Office of the Assistant Inspector of Schools,

No. 3243 FIRST DIVISION

Vizagapatam 21st October 1894.

From ~~Mr. DAVID JOSEPH, B. A.~~ Rao. Rao. Sy. G. V. Subbarayudu Sastri Garu. B.A.

ASSISTANT INSPECTOR OF SCHOOLS,

FIRST DIVISION.

TO

THE Chairman,
Municipal council,
Vizianagaram.

Sir, through the Inspector of Schools,
Northern Circle

I have the honour to forward herewith the Budget Estimates of Receipts and Charges for 1895-96 in the prescribed Statements.

Receipts. — The allotment of Rs 150 against the head "other purposes" under Grants and contributions from Government, is made up of the following items.

One-third grant towards the salary of the Gymnastic Instructor —	50.
do — do — do. of the Drawing master proposed to be entertained next year —	100.
	150

3. Charges: — The current year's provision is repeated for the next year under all the heads. The only new items added are: —

(1) A sum of Rs 100 is provided for the cost of books, furniture, &c for the Mahamadan and c—

Parayas.

Pasanga Schools, as these schools are in need of the same.

(2) Provision is made for a Servant on Rs 2 per mensem to the Inspecting School Master as the services of one are indispensably necessary. He has 30 schools under his charge and has to collect together teachers often to instruct them in the departmental rules and orders. The town is a very large one.

(3) A Drawing class for the teachers of Elementary Schools may be opened as suggested by the acting Director of Public Instruction last year, and accordingly a sum of Rs 300 towards the salary of the Drawing Master and Rs 100 towards his contingencies are provided for, under the head "Miscellaneous" "other purposes".

(4) The building proposed for the Mahamadan School has not yet been commenced and it is hoped that the council will see its way to commence the work at once. Proposals for the construction of another building next year has been made and funds provided for.

I have the honour to be,
Sir,
Your most obedient Servant.

DEPARTMENT OF PUBLIC INSTRUCTION 30 OCT 1894 MADRAS

Vizagapatam,
No 2/598. 25.10.1894.

Submitted to the Director of Public Instruction, Madras, for transmission to the Chairman Municipal Council, Vizianagaram.

2. The Assistant Inspector proposes to give the municipal Inspecting School master a pion on Rs 2-0-0 per mensem. As Inspecting School masters either in municipalities or under Local Boards are not hitherto allowed a pion, I cannot recommend the proposal. All the other recommendations of the Assistant Inspector have my support.

No. 10503

From

D. DUNCAN, ESQ., M.A., D.Sc.,
~~ACTING~~ DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

To

The Chairman, Municipal Council,
Vizianagram.

SIR,

I have the honour to forward the proposals of the Assistant Inspector, First Division, for the Budget Estimates of the Vizianagram Municipality for 1895-96 and to recommend them for adoption with the following modifications.

2. Credit has been taken for a grant of Rs 150 towards the salaries of the Gymnastic Instructor and the Drawing master. The figure should be raised to Rs 235 at which the Municipality will be entitled subject to the provisions of the Grant-in-aid code, namely, a third from

grant of Rs 60 on behalf of the gymnastic instructor's pay and as a half grant of Rs 175 towards the salary of the Drawing master and the cost of the materials to be purchased for the Drawing class. The total receipts may thus be estimated at Rs 360 in round numbers.

3. Charges (i) The provision of Rs 30 made for a peon for the inspecting school master may be struck out for the reasons stated by the Inspector.

(ii) Rs 400 allotted for the Drawing class may be reduced to Rs 350, Rs 300 for the salary of the Drawing master and Rs 50 for the purchase of the necessary materials.

(iii) A sum of Rs 100 may also be provided for, for the working of a night school with a view to induce

(a)

induce impassed teachers to pass at least the Primary Examination. A remuneration of Rs 5 per mensem with lighting charges amounting to Rs 40 per annum will suffice for the purpose.

4. With the above modifications, the net expenditure on Education will be Rs 3710 (4070 - 360) which will be slightly in excess of 12½ per cent of the probable income from taxation, markets and rents.

I have the honour to be,
Sir,
Your most obedient servant,
D Duncan
Director of Public Instruction

(a)

To the Chairman,
Mul Council,
Vizianagram

2. Read the following papers:—

(1) Appeal against the assessment of Land tax presented by the Managers of the Vizianagaram Samasthanam, for 1893-94.

(2) Appeal against the assessment of Land-tax for 1894-95, presented by the Managers of the Vizianagaram Samasthanam.

Resolution

This Council is of opinion that the grounds referred to, ought not to be assessed as the public have been enjoying the benefit thereof for a long time and as it would cause grave public inconvenience, if

if the Honble the Maharajah, G. C. I. E., were to get them enclosed or otherwise appropriate them for his exclusive use. The Council is further of opinion (two members dissenting and one not voting), that the market sites covered by licenses, ought not to be separately assessed for the open ground therein contained and that notices be given to the Honble the Maharajah that licenses should be taken for all those grounds which are now being used as cart-stands. The amount already paid, viz. Rs 301-8-0 for 1893-94 and Rs 571-8-0 for 1894-95, will be refunded. The Council Resolves to cancel the last year's tax (Rs 301/8) which is repeated this year and which is not covered by either of the appeal petitions under disposal.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. VENKATRAYASASTRI Garu, B.A., Chairman-Delegate, Municipal Council, Vizianagram, to the Chief Secretary to Government, dated Vizianagram, 28th December 1894, No. 196.

I have the honour to submit herewith the revised and budget estimates of the Vizianagram municipality for the years 1894–95 and 1895–96, respectively, in the forms prescribed by the Government in their Order, dated the 10th December 1891, No. 2193 M., together with the usual explanatory memoranda, duly approved of by the council at its meeting on the 11th instant.

REVISED ESTIMATE, 1894–95.

2. *Receipts.*—The opening balance of the year, according to the actual figure given by the auditor on the accounts of 1893–94, is Rs. 2,660 in round numbers. The receipts estimated, as revised for 1894–95, amount to Rs. 34,290. In all cases, the variations between the sums originally sanctioned in the year's budget and those in the revised estimate now framed are explained in detail in column 7 of statement VI.

3. The following are the important sources of revenue as compared with the provisions made in the budget grant under each head:—

	Revised estimate.	Budget estimate.
	Rs.	Rs.
1. Tax on arts	3,200	3,200
2. Tax on buildings	7,400	7,500
3. Tax on lands	110	300
4. Tax on vehicles and animals	2,950	3,240
5. Tax on carts	1,600	1,450
6. Tolls	12,000	10,130
7. Private scavenging fees	1,600	1,600
8. Slaughter-house fees	700	600
9. Fines under municipal and other Acts	600	400
10. Private contributions	3,000	..
11. All other sources	1,130	980
Total ..	34,290	29,400

4. The collections in the first eight months were not satisfactory. In November last, I assumed charge of the chairman's office as delegate, and I was elected chairman on the 24th idem, but my appointment has not been as yet gazetted. Previous to my taking charge, there were several changes in the office of chairman, the permanent incumbent having vacated his seat on the 1st September 1894. This is the primary cause of the unsatisfactory state of the collections. Since my taking charge of the office in November, I have been endeavouring to collect all the municipal dues with much promptitude, and I hope I would be able to collect within the close of the official year all that remains to be collected according to the revised estimate now framed, as I am now having recourse to coercive processes in almost all cases. I have already issued nearly 400 distress warrants, and I am watching the work of the collection staff very closely.

5. (1) *Tax on Arts.*—The amount recoverable under this head includes the arrears of the two previous years, amounting to Rs. 546–12–0. By the end of the official year the whole amount of arrears and most part of the current demand will be collected. The demand, as originally assessed by the chairman for the year 1894–95 was Rs. 3,980, and there are appeals * pending disposal of the council. Till they are disposed of, it would be difficult to hasten the collections under this head. I have brought this to the particular notice of the council and I hope to be able to have them disposed of soon.

* Ninety-five in number.

6. (2) *Tax on Buildings.*—The sum of Rs. 7,400 estimated to be collected within the close of the official year is made up of (1) Rs. 800 out of the arrear demand of Rs. 845, and of (2) Rs. 6,600 out of the current demand of Rs. 7,100. The remaining portion of the arrear demand and a sum of Rs. 200 of the current demand may have to be written off before the close of the year. This will be done not before every effort is made to collect the amounts. The arrears to be carried forward for the next year will be Rs. 300 only.

7. (3) *Tax on Lands.*—The sum originally assessed by the chairman was Rupees 1,551, of which a sum of Rs. 1,444–8–0 was recently assessed on all vacant sites belonging to the Hon'ble the Maharajah of Vizianagram, G.C.I.E., the remaining sum of Rs. 106–8–0 being the old assessment on cultivated lands belonging to him and other land-holders. In the year 1893–94 the chairman for the first time taxed some of the vacant sites at Rs. 301–8–0 and the same was increased this year by adding the remaining sites without waiting for the result of the appeal, which the samastanum preferred against the last year's assessment. The assessment having been calculated at the maximum rate of four annas for every eighty square yards under section 63 (2) of the Municipal Act it amounted to Rs. 1,444–8–0 in the current year. The samastanum appealed against the assessment of both the previous and the current years. Both the appeals came on for hearing on the 5th November last before the council who remarked that the sites ought not to have been assessed and resolved that a total remission of the assessments of both the years should be granted. The vacant sites that were brought under taxation by the chairman, were left untaxed for the past many years on the plain ground that the samastanum has left them unenclosed, not only for its own, but for the use of the public also, on all occasions of public festivals and processions and for meeting any exigencies in times of fire or other accidents that might occur in the neighbouring clusters of thatched houses of which there are many in this town. In this connection, I may add that the council is of opinion that a taxation on these sites might lead to their enclosure by the samastanum, which will not only deprive the public of their use, but will also curtail the beauty of the town and interfere with the pure air which the townspeople are now enjoying on account of the existence of so many vacant sites in the heart of the town; hence the council had to revert to its old assessment of cultivated lands only, which amount to Rupees 196–8–0. I herewith enclose a copy of the council's resolution on the subject.

8. (4) *Taxes on Vehicles and Animals.*—The decrease under tax on vehicles is due to the fact that the samastanum has not applied for licenses on vehicles which are kept for use only on State occasions which occur but very rarely. Under section 78 (v) of the Act, the council could not impose any tax on them. Besides this, owing to an erroneous classification of animal and vehicle taxes when the last year's budget was framed, the sum provided for under tax on vehicles was overestimated.

9. (5) *Tax on Carts.*—There is an increase in the revised estimate over that of the budget under this head. A sum of Rs. 1,572 has already been collected and the remaining sum of Rs. 28 is expected to be collected in the next four months of the year, as there are still some carts that have not been registered in Dasannapeta. For further particulars—*vide* explanation in statement VI.

10. (6) *Tolls.*—Over and above the estimated figure in the budget, a sum of Rs. 1,500 was brought in by competition. The right of collection having been sold to M.R Ry. B. Parvatisem Garu for Rs. 15,000 against Rs. 13,500 originally budgeted. The district board's share was paid up to the end of July 1894. The remission of

Rs. 1,000 that was conditionally granted to the contractor last year was subsequently collected in the current year and one-fourth of the amount of the arrear collection was paid to the district board as its share in the arrears. This arrear collection has also contributed to an increase under this head of revenue. The remaining sum of the current demand will be collected in due course and the district board's share will also be paid within the close of the year.

11. (7) *Private scavenging.*—Out of the current and arrear demands, a sum of Rs. 1,600 will be collected. The system of collecting fees by advance was tried with vigour, but did not prove successful. A sub-committee has been recently organised to enquire and report as to what steps should be taken to effect a thorough working of the system and to make it self-supporting. Its report is awaited. Meanwhile the figure now estimated to be collected may be approved.

12. (8) *Slaughter-house fees.*—In the beginning of the year, the right of collecting slaughter-house fees was put to auction; but the butchers having combined together, they did not compete, with a view to cause loss to the municipality. The council had therefore to resolve that the collection of slaughter-house fees should be managed departmentally. The collections for the past eight months were Rs. 437 and it is hoped that Rs. 263 more will be collected within the next four months.

13. (9) *Fines under municipal and other Acts.*—A large number of prosecutions were instituted both by the municipal and the police authorities and the punishments inflicted upon the offenders of sanitary laws were more exemplary this year than in the previous one, the Government having remarked last year that the fines imposed were insufficient.

14. (10) *Private contributions.*—In the month of October last, M.R.Ry. Perla Narayanasetti Garu, a rich merchant of Vizianagram, desired to open a public library in commemoration of His Excellency's visit and obtained permission to have it styled "Lord Wenlock's Library." He desired to invest an amount of Rs. 3,000 in the hands of the council for the purpose, and requested that the library may be kept in the Park Pavilion, which was built at his late revered father's munificence and named after him, and managed by the council. The council accepted thankfully the offer made by him and a sum of Rs. 1,150 has already been received from him for the purchase of necessary books and bureaus. The bureaus are ready and the books have been indented for. As soon as the books are received, the remaining sum of Rs. 1,850 will be paid by him. As the council accepted the offer in anticipation of the sanction of Government, it is earnestly requested that the Government will accord their approval and sanction.

15. (11) *All other items.*—The amount shown under this head comprises all miscellaneous sources of income which are of an uncertain nature. This calls for no special remarks except that the interest on endowments was reduced from Rs. 200 to Rs. 180 owing to the reduction in the rate of interest on all 4 per cent. loans of the year 1865 to 3½ per cent.

16. *Charges.*—The current year's charges amount to Rs. 34,400 against Rupees 31,350 provided for in the budget. The increase in the expenditure is chiefly due to the purchase of books for "Wenlock's Public Library" for which the council received a contribution of Rs. 3,000—*vide* paragraph 14 (10) *supra*.

The most important variations are shown as under by placing the figures provided in the revised and budget estimates in juxtaposition:—

			Revised estimate, 1894–95.	Budget estimate, 1894–95.
			Rs.	Rs.
(1)	Grant	I, Communications (New works and Repairs) ..	6,950	6,750
(2)	„	Buildings (Do. do.) ..	1,200	1,700
(3)	„	Drainage (Do. do.) ..	700	1,050
(4)	„	II, Other items	3,000	..
(5)	„	III, Conservancy and private scavenging ..	1,810	1,810
(6)	„	IV, Lighting contingencies	1,600	1,400
(7)	„	Slaughter-house establishment	120	..
(8)	„	Public gardens	1,020	1,000

17. (1) *Communications—New works and Repairs.*—Under this head, a sum of Rs. 500 under new works and a sum of Rs. 6,250 under repairs were sanctioned in the budget. As originally proposed the new road in the mat-makers' street and two other minor roads were laid and completed at a cost of Rs. 330. No further amount need be allotted under this head. The remaining sum is transferred to repairs. In the year under report, both the south-west and the north-east monsoons were very heavy and the roads that were repaired during the previous year were very much damaged. It was for some time very difficult for people to walk through them. It was therefore thought very necessary to put them in order immediately. The principal street and roads have been repaired and some works are still in progress. The contractors have to be paid a sum of Rs. 370 over the estimated figure in the budget for the purpose. A sum of Rs. 170 is therefore transferred from New works to Repairs, and a sum of Rs. 200 is additionally allotted to be met from New works—Buildings. The sanction of Government is solicited for the transfers proposed.

18. (2) *Buildings—New works and Repairs.*—A sum of Rs. 1,000 was provided for in the budget for the construction of (1) a school building at Rs. 650, (2) a latrine at Rs. 250, and (3) two urinals at Rs. 100. Owing to the very heavy rains in the year, no masonry works could be executed. Certain improvements were, however, effected in the existing slaughter-house at a cost of Rs. 224 and some minor works at Rs. 162. The materials purchased last year for the construction of an iron latrine were not utilised for the purpose intended for. It is therefore proposed to build an iron latrine in the mat-makers' street at a cost of Rs. 114. This amount will be sufficient for the masonry basement and other kindred charges necessary for fixing up the iron-sheets. The work will be completed within the close of the official year. Out of the remaining sum of Rs. 500 it is proposed to transfer Rs. 200 to "Repairs—Communications," for reasons stated in paragraph 17 (1) *supra*, and the rest will not be utilised this year, while the amount of Rs. 700 provided for in the budget towards the repairs of buildings is proposed to be spent entirely on public latrines, many of which require urgent repairs.

19. (3) *Drainage—New works and Repairs.*—A sum of Rs. 500 was allotted to be spent on the construction of certain new drains in the Suntapeta ward, but the amount could not be spent this year as was originally contemplated, owing to the season having been unfavorable for taking up new works. Only Rs. 60 was spent under construction of petty drains and it will be necessary to spend Rs. 140 more towards the same purpose within the next four months of the official year. As it is not proposed to undertake any drainage work of importance, the remaining portion of the budget allotment will be left unutilised. But it will be necessary to spend, within the close of the year, the whole sum of Rs. 550 provided for in the budget for the repairs of drains, as some of them have been severely damaged by the heavy rains. Some require plastering and pointing, and the levels of some others require regulating.

20. (4) *Grant II, Education*—(7) *Miscellaneous*—(*c*) *Other items—Public library.*—The amount received from the donor of the public library will be entirely spent on the purchase of books and bureaus within the close of the year. For further remarks—*vide* paragraph 14 (10) Receipts.

21. (5) *Conservancy and Private scavenging.*—There are no changes either in the conservancy road-clearing establishment or in the private scavenging establishment. The private scavenging system is still working at a loss to the municipality. It appears that it cannot be made self-supporting so soon, till the people are made to learn to co-operate with the council in keeping their private privies and compounds clean.

22. (6) *Grant IV, Lighting.*—Twenty cast-iron lamp-posts were purchased this year from Massey and Co. for improving the lighting of the town; hence there is an increase of Rs. 200 over the budget provision.

23. (7) *Slaughter-house establishment.*—As explained in paragraph 12 (8) of this report, the council had to manage the collection of the slaughter-house fees departmentally. A gumastah on Rs. 7-8-0 and a peon on Rs. 2-8-0 a month were sanctioned by the council as a temporary measure from 1st of April 1894. It does not

appear that the sanction of Government is obtained for the entertainment of this temporary establishment. It is therefore requested that the same may be sanctioned for the year. The usual proposition statement is herewith appended. No such necessity, it is hoped, will occur next year. Even if it does, the matter will be brought to the notice of Government and their sanction obtained beforehand.

24. (8) *Public gardens.*—With reference to G.O., dated 15th October 1894, Mis. No. 1466 M., directing the council to endeavour to manage the park at a cost of Rs. 25 per mensem, a sub-committee was appointed on the 24th November last to enquire and report as to how best the directions of Government can be carried out. The report of the sub-committee will be laid before the council and the result will be reported to Government in due course.

25. The other items, both on the receipt and the expenditure sides, closely follow the figures of the sanctioned budget. The few minor variations that occur are explained in detail in column 7 of statement VI, and it is therefore considered unnecessary to repeat them here.

Budget Estimate for 1895–96.

26. I respectfully beg to bring to the notice of Government that the financial resources of our municipality have of late been in a very embarrassed condition, owing to the gradual fall in the revenue of tolls, which is the most important item of the council's income. In the year 1892–93, the rate of levying tolls was raised from one-half to three-fourth schedule rates. The municipal council had its highest income under this item during that year. In the subsequent year the advent of the East Coast Railway and the consequent joining of the line from Vizianagram to Rajahmundry lowered the toll revenue considerably. In the year 1894–95, the bidders at the auction sale showed much reluctance and the usual keen competition could not be observed. The highest bid, however, came up to Rs. 15,000. In the current year the Vizianagram-Chicacole line was also opened and the Pool-bhag gate, which is the best paying of our toll-gates, has consequently suffered very much as was anticipated.

27. Under the above circumstances it will be hopeless to calculate much upon this source of revenue for the future. The council cannot see their way of averting the threatened loss, and cannot but strongly recommend that the tolls be sanctioned to be collected at the maximum rates of schedule. My predecessor has placed before the Government, in two successive budget reports, the strong necessity of raising the tolls to the maximum rates—*vide* paragraphs 28 and 28 of the budget reports for 1893–94 and 1894–95, embodied in G.Os., No. 384 M., Local and Municipal, dated the 20th March 1893; and No. 317 M., Local and Municipal, dated 14th March 1894. I need not therefore dilate more upon the subject.

28. The provision made in the estimated receipts for 1895–96 is calculated at the maximum rates of schedule for collecting the tolls, the Government having directed in their Proceedings Mis. No. 1115 M., dated 21st August 1894, that the proposal to increase the rates of tolls may be embodied in the budget for 1895–96. The council earnestly request the sanction of the Government to the proposal for the next year.

29. Even at the increased rate the council cannot expect more than Rs. 12,000, regard being had to the eight months' receipts roughly calculated for the current year under the head of tolls. The council will be able to make only Rs. 9,000 as its net income.

30. Including the opening balance, as per revised estimate of 1894–95, the total estimated receipts for 1895–96 will be Rs. 31,200 against Rs. 36,950 in the revised estimate and Rs. 32,200 in the budget estimate of the current year. Of the sum of Rs. 31,200, it is proposed to spend Rs. 28,500 under the five grants of expenditure as detailed below:—

		Amount.
		Rs
Grant	I	7,900
"	II	3,500
"	III	10,440
"	IV	4,030
"	V	2,630
	Total ..	28,500
	Closing balance ..	2,700
		31,200

Receipts.

31. Statement I shows the estimated receipts for 1895–96. Only the following items need explanation.

32. *Tax on Buildings.*—A sum of Rs. 7,700 is estimated to be collected under this head. The house and land tax registers were revised in 1888–89 thoroughly and the exact measurements of each building in the municipality were taken and the taxes assessed. Since then, although revision was made in the rates from time to time, no measurements of houses or lands were taken. It is presumed that many houses which were then exempted from taxation were either rebuilt or improved and that some new houses were constructed and the old ones demolished. The council therefore considers it necessary to re-measure the houses and to assess them afresh. When the measurements were taken in 1888–89, the vacant sites, back-yards and court-yards attached to houses or included in their compunds, do not appear to have been taken into account in fixing the annual rent-value. The Government, in their Order, No. 1035 M., dated 10th August 1893, have remarked that the compounds should have been taken into account when the houses were measured. The existing rule directs that the house and land tax assessments should be revised every five years. It is therefore considered necessary to make a thorough revision of these registers by taking out the exact measurements of both houses and lands next year. It is expected that the revision will fetch an increase of not less than Rs. 1,000 under the former and Rs. 140 under the latter.

32 A. *Tolls.*—Sanction is solicited for raising the rates of tolls to the maximum rates of the schedule for reasons detailed in paragraphs 26, 27 and 28. There will be a large decrease in the toll-revenue even if the council is permitted to levy the maximum rates. It is requested that the Government will be pleased to communicate by wire their sanction of the council's proposal, to enable them to observe the legal formalities for enforcing the increased rates before the right of collection will have to be sold in auction.

33. With reference to the remarks of the Sanitary Commissioner and the Government orders thereon, dated 19th October 1894, No. 1502 M., directing the strict enforcement of compulsory powers of vaccination, the council resolved to prescribe a small fee of two annas for every case of vaccination performed by the vaccinator at their houses instead of at the depôts where the people are summoned to bring their children. The vaccinator will be at the depôts and the persons wishing to have their children vaccinated at their houses instead of at the depôts will be charged a fee of two annas. A sum of Rs. 30 is therefore provided under (4) (*b*) (ii) Other hospital receipts. The council requests the sanction of the Government to the rate of the fee proposed.

34. Attempts will be made to lease out the collection of slaughter-house fees for not less than Rs. 600 in the next year instead of managing it departmentally and maintaining an establishment on that account. As the contractor will have to bear the establishment charges, &c., a margin of Rs. 100 was allowed in the next year's receipts and only Rs. 600 is provided for under the head of slaughter-house fees.

35. The council proposes to levy fees on all dangerous and offensive trades under section 188 of the Act. The following is the list of the rates prescribed by the council.

Number.	Section.	Item.	Amount of license fee. Rs. A. P.
1	171	For every ten square yards of public street or fraction thereof obstructed or rendered inconvenient. *N.B.*—The license will be in force for fifteen days, after which a fresh license must be obtained on payment of a fresh fee	0 2 0
2	173	Deposit of building materials on public streets for every ten square yards occupied. *N.B.*—The fee should be renewed and fresh permissions obtained if the occupation exceeds fifteen days. No fee shall be demanded if the materials are removed within six hours after deposit	0 1 0
3	179	Erection or removal of thatched roofs, varandahs, pandals or walls of buildings skirting any public street with inflammable materials ..	0 0 6
4	180	Erection of new pucca buildings, tiled or thatched buildings—	
		Costing under Rs. 100	0 2 0
		" under " 200	0 4 0
		" under " 500	0 8 0
		" under " 1,000	1 0 0
		" under " 5,000	2 0 0
		" above " 5,000	5 0 0
5	188	1. Washing or drying wool or hair	1 0 0
		2. Dyeing-house or yard	1 0 0
		3. Oil-boiling house	1 0 0
		4. Oil mill (country)	1 0 0
		5. Oil press	20 0 0
		6. Tannery	20 0 0
		7. For every place for making bricks	1 0 0
		8. " for tiles or pottery kiln	1 0 0
		9. " for every lime kiln	1 0 0
		10. For every distillery or place for storing or drying hides, fish, horns and skins	10 0 0
		11. For every gunpowder manufactory	5 0 0
		12. " manufactory of fireworks	3 0 0
		13. " place used for selling the above two articles	1 0 0
		14. " livery or hack stables	3 0 0
		15. Horse lines. *N.B.*—Maharajah's stables will be considered as two lines	5 0 0
		16. Public halting places other than charitable institutions	1 0 0
		17. For every cart-stand or cattle market	5 0 0
		18. " cattle shed or yard in which twenty sheep or goats or ten herd of cattle or ten pigs kept or allowed to be together	3 0 0
..	188	19. For every place used for storing thatched materials, hay, grass, straw, &c.	2 0 0
		20. For every slaughter-house	10 0 0
		21. For every place used for storing timber	10 0 0
		22. " for storing firewood, fuel, or coal	3 0 0
	211	Permission to make any drain into a public sewer or drain or stop-up or divert or obstruct any public sewer	0 8 0
		For registry of burial or burning ground	5 0 0

Sanction is solicited for the above rates.

36. *Grants and Contributions.*—The Director of Public Instruction provides in his budget proposals to the council a sum of Rs. 360 for the following purposes and gives credit to the municipal revenue for the next year :—

	Rs.
Normal stipends	70
Buildings	50
Gymnastic instructor's pay	60
Drawing-master, &c.	175 or 180
Total ..	360

The council, while approving all the other proposals made by that officer, resolved to state that it can ill-afford to employ a drawing-master under the present financial condition. Hence the provision is removed from the head of receipts.

Expenditure.

37. *Grant I*—(1) (*a*).—No provision is made under this head as the council do not wish to make any new roads during the next year.

(1) (*b*) A sum of Rs. 1,000 is provided under this head against Rs. 500 of the previous year. It is proposed to construct a suitable building for the use of the Muhammadan school at a cost of Rs. 650 as proposed by the Educational authorities. The remaining sum will be utilised in building two urinals at a cost of Rs. 75 each and a school-house for the use of the result schools at Rs. 200.

(1) (*c*) Rs. 200 is provided for constructing petty drains. In expectation of the drainage scheme being sanctioned and in deference to Government orders directing that no large drainage works should be undertaken, no important works are intended to be executed under this head. In this connection, I respectfully beg to bring to the notice of the Government the urgent necessity of improving the drainage of the town, and I hope the Government will see their way to sanctioning the prayer for a liberal grant which the council submitted to His Excellency in their address on the occasion of his visit to this town.

(1) (*d*) A sum of Rs. 100 is estimated for the construction of rims and parapet walls to some of the public wells in the town.

(2) *Repairs*—(*a*) *Communications.*—As almost all the principal roads and streets are repaired in the current year, it will not be necessary to touch them again. Out of the sum provided for Rs. 1,500 will be spent in maintaining the main roads. A sum of Rs. 3,000 will be spent in thoroughly repairing the smaller streets and lanes of which there are many in the town, The council have not hitherto devoted their attention towards this important matter. The repairs will be done this year as far as funds permit. It is however noticed that the sum allotted under this is by far less than the amount in the revised estimate. The Government are aware that the financial condition of the municipality is getting worse and worse year after year, and the council cannot, under the present circumstances, afford to spend more than what is now provided for. It is noticeable that this sum is just 50 per cent. of the income estimated under tolls. If the council were to get more in the auction sale for the next year, a proportionately larger sum than what is now allotted will be spent under this item. Further the council will apply to the district board requesting them to forego their one-fourth share in the collection of tolls, as, in its opinion, it has now very strong claims for such a prayer; and when this request is granted, which, it is hoped, will be done, the council will be able to spend more money under this item.

(2) (*b*) *Buildings.*—The travellers' shed at Buchanna's tank is in a rickety condition. Rs. 200 is provided for repairing it thoroughly. The remaining amount is required for repairing the public latrines. In the last year's budget report, my predecessor has pressed upon the necessity of building a good travellers' bungalow near the Suntapeta toll-gate. Our present financial condition does not permit us to do anything towards that project; but it is hoped that the council may be able to undertake this work also, if the district board should be pleased to sanction its prayer referred to in the above paragraph.

(2) (*c*) *Drainage.*—It is proposed to repair the drains in a particular locality in Suntapeta ward, as their levels are faulty and require to be corrected early. The people in those parts are suffering from bad drainage. The cost of setting them right is roughly estimated at Rs. 300. A sum of Rs. 100 is reserved for petty drainage repairs.

(2) (*d*) *Water-supply—Reparis to Works, &c.*—This sum is provided for the repairs of public wells in the town.

(2) (*d*) (ii) *Establishment.*—There are in the current year seven tank watchmen employed, four of whom are on Rs. 2-8-0 each per mensem. An increase of As. 8 each in the salaries of two of the deserving men is proposed by the council. It is therefore requested that the Government will be pleased to accord their sanction. The usual proposition statement is herewith appended.

(2) (*d*) (iii) *Contingencies.*—This is the amount provided for to meet the hot-weather charges—*vide* G.O., No. 1293 M., dated 25th September 1893.

(3) *Establishment.*—The current year's establishment is repeated with an addition of Rs. 30 which it is intended to spend in giving an increase to the salary of the second maistry. He is a very useful young man and is giving satisfaction to the council in the discharge of his duties. He knows surveying and levelling and deserves encouragement. The council respectfully solicits the sanction of Government for the proposed increase. As most of the works are carried departmentally by the council, it is necessary to have two maistries to superintend the works. The increase is provided for in the proposition statement attached hereto.

(4) *Tools and Plants.*—The sum provided for meets the requirements of the council.

38. *Grant II, Education.*—The total sum provided for expenditure under this grant is Rs. 3,500 besides the amount of Rs. 850 proposed to be spent under Grant I for educational purposes in constructing a building for the Muhammadan school and another for one of the result schools. Thus the total expenditure on education will be Rs. 4,350 in the year. With the exception of the provision made for a drawing-master on Rs. 25 per mensem, the council not only followed all the instructions contained in the budget proposals made by the Director of Public Instruction, but in addition to them allotted a further sum to build a school-house for one of the result schools. The council are of opinion that they cannot maintain a drawing-schoolmaster on a salary of Rs. 25 and are not inclined to incur an additional expenditure which will be a permanent burden on municipal funds. The budget proposals made by the Educational Department are herewith forwarded in original. As they will speak for themselves, it is not necessary to explain them here again.

39. *Grant III.*—(1) (*a*) The council intends to dispense with the present unqualified midwife and to replace her by a qualified one whose services cannot be secured at less than Rs. 15 a month. Hence increased provision is made in the budget. This proposal also finds its place in the proposition statement attached.

(3) *Vaccination*—(*a*) *Establishment.*—The municipal vaccinator, S. Gungiah, did very satisfactory work both in the last and current years. The council is strongly of opinion that he deserves every encouragement. He knows English and writes a pretty good hand. Up to the close of the last year, there were two vaccinators for this town; but at the instance of the Sanitary Commissioner, the Government, in their budget review for 1894-95, directed that the place of the second vaccinator be abolished. Since then the present vaccinator has been doing very hard work and producing very good results. Sanction is solicited therefore to the proposal to increase his pay by Rs. 2-8-0.

(5) *Conservancy*—(*a*) (i) *Establishment.*—The previous year's provision is repeated with an addition of one scavenger on Rs. 2 per mensem who is required to be employed on the public latrine built in Hukunpeta last year. All the other items under this major head of the revised estimate are repeated for the next year with little or no difference; and hence they call for no remarks.

40. *Grant IV, Lighting.*—(*a*) The current year's establishment is repeated.

(*b*) As the number of lights has increased, provision of a larger amount than that of the current year is made under this head. Rs. 300 will be spent in purchasing some more cast iron lamp-posts next year, as was done in the current year. The rest will be utilised under contingent charges, such as purchase of oil, wicks, chimneys and such other things.

(2) (i) *Markets.*—(*a*) The current year's provision is repeated.

(6) *Public Gardens.*—(*a and b*) The current year's charges are repeated under establishment and contingencies. Rs. 360 are provided for completing the northern boundary wall in the next year. For further action, the council awaits the report of the sub-committee—*vide* paragraph 24 (8), receipt side. Other items under this grant call for no remarks.

41. *Grant V.*—The total sum provided for under this grant is Rs. 2,630, against Rs. 2,550 in the revised estimate.

(*a*) *Establishment.*—The increase is due to the provision made for an additional peon to the office on Rs. 5 per mensem. At present there is only one peon attached to the office. The whole time of the peon is occupied in bringing the tappal from the post office in the mornings and in taking the daily remittances made to the sub-treasury in the afternoon. Much inconvenience is felt for want of a second peon for whom there is sufficient work in the office. He shall have to go round with the meeting notices and in circulating the papers daily sent to the divisional councillors for remarks, besides attending upon the Chairman and the office. It is therefore

particularly requested that the Government will be pleased to sanction the employment of an additional peon on Rs. 5. A proposition statement is attached to this report. Other items under this grant call for no remarks.

42. The budget closes with a balance of Rs. 2,700 to be carried forward to the year 1896–97.

Rs 28550 against the revised estimate of Rs 34290,
the decrease being under Tolls, and Contributions

Rs 28650 against the revised estimate of Rs 34290, the decrease being under Tolls, and Contributions from other bodies. Under the circumstances now stated, the municipal Council's proposal to raise the rate of tolls from three fourths to the maximum is approved. The sanction of Government is not required for the levy of the fee referred to in paragraph 33 of the chairman's letter. The revised scale of license fees proposed in paragraph 35 is sanctioned, with the remarks that the fees proposed for oil presses, tanneries, and places for storing timber appear to be excessive, and should be reduced by one half, and that no permission should be granted permanently to stop or divert or obstruct a public sewer or drain.

4. Charges. (1). The probable charges are entered as Rs 28,500 against Rs 34400 in the revised estimate, the decrease appearing chiefly under grants I and II.

(2) Grant I. As recommended by the Sanitary Engineer in his letter dated 29th December 1894 No. 2977, a sum of Rs 600 will be provided under New Works - drainage. The circumstances under which the municipal Council proposes to construct a schoolhouse at a cost of Rs 200 for the Results Schools, which are private institutions, should be explained. The increases in the Salaries of the two tank watchmen, and the second Public Works Maistry, proposed in paragraph 37 of the Chairman's letter are approved.

(3) Grant II. The Director's suggestion that a drawing master should be

Rs 28,550 against the revised estimate of Rs 34,240, the decrease being under Tolls, and Contributions from other bodies. Under the circumstances now stated, the municipal Council's proposal to raise the rate of tolls from three fourths to the maximum is approved. The sanction of government is not required for the levy of the fee referred to in paragraph 33 of the chairman's letter. The revised scale of license fees proposed in paragraph 35 is sanctioned, with the remarks that the fees proposed for oil presses, tanneries, and places for storing timber appear to be excessive, and should be reduced by one half, and that no permission should be granted (permanently) to stop up or divert or obstruct a public sewer or drain.

4. Charges. (1). The probable charges are entered as Rs 28,500 against Rs 34,400 in the revised estimate, the decrease appearing chiefly under heads I and II.

(2) Grant I. As recommended by the Sanitary Engineer in his letter dated 29th December 1894 No. 2977, a sum of Rs 600 will be provided under new works - drainage, to enable the preliminary levels & survey for the drainage scheme to be taken. The provision of Rs 650 for constructing a building for the Mahommedan school will be struck out in view of the existing condition of the Council's finances.

(3) Grant II. The Director's suggestion that a drawing master should be

(5) It is presumed that a latrine has already been built in the Prince of Wales' market as directed in G.O. dated 4th Sept. 1894 - No. 1245-M. If it has not, the provision of Rs 150 for urinals should be diverted towards its construction. The allotment of Rs. 200 for building lasing new drains will be struck out as it is inadvisable that until the new scheme is sanctioned any funds should be expended upon works that will probably be unnecessary after its completion.

Note.

A telegram will be despatched as soon as orders are passed on the budget as desired by the Chairman.

Revised Estimate for 1894-95.

2. The current receipts and charges are now estimated at Rs 34290 and Rs 34400 respectively, against Rs 29400 and Rs 31350 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under Tolls, and Contributions from other bodies, and that in the charges mainly under Grant II. The reason assigned in paragraph 7 of the Chairman's letter for exempting the vacant sites in the town from the tax on lands does not appear to be adequate. The Collector will, therefore, be requested to inquire into the matter, and submit a report on the subject at an early date. The action taken by the Municipal Council on the Subcommittee's report referred to in paragraph 11, should be reported to Government. The Municipal Council's ~~action in having~~ acceptance of ~~accepted~~ the liberal offer of Rs 3000 made by M Rly P. Narayana Setti garu for opening a public library in the town, is approved, but the conditions, if any, on which the trust has been accepted, and the arrangements made for the upkeep of the institution should be reported. The transfers of funds referred to in paragraph 17 of the Chairman's letter, and the entertainment of the temporary establishment for the municipal slaughterhouse mentioned in paragraph 23, are sanctioned. The report regarding the park promised in paragraph 24 of the Chairman's letter will be awaited.

The Council's finances are not in a condition which would any considerable justify expenditure of Municipal funds upon this object.

Budget Estimate for 1895-96.

3. Receipts. The receipts are set down at Rs

Rs 28,650 against the revised estimate of Rs 34,490, the decrease being under Tolls, and Contributions from other bodies. Under the circumstances now stated, the municipal Council's proposal to raise the rate of tolls from three-fourths to the maximum is approved. The sanction of government is not required for the levy of the fee referred to in paragraph 33 of the chairman's letter. The revised scale of license fees proposed in paragraph 35 is sanctioned, with the remarks that the fees proposed for oil presses, tanneries, and places for storing timber appear to be excessive, and should be reduced by one half, and that no permission should be granted permanently to stop or divert or obstruct a public sewer or drain.

4. Charges. (1). The probable charges are entered as Rs 28,500 against Rs 34,400 in the revised estimate, the decrease appearing chiefly under heads I and II.

(2) Grant I. As recommended by the Sanitary Engineer in his letter dated 29th December 1894 No. 2977, a sum of Rs 600 will be provided under new works - drainage. The circumstances under which the municipal Council proposes to construct a schoolhouse at a cost of Rs 200 for the results schools, which are private institutions, should be explained.

(3) The increases in the Salaries of the two tank watchmen, and the second Public works mistry, proposed in paragraph 37 of the chairman's letter are approved.

(4) Grant II. The Director's suggestion that a drawing master should be

Cannot be approved as the
be appointed ~~will be referred to the municipal~~
present condition of the Councils finances.
~~Council for reconsideration~~.

(4) Grant III. The municipal Council's proposals to entertain a qualified midwife on Rs 15 per mensem in lieu of the present incumbent on Rs 12 and an additional Scavenger on Rs 2, are sanctioned, but in view of the fact that the municipal vaccinator was given an increase of Rs 2-8-0 to his pay only in the current year, the further increase now proposed cannot be approved.

(5). Grant IV. The provision of Rs 380 for additional lamp posts will be struck out, as it is most necessary that in order to enable it to meet the cost of the proposed drainage scheme the Council shd husband its resources in every way possible. The park can be cheaply enclosed by a live fence: there is no necessity for putting up a Compound wall

(6) Grant V. The entertainment of an additional peon on Rs 5 per mensem in the municipal office is sanctioned. The contribution for the Central office establishments, will, with reference to G.O. dated 4th December 1894 No. 2527 Ex, be raised from Rs 150 to Rs 190.

5. The budget, as revised by Government closes with a balance of Rs 2090 or 7.3 per cent of the Estimated receipts.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From M.R.Ry. V. VENKATARAYASASTRI Garu, B.A., Chairman-Delegate, Municipal Council, Vizianagram, to the Chief Secretary to Government, dated Vizianagram, 28th December 1894, No. 196.

I have the honour to submit herewith the revised and budget estimates of the Vizianagram municipality for the years 1894–95 and 1895–96, respectively, in the forms prescribed by the Government in their Order, dated the 10th December 1891, No. 2193 M., together with the usual explanatory memoranda, duly approved of by the council at its meeting on the 11th instant.

REVISED ESTIMATE, 1894–95.

2. *Receipts.*—The opening balance of the year, according to the actual figure given by the auditor on the accounts of 1893–94, is Rs. 2,660 in round numbers. The receipts estimated, as revised for 1894–95, amount to Rs. 34,290. In all cases, the variations between the sums originally sanctioned in the year's budget and those in the revised estimate now framed are explained in detail in column 7 of statement VI.

3. The following are the important sources of revenue as compared with the provisions made in the budget grant under each head:—

	Revised estimate.	Budget estimate.
	RS.	RS.
1. Tax on arts	3,200	3,200
2. Tax on buildings	7,400	7,500
3. Tax on lands	110	300
4. Tax on vehicles and animals	2,950	3,240
5. Tax on carts	1,600	1,450
6. Tolls	12,000	10,130
7. Private scavenging fees	1,600	1,600
8. Slaughter-house fees	700	600
9. Fines under municipal and other Acts	600	400
10. Private contributions	3,000	..
11. All other sources	1,130	980
Total ..	34,290	29,400

4. The collections in the first eight months were not satisfactory. In November last, I assumed charge of the chairman's office as delegate, and I was elected chairman on the 24th idem, but my appointment has not been as yet gazetted. Previous to my taking charge, there were several changes in the office of chairman, the permanent incumbent having vacated his seat on the 1st September 1894. This is the primary cause of the unsatisfactory state of the collections. Since my taking charge of the office in November, I have been endeavouring to collect all the municipal dues with much promptitude, and I hope I would be able to collect within the close of the official year all that remains to be collected according to the revised estimate now framed, as I am now having recourse to coercive processes in almost all cases. I have already issued nearly 400 distress warrants, and I am watching the work of the collection staff very closely.

5. (1) *Tax on Arts.*—The amount recoverable under this head includes the arrears of the two previous years, amounting to Rs. 546–12–0. By the end of the official year the whole amount of arrears and most part of the current demand will be collected. The demand, as originally assessed by the chairman for the year 1894–95 was Rs. 3,980, and there are appeals * pending disposal of the council. Till they are disposed of, it would be difficult to hasten the collections under this head. I have brought this to the particular notice of the council and I hope to be able to have them disposed of soon.

* Ninety-five in number.

6. (2) *Tax on Buildings.*—The sum of Rs. 7,400 estimated to be collected within the close of the official year is made up of (1) Rs. 800 out of the arrear demand of Rs. 845, and of (2) Rs. 6,600 out of the current demand of Rs. 7,100. The remaining portion of the arrear demand and a sum of Rs. 200 of the current demand may have to be written off before the close of the year. This will be done not before every effort is made to collect the amounts. The arrears to be carried forward for the next year will be Rs. 300 only.

7. (3) *Tax on Lands.*—The sum originally assessed by the chairman was Rupees 1,551, of which a sum of Rs. 1,444–8–0 was recently assessed on all vacant sites belonging to the Hon'ble the Maharajah of Vizianagram, G.C.I.E., the remaining sum of Rs. 106–8–0 being the old assessment on cultivated lands belonging to him and other land-holders. In the year 1893–94 the chairman for the first time taxed some of the vacant sites at Rs. 301–8–0 and the same was increased this year by adding the remaining sites without waiting for the result of the appeal, which the samastanam preferred against the last year's assessment. The assessment having been calculated at the maximum rate of four annas for every eighty square yards under section 63 (2) of the Municipal Act it amounted to Rs. 1,444–8–0 in the current year. The samastanam appealed against the assessment of both the previous and the current years. Both the appeals came on for hearing on the 5th November last before the council who remarked that the sites ought not to have been assessed and resolved that a total remission of the assessments of both the years should be granted. The vacant sites that were brought under taxation by the chairman, were left untaxed for the past many years on the plain ground that the samastanam has left them unenclosed, not only for its own, but for the use of the public also, on all occasions of public festivals and processions and for meeting any exigencies in times of fire or other accidents that might occur in the neighbouring clusters of thatched houses of which there are many in this town. In this connection, I may add that the council is of opinion that a taxation on these sites might lead to their enclosure by the samastanam, which will not only deprive the public of their use, but will also curtail the beauty of the town and interfere with the pure air which the townspeople are now enjoying on account of the existence of so many vacant sites in the heart of the town; hence the council had to revert to its old assessment of cultivated lands only, which amount to Rupees 106–8–0. I herewith enclose a copy of the council's resolution on the subject.

8. (4) *Taxes on Vehicles and Animals.*—The decrease under the tax on vehicles is due to the fact that the samastanum has not applied for licenses on vehicles which are kept for use only on State occasions which occur but very rarely. Under section 78 (v) of the Act, the council could not impose any tax on them. Besides this, owing to an erroneous classification of animal and vehicle taxes when the last year's budget was framed, the sum provided for under tax on vehicles was over-estimated.

9. (5) *Tax on Carts.*—There is an increase in the revised estimate over that of the budget under this head. A sum of Rs. 1,572 has already been collected and the remaining sum of Rs. 28 is expected to be collected in the next four months of the year, as there are still some carts that have not been registered in Dasannapeta. For further particulars—*vide* explanation in statement VI.

10. (6) *Tolls.*—Over and above the estimated figure in the budget, a sum of Rs. 1,500 was brought in by competition, the right of collection having been sold to M.R.Ry. B. Parvatisem Garu for Rs. 15,000 against Rs. 13,500 originally budgeted. The district board's share was paid up to the end of July 1894. The remission of

Rs. 1,000 that was conditionally granted to the contractor last year was subsequently collected in the current year and one-fourth of the amount of the arrear collection was paid to the district board as its share in the arrears. This arrear collection has also contributed to an increase under this head of revenue. The remaining sum of the current demand will be collected in due course and the district board's share will also be paid within the close of the year.

11. (7) *Private scavenging.*—Out of the current and arrear demands, a sum of Rs. 1,600 will be collected. The system of collecting fees by advance was tried with vigour, but did not prove successful. A sub-committee has been recently organised to enquire and report as to what steps should be taken to effect a thorough working of the system and to make it self-supporting. Its report is awaited. Meanwhile the figure now estimated to be collected may be approved.

12. (8) *Slaughter-house fees.*—In the beginning of the year, the right of collecting slaughter-house fees was put to auction; but the butchers having combined together, they did not compete, with a view to cause loss to the municipality. The council had therefore to resolve that the collection of slaughter-house fees should be managed departmentally. The collections for the past eight months were Rs. 437 and it is hoped that Rs. 263 more will be collected within the next four months.

13. (9) *Fines under municipal and other Acts.*—A large number of prosecutions were instituted both by the municipal and the police authorities and the punishments inflicted upon the offenders of sanitary laws were more exemplary this year than in the previous one, the Government having remarked last year that the fines imposed were insufficient.

14. (10) *Private contributions.*—In the month of October last, M.R.Ry. Perla Narayanachetti Garu, a rich merchant of Vizianagram, desired to open a public library in commemoration of His Excellency's visit and obtained permission to have it styled "Lord Wenlock's Library." He desired to invest an amount of Rs. 3,000 in the hands of the council for the purpose, and requested that the library may be kept in the Park Pavilion, which was built at his late revered father's munificence and named after him, and managed by the council. The council accepted thankfully the offer made by him and a sum of Rs. 1,150 has already been received from him for the purchase of necessary books and bureaus. The bureaus are ready and the books have been indented for. As soon as the books are received, the remaining sum of Rs. 1,850 will be paid by him. As the council accepted the offer in anticipation of the sanction of Government, it is earnestly requested that the Government will accord their approval and sanction.

15. (11) *All other items.*—The amount shown under this head comprises all miscellaneous sources of income which are of an uncertain nature. This calls for no special remarks except that the interest on endowments was reduced from Rs. 200 to Rs. 180 owing to the reduction in the rate of interest on all 4 per cent. loans of the year 1865 to 3½ per cent.

16. *Charges.*—The current year's charges amount to Rs. 34,400 against Rupees 31,350 provided for in the budget. The increase in the expenditure is chiefly due to the purchase of books for "Wenlock's Public Library" for which the council received a contribution of Rs. 3,000—*vide* paragraph 14 (10) *supra*.

The most important variations are shown as under by placing the figures provided in the revised and budget estimates in juxtaposition:—

			Revised estimate, 1894–95.	Budget estimate, 1894–95.
			RS.	RS.
(1)	Grant	I, Communications (New works and Repairs) ..	6,950	6,750
(2)	„	Buildings (Do. do.) ..	1,200	1,700
(3)	„	Drainage (Do. do.) ..	700	1,050
(4)	„	II, Other items	3,000	..
(5)	„	III, Private scavenging	1,810	1,810
(6)	„	IV, Lighting contingencies	1,600	1,400
(7)	„	Slaughter-house establishment	120	..
(8)	„	Public gardens	1,020	1,000

17. (1) *Communications—New works and Repairs.*—Under this head, a sum of Rs. 500 under new works and a sum of Rs. 6,250 under repairs were sanctioned in the budget. As originally proposed the new road in the mat-makers' street and two other minor roads were laid and completed at a cost of Rs. 330. No further amount need be allotted under this head. The remaining sum is transferred to repairs. In the year under report, both the south-west and the north-east monsoons were very heavy and the roads that were repaired during the previous year were very much damaged. It was for some time very difficult for people to walk through them. It was therefore thought very necessary to put them in order immediately. The principal streets and roads have been repaired and some works are still in progress. The contractors have to be paid a sum of Rs. 370 over the estimated figure in the budget for the purpose. A sum of Rs. 170 is therefore transferred from New works to Repairs, and a sum of Rs. 200 is additionally allotted to be met from New works—Buildings. The sanction of Government is solicited for the transfers proposed.

18. (2) *Buildings—New works and Repairs.*—A sum of Rs. 1,000 was provided for in the budget for the construction of (1) a school building at Rs. 650, (2) a latrine at Rs. 250, and (3) two urinals at Rs. 100. Owing to the very heavy rains in the year, no masonry works could be executed. Certain improvements were, however, effected in the existing slaughter-house at a cost of Rs. 224 and some minor works at Rs. 162. The materials purchased last year for the construction of an iron latrine were not utilised for the purpose intended. It is therefore proposed to build an iron latrine in the mat-makers' street at a cost of Rs. 114. This amount will be sufficient for the masonry basement and other kindred charges necessary for fixing up the iron-sheets. The work will be completed within the close of the official year. Out of the remaining sum of Rs. 500 it is proposed to transfer Rs. 200 to "Repairs—Communications," for reasons stated in paragraph 17 (1) *supra*, and the rest will not be utilised this year, while the amount of Rs. 700 provided in the budget towards the repairs of buildings is proposed to be spent entirely on public latrines, many of which require urgent repairs.

19. (3) *Drainage—New works and Repairs.*—A sum of Rs. 500 was allotted to be spent on the construction of certain new drains in the Suntapeta ward, but the amount could not be spent this year as was originally contemplated, owing to the season having been unfavorable for taking up new works. Only Rs. 60 was spent under construction of petty drains and it will be necessary to spend Rs. 140 more towards the same purpose within the next four months of the official year. As it is not proposed to undertake any drainage work of importance, the remaining portion of the budget allotment will be left unutilised. But it will be necessary to spend, within the close of the year, the whole sum of Rs. 550 provided for in the budget for the repairs of drains, as some of them have been severely damaged by the heavy rains. Some require plastering and pointing, and the levels of some others require regulating.

20. (4) *Grant II, Education*—(7) *Miscellaneous*—(c) *Other items—Public library.*—The amount received from the donor of the public library will be entirely spent on the purchase of books and bureaus within the close of the year. For further remarks—*vide* paragraph 14 (10) Receipts.

21. (5) *Conservancy and Private scavenging.*—There are no changes either in the conservancy road-clearing establishment or in the private scavenging establishment. The private scavenging system is still working at a loss to the municipality. It appears that it cannot be made self-supporting so soon, till the people are made to learn to co-operate with the council in keeping their private privies and compounds clean.

22. (6) *Grant IV, Lighting.*—Twenty cast-iron lamp-posts were purchased this year from Massey and Co. for improving the lighting of the town; hence there is an increase of Rs. 200 over the budget provision.

23. (7) *Slaughter-house establishment.*—As explained in paragraph 12 (8) of this report, the council had to manage the collection of the slaughter-house fees departmentally. A gumastah on Rs. 7-8-0 and a peon on Rs. 2-8-0 a month were sanctioned by the council as a temporary measure from 1st of April 1894. It does not

appear that the sanction of Government has been obtained for the entertainment of this temporary establishment. It is therefore requested that the same may be sanctioned for the year. The usual proposition statement is herewith appended. No such necessity, it is hoped, will occur next year. Even if it does, the matter will be brought to the notice of Government and their sanction obtained beforehand.

24. (8) *Public gardens.*—With reference to G.O., dated 15th October 1894, Mis. No. 1466 M., directing the council to endeavour to manage the park at a cost of Rs. 25 per mensem, a sub-committee was appointed on the 24th November last to enquire and report as to how best the directions of Government can be carried out. The report of the sub-committee will be laid before the council and the result will be reported to Government in due course.

25. The other items, both on the receipt and the expenditure sides, closely follow the figures of the sanctioned budget. The few minor variations that occur are explained in detail in column 7 of statement VI, and it is therefore considered unnecessary to repeat them here.

BUDGET ESTIMATE FOR 1895-96.

26. I respectfully beg to bring to the notice of Government that the financial resources of our municipality have of late been in a very embarrassed condition, owing to the gradual fall in the revenue of tolls, which is the most important item of the council's income. In the year 1892-93, the rate of levying tolls was raised from one-half to three-fourth schedule rates. The municipal council had its highest income under this item during that year. In the subsequent year the advent of the East Coast Railway and the consequent joining of the line from Vizianagram to Rajahmundry lowered the toll revenue considerably. In the year 1894-95, the bidders at the auction sale showed much reluctance and the usual keen competition could not be observed. The highest bid, however, came up to Rs. 15,000. In the current year the Vizianagram-Chicacole line was also opened and the Phool-bagh gate, which is the best paying of our toll-gates, has consequently suffered very much as was anticipated.

27. Under the above circumstances it will be hopeless to calculate much upon this source of revenue for the future. The council cannot see their way of averting the threatened loss, and cannot but strongly recommend that the tolls be sanctioned to be collected at the maximum rates of schedule. My predecessor has placed before the Government, in two successive budget reports, the strong necessity of raising the tolls to the maximum rates—*vide* paragraphs 28 and 28 of the budget reports for 1893-94 and 1894-95, embodied in G.Os., No. 384 M., Local and Municipal, dated the 20th March 1893; and No. 317 M., Local and Municipal, dated 14th March 1894. I need not therefore dilate more upon the subject.

28. The provision made in the estimated receipts for 1895-96 is calculated at the maximum rates of schedule for collecting the tolls, the Government having directed in their Proceedings Mis. No. 1115 M., dated 21st August 1894, that the proposal to increase the rates of tolls may be embodied in the budget for 1895-96. The council earnestly request the sanction of the Government to the proposal for the next year.

29. Even at the increased rate the council cannot expect more than Rs. 12,000, regard being had to the eight months' receipts roughly calculated for the current year under the head of tolls. The council will be able to make only Rs. 9,000 as its net income.

30. Including the opening balance, as per revised estimate of 1894-95, the total estimated receipts for 1895-96 will be Rs. 31,200 against Rs. 36,950 in the revised estimate and Rs. 32,200 in the budget estimate of the current year. Of the sum of Rs. 31,200, it is proposed to spend Rs. 28,500 under the five grants of expenditure as detailed below:—

	Amount.
	Rs.
Grant I	7,900
„ II	3,500
„ III	10,440
„ IV	4,030
„ V	2,630
Total ..	28,500
Closing balance ..	2,700
	31,200

Receipts.

31. Statement I shows the estimated receipts for 1895–96. Only the following items need explanation.

32. *Tax on Buildings.*—A sum of Rs. 7,700 is estimated to be collected under this head. The house and land tax registers were revised in 1888–89 thoroughly and the exact measurements of each building in the municipality were taken and the taxes assessed. Since then, although revision was made in the rates from time to time, no measurements of houses or lands were taken. It is presumed that many houses which were then exempted from taxation were either rebuilt or improved and that some new houses were constructed and the old ones demolished. The council therefore considers it necessary to re-measure the houses and to assess them afresh. When the measurements were taken in 1888–89, the vacant sites, back-yards and court-yards attached to houses or included in their compunds, do not appear to have been taken into account in fixing the annual rent-value. The Government, in their Order, No. 1035 M., dated 10th August 1893, have remarked that the compounds should have been taken into account when the houses were measured. The existing rule directs that the house and land tax assessments should be revised every five years. It is therefore considered necessary to make a thorough revision of these registers by taking out the exact measurements of both houses and lands next year. It is expected that the revision will fetch an increase of not less than Rs. 1,000 under the former and Rs. 140 under the latter.

32 A. *Tolls.*—Sanction is solicited for raising the rates of tolls to the maximum rates of the schedule for reasons detailed in paragraphs 26, 27 and 28. There will be a large decrease in the toll-revenue even if the council is permitted to levy the maximum rates. It is requested that the Government will be pleased to communicate by wire their sanction of the council's proposal, to enable them to observe the legal formalities for enforcing the increased rates before the right of collection will have to be sold in auction.

33. With reference to the remarks of the Sanitary Commissioner and the Government orders thereon, dated 19th October 1894, No. 1502 M., directing the strict enforcement of compulsory powers of vaccination, the council resolved to prescribe a small fee of two annas for every case of vaccination performed by the vaccinator at their houses instead of at the depôts where the people are summoned to bring their children. The vaccinator will be at the depôts and the persons wishing to have their children vaccinated at their houses instead of at the depôts will be charged a fee of two annas. A sum of Rs. 30 is therefore provided under (4) (*e*) (ii) Other hospital receipts. The council requests the sanction of the Government to the rate of the fee proposed.

34. Attempts will be made to lease out the collection of slaughter-house fees for not less than Rs. 600 in the next year instead of managing it departmentally and maintaining an establishment on that account. As the contractor will have to bear the establishment charges, &c., a margin of Rs. 100 was allowed in the next year's receipts and only Rs. 600 is provided under the head of slaughter-house fees.

35. The council proposes to levy fees on all dangerous and offensive trades under section 188 of the Act. The following is the list of the rates prescribed by the council.

Number.	Section.	Item.	Amount of license fee. Rs. A. P.
1.	171	For every ten square yards of public street or fraction thereof obstructed or rendered inconvenient. *N.B.*—The license will be in force for fifteen days, after which a fresh license must be obtained on payment of a fresh fee	0 2 0
2	173	Deposit of building materials on public streets for every ten square yards occupied. *N.B.*—The fee should be renewed and fresh permissions obtained if the occupation exceeds fifteen days. No fee shall be demanded if the materials are removed within six hours after deposit	0 1 0
3	179	Erection or renewal of thatched roofs, verandahs, pandals or walls of buildings skirting any public street with inflammable materials ..	0 0 6
4	180	Erection of new pucca buildings, tiled or thatched buildings—	
		Costing under Rs. 100	0 2 0
		„ under „ 200	0 4 0
		„ under „ 500	0 8 0
		„ under „ 1,000	1 0 0
		„ under „ 5,000	2 0 0
		„ above „ 5,000	5 0 0
5	188	1. Washing or drying wool or hair	1 0 0
		2. Dyeing-house or yard	1 0 0
		3. Oil-boiling house	1 0 0
		4. Oil mill (country)	1 0 0
		5. Oil press	20 0 0
		6. Tannery	20 0 0
		7. For every place for making bricks	1 0 0
		8. „ for tiles or pottery kiln	1 0 0
		9. „ for every lime kiln	1 0 0
		10. For every distillery or place for storing or drying hides, fish, horns and skins	10 0 0
		11. For every gunpowder manufactory	5 0 0
		12. „ manufactory of fireworks	3 0 0
		13. „ place used for selling the above two articles	1 0 0
		14. „ livery or hack stables	3 0 0
		15. Horse lines. *N.B.*—Maharajah's stables will be considered as two lines	5 0 0
		16. Public halting places other than charitable institutions	1 0 0
		17. For every cart-stand or cattle market	5 0 0
		18. „ cattle shed or yard in which twenty sheep or goats or ten head of cattle or ten pigs are kept or allowed to be together	3 0 0
		19. For every place used for storing thatched materials, hay, grass, straw, &c.	2 0 0
		20. For every slaughter-house	10 0 0
		21. For every place used for storing timber	10 0 0
		22. „ for storing firewood, fuel, or coal	3 0 0
	211	Permission to make any drain into a public sewer or drain or stop up divert or obstruct any public drain or sewer	0 8 0
		For registry of burial or burning ground	5 0 0

Sanction is solicited for the above rates.

36. *Grants and Contributions.*—The Director of Public Instruction provides in his budget proposals to the council a sum of Rs. 360 for the following purposes and gives credit to the municipal revenue for the next year :—

	Rs.
Normal stipends	70
Buildings	50
Gymnastic instructor's pay	60
Drawing-master, &c. .. .. 175 or	180
Total ..	360

The council, while approving all the other proposals made by that officer, resolved to state that it can ill-afford to employ a drawing-master under the present financial condition. Hence the provision is removed from the head of receipts.

Expenditure.

37. *Grant I*—(1) (*a*).—No provision is made under this head as the council do not wish to make any new roads during the next year.

(1) (*b*) A sum of Rs. 1,000 is provided under this head against Rs. 500 of the previous year. It is proposed to construct a suitable building for the use of the Muhammadan school at a cost of Rs. 650 as proposed by the Educational authorities. The remaining sum will be utilised in building two urinals at a cost of Rs. 75 each and a school-house for the use of the result schools at Rs. 200.

(1) (*c*) Rs. 200 is provided for constructing petty drains. In expectation of the drainage scheme being sanctioned and in deference to Government orders directing that no large drainage works should be undertaken, no important works are intended to be executed under this head. In this connection, I respectfully beg to bring to the notice of the Government the urgent necessity of improving the drainage of the town, and I hope the Government will see their way to sanctioning the prayer for a liberal grant which the council submitted to His Excellency in their address on the occasion of his visit to this town.

(1) (*d*) A sum of Rs. 100 is estimated for the construction of rims and parapet walls to some of the public wells in the town.

(2) *Repairs*—(*a*) *Communications.*—As almost all the principal roads and streets are repaired in the current year, it will not be necessary to touch them again. Out of the sum provided, Rs. 1,500 will be spent in maintaining the main roads. A sum of Rs. 3,000 will be spent in thoroughly repairing the smaller streets and lanes of which there are many in the town, The council have not hitherto devoted their attention towards this important matter. The repairs will be done this year as far as funds permit. It is however noticed that the sum allotted under this is by far less than the amount in the revised estimate. The Government are aware that the financial condition of the municipality is getting worse and worse year after year, and the council cannot, under the present circumstances, afford to spend more than what is now provided. It is noticeable that this sum is just 50 per cent. of the income estimated under tolls. If the council were to get more in the auction sale for the next year, a proportionately larger sum than what is now allotted will be spent under this item. Further the council will apply to the district board requesting them to forego their one-fourth share in the collection of tolls, as, in its opinion, it has now very strong claims for such a prayer; and when this request is granted, which, it is hoped, will be done, the council will be able to spend more money under this item.

(2) (*b*) *Buildings.*—The travellers' shed at Buchanna's tank is in a rickety condition. Rs. 200 is provided for repairing it thoroughly. The remaining amount is required for repairing the public latrines. In the last year's budget report, my predecessor has pressed upon the necessity of building a good travellers' bungalow near the Santapeta toll-gate. Our present financial condition does not permit us to do anything towards that project; but it is hoped that the council will be able to undertake this work also, if the district board should be pleased to sanction its prayer referred to in the above paragraph.

(2) (*c*) *Drainage.*—It is proposed to repair the drains in a particular locality in Santapeta ward, as their levels are faulty and require to be corrected early. The people in those parts are suffering from bad drainage. The cost of setting them right is roughly estimated at Rs. 300. A sum of Rs. 100 is reserved for petty drainage repairs.

(2) (*d*) *Water-supply—Reparis to Works, &c.*—This sum is provided for the repairs of public wells in the town.

(2) (*d*) (ii) *Establishment.*—There are in the current year seven tank watchmen employed, four of whom are on Rs. 2–8–0 each per mensem. An increase of As. 8 each in the salaries of two of the deserving men is proposed by the council. It is therefore requested that the Government will be pleased to accord their sanction. The usual proposition statement is herewith appended.

(2) (*d*) (iii) *Contingencies.*—This is the amount provided to meet the hot-weather charges—*vide* G.O., No. 1293 M., dated 25th September 1893.

(3) *Establishment.*—The current year's establishment is repeated with an addition of Rs. 30 which it is intended to spend in giving an increase to the salary of the second maistry. He is a very useful young man and is giving satisfaction to the council in the discharge of his duties. He knows surveying and levelling and deserves encouragement. The council respectfully solicits the sanction of Government for the proposed increase. As most of the works are carried departmentally by the council, it is necessary to have two maistries to superintend the works. The increase is provided in the proposition statement attached hereto.

(4) *Tools and Plant.*—The sum provided for meets the requirements of the council.

38. *Grant II, Education.*—The total sum provided for expenditure under this grant is Rs. 3,500 besides the amount of Rs. 850 proposed to be spent under Grant I for educational purposes in constructing a building for the Muhammadan school and another for one of the result schools. Thus the total expenditure on education will be Rs. 4,350 in the year. With the exception of the provision made for a drawing master on Rs. 25 per mensem, the council not only followed all the instructions contained in the budget proposals made by the Director of Public Instruction, but in addition to them allotted a further sum to build a school-house for one of the result schools. The council are of opinion that they cannot maintain a drawing master on a salary of Rs. 25 and are not inclined to incur an additional expenditure which will be a permanent burden on municipal funds. The budget proposals made by the Educational Department are herewith forwarded in original. As they will speak for themselves, it is not necessary to explain them here again.

39. *Grant III.*—(1) (*a*) The council intends to dispense with the present unqualified midwife and to replace her by a qualified one whose services cannot be secured at less than Rs. 15 a month. Hence increased provision is made in the budget. This proposal also finds its place in the proposition statement attached.

(3) *Vaccination*—(*a*) *Establishment.*—The municipal vaccinator, S. Gungiah, did very satisfactory work both in the last and current years. The council is strongly of opinion that he deserves every encouragement. He knows English and writes a pretty good hand. Up to the close of the last year, there were two vaccinators for this town; but at the instance of the Sanitary Commissioner, the Government, in their budget review for 1894–95, directed that the place of the second vaccinator be abolished. Since then the present vaccinator has been doing very hard work and producing very good results. Sanction is solicited therefore to the proposal to increase his pay by Rs. 2–8–0.

(5) *Conservancy*—(*a*) (i) *Establishment.*—The previous year's provision is repeated with an addition of one scavenger on Rs. 2 per mensem who is required to be employed on the public latrine built in Hukunpeta last year. All the other items under this major head of the revised estimate are repeated for the next year with little or no difference; and hence they call for no remarks.

40. *Grant IV, Lighting.*—(*a*) The current year's establishment is repeated.

(*b*) As the number of lights has increased, provision of a larger amount than that of the current year is made under this head. Rs. 300 will be spent in purchasing some more cast iron lamp-posts next year, as was done in the current year. The rest will be utilised under contingent charges, such as purchase of oil, wicks, chimneys and such other things.

(2) (i) *Markets.*—(*a*) The current year's provision is repeated.

(6) *Public Gardens.*—(*a and b*) The current year's charges are repeated under establishment and contingencies. Rs. 360 are provided for completing the northern boundary wall in the next year. For further action, the council awaits the report of the sub-committee—*vide* paragraph 24 (8), receipt side. Other items under this grant call for no remarks.

41. *Grant V.*—The total sum provided under this grant is Rs. 2,630 against Rs. 2,550 in the revised estimate.

(*a*) *Establishment.*—The increase is due to the provision made for an additional peon to the office on Rs. 5 per mensem. At present there is only one peon attached to the office. The whole time of the peon is occupied in bringing the tappal from the post office in the mornings and in taking the daily remittances made to the sub-treasury in the afternoon. Much inconvenience is felt for want of a second peon for whom there is sufficient work in the office. He shall have to go round with the meeting notices and in circulating the papers daily sent to the divisional councillors for remarks, besides attending upon the Chairman and the office. It is therefore

particularly requested that the Government will be pleased to sanction the employment of an additional peon on Rs. 5. A proposition statement is attached to this report. Other items under this grant call for no remarks.

42. The budget closes with a balance of Rs. 2,700 to be carried forward to the year 1896–97.

No. 3158-C.

Forwarded.

Vizianagram,
28*th December* 1894.

(Signed) R. MORRIS,
Ag. Principal Asst. Collector.

Forwarded.

Vizagapatam,
10*th January* 1895.

(Signed) F. D'A. O. WOLFE-MURRAY,
Acting Collector.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 12th January 1895, No. 267.

With reference to the budget estimate of the Vizianagram municipality for 1895–96, I have the honour to remark that the provision made therein for education is sufficient and may be accepted. The net expenditure proposed under Grant II excluding building charges and grants is Rs. 3,370 (3,500—130) which is less than 14 per cent. of the estimated income of the municipality from taxation, markets and rents. As funds are available, I would very strongly recommend that a provision of Rs. 200 be added for the employment of a drawing master for the schools in the municipality (Rs. 165 for his salary for eleven months at Rs. 15 per mensem and Rs. 35 for the purchase of the necessary drawing materials), credit being taken for a half grant of Rs. 100 from Provincial funds, subject to the provisions of the code. The council negatived the proposal to employ a drawing master on the ground that it would be a permanent burden on the municipal funds, but the importance of drawing demands that provision should be made in all municipalities for instruction in it.

From Surgeon-Lieut.-Col. W. G. KING, M.B., C.M., D.P.H., Acting Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Fort St. George, 20th December 1894, No. 148-S.

I have the honour to state that the allotments made for vaccination and conservancy in the budget estimate of the Vizianagram municipality for the ensuing year call for no special remarks. The increase of salary proposed for the municipal vaccinator has my approval and is accordingly recommended for sanction.

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I, Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 2nd February 1895, No. 79.

I have the honour to state that the provision made in Grant III of the budget estimate of the Vizianagram municipality for the year 1895–96 is sufficient.

2. The proposal of the municipality to replace the present midwife by a qualified one at a cost of Rs. 15 per mensem is approved.

Order—dated 26th February 1895, No. 288 M., Local and Municipal.

The estimated receipts and charges of the Vizianagram municipality for 1895–96, as passed by Government, are compared below with the budget and revised estimates for the year 1894–95 and the actuals of 1893–94 :—

	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Budget estimate, 1895–96.

REVISED ESTIMATE FOR 1894–95.

2. The current receipts and charges are now estimated at Rs. 34,290 and Rupees 34,400, respectively, against Rs. 29,400 and Rs. 31,350 anticipated in the sanctioned budget. The increase in the receipts occurs chiefly under tolls and contributions from other bodies, and that in the charges mainly under Grant II. The reason assigned in paragraph 7 of the chairman's letter for exempting the vacant sites in the town from the tax on lands does not appear to be adequate. The Collector will therefore be requested to inquire into the matter and submit a report on the subject at an early date. The action taken by the municipal council on the sub-committee's report referred to in paragraph 11 should be reported to Government. The municipal council's acceptance of the liberal offer of Rs. 3,000 made by M.R.Ry. P. Narayana Chetti Garu for opening a public library in the town is approved, but the conditions, if any, on which the trust has been accepted, and the arrangements made for the upkeep of the institution should be reported. The council's finances are not in a condition which would justify any considerable expenditure upon this object. The transfers of funds referred to in paragraph 17 of the chairman's letter and the entertainment of the temporary establishment for the municipal slaughter-house mentioned in paragraph 23 are sanctioned. The report regarding the park promised in paragraph 24 of the chairman's letter will be awaited.

BUDGET ESTIMATE FOR 1895–96.

3. *Receipts.*—The receipts are set down at Rs. 28,650 against the revised estimate of Rs. 34,290, the decrease being under tolls and contributions from other bodies. Under the circumstances now stated, the municipal council's proposal to raise the rate of tolls from three-fourths to the maximum is approved. The sanction of Government is not required for the levy of the fee referred to in paragraph 33 of the chairman's letter. The revised scale of license fees proposed in paragraph 35 is sanctioned with the remarks that the fees proposed for oil presses, tanneries and places for storing timber appear to be excessive and should be reduced by one-half, and that no permission should be granted to permanently stop up or divert or obstruct any public sewer or drain.

4. *Charges.*—(1) The probable charges are entered as Rs. 28,500 against Rupees 34,400 in the revised estimate, the decrease appearing chiefly under Grants I and II.

(2) *Grant I.*—As recommended by the Sanitary Engineer in his letter dated 29th December 1894, No. 2977, a sum of Rs. 600 will be provided under New Works—Drainage to enable the preliminary levels and survey for the drainage scheme to be taken. The provision of Rs. 650 for constructing a building for the Muhammadan school will be struck out in view of the existing condition of the council's finances. The circumstances under which the municipal council proposes to construct a school-house at a cost of Rs. 200 for the results schools, which are private institutions, should be explained. It is presumed that a latrine has already been built in the Prince of Wales' market as directed in G.O., dated 11th September 1894, No. 1245 M. If it has not, the provision of Rs. 150 for urinals should be diverted towards its construction. The allotment of Rs. 200 for laying new drains will be struck out as it is inadvisable that, until the new scheme is sanctioned, any funds should be expended upon works that may be unnecessary after its completion. The increases in the salaries of the two tank watchmen and the second public works maistry proposed in paragraph 37 of the chairman's letter are approved.

(3) *Grant II.*—The Director's suggestion that a drawing master should be appointed cannot be approved in the present condition of the council's finances.

(4) *Grant III.*—The municipal council's proposals to entertain a qualified midwife on Rs. 15 per mensem in lieu of the present one on Rs. 12–8–0 and to employ an additional scavenger on Rs. 2 are sanctioned, but, in view of the fact that the municipal vaccinator was given an increase of Rs. 2–8–0 in his pay only in the current year, the further increase now proposed and recommended by the Sanitary Commissioner cannot be approved.

(5) *Grant IV.*—The provision of Rs. 300 for additional lamp-posts and of Rs. 360 for the park wall will be struck out, as it is most necessary that, in order to enable it to meet the cost of the proposed drainage scheme, the council should husband its resources in every way possible. The park can be cheaply enclosed by a live fence ; there is no necessity for putting up a compound wall.

(6) *Grant V.*—The entertainment of an additional peon on Rs. 5 per mensem in the municipal office is sanctioned. The contribution for the central office establishments will, with reference to G.O., dated 4th December 1894, No. 2527 L., be raised from Rs. 150 to Rs. 190.

5. The budget, as revised by Government, closes with a balance of Rs. 3,600 or 12·6 per cent. of the estimated receipts.

2. Read the following papers:—

(1) Appeal against the assessment of Land-tax presented by the Managers of the Vizianagaram Samasthanam, for 1893-94.

(2) Appeal against the assessment of Land-tax for 1894-95, presented by the Managers of the Vizianagaram Samasthanam.

Resolution

This Council is of opinion that the grounds referred to, ought not to be assessed as the public have been enjoying the benefit thereof for a long time and as it would cause grave public inconvenience, if

if the Honble the Maharajah, G. C. I. E., were to get them enclosed or otherwise appropriate them for his exclusive use. The Council is further of opinion (two members dissenting and one not voting), that the market sites covered by licenses, ought not to be separately assessed for the open ground therein contained and that notices be given to the Honble the Maharajah that licenses should be taken for all those grounds which are now being used as cart-stands. The amount already paid, viz. Rs 301-8-0 for 1893-94 and Rs 571-8-0 for 1894-95, will be refunded. The Council Resolves to cancel the last year's tax (Rs 301/8) which is repeated this year and which is not covered by either of the appeal petitions under disposal.
