Kistna District Board's Office,

~~Camp~~ Masulipatam

Dated the 26th day 1895.

From J. N. Atkinson Esqr.

President, District Board

Kistna.

To

The Chief Secretary to Government,

Local and Municipal Department,

MADRAS.

Sir,

As promised in ~~my~~ para 2 of my letter Dis $\frac{1799}{D.B}$ of 18 "December 1894 embodied in G. O. dated 22nd February 1895 No. 335 L. Revising the Budget of the District Board for 1895-96, I have the honor to submit a modified Budget estimate of the Industrial School Bezwada (to be transferred from Masulipatam) for the then current year.

1 2

2. In the current year's Budget, provision was made for the following establishment, as proposed by the Director of Public Instruction.

Superintendent ..	Rs. 5	per mensem.
1st " Carpentry instructor	25	"
2nd " "	17	"
Rattan master	25	"
General Instruction Teacher	10	"
Sweeper and peon	3	"
	Rs. 85.	

But the establishment now actually working is

Superintendent	Rs. 5	per mensem.
1st " Carpentry instructor	25	"
2nd " "	15	"
Rattan master	25	"
	Rs. 70	

3. Thus the services of the general education teacher and of the sweeper and peon have not been utilized for the last 5 ~~years~~ months of the current year. There will therefore be a saving of Rs. 75 including the difference between the pay sanctioned and paid to the 2nd " Carpentry instructor.

4. The Director in his letter No. 5746/16-5-95 proposed the following Scale of establishment in consequence of the transfer of the institution to Bezwada.

Superintendent of the museum and Industrial School	Rs. 40	per mensem.
Carpentry Instructor	25	"
Black-Smith "	20	"
Rattan master	15	"
General education Teacher	12	"
Clerk	10	"
Peon & Sweeper	4	"
	Rs. 126	

But the District Board in its Resolution 25/17-8-95 (copy enclosed) sanctioned

2. In the current years

sanctioned the following establishment.

Superintendent	Rs 50	per mensem.
Carpentry Instructor	25	"
Black-Smithy "	25	"
General education Teacher	15	"
Peon	6	"
Sweeper	4	"
	Rs. 115	

So, the difference between the Directors' Scale originally provided for in the Budget and that sanctioned in the District Board Resolution 25/17-8-95 is Rs. 30 per mensem or Rs. 210 for the next 7 months of the year.

5. As the services of the 2nd carpentry instructor and of the Battan Master will be dispensed with from 1st September 95 and as there is a saving of Rs. 75 as explained in para 3 of this letter, the additional

additional cost for the maintenance of the proposed establishment till the end of the Current year will amount to only Rs. 135, (i.e) Rs. 101 under masters and Rs. 34 under servants. This amount will be allotted at the next meeting.

I have the honor to be,

Sir,

your most obedient servant,

for President.

In July 1890, an industrial department was added to the Board's Normal School at Masulipatam. On the transfer of the Normal School to Government in January 1892 the District Board continued to maintain the industrial department as a separate School under the supervision of the Head Master of the Normal School, who received a remuneration of Rs 5 per mensem from local funds on this account. The present staff of the School as sanctioned in G.O. dated 14th March 1894, no 506 L. is as follows:—

1. Superintendent on Rs 5 per mensem,
1. Carpentry Instructor, on Rs 25 .....
1. Assistant Carpentry Instructor } .. Rs 17 .....

1. General Instruction teacher .. Rs 10 .....

My own idea would be that we should make no new move whatever in respect of Technical Education until we have decided what to do with the School of Arts, the institution at Head Quarters, whose present case, the net cost of the school per pupil was Rs 79 p.a. in 1893-94 (vide G.O. 1965 I. 4-10-94 para 4(2)). This seems absurd by high & yet it is proposed largely to increase the expenditure — There does

Director of Public Instruction, the District Board now proposes to transfer the School to Bezwáda and accommodate it in two Sheds to be constructed in a corner of the compound of the new museum at that place. It is also proposed to alter the Scale of establishment attached to the School as shown below, the same being slightly different from the scale recommended by the Director.

As recommended by the Director	As proposed by the District Board
1-Superintendent on Rs 40	1-Superintendent on Rs 40
1-Carpentry Instructor ... 25	1-Carpentry Instructor ... 25

3. The museum building at Bezwáda was constructed at a cost of Rs 25,854 out of the Jubilee fund raised by public subscriptions and handed over to the District Board for the establishment of a museum and technical School at Bezwáda and for the erection of suitable buildings for the same, with a portrait of Her Majesty, the Queen Empress of India, to be

What seems to be in the file any account of the present state & future prospects of the school — we should, I think, certainly have something of the kind before we sanction money on such a doubtful enterprise —

JM

The desirability of establishing these schools in the Northern districts is very great. Now that the technical museum is completed & pay is wanted for a Superintendent of it, who can also supervise the school, the transfer to Bezwáda (which as a matter we already know Mr. Sanderson) is expedient. I dont think the School shd be abolished, though the cost per pupil is high, but Economy may be [redacted] enjoined as suggested in the last para of the Note.

Vide para 15 of G.O. dt 9-11-88 no 2188 L, and para 28 (1) of the President's letter in G.O. dt 4-10-94 no 1965 L (page 12).

placed in the Museum. The Industrial School in question is therefore apparently to be maintained partly at least from this endowment, which amounts to Rs 3,300, yielding an annual income of only Rs 116 against Rs 2,885, the estimated net cost of the School. In this connection, attention is solicited to G.O. dated 20th November 1890 no 2992 L. in which it was laid down that, as far as possible, the expenditure of local bodies should be concentrated on primary education and that until it is shown that primary education has been satisfactorily provided for, the provision of technical education would be premature. According to the report for 1893-94, the total number of boys under instruction, in the schools maintained, and aided from local funds in this District was only 16.5 per cent, of the male population of school-going age.

4. Orders are therefore solicited as to whether under these circumstances, the Continuance of the Industrial School in question and the increase in the Scale of the establishment attached to it may be Sanctioned.

of this school passed remarks on its progress, and it seems somewhat inconsistent if it now referred the Board to an order of 1890, and ordered the abolition of the institution. At the same time, the Board has very little money at present, (please see last para of G.O. 335-L. 22.2.95 which shows that the balance available for general purposes in the 1895-96 Budget was only some Rs. 3000), and it is important that it should economise. From here it is very difficult to tell, how far the establishment proposed by the Board could be cut down without damaging the school altogether.

Perhaps it will be sufficient to point out to the Board and the D.P.I. that technical education should be subordinated to primary, that economy is important, that it should conduct the school as cheaply as may be.
