Sir, In forwarding herewith a resolution of the Municipal Council passed at a meeting held on the 5th instant, I have the honor to state that the merchants & other classes have been maintaining a water pendal over the site for charitable purposes for the past 8 years and that every year, just at the commencement of the hot season, a thatched shed is erected over it continuing it for about 8 months. The shed is situated in the busiest portion of the Town and all communities that frequent the bazaars for various purposes get water, butter-milk &c gratis. Thus this charitable institution is proving very useful to the public at large, but a year after year, it has to be reconstructed, it is entailing much unnecessary expenditure on the slender funds which the merchants are able to collect to keep up the supply of water. The merchants, with a view to save this amount and utilize it for enlarging the provision of supply of water for which there is a greater demand from the growing importance of the town, have now petitioned the Council to permit them to erect a permanent shed in the place of the thatched one with a distinct understanding that it should only be used for this charitable purpose and in the event of it being otherwise used it should revert to the Municipality with the shed thereon. The Council, fully convinced of the reasonableness of the Merchants request, have passed the above resolution subject to its approval by the Government. The merchants will have no right for the land, neither can they build the shed in any other way than is suggested by the Council.

I strongly recommend the resolution of the Council for the favourable consideration of the Honorable Government & request that you will be pleased to obtain its approval at an early date.

I have the honor to be,
