Returns of Vital Statistics for the month

of *June* 1895.

No. 2274 L., 23RD NOVEMBER 1895.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

No. 2031-S.

Remarks by the Sanitary Commissioner, Madras, on the recorded vital statistics in the Districts and Municipalities of the Madras Presidency for the month of June 1895.

DISTRICTS.

During the month under review 82,064 births and 51,292 deaths were registered in the districts, which yielded annual ratios of 29.2 and 18.2 per mille, respectively, of the census population of 1891, and 27.4 and 17.2 per mille of the estimated population. Classified according to sex, 41,839 boys and 40,225 girls were born, while 25,997 males and 25,295 females died, during the month, or, considered relatively, 104.0 boys were born for every 100 girls and 102.8 males died for every 100 females.

2. The annexed statement compares the deaths from several causes with those of the previous month and the corresponding month of the previous year :—

	Deaths from							Ratio per mille of population per annum.						
	Cholera.	Small-pox.	Fevers.	Dysentery and Diarrhoea.	Injuries.	All other causes.	Total.	Cholera.	Small-pox.	Fevers.	Dysentery and Diarrhoea.	Injuries.	All other causes.	Total.
June 1894	897	626	21,011	1,565	934	23,542	48,575	0.3	0.2	7.5	0.6	0.3	8.4	17.3
May 1895	920	469	23,136	1,778	987	24,791	52,081	0.3	0.2	8.2	0.6	0.4	8.8	18.5
June „	1,430	334	21,891	1,987	818	24,832	51,292	0.5	0.1	7.8	0.7	0.3	8.8	18.2

3. Twelve districts returned deaths from cholera, which aggregated 1,430 against 920 in May last. The death-rate from this cause was highest in Bellary (3.3), followed by South Arcot and Tinnevely with a death-rate of 2.5 each, while in the rest the rate was below one. The mortality from small-pox was 334, against 469 in the previous month and 626 in June 1894. The only districts which enjoyed complete immunity from this cause were Madras, Nilgiris and Malabar. Fevers proved fatal in 21,891 cases against 23,136 in May last, the death-rate being largest in Nilgiris (33.1), Vizagapatam (14.8), Kurnool (13.7), Madras (13.2) and Cuddapah (13.1). One thousand nine hundred and eighty-seven persons fell victims to dysentery and diarrhoea against 1,778 in the previous month, Madras, as usual, returning the highest death-rate (3.0) from this cause.

4. The accompanying map of the Madras Presidency exhibits the places where deaths from cholera were recorded. The affected parts are shaded according to the intensity of the epidemic.

MUNICIPALITIES.

5. The registration of vital statistics in municipalities showed that during June last 6,013 children were born (3,120 boys and 2,893 girls) and 4,616 persons died (2,326 males and 2,290 females). Considered with reference to the census population of 1891, these figures correspond to annual rates of 34.3 and 26.4 per mille, respectively, and with reference to estimated population they equalled 32.6 and 25.0 per mille. The mortality among infants under one year of age was 203.9 per mille per annum of the population of that age in the month, as against 213.1 per mille of the previous month.

6. In the subjoined statement is compared the registered mortality of the month under the several causes with those of May last and June 1894:—

	Deaths from							Ratio per mille of population per annum.						
	Cholera.	Small-pox.	Fevers.	Dysentery and Diarrhoea.	Injuries.	All other causes.	Total.	Cholera.	Small-pox.	Fevers.	Dysentery and Diarrhoea.	Injuries.	All other causes.	Total.
June 1894	..	20	1,280	489	46	2,490	4,345	0.1	0.1	7.3	2.8	0.3	14.2	24.8
May 1895	..	25	1,523	481	81	2,555	4,700	0.1	0.2	8.7	2.7	0.5	14.6	26.8
June "	..	31	1,430	523	61	2,549	4,616	0.2	0.1	8.2	3.0	0.3	14.6	26.4

7. Deaths from cholera were returned only by eight municipalities, and they aggregated 31 against 25 in the previous month. Thirteen towns have reported a total of 22 deaths from small-pox. Fevers contributed 1,430 deaths against 1,523 in May last. The death-rate from this cause was highest in Wárajápet (21.7) and Cuddapah (21.4). It was severe in seven other towns also. Dysentery and diarrhoea proved fatal in 523 cases against 481 in the previous month. The death-rate from these causes was large in nine towns, ranging from 5.1 in Periyakulam to 15.5 in Calicut.

14th November 1895.

(Signed) W. G. KING, Surgeon-Lieut.-Col.,
Sanitary Commissioner for Madras.
