VIZAGAPATAM COLLECTOR'S OFFICE.

Dated 13 November 1895.

From

W. A. WILLOCK

Esq.

Collector,

Vizagapatam District.

To

THE HONORABLE

J. F. Price,
CHIEF SECRETARY TO GOVERNMENT,

Local & Municipal DEPARTMENT,
MADRAS.

SIR,

With reference to para 3 of G. O. no 1602
M. dated 20 October 1895 regarding the re-
moval of the Vizagapatam fishing village
to a less objectionable site, I have the
honor to state that the proposal regarding
the erection of new public Offices on
the site of the huts to be removed is
one which there is no immediate prospect
of carrying out except so far as the
construction of a new Deputy Tahsildar's
Office and Post Office is concerned.

2. The southern or business end of
Vizagapatam is terribly crowded at
present.

present and as the trade brought in by the Railway increases the difficulty of finding space for commercial purposes will become very serious indeed. There is however a large area belonging to Government consisting of the old parade ground and the site on which my Office and the Sessions Court stand admirably situated for mercantile purposes. This area and the buildings it contains should in a few years hence be worth a large sum of money. It will in time probably fetch enough to rebuild the Offices in question on the beach in a much cooler and more healthy site and an equally convenient one for the Officials, Vakils &c concerned. The present Court house is an old and not a very satisfactory building but would be worth a good deal of money to a merchant, and the greater part of my own office is in very bad order being the remains of the old arsenal. A good deal of it will

will have to be reconstructed within the next few years or a new office built. The accommodation which it provides is also very inadequate and has been the subject of frequent complaint but I have always been against any capital expenditure being incurred in improving it as tending to tie me down to a dilapidated building which is merely an adaptation of one originally intended for a totally different purpose and very ill suited for its present use.

3. There is ground further north along the beach which will suit these new buildings equally well and which is not likely to be built on by private persons for years to come at any rate, so the project does not practically affect the question of the disposal of the ground now to be made
