SIR,

I have the honor to report that, at present, the toll gate at Sanipaya in Royachoty Taluq, is situated in a Jungle about 1/2 a mile from the village of Sanipaya owing to the isolation of the place the contractor is afraid of living at the sanctioned site and has therefore been collecting tolls in the Village. The Local Fund Engineer having

observed this, when on Inspection
duty on the 16th August, suggested
the advisability of removing the
gate to a site close to the Village.
This change in the site will
bring the gate a little more than
1/2 a mile from its present site.

The Local Fund Engineer states
that this arrangement will not
interfere with the toll revenue
as all carts going along that road
must pass through the Village.

PRESIDENT, DISTRICT BOARD,

To

The Honorable J. H. Price,
CHIEF SECRETARY TO GOVERNMENT,
LOCAL AND MUNICIPAL DEPARTMENT,
MADRAS.

SIR,

I have the honor to explain the discrepancies noticed and supply the omissions pointed out in your Memorandum No 1419 dated the 11th October 1895.

2. Clause (5) Para i. — No market was opened at Gajapatinagram. The Taluq Board purchased a site for the proposed market at a cost of Rs 202 and when it is enclosed and provided with sheds, it will be declared a market and fees will be collected.

3. Clause 6. — The expenditure on Public Works on account of Choultries and markets was incurred under the supervision of the Taluq officers and the Local Fund Engineering Department.

Department. It has not been the practice hitherto to debit the cost of supervision and tools and plant to the endowments concerned. If it is so ordered, it will be done hereafter.

4. Clause 7. — As this information was not furnished by some of the Presidents of Taluq Boards, the foot note to Statement No IX, could not be filled in. The Assistant Inspecta of Schools has been requested to furnish details. The omission will be supplied as soon as they are received.

5. Clause 9. — The actual number of Schools aided from Local Funds was 383 as shown in column 5 under Lower Primary Schools. This was not mentioned in the report by an oversight.

6. Clause 10. — The two buildings referred to were not completed before the close of the year and so were omitted from the list of buildings in charge of the Local Boards.

7. Clause 14. — Rs 32,9,205 is the correct figure. Please correct the figure in para 6 of the report accordingly.

8. Clause 16. — The Gajapatinagram school was opened in the latter part of 1893-94 and continued to work only for about a month in the year 1894-95. A small sum of Rs 5/- was spent on account of the school, so, its name was entered in the statement to account for the expenditure on schools.

9. Clause 17. — The total number of pupils (8835) put down in statement No X is correct. It was given as 8475 in para 48 of the report by mistake. Please correct it.

10. Clause 18. — The average number of successful vaccine operations performed by each vaccinata as given in para 55 of the report is correct. Of the total number of 34 vaccinators employed by the District Board, the Superintending Vaccinata in charge of the Visagapatam Calf Vaccine depôt does not perform vaccine operations. His duty is simply to supply lymph to the Taluq Vaccinators of Visagapatam and Srungavarapukota and to Medical subordinates and Jails

jails &c. The average number was therefore put down as 1977 by dividing the total number of operations by 33, the number of vaccinators who performed them.

11. Clause 20 – The number of labour cases attended by the midwife at Bobbili was 234 and not 238 as given in the District Medical Officer's report.

12. Clause 21 (i) Result grants were paid to private schools at the maximum rates.

ii The number of successful vaccine operations on children under one year performed by Local Fund Vaccinators and Medical subordinates was 12010.

iii The Assistant Inspector of Schools has been requested to submit a brief report on the working of the Secondary Schools on the Salary Result System.

I have the honor to be,

Sir,
