MR. RAJA GOVIND RAO MOODELLIAR has been an acting Local Fund Engineer in charge of Ellichpur District during the absence on leave of the Permanent Engineer, for upwards of about 11 months. During this period I found him very useful; he possesses a thorough knowledge in Engineering, and of the system of P. W. Accounts. He does the work entrusted to him both economically and well, and has given me every satisfaction in the discharge of his duties. He now leaves as his predecessor having returned from leave.

I have known MR. RAJA GOVIND RAO MOODELLIAR for the past six months while at Khamgaom, contracting for Masoury Works in the D. P. W., and have much pleasure in stating that he has a good knowledge of work and showed himself deserving of promotion.

I am highly pleased at having heard of his appointment, and am confident he will give every satisfaction.

Copy of a letter No. 4212, dated 15th August 1878, from the Chief Engineer, Central Provinces, to RAJA GOVIND RAO, Head Draughtsman, Aurangabad:—

With reference to his application, dated 3rd instant, informs him that he has been appointed to the Chattisgarh Railway as a First Grade Sub-Overseer on probation for six months, and requests he will report himself for orders at Nagpur to the Executive Engineer, 1st Division, Chattisgarh Railway.

OOMERAVATEE,
15th August 1878.

This is to certify that I have known RAJA GOVIND RAO for several years, in fact, it may be said, that he has passed his apprenticeship as Surveyor, Estimator and Draughtsman under my orders 4 years ago. He can level fairly and I suppose he must have improved from experience he has gained since. Recently he passed an Examination before me as Draughtsman and Estimator, for which he holds a Certificate from the Madras Civil Engineering College.

RAJA GOVIND RAO is a highly respectable young man who has always shown a disposition to improve himself. I have no doubt, should he continue to persevere, that he will do very well in the Public Works Department in an Upper Subordinate Grade.

Executive Engineer,

DISTRICT ENGINEER'S OFFICE,
AURANGABAD, 23rd August 1878.

This is to certify that Mr. RAJA GOVIND RAO MOODELLIAR has been in my Office as Head Draughtsman for 10 months, preparing best Designs and Plans of the "NEWKUNDA PALACE" during which time I found him always steady, intelligent, hardworking and willing. He understands the most difficult points and hints of Drawing, Estimating, Surveying, and Levelling, &c. But now as he has been appointed an Overseer in Central Provinces, I am sorry to accept his resignation, for he has given no room for dissatisfaction, and I have seen a very few persons of such energy and skill. I would be glad to hear that he, in course of time, gets a post of Supervisor, 1st Grade.

District Engineer.

NAGPUR AND CHATTISGARH STATE RAILWAY, 1ST DIVISION,
KAMPTÉE, 19th February 1879.

This is to certify that RAJA GOVIND RAO MOODELLIAR has been in my Sub-Division as a 1st Grade Overseer for about 6 months, during which time he has worked hard and gave me every satisfaction in the performance of his duties. He is an intelligent man, and possesses a good knowledge in Surveying, Levelling, Drawing, Estimating, and Building, and is really a most useful and trustworthy subordinate. He is, besides, a capital Landscape Photographer, and has turned out some 1st class Views of some of the Buildings and Bridges on the line for the Chief Engineer's annual progress report to Government. He now leaves on transfer to 2nd Division of this Railway and I shall be glad to hear of his advancement in rank.

OFFICE OF THE EXECUTIVE ENGINEER,
NAGPUR AND CHATTISGARH RAILWAY, 2nd Division,
Dated 12th September 1881.

I have much pleasure in certifying the bearer Mr. RAJA GOVIND RAO has served in the Division as a First Grade Overseer in charge of Weingunga Sub-Division for a period of 18 months, during which time he has performed his duties both satisfactorily and well, and I found him to be very attentive, quick and accurate in his work; he has good experience in all branches of Engineering.

He held charge of a very important work, viz., constructing Girder Bridge of 20 spans of 150' each across River Weingunga (where the most of the foundation have to be sunk 20 to 30' in sand below low water level of water by coffer dams and pile Engines): in addition he supervised 10 miles of Earthwork and 30 minor Bridges, and have not given the slightest occasion to find fault with him. He is strictly correct in his accounts and money matters and, of course, to the interests of Government. I can recommend him as a most useful and trustworthy Upper Subordinate.

He resigned, in consequence of his health which has been much impaired since of late, to proceed to his native place.

Company at Bangalore, the latter position of great responsibility, and it affords me much pleasure to record my testimony to the very satisfactory manner in which he, at all times, performed his duties. He is very sharp and intelligent, and is really good Accountant.

He resigned the Company's service of his own accord, and to show how much his services are appreciated, I have to add, while at "Kolar Road," his salary was increased from Rs. 100 to 150 and thence to Rs. 175 as Agent in Bangalore.

He is an able Civil and Mechanical Engineer of considerable experience. I will be glad if this certificate can be the means of procuring for him a better situation.

He is a painstaking, methodical man of first-rate abilities in Civil and Mechanical Railway Engineering Works.
