Returns of Vital Statistics for the month
of *April* 1895.

No. 1988 L., 21st OCTOBER 1895.

GOVERNMENT OF MADRAS.
LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

No. 1729-S.

Remarks by the Sanitary Commissioner, Madras, on the recorded vital statistics in the Districts and Municipalities of the Madras Presidency for the month of April 1895.

DISTRICTS.

During the month under review, 73,312 births and 45,066 deaths were registered in the districts; they yielded annual ratios of 26.1 and 16.0 per mille, respectively, of the population as ascertained at the census of 1891, and 24.6 and 15.1 per mille of the estimated population. Of the children born, 37,224 were boys and 36,088 were girls, and of those who died, 23,341 were males and 21,725 were females; or, in other words, 103.1 boys were born for every 100 girls and 107.4 males died for every 100 females.

2. In the annexed table, the deaths registered under the several causes are compared with those of March last and April 1894 :—

		Deaths from							Ratio per mille of population per annum.						
		Cholera.	Small-pox.	Fevers.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.	Cholera.	Small-pox.	Fevers.	Dysentery and diarrhoea.	Injuries.	All other causes.	Total.
April 1894 ..	..	1,880	1,278	21,478	1,473	1,153	22,012	49,279	0.7	0.5	7.6	0.5	0.4	7.8	17.5
March 1895 ..	..	2,188	469	21,752	1,491	861	23,437	50,198	0.8	0.2	7.7	0.5	0.3	8.3	17.8
April ..	..	1,368	476	19,716	1,381	947	21,178	45,066	0.5	0.2	7.0	0.5	0.3	7.5	16.0

3. Deaths from cholera were reported from eleven districts, and they aggregated 1,368 against 2,188 in March last. The death-rate from this cause was highest in Coimbatore (2.1), and next in order in—Madura (1.6), Tinnevely (1.5) and South Arcot (1.1). Small-pox caused 476 deaths, against 469 in the preceding month. 19,716 persons fell victims to fevers against 21,752 in the previous month. The death-rate from this cause was high in Nilgiris (20.6), Cuddapah (17.0), Kurnool (15.3), Vizagapatam (12.3) and Madras (10.2). Dysentery and diarrhoea accounted for 1,381 deaths, against 1,491 in March last—Nilgiris and Madras suffering the most with death-rates of 2.5 and 2.4 per mille, respectively.

4. The accompanying map of the Madras Presidency exhibits the places where deaths from cholera were recorded, the districts being shaded according to the intensity of cholera which prevailed there.

MUNICIPALITIES.

5. The births registered in the Municipalities amounted to 5,824 (2,919 boys and 2,905 girls) and the deaths to 4,216 (2,167 males and 2,049 females). The annual birth and death rates per mille of the census population were 33.3 and 24.0, respectively, while those according to the estimated population were 31.6 and 22.9. The
