*The Surg. Genl. objected as Calingapatam was a

that they can be granted by a hosp. ass't.
Eggleston will, and it appears that the money

SIR,

In returning the papers, referred to me for remarks with your endorsement No. 1049 dated the 31st July 1895, I have the honor to state, after a full consideration of the circumstances mentioned by the President, District Board, Ganjam, that I am still of opinion that Balingapatam should be held by an apothecary.

2. There is provision for in-patients with two beds which makes the institution practically a hospital and the Medical Subordinate has to attend during bad weather on cases which may require major operations - a duty which, by their training, Hospital Assistants are not fit to undertake. It is moreover essential that the Station should be in charge of an officer of resource, who would

Sir,

reviewing the Budget of the Ganjam

objects to the posting of an hospital

grounds viz:

1. That Calingapatam is a port
2. That the medical officer there grants
bills of health.

are no strong objections. During last

Sir,

With reference to your letter No 1744 dated 12th ultimo, I have the honor to inform you that the total number of bills of health granted during the year 1894-95 is only four.

The District Surgeon may be asked to state whether a 1st class Hospital Assistant can give bills of health.

The attendance of patients is small and whenever I go there, the patients seem very few and rarely come from any outside villages. There would be a great deal more work at Kara-samapeta but owing to Calingapatam being

paid. Apothecaries are now employed. Calingapatam is a small place with very little work.

I observe in the Budget that provision is only made for a 1st class Hospital Assistant whereas an Apothecary has to be paid.

I have the honor to inform you that I

The Surgeon-General says that the

and therefore the Taluk Board cannot
open any Dispensary at Karasamapeta.

The Taluk is a large one and there
are two dispensaries in it besides the
