges and Secondary Schools.*—Of these three were second-grade colleges, eleven upper secondary schools, and the remaining twelve lower secondary schools. The subjoined abstract shows the strength and cost of the higher departments of these institutions.

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6-13-6 to Rs. 5-1-1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1-11-0 to Rs. 1-1-3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8-11-0 against Rs. 14-7-1 in 1893-94. The working of these institutions was on the whole satisfactory. The upper secondary departments at Cuddapah, Kurnool, Cannanore and Máyavaram were worked at a profit to the municipal councils, the surplus being largest in Cannanore. On the other hand, the average cost of educating pupils in these departments in Karúr (Rs. 109) and Salem (Rs. 30) and in the lower secondary departments in Cuddapah and Anakápalle (Rs. 21) was very high. The necessary steps should be taken by the municipal councils of these towns to reduce the cost in the current year.

42. *Primary schools.*—The following abstract shows the strength and cost of the primary schools and departments maintained by municipal councils as compared with the figures of 1893-94 :—

The strength and average attendance of the salary system schools showed a further decline, but this was more than counterbalanced by an increase under the schools maintained on the salary-result system, which was due mainly, as in the previous year, to the establishment of new schools. The average cost of educating each pupil also showed a decrease under both classes, which is satisfactory. None of the primary schools, however, was self-supporting, and the net cost of each pupil in the primary schools and departments in the following municipalities was excessive :—

The municipal councils concerned should see that the charges of these schools are reduced as much as possible in future. The total number of pupils who appeared from these institutions for the standard examinations rose from 8,466 to 10,294, but it is to be regretted that only 7,502 of these, or 72·9 per cent., passed against 78 per cent. in the previous year.

43. *Grant-in-aid Schools.*—Appendix XII shows the number and strength of the several departments of these schools and the amount of grants paid to them. Their total number and attendance fell from 897 and 51,203 to 820 and 49,416, respectively. This decline appears chiefly in Berhampur, Rajahmundry, Bellary, Madura and Máyavaram, and was due in some cases to strict enforcement of the rules regarding the attendance of pupils and the employment of trained teachers, and in others to delay in issuing certifying memoranda. Of the total number of pupils, 40,778, or 82·5 per cent., belonged to the result system schools, and 71·4 per cent. of the entire grants disbursed was earned by them. The total expenditure under Grants-in-aid was Rs. 82,601, or only 89·2 per cent. of the allotment, against Rs. 87,948, or 93·8 per cent., in 1893-94. The percentage exceeded 100 in eleven municipalities, but was less than 75 in thirteen others. The explanation of the councils concerned for the failure to utilize the budget allotments in full will be found in Appendix XIII. From the information available, it appears that result grants were paid in 32 municipalities at the maximum rates allowed by the Grant-in-aid Code, and in the others at varying rates or under the assignment system.

44. *Stipends in Training Schools and Inspection.*—The expenditure on normal stipends (Rs. 3,530) showed a slight decrease, while that on inspection rose from Rs. 10,884 to Rs. 11,707. Fifty-eight pupils were under training during the year against 47 in 1893-94. The increase is satisfactory; but in view of the large proportion of untrained teachers now employed in the municipal and aided schools, the number sent for training should, in the opinion of Government, have been still larger. The number of inspecting schoolmasters employed by the councils in all municipalities except Anantapur, Palni, Wálájápet and Anakápalle, where no special arrangements were made for the inspection of schools, was 52, or two more than in the previous year.

45. *General Educational Results.*—Appendix XIV shows the net expenditure on education and other statistics relating to municipal and aided schools. The total net cost amounted to Rs. 1,82,912, or 12·6 per cent. of the municipal income from taxation, against Rs. 1,85,970, or 13·7 per cent., in the previous year. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxation

Though there was a slight fall in the average attendance of the collegiate and upper secondary departments, which were all maintained on the salary system, there was a decrease from Rs. 6–13–6 to Rs. 5–1–1 in the average cost of educating each pupil in them, owing to a large decrease in the net cost. In the lower secondary departments of the schools on the salary system there was an increase in the attendance and a decrease in the net cost, which reduced the cost per pupil from Rs. 1–11–0 to Rs. 1–1–3, while in these departments of the salary-result system schools, the attendance nearly doubled itself, so that, notwithstanding a slight increase in the net cost, the cost per pupil was only Rs. 8–11–0 against Rs. 14–7–1 in 1893–94. Of this, Rs. 32,982, or 18 per cent., were devoted to secondary education and the remainder to primary education. The percentage of the expenditure to the income from taxation

was excessive in Tellicherry (26), Vellore (23·6), Dindigul (19·7) and Cochin (18·8), while it was very low in Ootacamund (7), Cuddalore (6·4) and Berhampur (5·5), where also the proportion of boys under instruction to the male population of school-going age was below the general average, so that there is ample scope for further outlay in these three towns. The special attention of the municipal councils concerned is again drawn to this matter. The total number of boys under instruction in the municipal and aided schools was 54·3 per cent. of the male population of school-going age against 54·2 per cent. in 1893–94. The percentage in Ongole (116·9), Tellicherry (92·8) and Palamcottah (90·3) is very satisfactory, while in Rajahmundry (15·4) and Gudiyáttam (25·5) the figure is very poor.

Grant III.—Medical Services and Sanitation.

46. *Hospitals and Dispensaries.*—The expenditure under this head was Rupees 2,56,518, or Rs. 13,730 more than in 1893–94. The increase is spread over 35 municipalities, but appears chiefly in Cuddapah, Berhampur, Mangalore, Rajahmundry and Vellore. In Mangalore it was due to the opening of a new hospital for women and children, and in the other cases mainly to the payment of increments earned by the medical subordinates and the arrears of previous years. Every municipality was provided with at least one hospital or dispensary. The hospitals at Dindigul, Ootacamund, Vizagapatam and Vizianagram continued to be under private management, contributions being paid for the upkeep of the first three institutions from municipal funds, while those at Tirupati and Srívilliputtúr remained under the control of the North Arcot District Board and the Srívilliputtúr Taluk Board, respectively. In the case of Wálájápet and Tanjore accommodation for in-patients was provided in the hospitals under the management of the American Mission at Ranipet and in the Rajah-Mirasidar hospital maintained by the District Board at Tanjore, respectively, while in Gudiyáttam and Vániyambádi hospital buildings with accommodation for in-patients were under construction. Appendix XV furnishes information regarding the number of persons treated in the several hospitals and dispensaries. The total number of in-patients treated in these institutions rose from 21,361 to 22,019, and of out-patients from 1,051,836 to 1,134,232. The increase in the latter case, which occurred chiefly in Madura, Masulipatam, Coimbatore and Cuddalore is ascribed to the growing popularity of the institutions. Rules for the treatment of patients, &c., have been framed under section 127 of Act IV of 1884 by all municipal councils which have hospitals or dispensaries of their own.

47. *Midwives.*—A midwife was attached to every municipal hospital and dispensary. The total number of midwives employed was again 67, and they attended in all 4,924 cases of labour against 5,234 in 1893–94, the average number of cases for each being only 74 against 78. The decline is much to be regretted. The largest number of cases was attended by the midwives at Mannárgudi (210), Vizianagram (155), Mangalore (152) and Bimlipatam (150), and the smallest by those at Wálájápet, Bezwada, Cuddapah and Kurnool. It is hoped that the municipal councils of these towns will be able to report better results in the current year.

48. *Medical Training of Women.*—From the information received, which has been summarised as usual in Appendix XVI, it appears that no action was taken by municipal councils in furtherance of female medical education except in Srírangam, where a woman was sent up to Madras for training as a midwife. That such action is required in the majority of cases is evident from the fact that at present special arrangements for affording medical relief to women exist only in the thirteen municipalities named in the margin. His Excellency the Governor in Council desires to impress upon all municipal councils the necessity of taking prompt action in this matter, and to suggest that the best means of doing so is to endow scholarships in connection with the Countess of Dufferin's Fund. Appendix XVI-A contains a list of the municipal councils which have hitherto done nothing to

further the objects of this Fund. The administration reports of these and the other municipal councils for the current year should contain information as to the action taken upon these remarks.

49. *Vaccination.*—This subject has already been fully dealt with in G.O., No. 1388 M., dated 8th August 1895, reviewing the report of the Inspector of Vaccination. Appendix XVII shows the statistics relating to vaccination in the several municipalities. Vaccination was compulsory in all municipalities except the newly constituted one of Srívilliputtúr. The total number of operations rose from 92,998 to 95,828, and of these, 89,730, or 93·6 per cent., are reported to have been successful against 87,368, or 93·9 per cent., in 1893–94. The general improvement in the work is satisfactory. The medical subordinates performed in all 2,464 operations, or 678 less than in 1893–94, the decrease being due to the fact that vaccination in dispensaries is now optional. The quality of the work turned out was very good in Máyavaram, Salem and Nellore, but poor in Berhampur, Kurnool and Palni. The total number of successful operations was 53·5 per mille of the population against 53 per mille in 1893–94. The best results were obtained in Coonoor (110·3 per mille), Calicut (104·8), Bezwada (90·9) and Palghat (83·9) and, leaving Srívilliputtúr, which has only very recently been reconstituted a municipality, out of account, the worst in Berhampur (31·0), Ongole (30·9), Palni (28·6) and Cuddapah (26·8). The total number of children under one year successfully vaccinated was 42,328, or 25·3 per mille of the population, against 35,570, or 21·6 per mille, in 1893–94. Taking the normal birth-rate to be 40 per mille, these results cannot be considered satisfactory except in Coonoor, Ootacamund, Tiruppattúr, Vániyambádi, Salem, Periyakulam, Bellary and Bimlipatam where the number of successful operations on children under one year ranged from 49·8 to 35·1 per mille. In Tuticorin, Palni, Berhampur, Tanjore, and Cuddapah, where the number was below 15 per mille, the work must be regarded as extremely bad. It is hoped that the municipal councils responsible will be able, by carefully following the instructions issued in G.O., No. 1502 M., dated 19th October 1894, to show a marked improvement in this branch of the administration in future. The matter requires continued and careful enquiry. The total number of prosecutions instituted for failure to have children vaccinated rose from 9,414 to 11,253. The highest figures were in Cocanada (1,526), Trichinopoly (1,273), Madura (840) and Ádóni (685). Animal lymph was exclusively used in all the municipalities except Bellary, Ellore, Madura, Chidambaram, Srívilliputtúr and Srírangam, the total number of operations performed with it being 89,268 against 86,867 in 1893–94, and the number of successful cases 83,453, or 93 per cent., against 81,690, or 94 per cent. The average cost of each successful operation performed by municipal vaccinators was As. 4–2, being 4 pies less than in 1893–94. It was above As. 8 in Tirupati, Anantapur, Wálájápet, Ongole, Kurnool, Coonoor and Dindigul, and below As. 3 in Parlákimedi, Mangalore, Coimbatore, Vizianagram, Madura, Salem, Anakápalle and Calicut.

50. *Vital Statistics.*—The subjoined abstract shows the total number of births and deaths registered during the year as compared with the figures of 1893–94:—

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1893–94	54,613	33·1	51,560	31·3
1894–95 *	53,202	31·7	43,170	25·8

There was a falling off under both heads, which is to be regretted. The rates in both cases being much below the normal, there is ample scope for improvement. The decrease in the number of births registered was comparatively small, but in the case of deaths it is more marked, and can only be attributed to imperfect registration. The death-rate exceeded the birth-rate in Cuddapah, Chicacole, Chidambaram, Kumbakónam, Tuticorin, Srírangam and Trichinopoly, but all these towns, except the first two, were visited by cholera during the year. The registration of births and deaths appears to have been greatly neglected in Ellore, that of births in Chicacole,

Trichinopoly and Cuddapah, and that of deaths in Tellicherry, Gudiyáttam and Anantapur. As the special attention of the councils concerned has been drawn to this subject in the individual reviews, the Government trusts that the necessary steps will be taken by them to effect an improvement in the current year. Prosecutions for failure to register births and deaths were instituted in 37 municipalities against 32 in 1893–94, but their total number was only 1,330 against 1,394. They were freely resorted to in Mannárgudi, Kumbakónam, Adóni and Masulipatam, but in Anantapur and Gudiyáttam not a single prosecution was instituted, and in Trichinopoly there was only one solitary instance, although registration in these towns was by no means complete.

51. *Conservancy.*—The expenditure on conservancy, road cleaning and road watering was Rs. 4,78,883 against the budget estimate of Rs. 4,93,600 and the actuals of Rs. 4,69,698 in 1893–94. Of the increase of Rs. 9,185 as compared with the previous year, Rs. 1,018 appears in Srívilliputtúr and the remainder chiefly in Negapatam, Tuticorin and Bellary. The proportion of the expenditure to allotment fell from 96·3 to 95 per cent., but may still be regarded as fair. It ranged from 108·3 to 100·2 per cent. in Tinnevelly, Negapatam, Cochin, Vizianagram, Madura, Nellore, Ootacamund, Parlákimedi and Mangalore, but fell below 85 per cent. in Wálájápet, Tellicherry, Kumbakónam, Tirupati, Conjeeveram and Srívilliputtúr. The proportion of expenditure to the ordinary receipts, excluding special grants from provincial funds and loans, was 21·5 per cent. as in the previous year. It was high in Bellary, Srívilliputtúr, Negapatam, Rajahmundry and Vizianagram, and very low in Chicacole, Tanjore and Palghat. The sanitary condition of the several municipalities when they were last visited by the Sanitary Commissioner or his Deputy is shown in Appendix XIX. From this it will be seen that there was hardly a single town in a really satisfactory condition. The Government has nothing to add to the remarks made on this subject in paragraph 53 of the general review for 1893–94, beyond expressing the hope that every effort will be made by municipal councils to effect an improvement in the sanitation of the towns under their control. Appendix XX shows the public latrine accommodation provided in the several towns. The total number of latrines (excluding urinals) rose from 1,092 to 1,131, which gives an average of one latrine for every 1,482 persons. The proportion was below the prescribed minimum of one for every 1,000 inhabitants in no less than 48 municipalities.

Grant IV.—Lighting and Miscellaneous.

52. *Lighting.*—The expenditure under this head rose from Rs. 97,234 to Rs. 1,01,016, the increase occurring chiefly in Vellore and Masulipatam. The total number of lights maintained was 13,322 against 12,585 in 1893–94, or, on an average, nine lamps for every mile of road maintained, as shown in Appendix XXI. The lighting in Palghat and Coonoor was very deficient, as, in these towns, there were only three lamps to each mile of road.

53. *Public garden, survey of land, fire and other charges.*—Details of the expenditure of Rs. 61,712 under this head are compared below with the figures of the previous year:—

	1893–94.	1894–95.
	Rs.	Rs.
Survey of land	757	881
Fire	524	857
Rewards for the destruction of wild animals	1,622	2,219
Public garden	6,342	6,341
Work done for private individuals	2,695	5,778
Printing	21,625	22,068
Compensation for lands	6,389	4,548
Other charges	14,709	19,020
Total	54,663	61,712

Grant V.—Supervision and Management.

54. On supervision and management a sum of Rs. 1,77,769 was spent against Rs. 1,75,325 in 1893–94 as shown below:—

	1893–94.	1894–95.
	Rs.	Rs.
Municipal office establishments	75,629	77,356
Collection of municipal taxes and contingencies	69,084	70,522
Salary and carriage allowances to Chairmen	15,994	16,272
Contribution to Central office establishments	14,618	13,619
Total	1,75,325	1,77,769

As in the previous year there were paid Chairmen in Cocanada, Coonoor and Nellore, but in the last-named town, the appointment was abolished towards the close of the year under review. The expenditure under Grant V amounted to 7·9 per cent. of the ordinary receipts against the limit of 10 per cent. prescribed by Government. This proportion was, however, exceeded in eleven towns; but in six of them there were special reasons for the excess. Steps should be taken without delay to reduce the expenditure in the remaining towns, viz., Ongole, Gudiyáttam, Wálájápet, Anakápalle and Bimlipatam.

IV.—DEBT, CLOSING BALANCES, &c.

55. *Indebtedness of Municipalities.*—During the year under review, loans amounting to Rs. 20,082 were repaid, a sum of Rs. 1,996 was transferred to the sinking fund, and Rs. 35,855 were paid as interest on the municipal debt. Appendix XXII gives details of the loans raised, and of the amounts repaid and still outstanding.

56. *Advances.*—The debit under this head was Rs. 31,264 against Rs. 96,127 in 1893–94, the decrease being due to the inclusion in the previous year's figure of large advances made by the municipal councils of Adóni and Madura for the execution of their water-supply schemes.

57. *Closing Balances.*—The closing balance amounted to Rs. 7,24,098, or 32·5 per cent. of the current receipts. The percentage was very high in Kurnool (233·4), Tanjore (148·6), Tirupati (65·6), Tinnevelly (56·0) and Ootacamund (52·4), but in all these towns water-supply schemes were under execution or preparation, and the money was being reserved for that purpose. In thirteen other towns, the balance was less than the limit of 10 per cent. prescribed by Government, while in Calicut and Gudiyáttam the year closed with a deficit. The worst cases have been duly noticed in the individual reviews.

58. *Municipal Accounts.*—From the consolidated report of the Accountant-General on the audit of the municipal accounts for 1893–94 which has been recently received, it is satisfactory to note that the results of the audit showed an improvement on the previous year. In Madura, Cuddalore, Trichinopoly, Anantapur and Masulipatam, however, the accounts were in a very unsatisfactory condition and the special attention of the Chairmen has been drawn to the matter.

59. *General Administration.*—Detailed remarks on the working of each municipality have already been passed in reviewing the individual reports. It will be sufficient therefore to observe here that the administration improved and was fair in Bellary, Erode, Berhampur, Palghat, Wálájápet, Palamcottah and Tuticorin, and was fairly satisfactory in all the other municipalities except Ellore, Cannanore, Gudiyáttam, Cuddalore, Mannárgudi, Srírangam and Vizianagram, where it was markedly inefficient.

His Excellency the Governor in Council is, however, glad to be able to record his opinion that the year's administration compared favourably with that of the previous year, and was on the whole fairly satisfactory.

* For the purposes of this statement, each department of a college or school is taken separately; *e.g.*, if a high school has upper secondary, lower secondary and primary classes, it will appear under each of the departments as far as regards the classes concerned.

† Entries preceded by a *minus* sign in these columns denote profit to municipal funds, the expenditure on the school or department concerned being less than the receipts from the same.

APPENDIX XVI.

Showing the action taken by certain Municipal Councils on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

1. *Adóni.*—"Both the midwives that worked during the year were trained hands, and the present midwife (a Eurasian) is also a trained nurse. The council is unable at present to incur any expenditure on the training of female medical practitioners, having regard to the more pressing demands on the funds at its disposal, such as water-supply, drainage and street improvement schemes, in regard to which there is a great deal to be done."

2. *Bellary.*—No action was taken by the Municipal Council in this matter, as Mrs. A. D. Carmody who had been selected to undergo training at the Medical College, Madras, completed her training, passed the final examination for hospital assistants, and has been employed as a female hospital assistant in the Sabhapati Mudaliyar Hospital.

3. *Conjeeveram.*—No female practitioner was sent for training during the year under report.

4. *Berhampur.*—"The midwife attached to the municipal hospital is a qualified woman, and is besides a Licentiate of Medicine and Surgery. There is also a female apothecary stationed in the town and working in the Jubilee hospital. It is therefore thought unnecessary to send any woman for medical training."

5. *Kurnool.*—No women were trained up as native doctors and nurses during the year for want of funds.

6. *Dindigul.*—No woman was sent up for medical training.

7. *Periyakulam.*—No action was taken as before for the training of female medical practitioners.

8. *Calicut.*—No expenditure was incurred for the medical training of women.

9. *Coonoor.*—It was not considered necessary to incur any expenditure for training female medical practitioners in this Municipality.

10. *Salem.*—No action was taken by the Municipal Council towards the training of female medical practitioners during the year under report.

11. *Vániyambádi.*—No expenditure was incurred by the council during the year for the training of female medical practitioners as the midwife attached to the municipal dispensary was a trained woman.

12. *Negapatam.*—During the year under report no action was taken for the medical training of women.

13. *Tanjore.*—No woman was trained in this Municipality during the year.

14. *Palamcottah.*—No expenditure was incurred by the council during the year for the training of a female medical practitioner as the midwife attached to the municipal hospital was a trained woman.

15. *Srirangam.*—A woman was sent to the Lying-in Hospital, Madras, for training.
