GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Tuticorin, 4th November 1895, No. 1770-V.

With reference to paragraph 2 of G.O., No. 1569, dated the 30th September 1895, I have the honour to forward herewith letter No. 1642-V., dated 11th October 1895, from the Inspector of Vaccination and Deputy Sanitary Commissioner, from which Government will observe the great irregularity with which certain municipalities deal with the subject of reporting as to the measures taken by them for compulsory vaccination.

2. So far experience has shown that the method inaugurated by G.O., No. 1502 M., dated 19th October 1894, is essential, if it be desired to effect compulsory vaccination with any approach to efficiency. It seems to me that the weak point disclosed is the tendency for Municipal Chairmen not to regard themselves as personally responsible, but to look to ill-educated vaccinators or the medical staff (which can only be responsible for *professional* advice) for working of the compulsory clauses. This matter I have discussed in my letter No. 1301 V., dated 14th August 1895, embodied in the Government Order under reference.

ENCLOSURES.

From Surgeon-Major C. MALLINS, M.A., M.D., D.P.H., Acting Inspector of Vaccination and Deputy Sanitary Commissioner, to the Sanitary Commissioner, Madras, dated 11th October 1895, No. 1642-V.

With reference to paragraph 2 of G.O., Mis. No. 1569 M., dated 30th September 1895, I have the honour to forward herewith a statement showing the degree of attention which the provisions of G.O., No. 1502 M., dated 19th October 1894, have received at the hands of municipal councils, notwithstanding constant reminders. All the municipalities not mentioned have submitted returns up to August.

2. I have also to bring specially to notice the neglect of the orders contained in G.O., No. 1502 M., dated 19th October 1894, by the following municipalities as shown in each case :—

(*a*) *Vellore.*—In the month of August (return received 5th October), 389 cases were liable to compulsory vaccination; of these only 105 were vaccinated, while, of the remaining 284, in 149 instances no action whatever is reported, not even the serving of notices. The attention of the Municipal Chairman was called to this matter in July last, as well as that of the President, District Board, and District Magistrate.

(*b*) *Coimbatore.*—In the month of May (return received 10th August), 58 cases are returned as "unaccounted for," no action being reported nor explanation given.

(*c*) *Cuddalore.*—In the month of May (return received 5th October), 19 cases are entered in which no action whatever is reported nor explanation given.

(*d*) *Rajahmundry.*—In the month of February (return received on 9th October), of 104 cases liable to vaccination, only 16 were vaccinated, while in 88 cases no action whatever is reported nor explanation given. Notwithstanding constant reminders no return had been received from this municipality since April last until the 9th October, when the return for February was submitted.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Tuticorin, 4th November 1895, No. 1770-V.

With reference to paragraph 2 of G.O., No. 1569, dated the 30th September 1895, I have the honour to forward herewith letter No. 1642-V., dated 11th October 1895, from the Inspector of Vaccination and Deputy Sanitary Commissioner, from which Government will observe the great irregularity with which certain municipalities deal with the subject of reporting as to the measures taken by them for compulsory vaccination.

2. So far experience has shown that the method inaugurated by G.O., No. 1502 M., dated 19th October 1894, is essential, if it be desired to effect compulsory vaccination with any approach to efficiency. It seems to me that the weak point disclosed is the tendency for Municipal Chairmen not to regard themselves as personally responsible, but to look to ill-educated vaccinators or the medical staff (which can only be responsible for *professional* advice) for working of the compulsory clauses. This matter I have discussed in my letter No. 1301-V., dated 14th August 1895, embodied in the Government Order under reference.
