2. *Local Boards and Panchayats.*—The district board met twelve times against thirteen in the previous year. The average attendance of the non-official members improved and was good, but that of the officials declined and was indifferent. The taluk boards held a sufficient number of meetings and the average attendance of their non-official members, except in the case of the Ranipettai board, was good. The official members, however, excepting those on the Chittoor board, were again irregular. The attention of the Collector will be drawn to paragraph 2 of the review of the previous year's administration. There were twenty union panchayats at work against seventeen in 1893–94, and all of them, except the one newly constituted at Peranambat, met a sufficient number of times. The average attendance of the panchayatdars continued to be fair, being six out of a maximum strength of ten. The ward system of supervision was adopted in all the unions except Peranambat, and was a failure only in Arni. The panchayats, excepting Arni again, appear to have worked on the whole satisfactorily.

3. *Receipts.*—(1) The collections under land cess rose from Rs. 2,71,598 or 96·9 per cent. of the demand to Rs. 2,90,904 or 96·2 per cent.

(2) The receipts from the local fund toll-gates fell from Rs. 17,901 to Rs. 13,147, the decrease being ascribed to want of competition at the sale of the farms, caused by the rules framed by the district board permitting the composition of tolls under section 87 (2) of the Local Boards Act, but nearly the whole of the demand was realised within the year.

(3) House-tax was levied in sixteen unions at the maximum rates against twelve in the previous year, and the receipts from this source accordingly rose from Rs. 14,353 to Rs. 18,238. The collections continued to be excellent, being, as in the preceding two years, 99 per cent. of the demand. Coercive measures were resorted to in twelve unions, but of the 871 warrants issued, 742 related to Kálahasti and Karvetnagar. Property was distrained in 104 cases for the recovery of Rs. 50, but was sold in only sixteen cases for Rs. 5.

(4) There were 61 markets and slaughter-houses, in 59 of which fees were levied against 57 in the previous year, and the receipts from them rose from Rs. 10,418 to Rs. 12,274. The expenditure on works connected with these institutions was only Rs. 4,521 against Rs. 7,851 in 1893–94, and the balance to their credit at the close of the year rose from Rs. 10,882 to Rs. 17,108. This is not satisfactory, and no further time should be lost in spending the greater portion of this large sum on the works referred to in paragraph 70 of the President's report.

(5) The revenue from fishery rents amounted to Rs. 11,495 against Rs. 7,914 in the previous year, the increase appearing chiefly in the Walajapet taluk.

(6) The income from avenues fell from Rs. 10,915 to Rs. 9,042, the decrease being attributed to the comparative scantiness of the tamarind crop. Fair attention continued to be paid to their extension and the existing trees are reported to have been properly looked after.

(7) A contribution of only Rs. 7,378, against Rs. 11,407 in the previous year, was received from Provincial funds on account of education, the decrease being explained in paragraph 22 (*h*) of the President's report.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 1,65,466, or Rs. 19,683 less than in the previous year, and was again only 91 per cent. of the allotment. The explanation offered for the short outlay in paragraphs 26 to 29 of the President's report cannot be considered altogether satisfactory. It shows that works were again entered in the budgets before the land for them had been acquired, or sanction to the estimates for them had been accorded, and that the want of efficient contractors was still unsupplied. The Government trusts that in the current year the local boards and the engineering department will do their utmost to prevent similar causes from retarding progress. The shortness of the President's acquaintance with the district has prevented him from giving a decided opinion as to the condition of the roads, but it does not appear to have improved. It is to be regretted that the revision of the engineering establishment proposed by him was not adopted by the district board. The expenditure upon village roads was Rs. 13,507 or 9·7 per cent. of the total outlay on communications against Rs. 11,258 or 7·8 per cent. in 1893–94. Owing, apparently, to the short outlay under this grant noticed above, the cost of the engineering establishment amounted to nearly twenty per cent. of the outlay on works against seventeen per cent. in the previous year and the expenditure on tools and plant exceeded the prescribed limit by ·21 per cent.

(2) *Education.*—There were again eleven inspecting schoolmasters employed in the district, and their work, with one exception, is reported to have been, on the whole, satisfactory. As in the previous year, there were two sessional schools working at eight centres. Of the 76 students trained in them, 45 appeared for the Primary examination and 35 passed a satisfactory result. The taluk boards maintained an upper and six, against seven in 1893–94, lower secondary schools. The strength of the high school at Chittoor fell from 174 to 153, the decline being due to the amalgamation of its primary department with the local primary school. The results obtained by the school in the Matriculation examination were again very unsatisfactory, only one out of the five pupils sent up having passed. It is reported that steps have now been taken to improve the condition of the institution, and it is hoped that better results will be secured in the current year. In the Lower Secondary examination seven pupils passed out of eleven presented, and in the Primary examination all the five who appeared were successful. This is satisfactory. The middle schools at Arcot and Kuppamu fared even worse than in the previous year in the Lower Secondary examination, only one out of the nine students sent up from the former, and none of the two who appeared from the latter, having passed. No candidates were sent up from the Tiruttani Middle school for the Primary examination, but from the five others 76 appeared for it and 57 passed. The large reduction * in the net cost of the lower secondary departments is noted with satisfaction, but the boards should not rest content until they are entirely self-supporting. The taluk boards maintained 159 primary schools with 7,749 pupils against 148 schools with 7,270 pupils in the previous year, and 78 per cent. of the candidates sent up from them for the standard examinations were successful against 79 per cent. The special report on the progress of the schools for Panchamas, promised by the President in paragraph 50 of his report, will be awaited. Results grants at the maximum rates were paid by the taluk boards to 497 schools with 12,154 pupils against 587 schools with 15,348 pupils in 1893–94; and the expenditure under this head fell from Rs. 19,275 or 123 per cent. of the allotment to Rs. 14,026 or 85 per cent. These decreases are ascribed to the enforcement of the conditions of the new Grant-in-aid Code. The total number of boys under instruction in the schools maintained and aided from local funds was only 1·25 per cent. of the male population of school-going age against 13·7 per cent in 1893–94.

if On the analogy of the amount shown as "allotment from the District Fund", the amount of "allotment from the Taluk funds" should appear as credit in "Union Panchayats". But this form of statement does not contain a column to show the transactions of the "union panchayats" Hence it is not possible to show in this statement the allotments Rs 19181 to "unions" shown in Column 6 of Statement II B.

abolition of the middle department of the School at Chandragiri and the amalgamation of the Upper Primary department with the Lower primary School at the place for the same reason no results grants were paid to that School The middle School at Tiruttani was not recognised as it did not fulfil the requirements of the rules. Hence no grants were paid on behalf of that School also. There were also Savings under "Miscellaneous" due to economy.

(p) The net decrease is mostly due to the savings in the pay of the teachers of Schools opened gradually in the course of the year & the non-utilization of the provision for the purchase of Library books and Maps under the Chittoor Taluk Board and to the savings under the same head under the Ramapattam and Vellore boards. Several Schools did not fare well in the final examination & this accounts for the decrease under results.

(r) The entire provision made for "Building grants" was not utilized as there was no occasion for it.

(s) For the same reason explained against (r) there was a saving of Rs 210 under this head.

⊕ The difference between this figure and the closing balance of 1893-94, is explained at foot of the Statement in para 12 of the accompanying report.

* Includes 4-8-6 in Sholinghur union and Rs 11-4-7 in Polur union, being Cholera charges debited to Grant III (a) "hospitals and dispensaries" (11) Cholera

P.T.O.

Charges in Statement I-B, as the charge was incurred on account of remedial measures. No doubt Sanitation is not the proper head wherein to show the expenditure in question, but as the form of Statement does not provide for a separate heading and as Government in its memoranda dated 9-9-92 No. 691 objected to the charge being shown under "Miscellaneous" it had to be shown under "Sanitation".

* The decrease of four schools, as compared with the actual number of schools at the close of the year 1893-94 is due to the omission of the same number of schools in Madanpank division transferred to the Nellore district with effect from 1st April 1894.

NB. Actual number of Schools ——— 497.
Result grants were paid at the maximum rates.

In the cases marked (a) the amounts disbursed for the current year exceed the full amounts of grants earned. The Educational officers explain that the excess is due to the Schools for backward and indigent classes such as panchamas, having been paid extra grants upto the limit of assignment as per the Director of Public Instructions instructions. The Grant-in-aid Code. They further say that unless these extra grants are also treated as the amounts earned, the amount disbursed may exceed the earnings as in the cases noted above.

* For reasons stated against the total of Upper Primary schools, the 18 schools of Madanpank division have been omitted in this statement.

Due in fraction is not traceable in the results of the Optional Subjects. Hygiene does not seem to have received much attention as the Indian History continues as bad as ever the portion [illegible] given in — usually large.

* Particulars relating to optional subjects need not be shown by standards.

NOTE.—1. This statement should be submitted in three parts when necessary, one for salary-result schools, one for combined schools, and one for pure results schools.
2. In the last column should be entered the remarks of the Inspecting Officer bearing directly on the result.
3. No comments should be made except as notes entered in the column of remarks.
4. This statement should be submitted in time to reach the Presidents of Local Boards or the Chairmen of Municipal Councils concerned before the 1st May.
