* Comm 9.

G.O. 3405
31.8.94

In Board's Proceedings No. 388 L.R. dated 11. 9. 94 (received 2nd Octr) I was directed to report how prickly pear can best be cleared from such village site lands in the town of Bellary as are so overgrown as to be unwholesome, or so to necessitate action by the Municipality under section 186 of the District Municipality Act. Also in Reference dated 30th Novr on Government order 2349 L.R. dated 26. 11. 1894 I have been directed to expedite the report. I now beg to inform the Board how the matter lies.

2. On the 8th Octr I requested the chairman of the Municipal Council to furnish me with a map

see my letter showing the growth of prickly pear on Government lands in Municipality (but extra-cantonment limits, which he would wish removed, and in regard to which if it were private land he would issue a notice

G.O. 4066
23.10.94

under the Act. Replying on this objection he informed me it was not possible to prepare maps then, but forwarded what he called clear statements drawn up by the Sanitary Inspectors of the localities aforesaid.

3. I found these two statements, which I forward to the Board, entirely insufficient for several reasons. Both are so vague that the localities can't be traced (eg. "Land to the west of Boyergoodum". "At back of Toothoonwar Paricherry"); one gives no measurements; and it appears that lands which are not "Government village site" eg. nullahs have been included in these lists above. I could not advise Government to the removal of prickly pear of a vast extent. Our list above showing 39,300 square yards in three divisions.

4. I therefore expressed regret (3^d November) that the lists conveyed little or no information in the absence of a good plan. "If Government is to take any action in the matter, it must be furnished with the fullest and clearest information. If this is done in regard to particular plots of Government land, I shall consider the propriety of the requisition and address Government."

On the 2^d December the Chairman promised to have a plan prepared as soon as an overseer should be appointed, "there being no overseer at present in the Municipal Service."

5. I hope the position I have taken will meet with the approval of the Board. Government having put itself under the Act should I submit be treated no less reasonably than a private owner of land; and when it is required to remove prickly pear on sanitary grounds the exact location of the pear should be designated that it may be seen whether responsibility has been rightly thrown upon Government. As soon as the Municipality has taken this necessary step, I shall be prepared to have each locality inspected and submit my proposals to have the nuisance abated.

Resolution

Resolution.

Submitted to Government with reference
to G.O. dated 26th November 1894 No. 2349. R.
2. The Board agrees with the Collector and
awaits the report promised.

Current No. 3949 of 1895, dated 1st February 1895 from the Revenue Department

Order. 19.2.95 No. 264 main

Communicated to the municipal council, Bellary, with the request that the necessary action may be taken with reference to para. 4 of the Collector's letter as soon as possible. Lands in the occupation of the Military authorities should be separately shown in the plan the lists.

M. 13.2.95

Notes.

The Rev. Dept. Bd. perhaps have done better to await the Collector's report, to have seen how much land required to be cleared, what the cost of clearing Bd. be, then sent the answer to para. 2. When the Collector's report comes they will have forgotten what has happened, & will not have more trouble in passing final orders as to the expenditure which they are inclined to permit. L.M. cannot pass order on this latter point. M.B. 2. 95
