GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From J. HEWETSON, Esq., President, District Board, Cuddapah, to the Chief Secretary to Government, dated Cuddapah, 19th July 1895, Disposal No. 619.

I have the honour to submit my report on the administration of Local Funds under Act V of 1884 for the official year 1894–95.

I.—GENERAL.

2. *Administration.*—During the year under review there were four taluk boards as in the previous year. One union at Pata Cuddapah, under the Cuddapah taluk board, was formed during the year under report. With this exception the system of Local Fund administration remained the same as in the previous year.

3. *District Boards.*—Statements XVI and XVI-A show the constitution and attendance of the several local boards and union panchayats in the district. The sanctioned strength of the district board is 40 members exclusive of the president. On the 31st March 1895 there were 37 members on the board against 39 on the corresponding date of the previous year; of whom 4 were ex-officio members, 6 nominated officials, 10 nominated non-officials, 9 elected officials and 8 elected non-officials; of these 37 members, 5 were Europeans and 1 was a Eurasian. Of the 17 elected members, 14 were elected during the year under review—6 by the Madanapalle taluk board, 3 by the Proddatur taluk board, 3 by the Siddhavattam taluk board, and 2 by the Cuddapah taluk board. The 3 vacancies were owing to the expiration of the time of the marginally-noted gentlemen as members. The vacancies have since been filled up after one illegal election. The proportion of nominated official members, including the ex-officio members to the total number of members on the board, was 25 per cent. as in the previous year, and that of the elected members was 42·5 against 47·5 per cent. of the previous year.

1. M.R Ry. G. Narayana Rao Garu.
2. ,, P. Sesha Reddi Garu.
3. Saiyid Abbas Ali Sahib.

4. *The District Board* held six meetings against seven in the previous year. Monthly meetings are not held for reasons explained in previous years' reports. The average attendance of official members was 7·5 against 9·14 in the previous year, and that of the non-official members was 12·5 against 13·57 of the previous year. No meetings were adjourned during the year under report for want of a quorum. Some of the official members have attended a very small number of meetings. They will be requested to attend the meetings more regularly in future. Some of the non-official members have attended a very small number of meetings and the necessary steps will be taken. The reason for the small attendance at meetings of the two classes of official and non-official members is that, during the year under report, a large number of members had to be elected. So for a short time some of the seats were vacant, and therefore the attendance of members was small. Further in last year's report the attendance of the president was included in calculating the average attendance of members, which increased the average attendance slightly.

IV

ORDER—dated 25 September 1895, No. 2050 L., Local and Municipal.

The Local Fund receipts and charges of the Cuddapah District for 1894–95 are compared below with the budget and revised estimates for the year and the actuals for 1893–94:—

2. *Local Boards and Union Panchayats.*—The district board met six times against seven in 1893–94. The attendance of the official members was still indifferent, but that of the non-officials continued to be good. The taluk boards, of which there are four, held a sufficient number of meetings; but the attendance of the official members, except those on the Cuddapah board, continued to be poor. That of the non-officials was on the whole good. There were eighteen union panchayats against seventeen in 1893–94 and they met on an average twelve times against fourteen in that year. It is to be regretted that the panchayats of Chitvélu, Chennúr and Ráyachóti did not assemble once a month, as required by section 129 of the Local Boards Act. The Presidents of the taluk boards concerned should see that the panchayats under their control comply with the provisions of the Act on this matter. The average attendance of the panchayatdars at each meeting was only 5·50 out of a total strength of eleven against 6·48 in the previous year. The sanction of Government should be obtained for the reduction in the strength of the Ráyachóti Union Panchayat referred to in paragraph 7 of the President's report. The ward system of supervision, which was in force in all the unions except Badvel and Pata-Cuddapah, is stated to have worked well everywhere except in Madanapalle taluk.

3. *Receipts.*—(1) The collections under land-cess fell from 96 to 93 per cent. of the demand, owing to the unfavourable nature of the season.

(2) There were twenty-six toll-gates against twenty-seven in the previous year, the gate at Surabhu having been abolished, and the collections amounted to 96 per cent. of the demand against 88 in 1893–94.

(3) House-tax was levied in fifteen unions against fourteen in the previous year—at half the maximum rates in ten and at one-third rates in the others—but owing to the bad collections in Rázampéta and Madanapalle, where more than 41 and 28 per cent. of the respective demands were outstanding at the end of the year, the amount of it that was realized fell from 96 to 91 per cent. of the demand. It is creditable to the Chairmen of the Chennúr, Proddatúr, Siddhavattam, Pórumámilla and Piléru unions that the whole, or nearly the whole, of the demand in them was realized without resort to coercive measures. Three hundred and thirty-five distress

warrants were issued, but property was distrained in only eleven cases and sold in only one, for the sum of two annas. These figures render it evident that the tax is paid without difficulty. At present the taluk boards contribute a considerable sum from general revenues to the panchayats, and they should consider the desirability of raising the rates of house-tax in the more wealthy unions so that the amount of this contribution may be reduced.

(4) There were forty-eight markets under the control of the taluk boards against forty-seven in 1893–94 and fees were levied in all of them. The amount thus realized was Rs. 6,717 against Rs. 6,391 in the previous year. There was still a large balance of Rs. 10,019 in their favour at the end of the year, but the greater portion of this sum has been allotted in the current year's budget for the maintenance of roads under the Madanapalle Taluk Board and it is proposed to provide further funds in the course of the year for the improvement of the markets and the roads leading to them. The practice referred to in paragraph 24 of the President's report of debiting to market funds the amounts provided in the budget for expenditure from these funds on education and sanitation, when no such charges are actually incurred during the year, is open to objection and should be discontinued. It is presumed that in the cases in which this has occurred and the mistake has been corrected a corresponding addition has been made to the balance under general funds.

(5) The income from avenues fell from Rs. 4,209 to Rs. 2,867, owing to the unfavourable season. The average revenue derived from the avenues appears to be small, and the President will be requested to look into the matter and ascertain if it cannot be increased. No information as to the condition of the trees has been given, notwithstanding the remark in paragraph 3 (5) of the previous year's review. This omission should be guarded against in future.

4. *Expenditure*—(1) *Public Works.*—The total expenditure under this head amounted to 94 per cent. of the allotment against 93 per cent. in 1893–94. The failure to utilize the provision for buildings for salary-result schools and for the repairs to dispensary and school buildings has not been explained. It is observed that two new railway feeder roads were constructed during the year. The expenditure on village roads amounted to 3·2 per cent. of the total outlay on roads as in 1893–94. It is stated that the roads in the district, which were reported to have been generally in good order in the previous year, have not deteriorated. The cost of the local fund engineering establishment amounted to 23 per cent. of the outlay on works incurred by that agency against 28 per cent. in 1893–94, and was thus still three per cent. in excess of the limit prescribed by Government.

2. *Education.*—There were again seven inspecting schoolmasters, and except that the number of villages visited by them fell from 805 to 691 their work was on the whole better than in the previous year. Three sessional schools were at work at different times during the year and the number of students trained in them rose from 25 to 39. The results obtained at the examination have not been reported. The taluk boards again maintained two lower secondary schools. There was an increase in the strength of the Proddatur school, but a decline in that at Badvel. From the former eleven students appeared for the lower secondary examination and six passed, but none were sent up from the latter as the class was abolished. The number of board primary schools rose from 98 with 3,493 pupils to 105 with 3,789 pupils, but only 69 per cent. of the candidates sent up from them for the several standard examinations passed against 77 per cent. in the previous year. The number of night schools rose from 15 to 29. There was also an increase in the schools aided from local funds

	Schools.	Pupils.
1893–94	311	5,832
1894–95	315	5,407

The number of pupils attending them, however, declined as shown in the margin. Of 4,167 pupils presented for examination 3,[illegible]93, or 77 per cent., were found qualified for grants, the corresponding figures for the previous year being 5,092, 3,877 and 76 per cent. The amount of grants paid to the institutions exceeded the allotment by 48·2 per cent., but the cause of this has not been explained. The total number of

boys under instruction in the board and aided schools was 9·4 per cent. of the male population of school-going age against 9·3 per cent. in 1893–94, the average for the Presidency in that year being 13·4 per cent.

(3) *Medical Relief.*—Three hospitals and ten dispensaries continued to be maintained by the taluk boards. The total number of patients treated in them rose from 75,391 to 79,530, the increase appearing in all of them except the dispensaries at Kadiri, Pulivendla and Siddhavattam. The statistics of the mission dispensary at Kalasapad, which was not aided from local funds, should not have been included in the District Medical Officer's report. A midwife and twelve nurses were employed by the taluk boards. They attended on an average only four cases each per mensem against five in 1893–94, and further efforts to render them more useful should be made. A female hospital assistant trained by the Countess of Dufferin Fund Committee on behalf of the taluk board continued to be employed in the Madanapalle hospital.

(4) *Vaccination.*—There was a satisfactory improvement in the work of this department, the total number of successful cases being 38,275 or 30·5 per mille of the population against 34,666 or 27·6 per mille in 1893–94. Infantile vaccination also made some progress, the total number of children under one year of age successfully protected being 7·1 per mille of the population against 5·7 in the previous year. There is, however, considerable scope for further improvement, as the number of births recorded during the year was 27·3 per mille of the population.

(5) *Sanitation.*—The outlay under this head amounted to 93 per cent. of the allotment against 91 in the previous year. It is observed that more than forty-four per cent. of the grant for "other sanitary outlay" was allowed to lapse, but no explanation has been offered for this nor for the failure to utilize the allotment for wells in Kadiri and Ráyachóti taluks. The omission should be supplied. Eleven watchmen were employed to guard sources of water-supply against eight in the previous year, and conservancy establishments were maintained in eighteen unions and forty-six other villages against seventeen and forty-nine respectively. The Government trusts that the boards have satisfied themselves that these establishments are adequately supervised in non-union villages. Unless this is ensured, their work is frequently worthless and the money spent upon paying them would be more usefully devoted to permanent improvements to local sources of water-supply. No information has been furnished as to the value of the work done by the itinerating gang of coolies which was employed by the Siddhavattam Taluk Board for the removal of prickly-pear and rank vegetation. The report promised in paragraph 68 of the President's letter regarding the results of the introduction of sewage-farming and cropping land used for trenching-in night-soil will be awaited. The number of towns and villages visited by the District Medical and Sanitary Officer has not been reported—an omission which should be supplied in future reports.

5. *General Remarks.*—The year closed with a balance of Rs. 26,683, but of this sum Rs. 1,624 appertained to unions and Rs. 10,068 to endowed institutions, leaving Rs. 14,991, or 7·2 per cent. of the receipts, available for general purposes. Notwithstanding the remarks in paragraphs 4 (5) and 5 of G.O., dated 6th October 1894, No. 1979 L., the lighting charges incurred in the unions of Madanapalle, Vayalpad, Ráyachóti and Kadiri have not been met by corresponding contributions from the taluk funds as required by section 142 of the Local Boards Act, the deficits with which the transactions of some of the unions closed the year have not been met by additional allotments from the taluk funds, and the deficits with which the market funds closed the year have not been made good by loans or contributions from general local funds as required by No. 25 of the Local Fund rules. The instructions of Government in this matter should not be again neglected.

The President's report and the accompanying statements have again been very carelessly prepared notwithstanding the repeated remarks of Government on the subject. The length of the District Medical Officer's reports might have been reduced

with advantage by the condensation of paragr
V (*e*), (*f*) and (*g*) of the report on medical in
on vaccination.

The administration of local affairs showe
year and was, on the whole, satisfactory. T

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From J. HEWETSON, Esq., President, District Board, Cuddapah, to the Chief Secretary to Government, dated Cuddapah, 19th July 1895, Disposal No. 619.

I have the honour to submit my report on the administration of Local Funds under Act V of 1884 for the official year 1894–95.

I.—General.

2. *Administration.*—During the year under review there were four taluk boards as in the previous year. One union at Pata Cuddapah, under the Cuddapah taluk board, was formed during the year under report. With this exception the system of Local Fund administration remained the same as in the previous year.

3. *District Boards.*—Statements XVI and XVI-A show the constitution and attendance of the several local boards and union panchayats in the district. The sanctioned strength of the district board is 40 members exclusive of the president. On the 31st March 1895 there were 37 members on the board against 39 on the corresponding date of the previous year; of whom 4 were ex-officio members, 6 nominated officials, 10 nominated non-officials, 9 elected officials and 8 elected non-officials; of these 37 members, 5 were Europeans and 1 was a Eurasian. Of the 17 elected members, 14 were elected during the year under review—6 by the Madanapalle taluk board, 3 by the Proddatur taluk board, 3 by the Siddhavattam taluk board, and 2 by the Cuddapah taluk board. The 3 vacancies were owing to the expiration of the time of the marginally-noted gentlemen as members. The vacancies have since been filled up after one illegal election. The proportion of nominated official members, including the ex-officio members to the total number of members on the board, was 25 per cent. as in the previous year, and that of the elected members was 42·5 against 47·5 per cent. of the previous year.

1. M.R.Ry. G. Narayana Rao Garu.
2. ,, P. Sesha Reddi Garu.
3. Saiyid Abbas Ali Sahib.

4. *The District Board* held six meetings against seven in the previous year. Monthly meetings are not held for reasons explained in previous years' reports. The average attendance of official members was 7·5 against 9·14 in the previous year, and that of the non-official members was 12·5 against 13·57 of the previous year. No meetings were adjourned during the year under report for want of a quorum. Some of the official members have attended a very small number of meetings. They will be requested to attend the meetings more regularly in future. Some of the non-official members have attended a very small number of meetings and the necessary steps will be taken. The reason for the small attendance at meetings of the two classes of official and non-official members is that, during the year under report, a large number of members had to be elected. So for a short time some of the seats were vacant, and therefore the attendance of members was small. Further in last year's report the attendance of the president was included in calculating the average attendance of members, which increased the average attendance slightly.

5. *Taluk Boards.*—On the 31st March 1895 the four taluk boards had their full complement of 60 members—12 for Cuddapah and 16 for each of the other Boards, *i.e.*, Proddatur, Siddhavattam and Madanapalle. Of these 60 members, 19 were officials and 41 non-officials as in the previous year. All the taluk boards held 54 meetings against 53 meetings of the previous year. The Proddatur taluk board held the largest number of meetings, *i.e.*, 16. During the year under report no meetings were adjourned for want of a quorum in any of the taluk boards. The average number of members present at the taluk board was 1·93 officials and 6·64 non-officials, against 2·86 officials and 6·67 non-officials in the previous year.

6. The average attendance of the non-official members is almost the same as in last year. The decrease in the average attendance of official members is due to the fact that in last year's report the attendance of presidents was included in calculating the average attendance. Further there is a slight decrease in the attendance of official members in Proddatur and Madanapalle boards owing to the frequent transfers and changes of Tahsildars. Some of the members of the taluk boards have attended a very small number of meetings. The presidents of the taluk boards will be called upon to take the necessary steps according to law. The average number of meetings held was 13·5 against 13·25 of the previous year.

7. *Union Panchayats.*—The aggregate sanctioned strength of the 18 unions (including the new Pata Cuddapah union) in the district was 195. Last year's figure was 185: 12 have to be added for the Pata Cuddapah union and 2 deducted, as the strength of the Ráyachóti union has been reduced from 12 to 10. On the 31st March 1895 there was the full complement of 195 panchayatdars against 183 out of 185 in the previous year. Of these 195 panchayatdars, 79 were officials and 116 were non-officials, against 80 officials and 103 non-officials of the previous year. These panchayats held 224 meetings against 231 meetings in the previous year. The unions of Chitvélu, Chennur and Ráyachóti held only 11 meetings. The omission to hold a meeting every month in spite of numerous warnings both from Government and from this office is unsatisfactory, and is not explained by the taluk board presidents concerned. The Pata Cuddapah union, which began to work on 1st January 1895, held 2 meetings. The panchayats of Rázampéta and Badvel held 17 and 16 meetings, respectively, which is creditable to them. Except Vayalpad * in none of the unions were meetings adjourned for want of a quorum. The average number of members present was 1·87 officials and 3·41 non-officials, against 2·98 officials and 3·50 non-officials in the previous year. The poor attendance is partly due to the Pata Cuddapah union meetings having had to be taken into account in calculating the total average of the whole district, though it worked for only three months of the year and held only 2 meetings. The taluk board reports do not furnish any information as to the poor attendance. The attention of the presidents of taluk boards and the chairmen of unions will be called to this matter. The preponderance of official members over non-officials in Chitvelu union has since been rectified—*vide* G.O., No. 1132, dated 28th June 1895, Local and Municipal. The average number of meetings held was 12·44 against 13·58 of the previous year. The reports of the taluk boards of Proddatur and Siddhavattam state that the working of these bodies was, on the whole, satisfactory. The reports of the Madanapalle and Cuddapah taluk boards are silent on that subject.

* One meeting.

8. The ward system has been introduced into all unions except Badvel and Pata Cuddapah. The Madanapalle president says that the system was not a success; under other taluk boards it seems to have worked well. The chairmen of all the unions in the district, except Rázampéta and Madanapalle, have shown great energy in the collection of house-tax. No house-tax was introduced in the union of Pata Cuddapah, as it was opened at the end of the year. The area in square miles of unions is omitted in column 4, statement XVI-A, as this information is not available in the census list of 1891 for villages. The area of district and taluk boards is given—*vide* clause 23, paragraph I of G.O., No. 885, dated 27th September 1894. The ex-officio

presidents have not been included in columns 6 and 14, and the number of meetings adjourned for want of a quorum has not been included in column 15 of the same statement, as per instructions contained in clauses 24 and 25, paragraph I of Government Official Memorandum No. 885, dated 27th September 1894.

9. *Financial position.*—The year commenced with an opening balance of Rupees 28,592. The receipts of the year were Rs. 2,36,635, of which Rs. 1,12,645 were credited to the district board and Rs. 1,66,143 to the taluk boards. This latter sum includes a grant of Rs. 42,153 from the district board to the taluk boards. The total expenditure was Rs. 2,38,543, *i.e.*, Rs. 1,07,421 by the district board and Rs. 1,73,275 by the taluk boards. There was thus a closing balance of Rs. 26,684, *i.e.*, Rs. 6,828 under the district board and Rs. 19,856 under the taluk boards.

10. *Taxation.*—The extent of the Cuddapah district is 8,722 square miles and the population according to the census of 1891 is 12,54,693. The income from

	Rs.
(1) Land-cess is	1,74,140
(2) Tolls is	19,588
(3) House-tax is	10,065
(4) And all the Local Fund receipts are	2,36,635

The incidence of taxation per head is, therefore, As. 2–2 excluding tolls and As. 2–7 including tolls and house-tax, and As. 3 to the total Local Fund income, against As. 2–7 excluding tolls, As. 2–10 including tolls, and As. 3–6 of the total Local Fund income of the previous year. The increase last year was due to an erroneous adjustment of Rs. 26,858 under land-cess as explained in last year's report.

II.—Receipts.

11. *Opening balance.*—Statement I-A exhibits the total receipts of the district and taluk boards under the several heads, as compared with the budget estimate for the year under report and the actuals of the previous year.

12. The opening balance was Rs. 28,591 against an estimate of Rs. 15,070 and Rs. 7,492, the actuals of the previous year. This is the balance adopted by Government in columns 331, 332 and 333, appendix V, in page 58 of G.O., Nos. 2541 and 2542 L., dated 6th December 1894, General Local Fund Review.

13. The total current receipts, excluding the opening balance, amounted to Rs. 2,36,635 against an estimate of Rs. 2,32,380 and Rs. 2,49,248, the actuals of the previous year, including debt heads. The chief items of revenue to the board are shown below and each is dealt with separately:—

(*a*) Land-cess.
(*b*) Tolls.
(*c*) House-tax.
(*d*) School-fees.
(*e*) Sale-proceeds of books.
(*f*) Sale of medicines.
(*g*) Interest on Government securities.
(*h*) Choultry rents.
(*i*) Market rents.
(*j*) Bungalow fees.
(*k*) Ferry rents.
(*l*) Fishery rents.
(*m*) Avenues.
(*n*) Contribution from Provincial funds.

14. The reasons for the varieties in the actuals and estimates are given in detail in the remark column of the main statements I-A and I-B. In these statements round figures have been adopted in the major column III, as directed in clause 3 of paragraph I of Government Official Memorandum No. 885, dated 27th September 1894. It is necessary to point out here that the details in sub-statements will in some cases slightly differ from the figures shown in main statements by one or two rupees, because in the latter statements totals are taken, whereas in the former statements details of each item are shown. The difference will mainly arise by striking off the annas and pies and making the figures as whole rupees.

15. *Land-cess.*—Statement No. VII gives the details regarding the collection of land-cess. The actual collections under this head were Rs. 1,77,007 including the excess

collection of Rs. 12 and Rs. 2,855 appertaining to village-cess which has been erroneously adjusted in Kadiri taluk of Madanapalle taluk board to land-cess instead of to land revenue. The Treasury Deputy Collector says that an alteration memorandum will be shortly submitted to the Accountant-General to make the necessary alterations in the supplemental account for March 1895. Deducting the above sum of Rs. 2,867 from the total figure of Rs. 1,77,007, the actual amount of land-cess collected during the year at one anna in the rupee of the rental value is Rs. 1,74,140 against an estimate of Rs. 1,76,200 and Rs. 1,77,778, the actuals of the previous year. The decrease is due to an unfavourable season. The amount of land-cess shown in statement I-A receipts does not agree with the amount shown under this item in the supplemental account for March 1895, because the Government has adopted such figures last year—*vide* column 13, appendix IV, on page 30 of G.O., Nos. 2541 and 2542 L., dated 6th December 1894, General Local Fund Review for 1893–94.

16. *Tolls.*—Statement V gives the statistics of toll-gates in the district. There were, during the year under review, 26 toll-gates against 27 gates in the previous year owing to the abolition of the Surabhu gate—*vide* G.O., No. 198 L., Mis., dated 1st February 1894. The estimated amount of the year is Rs. 22,430. The amount for which these gates were leased out is Rs. 18,350 compared with Rs. 18,310 last year. The balance of the receipts consists of compounding fees which are eventually refunded to the contractors. The tolls realized in the years 1892–93 and 1893–94 are about the same (viz.) :—

Year.	Contract amounts.	Estimate.
	Rs.	Rs.
1892–93	17,772	27,230
1893–94	18,310	27,230
1894–95	18,350	22,430

Of the arrears outstanding at the beginning of the year Rs. 1,518 have been collected, Rs. 362 have been written off the accounts, and the balance of Rs. 347 is under realization.

Of the current demand all but Rs. 78 has been collected and a civil suit will have to be filed for the recovery of this amount. All the gates in the district have been leased out. Nothing has been collected by the Cuddapah municipality from their toll revenue.

17. *House-tax.*—This item of receipt was introduced into this district in the year 1892–93. The tax was levied at half the rates in Madanapalle, Vayalpad, Kadiri, Ráyachóti, Rázampéta, Chennur, Proddatur, Jammalamadugu, Vempalle and Pulivendla unions, and at one-third rates in Kámalápuram, Siddhavattam, Badvel, Porumamilla and Píléru unions. During the year under report no house-tax was levied in the unions of Chitvelu, Nandalúru and Pata Cuddapah. A sum of Rs. 10,065 was realized against an estimate of Rs. 10,560 and Rs. 10,198, the actuals of the previous year. The decrease is due to the bad collections in Rázampéta and Madanapalle unions as already stated in paragraph 8 above. The figures of the census of 1891 with regard to population and the number of houses have been adopted. The average incidence per house taxed was As. 5–9 against As. 5–6 of the previous year. Coercive processes appear to have been resorted to only in cases where it was unavoidable, and property was sold for the recovery of the tax in one case for As. 2–0 under Madanapalle taluk board. In column 8 of statement XVI-B the amount of current collections has been shown, as directed in clause 27, paragraph I of Memorandum of Government No. 885, dated 27th September 1894. Further the names of unions wherein house-tax was not introduced, viz., Nandalúru, Chitvelu, Pata Cuddapah, have been omitted from statement No. XVI-B, as directed in clause 26 of paragraph I of Government Memorandum No. 885, dated 27th September 1894. In all the above three unions the levy of house-tax will be introduced during the current year 1895–96, necessary provision having been sanctioned in the current year's budget estimate.

18. *Education (School-fees).*—The receipts under this item amounted to Rs. 5,072 against an estimate of Rs. 4,380 and Rs. 4,792, the actuals of the previous year. The increase is chiefly due to the increased strength of schools under the Proddatur taluk board; under the Siddhavattam taluk board there is a small decrease.

19. (*b*) *Sale-proceeds of Books.*—The receipts under this item amounted to Rs. 252 against an estimate of Rs. 450 and Rs. 244, the actuals of the previous year. It is a fluctuating item.

20. (*c*) *Sale of Medicines.*—The amount collected under this item was Rs. 185 against an estimate of Rs. 270 and Rs. 355, the actuals of the previous year. The decrease is reported by the Madanapalle taluk board president to be due to the non-collection of the value of medicines supplied to persons getting an income of more than Rs. 20 per mensem. The Siddhavattam taluk board president reports that the decrease cannot be accounted for as it is a fluctuating item. There is, however, a small increase under Proddatur taluk board.

21. (*d*) *Interest on Government Securities.*—Rs. 727 were realized under this head against an estimate of Rs. 700 and Rs. 650, the actuals of the previous year. Under Madanapalle taluk board the whole sum of Rs. 727 has been realized against an estimate of Rs. 650. The reason for the increase cannot be explained as the amount has been adjusted as per instructions of the Accountant-General.

22. (*e*) *Choultry Rents.*—The amount realized under this head was Rs. 28 against an estimate of Rs. 20 and Rs. 30, the actuals of the previous year. The increase is due to the raising of the rate of rent from Rs. 2 to Rs. 3 on Kadiri choultry, fully explained under this item under expenditure side, paragraph 70.

23. (*f*) *Market Rents.*—The details of receipts and charges are given in statement No. VI. In the beginning of the year under report there were 52 markets. Two more at Nilakantaraopet and Konampet of Ráyachóti taluk were added, making in all 54. Of these, the market at Talupula was abolished as it did not work well. But as it had a credit balance, it is shown in statement No. VI. In last year's statement markets were shown at the villages of Aravedu, Nulivedu, Kesapuram, Duddala, Devagudipalle. In fact there were no markets in those villages. The balances shown against them are the amount of fees collected during local festivals. These ought to have been shown under other fees. But by mistake they were shown under markets in the treasury account. They are now excluded and shown separately in this statement as they have small balances. Thus, at the end of the year, the number of markets which were actually working was 48. The transactions of the slaughter-houses have been exhibited in statement No. VI, as directed in clause 12 of the Memorandum of Government No. 885, dated 27th September 1894, above alluded to.

24. At the beginning of the year the balance in favour of these institutions amounted to Rs. 7,673 against Rs. 9,311 of the previous year. The total current receipts, including miscellaneous receipts and the receipts of slaughter-houses, amounted to Rs. 6,902 against Rs. 6,544 of the previous year, of which pure market rents were Rs. 6,717 against Rs. 6,391 of the previous year. The charges in connection with these institutions during the year under report amounted to Rs. 4,435, of which Rs. 2,677 were incurred for improving the markets and Rs. 164 on account of establishment charges against Rs. 5,055 of the previous year. With reference to clause 13, paragraph I of Government Memorandum No. 885, dated 27th September 1894, I have to state that the sums of Rs. 604 and Rs. 990, allotted by the Madanapalle taluk board in the budget for 1894–95 for expenditure under "Education" and "Other purposes" in the endowment fund statement No. VII of the budget for 1894–95, have been adjusted during the year under report though there has been no expenditure under the items. But this procedure seems to have been adopted for some years in the supplemental March account, and the Accountant-General seems to have taken no objection to the procedure. This procedure causes a reduction in the balance. The year closed with a balance of Rs. 10,144 including the balance Rs. 31 under slaughter-houses. In all the markets there is an increase of receipts. The increase, as compared with the estimate and the actuals of the previous year, is due to the opening of two new markets at Nilakantaraopet and Konampet above referred to and to keen competition among the bidders at the time of sales. The decrease under the establishment charges is due to most of these institutions having been leased out in the year. Of this balance Rs. 6,785 have been transferred to the maintenance of the roads under the Madanapalle taluk for the year 1895–96—*vide* clause 2, paragraph 4 of G.O., No. 484 L., Local and Municipal, dated 13th March 1895, reviewing the Cuddapah

district board budget for 1895–96. Measures will also be taken during the current year to make further improvements to these markets and feeder roads and thus reduce the accumulated balance. All these 48 markets are fees paying institutions. Of these 43 are under the Madanapalle taluk board. The taluk boards of Cuddapah and Siddhavattam might well pay attention to the opening of more markets which, properly managed, should bring in a large income. The Cuddapah taluk board has no market, while Siddhavattam has only one at Rázampéta.

25. (*g*) *Bungalow Fees.*—Under this item Rs. 114 were collected against an estimate of Rs. 150 and Rs. 110, the actuals of the previous year. The decrease is due to the transfer of the Gurramkonda bungalow to the charge of the Public Works department as requested by them. The bungalows are practically unfurnished. But in the budget for 1895–96 a sum of Rs. 50 is provided for the necessary furniture to the Kámalápuram travellers' bungalow.

26. (*h*) *Ferry Rents.*—Statement No. V gives the statistics of the ferries in the district. There were five ferries during the year under report as in the previous year. These ferries were leased out on contract. A sum of Rs. 2,019 was collected under this item against an estimate of Rs. 1,440 and Rs. 1,372, the actuals of the previous year. The increase is due to keen competition at the sales of the farms.

27. (*i*) *Fishery Rents.*—The rights of fishing in the tanks and rivers in charge of the Revenue department in the several taluks have been leased out. The income under this head was Rs. 792 against an estimate of Rs. 180 and Rs. 438, the actuals of the previous year. The increase is mostly in Madanapalle and Cuddapah taluks which is due to competition in sales. There is no revenue from tanks in charge of the Public Works department, a point which will receive early attention as there seems to be scope for a large increase of revenue under this head.

28. (*j*) *Avenues.*—Statement No. IV-B shows the statistics of avenues on the roads under the several taluk boards and the district board. Under this head Rs. 2,867 were realized during the year under report against an estimate of Rs. 2,930 and Rs. 4,209, the actuals of the previous year. The decrease, as compared with the estimate, is small, and the same when compared with the actuals of the previous year is considerable. It is due to the unfavourable season which reduced the bids at the auction sales. Out of the total length of 1,255 miles of road in the district, 953½ miles are returned as planted with avenue trees against 658 miles and 5½ furlongs of the previous year. One thousand nine hundred and ninety trees were planted and 720 trees perished during the year against 624 and 626 trees, respectively, in the previous year. In last year's statement it was stated that there were 65,043 trees at the end of the year, but this has been altered into 65,304, as the result of an actual counting of the trees by the overseers.* By adding to this 1,990 trees planted and deducting from it 720 trees perished, there appear to be at the end of the year 66,574 trees. The amount spent for the upkeep of these avenues was Rs. 1,616 against Rs. 1,659 of the previous year or Rs. 1,251 less than the amount realized from avenues. There is still much scope for improvement in this direction, and only want of money prevents larger expenditure.

* The length of 658 miles and 5½ furlongs shown in last year's report is also a mistake for 953½ miles, which the Local Fund Engineer now alters for the above reason.

29. (*k*) *Contribution from Provincial Funds*—(*a*) *For Education.*—During the year under report Rs. 2,649 were realized under this head against an estimate of Rs. 3,145 and Rs. 3,272, the actuals of the previous year. The educational returns do not show any reason for this decrease.

30. (*b*) *For general purposes.*—A sum of Rs. 108, being the contribution paid from the Provincial funds for the services rendered by scavengers of the unions concerned to clean the sub-jail latrines at Proddatur, Jammalamadugu, Siddhavattam, Badvel, and Pullampet taluks, has been shown under this head as per G.O., No. 2353 L., Mis., dated 15th November 1894, but the same amount is included in the sum of receipts Rs. 1,140 shown under sundry receipts in the supplemental treasury account for March 1895.

Dispensaries.—A sum of Rs. 16, being the moiety of the cost of *post-mortem* screens supplied to the Local Fund dispensary at Chitvelu, has been shown under this head.

31. (*c*) *Public Works.*—Rs. 315 were contributed from Provincial funds towards the construction of schoolhouses at Chinnatippasamudram (Rs. 40), Ráyachóti Muhammadan school (Rs. 85), and the enlargement of the schoolhouse at Siddhavattam (Rs. 190).

III.—EXPENDITURE.

32. Statement I-B exhibits the total expenditure of the district and taluk boards under the several heads as compared with the budget estimate for the year under report and the actuals of the previous year. The total current expenditure under all grants was Rs. 2,31,866 against an estimate of Rs. 2,38,405 and Rupees 2,19,954, the actuals of the previous year. The expenditure is less than the estimate by Rs. 6,677, which is due to certain works under Grant I not having been completed and to certain savings effected under Grant III. On the other hand the expenditure under Grants II and IV is more than the estimates.

33. *Grant I, Public Works.*—The expenditure incurred under this grant during the year under report amounted to Rs. 1,13,702 against an estimate of Rs. 1,18,315 and Rs. 1,08,974, the actuals of the previous year. The reason for the decrease, as compared with the estimate, is that some works commenced were not completed.

34. *New Works*—(*i*) *Communications.*—Under this head an expenditure of Rs. 4,203 was incurred against an estimate of Rs. 5,400 and Rs. 1,538, the actuals of the previous year. The new works included the formation of two new railway feeders. The short expenditure is due to the non-payment of the full allotments sanctioned for the Yerragudipad railway feeder. The Engineer finished the work, but the taluk board transferred part of the grant to their general reserve and so payment had to be postponed to this year.

35. (*ii*) *Civil Buildings.*—A sum of Rs. 614 was spent under this item during the year against an estimate of Rs. 1,340 and Rs. 2,095, the actuals of the previous year. The decrease is due to the non-utilization of the allotments sanctioned for the construction of buildings for the salary-results schools.

36. (*iii*) *Miscellaneous Public Improvements.*—A sum of Rs. 4,114 was spent under this item against an estimate of Rs. 4,120 and Rs. 6,617, the actuals of the previous year. The amount of the estimate has been fully spent. The decrease, as compared with the actuals of the previous year, is due to the completion of the Proddatur market and the work of supply-channel to the Proddatur koneru during 1893–94.

37. *Repairs*—(*i*) *Communications.*—An expenditure of Rs. 78,859 was incurred under this head during the year under report against an estimate of Rs. 80,800 and Rs. 69,442, the actuals of the previous year. The savings on the estimate are trifling and Rs. 9,000 have been spent more than last year.

38. (*ii*) *Civil Buildings.*—A sum of Rs. 1,992 was spent under this head against an estimate of Rs. 2,640 and Rs. 1,576, the actuals of the previous year. The decrease, as compared with the estimate, is due to the non-completion of repairs to the dispensary and school buildings.

39. (*iii*) *Miscellaneous Public Improvements.*—Under this item Rs. 2,555 were spent against an estimate of Rs. 3,185 and Rs. 3,837, the actuals of the previous year. The decrease is due to the non-utilization of the full sanctioned allotment for the repair of Pulivendla market. The decrease, as compared with the actuals of the previous year, is due to a large number of works having been undertaken during 1893–94.

40. *Roads.*—The statistics of roads under the several taluk and district boards appear in statement No. IV-A, and the following abstract compares the figures of the year under review with those of 1893–94. Column 2 of statement IV-A has been omitted from the statement as directed in clause 11, paragraph I of overnment Memo. No. 885, dated 27th September 1894.

—	Mileage of roads under local boards at the beginning of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.	Mileage of roads under construction.	Cost of roads under construction.
1893–94.			Rs.		Rs.		Rs.
Village	16	8	1,896	2	328	..	..
Taluk	915	734	43,579	..	..	..	..
District	321	321	22,874	..	..	..	..
Total ..	1,252	1,063	68,349	2	328	..	..
1894–95.							
Village	18	12	2,690	..	..	..	..
Taluk	915	782	52,388	1	1,357	7	746
District	321	325	23,779	..	..	..	..
Total ..	1,254	1,119	78,857	1	1,357	7	746

From the above statement it will be seen that the length of roads maintained has been gradually increasing and that new roads also were gradually constructed within the funds available at the disposal of the boards. The outlay on new roads shown in the statement above represents those roads which have been completed. There are some other roads (Railway feeders) which have been in progress during the year, but not completed by the end of the year under report. The outlay on new roads, both completed and in progress, was Rs. 4,203, which is 5·06 per cent. of the total expenditure. The average cost of maintaining each mile of road was Rs. 70 against Rs. 64 of the previous year. The roads did not deteriorate during the year under report. Some difficulty was experienced in repairing some of the roads owing to the want of water and the failure of the north-east monsoon. The road from the river Penner to Siddhavattam was specially affected by this cause. The metalling of the road from Madanapalle to Chinnatippasamudram railway station is a great improvement, and portions of the road between Siddhavattam and Badvel have been improved during the year under report.

41. *Establishment.*—As in the previous years the Local Fund Engineering establishment worked under the direct control of the district board, and its cost during the year under report amounted to Rs. 20,187 or 21·58 per cent. of the expenditure on works executed by it against Rs. 22,344 or 26·2 per cent. in 1893–94. The reason for the decrease is the reduction of the supervisor and his establishment. The percentage would have further been reduced to 20·83 per cent., had it not been for the incurring of an additional expenditure of Rs. 700 for the purchase of tents for the use of the Local Fund Engineer.

42. The cost of tolls and ferry establishment is Rs. 280, which is the cost of establishment maintained on amani gates during the previous year and other contingent charges.

43. The expenditure on tools and plant is Rs. 898, which is ·96 per cent. of the outlay on works.

44. *Grant II, Education.*—There were two Lower Secondary Board schools and 105 Board Primary schools in the district on 31st March 1895 against 2 and 98 on the corresponding date of the previous year. The numbers of aided Lower Secondary and Primary schools were 3 and 338, respectively, against 3 and 308 in the previous year. In some of the Board and aided schools girls were also educated along with boys. Out of 10,368 pupils that were on the rolls of Board schools on the 31st March 1895 9,350 were boys and 1,018 girls. On the corresponding date of the previous year there were 8,990 boys and 744 girls on the rolls. The total expenditure on education, excluding the construction and repair of school buildings, during the year was Rupees 36,475 against an estimate of Rs. 35,425 and Rs. 35,361, the actuals of the previous year. The variation, though trifling, is explained in the remark column of the main statement I-B.

45. *Night Schools.*—The Cuddapah Range Sub-Assistant Inspector of Schools has furnished a statement, from which it will be observed that there were 29 night schools, both aided and unaided, with 368 pupils in Cuddapah range against 15 schools with 231 pupils in the previous year.

No figures are available for the Madanapalle range.

46. *Inspection.*—The educational operations of the local boards were, as usual, supervised by the Sub-Assistant Inspectors of Schools and inspecting schoolmasters, the former being maintained by Provincial funds and the latter by Local funds. The number of inspecting schoolmasters remained the same as in the previous year, viz., 7. Their salaries, travelling allowances, and contingencies amounted to Rs. 3,625 against an estimate of Rs. 3,600 and Rs. 3,213, the actuals of the previous year. As the whole staff was at work the amount of estimate was spent. The subjoined statement shows the work of the Inspecting Schoolmasters in the district for the year under report.

Name.	Range.	Number of villages visited.	Number of schools visited.	Number of schools examined.	Number of pupils examined.	Number of schools prepared for examination.		Number of days spent for		Number of days spent in camp.	Number of miles travelled.
						Local Fund schools.	Other schools.	Examining schools.	Other works.

	Total for 1893-94 ..	Not furnished.	716	630	25,860	Not furnished.	Not furnished.	952	777	1,359	12,671
		..	85	153	6,110	..	..	374	23	325	2,059

The total number of schools visited was 801 against 719 in the previous year. Seven hundred and eighty-three schools were examined by these officers during the year against 630 in 1893–94. The number of pupils examined was 31,970 against 25,860 of the previous year. Of these were 662 girls. The number of villages visited by these officers during the year under report was 691, and they prepared for examination in the same period 108 Local Fund schools and 584 other schools. The number of days spent on examination and the other work during the year was 2,126 against 1,729 days in 1893–94. These officers in all spent 1,684 days in camp in the year against 1,359 days in last year. The total number of miles travelled by them during the year was 14,730 against 12,671 in 1893–94. From the above particulars it will be seen that the work turned out by these officers was far more than in the previous year. Stringent scrutiny is being exercised in watching the work of these officers. The work of the Inspecting Schoolmasters has been greatly systematized; minimum inspection work has been fixed and enforced by means of fines and stoppages in pay and allowances.

47. *Training schools—Sessional schools.*—During the year under report there were three schools established —

One at Jammalamadugu. One at Madanapalle. One at Proddatur.

The school at Jammalamadugu was opened on 17th August 1894 and was closed on 15th January 1895. It had 16 pupils on the rolls.

Madanapalle school was opened on 15th January 1895 and was closed on 23rd March 1895. It had 10 pupils on the rolls.

The school at Proddatur was opened on 2nd January 1895 and was closed on 13th February 1895. It had 13 pupils on the rolls.

A sum of Rs. 626 was spent under this head against Rs. 318 of the previous year. The increase is due to the fact that in the previous year there was no establishment entertained for sessional schools, the schools having been managed by the Inspecting Schoolmasters, whereas during the year under report a teacher on Rs. 25 and a peon on Rs. 3 per mensem were employed. This amount does not include the cost of establishment of Proddatur school, as it was not drawn during the year under review. The Assistant Inspector has not furnished the results of these schools.

48. *Secondary schools.*—There were two board schools, one at Proddatur and the other at Badvel as in the previous year. Of them Proddatur school prepared 11 pupils for the lower secondary examination, of whom 6 passed. Statistics relating to these institutions are given in statement No. IX. The number of pupils on the rolls on the 31st March 1895 in Proddatur and Badvel schools was 101 and 27 against 94 and 31, respectively, in the previous year. It is gratifying to note that the Proddatur school is improving in point of strength. The strength of Badvel school is falling off. The amount spent under this head in the year was Rs. 1,793 against an estimate of Rs. 2,030 and Rs. 2,125 the actuals of the previous year. The decrease is due to the following reasons:—

(*a*) The pay due to the Headmaster, Lower Secondary school at Proddatur, for some months has not been paid.

(*b*) The amount allotted for contingencies has not been spent fully. The average net cost of educating each pupil was *nil* against Rs. 7–14–11 of the previous year, because the receipts of the year under report were Rs. 1,229 against Rs. 1,111 the amount actually spent against Rs. 1,052 and Rs. 1,417 of the previous year, respectively. As in the year under report the income was more than the expenditure, the average net cost of educating each pupil was *nil*. The schools produced fair results at the inspection of the Assistant and Sub-Assistant Inspectors of Schools during the year.

49. *Primary schools.*—Excluding the Primary departments of the Local Fund Middle schools, Proddatur and Badvel, there were 98 Board schools, all working under salary-result system in 1893–94. Nine new schools were opened, two existing schools were closed. Thus at the close of the year 1894–95 there were 105 schools—all working under salary-result system. The total strength of these schools was 3,359 boys and 473 girls against 3,259 boys and 468 girls of the previous year, and their average attendance was 3,279 against 2,912 of the previous year. The cost of these institutions was Rs. 19,737 against an estimate of Rs. 20,968 and Rs. 19,148 of the previous year. The decrease as compared with the estimate is trifling and due to a small saving effected under the several heads, fixed salaries, servants and miscellaneous.

50. *Grant-in-aid schools.*—Statement X gives the statistics of private schools aided from local funds during the year under review. Grants to private schools from local funds were confined to the Lower Primary departments of Primary and Secondary schools. Results grants to the extent of Rs. 10,180 were paid to 341 schools attended by 5,937 boys and 543 girls against an estimate of Rs. 6,870, and Rs. 9,376 the actuals of the previous year paid to 311 schools attended by 5,766 boys and 350 girls. Out of these the number of pupils actually presented for examination was 4,362, of whom 3,269 were found qualified for grant against 5,238 pupils examined and 4,007 found qualified for grant during the previous year. The average grant per pupil passed amounted to Rs. 3–1–9 against Rs. 2–6–4 of last year.

51. Results grants were distributed during the year at 75 and 50 per cent. of the maximum rates; even at this rate the allotment had to be greatly exceeded as shown above, and the funds at the disposal of the several boards were not sufficient to continue the maximum rates. The progress made in this direction is satisfactory, and though it may take long time for this district to claim an equal place with some of the more enlightened districts of the south in an educational point of view, a good future can safely be predicted for this district if the progress made in the year under report is kept up and similar work is done in future years. The rule enforced in this district for some time that every inspecting schoolmaster should visit three villages without schools every month, and endeavour to open schools and rules about visiting existing indigenous schools and bringing them under inspection, have, I think, greatly helped in bringing about the progress shown above.

52. *Grant III, Medical Services—Hospitals and dispensaries.*—The details of the working of these institutions are shown in statement XII. The classification of hospitals and dispensaries has been noted in statement No. XII, as directed in clause 16, paragraph 1 of Government official memorandum No. 885, dated 27th September 1894. During the year under report there were 13 hospitals and dispensaries as in the previous year. Of these 13 institutions, those at Madanapalle, Proddatur and Jammalamadugu, which are provided with regular accommodation for in-patients, have been treated as hospitals, and the remaining 10 in which out-door relief is ordinarily given has been classed as dispensaries. During the year under review in-patients were admitted in emergent cases into 9 out of 10 dispensaries. All these institutions, except those at Rajampet, Vempalle, Pórumámilla and Chitvélu are held in buildings belonging to the board, and the remaining four institutions are located in rented buildings. The charges connected with the hospital at Madanapalle were as usual met partly from the interest realized on the endowment attached to it, and partly from general local fund income to make up the difference, while the charges of the remaining institutions were met purely from general funds. The total number of in and out patients treated in all these institutions during the year under report was 433 and 79,097 against 472 and 74,919 in and out patients, respectively, of the previous year. The total increase of 4,113 patients is distributed over all the dispensaries except Kadiri and Pulivendla and Siddhavattam. This increase is an indication of their growing popularity. The decrease in the number of in-patients at the Madanapalle hospital is small. The total number of patients treated amounted to 6·25 per cent. of the population against 5·91 per cent. of the previous year. The number

of beds available for in-patients during the year under report was 79 against 71 of the previous year as noted in the margin. These beds are being gradually increased. The amount spent on these institutions was Rs. 22,447 against an estimate of Rs. 24,085 and Rs. 18,889 the actuals of the previous year. The increase is due to the payment of bills of the Medical Store Depôt for the previous year during the year under report, and the cost of contingencies, &c., being more than that of last year. The average net cost of treating each in-patient was Rs. 1–8–6 against Rs. 1–3–9 of the previous year, and that of each patient was As. 4–5 against As. 4–1 of the previous year.

Madanapalle	61
Píléru	1
Kadiri	3
Proddatur	6
Jammalamadugu	4
Pulivendla	4
Total ..	79

53. *Medical schools and Medical pupils.*—No medical school was established, nor was any expenditure incurred for sending a medical pupil for training to any of the existing medical schools during the year under report.

54. *Midwives and Midwifery pupils.*—These subordinates were distinguished from clerks and servants of the hospitals as directed in clause 17, paragraph 1 of Government memorandum No. 885, dated 27th September 1894, and all the particulars given in appendix XXIII of General Review are given in statement No. XII of this report. There was only one midwife in this district working in the Madanapalle hospital. There are trained nurses in all the remaining institutions except Pórumámilla. The number of labour cases attended by them both in and out of hospitals and dispensaries was 663 against 643 of the previous year. The cost incurred for these nurses and midwife is Rs. 1,152 against Rs. 614 of the previous year.

55. The average cost of each labour case attended by them was Rs. 1–11–9 against As. 15–9 of the previous year. The cost is higher than in the previous year as the cost of nurses of the dispensaries in Siddhavattam taluk was included under clerks and servants and was not included in the sum of Rs. 614 shown in column 16 of appendix No. XXIII attached to the General Presidency Review. There is a slight increase of 20 cases over the figures of last year.

56. *Medical training of women.*—A trained midwife and a lady third-class hospital assistant and twelve trained nurses were employed in the Local Fund hospitals and dispensaries. Further, two pupil midwives have been under training under the District Surgeon to fill in the vacancies among the nurses and midwife when necessity offers.

57. A copy of the District Medical and Sanitary officer's report is submitted. The District Medical and Sanitary officer in his report shows the statistics of Kalasapad Mission dispensary which is not shown in this report or statement No. XII, as it is neither a local fund institution nor one aided from local funds.

58. *Vaccination.*—Statement No. XIII shows the strength and cost of vaccination establishment entertained during the year 1894–95. The staff was stronger than last year by the addition of two second-class vaccinators. The total number of cases vaccinated by the whole staff was 39,667, of which 38,161 or 95 per cent. were successful; the corresponding figures for 1893–94 were 35,882, 34,521 or 96·2 per cent. The total charges under this item were Rs. 11,157 against an estimate of Rs. 12,120 and Rs. 12,062 the actuals of the previous year. The cost of each successful case was As. 4–7 against As. 5–7 in the previous year. The decrease in the cost is chiefly due to the deductions made in the salaries of the vaccination staff for short work and to certain vacancies caused by the leave, &c., of the vaccinators not having been filled up for want of hands. The subjoined statement compares the work with the results of the previous years.

Years.	Number of operations.	Number of successful operations.	Percentage of successful operations to the number of operations.	Cost of each successful operation.
				A. P.
1889–90	23,995	22,928	95·5	6 1
1890–91	33,414	31,326	93·7	5 7
1891–92	39,412	36,550	92·7	5 9
1892–93	39,345	37,478	95·2	5 3
1893–94	35,882	34,521	96·2	5 7
1894–95	39,667	38,161	95	4 7

59. From the above statement it will be seen that the results of the year under report were creditable to the department, inasmuch as the cases are 3,785 in excess of last year's figures and slightly higher than in any previous year. The increase is distributed among the three ranges as shown below :—

Cuddapah range	1,510
Madanapalle range	2,265
Siddhavattam range	10
Total ..	3,785

60. The work turned out by the Deputy Inspector of Vaccination, Madanapalle Range, Mohi-ud-din Husain Sahib, is very creditable, in consequence of which he has been promoted to Rs. 70 recently. The work of the Cuddapah Range Deputy Inspector, Ramasawmy Pillai, was satisfactory. But he has since retired on pension. The work turned out by the Siddhavattam Deputy Inspector, Babu Nayudu, is fair.

61. *Infantile vaccination.*—The number of births registered during the year was 34,194 against 30,478 in the previous year, and the number of children under one year of age successfully vaccinated was 8,866 or 25·92 per cent. of the number born against 7·135 or 23·4 per cent. in 1893–94. This is an improvement.

62. *Animal vaccination.*—The total cost of animal vaccination is Rs. 788 against Rs. 1,164 of the previous year. The number of calves inoculated for this purpose was 612 against 624 of the previous year. All the cases vaccinated and successful were vaccinated with animal lymph only, and there was no other form of vaccination prevalent in this district during the year under report. The cost per successful case comes to 4 pies against 7 pies of the previous year.

63. *Vaccination by Medical subordinates.*—The medical officers in charge of the local fund dispensaries have vaccinated 131 cases, of which 114 are successful against 206 and 145 of the previous year, respectively. The number of cases operated by each medical officer is given below :—

Name of dispensary.	Number of vaccinations.	Number of successful cases.
Madanapalle	9	7
Jammalamadugu	5	5
Pulivendla	3	..
Vempalle	11	5
Kadiri	60	60
Piléru	16	13
Siddhavattam	6	4
Badvel	6	6
Razampeta	3	2
Chitvelu	12	12
Total ..	131	114

No vaccination was conducted by midwives and nurses during the year under report. The system on which the vaccinators work was explained in the budget for the current year.

64. *Sanitation.*—The particulars of the outlay under this head in the several taluks and unions of this district are shown in statement XIV.

Items.	Actuals of 1893–94.	Estimate, 1894–95.	Actuals, 1894–95.
	Rs.	Rs.	Rs.
1. Improvement of water-supply	876	1,394	1,266
2. Do. of village site	1,083	1,249	1,155
3. Scavenging establishment	13,884	14,733	14,194
4. Arrangements at fairs and festivals	243	298	243
5. Other sanitary outlay	893	1,240	692
Total ..	16,979	18,914	17,550

65. *Improvement of water-supply.*—The decrease as compared with the estimate is small, but it is due to the non-execution of the well works sanctioned in Kadiri and Ráyachóti taluks. The amount under this item was spent in sinking three new wells and repairing or otherwise improving 41 existing sources of water-supply against a similar number of the previous year. Eleven watchmen were also employed against eight of the previous year to watch the existing drinking-water sources from pollution, &c.

66. *Improvement of village site.*—The amount under this item was expended for improving village sites of 12 villages and the removal of prickly-pear and rank vegetation in 24 villages against 10 and 21, respectively, of the previous year. An itinerating gang with a maistry on Rs. 8 and five coolies on Rs. 5 each per mensem was employed under Siddhavattam taluk board to clear the prickly-pear and rank vegetation in the three taluks comprising the taluk board of Siddhavattam wherever it was found necessary. The cost incurred on that account was Rs. 390. The gang worked in seven villages. These seven villages are included in the number of 24 villages above referred to.

67. *Scavenging establishment.*—Scavenging establishment was maintained in all the 18 unions and 48 other villages against 17 unions and 49 other villages of the previous year. The work of scavenging the towns and villages comprising the unions and also other villages under Cuddapah, Proddatur and Madanapalle taluk boards was carried on departmentally by fixed establishments under the direct supervision of the chairmen of the unions concerned. Under the Siddhavattam taluk board the work is done on the contract system by which the contractors are bound to employ the required number of scavengers and to execute the work properly either under their own supervision or that of maistries employed for that purpose on payment of a lump sum. Two hundred and twenty-seven men were entertained (13 maistries, 199 scavengers and 15 toties) against 219 men shown in concluding paragraph 47 of the last year's report, whose details as furnished in column 18 of statement XIV are 10 maistries, 195 scavengers and 14 toties ; whereas the details furnished in the report are 10 maistries, 195 scavengers and 5 toties, making in all 210, which is a mistake for 219—*vide* clause 43, paragraph 1 of Government memorandum No. 885, dated 27th September 1894. There were 36 carts (30 rubbish carts and 6 night-soil carts) against 33 carts (27 rubbish carts and 6 night-soil carts) of last year. The sweepings collected in towns and villages are generally deposited at some distance outside the towns and sold for manure once a year by public auction.

68. With reference to the introduction of sewage farming and cropping land used for trenching in night-soil, the Tahsildar of Jammalamadugu has been requested to try the experiment and report the result to this office ; but that officer not having submitted the report yet, the same will be submitted to Government when received. The total expenditure under this head was 96·34 per cent. of the allotment. As directed in clause 19 of paragraph 1 of Government memorandum No. 885, dated 27th September 1894, the cost incurred for the conservancy establishment employed in union and other non-union villages has been distinguished in statement No. XIV.

69. *Other sanitary outlay.*—The great decrease is in the Siddhavattam and Madanapalle taluks owing to the full amounts sanctioned not having been spent. In my monthly reviews I have been calling the attention of the taluk board Presidents on the subject of the speedy appropriation of the sanctioned allotments.

70. *Choultries.*—There were fourteen choultries during 1893–94. Of these the choultry at Galivedu was a bungalow and not a choultry, but was by mistake shown under choultries in last year's statement. It is now rightly shown under bungalows. Its place is filled up by entering the choultry at Kadiri. It was a Government building handed over to the local fund board some time ago. In it was located the local fund dispensary for some time. The dispensary having been transferred to another Government building, the former building was given to the American Mission for holding a school on a rent of Rs. 2, which was recently raised to Rs. 3 per mensem. The amount thus realized is being shown in treasury accounts as choultry rents, so this institution is shown under choultries in statement No. XI. There were thus fourteen choultries during the year under report. The amount expended for the upkeep of these choultries, exclusive of Rs. 486 incurred on public works improvements, was Rs. 399 against an estimate of Rs. 430 and Rs. 409 the actuals of the previous year. Rs. 28 were realized as rent on Kadiri choultry, above referred to.

71. *Bungalows.*—In the beginning of the year there were six bungalows in the marginally-noted places; Vepurikota bungalow was not purchased from the Railway Company; hence it disappears in this statement. It was shown in last year's statement No. XI because the pay of a servant to guard it was paid from taluk board funds before it was purchased. The Gurramkonda bungalow has been transferred to the Public Works Department in the latter part of the year under report. Galivedu bungalow, now shown as such, was shown in last year's statement under choultries. Thus at the end of the year under report there were five bungalows. The expenditure incurred on them was Rs. 201 against 272 of the previous year, excluding 708 allotted for public works. Rs. 113 against 110 of last year were realized as fees from travellers who halted in those bungalows.

Kamalapuram.	Kesapuram.
Gurramkonda.	Gollapalle.
Kalacada.	Vepurikota.

72. *Miscellaneous.*—The taluk boards of Proddatur, Madanapalle and Cuddapah spent Rs. 1,679 against Rs. 959 of last year upon lighting. The outlay was generally confined to important towns of union villages. During the year under review lights were kept in nine localities against seven in the previous year. The taluk boards will be requested to guard against an increase in the expenditure under this head in view to increasing funds required for more urgent purposes than lighting as suggested in paragraph 41 of G.O., Nos. 2541 and 2542 L, dated 6th December 1894, Local and Municipal. The subjoined statement gives the statistics required in clause 25, paragraph 1 of the memorandum of Government, dated 7th September 1893, No. 621.

Board.	Union.	Particulars.	Rs.	A.	P.	Rs.	A.	P.
Madanapalle Taluk Board.	Madanapalle	24 lamps—Establishment	41	0	0	197	0	0
		Contingencies	156	0	0			
	Vayalpad	19 lamps—Establishment	35	0	0	164	0	0
		Contingencies	129	0	0			
	Píléru	*Nil*						
	Rávachóti	14 lamps—Establishment	12	0	0	151	0	0
		Contingencies	139	0	0			
	Kadiri	18 lamps—Establishment	16	0	0	172	0	0
		Contingencies	156	0	0			
Proddatur Taluk Board.	Proddatur	40 lamps—Establishment	59	0	0	267	0	0
		Contingencies	208	0	0			
	Jammalamadugu	20 lamps—Establishment	60	0	0	284	0	0
		Contingencies	224	0	0			
	Vempalle	17 lamps—Establishment	45	0	0	146	0	0
		Contingencies	101	0	0			
Cuddapah Taluk Board.	Chennur	6 lamps—Establishment	14	0	0	148	0	0
		Contingencies	134	0	0			
	Kámalápuram	14 lamps—Establishment	9	0	0	150	0	0
		Contingencies	141	0	0			
Siddhavattam Taluk Board.	....	*Nil*						
		Total				1,679	0	0

73. *Grant IV, Miscellaneous.*—The total expenditure under this head during the year under report amounted to Rs. 21,067 against an estimate of Rs. 19,988, and Rs. 19,793, the actuals of the previous year. In last year's statement I-B and the administration report Rs. 19,441 were shown, which figure has been altered in the General Presidency Review into Rs. 19,793; the altered figure is adopted for this report. The reason for the variations itemwar is noted in the remark column of the main statement I-B. The office establishments continued to be the same as in last year except the addition of the Pata Cuddapah union establishment.

74. The non-official members of the district and taluk boards were paid As. 2–6 and As. 2, respectively, as mileage per mile of the road journey performed by them for attending a meeting, provided the journey made was more than a distance of five miles. They were in addition allowed single 2nd-class fare in case of district board and a single 3rd-class fare in the case of taluk boards of Siddhavattam and Proddatur. In Madanapalle double 3rd-class fare and in Cuddapah single 2nd-class fare is allowed. The district board has recently resolved to allow a 3rd-class fare to a servant accompanying a district board member when he travels for attending a district board meeting. In last year's report under this head it was stated that both district and taluk board members were allowed, in addition to mileage, a 2nd-class fare when they travelled by rail. This information so far as it concerns all the taluk boards is a mistake, as the taluk board members were allowed different rates under different boards. The amount spent for paying the travelling allowance of members was Rs. 2,156 against an estimate of Rs. 2,400 and Rs. 2,238, the actuals of the previous year. The decrease is due to savings effected.

IV.—ESTABLISHMENTS.

75. The total number of endowed institutions in this district is as shown below :—

Markets	48
Hospital at Madanapalle	1
Muhammadan school at Madanapalle (left out in last year's report by mistake)	1
Endowment on account of Barnett scholarships	1
Total	51

The particulars concerning these four items are given in statement VI and also in statement XVIII showing the investments made on endowed institutions.

V.—GENERAL REMARKS.

76. The resolution of the district board, dated 19th July 1895, passing the report and the District Medical and Sanitary officers' reports on the working of hospitals and dispensaries and the Vaccination department are herewith submitted. The map of the district has not been submitted as directed in clause 45, paragraph 1 of Government memorandum, dated 27th September 1894, No. 885. M.R.Ry. Rai Bahadur C. Jambulingam Mudaliar Avargal, B.A., M.L., Vice-President, District Board, continued to work with the same zeal that he has shown in previous years.

ENCLOSURES.

ADMINISTRATION report on the working of the hospitals and dispensaries in the Cuddapah district for the official year 1894–95.

I. Public health.—The health of the district during the year under reference was on the whole satisfactory. Cholera broke out in the Jammalamadugu taluk and prevailed during the months of August, September, October and November 1894. There were 266 attacks, of which 117 proved fatal. A third-class hospital assistant was sent at once to visit the affected villages and to carry out the necessary sanitary arrangements to stamp out the disease. Sporadic cases of influenza were reported from Jammalamadugu and Pulivendla taluks. Small-pox also made its appearance in the Jammalamadugu, Pulivendla, Kadiri and Madanapalle taluks. Malarial fevers

prevailed to a certain extent in the taluks during the year under report, but less than the previous year, except in the Razampeta taluk, where it prevailed to a very large extent during the months of September, October and November 1894. The most prevailing diseases during the year were malarial fevers, diseases of digestive system, conjunctivitis, ulcers, and skin diseases.

II. Vital Statistics.—The registers of births and deaths maintained in the villages by the village magistrates are examined by the inspecting officers during their visits. Although attempts are made for the maintenance of correct registration, yet the registration cannot be considered s very reliable or accurate.

III. Sanitation.—The sanitary condition of the towns and villages is on the whole fairly satisfactory. Since the publication of G.O., No. 1177 L., dated 26th June 1894, most of the sanitary suggestions made by the District Medical and Sanitary officer have been attended to.

IV. Vaccination.—Vaccination was on the whole fair. Although much help has been given by the revenue authorities for the promotion of vaccination, yet the illiterate are still led away by caste and traditional prejudices. If the help rendered by the revenue authorities is still continued, I am of opinion that such prejudices will in time fall through and the people will be able to judge for themselves the benefits derived by vaccination.

V. Hospitals and dispensaries—(a) Nature and sufficiency of accommodation, (b) State of repair of buildings, and (c) State of furniture.—1. *Madanapalle hospital.*—A large stone building, built expressly as a hospital, with accommodation for in-patients and with a detached building for female in-patients, with sheds for contagious diseases, &c. The accommodation is sufficient. The main building, male ward, &c., require sundry repairs. The sheds should be re-thatched. The furniture is ample and in good condition.

2. *Proddatur hospital.*—A large building, built expressly as a hospital. Has sufficient accommodation for male and female in-patients. There are sheds for contagious diseases and other outhouses. The hospital furniture is in good condition and sufficient.

3. *Jammalamadugu hospital.*—A new building, built expressly as a hospital. Has one ward for male patients. The accommodation is insufficient. An extra ward for female in-patients, a shed for contagious diseases is required. The hospital furniture is in good condition and sufficient.

4. *Ráyachóti dispensary.*—A large building with sufficient accommodation for male and female in-patients. The dispensary building and the apothecary's quarters require some repairs. Furniture sufficient and in good condition.

5. *Kadiri dispensary.*—This building was an old Government building and given over as a dispensary. It is well situated, but wanting in accommodation. The building is in good state of repair. Furniture is in good condition and sufficient in quantity.

6. *Piléru dispensary.*—A large building, formerly the travellers' bungalow. Accommodation is insufficient for male and female patients. Suggestions have been submitted in inspection reports to provide for extra accommodation. The buildings are in good state of repair. The furniture is sufficient and in good condition.

7. *Pulivendla dispensary.*—A new building, built expressly for a dispensary. The accommodation is sufficient. Furniture is sufficient and in good order.

8. *Vempalle dispensary.*—Accommodation is sufficient. Furniture is sufficient and in good condition.

9. *Siddhavattam dispensary.*—It is a small native building with two rooms and a temporary thatched shed. It is not suited for a dispensary and there is no proper accommodation. The building is in good condition and requires no repairs. Furniture in good condition and sufficient.

10. *Badvel dispensary.*—A large building and was formerly a dwelling house; the accommodation is sufficient. The store-room and the pillars in the verandah require repairs. The main building and the cholera shed require some repairs as it is reported that the building leaks in many places. Furniture sufficient and in good condition.

11. *Pórumámilla dispensary.*—It is situated in a native dwelling house which is not suited for a dispensary and the accommodation is very inadequate. The building is not in good repair. Furniture sufficient and in good condition.

12. *Razampeta dispensary.*—It is located in a rented native building and very unsuitable. Accommodation is insufficient. The building is in good condition. No repairs necessary. Furniture sufficient and in good condition.

13. *Chitvélu dispensary.*—It is located in a rented native building and very unsuitable. The accommodation is insufficient. The building is in good condition. No repairs necessary. Furniture sufficient and in good condition.

14. *Kalasapad dispensary.*—This building is located in a building specially built for the purpose and is provided with sufficient rooms. The building is in good condition and no repairs are necessary. Furniture sufficient and in good condition.

(*e*) *Mortality and actual causes*—1. *Madanapalle hospital.*—The total number of deaths during the year among in and out patients were 19 (18 in-patients and 1 out-patient).

The deaths were accounted for as follows:—

Malarial fevers	3
Secondary syphilis	2
Debility	2
Dropsy	1
Cancer	1
Pneumonia	2
Hepatitis	1
Starvation	1
Diarrhœa	1
Ulcer	1
Uterine cancer	1
Convulsions	1
Anæmia	1
Cirrhosis of liver	1

1. *Ráyachóti dispensary.*—In the Ráyachóti dispensary there were two deaths—one from multiple injuries inflicted on the person with the intent to murder, and the other a very old pauper woman who died from the effects of starvation.

3. *Kadiri dispensary.*—There were four deaths during the year (two in-patients and two out-patients). The deaths were accounted for as follows:—

Dropsy	1
Fever	1
Disease of liver	1
Diarrhœa	1

4. *Piléru dispensary.*—There were only two deaths among both in and out patients—one from general dropsy and the other from paralysis.

5. *Proddatur hospital.*—In the Proddatur hospital there were seven deaths among in-patients shown under the following diseases:—

Local injuries	4
Heart disease	1
Malarial fever	1
Exhaustion in sloughing phagidemic ulceration	1

In the *Pulivendla* dispensary three deaths occurred under the following diseases:—

Malarial fever	1
Sloughing ulceration of the foot	2

6. Eight deaths are shown amongst the out-patients in the Proddatur hospital from the following causes:—

Dysentery	1
Heart disease	1
Hydrophobia	1
Liver disease	1
Traumatic tetanus	2
Uraæmia	1
Local injuries	1

The five deaths shown in the *Vempalle* dispensary are accounted for as under—

Remittent fever	1
Infantile convulsions	1
Leg presentation (labour)	1
Burn	1
Pneumonia	1

One death from tetanus occurred in the Badvel dispensary. In the *Razampeta* dispensary there were two deaths—one from pneumonia and the other from anæmia and anasarca. In the Kalasapad dispensary one death is shown from venomous poison.

Among out-patients in the Chitvélu dispensary there were seven deaths—

Measles	1
Dysentery	1
Abscess	1
Bed sores	2
Labour	1
Infantile convulsions	1

(Signed) A. J. O'HARA, Surgeon-Major,
District Medical and Sanitary Officer.

Administration report of the Vaccine department, Cuddapah district, for the official year 1894–95.

Establishment—

First-class Deputy Inspectors	3
First-class Vaccinators on Rs. 18 each	4
First-class Vaccinators on Rs. 15 each	7
Second-class Vaccinators on Rs. 10 each	20
Probationary Vaccinators on Rs. 5 each	4
Peons on Rs. 7 each, one for each Deputy Inspector	3

Area.—8,745 square miles.

Population.—1,272,072 according to the census of 1891.

The health of the district during the year under report was on the whole satisfactory. Cholera prevailed to a small extent in the Jammalamadugu taluk. There were altogether 266 attacks with 117 deaths during the year against 210 attacks and 96 deaths in the previous year.

2. Small-pox also made its appearance in the Jammalamadugu, Pulivendla, Madanapalle and Kadiri taluks. Steps were taken against its spread by sending vaccinators to the affected places to vaccinate all the unprotected children and people with animal lymph and to carry out general instructions in regard to the sanitary condition of the villages.

3. The district is comprised of eleven taluks divided into three ranges, viz., Cuddapah, Madanapalle and Siddhavattam. The first two consists of four taluks and the third of three taluks.

Cuddapah range—

First-class Deputy Inspector on Rs. 70	1
First-class Vaccinators on Rs. 15 each	4
Second-class Vaccinators on Rs. 10 each	7
Probationary Vaccinator on Rs. 5	1
Peon on Rs. 7	1

Madanapalle range—

First-class Deputy Inspector on Rs. 60	1
First-class Vaccinator on Rs. 18	1
First-class Vaccinators on Rs. 15 each	3
Second-class Vaccinators on Rs. 10 each	8
Probationary Vaccinators on Rs. 5 each	2
Peon on Rs. 7	1

Siddhavattam range—

First-class Deputy Inspector on Rs. 60	1
First-class Vaccinators on Rs. 18 each	3
Second-class Vaccinators on Rs. 10 each	5
Probationary Vaccinator on Rs. 5	1
Peon on Rs. 7	1

4. The total number of vaccine operations performed by the vaccinators of the respective ranges during the year as compared with the previous year is as follows:—

In the Cuddapah range 13,232 cases were performed against 11,722 in the previous year, showing an increase of 1,510 cases. Of the total number vaccinated, 12,304 proved successful.

In the Madanapalle range 16,184 cases were performed against 13,919 in the previous year, showing an increase of 2,265 cases. Of the total number vaccinated, 15,947 proved successful.

In the Siddhavattam range 10,251 cases were performed against 10,241 in the previous year, showing an increase of 10 cases. Of the total number vaccinated, 9,910 proved successful.

The work turned out by the vaccinators in the district during the year under report was on the whole fair. The Deputy Inspectors of Madanapalle and Cuddapah ranges have been working satisfactorily; but the Deputy Inspector of Siddhavattam has only shown an increase of 10 cases, which is not very satisfactory.

It is to be noted that vaccination is making a steady progress by the help rendered by the revenue authorities.

(Signed) J. S. EVERS, L.M.S.,
for *District Medical and Sanitary Officer.*

Order—No. 2050 L., dated 25th October 1895.

2. *Local Boards and Union Panchayats.*—The District Board met six times against seven in 1893–94. The attendance of the official members was still indifferent, but that of the non-officials continued to be good. The Taluk Boards, of which there are four, held a sufficient number of meetings; but the attendance of the official members, except those on the Cuddapah board, continued to be poor. That of the non-officials was on the whole good. There were eighteen Union Panchayats against seventeen in 1893–94 and they met on an average twelve times against fourteen in that year. It is to be regretted that the Panchayats of Chitvélu, Chennúr and Ráyachóti did not assemble once a month as required by section 129 of the Local Boards Act. The Presidents of the Taluk Boards concerned should see that the Panchayats under their control comply with the provisions of the Act as regards this matter. The average attendance of the panchayatdars at each meeting was only 5·50 out of a total strength of eleven against 6·48 in the previous year. The sanction of Government should be obtained for the reduction in the strength of the Ráyachóti Union Panchayat referred to in paragraph 7 of the President's report. The ward system of supervision, which was in force in all the unions except Badvel and Pata-Cuddapah, is stated to have worked well everywhere except in Madanapalle taluk.

3. *Receipts.*—(1) The collections under land-cess fell from 96 to 93 per cent. of the demand, owing to the unfavourable nature of the season.

(2) There were twenty-six toll-gates against twenty-seven in the previous year, the gate at Surabhu having been abolished, and the collections amounted to 96 per cent. of the demand against 88 in 1893–94.

(3) House-tax was levied in fifteen unions against fourteen in the previous year—at half the maximum rates in ten and at one-third rates in the others—but owing to the bad collections in Rázampéta and Madanapalle, where more than 41 and 28 per cent. of the respective demands were outstanding at the end of the year, the amount of it that was realized fell from 96 to 91 per cent. of the demand. It is creditable to the Chairmen of the Chennúr, Proddatúr, Siddhavattam, Pórumámilla and Piléru unions that the whole, or nearly the whole, of the demand in them was realized without resort to coercive measures. Three hundred and thirty-five distress warrants were issued, but property was distrained in only eleven cases and sold in only one, for the sum of two annas. These figures render it evident that the tax is paid without difficulty. At present the Taluk Boards contribute a considerable sum from general revenues to the panchayats, and they should consider the desirability of raising the rates of house-tax in the more wealthy unions so that the amount of this contribution may be reduced.

(4) There were forty-eight markets under the control of the Taluk Boards against forty-seven in 1893–94 and fees were levied in all of them. The amount thus realized was Rs. 6,717 against Rs. 6,391 in the previous year. There was still a large balance of Rs. 10,019 in their favour at the end of the year, but the greater portion of this sum has been allotted in the current year's budget for the maintenance of roads under the Madanapalle Taluk Board and it is proposed to provide further funds in the course of the year for the improvement of the markets and the roads leading to them. The practice referred to in paragraph 24 of the President's report of debiting to market funds the amounts provided in the budget for expenditure from these funds on education and sanitation, when no such charges are actually incurred during the year, is open to objection and should be discontinued. It is presumed that in the cases in which this has occurred and the mistake has been corrected a corresponding addition has been made to the balance under general funds.

(5) The income from avenues fell from Rs. 4,209 to Rs. 2,867, owing to the unfavourable season. The average revenue derived from this source appears to be small, and the President will be requested to look into the matter and ascertain if it cannot be increased.

4. *Expenditure*—(1) *Public Works.*—The total expenditure under this head amounted to 94 per cent. of the allotment against 93 per cent. in 1893–94. The failure to utilize the provision for buildings for salary-result schools and for the repairs to dispensary and school buildings has not been explained. It is observed that two new railway feeder roads were constructed during the year. The expenditure on village roads amounted to 3·2 per cent. of the total outlay on roads as in 1893–94. It is stated that the roads in the district, which were reported to have been generally in good order in the previous year, have not deteriorated. The cost of the Local Fund Engineering establishment amounted to 23 per cent. of the outlay on works incurred by that agency against 28 per cent. in 1893–94, and was thus still three per cent. in excess of the limit prescribed by Government.

(2) *Education.*—There were again seven Inspecting schoolmasters, and except that the number of villages visited by them fell from 805 to 691 their work was on the whole better than in the previous year. Three sessional schools were at work at different times during the year and the number of students trained in them rose from 25 to 39. The results obtained at the examination have not been reported. The Taluk Boards again maintained two lower secondary schools. There was an increase in the strength of the Proddatur school, but a decline in that at Badvel. From the former eleven students appeared for the Lower Secondary examination and six passed, but none were sent up from the latter as the class was abolished. The number of board primary schools rose from 98 with 3,493 pupils to 105 with 3,789 pupils, but only 69 per cent. of the candidates sent up from them for the several standard examinations passed against 77 per cent. in the previous year. The number of night schools rose from 15 to 29. There was also an increase in the schools aided from Local Funds. The number of pupils attending them, however, declined as shown in the margin. Of 4,167 pupils presented for examination 3,193, or 77 per cent., were found qualified for grants, the corresponding figures for the previous year being 5,092, 3,877 and 76 per cent. The amount of grants paid to these institutions exceeded the allotment by 48·2 per cent., but the cause of this has not been explained. The total number of boys under instruction in the board and aided schools was 9·4 per cent. of the male population of school-going age against 9·3 per cent. in 1893–94, the average for the Presidency in that year being 13·4 per cent.

	Schools.	Pupils.
1893–94	311	5,832
1894–95	315	5,407

(3) *Medical Relief.*—Three hospitals and ten dispensaries continued to be maintained by the Taluk Boards. The total number of patients treated in them rose from 75,391 to 79,530, the increase appearing in all excepting the dispensaries at Kadiri,

Pulivendla and Siddhavattam. The statistics of the mission dispensary at Kalasapad, which was not aided from Local Funds, should not have been included in the District Medical Officer's report. A midwife and twelve nurses were employed by the Taluk Boards. They attended on an average only four midwifery cases each per mensem against five in 1893–94; further efforts to render them more useful should be made. A female hospital assistant trained by the Countess of Dufferin Fund Committee on behalf of the Taluk Board continued to be employed in the Madanapalle hospital.

(4) *Vaccination.*—There was a satisfactory improvement in the work of this department, the total number of successful cases being 38,275, or 30·5 per mille of the population, against 34,666, or 27·6 per mille, in 1893–94. Infantile vaccination also made some progress, the total number of children under one year of age successfully protected being 7·1 per mille of the population against 5·7 in the previous year. There is, however, considerable scope for further improvement, as the number of births recorded during the year was 27·3 per mille of the population—a figure which undoubtedly is far from correct.

(5) *Sanitation.*—The outlay under this head amounted to 93 per cent. of the allotment against 91 in the previous year. It is observed that more than forty-four per cent. of the grant for "other sanitary outlay" was allowed to lapse, but no explanation has been offered for this nor for the failure to utilize the allotment for wells in Kadiri and Ráyachóti taluks. The omission should be supplied. Eleven watchmen were employed to guard sources of water-supply against eight in the previous year, and conservancy establishments were maintained in eighteen unions and forty-six other villages against seventeen and forty-nine respectively. The Government trusts that the boards have satisfied themselves that these establishments are adequately supervised in non-union villages. Unless this is ensured, their work is frequently worthless and the money spent upon paying them would be more usefully devoted to permanent improvements to local sources of water-supply. No information has been furnished as to the value of the work done by the itinerating gang of coolies which was employed by the Siddhavattam Taluk Board for the removal of prickly-pear and rank vegetation. The report promised in paragraph 68 of the President's letter regarding the results of the introduction of sewage-farming and cropping land used for trenching-in night-soil will be awaited. The number of towns and villages visited by the District Medical and Sanitary Officer has not been reported—an omission which should be supplied in future reports.

5. *General Remarks.*—The year closed with a balance of Rs. 26,683, but of this sum Rs. 1,624 appertained to unions and Rs. 10,068 to endowed institutions, leaving Rs. 14,991, or 7·2 per cent. of the receipts, available for general purposes. Notwithstanding the remarks in paragraphs 4 (5) and 5 of G.O., No. 1979 L., dated 6th October 1894, the lighting charges incurred in the unions of Madanapalle, Vayalpad, Ráyachóti and Kadiri have not been met by corresponding contributions from the Taluk Funds as required by section 142 of the Local Boards Act, the deficits with which the transactions of some of the unions closed the year have not been met by additional allotments from the Taluk Funds, and the deficits with which the market funds closed the year have not been made good by loans or contributions from general Local Funds as required by No. 25 of the Local Fund rules. The instructions of Government in this matter should not be again neglected.

The President's report and the accompanying statements have again been very carelessly prepared, notwithstanding the repeated remarks of Government on the subject; the diction of the former is anything but good. The length of the District Medical Officer's reports might have been reduced with advantage by the condensation of paragraph V (*a*), (*b*) and (*c*) and the omission of paragraph V (*e*), (*f*) and (*g*) of the report on medical institutions, and paragraph 3 of the report on vaccination.

The administration of local affairs showed an improvement on that of the previous year and was on the whole satisfactory. The Government notes with pleasure the testimony borne by the President to the good work done by the Vice-President, M.R.Ry. Rai Bahadur C. Jambulinga Mudaliyar.

Grand Total	2942	10063 (38)	2152	8539	939 (A)	24635	13161 (B) 11880	4574	2706	951	23074 (C)	1627

(x) Rs 28 being the amount realized on Kadiri chavidy is wrongly credited to Union funds instead of to Taluq Funds and it is included in the sum of Rs 290.

(A) This figure does not tally with the figures shown in appendix C of the Supplemental Account for March/95 as a sum of Rs 30 spent in Kadiri Union under Public Works was erroneously charged to the Taluk Boards.

(B) Lighting charges

(C) No lighting charges were incurred during the year under Sidhavatam Taluk Board as the matter was under Correspondence.

IV. B.—Statement showing the lengths of Road Avenues, &c., in the L. F. District of Cuddapah, for the official year 1894-95.

IV. B.—*Statement showing the lengths of Road Avenues, &c., in the L. F. District of Cuddapah, for the official year 1894-95.*

Name of Local Boards.	Length in miles of road avenues.	No. of trees in the avenues at the end of the previous year.	No. of trees planted during the year.	No. of trees perished during the year.	Total No. of trees at the end of the year.	Remarks.
	1	2	3	4	5	6
District Board	247	27684 *	503	79	28088	* The number of trees shown in col. 2 of last year's statement differs from that entered in this column. The difference is due to the Overseer, who had special orders to count the trees that actually remain, having given such figures. Hence the figures now given in col. 2 of the statement may be adopted, as those given in last year's statement seem to be wrong.

P. J. C.

The District Medical & Sanitary Officer's Administration report on the working of the Hospitals & Dispensaries differs with his report printed in page 11 of G.O. No 1879 L. Local & Municipal & in the following particulars. 6.10.94

Item	Particulars	As given in Last report	As given in Current report.
1893-94	Labour Cases	1893-94	1893-94
	Madanapalle — ✓	69 ✓	59 — add 10 ✓ (b)
	Proddatur — ✓	69 ✓	67 — add 2 ✓
	Siddhavattam — ✓	59 ✓	56 ✓
	Budvail ——— ✓	36 ✓	33 — add 3 ✓
	Chitvail ——— ✓	60 ✓	58 — add 1 ✓
	Out Patients attending Dispensaries		
	Madanapalle ✓ ———	9369 ✓	9309 ✓
	Siddhavattam ✓ ———	4750 ✓	5228 ✓

These figures having been adopted in the District and Presidency reviews of last Year, these Figures have been adopted during the Year under report. The District Medical & Sanitary officer does not Explain the Variation.

Similarly in the Year under report the District Medical and Sanitary officer gives 6852 as the No: of out-patients treated in the Rozachely Dispensary during the Year 1894-95. Whereas the statement ~~submitted~~ by the Madanapalle Taluq Board gives the figures 6830. In the remark Column of the Madanapalle Taluq Boards statement ~~to XII~~, the President reports that the number 6830 having been given by the Medical Officer in charge of the Dispensary at Rozachely, it is adopted in preference to the District Medical & Sanitary officer's figures which did not Explain the Variation.
